LOYAL TROOPS QUELL REVOLT IN PETROGRAD

Disaffected Soldiers Repudiate Cause of Maximalists, Restoring Quiet.

KIEV ARSENAL SEIZED

Leaders of Rebellious Groups Later Arrested and Arsenal Recovered.

Petrograd, July 19.—With the repudiation of the military elements concerned in the recent demonstrations and the repudiation of the cause in which they temporarily enlisted, the danger of further disturbances by the Maximalists appears to be over for the time being. Today the city is normal. As a safeguard, the bridge spans remained open this morning, as they did yesterday, troops being kept in readiness for any trouble that might arise.

During the night, several companies of infantry arrived from the front to assist in the preservation of order. A detachment of Cossacks also reached Petrograd. Telegrams have been received by the council of deputies from various parts of the country protesting a lack of sympathy with the Maximalist movement and giving assurance of support to the workmen and soldiers and peasants' organizations.

Only Kiev seems to have reflected to a minor degree the disturbances here. A group of soldiers seized the arsenal, but other troops gathered to protect public institutions and later arrested some of the leaders of the rebellious groups.

Troops Show Loyalty.

The staff of the Petrograd military district has received from all the units a declaration of readiness to support the government in its efforts to restore order.

TWELVE MILE ADVANCE UP MESOPOTAMIA RIVER

British, Engaging Turkish Force in Direction of Ramadies on Euphrates, Drives it Back—Heat Stops Progress.

London, July 19.—An official report relating to the Mesopotamian campaign, was issued tonight, showing a considerable British advance. The report says:

"On July 11, one of our columns engaged a Turkish force in the direction of Ramadies, on the Euphrates. After a short action, in which considerable loss was inflicted upon the Turks, a further advance was broken off by us owing to the extreme heat. As a result of these operations we have been able to advance about 12 miles up the Euphrates in the last ten days."

CANADA TO LET GO PUBLIC SERVANTS

Dominion Government May Discharge Seventeen Hundred Ottawa Employees.

MOVE FOR ECONOMY

Important Recommendation is Laid on Senate Table at Capital.

Ottawa, July 19.—Fifteen per cent of the government service in Ottawa, or 1,750 in all, may lose their jobs. This is a result of the recommendation of the public service committee of the national service board, which has been confirmed formally by an order-in-council.

The bill, tabled in the senate today. It is based, as stated, on a report of the public service committee which reads:

"Your committee would point out that strong appeals are being made to the people of Canada to economize in every way, with the object of assisting in bringing the war to a successful conclusion; and your committee are of the opinion that the great majority of the public service in Ottawa are quite willing to give heed to this appeal their part. After careful investigation your committee are of the unanimous opinion that the public service in Ottawa could be reduced twenty per cent without affecting its efficiency, by proportionately increasing the hours of service, thus effecting a considerable saving to the country. But, to be within safe limits, an immediate reduction of fifteen per cent, or say 1,750 employees, of the public service in Ottawa is recommended."

On the basis of this the government recommends, "in view of the increasing financial demands upon the government and the public service, and the consequent necessity of economizing our expenditures so far as is possible, consistently with maintaining the efficiency of the public service, that the ministers in charge of the several departments of the government give immediate attention to the recommendations of the public service, and to reducing their staffs to such extent as may in their judgment be practicable and expedient in the public interest."

Finnish Diet Votes to Adopt Bill Calling for Autonomy

Helsinki, Finland, July 19.—The Finnish diet, having by a vote of 165 to 27 votes, declared the necessity of immediately voting the autonomy bill, adopted it forthwith in full by a vote of 126 to 56.

The diet, rejected by a vote of 104 to 86 an amendment by Deputy Callius proposing that the bill should be submitted for the approval of the Russian provisional government.

ENEMY GUARD DIVISION DEFEATED BY FRENCH

Germans Suffer Check in Attempted Coup Between Craonne and Hurtebise—Centre Only Reaches First-Line Trench.

Paris, July 19.—The official communication issued by the war office tonight reads:

"The artillery was particularly active today between the Somme and the Aisne. South of St. Quentin a fresh enemy attack delivered about 1.30 o'clock against the hillock of Moulin Sous-Toutefort failed completely.

"After a bombardment of extreme violence, lasting the entire morning, the Germans attacked our positions from northeast of Craonne as far east as Hurtebise, sending forward the Fifth Guard division, which engaged at several points in thick waves. The attack was a complete failure on both wings; only in the centre were the Germans able to reach some elements of our first line trench, where counter-attacks arrested them after they had suffered additional heavy losses.

"There was a prolonged enemy bombardment on one side south of Corbeny, and on the other far as the region of Cerny, where the German infantry, caught under the fire of our artillery, was not able to debouch. The artillery was active on the left bank of the Meuse.

"During the days of July 18 and 19, 1,100 shells were thrown into Rheims. Belgian communication: During the course of the night the artillery was active in the direction of Steenstraet and Wulpen today. The enemy shelled the rear of our positions, especially near Woodstein and Lamasse. The night theatre, July 18: The day was again on the whole front except on the Serbian sector, where the enemy artillery carried out some bombardments."

ENEMY OPENS OFFENSIVE ON RUSSIAN LINE

Heavy Artillery Duels Prevail on Smorgon-Dvinsk Front.

GERMANS ANNOUNCE PIERCING OF ALLY'S POSITIONS IN GALICIA

MANY ACTIONS RAGE

London, July 19.—Having brought up heavy reinforcements all along the line, the Germans and Austro-Hungarians in eastern Galicia have started what apparently is a tremendous offensive against the Russians. From Brody, near the northeastern border of Galicia, southward to below Kalusz, the operations are in full swing, but have not yet developed to an extent where particulars of the battles in their entirety are available.

The latest German official communication announces that the Germans have taken up the pace of battle thrust upon them by the Russians, and in a counter-attack on the line guarding Lemberg from the east, have defeated the Russians on a wide front near Ziochoff.

To the north of Volhynia and still farther north on various sectors to the Baltic coast, especially around Smorgon and Dvinsk, heavy duels are being fought. Near Lutsk, in the famous Volhynian triangle, the Germans report the capture of many Russian prisoners.

The Germans in east Galicia have penetrated the Russian positions near Ziochoff on a wide front, according to the supplementary official communication issued at Berlin this evening. The region of the fighting is some forty miles northeast of Lemberg, capital of Galicia. The German communication says:

"Challenged by the offensive which the Russians have begun on our fronts by order of their government and despite the peace assertions, we have launched a counter-attack in eastern Galicia. German corps have pierced Russian positions east of Ziochoff, on a wide front."

The Austrian official communication issued today says:

"South of Kalusz the Russians attempted the strong forces to capture the heights we won from them. The efforts failed with heavy enemy losses.

"Near Dnestro, as far as Brody, our successful shock troop operations have brought about lively artillery firing which, especially early this morning, increased on some sectors to the greatest violence.

"Also in Volhynia Austro-Hungarian and German shock troops have been active, to favorable results."

The text of today's Russian official statement reads:

"Western front: As the result of a night attack our detachments occupied the village of Novica, to the south of Kalusz, but, suffering great losses in this operation, withdrew to their original positions. Two enemy attacks on the above-mentioned detachments were repulsed by our fire.

"In the engagement near Novica on Tuesday we captured three machine guns, eight officers, and 220 men.

"Roumanian front: Fusillades have occurred."

GRANT NO EXEMPTION TO DIVINITY STUDENTS

Clause Struck Out By Two to One Vote, House Dividing Largely on Religious Lines—Conscription Bill's Third Reading Deferred Until Tuesday.

Ottawa, July 19.—The conscription bill was reported back to the house from the committee of the whole tonight after a night of heated discussion. The bill has been kept in committee because of the strong disaffection among Ontario Conservative members with the clause exempting divinity students from conscription. This clause was inserted upon the motion of the prime minister last Friday, but such pressure has since been brought to bear upon him that he felt constrained this afternoon to move that it be stricken out.

The objectionable clause was eliminated by a majority of two to one in spite of many protests from the Province of Quebec, the vote would indicate that the house divided on religious rather than upon party lines. The discussion this afternoon was free from acrimony or recrimination. A good deal of the discussion ranged about the meaning of the word "clergy" as applied to the Roman Catholic Church, and Hon. C. J. Doherty, Sir Wilfrid Laurier and Hon. Rodolph Lemieux delved deeply into the intricacies of canon law. Hon. Wm. Ferguson joined in the debate without shedding much light on the subject, as he apparently labored under the impression that the "minor orders" in controversy were religious communities instead of religious rites.

Playing for Time.

At the evening sitting the anti-conscriptionists were apparently playing for time, as a number of Ontario Liberals were scheduled to leave on the 11 o'clock train for Toronto. Hon. Frank Oliver attacked the clause authorizing the suppression of newspapers, and Hon. Mr. Lemieux raised the point that Salvation Army officers would not be exempted as clergymen. Mr. Meighen said that Salvation Army officers were protected by the bill as drafted, and the measure was finally reported without further amendment.

The house then went into committee of the whole on the bill to amend the Railway Act.

The only contentious clauses remaining related to expropriation. The bill as reported from the special committee made the county judge sole arbitrator, but, in view of the many objections to this change, the government announced tonight that the old law would be continued substantially as it has always been.

BRITISH CRUSH ENEMY IN ACTION IN BELGIUM

Stiff Fighting Defeats German Attempt South of Lombaertzyde—The Pressed With Determination, Foe Cherish Raid Fails.

London, July 19.—The official report from British headquarters in France tonight, reads:

"Early this morning the enemy again attacked our positions south of Lombaertzyde, under cover of a heavy bombardment, to which our artillery replied vigorously. His troops succeeded in reaching our line only on a small portion of the front attacked, and those who entered our trenches were at once driven out by our counter-attack.

"Later reports show that the raids attempted by the enemy last night, west of Cherish, were pressed with great determination and strongly supported by artillery. His raiding parties were repulsed by our infantry with rifle and machine gun fire and failed to reach our line at any point."

British Advance in Africa

The Hague, July 19.—An official announcement issued by the navy department tonight says that the British attack on German steamers, July 16, occurred within Dutch territorial waters.

CHANCELLOR SUPPORTS SUBMARINE CAMPAIGN

Dr. Michaelis Makes Maiden Speech in Reichstag—Plea for Continued Piracy—Blames Britain for German Frightfulness.

Copenhagen, July 19.—Dr. Michaelis, the new imperial German chancellor, in his address to the Reichstag tonight, declared his adhesion to Germany's submarine campaign, asserting it to be a lawful measure, justifiably adopted, and adapted for shortening the war.

Dr. Michaelis opened his reichstag speech with a hearty tribute to Dr. von Bethmann-Hollweg, the retiring imperial chancellor, whose work he said, history would appreciate.

The chancellor declared that the war was forced upon unwilling Germany by the Russian mobilization and that the submarine war was also forced upon Germany by Great Britain's ill-thought-out policy.

The faint hope that America, at the head of the neutrals, would check Great Britain's illegality was vain. Germany's final attempt to avoid the extremity by a peace offer failed, and the submarine campaign was adopted, said the chancellor.

The submarines, the speaker continued, had done all and more than had been expected, and the false prophets who had predicted the end of the war at a definite time had done a disservice to the fatherland.

CANNOT EVADE SERVICE UNDER NEW CONVENTION

Britons in Russia and Russians in Britain Aimed at.

London, July 19.—A convention made between the British and the provisional Russian government was laid before parliament today, to the effect that British subjects of military age in Russia and Russian subjects of military age here must either return to their own country or serve in the army of the country in which they are residing. Russians who remain in Great Britain will be subject to the operations of the military authorities by an order-in-council which it is expected will be issued August 30.

DELAY DRAFTING UNTIL ELECTORS RETURN VERDICT

Conscription's Enforcement Linked Up With Union Government Proposals.

SEPTEMBER ELECTION?

Outcome of Liberal Convention at Winnipeg is Eagerly Awaited.

Ottawa, July 19.—With parliament performing the last rites over the conscription bill, the question is: How soon will the act be enforced? The answer is necessarily linked up with the fate of proposals for union government. One of the principal terms of Sir Robert Borden's offer of coalition to Sir Wilfrid Laurier was that conscription should not be enforced until the proposed union government had appealed to the courts, not speaking with official sanction or authority, it is understood that that condition remains one of the basic terms of the union offer still held out to pro-conscriptionist Liberals.

The majority of the union Liberals, so far as all events as can be judged from their utterances in parliament, would prefer that the operation of the act be withheld pending an appeal to the courts, and as the delay involved would not be much greater than would be necessary in any event, and as there are other obvious reasons why the measure might be left in abeyance until after the verdict of the country is recorded, it is not likely that the prime minister will take chances on losing the benefits which most observers believe would result from union government by a step which conscriptionists might regard as consummation more difficult.

So that everything considered, the probability is that the conscription Service Act will not be put in operation until after the election.

Election in September?

When will the election be? There are certain manifest facts which make it practically certain that it cannot be held until the latter part of September. In the first place, there is considerable delay in the election of the new members of the House of Commons.

Radical Demonstration at Berlin Runs Foul of Police.

Copenhagen, July 19.—On the occasion of his acceptance of the German chancellorship, says a Vienna dispatch, Dr. Michaelis sent a message to Count Czernin, the Austrian foreign minister, declaring that it is Austria's duty to stand firm with Germany in the war.

When will the election be? There are certain manifest facts which make it practically certain that it cannot be held until the latter part of September. In the first place, there is considerable delay in the election of the new members of the House of Commons.

Radical Demonstration at Berlin Runs Foul of Police.

The Radical Socialists organized a demonstration in Berlin on Tuesday night, but it was dispersed by the police after reaching the centre of the city. The official version of the affair, which is the only one to reach Copenhagen, describes the demonstration including only a few hundred participants and as being unimportant.

The Berlin Tagblatt says the committee of the majority parties in the German Reichstag has unanimously decided to move the peace resolution. Previously the committee of the minority parties had been in disagreement with the majority.

The Tagblatt says that in the reichstag 221 deputies will vote for the peace resolution.

Graham Denies His Move Upset Conscription Liberals

Ottawa, July 19.—Hon. Geo. F. Graham, interviewed by The World tonight, denied that his conscription extension resolution came as a surprise to the other conscription Liberals. He said that it was well understood by all of them, including Dr. Clark, of Red Deer, who voted against the amendment.

FRENCHMEN FIGHT PERFECT ACTION

Capture of Saddle Before Verdun Proves Brilliant Planning. London, July 19.—(Via Reuter's Ottawa Agency.)—The correspondent of Reuter's at French headquarters sends the first description of the French success of July 17, between Hill 304 and Avocourt Wood, on the right bank of the Meuse. He says: "It was a brilliant example of a perfectly staged infantry operation in which every possibility was provided for, and its success was due not only to the meticulous preparation, but to exact knowledge of the position and value of every piece in the enemy's game. The French objective was the capture of the saddle of the ridge between Hill 304 and the heights of Avocourt Wood, which were captured by the Germans on the 28th of June, after a short but fierce bombardment in which five hundred guns were suddenly turned on to a mile and a half of French trenches.

CUPID VISITS CAMP BORDEN TO GET GROOM. Bride Brings Soldier From Guard-house to Headquarters' Altar for Ceremony. Camp Borden, July 19.—Cupid is not an ordinary visitor in camp, but he is here today. The lady paid a visit to Col. O'Boone, A.G., and succeeded in enlisting his sympathy to the extent of having a prisoner from the "Hoop De Widgey" paraded up to the provost marshal's office, where she formally annexed him in the bonds of matrimony. Chaplain Captain James Pruner performed the ceremony and members of the headquarters staff acted as witnesses. When the wedding was over the bridegroom, who was in a dejected mood, marched back to the guard house and the blushing bride departed with the customary evidence of the marriage. Nobody concerned could be willing to divulge the names of the contracting parties. Present Camp Orders. Lieut.-Col. Gordon F. COSSACKS IN CONTROL. Since early morning Cossacks and other mounted troops have patrolled the streets and all thoroughfares are guarded by infantry. An additional precaution the Trotki bridge, which leads most directly to the factory district, and the Nicholas bridge connecting with the Vasilostrov district, where origin of the disorder of the recent days, were held by troops. The military authorities sent two light gun thither, which met en route a machine gun regiment. Shots were exchanged and some horses were killed. WAR SUMMARY

THE DAY'S EVENTS REVIEWED

THE Germans, in eastern Galicia, have massed a force in which their vaunted shock troops appear, and have begun an offensive against the Russians in the region of Zlochov. Berlin says that the attack is being conducted on a wide front. It is also claimed that German corps have pierced the Russian positions. The French are sending them into the battle against the Russians. One striking thing is the remarkable rapidity of the enemy's preparations for an offensive, if it is really a serious effort. It is, of course, unknown yet what weight the enemy will put into his eastern blows. He has shown in the west, especially in Flanders, that he is copying the British tactical methods. He may be able to make a superior force for the east, but the Russians have more guns than last year. His offensive has not developed sufficiently to permit of an estimate of its formidableity. He showed last year that he could disregard the allies in the west to fight Rumania. He may attempt the same manoeuvre against Russia this year. The British in Mesopotamia, altho stifling weather still forbids prolonged exertions, have contrived to make an advance of twelve miles on the Euphrates River in the past ten days. A column engaged a Turkish force in the direction of Ramadiyeh and inflicted a considerable loss on the Turks. The extreme heat then compelled the halting of the advance. This news shows that General Maude is still alive to the advantages of rapid action and the offensive. The British beat off another heavy German attack in the region of Lombardey early yesterday morning. The enemy advanced under heavy bombardment and reached the British line at a few points. The German who entered British trenches had soon to get out when the British counter-attacked. The enemy attempted a raid west of Cherlay during the night, but he pressed his attack with great determination under a strong artillery support, the British infantry repulsed the raiding parties with rifle and machine gun fire, so that they failed to reach the British line at any point. Visitors to the western front describe the British army as in splendid fettle to give battle, and they speak of the success at Messines as insignificant as compared with what is going to come. The Germans made another determined effort against the French front between Craonne and Hurtelise yesterday, in an effort to regain a few precious high ground for observation purposes. Their attack completely failed on both flanks, while in the centre they reached only a few elements of the French first line trenches. Whenever the enemy does gain a footing in a French position, he almost at once has to go by reason of his inability to make headway, or to withstand the French counter-attacks. The Russian Provisional Government, taking hold of affairs with a firm hand, has restored tranquillity in Petrograd. The anarchists have slunk away to their dens and the loyalist military men dominate the situation. Russian public opinion is getting ready to make a stern example of these hire. It is significant that anarchist unrest coincides with a German attempt to assume the offensive against Russia.

APPEAL TO WOMEN TO CONSERVE FOOD

Lady Hendrie Issues Statement thru Organization of Resources Committee.

SUPPORT IS NEEDED
Co-operation of Housewives Alone Can Meet the Existing Situation.

Lady Hendrie, thru the organization of resources committee, has issued an appeal to the women of the province which points out the necessity of food conservation in view of the gravity of the food problem throughout the world. The appeal is issued with the hope that widespread support and co-operation of women will be secured for the campaign of thrift, economy and prevention of food waste, which will be launched at a special convention of women in Toronto on July 23 and 24. The statement is as follows: The organization of resources committee of the Province of Ontario has asked for the co-operation of the woman-power of the province in dealing with the all-important matters of food conservation, thrift and economy. The food problem is of the utmost seriousness. The situation has been stated by our food controller to be desperate, and in the United States Mr. Hoover recently has said that if it is not squarely faced the whole world will soon be hungry; and that our civilization will have to meet the sternest menace with which it has yet been threatened.

Convention Called.
To the extent that Ontario women may do their full part in meeting the situation a convention has been called in Toronto, when women from all parts of the province may be present to voice their determination and to state the contribution they can make to the solution of the problem. As chairman of the committee of arrangements I take this opportunity to call upon Ontario women to regard this conference as a call to national service. The convention will be opened with a public meeting, to be held July the

23rd at 8 p.m. in Convocation Hall, University of Toronto. All are cordially invited to this meeting. On the following day, July the 24th, a conference will be held in the Canadian Foresters' Hall, Toronto. This conference will be attended by women delegates from all parts of the province, whose duty will be to discuss practical problems and to decide as to the formation of some organization for the purpose of dealing with them. I wish most earnestly to impress upon all delegates the acuteness of the food crisis, and to urge that they shall make a very special effort to attend the convention.

PLAYS PICTURES, AND MUSIC

"THE WHIP" NEXT WEEK.

"The Whip" is establishing a record for motion picture drama in this city at the Grand Opera House, where, on account of the popular demand, it will be continued next week, making, in all, five weeks at the same theatre. This action picture drama deserves all the success which has attended it since it was first presented in Toronto by the Super-features Co., a Toronto film corporation which has recently purchased several big feature pictures for the Canadian territory. For powerful gripping and intensely interesting scenes, no photoplay ever shown in Toronto eclipses "The Whip." There are thrills galore and tense situations thruout the two hours it takes to unfold the spirited story. There are several climaxes, each one more exciting than the other, but the real thrilling effect is produced when the Saratoga express, running at a high rate of speed, crashes into a box car, splintering it to kindling wood and throwing the engine and cars over the embankment a twisted mass. There are a number of sensational scenes in the climaxes, and the photography Lawrence is remarkable for its perfection. The exterior scenes, with the horses and dogs in the fox hunt, the race track at Saratoga, with the crowds in attendance, and the actual running of the big races, all combine to make "The Whip" a photodrama in a class by itself. For the closing week at the Grand a matinee will be given every day.

LOEW'S ALL-STAR WEEK.

An all-star vaudeville program with Tom Edwards, America's foremost ventriloquist, and Grace Hanson, the syncopated songstress, dividing the headline honors will be given this week at Loew's Yonge Street Theatre and Winter Garden. Other features include Mr. and Mrs. Sydney Payne in a comedy domestic drama, "The Drudge"; The Syphonos, xylophonists; Evans and Moore, in a sparkling series of songs and dances; and Louise and Lawrence in their own original version of "Revue of Revues." The special feature photoplay production is entitled "High Finance."

THE HIPPODROME.

The scientific cooling system in operation at Sheela Hippodrome ensures a steady flow of cool, frozen purified air that adds to the comfort of the audience. In "God's Law and Man's" the management present a Metro five-part feature all week starring the charming actress, Viola Dana. It is an intensely interesting story on the evils of wife-purchase as practised in India. The character dancers are two well-known local dancers who have made a success in vaudeville. The Roman Troupe have sent a rapid-fire machine gun style of athletics. Kitty Flynn, the musical comedy girl, has new songs and dances, while Holden and Graham offer a variety of vaudeville features. Vardon and Perry, in musical song and dance revue; Apdiale's Zoological Circus and feature film comedies complete a bright, well-balanced bill.

GREAT BILL AT THE STRAND.

Another great double-header bill will be presented at the Strand today and tomorrow. One of the two big features will be the Vitaphone Blue Ribbon production "The Question," with two popular screen stars, Alice Joyce and Harry Morey, in the two principal parts. This photodrama is one that is unusually tense and thrilling. "Can a man and a woman sign their love away?" That is the question to which "The Question" affords a vital and vibrant answer. The other big feature will be Charlie Chaplin in "Easy Street."

CHILDREN'S MATINEE.

A special matinee for children will be given Saturday morning at the Regent, when "A Romance of the Redwoods" will be shown, starring the "idiot of the screen," Mary Pickford. This elaborate production allows Mary an opportunity to give one of those winning and ingenuous impersonations that have made her the most famous screen actress in the world. The performance will be given at 10.45 a.m., with a general admission fee of 10c.

Enlist Your Kitchen in the War!

The kitchen must help as well as the workshop and the trenches.
Mr. Lloyd George has said it!

What does he mean?
He means you must know and practice real thrift—make every dollar you spend on food serve your family and your country. Banish those things which are wasteful and substitute real foods. Lovers of tea and coffee must realize that these beverages are in no sense of the word food, but merely pleasant, slightly stimulating drinks, which, by the way, are soaring in price!

Thrift Suggests Serving Cocoa

It is a scientific fact that a cup of Cowan's Perfection Brand Cocoa contains more actual food value than a cup of beef extract, bouillon, or chicken soup.

Economies like Cowan's Cocoa render the diet more delightful, while saving money. And the saving effected in household expenses will enable you to help win the war another way—by Purchasing War Certificates!

For \$21.50 you can buy at your nearest bank or Post office a War Savings Certificate for which in 3 years' time the Government will refund \$25.00. Remember every food economy you practice helps to defend the brave boys at the front.

Cowan's Perfection Brand Cocoa can be purchased from all good dealers throughout Canada. Economy also suggests your choice of Cowan's Maple Buds, Queen's Dessert, or Milk Chocolate Bars as the ever welcome confections.

Ask for Cowan's ACTIVE SERVICE Chocolate; just what our soldiers in the trenches appreciate. Specially manufactured to meet their needs.

FRIDAY MORNING, JULY 20.

An Unselfish War.

Today the first 857,000 men of the United States ten million draft are called up for selection. The intention is to get from a quarter to half a million into uniform as soon as possible. The selection is in the first place, made by ballot, and the tribunals that decide upon the fitness of the drafted men are believed to be of an impartial and reliable character.

It is much more of a debatable point in the United States than it is in Canada whether the republic has any direct interest in the war. It ought to be considered by our Canadian pacifists, slackers, war obstructionists, and all of a like mind, that it is the glory of the United States that the republic is not going into the war on its own account, but in the general interests of humanity.

Most of the Canadian objectors and obstructionists altogether repudiate the idea of Canada having any interest in the war, and they have not the vision to see that Canada's unselfish service would be far nobler than an interested participation in the war. Canada cannot profess, however, that her service is quite so disinterested as that of the United States.

Those who are still nervous about Russia, should read some authoritative book of travel or description of the Russian people. Their methods are different from ours and their standards do not always coincide with ours. But they are eminently human, and a very lovable race.

There is much gain in having one definite issue decided, and the statement that the conscription bill, as it is popularly called, will be passed at once, clears the air. There are still a large number of people who think that the conscription bill is merely a political move; that it is not necessary; that the government will not proceed with it, or if they pass it, it will not enforce it.

There are many, however, who have excused themselves by declaring that Canada's participation in the war is just a matter of politics and party tactics, akin to waving the flag; and that the introduction of the conscription bill was for political effect and not meant seriously.

At last there is a clear and definite issue before the country—something doing, sides to be taken, minds to be made up. The United States, which has only been about as many months at war as we are years, has already got ahead of us in calling upon the first selective draft today.

High Prices and Control. It cannot be said that any appreciable results have been attained yet thru the efforts of the several controllers. A great deal of information has been acquired and some of it divulged, but the government has had to pay \$9.50 for its coal this week.

REVELATIONS OF A WIFE

By ADELE GARRISON

What Madge Told Dicky

As I rushed from the living room of the Marvin house, after my defiance of my mother-in-law, I heard Dicky call out after me. But I did not answer him. I could not, as I stumbled into the shelter of my own room I locked the door after me.

"That detestable old woman!" I muttered, forgetful, indeed not caring, in the heat of my anger, that I spoke of Dicky's mother. "I hate her! How I hate her!"

"For ringing in my ears were the words with which she had concluded her tirade against Robert Gordon, the mysterious elderly millionaire, who had known my mother."

"Mr. Gordon is madly in love with Marge," Dicky said to Dicky, "and if you do not look out you will have a scandal on your hands. I am not insinuating anything, but I certainly think Marge is a woman, and she has an explanation of the untruth she told us at the supper table the night you introduced Mr. Gordon to us."

"Underneath my anger there lay also the bitter consciousness that there was at least a trifle of justice in her unkind words. I had not told a direct untruth, but Gordon's espionage on me previous to the time when Dicky brought him to our table at the Sydenham, but I certainly had given both Dicky and his mother the impression that I never had seen Mr. Gordon before when my mother-in-law called my attention to his intent scrutiny of me from his vantage point of the next table to ours."

"I regretted that during our hour at the Cragrove farmhouse in the Catskill mountains I had not told Dicky the whole truth concerning the queer actions of Mr. Gordon. I had had plenty of opportunity, but I had weakly let me down by saying: 'Confession is good.'"

Dicky's step came swiftly up the stairs; his key opened my door. "Let me in," he commanded, but the note of tenderness in his voice was the influence that hurried my fingers in the turning of the key. I had opened the door, and he strode in, past me, closed and locked the door again, and turning, caught me in his arms.

"Don't you dare to cry!" he stormed, kissing my reddened eyelids. "Aren't you ever going to get used to mother's childish outbursts? You know she doesn't mean what she says in those tantrums of hers. She simply works herself up to a point where she's absolutely irresponsible, and she has very much trouble. The peanuts should be freshly roasted before grinding, as stale kernels will clog the grinder."

"I am so accustomed to 'roasted peanuts' or 'peanut candy' as tidbits with my coffee, that I had not thought of actually roasting the peanuts. They are actually a very substantial food. From a nutritive standpoint alone we find that peanuts measure up higher in food value per pound than most meats and vegetables, and they have not increased in cost, comparatively as much as other foods. Peanut butter is rich in fat, and it is the same quantity is used as the quantity of ordinary butter for bread-spreads, cooking, etc., the cost will be less."

Jewish Garment Workers.

Editor World: A certain Toronto weekly publication which has diligently achieved an unenviable reputation in its career for vilification and baseless sensationalism of the lurid kind recently came out with a malicious and hysterical attack on the Ladies' Garment Workers' Union of this city.

The charge is made "that the immigrant Jewish workers who constitute a majority of the Garment Workers' Union, have unfairly monopolized and gained control of the garment-making industry"; "that by their exclusive tactics, they have been able to tyrannize over and force the native-born Gentile workers out"; "that the existence of the union itself is prejudicial to the welfare of those desirous of making an honest living at the trade."

"It will be heaven help the women of Canada if they have to be treated as the Gentile women are treated, harassed and discriminated against." These are quotations from the article that will illustrate its immoderate tone and insidious intent.

In order to avoid any unwarranted misunderstanding and consequent distrust that might result from the calumnious efforts of that paper, will you permit us, sir, to make a declaration of the true situation?

A few instances will prove that a more gross disregard of the facts than is contained in the above would be difficult to imagine. In June two hundred Jewish workers went out on strike to protest against the intolerable treatment accorded to 27 Gentile women workers. Last week 60 Jewish workers prepared to strike to help four Gentile cutters secure better terms. The insincerity of that journal's attack is best evidenced from its own records. In an issue of February 24, 1915, it comments on the wholesale man and retailer who were in imminent danger of losing their positions, they stood behind and stand behind them today. Would any organizations of Gentile workers do as much for the Jews?

That the charge of discrimination is equally unfounded is evident from the fact that the union has at great expense succeeded in organizing ninety-five per cent. of the Toronto cutters, among whose number there are few Jews, into a local of the International Ladies' Garment Workers' Union. The Gentile women garment workers have been organized into a separate English-speaking branch in order to make things as congenial as possible for them.

All this is quoted, not in a spirit of complacent self-satisfaction, but with a desire to show that the Jewish workers have co-operated with their Gentile comrades fairly and squarely. The assertion of that paper that the average wage in the trade is \$40.00 is a gross exaggeration. Except for designers (who are artists and are salaried on a basis of scarcity value), the average is nearer \$18.00 per week—it being only a season trade.

With reference to the adaptability of the returned soldier to the work of garment making, we cannot emphasize strongly enough how welcome he would be, if it must be borne in mind that garment making is a skilled trade and an arduous one, but if returned soldiers were trained for the work we would welcome them gladly, and feel that their presence in our ranks would compel some employers to abandon their hitherto contemptuous attitude towards the immigrant composition of the trade.

Russia and the German Traitors.

Those who are still nervous about Russia, should read some authoritative book of travel or description of the Russian people. Their methods are different from ours and their standards do not always coincide with ours. But they are eminently human, and a very lovable race.

The Russians will keep faith with their allies. It was to do so that Nicholas was hurled from his throne. Evidence exists that he had planned a separate peace with Germany, which would have been consummated but for the revolution. He was married to a cousin of the Kaiser, and, like King Constantine, could not resist the influence.

The little insurrections and countless revolutions that have marred the harmony of the Russian republic are all the work of German agitators, emissaries and spies. Lenin, who was supposed to be an anarchic patriot, turns out to be a German agent, and has taken flight. It is almost invariably the case that where influence hostile to the success of the entente allies in the war are found, they are to be traced to German sources.

The soldiers' and workmen's committee at Petrograd has become seized of this fact. The Cosacks are loyal to a Russian policy, and the conspirators and pro-Germans of one kind and another are thoroughly discredited. We may look for further Russian military assistance from Russia before long.

CITY HOLDS CARS MUCH TOO LONG

Coal Merchants' Secretary Replies to Denial of Property Commissioner. That the city officials are "scratching at the surface of the trouble" in their movements to clear the coal situation in Toronto was the assertion of Secretary H. A. Harrington of the coal section of the Retail Merchants' Association, last night.

The secretary reiterated his contention that the city itself is one of the chief offenders in failing to expedite the release of coal cars when he saw an interview attributed to Property Commissioner Chisholm published in an afternoon paper denying the charge. He suggested as a result of that interview that the property commissioner examine the correspondence between Commissioner Harris' office and the Grand Trunk Railway officials and then see the four cars standing at Queen and De Grassi streets where they have been held for the last eight or ten days.

Secretary Harrington expressed the belief that the source of trouble lay in the minds of uninformed and misinformed persons who supposed that the retail coal dealers were responsible for holding up coal cars. The secretary cites the fact that there are not more than 20 per cent. of the coal cars which have belonged to the retail dealers.

Representatives of Street Railway Union and Company Will Then Agree on Third Member. Selection of one person from among the seven names proposed for the position of the third arbitrator to decide the differences existing between the Toronto Street Railway and its 1,800 union employees will be made by D. A. Carey, the men's representative on the board, and Duncan MacDonald, of Montreal, the company's representative, Monday.

The two arbitrators held a conference yesterday afternoon, and both submitted names for the consideration of the other. No more meetings will be held until Monday, when a choice will be made. In the meantime the two representatives are considering the proposed arbitration board. The men will form the board of conciliation which will consider the grievances of the union men under the Industrial Disputes Act, and the company will be bound by the decision of the board.

General Manager R. J. Fleming, of the company, has stated that the arbitration, however, would be by the decision of the arbitrators. The men who were given a six-cents-an-hour increase by the board, and the company, have returned to work, are asking an additional raise to ten cents an hour and better working conditions.

A WAY TO VICTORY

Country's Financial Resources Must Be Mobilized.

"Every man and woman in Canada can help win the war by practicing frugality. It is the bounden obligation of every man, of every woman, in Canada to work harder and produce more, to cut down luxurious unnecessary expenditures and to save money for the purpose of the war."

Such is the declaration of Canada's Minister of Finance. Are you helping to win the war? The National Service Board is urging you to practise thrift and to invest your money in War Savings Certificates? Such investment is essential to victory. The divisions at the front must be financially supported by the men and women behind them in Canada. They can be supported best by public investment in government loans which will be devoted to war purposes. Your financial resources are needed to strengthen the financial resources of the nation. The men at the front are fighting for you. Save for them. Invest your dollars in Government war bonds. C-18.
