All Gains Held By British; New Ones Made; French Pressing On

Haig's Forces Advance Near St. Quentin and Hargicourt—Malakoff Farm is Captured—Desperate Counter Attacks by Enemy All Night But All Fail

London, May 4.—The British last night made progress northwest of St. Quentin and northeast of Hargicourt, capturing Malakoff Farm, the war office announces. On the Arras front the British have maintained their hold on Fresnoy and all the positions captured in that neighborhood in yesterday's drive. British Headquarters in France, May 4.—(Via London)—The Germans made desperate counter-attacks throughout the entire night against the positions won by the British yesterday, but were everywhere repulsed. British Headquarters in France, May 4, via London.—(By Associated Press staff correspondent)—All through the brilliant moonlight night and again today British soldiers were fighting on a wide front, resolutely holding the positions won yesterday, in the face of the headlong counter attacks of their foe. In some places the fighting ebbed and flowed as in the old days in the Somme campaign, when the casualties inflicted on the enemy were regarded as more important than specific gains of ground. The present fighting, however, is more intense. The latest reports from the battle-front show that the Hindenburg line was pierced both northwest and southeast of Balloisport for long distances. The German bitterly defended these strong points and attempted several times to retake them, but once the British were in the deep trenches they held on. The men fought so steadily that there was neither time for nor thought of food. The battle fields were dry and dusty, however, and water bottles had to be replenished time and again, whenever it was possible to do so. Today the sun is shining again with genial spring warmth. It was one of those rare days when all nature seems to cry out with the joy of living. Yet, under the early summer haze which is gathering about the battle zone the grim business of war goes on with an ever-increasing toll of dead and dying.

LAUNCH MOVE TO ENCOURAGE SHIPBUILDING IN PROVINCE

Delegation Waits Upon Government in Fredericton

FOLLOW NOVA SCOTIA BILL

Premier Foster in Sympathy Asks For Appointment of Committee of Delegates To Confer Further With The Government On The Matter

Fredericton, N. B., May 4.—A definite movement to follow the example of Nova Scotia and British Columbia in giving encouragement to shipbuilding was launched here today. The case was presented by a delegation of the province, on invitation of T. H. Estabrooks, met in the ladies' parlour of the Queen Hotel with Dr. Borden, Mr. Estabrooks, J. A. Likely and F. M. Thompson of Hillbrook.

In the opinion of this meeting it is desirable that our legislature pass a bill to encourage shipbuilding along the lines of the bill now before the Nova Scotia legislature or adopt such other means as may seem to them advisable to accomplish the desired end.

The large delegation immediately adjourned to the council chamber in the legislative buildings where Premier Foster arranged for an interview with the minister.

CONFERENCE FOR GREATER PRODUCTION

Representative Men Gather in Fredericton—Arthur Pringle's Son Killed in War

Fredericton, May 4.—Representative men from all over the province are here attending a greater production conference called by Premier Foster and Hon. J. F. Tweeddale, and it promises to be a great success.

The Fredericton Golf Club met last evening and organized for the season. Officers were elected as follows: President, R. F. Handolph; vice-president, George A. Taylor; secretary, Professor Cameron; treasurer, G. N. C. Hawkins; managing committee, Colonel Loggie, Dr. T. C. Allen, J. B. Dickson, J. S. Neill and W. A. Vanwart. It was decided to complete a nine-hole course this year and hold a gala day on May 24.

Three cars of a special train left the city for St. John, leaving on May 4, and are expected to return on May 9.

The correspondent got the impression that the Germans do not lack shells, but are short of guns and for some reason do not seem able to make up the leeway.

He says that the German artillery was overwhelmed by the British on April 8, and later was distinctly inferior. During his trip to the front, the writer saw only two German airplanes cross the British lines, but a number of them on the German side.

He concludes "When we relax our efforts at home the German will beat us, and this refers not only to aviation."

British Two Weeks Ahead of Schedule

Washington, May 4.—The British forces on the western front are two weeks ahead of their attacking schedule, according to a cablegram received here today by Secretary Balfour, from the foreign office. The advance, it said, had been much faster than expected and the losses smaller.

The losses were said to be only one-half as large proportionately as those on the Somme offensive last year. This is attributed by members of the mission to an incomparably better artillery preparation and the fact that the men are not allowed to outrun the guns.

SERIOUS REVOLTS REPORTED IN BERLIN; PEOPLE SHOT DOWN

British Smashing At Wotan Line

The Great Barrier Now to the Lens Coal and Iron Fields—Hindenburg Line Failed to Hold Back Khaki Troops

The British have burst through the Oppy line and are fighting the bloodiest and sternest battle of the present offensive in a great effort to smash the famous Wotan line before its organization is completed. The Hindenburg line, outflanked and pierced in supplies has failed to stop the forward surge of the British armies and the Wotan positions are the last great barrier barring the road to Douai, Cambrai and Germany's richest prize in France—the great coal and iron fields north of Lens.

The Wotan line runs from Drocourt to Quantz, a stretch of fifteen miles, running north and south about five miles west of Douai and Cambrai. Around Quantz, the southern extremity of the line, General Haig has formed great human snipers and is striving with all the power at his command to close the jaws of these snipers. Realizing the menace of the situation, the Germans are fighting with a grim desperation which reckons no cost in blood too high if it halts their advancing foe.

The renewed fury into which the great battle of Arras has flamed has diverted attention from the possibly more significant events which are shaping behind the battle front.

The German censorship has lifted so far as to allow newspapers and mails from Germany once more to reach the outer world, but there is little information as yet as to what has transpired within the borders of the German Empire during the last week.

The German chancellor is once more reported to be about to make a pronouncement on peace before the Reichstag and has apparently been forced by the junkers. These reactionaries, enraged and alarmed by the apparent dominance of the socialist party with its programme of peace without annexations or indemnities, have presented an interpellation to the chancellor in the Reichstag demanding that he clarify his position. The junkers are still clamoring for the annexation of Belgium and all reports indicate that the government must very soon take a definite stand both on the question of the war and reforms at home.

Machine Guns Said to Be Used Against The Mobs

CLAMOR FOR FOOD AND PEACE

Outbreaks Reported Elsewhere in Germany But Particularly Grave Situation Said to Exist in The Capital

Amsterdam, May 4, via London.—The Maastricht, of Maastricht, says that serious revolts occurred in Berlin last week. According to the paper, the mob became so menacing that machine guns were used against it. The story is not confirmed from any other source.

From German Papers

Copenhagen, May 4, via London.—So far as can be learned from the German newspapers which have now been permitted to reach here, the reports of the failure of the May Day strike movement in Germany were correct in the main, the papers indicate, however, that strikes took place in some places. One report declares that work in the war factories proceeds "almost in general," and that strikes took place only in the individual smaller factories.

The opposition papers admit that the Socialist and union leaders, with the assistance of Field Marshal Von Hindenburg and General Groener, had the situation well in hand and kept the workers at their tasks. The reasons for the embargo on newspapers do not appear from a surface reading and the papers do not contain any military information of an exceptional character. Would Hold Belgium

Amsterdam, May 4, via London.—A Berlin despatch says that during a discussion of the Belgian question in the Reichstag main committee the speaker of the progressive party declared that the annexation of Belgium must be accomplished as a matter of fact and discussion concerning it was undesirable.

Over Bakers' Wires

F. B. McCurdy & Co., St. John, in their private wire telegram today received the following: Amsterdam.—Revolutionary outbreaks have occurred in Germany, says a dispatch to the newspaper Naachtbode, of Maastricht, today. Machine guns were used against rioters in the streets of Berlin. It was said the disturbances took place in connection with the industrial unrest. Crowds paraded the streets of Berlin and other cities and many demands for peace were voiced. The situation in Berlin was described as one of the utmost gravity. Troops had to be called out to quell riots. Machine guns were used when the rifles and bayonets of the soldiers proved inadequate. It is believed that a number of persons were killed or wounded. AUSTRIAN AMBASSADOR TO PUT TO SEA TODAY

Von Tarnow And Others On The Rydam—To Put late Halifax For Examination

New York, May 4.—Count Adam Tarnowski Von Tarnow, who was sent here from Austria-Hungary as ambassador, has been received by President Wilson, arrived at Hoboken, N. J., last night with twenty-eight members of the embassy staff on a special train from Washington. They will sail today with the deposed German officials from China and Cuba, under safe conduct assurances from the Entente Allies. They will go on board the Holland-American liner Rydam.

The vessel will stop at Halifax, where the baggage and passports of the Austrian and German officials will be examined, as in the case of the dismissed German ambassador, Count Bon Berratorff, and his party. Several dismissed German diplomats en route here from China are expected to arrive this morning. The former German minister to Cuba, and twenty former consular agents also are on their way here.

LATE NEWS FROM RUSSIA TODAY IS LESS ASSURING

Soldiers in Petrograd Reported Demanding Resignation of Minister Who Notified Allies Russia Would Fight On

Petrograd, May 4, via London.—Detachments of soldiers have gathered in front of a palace which is used as the headquarters of the provisional government, carrying red flags with inscriptions demanding resignation of Foreign Minister Mikhaloff.

London, May 4.—A Petrograd despatch says that the Novaya Zinits, the organ of the social democrats, and other extreme left newspapers severely criticized Premier Mikhaloff's note to the Allies asserting Russia's determination vigorously to push the war against Germany. The note will be discussed this evening at an extraordinary general meeting of the council of workers' and soldiers' delegates.

Petrograd, May 4, via London.—The evening newspapers declare that the government is unlikely in its responsibility for the note to the Allies promising energetic co-operation in the war against Germany. They say that the government is supported by the executive committee of the Duma.

CLOSE SHOPS AT FIVE O'CLOCK DURING SUMMER

Movement is Now in Footing Among Retail Dealers of St. John

A movement of considerable importance is being considered by prominent firms in the city for the purpose of shortening the hours of business. An indication of the introduction of the daylight saving plan again this year, many citizens had planned to use the extra hour of daylight in assisting the daylight saving plan by cultivating garden plots. With the call for recruits for the home-defence regiments it was expected that a large number of the younger men would be devoting a certain number of evenings to drilling. The repeal of the daylight law would make it difficult for them working until six o'clock to put either plan into effect.

As a result of these conditions, and also with the idea of giving the members of the staff more time for healthful recreation, some of the prominent business firms have been discussing a suggestion to close their stores and offices at five o'clock during June, July and August. The change would be in effect on Monday, Tuesday, Wednesday and Thursday of each week only, as most of the stores now take the Saturday half-holiday during these months and, in consequence, keep open on Friday evenings.

The plan met with instant favor among a large number of the houses, and efforts now are being made to secure the co-operation of all the business firms along the same line. The merchants believe that, with the support of their customers, the plan could be adopted without any serious inconvenience to the public. The success of the plan is dependent partly on the success attained in securing co-operation of all the merchants in the city.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Sturpatrick, director of meteorological service.

Synopsis.—There has been very little change in pressure distribution since yesterday except that the disturbance in the southwest states has moved northward to Tennessee. Showers have occurred in Quebec and the maritime provinces and cool weather with snow and rain has set in over Saskatchewan and Alberta.

Ottawa Valley.—Fresh northeast to north winds, fair today and on Saturday with a little higher temperature.

Some Showers

Maritime.—Moderate winds, partly cloudy and cool, with a few local showers. Saturday northerly to easterly winds, fair and cool at first, showers again before night.

New England forecast.—Rain tonight and Saturday; northeast to east winds becoming strong.

FORD OFFICIAL SAYS NO BIG PLANT IN HALIFAX PLANNED

A. N. Lawrence of The Ford Company of Canada, Ford, Ont., who arrived in the city today, gave an emphatic denial to a story that their company was planning to establish a quarter-million dollar plant in Halifax. While Henry Ford is in Halifax recently this story became current and St. John's papers have been endeavoring to verify it.

Mr. Lawrence said that the company has no other plans for this territory than to continue its business at the Ford plant at Glen Falls.

Mr. Ford's visit to Halifax was in connection with the shipment of some machinery to England for the manufacture of farm tractors, the patent rights he had waived for the benefit of the British people. A party of his expert engineers and others accompanied the machinery.

GERMANS SEIZE SUPPLIES INTENDED FOR BELGIANS

London, May 4.—German confiscation of the Belgian relief steamer Carnetta is reported in a Central News despatch from Copenhagen. A Danish sailor, who was a member of the crew, is authority for the report. He says that the German officers ordered the crew to leave the ship and they then placed a prize crew on board to take the vessel to a German port.

The men from the Carnetta, in two small boats, asked for provisions, but the Germans refused. After six days of terrible suffering the men in one of the boats reached the Norwegian coast.

GALLANT WORK OF SAILORS

Paris, May 4.—A Marseilles despatch to the Matin says that the Patrol ships which went to the rescue of the torpedo transport Arcadian showed great heroism and determination in saving the victims of the submarine. Both officers and men leaped overboard and held up drowning soldiers. One patrol saved 200 men in an hour and a half.

TAKE JULIA ARTHUR'S ISLE

Government to Seize Calf Island and Hog Island, in Boston Harbor.

Boston, May 4.—The federal government is about to start condemnation proceedings to obtain possession of two islands at the entrance to this harbor—Calf Island, on which is situated the summer home of Mrs. Benjamin F. Cheney, known on the stage as Julia Arthur, and Hog Island, where are situated the homes of several Boston residents. The islands are to be used for war purposes.

Calf Island was purchased for \$25,000 by Mr. Cheney, as a gift for his wife, and the residence called "The Moorings" was built at a cost of about \$50,000. A representative of Mr. Cheney said to-night that after the government made a small money offer for the island the offer was refused and the government tendered the use of it free of charge for the duration of the war. The New England forecast.—Rain tonight and Saturday; northeast to east winds becoming strong.

Proceedings would be instituted.

LACK OF STEEL WILL DELAY SHIPBUILDING
Chatham World.—Silence on the part of the \$2,000,000 shipbuilding company promoters may mean nothing doing. We understand that inquiry showed that plates for a ship could not be delivered in two years by any steel plant in Canada, and that the project had fallen through. The Miramichi ought to build wooden vessels. There is, it is true, a lack of large timber for framing, but iron or steel might be used to reinforce the timber we have. Composite frame and wood planking ought to make a good seagoing craft.

THAT TIRED FEELING

Relieved by Hood's Sarsaparilla, Which Renovates the Blood.

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition inviting disease. It is a warning, which it is wise to heed. Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better. Be sure to get Hood's Sarsaparilla. It embodies the careful training, experience and skill of Mr. Hood, a pharmacist for fifty years, in its quality and power to cure.

THE PONTIAC SUNK

Halifax, May 4.—J. W. Carmichael & Co., New Glasgow, have a cablegram advising them that the steamer Pontiac was reported sunk. The captain and crew were saved. The Pontiac was last reported as sailing on Saturday from Fort Said, and it is probable that she was sunk in the Mediterranean. She was built at Glasgow in 1903, was 3,072 tons net and 3,345 tons gross.

MARRIAGE CASE REVIVED.
(Continued from page 1.)
The superior court ratified the archbishop's decision, but later the judgment was reversed. The court of review then declared there was no question at issue which a court of law could adjudicate and the effect of this was to wipe out all legal proceedings up to that time.

The writ in the present action recites that the ecclesiastical decree is still of record and asks the court to declare it unfounded, contrary to law, subversive to public order and void for all purposes whatsoever of the law. The court is also asked to condemn and order Heret to pay the plaintiff \$25 a month for the support and maintenance of the child.

CROWS WON.
In the Y. M. C. I. bowling league last evening the Crows took all four points from the Hawks, as follows:
Hawks:
McGuire . . . 79 115 82 256 851-3
Flood . . . 83 79 104 256 851-3
Pleming . . . 84 84 68 236 735-3
246 278 254 778
Crows:
D. Colgan . . 79 104 80 272 953-3
Alexander . . 98 98 86 262 85

How the Kaiser United The World Against Germany

The Kaiser's eligibility for the Nobel peace-prize occurs to one editor as he contemplates the burning away of old distrusts and hatreds among the once hostile peoples now banded together in a spiritual as well as a military alliance against the Central Powers. England and France forget their ancient feuds, England and Russia their territorial jealousies, Russia and Japan their quarrels in Asia, while the United States, brushing aside old wrongs and recent suspicions, steps into line beside England and Japan in the great alliance whose dominant purpose is to make the world "safe for democracy."

As visible symbols of this new spirit of international brotherhood among former foes, he sees the flags of the Allies flying side by side in the various capitals, and the Stars and Stripes beside the Union Jack above the Parliament Buildings at Ottawa and Westminster, where no foreign flag was ever before unfurled.

In THE LITERARY DIGEST for May 5th, the feature-article presents the consensus of American public opinion upon the visit of the British and French Commissions and the far-reaching results which the conferences at Washington will develop.

In addition to this complete description of one of the greatest events that has taken place in the history of the United States, and of the world, other articles that should be read in this number are:

"The Digest" Prints the World's News, Uncensored and Ungarbled

News that is really news, that is accurate as to facts and recent as to date, is certainly hard to get nowadays. In addition to the ordinary difficulties that beset the path of newspaper editors many others have now arisen. The unreliability of reports, the bias of sources of information, political expediency, the censor's pruning-knife—all these make the gathering of real news harder than ever before. THE LITERARY DIGEST, greatest of news-magazines, has at its command avenues for securing information not available to the average periodical. It gives both sides of every occurrence in the language of the publications recording it, and it has no incentive to garble or change such accounts in any way, its policy being one of strict impartiality in all fields, social, religious, political, and the rest. For a fair, concise, unbiased presentation of actual facts, read "The Digest."

Alexander Longon, a returned soldier, who spent eighteen months at the front, has been appointed a temporary letter-carrier.

William McIntosh, curator of the Natural History Society, entertained the members of the boys' club last evening. He lectured to them on the Indians of New Brunswick and afterwards explained the use of the relics on exhibition in the museum. The boys were accompanied by Harry Scott, Albert Armstrong, Mrs. W. C. Good and Mrs. A. M. Bell.

Tenders for the new theatre on King Square to be erected by the King Square Realty Company, were received at the office of Neil Brodie on Monday of this week. F. G. Spencer said last evening that the figures were considerably in excess of expectations, and that those interested were deliberating as to whether they will build at the present or not.

HOW TO GET STRONG

A Simple Remedy

Whatever the cause, we want to say to every person who needs strength, you need Vinol as it is the most efficient strength creator we have in our store. Here is proof from Dorchester, Mass.:

"I don't know what we would do without Vinol in our family. I was weak, nervous and run-down as the result of an operation, and Vinol restored my strength. Then Grandmother had a nervous breakdown, and Vinol built her up and restored her health and strength after everything else had failed. We have used Vinol for 13 years in our family, and would not be without it in the house." Myrtle L. Healy, Dorchester, Mass.

We believe in Vinol because we know it is a great strength creator—due to the beef and cod liver peptides, iron and manganese peptonates and glycerophosphates, all dissolved in a pure medicinal wine, so we always return the purchase money if Vinol fails to benefit those who buy it.

Not the Right Face

Carelessness in putting his words together was the downfall of a young man at a theatre. When the curtain went up for the first act he found that the hat of the young lady in front of him obscured his view of the stage. Wishing to see the performance, he said to her, "I want to look as well as you." "Do you?" she inquired. "Certainly!" he replied. "Ah, then you will have to alter your face a great deal," was the crushing retort.

What About the Others?
Sir Wm. Ramsay tells an amusing story to illustrate his contention that the habit of reasoning is developed in male children at a remarkably early age. While visiting a friend he overheard a discussion between the little son and daughter of his host. "I wonder what we're here in the world for?" asked the little boy. His companion, thinking of a recent lesson, answered gently, "We are put here to help the others, of course." "Um!" exclaimed the little boy after a moment's thought. "Then what are the others here for?"

Five Millions
for Contractor

Immense Profits of One Member of Firm Revealed by British Columbia Inquiry

Victoria, May 2.—The report of the legislative inquiry committee into the construction of the Pacific Great Eastern Railway, as presented to the house, recites the facts of the departure of Dr. Arey Tate, vice-president of the company, after he had declined to make public facts regarding campaign contributions to political parties.
The committee finds that General J. W. Stewart and Timothy Foley, of St. Paul, Minn., are disqualified as directors of the railway, because the contract for construction awarded to P. A. Welch, the third member of their company, was in reality illegally awarded to the whole firm of Foley, Welch and Stewart. Two other directors, E. F. White and P. Wilson, appeared to have been drawing salaries of \$6,000 a year each, and at the same time profited by taking sub-contracts without giving any apparent value. The unit prices fixed between Welch and the government are found to have been excessive in comparison with similar work on the Canadian Northern.

Profit of Five Millions
The committee finds that payments were made on the estimates of Chief Engineer Callahan, an old employee of the firm, and that the government engineer went over the work very infrequently. P. A. Welch is found to have made a profit of five million dollars on

LOSS OF AEROPLANES HEAVY DURING APRIL London, May 4.—The Times says:—Seven hundred and fourteen aeroplanes were brought down on the western front in April. There has not been a month of such fighting since the war began, and the losses never reached such a figure. Of the 714, which is completed from the communication of the British, French and German headquarters, is made up as follows: 856 German machines; 147 French-Belgian (with the necessary qualification that the German claims are trustworthy); 201 of the 900 German aeroplanes brought down fell to the British, 95 to the French and 2 to the Belgians.

Scott's Ready Reply A Yankee, discussing with a Scot Britain's share in the war, exclaimed: "You British are far too slow; you cannot see your opportunities, far less seize them. Now, had you been at war with America we would have sent over one or two of our fast cruisers and loved the whole British Fleet into New York harbor before you knew you were at war." "Ay, man," replied the Scot, "ye wad, wad ye? Weel, if ye did, it wud take a fair cleverer man than Columbus ta discover America the day after."

Even naval men for over a century have disputed the exact meaning of "the Nelson touch," and now in London the new, alliterative term "Hag's Hag" is arousing similar interest among army men, although no controversy seems probable. For the second world war the term is merely a grouping of the initials of the surnames of the three generals who are executing the plans of the British High Command and his staff. These generals are Horne, Allenby and Gough. Lieut. Gen. Sir Edmund Henry Hyman Allenby is a cavalry leader who distinguished himself in the South African war. He has played a great part in the present war in France, and fought a gallant rearguard action from Mons. His services were recognized by his promotion to a lieutenant generalship and the receipt of a K. C. B. General Allenby married a niece of Sir Lancelot Aubrey-Fletcher, and is fifty-six. They have one son. Lieut. Gen. Sir Henry Sinclair Horne is a native of Colchester, and comes of a military family. He is the same age as General Allenby. He served through the South African War, in which he won the Queen's Medal with five clasps and

Recommendations of Home and Colonial Leaders Preparedness After War

Empire Should Decide on Effectual Naval Defence Scheme and Organize Resources - Delegates Lunch with the King

London, May 3.—(Through Reuter's Ottawa Agency)—The colonial secretary, Hon. Walter Long, has issued a statement respecting the work of the imperial war conference, now approaching the end of its labors, together with some of the resolutions adopted by the conference. The resolutions recommended the appointment, at the earliest possible moment, of a committee representing the military authorities of the United Kingdom, the dominions and India, to consider the various patterns of military stores and equipment in use, with a view to the selection of standard patterns for general adoption, as far as the special circumstances of each country will permit. It also recommended that the ordnance personnel of the empire's military organizations be trained in the same methods and principles, and that ordnance officers from all parts of the empire should be attached for an adequate period to the imperial ordnance department. Further it is recommended that the admiralty be requested to work out, immediately after the war, the most effective scheme of imperial naval defence, for consideration of the governments concerned, at a conference to be held with representatives of the admiralty regarding the future security of the empire.

The conference welcomes the increase in the number of trade commissioners, and recommends that the governments

concerned co-operate in assisting a service, especially for the promotion of inter-imperial trade. It records the view that the 1907 imperial conference resolution be modified so as to permit the full representation of India in all future imperial conferences, and that the assent thereto of the various governments be obtained. It prays that the king constitute, by royal charter, an imperial graves commission, on the lines proposed by the Prince of Wales to the prime minister. The conference records its deepest appreciation of the French governments' generosity in allowing, in perpetuity, the land where our men are buried, and urges that similar arrangements be made in the peace terms, with all the allies, enemy and neutral governments in Gall-

poli, Mesopotamia, Africa and elsewhere. The conference expresses the opinion that the readjustment of the constitutional relations of the component parts of the empire is too important and intricate a subject to be dealt with during the war, and should be discussed at a special imperial conference to be held immediately after the war. The conference records, further, that such readjustment, while thoroughly preserving all existing powers of self-government, and complete control of domestic affairs, should be based upon a full recognition of the dominions as autonomous nations of an imperial commonwealth, and of India as an important portion thereof; should recognize the right of the dominions and India to a voice in the foreign policy and foreign relations, and should provide effective arrangements for continuous consultation on all important matters of common imperial interest, and for such concerted action founded on that consultation as the several governments shall determine.

The conference recognizes the importance of securing uniformity of empire policy and action in regard to naturalization, and commends the proposals submitted to the overseas governments by the home office. It recommends that there be no delay in taking steps for the establishment in London of an imperial mineral resources bureau, on which the whole empire shall be represented, and whose duties shall include advising on its mineral resources may be developed and made available to meet the empire's mineral requirements.

In view of the experience of the war, the conference draws attention to the importance of developing adequately the capacity for production of naval and military material, munitions and supplies in all important parts of the empire, including the countries bordering on the Pacific and Indian dominions, where no such facilities at present exist. It affirms the importance of close co-operation between India and the dominions and the United Kingdom with this object in view.

The conference urges that the present system of double income taxation within the empire be taken in hand immediately after the war, and the law so amended as to remedy the present unsatisfactory position.

In view of war experience the conference records that the safety of the empire and the necessary development of its component parts prompt, attentive consideration and concerted action in regard, first, to the production of an adequate food supply and arrangements for its transportation when and where required, under any conditions that may reasonably be anticipated; secondly, to the control of natural resources available within the empire, and especially those of an essential character for military purposes whether in peace or war; thirdly, to the economical utilization of such natural resources through manufacturing processes carried on within the empire, and recommends that the governments concerned consider the enactment of legislation in this direction.

City Eye Specialists Tell How To Strengthen Eyesight 50 p.c. In a Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Boston, Mass.—Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that Doctors and Eye Specialists now agree there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored and many who once wore glasses say they have thrown them away. One man says, after using Dr. Smith's eye medicine, he could not see to read at all. Now I can read anything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me. A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overwork, tired eyes which induced fierce headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now, and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses.

Dr. Beck, an eye specialist of nearly twenty years practice, says: "A patient came to me who was suffering from Hirschmann's Marginalitis with all the concomitant symptoms, as morning agglutination of the lids, chronic conjunctivitis, and epiphora. Her eyes, when not congested had the dull, suffused expression com-

mon to such cases. Having run out of her medicine a friend suggested Bon-Opto. She used this treatment and not only overcame her distressing condition, but strange and amazing as it may seem, so strengthened her eyesight that she was able to dispense with her distance glasses and her headache and neuralgia left her. In this instance I should say her eyesight was improved 100 per cent. I have since verified the efficacy of this treatment in a number of cases and have seen the eyesight improve from 25 to 75 per cent in a remarkably short time. I can say it works more quickly than any other remedy I have prescribed for the eyes."

Dr. Smith, an oculist of wide experience, says: "I have treated in private practice a number of serious ophthalmic diseases with Bon-Opto and am able to report ultimate recovery in both acute and chronic cases. Mr. B. came to my office suffering with an infected eye. The condition was so serious that an operation for enucleation seemed imperative. Before resorting to the operative treatment I prescribed Bon-Opto and in twenty-four hours the secretion had lessened, inflammatory symptoms began to subside, and in seven days the eye was cured and retained its normal vision. Another case of extreme convergent strabismus (cross eyes), escaped the surgeon's knife by the timely use of your ointment. The tightened external muscles yielded to the soothing and anodyne effects of Bon-Opto. I always instill Bon-Opto after removal of foreign bodies and apply it locally to all burns, ulcers and spots on the eyeball or the lids for its therapeutic effect. By clearing the lids of secretions and acting as a tonic for the eyeball itself the vision is rendered more acute, hence the number of cases of discarded glasses."

Dr. Connor says:—"My eyes were in bad condition owing to the severe strain arising from protracted microscopical research work. Bon-Opto used according to directions rendered a surprising service. I found my eyes remarkably

strengthened, so much so I have put aside my glasses without discomfort. Several of my colleagues have also used it and we are agreed as to its results. In a few days, under my observation, the eyes of an astigmatic case were so improved that glasses have been discarded by the patient."

Eye troubles of many descriptions may be wonderfully benefited by the use of Bon-Opto and if you want to strengthen your eyes, go to any drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note.—A city physician to whom the above article was submitted, said: "Yes, Bon-Opto is a remarkable eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or night glasses. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or far eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto is not a patent medicine or secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 20 per cent in one week's time in many instances, or refund the money. It is dispensed by all good druggists in this city, including Watson's Drug Store and all other wide awake drug coun-

Cocunut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unperfumed coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonsful will make an abundance, which, creamy lather, and ceases the hair and scalp thoroughly. The latter rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get unperfumed coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

NUXATED IRON

increases strength of delicate, nervous, run-down people 100 per cent in ten days in many instances. 100% GUARANTEE. For full explanation in large article soon to appear in this paper. Ask your doctor or druggist about it. Watson's Drug Store always carry it in stock.

Safeguard the Nation's Health

Your physician will tell you that bad teeth are primarily responsible for all diseases originating in the stomach. The nation's first requirement of her soldiers is good teeth, which shows their importance.

Minty's Tooth Paste

is a sure safeguard to health. It keeps the teeth naturally white and clean—the gums firm and healthy—the breath pure and sweet. It has a positive bactericidal action that destroys mouth germs and heals the inflamed membranes.

Train the children early to realize the necessity of good teeth and Minty's Tooth Paste.

Use Minty's twice a day—visit your dentist twice a year and safeguard your health from the ills that are caused by poor teeth and an unhealthy mouth.

Minty's is the most economical of all dentifrices. 25 cents a tube and guaranteed.

CANADIANS CAPTURE FRESNOY

Canadian Army Headquarters in France, May 3.—Shortly before dawn this (Thursday) morning a Canadian column, composed of veteran troops, carried the fortified village of Fresnoy-en-Artois by storm.

They encountered the same tenacious resistance as at Arleux-En-Gobelle on Saturday last, but, aided by an artillery barrage, they speedily came to grips with the enemy, and in house-to-house fighting drove him out of the village. The capture of Fresnoy carried the Canadians almost a mile further than before on the way to Douai, which is only a little more than eight miles due east from the further point of today's advance.

Since April 9 the line has been pushed eastward from Neuville St. Vaast, a distance of almost six miles under most adverse weather conditions during the greater part of the time. Now that nature smiles, the rate of progress is expected to be more rapid.

Belfast Presbytery has rejected 23 votes to 11 a resolution declaring that under the light of our time, no one can be engaged in the liquor traffic without sinning grievously against God.

Recruiting Is At Low Ebb

Four recruits were secured in the city yesterday. They were—John H. Oram, St. John, No. 8 Field Ambulance; Frank Brown, St. John, No. 9 Siege Battery; Edward Maxwell, Dipper Harbor, and Hugh Monahan, Helenville, Divisional Signalling Company.

Recruiting throughout the Dominion has fallen off. A total of 2,804 men were secured during the last two weeks, compared with 8,229 in the preceding two weeks.

Casualties.
The midnight casualty list containing the names of ten New Brunswick men. They are as follows:—Died of wounds, H. Miller, Newcastle; wounded, F. P. Murphy, St. John; C. E. Whiston, Petitcodiac; E. T. Robinson, Newcastle; J. H. Walker, Sussex; J. Beloungue, Houlton; J. L. McParlane, Sussex; A. Soucy, St. Leonards; W. B. Hicks, Sackville; ill, C. K. Donovan, St. John.

Word has been received in the city that Lieutenant William McQuade, son of W. H. McQuade, has been appointed to the position of machine gun instructor at the front. Lieutenant McQuade went overseas as a member of the 10th Battalion.

DECLARES ELEVATOR UNSAFE

At the inquest into the death of George Morrissey, accidentally killed while running the elevator at the sugar refinery, held last evening at the court house by Dr. F. L. Kenney, coroner, the jury came to the following conclusion:—"We find that the boy came to his death by accidentally falling from the elevator. We also find that the elevator now being used is not a safe one to be operated as a combination for freight and passengers. We would recommend that not more than three inches of space be between the floor and the wall and that the open sides be fitted with collapsible gates.

The jury was composed of the following: Fred McLean, Joshua Corkery, Thomas McKinnin, W. E. A. Lawton, W. A. Wetmore, Frank Lewis and R. H. Brown.

The witnesses were George Kyffin, an employee of the refinery; Dr. J. S. Bentley, Edward Morrissey, brother of the unfortunate lad, Policeman Gibb, and William F. Duen, assistant inspector at the refinery. John A. Berry appeared for the boy's relatives and Frances Kerr for the refinery.

Vere LeRoy Stokes, principal of the St. Mary's-Gibson school, Fredericton, was married on Wednesday to Miss Berna M. Stephenson, daughter of Mr. and Mrs. Thomas Stephenson, of Fredericton. Rev. Thomas Marshall officiated.

SUBMARINE LOSSES NOT SUFFICIENT TO AFFECT WAR ISSUE

London, May 3, 4.40 p. m.—Earl Curzon, member of the war council, speaking today of the submarine situation said he recognized the submarine menace to be formidable, but stated that in its calculations the cabinet had made allowances for a wastage of shipping greater than that that had already taken place. He did not himself think in practice it would diminish shipping so greatly as to affect the ultimate issue of the war.

Y. W. P. A. VOTES MONEY

A very well attended meeting of the Young Ladies' Patriotic Association was held in the Moose rooms in Union street last evening with Miss Alice Fairweather, vice-president, in the chair. Eighteen new members joined and the treasurer's report showed a balance on hand of \$150.07 in the general fund and \$117.10 in the returned soldiers' fund. Some of the money was voted as follows: Thirty-five dollars to the Y. W. P. A. Mrs. Warren pointed out many useful ways by which the Y. W. P. A. could be of service after the war. She also spoke of the need of help at the military hospital. 50¢ A PAIR PUT ON

In Parliament

An attack on the government led by Mr. Kyle, Mr. Carroll and other opposition members for continued inaction with the problem of the high cost of living brought forth one of the bitterest rows in the Commons yesterday that parliament has witnessed for many years. Mr. Kyle pointed out the recent rise in the sensational price of flour and called the attention of the fact to the minister of labor. Mr. Carroll in answering the vague explanation of the minister that "some action would be taken later on" declared that the consumers were awaiting the day of reckoning with the present government.

W. H. Bennett, of East Simcoe, passed an ill-timed jibe at the latter's service at the front. "You should be ashamed of yourself," declared Mr. Carroll, and he was joined by the Liberal members as well as many from Bennett's side. Mr. Bennett said that he was not going to take anything from Mr. Carroll, as the latter had "strutted around in the feathers of an artillery uniform, but got into civilian clothes after the war." Mr. Carroll said these were the attitudes of a coward. Mr. Carroll clearly explained his position to the house. He said that he had attempted to raise a battery in New Brunswick and presented his plans to Sir Sam. The latter soon afterwards left for England and Hon. J. D. Hazen acted as minister of militia and no action was forthcoming. He finally wrote a letter dated Sept. 4, 1915, which has as yet received no answer. Mr. Carroll initiated a private and has seen service at the front.

Big Delegation to Conference

The conference summoned by Premier W. E. Foster and Hon. Mr. Tweeddale, Fredericton this afternoon, for the purpose of stimulating production throughout the province, promises to be widely attended. Many delegates from St. John will be in attendance.

Representatives of the board of trade, the Y. M. C. A., Canadian Club, Rotary Clubs, ministers of the gospel, college presidents and Daughters of the Empire have been invited to attend. With the exception of the Daughters of the Empire, probably all the other organizations will be represented in the party from St. John.

The board of trade is sending a large number, including W. Frank Hatfield, T. H. Estabrook, Alex. Wilson, F. W. Daniel, Dr. J. H. Frink, J. A. Lacey, F. A. Dykeman, E. A. Goodwin, J. L. Kennedy, R. E. Armstrong, E. A. Schofield and others. Mayor Hayes is also attending.

Dr. H. S. Bridges, superintendent of public schools, has been asked to attend, and he has requested Commissioner J. V. Russell to accompany him as a delegate from the school board, the chairman, R. B. Emerson, being unable to attend. William McLean, school inspector, is going and A. M. Belding, editor of The Times, will be present. It is stated, too, that several clergymen have expressed their intention of being present.

The Y. M. C. A. is to be represented by A. M. Gregg and possibly F. A. McLean. The Daughters of the Empire will not be formally represented, but it is possible that Mrs. J. V. Lawlor left last evening for the capital and will be present in behalf of the local Housewives League. Mrs. G. A. Kubring is at present at Fredericton and will attend the conference as a representative of the Women's Canadian Club.

Walter H. Golding, of the Imperial Theatre, is going to present a scheme to have moving pictures shown in the various cities and towns throughout the province to demonstrate the value of vacant lot gardening, and to urge larger production as a patriotic duty in the smaller centres.

It is stated that the representation from all parts of the province will be as good as that from St. John. The delegates will be most far-reaching.

Dr. Carter's proposal to organize the school boys as farmers' assistants and to have them spend in this patriotic work, has been strongly supported by the high school authorities here, and the proposition was made to the boys, provided they could secure the consent of their parents. A very large proportion of them volunteered and at the conference today Dr. H. S. Bridges and A. M. Gregg will so report to the delegates.

Dr. Bridges and Mr. Gregg left the city for this purpose last evening.

BUILDING IN MONCTON

Transcript.—Once again building takes a stride in the city of Moncton. Last fall a boom in building took place, but during the winter months not much progress was made. During March the issuing of permits was slight but the month of April just passed showed a brisk increase.

During the month twenty persons applied for permits, which totalled over \$100,000. Many fine residences are being constructed and many citizens are improving their present dwellings with additions of eels and verandahs. Many garages are being built, showing that a quantity of new auto cars have been bought in the city.

GERMAN ATTACHE IS A REGULAR VISITOR

Athens, May 4.—Von Falkenhausem, former German military attache here, has been returning regularly through a new route and as regularly received at the palace. This is too serious an allegation for me to bring without confirmation. The highest French military authorities here confirm it. Others appear from time to time, and make mysterious journeys to the coast or the interior, returning later to Athens. One purpose of these officers serve to bring money from the German empire to maintain the reservists' organization. 210,000 has just found its way into the coffers of the Reservists' League. It was distributed by Saghias, their chief. Much grumbling arose among the reservists who are suspicious that the leaders are keeping too large a share for themselves. The reservists have become active, and are again patrolling the streets of Athens.

DETAILS OF BOUT BETWEEN CLEVER RING CHAMPIONS

with stepping nimbly in and out of his rival's range and coming up unexpectedly under Welsh's swinging arms to rest contentedly on the Englishman's shoulder and there grin broadly at the lightweight champion's futile efforts to hit him.

Kilbane showed on frequent occasions, however, that, when the whim seized him, he was capable of driving his opponent before him with a succession of heavy blows to the face and stomach, mostly to the face, and his hurries in this direction, which were few for the greater part of the bout, made the crowd yell wildly in his honor.

The featherweight champion, smiling broadly throughout, took particular pleasure, however, in showing off his cleverness to the crowded house, and each time he made Welsh miss he laughed heartily. In fact, Kilbane seemed to be losing valuable time in indulging his mirth, for there were several occasions when openings to shoot home a heavy blow to the face or body went unnoticed by him.

When he was not engaged in ably ducking and sidestepping Welsh's almost frantic efforts to land on him, the Cleveland boxer was giving his utmost attention to showing the spectators just how he could tie up the lightweight champion in knots of his own making and then counter cleverly and effectively. Especially in the latter rounds did Kilbane unleash his power to outbox and outstep the lightweight champion.

The holder, and there were times when the efforts of Welsh to land seemed ludicrous to those about the ringside who had seen him perform against best experienced and clever boxers than Kilbane.

Knockout Blow Never in Sight.
At no stage of the match, though, could it be said that either man was in dire need of medical attention. The possibility of a knockout blow ending a bout in a local ring was never more remote than last night. Welsh, true to his ring traditions, stuck to the coaching line of fighting, and presented a superb defence that at times baffled even the wily attempts of Kilbane.

In the first and third sessions Welsh, with his ability at close quarters, carried off the honors. He drew Kilbane into close contact, and while there counted for points with light blows to the stomach. Kilbane, during these two rounds, did little but look to the referee to break

Freddie Welsh of England, lightweight champion of the world, was forced to wince to the superior ability of Johnny Kilbane, the Cleveland boxer, possessor of the featherweight championship title, their ten round bout at the Manhattan Athletic Club, 155th street and 4th avenue, New York, the other night.

In the second session Kilbane for a moment unloosed his heavy hitting powers and landed with left hooks and a right cross to the side of the head on Welsh. These blows had the effect of making the lightweight champion wince for a space, but he was soon at close quarters again trying to land with blows to the stomach.

From the fourth session to the finish Kilbane gave frequent flashes of his ability and gained the honors of the remainder of the bout. In this round Kilbane landed effectively to the face and jaw with a hard right several times and danced away from his rival without receiving a return. At times he made it appear as if Welsh were his pupil at boxing.

Near the bell in the fifth session Kilbane shook up Welsh with three hard overhand rights to the jaw, and in the sixth round he had the Englishman's head continually bobbing on the end of a right-hand uppercut in close, bled slightly from Kilbane's right cross and left hooks.

In the seventh and eighth rounds Kilbane was always on top of Welsh and had the latter in a quandary. He grazed Welsh with his speed and the latter seemed spellbound, so much so, in fact, that the featherweight champion crossed his right and hooked his left in quick succession on several occasions without the least difficulty.

The same was true of the ninth round, and the closing session, the boxers being locked together when the final bell ended the bout. Neither bore a scratch for their labors, although Welsh's lips bled slightly from Kilbane's right cross and left hooks.

EVERY SCOTCHMAN IN THE COUNTRY HAILS WITH DELIGHT the news that "Little Mary" has selected the role of "Margaret MacTavish" as her next screen impersonation.

For a long time Caledonians have hoped to see the most popular girl in the world characterize the typical winsomeness of Scotland's fair daughters with characteristic effectiveness as well as dramatic finesse and the wonderful heart appeal as well as dramatic finesse displayed in "The Pride of the Clan" makes it an offering that will prove of universal appeal. During her long and brilliant career on the screen "Little Mary" has portrayed characters of a number of different nationalities, her record-breaking success throughout the entire country. It is a long way from the banks of the Ganges to the wind blown fields of Scotch heather, but it is a trip that Miss Pickford has taken in the interval between "Less Than the Dust" and "The Pride of the Clan," a story of the northwest coast of Scotland.

The National Commission has decided that a player making a "touch" from a fellow-player may not "forget" the transaction, but must pay back the borrowed sum. The odd part of it is not that the commission should take such a matter into its jurisdiction, but that there should be occasion for such a ruling.

OUTSTANDING SUCCESS IS FAIRVILLE CHURCH CONCERT
The "Louise Lewin Mission Band" of the Fairville Methodist church, presented a missionary programme at a concert last evening under the direction of Mrs. Lewin. It proved successful from every standpoint, the children from the youngest to the older girls acquitting themselves most creditably.
It is doubtful if the platform of the church ever looked more attractive, flags, banners, mottoes and special scenery having been arranged by Mrs. Lewin with great care and attention to detail.
A striking feature was when the exercise, "The Light of the World," was being put on. A large star of colored electric lights surrounding the name Jesus became illuminated, making a very pleasing illustration.
The whole programme was greatly enjoyed by the audience and Rev. Gilbert Earle on their behalf expressed appreciation of Mrs. Lewin's work among the young people. The following was the programme:
Children's song—"I Think When I Read That Sweet Story of Old"—Ver-

RECRUITS FOR ENGINEERS
Lieutenant J. D. McBeath, recruiting officer for the Canadian Engineers, returned yesterday after a short recruiting trip through the province. He visited Mount Allison, where he was successful in securing three recruits. The Canadian Engineers have nine men so far this week.

A DYING EMPIRE
A large number of people in Queen square Methodist church school room last evening heard Rev. W. H. Barraclough deliver an interesting lecture on the "Dying Turkish Empire." The lecture was illustrated by views and was much enjoyed by the audience. It was given under the auspices of the Women's Missionary Society of the church.

PAPER ON PENIAN RAID
A meeting of the New Brunswick Military Veterans' Association was held last evening. John Willett, C. M. G., read a paper on the Penian raid on Canada. He dealt with the matter in detail and the paper proved very interesting. Practically all those present had been on service at the time of which the paper treated.

THE RIVER STEAMERS
The steamer Magenta arrived at In-diantown this afternoon from Cole's Island in the Washademoak, and the Champlain also came down river from the Jemseg. Both steamers had fairly large passenger lists, but only light freight. The steamer May Queen will make her first trip to Grand Lake about the first of next week. The D. J. Purdy is expected to commence running about the last of the week.

WERE DELAYED
The suburban train due to arrive in the city at 8 o'clock did not reach the station this morning until 9:15 owing to some engine trouble in the vicinity of Quispamsis. The Sussex train was forced to act the part of the good Samaritan and the suburban was brought in by the Sussex. Several of the passengers had already started to walk and had reached various stations along the line but were picked up by the incoming Sussex.

BYE LAW MATTER OR A GRAVEN OFFENCE?

A bye-law report which promises interesting developments was taken up in the police court this morning when Frank Garson was reported by Sergeant Harold Mayes for violation of the bye-law. The case was heard by Magistrate O'Neill, of the West Side division, for a violation of the bye-law which forbids the use of a motor vehicle on a public street. The case was heard until it is found out whether the case comes under the criminal code or the city bye-law regulations. The bye-law in respect to this matter says that no one shall allow ashes, coal or any such matter to fall from a team in the public street which would endanger property or persons. Whether tracks and nails coming under the head of "any such matter" will be decided at a future hearing of the case. It is set for next Wednesday.

LIQUOR CASE GONE INTO COURT

The matter of Gilles Guilgaird, charged with selling liquor to a minor and also with selling liquor without a license, was resumed in the police court this morning. William J. Mahoney appeared for the defendant. Police-man Winter and Detective Briggs concluded the evidence for the prosecution. They said that Dolphie Christie, a minor, had been arrested on drunkenness charge. He said he secured liquor from Guilgaird in a boarding house at 608 Main street and had paid fifty cents on two occasions for a flask. The defendant, they said, did not deny the charge when they and Christie visited the house. Liquor was found under a bed in a suitcase, which contained eighteen flasks of brandy.
The defendant took the stand and said that he had secured the liquor to take home with him to the North Shore. He said his brother had bought the liquor between them on Monday. They had paid twenty-five cents a flask and had bought 18 worth. Christie, the witness said, boarded in the same house with him. He had begged him to sell two flasks and to satisfy him he did so. He had known Christie before, as they worked here together and also up north. He sold the flasks not to make money but to satisfy his friend. He thought Christie was more than twenty. He said he received fifty cents for the flasks.
A brother of the defendant gave corroborative evidence.
Mr. Mahoney asked that his client be dismissed. They were fellow boarders in the same house, he said, and knew one another well, and the transaction was made not to make money, but to satisfy Christie.
The magistrate said that he would remand the prisoner and consider the penalty he would impose. He explained the law to the police and said that there could be no twisting and compromising to suit the situation, even if these young fellows were friends and boarders in the same house.

SIXTY AND FIFTY CENTS MORE ON COST OF FLOUR

Manitoba Now \$16.00, Ontario \$15.15 Wholesale—The Wheat Market Tends to Local Dealers Do Not Control The Flour Prices
Flour continues steadily on its upward way with nothing to indicate when the limit will be reached. Today advances of sixty cents a barrel for Manitoba and fifty cents for Ontario, were announced, making the wholesale prices \$16 a barrel for Manitoba and \$15.15 for the Ontario brands.
May wheat yesterday touched the high figure of \$2.80, and this morning a quotation of \$2.75 was recorded. This does not seem to indicate any pronounced effect as a result of the announcement made in Ottawa yesterday that the Canadian and United States governments are considering joint action for the fixing of maximum and minimum prices for wheat for the two countries. Government regulation has been urged in many quarters since the beginning of the war as the only method of preventing prices from being driven to prohibitive prices by speculative influences. As the prices have nearly reached that limit now, those interested in the markets do not seem to expect any very great change in the situation as the result of government interference. On the other hand, there have been enough predictions of still greater increases to make the idea of government regulation look attractive to the consumer.
The intimation that there may be government regulation had some effect, however, when the markets opened this morning, as is indicated by the following quotations:
Chicago, May 4—Declines of 6½¢ to 31 cents in wheat at the opening today was the speculative reply to the Canadian-American agreement to regulate grain prices, announced late yesterday.
Wheat prices yesterday touched new record tops. May this morning dropped 21 cents to \$2.57; July, 19 3/4 cents to \$2.15, and September, 6 1/4 cents to \$1.84, on the first few sales.

It should be kept in mind by St. John people that the dealers here have not the control of the flour prices. These are regulated in the larger centres.
THOS. BEECH IN EPSON HOSPITAL
St. John Soldier Wounded—Many Maritime Province Men in Official List
That her husband, Pte. Thomas Beech, was officially reported wounded, gunshot wound left leg and admitted to the London War Hospital, Epson on April 18, was the word which came to Mrs. Lillian Rose Beech of 264 Brunel street this morning. Private Beech is thirty-three years of age and has four children, the eldest of whom is eight years. He enlisted in a well known unit of New Brunswick and from England was transferred into another regiment from this province. He had seen service in the trenches since a little before Christmas. Previous to joining he was a longshoreman.

The Mattress Which Is Different!

A great many people have already seen the DIXIE, NO TUFT MATTRESS, and many have used it, and we have yet to receive a complaint. On the contrary, we have received many enthusiastic commendations from those who have purchased them, and we very much appreciate the words of praise, for we realize that satisfied customers are our biggest asset in business.
When you have seen this wonderful Mattress and have observed that it has none of the hard spots which tufting inevitably produces, that there are no gathering places for dust, that it provides first, last and all the time a uniformly smooth, resilient surface, and that it cannot possibly spread or lose its square edge, you will not be surprised that our sales are constantly increasing. SEE IT!
