BRILLIANT AT HOUSE OPENING

Galleries at Ottawa Crowded This Afternoon.

Contrast to Yesterday's Preliminary Proceedings—Escort, Salute, Black Rod and All the Usual Features.

(Canadian Press) Ottawa, March 9.—With pomp and display, Canada's 14th parliament was formally opened by the governor general this afternoon. In its brilliance, the scene in the senate chamber, where the speech from the throne was read, was strikingly different from that of yesterday.

The chamber was alight with uniforms, with the soft and varied colors of attractively gowned ladies, while sharp and distinct were the red and ermine robes of judges of the supreme court.

At three o'clock when His Excellency arrived to the booming of guns of Point. He was escorted by a member of the Princess Louise Guards under the command of Lieut. Charles Olmstead.

Members of the commons meanwhile had gathered in their own chamber. A few minutes later the gentleman usher of the black rod appeared, and after three reverberating knocks on the door, entered the common chamber, summoning members of the chamber of the "honorable senate."

Proceeded by their newly-elected speaker, Hon. Rodolphe Lemieux, and the sergeant-at-arms who had the choice of speaker had not yet been approved. Members filed down the corridor to the senate, where they took their places before the bar. Here, Hon. Mr. Lemieux addressed His Excellency that yesterday he had chosen him as speaker.

"The House of Commons," he said in the old formula, "have elected me their speaker, though I am but little able to fulfill the important duties thus assigned to me. If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the commons, whose servant I am."

His Excellency, through the speaker of the senate, then formally approved the election of Speaker Lemieux—an approval which has now become nothing but a formality, for approval has not been withheld since that merry monarch Charles II. objected to the appointment of Sir Edward Seymour, at Westminster in 1679.

"Mr. Speaker," said Hon. Hewitt Bostock, speaker of the senate, "I am commanded by His Excellency the Governor-General to transmit to you the House of Commons, that, according to the old form, there might be no error, and Mr. Speaker left the senate chamber. Headed by the sergeant-at-arms, who for the first time bearing the mace upright over his shoulder, he led the procession of members back to the commons chamber.

The business of the session had begun. GOT 35 CENTS A TON FREIGHT

Coal Cargo to Halifax from New York Brought Chiefly as Ballast.

Halifax, N. S., March 9.—Thirty five tons of ballast freight rate for which the two masted schooner Evelyn Miller brought 197 tons of hard coal to New York to Halifax. The maximum rate during the war was \$1 a ton, but it has been around \$1 to \$1.25 in order to get her cargo, which she carried chiefly for ballast purposes, on her way to Halifax.

IP IN TROUBLE; CARGO OVERBOARD

Ship Sent to the Hungry of Russia Had to be Sacrificed.

Hambourg, March 9.—The U. S. steamer West Munham, a relief ship for the government to pass a bill preventing the C. N. R. and others from filling in the Marsh Creek. He also will ask that a successor be appointed to the commission to fill the place made vacant through the death of F. J. Rafferty. Mr. Donovan also interviewed the Minister of Health in regard to the pasteurization of milk.

HE'S GETTING BETTER. GIVE HIM TIME

Collier in the Boston Shoe and Leather Reporter.

SPEAK IN U. S. FOR NEW WORKERS IRISH FREE STATE MUCH EXCITED

Delegation to Leave Other Side on Saturday. Rush Ship for Pictures of the Royal Wedding.

Coming to Lay Peace Treaty Cause Before the People—Counter One by Supporters of de Valera—Kidnapped Men Freed.

Dublin, March 9.—A delegation of prominent advocates of the Irish Free State will leave for the U. S. on the S. S. Aquitania on Saturday. They are to put the case of the treaty before Irish residents in America. The De Valera supporters are reported to be sending a rival mission which may possibly sail on the Aquitania also.

Pierce Beasly, a vigorous supporter of the Anglo-Irish treaty and dissenting politically from Eamonn De Valera, heads the delegation of prominent advocates of the Irish Free State who will leave for the U. S. on the Aquitania.

Beasly left Dunloughra, last night for England and will be joined at Southampton by James O'Mara, former Sinn Fein agent in the U. S., and by Sean MacCullin, a member of the Dublin corporation.

The mission has been undertaken at the request of the provisional government, its members expect to stay about six weeks in the U. S., and will speak in its principal cities in behalf of the Irish Free State.

Beasly is director of army publicity during the Irish rebellion and still holds rank as commandant general. He recently has been publicity agent at the army headquarters at Beggan's Bush. O'Mara was a director of elections in the Sinn Fein campaign in 1918 and visited the U. S. with De Valera.

The Freeman's Journal, which is the authority for the statement that De Valera supporters are reported to be sending a rival mission also may possibly sail on the same ship as that of J. J. O'Kelly, former minister of education in the Dail cabinet and editor of the English Bulletin, and A. Stack, former minister for home affairs in the Dail, have applied for passports to the U. S., and intend to sail at the first possible moment, most likely on the Aquitania.

Dublin, March 9.—Evacuation of the Haubowling dockyards by the British has been ordered temporarily stopped by the provisional government. This step is taken because discontinuance of the work at these yards would result in the immediate departure to England of a large number of skilled workers. It would also bring hurried unemployment to several hundred other unskilled men and would involve the scrapping of a valuable plant.

Belfast, March 9.—Jack Baird and Albert York, who were kidnapped a month ago as an act of reprisal for the arrest of republicans on the Tyrone-Donegal border, near Strabane, were released last night.

THE JUNIOR RED CROSS IN SCHOOLS

St. John Delegation Intervenes Board of Education—The Marsh Creek. (Special to Times) Fredericton, N. B., March 9.—A delegation consisting of Mrs. H. Lawrence, Miss Jessie Lawson and Miss McKillop, of St. John, representing the Red Cross, waited on the Board of Education this morning and asked that the Junior Red Cross be introduced in the schools. The board appointed Dr. W. S. Carter and Hon. Dr. Roberts to consider the request.

J. M. Donovan, of St. John County, one of the great march commissioners, arrived here this morning and will ask the government to pass a bill preventing the C. N. R. and others from filling in the Marsh Creek. He also will ask that a successor be appointed to the commission to fill the place made vacant through the death of F. J. Rafferty. Mr. Donovan also interviewed the Minister of Health in regard to the pasteurization of milk.

As Hiram Sees It

JOHN W. DAVIS

SECOND NIGHT AND NO GHOST

All Serene in the McDonald Homestead

Tonight Dr. Prince will Have Members of the Family with Him and Conditions as They Were Before the Household was Disorganized.

Halifax, N. S., March 9.—Dr. W. F. Prince, expert investigator of the American Society of Psychical Research, was not called upon to extinguish any fires and his slumbers in the Alexander McDonald homestead, the reputed scene of uncanny happenings, were undisturbed last night, according to word reaching the Halifax Herald today from his staff correspondent D. McRitchie from Caledonia Mills, Antigonish County. Tonight Alexander McDonald and Mary Ellen adopted daughter will occupy their old home with Dr. Prince and his party and an endeavor will be made to reproduce the conditions under which the manifestations occurred.

Mary Ellen again called on the Dr. Prince party yesterday, spending upwards of two hours in the home from which she and her foster parents had been driven some weeks before. It was at this interview that Dr. Prince induced her to spend tonight in the house. The consent of McDonald, who makes frequent visits to the place for the purpose of tending the cattle, was obtained previously. These cattle with the tails of which some liberties were taken on a former occasion and which developed a habit of coming in to the house, but which were returned to the barn at the request of Dr. Prince, also spent a quiet night.

Those who slumbered peacefully in the house with Dr. Prince last night were: D. McRitchie, Bryce Cline, staff photographer, the Halifax Herald's Antigonish correspondent who was subjected to uncanny slaps on the wrist on the occasion of a former sojourn in the house.

U. S. DECISION WILL NOT AFFECT CONFERENCE PLAN

Other Nations Will be Represented at the Gathering in Genoa—Russia's Position.

London, March 9.—The decision of the United States not to participate in the Genoa conference will not affect the date of nor all plans for the conference so far as Great Britain is concerned. This was said officially this afternoon.

As the U. S. refusal was anticipated weeks ago, the announcement of it came as no surprise to official circles, where the realization exists, it was said, that the U. S. effort to consummate the results of the Washington armaments conference by the ratification of the conference treaties is engaging the government's attention primarily at present. That the other nations invited to attend the Genoa meeting will be present is the British belief.

As to Russia, while it is known that she desired U. S. representation, it is not thought likely she will risk losing her long sought opportunity to re-enter the conference of the powers by declining to take part in the Genoa gathering. The Pall Mall Gazette and Globe, first of the London newspapers to comment on the Washington decision against participation at Genoa says:—"The U. S. gives very disappointing support to those endeavoring to make real constructive progress in the restoration of Europe's economic life—a task of deeper importance than the mere activities of a soap kitchen."

ADVISES BRITISH TO OPEN BRANCH FACTORIES HERE

Quebec, March 9.—(Canadian Press)—Speaking at a Rotary Club luncheon last night, G. T. Milne, chief British trade commissioner for Canada and Newfoundland, said that Canada was doing right in developing Canadian industries, but he thought the British manufacturers would do well to follow the example of the Americans and open branch factories in the dominion.

SOVIET LIMIT IS REACHED, SAYS LENINE

Moscow, March 9.—"Soviet Russia's economic retreat has ended and will go no further in its recession to capitalism," so Nikolai Lenine told a congress of metal workers in a brief speech discussing the Genoa conference and Russia's internal problems.

INDIA'S APPEAL MAKES SENSATION

Urging of Turkish Rights Stirs England.

Message Condemned by the Newspapers as Likely to Embarrass the Government in Dealing With the Sevres Treaty.

(Canadian Press Cable) London, March 9.—India's appeal for Turkish rights urging necessity for revision of the Sevres treaty in view of the intense Moslem feeling in that country, has stirred public opinion here and has created a sensation. The appeal has aroused resentment in a large section of the press against the Earl of Reading, viceroy of India, and his council.

Every London newspaper this morning vigorously condemns the message, presumably addressed by the government of India to Edwin Montagu, secretary of state for India, and his newspaper critics characterize the action as unprecedented. They imply that the appeal was made over the heads of the British government. It is complained that India's demands are calculated to cause the British government serious embarrassment in its dealings with the signatories of the Sevres treaty. English editors, however, have been launched in India to influence the proceedings at the conference in Paris on March 22, when Great Britain, France and Italy hope to discuss a settlement in the Near East.

Some critics suggest that Edwin Montagu have some expert knowledge of the situation that this action by the British government will create great difficulties for Europe. London, March 9.—Edwin Samuel Montagu, the secretary for India, tendered his resignation today and it was accepted.

THE OPINION is widely expressed among the press here, however, that the British government will create great difficulties for Europe. London, March 9.—Edwin Samuel Montagu, the secretary for India, tendered his resignation today and it was accepted.

COAL STRIKE FAVORED BY MANY MINERS

Belleisle, Ill., March 9.—The vote of the 11,000 miners in the Belleisle sub-district will be approximately 25 to 1 for a strike, so James Mason, secretary-treasurer of the sub-district announced.

Birmingham, Ala., March 9.—Members of the United Mine Workers of America in the Alabama field, known as district No. 20, have voted overwhelmingly to strike on April 1.

St. Louis, Mo., March 9.—Frank Farrington, president of the Illinois district, United Mine Workers of America, telegraphed William Green, international secretary-treasurer at Indianapolis yesterday afternoon that the Illinois mine workers would attempt to negotiate a separate wage agreement with the Illinois operators and the international union arranged an interstate conference with the operators in the four states comprising the central competitive field on or before March 31.

Farrington denounced a telegram from international headquarters forbidding separate negotiations as "presumptuous and impermissible" and added that "We regard the release of your telegram to the press as a plain attempt to put the Illinois mine workers in a false position before the mine workers of the country."

Kansas City, March 9.—Representatives of the National Coal Operators' Association and district miners' unions in Southwestern Association territory gathered here today for what officials said was the most important conference. Whether the operators will put forward proposals for wage reductions and whether the miners' committee will be at liberty to negotiate any contracts until a basic agreement has been reached in the central competitive field comprising Illinois, Indiana, Ohio and Western Pennsylvania, were matters for conjecture.

ALSO CLAIM THE RIGHT TO MODIFY

French Statement re Washington Conference Agreements and the U. S. Senate.

Paris, March 9.—France and other European countries are awaiting the U. S. senate's ratification of the disarmament conference agreements before submitting them to their respective parliaments, according to a statement made by Premier Poincare and M. Sarraut of the French delegation to that conference before the senate committees on foreign affairs and the navy yesterday. They added that the ratification of the U. S. senate was likely to carry reservations, thereby entailing the other signatories to make equivalent modifications in the Pacific and naval limitation treaties.

France's difficulties at Washington committees will be at liberty to negotiate any contracts until a basic agreement has been reached in the central competitive field comprising Illinois, Indiana, Ohio and Western Pennsylvania, were matters for conjecture.

FRENCH MINISTER'S ATTITUDE AT PARIS CONFERENCE

British and Belgian Representatives Contend Otherwise Relative to Division of Billion Marks Paid by Germany.

(Canadian Press Cable) Paris, March 9.—Sir Robert Home, chancellor of the British exchequer, and Col. Jasper Thoms, Belgian premier and minister of finance, entered the first conference of finance ministers of Great Britain, Italy, Belgium and France, according to today's newspapers. Roland W. Boyden was present as unofficial observer for the U. S.

Those who have no obligations of the agreement reached last August 13, for example, has not been ratified by France, that the other three great nations have signed and ratified. We shall continue to study our problem tomorrow and doubtless shall reach an agreement."

FREDERICTON NEWS

Three Weddings in Capital—Death of Mrs. Wm. Gorman, North Devon.

(Special to Times) Fredericton, N. B., March 9.—Eliza Henderson Armstrong, daughter of Mr. and Mrs. Frank J. Armstrong, 264 York street, and Walter Davidson Leslie of this city were married on Wednesday night at the home of the bride's parents, by Rev. G. C. Warren. The bride, until within a week, was a student at Fredericton High School.

Robert Bruce Murray and Etta Augustus Mills, both of Fredericton, were married on Wednesday night at the Brunswick street Baptist parsonage, by Rev. G. C. Warren. The groom served overseas for two years, enlisting with the 10th battalion. They will reside in this city.

Miss Lillian Delong, daughter of Mr. and Mrs. Sheldon Delong of Halifax, formerly of this city, and Willard Jones, son of Mr. and Mrs. Harry Jones, of Elmwood, N. B., were married on Wednesday by Rev. L. F. Ash, at the George street parsonage. The honeymoon will be spent in Halifax.

Mrs. William Gorman died a little before midnight on Wednesday at her home in North Devon, after a lingering illness of Bright's disease. She was aged fifty-six years. Besides her husband, she leaves two sons, John, of Milville, and Earle, of Fredericton; also three daughters, Mrs. John Wilson, of North Devon; Mrs. John Boyd, of Nashwaakias, and Mrs. Guy Duffs, of Fredericton. Other surviving relatives are her aged father, David Jones, who made his home with her; also two brothers, David, of Fredericton; Henry, of Devon, and five half-brothers, Thomas, Harvey and Aaron, of Fredericton; Maurice, of South Devon, and Charles, of Taymouth, and one half-sister, Mrs. Robert Leslie, of Woodlands.

CHICAGO GRAIN MARKET

Chicago, March 9.—Opening: Wheat—May, 1.23; July, 1.21-1.8. Corn—May, 84; July, 87. Oats—May 41; July, 41.

GRAIN STOCKS ON U. S. FARMS

Washington, March 9.—Stocks of grain on the U. S. farms were announced yesterday by the department of agriculture as follows:—

Corn 1,313,130,000 bushels, of 42.6 per cent. of the 1921 crop, compared with 1,554,822,000 bushels or 48.3 per cent. of the 1920 crop and 87.7 per cent. of the ten year average. About 87.5 per cent. or 2,698,194,000 bushels of the 1921 crop is merchantable compared with 86.9 per cent. of the 1920 crop and 79.6 per cent. of the ten year average.

Wheat 131,136,000 bushels or 16.3 per cent. of the 1921 crop compared with 217,037,000 bushels or 26.1 per cent. of the 1920 crop and 19.8 per cent. of the ten year average.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whistles on stove covers or pipes and does not mat or cake when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

The "Mattress" Design 1920—in Twin Pair. Simmons Mattresses—made clean, kept clean right up to your door

YOU may never have thought of it, but—what happens to a Mattress when it is hauled around unwrapped in an open truck through the city streets?

You see now why Simmons Limited seals its fine, sanitary Mattresses in a carton roll. These Mattresses are built wholly of pure, clean, new cotton. No "renovated" materials. Canada has no Pure Bedding Laws—but Simmons Limited has! And we do not consider our responsibility fulfilled until the Simmons Mattress is delivered to the home as sweet and clean as it was made in the great, sunlit Simmons workrooms.

THE POISON AT WORK

A deliberate attempt is being made to secure for the New Brunswick Power Company the benefit of the expenditure made by the provincial government at Musquash. The Musquash development was undertaken at public expense in response to a public demand for cheap light and power for the people. The New Brunswick Power Company had no part in the expenditure and should have no part in the benefits.

The tactics pursued by the friends of the power company are such as might be expected. They begin by seeking to create a fear in the public mind that there is not sufficient power at Musquash, and that it is not constant, in which case the city would run the risk of being suddenly deprived of light and power. Then they proceed to argue that even if the power is there the cost of a cheap distribution plant would be prohibitive, and competition by the New Brunswick Power Company would restrict the market, and the whole thing would prove a white elephant on the hands of the city.

If the citizens of St. John permit themselves to be tied up again to the New Brunswick Power Company, giving it the benefit of the expenditure that was made at Musquash in their behalf alone, they may as well say good-bye to all hope of the industrial expansion of the city. If they permit power companies to play upon their fears and prevent them from reaping the benefits of hydro, they will deserve to be exploited to the limit.

MENTAL DEFICIENCY

Dr. Macle Campbell, director of the Boston Psychopathic Hospital, professor in psychiatry at Harvard, and chairman of the Committee for National Education on Mental Hygiene presented this week before the Women's Canadian Club of Montreal a strong appeal for better care of mental defectives.

"The problem of defective children, both in the home and in the school, was then discussed by the speaker, who enlarged upon the hindrance to the general educational level of a class caused by the presence of one or more defective children. He insisted that these children must be studied from a proper point of view, when it would be found, for instance, in some cases that truancy was not owing to delinquency but rather to improper educational methods.

"As far as the really delinquent child was concerned, Dr. Campbell urged that it would infinitely repay the authorities to study and provide for him or her in the early stages rather than in later days, when he or she became an adult prisoner in jails and penitentiaries. Segregation of these defective or abnormal children constituted a difficult problem for any community, but he suggested that much could be done by the provision of outdoor departments of hospitals."

It has been announced that the result of a mental survey in New Brunswick will be submitted at the present session of the provincial legislature, and it will be a subject of very deep interest.

An Associated Press cable announces that April 10 has been definitely settled upon as the date for the opening of the Genoa economic conference. Italy, from which a request for delay had been expected owing to the extended cabinet crisis last month has informed the French foreign office that she would be ready on that date. Lenin, of Russia, has expressed a desire to be present and meet Mr. Lloyd George. It may be hoped the British premier will be there. The world needs his counsel at such a momentous meeting.

A Washington despatch says—"A reflection of the business revival through the United States was seen by the postoffice department in reports from fifty of the largest postoffices showing receipts of \$20,839,000,000 for February, an increase of 6.41 per cent. over the same month last year. Parcel post centres, such as Chicago, showed decided increases."

Fighting in Genoa

Genoa, March 9.—Tension between the Fascisti and Socialist elements, which has been smouldering for months, culminated in several pitched battles and gun and revolver duels in the streets of Genoa on Tuesday night.

HONESTY IN SPORT

If the sporting writers in provincial newspapers would all discuss the question of amateur athletics from the right angle they would render a most valuable service. The conclusions of the writer depend entirely upon his point of view. If he is viewing the question of athletics as it affects the youth of the country he will stand four-square for clean amateur sport. If he is thinking of the bladders and those very selfish persons who are thinking only of their own enjoyment, and who want fast games regardless of any and all rules governing sport, then he will always be in a complaining mood, and making the way of the promoters of clean sport more difficult. It is safe to assert that if every sport writer stood for a sharp distinction between amateur and professional the difficulties that are now emphasized would disappear in a very short time. We are either to have clean sport hereafter or go back to the old discreditable conditions. The business men of every town, who are lovers of sport and who know the value of athletic training, should encourage the amateurs and exert their influence to make athletics a thing for the many instead of a contest between a few while the many look on and grumble. To say that sport cannot be made and kept clean is in effect to charge that most people are ready to wink at dishonesty for the sake of personal enjoyment at the ball field or hockey rink. The charge is not true, and its falsity should be demonstrated this year in the province of New Brunswick.

WOMAN'S WIT

Congresswoman Robertson of Oklahoma was talking about woman in politics. "Woman lacks political training as yet," she said, "but there is no reason why, in time, she shouldn't do so well in politics as men does. 'Certainly in replying to hecklers she will do well. I remember stopping one still October evening to listen to a woman resending some new creed to others from a soap-box. 'Say! a rough shouted at her. 'Say, you look cold, baby! Why don't you warm up, like me?' 'Well, you see, baby,' answered sweetly from her soap-box—well, you see, I've got a clean neck!'"

DAY AND NIGHT

"Patrols arrived at given position and there are no signs of ship or crew." Wireless from Cape Race.

All day the steamer, stricken grievously lay wallowing within a wreck of sea. That floundered her before a maddened sky. To lose her in unending depths of green. And under a huge cascading mountain swell. Smothered the bow and, sweeping aft, wreathed free. The boats that were the last remaining hope. Of those despairing souls who were the crew.

And ripped the battens off the forward hatch, Wasting the labor of the graining. The Wireless spluttered wildly . . . and was still.

All night in answer to that lonely cry, The stockhold of a friendly neighbor. With awaiting men, and the great throbbing light, Was hurled against the cohorts of the storm!

Until he fell rapped in the engine-room, And with half-speed ahead the ship lay to, While muffled figures climbed the reeling bridges. And peered about for sign of signal flags. And seeing none still peered, until the Dawn.

With one swift shaft of light, laid bare A waste of heaving waters . . . and no more. —Andrew Merkle in Halifax Chronicle.

LIGHTS ON HYDRO

To the Editor of the Times. Sir,—Nobody would think of asking a corporation to handle without profit a commodity in which it trades. Consequently any possible arrangement that might be made with the N. B. Power Co. pre-supposes a profit to the company for the passing along of something produced by the expenditure of public money and the utilization of one of our great natural resources.

Why pay a commission to get something you already own? Putting it another way: why introduce into the business of hydro distribution a middle-man whose services are entirely unnecessary? Does the power company possess facilities for the distribution of power that we cannot duplicate? No. And we can duplicate their facilities at a cost far below any valuation that they might place on their equipment. Do the facilities for hydro distribution that we cannot command at an equivalent figure? No. Is the equipment of the power company capable of handling economically even the present consumption? Bear in mind right here that the whole future of hydro and the assured pace of cheap power depend to a great extent on increasing the consumption. Again the answer is no, if the reported transmission losses of over 30 per cent are considered.

It seems apparent that under any management the existing system would be a weak foundation on which to build the structure of our hopes for cheaper power, as it would practically have to be reconstructed before it could function properly.

In the light of facts adduced by numerous reports and in the press, why continue to ignore the wishes of the public by dissipating public time and money for the avowed purpose of seeing what can be done to help the power company. Yours, JOHN N. FLOOD.

LETTER FROM W. R. TURNBULL

To the Citizens of Saint John:—I recall hate to say anything in this matter, for I am considered a "prejudiced character," with a predilection for salt water. But the situation is so complex, that we will soon speak of the hydro power instead of the hydro power. It seems to me this complexity is very apparent and very unnecessary, and in this letter I just want to point out what seems to me the very obvious and only proper solution to the matter.

I must make some assumptions, I believe them to be fair—and I must rely on general data, for even the engineers who have examined the Musquash proposition have not the special data they should have, and they will not be able to get it for many years to come! First—The market (which is undoubtedly the City of Saint John). For the sake of clearness I reduce all power figures to the basis of horse power.

St. John uses at present (for power, lighting and the street railway, which we will call for brevity "power") an average of 1,885 horse power. By the Ross report minimum, she could get from Musquash 1,375 horse power. If Saint John were situated in the zone of cheap power, Ontario and Quebec, her population indicate that she would use 21,400 horse power.

However the Musquash power is not going to be very cheap—no matter through whom it is to be distributed—but it is fair to assume that Saint John, if she takes at present (if rates are cut, say one-half) and that will be 3,700 horse power, which, although only one-sixth of her requirements if the power were really cheap, is yet 15 per cent more than the Musquash can supply, on the government estimate. So much for the market. Saint John alone wants all the Musquash power and 15 per cent more at the very least.

Second—The Supply. Here it is difficult to estimate, since the engineers who have examined the plant differ so greatly in their opinions, and their data is apparently so meagre and insufficient. Several years ago an English engineer, who examined the Musquash, said he "wouldn't give a shilling for it." Later, an American capitalist, whose interest was induced, by the Musquash examined and turned it down as an uncommercial proposition. And later still the government, with our money, have developed the power, and on the admitted cost of developed horse power it is a very uncommercial proposition (see footnote), but "that is neither here nor there," we've got it, we'll have to pay for it (in taxes or rates remains to be seen) and we may just as well use it, for it's here.

In view of the fact (Dominion government report "Water Powers of Canada," 1911-p. 296) that the minimum discharge on the Saint John river, at Grand Falls, is 1.5 per cent of the maximum, at the same point, it is most improbable, even with the excellent system of storage basins designed for the Musquash, that the Musquash can maintain 3,700 horse power for the use of Saint John—for in a period of drought, not only the rainfall, but the evaporation, from river and storage basins alike, is enormous. The difference between the discharge of water, say in May and in October, is only appreciated by those who examine the data, and in the case pointed out above, which is a case applying to the same climate and same province, the discharge varied from 103,102 cubic feet per second, in May 1909, to 1,223 cubic feet per second, in October, 1910.

This—The Guarantee. I understand that the Power Commission, at first, would guarantee nothing to Saint John, and that later they agreed to guarantee 3,000,000 k. w. h. per year (the average equivalent is 3,200 horse power). But the "per year" is the point that wants watching, no doubt they can deliver the amount stated per year, but Saint John wants her power per day—she doesn't want a lot of extra power in May and a shortage in October. I have shown above that Saint John, at present, requires 1,855 h. p. (average per day) and should soon require 3,700 h. p. per day. The Power Commission, at first, would guarantee to supply, every day of the year, in and year out, 3,700 h. p. And will they guarantee to supply 1,855 h. p. every day of every year? And will they back the guarantee by money to indemnify the city against loss from power deficiency? I may be quite wrong, but I think the city will find that the Power Commission is not ready to make these guarantees, and unless they are ready to make them municipal plant is simply out of the question for it involves not only a distribution system but an auxiliary steam plant in well and let those who advance this figure up first the cost and also let them remember the Carleton ferry.

Fourth—the solution.—To recapitulate, Saint John can take all the Musquash power, and more—if rates are cut out to about half those at present charged—than she can use at present. Saint John should require about 3,700 h. p. It is probable that the Musquash can supply the 3,700 h. p. required, every day of the year, year in and year out, for there will be times of drought when the Musquash will probably not be able to supply even the 1,855 h. p. required at present, let alone the assumed increase to 3,700 h. p. The guarantee cited above, which are the only kind worth considering, are not likely to be made. This then is the very obvious conclusion that every thinking person must reach—Some auxiliary steam plant will be a necessity, and if the municipality builds competitive lines, by distributing the power to customers, they must also build a competitive steam plant, to carry over the excess power, or they cannot take care of their customers in times of drought.

Now I hold no brief for the N. B. Power Co., and I have not a single share of their stock, but would not this duplication of system, in a small city like Saint John, be simply ridiculous? Surely the N. B. Power Commission who would distribute the Musquash power over its present lines, by direct contract with the Commission, hold their own view of the deficiencies that are almost certain to occur, and have the rates regulated by a proper Public Utilities Commission who would safeguard the public, and obtain for them the lowest practical rates, while treating the Power Company fairly, allowing them a rate that will cover interest, depreciation, etc.

The obvious thing is for Saint John to take the Musquash power, and the equally obvious thing is for the Power Company, who have the necessary auxiliary steam plant, and existing transmission lines, to distribute the Musquash power, under regulation of rates, determined by a Public Utilities Commission—and the commission, for this purpose, should be composed of a business man, a lawyer, and an engineer, all clever men and alive, and each member should be "without fear of favor" and should command the fullest confidence of the public, as to his ability, efficiency, and integrity. Thinking you, Mr. Editor, for your space, I am, Sincerely yours, W. R. TURNBULL.

Foot note, referred to above.—We have at Musquash a plant for which 21,000,000 k. w. h. per year, is claimed by the government engineers, let us grant that the power is there, although it is extremely doubtful if so much is there—the equivalent of 21,000,000 k. w. h. per year is an average of 3,200 horse power, and if we divide 21,000,000, the cost (to date) of the proposition, we get a development cost of \$225.00 per horse-power, whereas Hydro-development that costs more than \$200.00 per horse-power is usually considered, by engineers, to be an uncommercial proposition.

TO PLANT BANANA TREES
First Plantation to be Started on Guatemala's Pacific Coast.

The growing of bananas on the Pacific coast of Guatemala is to be undertaken soon for the first time on a commercial scale. Consul Frost at Guatemala City reports to Washington. An American fruit corporation, recently authorized to do business in that country, expects to have 2,000 acres planted to bananas in two months on a plantation fifteen miles west of San Jose de Guatemala.

Development of the banana industry, which has attained large proportions on the Caribbean coast, has not been attempted on the Pacific side hitherto because of insufficient rainfall, lack of port facilities and lack of proper means of transportation to the western markets of the United States.

The new company expects to overcome the difficulty of water supply through irrigation. Arrangements are being completed for the transportation of the fruit to Los Angeles and other western ports of the United States.

HRONG IN TRIBUTE TO BERT WILLIAMS

Service in Masonic Temple in New York—Burial in Woodlawn.

New York, March 8.—A throng which overflowed in the street yesterday attended services in connection with the funeral of Egbert Austin (Bert) Williams, famous negro comedian, who died here on Saturday.

This was the first time that a negro was buried with the Masonic ritual in his state, according to officers of the fraternity. Williams was a member of Varsity Lodge, No. 507, of Scotland, and was at the cabled request of the Grand Lodge of Scotland that the services were held at St. Cecilia's, known as the "Theatrical Lodge of the City."

Williams' Masonic shawl, apron, received from the lodge in Scotland, was placed in the coffin. An orchestra from Broadway musical show played the funeral march. Soloists from some of New York's most exclusive churches sang the Lord's Prayer. Among the prominent negroes present were Charles V. Anderson, supervisory agent of the department of agriculture, and Henry T. Junghans, baritone at St. George's, Episcopalian church, whom the late Bert Williams designated to sing his favorite hymn at his funeral.

Some years ago Williams was of the noted comedy team of Williams and Walker.

LABOR HAD SETBACK. J. H. Thomas on London County Council Elections.

(Canadian Press Cable.) Interest in the recent county council elections outside of London was not very great. Except where Labor already possessed material representation many seats were uncontested. Labor gained a majority three years ago, but the subsequent rise in rates resulted in the formation of a special association to combat the labor activities.

J. H. Thomas, the railway leader, who is generally considered the most statesmanlike of the Labor leaders in this country, and who insistently preaches moderation, has declared that the result of the London county council elections is the most serious setback the democratic movement has yet received.

While not interpreting the result as a refusal of the electors to trust Labor, Mr. Thomas says it certainly is a sign of the alarm of the electors concerning the Poplar methods of administration. He declares that Labor must show that it is not out to govern merely for one section of the metropolis.

MUCH TALK ON THE ADDRESS, BUT VERY LITTLE NEW

Fredericton, March 8.—The feature of the session of the house this afternoon was the moving of an amendment to the address by the opposition expressing regret that owing to the large deficit no mention had been made of any policy of economy or retrenchment. Before a vote

was put on the amendment adjournment of the debate was moved by Hon. P. J. Veniot, who will have the floor when the house resumes tomorrow at 8 o'clock. Four speakers took part in the debate today—John L. Peck, of Albert; R. K. Tracey, of Carleton; S. J. Burlock, of Carleton, and J. M. Fiewelling, of Charlotte. Mr. Peck attacked the government for the manner in which the prohibition act was being carried out and he went on record as being against the raising of new revenue by the sale of liquor. Mr. Tracey outlined the aims of the Farmer party, which, he said, were to improve conditions in the rural districts. He advocated an act similar to that of the Manitoba rural credits act to aid the farmers. Speaking of expenditures, he said that if double the amount had been

PURITY FLOUR

spent on the roads the people would still be asking for more. S. J. Burlock spoke in opposition to any cut in stumpage rates and said that the lumbermen ought to be willing to take a chance the same as the farmers. He thought the administration of the health act was costing too much. Mr. Fiewelling criticized the government for increasing the price of school books. He also attacked the hydro-electric development at Musquash. In conclusion he moved an amendment to the address to the effect that as there was a large deficit regret was expressed that the speech from the throne did not contain any reference to a policy of economy or retrenchment. Mr. King submitted the first report of the contingencies committee. Notices of enquiry were given for Tuesday next as follows: By Mr. Fiewelling—As to whether E. S. Carter had made a trip to British Columbia on public business and as to whether his expenses were paid by the province and the amount of same. By Mr. Young—As to work done on

the provincial normal school building and the cost of the same. By Mr. Richards—As to whether the government has purchased the Queen Hotel property in Fredericton or taken an option on the same; also the purchase price and whether any payment has been made. Hon. Mr. Robinson submitted the sixty-first annual report of the department of lands and mines. Hon. Mr. Roberts submitted the annual report of the provincial hospital for 1921.

IMPERIAL CROWDS SEE FINE PICTURE

Gloria Swanson and Milton Sills in Elinor Glynn's "The Great Moment"—Very Elaborate.

Imperial theatre was packed to capacity last night at both shows, when Gloria Swanson and Milton Sills, most popular film stars, were the centre players in Elinor Glynn's first out-and-out movie fiction, "The Great Moment." It certainly takes Madame Glynn to put the finishing touches on a love story. It also takes the Paramount people to put the elaboration—the lavish sets, delightful gowns and the thousand et ceteras—to build the story up. "The Great Moment" is not only the first starting vehicle for Gloria Swanson but is the first original story written by the famous author of "Three Weeks." Because the production accorded the story, "The Great Moment" is proving a box office attraction. If Nadine inherited the gypsy temperament of her mother, it's hard to understand why she accepted the plans for her marriage as arranged by her English father. Not until after the father broke one engagement for her to force her into another marriage and that had been annulled—and then some—did Nadine assert herself and choose her own husband. Another funny twist is where Nadine, after finding herself married to the man she really loves, signs a paper annulling the marriage. However, they say that's Director Wood has made a lavish bit of entertainment, particularly in the latter reels, when the heroine is being entertained in Washington by a rich man who wants to marry her. The "parties" that are staged are probably among the most spectacular seen on the screen yet. In smaller matters as well director Wood has done good work. The incident in which Nadine is bitten by a snake is well done, and there are numerous other moments equally well handled. The interest is well maintained throughout. Miss Swanson is attractive as Nadine, and her variety of costumes and appearance generally is less bizarre in character than usual and in much better taste. She is gorgeously photographed. Her performance is very good, and others who do equally good work, but of course haven't as much to do, are handsome Milton Sills, Alec B. Francis, Helen Dunbar and Arthur Hull. Nadine Pelham, the daughter of a gypsy woman and an English nobleman, is in love with Bayard Delavel, an American engineer, though engaged to her cousin, Eustace, according to her father's arrangement. Through his misunderstanding the father forces Nadine to marry Delavel when the two are found alone in the latter's cabin. Misunderstanding again causes an annulment, following which Nadine, in an effort to forget, becomes notorious in Washington. Her father admires her, but to prove her will power this time she engages herself to Hopper, only to be confronted by Delavel on the eve of her wedding to Hopper. It never takes place, for Nadine goes back to Delavel. This same programme will be shown again today, but tomorrow there is an entirely new bill, the feature of which will be our old friend William S. Hart in another of his early western classics, "Three Word Brans" a gripping heroic of Indian days and early settlers. The serial extra.

A former military man in this city will have cause to rejoice today over the honesty of Joseph Fleming, of 83 North street, when a large check and also a small sum of money is returned to him. Mr. Fleming found the check and money early last evening in North street and at once took it to the central police station, where he turned it over to the detectives who expect to be able to return the money to its owner today.

East or West Eddy's Best—since 1851!

BLACKBIRD EDDY MATCHES

If he eats them Don't worry—

Since Jan. 1, 1915, all Eddy matches have been NON-POISONOUS!

Time was when matches were poisonous. Time was when there was danger to health of employees in the match-making process.

But Eddy enterprise put a full stop to both risks—and that was long before the Government wisely made it illegal to manufacture poisonous matches.

There are people who still believe matches are poisonous. How welcome the assurance of the Eddy Company that in all their 35 different kinds of matches there cannot be found a single match-head harmful to health!

What a relief to every mother to have the positive assurance that on his joyous explorations baby cannot be harmed by stray matches encountered on his prow, if he puts them in his mouth.

Isn't it good also to know that the care taken by the Eddy Company for the health of their employees makes for safer, cleaner matches, perfectly adapted to every consumer use?

Eddy's is the Canadian word for matches—safe in manufacture, safe in use.

LARGE CLASS FOR TRAINING COURSE

The scout leaders' training course, under the St. John District Council, Boy Scouts' Association, commenced last evening in Trinity church schoolroom with twenty-five registering to take up the six weeks' course. Dr. G. B. Peat presided at the meeting and, in opening the school, outlined the programme that would be taken up. He welcomed those who were present and urged them to adopt the motto for the course, "Every man to bring another man." The subject for the main address of the evening was "The Need of the Scoutmaster and His Place in Scouting." Rev. Canon R. A. Armstrong discussed this theme in a spirited manner. He declared that the scoutmaster was the main pivot in the scout organization. For a scout troop to maintain permanent life, it must possess a real, live scoutmaster at the head of affairs. He outlined what he considered the main essentials in the make-up of the ideal scoutmaster. While the scoutmaster did not necessarily need to know and be able to do everything, yet, Canon Armstrong averred, he at least should be an expert in one line, so as to be a real leader and thus win the respect of the boys in his charge. The scoutmaster should try to interest the parents in his work and should be need instruction in one particular phase of scout work, there were men in the church congregation whom he could fall back on for assistance. The ideal scoutmaster, in the speaker's opinion, was the father, who, he declared, was "God's ordained scoutmaster." In conclusion he urged the scoutmasters to study their boys and encourage them to develop their talents. After the address, fifteen minutes were devoted to instruction on tenderfoot tests. Later, refreshments were served. The next class will be held next week. Members of Loyalist Chapter I. O. O. E. supplied refreshments, with Mrs. J. L. McAvity as convener.

MORE THAN A BILLION.

Controller Charles L. Craig of New York City, announces that, for the first year in the city's history, the gross receipts and gross expenditures in 1921 both were in excess of one billion dollars. Gross receipts aggregated \$1,248,429,411, including all transactions between funds and the city treasury and city sinking funds. Gross expenditures amounted to \$1,194,706,153. The entire overturn for 1921 may be noted as being in excess of two billions of dollars. The controller points out, but after eliminating all the entries reflecting interest transactions, the actual cash receipts totaled \$1,050,813,512, while the actual cash payments amounted to \$1,002,089,254.

He beat the train to the crossing a good many times

"It's never touched me yet," he explained when they pointed out the risks.

That's the answer a good many people make when they hear that the drug element in tea and coffee often harms nerves and health. They say it's never touched them yet.

Sometimes they only think it hasn't.

Wakeful nights, drowsy days, headaches that keep coming more frequently—often are blamed on bad luck when the blame belongs on bad judgment in taking needless chances with harm.

Over on the safe side is Postum, a pure cereal beverage, delicious and satisfying—containing nothing that can harm nerves or digestion. Thousands who used to try their luck with tea or coffee are enthusiastic over having found safety and satisfaction in Postum.

It's worth your while to make the test with Postum for ten days. Postum is a delightful drink for any member of the family, at any meal.

Your grocer has both forms of Postum: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health

5TH AVE. IMPORTER
SLAIN BY A BOY

Max Engel of Engel & Kraus
Victim of Bullet Fired by
Former Employee—Lay in
Wait at the Plat.

(New York Times.)
Max Engel, fifty-seven years old, of Engel & Kraus, 110 Fifth avenue, importers and manufacturers of women's neckwear, was slain yesterday afternoon by a former employe, who lay in wait in a doorway on the seventh floor, and died a few minutes later in New York hospital without regaining consciousness.

The slayer, a man of about thirty years, was arrested at eight o'clock last night at 215th street and 12th avenue, just outside the building in which the crime was committed. He was Isadore Karp, thirty years old, of 539 Willoughby avenue, Brooklyn.

When told by patrolmen who took him handcuffed to the West Thirtieth street station that his former employer had died, Karp is said to have replied: "In the guy that killed him. Let 'em bury him." The police said he had a partly loaded German revolver. Two dozen cartridges also were found in his pockets.

Asked by detectives why he had committed the crime, he is quoted as having replied that he had been out of work since he was discharged three weeks ago by Engel & Kraus, and that he had become further depressed yesterday when his mother turned him out of the house. This his mother denied later.

Karp was noticed waiting yesterday morning at the sixteenth street entrance of the building where the shooting happened. Engel & Kraus occupy the sixth and seventh floors of the building there. When asked by Joseph Colice, an elevator boy, why he was idling about the building, Karp replied that he wished to see Henry Kraus, son of Mr. Engel's partner, and general manager of the firm.

At ten o'clock he was seen by the same elevator boy on the seventh floor, used as a packing room. Karp was not seen again until two o'clock, when Henry Herz of 337 Bedford avenue, Brooklyn, noticed him on the seventh floor near the elevator shaft.

Soon thereafter Karp told Leo Eisenberg, a shipping clerk, that he wished to talk with Henry Kraus. The manager sent word to Karp that he would not come out. A few minutes later Miss Herz again saw Karp in a hallway. In a right-hand pocket, she caught she saw the outline of a revolver, she said, as though Karp was ready to shoot.

Miss Herz at once warned Mrs. Franklin of Woodmere, L. I., daughter of Mr. Engel's partner, who hurried to the sixth floor to tell her father. Both partners started for the seventh floor. Mr. Engel leading. As Mr. Engel entered the hallway, where it was said Karp stood behind a door, employees thought they heard the suspect exclaim: "What did you make me lose my job?"

Building reports presented at the regular meeting of the St. John branch of the Canadian Building and Construction Association last evening in the Board of Trade rooms were very favorable for the coming spring season. Delegates to the Dominion-wide conference of the organization in Hamilton on January 17 to 20 last, were also received. The meeting unanimously passed a resolution favoring civic ownership of hydro-electric current from Musquash. R. E. Fitzgerald, the president, was in the chair.

for? Hands up!" An instant later a shot was heard. Mr. Engel fell unconscious. Two more shots went wild. Immediately the office was in an uproar. Some of the women employes ran to the fifth avenue windows and called "Police!"

Eisenberg and his assistant, Roy Rappaport, carried the wounded man across the street to the hospital. Dr. F. W. Renfrew, who examined him, found Mr. Engel beyond aid. The bullet had entered his left side about two inches under the heart and had passed out at the left side of his back above the kidney.

Gustav Kraus, Mr. Engel's partner, said at his home in Woodmere, L. I., he knew of no motive for the crime. Employees who had known Karp during the year he was employed as assistant shipping clerk said he seemed to have had an un governable temper.

After questioning Karp, the detectives said they believe he had intended to shoot Henry Kraus, but that in his excitement he mistook Mr. Engel for the younger man. Mr. Kraus requested police protection for his home in Woodmere last night. Karp told the police he had obtained the revolver at a pawnshop in Montgomery street, Jersey City, but had not thought of committing murder until Sunday, when he saw an advertisement of guns in a magazine.

At Karp's home, 539 Willoughby avenue, Brooklyn, last night, his mother and sister said the boy was mentally unbalanced. The mother said Karp had worked for Engel & Kraus a year and had given up the job of his own accord after he had quarreled with Henry Kraus.

Fat That Shows Soon Disappears
Prominent fat that comes and stays where it is not needed is a burden, a hindrance to activity, a curb upon pleasure. You can take off the fat where it shows by taking after each meal and at bedtime, one Marmola Prescription Tablet. These little tablets are as effective and harmless as the famous prescription from which they take their name. Buy and try a case today. All druggists the world over sell them at one dollar for a case or you can order them direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. You can thus say goodbye to dieting, exercise and fat.

THE ORANGE WILL CONTINUE FIGHT
Sarnia, Ont., March 8.—The Orange men will continue to fight for the public schools as the great utility of this dominion of ours," said H. C. Hocken, K. C., M. P., supreme grand master and editor of the Orange Sentinel, addressing a capacity public meeting in the city tonight, in which he was severely attacked by the Roman Catholics in the province led by Archbishop McNeill and Bishop Fallon in the attempt to obtain amendments to the schools assessment act.

BUILDING OUTLOOK MORE FAVORABLE
Building reports presented at the regular meeting of the St. John branch of the Canadian Building and Construction Association last evening in the Board of Trade rooms were very favorable for the coming spring season. Delegates to the Dominion-wide conference of the organization in Hamilton on January 17 to 20 last, were also received. A powerful, soothing, counter-irritant for all pain.

BENTLEY'S OINTMENT
For Man and Beast

WOMEN FOR CIVIC DISTRIBUTION OF HYDRO-ELECTRICITY

At a well-attended meeting of the Ladies' Auxiliary of the B. of R. T. in the Oddfellows' Hall, Guilford street, West End, last evening, the hydro-electric situation was thoroughly discussed by Roy Willet, president of the Hardware Clerks' Association, which stands for municipal ownership of hydro-electricity in this city.

Mr. Willet spoke of the necessity for cheap power to develop manufacturing industries in the city. He pointed to Ontario's record in this matter and said that the results attained there in the matter of reducing light and power costs had been phenomenal. He pointed out that Ontario went toward a reduction of rates. If a private corporation handled hydro, all profit went to them and not to the people.

He took up the question of the cost of a distribution plant set up by the city. At Halifax, it had been estimated that an amount of \$200,000 would cover this item.

Applying the same process of figuring out \$200,000, Mr. Willet also dealt with the Ross report and showed how its conclusions had been upset by Herbert Phillips and C. O. Fulton. It had been argued, Mr. Willet said, that the city would lose the taxes from the N. B. Power Company. The speaker showed conclusively how the city would gain through the amount saved in street lighting and this saving would more than offset any loss through taxes. He stressed the necessity for immediate action. The current would soon be ready for distribution and if the city was not ready to take it over, someone would have to pay around \$200 per day for the current. He concluded by saying that if civic ownership was not adopted, a plebiscite should be held. Mr. Willet's address was listened to with deep interest and a hearty vote of thanks was extended to him for his speech.

YOUR FRECKLES
Need Attention in March or Face May Stay Covered.
Now is the time to take special care of the complexion. You can't look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay covered all winter. It is the time to use Othine—double strength. This preparation for the removal of freckles is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of Othine, double strength, and even a case you can order them direct from the wonderful improvement, some of the smaller freckles even vanishing entirely.

WORK OF W. M. S. PRESENTED IN MOST DRAMATIC MANNER
Inspiring Pageant in Centenary Church in Honor of Fortieth Anniversary
Most impressive and greatly inspiring was the pageant presented last evening in Centenary Hall by the W. M. S. of Centenary church to commemorate the fortieth anniversary of the Women's Missionary Society of the Methodist church in Canada. The large hall was filled with an audience which was most appreciative of the well staged and dramatic presentation. Rev. B. G. Fulton, the pastor of this church, led the opening devotions and Mrs. C. F. Sanford, the president of the W. M. S., gave a brief sketch of the society's work. The W. M. S. of Centenary church is the largest in the province. It was founded in 1811. The "Baby that wasn't wanted" is the name of the woman appearing in the person of E. T. C. Knowles. Missionary enterprise and its inspiration were shown by charts and maps. Miss Ruth Hanson appeared as the delegate from Japan; Miss Louise Adams, as the delegate from China, and Miss Mary Marmie, as the delegate from the West Indies. Each told of the need of their countries.

As the second part of the pageant there was shown a pageant of the world. The doctor for the sick world came to offer their services and then appeared all the spiritual burdens which oppress the world. The bridge and a solemn solitary entrance and for a space held the centre of the stage. When the solo, "The Light of the world is Jesus," had been sung with feeling by Mrs. G. H. Moore, Canada received support from the members of the W. M. S. who each offered some form of service. Mrs. A. E. Logic, representing the spirit of Christianity, sang "Life the Cross of Christ on High" most effectively and then the representatives of the different lands who had received the gospel message, came forward and grouped themselves about her. All of the performers then marched in procession around one side and up the other while they sang "In the Cross of Christ I glory." The singing of the Doxology closed the program which had presented the work of the W. M. S. in a splendidly dramatic and appealing manner. Miss Alice G. Hea was the pianist.

Those who took part in the pageant were as follows: Mrs. W. H. Barker, Mrs. L. A. Langstroth, Mrs. M. D. Austin, Miss Edna Austin, Miss C. D. Colpitts, Mrs. George H. Moore, Miss Margaret Evans, Mrs. R. G. Fulton, Mrs. H. A. Goodwin, Miss Annie Tait, Miss Virginia Gibson, Miss Faith Henderson, Miss Fowler, Miss Beatrice Holder, Mrs. R. A. Sinclair, Miss Annie Stark, Miss Ella Cambridge, Mrs. J. LeFacheur, Mrs. R. A. McLaughlin, Mrs. W. H. Nicoll, Miss Edith Brittain, Miss Ruth Hanson, Miss Margaret Sealy, Mrs. Arthur Amund, Misses Hanson, Julia Hennigar, Louise Adams, Miss Mary Marmie, Miss Laura Baxter, Mrs. H. W. Cole, Miss Margaret Hanson, Misses Cora Clarke and Alicia McCavour.

Get a 60 cent box today at any drug store. They are truly a complexion marvel.

GIRLS! LEMONS WHITEN HANDS
Press the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quartet of harmless and delightful lemon-brush lotion to soften and whiten red, rough or chapped hands. This home-made lemon lotion is far superior to glycerine and rose water to smoothen the skin. Famous stage beauties use it to bleach the public Jonathan Creek runs through it and it is planned to put a dam on the creek and make a lake about ten feet deep. Over the dam to be a roadway connecting with the Salloway park, but was leased for a pasture. The lease was cancelled on the first instant and the territory is now a real park open to the public. Jonathan Creek runs through it and it is planned to put a dam on the creek and make a lake about ten feet deep. Over the dam to be a roadway connecting with the Salloway park, but was leased for a pasture. The lease was cancelled on the first instant and the territory is now a real park open to the public.

POLITICAL RUMOR
Halifax, March 8.—A political rumor published by the Evening Mail today says that Hon. A. K. MacLean, M.P. for Halifax, will shortly be appointed to the Exchequer court and H. G. Bauld, Halifax representative in the Nova Scotia house of assembly, will offer for the federal seat. The report also stated that J. Sparaker, who retired this spring after three terms as mayor of Halifax, will be the Liberal candidate for Bauld's seat in the local house.

MONCTON'S NEW PARK
At a meeting on Monday of the Moncton district Religious Education Council, C. H. Olds spoke on Moncton's natural park, which contains about 160 acres and was purchased some time ago by the city. He said that the city had leased the park for a pasture. The lease was cancelled on the first instant and the territory is now a real park open to the public. Jonathan Creek runs through it and it is planned to put a dam on the creek and make a lake about ten feet deep. Over the dam to be a roadway connecting with the Salloway park, but was leased for a pasture. The lease was cancelled on the first instant and the territory is now a real park open to the public.

HEART AND NERVE PILLS
The reader, will, no doubt, remember when, only a few years ago there was a collision in the Halifax, N. S., Harbor and one of the munition ships was blown up, causing great loss of life and property. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do any housework. I would take such nervous spells I would be under the doctor's care. I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble." To all those who suffer from nervous shock we would recommend our

Stiff and Lame From Rheumatism
Don't drug kidneys but get a bottle of old reliable St. Jacobs Oil
St. Jacobs Oil stops any pain and rheumatism is pain only. Not one case in fifty requires internal treatment. Stop drugging! Oil right into your sore, stiff, aching joints and relief comes readily. St. Jacobs Oil is a harmless rheumatism treatment which never disappoints and can't burn the skin. Limber up! Quit complaining! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. St. Jacobs Oil is just as good for sciatica, neuralgia, lumbago, backache, sprains.

BEAUTY OF THE SKIN
Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. It removes blemishes, roughness and redness of the skin, freckles and sunburn, and keeps the skin soft, smooth and velvety, irritable and systems disappear, and the complexion is bright and clear. Limited, Toronto. Sample free if you mention this paper.

Dr. Chase's Ointment
DYE ANY GARMENT OR DRAPERY WITH "DIAMOND DYES"
Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfection in dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

THIN, FADED HAIR NEEDS "DANDERINE" TO THICKEN IT
35 cents buys a bottle of "Danderine." Within ten minutes after the first application you can't find a single trace of dandruff or falling hair. Danderine is the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping your hair to grow long, thick and luxuriant. Girls! Girls! Don't let your hair stay lifeless, colorless, thin, scraggy. A single application of delightful Danderine will double the beauty and radiance of your hair and make it look twice as abundant.

HEART AND NERVE PILLS
The reader, will, no doubt, remember when, only a few years ago there was a collision in the Halifax, N. S., Harbor and one of the munition ships was blown up, causing great loss of life and property. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do any housework. I would take such nervous spells I would be under the doctor's care. I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble." To all those who suffer from nervous shock we would recommend our

Stiff and Lame From Rheumatism
Don't drug kidneys but get a bottle of old reliable St. Jacobs Oil
St. Jacobs Oil stops any pain and rheumatism is pain only. Not one case in fifty requires internal treatment. Stop drugging! Oil right into your sore, stiff, aching joints and relief comes readily. St. Jacobs Oil is a harmless rheumatism treatment which never disappoints and can't burn the skin. Limber up! Quit complaining! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. St. Jacobs Oil is just as good for sciatica, neuralgia, lumbago, backache, sprains.

BEAUTY OF THE SKIN
Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. It removes blemishes, roughness and redness of the skin, freckles and sunburn, and keeps the skin soft, smooth and velvety, irritable and systems disappear, and the complexion is bright and clear. Limited, Toronto. Sample free if you mention this paper.

Dr. Chase's Ointment
DYE ANY GARMENT OR DRAPERY WITH "DIAMOND DYES"
Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfection in dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

THIN, FADED HAIR NEEDS "DANDERINE" TO THICKEN IT
35 cents buys a bottle of "Danderine." Within ten minutes after the first application you can't find a single trace of dandruff or falling hair. Danderine is the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping your hair to grow long, thick and luxuriant. Girls! Girls! Don't let your hair stay lifeless, colorless, thin, scraggy. A single application of delightful Danderine will double the beauty and radiance of your hair and make it look twice as abundant.

FROSTILLA FOR CHAPPED HANDS ROUGH SKIN

HAVING SURPLUS, NO NEW TAXATION

No new source of revenue will be tapped by the budget to be introduced in the Ontario legislature by Provincial Treasurer Smith this week. Hon. Mr. Smith has intimated that while there would be some changes in taxes already in vogue there would be no new taxes provided for. While the treasury department will give out no information as to what will be the amount of the surplus the budget will announce, rumor has fixed it all the way from \$200,000 to \$800,000. There seems to be no doubt that there will be a surplus, and has evidently brought the ministry to the conclusion that there was no need to go into new fields to raise money. There had been the suggestion that a gasoline tax would be introduced this session to make the users of autos pay for road construction by a levy of this kind. However, it was decided that such a tax would not be initiated much to the delight of the owners of motor cars. There were other methods proposed whereby the receipts of the provincial Treasury would be augmented, but where they provided for entirely new taxes they have all been passed up. While the minister would give no intimation as to what changes would be in general regard to the halfpenny tracks will have to contribute more extensively this year.

HORNBY LOWERS DEMAND.
St. Louis, March 8.—Rogers Hornsby, leading batsman of the National League, and officials of the Cardinals today were near an agreement on a 1922 contract. Hornsby, who has been holding out for \$25,000, stated he had "shaved a bit" off the demand, and Sam Breadon, president of the club, stated he had made "some concessions." It is understood Hornsby has brought his figure down to \$20,000, but the Cardinal officials are unwilling to pay more than \$17,000.

HALIFAX EXPLOSION WRECKED HER NERVES
The reader, will, no doubt, remember when, only a few years ago there was a collision in the Halifax, N. S., Harbor and one of the munition ships was blown up, causing great loss of life and property. LOCAL NEWS

BANK CLEARINGS
St. John bank clearings this week were \$2,467,233; last year \$2,655,809; in 1920, \$3,177,079. Moncton clearings this week were \$1,139,283. In Halifax the figures were \$2,835,229.

NO MEETING
The regular committee meeting of the common council, scheduled for this morning was not held. The mayor was absent from the city, and as there were only one or two minor matters to come up, they were laid over until Monday.

CALL TO REV. BOWLEY GREEN.
A London, Ont., letter to the Toronto Globe says: "The Baptist church congregation has extended a call to Rev. Dr. Green, who has for the last five years been pastor of a church in Moncton, N. B."

BOXING CHAMPIONSHIPS.
A meeting of the committee of the St. John Garrison Sports and Entertainment Association will be held tomorrow night in connection with the Maritime Boxing Championships to be held in the armory on April 12 and 13. The date for the closing of entries has been fixed for April 8, and Halifax is expected to send a large contingent. James Power has been engaged by the Garrison club as a boxing instructor to prepare the members anxious to take part in the city and maritime events. The first class was held on Tuesday with an attendance of fourteen.

THANKS FOR GOOD NEWS
Commissioner Bullock, acting mayor, this morning received a letter from Mayor J. F. Edgett of Moncton telling of the joy which Mr. Bullock's message regarding the presence of Frank Wallace MacLaren in St. John brought to the lad's father, Charles MacLaren, after living for two days in the belief that he had met with a fatal accident in Toronto. Mayor Edgett thanked Mr. Bullock for his thoughtfulness in sending glad news to Moncton and expressed the hope that he would have an opportunity to reciprocate in some manner in the future.

WEDDING ANNIVERSARY
The home of Mrs. Ethel Winter, 69 Elm street was the scene of a very happy gathering last evening the occasion being the fifty third wedding anniversary of Mr. and Mrs. Frederic Winter of this city. About 20 relatives and friends were on hand to congratulate them on their many years of wedded life and to wish them good luck for the future. They were made recipients of a purse of money, contributed by those present as a mark of the esteem in which they are held. The evening was pleasantly spent in singing, dancing and games, etc., followed by a substantial luncheon. The happy party broke up in the early hours of the morning, after a most enjoyable time.

CRUSADE DAY.
The annual crusade day of the Women's Missionary Society of Lower street Baptist church was held yesterday afternoon. After an opening hymn, the 111th Psalm was read by Miss Pearl Wayne. Prayer was offered by the pastor, Rev. Isaac Brindley, after which the president, Mrs. J. F. Rupert, welcomed the gathering. The speaker of the afternoon was Mrs. C. T. Clark, who gave an inspiring address on "The Need of a W. M. A. S." A vote of thanks was tendered the speaker by Mrs. George Gibson and Miss Pearl Wayne. A social half hour was enjoyed at the close of the meeting. Those taking part in the programme were Miss M. E. Mulvaney, W. A. Browne, Miss Sadie Burke and Rev. Isaac Brindley.

ANNIVERSARY SALE AND TEA.
Decorations of yellow daffodils with yellow curtains, streamers and table covers are very prettily arranged in the rooms of the Y. W. C. A. Recreation Centre this afternoon for a pantry sale and tea being held there as an anniversary of the opening of the building and of the residence centre. The sale is in charge of the membership committee, of which Mrs. H. A. Goodwin is convenor. She is assisted by the representatives from the various churches, Mrs. E. J. Fleetwood, Mrs. Z. Cowan and Mrs. A. Trentowsky being very active in this connection. A candy table is looked after by the girls of the High School gymnasium class, under the leadership of Miss Inez Mackenzie. The executive committee, headed by Mrs. John A. McAvity, Mrs. James F. Robertson, Mrs. Alfred Morrissey and Mrs. T. H. Somerville, are in charge of the tea. An attractive programme including gramophone selections, with accompaniments by Miss Meynel, instrumental selections, and solos by Mrs. T. H. Carter and Miss Bessie Dawson, accompanied by Mrs. Allan McAvity.

POLICE COURT

Bruce Lovely pleaded not guilty in the police court today to a charge of supplying liquor to William Harry, Sergeant Rankine and Policeman Killen testified that they had arrested Harry on a drunkenness charge yesterday afternoon, and, acting on information received from him, had later arrested Lovely. The two were together at the time of the first arrest. They identified a bottle produced as one found on Lovely and said it smelled strongly of alcohol. Harry was called to the stand and said he had got nothing out of a bottle from the accused. He was living at the Municipal Home, he said, and should have been back there last night. They were both remanded.

It is alleged that, at the time of his arrest, Harry told the policemen he had got the liquor from Lovely, who had bought it in a store and given it to him. Four men were remanded on charges of being drunk. They all pleaded guilty. John Nickerson pleaded guilty to a charge of drunkenness, but not guilty to being in Main street. He was remanded for witnesses.

From a moral and civic viewpoint, the magistrate remarked this p.m. in St. John in a poor light, but still they had had their "liberty." One man had paid \$5 for the liquor he had consumed, in spite of the fact he had a family dependent on him. His Honor said he was glad this man was so affluent. As far as he was concerned, he couldn't afford to pay \$5 for anything he didn't need, and certainly wouldn't pay it for liquor. His Honor regretted the fact that the newspapers didn't publish more of the things that happened and were said in the police court and less of what was worn at some of the weddings.

ANOTHER DISASTER AT NIAGARA FALLS TODAY
Niagara Falls, N. Y., March 9.—One man was killed and sixteen are injured, two probably fatally, in an accident in the Number 1 shaft of the Niagara Falls Power Company's tunnel construction job at Erie Ave. and Quay street at noon today.

WANT CHANGE IN THE HIGHWAY

Delegation from Musquash and Lepreau Vicinity to Fredericton.

A delegation representative of the residents on the shore road between Musquash and Lepreau, including Councillor James O'Donnell, of Dipper Harbor and Daniel Cassidy, of Mace's Bay, passed through the city today on their way to Fredericton. They carried with them a petition signed by the residents along the shore road which will be presented to the legislature, asking that that section of the highway be adopted as part of the trunk road between St. John and St. George, rather than the present trunk road which runs inland.

It is pointed out by the petitioners that although the shore road is about twice the length of the stretch farther inland—the latter being about seven and one-half miles—there are some 140 families living along the shore, as compared with only three on the other section. In addition to that it is asserted that a good proportion of the shore road is now in fairly good condition and would not require a great deal of work to convert it into a trunk line.

THE MUNICIPALITY MUST DISTRIBUTE

To the Editor of The Times:
Sir,—There are two points in connection with the hydro problem which do not appear to have received consideration.

Under the Provincial Act the Hydro Electric Commission is authorized to furnish an estimate of the cost of providing and maintaining a distribution system. This has not been done, possibly because the commission is still awaiting formal application from the city for a supply of power. At least two estimates have been prepared which show a very wide difference in the probable cost. Adherence to the provisions of the act might result in the preparation of an estimate by the commission which would settle the points in dispute in this particular regard. Without presuming to interpret the provisions of the act or to anticipate the attitude of the provincial government, I beg to draw attention to the following features. There is nothing in the act which will authorize the city of St. John to distribute power through a third party. The act very clearly states that power may be purchased from the commission by any municipality for distribution by that municipality. And any municipality has a right to construct, purchase, lease or otherwise acquire a distribution system by means of which such power may be made available to its own inhabitants. Nothing contained in this act gives the city of St. John the right to deal with its own people through a middleman. As we have frequently been informed that the provincial government will not ratify any contract involving distribution over the New Brunswick Power Company's system until that system by purchase or otherwise becomes the property of the city of St. John.

Yours sincerely,
H. V. MACKINNON.

LOCAL BASEBALL

Will there be baseball in St. John next summer, and if so, what will it be, amateur or semi-professional? This is one of the questions of the day in local sporting circles and players are being held up on all sides evidently in a vain hope that one or the other will be able to throw some light on the subject. From present indications there will be baseball this summer with a local league. Although there is considerable speculation among fans as to the class of ball it is evident from the attitude of a large number of players that what is known as semi-pro or independent ball will be played.

There is a current report that the Great War Veterans will be represented in the city league and that they will have a semi-pro team. The manager of St. Peter's team has announced that they are ready to play either amateur or independent, and there is a report that the Pirates will await developments and then fall into line. The Commercial Club have announced that they will have an amateur team again this summer. The season is not far enough advanced for any definite programme, but the fact that some of the leading players are being sought strengthened the rumors and making plans and endeavoring to secure the best talent available with a view to forming a league.

"BING" WENT HER OPINION OF MEN

He was not much more than a tiny ball of white woolly stuff, but he ambled down King street at the heels of his mistress as though he had not a care in the world. Wasn't he her precious little Pom? And wasn't the breath of spring keen in his nostrils, with just the slightest hint of the summer days that were coming and those glorious romps across the cool and velvety green sward? "Not a bad old world—not a bad old world" pattered his tiny feet on the now bare pavement.

But it was a bad old world at that. Out of the blue and without a warning came a low growl, a scuffle and the little one was rolled rudely on to his back in the dirty street with the bulky form of a wire-haired terrier standing over him. Whirlwind action followed, during which the white coat became gradually less white and a crowd of men gathered to watch the encounter.

The lady owner waited a moment, evidently expecting one of the stalwarts to step in and put an end to the un-con encounter, but without result. So she sallied forth—delivered a well directed—and daintily shod—foot at the offender, picked up her darling by the collar and strode away with a look that meant nothing else but—"Just like those men, to stand and watch the oppression of the weak!"

REPORT ABOUT THE BEER SHOPS

Fredericton Paper Speaks of What It Hears is Plan of Government.

(Canadian Press) Fredericton, N. B., March 9.—"Near beer" bars, which often, if not in most cases, dispense considerable quantities of beer with more kick than two per cent. alcoholic content was ever known to have, will disappear, The Gleaser says today, if the proposed new liquor act is put into effect in New Brunswick. One of the provisions of the government bill as drafted, it is said, calls for a abolition of all permits for bars that are now licensed to sell two per cent. beer. The "near beer" as well as the article will all be handled by the full vendors under the proposed new system, which, it is understood, calls for licenses upon permits instead of prescriptions, all goods being sold in bottles and no assumption upon the premises of the vendor being absolutely prohibited. Ginger ale and the various kinds of pop will then be all that the present beer shops will be allowed to dispense. The matter of licensing them will be turned over to the municipalities, which will get what revenue they may derive from license fees. The inspectors under the liquor act will of course be given authority for search and seizure of beer shops in cases of violation of the new law.

WHY U. S. WILL NOT GO TO GENEVA

Washington, March 9.—Because it believes there has been an exclusion of questions which makes it not primarily an economic conference, but rather "one of a political character" in which it could not helpfully participate, the U. S. government has declined the invitation to take part in the international economic and finance conference to convene at Geneva next month. The declaration was conveyed to Ambassador Ritti, of Italy, yesterday, who had presented the invitation extended by his government, pursuant to resolution adopted by the Allied governments at the Cannes conference. The note made public last night, emphasized the desire of the U. S. people to assist in the economic recovery of Europe but stated that the U. S. government would not be unmindful of their "clear conviction" that they should not unnecessarily become involved in European political questions. The note added that "questions appear to have been excluded from consideration without the satisfactory determination of which the chief causes of economic disturbance much continue to operate." Without the establishment in Russia of the essential bases of productivity, the note stated, the U. S. government believes "all considerations of economic revival to be futile." The conviction was expressed that this could not be secured "until adequate action is taken by those chiefly responsible for Russia's present economic disorder."

LOCAL NEWS

SIGN OF SPRING

A sign of spring was in evidence at the station at noon today when a passenger alighted from one of the trains with a lot of pussy willows.

THE STEAMSHIPS

According to the latest reports the Corsican will arrive in port tomorrow morning at 7 o'clock from Southampton, Antwerp and Havre. The Montclair is due to sail tomorrow afternoon between 5 and 6 o'clock.

CHILD DEAD

Friends of Mr. and Mrs. Urban Kiley of 6 Spar Cove Road will be sorry to learn of the death of their only child, Margaret K., aged two years and a half, which occurred today.

GETS LOST WALLET

Roger B. Williams, a returned soldier, was located at noon today by the detectives and a wallet, containing a sum of money and a check, which was picked up yesterday in the street by Joseph Flemming, was returned to him.

LIQUOR CHARGE

William Speight appeared before the magistrate this morning on a charge of selling liquor in his shop at 624 Main street, and was remanded until this afternoon. It is said that this case arose out of another which was taken up this morning against Bruce Lovely, charged with supplying liquor to William Harty.

NO SETTLEMENT

London, March 9.—(Canadian Press)—conference between the engineering employers' federation and the engineers' union, which was instigated by the minister of labor, Hon. T. J. MacNamara, with a view to averting the threatened lockout on March 11, ended without a decision being arrived at. The dockworkers, affecting upwards of a million workers, will expire on Saturday.

ACCIDENTS

Richard Craft, of 79 Prince street, West St. John, a longshoreman working on the steamer Lord Downshire at No. 4 berth, suffered a concussion of the left foot this morning, when he was jammed between some boxes in the hold of the vessel. He was treated at the Emergency hospital and sent to his home.

Last night about 7:45 o'clock, Gordon McDonald, a longshoreman, of 45 Richmond street, suffered a laceration of the upper right eyelid while working on the Ballygally Head at No. 16, Sand Point. The injury was treated at the Emergency hospital and he was sent to his home, where he is reported to be resting comfortably today.

SOLDIER BOWLERS.

Thirty men rolled last night on the armory alleys in the weekly three-string bowling competition. The prize-winners were as follows: 1st, side of bacon, Trumpeter R. Cross, 270; 2nd, side of bacon, Sgt. T. A. Duffy, 267; 3rd, five-pound box of chocolates, Sgt. K. Nelson and Sgt. G. Landry, 263.

The standings of the teams in the Garrison Bowling League up to date is as follows:

Teams	Pts.	Pts. Avg.	Won	Lost
R. C. O. C. No. 2	31	5	861	861
6th Siege Battery	31	5	861	861
7th Can. March. Gun	29	6	848	848
R. C. O. C. No. 1	27	18	678	678
14th Field Ambulance	22	14	611	611
C. A. S. C.	24	16	639	639
R. C. A. S. C.	18	13	563	563
N. B. Dragoons	21	15	588	588
R. C. E.	20	16	558	558
6th Signal Coy.	18	17	527	527
"A" Coy. Fusiliers	18	18	500	500
"B" Coy. Fusiliers	16	24	400	400
"C" Coy. Fusiliers	10	26	277	277
Headquarters	8	28	222	222
"D" Coy. Fusiliers	6	30	168	168
4th Siege Battery	4	32	111	111
15th Heavy Battery	2	34	93	93

AUTO CASES.

Claims in connection with automobiles occupied the attention of two courts this morning. One was an action for \$411 brought by Ernest J. Weldon of the U. S. immigration department, against W. O. S. Barnes for damages alleged to have resulted to the car of the plaintiff in a collision with that of the defendant. The defendant counter-claims to the amount of \$200. Evidence was taken in Circuit Court this morning before Judge Crockett. H. H. McLean, Jr., and A. N. Carter appeared for the plaintiff and G. H. V. Belyea, K.C., for the defendant.

The other case was that of H. A. Guilfoyle against W. J. Merryweather, an action for recovery of \$108 for repairs said to have been made by the plaintiff to the automobile of the defendant. The plaintiff was heard in evidence this morning. His Honor Judge Armstrong presided in country court chambers. S. S. Skinner appeared for the plaintiff, and Francis Kerr for the defendant.

NORMAN BROOKS.

Famous Australian tennis player, who will play with the Australian team that will bid for the Davis Cup, emblematic of the tennis championship of the world. With papers of such ability as Brooks, Patterson, Anderson and Hawkes available, the "Aussies" team should be one of the strongest in the competition.

CANADA'S GREATEST CARILLION

Two of the largest of a set of twenty-three bells now being installed in the Metropolitan Methodist Church, Toronto.

PERSONALS

H. J. Sheehan left yesterday afternoon for Fredericton.

F. W. Coombs went to St. Stephen yesterday afternoon.

Joseph L. O'Brien left yesterday afternoon for Montreal.

C. A. Owens left for Montreal yesterday afternoon.

Miss Alberta Ryan, president of the Red Cross Society and vice-president of the local Council of Women in Moncton, is in the city visiting her niece, Mrs. Nutter, Douglas avenue.

J. M. Woodman, general superintendent of the C. P. R., New Brunswick district, left this morning on an inspection trip on the Fredericton, Grand Lake railway as far as Minto.

James Conlon, editor of the Canadian Fisherman and general secretary of the Canadian Fisheries Association, arrived in the city today en route to Nova Scotia on business.

A. E. Binling, of the Montreal staff of the Furness Withy Company, Limited, who has been employed at the local office during the winter months, left on Tuesday night for Montreal.

D. J. Seely, who was operated on for appendicitis at the General Public Hospital last night, was reported this afternoon to be resting slightly easier. Because of his advanced age, ninety-six years, considerably anxiety has been felt by his friends.

IN WALL STREET.

New York, March 9.—(10:30)—Mixed buying and selling orders made for today's stock market. Selected or pooled shares were active and generally higher, seasoned bulls and industrial showing only nominal changes. International Paper, which was under marked pressure yesterday, made an initial recovery of one point. American Ice, Crucible and several of the food specialties also advanced. New York, Chicago and St. Louis (Nickel Plate) was strongest of the rails, advancing 2 1/4 points. Further improvement in the steel trade was indicated by Bethlehem Steel's advance of prices for bars, shapes and plates.

News Report.

New York, March 9.—(Noon).—The market wavered during the first hour because of the heaviness of oils, but rallied before noon on the steady buying of specialties. These were chiefly featured by Davison Chemical, Allied Chemical, common and preferred; Virginia Carolina, common and preferred; American Cotton Oil, common and preferred; American Limes and American Agave.

Chemical at gains of one to three points. Aside from Studebaker, Pressed Steel Car, Lima Locomotive, Harvester preferred, and American Ice, at gains of one to two points, the more prominent industrial and miscellaneous shares were neglected. Investor falls also head back and few of the junior rails were quoted. Victory 4 3/4 per cent. notes made a new high record at 100.78. Call money opened at 4 1/4 per cent.

ALL EUROPE WANTS HIM IN THIS ROLE

Uncle Sam—"What part can I play in your production?"
Marianne—"Why—you play the American billionaire, of course."
—La Victoire (Paris)

MILITARY NEWS.

Certificates have been granted to the following members of No. 6 Company, Canadian Corps of Signallers—Lieut. H. L. Creighton, Lieut. R. E. Kirk, Lieut. G. C. Ketter, Capt. W. DeF. Henderson and Lieut. R. E. Anderson.

Captain J. Larkin of the Royal Canadian Ordnance Corps, has been transferred from St. John to Toronto.

Board of officers for the purpose of conducting examinations for Certificates "A" and "B", C. O. T. C., on March 7 and 8, 1922, are detailed as follows:

U. N. B. Contingent, C. O. T. C.—March 7, for Certificate "A"—President, Major E. R. Vines, M. C., B. C. E.; member, Capt. E. L. Harvey, U. N. B. Cont. C. O. T. C.

Mt. Allison Contingent, C. O. T. C.—March 7, for Certificate "A"—President, Lieut-Col. H. C. Sparling, D. S. O.; member, Capt. and Bvt. Lieut-Col. T. E. Powers, D. S. O.

Mt. Allison Cont. C. O. T. C., March 7 and 8 for Certificate "B"—President,

THEY ALL WANT WORK GET YOUR WORK DONE NOW

PURITAN TO BE LAUNCHED TODAY

Prospective U. S. Challenger for the Fishermen's Race—U. N. B. Basketball Team Wins from Mount Allison.

Essex, Mass., March 9.—The Puritan, fishing schooner and prospective challenger for the International Fishermen's trophy, will be launched today at the shipyard of J. F. James and Sons. The vessel, which will spend the season on the Halifax fishing grounds, is being built by the Manta Club of Gloucester. The Puritan, smaller than the Mayflower, which was manned by Canadian trustees on the ground that she was more yacht than fisherman, was conceived by Captain Ben. Dymally of Gloucester, her managing owner, and other Gloucestermen at Halifax last fall when the Esie, of Gloucester, was defeated by the Bluenose of Lunenburg, for the international cup.

U. N. B. Victorious.

Moncton, N. B., March 9.—The U. N. B. basketball team won at Sackville on Wednesday night from Mount Allison. The score was 28-21. Line up: U. N. B.—Drummond, centre; Willet, Seely, forwards; Akerley and Trimble defences; Mount A.—Ashford, centre; Downey, Clark and Pickard, forwards; Ashford and Taylor, defences. The U. N. B. will play the local Y team here tonight.

CHURCHES JOIN IN CAMPAIGN

Four Large Organizations Pressing U. S. Ratification of Washington Conference Agreements.

New York, Mar. 9.—Four national United States religious organizations, representing Protestants, Catholics and Jews, today began a concerted movement to obtain the U. S. senate's immediate ratification, without reservation, of the treaties adopted at the disarmament conference at Washington.

The movement is being carried on by the Church Peace Union in co-operation with the World Peace Foundation of Boston in letters and petitions amounting to 120,000 clergy of the nation, urging them and their congregations to enlist the support of their senators.

The petitions are to be returned to the New York headquarters of the Church Peace Union, where they will be compiled and presented to President Harding and congress.

Organizations concerned are the Churches of Christ in America, the Central Conference of American Rabbis, the United Synagogue of America and the National Catholic Welfare Council.

LYING IN BED A DANGER.

Surgeon in Guy's Hospital, London, Says So.

The peril of lying in bed is one of the latest ideas of doctors. "Get up and move about," is the new prescription. Dr. R. P. Rowlands, surgeon to Guy's Hospital, London, is the apostle of the "don't lie in bed too long" creed. He expounds it vigorously in the "British Medical Journal." It is people who have undergone operations who are in peril if they stay in bed too long. "It chews a patient," states Dr. Rowlands, "to know that he may move about as much as he likes in bed from the first, have the freedom of the room after four days, of the bath after seven days, and may take short walks in the open air after ten days." Here are some of the bad effects of lying in bed too long:

The heart beats forcibly.
Breathing becomes slower and shallow.

Appetite falls.
Digestion flags.

Action of the intestines becomes sluggish.

Risk of clots of blood forming increases.

Dangers of pneumonia being greater.

Muscles waste and lose tone.

All these are reasons against lying too long in bed, and Dr. Rowlands says that as regards the healing of wounds, years of observation have convinced him that "complete rest is unnecessary, and even harmful by interfering with general and local circulation and nutrition."

JUDGE KENESAW M. LANDIS.

Who is the "boss of organized baseball," retired recently from the judgeship of the United States federal court for the Northern District of Illinois. He will now devote his whole time to the baseball world.

ONTARIO'S ROAD POLICY FAREST

All Classes of Roads Provided for, Says Minister, but Cost Borne in Degree Commensurate to Importance to the Province.

(By Hon. F. C. Biggs, Minister of Public Works and Highways, Province of Ontario.)

A British municipal journal, in an editorial dealing with highway legislation, stated that the Province of Ontario had the most fair and equitable organization for road improvement in existence. That means that not only are all classes of roads provided for, but that the cost of these roads is borne by the municipalities and the provincial government in a degree commensurate with their importance to the province as a whole.

A survey of road conditions in Ontario shows that this statement is founded on fact. Of the fifty thousand miles of roads in the south or organized part of the province, approximately twenty-seven thousand have been paved, or surfaced with macadam or gravel. This condition exists in no other province in the dominion and is an attainment that few, if any, of the United States can boast.

Benefits Equal.

In the road laws of Ontario provision is made for financial assistance to the province toward the construction of all classes of highways. Every resident, whether living on a farm or in a city, may, and eventually will, as the programme now being carried out attains fulfillment, receive equal benefit.

Toward the cost of construction of township or farm roads the province contributes twenty per cent. County or market roads are assisted to the extent of forty per cent. of the cost of construction and forty per cent. of that for maintenance. The main or more heavily traveled market roads are called county provincial roads, and the provincial assistance is sixty per cent. toward the cost of construction and maintenance. Cities also bear a share of the cost of county and provincial county roads adjacent to them, contributing thirty per cent. toward the cost of the former and twenty per cent. toward the cost of the latter.

Provincial highways are main trunk or through roads which are not only used by local and market traffic, but which carry trans-provincial and inter-provincial traffic. They extend from the Quebec boundary on the east to the United States frontier at Windsor and Niagara Falls, from Lake Ontario to Lake Huron and Georgian Bay, from Prescott to Ottawa, and from Toronto, Whitby and Port Hope to Muskoka, Lindsay and Peterborough. Every county town in the province is served with one or more provincial highways, which for the most part follow the old trails and overland routes laid out by the pioneer settlers of Upper Canada. These roads are the property of the Province of Ontario, and are constructed and maintained by the department of public highways. Toward the cost of labor and materials used in the construction, the counties contribute twenty per cent. of the province bearing the remaining eighty per cent., as well as the total cost of equipment and surveying. Twenty per cent. of the cost of provincial highways, adjacent to cities, is borne by the cities affected, as this represents a direct benefit from them.

Heavy Roadways Necessary.

Traffic from township, county and county provincial roads converges on the provincial highways. This increased volume of traffic necessitates the construction of a wider and heavier roadway in the same way that traffic from the branch lines of a railroad render the construction of two or more tracks on the main lines necessary.

It has been found that immediately following the construction of provincial highways not only does the horse-drawn and automobile traffic generally increase, but fleets of motor trucks commence operating between cities and towns, carrying heavy loads of freight and express. In order to carry these heavy trucks, which operate at all times of the day, a more durable and substantial road surface must be provided.

In August, 1914, prior to construction of the Toronto and Hamilton Highway, a traffic count showed that a total of 225 vehicles passed a certain point in one day. During a Sunday in the past summer, 6,700 vehicles were counted on this section of the highway. This shows beyond question the resulting increase of traffic due to the connecting of large centres with smooth road surfaces.

Roads cost money. True economy in road construction consists not in the refusal to spend money for roads, but lies in the spending of money for the type of road that will best serve traffic, with a minimum expenditure for maintenance.

When the annual cost of maintaining a cheap road surface exceeds the year-interest and sinking fund charges for a more durable type of surface, and such surface is not constructed, it is then that extravagance exists. It is the practice, in Ontario, before undertaking the construction of the more costly form of surface on provincial highways to carefully consider existing and contemplated traffic, and the heavier types of construction are not proceeded with until this consideration warrants such a course.

Children's and misses' boots to clear for less money at Basson's, 14, 16, 18 Charlotte street.

MONTREAL STOCK MARKET.

Montreal, March 9.—(10:30)—Trading was quiet during the first half hour this morning on the local stock market. National Breweries was the most active issue, and strengthened 2 1/2 to 59.

Laurentide was also stronger, rising a half to 79 1/2. Other leaders were steady.

Are you looking for sporty dress goods to make sport skirts? Your choice of four different shades for less money at Basson's, 14, 16, 18 Charlotte street.

MUST CONSIDER EXPENDITURES

Review of General Situation in Canada and Elsewhere—Problem of Governments.

(Bank of Commerce Circular)
It is to be hoped that the approaching economic congress at Genoa may stimulate the efforts of the European nations to bring their expenditures within the limits of such revenue as can be raised without retarding by undue taxation the recovery of trade and industry. Until this is accomplished there can be no appreciable progress towards financial stability in those countries, and as a consequence, international trade must continue to be small in volume. The hope of the Genoa conference will prove fruitful in this respect is encouraged by success of the recent deliberations at Washington, which have not only removed many of the elements of danger in international relationships, but promise to lighten the financial burden of deflation, and thus have prepared the way for an effort to improve economic conditions.

In Canada the early months of the year are characterized by a dullness in business, which makes them a convenient time for sessions of the provincial legislatures and for conference of business men. The subjects under discussion this year have been unusually varied. In Alberta it was proposed to establish a provincial government bank and to adopt measures which would stay the hands of creditors. In Saskatchewan a meeting of farmers deplored the heavy losses, estimated at approximately \$50,000,000, resulting from the fall in live stock prices during the past year, but looked hopefully to negotiations with the United States for reciprocal tariffs on farm products. In order to help the western farmers out of a position best with difficulties, the Dominion Government is being asked to re-establish the Wheat board, which gave such good service during the war. Meanwhile in Ontario, notwithstanding the support offered to the Loans Association by the provincial government to institute its own system of making loans for agricultural purposes. It is too early to assume that business can be rendered more efficiently and more economically by the government. The general public is either not yet aware of the unfortunate results of past experience in this respect, not only in Canada but elsewhere, or does not fully understand its import. It is evident, however, that the expense of administering existing public services is becoming a burden which finance ministers are at their wits' ends to find means to carry.

This may lead people to realize that Canada, in common with many other countries, is suffering from an over-extension of the functions of government, for purposes which, however desirable they may be in themselves, cannot be financed without imposing a burden on the taxpayers beyond their ability to bear. In fact, a committee of Winnipeg business men, after careful investigation, has estimated the total taxes payable each year in the province of Manitoba at \$57,180,000, against which they place the value of the cereals produced in the province at \$40,000,000. Meanwhile the provincial treasurer announces a serious deficit, which it is proposed to meet by an income tax along the lines of that imposed by the dominion government. The

FREE AT LAST OF KIDNEY TROUBLE

"Fruit-a-lives" Brought Her Health and Strength

624 Champlain St., Montreal.
"For 3 years I suffered constantly from Kidney Disease and Liver Trouble. My health was miserable and nothing in the way of ordinary medicine did me any good. When I started to use 'Fruit-a-lives' and the effect was remarkable. All the Pains, Headaches, Indigestion and Constipation were relieved and once more I was well. All who suffer from such troubles should take 'Fruit-a-lives'." "Madam HORMIDAS POISY." 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives, Limited, Ottawa.

additional revenue appears to be required mainly to meet the cost of operating public services and the interest charges upon capital expenditure already made. The finances of the other provinces, with one or two notable exceptions, are in a similar position. The difficulties of obtaining additional revenue and the realization of the fact that there are limits to taxation beyond which it is perilous to go, should have a salutary effect in checking the tendency of governments, from motives of political expediency, to enter the field proper to private enterprise. Perhaps the most hopeful feature of the discussions of this matter in Canada at present is the frank acknowledgment that expenditures must be kept within the bounds set by existing revenues. Persistent in increasing taxation discourages savings and accumulation; it restricts enterprise; it hampers development of business; it curtails and tends to drain away the main reservoir, which is the fountain-head of employment, and which in the long run fertilizes the whole field of industry.

Just Apply This Paste And the Hairs will Vanish

(Boudoir Secret.)
The judicious use of a delicate paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delatone with some water, then apply to the objectionable hairs for two or three minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delatone and it will not mar the most sensitive skin, but to insure results, see that you get real delatone.

SAILINGS CANCELLED BY COPENHAGEN STRIKE

New York, March 9.—The Scandinavian-American line announces that "on account of strike conditions in Copenhagen, making it impossible to operate our steamers, all east and westbound sailings have been cancelled, with the exception of the sailing of the Oscar II from New York, March 21." New sailing schedules will be announced when the strike is ended.

FREE STATE BILL ADOPED, 295-52

London, March 8.—The Irish Free State bill passed its third reading in the house of commons tonight by a vote of 295 to 52. The report stage was completed without any amendment, the only interesting point being the size of the Irish army. Winston Churchill, secretary for the colonies, explained that the treaty allowed of considerable latitude in this matter but the army would probably be between 20,000 and 30,000 men and if Ulster continued out, the quota of the Free State would be reduced proportionately.

On the motion for the third reading, the "die-hards" in the person of Ronald McNeill, (Unionist, St. Augustine, Kent), made a final attack by moving rejection of the bill. Mr. McNeill's speech followed the usual lines. He argued that the barrier separating the Free State system from that of the British empire was extremely frail and flimsy. He declared that the attitude of the government was absurd, because, with the British troops withdrawn under the conditions prevailing, an Irish republic would no sooner be proclaimed than it would be accepted by the British government.

Denial by Churchill.
Mr. Churchill warmly repudiated this, but Mr. McNeill insisted that if Mr. Churchill, whom he described as "the Right Honourable Die Hard" did oppose such a proceeding he would stand alone. The bill passed its third reading without demonstration, the minority representing the normal "die-hard" strength.

The Value of Charcoal

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest, most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purposes. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and casts them out of the system.

Charcoal sweetens the breath after smoking and after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal is that made for the most part in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, in tablet form, and are free from large, unpleasant tasting lozenges, the charcoal being sweetened to be smooth and palatable.

The daily use of these lozenges will soon lead to a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

Many physicians advise Stuart's Charcoal Lozenges to patients who suffer from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. Charcoal is also believed to greatly benefit the hair. These lozenges cost but thirty cents a box at drug stores, and you get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets.

THINK OUTLOOK IS 'PROMISING'

Cabinet Ministers in Ottawa Pleased Over Fielding Mission.

(Staff Correspondence of the Toronto Globe.)
Ottawa, March 9.—Washington has made the next step toward a new trade arrangement with Canada. Press dispatches today to the effect that the United States experts were busy on a list of commodities which might be included with this country revived interest in the topic which had had political tongues wagging all week. There is no denying the fact that the members of the government are greatly pleased with the reception throughout the country of the news that efforts were being made to enter a new trade arrangement. It is pointed out that outside of a few Conservative papers the press comment has been distinctly favorable to Mr. Fielding's course. The great majority unhesitatingly express their approval.

According to men from the west, if Mr. Fielding can get a free market for Canadian live stock in the United States he will have accomplished something well worth while. When it is stated that the export cattle trade with the United States last year was 89 per cent. less in value than that of 1919, it will be seen what the Fordney emergency tariff has done for the live stock men alone. One westerner today went further. He said that if a free live stock market in the United States were obtained, it would be the greatest inducement for the west to go in for mixed farming, which, he argued, was what the country needed most.

In the debate on the address reference is sure to be made to the efforts of Mr. Fielding, and while little or no information may be expected from the government branches, Premier King and his colleagues will be given a fairly accurate idea of what the country thinks. It seems to be the intention of the government to let this debate go to rather greater length than usual in order that the lines of cleavage between government and opposition may be more clearly revealed.

BOARD HEARS OF PATHETIC CASES

The regular monthly meeting of the Associated Charities was held yesterday with J. Hunter White in the chair. The secretary, Miss Grace Robertson, reported for February as follows: Applications received, 159; requests for employment, 25; employment found for, 17; recommended, 24; records given, 18; seeking relief, 33; relief granted, 30; visits made, 93; cases investigated, 16; clothing given to six. Three persons asked for transportation. The treasurer, William Young, reported something over \$275 on hand, which is not quite as much as the board had available a year ago.

SORES SPREAD ALL OVER FACES AND BODIES

Mrs. Howard Houlette, Waskatama, Sask., writes:—I wish to tell you of the benefit we received by using your valuable medicine Burdock Blood Bitters.

"My children started to break out on their faces in small white pimples which kept getting larger each day. Pus would form under the scabs and they would come off, and each time the sores would be larger; some were as large as a twenty-five cent piece, and would spread all over their bodies. I was nearly in despair and sent to the village store for the good blood medicine. The druggist sent me a bottle of Burdock Blood Bitters which I commenced giving them at once."

"In about ten days I saw an improvement and they grew steadily better each day, and in one month the sores had all disappeared."
All blood and skin diseases are caused by bad blood, and to get it pure and keep it pure you must remove every trace of the impure and morbid matter from the system by a blood cleansing medicine such as BURDOCK BLOOD BITTERS—a remedy that has been on the market for the past forty-five years, and one without an equal for all diseases and disorders of the blood.

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store, the addition of other ingredients called "Weyth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Weyth's Sage and Sulphur Compound and look younger.

SECRETARY MELLON MAY UPSET PLANS FOR PROHIBITION NAVY

Washington, March 9.—Arrangements for establishment of a prohibition navy of nine submarine-chasers to hunt liquor-runners of the Atlantic Coast were made without the approval of Secretary Mellon and may be cancelled by him, it was intimated by the Treasury.

It was said at Prohibition Enforcement Headquarters that "arrangements had been completed to borrow from the Navy Department nine submarine-chasers not in service with the Coast Guard to be used in enforcing the dry law."

Secretary Mellon, however, was said to have taken the view that Congress had not authorized the use of prohibition enforcement appropriations for upkeep of vessels and that dry-law officers lacked authority to use them as liquor-chasers.

To raise funds for the purchase of a new flag and flag pole for the Glen Falls school, the Glen Falls Community Club decided to hold a concert in the near future at its meeting on Monday evening last. The club met at the home of Mr. and Mrs. George Simpson with Mrs. G. Fillmore, the president, in the chair.

When your head is dull and heavy
your tongue furred, your bowels constipated, you have no strength for work and no interest in life; your stomach is at fault. You need KUMFORT'S HEADACHE POWDERS, which contains medicinal extracts of more than ten different roots, herbs and leaves, which soothe and soothe the digestive organs. Sold in 50c. and \$1.00 bottles at drug stores.

Kumfort HEADACHE POWDERS
bring you the swiftest relief from the torture of headaches because they are in powder form. They dissolve instantly in the stomach and commence their action immediately. Pills, tablets and wafers have binders, coatings, etc., which the stomach must first dissolve before the medicant can act. Save this loss of time. Save these moments of torture by taking the KUMFORT HEADACHE POWDERS.
Price 15c. and 25c.

JO-BEL The Wonder Salve

We invite all afflicted with piles, eczema, itching, chafing, pimples, sores, boils, cuts, bleeding at the nose, cold in the head, to profit by the experience of those who were similarly afflicted and give JO-BEL SALVE a trial.
All our testimonials have been from well known people who, out of gratitude for what JO-BEL has done for them, and in the interests of suffering humanity, have kindly permitted their names to be used.
Send for testimonial sheet.
Sold by all leading wholesale and retail drug stores. Price 50c and \$1.00 per box.

MORE PATIENTS DURING 1921

Annual Report of Provincial Hospital Presented to Legislature—Cost of Operation Reduced.

Fredericton, March 8.—The report of the superintendent of the provincial hospital at St. John for the year ended Oct. 31, 1921, was tabled in the legislature today and contains much of interest.

The report shows that patients in residence on Nov. 1, 1920, were 628, consisting of 341 men and 287 women. On Oct. 31, 1921, the number in residence was 944, consisting of 340 men and 604 women. Since the hospital began receiving the mentally afflicted, 3,345 men and 4,032 women have been admitted. Of these 9,377 cases, 3,471 recovered and 2,992 died in residence.

Of the 154 patients who entered the hospital during the year that has just closed, 114 only were new cases, as forty had been inmates of the institution on one or more occasions in previous years. Of the 154 admissions, eighty-five were men, sixty-nine were women; the average age was forty-two years; fifteen were more than seventy years old; eight were under twenty, the majority imbecile; seventy-nine were single persons; 146 were Canadian born; eight had been mentally defective from infancy; six were epileptic as well as insane; in ninety-three a history of innate predisposition to mental instability was ascertained; thirty-four had had little or no school training; exclusive of the congenital cases in forty-one instances the duration of insanity was more than one year before admission; the friends of fifty-seven agreed to assist financially in their maintenance; twenty-seven had displayed tendencies to suicide; seventy were accounted dangerous to others and destructive.

The number of deaths during the year was sixty-two; forty-three were men and nineteen women. This is a percentage of 7.8 on the persons under treatment and a lower rate than usual. The average age at death was for men fifty-six years; for women fifty-six years.
The total outlay for maintenance during the year was \$17,788.25—a per capita cost of \$8.21 a week, which is slightly less than for the year previous. The province provided \$3,800 of this weekly outlay. The amount expended on food of all kinds was \$55,632; salaries, \$45,546; heat, light, power, etc., \$37,900; clothing, \$9,845; furnishings, \$8,800; farm, \$5,000; laundry, \$2,175; ordinary repairs, \$1,916; drugs, \$1,659; stationery, \$783; miscellaneous items, \$4,693.26. The total expenditure was more than \$8,000 less than during the year preceding, and this saving was attributed chief-

"We Saw Your Letter in the Newspaper"

"YES."
"And is that correct what is said about Dr. Chase's Nerve Food?"
"Yes, it is absolutely true."
"But why do you recommend it?"
"For two very good reasons. First, because it fully restored my health and strength when I was weak, worn out and very greatly discouraged, and second, because I believe it is a duty as well as a pleasure to let other women know about so superior a treatment."
"I never used Dr. Chase's Nerve Food, but I got interested in that Woman's Advertising Contest they had, and nearly every woman I met, seemed to be talking about it. Then I saw your letter, and knew you would tell me about it."
"Well, you know how weak and miserable I was for years in spite of all the doctors could do for me. I was nervous, irritable, restless and sleepless. Thought sometimes I would go out of my mind from worry and depressed spirits. I need not tell you how well I am now. You can see for yourself. There is the whole story, and all the credit is due to Dr. Chase's Nerve Food."
"I get your viewpoint now. It would be a sin and a shame if you did not tell others." Dr. Chase's Nerve Food, 50 cents, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

also was suggested as a means of raising funds. The chapter has decided to give fifty per cent of the money it raises this year to the educational War Memorial of the Order.

The opening of many of the city stores for business on Sunday was the subject of some discussion at the quarterly meeting of the W. C. T. U. yesterday afternoon. The meeting was held with the North End Union, and Mrs. George Colwell, the county president, was in the chair. Rev. H. B. Clarke of the Portland street Methodist church gave an interesting address. Mrs. Mary Seymour reported on the service held on Frances Willard's day. Matters of local interest were discussed and a dainty supper was served by the ladies of the North End Union.

The Three Day Test

—How It Showed Me The Way To New Life And Tireless Energy

Free
Mail coupon below for the amazing Three Day FREE Trial Treatment of Ironized Yeast. Take these pleasant-tasting tablets—two with each meal. Then watch the results.

One woman's experience
From all sides comes reports of the remarkable results secured through Ironized Yeast. The following unsolicited letter is typical of the hundreds we are receiving.
"I received your trial package of Ironized Yeast last week, and I cannot tell you how much better I feel. Before I finished the trial I knew it was helping me, so I purchased a full package.
"My husband is just delighted with the improvement in me. He tells me I have more life now than I ever had. Why, I always used to feel 'all-in' after my housework, but now I can do more work than ever, and never feel the least bit tired. Ironized Yeast is splendid!"—And thousands of others tell the same story.

The Reason Behind the Results
Two elements essential to health yet lacking in diet are vitamins and iron. Ironized Yeast supplies these two elements to the system, in a manner that is scientifically correct. Hence, its superiority.
The yeast in Ironized Yeast is cultured expressly for medicinal purposes, and unequalled

Cinnafarm pastilles
If you have a cough, cold or irritated throat—slip a CINNAFORM lozenge in your mouth and you will find immediate relief. They are excellent as an antiseptic for many diseases. Especially good for Tonsillitis or Quinsy. Pleasant to take.
Price 50c. Smaller Size 25c.
NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED

Montreal.
Marie, ma chère,
(Please note the French influence!)—I'm succumbing rapidly, don't you think? But it's terrible to labor through a long sentence and then have them answer you in English—"n'est-ce pas"? I always grab instinctively for Jack's cure. Goodness, this is a cold town. My skin needs twice as much attention as usual. However, with the aid of my old friend Campana's Italian Balm I don't have to worry at all. I find it protects against any kind of weather, and it certainly keeps my face and hands wonderfully soft and white all the time.
Au revoir, ma petite,
Peggy.

ALMANAC FOR ST JOHN, MAR 9. High Tide... 7.40 Low Tide... 1.40 P.M.

PORT OF ST JOHN.

Arrived Yesterday. Str Lord Downshire, 3037, Pinkerton, from Belfast.

Cleared Today.

Str Kwara, 2904, Birs, for South Africa.

Sailed Today.

Str Keyingham, 2329, for Digby.

MARINE NOTES.

The steamer Keyingham sailed at ten o'clock this morning for Digby, where she will load a part cargo of pulp for the United Kingdom. She will complete loading at Halifax. The Kwara will sail on tonight's tide for South African ports with a general cargo. The Gracia, from Glasgow, reported this morning that she would arrive in port on Saturday. The Lakonia is due to sail from Glasgow tomorrow for this port. No further word has yet been received from the Orin, which is making for Halifax for repairs. The Manchester Brigade arrived at Halifax from St. John at four o'clock yesterday afternoon. She left here on Tuesday morning. The Manchester Corporation arrived at Manchester from St. John via Halifax on March 7. She will sail again for St. John on March 28. The Comino sailed from London for St. John yesterday. She will be followed by the Cornish Point on Saturday. The Manchester Division is due in port tomorrow from Manchester. The Rapidan is due at Halifax from London tonight. She will come to St. John. The Manchester Hero will sail from Manchester for this port on Saturday. The R. M. S. P. Caracquet will leave Bermuda for St. John tomorrow morning. The Canadian Sapper arrived at Halifax from St. John yesterday. The Canadian Forester sailed from Halifax for Kingston yesterday. The Sachem sailed from Halifax for Liverpool yesterday. The Benguela arrived at Cape Town from St. John yesterday. The Canadian Trapper arrived at London from St. John on Tuesday. The Fanad Head arrived at London-derry from St. John on Tuesday. The Canadian Rancher sailed from London for St. John yesterday. The Wisley will likely sail tomorrow for London. The Canadian Explorer will sail for Cardiff, Swansea and Avonmouth on Saturday. The Canadian Conqueror will sail for Liverpool tomorrow morning, and the Canadian Coaster will sail for London on Saturday. The Grey County is due about next Wednesday from Bordeaux. The Norwegian steamer Sisto arrived at St. John yesterday. The Sisto left Cardiff on January 28, with a cargo of coal for St. John's. Since the middle of February she had been stuck in ice floes off the coast of Newfoundland, and provisions were nearly exhausted. Off-shore winds loosened the ice so that the steamer was able to make her way into the dock. The steamer Bornholm, from Halifax for St. John's, which had also been held up, arrived yesterday also.

USE The Want Ad Way

A BRIGHT YEAR FOR MORVICH

Owner Expects Him to Equal or Surpass Man-o'-War's Record This Year—Being Conditioned for Kentucky Derby.

New York, March 9.—(By Canadian Press)—Morvich, the champion two-year-old of 1921, is being pointed for a great campaign this season and is expected to equal, if not surpass, the great record made by Man O' War in his three-year-old year. In winter quarters at the Jamaica course the mighty son of Runnymede and Hymalaya is being conditioned for the first of the three-year-old classic of the year, the Kentucky Derby. After that he probably will be transferred to the Landonia Derby, the "Breakfast in Maryland" and all other events for horses of his age for which it may be practicable to train him.

It is the attitude of Benjamin Block, owner of Morvich, that his colt is as good a horse, on what he showed last season, as Man O' War ever was. Block belongs to the racing fraternity of the American continent and to the people generally. Mr. Block regards his colt merely as a custodian for racing this year. He is a California-bred colt and reckons it as a sacred obligation to show him in as many places as possible, to the end that the greatest number of the supporters of racing may see him in action. It is possible, though dependent upon the success of the colt, that he will be taken to Canada for some of the best three-year-old stake events.

Morvich did not happen to be eligible to race in the Belmont Park Futurity revival of 1921, which Benjamine, one of his prospective Kentucky Derby opponents won. But, after his victory in the Hopeful he went down to Havre de Grace and carried off by winning a renewal of the Eastern Shore Handicap. After the Eastern Shore he earned an additional \$427.00 by winning the Maryland Futurity Inaugural.

By a victory in the impending renewal of the Kentucky Derby Morvich may possibly get a start that will enable him to equal the record Man O' War made in 1920. Man O' War earned \$166,140 as a three-year-old and retired to the stud prematurely mortgaged with a matter of \$249,465 in earnings to his credit. Add \$166,000 to the \$119,000 Morvich earned last season and the total is a greater sum than any American thoroughbred has accounted for in the past.

That Morvich will negotiate the Kentucky Derby distance no sophisticated patron of racing who watched the stout little Runnymede colt race last year, doubts. The circumstance that his father, a son of Voter and Running Stream and a half brother of Ultimus, Pebbles, and Cataract, did not distinguish at racing over one mile is no consequence, having been his extreme distance under pressure, got brilliant route travelers in Ballot and B. Manager. Sterling, a miller, sired Isomony and half a dozen truly great distance runners. More recently in Great Britain Sandridge, a sprinter of the Voter type as regards racing speed, the distance runner Sun Star and Sun Brier, and Sun Star has fathered a flock of distance runners, notably Bushan, Gallinger Light, Star Hawk and others.

Morvich was bred in California by Adolph Spreckels of the Napa stud. Runnymede had been bred in Kentucky by James R. Keene and sent to England to race. It was in Great Britain that he made his reputation as a sprinter. The veteran trainer, James Rowe, who broke Runnymede for Mr. Keene while the sire of Morvich was still a yearling, has always had an idea that if he had been able to train Runnymede in America that he might have developed him as a first class mile-and-a-quarter horse, like Whisk Broom 2nd.

On the distaff side Morvich comes from one of the strongest families of the Napa stud. Hymalaya, his dam, was a daughter of the distance runner Dr. Leggo and Georgia Girl; she a daughter of the stout bred Solitaire 2nd (an imported son of Ayrshire and Solon) and Georgia Girl, by Flambeau out of Goula. Dr. Leggo was by the distance runner Purday, and he was the son of the distance runner Deciever.

Bender Improves Cadets. West Point, N. Y., March 8.—Chief Bender, former big league pitcher, was here during the last week working with Hans Robert, coach of the army baseball team, in the preliminary development of the cadets' nine. Bender handled the army pitching staff, and has given invaluable assistance during a brief stay here. The Army will open its baseball season on April 1 against Bowdoin. The complete schedule will be announced this week.

Saskatchewan Dog Derby. Big River, Sask., March 9.—(Canadian Press)—J. McDonald's team, driven by Antoine Maurice, an Indian driver from Isle Lacrosse, won the first annual 135-mile Saskatchewan dog derby, finishing here yesterday morning. He covered the course in eighteen hours and fifty-nine minutes.

BABE RUTH SIGNS

Colonel Huston of the New York American League Club announces that "Babe" Ruth, famous home run king, has signed a five year contract. It is reported that his salary will be around \$75,000, with a bonus of \$500 for every home run. The toss of a coin is said to have settled the argument between Babe and the club. Ruth won the toss so he is to get his original demands. He is the highest salaried man in baseball.

TO CURB WOMEN SMOKERS.

Bay State Legislator Wants Practice in Hotels Forbidden.

Boston, March 9.—The female smoker was under discussion today before the Legislative Committee on Legal Affairs. Representative Shulman of Dorchester, appearing for his bill to prohibit women from smoking in hotels, asserted that the measure had been offered to raise the standard of hotel life and to promote the public health.

If women wanted to smoke, he said, let them do so in private. He declared that the smoking habit had been brought to this city by "a handful of women who saw it in New York and thought it would be a society fad here."

W. W. David, speaking for the hotel men, said he did not like to see women smoke, but he thought it preposterous to stop on the hotels the burden for stopping the practice.

Nils T. Kjelstrom, speaking for the Association for the Preservation of Personal Liberty, remarked that decent women did not smoke and added: "If women are prohibited from smoking, then the men will be, and our clothing regulated."

Representative Shulman's bill would amend the hotel laws so to make the proprietor liable to a \$100 fine if women smoked at his establishment.

EVANGELIST KNIGHT IN CARLETON COUNTY (Victoria News, Perth, N. B., March 3.) The gospel meetings which have been held by the congregation for over six weeks at Aroostook Junction and at Perth (Rev. C. O. Howell, B. A., B. D., pastor), will long be remembered as a time of sane and instructive evangelistic effort fraught with lasting blessing to the communities. Evangelist Knight, in hearty co-operation with the pastor, has endeavored himself to many. His timely addresses and soul inspiring singing will long linger in the hearts of all who heard him. Next Sunday will be his last day with the church, at least for the present, and no doubt it will be a great day with each of the congregation.

The evangelist will be the preacher at the morning preaching service at Andover. He will also give a farewell address at Aroostook Junction at three o'clock. There will be preaching service at Perth Sunday morning at eleven, when the pastor will be the preacher. Evangelist Knight will be the preacher at the evening service at Perth. As the United Baptist first district quarterly meets with the Perth church on Tuesday and Wednesday of next week with a preaching service each evening, it is likely there will be a continuance of the gospel meeting throughout the entire week, up to Friday night.

ST. JOHN PLAYERS IN TOURNAMENT Montreal, March 6.—Friday and Saturday of this week will see the first championship tournament of the Canadian Badminton Association played in this city. The association was formed last December. For the tournament over a hundred entries have been received from Toronto, Montreal, Quebec, St. John, Halifax, Ottawa, Kingston, and London, (Ont.).

GAME POSTPONED. The Sussex High school-Rothsday Collegiate school postponed hockey game was further postponed last night because of soft weather.

AWAITS DEFINITE BID FROM FRAZEE

Kearns Says He Has Heard Nothing Further Regarding Big Fight Plans.

(New York Times) Jack Kearns, manager of Jack Dempsey, last night reiterated a statement he made on Saturday when he was first apprised of the offer made by Harry Frazee, Boston Red Sox owner and theatrical manager, to buy Dempsey. Frazee, the negro fighter, in a battle for the world's heavyweight title this summer.

When his attention was called to statements in which he was said to have agreed to Frazee's offer, which carries with it \$50,000 more than the champion received for his bout with Georges Carpentier in the Jersey City Arena last summer, Kearns stated emphatically that he had not heard further from Frazee and that he had given the offer no consideration.

"I stand on my original statement in the matter," said Kearns, just as he was about to take his turn with the champion at the Hippodrome last night. "There is positively nothing of the matter. Of course, I have had a few wires from Frazee, and while the offer is satisfactory so far the money end of it is concerned, Frazee has as yet failed to give me any inkling as to where he plans to stage the bout—a rather important detail.

You can bank on it, if there are any definite ideas as to where the battle could take place, there would be a merry scramble on for the privilege of staging it, but thus far, so far as I know, there is not a single rift in the skies showing any arena available for such a contest.

"In case Frazee will show me where he can stage the bout, then there will be plenty of time for us to get together and discuss the details. In his original offer, he mentioned Boston, New York and New Jersey. Immediately Boston was declared against such a contest; the New Jersey Boxing Commission has put its foot down against the proposed bout, and New York is out of the question.

"There is something about the whole proposition that makes me chary toward it. Three championship bouts in one arena on the same day is something that is certainly a novel way of settling matters. Whether it is practicable is quite another matter.

"No Jack and I have no immediate plans for the future, except the immediate future. The present act is drawing big money and we are having lots of fun. I may go to Europe this summer. I don't know.

"Returning to the subject at hand, I have not heard from Frazee since he departed for the south, leaving behind the offer, which is certainly a tempting one in the matter of finances, but I have not heard from him so far as actual when, where and how is concerned."

Pain In Her Arm Is Now All Gone

Mrs. Stanton Recommends Dodd's Kidney Pills.

Woodstock, Ont., March 8.—(Special)—Mrs. John Stanton, who lives on R. R. 1, near here, is never tired of telling of the benefit she received from the use of Dodd's Kidney Pills. "About four years ago I had rheumatism in my left arm," Mrs. Stanton states. "It was so painful I couldn't dress myself."

"I read about Dodd's Kidney Pills and what they had done for others, so I sent and got six boxes. They did me good right from the start. The pain is now gone, but I keep Dodd's Kidney Pills in the house, as I have an occasional touch of lumbago, and they help a lot. They help my husband's head, too."

Dodd's Kidney Pills are the best known and most reliable of kidney remedies. They heal the kidneys. Sound kidneys strain all the uric acid, the cause of rheumatism, out of the blood. Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

N. S. GOVERNMENT MAY HELP TOWNS IN WORK MATTER Halifax, N. S., March 9.—Hon. R. E. McGregor, minister without portfolio yesterday intimated in the legislature that the government might be prepared to place its guarantee behind any town which required money to meet the abnormal situation arising from unemployment and its attendant distress, if the town was not able to meet these conditions by normal means.

OSCULATORY TENOR GOT SMACK ON JAW

Kissed 17 Women "From Texas," but 18th Husband was Present.

New York, March 9.—Rafaelo Diaz, handsome tenor of the Metropolitan Opera Company, is trying to account whether kissing eighteen beautiful women is worth a resounding smack on the jaw. Considering that his jaw was not broken, that his lips still retain their delicate contour and sensibility, and that he lives to kiss another day, Rafaelo believes that he came out on the right side of the exchange.

Besides he reasons that if he had stopped at the seventeenth, looked before he leaped, he would have been no need for bandages or liniment at all. Then what a reminiscence, and everything on the credit side. It was early in the morning, and the entertainment in aid of crippled children, held in the ball-room of the Hotel Commodore, was nearly over. Diaz was just finished singing—a very amorous song of love and tragedy—beautiful women gathered about him, admiring for one thing, his complexion.

"That's from Texas," said the tenor. "I'm from Texas, too," said Miss Mary McCormack of the Chicago Company. So he kissed her, lightly. Immediately the curious revelation was made that all the other women were from Texas, seventeen of them. At least they all said they were from Texas. Anyway Diaz took their word for it, and one by one he kissed them until he came to number eighteen. She was not from Texas, at least she hadn't said so. To Rafaelo her silence was admission, but the gallant tenor took too much for granted.

Then came a rush, a ball and vigorous figure burst through the circle of fluttering femininity, and the knuckles of a Riverside Drive physician crashed against the jaw of the singer. Number eighteen happened to be the physician's wife.

"How could I have refused to kiss her?" Diaz demanded when he was struck. "There was nothing wrong in it—in the presence of all the others."

PROHIBITION PARLIAMENT

Dominion Alliance Urges Continuous and Energetic Law Enforcement.

Toronto, March 9.—The forty sixth annual meeting of the Ontario Branch of the Dominion Alliance styled the "prohibition parliament" opened in Massey Hall yesterday. The session terminating in a mass meeting last evening when resolutions were passed endorsing a continuous and energetic law enforcement campaign on the part of the provincial government, and also one calling on the government to institute in all the schools and universities and technical schools the province studies calculated to instill in the minds of the youth of alcohol as a beverage.

OLD MINER'S GUESS WINS

Ung His Brains as Well as His Pick, He Cleans Up \$75,000.

As an old-time mining man, G. R. Bancroft has found it advisable to use his brains as well as his pick. At Elbow Lake, Canada, reached the outer world, an influx of prospectors followed. All these fortune hunters by the original Murray discovery. Then he looked up the records and found that this land that he had staked on the new mine had not been filed on. It had been overlooked because of the heavy growth of timber and the up-and-down nature of the country.

So, right next door to the Murray claim, which is said to be one of the richest discovered in years, Bancroft staked his claim. A few days later, before he started work, he sold out for \$75,000 to a Toronto syndicate. The Elbow Lake region is trapping grounds of the Hudson's Bay Company, that is closing out to farm settlers all its lands in the Prairie provinces. While the region is pure wildcat territory, it is said, have been staked at Elbow Lake since the rush began, and a gold camp that rivals in picturesque the boom towns of the old days in the American West has been established.

QUEBEC HOUSE LIKELY TO PROLOGUE NEXT WEEK

Quebec, March 9.—(Canadian Press)—Sixty six bills passed by the Quebec legislature during the present session were given royal sanction by the lieutenant governor yesterday afternoon. The remainder of the bills will be sanctioned at the prorogation which is expected towards the end of next week.

ST. JOHN AUTOMOBILE SHOW

April 3rd. to 8th. Under the Auspices of the Commercial Club of St. John Most Attractive Display Ever Held in This Province

EIGHTEEN POLICEMEN POTTING AT HIM; BURGLAR GIVES UP THE CHASE

(New York Times.) Eighteen policemen of the Jamaica Station, on foot and in automobiles, surrounded the woods in Miland Parkway, Jamaica, yesterday afternoon, firing at an alleged burglar each time he came into sight and finally capturing him. He said he was Frank Meyer, thirty-eight years old, without a home. Jamaica detectives believe he is responsible for several burglaries in the Eastwood section of Jamaica.

Yesterday afternoon Meyer rang the bell at the home of David W. Couch, Homer Lee avenue and Crofton road. Miss Gertrude Couch, who was home alone, did not open the door, but a half hour later she discovered him in the sun parlor. Believing no one was at home, he apparently broke a window, then unlocked the door latch and entered. As Miss Couch came into the room the stranger fled, running toward the woods. Miss Couch gave the alarm, and police reserves surrounded the place, firing as they went. They hemmed in closer and closer to the centre of the woods and Meyer suddenly darted from behind a tree into the open roadway. Shots followed him. After running a short distance he turned and threw up his hands.

In Meyer's possession the police found twelve skeleton keys, a penknife and \$90 in cash. He admitted, the police say, having served a term for burglary and having been released only two years ago.

In the station house he was identified by Miss Couch and three other women, who said he had rung their bells, and on finding some one at home, asked for food.

On Tuesday Sheriff Fernandez received a telegram from Inspector Twissell at St. John (N. B.), ordering the release from the county jail of Patrick Doherty, who has been held here for deportation. It was stated that the immigration authorities had been unable to prove that Doherty was a Canadian citizen.—Bangor News.

WANTS DEPARTMENT OF COMMERCE FOR QUEBEC

Quebec, March 9.—Creation of a department of commerce is urged on the provincial government by Joseph Tremblay, opposition member for Joliette.

Made For Him "Prep" Clothes \$20 to \$40

WHEN we say "made for him" we mean clothes that were ordered specifically for the youth ready to don First Long Trousers.

Not just young men's styles, but models to fit his growing athletic figure. And here are the Clothes he wants, in the style and fabric he desires, and at the prices he can afford.

IMPERIAL Back to Pictures at Ordinary Prices "THE GREAT MOMENT" GLORIA SWANSON and MILTON SILLS In the Romance of an English Heiress and a Mine Engineer JUST READ THIS EXTRAORDINARY PLOT: An English baronet is visiting his Nevada mining property taking with him his charming daughter. When roaming the mine area with the gentlemanly superintendent the young lady is bitten by a snake. The old remedy, whiskey, is freely administered. The fair patient is taken into a shack nearby to recover from the effects of the antidote. In a delirium she makes love to the stranger. The baronet happening upon the scene becomes furious. He forsakes his daughter. When the girl recovers she is mystified at the roundabout turn of affairs and is crushed by her father's cruelty. The Engineer at once annuls the foolish marriage. Then follows a real romance—a play in which such stars as Miss Swanson and Mr. Sills can well enact. One of Elinor Glynn's Latest Stories With a Splendid Cast of Star Players Pathe's British-Canadian News. —TOMORROW— William S. Hart in "3-WORD BRAND" The Story of An Indian Raid

International trophy after the seasons in the respective associations close on March 20. Two games would be played in the U. S. in Pittsburgh or Boston and two in the Toronto arena. Hamilton Defeats Champions Ottawa, March 8—Hamilton Tigers defeated the Ottawa team tonight, 7 to 2, in the last scheduled national league fixture and well deserved their victory. The Ottawa never were seriously in the play, and in fact took a far more casual interest in the result than did the spectators. Punch Broadbent was the best of the locals, while Lockhart, Reise, Goldie Progers, Roach, and old Joe Malone were the stars of the visitors.

will be played under championship conditions for a purse, donated by Charles Kling, and the gate receipts to be divided sixty per cent for the winner and forty per cent for the loser. Hagenlacher has made some remarkable records. In his match with Cutler, the German had a high run of 385, which is more than the official world's record mark made by Coogan in the course of his play in the Chicago tournament last fall in which he was returned a winner. At the same time, Hagenlacher, also in the Cutler match, made a high average of 63%, which is a better performance than was turned in by any of the members of the "Big Three," Hoppe, Schaefer and Cochran, in their triangular tourney. The next best high average mark on record is that of Edouard Hermanns, the Belgian cue star, who made W average of 60.99%.

SKATING. Arthur Staff, world's professional speed skating champion, made his first New York appearance since winning the title in the joint meeting at Endicott and Lake Placid, at the 181st Street Ice Palace, New York. Staff gave a two-lap exhibition of speed during the intermissions between the special racing events on the program. W. Becker, Trenton Skating Club star, was the winner of the Class A one and one-half mile handicap event, defeating H. Niebur, his clubmate, and L. Jay of the Brooklyn Skating Club. His time was 5.17.

BILL LIMITS PRICE OF FIGHT TICKETS IN JERSEY TO \$15 Trenton, N. J., March 8—The New Jersey Senate has passed a bill by assemblyman William W. Evans of Passaic County, limiting the price of admission to boxing exhibitions to \$15 maximum. The bill also requires that applications for boxing licenses be filed with the State Athletic Commission ten days before a bout, and that all officials connected with the fight be residents of New Jersey. The measure, which passed by a vote of 13 to 2, is aimed at alleged profiteering by fight promoters who come into New Jersey from outside the state to arrange boxing exhibitions.

TO PLAY IN SUSSEX. The Indian hockey team of West St. John will go to Sussex on Friday evening, weather permitting, to clash with the champions of the western section of the N. B. and P. E. I. Hockey League. The local team will be strengthened for the game and hopes to give the Sussex team a hard fight. The team will be made up of the following players: Blanchard, Fraser, Doyle, Boudreau, Doherty, Kilpatrick and Burns.

MISS GLENNA COLLETT MAKES RECORD FOR A MISSED PUTT Belleaire Heights, Fla., March 8—Miss Glenna Collett, a young Providence girl who gained golfing fame last season by her defeat of Miss Cecil Leitch in the Berthelton Cup competition at Philadelphia, established a record here for the shortest putt ever missed. Playing in the women's championship tournament, Miss Collett's ball hung on the lip of the cup, in imminent danger of toppling into the hole. Miss Collett took a stab at it, trying to make sure of sinking it. She missed it by an inch, the head of her putter hitting the ground behind the ball and stopping in the turf.

ATHLETIC. The Olympics. Paris, March 9—The firm intention of the French government to hold the Olympic games in 1924 was voted in the Chamber of Deputies today by Gaston Vidal, under secretary of technical education, representing Premier Poincare on an interpellation concerning the delays in the plans for the Olympics. Vidal said the government bill appropriating 20,000,000 francs for the games, which was sent to parliament yesterday, apparently would be a heavy burden on France during the financial depression, but that the government was determined to hold the games "in a style worthy of France."

RING. Georges Carpentier III. Georges Carpentier is suffering from a carbuncle on his neck, and was operated on yesterday. A message received by Al Lipps, manager of Jeff Smith of Bayonne, N. J., said that he was quite ill and would not be able to meet Smith on April 8 as arranged.

BASKETBALL. Byng Girls Win. The Y. M. C. A. Byng Girls won the championship of the Ladies' City Basketball League last evening when they defeated Fairville by a score of 18 to 5. The winners have arranged a game with the U. N. B. girls for Saturday night. The league presented by John McAvity will be presented on this occasion. The Buffs and Sparks also played, the former winning by a score of 8 to 3.

BILLIARDS. Cochran to Play German. Eric Hagenlacher, noted German professional billiard star, who recently defeated Albert Cutler in a 3,000-point match, will meet Walker Cochran, world's champion, in a special 2,400-point exhibition 15.2 ball game match, which will be played in New York Academy the latter part of the week. Sheppard Barelay, manager of Cochran, announced that he had succeeded in

CHANGE NEGRO TO WHITE MAN?

Brazil Doctor Has Blood Irrigation Method—Says Life can be Prolonged.

New York, March 9.—Dr. Octavio Felix Pedroso, a young Brazilian scientist, arrived in this country on the Southern Cross, of the Munson Line, for the purpose of demonstrating a blood irrigation method whereby, he asserted, he could change black skin to white, bring the dead back to life under certain circumstances, and increase man's allotted span of years and ten indefinitely.

Dr. Pedroso, who is twenty-six years old, said that the means through which most of his claims were accomplished was a blood irrigation device which he had constructed after many years of experiment.

Although his color transformation experiments had been conducted on rats successfully, Dr. Pedroso said he was certain he could change negroes to whites without difficulty. He said he would attempt such experiments while here.

Really Blood Pump.

This device is really a blood pump, whereby the blood is pumped out of one arm or leg into a series of rubber coils where it can be treated by heat or injected with serum, and then returned to the body through the other arm or leg. Dr. Pedroso said it has many uses beneficial to man, as I have demonstrated in more than 1,000 cases I have treated in my institution.

"For example, I have assented the sleep period by electrically treating the blood pumped out of the left arm, so that when it is returned to the patient by way of the right arm the blood is cleansed of all impurities and is energized, thus decreasing the rest period ordinarily required."

Dr. Pedroso said it required about a month to change black skin to white. The change was accomplished by the introduction of white corpuscles and the elimination of the black corpuscles in the blood, he explained. Describing the experiments with black rats, Dr. Pedroso said he injected a serum first in one leg of the rodent and then the other. By this process five trillion cells were transferred a day. He said that the first change in color was noticed at the end of fifteen days. In a month the black rat had joined the white rat family, he said. "The method is very simple. I am certain I can change negroes to whites," he declared.

Bringing Dead to Life.

Dr. Pedroso said his process of resuscitating the dead was to massage the

ELIMINATE FEAR OF UNEMPLOYMENT

Feeling of Insecurity Background for Every Radical Labor Movement—Employers' Problem.

(Montreal Gazette)

A haunting fear of insecurity is at the back of every radical labor movement, according to Dr. W. A. Mackintosh, of Queen's University, who addressed the members of the Montreal Women's Club yesterday afternoon in the Central Y. M. C. A. "Security of the Wage Earner" was the title of the address, and Dr. Mackintosh suggested that the most logical way of eliminating the constant fear of unemployment which lurked at the back of every wage-earner's mind was to insure them against unemployment. A considerable part of the cost for this, said the lecturer, would have to be borne by the industrial employers to be born by the industrial employers seem startling, but in the end it would be the employers who would benefit, for they were facing many uncertainties, losses caused from strikes, etc., and they would in that manner secure a healthy business which employed contented workmen.

"Everything in the life of the wage earner and his family depends on his job," said Dr. Mackintosh, "and it is the haunting fear in the backs of these men's minds that we have to deal with as social workers. The background of every radical labor movement is just that feeling of insecurity; not so much radicalism or foreign agitation, radicalism merely follows insecurity. Our modern civilization," continued the speaker, "is derived from security of property, without which there would be no credit system, which again there would be no extensive industry. Security would free labor, and some employers have realized this and are spending large sums of money, not on philanthropy, for it is the kind of philanthropy which pays interest." Coming to the remedy for this feeling of insecurity, Dr. Mackintosh said that much money would necessarily have to be spent in experimentation. The remedy, he said, would only be solved by the business men themselves. The Government can initiate the remedy by cleaning its own house before it asks the business men to clean theirs. He deplored the lack of planning departments with the government, relief work being merely a drop in the ocean, so to speak, and generally planned much too hurriedly.

The plan of unemployment insurance, he admitted, would call for intensive study, and would be very difficult in Canada, where the seasons and tides of industry played such enormous roles. The employers, however, had to face the Workmen's Compensation Act, with the result that accidents have decreased in a surprising manner, and the additional matter to face, in the shape of the unemployment would be relatively small, for, he said, they are already bearing the burden of the unemployed, the only change would be that they would face a definite change instead of a great many uncertain ones.

"Socialism," he concluded, "of all shades, can never grasp the problem of industrial trouble, in spite of all its grandiose schemes. It remains for the business men themselves to get together and work this perfectly tangible and feasible matter, and in twenty years or so I predict that there will be hardly any labor trouble, for the feeling of insecurity will be gone."

SENATORS SWORN IN

Ottawa, March 8—Eleven senators were sworn in this afternoon as follows: Brig-General W. A. Grenfell, Alberta; Hon. J. Calder, Saskatchewan; John McCormick, Nova Scotia; R. F. Green, British Columbia; At B. Gillies, Saskatchewan; Sir Edward Kemp, Ontario; Brig-General A. H. Macdonnell, Ontario; F. B. Black, New Brunswick; S. J. Crowe, British Columbia; P. F. Marshall, Nova Scotia; A. B. McColge, Ontario.

Hon. Hewitt Bostock was installed as speaker of the senate.

COMEDY PRESENTED IN EAST ST. JOHN

The East St. John Community Club presented the play "Patty makes things hum" at the Community Hall in East St. John last evening. A capacity audience attended. Those who took part in the play, which was enlivened with much fun, were John Gibb, Jack Piney, Bert Josselyn, Alick Taylor and Misses Jean McAllister, Grace McFarlane, Marjorie Beyea, Freda McFarlane, Helen Magee and Muriel McAllister. Miss Edith Magee was pianist. The star for school girls' class of the Y. W. C. A. furnished an Irish jig specialty between the acts. The stage hands were J. M. Anderson, M. L. Foy and J. A. Burns.

Ottawa, March 8—Professor McNeill of Queens College and Dr. S. F. Mackenzie, of Sydney, (N. S.), were yesterday recommended by the Ottawa presidency to hold chairs in Knox College and Westminster College.

Horrockses For Lovely Whitewear Are you proud of your lingerie? Do you find yourself mentally comparing it with what you see in shop windows and in the wardrobes of your friends, and wishing yours were a bit different? You can have just the kind you most admire. HORROCKSES' "DIAPHALENE" is a new material which was created with just one purpose in view—to make it possible for a girl to make the kind of "undies" she craves, and at a moderate cost. DIAPHALENE is a soft, clinging cotton fabric with a silky finish which lasts as long as the garment is worn. It comes in white, pink, sky, mauve, and all the soft art shades, and is especially adapted to the exquisite embroidery and lace, frilly trimming so much in vogue. If you prefer heavier cotton for any purpose, there are the famous HORROCKSES' Madapolams, Cambrics and Longcloths, and for baby clothes HORROCKSES' Nainsook is the choice of discriminating women. For name of nearest store where procurable, write JOHN E. RITCHIE, Canadian Agent, 591 St. Catherine Street W., Montreal Branches: Toronto and Vancouver HORROCKSES, CREWSDON & CO., LIMITED Cotton Spinners and Manufacturers - Manchester, England
