WANTED: A PEACEMAKER FOR BALKANS

Serbia Demobilizing Soldiers But Prepared for War.

The Position of the Jugoslavs — British Loans and Good Harvest Prospect Improve Conditions in Serbia But Prices Are High.

Belgrade, July 25.—(Associated Press response)—What the Balkans need to prevent new wars is a man of one personality and charitable tendencies or a humorous Don Quixote, according to Premier Venizelos, of Jugoslavia.

Whether it is within the compass of man intelligence to prevent the present tendencies to prevent the present war tendencies the next few weeks show. The broader aspect of the Balkan countries to become a great field will be playing into the hands of the peace treaties in territories from which he is working industriously in each country circulating war rumors and exciting quarrels for which there are easy too many reasons.

That the Jugoslav government certainly does not want war with any other country The Associated Press authorized to state from a high authority. The Briton—Hullo! Over for a holiday? The American—An alcoholist! —Bert Thomas in the Sketch, London.

BUY IN THE OLD COUNTRY RATHER THAN IN STATES

Sir George Perley Talks of Britain's Troubles and of Canadian Trade.

Ottawa, Aug. 21.—(By Canadian Press)—Great Britain is having her troubles and lots of them, but she will pull out all right and maintain her smile upon civilization, is how Sir George Perley, Canadian high commissioner in London, expressed himself to the Canadian Press yesterday on his return from the old country, along with Lady Perley.

Asked regarding Canadian trade in Europe, he said the outlook was never so bright. He strongly commended the health maintenance by the many Canadian health resorts in the United States.

This, he said, would have a double advantage, it would strengthen relations with the United States, and it would also effect the exchange situation.

While the Jugoslavs are said to be afraid of war, yet they realize the perilous position with respect to international political dissensions, as it concerns what the Bulgars and Serbs might do in case the Jugoslavs do war on Italy. Not counting the intrigues it is not believed in mercantile circles here that the Serbs and Bulgarians will reach an understanding of the same tenor, stating he is also incident it is believed if it is the Jugoslavs who insist strongly on an amnesty.

(A crowd of Croats attacked Italian officers at Spalato, on July 11 and led an Italian commander and several men.)

A trip through the city streets comes one that all is quiet. Citizens rarely deny any war madness. During the recent celebration of King Peter's day no demonstrations of a war nature occurred during the large parade.

The recent British loans and reports of a good harvest have improved the exchange, the dollar being worth 12 to 17 as against 20 to 30 a few months ago. Prices, however, are high in hotels costing from one to two American dollars. Cheap shoes may be purchased at from 20 to 25 American cents. Country people are selling foodstuffs to Austria and to the Poles and Czechs, but otherwise no real business is going on owing to the adverse exchange rate preventing buying abroad, and the demand of merchants for credit which few are willing to extend.

It was pointed out that the Jugoslavs got all they could possibly hope for the peace treaties in territories from which he is working industriously in each country circulating war rumors and exciting quarrels for which there are easy too many reasons.

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam, as he and the Times reporter sat on the veranda in the falling dusk, "that Premier Meighen is going to be in St. John."

"Young Mackenzie told me today," said the reporter, "that he and another boy saw three ducks in Mud Lake."

"A duck," Mackenzie King went on, "he's been making another speech on the tariff."

"The boy told me," said the reporter, "that they saw a big crane in the lake, and picked some logs cranies."

"I suppose there'll be another banquet in St. John," said Hiram. "The most glibly is when anybody comes along."

"The boys also said," observed the reporter, "that they started several flocks of partridges in the woods."

"See here," said Hiram, "I wasn't talking about partridges nor no boys. I don't seem to care much about the affairs of this country."

"The affairs of this country," said the reporter, "what affairs?"

"Politics," said Hiram. "You and I?" said the reporter, "were conducting the affairs of this country in the potato field today. Six barrels in the cellar before it began to rain. Politics? When I was at my desk with a telegraph instrument in the next room and pages of news hot from the wires coming in there did seem to be something in politics. But out here in the settlement there is something else to think about. Hang politics. I counted forty-six oaks in one head and a stalk over four feet high. A way with you?"

"Children," said Mrs. Hornbeam in the doorway. "You've got to get up early in the morning."

"Yes, sir," said Hiram, "the last of that interval has come now, now."

"And politics be hanged," added the reporter.

Plan For Russia And Germany To Work Together

Believed Understanding Has Already Been Reached and Terms of Agreement Drawn Up—Moscow Message Says it is "Needed to Save Europe."

London, Aug. 21.—The need of a Russo-German agreement to save Europe from an economic catastrophe and from chaos, is emphasized in a wireless message from Moscow published in the London Times yesterday.

Following the announcement in the London Times yesterday that Moscow and Berlin already have reached an understanding, Kopp, the Soviet ambassador to Germany, recently visited Moscow to submit the terms of an agreement which he had negotiated.

The wireless says there is hope that Germany will soon conclude a political and economic convention with Russia.

"The Soviet hopes this agreement," says the Times, "strengthen the belief that Moscow and Berlin already have reached an understanding. Kopp, the Soviet ambassador to Germany, recently visited Moscow to submit the terms of an agreement which he had negotiated."

SEVERAL BRITISH OFFICERS VICTIMS

Another Tragic Chapter in Arab Uprisings

Gallant Resistance to Overwhelming Numbers for Three Days Till Ammunition Gives Out—War Office Report.

Bombay, Aug. 21.—Another tragic chapter of the series of Arab risings against the British in Mesopotamia has been received here.

The message says that Mr. Drigley, a political officer, Bradford, commandant of the levies; Mr. Buchanan, an irrigation officer; and two British non-commissioned officers were killed at Shahrab, Mesopotamia, on last Sunday by Arab rebels.

The officers with their levies gallantly resisted overwhelming numbers for three days, but their ammunition was exhausted. The Arab levies were loyal to the end and did fighting side by side with the British.

London, Aug. 21.—The latest reports show little change in the Mesopotamian situation, says war office announcement today. The Bakuba area is still in revolt as far north as Tikrit, the British post at Sakiya, twenty-five miles south of Kirkuk has been secured.

The railway from Hillaga to Bagdad has now been secured at both ends by British troops. The British post at Hillaga itself. The heat and lowness of the river impeded operations.

A PROBLEM OVER HIS LIQUOR STOCK

Millionaire Sportsman, Who Died Recently, Left \$20,000 Worth Stored in His Cellar.

Chicago, Aug. 21.—George Griffin, a millionaire Chicago sportsman who died in California, left an estate valued at \$1,500,000, including \$200,000 worth of liquor, so it was learned yesterday when an inventory was filed.

His estate recently presented a complicated problem to federal authorities. It was known here that he had a well stocked wine cellar. His house was offered for sale and federal officials were asked to rule as to whether the liquor should be included in the sale, and if not, if it could be moved, they decided neither could be done.

The inventory listed twenty kinds of wines in the cellar.

COLONIZING IN MEXICO

Each Farmer Has "Own Row to Hoe"—Government Furnishes Implements and Seeds.

Mexico City, Aug. 5.—(By Associated Press)—To satisfy the land-hunger of the Mexican peasantry, the government is establishing farm colonies in the states of San Luis Potosi and Guanajuato. Other settlements will be founded as soon as these first two are completely launched.

In these colonies, the small proprietors will live like the Mormons in Chihuahua and Sonora—each community having its own streets, market, garden, school and moving picture theatre. Apportionment of the adjacent farm lands will be made so that each petty landholder will literally have his own "row to hoe" thus obviating one of the greatest causes for the many recent uprisings that have occurred in Mexico. Each farmer will be furnished with agricultural implements and seed.

These farms will be non-transferable in any form, whether by mortgage, sale or exchange. They may be inherited, however, and are to be free from taxation. It is planned to establish the proposed colonies near railroad lines, so that the products will find ready markets.

DUBLIN CASTLE STATEMENT ON THE NEW ACT

Not to Be Used Except Ordinary Law Falls

Police Barracks at Ballymahon Stormed and Captured After Battle Lasting Hour—More Seizures of Official Mail.

London, Aug. 21.—The London Gazette last night printed an order-in-council putting the new Irish act into operation forthwith.

It gives minute regulations as to how the act will be enforced, but does not stipulate localities where it will be enforced.

Dublin, Aug. 21.—Dublin Castle last night issued a statement that the regulations for the operation of the new restoration of order act will not be applied in substitution of ordinary law whenever the ordinary law is available and not obstructed by violence and intimidation.

Bullington, Ireland, Aug. 21.—One hundred armed raiders attacked the police barracks at Ballymahon, near here, last night and compelled the garrison to leave the premises, after a battle lasting an hour. Rifles and bombs were used by the raiding party. The barracks were burned.

Stout resistance was offered by the policemen until their commanding sergeant was badly wounded. The raiders permitted the policemen to depart unharmed after they turned over the barracks.

Dublin, Aug. 21.—Mail robberies were again carried out yesterday. Armed raiders held up a train from Cork for Macroom and seized the official mails. Another train was stopped at Newcastle, county Wicklow, and official mail stolen. Masked men waylaid a mail van at Louth village. They removed the official mails.

Hunger Strikes. Cork, Aug. 21.—Four hunger strikers in the jail were removed yesterday to the hospital. Fearing that the hunger strikers will die, Deputy Lord Mayor O'Callaghan has written to Cardinal Logue, the archbishop, the Lord Mayor and the mayors of Ireland, calling their attention to the situation.

London, Aug. 21.—Miss MacSwiney yesterday saw her brother, the Lord Mayor of Cork, who is in British custody, under a sentence of two years imprisonment by a court martial on a charge of sedition. She said she found him very weak, but determined to continue his hunger strike to the end.

Lady Miss MacSwiney tried to see the home secretary, but succeeded only in obtaining an interview with the under-secretary for home affairs, Sir E. Blackwell.

Repeating the interview she had with him, Miss MacSwiney said Sir E. Blackwell told her the government would certainly not release her brother. Miss MacSwiney has written the home secretary asking him to grant her an interview today.

Tuesday's Conference. Dublin, Aug. 21.—All moderate sections of opinion in Ireland are greatly interested in next Tuesday's conference called to enable every shade of home rule sentiment to unite in a statement to Premier Lloyd George relative to the future government of the island. This statement will, in particular, detail what measures short of a republic will keep Ireland within the empire, and which, though possibly opposed by the Sinn Fein, may satisfy the general body of Irish opinion.

The main point for discussion will be the complete withdrawal of the Irish bill now before the House of Commons, or whether an attempt should be made to graft onto it a wide extension of powers, especially regarding finance, which would make it acceptable and workable.

The party headed by Sir Horace Plunkett favors the complete withdrawal of the bill and the establishment of a convention elected on proportional representation from all Ireland to put forward a joint Irish plan.

It is regarded as certain that Premier Lloyd George will receive a deputation from the conference, no matter what its decision may be.

The Sinn Fein attitude toward the conference is put in a few words by Arthur Griffith, founder of the Sinn Fein organization in the leading article of this week's Young Ireland—"England's policy toward Ireland," he says, "was disclosed this week. The republic is to be ravaged while dupes are to be set out for domination home rule in order that the attention of the world may be distracted and the minds of other nations confused."

KILLED IN RAILWAY YARD AT HOCHLAGA. Montreal, Aug. 21.—Fatalities and accidents in this city last night included the following: Arthur Paquin, twenty-one, fell between two cars of a shunting freight on the C. P. R. Hochlaga yards and suffered internal injuries, from which he died. An unidentified man, apparently unconscious from sun stroke was found on the side of the Grand Trunk tracks near Coteau Junction. He was taken to the hospital where little hope is entertained for his recovery.

ALEXANDER BRUCE, K.C. DEAD. Toronto, Aug. 21.—Alexander Bruce, K.C., general solicitor for the Canada Life Assurance Co. died here yesterday after two months illness. He had been a member of the law society of Upper Canada since 1888.

The French authorities have discovered new evidence against "Bluebeard" Landrau, who is accused of killing and burning the bodies of ten Bascos.

Resignations of Merryfield and McAlinh Received, Says Chief Inspector, But Still on Duty.

W. H. McQuade, provincial inspector taxation, when asked regarding resignations that he was to succeed Mr. Wilson as chief inspector, said emphatically that he had never considered the proposition, and would be accepted the position had an offer to him.

HOLD CONGRESS FOR EMPIRE COMMERCE

Important Gathering in Toronto on September 18—All Parts of Empire Represented.

Toronto, Aug. 21.—When the ninth congress of chambers of commerce in the British Empire, which will be held in Toronto on September 18, a labor of aspects which was interrupted by the war for the benefit of imperial trade, the cohesion of the empire will be resumed. Under the presidency of Lord Desborough, the American Empire Trade Commission, Philadelphia, had arranged to make shipments of food for the child feeding work in Germany for the child feeding quantities to last until the end of the year.

Recently there has been shipped from New York 240 tons of cocoa, 317 tons of land and 14,300 cases of condensed milk.

In addition to this, there were shipped thirty-one barrels of cod liver oil for hospital use in combating rickets, the disease of children so common there because of under-nutrition. Dried peas and dried beans used in the food ration were already stored in warehouses in Hamburg to be drawn as needed.

The original plan was to purchase and deliver at Hamburg soon. The remaining articles of the ration, foodstuffs which will be supplied in the future by the German government.

The value of these goods is about \$1,500,000 and it is expected it will be sufficient to provide a supplementary meal for about 500,000 children per day until January. This number is slightly less than the Friends fed during the spring months of this year.

A PECULIAR DEAL

While the United States and Germany have not yet signed a peace treaty and while, technically, a state of war still exists between them, it appears that the American Shipping Board has made an arrangement with German interests under which American ships will be employed by the Hamburg-American line as one step toward rebuilding the German foreign shipping trade. The New York Tribune regards this peculiar deal with considerable suspicion, and directs attention to some rather surprising features of it. The Tribune says:—

"The Shipping Board says that it has adequately safeguarded American interests in the contracts signed with the Hamburg-American line. American ships are to be used to restore traffic between Germany and the United States, and the protection of the American flag is sought to obtain entry into way ports—possibly Plymouth, Cherbourg, and Southampton. In return the new American marine is to find an easy opening into the field of deep-sea traffic, hitherto closed to it except to a very minor extent. The Hamburg-American line will employ American vessels to restore its old trade routes to South America, Africa and the Orient.

"This service may be profitable and will, at least, give a part of the new American marine a needed experience in the methods of ocean transportation and competition. The German contract runs for twenty years. Meanwhile the Germans will try to create another merchant fleet. There is always the possibility that the Hamburg-American Company before the war was a leading agency for German propaganda and during our neutrality an active espionage and sabotage agent, is cleverly engaging the United States to 'pull Germany's chestnuts out of the fire. After we have received German foreign commerce our vessels will probably no longer be welcomed in German ports. This suspicion, fortified by our knowledge of German character and tactics, gives an unpleasant flavor to the Shipping Board's arrangement."

The shipping board has apparently disregarded every consideration except that of immediate profits for a portion of the new American merchant fleet. Many of the new ships were built at an expense altogether out of proportion to their probable carrying capacity, and presumably the Hamburg-American line has offered most attractive terms. Aside from the moral considerations involved, there would seem to be much in the Tribune's contention that if the United States does Germany's work for her while she is endeavoring to re-establish herself at sea, the effect will be to turn over to the Germans much trade which the United States and other nations would otherwise acquire and hold. Had there been a proposal that the Germans should lease for a term of years British or French ships the idea would no doubt have been rejected indignantly. While it is generally recognized that Germany cannot pay the indemnities demanded unless it can sell its products in foreign markets, there was a riot in British ports only the other day because a ship was being loaded there for a German port.

A GIANT OF THE AIR

An English firm is building for the United States navy an airship of the rigid type which will, when completed, set a record accomplishment in flying ships. This monster of the air is to be 695 feet long, with a diameter of 85½ feet and lifting power of eighty-two tons or fifty tons over and above her own weight. The gas bags will have a capacity of 2,250,000 cubic feet of hydrogen gas. These bags will be twenty-two in number, each independent of the others, so that perforation of one or several would not necessarily cripple the ship. There will be six engines, each of 350 horse power, so arranged that if one is put out of commission the others will still supply power.

The maximum speed is to be seventy miles an hour and the economic cruising speed about sixty miles. The ship will be able to carry 160 men, or twenty-three tons of freight, for a thousand miles; 104 men, or fifteen tons of freight, for two thousand miles; and forty-seven men or seven tons of freight for three thousand miles. It is expected that the ordinary crew will number twenty-five or thirty. American officers and petty officers in the aviation branch of the United States navy are now attending a training school in England, preparatory to taking over the ship after it is completed and has had its tests. It is expected that the new monster will be ready for its trip across the ocean early next spring.

A COMPARISON

Those Americans who are opposing the League of Nations, and who are ever warning their country against any participation which would bind the United States to real co-operation with other nations in keeping the world's peace, have a habit of asserting that Great Britain gained more through the peace treaty than any other country. They try to create the impression that the treaty is a British creation and that American aid is sought merely to advance British

interests. This form of agreement leads the New York Evening Post to ask whether British statesmanship is suspiciously "clever" or is largely the result of long preparation, study and sheer application. The Post institutes some comparisons which will be hardly acceptable to those American elements which are against the peace treaty largely because they are anti-British. The Post says:—

"The fact is that public men in England work harder than we do. Parliament holds longer sessions than Congress. Daily sessions at Westminster begin early in the afternoon and rarely adjourn until past midnight, while Congress meets at noon and stands adjourned except on the very rarest occasions by five o'clock. In England a party leader emerges only after years of intimate association with the prime minister who precedes him. The lord chancellor said in the debate on Amritsar in the House of Lords that he had met at least half a dozen times with a sub-committee to consider that question alone.

"The same result is obvious in a comparison of the press of the two countries. Superior enterprise is undoubtedly yours, but as thoughtful surveys of the whole of a situation or magazine articles are thin beside those of the English reviews, and our curio news articles, satisfied with hitting the high spots, are childish beside the laborious English reports. Dull indeed, the latter may be, but thoughtful and complete.

"A tradition of hard and sustained mental effort has brought Great Britain to the position it occupies in world affairs today. We have the energy and resources to do likewise, but until at least a part of our people is ready to devote close study and thinking to public affairs we shall be overmatched by the cleverness of the foreign statesmen.

Is the United States going to keep faith with its partners in the war? The Post sees that is the great issue today. It says the United States should join with the Allies in the only honorable and effective way of maintaining world peace and justice.

SIX VACANCIES IN THE SENATE AT PRESENT TIME

Ottawa, Aug. 2.—With the death of Senator J. M. Douglas at Tantallon (Sask.), yesterday, there are six senatorial vacancies to fill, two in Ontario and one each in British Columbia, Alberta, Saskatchewan and Nova Scotia. The Ontario senators are expected to be selected from among three men, Hon. A. D. Reid, minister of railways and canals; W. B. Smythe, former member for East Algona, and Hon. T. W. Crothers, former minister of labor. The British Columbia senatorship will be filled, it is anticipated, by either Hon. R. G. McPherson, M. P., a former member of the MacBride administration in British Columbia, or "Cy" W. Peck, V. C., P. A. Alberta's vacancy may be filled by either "Slim" Douglas, a member for Strathcona, or W. A. Buchanan, M. P., who still remains a member of the government party though he took an independent stand on the budget.

OUT OF NOVA SCOTIA THE SENATE WILL GET, ACCORDING TO LOUD RUMORS, EITHER

Director McInnes, K. C., former M. P., or John Stanfield, former member for Colchester.

BODY OF MAN FOUND ON BEACH AT CHANCE HARBOR

The nude body of a man which had been washed up on the beach was found yesterday by residents of Chance Harbor. Although many members of the community viewed the corpse, no one was able to identify it. It was thought that the wayward currents might have carried to that spot the body of Carl Evans, who was drowned at Saints' Rest on July 29, so Coroner F. L. Kenney was notified last evening.

If it is proved that the body is that of Carl Evans no inquest will be held, but otherwise it may be necessary to have an inquest. The late Mr. Evans was connected with the military forces in Halifax, under Colonel B. R. Armstrong, and it is possible that Colonel Armstrong might go to Chance Harbor today, as probably he is best qualified to identify the body.

MEN'S CLUB BANQUET

The Waterloo Street Church Men's Club held a banquet last evening in the vestry of the Waterloo Street Baptist church, which was much enjoyed by those present. The men first enjoyed an automobile ride to Robbsey and after returning sat down to a bountiful repast prepared by the ladies of the congregation. Five new members were voted into the club last night. The club meets every Friday evening at 8 o'clock.

NO DECISION YET

No decision was reached at the meeting of the Liberal executive which was held last evening in Foresters' Hall, Campbell street, for the purpose of considering the proposal to nominate a candidate to oppose Hon. B. W. Wigmore, minister of customs, when he stands for reelection. J. Fred Belyse presided and E. J. Henneberry acted as secretary. In addition to the members of the executive, A. B. Copp, M. P., was present. After a thorough discussion of the situation it was agreed to postpone making a decision until next Tuesday evening when the executive will meet again.

MAIL POUCH STOLEN

Chicago, Aug. 20.—A mail pouch believed to contain money and valuables worth \$100,000 was stolen by two men today from a suburban station of the Illinois Central Railroad. The robbers escaped in an automobile. The money was to be used tomorrow to cash cheques of Pullman Company and Sherwin-Williams factory employees.

OVERWORKED WORDS.
"Metulous!" That weary word pops up before me everywhere; the blamed thing may have been a bird before they wore it all threadbare. Galsworthy sprung it years ago, and it was worthy of his gall, and it's been chivied to and fro till it requires the bier and pall. It flavors everything I read, it's plastered up with printer's ink, it's down at heel and gone to seed, and it would drive strong men to drink. And "grubling" should take its place upon the list of deadly crimes; whenever there's an auto race we see it used a thousand times. When fathers battle in the ring, what time they should be plowing corns the scrap's described, as "grubling" regardless of the purist's snarl, in the most absurd tales that weary backs for pork and beans. "Compelling" is another word that nearly breaks my grand old heart used for connections the most absurd; "compelling" songs, "compelling" art. I meet the chestnuts every hour, and into tears I often burst; and of all words that make life sour, "metulous" I hate the worst.

Dominion Happenings of Other Days

CHASING THE NANCY.

About the 21st of August, 1814, an American officer, fighting in the war of 1812-14 against the English, heard that the brig "Nancy" was usually attached to the fort at Michillimackinac, was at Nottawasaga, engaged in carrying provisions to the English, and determined to capture the craft. The attack upon the fort was a failure and with a loss of sixty men the assailants retired.

Part of the flotilla cleared for the Nottawasaga river to waylay the Nancy. These vessels included the Niagara, the Tigress and the Scorpion. The river runs parallel to Georgian Bay for several miles from the mouth and the Nancy had died up the stream for two miles where she was lying under the protection of a small block-house. A small force was landed and made its way to the island with one six inch howitzer. At the block-house was one six pound gun with two small weapons. The force being about twenty-three officers and seamen under a commander named Worsley.

The commander took up a position in Nottawasaga Bay and opened fire over the land. The English seeing that defence was vain, laid a powder train to the block-house. Soon afterwards a shell struck the block-house, blowing it up and the ship and escaped in small boats. The Tigress and the Scorpion were still in Nottawasaga Bay when their position was reported to him by friendly Indians. He equipped four boats with a couple of field guns and by a clever piece of work managed to take the Tigress captive. Her sister ship was fitted out with a gun and a crew of twenty men. The Tigress he sailed at once to take the Scorpion and so well did he manage everything that he was within ten yards of the Scorpion before that vessel could land back to the United States. In five minutes her deck was in command and the English flag hoisted. The flag was down with the English flying at the mast head. Then with his two prizes Worsley sailed again for Michillimackinac.

LIGHTER VIEW.

Genius is invariably absent-minded. A famous Scotch preacher once said in explanation to the rule. "You know, except to a long walk and his feet were sore and tired." "I know," said the man who was to be bathed in hot water. "This is happily did. In the ordinary course of events, he proceeded to dry his feet. He gripped one and then put it back into the water. There he tried the other foot, which he also slipped in the basin. This went on for some time. Then he began to get puzzled. "Which one is that?" asked the lecturer. "I never knew I had so many feet."

Pressing for Payment.

Poorpays—I've brought that last pair of trousers to be repaired. You know, I've stood a lot.—Sketch.

The lecturer was growing very vehement in the course of the address. His subject was "The Ideal Wife." As he knew "I" said, "the duty of a wife is to be a loving helpmate to her husband, by cooking his food, attending to his various requirements, conducting his household affairs properly and so on and so on."

Then a little fellow in front got up and blurted out: "They don't do that last thing you've mentioned, mister."

"Which one is that?" asked the lecturer.

"Why," said the little fellow, "see on and see on." And he proceeded to exhibit how a safety pin did duty for a button on his trousers.

Everybody Can See That.

A fashion journal says: "The style in legs has changed. They are no longer thin and slender but stout." But in spite of fashion's decree, a good many ladies seem to be wearing their last year's legs.—New York Evening Mail.

SCHOOL MATTERS.

At the office of the school board about sixty permits have been issued so far and an early application for permits is being urged in order that a heavy rush just before the opening of school may be prevented. The average number issued each year is 1400.

While it is expected that the schools will not open until after Labor Day, that is on Sept. 7, the matter still is definitely settled at present. If the teachers are willing to forego the government grant for the teaching days last, schools will not open until Sept. 7. The loss to the teachers is not inconsiderable. For the grade teachers who have taught seven years the loss would be \$6.12. For those who have taught a shorter time it would be slightly less and for teachers of higher grades it will be considerably more. Speaking of this matter, Dr. H. S. Bridges, superintendent of schools, said yesterday that he believed the teachers would far rather forego the government grant than commence teaching on the fixed date before Labor Day, because so few children come to school before the holiday if the schools opened earlier and it was much more difficult to get the classes organized.

Proof that war has not lost its charm for some of the overseas veterans was shown in a letter recently received by Charles Robinson, secretary of the Returned Soldiers' Aid Commission, from a war veteran in Restigouche county, who said he had heard some Canadian soldiers were going to take part in the

RECENT WEDDINGS

A very pretty wedding took place at the Lutheran church, New Denmark on Friday evening, August 18, at 8 o'clock, when Miss Maren Catherine Johnsen, daughter of Mr. and Mrs. J. F. Johnsen, was united in marriage to R. Madson.

RECENT DEATHS

Moncton, N. B., Aug. 20—Ainsley Collins, 185 High street, dropped dead while at work this morning, death being due, it is believed, to heart failure. He died while at his bench mending a pair of shoes.

Moncton, N. B., Aug. 20—The death of Hazen Douglas Carter, son of Harry D. Carter, occurred this morning at his home, 38 Waterloo street. The deceased, who was aged six years, had been ill for the last four years. Besides his parents he leaves two brothers and one sister.

The death of Rev. H. Allen Bonnell occurred at the home of his daughter, Mrs. A. E. Kierstead, Manwaghish road on Friday afternoon. Rev. Mr. Bonnell was seventy-one years of age and had been in failing health for some time. For thirty years he was actively engaged in the ministry of the Baptist church in the province, and his last church was that at Honeydale and Bailey. Mr. Bonnell was a native of Kings county. His death will be heard of with deep regret by very many throughout the province. He leaves to mourn besides his sorrowing wife, three sons, Charles and Herbert of St. John and Frank of Keswick and one daughter, Mrs. A. E. Kierstead. The funeral service will be held at his daughter's residence on Sunday evening at 9 o'clock and the body will be taken on board the steamer D. J. Purdy at 8 o'clock on Monday morning to be transported to Brown's Flats where interment will take place on the arrival of the steamer.

TO LIBERATE PRISONERS.

Mexico City, Aug. 2.—(A. P. Correspondence)—Bearing orders for the liberation of 800 prisoners in the penal colony on the Marías Islands, off the west coast of Mexico, two physicians named by Provisional President Adolfo de la Huerta will soon leave for the colony, with orders to establish sanitary conditions on the islands.

In a recent interview, Gilberto Valenciana, sub-secretary of the interior, declared that these 800 prisoners were sent to the islands to satisfy the personal vengeance of certain individuals influential during the administration of President Carranza.

Hereafter, persons actually convicted of felony will be sent to the islands, but not those whose cases have not been heard by the courts," Senor Valenciana said. "Furthermore, the proceeds of a large scale—such as paymasters who have absconded with funds entrusted to their care, and other dishonest public employees."

Man and the Bull We Sing.
(New York Sun.)

From gurgling infancy to octogenarian years man spends more or less of his time in the attitude of wreaking some nameless vengeance on the unoffending bull of various sizes and materials. A baby he bangs it on the floor of grass and aids the family dog to destroy it by mastication. In his youth and active years he pounds it with a baseball bat, smashes it with a tennis racket, tosses it violently in lacrosse, hammers it against a wall in handball. Fashioned of willow and painted white he abuses it on the polo field, in which effort he is aided by the hoofs of his ponies. Even when he has reached his seventies this habit is not denied him, for there still remain the leisurely bowls, golf and that final recourse, golfing on the polo field, in which effort he is aided by the hoofs of his ponies. He knows about it all—He knows! It is well to be assured by this sage expounder of the joys of the once permitted distillation of the grape that there is a philosophy of man's abuse of the hapless sphere. THERMONOR
The Iceless Refrigerator

This compact refrigerator is ideal for bungalows and camps, or family use in town. It needs little attention to keep in order. The only thing required to operate the Theronor is soaking it for three minutes in clean water once every three days and keeping it where the air is circulating. It is as simple as an earthenware crock or dish.

Size is 17 in. wide, 14 in. high.

TO LIBERATE PRISONERS. Mexico City, Aug. 2.—(A. P. Correspondence)—Bearing orders for the liberation of 800 prisoners in the penal colony on the Marías Islands, off the west coast of Mexico, two physicians named by Provisional President Adolfo de la Huerta will soon leave for the colony, with orders to establish sanitary conditions on the islands.

In a recent interview, Gilberto Valenciana, sub-secretary of the interior, declared that these 800 prisoners were sent to the islands to satisfy the personal vengeance of certain individuals influential during the administration of President Carranza.

Hereafter, persons actually convicted of felony will be sent to the islands, but not those whose cases have not been heard by the courts," Senor Valenciana said. "Furthermore, the proceeds of a large scale—such as paymasters who have absconded with funds entrusted to their care, and other dishonest public employees."

Man and the Bull We Sing.
(New York Sun.)

From gurgling infancy to octogenarian years man spends more or less of his time in the attitude of wreaking some nameless vengeance on the unoffending ball of various sizes and materials. A baby he bangs it on the floor of grass and aids the family dog to destroy it by mastication. In his youth and active years he pounds it with a baseball bat, smashes it with a tennis racket, tosses it violently in lacrosse, hammers it against a wall in handball. Fashioned of willow and painted white he abuses it on the polo field, in which effort he is aided by the hoofs of his ponies. Even when he has reached his seventies this habit is not denied him, for there still remain the leisurely bowls, golf and that final recourse, golfing on the polo field, in which effort he is aided by the hoofs of his ponies. He knows about it all—He knows! It is well to be assured by this sage expounder of the joys of the once permitted distillation of the grape that there is a philosophy of man's abuse of the hapless sphere. Stevenson wrote that "this was an age that preferred a definition to any quantity of fruit," but that was before symbolism was revived. August Fur Sale

St. John's Only Exclusive Fur House is offering at its annual August Fur Sale an opportunity that the fur buying public will appreciate when it visits our "Fur Parlors" and sees for itself the wonderful values being shown. These values will not be duplicated later in the season as the retail prices we are asking are in many cases below the figures the wholesaler is receiving for the same goods today.

As "Exclusive Furriers" we have many buying opportunities not offered to merchants handling furs only as one department of their business. A visit to our Fur Parlors will convince you that our statements are ones of fact. We would call your special attention to our Hudson Seal garments of which we have the largest showing in the maritime provinces.

COATS

Hudson Seal Coat—36" long, Natural Skunk collar and cuffs and 12" border with a rich metallic satin lining—\$225.00.

Policeman Excused for "a Little While" Stayed Away Five Years

When New York police rules and regulations were less strict than they are today, policemen sometimes practiced leniency on the city and their superiors. In the old days, according to a police sergeant, when a policeman who was doing reserve duty wanted to get away for an hour or two he would ask the desk lieutenant if he would let him off for a little while, and if the lieutenant felt kindly disposed the request was granted. The lieutenant then made this entry in the house blotter: "Policeman John Doe excused from duty for a little while."
A policeman in a certain precinct, according to the sergeant, made such a request one day and it was approved by the lieutenant. Hours slipped by without the officers' return, and then days and weeks, when he was automatically dropped from the rolls. Five years passed. The same lieutenant had the desk who should appear at the station in full uniform but the absent policeman. The lieutenant rubbed his eyes to make sure that they did not deceive him.
"Well, he growled on recognizing him, 'What are you doing here?'"
"I've come back to work," the policeman replied mildly.
"Why, you idiot," cried the lieutenant, thoroughly aroused. "What kind of a joke are you trying to pull here? You were fired from the force years ago. Get out of here quick or I'll call an ambulance and send you to Bellevue to have your head examined."
The policeman departed, but the story does not end here. His lawyer took the matter to court, contending that being excused for a short time could legally be construed to mean five years as well as a few minutes. He cited the Script-

Historics.
I weary of the histories of men—
The garnered store of books in grum
array;
Life's bitter salvage, leather-bound, and
then
Left to the silence and a bloom of
gray.

I weary of the stories that they hold:
The clash of arms sounds through
them like a knell;
I weary of the Kings, in crowns of gold,
The Kings victorious and the Kings
who fell.

There are too many tears on every page,
Too red a tide sweeps every chapter
in.
There is no word of peace in any age,
Except the peace that death rode forth
to win.

And old unhappiness, long wrapped in
sleep,
And three-armed feud that passed in
wrath and woe,
And wide despair from many a dun-
gun keep,
Arise to haunt us still where'er we go.
Yet through the years the sun was warm
and sweet,
And nippers piped at morn and night
and noon,
And there was carnival with dancing
feet,
And love and joyance always came in
June.
O, to remember when the pages close—
Linked with the vision of the deathless
brave;
The nightingale, the moonlight, and the
rose,
And all the beauty that the lost years
gave!

FRENCH MUSIC DECADE?

Mme. Galli-Curci Says so, and Believes
That Russia Will Lead.

Modern French music is decadent and
Russia will lead the world musically,
provided she is not completely torn a-
part by revolutions, according to Mme.
Amelita Galli-Curci, famous soprano,
who has returned to New York after a
short vacation in France last week. Mme.
Galli-Curci says that France is much
changed since her last visit there—before
the war and she expressed great joy at
being back in America.

"France had reached her musical apex
long before the war and has since been
steadily declining," said Mme. Galli-
Curci at the hotel Pennsylvania, where
she is stopping. The modern French
music is decadent and the present-day
musicians there must draw heavily on
the musical masters of the past for in-
spiration if she can hope to stem the
downward trend of her musical life.

When attention was called to the re-
cent statement of Leopold Godowsky to
the effect that modern French music is
the direct result of the Japanese influ-
ence, Mme. Galli-Curci agreed that this
was undoubtedly true, but maintained
that whatever the influence it was a de-
cadent one.

"But the French songs," she went on,
"are charming, even the present-day ones.
It is in the larger compositions that
French art has declined. The compos-
ers are not offering the fine, broadening
works that came out of the country until
a few years ago. Of course, it is quite
natural that there should be a cessation
of important compositions during the
war, but it does seem a pity that they
must decline.

"Now take Russia. It is my opinion
that, provided adverse influences within
Russia do not check it, Russia will be
the greatest country in the world musi-
cally. However, there are the Bolshe-

WHAT DOES THE FUTURE HOLD FOR YOU IF HEALTH GIVES UP?

In dollars and cents, what is the worth of the organ of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to let yourself run down, you reduce your chances for success in life if sleeplessness comes you worse still—should appetite or digestion fail, you are starved in the face by physical bankruptcy.

Don't let it go so far, take Ferronox, has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces Spring tiredness by energy and new life. Ferronox rebuilds sick folks because it contains the strengthening elements that every raw-down system requires.

Especially during the hot weather comes, everyone needs a purifying tonic—Ferronox fills the bill exactly—nothing knows that rejuvenates and uplifts so fast. At once the appetite improves. You rest well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way, the vigor that only Ferronox can supply. Try it, results are guaranteed, 50c. per box or six for \$2.50 at all dealers by mail to any address if price is remitted to the Cattarrhose Co., Kingston, Ont., Canada.

PREPARING FOR THE LORD'S COMING

Members of Strange Religious Sect Arrive in Bangor—Believe Allenby Fulfilled Prophecy.

(Bangor Commercial)

A religious sect, professing to have no name and to be connected in no way with any other sect, arrived in Bangor Saturday evening and camped here for an indefinite stay. There are eighteen in the party, six men and twelve women, hailing from the state of Pennsylvania, whence they came north and arrived in Maine some few weeks ago. The party came to Bangor from Washburn, where they have been holding a camp meeting.

When they arrived in Bangor Saturday night, they went to the City Farm and attempted to pitch their tents, but the superintendent being away, the men left in charge of the farm was afraid to let the party remain, for fear of fire. The party then moved to a position across Main street, where C. E. Welch, owner of a blacksmith shop, permitted them to camp on a vacant lot near his building. They remained there Saturday night and all day Sunday, leaving Monday morning in their automobiles to seek a different site for their camp, their next stopping place being on Broadway, beyond the end of the Centre street car-line. Here some people of the same faith started the erection of a church some years ago, but never finished the work. They own the lot, however, and will permit the visitors to use it during their stay here. Asked about their name and wheth-

DO YOUR EARS RING? HAVE YOU CATARRH?

A buzzing noise in the head is the beginning of chronic Catarrh. If not checked the result is deafness. A simple remedy that many physicians advise is to slowly inhale Cattarrhose a few times each day. The soothing vapor of Cattarrhose cures the Catarrhal condition, and hearing improves at once. Head noises, buzzing ears are cured. For Catarrhal deafness, throat, nose and lung Catarrh, there is probably no remedy so efficient. The large one dollar outfit lasts two months and is guaranteed; small size 50c.; trial size 25c. Sold everywhere by dealers, or The Cattarrhose Co., Kingston, Ont.

skinned, and it is easy to discover whether or not they contain pearls. If no pearls, or very small ones, are discovered, the oysters are returned to the unimpaired. Oysters having rough and irregular shells are not so easily tested. Only large pearls may be detected.

In the places where pearl oysters are usually raised labor is very cheap, and as yet the new method has not received much attention. But as pearl-bearing oysters grow scarcer the X-ray will undoubtedly become more popular. Although the shell partly interrupts the radiation of the X-ray, it is not difficult to ascertain the presence of large pearls. Those engaged in the pearl-grow-
ing industry naturally overlook the fact that with this highly perfected apparatus it will be possible to save growing pearls which otherwise would have been wasted when the shell had to be opened to discover them.

With pearls becoming more valuable year by year, this additional use for the X-ray will probably find favor generally among commercial pearl culturists.

Stops Hair Coming Out; Doubles Its Beauty.

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mul-
berry copan oil, for this is pure and
entirely grassless. It's very cheap, and
beats anything else all to pieces. You
can get this at any drug store, and a
few ounces will last the whole family
for months.

Simply moisten the hair with water
and rub it in, about a teaspoonful is all
that is required. It makes an abun-
dantly rich, creamy lather, cleanses
thoroughly and rinses out easily. The
hair dries quickly and evenly, and is
fresh looking, bright, fluffy, wavy
and easy to handle. Besides, it loosens
and takes out every particle of dust, dirt
and dandruff.

X-RAY IN PEARL HUNTING

It Saves the Oyster Which Contains None.

During all the centuries that the pearl has been used for personal adornment, it has previously been necessary to cut open each oyster of the pearl-bearing species to ascertain the presence or absence of the pearl. When no pearl was found the mollusc's life had been sacrificed in vain, and any future chances it might have had of developing pearls were ruined. But the X-ray is destined, according to a writer in Popular Science Monthly, to save the life of many precious oysters of this variety.

"This method," he says, "was first suggested by Raphael Dubois, of Lyons, France, in 1901. It was not tried out until recently. The pearl oysters that breed in Ceylon and Venezuela are thin-

They Act Quickly, and Make You Feel as Lively as a Kid

A crowning curative triumph in medicine is now given to the world, and all under the sun who suffer from stomach ailments, indigestion and headache can be cured by a purely vegetable remedy. This is the most powerful and safe cure for the stomach, bowels, liver and kidney.

Half sick men and women who scarcely know what ails them, will be given a new lease of life, with Dr. Hamilton's Pills. Depressed spirits, disappetite, headaches are forgotten, appetite increases, blood is purified and enriched, pains at the base of the spine are cured, the nerves are toned up, ambition to work is increased, and day by day the old-time health and vigor return.

A trial only is necessary to prove how beneficial Dr. Hamilton's Pills are to all who are weak, nervous, thin, depressed or in falling health.

ENGAGEMENT ANNOUNCED Mr. and Mrs. I. C. McLeod of 44 Garden street, announce the engagement of their daughter, Alma A. to Stewart S. son of Mr. and Mrs. F. T. Murphy of 7 First street, St. John, the wedding to take place the latter part of September.

PLEADED NOT GUILTY Owing to a typographical error in the account of the proceedings in the police court yesterday it appeared that Robert Anderson, charged with supplying liquor without a license, pleaded guilty. This is not the case, as Mr. Anderson pleaded not guilty.

A NICE TRIP Mr. and Mrs. W. A. Simonds and Mr. and Mrs. Charles Magnusson left at noon today on what should prove a very pleasant outing by automobile. They planned a trip as far as Boston by way of Houlton and Bangor. A visit to Waltham and other places near Boston was also on the programme of their two weeks of traveling.

BASKET SOCIAL Cullum Lodge, No. 36, I. O. B. A., held a basket social at Grand Bay hall on Thursday evening with the object of raising funds for the order. The evening was greatly enjoyed in dancing. People motored there from all parts of the city and the hall was crowded to the doors. The baskets were auctioned by Mr. Hann of Grand Bay and netted \$41. The ladies under direction of Mrs. Silliphant, W. M., served tea. Needless to say all enjoyed a pleasant time. Arrangements are being made to have another in the near future.

ST. JOHN SISTER IN SECOND PLACE

Sister M. Benigna Second in Normal School Entrance Lumber Scale Report.

Fredericton, N. B., Aug. 21.—William Arthur Losier of Tracadie, Gloucester county, led in the examination for entrance to the Provincial Normal School for first class, Sister Mary Benigna of St. John was second and Walter Alva Stultz of Havelock, Kings county, third.

For second class entrance Flora R. Goggin led with Florence M. Morton of Rexton, Kent county, second, and Mary L. McMackin of Rothesay third. A statement of the scale of the lumber cut upon the crown lands of New Brunswick during the year 1919-20, is as follows:

Table with 3 columns: Species, Pieces, Supt. feet. Spruce 4,890,216 20,787,843 Fir logs 4,856,109 118,285,839 Cedar 5,591,142 24,457,614 Hemlock 72,997 4,728,103 Hardwood 67,363 3,485,598

Total 8,886,827 350,160,292. Total number of pieces actually sealed, 2,901,278, or thirty-three per cent. Average contents per piece—Spruce, 44.50 ft.; fir, 31.88 ft.; cedar, 48.67 ft.; hemlock, 64.70 ft.; hardwood, 52 ft.

The total scale of the cut of 1919-19 was 221,645,684 feet, making an increase of 146,385,618 for the year.

Pulpwood, railway ties and telegraph poles show a decrease, but other classes show increase. The scale for each in 1919-19 was as follows:

Table with 3 columns: Species, Feet, Supt. feet. Spruce and pine logs 129,911,150 Fir logs 56,968,486 Cedar logs 12,282,478 Hemlock logs 4,481,017 Hardwood logs 2,868,601

TWO EXAMINATIONS YEAR IN FUTURE

Canadian Dental Association Ends Convention in Ottawa.

Ottawa, Aug. 21.—The Canadian Dental Association closed its tenth biennial convention yesterday with the election of Dr. H. F. Whittaker of Edmonton as president until the next convention, to be held two years hence, in Toronto.

Life Underwriters Ottawa, Aug. 21.—Characterized as the most successful gathering in the history of the organization, the fourteenth annual convention of the Life Underwriters Association of Canada was brought to a close yesterday afternoon.

The report of the Dominion Dental Council was read by Dr. G. F. Bush of Winnipeg. It stated that the Quebec province is now the only one not now represented on the council.

Two examinations a year will be held in future, instead of one, which has been found to work hardship on university students through involving delay. The next examinations this year will be on October 15. In future the examinations will be held in June and September each year.

The outstanding feature of the convention has been the establishment of the Canadian Dental Research Foundation.

NEW PROGRAMME WAS ENJOYED

Opera House Week-End Bill Attracted Usual Large Audiences - Vaudeville Acts Were Entertaining.

Both performances in the Opera House last evening attracted large audiences and it was evident that the various acts were the source of good wholesome entertainment.

One of the most popular acts last evening was that of Pinger and Dwyer. They have an entirely new line of comic repartee, which evoked laughter and prolonged applause, and in addition sang several songs in an acceptable manner.

Morlin and Rex also made a decided hit. The male member is a clever acrobat and performed difficult feats, while his partner gave a wonderful demonstration of contortion.

Will Collins, "A Musical Rube" was well received. He played selections on a cornet, piccolo and other instruments, and was given appreciative applause.

Ardeil and West entertained with some balancing and juggling which was very good, while Billy Al Wilson appeared in a pantomime. He is a good player and a pleasing singer. This programme will be repeated this afternoon and evening and again on Monday.

DRUNKENNESS IN ENGLAND INCREASED THE YEAR ENDING 1919. London, Aug. 20.—(Associated Press Correspondence)—Convictions for drunkenness in England and Wales in 1919 were nearly double the figure for 1918.

Among some of the reasons given for the increase are that there are more men at home and fewer of them in khaki; more policemen and those less overworked available for street duty; more hours for drinking and stronger liquor.

LEAPS ON RUNAWAY HORSE. Policeman Gives Chase in Auto—Makes Spectacular Stop. A runaway horse dashing through crowds in the streets of the Bronx, New York, on Thursday, with an unconscious man in the wagon, was stopped by Policeman Edward Gross in a spectacular leap from the running top of a car carrying a moving automobile. The horse ran two blocks while the policeman clung to his back.

The horse became frightened at 101st street and Prospect avenue, and the driver, Aaron Goldberg, tumbled out of the wagon. Running madly down Prospect street and Westchester avenue, the horse had covered about two blocks when the policeman stopped him. At 106th street Richard Gallagher, the Bronx, leaped into the wagon and tried to stop the runaway, but the wagon struck against a post and Gallagher was rolled into the back of the vehicle unharmed.

OWEN MOORE FELL IN PLANE. Film Actor Cabled He Was Not Seriously Hurt in 500-Foot Drop. A cable message received at the offices of the Lewis J. Schick Enterprises Incorporated, New York, reported Owen Moore, screen actor and former husband of Mary Pickford, who fell 500 feet in an airplane en route from London to Paris, as not seriously injured. David and Myron Schick, sons of the head of the corporation, were fellow-passengers and were uninjured.

The message reads: "Fell from altitude 500 feet. Badly shaken up, but not seriously injured. Plane completely demolished. Six passengers, no fatalities. Cause, motor trouble." Owen Moore played in St. John at the old Slick in Carleton street, some years ago, before he became a movie star.

UPHOLDS CIDER MEN

Judge Hand Refuses to Dismiss Suits Against Dry Officials.

(New York Times.) In the United States District Court yesterday, Judge Augustus N. Hand refused to dismiss suits brought by the Hillbrick Apple Juice Co., Inc., and the Duffy Malt Co., Inc., makers of preserved sweet cider, against William M. Williams, Commissioner of Internal Revenue; John P. Kramer, Federal Prohibition Commissioner; and Charles R. O'Connor, Federal Prohibition Director for this State. According to the decision the defendant officials will have to answer the suits within twenty days.

The purpose of the action of the plaintiffs, it is to have reviewed the decision of the Commissioner of Internal Revenue in refusing to grant permits for the manufacture of preserved sweet cider under the requirement of Section 4, Title 2, of the Volstead Act.

Judge Hand, in refusing to grant the dismissal, said: "The regulations of the department seem to have been compiled with by the applicants in all respects, except those in which they say compliance is impossible. The regulations that an applicant can use only juice from apples that contain a liquid having less than one-half of one per cent. of alcohol by volume, that he so preserve and encase and seal the juice so that it can never have a higher percentage of alcohol may or may not, after the facts are known, be a valid regulation."

NORTH END PLAYGROUND. A search into the sites to be properties in the North End recently bought by the city for civic development and a North End playground, was made yesterday by Dr. J. B. M. Baxter, K.C., the city recorder. A report on the matter will probably be made at city hall next week.

QUIT TOBACCO. So easy to drop Cigarette, Cigar, or Chewing habit. No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question. No-To-Bac is made by the owners of Cascares, therefore is thoroughly reliable.

Getting at the Truth on the Road. (From the Villager.) It seems that in the commercial travelers' profession there is an understanding, as firmly established as an unwritten law and certainly more so than a written one, that a salesman never tells a competitor the name of the next town he is to "muscle." If one asks another where he goes from here the other names a town where he is pretty likely not to be going. Two good friends of the road met up in a town along the Ohio. "Where are you going?" asked

Had 'Em Again. A moving picture actor relates an amusing incident that happened during the filming of Rowland's "Chastity." This was done out-of-doors, and one day while the actor was talking a stroll he came across a man seated by the roadside with his face buried in his hands, evidently in deep distress. Sympathetically he stopped and inquired what the trouble was.

"I'll tell you," said the man. "I'm one of the patients at the sanatorium for bugs over your door, yesterday the doc said that I was well and could leave in day or two—but what do you suppose this morning? Roosters and hens six feet high and talking just like humans. That settles it! If I get away from this hole in ten years I shall be lucky."

Goes a Long Way. (Spare Moments.) "Where did you get that dreadful black eye, Mrs. Hawkins?" asked the district visitor. "The lady with the coal-colored optic did not try to evade the question. "It were the result of a slight altercation with my 'usband, mum," she answered.

"How very, very dreadful! What a wicked man your husband must be to treat you so cruelly!" "Not at all, mum—not at all," retorted the other, assuming a dignified manner. "Akins is 'asty, but he's a puff gentleman at 'art. I can assure you after 'e'd give me this black eye 'e sat holdin' a cold fryin'-pan to it for upwards of an hour 'till 'e reduced the swellin'." A little hesitation like that goes a long way towards makin' life 'appy, mum, as I 'dare say you've found yourself, mum."

Had 'Em Again. A moving picture actor relates an amusing incident that happened during the filming of Rowland's "Chastity." This was done out-of-doors, and one day while the actor was talking a stroll he came across a man seated by the roadside with his face buried in his hands, evidently in deep distress. Sympathetically he stopped and inquired what the trouble was.

"I'll tell you," said the man. "I'm one of the patients at the sanatorium for bugs over your door, yesterday the doc said that I was well and could leave in day or two—but what do you suppose this morning? Roosters and hens six feet high and talking just like humans. That settles it! If I get away from this hole in ten years I shall be lucky."

Getting at the Truth on the Road. (From the Villager.) It seems that in the commercial travelers' profession there is an understanding, as firmly established as an unwritten law and certainly more so than a written one, that a salesman never tells a competitor the name of the next town he is to "muscle." If one asks another where he goes from here the other names a town where he is pretty likely not to be going. Two good friends of the road met up in a town along the Ohio. "Where are you going?" asked

FRANCE'S TRADE. Paris, July 31.—(Associated Press Correspondence)—Satisfaction is felt in France at the official statistics, just issued, of French imports and exports during the first six months of the year. Exports show an increase of 5,095,000,000 francs, compared with the same period of last year. Imports also show an increase, over 2,061 millions, but this increase is almost entirely due to materials for manufacture, which amounted to over 1,845 millions.

The excess of imports over exports during the first half of last year was 11,087 millions, while for this year this excess has fallen to 7,840 millions, an improvement welcomed in the financial world as likely to affect French exchange favorably.

CRICKET. British Matches. London, Aug. 21—(Canadian Associated Press)—Bad weather has so delayed play in championship cricket that it was fully expected yesterday that most of the six matches proceeding would be drawn. As a result of remarkable bowling during the day, however, all but one was played out.

International League Standing. Baltimore 81, Toronto 80, Akron 75, Buffalo 64, Reading 64, Jersey City 58, Rochester 54, Syracuse 38.

National Defeat Shamrocks. The North End Nationals defeated the York Point Shamrocks on Victoria Square diamond Thursday evening by a score of 5 to 3. The battery for the winners was McAlary and Earle.

Stetson, Cutler & Company's Beavers defeated the T. S. Simms name in the Industrial League last evening by a score of 10 to 3. The winners hit the ball hard and had fourteen hits for a total of eighteen bases. Beatty, of the winners, had three hits for a total of four bases and a double play unassisted. The batteries were—Fonjy and O'Loe for the winners; Boyce and Pirie for the losers.

Hardland Defeats McAdam. The Hardland baseball nine defeated McAdam yesterday by a score of 8 to 1. Paynter, the winning pitcher, only allowed one hit.

Fair Vale Won. In a game played at Rothsey on Thursday evening Fair Vale defeated a team from the Furness-Withy office staff by a score of 12 to 3. The Higgins brothers were the battery for the winning team.

CHANGE IN THE PROGRAMME FOR MOOSEPATH

The 2:16 Replaced by 2:30 Class — All Eight Events Promise Fine Sport.

The 2:16 trot and pace was the only one of the original eight classes offered by the Maritime Racing Association for their approaching initial meeting at Moosepath Park on August 28, 27 and 28. Moosepath, which L. T. Dryden of St. John had entered in this race, had been sold; Singer, 2:15 1/2, another St. John entry, is said to be lame and Hanks Bellini, 2:12 1/2, which had been entered by "Red" Hanafin, Woodstock Driving Club's reinsman, did not show well in his workout this week. Corwin, 2:18 1/2, is back on P. E. Island again for a short time anyway, and Bill Sharen, 2:11 1/2, seems to have any others scared.

Pursuing the policy that a race which is not going to make a real contest is not worth while staging, the Maritime Racing Association cancelled the 2:16 class and transferred to the 2:30 class, in which the horses involved were eligible, as provided in the conditions, and a 2:30 trot was put on the programme in place of the cancelled event. Seven entries for the 2:30 trot were received and it should be one of the most keenly contested events of the meeting. Racing men who have seen the list of entries say that the Moosepath programme is one of the best balanced card offered on the Maritime and Maine circuit this season and that there is not one of the whole eight events in which there should be what those who bet on the races would call a "prohibitive favorite."

PROBATION SYSTEM MAY BE EXTENDED. Judge Coatsworth Makes Study of Courts in the States—Aim to Help Accused.

It is expected that new systems will be tried out in Ontario for handling offenders against law and order, following a recent trip of Judge Coatsworth, of Toronto, to New York. The judge paid a special visit to the big United States city with a view to studying conditions in that part of the States, and he will visit Chicago for the same purpose.

Commenting upon his observations in New York, Judge Coatsworth stated that the probation system is one of the marked features of administration, while there are a large number of probation officers to look after the offenders. It is the duty of these officers to make an investigation of each offender's life before sentence is passed, and if it appears that there is any possibility of reclaiming the put on probation for varying periods. During his probation the accused is to make good, and if he fails to do so, he is then sent to one of the prison farms. Judge Coatsworth also pointed out that New York has a number of night courts for emergency cases, in addition to the traffic courts and the domestic relations courts.

Regarding the great army of judges who are employed to look after New York's criminal system, Judge Coatsworth declared he was impressed with their fairness, shrewdness and dignity, both judges and probation officers, he added, are fully aware that it is better to reclaim a citizen for a useful future than to send many to jail. Judge Coatsworth also visited a number of jails and police barracks, and stated that some of the former might well be a little cleaner. Following his return from Chicago, the judge will make his recommendations to the attorney-general's department.

ORPHANS' PICNIC

Preliminary plans for an outing for the orphans of St. John were discussed yesterday afternoon when J. D. O'Connell, of Sussex (N. B.), and Cananguay, Cuba, called upon Mayor Schofield in City Hall. The date for the outing has not been fixed but will be well up to the standard set by other picnics given by the New Brunswick philanthropist, in which a drive to the picnic grounds, a jolly day's outing and a gift of money, with games and good things to eat, made the occasion an exceedingly bright one for the kiddies. Mayor Schofield said yesterday that the date of the picnic probably would be announced early in the week.

THE British mails at this port will close at 8 o'clock this evening for the steamship Wilhelm, via Quebec. They will also close at 4 p.m. on Monday for the steamship Canada, via Quebec. The South African mails will close here on Sunday, via Sydney.

PASSENGERS ARE INJURED WHEN TRAINS COLLIDE

(Canadian Press Despatch.)

Cleveland, O., Aug. 20.—Several passengers were slightly hurt late today when second section of New York Central train Number 82, eastbound, carrying express, ran into the first section, carrying passengers, on a curve three miles east of Ripley (N.Y.), according to company officials here. One passenger car on first section and two express cars on the second section were derailed.

WHITE LIE SAVED REFUGEES' LIVES

Chief Steward in Port Bluff-Russians in Dangerous Fix.

(Montreal Star) This is a story of a white lie which was told in the White Sea. It was told by the chief steward of a White Star liner at present in port, just at the conclusion of a record fast trip in twenty years. The chief steward who has held his post for more than thirty years was in communicative mood after the successful trip his liner has just made.

ed on the reef tearing her bottom plate to pieces, also making considerable water in all her holds.

The captain held a final consultation in his cabin, himself, the chief engineer, purser, chief steward and other department heads being present. The captain stated coldly that in his own opinion when the ship got off the reef, with the rising tide, she would take water in so quickly that it would simply be a nose dive into deep water.

"Well, said the captain, 'we may as well make preparations for the worst.' If she takes water the way I think she will, it will simply be a case of every man for himself.

No Danger at All. The conference was over and the chief steward left the captain's cabin and stood at the top of the stairs, close to the upper deck. More than 2,000 pairs of eyes were peering up at him to read the fate of the ship and themselves. Chief steward

"We Promise You"

A cup of Tea "In Perfection" from an infusion--Won't You Try It?

"SALADA"

Is the one Tea that never disappoints the most critical of tastes-- Never sold in bulk--Sealed Packets only.

Robinson did not will. He took out his pipe and lit it with a steady hand, then turning to the moiling crew below that needed the only word to turn it into a seething mob, he said:

"There is no danger at all. You can all go to bed. They went and the ship sailed and did not sink. She was a new vessel and her patent double bottom had saved her. Later on the vessel was in the dock at Comar's naval base in the north of Scotland, and this was safely managed. All the passengers, mostly Mayors Russian towns and their dependants were landed without mishap. Had a riot occurred on board ship the ship's staff could never have handled her in the skillful way which prevented her from leaving half her bottom on the reef. Chief Steward Robinson, with his pipe in hand, had told the biggest lie in his life but it was a white one and did the trick.

He said afterwards that the reason his hand did not shake was for two and a half years previous he had slept aboard ship above ammunition cargoes and had become quite a fatalist in the presence of supreme danger.

NOISE-MAKING FISH.

The generally accepted belief that fish are a peculiarly silent and voiceless section of the animal world is disproved by a contributor in The London Daily Mail who states that modern investigation demonstrated that they are, in the aggregate, far from mute.

Not less than 800 species of fish are now known to produce sounds of various kinds.

What to Use and Avoid On Faces That Perspire

Skin, to be healthy, must breathe. It also must perspire--must expel, through the pores, its share of the body's waste material. Certain creams and powders clog the pores, interfering both with elimination and breathing, especially during the heat of summer.

Not less than 800 species of fish are now known to produce sounds of various kinds.

New Way to Curl Hair Fine for Outdoor Girl

The silmerine method of curling the hair is the proper thing before going sunbathing, boating or golfing, or indulging in any outdoor sport or exercise. This will not only give the hair the most beautiful wavy and curly appearance imaginable, but wind or heat will not take the curl out. The silmerine is quickly acquired and lasts much longer than where waving tongs are used. Besides, the hair will be bright and lustrous. Instead of dull and dead looking. When combed out it will be as nice and fluffy as if it had just been shampooed.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine--Double Strength. This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking one strand at a time. When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

sound-producing fish is the sunfish, a large curious-shaped creature, sometimes taken round the coasts of Britain, in the making of which nature seems to have run short of material and left out the tail. When taken out of the water it emits a distinctly audible groan; a croaker, well known along the Atlantic coast, derives its name from the sound it makes when taken into a boat and the barbel and carp will also croak when taken from their natural element.

EXTRA You Get a Fine Colored Map of Poland. In addition to unusually entertaining and instructive articles treating the Polish-Bolshevik War and the new Russian policy of the United States, this week's number of THE LITERARY DIGEST, dated August 21st, will have a full-page colored Map of the new Republic of Poland. This Map shows the old, the new, and the provisional boundary lines; also railroads, canals, cities and towns. It has a timely interest and value and is even worth preserving because of the fierce struggle that is taking place over the territory shown between the forces of Soviet Russia and Poland. With the aid of this Map one can follow more intelligently the shifting battle-front which, at present writing, menaces Warsaw. CHAMPIONS IN THE MEN'S DOUBLES RETAIN TITLE

Hasen Short and Campbell Mackay defended their title as provincial champions for the men's doubles in the New Brunswick tennis tournament at Red-bay yesterday and for the second year will hold that honor. They defeated Malcolm McAvilly and T. McAvilly Stewart by 6-3, 8-6 and 6-2.

The second game of the three was a close one and aroused much interest. There was a large crowd to watch the semi-finals played yesterday and excellent weather favored the event. All the remaining finals in the provincial championship, the ladies' singles, ladies' doubles and men's singles and mixed doubles will be played this afternoon.

Many of the players enjoyed the dance given at the Riverside Golf and Country Club in the evening when the members of that club entertained their friends. Mrs. Busby, Mrs. J. P. Barnes and Mrs. W. H. Shaw were the chaperones. The Nova Scotia players are expected to play the New Brunswick champions on Monday.

The summaries of yesterday's games are: Men's Singles (Semi-finals) Malcolm McAvilly defeated E. A. Schofield, 6-1, 6-4.

Men's Doubles (Finals) Hasen Short and Campbell Mackay defeated Malcolm McAvilly and T. McAvilly Stewart, 6-3, 8-6, 6-2.

Ladies' Singles (Semi-finals) Miss V. Arning defeated Miss Edith Schofield, 6-2, 6-4.

Mixed Doubles Miss Dorothy Thompson and George Holly defeated Miss Arning and J. D. Downer, 7-5, 5-7, 7-4.

Off to Halifax The St. Peter's baseball team left last night for Halifax, where they will play two games with the Crescents of that city, one in the morning and the other in the evening.

Star Team Wins The baseball team from R. P. & W. F. Starr, Ltd., won from the Furness-Wilby team on St. Peter's grounds last evening by a score of 6 to 3.

A Draw Game The Young Pirates and the Maple Leaves played a six inning game last evening. The game was scheduled as a seven inning game and as it was one inning short it was called a draw, no team winning.
