Four Persons Are Injured In Gun Battle In a Garage

3,000 ARRIVE HERE IN ONE DAY

Nine Are Dead, Hundred Injured, In Tornado

5 ARRESTED IN SHOOTING, ONE DYING

Battle in Garage at Newark Results in Injury to Four.

ROBBERY PLANNED Reserves Rushed to Overcome Bandits as Watchman Hides.

(Canadian Press Despatch) Newark, N. J., March 29.—John Walsh, 28, is dying from bullet wounds at the City Hospital, Geo. Policastro, 39, is also at the hospital suffering from two bullet wounds, while two others and Harry Borseman, 73, night watchman at the Taylor Garage, 331 South street, are under arrest following a gun battle in the garage early today.

From the scanty evidence gathered by the police and the statements of Borseman, the police believe the four men attempted to rob the garage of large quantities of liquor which they found there.

The aged watchman told the police that the four other men succeeded in having him open the garage door early today and then held him up. Borseman said he defended himself. Two revolvers with five empty chambers each and one automatic, which had jammed after two shots had been fired from it, were found by the police on the garage floor.

Blood Shows Battle. Large pools of blood near the telephone and which blotched other sections of the floor bore evidence of the grim battle.

The police first learned of the hold up battle when a telephone call came into the Third Precinct station. Reserves who were rushed to the South street garage found two of the alleged bandits lying in pools of blood on the floor, and the other two bending over them. Borseman, the watchman, was in hiding. Walsh was shot through the chest, and Policastro had a bullet wound through the right hand and the right cheek.

The police placed all five men under arrest.

Ottawa Signs Hockey Players

Ottawa, March 29.—The Ottawa Hockey Association announced the signing of three players for next season, George Boucher, Lionel Hitchman and Frank Finnegan. Frank Finnegan is expected to sign over the week-end. Within the next ten days, the Ottawa Hockey Association will endeavor to sign those of the present team whom they intend to carry again. There will be some new faces. Youth and speed will be Ottawa's slogan. Negotiations for additional new blood will be started at today's meeting of the National Hockey League in Montreal.

Postal Employees To Meet Sunday

Toronto, March 29.—Toronto postal employees will meet tomorrow to hear a report from their leaders on the salary and bonus question. The men will be asked to say whether or not the Dominion Government's proposals, announced from Ottawa in despatches are satisfactory.

Chicago, March 29.—Chicago plumbers hereafter will receive \$1.25 an hour. Chicago Civic Opera musicians will get \$13 a day next season and plasterers are asking a \$14 a day wage scale.

Freak Birthdays In St. Stephen Family

St. Stephen, N. B., March 29.—This is a year of coincidences in the family of Mr. and Mrs. M. B. Pike, of this town coincidences which will never happen again. There are three children in the family, Helen and Jack and Beulah. Helen will be 11 years old on April 11; Jack will be 19 on the 19th of June, while Beulah will be 20 on the 20th of May.

MACKENZIE KING QUOTES FIELDING

Ottawa, March 29.—(Canadian Press)—"I think this commission business has been a little bit overdue in a country where we have responsible government," said Premier King to a delegation from the Board of Trade and Chambers of Commerce throughout the Dominion which had come to urge the strictest economy upon the Government. Mr. King was referring to the difficulties in making economies in the civil service. He stressed the point that the Government could not appoint a single clerk without referring the appointment to the civil service commission. Premier King here cited a statement made to him by Hon. W. S. Fielding, minister of finance. "If Mr. Fielding had said, 'I could select six good men myself if we would do the work of thirty girls in my department,'"

Norfolk, Va., March 29.—The coast guard cutter Manning left here today in response to distress signals from the French steamer Tourse, reported to be leaking about 65 miles off Cape Charles.

London, March 29.—(Canadian Press)—The war compensation court has awarded Gordon Hotels, Limited, \$29,654 as compensation for use of three of the company's London hotels during the war, the Metropole, Victoria and Grand.

Christiana, March 29.—The Storting yesterday ratified the agreement over Greenland, recently arrived at by delegates representing the Danish and Norwegian Governments. The vote was 127 to 8.

London, March 29.—Between eight and ten millions of dollars were remitted to Canada this week and through New York in final adjustment of British Government debts to Canada hanging over from the war.

Paris, March 29.—At a cabinet meeting this morning of Premier Poincare's new ministry, it was unanimously decided to pursue the same foreign policy as that of the former cabinet.

Paris, March 29.—Work was started here yesterday on the programme for the two international conferences to be held in November under League of Nations auspices to study the subject of opium consumption, with a view to limiting the traffic in opium.

Madrid, March 29.—King Alfonso generated the flood area near Atanques yesterday on a policeman's horse, when his automobile stalled. Directing his staff to wait for him, he rode into the nearby villages, inundated in consequence of torrential rain, and promised help to the inhabitants.

DAMAGE TO PROPERTY IS GREAT

Wind Lifts 30 Box Cars Off Railroad Track in Kansas.

5 STATES ARE SWEEPED High School Wrecked Just as 400 Students Leave the Building.

(Canadian Press.) Kansas City, March 29.—Nine persons dead, between seventy-five and 100 injured, several probably fatally, and property damage estimated at hundreds of thousands of dollars, is the toll of a tornado and windstorms that swept parts of Oklahoma, Kansas, Texas, Missouri and Illinois last night.

Eight persons were killed and more than 70 injured, in Spawka, Okla., where 200 homes in the best residential sections were destroyed.

400 Students Escape. Four hundred students in a high school there narrowly escaped death or serious injury when they were dispersed by the storm. A small boy escaped death, when at the first sign of the storm, he jumped into a spring or a little while before his home was wrecked.

The storm, traveling in a northeasterly direction, struck Prague and Noble, Okla., injuring five persons and causing heavy property damage. Only one death was reported in Kansas, a boy being killed by lightning at Goff, but property damage running into thousands of dollars was caused at Coffey, nearly every home was destroyed.

Four persons were injured at Vernon, Texas, where considerable property damage was done by a windstorm. Wire communication in some sections of Texas is said to be badly crippled.

A train was injured and several buildings in the business section unroofed last night. Some property damage was also reported in St. Louis. Heavy rainfalls were reported in Missouri, Oklahoma and Kansas.

A Santa Fe train was wrecked and about thirty box cars lifted from the tracks.

ULSTER BOUNDARY CAUSED THE REVOLT

Reported That McGrath Will Form an Independent Group in Irish Politics.

London, March 29.—Four members of the Government party will join Joseph McGrath, resigned Irish Free State minister, forming a new independent group, according to the Daily Telegraph's Dublin correspondent. They intend supporting the Free State Government generally, but on certain matters act independently. One of these matters is the question of the Ulster boundary. This was one of the causes of the Irish revolt and if it remains long unsettled, the correspondent says there is chance of trouble to break out again.

Before taking his decision to form the new party Mr. McGrath is quoted as saying he consulted "those officers to whom he considered himself bound in honor," or in other words the leaders of the army mutiny.

According to the Daily Mail writer in Dublin, legislation is likely to be introduced in the Dail soon altering the oath taken by the officers and men of the army so as to prevent them from belonging to any political or secret society while in the government service.

Halifax Will Have A Summer Carnival Halifax, N. S., March 29.—Halifax will fittingly commemorate the 175th anniversary of its founding by a grand summer carnival, August 5 to 15, according to plans made last night. An enthusiastic gathering of citizens. During the carnival dates the British battle cruisers, Hood and Repulse, will be in port.

Says It's Tribute To Hon. Mr. Lemieux

Montreal, March 29.—The Gazette says editorially today: "The proposal of the House of Commons should be made permanent is a tribute to Hon. Mr. Lemieux, of whom it can be said that no worthier occupant has ever held the position. He is persona grata with all parties. His experience in public life gives him exceptional authority for the office. His erudition, his broad-mindedness, his sense of justice, and the respect which comes from long service well formed mark him out as the 'missing person' to make the precedent of a continuous speaker."

WILL BE HERE ON WAY FROM ORIENT

Seventy-Five Passengers En Route to Europe—Will Sail on April 11 and 12.

Montreal, Que., March 29.—Seventy-five passengers on the "Empress of Asia," due to arrive at Vancouver on Monday next, hold through tickets to Europe. The ship usually stimulates east-bound travel from the Orient, but officials at Canadian Pacific headquarters say that the heavy movement of passengers commencing several weeks earlier this year, due to the added attraction of the British Empire Exhibition in England, ordinarily, seventy-five passengers in addition to the regular trans-Canada tourists would necessitate the putting into service of considerable extra equipment.

He was losing ground at home, opposition in the chamber was increasing, popularity was fading and elections were being called for. The development of French sentiment was generally toward the moderate left wing and Poincare had in his cabinet reactionary politicians who were increasingly unpopular.

No Confidence Vote. Then came Lestary's tactical error in taking a no confidence vote of an unimportant matter followed by a defeat by seven majority on an snap vote which was soon shown to be fraudulent by the manipulation of party ballots. There was a need for body else, enemies, but he saw the chance and went out of office with a flourish.

There was no alternative premier possible. Briand would not take it under the circumstances nor would anybody else who could form a government. President Millerand and every body else, enemies and all, begged Poincare to come back. After protracted negotiations he agreed to do so and his return to office was greeted with a government immensely more popular.

All but two of his former associates walked the plank and his new ministry includes four of the best known members of the moderate party including the prominent and wealthy industrial leader, Louis Loucheur, famous alike for his disapproval of the Ruhr adventure and for his declaration that France should afford to pay her debts to England and Germany.

Power on Increase. The shakeup was entirely due to internal exigencies and its effect upon foreign affairs is problematical. While the members of the cabinet were in the thick of the struggle, Poincare is more firmly in personal power than he was before and his personal attitude is well known. Whitehall looks for little or no change in the French attitude, but is optimistic of a settlement of some kind soon.

Particularly in view of the fact that the committee of international reparations experts has reached an agreement as to Germany's capacity to pay and has worked out a scheme for reparations in which the representatives of France and Britain and the United States are unanimously agreed.

Virginia Miners Get New Contract

Baltimore, March 29.—Agreement upon a new contract for the Northern West Virginia bituminous field to go into effect April 1, and run for three years was reached late yesterday by representatives of the Northwestern Virginia Coal Operators Association and the United Mine Workers of America in conference here. Between 25,000 and 28,000 miners are affected. Day wages are \$7.25 a day. Tonnage rates vary from 62.7 cents for machine loading and 87.6 for hand work.

New Weapon Will Cut, Stab or Shoot

Montreal, March 29.—A new sort of weapon, known as the "Lynch revolver," used for cutting, stabbing or shooting, was found in the possession of a man who gave his name as Jack Kitchener of Lachine, held on suspicion of being a member of the "Black Legion" and the United Mine Workers of America in conference here. Between 25,000 and 28,000 miners are affected. Day wages are \$7.25 a day. Tonnage rates vary from 62.7 cents for machine loading and 87.6 for hand work.

POINCARÉ IS BOOSTED IN FRANCE

Premier is Declared to be Master Politician of Europe.

NEW MOVE BEST Resignation and Come-Back Strengthens the Head of Government.

By H. N. MOORE (British United Press.) London, March 29.—Raymond Poincare is the master politician of Europe. Time and again in the past few years he has by sudden and unexpected coups outmanoeuvred his enemies at home and abroad. Lloyd George, Bonar Law and Baldwin in turn failed to influence his policy or weakened his position. MacDonald is trying a new tactic with results still doubtful.

But of all Poincare's coups, the recent reorganization of his ministry is perhaps the cleverest. He was losing ground at home, opposition in the chamber was increasing, popularity was fading and elections were being called for. The development of French sentiment was generally toward the moderate left wing and Poincare had in his cabinet reactionary politicians who were increasingly unpopular.

THORNTON DENIES HE WILL RESIGN

Head of Canadian National Railway Says He Will Not Return to England.

New York, March 29.—"Nothing in it at all," said Sir Henry Thornton, president of the Canadian National Railways, this morning in denying a report that he is to return to England to take over the management of the London, Midland and Scottish Railway. Sir Henry arrived in New York from Montreal this morning. Questioned by the Canadian Press he declared that the report which was cabled from London last night, was news to him. "I have not read anything about it," he said, "and I have no intention of returning to London. You may say there is nothing at all in it."

Sir Henry said he was in New York on an important business in connection with the Canadian National, but declined to divulge its nature. He plans to return to Montreal tonight or tomorrow.

Emanuel Visits Scene of Disaster

Amalfi, Italy, March 29.—King Victor Emmanuel arrived here yesterday and left on a fishing smack to visit the scenes of desolation along the coast by the recent landslides. Later he boarded a destroyer for the return trip to Naples, where he will leave for Rome. Premier Mussolini has ordered 250,000 lire placed at the disposal of the prefect of Salerno, for the relief of the sufferers.

"Broadway's Angel" on Honeymoon

J. Harold Sommers, war vet of St. Petersburg, Fla., and his bride, who was Rheta Crawford, Salvation Army captain, known as the "Angel of Broadway." They were photographed among the palms at Ormond Beach, Fla.

Two Killed at Drinking Party; Police Lieutenant Held; Denies Boy's Tale

Buffalo, March 29.—A drinking party last night in a house in Perry street, ended in the death of a man and a woman and the wounding of a city police officer, who is in the Emergency Hospital with a charge of first degree murder against him. The dead—Mrs. Mary Schultz, her caller, Andrew Szygel, 35 years old. The policeman accused of the shooting is Desk Lieut. John A. Hayes, of No. 9 Police Station.

The two men got into a fight, the boy says, and Hayes drew a revolver and began to shoot. Hayes was shot in the hand when a stranger rushed into the house and took the revolver from him, according to the boy's story.

In the hospital after Hayes' wounds had been dressed, he made this statement to Police Inspector Hyland: "I was passing by in Perry street, when I heard loud talking and a fight. I entered the house and before I got my bearings, I was on the head by a bottle. I pulled my billy and tried to stop the fight, when another bottle or glass struck my head.

"Then I pulled my revolver and fired three shots. I had no part in the party and had not been drinking with these people."

Dr. E. Bowerman, the police surgeon and physicians at Emergency Hospital said that Hayes was not drunk and Dr. Bowerman said he could smell no liquor on the lieutenant's breath.

LEAVES POST IN BANK OF ENGLAND

E. R. Peacock, Canadian, Becomes a Director With Baring Bros. & Co.

London, March 29.—E. R. Peacock, formerly of Toronto, a governor of the Bank of England, has retired from the Bank of England directorship. He recently became a director of Baring Bros. & Co., Ltd., bankers, London, of which Lord Revelstoke also is a director.

It is the custom that no more than one director of business outside that of the Bank of England shall also be a director of Baring Bros. & Co., and Lord Revelstoke is a director of both the Bank of England and Baring Bros. & Co. It was necessary for Mr. Peacock in joining the latter financial institution as a director, to resign his directorship in the former.

Mr. Peacock was born in Glasgow, Ont., in 1871, a son of the late Rev. W. M. Peacock. He was educated at Queens University, Kingston. He was English master and senior house master of Upper Canada College, Toronto, from 1895 to 1902.

Sealing Vessel Gets 5,500 Skins St. John's, Nfld., March 29.—The encouraging news received that the Terra Nova has struck a patch of seals gives a more cheerful aspect to the sealing voyage. A later message is that the crew were in the thick of the seal hunt and before darkness set in 3,500 prime young white coats had been killed and banded. A message to the Minister of Shipping, Hon. W. H. Cavoy, stated that four Greenpond men who went adrift in the ice a couple of days ago while out sealing are now safe.

MONTCALM HAS RECORD FOR SEASON

Only 42 of Her 1,584 Passengers Destined to Places Outside Canada.

METAGAMA TONIGHT 1,293 More Ocean Travelers Will be Sent to Destinations Tomorrow.

The arrival of the Canadian Pacific steamship Montcalm from Liverpool this morning with 1,584 passengers, a record for this season, caused considerable activity at Sand Point. The large ocean liner docked shortly after 10 o'clock and the gangplank was raised at 10.30. After the immigration officials had cleared the ship the passengers disembarked and preparations were then made to send them forward to their destinations in five special trains, the first of which was scheduled to leave at 2.30 o'clock and the last at 8.30.

The Metagama, which is due in port tonight with 115 cabin and 1,178 third class passengers, will bring the total arrivals to the port during the day to nearly 3,000 passengers.

Mostly For Canada. The 321 cabin passengers comprised 293 adults, 25 children and three infants. Included among the former passengers 1,153 adults, 89 children and 17 infants. Included among the former passengers 1,153 adults, 89 children and 17 infants. Included among the former passengers 1,153 adults, 89 children and 17 infants.

Land Parties Aboard. There were three special land parties on board, one consisting of 120 British and 150 Danish, who are booked to go to Western Canada; a second consisting of 60 Welshmen, and a third comprising 36 Scotchmen. PRESENTATIONS MARK jubilee

R. J. Dibblee is Fifty Years in the Employ of M. R. A.

On Friday evening, at the closing hour the carpet department in Manchester, Robertson, Allison, Ltd. was the scene of a very happy and very unusual event. It was the occasion of the assembling of the whole staff to congratulate R. J. Dibblee, for many years head of the shipping department and to make a presentation to him of a very fine traveling bag and to Mrs. Dibblee an arm chair.

The occasion was a happy one because Mr. Dibblee is universally liked by his fellow workers and an unusual one because, on the last day of March he will celebrate the fiftieth anniversary of his having entered the employ of Manchester, Robertson, Allison, Ltd.

A. Morrison delivered a few well chosen remarks in which he mentioned that Mr. Dibblee was the first M. R. A. employe to attain the proud distinction of fifty years service, although there are several others throughout the store who follow him closely; and fifty whose terms of service range from twenty to fifty years.

In presenting the traveling bag, Mr. Dibblee was advised to "Pack all his troubles in the old kit bag" and continue to smile, smile, smile. The arm chair was presented with a wish for Mr. and Mrs. Dibblee and the singing of "For He's a Jolly Good Fellow."

Mr. Dibblee was afterwards presented with a very fine brief case from the shipping room staff of which he has been the efficient head for so many years.

KING EDWARD HOTEL PAYS. At a meeting of the King Edward Hotel Company in Toronto this week, Frank A. Dudley, speaking of the company's success in 1924, showed an increase over the corresponding period of last year. Gross earnings of the hotel company were showing an increase from year to year, and should the increase be equal to 10 per cent in the current year, the company would be sufficient to take care of depreciation and depletion allowances, sinking fund requirements, interest charges, and leave a sum of \$100,000 for the common stock.

JUNIOR W. A. MEETING. The annual meeting of the Junior W. A. of St. John's church was held yesterday. Twenty children were present. Excellent reports were given of the year's successful work. Mrs. W. J. Edwards the Junior superintendent, and her assistant, Mrs. W. J. Holmes, had charge of the program and a dairy supper which was served to the children and to some visiting friends. After supper the children played games.

WILL COME HERE TO SEE SON ORDAINED

Charles F. Boyd, one of six to be ordained priests in the Cathedral here on April 5, is a son of the late Charles Boyd and of Mrs. Boyd, of Fredericton. He graduated from Fredericton High School and Provincial Normal School, and after teaching for year entered St. Joseph's College. He enlisted for overseas service but was retained in Canada. At the conclusion of hostilities he resumed his studies and graduated with B. A. At the completion of his course at St. Joseph's, he entered St. Augustine Seminary, Toronto, where he took up studies for the priesthood. At Christmas he was ordained a deacon and is now in retreat at Toronto, preparatory to coming to St. John for his ordination. He had a brilliant college career, standing very high in all his studies and in several instances leading his class. His mother, two sisters, Misses Cecelia and Mary Boyd, and his brother, Morris Boyd, will be present at the ordination. The Fredericton Gleaser says Father Boyd will say his first mass at St. Dunstan's church on April 6.

BYNG BOYS HONOR GOVERNOR'S LADY

Among the marks of respect which were shown to Her Excellency Lady Byng of Vimy during her short stay in the city yesterday prior to her sailing for England, was the presentation of a beautiful bouquet of flowers from the Byng Boys. Lady Byng received the floral remembrance a short time before the ship sailed, and was deeply pleased.

On his last visit to St. John His Excellency Baron Byng agreed to become Honorary O. C. of the club and the fact that the club bears the name of her distinguished husband, prompted the Byng Boys' action.

BLAME LOW TARIFF FOR THE EXODUS

Quebec Manufacturers Demand More Protection—Gloomy Talk.

Montreal, March 28—A demonstration of the solidarity of the manufacturers of Quebec in their protest against any further reduction of the tariff and their demand for a fair measure of protection, together with relief from the present conditions of uncertainty which was said to be ruining business, was held here yesterday at the call of the Quebec Division of the Canadian Manufacturers' Association. Four hundred delegates, representing upwards of fifty manufacturing centres, were present.

Paul Joubert, chairman of the Quebec division, C. M. A., opened the meeting. Howard C. Smith, president of the C. M. A., read extracts from United States newspapers, expressing pleasure that so many manufacturers were crossing the border to settle in the United States. He said that this had been brought about by the low protective policy of Canada, which, he said, was closing our industries and reducing employment.

J. H. Fortier, Quebec, emphasized that in this movement there was no idea of aiding or furthering either political party. The plan was simply to educate public opinion to the pressing needs of the home. In the last five years, he said, neither Conservative nor Liberal governments has shown other vision constructive statesmanship with regard to the necessity for protection and a stable tariff.

He further said that the present Government had shown additional signs of faltering, and that the whole country had been disturbed by rumors of coming tariff reductions, especially on "the important goods" such as wool, iron, steel, and other raw materials.

He said that the tariff reductions, which had been generally followed by tariff reductions, in illustration of which he pointed to the wool tariff, largely represented in Quebec province, which at full capacity produced \$27,000,000 worth of goods, employed 29,000 people and paid \$17,000,000 annual wages.

He said that the tariff reductions in the British preference, mills were closed down or on part time only, all over Canada.

George D. MacKinnon, Quebec, vice-chairman of the Sherbrooke, said that that city had fallen in population from 27,000 in 1918 to 23,000 today, while a number of American farms which had opened branches there owing to the tariff reductions, were now closing, shut down, or on part time.

J. A. Alain, Victoria, and R. C. Wilkins, Farnham, followed along the same lines.

L. P. Deslongchamps, president of the Shoe Manufacturers' Association of Canada, said the export industry in shoes had gone and they were dependent on the home market only. With a single day of 26,000 pairs of shoes a year, there was a demand for only 15,000,000. Last year 25 shoe firms had gone or failed, he said, while imported footwear was selling at greater profit for those who pay and those who use the shoes.

The results attained at the Winnipeg conference, however, saw the first delegates should make reports to their respective governments and learn their views on the subjects discussed. The Canadian Good Roads Association, George A. McNamee of Montreal has now received letters from practically every province, all endorsing the proposals and the urgent instances which would be put into force almost immediately. All the eastern provinces have adopted the uniform symbol, and several of the western provinces have also adopted the uniform caution symbols adopted are as follows:

RAILWAY EMPLOYEES ON CANADIAN LINES APPROVE BALTIMORE CO-OPERATIVE SCHEME.

Montreal, March 28—The convention of Division 4, Railway Employees, Department of the American Federation of Labor, representing 25,000 rail shopmen on Canadian lines, it is announced, have placed themselves on record in favor of the Baltimore co-operative plan. The plan, which provides for the giving to the shop-crafts of a voice in shop management is operating with success on the Baltimore & Ohio Railway, and it is desired by Canadian shopmen to see it in operation on Canadian roads.

ST. JOACHIM TEAM THE CHAMPIONS

Exciting Match is Bowled at Y. M. C. I.—Contest in Sussex.

One of the most interesting and exciting games played on the Y. M. C. I. bowling alleys for some time was staged last evening when the A. O. H. quintette and a team representing St. Joachim's played the deciding game for the championship of the Catholic Society League. The latter emerged victorious. They have won both games of the series of three and are the champions. The result of last night's game was in doubt until the last frame was bowled, and the excitement ran high. In the first string the A. O. H. ran up a lead of 40 pins, and it looked as if they were due to stage a strong comeback for the title, but in the second and third strings the St. Joachim bowlers were leading 72 pins at the end of the fifth string, but after that the St. John boys kept hitting them and kept covering, but at present their early losses proved too much of a handicap and they were defeated.

UNIFORM DANGER SIGNALS FOR ALL PROVINCES SOON

The efforts that have been made by the Canadian Good Roads Association to get all the Provinces of the Dominion to adopt uniformity in signs placed along the public highways are beginning to bear good fruit, for as a result of the inter-provincial conference of highway officials held at Winnipeg in January, word has been received from several provincial governments that they have decided to adopt the uniformity of signs as proposed.

The inter-provincial conference of highway officials, heads of motor vehicle departments and engineers was first organized by the Canadian Good Roads Association at one of their Dominion conventions, and since then several important meetings have been held in different parts of Canada for the purpose of securing uniformity on a variety of matters connected with the use of the highways and the administration of highway departments. The Winnipeg conference, however, saw the first definite action taken in the question of uniformity of signs and the excellent results obtained by this agreement will be shown at the convention to be held at St. Andrews by the Sea on June 24, 25, 26 and 27 next.

A further inter-provincial conference will be held in April in connection with the convention for the discussion of other matters appertaining to the highways, such as methods of administration, and the proposed uniformity of signs and inspection for those who pay and those who use the roads.

Montcalm Has Record For Season

(Continued from page 1.) established at Coona, situated in Southern India.

Tells of Leper Treatment. Dr. Joseph is in charge of a leper colony in India. There are over 100 patients. He stated that they are now using Dr. Muir's treatment and find that it is very helpful. He said that all the patients show signs of recovery, but at present it is not definitely known whether or not the cure will prove permanent as it is still in the experimental stage. He told the members of the leading citizens not only in India but throughout the British Empire are showing in this new treatment and are doing all in their power to stamp out the disease in this Empire.

Both Dr. Joshee and Dr. D'Prasse will return to St. John for a couple of days in April in connection with the Baptist missionary jubilee to be held in connection with their fifty years' anniversary.

Other passengers of interest were: Lorentz W. Hansen, chairman of the inter-provincial conference of highway officials, and his wife, Mrs. Lorentz, who are on their way to Bergen, Norway. He is director of the Norwegian agency and came to Canada to attend a business conference to be held in New York. He was accompanied by J. B. Metcalf, European traffic manager of the company, and also European agent for the Canada Steamship lines, who has his headquarters in London.

Eberbach, Germany, March 29.—Grover Cleveland Bergdoll, the U. S. draft evader, whose departure from his home here early in the week, was responsible for reports that he was on his way to the U. S. returned today.

Newark, Ohio, March 29.—Four Baltimore and Ohio trainmen were reported to have been killed when a freight train on the Shawnee division ran through a bridge south of here this morning. High water was said to have caused the trestle to give way.

PRESENTATIONS MADE. A very enjoyable time was spent at the home of Mr. and Mrs. D. Jewett, 608 Carnarvon street, last evening, when about 60 friends gathered to make a presentation to Mr. and Mrs. John March, who lost their possessions during the recent Glen Falls fire. A large basket filled with gifts was presented by Mrs. Jewett, on behalf of their friends. For the Newfoundland society, Hugh Willey presented a purse of money to Mr. March. Games and music were enjoyed, and the hostess served dainty refreshments.

GOING TO VANCOUVER. Oliver J. Wright, and his son Alfred R. Wright, residents of Milford, former employes of the Newbank Pulp and Paper Co. will leave for Vancouver on Monday to make their home there. Their wives will follow them a little later.

M'GRAW CUTS PLAYERS LIST

Sends Six Away; Four More to Follow—Yankees Delay Action.

New York, March 29—Six little Giants fell from the beanstalk yesterday when Manager McGraw of the New York Giants swung the axe which cut his squad to 29 men. Four more will go before June 15. Manager Higgins, Owner Jacob Kuppert and Business Manager Ed. Barrow are delaying similar action at the Yankee camp until farms are found for six of the "world's champions."

DURING the critical period between twelve and seventeen there is a special strain on the young girl's system which often leaves her in a weak run-down condition.

There is no question of Dr. Chase's Nerve Food being the most effective means of overcoming the anemic condition.

It is only necessary to have a little patience and keep up the use of the Nerve Food regularly until the growing body is supplied with an abundance of rich, red, life-sustaining blood.

Likewise Dr. Chase's Kidney-Liver Pills are 85c. a box of 35 pills, instead of 25c. for 25 pills.

The restorative qualities of Dr. Chase's Nerve Food have never been more certainly proven than in the treatment of young girls for anaemia, chlorosis and such ailments which arise from a debilitated condition of the blood.

Although farming is not bringing the returns it deserves, according to the farmers, they are able to ship their produce at a time when it is most likely to command a good price. Among the incoming shipments are always many parcels from a well known small order house, Gagetown being the distributing point for all the express matter along the Valley road. No Christmas trees were shipped from here this year. Fred M. Crocker, of Millerton, has been C. N. R. agent here since the station was opened.

THE YOUNG GIANT—CANADA

Selecting a few facts about Canada which he thinks we should all know and talk more about, Mr. Russell Kelly, who desires to stir up a greater faith and confidence in the country, has been writing to the Hamilton newspapers about it.

If, as the Toronto Globe affirms, "pessimism is being artificially fostered in Canada for party purposes" it is a poor policy on the part of those who are pursuing it, bad for the country and bound ultimately to recoil upon its authors.

Among Mr. Kelly's additional suggestions for increasing the confidence of the people in their country and promoting prosperity are these: He urges measures to bring about the use of Canadian coal for all purposes; he would have our people more effectively educated to buy only Canadian goods when both quality and price are right; he wants a more general and more earnest celebration of Dominion Day, with a great many more flags flying to the breeze, and more and better patriotic speeches.

Whether all of Mr. Kelly's ideas are feasible or not," the Globe says, "he is imbued with the genuine Canadian spirit, and certainly he is intensely practical in his proposal that the splendid facts of Canadian natural wealth and Canadian development in industry and agriculture should receive more publicity and should be drilled systematically into young Canadian minds. Pessimism is organized for certain purposes. Why not optimism for better objects?"

To all of which a word, perhaps, may be added. Pessimism is not for the young. It is well that they should grow up knowing the outstanding facts concerning the progress and the resources of their country and should know that the future has magnificent things in store for it if they serve it well.

GRAIN TRAFFIC

The fact that the grain shipments through the port of St. John over the Canadian National for February and March will be more than double the quantity shipped during these months last year is encouraging as far as it goes. St. John will give the Canadian National management credit for so much on account, noting that if this scale of increase had begun at the opening of the winter port season and should be maintained until its close, there would be a very marked and important improvement.

Even this gain in the figures for two months is welcome enough, and all those who are interested in the success of the port should unite in seeking methods to bring the C. N. R. grain shipments up to a level and keep them there. One swallow does not make a summer, but the figures for February and March indicate that a very great change is possible if proper relations are established and maintained. The C. N. R. are established and maintained.

It has been suggested that a great deal more could be done if St. John

had an official, whatever his title, who would keep closely in touch with the movements of traffic—not grain alone—and would work in close co-operation with the C. N. R. in arranging to have ship tonnage immediately available when the ocean bound freight is moving. In many cases, it is understood, empty cars are coming east for import traffic and any grain they carried would be found money for the railway, even if the rates were less than they are at present.

At all events it is obvious that this port should be brought into closer relation with C. N. R. headquarters and that a practical programme of enlarged co-operation should be worked out, not only with regard to grain but with respect to general freight. A great deal is accomplished in these matters by getting acquainted and by frankly discussing, without prejudice all the essential points, including the routing of traffic. The increase in the volume of grain coming here during February and March over the Canadian National should not only cause us to give credit to the National Railway management for that measure of improvement, but increase our determination to bring about a much larger measure of co-operation and a much greater traffic to and from St. John over the public railway system.

PAROLED CRIMINALS

To tell whether or not any criminal in a penitentiary should be granted a parole is clearly a difficult matter. Occasionally a very bad one gets out on parole, and when that happens the whole system comes under fire from many sources. The annual report of the Dominion Parole Officer, Mr. R. R. Creighton, for 1923, indicates that the percentage of mistakes is very small.

Commenting upon the parole figures, he says the system continues to function in a satisfactory manner, inasmuch as a very large percentage of those to whom parole is given, comply with the conditions required. He is justified in saying that the figures are encouraging. During 1923, 1,338 persons were released on parole from Canadian penitentiaries, this being 450 more than during the year before. This includes penitentiaries, jails and industrial farms. The total number of paroles revoked was seventy-two, or 5.31 per cent. of the total granted.

From 1899 down to the end of 1923, 15,774 prisoners were released, and those who failed to keep their pledges constituted only 5.7 per cent. of the total. The Dominion Parole Officer dealt with 650 cases during 1923. During a few months he visited six penitentiaries, hearing the cases of those who thought executive clemency should be extended to them. In this way he personally interviewed 1,060 out of a total prison population of 2,486. In addition to statements made by the prisoners themselves, the parole officer is able to secure useful testimony from the prison officials.

The parole system helps discipline in the prisons, for, as Mr. Creighton says: "In addition it is a satisfaction to the inmate to know that he has had an opportunity to express his views to an official of the department, who is especially for that purpose. It tends to make him more contented and in this way adds to discipline, particularly when, as is invariably the case, it is impressed upon him that his good conduct in the institution is one of the most important factors in his favor when his application for clemency is under consideration."

Attorney-General Daugherty, having resigned, to the relief of the President and the Republican party managers, says of the evidence against him: "They are just plain lies, procured to be told to create prejudice." The prejudice has been created, sure enough, but Mr. Daugherty has not yet been tried. He is the second of the cabinet ministers to fall, and, like Denby, he was an inheritance from the Harding regime. Meantime, in spite of all the scandals, Mr. Coolidge hovers up as far and away the strongest Republican candidate for the presidency. The scandals have hit his party, but not him personally. The Secretary of the Treasury, Mr. Mellon, is the Senate's next target. In fact, the President's official family is far from well. It is an extraordinary national spectacle.

In thinking of good causes it is well to keep in mind the fine and necessary work done through the free milk fund for babies. The Women's Council is putting on a tag day shortly to get additional funds badly needed for this kindly work. Unless it can be kept up there will be a very grave lapse from duty on the part of the community. Nearly 500 babies benefit through the fund, which has meant health to many of them and life itself to not a few. It is an intensely practical and

worthy enterprise, and tag day will afford an opportunity to keep it going. The women have done much usefully work for hundreds of babies in spite of the increased price of milk. So good a cause should not lack generous support.

Sir Henry Thornton wired the Toronto Globe today that he "has no knowledge" concerning the report that he is to leave Canada for London and become manager of the London, Midland and Scottish Railway. If he were going he probably would know it. He has a job in Canada big enough to occupy all his energy and knowledge, and he does not strike one as the sort of man who quits in the middle of a fight for success, a fight of the utmost national importance.

That American trade is "leaning heavily toward Canada" is the conclusion of the Boston Transcript. "It is hardly new that American firms are establishing important branches in the Dominion of Canada," says the Transcript, "but a report a few days ago indicates that the movement is a healthy one in that it continues. The report shows that this expansion of American business is quite extensive."

IT MAY APPLY IN B. C. (Vancouver Sun.) That critic who says the age of blind faith is gone should see some of the entrants in our beauty contests.

WATCH FOR IT. (Toronto Mail and Empire.) John D. Rockefeller having sunk a 21-foot putt it will be interesting to note the reaction upon the price of gas.

MARY VISITS TORONTO. (Toronto Star.) With the most perfect composure, Mary Pickford leaned against a table in the sitting room of the family suite of the King Edward and answered a battery of questions. A tiny bit of a thing, about the height of a man's heart. Pretty, yes, amazing eyes, not that they are merely beautiful, but there is a liquid quality about them even when she laughs that makes them torques of sympathy, wells of brimming emotion. Her eyes that are never silent are her most striking feature. Even her famous curls do not compete, striking as their golden wealth is. One does not want to try to destroy illusions about a woman whom one found thoroughly charming, but one does want to give an impression of her as she appears. At first one gains a sense of tremendous disappointment. She is so petite. She might be an ordinary stenographer. She is not striking. Her face has none of that skin you love to touch sort of beauty which you could find in a thousand girls in Toronto. It seems safe to say that a thousand Toronto girls would make Mary Pickford, seen anonymously, would not pull more than a passing casual glance.

But she grows on one. She weaves a spell. She has personality. She has sympathy. She understands. She knows people. She appeals to the puls across an indefinable motion. She establishes a subtle link with those who watch her and listen to her. So that in a short time you feel yourself under her charm. You become a fan. She has charm, a sweet, womanly charm that retires more than any other woman does of girlhood. She has an amazing fragrance of girlishness about her.

NO GROUNDS FOR PESSIMISM. (Toronto Globe.) Nobody denies that the national debt of Canada is heavy and the taxation high, and that efforts ought to be made to reduce both. But gloomy views are not warranted by the facts. The national debt of Canada is owed mainly to Canadians, who are doing half-year cutting coupons off nearly two million dollars' worth of bonds issued for war purposes. The deposits in banks last year amounted to \$1,000,000,000. The total of new life insurance written during the year was \$635,000,000. On this point we may repeat a statement made in these columns a few days ago: Now we have confirmatory evidence that the savings of the Canadian people are rapidly piling up in the report of life insurance in force in the Dominion. The total is \$4,433,355,000, a sum almost twice as great as the national debt, or \$892 each for every man, woman and child in the country, assuming that the population is nine millions. A striking illustration of the meaning of these figures is provided in the Departmental statement that the amount of life insurance now in force in Canada is about as great as that in the United States in 1890, when the population of the Republic was 65,000,000. We have, therefore, slightly over seven times the average assurance per head of population that our neighbors had thirty-four years ago.

The items referred to represent a total investment of more than eight billion dollars. Of course, we do not count all that as national wealth, for what is due to the investing Canadians is owed by the people at large, by the banks and the insurance companies. But it all represents investment and is not lying idle. They are reinvested very largely in industries which are actually producing wealth. These industries are financed by Canadian money to a greater extent than is always realized. Nor do the people apparently save money by doing without comforts, luxuries and amusements. One meets few people in Toronto who are not comfortably and decently dressed. The restaurants are thronged with customers, many of whom help themselves liberally at places where the prices are high. A particularly sumptuous one was opened the other day, and at one time there were people outside waiting for admittance. Moving picture and other theatres and concerts are well attended.

We do not deny that side by side with these evidences of wealth there is poverty which does not strut itself on the public eye. There are families where it is difficult to make both ends meet, and we would not say a word against the efforts that are being made to better these conditions. But the action as a whole is strong and able to pay its way, and for sweeping pessimistic declarations there is no excuse.

REPORTS GIVEN TO SHAREHOLDERS. Shareholders of the Manufacturers' Finance Corporation, Ltd., met in the rooms of the Board of Trade, Prince William street, last evening. L. R. J. Rowlands, general manager, presided. The corporation was formed only last year and the shareholders had received dividends at the rate of 8 per cent per annum, he said. The annual report was explained to the shareholders and it was shown that \$16,000 was carried over as a surplus from the end of the year. Shareholders were given the opportunity to ask any questions and they were urged to increase the number of shareholders. There are about 200 shareholders in St. John. Mr. Rowlands will return to Toronto today.

SAYS CADETS EAGER FOR CAMPING DAYS. Captain D. V. Palla, instructor of the cadets of the city, said yesterday that now that spring was at hand the cadets were looking forward to the opportunity that lengthening days would give for getting out in the open for drill and camp. They will also have new uniforms and inspection display in the armory and camp during April. The boys deserved every encouragement for they have been doing good work throughout the winter, he said. Their instructor hopes to arrange for soccer and baseball leagues for the coming season.

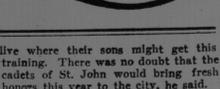

Plans are being formulated for a goodly number of the cadets of the prescribed age to take part in the shooting matches on local ranges. The boys are anticipating the day when they can don full uniforms and have a grand march out. The sight of several hundred cadets in neat uniforms with their own band, he said, was one of which any city might be proud and might well encourage because it was a good progressive advertisement to a city and an inducement for people to

live where their sons might get this training. There was no doubt that the cadets of St. John would bring fresh honors this year to the city, he said.

"SERVICE AT COST", LET US TELL YOU ABOUT IT. Because, After All is Said and Done, Everyone is Vitaly Interested. A lot has been said about "Service At Cost."

The plain fact of the matter is that we can serve you, very often, for less money, than any other, whether it be for house or commercial lighting, or for power. In the smaller houses, it is not so often, but, AT ALL TIMES, we can give you ASSURED SERVICE—service when you want it.

And, after all, that is the kind of service that really counts. If you did not have ASSURED SERVICE and, by consequence, factory, store or commercial enterprise were forced to close down for even one day, or one night, the loss would be greater than a possible small saving in the bill for electricity.

Employees would be thrown out of work and this would be reflected in the household. It might only be for a day; it might be for a month.

N. B. MAN MEETS TRAGIC DEATH
Grim Story of Henri Gallant Comes From North Saskatchewan.

A few days ago particulars were received here, says the Moncton Transcript, of the tragic death of Henri Gallant, formerly of Grand Digue, which took place in Western Canada some weeks ago. Mr. Gallant, accompanied by a friend, Godiose Tremblay, was returning after a fishing trip on the Bruce Lake, North Saskatchewan, on February 18, when a gasoline stove which they had been using exploded. Mr. Gallant was struck on the head and his clothing caught fire, and it was only by rolling himself in the snow that he was able to extinguish the flames which were enveloping him. His companion was also badly injured, and it was with much difficulty that they succeeded in harnessing their horse and proceeded to their camp, about three miles, where they were given aid by an aged Indian. After doing everything in his power for them, he conveyed them to a hospital a distance of 40 miles.

Mr. Gallant, whose injuries were of a more serious nature, was taken first, the trip being made by a toboggan and by two dogs. On the journey all night Mr. Gallant was nearly frozen to death. He succumbed in the hospital on February 23. The companion was also conveyed to the hospital in the same manner. It is reported that he will survive, although he will be crippled for life.

DEATHS

Mrs. Richard Lawrence.
Word has been received here of the sudden death of Janet Moran Lawrence, widow of Richard Lawrence, which occurred at her home in Everett, Mass., on March 16. Mrs. Lawrence was a native of St. John, being the daughter of the late James Frederick and Mary Morse. She is survived by three sisters, Mrs. A. F. Harwood, of Parker House, Boston, Mass.; Mrs. Robert Godfrey, of Tladiak, Sask.; and Miss Lydia G. Morse, of this city.

Miss Margaret Louise Pettie.
A telegram conveying the saddest of intelligence reached the hands of Mrs. S. Connelly, Sister Cecilia, Mother Superior of the Mater Misericordiae Home, and Miss Evelyn Kerr, of the Imperial Theatre staff yesterday afternoon. It told of the death of Miss Margaret Louise Pettie of St. Anne Avenue, Bronx, New York City, sister of the senior ladies mentioned and aunt of Miss Kerr.

The St. John relatives are still un-informed as to the cause of Miss Pettie's death and realize it must have been very sudden as they received a letter from her but a few days ago which stated she was remarkably well and gave details of her activities the few days previous. There was no word of illness or disability, quite the contrary.

A Gleamy Mass of Hair
35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

MAKES APPEAL FOR SCHOOL FOR BLIND

Miss Ellis Addresses the Women's Council—Air Patrol Urged.
Much business was transacted with dispatch at the regular meeting of the Local Council of Women yesterday afternoon. Mrs. Albert W. Estey, president, was in the chair. The plans for the Free Milk Tag Day were discussed and the president urged the need of more workers and co-operative interest in the enterprise.

Miss Evelyn Ellis, head of the literary department of the Maritime School for the Blind, Halifax, N. S., gave an address that was thrilling in its subject matter and given in a manner that charmed her hearers. J. F. Down, organizer for the educational and financial campaign for the school, was also heard with great attention. Mrs. Estey followed the addresses by announcing the mass meeting in the Imperial Theatre at 8:30 Sunday evening, at which the matter of which the speaker had spoken would be given in detail.

The outstanding bills amounted to \$28.85. It was moved that a collection be taken at each regular meeting and the precedent was established yesterday. Ten dollars was voted to the Women's exhibit in the British exhibition in England.
A letter from Lady Aberdeen, International president of the Council of Women, asked all women to work to hinder any more war.
Miss Alice Estey, Bell acted as secretary.

On the other hand, Mrs. S. T. Burgess of Madison, Wis., where every third girl is a raving, tearing beauty, said that bobbed hair has come to stay because it is healthy, comfortable, and makes a woman look young, or at least younger.
Mrs. E. A. Young moved and Mrs. James H. Doody seconded the vote of thanks which was accorded to with hearty applause.
St. Martins, March 28.—A local effort is being made to introduce electric lighting into the streets and homes of St. Martins. A canvass has been made and over sixty names taken in support of the scheme. Warren Vaughan is at the head of the movement, and it is generally hoped that it will be realized. Most of the inhabitants are said to be keenly interested and are looking for early developments.
GOOD SAFETY RECORD
London.—Only one railway accident involved loss of life in England during 1923. The years 1901 and 1908 were without a single fatal accident to passengers. In the last 22 years the number of railway deaths totals only 70.

SAYS WOMEN WILL BE BALD-HEADED
Beauty Culture Expert Predicts This as Result of Bobbing Hair.
New York, March 28.—The next generation will see the world filled with bald-headed women, declared Joseph Byrne, beauty culture expert, in an address of the opening of the sixth annual convention of the American Master Hairdressers' Association, at the Waldorf.
Mr. Byrne blames it on bobbed hair. "To hit the bobbed hair," said he, smilingly, "the milliners have had to make hats that fit the head very tightly. Result: Baldness, as sure as you're sitting there."
Charles Nestle, vice-president of the association, also came out definitely for the first time against bobbed hair. It seems, he figured, that the male has the stronger hair at birth, but cuts it so often that it gets weak, whereas the girl at birth has weaker hair, but when she hadn't learned to cut it, it gradually got stronger.

HEALTH OF 600 IN LADY M. D.'S CARE
Woman Physician Here in Industrial Medical Work in Australia
"I did not know there was a city in the world that had entire pasteurization of milk," exclaimed Dr. Grace Boelke, of Sydney, Australia, when she was told yesterday of the successful enforcement of compulsory pasteurization of milk in St. John and the general satisfaction with which it was being received.
Dr. Boelke sailed on the Montclare yesterday for England, having completed a tour of the United States and Canada to glean information with regard to preventive and industrial medicine. In the few brief minutes at her disposal Dr. Boelke visited the St. John Health Centre yesterday and was greatly interested in the work being done there. Her guides in St. John were Miss D. Bishop, of the Immigration Department of the Y. W. C. A., and Miss Mellicole, director of the Health Centre.
Dr. Boelke is specially interested in industrial medicine and research. She is one of the pioneer women doctors of Australia, being one of the first women to take a medical degree at Sydney University. She has both the degree of Master of Surgery and Bachelor of Medicine and for a time practised her profession with much success.
For the last few years she has retired from private practice and has interested herself in industrial hygiene and child welfare activities. She holds

Clever Accessories
Neckwear
The new "Boyish" suits and frocks call for special neckwear—just a something to take away the severity of the tailored lines or to accentuate them—as the wearer prefers. Here you'll find separate collars, collar and cuff sets, vests and new spring scarfs in wanted styles and fabrics. Too many to tell you about. We'd like to have you call and see them.
Lingerie
The daintiest garments you could wish to see are fashioned from finest batistes, nainsooks and muslins in all white or flower tints. Trimmings of organdie are often seen and delicate printed patterns are attractive. Night Gowns, Chemises, Bloomers, Step-ins, Princess Slips and Two Piece Sets are showing in great variety.
Gloves
One of the most important accessories after the spring suit is decided upon. Fabric Gloves are showing in colors to match practically any frock or suit; and kid gloves in fine or washable varieties will meet with your approval. Fancy stitchery and touches of eyelet embroidery are new features.
Hosiery
To match or not to match, that's the question. Our stocks comprise fine silk hosiery in every color mentioned on spring's fashion calendar. Wool and cashmere varieties are also showing in all wanted styles. Plain weaves and fine or wide ribs included.

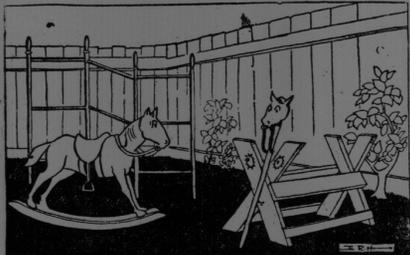

Open Mesh Vogue In Curtainings
Housewives, who love to contrive little home touches, all on their own, slip into London House and make a dash for the open mesh curtainings. They lend themselves to snappy treatment. They are the new thing come over the horizon. A refreshing change. Economical. And graceful. The pattern inventors have done well and all sorts of notions, plain and fanciful, spread out before you, making the rest of the business excitingly easy. 79c and 89c a yard.
Other Effects
The time is surely here to get going on your curtains and here are the exact materials. Nottingham Nets improve upon their popularity with a wide range of designs just out. One for every taste. 49c to 89c a yard.
Marquette with an assortment of double borders looks inviting when you regard the price alone—39c. Scotch Madras in White or Ivory in equal variety from 39c to 85c.
Figured Madras in runs from light to dark colorings, yard wide and 39c. Silk Madras, fifty inches wide, \$2.25. Old Rose, Emerald, Delphinium Blue, Bronze and Gold.
Of made up Curtainings, as Kipling would say, that is another story, but bear in mind the lowest of low prices for good quality—a 2 1/2 yard pair, double bordered and lace edged, for \$1.98.

Internal Bathing Meant Life Itself to 93-year-old Man

All the physics of doctors couldn't give health to this 93-year-old man. Internal Bathing, the common-sense warm water method of cleansing the intestines, gave him vigor in place of the infirmities of old age.

The letter from Mr. Amos Gantner of 57 St. James Street, St. John, N. B., is only one of thousands from men and women who have found the way back to health by Internal Bathing. He writes: "Dear Dr. Tyrrell: I believe the J. B. L. Cascade is one of the greatest inventions for sound health in the world. For years I was troubled with constipation, which was poisoning my whole system, and I was losing flesh. Purgatives failed to have any effect upon me, but acted more like a poison. I would take a burning itch in my hands—a most distressing feeling—and purple spots would come out on the backs of my hands. Everyone thought I was nearing the end because of my old age. But I can thank Dr. Tyrrell and the J. B. L. Cascade for restoring me to health. I am now perfectly healthy and regular, and never use drugs."

People who are losing flesh, whose appetites are falling, and who are losing their health and sleep, due to constipation, headaches or biliousness, should stop using pills or laxatives and start Bathing Internally. The J. B. L. Cascade is shown and explained at E. Clinton Brown, Union and Waterloo streets, F. W. Munroe, 387 Main street. Ask for free booklet, "The What, the Why, the Way of Internal Bathing," or write to Tyrrell's Hygienic Institute, 163 College Street, Toronto, Ont.

THE TREACHERY OF SPRING

False Sunshine Brings Colds, Backache and Rheumatism.

Spring may be a time of sunshine, buds and flowers; but it is also a time of driving rain, chilling winds, draughts and fogs. We say "spring is here" and the first thing we know, we sneeze and cough; sometimes we are ill for weeks with grippe, tonsillitis or pneumonia. Spring is danger time, and everyone should guard their health by taking "Fruit-a-tives" during the breaking up of winter and the coming of warm weather.

These wonderful tablets—made from concentrated and intensified fruit juices—purify and enrich the blood—regulate kidneys, bowels and skin—and by building up the whole system, protect you against sudden weather changes. Six and ten a box—at all dealers or Fruit-a-tives Limited, Ottawa.

I am called a saw-horse because they put boards over me to saw into pieces? It shows what a strong back I have and how useful I am in the world. Why, look at you, Hobby, you can't even stand up alone! You haven't a foot. Much use you are—a wooden head stuck on a broomstick! Why you are called a hobby I can't say. "Well, I may not have feet, but no one can say I can't get around. Look at the rocking-horse."

Home-made Remedy Stops Coughs Quickly

The best cough medicine you ever used. A family supply easily and quickly made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results, it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good. Four 2½ ounces of Pinex in a 16-oz. bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soothes your cough spots entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes. To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. Amherst, March 28—A letter received here by C. H. Carter, manager of the Bank of Montreal, from Dr. J. Clarence Webster, of Shediac, now in London, states that he is making special efforts to secure old cannon to be placed on the ancient forts at Louisburg, Annapolis, and Beauséjour, near Amherst.

At the same time, Dr. Webster remarked that he was planning upon the figure head of the historic warship Chesapeake to be presented to the city of Halifax, while there were possibilities that he would secure an ancient coat of arms for the city of Quebec.

It Has Healed Many of Eczema Why Not You?

If you are afflicted with itches of eczema, the best that seems to soothe medical treatment, invest in this discovery. Many skin specialists are recommending it in preference to their own prescriptions.

The formula is being published and physcians note that it contains the rare inside of the H. H. H.

How long have you had to endure disagreeable humilation—itching—pain? How many times have you looked into the mirror and wished you had an unblemished skin? How many times have you followed hopeful advice in vain?

You will be disappointed in the action of the remedy. It works instantly on the inflamed and tortured skin. The result is healthy and known for years.

A soft, though powerful agent, beautiful in use, pleasant in color, cooling, soothing fluid, D. D. D. is the ideal treatment for the most sensitive skin.

Don't Let That Co'd Turn Into "Flu"

Rub on Good Old Musterole.

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once.

Rub good old Musterole on the congested parts and see how quickly it brings relief.

Colds are merely congestion. Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

As effective as the messy old mustard plaster, it does the work without the blister.

Just rub it on with your finger-tips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. 60c and 50c. at all druggists.

The March lion, after lying in ambush for nearly two weeks, came forth with a terrible commotion on Wednesday night and threatened to devour the little lamb on Thursday. However, the little fellow escaped and gambled about yesterday, reminding everybody that in March the lion cannot rule for long, for according to the order of things, April must come. Thursday evening some badminton members assembled at the armory, with determination to keep the courts open until the end of the season. There were present Lt.-Col. Herbert C. Spraling, Captain Hugo Poston, Captain Gerald Anglin, Dr. and Mrs. Fred R. Taylor, Mrs. F. W. Daniel, Mrs. A. J. Kerr, of Vancouver, B. C., Mr. and Mrs. Peniston Johnston, Miss Elizabeth Foster, Mr. and Mrs. A. K. Harris, Mr. and Mrs. A. W. Murray, Mrs. H. Russell Sturdee, Mr. Eric H. J. Barber, Mr. Douglas McKean, Captain Bujiila, Dr. and Mrs. L. deV. Chipman, Mrs. Daniel Mullin, Mr. J. Harley, Miss Royce Carter, Mr. Neville Mackenzie, Miss Althea Hazen, Miss Beryl Mullin, Miss Emily Sturdee, Miss Grace Robertson and a few others. Mrs. Percy D. McAvity and Mrs. David Ledingham will preside at the tea hour at badminton this afternoon.

There were several teas, receptions and church functions that were a great success in the early part of the week. Mrs. R. C. Elkin and her daughter, Mrs. J. Harold Wilson, entertained. Mrs. E. B. Nixon was hostess for the Dookeepers' Circle of the Kings' Daughters. A delightful tea was given by the young ladies of Portland Methodist church. The real treat of the week was the evening of readings given by Mrs. May Rance Mackinnon for the Women's Canadian Club at German street Baptist Institute. Two large receptions were given by Mrs. Guy S. Lordly, a young bride, and Mrs. W. A. Fisher, a recent new arrival in St. John. Other hostesses were Mrs. Rupert W. Wigmore, Miss Emma Colwell, Miss Dorothy Emerson, Mrs. G. C. P. McIntyre, for her little daughter, Grace, who had a birthday, and Mrs. Gordon McLeod, whose daughter, Audrey, celebrated a similar event.

Mrs. A. J. Kerr, of Vancouver, B. C., who has been in Quebec with Mr. Kerr, is now visiting her husband's uncle and aunt, Mr. and Mrs. F. W. Daniel. Mrs. Kerr will be here for some time and is being welcomed by many friends. Her son is attending Hothey Collegiate school.

Mr. and Mrs. A. D. McCain, of Florenceville, who were in the city this week, guests at the Victoria Hotel, left for home this morning. Yesterday they were guests of Mr. and Mrs. John C. Earle, 48 Hazen street.

Mr. and Mrs. Joseph McKillop, of Greenwell, are guests of Mr. and Mrs. William Miller, Union street.

LET A TRAINED NURSE
TELL YOU

Some simple facts concerning the recent discovery which solves the age-old problem of womankind
By ELLEN J. BUCKLAND
Graduate Nurse

Only a woman can possibly realize what this discovery means in general comfort, convenience and consequent peace of mind. It decides the most vexing questions which women have been trying to answer since the beginning of time. The solving of the problem was accomplished by a new product called Kotex, which I ask you to try without cost. A free sample will be sent you if you will only mail the coupon to me. This sample is the surest and simplest explanation of what Kotex is and what it will do.

What you will find
That Kotex is a pure, white, light-weight product, with super-absorbent qualities. It instantly absorbs 16 times its own weight, and holds it. It is 5 times more absorbent than ordinary cotton.

Judge for yourself what these qualities mean! No more anxiety or fear of embarrassment. Equally important, Kotex offers dainty immaculateness which delights the fastidious woman. And—ease of disposal which you never before dreamed of!

Simply mail the coupon
To learn all this and much more which I can't explain here, you have only to mail the coupon. The free sample of Kotex, in a perfectly plain package, will come by return mail. With it I will send you a special book, written by a doctor, which explains the health value of Kotex. Since I know from professional as well as personal experience what Kotex will mean to you, I urge you to mail this coupon without delay.

Kotex may be had at all drug and department stores—in two sizes—Kotex regular and Kotex-Super.

TWO HEARD IN BUDGET DEBATE

N. B. Health Act is Commended by St. John Member.

Fredericton, March 28—Samuel B. Hunter (Conservative, York), and Dr. L. M. Curran (Liberal, St. John county) were the speakers on the budget today. They will be followed on Tuesday by Samuel L. Burlock (National Progressive, Carleton) on Tuesday. Mr. Hunter criticized the Government on its financial and road policy and upheld in part the workings of the prohibitory act.

Notices of enquiry were given for Tuesday next as follows:

By Mr. Smith (Albert)—As to the amounts collected by the Health Department from municipalities which had refused to assess and the cost of the proceedings; also as to the number of road engineers employed by the Government, the amount paid them in salaries and what work they performed during the winter months.

By Mr. Dickson—As to expenditures on Linden bridge, parish of Cardwell, Kings county.

Dr. Curran, of St. John.

Mr. Curran extended congratulations to the mover and seconder of the address. Many matters had been discussed during the debate by hon. members opposite, and he (Curran) proposed to begin with the Department of Health. The cost of the Department should be placed in one side and on the other the results which should be achieved. During the year 1923 the Department had cost the province \$70,696, which amount included

Mahaney Quadruplets as They Are Today

After some difficulty the photographer was able to get all four of the Mahaney quadruple babies to refrain from crying so that they could have their pictures taken. The accompanying was the result. From left to right the babies are placed as follows: Edith May, the smallest baby; Edna Louise, Lyda Christine and John Douglas. They are being propped up with the new shawls that were a present on the day on which they were three months old. John Douglas' clenched fists indicate his determination as the only boy of the party, and Lyda Christine being a very sturdy little girl is so bored by this photographic business that she is just taking a bit of a nap. The photograph was taken at the Lugin Studios.

posed to begin with the Department of Health. The cost of the Department should be placed in one side and on the other the results which should be achieved. During the year 1923 the Department had cost the province \$70,696, which amount included

\$16,689 paid to the various hospitals, the laboratory and three district health officers. Hon. members opposite had made the statement that the activities of the Health Department had not resulted in a reduction of the death rate. What were the facts? No vital statistics were available in New Brunswick before the act came into force. The people did not know what the death

rate was, and the old government when in power made no effort to find out. Important Showing. The fact was that since 1920 New Brunswick had the greatest reduction of any province in Canada with the exception of Ontario.

USE SATURDAYS TO BUILD THIS CHURCH

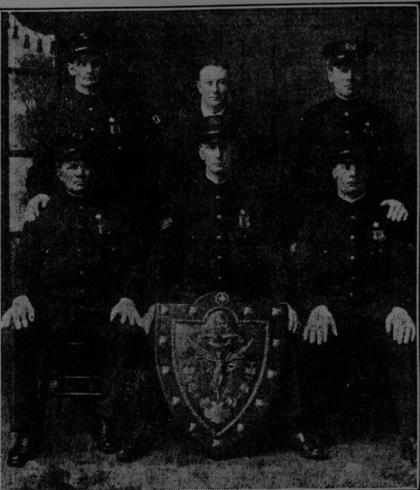

Congregation, Short of Funds, Will Put Manual Labor Into Project.

Methuen, Mass., March 28.—Although communicants of the Marsh Corner community church here haven't any funds for the erection of a new church, the men of the congregation are determined that lack of funds will not result in the congregation's being without a suitable house of worship.

Under the direction and guidance of a contractor, all the men of the congregation will start Saturday afternoon the work of rebuilding the old Marsh Corner schoolhouse, which they have been using for religious worship. The plans for the reconstruction call for the raising of the old building and the installation of a church auditorium on the second floor, and in the basement apartments for Sunday school on Sundays and community activities during the week.

All the paint necessary to finish off the structure and other necessities have been donated, including much field stone from adjoining fields, which will be hauled by the parishioners. The congregation includes 70 men who can be called on for assistance in the work, which, it is expected, will be finished within three months with these men working Saturday afternoons and evenings after daylight saving becomes operative. The Rev. John T. Hooper is pastor of the church.

First Aid Champions

The First Aid team of the St. John Police Force is shown above with the splendid trophy which they won in the recent provincial contest held under the auspices of the St. John Ambulance Association. The shield is to be displayed in a King street window. Col. C. A. Hodgetts, director-general of the St. John Ambulance Association, when he was in St. John, recently to conduct the contests for the Dominion trophies for this year, presented the shield. From left to right, back row, Percy E. Ganter, John Redfern, and Harry B. Young; front row, James R. Corner, Sergeant Stephen Spinney and Robert E. Storey.

First Compounded This Remedy For My Own Neighbors

Their praise of this newer form of iron has spread so rapidly that now, after nine years, over 4,000,000 people use it annually.

Years ago I began to wonder at the great number of my own friends and neighbors who were always ailing, complaining and doctoring, without ever seeming to get any better. Both working men and their wives were frequently all tired out in the evenings, and a great many were weak, nervous and run-down. One had pains in the back and thought he had kidney trouble. Another had pains around the heart, palpitations and dizziness, and was sure he was suffering from heart disease. Still others had severe headaches, floating spots before the eyes, tender spots along the spine and a great variety of alarming symptoms.

For years I made a special study of this condition, consulting a great number of physicians and chemists. An immense number of investigations by physicians all over the country showed that three people out of every four were great lack 100 per cent iron in their blood. Lack of iron in the blood is the most of all debilitating weaknesses. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron, nothing you eat does you any good. Your heart, lungs and kidneys and all your vital organs get their nourishment from the blood stream, and when the blood lacks iron and is thin, pale and watery, you may suffer from the symptoms of a great number of diseases when the real and true cause of all your trouble is a lack of iron in the blood.

In the old days people often took metallic iron, which some physicians claim is not absorbed at all in a compounding Nuxated Iron I use the newer form of iron, which is like iron in your blood and like the iron in spinach, lentils and apples. Unlike the older forms of iron, it will not injure the teeth nor disturb the stomach, and it is ready for almost immediate absorption and assimilation by the blood. It is the people whose blood is deficient in iron who possess great strength, force and energy. If you are not strong or well you owe it to yourself to make the following test.

See how long you can work or how far you can walk without becoming tired. Next take two 5-grain tablets of Nuxated Iron three times a day after meals for two weeks—then test your strength again and see how much you have gained. An astonishing number of nervous, run-down people who were ailing all the while, have greatly improved their health and increased their strength, energy and endurance simply by taking this newer form of iron.

PASTOR WILLING TO REMAIN. Taking advantage of the change in the discipline of the Methodist Church of Canada, Centenary Methodist church unanimously invited Rev. Robert G. Fulton, who completes his first term of four years in 1925, to extend his ministry for four years more after that time expires. Rev. Mr. Fulton accepted, pending formal approval of the N. B. and P. E. I. Conference at its session in June. The committee on ministerial supply was convened by Thomas H. Bullock, who with his committee reported to the joint quarterly and trustee boards, also in session last evening. C. F. Sanford was chairman of the joint boards, acting for the pastor.

MORE JOBS IN GERMANY. Berlin—A notable decrease in unemployment in Germany is reported. A month ago 429,000 unemployed were registered; this being a decrease in one month of 122,000. The number of men working on part time was 401,000, a decrease of 242,000.

MOTHER! VICKS IS THE THING FOR ASTHMA

Ontario Mother Tells of Stubborn Case Relieved.
Mrs. Wilbert E. Collier, of Bowers Street, Picton, Ont., says: "My little girl had a terrible case of asthma. I read about Vicks and sent out for a sample. I rubbed my child's chest and throat with it and put a flannel on Vicks did her so much good that I bought two jars. She now sleeps well, and is a different child. I would not be without Vicks VapoRub in the house."

A good way to get relief from Asthma is to rub Vicks over the spine from shoulders to hips; then melt a little Vicks in a spoon and inhale the healing vapors. Also insert some in the nostrils, snuffing well back. You will be delighted to see how it clears the head.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Treatment with Vicks is especially desirable for children as it avoids so much internal dosing. As good, too, for cuts, burns, bruises, sores and skin itchings.

INTERESTING DISCOVERY IN K. C. HALL

Old Telegraph Blank Recalls First Wire Company in N. B.

RATE COMPARISONS

Sharp Reductions Shown in Many Cases—Old Company Still Exists.

While carrying out some painting and decorating work in the hall of the Knights of Columbus in Coburg street this week, painters unearthed a telegram bearing the date of November 21, 1849, which was received by F. W. Hatheway, who was then owner of the house which the Knights now occupy as their headquarters.

The telegram was from Boston and the lower half of it was as follows: From the office of the New Brunswick Electric Telegraph Co. St. John, 21st Nov., 1849. By Telegram from Boston. For F. W. Hatheway. Engine not arrived from Toronto. Expecting tonight. Advised this morning.

JOHN FERRIS. Rates 75 Years Ago.

In the upper portion of the form is printed a tariff of rates from St. John, which prove very interesting when compared with the present rates, as the following will show: Ten word message from St. John—

Table with 2 columns: Destination and Rate. Includes entries for Sackville, Calais, Halifax, Boston, New York, Washington, Montreal, Quebec, Pittsburgh, St. Catharines, Toronto, Chicago, Savannah, and New Orleans.

Linked Up St. John.

The New Brunswick Electric Telegraph Company was the first organization to connect St. John with the outside world, being formed in St. John late in 1848. The existing telegraph lines in the vicinity of St. John, ending at Calais, Me., on the one side and Calais, N. B., on the other.

In 1847 L. R. Darrow, agent of the Morse patents, started a project to connect the lines of Nova Scotia, which ended at Sackville, to those of Maine, ending at Calais. An act of incorporation was granted by the New Brunswick Legislature for this purpose on March 30, 1848.

In May, 1848, at a meeting of business men in St. John, Mr. Darrow made a proposal for the construction of a line from St. John to Calais, and the stock books were opened for subscriptions but, for some time the project received little or no support.

Later, guarantees of aid, made by the Associated Press of New York, which desired communication with Halifax, were received and by October of the same year sufficient stock was subscribed to induce the organization of a company. During that month the New Brunswick Electric Telegraph Co. was organized and a contract made with Mr. Darrow to construct a line to the Maine boundary.

This line, running from Calais through St. Stephen, St. Andrews and St. George, reached St. John in January, 1849, the same year in which the old telegraph, the subject of this article, was received by Mr. Hatheway.

During the ensuing summer, the line was extended from St. John to Sackville, there connecting with the Nova Scotia lines. This section of the line was opened for traffic in October, 1849, and the following month through connection between Halifax and New York was possible.

A few years later local companies were formed to extend the line from St. John to Fredericton and Woodstock and extensions were also made through the north shore counties by the Montreal and Sackville, where it joined the N. B. and N. S. systems.

These Were Directors.

The first directors of the New Brunswick Electric Telegraph Co. were Francis O. Smith, L. R. Darrow, Robert Jardine, Allison and John Duncan, all of whom are now dead. Mr. Jardine was the first president and he was succeeded by Edward Sears. Others who held the highest office in the company were C. W. Weidon, L. J. Aimon and A. P. Barnhill.

Mr. Barnhill is now president of the company and the other officers are: Vice-president, Frederick Green; secretary-treasurer, D. C. Dawson, who is now in British Columbia, and during

Sound To Have This Soldier Dead

Paris, March 29.—(United Press)—The report of the death of Paul Francois Charles Flour was not only exaggerated, but carried to a disgusting extreme. He has fully refused to write an inscription for the stone marking his grave.

Recently another official letter was received inviting the family to be present at the exhumation of the remains, which were to be reinterred in the Bois de Vincennes.

Once more he wrote that the record of his death was erroneous and that he was another letter asking what inscription was to be put on his grave.

FATHER AND SON BANQUET HELD

Presentation to George Bissett Marks Event in West End.

A father and son banquet was held last night in the Carleton Methodist church under the auspices of the two young men's Bible classes and their teachers, C. B. D'Arcy and LeBaron Stubs.

Miss M. Boatman was the general convener and was assisted by Mrs. A. B. Clark, Mrs. W. D. Williams, Mrs. J. E. McBeath, Mrs. L. W. Stubbs, Mrs. S. G. Hopper, Mrs. F. Blair, Mrs. Bodington and Mrs. S. Nichols. Mrs. C. B. D'Arcy poured the tea and coffee.

A blessing was asked by Rev. F. T. Bertram, the pastor. Harry Willis proposed the toast to the King which was responded to by the singing of God Save the King. The toast to the fathers was proposed by Cecil Ervine and replied to by Fred Henderson. The toast to the church was proposed by Reginald Nichols and responded to by Mr. Stubbs. Lemuel Enoch Thompson presented it on behalf of the officers and teachers of the Sunday school.

Mr. Bissett acknowledged the gift in a pleasing manner. F. J. Punter and Miss Marion Swin gave vocal solos by the singing of a handsome traveling bag. Enoch Thompson presented it on behalf of the officers and teachers of the Sunday school.

Little Heavyweights!

John and Jane Haskin, twin son and daughter of J. P. Haskin and wife of Fort Smith, Ark., weighing 27 pounds when they made their bow to the world. John tipped the scales at 14 lbs, while his sister weighed just a quarter pound less. Scores of curious friends have dropped in to visit them.

HEARS REPORTS ON AMHERST GOES OUT FIVE BUILDINGS FOR INDUSTRIES

Power Commission Looking for Permanent Headquarters.

The Civic Power Commission yesterday voted to transfer to the city account \$2,948.40 to pay the bill of the New Brunswick Electric Power Commission for February. It also decided to defer action on the purchase of a building until the committee had an opportunity to look over other available material and plots.

The chairman reported that it had not been possible to locate a report on the request of the Lancaster residents for a price at which the commission would sell current in the parish but this would be ready for the next meeting.

The committee in charge of looking over suitable buildings for the commission reported that they had looked over the Marcus building in Union street and found it too large; the Sun building, Canterbury street, and found it not suitable, and the Bowes building, Canterbury street, and found it quite suitable for the work of the commission. Mr. Lewis said he had been asked to look at the King square, and the Hunter building, King street.

It was decided to have the committee make a further report at the next meeting.

Approves of Advertising. A report on advertising was received from the secretary, who recommended that space be taken in the Times and Globe. The principle of advertising endorsed by the commission but it was decided not to place any contracts just at present.

A request from Armstrong & Bruce that hydro poles be carried by the rear of the lots in Dufferin and Lansdowne avenues was referred to the engineer for a report.

An offer was received from the Canadian General Electric Company to pay \$400 toward the cost of the installation of the temporary switching equipment at the sub-station as they considered the bill of \$760.24 exorbitant. The engineer reported that the bill rendered was the actual cost of the work and it was decided to inform and endorse by the commission that the commission expected the bill to be paid.

A bill from George E. Holder, Jr., of \$150 for the use of right of way over his property in Cranston avenue was received and ordered returned to Mr. Holder as the commission do not admit any liability.

To Call for Pole Tenders. The recommendation of the engineer that the difference between the 35 per cent paid to E. O. Lister by the Workmen's Compensation Board and his regular salary while off duty on account of injuries received on Jan. 19 be paid was adopted.

The engineer said it had been found that more line material and some 55 and 40 foot poles would be needed and he was given authority to call for tenders.

On motion of Mayor Fisher the sum of \$2,948.40 will be transferred from the account of the commission to account of the city to pay the February bill of the New Brunswick Electric Power Commission for current as per the meter readings.

REPORT ON SUCCESS. The members of Loyalist Temple have been busy all winter raising funds for their work. The ladies formed groups and each worked in his own way to raise the money. At the last meeting of the Temple, held on Thursday night, two of the groups reported on the amount they had raised and handed it over to the treasurer. That led by Mrs. F. B. Brennan reported the sum of \$84 and that led by Mrs. W. Whittaker, \$75. Other groups are still working on and will report later.

Parisian Feared That He Might Be Buried Alive.

Paris, March 28.—(United Press)—Fearing the fate that almost fell to Prince Matsukawa of Japan, that of being buried alive, a resident of the St. Marguerite quarter left written instructions that before his coffin was sealed his throat should be cut. His wish was fulfilled.

The man had been ill and felt that death was near. His end was hastened by his constant fear that he would pass into a state of unconsciousness and be buried before he was actually dead.

The family physician contented himself with cutting the veins in the man's wrist. The widow, however, felt that the wish of her husband had not been fulfilled, so she went to police headquarters to get authorization for the post-mortem operation. A surgeon was called and with a commissioner of police as witness the operation was performed.

Discussion in medical circles on the uncertainty when death takes place has brought out several opinions that the ordinary methods of ascertaining death may fail in extraordinary cases, when only decomposition can be positive.

Physicians say the simplest method, and the most practically certain, is to prick the skin with a needle. If the patient is alive the hole will close and become imperceptible, but if dead it will remain quite visible.

G. H. KING, M. L. A., IS BACK FROM COAST

G. H. King, M.L.A. of Chipman, and Mrs. King arrived in the city yesterday after a four months' pleasure trip to Los Angeles and other points on the Pacific Coast. Because of a slight indisposition Mr. King was constrained to make the trip, but returns fully recuperated and ready to tackle the work of the Legislature. He will make his first appearance in the House on Tuesday. They were accompanied on their trip by their daughter, Miss Vera King, Miss King remained in Ottawa, the guest of her uncle, Hon. Dr. J. H. King, Minister of Public Works.

ANTI-CHURCH UNION PROTESTS FROM N. B.

Ottawa, March 28.—Petitions against the passing of the Church Union bill, from St. Paul's Presbyterian church, Fredericton, and from St. Andrew's church, St. John, were tabled in the House of Commons this afternoon, by R. B. Hanson (Conservative, Yorkton), and Dr. Murray MacLaren (Conservative, St. John-Albert).

The Nova Scotia Hardwood Products Ltd. of Southampton, have been considering expansion, and there is a possibility that this growing concern will come to Amherst. Hardwood products, Ltd., are controlled for the most part by Amherst business men, over the past two years have been operating in the centre of the old city.

A wide opportunity for expansion offered this concern, considerable is being given certain factory sites in Amherst. A committee was organized by Blair McLaughlin and H. N. Stevens to meet with the officials of the Nova Scotia Hardwood Products Co. This concern manufactures pick handles, axe handles, tool handles, etc., and sells approximately fifty per cent of their output in the wood products plant, with about 20 men in the woods. Gase, well known in Amherst, but now residing at Inverness, Ont., Mr. Blair, who has been in the Ontario establishment since 1902, recently the Board of Trade, expressed the opinion that Mr. Gase might possibly be induced to rebuild his mills in Amherst. No definite action was taken regarding the Amherst Woolen Mills. Mr. Blair, former manager of this concern, stated that the Stanfields were through with the business, but that other parties had interested themselves in the matter—Amherst business men—and that a report could be made within the next few weeks.

Expression of appreciation of the assistance rendered in the recent campaign by The Times was voiced at the last meeting of the directors and the following letter has been received from the general secretary: 'At a meeting of the board of directors of the Y. M. C. A., it was felt that we should express to you our very sincere appreciation for your assistance in our recent financial campaign. Without the aid of the daily press, it would be impossible for us to convey to the constituency the needs of the association at a time such as this. We thank you for your help, which has been given so freely and willingly.'

Leviathan Made Loss of \$70,897

Washington, March 28.—The eight voyages of the Leviathan, queen of the Shipping Board fleet, beginning last July, ended at a net loss of \$70,897.77, exclusive of the cost of repairing the ship's recent mishaps. The figures are disclosed by the Shipping Board.

Admiral Palmer's itemized statement for the eight voyages shows: First voyage, profits of \$104,000; second, profit of \$51,000; third, profit of \$138,000; fourth, loss of \$6,000; fifth, in September, loss of \$5,000; sixth, loss of \$6,000; seventh, loss of \$174,000, and eighth, loss of \$154,000.

LAW SCHOOL YEAR IS NEARING AN END

Another trial case was heard yesterday afternoon in A. N. Carter's class on sales, in the local law school. The subject under discussion was the capacity of a married woman to pledge the credit of her husband. Percy J. Steel and R. W. Seely argued for the plaintiff, contending that the wife, in this particular case before the court, had power to pledge the credit of her husband despite the fact that she was given a weekly allowance. J. F. Nicholson and William C. Curry argued contra. Miss Margaret Teed and R. H. Moore acted as judges, along with Mr. Carter. The court reserved judgment.

Classes at the law school are gradually coming to an end. The local faculty met this week and arranged the dates for the examinations, which will commence on April 15. All examinations must be concluded by the end of that month.

Dr. W. B. Wallace, K. C., concluded his lectures on Crown Practice last night. Several of the other lecturers have but one more class and their term work will be completed.

ASK CHURCH UNION SUPPORT.

A resolution on church union was passed by a joint meeting of the Federated House and Senate at Ottawa yesterday after a four months' pleasure trip to Los Angeles and other points on the Pacific Coast.

Friends gathered last evening at the home of Mrs. Bayard Colwell, 219 Newman street, in honor of her sister, Miss Olive Neal, who is soon to enter the Evangeline Hospital for training. During the evening the guest of honor was made recipient of a well filled purse. The presentation was made by S. V. Linton.

NEW PORT PASSENGER AGENT.

Announcement was made at Canadian Pacific headquarters in Montreal yesterday of the appointment of A. M. Douglas as port passenger agent, rail traffic, with offices at Quebec and St. John, N. B., effective March 31.

A new discovery!

During the year there was laid 9,898 feet of new water mains at a cost of \$84,077.12 and 2,180 feet of main sewers at a cost of \$11,222.52. The total cost of the department were \$271,470.10 and the expenditure \$282,610.63 leaving a balance of \$38,859.48. From this was taken \$29,929.37 for sewerage hydrants, leaving a net balance of \$14,886.11 which was placed in general revenue.

The water assessment for the year was \$187,378 and of this amount there was paid in \$160,192.11, the balance amounted to \$8,785.95 leaving \$18,400.94 unpaid.

As in 1922, less than ten per cent of this year's assessment was unpaid at the close of the year.

Total Receipts. Receipts from arrears of previous assessments amounted to \$16,618.74 making the total receipts from water assessment \$176,810.85 an increase of \$6,419.95 over 1922.

In 1917 the rates on valuation of real estate were reduced from 25 cents per one hundred dollars valuation to 20 cents and on stock etc. from 40 cents to 30 cents. It is interesting to note in this connection that the average water assessment for the seven years prior to 1917 was \$15,489 while the average for the seven years since 1917, deducting the cash discount which has been allowed since that year and had amounted to \$89,768, has averaged \$160,529 an increase of \$6,040 a year. Divided among the 12,000 families supplied, this increase would amount to 50 cents a family per year. Had the same rates prevailed in the last seven years as did in the former seven years the average assessment would have been \$81,228 greater. Deducting the increase of \$6,040 the average yearly saving to the property owners has been \$25,200 or a total of \$177,000 in seven years.

Pipes 24 Miles Long. Including leading and distribution mains there are 24 miles of pipe on both sides of the harbor. The East Side leading mains consist of— 6.815 feet 48 inch reinforced concrete conduit. 2,066 feet 48 inch reinforced concrete pipe. 5,880 feet 24 inch reinforced concrete conduit. 9,880 feet 24 inch wood stave pipe. 1,404 feet 24 inch cast iron pipe. 42,291 feet 34 inch cast iron pipe. 22,880 feet 12 inch cast iron pipe. 3 OF MAYORALTY CANDIDATES HEARD

McLellan, Potts and McAvity Address Meeting in Pythian Castle.

R. A. McAvity, H. R. McLellan and F. L. Potts, candidates for the Mayorship, were given 20 minutes apiece to expound their platforms to an audience of 750 people at Pythian Castle last night at a meeting held under the auspices of the Civic Progress Party. The speakers came in themselves to the allotted time with the exception of Mr. Potts, who seemed eager to talk more and from whom the audience appeared to be desirous of hearing more, but after a run-in with the chairman, Herbert Phillips, who cast the deciding vote as to time allotment, he apologized and remained a listener until the conclusion of the meeting.

Mayor Fisher, a candidate for reelection, was not present, although invited. The candidates for the Mayorship exhausted their time about 9:20 o'clock, when the chairman called on R. G. McInerney, a candidate for the commission under the banner of the Civic Progress Party, to speak on the ideals of the party. At the conclusion of Mr. McInerney's address, Mr. Phillips also spoke.

Each speaker was given a hearty reception. Party Plan Outlined.

Herbert Phillips occupied the chair. In opening he outlined the purpose of the Civic Progress Party. It came into being, he said, because of participation in civic affairs by young men. It had its origin in the hydro question and to the fulfillment of the hydro policy it was pledged.

Mayor Fisher, he said, had been invited and because he was not at the meeting it was to be presumed that he had nothing to say.

H. R. McLellan.

In opening, H. R. McLellan thanked the hosts of the evening for inviting him to the meeting.

The first plank of his platform, he said, was to present to the Legislature a bill authorizing the election of representatives from each ward or district to City Hall.

He said he would not support the giving to any one man full authority as city manager. He said that a change might probably take place in June. There would be a plebiscite, he said, to test public opinion on this question. He said he was not seeking the change because he wanted to be elected. The commission form, he said, instead of being economical, had proved the reverse. One claim against the aldermanic system was that there was too much log rolling, but the commission form of administration offered many more opportunities. He knew what he was talking about, he said, because he had practiced it himself.

There should be a limit placed on bond issues, he said, but it should be a reasonable one.

Say Tax Rate Booster.

Dealing with the cost of the commission form of civic administration, he said that the assessment from 1903 to 1912 increased \$216,962. From 1913 to 1922, under the commission form, it increased \$1,061,041. Valuations increased between 1903 and 1912 from \$22,742,500 to \$30,624,800. Under commission from 1913-1922 it increased from \$30,624,800 to \$84,079,900. The tax rate, he said, increased from \$1.62 in 1903 to \$1.96 in 1912 and under commission from \$1.96 to \$2.98.

Equality, certainty, convenience and economy were the four principles of taxation laid down by Adam Smith, he said. With these in mind he had come to the conclusion that it was quite within range of reason to provide for these principles in the problems of taxation here. He would exempt income taxes up to \$1,000 with payment of poll tax. He would have a quarterly payment scheme for taxes. One payment, he said, would qualify a person to vote. This was not possible without the sanction of the people of the city, however.

He would support the restoration of the Court House, he said, but not expenditures for a great Municipal Building. There should be a new harbor policy.

Lastly, he said, he believed in the education of youth in respect would support the building of an athletic where their athletes might be developed. Someone asked "How about ro?" Mr. McLellan answered: "ro is dead and I died with it."

Potts.

Several years ago, Mr. Potts said, he had worked out a system of flat rate of taxation. He had not studied any of the great authorities but depended on his own intelligence to work out the problems of the city.

"Get the system and I'll back it up," he said. The commission form of government did not give fair representation of the people in the city, he said, and he advocated a change.

For two years, he said, he fought the street railway; he beat them, but the people beat him, because he would not pay for the foundation for the street railway when paying street cars for two years, he said, he saved the people more money than had been saved to them since.

A man had not a chance in this town, he said, at present, with the existing system of assessment and taxation.

In the years he was at City Hall, he said, he had not been able to put through a bond issue, so that nothing of that sort could be charged against him.

Wants Improvements Tax Exempt.

The position in St. John today, he said, was such that every firm was having the struggle of its life to pay its overhead and wages. "Is the city of St. John prosperous?" he asked. "If you sold the assets out today you couldn't get 75 cents on the dollar for them," was his assertion.

The main thing for which he was striving, he said, was on exception from taxes for five years on all improvements. He said how a \$1,000 improvement on a house today meant a tax bill \$30 higher the following year. If a few patriotic citizens would dig down and put a few dollars into the dying industries in the city today these would be saved, he said. He added that it was hard to make them see the light.

"The power of light is what we want," he said.

"Did it ever occur to you," he asked, "that you would have to pay for light if you use it or not?" He wanted light at cost, but at the lowest cost. If City Hall was going to spend the money let them be responsible them," he added.

When his time was up the chairman and Mr. Potts had a little tussle. Mr. Potts wanted to speak but his time was up and he subsided at the pressure of the chair.

R. A. McAvity.

In opening Mr. McAvity said that they were not advocating the spending of money on works which were not immediately necessary. Every year that necessary work was put off it would cost the citizens more. Every man in the city would be benefited by the money which would thus be put into circulation through the development of public works as advocated in their policy.

"No one man is competent to say just what kind of civic government should obtain in the city," he said. He added that it was up to organizations of citizens to name a system and his party would adopt it.

The flat tax rate argument of Mr. Potts, he countered by reading the opinions of commissioners of cities in the west, where it had failed, he said. He also treated the proposition of exemption of improvements in the same way. He treated of the question of investigations into the working of the different departments of city hall and making recommendations to the commission, which he pledged himself to carry out.

The harbor, he said, was the city's greatest asset and business should be sought to develop it. "You hear," he said, "of many shipments through this port by the C. P. R. and so little by the C. N. R. The city should get down to business and get business for the C. N. R. and thus develop this port on its own merits."

The chairman explained that as it was early and Mr. Fisher had not put in an appearance, he would ask R. G. McInerney to explain the objects and ideals of the Civic Progress Party.

Ralph McInerney.

Ralph G. McInerney, candidate for commissioner, dealt with the accusation which had been levelled against the Civic Progress party, that their policy was extravagant, in that they proposed to spend \$2,000,000 for needed civic improvements. Retrenchment was alright, he said, where circumstances warrant retrenchment, but where the reverse conditions existed, retrenchments was false economy. He dealt with the fact that many St. John families had moved from the city to the United States, taking with them the average of \$1,000 a year which they would spend in the city. Their taxes, he said, in the ordinary course of things, fell on the shoulders of those who remained behind.

The Progress party's policy had its

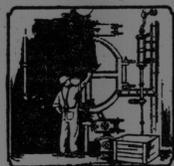

Maintenance Pays! Home, Factory, Farm Building or Garage

An occasional coating of Barrett Liquid Elastium adds years of service to "rubber" or other prepared roofings.

Wherever a waterproof patch is needed, there is nothing so satisfactory as Plastic Elastium.

Everjet Paint prevents rust, has large covering power and is inexpensive.

PERHAPS you have a roof that needs a slight repair—perhaps machinery or other equipment is beginning to rust. A few dollars invested now in property maintenance may save you a good stiff bill later.

Which of these Barrett Money Savers can help you the most?

Barrett Liquid Elastium is a cement in liquid form, composed of time-tested waterproofing materials and asbestos fibres. It is unequalled for keeping the surface of prepared and "rubber" roofing in water-tight condition, and it is low in cost.

Barrett Plastic Elastium—"the waterproof cement of a hundred uses"—stops roof leaks, repairs flashings, gutters, cisterns, etc. It is acid-proof, waterproof, sticks tenaciously to wet or dry surfaces. Low in price, comes ready for use.

Everjet Elastic Carbon Paint is a glossy, black paint for all metal or wood surfaces. It has scores of uses—for metal roofs, smoke stacks, boilers and radiators, furnaces and registers, machinery, water tanks (inside and outside); fence posts and fencing, farm implements, etc., etc. It prevents rust, has large covering power and is very durable as well as inexpensive.

foundation in the hope of keeping the citizens of St. John in the city, and instead of making the departing ones a liability, to make their staying at home an asset. What was the reason, he asked, that six stores were closed on King street? The explanation was to be found in the migration of the citizens from the city. He dealt with other planks of the Civic Progress Party's platform, as had been outlined by Mr. McAvity.

Herbert Phillips.

Herbert Phillips, also a candidate for a commissionership, outlined events which led up to the formation of the Civic Progress Party. St. John was stagnating, he said, but at that it was not nearly as bad as it had been painted by one of the speakers. St. John, he said, needed young blood, young men and fresh minds at the helm.

Dealing with the necessary bond issue required to finance the civic improvement policy adopted by the party, he said that a few days ago a gentleman had come into his office and announced that a disgraceful state of affairs existed in St. John. He had asked what the gentleman referred to, and the answer he received was that the city was indebted only to the extent of \$9,000,000. He had agreed with the

gentleman, it was a disgraceful condition for a city the size of St. John and having the facilities which St. John offers for development of trade and industry inside its border, to be in that state. He touched on the hydro question, affirming the policy of the Progress Party to stand by the hydro guns, and work them to the limit, and also treated with the other planks of the platform briefly.

Don't Pay \$1,400 or More
for a car, without knowing what the leader offers in the fine-car field

WE made a canvass of many who bought rivals of Studebakers. We said, "Tell us the majority said, 'We did not even look at the Studebaker.' Most of them bought new models of the car they owned before."

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world. Last year 145,167 fine-car buyers paid \$201,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

See the Studebakers

Studebaker builds more fine cars than any other plant in the world. Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. It is folly to buy a car in this class without knowing what we give.

These are facts you should know. They are inducing 150,000 per year to choose Studebaker cars. Some sell under \$1,500. Some meet every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

A Clear-Cut Statement of Automobile Manufacturing and Selling Policies by the New Management of Gray-Dort Motors Limited

THE men now in control of Gray-Dort Motors Limited have established as the basis of their operation of the business those fundamentals without which no business can enjoy lasting success.

Every new automobile bearing the Gray-Dort name must give the utmost dollar-for-dollar value which honest, efficient manufacturing makes possible.

Every part used in the building of a Gray-Dort car must pass the most rigid inspection for quality and fine workmanship.

Careless work and careless inspection will not be tolerated for one moment.

Every Gray-Dort must be a rugged, smooth-working automobile, ready for long, satisfactory service when it leaves the plant.

Every Gray-Dort dealer must have the full co-operation of Gray-Dort Motors Limited in making his business successful.

Every Gray-Dort owner must be able to look to us as long as he is driving a Gray-Dort car for anything necessary to make the operation of his car completely satisfactory to him.

The Gray-Dort of today is a real quality automobile. Correct in engineering design. The motors in both four and six-cylinder models take second place to none in their classes. The chassis is strong, honest and carefully built. The bodies have a European touch of beauty found only in cars much higher in price.

Recent improvements include a new and efficient disc clutch and a new type rear axle.

This new Gray-Dort clutch insures smooth and effortless driving.

The new axle has withstood the most severe tests and has been proven to have a margin of excess strength sufficient to positively insure against rear axle trouble of any kind.

And because the Gray-Dort is practically produced entirely in Canada, the prices are the lowest at which automobiles of such quality have ever been sold.

Automobile Dealers
We will be glad to hear from automobile dealers in territories where the Gray-Dort franchise is open, who believe with us that a sincere effort to give hearing value in the car and in service will insure a big volume of sales this year and in the future.

Americans to be Guests of British and Canadian Bar Societies

London, March 28—The Daily Telegraph says it is now possible to indicate generally and with some precision the character and scope of the entertainment to be provided for the members of the American Bar Association who are to visit this country in July. As already stated, they are to be the guests of the Bar of England, with the Canadian Bar Association as joint hosts, and while here they will hold some part of their annual conference in a large hall, not yet definitely chosen. The Americans are expected to number about 800, and the Canadians 200, each party being accompanied by ladies.

The Americans have booked passage on the Cunarder Berengaria, which sails from New York, July 12, and should reach Southampton July 19, and the Canadians are to make the trip on the Canadian Pacific liner Montaurier, which leaves Quebec, July 8, the last day of the annual convention they are to hold in Quebec.

Much Entertainment Planned. Originally it was intended that the official visit should cover the week beginning on July 19, and ending on July 26, but so many offers of hospitality and entertainment have been received that this period may possibly be extended. In any event, there will be entertainment, official and unofficial, to fill up dates until the end of July, and probably into August.

Difficult as is the work of arranging for such an important and unique event, the home committee, aided by their zealous honorary secretary, Mr. J. Leonard Crouch, are gradually evolving a definite programme. And in furtherance of this task they will soon have the assistance of Mr. W. Thomas Kemp, secretary of the American Bar Association, and the secretary of the Canadian Bar Association, both of whom are due to arrive in April.

Banquets Expected. In the week commencing July 21 there will be a banquet, it is hoped, at each of the Inns of Court, and convenience may require some of these to take place on the same day. On the Wednesday (July 23), if present arrangements remain good, the visitors will be entertained at Guild hall by the Lord Mayor and City Corporation, on the lines of the Lord Mayor's Day function. To this affair 630 invitations will be issued to the visitors, 100 to eminent legal men in this country, and 100 to members of the Corporation as hosts.

In sentimental associations, however, if not also in size, the biggest function will be a banquet in Westminster hall on Friday, July 25. This venerable building was in very recent days the seat of the administration of justice in this land, and it is therefore a meeting place of peculiar interest to legal men, and particularly to Americans, whose fondness for historical associations is proverbial. The guests will number about 1,200. During this week, also, it is hoped there will be a garden party at Buckingham Palace. The subsequent functions are in course of final arrangement.

Attracts Wide Interest. There is to be a reception at the Imperial Institute in connection with the London University on Thursday, July

VISIT OF KING HERE RECALLED BY CARS

Private Ones Which Brought Lady Byng Used by Their Majesties

The private cars Cornwall and York, in which Lady Byng, wife of the Governor-General of Canada, traveled to St. John yesterday to embark for England, were taken back to Ottawa yesterday afternoon attached to the C. P. R. train. The cars were built about 20 years ago for the special accommodation of the Duke and Duchess of York, at present Their Majesties King George and Queen Mary, on their tour of Canada. Since that time they have been placed at the disposal of the Governor-General of Canada, and travel over any line of railway in Canada free.

The arrival of the cars yesterday caused old memories to spring up anew in the minds of many citizens. On their tour of Canada the Duke and Duchess of York traveled in a special train of seven cars. In order not to have to

break the train, and thus possibly disarrange something, a Y was built at a considerable distance out of the present Island yard, and the train turned there on blue.

There was a real train shed attached to the Union depot at the time. The interior was beautifully decorated with bunting and flags, and on the floor of the shed a carpet had been laid. The station was a blaze of lights, so much so, as one gentleman explained to the reporter as they together inspected the cars at the station yesterday, that a person at the foot of Portland could read a newspaper without trouble in the brilliant illumination.

DOUCET OF KENT MONTREAL SPEAKS

Montreal, March 28.—The victory in Kent was a tribute to the soundness of mind of the electorate of that country against the campaign of prejudice and racial appeal that was made, declared A. J. Doucet, the Conservative victor in the by-election in Kent county.

N. B., last December, in speaking at the Cartier-Macdonald club here tonight.

It was true, said Mr. Doucet, that Hon. Mr. Carlin might have gained his portfolio in that battle of Kent, but the main reason for his appointment appeared to him to be that the Government feared to replace Sir Lomer Gouin, and it was evident that what had happened in Kent, would happen

in the Island of Montreal, and what would happen today in 29 out of the 81 constituencies of the Maritime Provinces.

GETTING VESSEL READY.

Captain Crabbe, of the steamer Majestic, arrived in the city on Thursday from his home in Gagetown to get the steamer ready for the opening of navigation on the St. John river.

31. One or two of the city companies—the Grocers' and the Solicitors—have offered hospitality; invitations have been received from Oxford and Cambridge, Lord Astor, and others to private functions, and one or two golf clubs are throwing open their links to the visitors. It will thus be seen that this visit is attracting very wide interest, and is being managed on a scale and with a generosity befitting its importance.

EXPECTS 300 AT CONVENTION. Word was received here yesterday that Lieut.-Governor Todd would be present at and officially open the Canadian Good Roads' Association convention to be held at the Hotel Algonquin, in St. Andrews, from June 24 to 27. J. C. Berrie, secretary of the New Brunswick Automobile Association, said yesterday that he fully expected 300 to be present. A delegation of 15 from Prince Edward Island was assured, and from Halifax the number would be about 40. Quebec, he said, would be represented by from 30 to 40, and as the convention was to draw delegates from all over Canada and from parts of the United States, there was no doubt but that the 300 mark would be reached if not surpassed.

SKIPPER SAVES LIFE OF MAN OVERBOARD

Holds Man Half an Hour by Rope Until Help Arrives

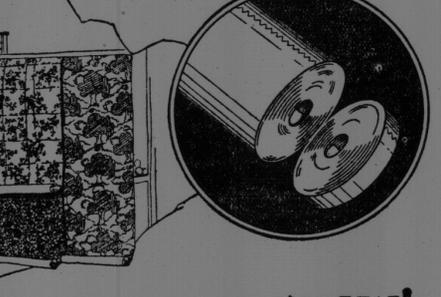

The prompt action and endurance of Captain Finley, of the steamer Fanad Head, saved the life of a sailor who had fallen into the water through the overturning of a wooden gangplank. For half an hour the captain, who is a man of lighter build, held the sailor at a rope's end above the water of the rising tide until help came. The accident, which happened at the St. John dry dock on March 25, was first reported last night.

Two officers of the Fanad Head, with two of their friends, were returning to their ship which was unloading at the St. John dry dock when they were startled to hear cries of "Help" coming from the wharf. To their amazement they found Captain Finley hanging tightly to a rope to the other end of which a member of his crew was clinging. They helped get the man back on the ship.

The sailor had been thrown into the water by the overturning of a wooden gangway and the captain's presence of mind had been the means of saving his life. Quick as the accident occurred, Captain Finley cut the guard ropes from the overturned gangway and lowered the rope to the man's assistance.

Captain Finley was suffering slightly from strain from holding on to the man for such a long time but he has now fully recovered. The man was little the worse for his experience in the water.

BACK ACHED TERRIBLY Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for run-down condition after the birth of my baby boy. I had terrible pains and was tired and weak, not able to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has formerly fifty years been restoring sick, ailing women to health and strength. It is shown again and again by the letters that I have had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

SAYS BERLENBACH WILL COME BACK

Shown Games But Lost to Delancy by Lack of Experience.

(By Henry L. Farrell.)
New York, March 29.—(United Press)—When young Paul Berlenbach was stopped by Jack Delancy it was generally accepted as the bursting of the season's best bubble. It was suggested by some that it wasn't even a good bubble.

The fact that Delancy is one of the best middleweights in the game and that Berlenbach had only had ten professional fights seems to have been forgotten in the obits that were handed out when the former wrestler was defeated.

Why it was that the young fighter, with only ten fights on him, had to meet the second or third best middleweight in the country certainly was overlooked when Berlenbach was being ragged as the busted bubble.

Berlenbach was forced into a fight that he was at least a year away from, because the New York Boxing Commission would not find authority for it some place, the commission took upon itself the right to name the fighters that Berlenbach could meet. It went further and announced that Berlenbach could not fight any opponent unless that opponent weighed within two pounds of his own weight.

Panned for picking steps, criticized in the press and demoralized by the boxing commission, Dan Hickey had nothing left to do but to sign with the fighter that he thought the least dangerous of the first-class middleweights.

Delancy had a good name. If Berlenbach beat him, it would silence the wolves that were howling at the door. Delancy was known to have a bad right hand, and he was never said to have been a great boxer. It was said that he had a glass jaw and couldn't take it. He looked like the easiest of the good fighters.

It turned out that an awful mistake had been made in appraising Delancy. He was, perhaps, the hardest test that could have been subjected to the youngster—a fast, skilled boxer with a punch. Harry Greb would have been easier. Jock Malone or Johnny Wilson would have been no more dangerous. None of them combined what Delancy had that night.

Berlenbach lost his fight because he did not know what to do when he was winning in the second round, and because he did know what to do for himself when he was hurt in the third round.

He showed his gameness by taking severe beating and he showed some class by the way he broke through the clever guard of Delancy in the second round. His defeat was no bursting of a bubble. If he so wishes he can yet

Recruit Hits Dirt In Typical Cobb Style

DICK LOFTUS HITTING THE DIRT
The Brooklyn Dodgers are again using the sand sliding pits to perfect play in the base running end of the game. For several years little attention has been paid to base running, because of the lively ball. In the picture, Dick Loftus is shown hitting the dirt in typical Cobb fashion.

go a long way in the fight game. It is not impossible for him to turn out to be just what was expected when he started.

He says he is not through with the fight game, that he is going to start over and start the right way. As has been pointed out before, Berlenbach would have done much better if he had been born in the middle west and had started fighting away from the big leagues. One year in the bushes would have given him the experience that he so sadly lacked. He would not have been forced into any matches far above his head. He could have been brought along slowly and would not have been

bothered with noisy boxing commissioners, a critical press or a pack of fans that shout always in New York for some kind of a scalp.

Hickey can save Berlenbach yet by "farming" him out for a year. All the boy needs is experience, and there is only one way to get it in the fight business. He has a deadly punch, he is game, he is strong and he is willing. All he needs is training and experience. He will have to get away from New York for that.

Advising Berlenbach to get away from New York does not mean that the fight fans in the "country" will stand for anything, but they are more far than they are in New York. The baseball fan in New York is the fairest specimen in the country, but the New York fight fan is positively the meanest and the most unfair. No other city in the world could produce the type of "citizen" that harked the naziery at poor Eugene Crikqui, the war-torn French featherweight, when he was defending his title against Johnny Dundee.

Berlenbach might get a lot of good out of that beating. It certainly did not ruin him. Dempsey was beaten several times when he was starting, and it didn't hurt him. Berlenbach's defeat showed that he was not invincible, and perhaps he will be allowed to fight now, the way that his smart old manager, Dan Hickey, picks out for him.

Dan knew the kind to pick before. He was razzed when he was saying that the second-raters knew too much for his pupil. He wanted him to get experience above everything else, and he was doing it very well when the boxing commission stepped in and said that he couldn't have the right to learn that it is granted to a beginner in every line of sport.

Berlenbach says, in another year he'll beat Delancy, and if he stays in the business there are a whole bunch more that he will beat in another year.

A MILLION DOLLAR STADIUM

Plans to launch a campaign for funds to erect a \$1,000,000 athletic stadium in Cleveland were under way Tuesday as a result of a meeting of officers of the Big Ten University Club Monday night with a group of representative citizens at the club's headquarters, says the Cleveland Press.

Two committees and a board of trustees were appointed. Every high school graduate and organization in the city will be solicited and a stadium trust fund established, according to plans. It is proposed that the stadium be built at University School, E. 71st street and Hough avenue, or on city property at the lake front.

The stadium committee has \$3,000 on hand for the fund.

WIN TUXIS CHAMPIONSHIP

Halifax, N. S., March 29.—Fort Massey church team captured the Nova Scotia Junior Tuxis basketball championship by defeating St. Andrew's church team by a score of 61 to 29 here last night.

LOCAL AMATEURS TALK OVER PLANS

Decide to Form Senior City League—Meeting Favors Maritime Association.

The first step towards organizing a City Amateur Baseball League was taken last evening when a meeting was held to decide on plans for the coming season.

The clubs now holding franchises in the league, namely, Trojans, St. Rose's, East St. John Clippers, Garrison and Loyals, were represented at last night's meeting by the following: Trojans, W. R. Golding; Clippers, W. Hazelwood and M. Sterling; Garrison, Y. Markham; Loyals, James Christie; St. Rose's, J. Fitzgerald and P. J. McMurray. Frank White, president of the league, presided, and Ken Nelson, secretary, and A. W. Covey, president of the M. P. B. A. U. of C. also attended. A welcome visitor was A. C. Millie, of Halifax, vice-president of the M. P. B.

After an explanation of the aims and objects, the league endorsed the move to form a Maritime Amateur Baseball Association and will join the new league if it materializes at the semi-annual meeting of the M. P. B. at Truro on April 3. Until after that meeting, no schedule will be drawn up or officers for the ensuing year elected, it was decided. It was also decided that at the next meeting of the league, the various managers must report their home grounds. Some discussion arose regarding the schedule, and it was pointed out that in order to make the schedule must wind up on or before August 1.

LEWIS PUTS ONE OVER ON MANAGER

World's Champion Wrestler Signs Contract on His Own Behalf.

Chicago, March 29.—Ed ("Strangler") Lewis, world's heavyweight wrestling champion, married Miss Jessie McNear, of Kansas City, Mo., here recently. Billy Sandow, Lewis' manager, to whom the wrestler is under contract, was not invited to the ceremony, which was performed by Dr. Fred Stone at the First Methodist Temple in the rear of the Loop.

After the ceremony Mr. and Mrs. Lewis returned to their hotel, leaving a trail of shoes and race. Sandow, who had been threatening to break down the door of his room if he was not released, was then freed.

"It's the first time Ed ever double-crossed me," he shouted angrily as he emerged from the room where Lewis' friends had held him.

Among the wedding gifts to Mrs. Lewis was the belt set with twenty-one diamonds, emblematic of the world's championship, which Sandow's brother gave the bride. The bride and bridegroom left for Wichita, Kan.

Sandow is said to have prevented Lewis' marriage last year to a Russian princess, whom the champion met in Paris. Miss McNear met Lewis in Kansas City, where he staged many of his important matches. The champion, who is about thirty-five years old, once married a San Jose woman physician, from whom he is divorced.

HONORS EVEN

St. Paul's church girls' team defeated the Central Baptist girls last evening, 6 to 4, and Central Baptist juniors defeated St. Paul's boys, 29 to 12. Both games were very interesting. This is the second game for the St. Paul's girls' basketball team.

The line-ups were: St. Paul's girls—Forwards, G. Allen and D. Lyons; centre, H. Collins; defence, W. Woodley and K. Woodley. Central Baptist—Forwards, H. Rolston and L. Cunningham; centre, L. Kelly; defence, A. Vail and M. Rolston.

St. Paul's boys—Forwards, H. Hallett and A. Peters; centre, R. White; defence, The Williams and K. Steele. Central Baptist—Forwards, Scapion and McLeod; centre, R. Smith; forwards, M. Prebble and D. Keith.

AMAZONS WIN

The Fairville Amazons defeated St. David's girls' team last evening on the floor of the Extension Methodist gym, 14 to 12. At the end of full time, the score was tied and overtime was necessary to reach a decision. The Amazons expect to play in Moncton next week. The line-ups last night were: Amazons—Forwards, F. E. Shaw (8) and F. McColgan (6); centre, C. A. McColgan; defence, D. Kelly and D. McColgan.

St. David's—Forwards, L. Malcolm (2) and W. Woodley (8); centre, R. Clark; defence, M. Clark (2) and Malcolm. John Withers refereed.

FINAL GAME TONIGHT

The final game of the Soo Greyhounds-Selkirk series for the Allan Cup will be played this evening at Toronto. The Soo has a four-goal lead and the favored to win.

BUSHIE GRAHAM WINS FROM ASH

Winner is in Line for Bout With Pancho Villa.

Syracuse, N. Y., March 29.—Bushie Graham of Utica, N. Y., decisively defeated Frankie Ash, lightweight champion of England, in the main six-round bout here last night. Graham scored five knockdowns. Ash weighed 115 and Ash 113 pounds. A championship bout with Pancho Villa, world's flyweight champion, was said to be at stake.

PITTSBURG LEADS IN TITLE SERIES

Will Enter Third Game With a Two Point Lead.

Boston, March 29.—Pittsburg hockey club, champion of the western wheel of the U. S. A. H. A., will enter the third game of the six-game series for the national title here tonight, holding a two-point lead in games over the Boston A. C., eastern champions. Pittsburg won the second game of the series 1-0 here last night on the strength of Captain Coscher's lone goal scored in the second period. Three games will be played in Pittsburg next week.

COMPLETE TRAINING TODAY

New York, March 29.—Mike McTigue, world's light-heavyweight champion, and his youthful challenger, Young Stribling, Georgia school boy, completed their training grid today in preparation for the 12-round bout scheduled for Newark on Monday night.

CANADIAN SOCCER TOUR TO ORIENT

All Arrangements are Complete—Players Leave April 3.

Winnipeg, March 28.—All arrangements have been completed for the Australian tour of the Canadian soccer team during the months of May, June and July. It was announced by Sam Davidson, secretary of the Dominion Football Association, here today.

There is only one change from the original players selected. H. McDonald of Hamilton being unable to make the trip owing to business reasons, his place has been taken by H. Chapman of Ladysmith, B. C.

Montreal and Toronto players will leave for Vancouver on April 3, and will be joined en route west by the various players selected from western points, arriving at the coast on April 8 to 10. Victoria, July 11 to 29; South Australia; West Australia, to July 19; Adelaide, to July 26; July 30, Sydney.

On July 31 the team will sail for Vancouver, reaching there August 22. The moon's orbit around the earth in the form of a serpentine curve.

SAYS FIGHT MUST GO TO DECISION

Boxing Commissioner Acts on Carpenter—Gibbons Match.

Detroit, Mich., March 29.—(United Press)—If the Carpenter-Gibbons bout is staged at Benton Harbor, Mich., it will have to go 10 rounds to a decision, State Boxing Commissioner Louis W. Piles has indicated.

No application for permission to hold the bout at the stronghold of the House of David has yet been received, Piles said, but Promoter Floyd Fitzsimmons still plans to have it either there or on which site seems to be the safer and more auspicious.

Piles also intimated the belief that Carpenter should "show something" before taking on a man of Gibbons' prowess.

"I must be shown that any bout to be held in this State is on the square and not a set-up," Piles said. "Each man must have an equal chance and show he is deserving before being given a license."

"The law permits me to make the price as much as I feel the bout is worth. It's up to the promoters to show me."

MALONE KNOCKS OUT ROLAND TODD

Middleweight Champion of Europe was Forced to Take Count.

Minneapolis, Minn., March 29.—Jock Malone of St. Paul knocked out Roland Todd, middleweight champion of Europe, in the last round of a scheduled ten-round contest here last night.

OFFER MITIGUE \$75,000 FOR BOUT

Want Champion to Meet "Battling" Siki in Panama in July.

New York, March 29.—Mike McTigue, world's light-heavyweight champion, has been offered \$75,000 by Edward Roberts, Panama promoter, for a 15-round title match at Panama City next July or August with Battling Siki, who lost the title to McTigue at Dublin a year ago.

Paddy Mullins, McTigue's manager, told Roberts his decision would depend on the outcome of the champion's fight next Monday at Newark with Young Stribling.

Roberts came to New York primarily in an effort to compel Johnny Dundee to fulfill a contract to box Jose Lombardo, Panama featherweight, at Panama.

AMHERST YOUTHS KEEN FOR SPORT

Many Taking Interest in All Lines of Athletic Endeavor.

Ninety six local athletes registered for hockey in the past winter, says the Amherst News. Twenty-five were interested in basketball, in the fall months. Fifty young men are engaged in action under the instructors of the boxing class, while it is expected that nearly one hundred and twenty will be signed up to play baseball this summer, with another thirty-five or forty to come out in late August for football practice. There will be thirty or forty young men, also start training for the track and field sports. Never before in the history of the town, has an organization taken such a keen hold on the younger athletes. Every person has been given a chance in some particular sport. Surely an association of this description, giving a life to all sorts of encouragement to the young men of the town, should be granted more support from the public, than it receives at the present time.

BALL CLUB, BUT NO TEAM. Kingston, N. C., (United Press)—This town has a baseball club, but no team. The club owns property and a considerable bank account. It has been incorporated in a sporting way since 1922, when the East Carolina League passed out of existence, its park is well equipped. George Suggs, former big league pitcher, supervised the building of the grounds. Suggs is in real life has been trying to squeeze into the Virginia League.

MAY PLAY LEAGUE GAMES IN SOUTH

Spring Games are Popular and Well Patronized—Plans for Future.

New York, March 29.—(United Press)—With the exception of the Cincinnati Reds all of the major league teams scheduled exhibition games in the south this spring against teams in their own league.

Southern exhibition games that bring major league teams in competition against each other are not unusual. They have come to be a part of the training of the team and an important part. They also help to pay the bills.

Up until this season, however, teams generally selected their opponents from the other league, but this year National League teams were playing National League teams, and American League teams played American League clubs along with their inter-league games.

The management of the Cincinnati club did not arrange any games with National League clubs, because it is opposed to the idea, but it is so heavily outvoted that it probably will make its plans next spring with an open mind.

In just a few years, the idea of the early spring exhibition games has grown so much and proved to be such a good business venture that something bigger and better organized than the present arrangement is almost sure to be the result.

It is quite possible that in a few years the season may be extended to take in officially a certain number of games down south and that a regular circuit might be formed. 20 or 25 of the early spring exhibition games has grown so much and proved to be such a good business venture that something bigger and better organized than the present arrangement is almost sure to be the result.

Baseball men say the idea of an early start with the games played down south next spring is not practical now, but they admit that such a plan might be worked out in the future.

As long as 154 games is considered the ideal length for the schedule, the club owners will have to take a lot of bad weather in the early spring to avoid the bad weather in the late fall. The gamble with April weather could be done away with if the teams stayed in the south for 20 or 25 of their regular games there.

Players, of course, would expect to be paid more if they had any more work loaded on them. Some of the owners are kicking now against the practice of sending them through 20 or more exhibition games for which they feel they magnates feel that the per cent contracts call for a season's work, and the athletes naturally do not want the season made out of rubber.

Spring training expenses set the club owners back \$20,000 or more each, and unless they get something back it is all a dead loss. The idea of the exhibition games was sponsored by the desire to get something back on the investment and, in the case of several major league teams, they do a little better than break even on the training trip.

Playing in strange cities on rough fields and under different conditions involves a risk of injury and illness, but the magnates feel that the percentage against damages is so high that they cannot pass up the chance to drag in all the money they can.

Major league managers hardly had a chance to look over their recruits this spring when the exhibition games started. Perhaps they feel that it is better to observe them in real life games than to look them over in practice.

Very few of the young players get a chance to start, however. There is a real spirit of rivalry between the teams in most of the contests and the exhibition games are not regarded in any way as for "funnies." Every pitcher that goes against Babe Ruth, Rogers Hornsby and Harry Heilmann, especially pitchers from the other league, bears down as hard as he can to show up the stars, and the same spirit holds good for the other players.

The Yankees, last spring, were beaten consistently by the Brooklyn Robins, and much was made over it. The Yanks had been allowed to train as they saw fit, and they weren't ready for the kind of baseball that the Brooklyn team was when they started. The Robins apparently worked to get in shape to hand it to the Yankees, and they did. But the results showed when the regular season started. The Yankees had been worked up to the proper edge and the Brooklyn players were over-trained. The Yankees played championship baseball from the start. The Robins never played it.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

PHOTOPLAY MAKES NEWSPAPER ARCH VAMP OF THE AMERICAN HUSBAND

"Why Men Leave Home" is Translated to the Silver Sheet.

(By JACK JUNGMEYER.) Hollywood, March 28.—The newspaper is humorously indicted as the arch vamp of the American husband by John M. Stahl in his pictorial dissection of marital discord, "Why Men Leave Home," produced for Louis B. Mayer.

The newspaper steals attention from the better half during those few hours the business man spends at home. Husbands avid to know what's going on in the world, fail to discover what's transpiring in wifely hearts.

Romance falls and matrimony tapers from the wreckage. Thus Stahl pictures the disincarnate monster.

Lewis Stone, Helene Chadwick, Mary Carr, William V. Mong and Alma Bennett unite in giving capital treatment to this adroit translation of Avery Hopwood's satirical comedy.

Miss Chadwick particularly, so often cast in heavier roles, indicates that this type of play may be her best metier.

A more appropriate title, as the film has been handled, would have been "Why Women Leave Home," for it is the woman who has most cause to complain and rebel.

"With good wives like us," queries Irene of the play to her similarly neglected friends, "why will men leave home?" And a subtitle makes answer, "Because they're natural born hunters"—when they're not buried in the daily prints.

The faithful wife, finding she must create her own diversions, goes on innocent outings. The husband, feeling himself inconsistently aggrieved, because she doesn't decorate the nocturnal home background, seeks solace from his steno-grapher.

Caught in a mild escapade, which quickly leads to divorce, he complains, "Well, did you expect me to sit around all night after night?"

"What about me," retorts his mate, "sitting around just as alone while you were absorbed in the newspaper?"

The situations portrayed are so commonplace to the great American household, strike so neatly home, and are so genuinely enacted, that at a matinee preview attended largely by married women there was hardly a titter at the comedy.

I, for one, took the good wife a big bouquet and didn't so much as glance at the seductive newspaper that even-ings.

However, lest alarmed publishers might seek to enjoin the film, let it be known that, in the end, the neglected wife is quite content to have her spouse, comfortably ensconced in lounging robe, peruse the papers to the final comic strip.

"Why Men Leave Home" (the brutes!) contains perhaps the most intimate honeymoon scenes ever screened. Perhaps too much so for several censored states.

ACTOR WELL KNOWN HERE, PASSES AWAY Boston, March 28.—The death is announced in Melrose, Mass., of Harden Klark, theatrical manager and actor. His death followed an operation.

Harden Klark was well known throughout the Maritime Provinces, especially in St. John. For years he was manager of the Klark-Urban Company, taking prominent parts at well. He was seen occasionally at the Opera House here. His greatest part probably was that of the leading man in "The Seven Keys of Baldpate," one of George Cohan's creations. Mr. Klark was very popular with the public here and also in private life. His early death was learned with regret.

WALLY REID'S BOY. Mrs. Wallace Reid has a projection room in her own home, where she runs the current films, and the other evening she had sent her "Black Oxen." To her bewilderment, her six-year-old son, Bill Reid, insisted upon staying up to see the film. Mrs. Reid, after much persuasion from Bill, agreed to run it early, and the boy sat through the reels with the most intent gaze. When it was over he said emphatically and disgustfully: "They oughtn't to be allowed to do that way. There wasn't any black oxen in that anywhere, and here I sat and watched all that silly stuff, and never saw a single animal!" Whereupon Bill went angry to bed.

SIGNS WITH INCE. Charles Ray has returned to the old fold—the Thomas H. Ince banner. He has closed his own studio and has moved his make-up box to the Ince studios in Culver City. Mr. Ray began his screen career eleven years ago as an extra in a mob scene of a picture Mr. Ince was making. He remained with Mr. Ince for eight years. His first picture will be that of a happy American youth, the sort of a story which made up his early successes.

HISTORICAL HIGHLIGHTS IN IT. Washington crossing the Delaware and his tragic experiences at Valley Forge are embodied in "Janice Meredith," Marion Davies' latest Cosmopolitan production.

Does Well In New Comedy Photoplay

HELENE CHADWICK HERE AND THERE.

Out at Oak Park, Ill., near Chicago, the Atlas Film Company is making its first feature length picture with Gladys Leslie and Mahlon Hamilton in the leading roles.

A new Christie comedy is entitled "Dandy Lions," and the leading role is enacted by the "king of the beasts," Neal Burns plays in support of the lion, and has decided that he much prefers a fair feminine fall.

Clara Bow will play the leading feminine role in "The Breath of Scandal," a new preferred picture.

More Rhythm, Less 'Rithmetic, Need of Schools, Says Dancer

New York, March 28.—"More rhythm and less 'rithmetic."

That's the slogan of Ruth St. Denis, famous American dancer—and she firmly believes that if this were followed out in our schools it would develop a more effective business brain than all the higher mathematics in the world.

"Too much time is wasted in both public and private schools upon unnecessary subjects," says Miss St. Denis.

"If the child of today were given a serious fundamental training in rhythms he would not degenerate into the tired business man and business woman of tomorrow."

Miss St. Denis believes that if every school in the country there would be a shorter list of sub-normal children.

"Beginning with the first stretching of the new-born babe, every child should be taught graceful movements of the arms and legs," she says. "Then the child would be conscious of a natural development of the mind."

"Children of the kindergarten age are not too young to study rhythms. Start youngsters off right—with health of body, and you have them on the right road to—health of mind."

MRS. TOM MIX'S JEWELS.

With the possible exception of Mrs. Cecil B. De Mille, Mrs. Tom Mix has the most valuable collection of jewels in Hollywood.

Practically all of her jewelry consists of diamonds or sapphires. She has a superstition about pearls and will have none.

"Tom can't get insurance because of the risk he takes," says Mrs. Mix. "So we put our savings into jewels. They are a good investment, and we can realize on them quickly if necessary. I love these gems and I know their every characteristic, just as I know Tom's or Thomassin's."—Photoplay Magazine for April.

IRENE CASTLE'S TOE BROKEN DOING P. T.

Famous Dancer Charges Grand Larceny Against Long Island Jeweler.

New York, March 28.—(United Press)—Mrs. Irene Castle Tremaine McLaughlin, who tripped her way to fame and fortune on 10 dainty toes, has gone and broken one of them. The injury was incurred several days ago while she was doing calisthenics.

Irene appeared in general sessions against James Cooper, a jeweler of Sea Cliff, L. I., who pleaded guilty of grand larceny. According to the pro-

secutor, Cooper had stolen a pair of pearls, valued at \$7,000, to Cooper to be repaired Oct. 23, 1922.

Cooper, however, pawned the jewels. In holding Cooper in \$2,500 bail until April 8, Judge Rosinsky intimated that it would be a good thing if he would recover them.

"I just want the pearls back, your honor," pleaded Irene. "I have no disposition to prosecute Mr. Cooper if he can secure their return."

Before leaving San Pedro each ship was given 12 complete shows for the trip by the fleet movie exchange officer, who distributes his films from the flagship Procyon. At regular intervals during a cruise the exchange collects and redistributes the pictures.

The navy department established its own film exchange some time ago. There now are complete exchanges, four on the Pacific Coast, one each in Manila and Honolulu and one floating exchange which accompanies the fleet on voyages.

The exchange officer supplies a vessel with enough films for a show a day.

PRESS AGENT OVERDOES IT. New York, March 28.—In denying the report of her marriage to Brooks Johns, her dancing partner, Ann Pennington, dancing star of the Ziegfeld Follies, declared she was the victim of the publicity overzeal of the Palace Theatre, where she and Johns are appearing for a special engagement of one week.

The dainty Ann wants it known that the report of her becoming Mrs. Johns is "absurd, cruel and unjustifiable."

UPSTAIRS AND DOWN. Bebe Daniels, all dressed up in the silks and satins and powdered wig of the eighteenth century, is playing the part of a French noblewoman in "Monsieur Beaucaire," starring Rudolph Valentino, which is being filmed on the top floor of the Famous Players' studio on Long Island. When Director Olcott finishes with Miss Daniels for the day, she immediately dons a modern costume and descends to the first floor in the studio, where she is playing with Richard Dix in "Unlabeled Women" under the direction of Alan Crosland.

Pauline Garon, the perfect flapper, is to play the title role in "Mary the Third," an adaptation of which play is now being produced in Los Angeles. Louise Huff had this part in the stage version.

Boston Mayor Puts Foot Down Sharply

Boston, March 28.—No longer will the theatre-going public of this city be compelled to gaze upon shapely damsels wearing little clothing. Even the twinkling toes of the dancers must be adequately covered in the future.

Managers of practically every amusement house were summoned to Mayor Curley's office.

Said his honor: "Things have come to a pretty pass when it becomes necessary to have a censor attend each performance nightly. A censor at the opening performance ought to be enough. But it isn't."

Nudity, suggestive jokes and even profanity must be eliminated, the mayor warned, or else the padlock will take the place of the present censorship.

MARGARET ANGLIN PLAYS CLEVELAND

J. WARREN KERRIGAN

Interesting Role Submerged by Empty Dialogue, Says Critic.

Margaret Anglin appears in "The Great Lady Dedlock," a new romantic play by Paul Keeter, from Dickens' "Bleak House."

Out impression, says Davis in the Cleveland Press, is of a fine actress in an interesting role submerged by empty dialogue and cluttered events of a mechanical plot.

We set that impression down with some hesitancy. For twice this season we have underestimated the power of good acting to survive the crude plays in which it appeared. That was with George Cohan in "The Song and Dance Man" and Lionel Barrymore in "Laugh, Clown, Laugh."

Lady Dedlock discovers that the poor army captain who was her lover before her rich marriage has died in lonely poverty, cherishing her memory, and she feels badly about it. At about the same time she learns that the charming miss whose wedding is about to be celebrated is her own daughter, a revelation about which an excessive number of plays were written last century (many of them in France).

The facts are washed up from a sea of talk by butlers, maids, assorted conspirators and various half-identified persons in crinolines and the plum colored party suits of 1850.

One had begun to despair of anything except empty talk when a shot is fired in the dark and the disagreeable gentleman who is about to expose the great lady falls dead in her drawing room at Chesney Wold.

She is suspected, takes flight, and throws herself on her long-lost lover's grave in potter's field.

It turns out, though, that she didn't commit the murder, and every one, including her titled husband, is glad when she is found and brought back to Chesney Wold. That's the story of "The Great Lady Dedlock." (At the Ohio.)

JUDGES ARE TWO TO ONE FOR ACADIA

Debate With St. F. X.—Two St. John Boys Take Part.

Two St. John boys were members of the University of St. Francis Xavier debating team which last night met and were defeated by the Acadia team in Antigonish. Two of the three judges gave their decision in favor of the visitors, who upheld the affirmative in discussion of the resolution, "Resolved, that an embargo on the export of pulpwood would be advantageous to Canada."

The St. F. X. team was composed of Arthur Chaisson, leader, Arthur L. Donovan and Dunbar MacDonald. Mr. Chaisson is a son of Angus A. Chaisson of this city and was a member of last year's successful inter-collegiate debating team. Mr. Donovan was also on the 1923 team, as well as representing St. F. X. in the series the previous year. Mr. Donovan is a son of Jeremiah M. Donovan, former county councillor, and made his debut as an intercollegiate debater this season.

The Acadia University team was composed of E. L. Curry and R. B. Currie of Matland, N. S., and F. S. Crossman of Truro.

The orations of the two leaders were the outstanding features of the debate, says a despatch, particularly the rebuttal of the Acadia leader, E. L. Curry.

The judges were Principal M. Cummings, Truro, superintendent of the Provincial Agricultural College; Prof. Sidney Smith, of Dalhousie University; Halifax, and Stew. Jenks, K. C. of Halifax. Rev. H. P. MacPherson, rector of St. F. X. presided.

TAKE CASE OVER CHILD TO COURT

Parents Dispute About Girl—Goes to Mother Over Week-end.

A dispute between husband and wife over the possession of their seven-year-old daughter was the subject of a case heard by Chief Justice H. A. McKewen of the King's Bench, sitting in chambers this morning.

The case arose over a writ of habeas corpus issued on behalf of Mrs. Stella G. Dunham against her husband, William W. Dunham, in whose possession the child has been since the parents separated some time ago. Evidence was given by both parties and the case was adjourned until Tuesday morning at 11 o'clock.

Francis Kerr, acting on behalf of Mrs. Dunham, asked that the mother be given possession of the child, who was in court, until Monday morning when she promised to see that it was sent to school. He also asked that the child had had a perfect attendance mark and the mother was not desirous of interfering with its progress.

J. MacMillan, Truro, appearing for Mr. Dunham, expressed his willingness that the child should be with its mother over the week-end, provided it was returned to the father after school on Monday. This was agreed to.

DANGEROUS PLAY

Boy is Burned in Explosion Following the Use of Matches.

The necessity for care in handling matches, especially around an oil barrel, was brought home to some boys this morning and one of the number, Howard Moore of Clarence street, will probably remember the lesson for some time.

It is said the boys were lighting matches and throwing them into an oil barrel when an explosion came and the Moore boy had his face burned. He was taken to the hospital where it was found that his hair had been singed and his eyebrows burned, but fortunately he was not seriously injured. After the injuries had been dressed the lad returned to his home.

IN HONOR OF BIRTHDAY.

About forty friends of Miss Katie Coak, 282 Millidge avenue, gave her a surprise party last evening in honor of her birthday. The evening was spent pleasantly in games and music. Beautiful gifts were received by Miss Craft.

GIRLS IN LEAD.

The girls were in a big majority in the births reported this week to the day when friends gathered at the home of her aunt, Mrs. W. F. Rowley, City road, and presented to her a handsome wrist watch. Miss McKay will leave in the near future for Calais, Me, where she will study nursing.

RECEIVES FAREWELL GIFT.

Miss Ethel McKay, daughter of Mr. and Mrs. Robert McKay, Somerset street, was pleasantly surprised last evening when friends gathered at the home of her aunt, Mrs. W. F. Rowley, City road, and presented to her a handsome wrist watch. Miss McKay will leave in the near future for Calais, Me, where she will study nursing.

DEED IS READY.

Commissioner Frink this morning received word that the deed for the strip of land at the corner of Paradise Row and Mill street, purchased from the C. N. R., was ready for delivery. This strip has been acquired by the city to enable the public works department to widen the street at this point.

DEATHS NUMBER 14.

Fourteen deaths were reported to the Board of Health for the week ending today, from the following causes: Myocarditis, two; pulmonary tuberculosis, two; septic pneumonia, carcinoma, cholera, pneumonia, pulmonary embolism, arterio sclerosis, tubercular meningitis, carcinoma of stomach, double otitis media, chronic intestinal indigestion, one each.

ACTION WAS PROMPT.

The prompt action of Frank Garnett undoubtedly prevented a serious accident in King street this morning. The story as told The Times by an eyewitness is that a lady drove her car to the curb and left it to go into a store. She had hardly gotten out of sight when the car started and one wheel was up over the edge of the sidewalk when it was noticed by Mr. Garnett. He jumped into the car and brought it to a standstill.

DELIGHTED THE AUDIENCE.

The World Wide Guild of the Charlotte street Baptist church repeated its concert programme "The Stuff that Dreams Are Made Of" at the Main street Baptist church last night before a large and delighted audience. Special numbers which were included in the programme were also much appreciated. The programme was as follows: Solos, Miss Jessie Jamieson; violin solo, Master Dalszell; reading, Miss Alice Van Wart; recitation, Mrs. J. H. MacPherson; physical drill, girls of Albert school. A good sized audience was present. The entertainment given under the auspices of the Main street Young Ladies Aid.

THANKS.

His Worship Mayor Fisher and the editors of the St. John newspapers to the very Rev. Dean Collins, Adam Shand and K. Pedersen boxes of flowers of rare beauty and delicious perfume. With the flowers comes the message: "Today, at the opening of the largest and finest flower show arranged by the combined floral interests of the United States and Canada, the members of the Florist Telegraph Delivery Association send greetings to you by their system of relaying flowers by telegraph." The Times makes grateful acknowledgment of the gift—an uncommonly attractive one.

IS HONORED AT SHOWER.

A most enjoyable evening was spent last night at the home of Mrs. Arthur Betts, 96 Woodville road, West St. John, when her daughter, Mrs. J. Douglas Pentland, tendered a novelty shower in honor of Miss Gladys McKee, whose wedding will take place in the near future. A heavily laden cart, trimmed with yellow and white, was brought into the drawing room by little Miss Shirley Betts, whose costume was in the same color scheme as the cart trimmings. The many packages, unwrapped, disclosed beautiful gifts of china, cut glass, silver and linen. The evening was pleasantly spent in music and games, dainty refreshments were served and the party broke up with three hearty cheers for the bride-to-be.

GIFTED N. B. WOMAN.

Dr. Juanita Currier, daughter of Dr. and Mrs. L. W. N. Barker, whose arrival in the city was announced yesterday, has the right to place after her name, D. C. and Ph. C. as a regular practitioner in chiropody treatment. Dr. Allison Currier, her husband, has also taken this course in Davenport, Iowa, where both studied together during the last 18 months with great success. Dr. Juanita Currier was born in Woodstock, N. B., where her father practised as a general practitioner and later as a nose, eye, ear and throat specialist, later removing to St. John. Dr. Juanita Currier is a graduate of Woodstock High School and is a comparatively young woman. Little Miss Vivien Currier, her daughter, is taking up music, while Dr. Currier remains in the city. Her husband is in Virginia for the present and will come north later in the spring. Dr. Arnold Baker is also a graduate of the same school as his sister and practises here.

SALES HELD TODAY

A successful pantry sale was held this morning at Webb's electric store, German street, under the auspices of the Women's Auxiliary of Alexandra Temple. The ladies in charge were Mrs. T. Fred Miller, Mrs. E. S. Waters, Mrs. A. L. Roberts and Mrs. C. Flowers.

A pantry sale held this morning in the lobby of the Venetian Gardens, under the auspices of the High School Alumnae, proved most successful. Miss D. Sinclair was general convener and she was assisted by the Misses L. Myles, G. Campbell, B. Dobson, F. Campbell, M. Dunlop and M. Manning.

A sale held by the Missionary Society of the Victoria street Baptist church in W. C. Williams' store, 391 Main street, was well patronized. This was in charge of Mrs. William Purvis and Mrs. Vernon Thorne.

DEATH OF CHILD FOLLOWS MOTHER'S

Family of Benjamin Saunders is Doubly Bereaved in Few Days.

The death of Mrs. Benjamin Saunders of Pleasant street, West St. John, which occurred at her home on the evening of March 28, was followed yesterday morning by the passing away of her youngest child, Florence, aged about 2½ years, at the General Public Hospital. The funeral of both mother and daughter was held yesterday afternoon. Mrs. Saunders had been in a failing health since the birth of her child, whose death followed so closely upon her own.

Mrs. Saunders was a daughter of Herbert Cox of Second Falls, Charlotte county, and besides her husband, is survived by five other children, all less than 16 years of age—Theodore, Harry, Horace, Beatrice and Hazel. Two half-sisters, one in New York and the other in St. Andrews, also survive.

COMMITTEES FOR MILK FUND TAG DAY ARE NAMED

Mrs. A. C. D. Wilson, ward convener for the Free Milk Tag Day, gave her report yesterday at the meeting of the Local Council of Women. Prince and Victoria wards are not convened as yet, she said, and volunteers are asked for.

Mrs. H. W. Robertson, who is joint convener with Mrs. Wilson, will have charge of Queens ward; Mrs. James McCarthy of Kings; Mrs. W. A. Nicholas of the Free Kindergarten, Sydney; Salvation Army, Duke; Mrs. A. J. Mulcahy, Wellington; Mrs. H. Usher Miller, Lorne and Lansdowne; Mrs. C. Stevens of Johnson Lodge, Dufferin; Mrs. Philip Simms, Fairville; Mrs. A. W. Estey, president, is general convener.

Miss Alice Estey and Mrs. H. H. Pickett are in charge of the banks, Mrs. C. A. Clark and Mrs. L. Harris of the tags, 9,000 of which are distributed. There are 15,000 in all. Mrs. W. A. Morris and Miss Ella McGaffigan, publicity committee, reported progress, and Mrs. Morris visited the newspaper offices, after the meeting, to arrange for advertising. Mrs. G. Wilford Campbell and Mrs. J. H. Frink form the finance committee.

ST. JOHN PEOPLE MARRIED IN LYNN

A wedding of interest to many friends in St. John took place on Wednesday evening, March 26 at the "Italian Villa," Lynn, Mass., when Mr. and Mrs. Anthony S. Proffitt, 77 Exmouth street, St. John, became the bride of Roy F. Smith, of Lynn, formerly of this city. The ceremony was performed by Rev. Chester Underhill, of the Washington street Baptist church.

The bride was charmingly attired in a gown of brown cation crepe and carried a shower bouquet of Ophelia roses. She was attended by Mrs. Charles D. Swift while Mr. Swift supported the groom. After a short wedding trip Mr. and Mrs. Smith will make their home at the Ruth Apartments, 2 Rogers avenue, Lynn, Mass.

REV. ROBT. NUGENT GOES TO JOHNVILLE

Many people in St. John will be interested in the news that Rev. Robert Nugent, who recently has been curate to Very Rev. Dean Collins at St. Rose's church, Fairville, has been appointed curate to Rev. Walter Donahue at Johnville, Carleton county. Father Nugent, who left last evening, will be followed by the good wishes of many friends for every success in his new field.

THANKED FOR GOOD WORK.

Thanks for their excellent work in the survey was ordered sent to the St. John Local Council of Women at a meeting of the Commission on Mothers' Allowances and Minimum Wages this morning. The meeting was held in the Government rooms and was presided over by Prof. W. C. Kierstead. The other members of the commission are Mrs. J. L. Sugrue, L. W. Simms, F. S. A. McMullin and J. F. Frchette of Montreal. The convener of the survey committee was Mrs. E. A. Young. It was reported that surveys were being held in other parts of the province and returns from these were expected very soon.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I have decided to be a candidate for the office of Mayor."

"Have you?" said Hiram. "What's your platform?"

"Have you ever," said the reporter, "stood on the shores of Navy Island at sunset, when the young guller calls to his mate, and gazed across Buttermilk Channel to the land of the Algeen?"

"I hev," said Hiram.

"Have you ever," said the reporter, "tollied to the summit of Fort Howe, at sunrise, and searched for the National Park?"

"I hev," said Hiram.

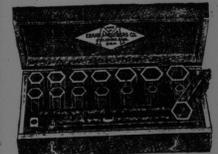

"If you hev," demanded the reporter, "is Buttermilk Channel? Of what use is Fort Howe?"

"None at all," said Hiram.

"Ah," said the reporter. "Do you get me? Cut down Fort Howe and throw it into Buttermilk Channel, in order that the inhabitants of Navy Island may walk dry-shod to the moving pictures. There's a platform for you."

"I kin see," said Hiram, "that you'd make a great Mayor. You're a man with a vision—an' that's what the town wants—yes, sir."
