SULTAN IS TRYING TO AVOID A HOLY WAR

Further Particulars of the Fight at Casablanca in Which the French Covered Themselves With Glory and Gore

PARIS, Aug. 20.—The correspondent of the Matin at Casablanca speaks in loud praise of the 7th Millimeter gun, fourteen rounds of which he said put fifteen hundred Arabs to flight. In attacking the centre of the camp on the right, the Arab horsemen galloped for within four hundred yards of the French positions where two rapid fire guns had been mounted on the roof of a farm building. These guns opened each with five hundred shots per minute, swept the ground with a rain of lead and covered it with the dead and dying.

The Spanish, the correspondent continues, were a brave sight as they rode back into camp. Men and horses were covered with blood. The faces of the men were blackened with powder. The attacking tribes Sunday were the Zonata and Zaidia who are newcomers and were fighting for the first time. It is announced that a number of Arabies are marching from Masaga to Casablanca with the intention of delivering a formidable attack shortly.

The Tangier correspondent in telegrams that with the object of getting rid of the fanatic members of the Ulama, who favor a holy war, the Sultan has appointed them to a delegation that is to come to Tangier to discuss measures of pacification.

PARIS, Aug. 20.—The government has received confirmation from Fez of the report that the Sultan has declared his intention to send a holy war, the Sultan has appointed them to a delegation that is to come to Tangier to discuss measures of pacification.

TANGIER, Aug. 20.—Five hundred Sherifian troops, the best of the Sultan's army, which usually are under the command of Abd Sir Harry MacLean, have arrived here. It was originally the intention to send them to Casablanca to co-operate with the French-Spanish forces, but Minister Gabbas now talks of sending them to Masaga.

The Spanish charge d'affaires is reported to be much disturbed by the attitude of the general Orla during Sunday's fighting at Casablanca, and the Spanish commander, acting under a misunderstanding of the general's instructions, only used his troops in defending Casablanca, not taking part in the fighting outside the walls.

CIVIL SERVICE MEN TO FIGHT THE ASSESSMENT. Mr. Abbot Applies in Equity Court for a Writ to Quash the City's Assessment.

WHAT ABOUT YOUR BOYS' SCHOOL SUIT? School Opens next Week Your Boy will Probably want some NEW CLOTHING. We are Prepared to Fit Them out with Kind that will Stand Wear and Tear. We Invite Your Inspection.

NEWPORT, Ark., Aug. 20.—Passenger train No. 8, the Ocala, between Tonkanna and St. Louis on the Iron Mountain line, is in a ditch at Allica, Arkansas, and reports received here state that several persons have been killed and many injured. The wreck occurred last night and is said to have been due to a broken rail.

KING MAY NOT GET THE CULLINAN DIAMOND

Transvaal Cannot Afford Such a Gift—Opponents' Claim That It is a Political Dodge.

LONDON, Aug. 20.—The plan of Premier Botha of the Transvaal to present the Cullinan diamond to King Edward, meets with much criticism both in England and the Transvaal. The finances of the colony are in bad condition and many persons think that the expense is unnecessary. Moreover the magnates of the Premier Diamond Mining Company have found the Cullinan diamond to be a white elephant. There is no market for such huge stones. The Premier people are political supporters of General Botha's party and critics say that if the stone belonged to the DeBeers Company, which is an opponent of General Botha, Debs would have been no thought of presenting the diamond to the King, adding that the Botha party want to get the credit for a patriotic act while putting money from the treasury in the pockets of their friends at a time when the colony can ill afford such luxuries. The controversy places King Edward in an embarrassing position.

TWO OF THE FASTEST ARE TAKEN OFF THE TRACK. Croker's Orby and Keene's Polar Pan Withdrawn for the Season Because of Injuries.

LONDON, Aug. 20.—Richard Croker's Derby winner Orby, has been scratched for the year. The leg trouble which caused his defeat in the race for the Atlantic Stakes has since developed and there is no prospect that the horse will again be in racing condition for some time to come. Orby's chance of winning the St. Leger race is regarded as exceptionally promising.

SARATOGA, N. Y., Aug. 20.—Peter Pan, the great three year old of the James R. Keene stable, closed his racing career as a three year old yesterday, when he was shipped to the Caledonian stud farm in Kent yesterday. The last hope of getting Peter Pan to the races again this year vanished some days ago when Mr. Keene, after consultation with James Rowe, decided that the injury to the sheath of the tendon sustained by the colt in his work, was of too serious nature to warrant the risk of attempting to train so heavy a horse this season.

OVER A HUNDRED WERE KILLED BY EXPLOSION. Disaster in a Mine in China, Which Resulted in Great Loss of Life.

BERLIN, Aug. 20.—The directors of the Shantung Mining Company today received a cable message from Tsing Tsin to the effect that an explosion of dynamite had occurred underground in the Fantege Mine, killing two Germans and 110 Chinese.

CASES OF FAMINE FEVER IN NEW YORK HOSPITAL. NEW YORK, Aug. 20.—Two cases of a rare and strange disease known as "relapsing fever" have appeared in the Beth Israel Hospital here. The patients are mother and daughter. This is the second time the disease has appeared in the United States in the last twenty years. This disease has also the name "famine fever" and "seven day fever." It has been noticed since the early part of the eighteenth century, and has, from time to time, prevailed in England and Ireland.

MUSICIAN SENTENCED FOR CRUELTY TO HIS SONS. STUTTGART, Aug. 20.—Herr Steindl, the leader of the well known quartette that bears his name, was sentenced here yesterday to seven months and three days imprisonment for alleged continued barbarous ill treatment of his three young sons. Fearing that he would attempt to flee, the court refused to release him pending an appeal of his sentence.

VALLEYFIELD STRIKE APPROACHING AN END

Company is Likely to Grant Increase All Round. English Journalist Touring Canada—Money by Forged Letters—Montreal Garment Workers Strike

VALLEYFIELD, Aug. 20.—The strike at the Montreal Cotton Company has been settled today or tomorrow by the company granting the demands of the men for a ten per cent. increase all round. Yesterday the manager agreed to this increase to mule spinners but to no others. The men met last night and refused this offer, holding out for a ten per cent. increase all round and there the situation rests. There is another meeting tonight when it is expected the management will give in. Mr. Louis Simpson, manager of the mills, writes complaining of the men breaking their agreement. The work gives ten per cent. increase in May last and an agreement was signed good till May next, but the men broke that agreement and demanded another ten per cent. A number of the leading merchants of the city have decided to grant no further credit to the strikers. When the men went on strike at a few minutes notice last week, few of them were prepared for any lengthened financial siege. In fact most of them were living in a hand-to-mouth style. The federation is an institution of a few years growth and has no funds to finance a lengthened strike, and as a result when wages are cut off and strike payments are not forthcoming the men who have refused to work must soon come to the end of their resources.

MONTREAL, Aug. 20.—Harry E. Brittain, a director of the Sphero and the Tattler of London, England, and a strong reformer, is here on a tour of Canada. He believes preference for Canadian and other colonial products will be carried to a triumphant issue in the near future. Mr. Brittain will visit Toronto at the end of this week and go on to the coast spending two months in Canada.

QUEBEC, Aug. 20.—Henry Vallancourt, of Levis, failed to get the money he was after and instead languished in jail. He wrote a number of letters to wealthy men who had relatives in Quebec, signing their names, asking for money by return mail. It is said that he had had some of his own money asked for none. Vallancourt's arrest followed as he opened a check and letter to a certain Mrs. Madeline Labrie of Bonaventure by similar tactics.

MONTREAL, Aug. 20.—The garment workers strike has spread and 300 men and women are now out demanding shorter hours, weekly pay and abolition of piece work. The employees of Vineberg and Co. were out last week but got their demands and are back at work. The other four factories affected are Ruberts, Levitt's, Kellert's and Winer's.

LIFE INSURANCE CASE ON TRIAL AT FREDERICTON. FREDERICTON, Aug. 20.—The Presbyterian picnic is being held on the Nasquaak today, the picnicers going up by the I. C. R. at seven cars to carry them. The day is all that can be desired.

THE case of Seery executors vs. The Federal Life Assurance Co., is occupying the attention of the circuit court today, Judge Landry presiding. The case is to be tried on the 21st of the late Dr. Seery. This is the third time the case has been tried and it is said that the costs already far exceed the amount claimed.

CELEBRATED THE LANDING OF THE PILGRIM FATHERS. PROVINCETOWN, Mass., Aug. 20.—The laying of the Corner Stone of the Cape Cod Memorial Monument to formal ceremonies and in the presence of President Roosevelt, Governor Guild and distinguished guests, completed today the foundation of one of the most impressive structures along the Atlantic coast, commemorating the first landing within a few feet of its base, of the Pilgrim Fathers on American soil.

LATE SHIPPING. Arrived Today. Stmr. Horikup, 224, Brink, from New York. John E. Moore Co., Ltd. Schr. Chialaris, 431, McLean, from Philadelphia, 700 tons coal. J. Splane & Co. Schr. "Cherone", 290, Cook, from Philadelphia. Wm. Thomson & Co. Stmr. Yale, Pike, from Boston. W. G. Lee. Coastwise—George Linwood, North Head; Stmr. Brunswick, Canning; Lord Wooley, St. Stephen; Clara A. Bonner, Wilson's Beach; E. Mayfield, St. Martins; Lloyd, Annapolis. Cleared. Schr. W. E. & W. L. Tuck, 335, Haley, for New York. Schr. Fanny, 51, Cameron, for Boston. Schr. Lavonia, 266, Barton, for New York.

The steamer Yale arrived this morning with 204 passengers on board. She made a very fast trip, having docked at six o'clock, much earlier than the usual time of arrival.

N. B. MARKSMEN MAY BE IN THE PALMA TEAM

TRYING TO SAVE THE CONFERENCE FROM FAILURE. Hague Delegates Will Work for Compulsory Arbitration and a Permanent Court.

THE HAGUE, Aug. 20.—Nearly all of the Governments has sent instructions to their delegates to make an effort to bring about some kind of obligatory arbitration, and also the establishment of a permanent court of arbitration in order to save the conference from failure. The efforts of the delegates are now directed towards the arrangement of a treaty of obligatory arbitration acceptable to Germany, which country although admitting the principle of compulsion, has so far opposed a world treaty, arguing that it would tend to minimize rather than promote obligatory arbitration. It is believed that it will only be possible to conclude a convention providing for obligatory arbitration among the powers which agree to it.

Servia has presented a proposition aiming to make the awards of arbitration tribunals obligatory on the signatory powers after an appeal has resulted in the confirmation of the first judgment.

BURNED HIS HOME TO SHOW HIS GRIEF. Indian Chief Destroyed His Possessions After Death of Daughter.

VICTORIA, B. C., August 20.—Stricken with grief through the loss of his daughter and grand-daughter, Chief Jacob Chippie, of the Cio-osee Indians, has given up his position, and in future will reside near Victoria in order that he may be able to visit the graves of his departed. It will be remembered that recently the chief made a desperate effort to save his daughters from some sent the Indians, but was unsuccessful. On his return to his village he was met by all the inhabitants who turned out to mourn the returning ones, mourning in Indian fashion for the loss of the children of the chief.

Early the next morning the women of the village assembled on the shore and turning their faces to the sea wailed for the ones that were gone. The old Scotch had cut off her hair as a sign of her grief and it was she who led the band of mourners. Chief Jacob was a rich man and had recently built an up-to-date house and furnished it with almost everything that money could buy. The furnishings were the best that could be secured and his cooking stove was better than owned by the Indians on the coast, but he was poor for he had lost the ones he loved. His canoes, six in number, were piled along the side of the house everything of value placed on top, and a match was applied and soon the building and all it contained was ablaze and soon was a heap of ruins. Anything that did not burn was smashed to pieces with a hammer and nothing was left that could be made use of.

RECEPTION TO SWEDISH PRINCE IN NORFOLK. NORFOLK, Va., Aug. 20.—Today's features in connection with the visit of Prince Wilhelm of Sweden, is a brilliant reception to be tendered aboard the cruiser Flygia in Hampton Roads this afternoon by the Minister from Sweden and Madame De Lagerorantz in honor of the Prince. The Flygia with the Prince aboard sails tomorrow morning for Newport, Rhode Island. His itinerary will, it is said, include a hurried visit to Niagara Falls, where he will cross the Canadian border.

AUSTRALIAN REPRESENTATIVES. The Australian representatives will be chosen from among the men who formed their Holey team of the year. Instead of setting out on their long journey to the Pacific Continent these men have put in some extra time preparing the paper on England and now have come to Canada with two weeks ahead of them on the Rockcliffe range before the date of the competition.

THE U. S. team will not set out for the scene of action until the beginning of the month. It is commanded by Major-General Dain, president of the National Rifle Association of America, and includes some of the cleverest shots on the continent.

MRS. SOBEL COY ENDED HER LIFE WITH A RAZOR
Victim of the Tragedy, Which Occurred at Her Home on Brussels Street Last Night, Had Been Mentally Deranged for Some Time—Slipped Out of Bed While Husband Was Sleeping—Pathetic Scenes at the Home

Mrs. Sobel Coy, wife of Alfred Coy, employed in Wilson's foundry, Brussels street, committed suicide last night shortly before twelve o'clock under particularly pathetic circumstances. Mrs. Coy, who was sixty years of age, has been in poor health for some time and mentally feeble, but it was necessary to watch her as she has for some time shown a desire to terminate her life. Only the other day she asked her husband, who is nine years her senior, where he kept his razor.

Last night after the two who were alone in the house, had retired to bed for the night, Mrs. Coy slipped out without disturbing her husband and getting the razor in the living room, made way with herself by cutting two horrible gashes in her throat. She fell to the floor and was lying there gasping in a pool of blood, when her husband, aroused by the sound of her struggles, rushed into the room. Beside himself with the horror of the deed, he rushed out and alarmed the neighborhood. John Nelson, a teamster living near, hurried for Policeman Ward, who was on this beat, and then telephoned to Coroner Berryman.

Dr. Berryman soon arrived and after viewing the body, gave permission to have it removed to the bed room. The coroner said last night that there seemed no occasion for an inquest. The room was crowded while Coroner Berryman viewed the body, and a man named Doherty, under the influence of liquor, had to be ejected by Sergeant Campbell, as he was interfering with the coroner and urging Coy not to tell them anything about the matter.

The scene was so gruesome that Mr. Coy was asked to leave and two men.

John Nelson and Fred Stanton, kindly citizens, cleaned up the room before the relatives were allowed in. Accordingly all left the room with the exception of the two men and Officer Ward. Sgt. Campbell took with him the razor which was unusually large in size.

Mrs. Coy had partly dressed herself before ending her life. The men, after seeing with Coy was almost so pathetic that many of the men standing around could bear. Unaware at first of what had occurred they began the women of the neighborhood to tell them what had taken place. Then when told that Mrs. Coy was dead they demanded why the police should be there. At last a kindly neighbor led them away till they could be allowed into the house, the granddaughter who has been living with her grandparents, crying piteously as she did so that Mrs. Coy had always been like a mother to her.

Mr. and Mrs. Coy have quite a large family connection through the city. Their children are John, laborer, residing on St. Paul street; Mrs. Mary Ann Long, residing in a suburb of Boston; and Mrs. Heald of Whitehead. Another daughter was Margaret, wife of Jas. Beyer, residing on the Westwood road. Mrs. Beyer died of smallpox during the outbreak three or four years ago. Mrs. Coy also had the disease on that occasion.

Deputy Attorney General Lancelot, of Quebec, who recently returned from England, where he watched the proceedings in the British parliament relative to the act to amend the B. N. A. Act for Quebec, states that the bill in question has been in effect since July 1. This insures the payment of increased subsidies.

Lewis Millburn, of Demolisee Creek, who visited Albert County last summer, and later left for England to investigate matters concerning a sum of money left by his grandfather who died eighty-three years ago, has returned to St. John to Boston, steps will soon be taken by the heirs to prove their property.

Master Henry H. Freeto, who for a number of months was a member of the Baptist church at Sussex and whose voice has been heard several times in various entertainments, is leaving tonight for the United States. He has made many friends by his pleasant manner and wonderful singing who will join in wishing him every success in whatever work he may engage.

The United Baptist Women's Convention will be held with the Main street church at Sussex on Wednesday and Thursday of this week. The executive meeting will take place tonight and the following members left this city in the train last evening to be present: Mrs. W. W. McEaster, Mrs. T. S. Simms, Mrs. S. McCully, Mrs. D. Hunt, Mrs. H. Everett, Mrs. Q. Estabrooks, Mrs. J. W. Manning, Mrs. W. E. McIntyre, Mrs. W. H. White, Mrs. J. R. Vanwart, Mrs. C. McLearn, Mrs. E. A. Branscombe and several others. The sessions will be attended by delegates from all of the Maritime Provinces.

Charles Hamilton, who has been living in the house of his married sister for the past year on Newman street, left his home last Friday and is still missing. He was seen on Sunday afternoon at the Millidgeville road by a man named Jenkins, but has not been heard of since. His friends are anxious about him, as they fear he may have starved to death, as he is somewhat deranged.

The police have been notified of his disappearance and are on the lookout for him. He is about forty-five years of age and quite tall.

Belast Women Get into a Row Over the Riots—Have It Out on the Street.

DELFAST, Aug. 19—About 100 girls who are employed in a fax mill in the Falls district began a discussion this afternoon of the riots in the city, and as they were about equally divided as to politics and religion a conflict soon ensued. The overseers of the factory endeavored to separate the combatants, but failed, and the girls were eventually driven outside.

In the street the fight assumed the proportions of a pitched battle, the girls effectively using their hands and feet. Several elderly women in crowd endeavored to separate the combatants, but were embroiled in the fray, and it was some time before all hands could be induced to cease fighting.

LOCAL NEWS

There will be a change of program at the West End Nickel tonight. If you wish to like to improve your present state of health drink Nebedega Medicinal Water. 37 Church street. If your clothes need cleaning or pressing let McFarland, the tailor, have them. 72 Princess street. 20-3-8. Summer Dresses, summer skirts, summer fabrics and wearables of all kinds most carefully washed and ironed at Unger's. Phone 58. J. Ashkins, 655 Main street, advertises boys' pants for 29 cents and blouses for 39 cents. Great bargains.

Don't be discouraged if you have been unsuccessful in getting proper glasses. Consult D. Boyaner, the optician, he guarantees satisfaction. We still have a few odd sizes in Men's Fancy Vests left at very low reduced prices. Union Clothing Co., 26-28 Charlotte street, opposite M. C. A. building. Philp's wafer thin Bacon is undoubtedly the best in the city, it's the nice mild cured kind that is so eagerly sought after, and we slice it properly for you, every slice the same thickness. Phone 88. Housekeepers will find a snap in shaker and shaker blankets by reading The Parsian Store advertisement on page one. Compare prices in the larger stores before you grasp this bargain. Remember the place, 47 Brussels street. The Royal Clan, the Order of Scottish Clans, in Canada and the United States, will meet in annual session at Halifax today. R. A. C. Brown, chief of Clan Mackenzie, St. John, left for Halifax last evening to attend the gathering.

Mr. and Mrs. Dennis Callahan wish to acknowledge with gratitude a generous purse received from the management and employees of Murray & Gregory's mill. Mr. Callahan, who formerly worked in the mill has been in poor health for some time. An attempt was made to burglarize John Martin's road house at Spruce Lake on Thursday last. A window was broken open but Mr. Martin said last night that nothing was stolen. It is said that the attempt at theft was made by an Indian, who recently appeared in the house and while there claimed that money had been stolen from him.

Deputy Attorney General Lancelot, of Quebec, who recently returned from England, where he watched the proceedings in the British parliament relative to the act to amend the B. N. A. Act for Quebec, states that the bill in question has been in effect since July 1. This insures the payment of increased subsidies.

KNIGHTS OF PYTHIAS WILL HAVE MOCK TRIAL

At a meeting of the St. John, N. B. K. of P. Boston '88 Club, held last evening in the Pythian Hall, German street, it was decided that an entertainment of a unique character should be presented by the club on the 27th of September. The entertainment will be in the form of a mock court trial in which twenty-four local people will take part. The trial will be a breach of promise case. The entertainment will be under the direction of the New-entertainment Bureau, of which members of the Order of Knights of Pythias, who intended to go to the Supreme Lodge Convention in Boston in August, 1908.

At a meeting of the Victoria Company, No. 1, U. R. Knights of Pythias, held last evening, the approaching grand convention at Fredericton on August 27, was discussed, and it was decided that a committee should call upon the members of the company individually and try and induce a full company to go to the capital to attend the regular meeting. A large number have already signified their intention of going. Among the members of interest to come up at the regular meeting will be the election of a Colonel for the Maritime Provinces Regiment.

H. W. Shepard was elected Second Lieutenant of Victoria Co. in place of C. H. Smyth, who has resigned.

Great Big Show at the Nickel

A four-pictured show with finely illustrated songs and a crack-brain banjoist, gave yesterday's large crowds of Nickel patrons the most for their money they ever got in the way of good, clean, up-to-date amusement. It was another big step forward in entertaining the public at a nominal figure, and nobody who attended will deny the excellence of it. Mr. Swaney, the Boston banjoist, was received with loud applause, and Mr. Brown's rendering of "Take Me Back to New York Town" caught the crowd at once. Miss Felix was admirable in the stirring soldier song, "Bright Eyes Good-Bye." The new pictures—Which, by the way, will be shown for the last time tonight—are The Hypnotist's Revenge, Willie's Dream, Ostrich Farm at Nice, and The Diabolo. Wednesday there will be a change of pictures—three changes a week hereafter.

Earl Grey Arrives in Prince Edward Island

CHARLOTTETOWN, P. E. I., Aug. 19.—Dominion government steamer Minto with Earl Grey and party on board, arrived here tonight. His Excellency came up from St. Andrews, N. B., by special train to Point du Chene and the steamer Brant conveyed him to the Minto. He was met at the wharf by a guard honor with the band from the Fourth Regiment. After receiving the guard, the Earl returned on board the Minto. He will land tomorrow morning at 10.30 and visit the Macdonald Consolidated school at Hillsboro in the forenoon. In the afternoon he will visit the golf links and tennis court and at night will be tendered a dinner at Government House where he will be a guest during his visit to Charlottetown. On Wednesday he will attend the Caledonian Club games at Georgetown where he will be presented with an address by the Caledonian Society.

The French first-class cruiser Kieber arrived here this evening from Bay St. George, Nfld. She will remain till the 23rd and will return to Sydney.

The one who will be found in trial capable of great acts of love is ever the one who is doing considerable small ones.—P. W. Robertson.

At a meeting of the St. John, N. B. K. of P. Boston '88 Club, held last evening in the Pythian Hall, German street, it was decided that an entertainment of a unique character should be presented by the club on the 27th of September. The entertainment will be in the form of a mock court trial in which twenty-four local people will take part. The trial will be a breach of promise case. The entertainment will be under the direction of the New-entertainment Bureau, of which members of the Order of Knights of Pythias, who intended to go to the Supreme Lodge Convention in Boston in August, 1908.

At a meeting of the Victoria Company, No. 1, U. R. Knights of Pythias, held last evening, the approaching grand convention at Fredericton on August 27, was discussed, and it was decided that a committee should call upon the members of the company individually and try and induce a full company to go to the capital to attend the regular meeting. A large number have already signified their intention of going. Among the members of interest to come up at the regular meeting will be the election of a Colonel for the Maritime Provinces Regiment.

H. W. Shepard was elected Second Lieutenant of Victoria Co. in place of C. H. Smyth, who has resigned.

Great Big Show at the Nickel

A four-pictured show with finely illustrated songs and a crack-brain banjoist, gave yesterday's large crowds of Nickel patrons the most for their money they ever got in the way of good, clean, up-to-date amusement. It was another big step forward in entertaining the public at a nominal figure, and nobody who attended will deny the excellence of it. Mr. Swaney, the Boston banjoist, was received with loud applause, and Mr. Brown's rendering of "Take Me Back to New York Town" caught the crowd at once. Miss Felix was admirable in the stirring soldier song, "Bright Eyes Good-Bye." The new pictures—Which, by the way, will be shown for the last time tonight—are The Hypnotist's Revenge, Willie's Dream, Ostrich Farm at Nice, and The Diabolo. Wednesday there will be a change of pictures—three changes a week hereafter.

Earl Grey Arrives in Prince Edward Island

CHARLOTTETOWN, P. E. I., Aug. 19.—Dominion government steamer Minto with Earl Grey and party on board, arrived here tonight. His Excellency came up from St. Andrews, N. B., by special train to Point du Chene and the steamer Brant conveyed him to the Minto. He was met at the wharf by a guard honor with the band from the Fourth Regiment. After receiving the guard, the Earl returned on board the Minto. He will land tomorrow morning at 10.30 and visit the Macdonald Consolidated school at Hillsboro in the forenoon. In the afternoon he will visit the golf links and tennis court and at night will be tendered a dinner at Government House where he will be a guest during his visit to Charlottetown. On Wednesday he will attend the Caledonian Club games at Georgetown where he will be presented with an address by the Caledonian Society.

The French first-class cruiser Kieber arrived here this evening from Bay St. George, Nfld. She will remain till the 23rd and will return to Sydney.

The one who will be found in trial capable of great acts of love is ever the one who is doing considerable small ones.—P. W. Robertson.

Amland Bros., Ltd., Furniture and Carpet Dealers, 19 Waterloo Street.

MOONEYS TAKE ACTION ON WATERWORKS CLAIMS

A writ is soon to be issued by Mooney & Sons against the city for claims amounting to \$40,000 in connection with their work on the Loch Lomond water extension. Messrs. Powell and Harrison are Messrs. Mooney's attorneys. Negotiations have been in progress for a long time, and as no settlement has been arrived at, Messrs. Mooney have decided to bring the matter to the courts. Last August F. A. Barbour, the consulting engineer, was authorized by the claims committee to confer with the contractors in reference to their claims and to endeavor to arrive at a settlement. The total claims amounted to about \$40,000 and after several conferences were held an agreement was reached that the cost of the water extension should be paid by the city. The contractors now feel that a settlement will never be reached outside the courts. The action will be tried at the next sitting of the supreme court, which meets on the fourth Tuesday in November.

DELIGHTFUL OCEAN TRIPS. St. John to Boston, Offers a Choice of Direct or Coastwise Excursions.

As in years past, August finds many people embracing the excellent opportunity afforded by the International Division of the Eastern Steamship Company to visit Boston and other New England points, and with the magnificent new Turbine Express Steamship "Yale" performing the direct service between St. John to Boston, steamboat traffic has been given a greater impetus than ever. The tide of travel on these lines is steadily increasing, and according to all indications will continue—September doubtless witnessing a still larger patronage. The sailings from St. John of the "Yale" are Tuesdays and Saturdays at 7.00 p.m., and for the return trip leave St. John on Mondays and Thursdays at 12.00 o'clock noon. Coastwise steamers for Boston, the "Calvin Austin" and "Bay State" leave St. John on Mondays, Wednesdays and Fridays at 8.00 a.m., stopping at Lunenburg and Portland. For the return trip, the leaving time at Boston (Union Wharf), is 8.00 a.m. on Mondays, Wednesdays and Fridays.

WEDDINGS. HOTT-EVANS. A pretty wedding was solemnized at the home of Mrs. Ellison, 246 Britain street, yesterday afternoon, when Miss Ethel Maud Evans was married to Luke Arlington Hoyt, both of this city. The ceremony was performed by Rev. W. A. Camp, pastor of Lister street United Baptist Church.

The bride wore a dress of white orlon with Valenciennes lace and insertion. She was given away by her mother, Mrs. M. J. Steeves, of Moncton. The bride's travelling dress was of navy blue cloth with hat to match. The bride's trousseau, with whom she was employed sent a letter expressing regret at losing her and speaking in the highest possible terms of her work. Employed was a check for \$23. The staff also sent a costly present. Mr. and Mrs. Hoyt will spend part of their honeymoon in Fredericton and on their return to this city will live on Portland street.

PEARSONVILLE K. Co., Aug. 18.—The death of Mrs. Ann Pearson of Pearsonville, Kings county, took place on Tuesday, the 13th day of August, at her home in Pearsonville, where she has been a resident for the last twenty-five years. She came here from Ireland and was married to William Pearson, J. P. They settled here on a farm. The deceased was ninety-seven years old at the time of her death and was highly respected in the community where she resided. She was tenderly carried to her last resting place by six of her grandsons and laid by her husband in the Church of England burying ground. The deceased was the mother of ten children, but out of that number only three remain, one son, Isaac R., and Ellen at home, and Annie of Highfield.

WEST END NICKEL. The Window Cleaner. The Charmed Umbrella. The Wood-Chopper's Daughter. The Revenge of the Algerine. Illustrated Song sung by J.P. McCarron.

UNREST IN MODERN ENGLAND.

A Study of Significant Changes in the Old Land—A Possibilistic Presentation of Affairs Given by a Writer in a London Review.

ence, food, raiment, and clean shelters, for millions of the dirty and ailing, living upon the brink of destitution in the wealthiest country in the world. To ship them away as so much cattle to the end of the earth seems the easy remedy to the superficial reformer, leaving their homesteads deserted and cattle to graze on the land once tilled by their ancestors.

"Other countries send forth their scientists, their artists, artisans, and workmen, whilst our most popular peripatetic ambassador today is the founder of what Professor Huxley once called a sect of Corymbians; well meaning, doubtless, but one who has turned the task of feeding, clothing, and rescuing waifs from the horrors of destitution in the richest country in the world into a commercial institution. Our universities and other public bodies can find nobody more worthy of their honorary distinctions than an alien millionaire whose whole activity consists in sowing charity broadcast over the country, thus tending to undermine the sturdy independence of the British people upon which the greatness of England was once based.

"What makes this state of affairs the more remarkable is that England, of all countries in Europe, is the only one which has been mercifully preserved from the ravages of the present century. It is the only one which has been mercifully preserved from the ravages of the present century. It is the only one which has been mercifully preserved from the ravages of the present century.

"It is customary to assume that the extension of the franchise per se is the sole cause of the present democratic tendency of things. Here the surface aspect blinds us to the more subtle causes that account for recent European developments. The franchise is now more restricted in England than in any of the leading countries of the continent. Besides, the British system of attachment to the upper classes, which acts as an anti-democratic counter-force is still much stronger than in any other country in Europe. As a natural consequence, the House of Commons contains a smaller proportion of direct representatives of the workers than the legislatures of Germany, France, Belgium or Austria. And yet we are faced with an overwhelming wave of democracy of the predatory type.

"Whilst the phenomena of revolutionary changes are in many respects rather hurried on by events which are taking place outside England, it is clear that we are being influenced rather than attracted attention sporadically, and little understood, are yet destined to exercise a most powerful influence on our fortunes. I refer to the social and intellectual developments which have been in progress on the Continent of Europe, and in the United States during the last fifty years, and which in their indirect bearing on us cannot but constitute in the long run one of the most striking features of the metamorphosis of England. It is the recent educational progress of other countries, and the aims and ideals of the youth, not of Germany alone, but of the Continent of Europe as a whole, as well as the United States, which have more or less become efficient in economic, scientific, and industrial pursuits, which is indirectly at the root of our restlessness, and which has given birth to our wholesale projects of reform."

NEWS FROM FREDERICTON

FREDERICTON, N. B., Aug. 19.—The moonlight excursion this evening under the auspices of the Masons on the steamer Victoria was very largely attended, about five hundred enjoying the sail down river. The 7th Band furnished music and a most enjoyable time was spent. The weather was all that could be desired. The adjourned sitting of the York Circuit court meets tomorrow, Judge Landry, the presiding judge, reached the city tonight. The only case to be taken up is that of the Seery Executors against the Federal Life Assurance Company. Tomorrow is the last day for paying taxes into the city treasury in order to receive the five percent discount. The city treasurer today had a busy time, and it is estimated that the taxes paid in up to date exceed those of any former year.

CLASSIFIED ADS.

ONE CENT PER WORD per issue is all it costs to insert advertisements like those appearing below in the lively columns of THE SUN or STAR. This ensures them being read in 6,500 St. John homes every evening, and by nearly 8,000 people during the day. SUN and STAR Classified ads. are veritable little busybodies.

ST. JOHN STAR.  
ST JOHN, N. B., AUGUST 20, 1907.

NOT ONE REASON ALONE.

Wall Street is gradually recovering from the serious depression which has prevailed during the past two weeks, and while it is not to be expected that anything like normal conditions may be looked for immediately in view of the general low tone of the world's markets, yet reassuring declarations of policy from the White House will do much to relieve the present tense situation. Some financial men in the United States, who, as it is natural enough, oppose the government's policy, assert that the president's attacks have created the recent depression. They therefore look for a definite announcement of his intentions as the best means of allaying the unrest now existing. While it will no doubt be found that a concise outline of the legislative and judicial programme against corporations and railroads will put an end to uncertainty for the future, yet it is altogether improbable that even such a step could bring the United States speculative securities back to a normal basis. The money stringency of the world is responsible for the greater depression; the water has practically all been squeezed out of speculative stocks, and many have sunk below their proper value. Some, even gilt edged securities, are going begging, not because investors are frightened, but because money is tight. It is not the United States alone which suffers from this weakness, the rate of buying power, Canada, unimportant through this country may be, feels in an equal degree, and all European financial centres report the same exhaustion of capital. The Bank of England in view of the existing stringency and of the expected demands from outside, last week raised its discount rate in an effort to protect itself. In the British, French and German markets new securities, whether issued by governments, municipalities, or corporations, have been declined by investors, and in these countries the depression is certainly not caused by any fear of legislation. Hence those who see fit to revile Roosevelt and his associates, find some slight difficulty in explaining why depression similar to that in the United States prevails in Europe. They are certainly without reason in maintaining that uncertainty as to the executive programme is one of the causes of the slump, but it is not the sole cause, nor is it responsible for the general market demoralization witnessed during the past two weeks.

Coming in a period of financial prosperity, the Roosevelt policy would prove a necessary check on stock inflation, but as it is being enforced during a time of general stringency it is creating a necessarily unfavorable condition.

**THE MONOTON WAR OF WORDS.**  
Rev. H. E. Thomas describes the fireman's tournament in Moncton as a "dizzy drunken bonnet hop," a choice expression from the pulpit. Chief Ackman takes exception to the remark and asserts that the torchlight procession was nothing of the kind. Perhaps both are wrong, maybe the thing is not so bad as it appears. Let's see! Webster's unabridged unhesitatingly declares that "dizzy" is among other things, "indistinct or vertiginous." "Drunken" is defined as "saturated" or "drenched." "Bonnet," as everyone will rejoice to learn is nothing more nor less than "roofing," "stomach," "decency," "parapet" or "canopy," and there will be equal gratification in the knowledge that "hop" is simply "Humulus Lupulus," "an informal dance," "hump" or "springing."

Now surely the firemen of Moncton could not take offence if their parade had been described as a "vertiginous saturated canopy spring," or an "indistinct drenched stomach dance." And then think how much more appropriate these words would have been coming from the pulpit, than was the vernacular adopted by Rev. Mr. Thomas. If the reverend gentlemen had only been able to work in that "Humulus Lupulus" stunt his stock would have gone up twenty per cent.

Premier Robinson has been successful in negotiating a short term loan from the Bank of Montreal which will be used in retiring certain indebtedness now due and to provide for a portion of the necessary expenditure on capital account. While the exact terms of the loan are not given out the premier states that the interest charge will be at a rate less than five per cent. In view of the extreme stringency of the money market and the fact that many of the best municipal and industrial securities are unable to find purchasers, it speaks well for New Brunswick's credit that a loan such as is now announced could have been negotiated upon terms so favorable.

The developments in the Hartland bro enquiry are of a decidedly unpleasant nature. Evidently the belief in that village is strong that a crime has been committed, and while personal feeling should be subdued the authorities must use every means in their power to discover and bring to justice the guilty parties.

The Steel-Coal trial at Sydney has ended, in so far as the hearing of evidence is concerned, without any sensational facts being brought out. It is apparent that lawyers on both sides are determined to do nothing which will obviate the possibility of settlement, and in this they are wise. Much interest will be taken in Judge Longley's decision which it is expected will be given within the next ten days.

The first farm laborers excursion leaves St. John for the west today. While we're all sorry to see so many young men go, here's hoping they will all come back!

"IN DOUBT."

Winnie is winsome, and sweet, and fair,  
Winnie has eyes that are deeply blue,  
Often the country larking there,  
Takes the place of a love-light true.  
Though she is winsome and sweet to see,  
Winnie's delight is to flirt with me!

Lou is sober, and prim, and staid,  
Lou has eyes that are softest brown,  
Harsh partisan type of maid,  
Never more fair than in gingham gown.  
Though demure as a nun, is she,  
Well I know that she's fond of me!

Winnie laughs when I frequent call,  
Lou listens off for my first foot-fall,  
As the little walk from her gate,  
I reach.

Winnie's witty, and Winnie's wise,  
Lou's true blue, as the summer skies!  
One of the two, I have sworn to win!  
But, winning the one, must the other lose.

How get out of the doubt I'm in—  
A heart's at stake, and as sure as sin  
If it's Win, I lose, if it's Lou's, I win!  
—Written especially for The Star by Fanny L. Ledford.

As Mark Twain and a friend were chatting at the summer home of the humorist, "Quarry Farm," near Elmira, N. Y., the conversation turned to the wealth of John D. Rockefeller.

"Just think of it, Sam," said the guest, "he has more dollars than there are hairs in that vigorous old thatch of yours."

"Did you see that man who just went out?" asked the paying teller.  
"Yes," replied the third assistant cashier, "he seemed to be considerably disgruntled. What was the matter with him?"

**POACHERS ARE KILLING BUFFALO**  
Trained Rangers are Needed to Protect Them

Over Three Hundred are Roaming in Mackenzie River District, all Valuable.

OTTAWA, Aug. 19.—The Controller of the Northwest Mounted Police has received from Regina a report forwarded to the commissioner by Inspector A. M. Jarvis, who was sent north in June into the Mackenzie River country to investigate reports that the buffalo herds are being destroyed by wolves. Major Jarvis, who is accompanied by Ernest Thompson Seton, the author and naturalist, tells of having found two herds of buffalo and a few traces of wolves. He comes to the conclusion that the destruction of buffalo is due to poachers, who have headquarters at Smith Landing, about 400 miles north of Athabasca Landing, and recommends that the whole Mackenzie river district be patrolled in order to prevent this slaughter. Col. Fred. White, while agreeing that it is advisable to take steps to preserve the buffalo, considers it a possibility to prevent poaching in a country as large as the Province of Ontario and is of opinion that the best method would be to set aside a reserve and employ trained rangers to gradually drive the buffalo from the north down to this reserve, where they could be easily protected. The total number of buffalo in the district is estimated at 300. They are of the long-haired kind, known as wood buffalo, and their skins are very valuable, while a buffalo head is now worth upwards of \$250.

Incidentally, Major Jarvis compares the country between the Slave and Hay Rivers to Central Manitoba as it was thirty years ago, and predicts that the buffalo industry will be probably cultivated so soon as means of communication are given.

**SINGING PLEASED THE POPE**  
Congratulated American Students on Gregorian Chant Proficiency.

ROME, Aug. 19.—While the Pope was crossing one of the halls on his way to receive some American pilgrims one day this week he caught sight of Don Lorenzo Perosi, to whom he beckoned and with whom he exchanged a few words. The director of the choir, a famous maestro, "I feel ashamed that I am an Italian."

The Pope tried to cheer the young composer, patting him on the shoulder he said: "Don't work too hard for the coming function; get the students of the American College to sing instead of the choir." This reference was to the celebration of the anniversary of the Pope's coronation in the Sistine Chapel. Mr. Kennedy, the rector of the American College, remarked that his students were going to sing with the regular choir. Mr. Don Perosi has been training them for some time in the principles of Gregorian Chant, and the choir is considered the finest in Rome.

Perosi is a strenuous advocate of congregational singing, or at least of the singing of the choir. Their singing of the credos and other parts of the service was accompanied with great perfection.

The Pope congratulated Mr. Kennedy, saying that the singing reflected the greatest honor not only on the college but on the American Church. The students in the college, who number 150, come from every State in the Union. When they leave Rome their musical training enables them to take charge of a choir and is unquestionably a contribution in the work of hastening the Pope's reforms in church music.

**DOGS THAT WORRY.**

If you have ever seen a dog that has lost its master in a London street you will wonder whether even the lower animals have not the elements of worry to disturb them. But the man worries about many other things than bones or masters, and the dog never suffers from insomnia through fear of a future life or the state of his banking account.—Reader.

**NEW MERGER WILL CONTROL MARKET FOR PRINTING PAPER**  
Company is Buying up Principal Pulp Timber Lands in Canada, Michigan and Minnesota.

APPLETON, Wis., Aug. 19.—Within the next twelve months the International Paper Co. will control the print paper market of the United States. The International Paper Co., incorporated under the laws of the State of New York in February, 1888, with an authorized capital stock of \$18,000,000, now perfecting a merger of the mills of Wisconsin, Minnesota and Michigan, the greatest paper manufacturing district west of the Allegheny Mountains, at an expenditure of from \$20,000,000 to \$25,000,000. When the general paper trust was dissolved by Judge Sanborn, of the United States Court of Appeals, at St. Paul, on June 16, 1896, the statement was openly made by members as well as officers of the alleged paper trust that the press of the country, which had fought the so-called trust, would regret it. The time is said to be near when the International Paper Company will control the print paper market of the United States and will be able to command its own prices.

The only competition that an organization of this kind would have would be the Great Northern Paper Company, of Maine, which manufactures only a small percentage of the printing paper made in the United States. The merger company will be conducted under the same plan as the International Company is at present, so as not to conflict with the anti-trust laws, but one manufacturer goes so far as to predict that the price of print paper will be no less than four cents per pound to the jobbers and six cents to the smaller buyers within two years.

Timber lands in Northern Michigan, Minnesota and Canada, valued at several million dollars, will be purchased, and these, with the \$4,000,000 wood lands now owned by the International Paper Company, will give the company an immense supply of pulpwood.

**FOOT WORRIES**  
are unknown to those who use Regal Foot Powder.

It keeps the feet cool, prevents chafing, checks excessive perspiration and makes the skin of the feet firm and healthy.

25c. a Box, Sold Only By E. CLINTON BROWN, DRUGGIST, Cor. Union and Waterloo Sts.

**ARREST ALL RUSSIANS**  
Copenhagen Police Official Gave the Order—Later Found to be Insane.

**COPENHAGEN, Aug. 19.**—The entire police force here got a startling shake-up last night. Every office received a telephone order from Second Officer Truesen for the entire force to turn out and arrest every Russian in Copenhagen, a great plot against the Czar having been discovered.

The order was complied with at once. The detectives who were accessible were hurried off in all directions, and steps were taken to rouse those who were off duty. It occurred to only one of the nine subchiefs who received the order to doubt its accuracy. He requested that there were more than 2,000 Russians in the city and concluded that there must be a mistake somewhere. He telephoned to the First Officer, who hastened to headquarters and found that Truesen had gone mad.

The order was cancelled in time to save the liberty of the Russians.

Phone 1802-11  
**Our \$3.50 Shoes.**

Of course you can go on paying high prices for shoes if you want to, but if you will try our \$3.50 Shoes you will be cured of the habit, for a habit it is. All White Shirt Waists 35c, or 3 for \$1.00. Just think Your choice for 35c. Sizes 32 to 42. This week only.

**PEOPLE'S DEPARTMENT STORE, 142 Mill St.**

**IF YOU WANT A SITUATION**  
Read the ST. JOHN STAR Want Ads.

**LONDON, Aug. 19.**—Notices have been posted in all the northeastern shipyards ordering a lockout next Saturday. Twenty thousand members of the boilermakers society and also the platers, riveters, calkers and unskilled laborers incidentally employed by them, in all approximately 50,000 men, are affected by this order, which has been issued by the Shipbuilders Employers Association, and is posted in the shipyards at Barrow, on the Tyne and on the Clyde, in Belfast and other centres.

The notification is the result of a strike by the calkers in the yards of the Armstrong-Whitworth Company at Newcastle. They struck without notice in connection with a dispute relating to apprentices doing men's work. The boilermakers society made the situation worse by refusing to order the Armstrong-Whitworth caulkers to return to work.

**BARROW-IN-FURNESS, Eng., Aug. 17.**—By order of the Employers' Federation 1,276 boilermakers were locked out of the shipyard of Vickers Sons & Maxims this morning, owing to the strike of calkers on the east coast.

Thousands of starving dogs and cats crawl through the deserted streets searching for food among the ruins. Food is very scarce. A contract was given yesterday for supplying the French troops with beef for one month, but the French occupation is likely to last many months.

An English deputation will leave for Tangier shortly to see the British minister. They will then proceed to London to lay the case of the British colony before the Foreign Office. All are eager to know upon whom rests the responsibility for the losses sustained. British interests are paramount at Casablanca, where there are practically no French merchants, yet not a single British warship is here. The French are warring fairly for all.

D'Auber—"That is a portrait of Judge Blank. What do you think I ought to Criticus—"Oh, about six months." get for it?"

THE STAR ST JOHN N. B. TUESDAY, AUGUST 20, 1907.

**MERRY DEL VAL ASSAULTED**  
Papal Secretary of State Attacked by Anti-Clericals in Marino.

**CASTEL GANDOLFO, Italy, Aug. 16.**—As Cardinal Merry del Val, the Papal Secretary of State, was on his way hither last evening he was surrounded, as he was passing through Marino, by an anti-clerical mob and insulted and assaulted.

**PERSONALS**

Alexander Corbet, manager of the Union Clothing Co. is progressing favorably after undergoing a serious operation in the private hospital.

**FIRST SUBMARINE INVENTED IN 1775**  
Made by an American Named David Bushnell

Several Unsuccessful Attempts Made to Sink British Men of War Owing to Inexperienced Operators.

The first submarine craft which really navigated under serious conditions was the invention of an American, Daniel Bushnell, of Saybrook, Conn.

Bushnell was graduated from Yale in 1774, and in the same year completed the submarine vessel on which he had been at work since 1771. He does not seem to have named the boat himself, but it has come to be known as the Turtle because of its shape.

The entrance to the vessel, says a writer in the *Century*, corresponded to the opening made by the shells of a turtle shell at its head. The boat was about seven and a half feet long and six feet deep; large enough to contain the operator and sufficient air to last him half an hour.

It was ballasted chiefly with permanent lead ballast. In addition to this a mass of lead, 200 pounds in weight, could be let down forty or fifty feet below the vessel, enabling the operator to anchor or to rise quickly to the surface in case of accident.

A water gauge illuminated by means of a cork with phosphorus on it, which floated on the water within the gauge, registered the depth of the Turtle. By means of a compass, also illuminated with phosphorus, the operator was able to direct the course of the vessel.

An ear formed on the principle of an old-fashioned screw was fixed in the forward part of the Turtle. The operator by turning it in one direction could propel the vessel forward, or in the other could propel it backward.

Another ear, at the top of the Turtle, worked on the same principle. By means of the latter the operator, after having established the equilibrium of the vessel, could move it either upward or downward. A rudder in the afterpart of the Turtle could be used for steering.

**A SMALL CRAFT.**

The entrance to the boat was elliptical and so small as to barely admit one person. It was surrounded by a broad elliptical iron band, the lower edge of which was fixed into the wood. Above the upper edge of this brass band was a riven, resembling a hat. It shut watertight upon the iron band, in which it was hung with hinges turning over sideways when opened.

In the crown were three round doors, one directly in front and one on each side, and large enough to put the hand through. These were opened admitting fresh air. Their shutters were ground perfectly tight and were hung with hinges. There were several glass windows in the crown for the admission of light and two air pipes.

A ventilator drew fresh air through one of the pipes and discharged it at the bottom of the vessel. The impure air escaped through the other pipe.

Of course, were used only when the turtle was floating on the service of the water. The valves opened automatically when the vessel was out of the water and closed as soon as they entered it.

When the operator wished to descend he placed his foot on the lever of the valve, by which means he opened a large apparatus in the bottom of the vessel, thereby allowing the water to enter the tank. When a sufficient quantity had been obtained to cause the vessel to descend very gradually he closed the valve. The apparatus under this valve was covered by a perforated plate which was discharged from the tank by the brass force pump.

When the vessel leaked, the bilge could be pumped out by a smaller pump. Everything in the Turtle was brought so near the operator that he could find in the dark what he wished and without turning either to the right or to the left. A firm piece of wood was framed parallel to the short diameter of the vessel to prevent the sides from yielding. This also served as a seat for the operator.

In the fore part of the stern of the brass crown was a socket with an iron tube passing through it. At the top of the tube was a rod which passed through the tube. When the wood screw had been made fast to some extent, it was cut off by unscrewing the rod. Behind the vessel and above the rudder was attached a magazine composed of two blocks of oak wood, hollowed out so as to hold 150 pounds of powder. This was fired by a percussion device, timed by means of clockwork. A rope extended from the magazine to the wood screw.

**HOW IT DESTROYED SHIPS.**

To destroy a ship the operator was to submerge the Turtle, navigate it until it was underneath the ship that was to be destroyed, screw the wood screw into her bottom, cast off the magazine and move away. The magazine being buoyant would immediately rise against the bottom of the ship. The clockwork which fired it was started by the casting off of the magazine, and gave the operator time to retire to a safe distance.

Bushnell made many trials of the Turtle before sending it against a British vessel. He found it very difficult to obtain a keel opening.

In the summer of 1776, when Admiral Howe lay with a formidable British fleet in New York Bay a little below the Narrows, Bushnell attempted to destroy one of his ships, the Eagle, of 64 guns. The operator whom the inventor selected to make the experiment was Sergt. Ezra Lee.

He had but a little experience with the Turtle and was therefore ineffectual. Lee, however, successfully navigated the Turtle under the Eagle. He attempted to fix the wooden screw into her bottom, but struck as he supposed a bar of iron, which passed from the rudder hinge and was spiked under the ship's quarter.

Two subsequent attempts were made with the Turtle against the British shipping. In one of these the operator succeeded in getting his vessel underneath a British ship, but the tide ran so strong the Turtle was swept away. Finally the British sunk an American boat which had the Turtle on board.

The inventor afterward recovered his vessel, but did nothing further with it. His health was poor, and he was unable to obtain money and assistance with which to prosecute his experiments.

**SILENCE AND SCIENCE.**

Before it was determined scientifically that smoke is waste, smoke was fixed as the final indication and proof of prosperity. Today a smokeless chimney means nothing less than thrift and good management. Similarly we now hear that noise is proof of urban life progress and activity. We may answer that noise is less as surely as smoke is waste. Decreased comfort is less and noise decreases comfort. Disturbed minds are less through a reduction of mental force. But these and similar consequences are indirect loss. There is direct loss also. A rattling car means worn bearings and a short lived vehicle. Otherwise railroads would not spend so much on their roadbeds, and they would run trains at higher speed.

**N. B. MARKSMEN MAY BE IN THE PALMA TEAM**

(Continued from Page 1.)

**THE CANADIAN TEAM.**

As to the Canadian team, it will not be chosen until after the D. R. A. meet, which closes on August 31st, and its personnel will be decided largely, though not necessarily exclusively, on the standing there. Fourteen men will probably be selected, and they will have three or four days' additional practice before the eight are finally picked. It is a foregone conclusion also that a number of the men who have represented the Dominion at the Bialy meet will also figure on the team for the international contest.

A special notice has been issued by the Dominion Rifle Association with regard to this meeting: "The D. R. A." says the notice, "relies upon the national spirit and emulation of the riflemen of Canada to attend this forthcoming meeting in large numbers to ensure that the strongest possible team may be obtained to shoot off for the honor of the Maple Leaf upon this important international occasion."

THE STAR, ST. JOHN N. B., TUESDAY, AUGUST 20 1907.

AGAINST UNION OF LABOR

Asks for an Injunction of a Union Boycott.

ST. JOHN, N. B., Aug. 19.—A legal action was begun in the court of the district of today by James W. Van President of the National Association of Manufacturers, to enjoin J. Gompers, John Mitchell and officers of the American Federation of Labor and several of its subsidiary organizations from using the boy and so-called "unfair" list.

The bill asks for a permanent injunction against Samuel Gompers at Frank Morrison, of Washington; J. Y. Lennon, of Birmingham, Ill.; John Damsen, of Quincy, Mass.; John Mitchell, of Indianapolis; James O'Connell, of Washington; Max Morris, of Denver; Dennis A. Hayes, of Philadelphia; Daniel J. Keefe, of Detroit; Wm. H. Duher, of Indianapolis; and John E. Valentine, of Cincinnati, all of the American Federation of Labor; also R. L. Thixton, C. O. Buckingham, N. Toppo, A. J. Cooper and E. L. Tamm, as individuals and as officers of the Electrotyping Moulders and Finishes' Union, No. 17, and members of international Electrotypers and of Electrotypers Union. The complaint is the Bucks Shoe and Range Company, of St. John. The plaintiffs say that the defendants are enjoined on nine special points, first alleging a conspiracy unlawfully to injure their business.

From, in any manner, carrying on a conspiracy to restrain and destroy the business of the plaintiff, from agreeing or combining to interfere in any manner with the business of the plaintiff or any other person, firm or corporation, from boycotting or attempting to boycott or threatening to boycott the plaintiff or the plaintiff's business, from representing or attempting to represent to the public that the plaintiff's business has been boycotted and that its goods should not be dealt in, or for the purpose of coercing a person or dealer not to purchase the plaintiff's product, from threatening or intimidating the customers of the plaintiff or from doing any acts in aid of the conspiracy or combination alleged, from giving any orders or directions to the committees, associations, officers, agents or others for the performance of any acts or threats which would impede, obstruct, or interfere with the conduct of the plaintiff's business, from carrying on the alleged conspiracy to restrain and prevent the plaintiff from conducting his proper business in any other states, or territories of the union and from doing any of the acts or using any of the means in the complaint for that purpose.

The steps leading up to this action are set forth in the complaint to be the outcome of a strike. According to the complaint, August 23rd, 1906, without previous notice the members of the Metal Polishers Union No. 12, of St. John, in the employ of the stove company struck in a body and without notice to or conference with the company, or waiting for an adjustment of the grievances which is set forth to have been in violation of an agreement between the International Union of Metal Polishers and the Stove Founders' National Defense Association of which the Bucks Company is a member and under which all differences have for fourteen years been successfully adjusted by a conference committee.

On the failure of the strike, the International Union of Metal Polishers declared a boycott against the Bucks Company and its product, inserted the company's name in its "unfair list" and published it in the union paper, "The Journal." The local union number 12 also joined in the boycott and procured its endorsement by the Central Trades and Labor Union of St. John and the Metal Trades Council also of St. John, both subordinate unions of the American Federation.

SARATOGA, N. Y., Aug. 19.—In the polo championship games here today the Montreal first team defeated the Saratoga team by a score of 4-2 to 4.

The Furs of Quality!

Styles—From the most reliable European and American Fashion Centres, including our own Boston designers. Skins—Received direct from the Trappers, and in the largest European Markets. Values—Are the best obtainable, for the reason that our purchases for our Stores in St. John, Halifax, Acherst, Winnipeg and Boston are five times as great as they would be if we only had one store.

Furs, Dress, Evening, Orders placed by American Tourists executed at a low Canadian price charged the United States.

ADA LTD., John N. B. King Street, St. John, N. B.

And the line kept winding in, and winding out again.

PRISONER IN TERROR OF LYNCHING BY MOB

READVILLE, Pa., Aug. 19.—Cringing and quaking in momentary expectation of being torn from the hands of Deputy Sheriff McMullen by the crowd which formed a gauntlet from the jail to Magistrate Powers' office late today Henry W. Wagner, the assailant of Miss Alma Whitehead, improved the first opportunity to plead guilty, anxious to get back to the security of the jail. The expressions Wagner heard as he passed to and from the prison indicated the temper of the crowd and it would have taken little to precipitate a lynching.

Wagner is a German, 27 years old. He is a typical tramp in dress and general appearance. The maximum penalty for his crime is \$1,500 fine and fifteen years imprisonment.

BOY AND GRANDMOTHER WERE FATALLY BURNED

BOSTON, Mass., Aug. 19.—Little four-year-old Thomas O'Neill lost his life today, and his grandmother, Mrs. Catherine Murphy, lies at the point of death at the Relief Hospital, terribly burned as the result of a fire which had set at his home in Charlestown today, while playing with a card of matches. The boy was in bed when he got hold of the matches, and his grandmother was attempting to save him when her dress ignited, and she was soon in a mass of flames.

DECREASE IN CANADIAN EXPORTS TO BRITAIN

OTTAWA, Aug. 19.—A return of the foreign trade of the Dominion for the twelve months to the end of June, has been completed by the trade and commerce department and shows a marked improvement over the record of 1906. The imports and exports together amounted to \$62,723,069 over the previous year.

SO THE LINE PASSES. The line moved. Some took the pamphlets, and announced their intention to buy tickets, some said they would

SPANIARDS ARRIVED WHEN FIGHT WAS OVER

Moors at Casablanca Gave the French a Very Exciting Half Hour—Bravery on Both Sides.

PARIS, Aug. 20.—In a despatch from Casablanca on the fighting of Sunday, a correspondent of the Figaro telegraphed: "The enemy was in the act of making a fast turning movement to attack the camp on the flank when the reconnaissance of the Spaniards discovered the manoeuvre. Instead of retreating the Spaniards charged. For a few moments they were in great danger as reinforcements could not reach them quickly and the cruiser Glorie was forced to cease shelling for fear of hitting them. It was a 75-millimetre gun just landed from the transport Shamrock that routed the Arabs. At the same time the Spaniards were engaged on the left, Arab infantry attacked the centre and right of the Spaniards. The defeat and slaughter of the Kabyles is likely to result in a number of offers of submission.

From the political point of view the engagement was a small affair, but nevertheless it was an exhibition of splendid individual bravery. Parties of horsemen charged repeatedly in the face of magazine fire and Maxim anti-aircraft fire. One of the striking features of the fight was an Arab, apparently a chief, who was mounted on a black horse and carried an all-red flag. He headed a long line of horsemen in a fierce downhill charge. When the horsemen, halted by the withering fire, turned and galloped back, this old man stopped, looked quietly at the French position and then, with the utmost sangfroid he slowly and coolly retired. The French troops showed magnificent courage throughout the fighting. The fifty Spaniards were sent out to reconnoitre they were attacked by two thousand horsemen who sought to surround them. There was a sharp melee, and the Spaniards cut their way out. General Druide brought up reinforcements and the Arabs became panic-stricken and fled. The Spaniards were given an ovation as they rode back to camp, one of them carrying the man who lost his life over his saddle. The Spanish commander offered to bring his troops just as the Arabs were retiring. General Druide thanked him and declined on the ground that help was unnecessary as the action was over.

PRISON RECORD WAS 81,772

United States Census Bureau Publishes Interesting Figures.

WASHINGTON, Aug. 20.—A report given out by the Census Bureau on the prisoners in the United States in 1904 says: "Exclusive of the juvenile delinquents in special institutions for that class, and exclusive of persons imprisoned for the non-payment of fines, 81,772 persons at least five years of age were serving sentences in civil prisons on June 30, 1904. Out of every million persons there were 22.4 in the number of that date 1,096 were prisoners. On June 1, 1900, the total number of prisoners were only 66,903, but the number in each million of the population was 1,057.

In 1880 women formed 8.5 per cent of the prisoners; in 1897-8 per cent, and in 1904, 5.5 per cent. The decrease between 1890 and 1904 is common to all sections of the country. Negroes were more common among the prisoners on June 30, 1904, than they were on June 1, 1900. In 1904 the percentage of colored was 22.4, while in 1900 it was 20.4.

JAPANESE ARE MAKING MORE MILITARY PICTURES

ATLANTA, Ga., Aug. 19.—Two Japanese were discovered, it is said, in the rear of Fort McPherson, this afternoon, taking views and sketches of the buildings and grounds. A former enlisted man who said he observed the Japanese, after talking with them told the story of the occurrence to the officers of the department of the fort. The officers of the department say no action will be taken until other discoveries are made.

PORTLAND MAN SUICIDES

PORTLAND, Me., Aug. 19.—Freeman A. Bunker, aged 37, one of the best known and most prosperous furniture truckmen in this city, committed suicide this afternoon by cutting his throat with a razor from ear to ear. No motive for the action is offered and it is believed that he was suffering an attack of temporary insanity. A wife, two small children, a father and brother survive him.

GILLETTS ABSOLUTELY PURE CREAM TARTAR. Nearly all goods in this line at the lowest prices. E. W. GILLET COMPANY TORONTO, ONT.

SEALED TENDERS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dalhousie Ferry Wharf" will be received at this office until Monday, September 16, 1907, inclusively, for the rebuilding and enlargement of the Ferry Wharf at Dalhousie, Restigouche County, N. B., according to a plan and specification to be seen at the office of E. T. P. Sheven, Esq., Resident Engineer, St. John, N. B., Geoffrey Stead, Esq., Resident Engineer, Chatham, N. B., on application to the Postmaster at Dalhousie, N. B., and at the Department of Public Works, Ottawa. Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An acceptor cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for fourteen hundred dollars (\$1,400.00), must accompany each tender. The cheque will be forfeited if the person tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender. The Department does not bind itself to accept the lowest or any tender. By order, FRED GELINAS, Secretary, Department of Public Works, Ottawa, August 15, 1907.

Newspapers inserting this advertisement without authority from the Department will not be paid for. 20-3-3

INFORMATION IS THERE BUT CANNOT BE REACHED

BOSTON, Mass., Aug. 19.—In his opening address at the seventh triennial international zoological congress this afternoon, Prof. Alexander Agassiz, of Harvard University and president of the congress said that because the United States government cannot afford a small appropriation for its unearthing, there lies buried in the office of the commissioner of fisheries at Washington, a matter of great interest to the scientific world, concerning the discoveries made by one member of the scientific party who cruised about the South Sea on board of the ship Albatross, twenty years ago.
