SIR EDWARD'S ORIGINAL PREMIER MORRIS, OF NEWFOUNDLAND, RETURNING FROM IMPERIAL PRESS CONFERENCE, TELLS THE STAR HOW LITTLE HE THINKS OF THE PROSPECTS OF THIS PORT

Sir Edward Morris, Premier of Newfoundland, passed through the city today returning from London where he attended the Imperial defence conference.

Speaking to the Star of the results of the conference, Sir Edward said that it had been of great value in drawing together the colonies and the motherland. The conference showed the greatest unanimity of sentiment between the various sections of the empire and with regard to the need of a longer and more representative scheme of naval defence.

It has a large oven-oven thermometer - simmering lid - improved baking-dampers and many other improvements to make cooking easy. The Magic like all other Enterprise Stoves has two guarantees - our own and that of the Enterprise Fdy. Company.

GORMAN STILL LIVING BUT CANNOT SURVIVE

Victim of Plaster Rock Shooting in Critical Condition

He Had Broken an Italian Laborer, and the Latter, Securing a Revolver, Took Deliberate Aim and Fired.

PERITH, N. B., Aug. 29 - James Gorman, an Irishman, lies at Parliners and McDonald's camp in a critical condition as a result of a drunken riot yesterday afternoon about 1 o'clock. Gorman seized the Italian and gave him a thrashing. As soon as Gorman remanded his hold the Italian started across the road to his own shack and immediately returned with a revolver. Taking deliberate aim, he shot Gorman. The bullet lodged in the abdomen. The men at the camp surrounded Polles and placed him under arrest. Constable Broad was telephoned for and took possession of the prisoner. Polles was brought to Perth last evening and lodged in the jail.

WILL MAKE A BID FOR NAVAL CONSTRUCTION

The Polson Company Looking for Business.

KINGSTON, Ont., Aug. 30 - Colonel Geo. Hunter, J. P., has devised a new species of punishment for youthful offenders. Convicting a lad of stealing ten dollars from his employer, Colonel Hunter gave him the alternative of ten lashes or a term in the reformatory. The boy took the latter which was administered in the jail by the turnkey.

WINNIPEG, Aug. 29 - From various sections of the West light frosts are reported. It is not thought that the crop will suffer. There remains a crying need for farm laborers and daily the amount of standing grain is accumulating, which will eventually mean a heavy loss to the farmer.

STRANGE LAPSE OF MEMORY IN THE FREE SPEECH CASE

AMERICAN CARD SHARP TRIMS M'C'TY'S SPORTS

Free Speech Criticized From the Pulpit - Brotherhood Convention - Convict Gets Away From Dorchester.

MONCTON, N. B., Aug. 30 - A number of Moncton sports are mourning the visit to this city last week of an American card sharp who in company with a St. John man got into a couple of card games here and skinned the local players to the tune of about five hundred dollars. The western game of stud power was the method by which the American gambler represented that he was a contractor who was on his way to Halifax but was willing to while away a few hours with a social game.

Moncton Man Who Re-Wrote Much of the Correspondence Fails to Remember Any of the Names Signed to the Letters

Before ten o'clock this morning the police court was crowded with men, all anxious to hear the evidence in the case against C. Bruce McDougall, charged with defamatory libel.

The first witness called was Roy McLoche. He said he was employed in W. M. Jarvis' insurance office. He knew George Morris and wrote a letter for the Greek about the third of June. He dictated the letter and witness thought it was to W. C. Loggie, editor of Free Speech. The address was obtained from the corner of the Free Speech paper. He did not know if the letter was mailed.

Mr. Sherrin objected to witness say what he wrote in the letter. Mr. Baxter said that this letter was the beginning of the contract for printing the papers to Merriess. The magistrate asked, "What do you think of the letter being addressed to Loggie?" Mr. Baxter said that evidence had been given that letters addressed to Loggie had been found in McDougall's office and that W. C. Loggie is in Canada and his father, who is a traveler is disgraced that his son ever was in connection with the matter. The name of Loggie is to be treated as an alias for McDougall. It has been two years since Loggie had anything to do with the paper.

LABORER KILLED BY EXPLOSION AT GRAND FALLS

GRAND FALLS, Aug. 29 - Neglect of the warning given by fellow workmen to stand back while a dynamite explosion was imminent yesterday added the name of one Earle, a Newfoundlander, to the already appalling list of violent deaths on the construction work on the Dominion Railway. A few miles from here Backman's crew was at work blasting and a heavy charge had been placed in position for firing. After the fuse had been lit, Earle was seen to approach the charge and was peremptorily warned to stand clear. He did not give way however, and a moment later the workmen were horrified to see his body blown clear off the ground. He died almost immediately. A coroner's inquest was held and the jury returned a verdict of accidental death due to the deceased not heeding the warning given by the foreman.

CHRISTENING WINDS UP IN ATTEMPT AT MURDER

MONTEREAL, Aug. 29 - An Italian christening was nicely broken up this evening when the god-father, the would-be assassin, developed into a lover of his mother and attempted to murder the father with a stiletto. Cavallo Ciribano was the father and invited his friend Antonio Malo to act as god-father at the ceremony, plentiful liquor being of course, part of the celebration. Malo soon got drunk and started to embrace Mrs. Ciribano. The husband at once interpreted the love scene, and Malo stabbed him, first in the arm and then just below the heart. Ciribano was taken to the hospital in a serious condition, and detectives are searching for the murderous god-father.

MOVEMENTS OF SACKVILLE PEOPLE

SACKVILLE, N. B., Aug. 30 - John S. Mylle, M. A., of Milltown, has been appointed to the principalship of the new public schools at Binscarth, Manitoba, and has left for the west. He is an alumnus of Mount Allison University in the class of 1897. On graduation he was appointed to Mount Allison and spent two years in the west. Mr. Mylle is a graduate of the Mount Allison Conservatory of music.

FUNERALS

The funeral of the late Miss Elizabeth Estey was held this afternoon at 2 30 from her late residence, 15 Peters street. Service was conducted at the house by Rev. David Hutchinson, assisted by Rev. J. H. A. Anderson, after which the body was taken to Fernhill cemetery for burial.

CONTRACTORS MUST PUT UP CASH AS SECURITY

FREDERICTON, N. B., Aug. 30 - A special meeting of the city council was called for this morning to consider the question of the bond to be put up by contractor Low guaranteeing all work on the Haslam pavement for a period of ten years. The council first met the committee and after such discussion it was recommended that cash to the amount of \$1,200 be deposited by Mr. Low as security. When the council met in session this afternoon there was no quorum and so nothing whatever was accomplished.

Uncle Walt
The Poetic Philosopher

Tell me not, in mournful legends, that the pole will never be found; we'll
have crossed the Arctic regions ere six months have rolled around. Men are
daily making pledges that the pole they soon will gain,
not with dogs and cumbersome sledges, not by drifting on
the main, but by sailing through the breezes in the air-
ship "Aurora," and no more Dame Science
sneezes at fantastic schemes like that. When the won-
derous craft has hovered o'er that waste of snow and sleet, and the North
Pole is discovered, then our joy should be complete. If you ask me why
the finding of the pole should banish woe, and the troubles that are grind-
ing—I'll be jiggered if I know! But so many men have hunted for that pole,
in days of yore, and have died in ways unwonted on the silent, frozen
shore; and so many ships a-sailing from the harbor, ne'er returned; and so
many women, waiting, for their loved and lost ones yearned; and so many
bones are lying on the glaciers and the floes, and so many ghosts are sigh-
ing in the wilderness of snow; and so many now are freezing, trudging,
northward, mile on mile, that, of course, it stands to reason, the old pole
must be worth while!

Tasquin

LISBON, Aug. 28.—A dispatch from
Penor de la Gomera today says that
the Spaniards in Morocco exploded a
number of mines, killing one hundred
Moors. The Spaniards were re-laying
the mines in the darkness when the
Moors returned and attacked them
savagely. Three Spanish officers and
fifty men were killed.

STUBBORN RESISTANCE.
MELLILA, Aug. 28.—Official details
of the capture of Tasquin, Carcarp de
Lexusa show that the Moors put up a
stubborn and brave resistance. The
Spaniards formed in two columns, in-
cluding a band of friendly Kabyles,
five miles from Tasquin. The Moors
opened the engagement with fierce
fighting, but after a prolonged struggle
the Spaniards gained the top of the
hill and drove the enemy back. The
casualties are not given.

LOWELL, Mass., Aug. 28.—Injuries
received in a brutal assault, made with
an axe at midnight Thursday, resulted
in the death tonight at the St. John's
Hospital of Mrs. Flora Rivers, aged 35
years, and the state police are looking
for Henry Ferron, said to be the victim's
lover, with whom she had been living
for some time and who, in a
statement written just before her
death, she charges with the crime.
Ferron has not been seen since the as-

ST. JOHN STAR.

ST. JOHN, N. B., AUGUST 30, 1909.

BASEBALL.

The game of baseball as it is played in St. John furnishes entertainment for many people. There are some, it is true, who under the stress of disappointment, at times declare that one or other of the teams has acted dishonestly or who are inclined to harshly criticize the individual players. But the average man, seeing sport only for sports sake, finds the game thoroughly interesting, the play creditable, and the baseballists gentlemanly in their demeanor.

It is pretty good ball that the leading St. John teams are putting up these days. There used to be a proverb—where it originated no one knows—that ball games here would never be financially successful unless the teams included a number of professional experts. The fallacy of this has been proven by the very generous patronage extended the players of games now in progress. And even the most rabid fans are coming to realize that just as good ball can be played by local as by mixed teams. Of course with some of the highly qualified experts who in years gone by adopted the diamond, remarkable work was sometimes seen. And while today there may be an absence of those spectacular plays which in former years occasionally added zest to the game, there certainly is a larger measure of satisfaction in the continued steadiness with which our local men conduct their contests. In so far as the science of baseball goes, the steady home team of today is more worthy of approbation than the team of a decade ago composed of mediocre players supported by two or three or more highly paid experts. Any follower of the game recognizes that, however he may miss the occasional brilliant work sometimes seen in former years, success today depends not so much on the skill of any one man as on the united ability and steadiness of a team, and certainly the increased attention which has been given to the development of home talent in recent years has produced players capable of fully satisfying the popular demand as well as of elevating the game to a proper place in the sporting world.

When such has been the case it is a matter of great regret that on Friday an incident occurred to upset the whole situation. The charge is made that at least one of the players acted unfairly. While there is a strong possibility that this contention may be merely the result of disappointment on the part of some who foolishly indulged in betting, there are features connected with the incident which impress even upon the most impartial spectator the belief that something unnecessary happened. For the good sport, it is to be hoped that those interested in the promotion of the game will go into the matter very carefully, and determine whether or not there is any foundation for the charges made. St. John people are paying for the privilege of seeing honest ball; anything but clean play is undesirable and indeed must not be permitted if the game is to retain its popularity.

THE DEMAND FOR MEN.

All reports from the west are to be believed, a considerable number of farmers there are short of help. More men than are available seem to be required in saving the crops, and it is stated that in certain sections loss will be sustained through the inability of settlers to promptly gather the grain. This is the most encouraging sign Eastern Canada has seen in years. Nothing but actual financial loss will ever arouse the farmers of the west to a realization of the foolishness of devoting all their attention to grain. It is true that by planting wheat and oats and barley they get along on the minimum expense. They are forced to pay very little for help, as grain does not require the attention which sales and rapin, and the returns when sales are made thus show a high percentage of profit. But it has been apparent to the east for some time that the annual migration of men to assist the short-sighted western farmer, cannot continue indefinitely. In this, the busy season, the few able workers still remaining in this half of Canada are needed at home, and can do far better for themselves right here than they can do by going west. The man on the prairie, having had quite sufficient opportunity to get well into the swing of his work, has no right to rely longer on assistance from the east. If he is too short-sighted to employ, during the whole year, enough men to carry on all the farm work in the busiest seasons, he should stand the loss when the help he wants is not forthcoming. Eastern Canada has for years been content to support for half the year thousands of unemployed who for three months in the autumn enjoy an excursion to the west and, by refusing better chances at home, earn enough money to pay their expenses.

The number of men who went west this month on harvest excursions was smaller than for many years. This is a good sign. There are no doubt several reasons for the decrease but surely it may be hoped that one of these

reasons is a fuller realization on the part of the restles population of their opportunities and their duties at home. A capable farm laborer can at this season earn \$1.50 per day and board at home. His expenses are practically nil. At the end of three months he should be at least \$100 to the good after allowing for whatever minor expenditures he may make. By going west this same man would spend at least \$35 in transportation expenses, and earn \$60 for two months. He would waste the remaining \$25 and come home penniless—for who ever heard of a harvester bringing money back with him? The knowledge that they can do better at home will be a benefit to Easterners, the realization that they must not depend on outside provinces for help, will be of value to the Westerners. These latter may, by suffering the loss of a portion of their crops, have their minds turned to mixed farming, which is the only solution of the labor problem.

In connection with this, a St. John resident writes to the Star to the effect that he would gladly go west to work, but has not sufficient ready cash to buy the purchase of his ticket. He asks whether there is any system of labor distribution at the government, the Salvation Army or otherwise, whereby people like himself may be assisted to reach those localities where labor is needed. There are no such systems in Canada outside of private employment agencies which so far have not interested themselves in farm labor. In Switzerland, the late pedagogue, a system of labor distribution but Canada has never yet found necessary for such work.

"How do you do?" said the crab to the lobster. "How is your dear little baby?"

"Very well, indeed," said the lobster. "He hasn't named her yet, but she is so hard to find."

"Why not call her Clavdia?" suggested the crab.

Scott—Is Jones married?

Mott—I guess not. I never heard him blame his wife for anything.

Mrs. Hen, having performed her oviparous function, took a constitutional around the yard. Returning to her nest she found it empty and chuckled angrily.

"What's the trouble, ma'am?" asked the rooster.

"It's mighty funny," she grumbled, "that I can never find things where I lay them."

Tommy—Mamma, is the old brown hen going to be sent away for the summer?

"No, Tommy; but why do you ask?"

"Because she laid a hard egg last night and after refusing to act on her advice was locked up by policeman Hughes for wandering about the streets."

Head waiter—What's the matter with that dyspeptic-looking chap over there, at the fourth table?

Assistant—He's got a growth. He was getting all ready to make a bid about that cateloupe, and he found it was a good one.

Suffragette—What we maintain is that women should get men's wages.

Peter—Well, so they do, ma'am. Leastways, I know my old woman gets mine.

STRANGERS' QUEER STORY LANDS THEM IN JAIL.

James MacDonald, a Scotchman, claiming Bathurst, N. B., as his home town, told the police last night and after refusing to act on their advice was locked up by policeman Hughes for wandering about the streets.

His story was to the effect that while in an unimpaired condition he boarded the train at Bathurst on Thursday with \$60 and a couple of friends. He reached the city last night and, after having been given minus his friends and \$25. Registering at the Ottawa hotel he encountered another "friend" to whom he gave \$10, the balance left after treating on several occasions, for safe keeping.

Later he was informed of a plot to hold him up and believing the story he told the police, and was advised to return to his hotel.

MacDonald again visited the police during the evening and as he persisted in keeping on the streets, was finally locked up for wandering about and not giving a satisfactory account of himself.

SHOULD LIMIT GRANTS TO REASONABLE TIME.

National Conservation Congress Passes Resolution Re Water Rights

SEATTLE, Wn., Aug. 28.—The National Conservation Congress today adopted a resolution declaring that the federal government should limit grants of water rights to a reasonable, definite time and should exact an annual tax upon them.

Other resolutions adopted endorse the forestry and reclamation bureau; recommend the creation of a national bureau of mines; endorse the national conservation commission; urge a federal appropriation for the work of the commission; favor statehood for Arizona and New Mexico.

The congress formed a permanent organization, electing Bernard N. Baker of Baltimore its president, and L. F. Brown of Seattle as secretary.

VICTIM OF ANOTHER ITALIAN LIES AT THE POINT OF DEATH

As Conclusion of a Drunken Brawl Near Plaster Rock Foreman Colle Shot James Gorman—Latter Has Only Few Hours to Live—Italian Admits Shooting.

Once again the province has been stirred by a serious shooting affair which took place near Plaster Rock yesterday. As a result James Gorman, an English workman, lies at the point of death from the effects of a bullet from a revolver in the hands of Stanley Collo, an Italian. The shooting occurred as a climax to a drunken brawl in the workmen's camp. When the situation was realized, Collo was disarmed by the others in the camp and later was placed under arrest by Constable Broad. The Italian offered no resistance, and admitted doing the shooting.

The shooting occurred in the heart of the woods, not far beyond the spot where Tony Arsho and Leon Seppel held in seclusion after firing the shots that caused the death of Paddy Green, the late pedagogue, on the part of the after had been drinking and it is believed the quarrel was started through jealousy on the part of Collo. The shooting was done without warning. Gorman and Collo were engaged in a struggle with blood streaming from the wound in his abdomen, and in the excitement that followed a few of the

EDUCATIONAL CONDITIONS DISCUSSED IN THE PUPPIT

Re-Opening of the Schools Leads Dr. Flanders to Comment on Corporal Punishment, Improper Ventilation, Medical Inspection and Other Matters

Following is a synopsis of the sermon preached in Centenary Church last evening by Dr. C. B. Flanders:

"That our sons may be as plants grown up in their youth; that our daughters may be as corner stones, polished after the similitude of a palace."—Isaiah 61, Verse 12.

The closing of the summer vacation and the return of our children to their schools, naturally calls for our attention to our educational institutions where our young people are being reared. It is to be hoped that we are all concerned in the character and efficiency of our public schools. Evidently the responsibility rests upon us, the citizens, to provide the best possible medical supervision and to see that the physical conditions of the schools are such as to insure the best results. It is to be hoped that the best results strict attention must be paid to the physical conditions of the schools. These should be comfortable, sanitary and well ventilated. The amount of hours in each day, the days in the week and the weeks in the year during which the schools are open, should be so arranged as to insure the best results. Not Feeling Well?

Don't blame it on the weather. If your system is in the right condition the weather won't bother you. If you feel unwell, dull, heavy and tired out, take some Casarca Cathartica, they are excellent results. They tone up the liver. They put your stomach in trim and make you feel better in every way.

BATHURST WILL
SHORTLY BOOM

Hon. Wm. Pugsley, Minister of Public Works, reached his summer residence at Robbsey by the Ocean Limited Saturday night after his tour of the Dominion. The Minister is slightly fatigued after the labors attendant on his tour and will remain here some time. While in St. John he will be tendered a complimentary banquet by his political friends of this city and the province in general.

Speaking to The Star last night the Minister of Public Works expressed himself as being satisfied with the results of his tour which placed him in touch with practically all parts of Canada. He was particularly impressed with the possibilities of the northern part of this province, which he visited during the latter part of his tour.

Enthusiastically Received
Hon. Mr. Pugsley was enthusiastically received at both Campbellton and Bathurst. The first named place was visited on Friday. The Minister was taken on a special train over the In-

ternational Railway which is being built from Campbellton to St. Leonard's and which is rapidly nearing completion. Hon. Mr. Pugsley was enabled to judge of what benefit the new railway would be to the northern section of the province in opening up the water front of Campbellton, where certain improvements have been asked. The minister also made an inspection of the water front of Campbellton, where certain improvements have been asked. Friday was spent by Mr. Pugsley at Bathurst. There the minister inspected the harbor and in the evening attended a banquet given in his honor and also addressed a public meeting. The development of the Gloucester County road does not increase the importance of Bathurst as a port. The Drummond concern will need a port for the purpose of shipping ore and will eventually use Bathurst as that port. Bathurst Harbor is a mighty precipice, however, before it can be used as a port. Extensive dredging will be necessary and the Government of Bathurst are desirous of having the Department of Public Works made aware of the needs of the harbor.

CELEBRATE CENTENARY OF
OLIVER WENDALL HOLMES

New England Poet Was Born One Hundred Years Ago Yesterday—Observance Was Quiet.

BOSTON, Mass., Aug. 29.—Scrawled in pencil in a musty farmer's almanac, "August 29, 1809," was the simple inscription that recorded the arrival in the world 100 years ago today of Oliver Wendell Holmes, poet, educator and humorist, the centenary of whose birth was observed very quietly in this city today. The centenary observance was a service held in King's Chapel on Tremont street, where Dr. Holmes regularly attended for many years prior to his death, which occurred October 10, 1894. Many of his hymns were sung by the choir and addressed was by Rev. Charles A. St. John, of Philadelphia. At the Boston Public Library an exhibition of Holmes's papers, portraits, scenes connected with his life, treasures and relics were shown.

TRAGIC DEATH OF
CHARLES G. WARD

Dartmouth Young Man Committed Suicide With Carbolic Acid.

HALIFAX, Aug. 27.—"Good bye, boys, I am soon going to leave you." As he uttered these words, Charles G. Ward, aged twenty-five years, of Dartmouth, placed a small phial of carbolic acid in his pocket and, after fifteen minutes later he was dead. The young man walked into a shop on Bedford Row yesterday afternoon about 1:30 o'clock. He appeared to be quite calm and those in the place at the time had no way of knowing that he contemplated suicide. After giving utterance to the words above mentioned, he drew from his pocket a small phial containing the deadly poison, and took the contents before those in the place could restrain him.

One of the young men, Michael Supple, knocked the bottle from his hand but not in time to prevent him from swallowing the acid. Supple had his hand badly burned by some of the acid as it poured out of the bottle. Ward dropped to the floor writhing in agony. He never uttered a word and soon lapsed into unconsciousness. Policeman Lou Nickerson, who was near at the time, secured a quantity of milk and it was poured down the throat of the unconscious man. Physicians were at once summoned, and the victim was then beyond medical skill. The ambulance had been summoned but before it arrived, Chief Broderick, of the Fire Department, happened to come along, and suggested that the man be removed to the hospital in one of the department's wagons. The turret wagon from the Bedford Row Station with a pair of horses was quickly got ready, and with the victim, raced with all speed for the hospital, but just as the team was turning from Hollis street into Morris street, young Ward breathed his last.

The wagon took the victim to the hospital, and on arrival there the doctors pronounced him dead. The deceased had been for some years employed as a clerk with James Simmonds & Co., of Dartmouth, but more recently with the Union Life Insurance Company. It is stated that he had been subject to fits of melancholia, and it is supposed that while suffering from one of these he committed the deed. The tragic death of the young man was a great shock to his relatives, who reside on the Windmill Road, Dartmouth. The body was prepared for burial by Snow & Co., and last evening was removed to the home of his grief-stricken relatives.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults.

Here is a New Kind of Soap

How to Shampoo

You are now using some soap and naturally think it is good. But here is a kind that is different from any you know—one that has taken us 45 years to perfect. Try one cake and compare it with what you now use. We welcome such a test as this for we know in advance the result. You will never go back to the other kind. Here is a soap made from vegetable oil pure enough to use on your table. We pay for more for this in France than we might pay. So we get only the best. Coconut oil from the island of Ceylon is brought over 12,000 miles and mixed with the olive oil. Then both are boiled doubly long.

After this we mill them by our own special process. We have scoured the best factories of England, France and Austria for almost half a century to perfect this process. We have combined the best ideas of foreign lands with our own improvements to attain perfection. When milled, the soap falls like flakes of snow into enormous bins and is then crushed under a weight of 50 tons to press out the moisture. Then it passes through granite rollers and comes out in miles of silky ribbon. After being dried eight times it is pressed into cakes and is simply perfect soap. It lathers into a rich creamy foam and wears as thin as a wafer. It leaves the skin rosy and pink like an infant's. So we call it 'Infants' Delight.' The perfume is dainty and pure—it suggests only the delicate scent of the roses. Use one cake today and see what a wonderful difference there can be in soap.

Recent Deaths

ANDREW BEVERLY COATES. The death occurred suddenly at Plainfield, N. J., on Aug. 17th, of Andrew Beverly Coates, only child of Mr. and Mrs. C. S. Beverly Coates. The little fellow was a very bright child, two years and eleven months old. The remains arrived in Sussex Friday noon and were taken to the residence of Mr. George W. Manning, Smith's Creek. The funeral service was held Saturday, conducted by Rev. B. H. Noble. Mr. and Mrs. Coates were former residents of Newtown. Mrs. Coates being Miss Emily Pearce of that place. The parents have the sympathy of a large circle of friends in their sad affliction.

BOY'S IDENTITY IS A
MYSTERY TO POLICE

Arrives in Peculiar Manner and Authorities Cannot Find Trace of His Friends.
BARNSTABLE, Mass., Aug. 25.—High Sheriff Henry M. Percival, of Barnstable County, has a mystery on his hands which he is anxious to solve. The "mystery" in reality, is a 12-year-old boy who came to Barnstable in some way not clear to the police. At 2 o'clock this morning, Proprietor Frank Pinnney, of the Barnstable Inn, was aroused from sleep by an unusual noise from the front hall of the hotel. An investigation disclosed a boy stretched out on the hall floor asleep soundly and snoring. The lad was given into the custody of the sheriff, who lives across the street. Up to a late hour tonight Mr. Percival had been unable to locate the boy's family. The lad says his name is Leonard Cole, son of Leonard Blake, of North Easton, but no person of that name can be located.

POOR PROGNOSIS

THE STAR, ST. JOHN N. B. MONDAY, AUGUST 30 1909

DIFFERENT LAWS PREVAIL ON OPPOSITE SIDES OF THE STREET

A remarkable condition of affairs as regards state laws is to be found in the little city of Bristol, Va., Tenn., with a population of twenty thousand, and divided equally by the state line that separates Virginia and Tennessee. One half of the population, twenty thousand is on each side of the line, which runs directly through the center of the principal business street. Bristol has lately gained notoriety by a local option election held in the Virginia half of the city on July 5, when it voted to license the sale of whiskey and by a majority of 23, while the other half of the city is under "state wide" prohibition, being in Tennessee. The peculiar geographical location of the city makes necessary two municipal governments, and consequently two mayors and two sets of city officials. President W. V. Finley of the Southern Railway recently remarked of Bristol that it was so good that it took two states to hold it.

In State street, the principal business thoroughfare, the state line, runs directly down the center of the street, and the various stores and shops are on opposite sides of the street. The Virginia side is on the right, and the Tennessee side is on the left. The Virginia side is a law requiring negroes to ride in the rear of the cars and apart from the white passenger who is riding in the front. The Tennessee side is a law requiring negroes to ride in the rear of the cars and apart from the white passenger who is riding in the front.

Recently a Down East drummer who had forgotten the difference in the laws of the various states found himself one day in Bristol. He walked into a drug store on the western side of the street. "Give me a package of Turkish cigarettes, please," he said.

"I want some cigarettes," he replied, "but we can let you have almost anything else you want, from morphine up."

The drummer was puzzled for a moment, but decided that he must have misunderstood the clerk. "I want some cigarettes," he repeated.

"I want some cigarettes," he repeated. "I want some cigarettes," he repeated. "I want some cigarettes," he repeated.

"I want some cigarettes," he repeated. "I want some cigarettes," he repeated. "I want some cigarettes," he repeated.

DELUGE, DEATH AND DISASTER IN GREAT RAIN, SPREADS DEATH AND DESOLATION IN MONTEREY SCENE OF DEATH, DESOLATION AND DARKNESS

Untold sufferings of thousands of homeless people. Families swept to death with little warning. Pitiful scenes recorded; loss will reach many millions.

LAREDO, TEXAS, Aug. 29.—Direct communication with Monterey was re-established by the Associated Press at 10:30 tonight. The operator at that point says that the number of dead will be 1200. The Monterey News was compelled to suspend publication for two days owing to high water.

Graphic Account. LAREDO, TEXAS, Aug. 29.—With partial re-establishment of communication with the flooded section of northern Mexico today, reports are coming concerning loss of life and property damage are confirmed. Semi-official reports state that four hundred dead bodies were recovered in Monterey today.

Swept Everything. The destructive flood, due to the continued fall of rain for the past six hours, swept everything before it and hardly a vestige of what was a few days ago a comfortable town, remains today, save a few shacks belonging to the poorer classes.

Immunity from Arrest. In Bristol the police and other officers of one side of the main street have no jurisdiction on the other side. It is not unusual for persons to commit crime on one side of the street, step fifteen feet across the state line to the other side of the street and be immune from arrest, except by returning to the Virginia side.

Beresford to Talk on Navy. Britain in Grave Danger, He Thinks, and Will Tell Canada So. MONTREAL, Que., Aug. 28.—Lord Charles Beresford will conduct a lecture on the naval campaign in Canada.

Rain Falling. At 11 o'clock this morning rain was still falling and to add to the disaster the Santa Catarina had worked out for itself a new channel, dividing into two raging streams and separating in such a manner that another and modern constructed part of the town was threatened.

Mexico City, Mexico, Aug. 29.—Associated Press correspondent at Monterey wires that 800 persons have been drowned as a result of the flood which still continues. Fifteen thousand people are homeless and the damage is not less than \$12,000,000.

OFFICIALS TO WAR ON DEADLY HATPIN

Regulations Regarding Its Wear.

PARIS, Aug. 28.—The officials at the Prefecture of the Police are considering what steps it is possible to take with a view to preventing the recurrence of the serious accidents caused by the murderous hatpins worn by women.

Among the accidents recently reported are the following: A government engineer a few days ago was traveling on the top of an omnibus between the Madeleine and the Bastille when his right eye was pierced by a lady's hatpin. Owing to a sudden jolting of the omnibus the lady was thrown against him.

Six days ago a shop girl lost the sight of her left eye owing to a customer suddenly leaning over the counter. An eight months old baby on its mother's lap had its nose and cheek torn by a woman's hatpin inside an omnibus.

On the Metropolitan Railway last Sunday the tympannum of a man's ear was pierced by an enormous hatpin. Over fifty such accidents have been registered by the police since June 15. It is proposed to forbid women wearing hatpins the points of which protrude to enter any public vehicle or train. It is further proposed that no woman wearing a hatpin the point of which protrudes shall be admitted to any place of public entertainment.

GREAT HEAT IN PARIS HAS MANY VICTIMS

Engineer Goes Mad in Cab of Train and Dies on Great Speed.

PARIS, Aug. 28.—The sudden wave of great heat which has given Paris an average shade temperature of 95 degrees, has resulted in many deaths, among them a policeman and a large number of cases of sunstroke.

A restaurant chief in the Boulevard Voltaire, in his effort to get cool, placed a large lump of ice on his head, and immediately fell dead. A policeman on the railway station a passenger, getting into an open cab in the heat of the sun, fell back dead to the door of his house. A policeman saw the driver had gone mad. He made a diplomatic attempt to get the driver to stop, but the driver, who was a man of the throat, and ultimately prevailed upon the mad driver to stop at both Colonnes, where another man was procured and the madman forcibly removed.

My dreams they drink of you.

This is the moon of roses;
The cherishing south-west blow,
And life, dear heart, for me and you,
Oh, life's a roiling rose!

MOTORIST FINED FOR NUMBER ON CAR

Inadvertently Used That on Machine of a Cousin and Complications Ensued.

PARIS, Aug. 28.—An interesting case was given in the Paris court today, when M. Ferns Vincent was sued by the Comtesse Duca for having appropriated the number of her motor-car.

Some time ago, M. Vincent, having bought a motorcar, made an application to the proper quarter for a number. The administrative department, however, is proverbially slow, and as he did not receive a prompt reply, M. Vincent, in a fit of impatience, chose at random a number—4723—and had it painted on his car.

Shortly afterward the countess was surprised to receive a summons for having infringed the police regulations on a day when she knew her car had not left the garage. It was found that M. Vincent had hit upon the number already borne by the countess' car.

The court held that the theft of another person's motorcar number was equivalent to the theft of that person's name, and sentenced M. Vincent to two months' imprisonment and to pay a fine of \$20 to the countess.

FIERCE FIGHT ENDS A NOVEL FUNERAL

Unemployed Musicians Provide Development Music and Mourners Resort It

MILAN, Aug. 28.—A Neapolitan family named Jorda, wishing to honor a dead relative by a grand funeral, hired a party of bandmen. When, however, the mourners had started for the cemetery many street musicians in want of work quickly joined the ranks from every doorway.

A terrible tumult followed, mourners and musicians fighting each other, mercilessly with sticks, stones, tomatoes, flies and drunks. The mourners took advantage of the riot to bolt away with the coffin, and when the police put in an appearance they found it necessary to convey most of the funeral party, not to the police station, but to the nearest hospital.

HORRIBLY BURNED IN POWDER EXPLOSION

Keg of Powder Ignited by Spark in Forge

Two Men the Victims—Another Had His Hand Badly Torn—Laborer's Leg Broken.

During the past week several accidents of a rather serious nature have been reported on the C. T. P. construction work. In several instances escapes from death have been narrow. Especially in the vicinity of Plaster Rock where a fatal explosion occurred last week has been an exciting one.

Two men, one of them named Chisholm, and the other an Italian received terrible burns in a peculiar accident on the McDonald work. A spark from the anvil in a blacksmith shop ignited a keg of gunpowder which had been left lying open, resulting in a serious explosion. Chisholm and the Italian was caught in the flames. The former was horribly burned about the body from the waist up, while the Italian received nasty burns on the hands and arms. Chisholm's burns were frightful and it was first thought they would prove fatal. However, Dr. Coffin is quite confident that both men will recover.

Another Italian broke his leg while assisting to move a heavy log. He fell in the dirt and the log rolled over his leg. Fortunately others came to his assistance or the accident might have proven even worse.

Plaster Rock an Austrian suffered a painful accident. He was walking along the track when a train came along, and while attempting to jump to one side he stumbled and fell. The man was caught under the wheel and the Austrian in his excitement pulled for all he was worth. The hand was literally torn in two, making a worse wound than if he had let it be cut off. All the injured are being cared at the G. T. P. hospital. Dr. Coffin has been kept busy attending to the workmen, but is pleased to note that not one of the series of accidents will have fatal results.

MANY EXCURSIONS ARE OFFERED NEXT MONTH

Travel From St. John is Already Heavy, But There Will be More Doing in the N. B. Few Weeks.

September will be a month of excursions for the Canadian Pacific Railway and the travelling public are offered cheap fares on the various lines.

Already the fall traffic is well opened, the Toronto Fair being responsible for large numbers. On Friday last, owing to the exceptionally low fare, the Montreal express took five sleepers which was necessary to meet the demand.

On Sept. 3rd a second low fare is offered for Toronto and railway officials anticipate a record crowd. Daily demands to meet the regular excursion travel require three and four sleepers on the Montreal ex. res.

Owing to the scarcity of farm laborers, a second excursion will be run in September, also the regular home-seekers' excursions. Other cheap trips during the month include the Fredericton Exhibition on the 13th, California and the Pacific Coast on the 15th, Montreal on 16th, 17th and 18th, and Boston commencing the 20th.

The Sunday train will continue until a change of time table in October, when definite plans for its future will be made.

MCDONALD HAD DREAMS FROM TOO MUCH BOOZE

Thought Someone Was Going to Kill Him — Doctor Will Have a Look at the Man.

In the police court this morning one drunk was fined \$8 or two months jail. He had taken the pledge for six months but had kept it only three.

James McDonald, for wandering about the street early this morning asked to be given a chance to leave town. Policeman Hughes who made the arrest said that McDonald informed him that there was a crowd going to beat him at the Ottawa hotel. He claimed that he had no liquor all day yesterday. He was persuaded to return to the hotel but later on in the evening came out on the street without coat or hat and said that some persons were there ready to kill him. He would not return to the hotel and was locked up.

The police say that McDonald is suffering as the result of too much liquor. He was remanded to jail and the magistrate ordered that a doctor see the prisoner.

Another drunk was fined eight dollars.

Harry McDonald was up for drunkenness, fighting and profanity. He was fined eight dollars or two months for drunkenness and remanded on the other charges.

Mrs. Elizabeth Burley lives at 175 Market Place, St. John West. On Wednesday last the water supply to her house ceased. Mrs. Burley was at first under the impression that the tenant on the lower floor had turned off the water, but on enquiry it was learned that that flat too was without the necessary fluid. Then workmen were engaged, and a trench dug to the street. In the service pipe leading to the house the men found an old fully a foot long wedged so tightly in the pipe that it could not move either way, and that no water could get past. It was necessary to dig the top out of the pipe with a bent rod.

Dr. Deimel Underwear

No Chills to Bring Coughs and Colds When Dr. Deimel Linen-Mesh Underwear is Worn

The touch of linen is most grateful to the human skin, imparting to the body a sense of relief and freedom experienced from no other fabric. This sense of general comfort is mainly due to the fact that a linen garment, unlike wool, does not impede but rather assists the skin in the work of ridding the system of considerable part of its poisonous waste.

The Dr. Deimel Underwear is made of a porous woven fabric the chief part of which is linen yarn of superior quality. This porous linen has the advantage over all other fabrics in that it absorbs moisture and eliminates it quickly, which provides a dry climate around the body and enables one to stand extremes of heat and cold without discomfort.

This perfect elimination of moisture promotes the normal activity of the capillaries, keeping the surface of the body supplied with fresh warm blood and affording absolute protection against sudden changes of temperature.

There Can be no Chills to Bring Coughs and Colds when Dr. Deimel Linen-Mesh Underwear is Worn.
