CANADIANS FIGURE IN EASTER PARADE

Fashionable Crowds Fill New York Thoroughfares at Easter

WEATHER UNPLEASANT

Unpropitious Elements Unkind to Wearers of Easter Hats—English Jesuit Appeals to Canadians Against Socialism.

New York, April 7.—Fashion's great Easter parade was rudely interrupted by the elements today, but not before the advance guard had displayed its gorgeous display of Goddard's famous Fifth Avenue. The turnout for the church services in the forenoon was even greater than in years past, and the styles shown by the paraders were more chastened than last year's.

STRIKE IS ON IN MILLTOWN

Carpenters and Machinists in St. Croix Cotton Mill Demand Flat Rate and Go Out on Strike.

Special to The Standard. St. Stephen, April 7.—A strike of moderate proportions is on at the St. Croix cotton mill in Milltown. One week ago the management of the mill announced a general increase of 5 per cent. throughout the mill, to become effective on April 1st. This looked good to the operatives as a whole, but some were not entirely satisfied.

SUBSTANTIAL CONCESSIONS FORECAST

Articles Proposed for Preference by the Balfour Commission.

Reduction of Duty Will Probably be at Least 20 Per Cent.—Steamship Service Chances.

Special to The Standard. Ottawa, April 7.—It is becoming increasingly the opinion that the agreement with the West Indian colonies will provide substantial concessions on both sides. The West Indian commission of 1910 over which Lord Balfour of Burleigh presided, reported a draft agreement between Canada and the several colonies in which it suggested a list of articles for preferential treatment.

CHANGES FOR NEW LONDON BUILDING GROW MORE REMOTE

Special to The Standard. Ottawa, April 7.—Negotiations which have been quietly progressing in London between the High Commissioner's office and the Westminster Hospital authorities looking to a long lease of the hospital site to the Canadian government as part of a plan for the erection of a new Canadian building, are thought here to be now doomed to failure.

BEAUFEST WILL HAVE A MONSTER ANTI-HOME RULE DEMONSTRATION

Andrew Bonar Law Will Occupy Centre of The Stage.

THOUSANDS ARE TO PARTICIPATE

Unionist and Orange Order of Belfast Organized for Parade. Nationalists Will Make No Effort to Interfere.

London, April 7.—Belfast is to have another great anti-home rule demonstration on Easter Tuesday, two days before the day set for the introduction of the Home Rule bill in the House of Commons. This time there will be no necessity of moving troops into the city as was the case when Winston Spencer Churchill, First Lord of the Admiralty, held his now historic meeting in the chief town of Ulster.

CONVICTED POLITICAL BOSS STARTS SERIES OF ARTICLES IN BULLETIN.

San Francisco, Ca., April 6.—Abraham Ruef, convicted political boss of San Francisco, now serving a sentence of 14 years in San Quentin prison, began in the San Francisco Bulletin today a series of articles, which he declares will constitute a complete exposition of the men accused with him in the graft prosecutions, but not convicted.

NORTON GRIFFITHS SENDS A CHEERY MESSAGE TO ST. JOHN

The Standard has received the following farewell message from Mr. J. Norton Griffiths dated Halifax, April 6: "I wish to convey my sincere thanks to the citizens of St. John whose representatives extended to me such hospitality. The Province of New Brunswick need have no fear of a prosperous future if all its citizens will cooperate with the Government in putting people on the land. There are thousands of people who want to get there if they have the opportunity. There are thousands of people in the Old Country who will assist them to get there, but a ready made farm organization with a good government inspector and advisor is in my humble opinion one of the most necessary and apt steps and one which I understand the people of New Brunswick through their government are about to organize.

WILL EXPOSE THE METHODS OF GRAFTERS

Convicted Political Boss Starts Series of Articles in Bulletin.

PROMINENT OFFICIALS AND BUSINESS MEN WILL BE IMPLICATED IN CONFESSIONS OF PENITENT—COMPLETE EXPOSITION.

San Francisco, Ca., April 6.—Abraham Ruef, convicted political boss of San Francisco, now serving a sentence of 14 years in San Quentin prison, began in the San Francisco Bulletin today a series of articles, which he declares will constitute a complete exposition of the men accused with him in the graft prosecutions, but not convicted. The publication of the articles was precluded by an editorial in a San Francisco newspaper on April 4, which characterized Ruef as a "human hyena," and condemned the agitation for his release.

RUSSIA AND TURKEY MAY HAVE SCRAP

TURKISH TROOPS ENROACH ON DISPUTED TERRITORY IN PERSIA.

Deny Aggressive Motives But England and Russia Have Doubts—Hidden Hand of Germany Suspected.

London, April 7.—The relations of Russia and Turkey, which a few weeks ago caused the circulation of alarming reports, may at any moment reach an acute stage and again the bone of contention will be Persia. At the close of the Russo-Japanese war Turkey moved some troops into the Persian province of Azerbaijan, a strip of which has been in dispute for upwards of 200 years. Turkey claims this strip, Persia holds it, but the ownership has yet to be decided. The question has been a subject of negotiations, but while these have been going on Russia asserts that Turkey has been slowly moving her forces forward until they have gone even beyond the disputed strip and now command the western part of Azerbaijan from Lake Urmiah to the frontier and could with ease attack the Russian province of Erivan. Turkey denies any aggressive intentions. She has informed the Russian minister to the Porte that she has troops in the disputed territory only, however, as a temporary expedient and awaiting the outcome of friendly negotiations and if necessary a reference to the Hague tribunal.

REVENUES OF THE DOMINION MUCH LARGER THIS YEAR

Increase of Nearly Eighty Millions Over Last Year May be Further Enlarged by Post Entries.

Special to The Standard. Ottawa, April 7.—Canadian revenues in the fiscal year, which ended on March 31st aggregated \$122,745,388.07, an increase of nearly eighty millions over last year, when the total was \$114,668,225. The revenue was made up as follows: customs, \$58,897,157; excise, \$19,075,582; post office, \$9,854,405; public works, including railways and canals, \$11,524,768; miscellaneous, \$4,528,311. Post entries may be expected to increase this by three or four millions. The expenditure during the year on consolidated account was \$82,560,792, as against \$75,590,195 in the year previous. Capital outlays in the twelve months totalled \$23,909,958, as compared with \$30,447,470 in the fiscal year 1911.

ITALIAN THINKS HE HAS GRIEVANCE AND STABS MANUEL

Fort William, Ont., April 7.—While the workmen were waiting to be paid at Canadian Foundry last night an altercation ensued as to who should stand in line, and Tony Rose, an Italian workman, got angry. He complained he had a grievance against the foreman of the pipe mill, Ernest Blamuel, and chased him out of the shop. Manuel slipped on the ice and

Work Will Be in Full Swing By Last Of Week.

SOME HOSTILITY

Decision of Federation Arouses Dissatisfaction in Yorkshire and Fifehire but Majority of Miners are Expected to Return

London, April 6.—The decision of the Miners' Federation this afternoon to order the men to resume work has brought intense relief to the whole country. The termination of the coal strike virtually amounts to raising a ruinous siege of the nation's industries, which has inflicted financial loss by far larger than would have been caused by a war with a great power of similar duration. In Scotland the miners will return to the collieries on Monday, but as that day is a holiday in England and Wales the strikers there will not return to the coal fields until Tuesday. In many of the mines two or three days more will elapse before repairs can be completed. By the end of the week, however, it is expected that every colliery will be in full swing. Only in a very few districts is any hostile feeling shown on account of the decision of the National Miners' Federation, whereby the great coal strike has been ended and the men will go back to work. Yorkshire and Fifehire are the chief centres of resentment, but even in those places it is expected that the bulk of the men will return to the collieries. Trouble with the engine men and surface men may delay a general resumption of work in South Wales and Durham but practically throughout the United Kingdom the coal mines will be under full operation by Tuesday or Wednesday.

LARGE TRACTS UNDER WATER

Hundreds of Miles of Land in Mississippi Region Submerged and Thousands are Homeless

Memphis, Tenn., April 7.—In the wide stretches of the Mississippi's flooded areas today there are three striking pictures. The northernmost is in the 500 square miles of the Reelfoot Lake country of Tennessee, where 2000 or more persons have been driven from their homes by the smashing of a Mississippi levee in southwest Tennessee. In this district thousands of acres of fertile fields are under water. Scores of persons who have refused to desert their homes are now imprisoned in upper floors and on roofs of flood menaced houses. A few miles south of Arkansas three counties are under water. From this rich "bottom" country hundreds of farmers and villagers have been driven. Flood waters swept over the fertile fields and thriving villages last night with the breaking of the levee on the Arkansas side north of Memphis. Today great numbers of persons marooned on roofs of houses and in trees have been taken out of the flooded district in boats. Probably many more water prisoners are in imminent peril. There are not boats enough to perform the rescue work required. The scene south of these points impresses one with the might of a giant stream on a rampage. Homes that once marked the center of rich "bottom" farms now float in a torrent that cannot be stayed. Bits of wreckage carried along in the tawny tide reflect the extent of the damage in the valley above. Of the striking feats of bravery which stand out in the fight against the flood possibly the most courageous has been that of the Couriers who rode in advance of the tide to warn villagers and farmers out of the path of the raging stream. and hurling himself on the fallen man Rose drew a long knife and plunged it into Manuel's back. Workmen snatched Rose over the head with a dinner pail knocking him over, and a rush was made to help the wounded man. In the confusion Rose made his escape, crossing the ice on the river and disappearing in the woods. Manuel sustained a long deep gash in the back, but will recover. Chief Dadds and the police with Indian trackers are scouring the woods, but the task is difficult owing to the snow storm.

McLEOD FOR COMMISSIONER

NORMAN P. McLEOD.

I am a candidate for the office of Commissioner. Having been an Alderman for a year and a half I am not without knowledge of the city's affairs and its needs. My record in the Council will, I believe, show that I have invariably stood for business-like civic administration and open and above-board treatment of every question on its merits, special favor for none and fair and frank dealing with every citizen and every city interest. At any rate this has been my aim as a member of the Council.

The record tells the story and I invite investigation of it. The Commission form of government should be given a fair trial. That I am prepared to give it and to do my utmost to make it a success.

If favored with your choice as a Commissioner, I pledge diligent and unhampered attention to the duties of the office and my best endeavors to promote the prosperity of the city by a clean, careful, economical and progressive administration of all branches of the civic services.

A SQUARE DEAL TO ALL CITIZENS AND ALL SECTIONS OF THE CITY.

EASTER WELL OBSERVED IN SAINT JOHN, YESTERDAY

Weather Not All That Could be Desired but Usual Parade Proved Even Larger and More Elaborate than Ever—Special Services in the Churches Attract Large Crowds Florists Found Business Brisk.

Easter of 1912 was well observed in St. John. Whether it was in anticipation of the bright future which has dawned for the city instilling new vigor into its people, or whether it was the first breath of spring, a joyful spirit seemed to prevail, and all seemed to enter into the spirit of the occasion with zest. The preparations for the observance were on a more elaborate scale than ever, almost rivalling those of Christmas. According to prominent merchants Saturday trade was much in advance of last year in fact a leading shoe concern found it necessary to close their doors for an hour during the afternoon in order to keep pace with the rush. In other branches of business equally encouraging results were obtained. All day an endless stream thronged the streets and a visitor could not fail to be impressed with the air of prosperity which seemed to fill the crowd.

Sunday, from a weather standpoint, was not an ideal day for the display of Easter raiment, yet the annual church parade, which is growing larger and more elaborate as the city increases in size and wealth, was held as usual and persons who met the crowds of Sunday morning worshippers could not but remark that the church-going population of St. John was exceedingly well dressed and prosperous looking. The morning was fine and was the time when the new Easter millinery was seen at its best for a whiff of fog and a whisper of rain in the afternoon was sufficient to drive the new hat wearers to cover. Nevertheless, St. John looked its best yesterday. In the churches the usual special programmes of music were well rendered and the floral decorations were also of a special nature, marking the end of the Lenten period of mourning and the arrival of the Easter time of joy.

One feature of the Easter observance which is becoming more general every year is the purchase of flowers either for purposes of home decoration or as offerings for Easter remembrances to friends and relatives. There was a larger trade done by the florists this year than in former seasons and the displays in all the congeries of bloom were well in keeping with the occasion. Not only were there very many gifts of flowers to private individuals, but the inmates of the various institutions such as the hospital, the home for incurables and the home for the aged, were all remembered most generously.

The day was well kept in the churches of the several denominations. Special services were held and the congregations were exceptionally large.

Catholic Churches.
In the Catholic churches the congregations were large at all the services. In the Cathedral the members of the Holy Name Society received Holy Communion in a body.

At 11 o'clock Parnassus Mass was celebrated by His Lordship Bishop Casey, assisted by Revs. A. W. Mehan, D. O'Keefe, E. O'Brien and E. J. Conway. The sermon of the day was preached by Rev. D. S. O'Keefe, who delivered an eloquent and forceful oration on the subject of the resurrection.

In the afternoon at 3.15 His Lordship again officiated when Pontifical Mass was sung.

The masses in St. Peter's church were at 7, 9 and 11 o'clock. At 9 o'clock children's mass was celebrated, at which there was special music by the children's choir.

Solemn High Mass was celebrated at 10.30 o'clock by Rev. Fr. Borgmann, assisted by Revs. A. J. Duke, Maloney, and O'Regan, as deacon, subdeacon and master of ceremonies, respectively. A scholarly sermon on the resurrection was delivered by Rev. Fr. Duke. The floral decorations were elaborate, a representation of the resurrection being noticeable.

In Holy Trinity and St. John the Baptist churches sermons appropriate to the day were given.

Baptist Churches.
The primary class of the German Street Baptist church celebrated Easter yesterday afternoon when an interesting programme was carried out, after which the little ones and their teachers made their annual visit to the Protestant Orphans' Home, where they donated several dozen eggs. To do this each child brought an egg to Sunday school and the sum total thereof was considerable.

In the morning service of the German Street Baptist church yesterday the pastor, Rev. F. S. Porter, baptized seven applicants from the Sunday school.

The Charlotte Street Baptist church was beautifully decorated in honor of the Easter services yesterday, with lilies, potted plants and cut flowers. Large congregations attended both services and at the morning service the pastor, Rev. J. A. Archibald, baptized fourteen converts, while at the evening service the hand of fellowship was extended to twenty-two new members.

BUILDING GUTTED BY FLAMES, FIREMEN HAVE CLOSE SHAVE

Six Toronto Fire Fighters Overcome by Smoke in Burning Structure—Rescued in Nick of Time.

Toronto, April 7.—Fire starting on the second story of the J. I. Fee building, 64 Front street east, yesterday afternoon, did over \$4000 damage to the building and about \$20,000 damage to the stock, all fully insured. The building was almost gutted. Lieut. Hughes, of Queen street fire hall and four men, Oliver Poole, John Best, William Sheitz and George Sinclair, of Berkeley street fire hall, were overcome by smoke while working on the ladders and were rescued from dangerous positions by their comrades.

TROUBLES IN CHINA STILL CONTINUE TO THREATEN PEOPLE

Shanghai, April 7.—Premier Tang Shao Yi, his suite and the members of the cabinet plan to leave for Peking on April 11. Reports from all centres in the southern provinces indicate considerable uneasiness especially among foreigners. The republican officials admit that the situation is grave. The troops are discontented because of arrears in their pay and they cannot be disbanded until the finances are adjusted. They openly blame the combination of foreign bankers for the trouble because of their refusal to give the promised assistance.

Considerable evidence of bitterness against foreigners irrespective of nationality can be discerned among the leaders who assert that the protracted delay in the recognition of the Republic by the powers and the withholding of the loans are liable to stir up anti-foreign sentiment and entail serious disturbances for which, they say, the powers alone will be responsible.

New York, N. Y., April 6.—A protective committee for the holders of the \$5,000,000 five year debentures of the Pere Marquette, which was placed in the hands of receivers yesterday was formed here today. Alexander Hemphill, president of the Guaranty Trust Company, is chairman. Committees for the protection of the holders of the other outstanding securities of the road are expected to be formed early next week.

In Fear of Consumption

To be entirely cured of a cold which threatened to become consumption naturally makes one think well of the treatment which helped to effect the cure. In a letter just received from Mrs. Edson Brook, Trenholm, Que., the writer says: "I wish to tell you that I have used Dr. Chase's medicine with great success. I took a very bad cold and could not get rid of the cough. I felt so bad that I really thought I was going into consumption. I got well by using Dr. Chase's Syrup of Linseed and Turpentine. Dr. Chase's Kidney Liver Pills also did me a lot of good. You may publish this if you wish, or many people already know what great good Dr. Chase's medicines have done me."

WILL PROTECT HOLDERS OF STOCK THE NEW YORK BABIES ARE GIANTS

New York, N. Y., April 6.—The only effect of the Easter holiday on the local stock market was to increase rather than diminish demand. The buying movement which was in full swing at Thursday's closing resumed at today's opening and for the brief two hours trading was large and broad, with many net gains of one to two points. Our market was without its usual foreign influence as all the European exchanges remained closed. The fact that it was said, did not prevent the buying here of stocks from London and Paris account. The demand centered largely around United States Steel, the coppers and Union Pacific, purchases of these accounts for London account being estimated at fully 20,000 shares.

Steel retained its leadership, opening with sales of large blocks, the first 7000 shares at a 3/4 per cent. advance which it subsequently improved. Utah Copper rose over a point at the outset and later increased its lead by over 2 points. The Harriman and Hill issues rose a point or more, as did also Rock Island preferred, St. Louis and Southwestern preferred, American Sugar, American Can, American Car and Foundry and various other specialties. Reading and Lehigh Valley were relatively less strong, their movement being somewhat retarded by the satisfactory outlook of the anthracite situation. It was assumed that Steel derived part of its impetus from the large majority report of the finance committee of the United States senate, which declared the steel bill ill-advised and inadvisable, and calculated to destroy one of the country's best industries. Other favorable influences from the market viewpoint included the buying of equipment by the railroads, another large increase in bank clearings and building operations and the encouragement of the market by the new issues issued by the commercial agencies. Various issues, chiefly steel, improved their highest point. Improved Trading in the two hours aggregated 500,000 shares, of which Steel totalled over 100,000. Of all the speculative issues, Amalgamated Copper and American Smelting failed to share in the rise today, but their phenomenal gains in the past month are already striking features of the market.

An actual cash loss of \$6,700,000 was disclosed by the bank statement but this was offset by a loan increase of \$20,000,000 with an increase in reserves of about \$1,500,000, as compared with last week's decrease of almost \$12,000,000. Excess cash reserves now are about \$2,000,000, and this item probably will be strengthened during the coming week by the net cash reserves of about \$2,000,000, and this item probably will be strengthened during the coming week by the net cash reserves of about \$2,000,000.

United States coupon three advanced 3/4 per cent. and the advance three lost 1/2 per cent. on the advance.

MOTHER OF TWENTY-TWO STILL HALE AND HEARTY

Has Smoked a Clay Pipe for Eighty Years and Believes that Tobacco Has Kept Her Alive. Wheeling, W. Va., April 6.—If you ever chanced to be sitting in Belmont county, Ohio, just across the river from this city, you must have run across Ivan Brandon, who is 83 years old. And if any old Ivan happened to have something in his game bag as he almost certainly would, he might tell you: "I'm going home and have mother cook that."

"CHARLIE'S AUNT"

Helen Grayce Company Present Great English Comedy Tonight. What is generally conceded to be the most successful comedy ever staged is Charlie's Aunt, which will be presented by Helen Grayce and her company, at the Opera House tonight. Of English origin, this product of laughter is easily in a class by itself and after years before the public is even today playing to large audiences in London. The play will be repeated tomorrow afternoon and evening and also Wednesday afternoon.

A MOTHER'S CARES DESTRUCTIVE TO HEALTH ANAEMIA, BAD BLOOD, HEAD-ACHES, AND LASSITUDE VERY COMMON.

Mrs. Wilkinson's Letter Gives Advice That Every Mother Can Well Follow. From her home in Newton where she resides with her large family, Mrs. Wilkinson writes: "For years I was pale, anaemic and lacking in vitality. I was a constant sufferer from indigestion, and the distress and pain it caused me, coupled with the ever-increasing anaemia, made me weaker day by day. Constant headaches, attacks before the eyes and attacks of dizziness made me feel as if life were not worth living. My constitution was completely undermined and the constant pallor and dullness in my eyes showed what a sick woman I was. I began to take Dr. Hamilton's Pills, and the improvement, although slow, was sure."

Neither Ivan nor his mother ever went to school and they could not read a line, yet Ivan is a remarkably interesting talker, having dates and his story fixed firmly in his mind. He can quote the Bible verbatim for hours, having a wonderfully retentive memory. He takes a keen interest in politics and after hearing an address is able to repeat it almost word for word. Ivan believes he will live at least as long as his mother lived and that she will still be on the earth when he has reached the century mark.

REAL WAS TROUBLED Weakness and Palpitation OF THE HEAR

Through one cause or another majority of people are troubled, with some form of heart trouble. Little attention is paid to weakness of the heart, but when it beats irregularly or intermits and throbs, skip beats, or is slow, then so slow as almost to stop, then so slow as to cause anxiety and alarm. To all such sufferers Millburn and Nerve Pills can and will give relief. They do this by their restorative influence on every organ and system of the body. Mrs. John J. Downey, New N.S., writes: "Just a few lines to you about your Millburn and Nerve Pills. I have been troubled with weakness of the heart, would be shaking spells, and could scarcely get up for a time, then so slow as almost to stop, then so slow as to cause anxiety and alarm. WAS TROUBLED WITH Weakness and Palpitation OF THE HEART.

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble. Little attention is paid to the slight weakness of the heart, but when it starts to beat irregularly or intermittently, palpitate and throb, skip beats, beats out for a time, then so slow as to seem almost to stop, then it causes great anxiety and alarm. To all such sufferers Milburn's Heart and Nerve Pills can and will give prompt and permanent relief. They do this by their restorative influence on every organ and tissue of the body. Mrs. John J. Downey, New Glasgow, N.S., writes: "Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have several shocking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your pills. I can recommend them highly. Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. C. Milburn Co., Limited, Toronto, Ont."

HOW TO COPE WITH THE CATERPILLARS Department of Agriculture Issues Timely Warning Against "Forest Tent" Pests—Kill the Old Caterpillars.

The Department of Agriculture for New Brunswick has issued a pamphlet dealing with the forest tent caterpillar, and pointing out the best methods of destroying them. Among the methods of control dealt with are the following: On young trees, where all the branches can be easily seen, one of the best ways of controlling this insect is to gather and destroy the egg masses in winter or early spring. This can be most easily accomplished when pruning. The egg masses are conspicuous and easily removed. It is not enough, however, to remove them from the branches and throw them on the ground, as some caterpillars come out of the egg as well on the ground as on the tree, and are quite strong enough to crawl 25 or 30 feet in search of food. All egg masses removed should be carefully collected and burned. When the caterpillars are found in clusters on the trunk and branches they can be easily destroyed by means of a stiff broom—made more effective if occasionally dipped in kerosene. Another method is to crush the caterpillars with a thick cloth do. Still another method is to scrape them off into a bucket of water, having a small quantity of kerosene on the surface. Kerosene is death to the caterpillars in whatever manner it touches their bodies. It must be used with caution, as it is liable to kill the foliage of the tree if used on the branches or growing parts.

Is Sickness a Habit?

With many sickness undoubtedly becomes to some extent a habit. They have "bilious spells," "stuck headaches," "attacks of indigestion." Why not shake loose from these ailments and know once more the joy of good health? It takes a little will power. You may have to deny yourself some luxuries which do not agree with you, but it is worth while to do well and to prolong life. Dr. Chase's Kidney-Liver Pills will help you, because they act definitely and directly on the liver and thereby remove the cause of biliousness, headache and indigestion. Stir up the liver by taking one Kidney-Liver pill occasionally at bedtime and you will free yourself of many annoying ills, the temper will be less irritable and you will find more joy in living.

HOW HAMILTON IS BOOSTING TRADE

Hamilton, Ont., is one of the most progressive centres in Canada today, and that is because it has cheap power, good transportation facilities and high wages," said E. D. O'Dell, Canadian organizer of the Boot and Shoe Workers' International Brotherhood, who is stopping at the Dufferin. "Hamilton has increased its population by 18,000 in the last decade, and big industries are selecting it as a site in preference to other towns in Canada. The industrial commissioner used to kick because Hamilton was a tight union town; now he is inclined to think that it is one of the city's advantages because the high wages attract the best class of workers. "St. John evidently has yet to realize that high wages means increased business activity. When you visit a town you can tell by the character of the buildings, the stores and dwelling houses, and the appearance of the workers themselves, whether the wages are paid or not. There is a big difference between St. John and Hamilton in this respect, and that is not a good advertisement for the city. "Hamilton has long had comparatively cheap power supplied by the Cataract Company. But nevertheless its rates were considered exorbitant and the people elected three city council members pledged to establish a Hydro Electric Commission and to buy power from Niagara, and three times the Cataract Company got hold of the council and prevented them taking this action. But we did finally elect a council which kept its promise and now power is supplied from Niagara in competition with the Cataract Company, and we are getting much cheaper power than Toronto. As a result of this action on the part of the city some of the biggest manufacturing plants in Canada are now being erected in Hamilton. The city gives no bonuses or exemptions from taxes in some cases it has allowed a fixed assessment. It has bought up a tract of land and sells sites to new industries at cost prices."

The delegates expressed themselves as well pleased with the outlook for the election of Mr. Maxwell, and declared that he would get the support of many voters outside the ranks of workmen as the citizens who have voted for business men year after year feel that it is time the workingmen should have a chance to see what they can do in the way of governing the city.

A YOUNGSTER HAS RIDE ON BULL MOOSE

Tarrytown, N. Y., April 4.—The sporting instincts of the residents of the Gayton Avenue were considerably aroused last evening when a large bull moose made its appearance in the National Park and calmly ignoring the signs proceeded to make a meal of the grass. It had not been engaged in this peaceful pursuit very long before a pair of boys spotted him and they, together with several men tried to round the animal up. The moose, however, was armed with a fair sized pair of horns and as it did not take kindly to the welcome offered it in the city of the localists, things became decidedly lively as the would-be capturers climbed trees and scrambled over fences and indulged in other athletic pastimes. One youngster, however, was too slow to get out of the way and had an experience that he is not likely to forget for a long time. When the moose saw that he could at least catch one of his assailants he charged just as the boy was in the act of climbing a tree. Luckily for the youngster he was too far up the tree to get the full force of the blow but the shock caused him to let go his hold and to the antlers. Thinking that his last hour had come the boy grasped the horns and the moose started by this sudden turn of affairs became frightened and started at a trot for the suspension bridge, carrying the boy with him for a short distance. The youngster got up courage enough to slide off none the worse for his strange ride.

BRASS BAND IN ST. PHILIP'S.

The St. John Brass Band, which is composed of colored members, the number of about thirty, made their first public appearance last evening when they attended the St. Philip's church and during the service rendered a couple of hymns. The band was organized only last fall and with hard practice and study they have advanced wonderfully, and their playing last night was highly creditable. The church was crowded to the doors, and a powerful Easter sermon was preached by the Rev. Mr. Pearson.

PLUMBERS WANT RAISE.

At the meeting of the Plumbers and Steamfitters' union held Saturday evening, it was reported that the bulk of the employers had conceded the demand of the men for \$3.00 a day, and that the outlook was bright for a general increase. Some of the smaller employers, who are not very busy just now, refused the increase, and their men will be on strike today, having given notice on Saturday that they would not return to work without an increase. Most of the larger plumbing concerns granted the increase some time ago.

BASEBALL NOTES.

If Pres. Ward of the Boston Nationals can find a practice field in Washington or Baltimore he will keep his Yankees with the main guard until he takes all of his players back to Boston for the opening April 11. Roger Bresnahan is standing pat with his Cardinals and will not have new men in the regular lineup. He has, however, a few youngsters, whom he thinks will be ripe by 1912. Billy Hamilton, the Boston Nationals' scout, has returned from the southern training camps and reports that he did not see very much material that he can conscientiously recommend to the home management. Neither the Athletics nor the Phils seem to be taking any chances with their best pitchers in the present ante-season series.

LADIES AND GENTLEMEN:—
In asking your kind consideration and support in the coming campaign I do so, feeling that those who supported me in the past two campaigns should have a short statement of how I have attempted to legislate in civic affairs in the interest of our City. Having been to the Capital four times in the last two weeks, fighting the interests which I promised I would uphold, considering it my first duty to the electors, thereby limiting my time so it was impossible to make a personal canvass in my own behalf, let me take this opportunity to thank all of my warm supporters, and trusting I will merit your confidence and support, I am, ladies and gentlemen,
Respectfully yours,
F. L. POTTS.

In offering myself three years ago as a candidate for civic honors, I discovered that the enormous interests paid on the bonded debt for the city was a tremendous drawback to the producing of good results from the amount of money assessed in taxes for the management of our civic affairs. I immediately endeavored to find out how I could best reduce that bonded debt and still inflict no greater tax upon our citizens. Being familiar with real estate and its values, I turned my thoughts towards the land owned and controlled by our city, and discovered the system worked for so many years by civic legislatures was entirely opposite to those that I, as a private citizen, doing my own business, would tolerate, or that any financier would follow were he desirous of getting best results. But before I could make headway along these lines of business it became necessary for me to have repealed a law of the Provincial Legislature whereby you could not sell any piece of land for a less sum than the amount stated by that Legislature. This took time, as first I had to work to have it passed through the committee; second, to the Common Council itself; third, to the Bills and By-laws Committee; fourth, back to the Common Council; fifth, to the Legislature of New Brunswick. This in time, I succeeded in doing, and will now give to you a statement of what the City of St. John has actually received in the past.

Lancaster Lands

Referring now to Lancaster lands, the total receipts for 1911 were:
Rentals and buildings... \$2,785
Lands... 3,975
Being a total of... \$6,760
Expenditures for the year 1911... \$5,964
Leaving a net surplus to our city of... \$796

Rate of Taxation

Now, if you will refer to the Saturday evening Globe of March 23rd,

If elected, this same flat rate of taxation with my experience as a real estate broker and auctioneer, will enable me to see that the vast quantities of vacant lands owned by a handful of people will be placed on the assessment of 1912 at something near their relative values which will cause, in my opinion a lowering of even the tax rate of \$1.28.
The clerk, the mechanic, the salary earner can elect me as they have, I feel, in the past, in spite of the money interests that are opposed to me, and if they do they will elect one who is not afraid to fight and one who would elect with perfect independence to all—no executive minds to control mine, neither is there any body of citizens, organizing wards and canvassing people to assist me in the great cause of the masses whom I have the honor to serve.

Advantages of the Single Tax

And now to answer or to remove a few doubts in reference to my policy of taxation, which I might say three years ago, even in the Union of New Brunswick, Municipal gatherings at Woodstock, not one city or parish in New Brunswick would, certainly, after two years labor on my part at the doors of the House and inside of the doors there has been a bill from four cities praying that this system might become a law, proving to you that I have awakened the people to their rights. The single tax will bring abundance of money into our country for investment. It will encourage manufacturers to build and extend and locate in our city. It will make the vacant lands when held in big blocks too valuable to remain idle. It will force the owners to build or sell so others can build. It will encourage enterprising real estate companies to build blocks of houses and sell to the working man at a price payable in rent, whereby at the end of ten, fifteen or twenty years, according to the desire of the buyer, he will own his own home. It will turn our city into a city of homes and give the worker the chance to look his family in the face when his time has come and say, "I have at least left you a freehold home." This and this alone will do more to encourage and interest our citizens in our city than any other measure of which I know.

No Unfair Results

What it will not do: It will not let those who lease you the land upon which your home is built increase your ground rent one dollar. It will not add one dollar to the piece of land you own and which you have improved but will reduce it in accordance with the amount of vacant land in your locality. It will not reduce the land owners on King street or Charlotte St., at the expense of the man in the North End or Lower Cove or the West Side, but in every block where there is vacant property the taxes on the improved freshhold will be reduced. It will not increase the burden on a man in the residential district who owns a house and an extra lot for it will reduce the amount on the improved property. It will raise the price on the vacant land but the vacant property becomes, if sold in a reasonable time, more valuable, because it costs no additional taxes to improve it.
No fair-minded man owning a lot or two should cast his ballot against the promoter of this principle because what has forced this upon our people is the fact that two or three estates have so retarded the progress of our city that it has caused a rebellion of the workers who wish to see this city of ours made one of the finest in Canada, and without hiding those are the people I am for and I humbly ask the support of every well-meaning citizen in this present campaign.
In conclusion, let me say, before the Commission is elected that the city might be governed by four Commissioners and a Mayor, I had a resolution before the Council asking that the citizens be prepared to govern the city by five Aldermen and a Mayor at a salary of \$2,000 a year, showing to the Council could produce better results.

Trusting to receive your support in the coming campaign, I am,
Yours respectfully,

ELECTION CARD

To the Electors of the City of St. John:
Ladies and Gentlemen,—Now that the New Charter has materialized I have decided to accede to the earnest solicitation of the citizens in general to become a candidate for the Mayoralty at the approaching Civic Election. During the eight consecutive years you so loyally supported me, I think I faithfully and impartially discharged my duty (at least I have heard nothing to the contrary). I also will be pardoned if I assume the credit of having made a banking agreement that has saved the city thousands of dollars and of launching a system that has helped to bring about the very strong financial position that the city now enjoys. The re-organizing of the Chamberlain's Department was also a distinctive feature during my term of office. I am not out with any cheap pre-election promises. If you support my candidature my aim will be to give you the best that is in me and that will mean a lot and decidedly to the advantage of the city.

The Board of Trade should be encouraged in their endeavor to induce new factories and business houses to locate here and in order to bring this about in these days of keen business competition, we must have something to offer, something for the manufacturer and something for the men employed by him. Furthermore a more persistent effort is required seeking for the nationalization of the port. The Railway and Harbor facilities are to be expanded—never before equalled in the City's history and with the growth of our population and community—Civic business will certainly assume larger proportions and your representatives increased responsibilities. Personally I will see that the future is not jeopardized by extravagant expenditures and contracting of debts. I think all are bound to admit that an active, successful business man and one who is well versed in civic matters is a pretty good combination. If I did good work before, I stand to accomplish even better results under the new order of things.
Thanking you in advance for your vote and support,
T. H. BULLOCK.

VOTE FOR WIGMORE

A LAST WORD TO ELECTORS

In tomorrow's election vote for the man whom you honestly believe can give you the best service in City Hall. Don't pay any attention to talk of tickets of more or less business ability. Vote for the independent man who will not be at the beck and call of any favored set.

Be Your Own Citizens' Committee

Don't let others exercise your rights for you. Vote for the man you know will give you a square deal. If you do I will be elected.

H. B. SCHOFIELD
For Commissioner, says:
"I am desirous of being elected altogether unfettered by promises of any kind, except to render the city of my birth the best possible service, under the Commission form of government. I feel very strongly that this idea will expand and evolve itself most advantageously under the care of the men who are Citizens' Candidates. Therefore, I appeal to the electorate to vote for the whole five. Place your civic government in the hands of these men and I shall do all I can to make it the success you merit."
Faithfully,
H. B. Schofield.

W. W. ALLINGHAM
For Commissioner, says:
"If the electors of St. John honor me with enough of their votes, as they have by nominating me as a candidate for one of the Commissioner's positions, I shall give them faithful service. I am a young man, that's true, but have seen a lot of hard honest work and have made myself acquainted with the needs of the people at large, particularly the working people, so-called. St. John is starting all over again, as it were, and I feel I can materially assist in bringing before my fellow commissioners, if elected, many ways for improvement heretofore neglected."
Honestly and squarely,
W. W. Allingham.

W. SHIVES FISHER
FOR MAYOR
Of Emerson & Fisher.
Head of Enterprise Foundries.
A Most Progressive Citizen.
In all Forward Movements.
Writing from Edmonton, Alta., Mr. Fisher says of his candidature: "Let me ask you to express for me my hearty thanks to all those who are working so hard to elect the Citizens' candidates—a ticket on which I am pleased to hold a place. I can only hope it will be successful and that the verdict of the people last April in favor of the Commission plan of Government may be upheld in the selection of people's candidates."

C. B. ALLAN
For Commissioner, says:
"The commission form of government is a settled question. It now remains for St. John's citizens to decide in whose hands they will place the carrying out of the test of the new arrangement.
"Whether this shall be entrusted to the Citizens' Candidates, who have been friendly to the progressive idea, or whether they place their interests in the keeping of other gentlemen who have not been so favorable to the change, is for the public to say.
"I have been honored with a place in the citizens' list of candidates and I respectfully appeal to you for your votes and influence. If elected I shall give to the interests of the city the best services of which I am capable."
Sincerely,
C. B. Allan.

MILES E. AGAR
For Commissioner, says:
"The Citizens' Committee in conformity with the public demand that they submit candidates for appointment of mayor and commissioners, have honored me by their indorsement as a candidate for one of the commissionerships. I have accepted the nomination and appeal to the electors at large, to support, at the polls, the citizen candidate with which I am associated. I have always taken a deep interest in my city's welfare and have enjoyed a lengthy business training. I believe I can adapt myself to the claims the new position will involve. Should the citizens' candidates be endorsed and I chosen as one of your Commissioners, it will be my most earnest endeavor to do all I possibly can to promote the interests of our city, and the welfare of the citizens.
Your obedient servant,

SPROUL FOR COMMISSIONER

When you mark your ballot remember that you owe it to your city to vote for a capable and independent man.

James Sproul is YOUR Candidate for Commissioner

SPROUL FOR COMMISSIONER

Ladies and Gentlemen:

I have enjoyed for two years the confidence of the electors as the representative of Sydney Ward in the Common Council. During that period I have given generously of my time to a study of civic matters and, as a result, have acquired a knowledge and experience invaluable to any candidate who desires to become a commissioner and who may be called upon to undertake and discharge the enlarged duties and responsibilities. I have always favored a new form of civic government.
Under these circumstances I would respectfully solicit your support.
JOHN B. JONES.

ELECTION CARD

Ladies and Gentlemen. Electors of the City of Saint John:

I will be a candidate at the coming civic election.

I am and have been in favor of the Commission form of Government and firmly believe that an honest effort in giving it a trial will meet with success.

I respectfully solicit your support.

Harry R. McLellan

Ladies and Gentlemen:

Electors of the City of Saint John.

I will be a candidate for the office of Commissioner at the coming civic election. Having had four years experience in civic affairs I feel that I can administer the affairs of our city in the best interests of the whole, with special privileges to none.

Thanking you for the splendid support you have given me in the past, I ask for a continuance of your confidence.
Yours respectfully,
W. E. SCULLY.

LOVE BALLAD STARTS SUIT

"All That I Want is Love," Aroused Hubby's Ire—She Inherited Millions from Her Father.

Boston, April 6.—Echoes of that tender, living melody, "All That I Ask of You is Love," sung softly in a sweet soprano on quiet starlit nights, when the air was fragrant with the breath of flowers and young Dandel Cupid fared forth with his quiver jammed with arrows, will be heard in the Dedham Court tomorrow in a divorce suit that is expected to set Boston and Brookline social circles agog. The fair singer of the love song, it is charged, was Mrs. Mildred Hoyt Woodruff. Her husband, Lewis S. Woodruff, a Boston broker, makes the accusation, the complaint being that she sang it to another man—a prominent Beacon street physician, while

he reclined with his head in her lap and listened to the entrancing strains. It is a song with a peculiarly tender, swinging refrain, and with words that are susceptible of various rendition. This is how it goes:

I care not what the world may say,
Or if it mock and jeer;
I'd care not for its smiles and frowns,
If you were always near.
You are my very all in all,
Beneath the heaven's blue
And all else is naught to me,
The breath of life is you.

All that I ask is love,
All that I want is you;
And I swear by all the stars,
I'll be forever true.
All that I seek to know,
All that I want above,
All that I crave in this wide, wide world,
All that I ask of you is love.

The chorus of this song is marked, "Vivise lente"—wait slowly. And when there is a long "chord" on the word next to the last, so that more thrilling and passionate tenderness may be infused into the final word "love," this is the second stanza:

To greatest heights or lowest depths
I'd go to be with you,
Your kisses burn upon my lips,
And thrill me through and through.
To be with you I'd gladly give
My very soul and all,
Without you life is incomplete,
I'm yours beyond recall.

When Edgar Selden finished this lyrical gem he shut up his typewriter, not having anything more to say. He had used up about all the affection that his ardent keys could produce. Anything else would have been an anti-climax, except a repetition on the chorus, with its long, lingering, throbbing finale:

"All that I ask of you is love!"
On the rocks and crags of Oronoque
On the picturesque coast of Maine,
It is related that Mrs. Woodruff sang the tender song while the waves of the sea rippled an accompaniment.

The husband weaves the singing of this love song into a suit for divorce, complaining that it was sung on "moonlight walks" at "veranda parties" and even during "wading parties." Mrs. Woodruff in a counter com-

plaint names a woman, but does not say whether or not she sang love songs to her husband. Mrs. Woodruff is the daughter of the late Charles G. Hoyt, who left an estate valued at \$3,000,000. She and her husband lived at No. 42 Harrison Road, Brookline.

ODD SHAPED TOWN IS TO BE LAID OUT

Carpinteria, Cal., April 6.—The chamber of commerce here is considering the matter of incorporating Carpinteria as a city. A plan has been proposed, which, if adopted, would give this place a unique distinction in all the coast territory. The valley is nine miles long and averages a mile in width, and has a location between the mountains and the ocean. The proposed plan is to incorporate the whole valley as a city, and thus lay the foundation for a magnificent fertile country, where neglected land can be purchased for six dollars an acre. At Amey, Chignadega, Chichigalpa and Posoltega small groups gathered at the station, waved their hats and shouts "Salute Chamorro!" This is the General Chamorro, who figured prominently in the revolution and is now a candidate for the Presidency with a strong following among the humbler classes. The largest crowd was at Leon, the ancient Spanish capital and the hotbed of anti-Americanism. There was no cheering here. In the front row on the station platform was Nonsalez, author of a leaflet warning the Secretary that he might meet the fate that befell the American filibuster, William Walker, who was executed in Nicaragua about 1855. At the same time there were no derisive cries nor were any heard at any point throughout the trip to Managua. The return of the train to Managua was not without incident. The slightest discourtesy and no inconvenience unless it were that of the obligation of replying to the incessant "Salute Chamorro!" The other political situation is within the Conservative Government, where three factions happily united in the welcome of Mr. Knox, are easily discovered. LIBERALS OF NICARAGUA DISAVOWED UTTERANCES

Restore Palace to Old Time Grandeur in Honor of American Guest—Political Situation in Nicaragua.

On Board U. S. Cruiser Maryland Of Corinto, Nicaragua, April 6.—Following the algonimic trip of Secretary Knox he may be interested to know that the author of the now famous Knox note to Zelaya, which finally broke the latter's power and made him an exile, occupied in Managua the presidential palace—the first of that imposing example of Moorish architecture since it was hurriedly vacated by the Liberal president Madriz, Estrada and Diaz during brief tenures of the presidency contented themselves with more humble quarters, but the palace was restored to something of its old time grandeur in honor of the American guest. More pleasant news for Zelaya will be that he still has a few friends who are who did their best to make the visit an occasion for anti-American demonstration. However, in this they failed utterly. Mr. Knox found himself projected into a bitter political fight, or, more properly, two fights. The Liberals, who were shorn of power by the Estrada revolution, have never forgiven the United States for the influence it exerted at that time. Some of the Liberal papers in Managua waged a bitter campaign against the arrival of Mr. Knox when most of their editors were put in jail, where they remained until the secretary of state left the city. General Rodolfo Espinosa, perhaps the ablest man among the Liberals, now an exile in Costa Rica, called upon the secretary of state during the latter's stay at San Jose and besought him to use his influence to prevent the persecution of Liberals by the Conservatives in Nicaragua. Of course, the secretary of state could not meddle in the affair, but he would have been better pleased if the Conservatives had used less strenuous means to protect him from insult.

As a matter of fact, when the agitation was closely analyzed, it appeared that the feeling was less anti-American than anti-government, and many Liberals called upon the secretary of state in Managua to disavow the inflammatory utterances and insisted that their grievance was against the Conservatives who they declared had failed to fulfill their promises for reform. Many denied that they wished Zelayaism restored. It also seemed plain that the anti-Americanism was confined chiefly to the uninformed, who in their ignorance of the real policy of the United States had been easily made to believe that the visit of the secretary of state was the forerunner of American occupation. This belief has been found among the less informed in other countries visited.

The train carrying the Knox party from Corinto to Managua suggested an armed invasion. First there was a pilot train consisting of locomotive and one car, the car carried fifty soldiers and from the rear door a Colt automatic gun with a capacity of two hundred and fifty shots a minute was fired upon the special of five cars immediately following. The position of the weapon aroused mixed feelings among one class of the passengers, but fortunately a freight car, filled with musicians, and two coaches occupied by Nicaraguans, intervened between the artillery and the Presidential coach set aside for the Knox family. Closely following the Knox train was a train of three cars carrying a hundred soldiers and another machine gun. At every station soldiers lined the track on either side. The soldiers were fully armed and were in light marching order. The cartridge belts were fixed on the automatic ready for instant use.

All this precaution was not as reassuring as it was intended to be, but as the trip progressed and nothing unpleasant happened the Americans became accustomed to the military display and rather enjoyed the ride off thirty miles, though it occupied six hours. The train passed through a magnificent fertile country, where neglected land can be purchased for six dollars an acre.

At Amey, Chignadega, Chichigalpa and Posoltega small groups gathered at the stations, waved their hats and shouts "Salute Chamorro!" This is the General Chamorro, who figured prominently in the revolution and is now a candidate for the Presidency with a strong following among the humbler classes. The largest crowd was at Leon, the ancient Spanish capital and the hotbed of anti-Americanism. There was no cheering here. At the same time there were no derisive cries nor were any heard at any point throughout the trip to Managua. The return of the train to Managua was not without incident. The slightest discourtesy and no inconvenience unless it were that of the obligation of replying to the incessant "Salute Chamorro!" The other political situation is within the Conservative Government, where three factions happily united in the welcome of Mr. Knox, are easily discovered. These are headed respectively by President Diaz, Pres-

ident-elect General Luis Mena, the Minister of War, and General Chimnora, nephew of the Foreign Minister and who is not in the Government but participated in the welcome to Mr. Knox. All three factions sought to make political capital out of the visit, but to the credit of the Secretary of State be it said they seem to have failed utterly. Following the success of the revolution and the retirement of Madriz, who had succeeded President Zelaya, the Dawson convention with the United States was adopted. This provided for a provisional government headed by Estrada pending the election of a constitution and a popular election. Estrada proved less of a statesman than a soldier and soon resigned, being succeeded by Vice-President Diaz. General Mena, who is in absolute control of the Assembly, as well as having at his back five thousand men constituting the present army, anticipated the popular election and had the assembly elect him President for a four-year term, beginning on January 1, 1912. He holds the whip hand, and in conversation on the train confidently stated that he would be inaugurated on January 1. It is quite possible that he will be, but Diaz has never relinquished his right to a chance at a popular election and Chimnora is an active candidate. These two men do not talk much, but their followers freely declare that Mena violated the Dawson convention and that his election by the Assembly was illegal. In this situation there is presented the greatest danger of another revolution. The government apparently is strong enough to hold a check, for some time at least, the Liberals who are practically bankrupt, though there is a good reason to believe that in an election they would have a good chance to turn out the Conservatives; but whether the Conservative House, divided against itself, can stand is a question.

The three men who claimed to be the leaders of and to speak for the Liberal party are Espinosa, now in Costa Rica; Dr. Julian Irias and Jose Dolores Gomez. The latter was once secretary of the Liberal party and his foreign secretary, and during Zelaya's rule waxed wealthy. Falling out with Zelaya, he joined hands with Estrada, only to be exiled by the latter when the Revolutionists triumphed because of his former Liberal sympathies. Gomez owned the most beautiful home in Managua. The place is now leased as the American legation and part of Mr. Knox's party lodged there while the Secretary was in Managua. Gomez is living in San Salvador with his two sons, who were educated in the United States, and five daughters, who were educated in Europe. He hopes to return to Nicaragua when the present administration is overturned, as he thinks it will be. Recently he issued a manifesto saying that the Liberals were not inimical to Mr. Knox, or the United States of America, and would consent to entering the United States as a patriot or agree to a Central American union. Meantime he asks the Secretary to use his good offices to bring about a popular and fair election in Nicaragua, which he insists would bring in the repudiation of Diaz and Mena.

Headaches Over the Eyes Mean Frontal Catarrh

APT TO GET INTO EARS, CAUSING DEAFNESS, OR TO REACH THE LUNGS AND END IN CONSUMPTION. You Can Cure Catarrh in Any Stage by Breathing the Healing Balm—Furns of Catarrh—zons, and Here is Proof.

Mr. Eric Beraut, a young gentleman who has lived for years in Sweetburg, Que., inherited catarrh from his mother. The disease spread through his system till he was a physical wreck.

"As a child," said Mr. Beraut, "I was prone to an ulceration of the mucous lining of the throat and nasal passages. I grew pale and emaciated, lost all desire for food and got into such a dreadful condition that my friends said that Catarrh was fairly eating me up."

"Every organ of my body seemed affected, and the doctor said it was the first stage of consumption. He advised Catarrhose and I inhaled it ten minutes at a time every few hours, and was rewarded in a few days by a wonderful improvement. Catarrhose pleased me and the doctor so well that I used it continually, and took Ferrozene Tablets after each meal to build up my strength, in about three weeks I was quite recovered and the doctor says no remedy but Catarrhose could work such a miracle. "Everyone in town knows I was just about dead with catarrh, and my cure is an evidence of what Catarrhose can do. It is a pleasure to recommend Catarrhose."

Fashion's Fancy Turns to Taffeta

Taffeta is Combined With Voile

Afternoon Dress in Changeable Effect

THIS fancy of Fashion and her devotees has turned to taffeta. Make no mistake—it is not the stiff, crackling silk of five years ago; it is soft, supple and capable of the most beautiful colorings and changeable combinations of tones.

In the construction of taffeta gowns there is wide scope for ingenuity and, incidentally, beauty. Figured taffeta can be allied with plain; the vogue for stripes and diamond-shaped checks is noticeable; while the always lovely touch of lace, velvet and ribbon is not to be forgotten in the general plan.

The silk frock fills a place in woman's wardrobe. It can be worn during spring, summer and fall. It serves excellently for a winter house dress and is appropriate for afternoon or evening.

The taffeta style stands epitomized in the charming little striped gown with the accessories of bag, parasol and flower hat. A box-pleated ruffle trims the lower edge of the skirt, falling over a hem of plain silk. On the bodice there is shown the charming jacket effect so evident this spring. The jacket is of plain silk, scalloped and bound with striped silk. It is crossed in front and shows decided fullness in the sleeves. Extra lace is draped in a soft tulle in front. The top of the hat bodice is cut in the straight, French-neck style. Notice the soft, striped crown of taffeta on the little hat; do not overlook the taffeta parasol, with its dark contrasting lining; and give attention, please, to the postbag of taffeta embroidered in wooden threads.

A practical walking suit of blue taffeta is exploited for street wear. It is also excellent for traveling. The coat shows a director's tendency, with its crossed line, its large buttons and its cord trimming.

Sleeves are fitted at the armhole, with wide cuffs. Something new is the combination of taffeta and voile. The sheer skirt is tucked and trimmed with a deep hem, inset panels of embroidery and large buttons. Under it is a taffeta skirt. A chic jacket effect is given by the soft folds of taffeta, draped above a fitted bodice of embroidery. Pieces of taffeta are applied at the sides and a swallowtail effect is given in silk at the back. The sleeves are three-quarter length, falling over sub-cuffs of embroidery.

In the hat of taffeta there are numerous possibilities. It completes a costume; in black it can be made to harmonize with any suit. It is light-weight and can be made at home. The model is a blue-and-gold color scheme. The hat shape is covered with taffeta, a quilting of silk outlining the edge. The crown is draped with the silk, and silk grapes or the blue and gold are covered with gold lace. The whole effect is artistic—and copyable.

Changeable taffeta is on the crest of fashion's wave. It is combined with a heavy lace "apron" that covers the bodice and hangs below the waist in front and back. The skirt shows full lines and is trimmed with shirtings and quiltings on cords in two bands. A row of taffeta bows is placed on the central line, below the lace tulle.

Last in the group is a taffeta gown that utilizes a short piece of silk in the skirt. The bodice is of the favorite shadow lace and shows a back-wing disposition of the lace in front, caught by a row. "Cuffs and a shallow square yoke of silk are made from the pieces." A crushed grille finishes the frock.

But turn to taffeta is decidedly the better. Surely, these prove to you its practicality and its beauty!

Easter at the Dufferin. An excellent Easter dinner was served at the Dufferin Hotel yesterday, all the delicacies of the season being on the menu. The guests were presented with a handsome menu card, got up for the occasion, and it was highly appreciated by those who were fortunate enough to have received one.

Exports Now Over \$22,000,000. Up to date 86 winter port steamers have filed their outward papers at the customs house. The valuation of the cargoes follows: Canadian goods, \$12,000,215; foreign goods, \$9,248,613. Total, \$22,258,828. The winter shipments amount to 5,886,432 bushels.

Pet Cat Killed. The firemen in No. 2 station on Sydney street were grieved yesterday afternoon on the loss of their pet cat. The cat was hit by a car at the station shortly after five o'clock when a dog caught hold of it and broke its back. Police Constable Crawford was called on and put the cat out of misery by shooting it.

The World's Red Letter Day. W. W. Lee, immigration secretary of the Y. M. C. A. was the speaker at the boys' meeting in the Y. M. C. A. yesterday morning when he delivered an interesting address on the "World's Red Letter Day." After the lecture the orchestra played several selections and Ronald Edwards read a flute solo.

Windows Broken. Policeman Sullivan reports that a large pane of glass in Jones & Schofield's wholesale grocery on the North Wharf was found broken yesterday morning. The proprietors were notified and the window was closed up. A man unknown to the police tripped and fell through the window of Dearborn's spice factory on Water street early yesterday morning and broke one of the large panes of glass. An employee of the firm was summoned and the break was closed up.

Will Enforce Law. Acting on behalf of the New Brunswick Law Enforcement League, Rev. W. R. Robinson has started a crusade with the object of closing up all the disorderly road houses in the neighborhood of St. John. Information as to the undesirable character of four road houses near St. John has been secured and steps will be taken to close them up immediately. The proprietors of one road house on the Westmorland road was warned to close up her premises some days ago and she acted on the advice to get out with considerable promptitude. It is understood the New Brunswick Law Enforcement League will proceed against such houses all over the province.

PERSONALS

Mrs. Joseph Doherty accompany by the Misses Hazel left on Saturday evening for a short visit to Boston.

Rev. D. McDermott of Moncton passed through the city on Saturday on his return from a trip to the West Indies and British Guiana. During his tour he visited the Presbyterian churches in the South.

The speakers did not present any definite platform, choosing rather to confine their remarks to the commission plan of government and their conception of its plan of working. Each candidate argued that it is unwise and fallacious to make vague promises at this stage of the movement, as problems will arise and new conditions will eventually obtain that no man can state positively upon in advance.

D. P. Higon made rousing remarks in support of the Citizens' Candidates and Chairman Tilley was also heard. The meeting dispersed about 11 o'clock, but before the crowd left a large number volunteered their services for polling work on Tuesday.

CENTENARY CONGREGATION WIPES OUT ITS BONDED DEBT

Raised \$21,500 in Extra Contributions in Less Than Two Years — Welcome Announcement was Made at Easter Services—Result Achieved by Hearty and United Efforts of Congregation.

Yesterday's Easter services in Centenary church were more than ordinary interest, inasmuch as by the hearty and united efforts of the congregation the entire bonded debt of the church was wiped out. The occasion was made one of congregational rejoicing and the announcement of the much desired result was appropriately marked.

When Centenary was built, in spite of the generosity of the people of that time, it was found impossible to raise the entire amount of money required, and bonds were issued covering the balance of \$21,500, bearing four per cent. These short term bonds were renewed and the present issue made to fall due in June of this year.

Some two years ago a movement was started by the younger men of the church, taken hold of by the congregation generally, and carried forward with enthusiasm, with the object of making payment of these bonds when they fell due. The system adopted was one of voluntarily subscriptions of one, two or three payments spread over a period of two years, the final payments being available on June 1st, 1912. Previous to this, the ladies of the church had raised between one and two thousand dollars, which was turned into the general debt fund.

The ladies later formed a new organization to assist in the scheme, and have contributed most generously to the movement. The men's committee with the approval of the official boards of the church appointed a board of trustees consisting of W. S. Allison, H. P. Hayward and E. T. C. Kuowles with Chas. F. Sanford, as treasurer, to receive and handle the funds placed at their disposal. As payments came in, outstanding bonds have been purchased whenever available and the interest applied for the purchase of other bonds.

So successful were the efforts of the different committees that a week ago the treasurer was able to present to the congregation a statement showing that, with all subscriptions accepted at their face value a balance of only \$600 was required to entirely cover the debt. But it was found necessary to make certain allowance for lapsed subscriptions resulting from death or other causes. A sum of two hundred dollars was considered sufficient to cover these, so that between eight and nine hundred dollars was actually required.

The finance board gave permission to the debt committee to apply yesterday's church collections to the debt fund, and a special effort was made to raise the required balance. At the forenoon service the collection amounted to \$255. During the day new subscriptions to the amount of several hundred dollars were handed in, and at the evening service the collection was found sufficient to cover all shortages at present in sight.

The pleasing announcement that the bonded debt had been fully provided for was made by Dr. Plandford to the half of the trustees of the fund before last night's service closed.

Thus within two years, in addition to their regular, and several special, contributions, Centenary congregation has raised \$21,500, and after June the church will be relieved of an annual fixed interest charge of \$800. Natural by this result is a source of sincere rejoicing.

HYATT KNOCKS AND AUDIENCE GETS SORE. Reference to St. John by Would-be Commissioner as "One-horse Burgh" is Warmly Resented.

The Unique Theatre was filled last evening by an audience that had assembled to hear the Socialist candidate expound his doctrines. There were not many dull moments during the evening, and the audience apparently enjoyed the sallies of the speaker, who knocked about all the other candidates except George Maxwell.

C. W. Washburn presided and P. Taylor and F. Hyatt delivered the orations of the evening. Comrade Taylor pointed out some of the principles of socialism. He declared that the world had had enough of business men's government. For generations business men had been running affairs, and though they had had the opportunity of utilizing the productive power of machinery to make the world a great place to live in, they had merely created conditions under which the masses were less secure of a livelihood than under feudalism.

Mr. Hyatt, the candidate, scored Mr. Allingham for running on the same ticket as the rich men, and said he was glad to see that the trade unions were class conscious enough to throw him out of the presidency of the trades council and run an independent labor candidate.

He paid his respects to the editor of the Times and said that Journal had been wiped out in Milwaukee. What the socialists did was to wipe out the old parties which had united to wrest the government from the socialists. The socialists polled a larger vote at the recent elections than a year ago, and elected 11 aldermen.

After referring to the fact that he had been allowed to speak in London, he protested against the action of the chief of police in forbidding socialists to speak in St. John, which he called a one horse burgh, a statement that was greeted with hisses and cries of take it back.

The orator said he was taking back nothing, and went on to criticize economic conditions in the city. An animated discussion followed, in which a number of the audience took part.

CANDIDATES HOLD PLEASANT SMOKER. 500 Present at Entertainment Saturday—Citizens Committee Candidates Believe New Conditions Will Arise.

The smoker in the Keith suite Saturday evening at which the Citizens' Committee candidates delivered addresses was attended by over 500 men and between the speeches there were musical numbers including songs by F. C. MacNeill, Chas. A. Munro and orchestral selections by Alfred Jones' musicians. L. P. D. Tilley occupied the chair and Messrs. Schofield, Allan, Agar and Allingham were well received.

The speakers did not present any definite platform, choosing rather to confine their remarks to the commission plan of government and their conception of its plan of working. Each candidate argued that it is unwise and fallacious to make vague promises at this stage of the movement, as problems will arise and new conditions will eventually obtain that no man can state positively upon in advance.

Good Results in Painting The Moore's House Color Paint

Wears longest because it is made of the best materials. It has the best appearance because it is ground very fine, spreads evenly, and the colors are clear and strong. It affords greatest economy because its extra fine grinding makes it cover most surface, and it wears longest and the need of re-painting is put off.
