NEW YORK SOCIETY WOMAN LEFT \$75,000,000 AS SLAG

Second Husband Died on Wedding Tour Former Mrs. J. Rhineland Stewart, Who Got a Divorce a Few Months Ago to Marry James Henry Smith, is Free Again--How a Millionaire Recluse Achieved Social Fame in Record Time.

(From Our Own Correspondent) New York, March 27.--By dying last night, James Henry Smith added another to the list of those who may, with some show of reason, lay claim to the title of "the richest man in the world."

Smith will rank financially with Henry Green and as such was the leader in New York's most exclusive set. Her husband, who was a member of two of the oldest American families, and quite wealthy, was of a quiet studious disposition, and did not care for the social whirl.

Last August the lady who is now the widow Smith was Mrs. Wm. Rhineland Stewart, and as such was the leader in New York's most exclusive set. Her husband, who was a member of two of the oldest American families, and quite wealthy, was of a quiet studious disposition, and did not care for the social whirl.

The story of James Henry Smith which ended then, began when George Smith came here a poor boy from Scotland in 1834. George was James Henry's uncle, money, and then began to get rich. He went to Chicago, worked hard, saved money, and then began to get rich.

His transition, at over middle age, from a Wall street grub to a social butterfly is one of the interesting stories of New York. Once possessed of his enormous fortune he developed an ambition to shine as a social leader and did not let any grass grow under his feet in making it known what his ambition was.

HALIFAX JUDGE STARTLES COURT

Tells of a Woman Arrested on a Serious Charge and Never Arraigned

Justice Meagher Tells Grand Jury That the Slurh Said it Was a Case of Murder--Calls on Grand Jury to Probe Matter.

Halifax, N.S., March 27.--Judge Meagher of the Supreme Court, addressed the grand jury today in terms that deeply interested them and the crowd in the court at the time. The judge told in clear language of an incident of some years ago which he said ended in a gross miscarriage of justice.

"But," said the judge, "such things continue. Recently I received an anonymous letter, stating that a young woman employed in a city establishment had given birth to a child, and that criminal accusations followed. The letter also said that the young woman had been arrested, charged with a serious crime, and that notwithstanding such a serious charge, felony could be preferred against her, she walked out of the place of detention at her own sweet will and never came before even a magistrate for preliminary hearing."

"It was also suggested in the anonymous epistle that somebody had been 'fired,' and the writer admonished me to interview Detective Hanrahan," said Judge Meagher, "and that he would bear out that the girl was arrested. I sent for the detective a few days ago. He came to the judge's robing room. I said 'Mr. Hanrahan, what became of the girl you had arrested recently in connection with the death of a child?' He said, 'I don't know.' I said to Mr. Hanrahan 'What do you think of the charge against the person who does it amount to?' Said Hanrahan without a moment's hesitation, 'It's a clear case of murder.'"

"Now," said the judge, "gentlemen, you can see for yourselves. This young woman has never been called to the bar of justice to answer the charge, the enormity of which must be perfectly obvious to you. 'Detective Hanrahan said he placed her under arrest and left her at a city institution. It appears,' said Judge Meagher, "that nothing has been done about this matter, but I consider it my duty to have the matter investigated and thoroughly probed."

Now then you can send for any witness you like. The chief of police, Detective, matron of the home or anybody, and if the circumstances are sworn to, then you can go forward. If you find that any official, either wilfully or through negligence, suffered or allowed the defendant to escape, you should indict that person or persons no matter whom, as apparently there has been a miscarriage of justice somewhere.

Judge Meagher proceeded to give other illustrations of wrong doing in the non-punishment of crime.

Washington, March 27.--The state department today received the following telegram from Phillip H. Brown, secretary of the American legation at Tegucigalpa, the capital of Honduras: "Tegucigalpa was abandoned yesterday precipitately. It was occupied last night by Nicaraguan and Honduran revolutionary forces. I assumed charge in the interval, with the aid of the consuls, and preserved order. The Bonilla government is an imposture."

WILL FORCE FOWLER TO PROVE OR RETRACT

Bourassa Serves Notice of Bringing Scandal Charges Up Again Wednesday

Sir Wilfrid Laurier, in Discussing Questions to Come Before Colonial Conference, Says Canada Has No Grievances, But is Willing to Meet Any Trade Offer of Britain's--Is Against an Imperial Council of the Empire--Cattle Embargo a Live Question Yet, He Says.

(Special to The Telegraph.) Ottawa, March 27.--When the house met today Mr. Monk moved that the refusal of C. H. Beddoe, accountant of the interior department, to answer certain questions regarding the North Atlantic Trading Company at the public accounts committee, be taken into consideration as a matter of privilege on Thursday of next week. This was agreed to. The motion calls for Mr. Beddoe to appear at the bar of the house.

The minister of the interior introduced a bill to amend the immigration act and to provide for dealing with stowaways and deportation of criminals. In answer to Mr. Lennor, Mr. Oliver read the London Daily Express on South Africa and making reference to Canada. Mr. Oliver said that no government did not consider any action was necessary in the matter.

Mr. Borden inquired if any negotiations were going on between the government and the government of the United States through the British government respecting matters that have been or are now under discussion as to relations of Canada with the United States. Sir Wilfrid Laurier--I have no doubt Mr. Bryce has since his arrival been discussing with the United States government the various questions affecting Canada, but no official discussion or negotiations are taking place at this moment.

Mr. Bourassa gave notice that, on Thursday next, he would move a substantive motion in order to give Mr. Fowler an opportunity of either substantiating his charges or withdrawing them. Sir Wilfrid Laurier--Make it Wednesday at 6 o'clock, and there will be no objection.

Mr. Foster--When referring to Mr. Fowler, will the honorable gentleman include himself in proposing any such matter, but I consider it my duty to have the matter investigated and thoroughly probed.

Mr. Bourassa said that any one was privileged to make a similar motion against himself, and he would be prepared to answer it.

Colonial Conference Subjects. R. L. Borden took up the subject to be discussed at the colonial conference. He said that the colonies and particularly the United States while the other colonies did not have the same importance and he wanted the government to look at the matter from the position it took up at the conference in 1902, a position that was emphasized by his British parliament, and matters dealt with by the colonial office are brought to the attention of the colonial minister, who is responsible to parliament.

At present our relations with the colonial office are most happy. There was a time in the not distant past when the name 'Downing Street' was a term of reproach to the colonies and particularly in Canada. Happily these things are done with. At present Downing Street is not an object of terror to them, and it is nothing before parliament to warrant an investigation; but the opposition, 'front bench,' did not call upon its own supporter, Mr. Fowler, to make his charges more definitely or to withdraw them to withdraw himself from the house.

PRESS VIEWS ON FOWLER'S POSITION

Toronto Globe Says Man from Kings Must Speak Up or Be Branded as Coward

Montreal Star Asks if He is Going to Remain in the Gutter or Make His Words Good--Bourassa's New Motion Regarded as Putting It Up to the New Brunswick.

Toronto, March 27.--(Special)--Referring to yesterday's debate in the commons, the Globe will say editorially tomorrow, in part: Had Mr. Bourassa noticed one form of partisan tactics adopted when the opposition seeks to embarrass the government, or had he brought up the question in such form or under such order that it could be amended, the vote would have some significance as an expression of parliament, on the questions involved. As it now stands the vote means nothing. The government does not mean that Liberals are not eager to have all scandals sifted throughout and all charges investigated.

No matter what may emerge when Mr. Bourassa brings up the question on Wednesday next, one thing at least has been brought into distinctness before the public mind and cannot be obscured. That thing is the inescapable obligation resting upon George Fowler, whose statements on the floor of the house raised this whole scandal question as an issue in parliament. He must formulate his charges. He must name his men. He must be compelled to make good his threat. He is the one man who has claimed to have evidence. He will not be satisfied until he has given the facts that he has been collecting. He now has his chance.

The prime minister has pledged in most absolute terms that any charges will be probed to the bottom, no matter who will be involved or what the consequence. Mr. Fowler cannot dodge the issue. He must back up his scandal talk or get himself branded as a slanderer and a coward. He has no other alternative, and his fellow members must see to it that Mr. Fowler does not dodge the issue definitely.

Another point made clear to the public by this whole miserable business is the duty of every member of parliament to be independent of the political party to which he belongs in the matter of insisting at least on the conventionalities of decency in the lives of their associates. If their selfishness and pharisaism there is no place among gentlemen, but into the caucus of benches whose private life has notoriously compromised his public reputation. Indeed, a dozen or a score of straightforward, resolute men on the Liberal side of the house would be glad to organize and direct public opinion within their own parties in parliament that neither in government nor in opposition does a considerable seat be found for any open and defiant transgressor of the higher laws of morality and honor.

What traditions of high parliament could not do, determined opinion of caucus can accomplish without let or hindrance.

Montreal Star's Bitter Comments. Montreal, March 27.--(Special)--Discussing the Bourassa-Fowler matter the Star says editorially, in part: As was anticipated the stomach of parliament has proven to be stronger than its conscience. It has swallowed an insult. The ministers are willing to be immoral in private lives. The opposition, 'front bench,' doubts the consistency of the prime minister in now maintaining that there is nothing before parliament to warrant an investigation; but the opposition, 'front bench,' did not call upon its own supporter, Mr. Fowler, to make his charges more definitely or to withdraw them to withdraw himself from the house.

It is the most remarkable thing was the careful manner in which everybody except Mr. Bourassa refrained from the reprehensible Fowler. He was marked 'Dangerous.' He has achieved the reputation of a torpedo which is liable to be exploded by persuasion. Mr. Carvell assailed Mr. Foster without mercy. But he kept clear of Mr. Fowler. Yet Fowler was surely implicated in the Foster land deal.

WARD SYSTEM FOR ST. JOHN FOR THE NEXT TWO YEARS

Legislature Passed the Bill Wednesday

Plebiscite in 1908 to Find Out What System of Election the People Want--Premier Pugsley Suggests \$2,000 a Year Grant for Plant to Purify Sewage and Save the River from Pollution--Budget Debate Resumed.

Fredricton, March 27.--In the legislature this evening the bill respecting civic elections in the city of St. John was discussed in committee and agreed to with a section added providing that the common council of the city should take a vote of the electors at the same time at the civic elections of the year 1908 on the following questions:

Of retaining the system of representation provided for in the bill generally known as the ward system, or dividing the city into districts with equal representation from each district, known as the district system; or returning to the system in force immediately before the coming into operation of the bill. The systems are to be submitted to the vote of the electors in 1908 and the system obtaining the greatest number of votes is to be the one to be in force thereafter by the order of the council.

The bill was subsequently read a third time in the house and at 11.15 the legislator came down to the house and gave his assent to the bill. The house adjourned at 12.15 a. m. Hon. Mr. Pugsley presented a return of the correspondence between McKenna & Mann and himself in regard to the railway down the St. John river valley. Mr. Hazen presented the petition of Archibald Harrison and 325 others, and James T. Bliss and 170 others for stopping the sewage of Fredericton into the St. John river.

Mr. Carpentier presented the petition of the Rev. A. Gosman and sixty-nine others for a similar prayer. The house went into committee for the consideration of the Fredericton sewage bill.

The Sewage Bill. The hon. Mr. Pugsley in discharge of what he considered his duty I introduced this bill to carry out the spirit of the resolution of the house passed a few days ago. It is a bill to provide for the opinion that I expressed on the previous occasion, that each member should exercise his own individual judgment in the matter of the sewage of Fredericton into the river. I think, speaking for my opinion is the same as it was when, as a member of the council, I voted against the city being allowed to run its sewage into the river. I think, speaking for my opinion is the same as it was when, as a member of the council, I voted against the city being allowed to run its sewage into the river. I think, speaking for my opinion is the same as it was when, as a member of the council, I voted against the city being allowed to run its sewage into the river.

Suggests \$2,000 a Year. I suggest the sum of \$2,000 a year be given to the city towards the cost of a purification plant, and I make the suggestion with the sincere desire that the question may be settled in such a way as not to cause any injury to the people living in the parishes below the city, and at the same time to help the citizens out of their difficulty.

Quebec Catholic Church Burned. St. Hyacinthe, March 27.--The parish church of Marville, in the county of Rouville, was burned to the ground this morning. The fire was caused by the explosion of one of the furnaces. This church was built in 1812. It was valued at \$40,000, with insurance of \$25,000.

Case Settled Out of Court. Grand Falls, N. B., March 27.--(Special)--The case of Tibbitts vs. Hutchison was amicably settled at Victoria court yesterday.

TO TEST HARRY THAW'S SANITY

First Sitting of Lunacy Commission with Open Doors

New York, March 27.--After the jury which has been trying Harry K. Thaw for more than two months past was excused today until next Monday morning, and the members of the lunacy commission named yesterday afternoon by Justice Fitzgerald to inquire into Thaw's present state of mind had been sworn in, there came the sudden announcement late in the afternoon that former Supreme Court Judge Morgan J. O'Brien, chairman of the commission, had resigned. In a letter to Justice Fitzgerald, Judge O'Brien stated that, upon reflection, he was forced by the condition of his health and professional engagements previously entered into, to decline to serve as a member of the commission.

As soon as this letter was received by Justice Fitzgerald, he made a new order appointing David McClure, a well known attorney of this city, and a member of the former Police Commissioner McKello's advisory board of citizens, to fill the vacancy. Mr. McClure met the other members of the commission this afternoon and was selected as chairman. He later announced that the first session of the commission will be held tomorrow afternoon at 2 o'clock, in the court room where the trial has been in progress. The commission's inquiry in general will be an open one, although there will be executive sessions from time to time.

The announcement of Judge O'Brien's resignation came as a complete surprise. When the Thaw jury reported in court this morning at 10 o'clock, Justice Fitzgerald was engaged in his chambers with the members of the commission whose appointment he announced yesterday. These were former Justice O'Brien, former District-Attorney Peter B. Olney, and Dr. Leopold Tutzel, the alienist. Justice Fitzgerald administered the oath of office to the commissioners and talked with them concerning the case and their duties in connection with the inquiry they were about to undertake. The interview lasted for more than an hour, and then Justice Fitzgerald convened court and the three commissioners filed in and took up their places near the clerk's desk.

Thaw Seems Chirpy. Thaw was brought into court and found all the members of his family awaiting him. He looked exceedingly well physically. He smiled a greeting to his mother, his wife and his sisters and brothers. He then turned to where the three commissioners sat and gazed fixedly at them for several minutes. Justice Fitzgerald, in discharging the jury until next Monday, warned them to be careful not to discuss the case in any way or to read any newspaper accounts of what was taking place. It is said that in directing the jury to report next Monday, Justice Fitzgerald did not wholly expect that the commission would be ready to render an opinion by that time. If the commission's inquiry is prolonged, the jury will be called into court every few days in order that it may be kept intact for a resumption of the trial should Thaw be declared sane at the present time.

Following the proceedings in court, Justice Fitzgerald had another conference with the three commissioners originally selected, and when they left the original courts building at the luncheon hour, Mr. Olney and Dr. Tutzel put in their appearance. Mr. McClure arrived soon afterward and was ushered into Justice Fitzgerald's chambers. His presence was unexplained, however, and for more than an hour the newspaper reporters were kept waiting outside the chambers upon the assumption that the commission could not begin its work until former Justice O'Brien arrived.

Then, without any warning, came the announcement of the latter's resignation, and the appointment of Mr. McClure as his successor. Messrs. McClure, Olney and Tutzel conferred for some time, and finally announced that their next formal session would be held tomorrow afternoon and would be open to the public. The commission hopes to get under way without any delay whatsoever, and will press the inquiry to the speediest possible conclusion.

The opposition goes on record as declaring that one of its members can make the fullest insinuations against other members of the house and leave them in the air without calling down upon himself even the reproaches of his hearers. If they were willing to benefit by the immunity which his threats seem to have secured for himself at all events they could not have acted differently.

THE MYSTERY

By STEWART EDWARD WHITE and SAKUL HOPKINS ADAMS

CHAPTER XXVII—(Continued)

No imaginable chronology could have struck the eye with more of contrast to the professor's small and nervous hand. Large, rounded, and rambling, filled the page with a few careless words.

June 2, 1904. On this date I find myself sole occupant and absolute monarch of this valuable island. This morning I was a member of a community, interesting if not precisely peaceful. To-night I am the last leaf.

"Dann his cigarettes!" cried the surgeon. "This must be Darrow. Finicky beast! Let's see if it is signed."

"No, sir. Not Darrow. Only a poor devil of a seal that crawled in there to die."

"The bullet hole in the corner furnished a sinister period to the signature. Darrow handed the ledger back to the captain, who took one quick look, closed it, and handed it to Congdon.

"Wrap that up and carry it carefully," he said. "You are in Percy Darrow. The bullet hole in the corner furnished a sinister period to the signature."

"The doctor, you see, was a romantic genius. And the escape of Darrow. Hold hard," quoth Tredon. "Darrow's no romance. Nothing fictional about the flag and ledger."

"And the killing of the doctor. Your patient seems to be a romantic genius. And the escape of Darrow. Hold hard," quoth Tredon. "Darrow's no romance. Nothing fictional about the flag and ledger."

"True enough," said the captain, and fell to consideration. "Anyways," said Tredon vigorously, "I'd like to have a look at those bird-roosts. Mightly like sign posts, to my mind."

"Very well," said the captain. "It'll cost us only a wetting. Run her in, Congdon."

"The fellow is a tobacco maniac," growled Tredon, feeling in his breast pocket. "The devil," he cried, bringing forth an empty hand.

"Saw the glow again last night. Don't understand it. Once should have been enough for these matters of hoarding tobacco may be a sad error. If Old Spitz keeps on the way she has today I shan't need much more. It would be a good job to be buried or embalmed in a month's supply of unsmoked cigarettes on one. Cave getting shaky. Still, I think I'll stick there. As between being buried alive, or embalmed in a month's supply of unsmoked cigarettes on one, I prefer the latter."

"The finding of two slabs." "Billy Edwards," said the captain, very low. "He answered. The surgeon did likewise. So, for a space, they stood with bared heads between the twin graves."

solitaire for light housekeeping, such as mine. Undertook to clean house. Dragged lame into the water. Some sank and were swept away by the sea-pus. Others, I regret to say, floated. Fount of fresh water in depth of cave, and little sand-ledge to sleep on. So far, so good: we may be appy'ed. If only I had my cigarette supply. Once heard a botanist say that leaves of the white shore willow made a fair substitute for tobacco. Fair substitute for nut vomica! Would like to interview said botanist."

"The fellow is a tobacco maniac," growled Tredon, feeling in his breast pocket. "The devil," he cried, bringing forth an empty hand.

"Saw the glow again last night. Don't understand it. Once should have been enough for these matters of hoarding tobacco may be a sad error. If Old Spitz keeps on the way she has today I shan't need much more. It would be a good job to be buried or embalmed in a month's supply of unsmoked cigarettes on one. Cave getting shaky. Still, I think I'll stick there. As between being buried alive, or embalmed in a month's supply of unsmoked cigarettes on one, I prefer the latter."

URGED WEST INDIES TO GIVE PREFERENCE TO CANADA'S PRODUCTS

H. B. Schofield Tells of Mission of Board of Trade Men to the Islands

TWO REASONS GIVEN AGAINST PREFERENCE

One Section Has Decided for It, Though-Hopeful Outlook for Trade-Reports on the Trip to Be Made to Boards of Trade.

H. B. Schofield, of this city, J. A. D. Allen, of Halifax, and A. E. Jones, of Toronto, were passengers Wednesday on the steamer Ulenia, from the West Indies. These three gentlemen formed a delegation to the islands for the purpose of inquiring into their commercial relations with the country and to ascertain the best means of increasing trade. They were there six weeks.

Mr. Schofield, speaking Wednesday of their mission, said that the delegation was everywhere most enthusiastically received. Meetings were held in Bermuda, St. Kitts, Antigua, Dominica, Barbados, St. Lucia, Montserrat, Grenada, Trinidad and Demerara. At each of these places they were met by representatives of the chambers of commerce, as well as by members of the various agricultural societies, who are all capitalists.

The delegation, which Mr. Jones, of Toronto, was chairman, urged at all those meetings that a preference be granted to Canadian goods. They were told, in reply, that they were quite willing to grant the request, but two considerations stood in the way. The first of these was that the merchants of the West Indies could buy goods much more expeditiously through the United States ports.

Mr. Schofield, however, expressed the opinion that it is only a matter of time when Canada's trade with the West Indies will be very largely increased. As an evidence of the real desire of the islanders for closer commercial relations, he mentioned that the government of the Leeward Islands has undertaken a result, granting a preference to Canadian goods. It is convinced that if only Canada display a sufficient amount of energy and foresight in bettering the means of communication, an immense and lucrative trade can speedily be assured.

He drew his revolver and fired.

He let out his hollow, roaring Darrow's name. "If you could project your voice far into a cave thus blocked," said Captain Parkinson. "We'll try this."

"Dropping his load of cartridges carefully upon a flat rock which projected from the water, he busied himself in a search along the face of the cliff. Presently, with a gesture of satisfaction, he climbed toward a hand's breadth of a platform where grew a patch of purple flowers.

"Throw me up a knife, somebody," he called. "Take notice," said Tredon, good-naturedly, "that I'm the botanist of this expedition."

"How is that, Mr. Barnett?" asked the captain, with lively interest. "You see, sir," returned the demonstrator, perched high on a sculpin at the points on some heron's masterpiece, "what we want is to split off this rock."

NEW YORK SOCIETY WOMAN LEFT \$75,000,000

(Continued from page 1.) society folks accepted invitations. He took boxes at the horse show and the opera to which Mrs. Fish invited the guests, and generally she succeeded in having the "toasts of the town" among them. He had his clothes made in England and some of them were remarkable combinations of sartorial art. He bought expensive pictures and presented one to a Rubens, at the Metropolitan Museum. He spent his money without stint, in fact, for anything that took his fancy. He made his New York home, at first, at the Benedict residence on Fifty-seventh street, which he leased, but in 1904 he purchased the house of William C. Whitney, with its store of art treasures, on Fifth avenue. In 1905 he gave a cotillion that was widely heralded for its splendid extravagance. Among the matrons to receive were Mrs. Cornelius Vanderbilt, Mrs. Clarence Mackay and Mrs. Jacob Astor.

He would also be called on to make out reports, and deal with them as the law provided.

A True Snake Story

In cutting up a parcel of Bangkok teak logs into decks last week, a Sawyer in the saw mill of William Hamilton & Co., Ltd., shipbuilders, Port Glasgow, found that a saw had cut through the body of a small snake. Search was made in the sawpit, and resulted in the finding of the head of the log that it must have been still together. It was found to measure about two feet. Those who saw the wound made by the saw think from the color of the blood that it must have been still alive when the saw cut into it, notwithstanding the fact that for months past the log must have been partly submerged while floating in the timber ponds at Langbank—Timber Trades Journal.

Strange Suit by Rival Sects in India

Long-Standing Feud Among Brahmins Finally Settled by Judicial Decision—The Worship-as-you-please Principle Causes Trouble.

New York, March 24.—The Herald has received the following despatch from London: One of the secrets of the success of British rule in India, where there are religious sects innumerable, has been the freedom of worship as they please. It is true that missions abound, both British and American, to try and Christianize the land, but there is no undue interference with either Hindu or Mohammedan worship. This worship as you please principle is not infrequently the cause of bitter feuds between different sects of religionists, and one has had to be decided by a judicial committee of the Privy Council in London this week, though it remains to be seen whether the decision does not result in even more bitter enmity between the rival religionists before very long.

ST. JOHN BOYS' SUCCESS

H. LeBaron Peters Third in Examination for House Surgeon in New York City Hospital.

The result of the exams held in the New York city hospital to provide house surgeons for the institutions, says the Montreal Star, is highly gratifying to the friends of McGill, as first place was secured by A. L. McLennan, Med. 67, and third place went to H. LeBaron Peters of this city, also of McGill, Med. 67. These results are testimonials to the excellent work done at McGill, and will be received with pleasure by Canadians in general in view of the fact that these young gentlemen had as competitors forty other graduates, and undergraduates of the various medical colleges of the United States.
