**ITALIAN ELECTIONS.**

Give the Liberal Government a Majority.

Rome March 8.—General elections were held throughout Italy yesterday for the new chamber of deputies. The casting of the ballots resulted in many conflicts and much excitement in a number of provinces. In the province of Caserta one man was killed and reports from other constituencies state that many persons were injured in street brawls. The government, in anticipation of trouble, had taken preventive measures and the troops eventually succeeded in restoring order.

According to partial returns received the present ministry is given a large majority in the new chamber. The clericals almost in full force participated in the elections for the first time since 1870. Premier Giolitti is still arbiter of the situation and Italy's position with regard to her foreign policy, which did not figure in the campaign, remains unchanged.

The success of the anti-clericals in three constituencies in Rome, where they stood against the clericals, show the persistent strength of the anti-clerical "bloc" formed last year when it was led to victory by the Nathan administration in the municipal elections.

**NEW EXPERIMENTAL STATIONS**

Wednesday was a Farmers' Day in Canadian House of Commons

LOGGIE'S ABLE SPEECH

In Favor of an Agricultural Station in Northern New Brunswick.

Ottawa, March 3.—In the house of Commons, Mr. Lapointe (Kamouraska) moved a resolution in favor of new experimental stations being located in places where conditions of climate and soil are different from those where stations are situated at present and also urging the desirability of an experimental station being established in the eastern part of the province of Quebec.

Mr. Burrell (Yale-Cariboo), urged the need of an experimental station in the semi-arid area of British Columbia.

Mr. Armstrong put in a plea for the establishment of an experimental tobacco station in Western Ontario. He thought there should also be an experimental farm in the Niagara District.

Dr. Paquet, Col. Talbot and Messrs. McGrath, Goodeve, Loggie, Boyce, Murett, Devlin, Brodeau, McCoig, Clacke, Henderson and Dubeau supported the resolution.

W. S. LOGGIE.

Mr. Loggie made a strong plea for the establishment of an experimental station in New Brunswick, speaking as follows:—

Mr. Speaker, I regret that I was unable to follow the remarks of the Hon. gentleman who moved this resolution. I was, however, able to sufficiently follow the remarks of the hon. member for Dorchester to know that he complimented the hon. gentleman from Kamouraska (Mr. LaPointe) upon the manner in which he presented the resolution. I am very glad that I am able to heartily support the sentiments set out in the resolution. From the remarks made by the hon. gentlemen who have spoken, there is no question in the mind of any gentleman present as to the great benefit which has accrued to the agricultural interests of this Dominion from the operation of experimental farms. This idea is set out in the resolution and it is also set forth that if we had more of these farms they would still more benefit the agricultural interests of Canada. The reasons advanced in the resolution for asking for the establishment of a new farm in the eastern portion of Quebec are that the conditions of soil and climate are different from those at the experimental farms now in operation. We can easily realize that this is so. I understand that we have but two experimental farms under the administration of the Dominion in eastern Canada, one in Ontario and one in Nova Scotia. I wish to say on behalf of my own province that there are differences in the seasons, in the soil and in the climate between Nova Scotia and the northern portion of New Brunswick. It seems to me that it would be in the interest of agriculture in the province of New Brunswick that an experimental station should be established in that province, either in the north-east section or the north-west section. I may say for my own county that agricultural interests have advanced very materially during recent years; but in some departments, especially in dairying, we are still very far behind, and if we had an experimental station within reasonable distance, and at a point where the climate and soil are different from what they are at Nappan in Nova Scotia, I am sure it would add materially to the agricultural interests of New Brunswick, in which all of us feel a deep interest.

Hon. Mr. Fisher, Minister of Agriculture, said he had great pleasure in supporting the resolution.

Mr. Burrell (Yale-Cariboo) also supported the resolution, saying that he had great pleasure in supporting the resolution.

Mr. Armstrong also supported the resolution, saying that he had great pleasure in supporting the resolution.

Mr. Paquet also supported the resolution, saying that he had great pleasure in supporting the resolution.

Mr. Talbot also supported the resolution, saying that he had great pleasure in supporting the resolution.

Mr. McGrath also supported the resolution, saying that he had great pleasure in supporting the resolution.

Mr. Goodeve also supported the resolution, saying that he had great pleasure in supporting the resolution.

**THE VICTORIA MURDER TRIAL.**

Jury Declares Both Men are Guilty of the Murder of Green

THREE MONTHS AGO.

C. H. Elliott of Newcastle Defended the Prisoners.

The trial of Tony Aroscha and Leon Seppil, charged with the murder of Green, began at Perth Junction Victoria county, before Judge Landry, on the 2nd inst. The Grand Jury found true bills. C. H. Elliott, of Andover, was selected to defend the prisoners, who pleaded not guilty. The selecting of the petit jury took only ten minutes. Mr. Elliott being indisposed, his place as defendant's lawyer was taken the first day by Alex. Stratton of Andover.

Alex. Panarsky, a Jewish peddler, was first witness. He met Green on Dec. 19th, and left Johnson's camp that afternoon with him. They stopped at Ferguson's camp Saturday night, and both left again for the eastward Sunday morning, Dec. 20th, at nine o'clock. After walking about half or three-quarters of a mile, they met a man, Brasker, with whom Green conversed. Shortly before this, a number of Italian laborers passed them. When he and Green were walking along a shot rang out. Witness shouted "Hold on," and looking to the left, saw Leon Seppil pointing a gun at him. Another man was behind Seppil and maybe a third. Green said "Oh my" and fell. In ten seconds another shot rang out, followed by a third. Witness ran a mile and a half to his residence, reaching there with several bullet holes through his clothes.

Panarsky positively identified a gold watch shown by the crown as one that Green had received seven years ago from an uncle in Montreal and had retained it until his demise.

Panarsky identified a large jewelry case as Green's and said it was not broken before the murder, neither was the brown valise almost torn apart. Both receptacles, as exhibited in court, were badly broken. He positively recognized the goods in the case as Green's. Green had a wallet for six or eight years and on the last trip he saw Green conceal the wallet in an inside pocket. He also saw him place about \$2,000 in the bottom of the case in a compartment. Panarsky also said he saw money in Green's wallet on Saturday, and in the case were 100 or 110 watches.

Panarsky said he gave the alarm at the residency to some engineers and next saw Green's body at the hotel at Plaster Rock on the following Tuesday morning. He said the watches were restored in separate lots and he is positive that there are twenty-five or thirty watches yet missing.

Dr. J. B. Collin testified that he had found two wounds in Green's body, which had caused instant death.

Albion Foster, chief of police, told of arresting the prisoners on the 21st. Aroscha had a watch and eleven dollars.

Judge Landry ruled out the alleged confession.

Sandy Murray swore that the prisoners left Amiel Johnson's camp on Friday with a gun each. Ramsford Lovely swore he saw the prisoners with guns on the tote road on Saturday.

Andrew Harth told of the prisoners coming to the Amiel Johnson camp on Monday half frozen. Seppil had mittens on his feet.

Frank Neil and James Harth swore that the prisoners carried guns.

Leslie Young saw Panarsky lying exhausted on the residency platform. He and George Tibbets found Green's body. He had heard three shots discharged on

**NEW DEPARTMENT OF GOVERNMENT**

Canada to Have a Separate Department of External Affairs.

GROWING ANATOMY.

Shown By Adoption of This Important Resolution.

Ottawa, March 4.—Hon. Mr. Murphy moved his resolution, that it is expedient that there should be a department of the civil service, to be called a department of external affairs, to be presided over by the Secretary of State. He explained that the government felt that it would be a great advantage to have a common centre, where communications with other countries could be dealt with on a uniform system by a small staff of officials trained in the study of international questions and where at all times it would be possible to ascertain not only their position but also their history from the beginning.

Mr. Bowlen asked why the department of Secretary of State could not undertake the work proposed.

Sir Wilfrid Laurier said Canada had reached a stage when it was almost imperative that she should follow the example of other countries, where it had been found indispensable to have a department for external affairs. Canada's foreign relations had assumed a very important character and in view of complications which were apt to arise in connection with treaties it was desirable that there should be an intelligent way of dealing with such questions. At present the system was circumlocutory, and international communications were scattered among all the departments. It would not be necessary to have a large department. Three or four officials would suffice.

Mr. Foster objected to the proposal on the ground that foreign correspondence should be dealt with by the minister of the department to which it particularly related. All the work it was proposed to do in the new department could be done by adding two or three officials to the staff of the privy council.

Dr. Sproule did not think there was any justification for the expenditure which a new department would involve.

Mr. Aylesworth said his experience, as Minister of Justice, had convinced him of the necessity of a department to deal with external affairs, and he gave instances illustrating the difficulties of the present system of handling despatches from other countries.

Mr. Borden, while not finding fault with the objects of the resolution, thought the creation of a department for external affairs would be an unnecessary piece of machinery. There was too much machinery already. What was wanted was better organization.

The resolution carried and the bill was introduced.

Mr. Lewis introduced a bill to amend the criminal code by increasing the punishment for offences against the person.

Sunday morning.

Bernard Walsh gave similar testimony.

Coleman Shields swore that he found some money and watches while on the trail of the murderers. A week later he found a rifle.

Wm. McGinnis swore he had met the prisoners on Saturday a little after six o'clock in the evening, each carrying a gun.

Aroscha and Seppil gave evidence seeking to prove they had no connection with the crime.

The jury on the 5th brought in a verdict of guilty. Mr. Elliott made an eloquent plea for the prisoners, but without success.

On Saturday, Judge Landry sentenced the two Italians to die on May 4th. Aroscha, the younger man, strongly protested his innocence, and asked for the prayers of the spectators.

## MUNICIPAL LODGING HOUSES

Proposed for Denver, Colorado, by Millionaire Brown.

New York, March 6. A. Brown, a Denver millionaire, is in New York getting practical experience to guide him in a movement he has started to induce his home city to establish municipal lodging houses. He is staying at the Waldorf.

Mr. Brown set out to acquire information at first hand as to his customer. When he left his suite at the Waldorf, he wore under his expensive overcoat, a jumper that cost six cents, a pair of overalls that cost twenty-five cents and a shirt that cost which he paid \$1. He walked over to the Martinique, checked his overcoat, and then effected his transformation to a rough looking "workingman."

Mr. Brown proceeded to the East Twenty-second street, police station and applied for lodging. He was directed to No. 122 East Twenty-fifth street, the new municipal lodging house. He had just eaten at the Waldorf, but stomach hunger on his arrival at the lodging house, and received a ration of bread and coffee.

"I only nibbled at it," said Mr. Brown yesterday, "but I found out what I was after."

Mr. Brown was required to undress and all his garments were placed in a net bag, to go to the fumigation room. Then he was told he must bathe. As he entered the bath room, a man with a pail and a paddle, as he described him, met him at the entrance and showered him with germicide.

A pair of socks a clean night gown and a clean towel were next provided, and Mr. Brown was directed to a clean bed with snowy white linen and a hair pillow that was comfortable. The Denver millionaire, one of the richest property owners in that city, slept all night in the municipal lodging house and he learned a great deal that he came here to learn.

A practical philanthropist, Mr. Brown has slept in brick ovens, box cars and under platforms in Denver. He has slept in the streets and among the homeless and friendless in other places. He has learned the actual conditions and needs of the "down and out."

## CLAIRVOYANT SUICIDED

Was Well Known at Dalhousie. Which He Left 15 Years Ago

John P. Rennie, commonly known as "Professor Morris" clairvoyant, at one time posing as an ex-priest, committed suicide at Williamsport, Pa., the other day. Rennie was arrested in 1909 by the police of Syracuse says the "Catholic Sun" and before he was released certain important admissions were made by him while under oath. Among his efforts at that time was a photograph of himself taken in the garb of a Catholic priest, and it was said that he had been telling the story that he was a devoted priest, who had eloped with a nun.

In his sworn statement made to the police he said he was 29 years old, born in Halifax and educated in a Canadian college. He admitted that he had never been a priest and explained the photograph by saying that he had borrowed the costume of a friend who was playing a part in "The Sign of the Cross." Rennie had been a student at the University of Toronto, he said, a Baptist minister for about a year at Providence R. I. but had left there to go to Dalhousie where he had married a girl by the name of Katharine. True Witness.

The person the above refers to was adopted by an aged couple in Dalhousie, Mr. and Mrs. Clement O'Leary. He left there about fifteen years ago for the United States, returning in four or five years time. He then became conspicuous by passing a counterfeit twenty dollar bill off on an old lady in Campbellton who kept a grocery store. He was released on the jury disagreeing, on being for conviction and two for acquittal. The case always stood against him, although

You get not only MORE Stove Polish, but also the best stove polish that money can buy when you use "Black Knight."

It is not affected by the heat, and with very little labor the stove stays bright and shiny when polished with "Black Knight."

Shines quickly too—and always ready for use. Keeps Stoves, Grates, Ironwork, etc. fresh and clean with practically no trouble.

If you are unable to obtain "Black Knight" in your town, send name of nearest dealer and \$30 for full sized can.

## NOBODY SPARED.

Kidney Troubles Attack New-castle men and Women, Old and Young.

Kidney ills seize young and old. Come quickly and with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer from

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child. Is to cure the cause—the kidneys. Boath's Kidney Pills cure sick kidneys.

Cure all forms of kidney suffering. New-castle testimony proves it. Mrs. D. J. Copp of Green St., New-castle, N. E., says:

"For three winters past I had suffered regularly with kidney trouble and my back had become so weak and sore that I could not get up from a chair without supporting myself with both my hands. Severe pains would shoot through my sides and back and leave me in a miserable condition. I was restless and nervous and would awake tired and unrefreshed and very often with a dull, dizzy headache. The trouble had begun to show itself this winter when I heard of Boath's Kidney Pills through an advertisement sent at Mr. Durick's Pharmacy. I began their use and I seemed to build up generally. The pains left my back and I have not had an attack of lameness or kidney trouble since. I can conscientiously recommend Boath's Kidney Pills as a remedy of great curative merit."

Sold by dealers. Price, 50 cents. The R. T. Booth Co., Ltd., Port Erie, Ont., Sole Canadian Agents.

England and Wales show the lowest birth rate in their history during the last quarter, while France is making This will probably clinch the opposition to building a tunnel under the Channel.

A falling they nerve—no larger than the finest silk thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden or inside nerve. It is Dr. Shoop's Heart or Kidneys. His prescription. Dr. Shoop's Restorative is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

King Edward and Kaiser Wilhelm have had such an enjoyable time together that Great Britain has just decided to build six more big battleships.

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

NO SERMON UNTIL ALL HATS WERE TAKEN OFF

ADA, Ohio, March 2.—Ada women are proud of their hats, and when requested to remove them during services at the First Presbyterian church manifested a reluctance to do so. The pastor, Rev. Orlando B. Pershing, announced that he would not preach unless the hats were removed and, after delivering the ultimatum dramatically sat down and waited until his request was complied with. For some time the pastors of Ada have been seeking for a solution of the hat problem and the Rev. Mr. Pershing's action was the outgrowth of a steadfast refusal to concede to his request on the part of the ladies of his congregation.

At the evening service a large number of the fair choristers attended services bareheaded and no request was made from the pulpit.

POINTED PARAGRAPHS

No woman is as truthful as her mirror.

You may guess what a woman is but that's your limit.

Agitation is the antidote for stagnation.

Few women waste money—if they haven't got it.

The middle class thing party causes many a divorce.

It's nothing to a man's credit if no one will trust him.

He isn't much of a soldier who cuts off the head he kneads.

It's a sign a girl likes to be kissed if she says she doesn't.

And it sometimes happens that a man is married to his boss.

Many a man with wheels thinks he is the whole political machine.

A man who never accomplishes anything always looks the part.

Never notice how much happier you are when you render others happy?

The more money a man has the more he is abused—and the less he cares.

It's awfully hard to find your confidence after it has been misplaced.

When you are expecting an opportunity usually misses the train.

The average man takes a lot of credit for doing his duty when commended to.

## THE TRAGEDY OF MOTHERHOOD

(Quincy, Ill. Journal)

A sweet young girl gave up her life in Mt. Sterling the other day in the final act of motherhood. Just as the tiny babe gave the first faint cry which is the sign and signal for a new life, the young mother passed into the Valley of the Shadow, which we call death—an uncompensated martyr to the sometimes insupportable demand of motherhood.

This hazard of motherhood every intelligent woman knowingly accepts when she consents to become a mother. And the hazard of motherhood is one of the chief claims that women have upon the consideration, the patience, the forbearance, the kindness and the tenderness of men. Women know the risk of motherhood, yet how bravely and unconsciously, with what superb courage, fortitude and heroism, they accept and meet the danger. They are like men who go into battle knowing its dangers, and facing them with unflinching courage.

The young wife of whom we write was well enough aware of the dangers which lay along the path to motherhood, yet how bravely and how resolutely, how happily and how joyously she went along the way. For her's was a child of love—the crowning product of two loving souls. A Child of Love. What a glorious inheritance to be thus conceived, thus nurtured under a woman's heart, and thus brought forth! A Child of Love. How deeply and how truly a woman must love a man when she feels in her heart that she would like to be the mother of his child. This is the supreme test of a woman's abiding love. And no woman should consent to marriage unless she has this feeling in her heart for the husband that is to be unless she can measure up to this self-sacrificing, exalted test of motherhood.

What a pity 'tis that so many children are born into the world who have not this priceless heritage of the Child of Love! What a pity 'tis that so many unwanted life creatures are ushered into life! Poor, little, handicapped, unwanted beggars! Poor little strays upon the shores of grief! They are outcasts before they are born. They are brought into being under an influence of tumult and of fit, is it any wonder that they go astray in after life? What a pity 'tis that children have to be thus born! May we not indulge the hope that in some far-off blessed day to be, all children born of women will be the children of love? What a glory day that will be! When that time comes we shall be in the way of producing a race of men and women that will be a delight to itself and a joy to the gods.

Some there may be who will say that such writing as this should not be done for the daily press. But why not, pray? In writing thus, we write straight into the heart of humanity—into the very citadel of Life and Love. Motherhood is as common as men and women; it is the crowning act of exalted nature; the perfect fruit and flower, the finished product of creation—excellent which this world would have been made in vain. Why not write of it?

God forbid that only the trivial things of life should be treated of in the columns of the press, and that the weightier matters of the law, the vital questions that touch our lives, to make or mar them, should be passed by unnoticed and undiscussed. Not along that path doth either wisdom or duty lie.

## SEVEN YEARS IN PENITENTIARY

For Accepting Bribe in Civic Position

SAN FRANCISCO, Cal., March 2.—Former Supervisor Michael W. Coffey convicted recently of accepting a bribe of \$4,000 to vote for a trolley franchise for the United Railroads, was sentenced to seven years imprisonment. In common with other members of the Schmitz board of supervisors implicated in the bribery graft disclosures, Coffey confessed before the grand jury and was granted immunity. Later he refused to give incriminating evidence.

The patient seldom knows anything about the medicine the doctor gives him—and neither does the doctor, once in a while.

## Weak Kidneys

Weak kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is dark and stringy, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell.

**A Combined Treatment That Really Cures Catarrh.**

Canadian weather, with its extreme cold and sudden changes, gives almost every one Catarrh, and makes it hard to cure. Some recommend internal remedies—some external applications.

Father Morrissey used both—tablets to be taken three or four times a day to invigorate the system, purify the blood, and help it throw off the disease; and a soothing, healing, antiseptic salve to be applied inside the nostrils. This combined treatment known as

**"Father Morrissey's No. 26"**

attacking the disease from within and without, soon cures.

Mr. F. L. Mills, Box 431, Springfield, N. S., wrote on August 21st last: "I have had two prescriptions for catarrh from Father Morrissey, No. 1 Course and No. 2, but I think No. 1 has done me the most good, and that is the one I am getting tried from time to time."

I would recommend this prescription in full for Catarrh, as his tablets are the only remedy I can get to help me. The No. 26 Tablets are a great tablet."

Don't trifle with Catarrh—cure it with Father Morrissey's No. 26. 50c for the combined treatment at your dealer's. 29

## STATISTICS IN MEDICINE.

OLD REMEDIES RETAIN THEIR POPULARITY.

Investigations of French Physicians Show That Large Production of Synthetic Medicines is Not Crowding Out the Old Favorites.

A late despatch from Paris says—Prof. Grumbert presented a notable paper before the Academy of Medicine on the apertic tendencies in the last ten years. Basing his figures on medicines furnished to 219 large asylums and hospitals by the State Pharmacy, he finds that the old-fashioned remedies retain their popularity.

An expert authority on being interviewed states that the tendencies of the medical profession in Canada are along exactly the same lines. He gives the old-fashioned vegetable mixture as the safest and best treatment for all stomach and liver troubles, constipation, disorder of the kidneys and bladder, and states that many of the leading physicians use these ingredients in some form, often by some fancy and expensive name. Fluid Extract Cascara 1-2 oz., Syrup Rhubarb 1 oz., Carina Compound 1 oz., Compound Syrup Sarsaparilla 5 oz.

Take one teaspoonful after each meal and at bedtime. This acts in a pleasant way, and is free from the bad effects of strong purgatives and synthetics.

We advise all our readers to use this valuable formula out and use it. Any druggist can supply these ingredients at a small expense. You can mix them at home if you prefer.

Nothing in the way of a cough is quite so annoying as a tickling, teasing, wheezing, bronchial cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babies. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. A few days' test will tell. Sold by all dealers.

## BOSTON INVENTOR MAKES ELECTRICITY FROM SUN'S RAYS

A Boston despatch to the New York Herald says: That he has successfully solved the problem of storing up the sun's rays and converting them into electrical energy is the claim made by a Boston inventor.

He is George S. Coy, and he demonstrates the success of his invention by lighting his workshop at No. 486 Somerset street, Somerville, with electricity generated from a simple apparatus on the roof. Coy's invention will be known as the "solar electric generator" and he says it can be built at a cost of \$100 each. It consists of a frame work to be placed in an opening where it will receive the direct rays of the sun. Short plugs of a metal composition are set into this frame. There are 876 plugs. Fitted around these plugs is a body of heat absorbing material. The difference of the temperatures of the two ends of the metal plugs, one being in the sun, the other in the earth with a circulation of air around it generates the current of electricity.

If the sun goes under a cloud an automatic effect breaks the circuit between the generator and the batteries. The device is thus entirely automatic. When the sun sets at night it automatically shuts off the storage batteries and begins again in the morning. This machine generates the energy of a five-horsepower engine, enough electricity to light five lights of twenty candle power each, to last three or four days of continuous lighting.

**CHARLO**  
Rev. Father Campbell is visiting his many friends in Boston where he spent his childhood for many years. A diocese was gotten up by his many former college companions, among them priests and professional men. He was presented with an address and gold watch and chain by them, in memory of former happy days, when Father Campbell was professor—Boston Post, Father Campbell leaves for New York for a few days.

## ADMIRALTY WILL FAVOR BRITISH TENDERS FOR NAVAL SUPPLIES

MONTREAL, N.B., March 9.—The House of Commons will favor the British tender for the supply of naval supplies to the Royal Canadian Mounted Police. The House will also favor the British tender for the supply of naval supplies to the Royal Canadian Mounted Police.

## DISTINGUISHED INVALIDS ARE IMPROVING

LONDON, March 9.—The condition of the invalids who are recovering from the effects of the influenza epidemic is improving. The condition of the invalids who are recovering from the effects of the influenza epidemic is improving.

It sometimes happens that a marriage is a failure. The condition of the invalids who are recovering from the effects of the influenza epidemic is improving.

## THE MONTREAL CARNIVAL

An extraordinary feature in connection with the Winter Carnival and Ice Palace at Montreal, Feb. 10 to 20, has been the sale of the "Official Souvenir," issued by the "Canadian Pictorial." The first edition was exhausted in half a day and the second day saw the publishing offices besieged by a howling mob of men and boys, clamoring for Souvenir Numbers to sell. The capacity of the presses has been doubled and the staff is working day and night to supply the demand, which has already gone beyond all bounds. The publishers tell us that all orders forwarded at once will be filled, of course in the order that they are received.

## PRINCE RUPERT—BRITISH COLUMBIA.

In response to many enquiries from all parts of the world with regard to the new Pacific Coast terminals of the Grand Trunk Pacific Railway, Prince Rupert, a comprehensive and interesting pamphlet, has been issued giving information respecting this great sea port of the Pacific. The pamphlet, acquired by the Railway Company for this new city is about 20,000 copies for the purpose of the townsite and the development of the port. The first subdivision of the townsite will cover an area of about 2,000 acres, and will be open to the public and sold on or about May 1, 1909.

The publication contains a general plan of the new townsite, and a large interesting map of the North Pacific showing Prince Rupert Harbor and vicinity.

Copies of this publication may be had for the asking by applying to J. Quinlan, Bonaventure Hotel, Montreal, P. Q.

## GOOD HOME RECIPE.

Mix This Simple, Helpful Recipe at Home and try it, anyway.

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one-half ounce; Compound Karyon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered as the most certain prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the ure acid and other waste-matter from the blood which causes Rheumatism.

One inch, one insertion, 50c  
Each subsequent insertion, 25c  
Professional and Hotel Cards,  
1 inch per year, \$5.00

NEWCASTLE, MARCH 10th, 1909.

A WIDE AWAKE  
REPRESENTATIVE.

Mr. W. S. Loggie's plea for an  
Experimental Agricultural Station in  
northern New Brunswick is a  
timely argument and one which,  
we trust, will soon bear fruit. It  
is pleasing to note that Mr. Loggie  
never misses an opportunity to  
speak in behalf of improvements  
needed by his constituents.

REFERENDUM TO  
BE TAKEN IN B. C.

Unlike the Conservative govern-  
ment of New Brunswick which,  
either out of contempt for, or fear  
of, the common people, refuses to  
take a popular vote on the ques-  
tion of provincial prohibition, the  
Conservative government of British  
Columbia has decided to take  
a referendum in that province on  
the question of local option. Premier  
McBride trusts the people to  
decide for themselves whether or  
not the sale of liquor shall be re-  
stricted. Premier Hazen seems to  
have no use for the voters between  
elections.

WHY DID HE  
NOT DENY IT?

In the House of Commons, the  
other day, Hon. Geo. E. Foster  
attacked the alleged abuse by the  
Ministers of the Crown of the  
franking system, whereby members  
of parliament may, while the  
House is in session, "frank" (send  
free) all the mail matter they wish.  
But when Dr. Clarke challenged  
Mr. Foster to declare that he him-  
self had never violated the spirit of  
the franking privilege, Mr. Foster,  
according to press despatches,  
remained silent.

Only men whose own hands are  
clean are fit to be trusted with  
the task of reforming the country.

A PROGRES-  
SIVE PROGRAM.

The Quebec local legislature  
opened on the 2nd instant. The  
Speech from the Throne fore-  
shadowed greatly increased attention  
to education, the pushing of new  
highways into districts suitable for  
colonization, the appointment of a  
commission to enquire into and  
point out the best means of pre-  
venting and fighting tuberculosis,  
the redistribution of electoral dis-  
tricts, an Employer's Liability Act,  
the appointment of a permanent  
commission to deal with disputes  
between municipalities and con-  
tractors for public utilities, and an  
act to empower the government to  
make expropriations in order to  
facilitate the utilization of water  
powers.

A Great Loss to  
New Brunswick.

In the premature death of  
Newton-Foster Thorne, editor of  
the Carleton Sentinel and Mayor of  
Woodstock, noted in our news  
columns last week, New Brun-  
swick loses an able journalist and a

public man of great promise. A  
young man who before the age of  
thirteen had graduated from the  
Provincial Normal School; and  
without a college education had at  
twenty-one become a leading teacher  
in an incorporated town; at  
twenty-four a managing editor; in  
his twenty-eighth year a Town  
Councillor; and in his twenty-  
ninth Mayor by acclamation,  
would soon, I believe, have been  
heard from in provincial and  
Dominion and perhaps Imperial  
politics. His death before his  
thirtieth birthday removes from  
active work one of the brightest  
young men New Brunswick has  
produced for a long time.

GOOD EXAMPLES  
FOR CANADA.

It is well for the cause of political  
progress that there are in out-  
of-the-way corners of the earth  
countries with energetic, thinking  
people who are too few in numbers  
to think of conquering the world,  
of predominating over their re-  
spective continents, or even of  
lordship it over their nearest neigh-  
bors, and who therefore have time  
to turn their attention to the solu-  
tion of internal problems which,  
in the stress of national jealousies  
and the consequent drilling of  
great armies and the building of  
mighty warships, their more power-  
ful contemporaries are apt to over-  
look. Such fortunately situated  
weak states, insignificant in the  
eyes of the great powers of the  
world are New Zealand and  
Australia in the far south of the  
inhabited world; Finland, Sweden,  
Norway, Denmark and Iceland in  
the far north; Switzerland, nestled  
among the lofty Alps; and Belgium  
sandwiched between France and  
Germany, only a few miles from  
Britain, and guaranteed by all  
three.

New Zealand has long had govern-  
ment ownership and operation of  
all railway, telegraph and tele-  
phone lines; free, compulsory, non-  
sectarian education; old-age pen-  
sions for every needy non-criminal  
citizen over 65 years of age; and  
equal voting rights at all elections  
for men and women.

Australia followed closely in  
New Zealand's wake and now has  
all, or nearly all the political free-  
dom of her smaller neighbor.

Switzerland, isolated and com-  
paratively safe in her mountain  
fastnesses, developed during the  
latter half of the last century a  
system of Direct Legislation,  
whereby no act of parliament  
becomes law as soon as passed, but  
remains in abeyance for a certain  
time, during which a certain pro-  
portion of the electors may, by  
petition, secure the submission of  
the act to a direct vote (referen-  
dum) of the people. If the majority

voting endorse the act it becomes  
law at once; if they condemn the  
act, it does not become law. The  
government merely drop it, but do  
not have to resign or bring on a  
new election. Also, a certain pro-  
portion of the electors have the  
right, through the initiative, to  
demand the submission to the  
people of an act they (the petition-  
ers) have drawn up. By direct  
legislation a bad parliament have  
no power, if the people are watch-  
ful, to pass bad laws.

In this and most countries, a  
mere majority of voters may elect  
all the members of parliament,  
shutting all parties but the largest  
out from representation in the  
legislature.

Belgium, some years ago, follow-  
ed recently by Sweden, has adopt-  
ed the system of Proportional  
Representation, whereby all parties  
are represented in Parliament in  
the same proportion as they are  
among the voters. For instance,  
a party polling sixty per cent,  
of the votes of the country, might in  
Canada elect all the members of  
parliament, but in Belgium and  
Sweden such party would have  
only sixty per cent. of the mem-  
bers. A party polling thirty per  
cent. of the votes would be allowed  
thirty per cent. of the members,  
and one polling only ten per cent.  
of the votes would have the same  
fraction of members.

Finland, an independent state  
in everything except that its  
Grand Duke is also the Czar of  
Russia—a fact that renders its  
independence practically valueless,  
—adopted a constitution in 1906  
by which women were given the  
same right to vote and sit in  
parliament as men. In 1907,  
nineteen women, and in 1908,  
twenty-five were elected to the  
Finnish Parliament of 200 mem-  
bers.

Almost three-fifths of the  
women of Norway have possessed  
full parliamentary franchise for  
the last few years. And now in  
February, 1909, the Swedish  
parliament has granted universal  
suffrage, without distinction as to  
sex, to all inhabitants of the  
country over twenty-four years  
of age.

Truly Canada could, without  
losing any national dignity or  
risking any social or political  
deterioration, go a long way in  
following the example set by the  
progressive little nations above-  
mentioned.

CHATHAM EXPECTS  
THE BIG FAIR.

And Hopes to Have the Railway  
Shifted in Time.

J. S. O'Dwyer of Moncton, govern-  
ment engineer, has been in  
Chatham lately endeavoring to  
settle the claims for the right of  
way for the diversion of the I.C.R.  
into town. At a joint meeting  
of the board of trade and town coun-  
cil last evening, Mr. O'Dwyer  
submitted the plans for the rail-  
way and a majority of those pre-  
sent expressed themselves in favor  
of building the new section on the  
A. & R. Loggie property in the  
west end.

A resolution was unanimously  
adopted pressing upon W. S. Log-  
gie, the county's representative at  
Ottawa, the necessity of obtaining  
a revote on the expended portion  
of the \$40,000 voted last year.  
This amounts to \$32,000, and a  
new vote of the same figure will  
make a total sum of \$72,000 avail-  
able for expenditure the coming  
summer.

Property owners present agreed  
to allow the land damages to stand  
for another year and the whole  
amount will be devoted to grading  
and laying of the rails.

On the authority of Mr.  
O'Dwyer, it was stated the \$72,000  
would complete the railway as far  
as Morrison's Mill, just on the out-  
skirts of the town. There will re-  
main only the portion through  
town to be built in the summer of  
1910, and it is hoped to have the  
changed line complete in time to  
bring visitors to the Dominion  
exhibition.

At the regular monthly meeting of  
the Newcastle Auxiliary of the  
Women's Missionary Society of the  
Methodist church, Mrs. J. A. Follans-  
bee was elected delegate to the Branch  
Convention of the society to be held  
at Summerside, P. E. I., during the  
first week in June.

## New Spring Goods.

We have just opened up a lot of real nice spring  
top coats. We have them both short and long.

Price from \$7.00 to \$14.00.

Also a lot of soft and stiff hats. There is nothing  
nicer on the market than a KING HAT.  
We have a lot of Boys' Oxford all-wool Pants

Price \$1.00. All Sizes.

## L. B. McMURDO, NEWCASTLE

## J. HOWARD

## CROCKER DEAD.

One of Newcastle's Best Young  
Men Passed Away in Denver,  
Colorado.

On Tuesday evening, March 2nd,  
in St. Anthony's hospital, Denver,  
Colorado, J. Howard Crocker, the  
eldest son of Mr. and Mrs. T. W.  
Crocker, of Newcastle, passed  
through the valley of the shadow  
of death to his eternal reward.

Born 32 years ago in Derby, in  
early life he removed with his  
parents to Newcastle. Gifted with  
the mind of the student, industri-  
ous and painstaking in all that he  
undertook, his success was marked.  
After graduating from the High  
School in Newcastle he went to  
the U.N.B. where, after an honor-  
able course, he took his B.A. de-  
gree in 1898. After his gradua-  
tion he taught school in Petticoe  
and Elgin and for a short time in  
Newcastle, when signs of failing  
health were manifested, and under  
the doctor's advice he went to the  
Canadian West, where he had  
charge of a high school, and was  
for a short time professor of a col-  
lege in Winnipeg. In the mean-  
time he had taken up the study of  
law and was nearly through when  
his health gave completely out  
and he went to Colorado where he  
was a patient in the Oak's Home  
and Agnes Memorial Hospital  
spending the summer months on  
the ranch of his cousin, of which  
he was manager at the time of  
his death. Here his health was  
steadily improving and the letters  
received from him were of an en-  
couraging nature. But on March  
first his parents received telegrams  
informing them of his dangerous  
illness through heart failure. He  
was removed to St. Anthony's  
hospital. Everything that medical  
skill and kind friends could do  
was of no avail, and on Wednes-  
day word was received that he  
had passed away.

He is survived by his parents,  
T. W. and Mrs. Crocker, Earl, in  
the Royal Bank, Cuba; Frank in  
Chicago; Waldo, Bessie and Flor-  
ence at home.

Mr. Crocker was highly esteem-  
ed by all who had the pleasure of  
knowing him, and his circle of  
friendship was a wide one. Being  
of a gentle personality and kind  
in spirit, others were attracted to  
him. Being ambitious naturally,  
the disappointment at not being  
able to achieve what he had plan-  
ned was severely felt, and yet  
there was no disposition to com-  
plain. With a character perfected  
by the things he suffered, he  
passed away to be with God leav-  
ing a memory that will be kindly  
cherished by all.

The remains of the late Mr.  
Crocker reached his parents' home  
on Monday morning, accompanied  
by his sisters, Misses Bessie and  
Florence.

The funeral was held yesterday  
afternoon at 2:30 o'clock.  
The services at the house and  
grave were led by Rev. H. C. Rice,  
assisted by Rev. Messrs. Brown and  
Cuthbert. The Methodist choir  
were present in a body and were  
assisted by Mrs. C. Sargeant.

There was a very large atten-  
dance. The pall-bearers were:  
Mayor Miller, H. Williston, C. Sar-  
geant, M. C. Russell, J. E. T. Len-  
don and J. M. Falconer.

Does your Parlor, Kitchen or Bedroom  
need paper this Spring?

## Our New Wall Paper

## N. B. SUNDAY SCHOOL

ASSOCIATION  
Rev. J. B. Ganong, Field Secretary  
of the N. B. Sunday School Associa-  
tion, will be in Northumberland County  
in the interests of Sunday School  
work from March 15 to 19th. The  
proposed meetings for these dates are  
as follows:

Monday, March 15, Blackville.  
Tuesday, March 16, Millerton.  
Wednesday, March 17, Newcastle.  
Thursday, March 18, Douglastown.  
Friday, March 19, Redbank.  
An effort is being made to have a  
large and enthusiastic meeting at  
each of the above named places.

Synopsis of Canadian Northwest Land  
Regulations.

Any person who is the sole head of  
a family, or any male over 18 years  
old, may homestead a quarter-section  
of available Dominion land in Mani-  
toba, Saskatchewan or Alberta. The  
applicant must appear in person at  
the Dominion Lands Agency or Survey  
Agency for the district. Entry by  
proxy may be made at any agency on  
certain conditions, by father, mother,  
son, daughter, brother or sister of  
the intending homesteader.

Duties. Six months residence, and  
cultivation of the land in each of  
three years. A homesteader may live  
within nine miles of his homestead on  
a farm of at least 80 acres solely owned  
and occupied by him or by his father,  
mother, son, daughter, brother, or sis-  
ter.

In certain districts a homesteader  
good standing may pre-empt a quarter-  
section alongside his homestead.  
Price \$200 per acre. Duties. Must  
reside six months in each of six years  
from date of homestead entry (including  
the time required to earn a homestead  
patent) and cultivate fifty acres  
extra.

A homesteader who has exhausted  
his homestead right and cannot obtain  
a pre-emption may take a purchased  
homestead in certain districts. Price  
\$300 per acre. Duties. Must reside  
six months in each of three years,  
cultivate fifty acres and erect a house  
worth \$100.00.

W. W. FORRY,  
Deputy of the Minister of the Interior,  
N. B. Unauthorized publication of  
this advertisement will be prosecuted.

## LANCASTER, ONT. CARRIED BY "FRUIT-A-TIVES"

These Wonderful Fruit Juice Tablets  
Are Winning Friends on Every Side.

Lancaster, Ont., Sept. 16, 1908.  
I was a martyr for many years to that distressing complaint, chronic Constipation. I tried many kinds of pills and medicines without benefit and consulted physicians, but nothing did me any real good. Then I began to take "Fruit-a-tives," and these wonderful little fruit tablets entirely cured me.  
At first, I took five tablets a day, but now I take only one tablet every two days. I am now entirely well, and "thanks to 'Fruit-a-tives,'" I give you permission to publish this testimonial.

## ADVANTAGES OF MIRAMICHI

The Chatham and Newcastle  
People Can Accommodate The  
Exhibition Visitors.

The St. John Globe, referring to the delegation of Miramichi men who presented the claims of Chatham to the Minister of Agriculture said:—  
"That such men could carry out the Dominion Exhibition large as is the undertaking, is the belief of all who heard them."  
That statement surely is an answer to the claims advanced in the St. John papers that Chatham and the North Shore could not satisfactorily run a Dominion exhibition.  
Some gentlemen interested in the claims of Chatham went out to the Transcript the well known hospitality of the Miramichi people and that visitors need not fear lack of accommodation, as Chatham with the surrounding towns, and flourishing farming districts can be relied upon to provide comfortable quarters for all comers.  
Mayor Bullock of St. John is represented in the Transcript as stating that the North Shore not only asks for a Dominion grant of \$50,000 but \$20,000 more to improve the railway facilities. The Chatham people want to know what argument can be based upon the latter request as an objection to the former. They ask Mayor Bullock if he has overlooked the large requests of St. John for harbor improvements, almost a half million dollars to be voted for that purpose. Chatham, they say, is not asking for \$20,000 for improving railway facilities but the surveys are made and plans filed for the railway change of location to improve it as a feeder to the main line. The sum of \$26,000 is in the estimates for that purpose but a much larger amount will be required. St. John, they say, has been so accustomed to getting everything going that it looks obviously upon any expenditure made outside that city. Speaking of the fact that Chatham is only a small town, the promoters of the Chatham exhibition argue that it has not been customary to give the Dominion grant to the largest cities in the province. In Quebec, for instance, it went to Sherbrooke; and in British Columbia to neither Vancouver nor Victoria, but to New Westminster.

Chatham is better known by name than many other places and as has already been pointed out, is beautifully located on the Miramichi river. The surrounding district is of such a character that as an agricultural show the Chatham exhibition has been strong whereas the weakness of St. John is always in that feature.  
At Chatham the race track adjoins

the exhibition grounds and it is claimed by many horsemen to be the finest half mile track in Canada, and it holds the Maritime record for a mile. The stabling is equal to that of a much larger city and it is provided with water and well lighted by electricity.  
If the Dominion exhibition goes to Chatham the sportsmen there say that they intend to give the greatest horse racing events ever seen in the Dominion and will offer prizes and bonuses to attract the best horses available.  
It is also probable that the Chatham people will place steamers on the P. E. I. route so as to bring people from the sister province there and will also arrange that water excursions open to visitors will be made easy. Judging from these arguments it looks as if the Chatham people could give the exhibition promoters of Moncton pointers. Since Moncton evidently has not cared to work for the grant it would be just as well that Moncton's influences should be given to a point on the North Shore and give the adjoining district a chance to distinguish itself.—Transcript.

## INDIGESTION IS SLOW STARVATION.

Food is to the human body what fuel is to a furnace. Without the aid of food the body starves and dies, just as a furnace fire dies, grows cold, when not supplied with fuel. Undigested food decays. So long as it lies in the stomach it is fermenting—giving off noxious gases and acid fluids that poison the blood and flow with it all through the system.

You cannot be healthy in such a condition. You must surely lack the snap, the energy of mind and muscle, of brain and body, which are necessary to the enjoyment of life's good things—its work and play. There is no enjoyment for the man or woman whose stomach is out of order.

When your food fails to supply nourishment through rich red blood, you are being starved in muscle and nerve—starved as truly as the man who has nothing to eat—only yours is slow starvation.

Mother Seigel's Syrup, the great remedy for indigestion, has had 40 years of unvarying success all over the world. By aiding the organs of digestion to perform their work naturally, it has given health and comfort to millions. We have thousands of letters attesting such cures. Here is one from—

Mrs. James A. Placey, of Elverton P.O., Drummond Co., P.Q., who writes, August 27th, 1908, says:—"For over ten years I have been troubled with nervous headaches, without obtaining any relief from prescriptions. I was advised to try 'Mother Seigel's Syrup,' and the trouble ceased after taking a course of your valuable preparation."

For sale by all leading Druggists & Merchants  
10 cts. a bottle.  
A. J. White & Co. Ltd., Montreal.

Missouri has abolished the school  
of journalism in its state university be-  
cause it is "more ornamental than use-  
ful" and because it "has simply toyed  
with the ethics of the newspaper pro-  
fession." Toying with such ethics  
seems a bit like playing with fire.

Have you a pain of any kind, any-  
where? Stop just a minute and  
think! It matters not whether it be  
womanly pains, head pains, or any  
kind of a pain, one of Dr. Sheep's  
Little Pink Pain Tablets will surely  
stop it in 20 minutes. Formula plain-  
ly printed on the 2c box. Sold by  
all dealers.

## HOME FOR CONSUMPTIVES

Mrs. W. K. Vanderbilt has given a  
million dollars for the provision of  
houses in New York for people suffer-  
ing from consumption. The idea is  
not to build a hospital but yet to pro-  
vide accommodation as a charity. The  
intention is to ask a fair rental and to  
provide conditions under which people  
suffering from consumption can ob-  
serve the simple rules necessary in  
combating the disease.

It is a form of charity which should  
receive attention. There can be no  
doubt that there exists in every com-  
munity the need the gift seeks to sup-  
ply. It is difficult even in the homes  
of persons of average income to secure  
ideal conditions for the treatment of  
consumption. But the insupportable  
conditions of many crowded tenements  
render well nigh impossible any  
hopeful contest with the disease. We  
have in our city no members of the  
Vanderbilt family, but it may be that  
there will be men who will find in  
this gift a suggestion for the intelli-  
gent expenditure of smaller sums of  
money.—Ex.

The Calgary News says: The "Great  
Divide" of the future will not be at  
the signboard in the mountains, but  
where the grain streams switch.

Province Should Forbid the Export  
of Pulpwood Cut on  
Crownlands

To the Editor of the Times.  
Dear Sir,—  
I regret that I have been so long  
in replying to your circular of the  
2nd January. In reply to your first  
question—How shall we best con-  
serve the natural resources of our  
Province?—

My idea is that the only way to con-  
serve the natural resources of any  
country is by having the parties who  
have the right to use the natural re-  
sources have as large an investment  
as possible in the country in plant de-  
pendent upon the natural resources, so  
that they will have an interest in  
making them extend over the greatest  
number of years, to supply the raw  
material to their factories.

If parties owning the right to this  
raw material have factories outside  
the country, they are liable to remove  
it as quickly as possible to get the  
quickest return for the investment they  
have made in purchasing the right,  
and also to save what raw material  
they may have in their own country.  
This applies whether it be sawed logs,  
pulp wood, or iron ore.

In reply to your second question—  
How may we best preserve our forest  
wealth and at the same time afford  
every reasonable encouragement to the  
enterprise of the lumbermen and mill-  
men?—

I think that the Province should  
have a thorough survey made by com-  
petent engineers of the whole forest  
area of this Province, and at the same  
time have mineralogists to look over  
the area with a view of seeing what  
deposits may be in our country yet  
undiscovered. The land should be  
classified as "barren," "good for fur-  
nishing purposes," and "good for saw logs."  
No small trees should be permitted to  
be cut on lands where they are in-  
creasing in size.

Great care should be taken in giving  
grants out of land which is only suit-  
able for logging purposes as in many  
instances these are only taken up for  
the sake of the logs.

Settlements should not be made too  
far from roads, churches and schools,  
unless a sufficient number of people  
are willing to take up the settlement  
to make it possible to establish a

Verse 35.—When God does cure  
some cases of noted sickness, what are  
the results in the community?  
If the Church should have the  
power restored of healing sickness,  
would that produce a permanent  
revival?

Verses 36-38.—Is it as a rule pos-  
sible for a Christian to live without  
doing good?  
How do you classify those who con-  
tent themselves with going to church  
and prayer meeting, and talking and  
praying, and are not following Jesus  
in "going about doing good?"

Why did God permit Dorcas to die?  
Why does God sometimes permit  
those to die upon whom so much  
depends: the bread-winner of a family,  
the mother of little children, the  
pillar in the church, or the "Dorcas"  
in the community?

Verse 39.—Should a Christian al-  
ways be ready to go to the home of  
sorrow, to render help and impart  
comfort?

It is a beautiful Custom to speak  
of the good deeds of the dead, and  
it is well kept up; but is there not  
almost criminal neglect in speaking  
of the good deeds of the living?  
(This question must be answered in  
writing by members of the club.)

Verses 40-43.—Is there any use to-  
day in praying that the dead be raised  
to life?

Why did God raise the dead in  
those, and not in these days?  
What great purpose has that mir-  
aculous age served?

Even if these miracles should prove  
to be but legends, will it effect one  
iota, any essential truth of Christian-  
ity?

There is one floor finish that endures — withstands hard usage — coats floors with a creviceless, glossy, wear-proof surface — is easily applied — dries hard overnight — repels dust — can be washed like glass — good for outdoor floors also. Send for color-card and free booklet.

# Moir's Chocolates

A Young Lady's Sweet Tooth

will take a decided liking to Moir's chocolates. The Chocolate coating is marvellously smooth, and so fine that no grain is discernible. It is richer, more delicious, more acceptable to the refined palate than ordinary chocolate coating.

So many exquisite flavors in each box that it will keep one guessing to think of what the center of the next chocolate will contain.

Surprise your lady friend this evening with a box of Moir's.

MOIR'S, Limited  
Halifax, N.S.

New Brunswick Representative: W. J. WATKINS, St. John, N. B.

# ENGLISH LIQUID PAINT

5 Good Reasons why you should use it

- 1—because it is made of 70% White Lead and 30% Zinc White—the ideal proportion.
- 2—because it is the only white lead used in it is Brandram's B. B. Genuine White Lead.
- 3—because it is the result of 31 years experience in mixing paints for the Canadian people.
- 4—because it is finer, more uniform, covers more surface, lasts longer and holds its colors longer than any other—more economical to use.
- 5—because it is guaranteed pure and the formulas printed on every can.

Newcastle.

## One Doctor—Only One

No sense in running from one doctor to another! Select the best one, then stand by him. No sense either in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Sold for nearly seventy years. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

Why try this thing, that thing, for your constipation? Why not stick to the old reliable family laxative—Ayer's Pills? Ask your doctor if he approves this.

### VOLCANOES.

They Are Not Burning Mountains as We Understand That Term.

"What are volcanoes?" Nine out of every ten persons would immediately have an answer of some sort to the question above, for have they not a lively remembrance of having learned in their schoolbooks that "a volcano is a burning mountain, from the summit of which are sent out smoke and flames?" This popular fancy has been exploded by scientists, whose work is to explode popular fancies.

In the first place, volcanoes are not necessarily mountains. In reality they are just the reverse—that is, holes in the earth's crust. Out of these are thrown the materials which, accumulating, form the peaks which we popularly call mountains.

These are, then, the result and not the cause of the action. Neither are they "burning," as we understand the term. There is no combustion nor any action we might reasonably call "burning."

The action need not necessarily take place at the summit, for eruptions are just as frequent at the sides or even at the base. The so-called "smoke" is nothing more or less than the clouds of condensing steam which are formed on every occasion when an eruption occurs.

Lastly, the "flames," so called, are merely the reflection of the mass of molten rock and material inside the crater on the clouds of steam above, thus appearing as a glowing light. The friction, too, set up by the motion of the materials causes electricity, and hence the lightning discharges which add to the illuminating effect.—Pearson's Magazine.

### VOTED WITHOUT BALLOTS.

An Election Day at Charlottesville, Va., in 1804.

At Charlottesville, Va., the seat of Albemarle county, according to Miss Mary Johnston's chronicle of "Lewis and Clark," they were voting for a member of the house of delegates. It was the fourth Wednesday in April. The year was 1804.

Under the locust trees to the right of the open gate were placed long tables and on them three mighty punch bowls, flanked by drinking cups and guarded by house servants of venerable appearance and stately manners. Here good Federalists refreshed themselves. To the left of the gate, upon the trampled grass beneath a mulberry, appeared other punch bowls and in addition a barrel of whisky ready broached for all good Democratic-Republicans. The sunny street was filled with horses, vehicles and servants; the broad path between the trees, the turf on either hand and the courthouses steps were crowded with riotous voters. All ranks of society, all ages, occupations and opinions, met in the general weather beneath the trees, where sang every bird of spring.

Within the courthouse the sheriff presided. Conspicuous sat the two candidates. There were no ballots, but each voter made known his choice by living voice.

"I vote, sir," cried the colonel, "for Mr. Ludwell Cary, for a gentleman and a patriot, sir, and may the old county never be represented but by such."

### The Money Germ.

The Baltimore Sun comes out with a warning that probably few will heed. It says, "Don't let the money germs bite you," and adds that a man who has taken the trouble to count 'em says that 124,000 bacteria roost comfortably on each one dollar bill after the currency has been circulating freely for a year or so. So if you have \$50 in your pocket you are probably carrying around about 6,200,000 germs. "Yet," says the Sun, "there are men brave enough to face this terrible risk just for the sake of having a roll of greenbacks. It simply shows what dangers man will undergo for money. Most of us, however, are not in serious danger."

**Garibaldi's Simplicity of Character.** An instance of Garibaldi's modesty and simplicity of character is afforded by the following letter, written to his wife at Caprera the day after the battle of Diogen.

Dear Francesca—Yesterday the Italian volunteers fought the whole day against the Prussians, the best soldiers in the world, and won. The weather here is very cold and it is snowing. I dare say it will be the same in the Mediterranean. Take care of the cows and see that the calves do not suffer from the cold. Tell Pietro to sow the beans at the Toile and tell the children, Clelia and Manlio, that when I passed Marsala I saw some beautiful toys, which on my return I shall get for them.

### Ingenious Ponies.

A rather curious habit has been developed by Mexican ponies in connection with the cactus thorns. When these creatures are thirsty it is said that before attempting to put their mouths to the prickly plant they will first of all stand and kick at the cactus with their heels. By this means the thorns are broken and the leathery skin bruised, and so the ponies can drink their fill of the cool juice without injury.—Straud Magazine.

### They Were Not Encouraged.

"I don't see why that young man doesn't propose." "I think, pa, that the chances of his doing it would be fully as good if you wouldn't leave your boxing gloves around where he can see them."—Bohemian Magazine.

Of course everybody likes and respects self-made men. It is a great deal better to be made in that way than not to be made at all.—O. W. Mahones

### INDIGESTION ENDS

Misery from your Disordered stomach goes in Five Minutes.

You can eat anything your stomach craves without fear of a case of indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Diapysin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion like a lump of lead in stomach, Bloating, Heartburn, Waterbrash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown when this effective remedy is used. Diapysin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 3-cent case of Diapysin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong stomach. For you then can eat anything and everything you want without the slightest discomfort, nervousness, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

The sample bottle of Diapysin is sent free to those who send for it. It is a small bottle, but it will do you a great deal of good.

Minard's Liniment Cures Dandruff.

At the world's fair in London, England, the hair of the women of the world was judged. The hair of the women of the world was judged.

Minard's Liniment Cures Dandruff.

### HARRY REID KNOWS

Quick, the druggist, does not guarantee Parisian Sage to grow hair on every bald head, but if there is any hair left in the roots of your hair, Parisian Sage will stimulate the hair bulbs and cause your hair to grow again. Here is one case. "I am now using the second bottle of your Parisian Sage, and can notice a new crop of hair appearing. I am glad to say it is a darker color than my hair was before. I became bald," Harry Reid, 10 Manhattan St., Rochester, N. Y.

Don't wait till you're bald before using Parisian Sage, use it now. Kill the dandruff germ and prevent baldness. Durick, the druggist, sells Parisian Sage at 50 cents a large bottle and he guarantees it to cure dandruff, stop falling hair, and cure all diseases of the scalp, or money back. Parisian Sage is a delightfully invigorating hair dressing it makes the hair soft, fluffy and beautiful.

### RESOLINE ANTISEPTIC TABLETS

A simple and effective remedy for SORE THROATS AND COUGHS. They combine the germicidal value of Resolene with the soothing properties of slippery elm and licorice. Your druggist or from us, 100, in Canada, J. H. H. Co., Ltd., Agents, Montreal, N. B.

### THE JUDICATURE ACT.

An important item of business during the coming session of the provincial legislature will be the adoption of the Judicature Act, now some years in preparation. The bill, as formulated and passed by the last government, is being changed on certain points and it will be passed and put into force in an amended form. While the body of the act will remain as drawn up for the Liberal government, there are yet a number of material changes. These will not, however, take long in the making. The act, as it now stands, there is provision for the appointment of two more judges. It is understood that this is one of the points which will be affected by amendment. The section is likely to be struck out altogether. Mr. J. B. M. Baxter, K. C., is doing the preliminary legal work leading to the amendments. St. John Globe.

### CASTORIA.

Minard's Liniment Cures Burns, etc.

Repeat it: "Shiloh's Cure" will always cure my coughs and colds.

### EYESPEAKERS COMING.

O. L. McCully, M. D., M. R. C. S., Laid Specialist in diseases of the eye, ear, nose and throat, will be at the Robertson House, Bathurst, Thursday, March 18th, where he may be consulted. R. No. 21-2 wks.

Minard's Liniment Cures Burns, etc.

Repeat it: "Shiloh's Cure" will always cure my coughs and colds.

A naval seaman has once every day to salute the quarter deck of his ship can if he is not upon it. Ten is a such popular fact that many people like saluting a packet wherever seen.

### WHITNEYVILLE.

Rev. H. D. Worden had his wood cut last Tuesday. The work was done by Messrs. Mutch and Stuart's wood-cutter, while a number of the young men from around the vicinity also lent a helping hand.

Mr. Alfred Sinclair, foreman for D. & J. Ritchie, has completed his part of the lumber operation for the season and is now at home.

Messrs. William Forsythe and Stanley Menzies are also home from the woods.

The Post Office of this place was changed from Clifford Somers to Peter A. Forsythe's March 1st, after a period of thirty-one years. Mr. Clifford Somers having resigned his office as post master some time ago.

Mr. and Mrs. P. A. Forsythe spent Friday evening the guests of Rev. E. E. and Mrs. Mowatt of Redbank.

The W. M. A. Society of the U. B. church will meet in connection with the sewing circle on Wednesday afternoon March 10th, with Mrs. R. P. Whitney.

Miss M. E. Clouston, teacher of Allison school, was called home this afternoon on account of the illness of her sister, Mrs. Everett O'Donnell, Lower Derby.

Mrs. Howard Whitney of this place, is suffering from an attack of erysipelas in one of her limbs.

The many friends of Rev. J. Newton Thorne, of Pennfield, Charlotte Co., a former pastor of the United Baptist church of this place, were very much shocked in learning of the sudden death of his son, N. Foster Thorne of Woodstock. He has the sincere sympathy of a large number of friends in his bereavement. March 6, 1909.

### NEW BRUNSWICK IN LINE

In Organization For Prevention of Tuberculosis.

ST. JOHN, N. B., March 10.—The New Brunswick Association for the Prevention of Tuberculosis, which was organized at St. John, N. B., on Monday last, held its first meeting on Tuesday evening, March 9th, at the St. John Hotel. The meeting was presided over by Dr. Thomas Walker, who read a paper on "The Prevention of Tuberculosis." The meeting was very successful and a large number of resolutions were passed.

The secretary was requested to send a communication to the St. John Hotel Society, asking the board to consider the question of forming a committee to investigate the prevalence of tuberculosis in the city. The committee was composed of Dr. Walker, Dr. J. R. McPherson and Dr. J. H. H. Co., Ltd., Agents, Montreal, N. B.

## LOCAL NEWS.

Miramichi Presbytery met here yesterday. Full report will appear next week.

The Temperance ticket were defeated in Fredericton civic election Monday.

Percy O. Leblanc and Charles B. Ross of Blackville have dissolved partnership.

It is likely that Arthur Robinson will appeal from Judge Wilson's decision in the Braithwaite case.

A violent electrical storm, accompanied by a downpour of rain passed over the Miramichi on Thursday night.

Fred Locke, of the Lounsbury Company's staff, who was kicked by a horse a few days ago, is able to be around again.

On Friday night two barns at Big River, five miles from Bathurst, were burned and destroyed, but not destroyed.

Owing to the absence of Rev. Mr. MacArthur, there will be no service in St. James church next Sunday morning. In the evening, Rev. Mr. Mowatt of Redbank will conduct the service.

COAL AT ST. ISADORE. George Robertson of Bathurst has struck a seam of coal at St. Isadore, near Lower Carriquet, four feet, nine inches thick, at a depth of five hundred feet from the surface.

Brigadier Collier of St. John, will conduct a special meeting in the S. A. hall on Thursday, March 11th, at 8 p. m. The Brigadier is a splendid speaker. A good time is in store for all.

On Friday afternoon at 2:30, in the Methodist church, Chatham, Rev. Thos. Marshall, Supt. of Methodist Missions in New Brunswick, will meet the ministers of the Chatham district to talk over matters of interest.

Inspector Mercereau, who was operated upon by the Moncton hospital a few days ago, is able to be around again and left on Wednesday for Redbank to visit his son, Mr. Mercereau for a few days.

THE EVENT OF THE SEASON. St. Patrick's Concert, on the 10th and 11th, as per advertisement in another column, will be the event of the season. A most thrilling play, the Colleen Bawn, will be presented by first-class local talent. Tickets, 25c; reserved seats, 50c; children 15c. No children admitted on Wednesday. Special train from Indiantown at excursion rates.

AT THE OPERA HOUSE. White, Shelley and Mack closed their engagement here on Saturday night. This week the number of pictures is greatly improved, and the star attraction is William Stewart, who is not a whit behind any of the best troupe in acting ability.

On the 12th and 13th, a wild west show is on the boards, at popular prices, after which Voys and Crangle will resume their motion picture and vaudeville shows, which have drawn a full house ever since starting.

## ANOTHER MEDAL FOR NEWCASTLE MAN

Andrew McCabe Honored by the King After a Public Service of 33 Years.

In the Ladies Waiting Room at Newcastle station on Saturday morning last, Andrew McCabe, late Engine driver on the Intercolonial Railway and for a number of years driver of the Indiantown branch train, was presented by Supt. Price with an Imperial Service Medal for his long and faithful service while in the employ of the Railway. Mr. McCabe in a neat speech thanked His Majesty the King, the Government, and Railway management for the honor conferred upon him which he appreciated very much.

Mr. McCabe entered the service of the Railway on May 18th, 1875. In the accident at Derby Junction, in March, 1907, Driver McCabe received serious injuries and in consequence retired from the service in June 1st, 1908, after 33 years service and is now on the Provident Fund of the Railway. Supt. Price, Mr. James Falconer, of Newcastle Station Master Payne, Mechanical Foreman W. Russell, Section Foreman Lind and Mr. W. J. Keating, each in a few words heartily congratulated Mr. McCabe on his receiving the medal.

## OBITUARY.

## MRS. MICHAEL JARDINE.

The death of Mrs. Michael Jardine, well-known and respected by a large circle of friends, took place at her home on Falconer street Sunday afternoon. Death was due to heart failure consequent upon a three weeks illness of bronchial pneumonia. Deceased was formerly Miss Ellen Ahern of Nelson, N. B. She was 76 years old. The funeral was held in St. Mary's church on Tuesday morning, Rev. Father Maguire officiating in the presence of many. The pallbearers were Messrs. Hugh Morris, James Falconer, John Foran, James Goodfellow, Daniel Hogan and James Russell. Mrs. Jardine is survived by her husband, one son Charles, and one daughter, Mrs. Joseph Foran, both of Newcastle, and by a brother, Wm. Ahern of Farrisboro, N. S., and a sister, Mrs. Dennis Harrigan of Seattle, Washington.

## JOSEPH MCKAY.

The death of Joseph McKay, thirty or forty years ago a resident of Newcastle, occurred at his home on Chaplin Island Road, on Sunday last. Deceased had been ailing for some time and was 75 years of age at the time of his death.

Mr. McKay was a familiar figure in this town, and had a very wide acquaintance. He will be mourned by many.

He leaves a widow, a sister of Wm. Campbell of C. I. Road, and the following sons and daughters: John, of Yukon, and George William and Miss Bella at home. John McKay of Maine is a brother, and Mrs. Janet Hall of Port Daniel, Que., a sister.

The funeral took place yesterday afternoon at 1:30 in St. James cemetery, Rev. S. J. MacArthur conducting the services. The pallbearers were: Messrs. John Kingston, Samuel Russell, M. Bannon, Michael Shaughnessy, Wm. Ryan and James Allison.

## MR. ALLAN MCTAVISH.

On the 3rd inst., Allan McTavish departed this life in the 63rd year of his age.

Mr. McTavish was a native of Cassilis being a son of the late John McTavish of Cassilis, South Esk.

For a number of years Mr. McTavish had been a sufferer from heart trouble, but was confined to his bed for only about two months. In the community he was highly respected and esteemed by everyone, because of his upright manly life. He was a regular attendant of St. Stephen Presbyterian church, Redbank. One son, Lionel, preceded him to the better land, a little over seven months ago, and his daughter Maude was called to her reward only nine days previous to her father. He leaves to mourn their loss a widow, formerly Miss Emily Somers of Lytleton, Little South West, three daughters: Mrs. John Russell, of Brewer, Maine; Mrs. Alex. McDonald, Black River; and Sophia at home. Three sons, Hazen and Weldon at home and William who is married and lives at Lytleton, Little South West, all of whom were able to be present to pay their last tribute of respect and love. Also three sisters, Mrs. Noah Mullin of Cassilis, Mrs. Jane Taylor, Newcastle, and Mrs. John Vananburg of Nova Scotia; and two brothers, Duncan and John of Cassilis, besides five grandchildren and a number of relatives and friends. The funeral service was conducted at the home by their pastor, Rev. E. E. Mowatt. Interment being in St. Stephen cemetery, Redbank. In their double bereavement the family have the sincere sympathy of a host of friends.

## LAW REFORM

## IN ONTARIO,

Important Bill Introduced by Attorney General Foy.

TORONTO, March 4.—Attorney General Foy introduced in the legislature yesterday his long promised law reform bill, the measure receiving its first reading. The bill has four main features: Abolition of appeals to the Privy Council, increase of the jurisdiction of county and district courts and rendering permissible contracts between solicitors and clients. The bill abolishes all division and divisional courts of the high court and establishes two branches of the Supreme Court, to be known respectively as Appellate Court of the Supreme Court and high court divisions. The Court of Appeal will be known as the appellate division of the Supreme Court of Ontario. The jurisdiction, power and authority of the old court are vested in the new appellate division.

## Social Personal.

Fred Anderson has gone to Boston for a few weeks.

Rev. Mr. Dawson of Chatham, was in town Monday.

Percy McKeay spent two days of last week in Moncton.

Dr. T. L. Lewis, V. S., of Fredericton was in town last week.

Mrs. Vye of Chatham, spent two days last week with Mrs. Margaret McQuar.

Mrs. John Morrissey was the guest last week of Mrs. Dr. McManus of Blackville.

James A. Ronale and daughter, Miss Greta, were in Richibucto on Wednesday.

H. B. Anslow, Editor and manager of the Campbellton Graphic, spent Saturday in town.

Mrs. John Cassidy is, we are pleased to note, convalescent from a severe attack of pneumonia.

Miss Maud MacPherson of Harcourt spent several days with friends here, returning home yesterday.

Mrs. Signa Watters and little daughter of Chatham, are visiting Mr. and Mrs. Fred McKee.

Miss Gertie Sullivan of Campbellton spent Sunday and Monday with her parents, Mr. and Mrs. Daniel Sullivan.

Miss Gertie Whitney of the clerical staff of Clark & Co., is spending a few weeks vacation at her home in Strathadam.

Rev. P. W. Dixon is able to be out after his long illness, and officiated in church last Sunday. His many friends are glad to see him around again.

The Misses McPherson entertained a number of friends very pleasantly on Tuesday evening in honor of their cousin, Miss Hutchison of Harcourt.

Miss Mary Hutchison of Harcourt, who has been spending some weeks in town the guest of her cousins, the Misses MacPherson, returned home Saturday.

Mrs. O. G. Anderson and Miss Olive Anderson, en route from Toronto to Halifax stopped over in Newcastle from Thursday till Monday, renewing old acquaintances.

Rev. J. S. MacArthur left last night for Campbellton where he will spend the remainder of the week. He will assist Rev. Dr. Carr at the Communion service on Sunday next.

## SPECIAL MEETING.

## TOWN COUNCIL.

A special meeting of Town Council was held Monday afternoon.

T. W. Butler's bill for \$133 was passed.

Ald. McMurdo and Falconer were appointed delegates to the Union of N. B. municipalities Convention in Moncton, 10th and 11th ult.

A communication from Dr. Sproul was referred to a special committee. Adjourned.

## ORANGE NOTES.

The Orange Grand Lodge of New Brunswick meets in Fredericton on the afternoon of March 10th. The representatives of No Surrender, No 17, Newcastle, are Wm. Stymiest, (T. A. Clark, alternate) Wm. Corbett, Jr., John Williamson and John Macneil; and of Empire, No 125, Newcastle, John Follansbee.

Some people are living examples of the conventionality of the unconventional.

## BORN.

At Newcastle, March 6, to Mr. and Mrs. Wm. Palmer, a son.

## ST. PATRICK'S DAY CONCERT At Newcastle

The St. Mary's Chyrch Choir assisted by External Talent will give its Annual Concert on Tuesday and Wednesday March 16 and 17

## At the OPERA HOUSE

The Members have been rehearsing for some time the "Colleen Bawn," Dion Boucicault's most successful, as it is his most thrilling Drama. Full of adventurous incidents, abounding in passion, this Drama is realistic of life in Ireland, such as it has been lived under the Iron Rule of the Landlord, now becoming a character in history.

Vocal and Instrumental Music, interspersed, will lend variety to the whole. A very pleasant time may be anticipated.

For the convenience of patrons the Indiantown train leaving Indiantown at 6 p. m., and returning after the concert, will carry passengers at excursion rates on Wednesday the 17th. Children will not be admitted to the concert on Wednesday.

Admittance 25c, Reserved Seats 50c, Children 15c. Tickets to be had at the stores of Messrs. Hennessy, Craghan and Bannon and at the door on entering. Doors open at 7.15 p. m. Performance commences at 8 p. m.

## NOTICE.

Public Notice is hereby given that the undersigned have been appointed Assessors for the Town of Newcastle for the year 1909. Any persons liable to be assessed within the said town, may, within thirty days from date, furnish to the undersigned a statement, under oath of the real estate, personal property or income on which they are liable for taxation.
