# CHAMPIONSHIP GAMES

Teams, Will Battle Tomorrow.

The city championship game to be played tomorrow at Tecumseh Park etween Youngs, the champions of the City League, and the Derbys, champions of the East End League, should draw a very large crowd, as both teams have their friends, and it is likely that the Derbys will have a large following to cheer them on to victory.

The game will start at 3 p.m., and as but one game is to be played to decide the city championship, it will likely be the last played in this city, if Remains of Capt. Sullivan, of London, no arrangements are made with some outside team.

Near the Texas Coast.

Galveston, Sept. 17.-An oil lake the gulf, 160 miles south by east of Galveston, fed by at least three jets, reported by shipmasters entering

this region for several years was well known but that some extraordiary occurrence is responsible for the flowing of oil from the bed on the Gulf is evidenced by the investigation made by Capt. C. Netherton, of the steamship Comedian, and Capt. . Gaine, of the British Steamship Aur The depth of water at this point is 5,400 feet

Three jets about 300 feet apart are ubbling oil. The oil zone is about a mile and a half wide and five miles long. In many places near to the jets the oil is three or four inches deep and a dead calm prevails, while the sea turbulent beyond in all directions. survey shows that the oil lake is a line almost due south with the il fields of east Texas. Experts advance the opinion that a subterranean eruption has severed the big vein of oil feeding the Texas fields.

before 4 o'clock next been recovered.

But with Taylor's Borax Soap the result is wonder-The surface is left without a single streak - it glitters and sparkles as though it were diamond. And your work is only half as hard. For this soap reduces rubbing to a minimum—it works almost like magic.

Borax is the most powerful cleanser in the world. It does wonders that are almost unbelievable until you once see the results for yourself. When you spend an hour cleaning the bath room, the tub, the wash bowl and the mirrors, you have wasted just half an hour. You would have done less than half the rubbing and finished in half the time with Taylor's Borax Soap.

For this soap does more than any other soap you have ever known. It loosens every bit of dirt instantly, it destroys every possible germ and leaves everything both clean and sweet. Hard water often hardens the hands -it leaves them red and rough. But this delightful borax soap softens the water and so softens the hands—it leaves them whiter and daintier than ever before.

Philadelphia, Sept. 16.—Inability to hit in pinches, and two errors cost the Tigers the first in their series of four games with the Athletics. Two gift runs won for Philadelphia, 2 to 1. Detroit had several fine chances to win. It should have won, for Eddie

Summers was pitching as well as he ever pitched against the Athletics, and the kind of ball he was firing over the rubber would win 99 out of any Even making allowances for the two errors and the runs that resulted

from them, the Champions should have walked away with the contest. But they could not hit when they should, and the single that would have put the game on Detroit's side never came. DETROIT UP AGAINST IT.

Victory seemed in Detroit's grasp in the third inning, when Stanage smashed the ball to left for a single. He was forced at second by Summers. The pitcher took second on McIntyre's single to right, and a base on balls to Bush filled the sacks with one man out and Cobb up. After fouling off several balls Cobb made a vicious swing at a high one and missed. With two out and Crawford up there was still a chance, but Sam laid a slow and easy grounder down to Davis, which Harry handled with ease and grace, retiring the side, and saving the day for Philadelphia.

AGAIN UP TO COBB. Another opportunity to score presented itself in the eighth, and it was again up to Cobb. With two out, Bush doubled to the crowd in left field. Instead of the single that would have scored Bush, Cobb lined into Heit-

The Canada Cement Company, Limited, by means of contracts already made proposes to acquire control of a majority of the shares of the capital stock of the following companies:

The Western Canada Cement and Coal Company, Limited, Exshaw, Alberta, and the Eastern Canada Portland Cement Company, Limited, Quebec. The plants, which will be owned or controlled by the new company, are believed to be among the best con-

structed and most efficiently equipped on this continent; and, under a competent central management not only will a uniform standard of unity be secured in the combined product, but an equable standard of prices may be maintained throughout the whole country. These plants will have a total capacity in excess of 4,500,000 barrels of Portland

THE CANADIAN MARKET FOR PORTLAND CEMENT. The demand for Portland Cement in Canada has increased remarkably during the last five years. In 1904 the total consumption of Portland Cement in the Dominion was 1,694,988 barrels, of which 784,630

barrels were imported. In 1908 the consumption, notwithstanding the general industrial depression, was 3,134,338 barrels, and no less than 3,495,961 barrels were manufactured in Canada. Eastern trade conditions indicate that the consumption during 1909 will largely exceed that of 1908. The increase is not abnormal nor due to merely local causes. In the year 1888, it is estimated that less than

200,000 barrels of cement were manufactured on the North American Continent, and the enormous growth of the business is shown by the fact that in 1908 approximately 55,000,000 barrels were there produced. The manufacture of Portland Cement commenced in Canada in 1888, but until 1904 the importations into Canada of the foreign product The report of John McLeish, B. A., chief of the division of mineral reserves and statistics of the department

of mines, Canada, on the production of cement in Canada during the calendar year 1908, furnishes the following comparative statement:

Canadian	Foreign	Total
ctured Consum	ed Imported into Cana	ida Consumed in Can.
rrels Barrel	s Barrels	Barrels
990 910,3	<b>58 784</b> ,630	1,694,988

	64 666,931	2,785,695
	93 672,630	3,108,723
	469,049	<b>3</b> ,134,338
	rrels Barrel 990 910,3 568 1,346,5 562 2,119,7 513 2,436,0	ctured         Consumed         Imported into Cana           rrels         Barrels         Barrels           990         910,358         784.630           568         1,346,548         917.558           562         2,119,764         666,931           513         2,436,093         672,630

Great as has been the development of the Portland Cement industry in Canada since 1904, it is only reasonable to assume that this growth will be largely exceeded in the immediate future, and for many years to come. The enormous public works in progress and in contemplation, including railways, canals, bridges, harbor improvement, piers, wharves, docks, piles, pavements, building foundations and buildings, etc., will all require proportionately large quantities of the manufactured products of the new company. The hydro-electric developments throughout the country will increase the demand, while the rapid substitution of reinforced concrete for other materials in the building trades, will render necessary an increased production on the part of the new company.

OBJECTS OF THE MERGER. According to the returns made to the Dominion Government by the cement manufacturers the average price at their works obtained by them in 1908 was \$1.39 per barrel. This was the lowest price ever reported by the Canadian mills. In 1906 the average price was from \$1.65 to \$1.70, and in 1907, about \$1.60. At the beginning of the present year it was realized by a number of the manufacturers that even without any increase in prices the business could be rendered much more profitable by a merger of several of the large competing companies on a conservative basis. The Canada Cement Company, Limited, is the outcome. The new company will own or control cement producing plants at the central points of distribution from the St. Lawrence River west to the Rocky Mountains, and by securing more efficient organization which will be able to regulate the distribution of the manufactured product from these central points to the centres of consumption, large economies in the present cost of freight, which represents a large percentage of the ultimate cost to the consumer, will undoubtedly be effected. The establishment of one executive office in the City of Montreal, and the elimination of competitive salesmen, middlemen and brokers is also

expected to effect a considerable saving in the costs of the sales department under the new management. Forms of application can be obtained at any office of the Royal Trust Company or of the Royal Securities

Corporation, Limited. The Royal Securities Corporation, Limited, Montreal.

lication of inquiries from British and foreign houses in the weekly bulletin be discouraged, as Canadian money should not be used to furnish free advertising to outsiders where the object was to displace Canadians in their own market.

The clause in the report proposing the establishment of an interchange credit bureau by which the department would be in a position to answer promptly inquiries as to the standing of any firm, provoked discussion. Some delegates thought the association should desist from such detail as men tioned in the report. A motion to that effect was amended on the suggestion of Mr. Lee, of Toronto, by which the detail will be discouraged, but larger matters will receive consideration.

The revival of the "made-in-Canada provoked considerable discussion. Some of the delegates condemned the scheme because the asso ciation would require nearly \$200,000

J. P. Murray strongly advocated the scheme on the ground that Canadian port Canadian industries. Mr. Sparks denounced the project as

Mr. Murray said in some stores 75 per cent of the goods were American, and he thought it was time some scheme was launched to educate Canadians to insist on Canadian goods. R. McCullough, Hamilton, gested that it would be wise to make

# MINISTERS THE STARS AT BIG FUNCTION

Graham, King and Strathcona Address Canadian Manufacturers' Association.

Association tonight will rank pernaps as the most brilliant and potafunction of the kind ever held Hamilton. In some respects, indeed, it was a unique gathering. It brought together over 300 representatives of the leading manufacturing industries of the Dominion. Jacob Billo Instantly Killed by a M. C. R. Train Near La Salette.

St. Thomas, Sept. 16.-Jabob Billo, 8 farmer residing near La Salette, was ing on the tracks, by being struck by Michigan Central express No. 17. It seems that Billo was on his way to dig a grave, and stepped out of the way of a westbound freight train, directly in front of the express. He was horribly mangled, and it was only by a pair of new boots that he was wearing that he could be identified. Coroner Shehan, of Delhi, was notified, but decided that an inquest was unnecessary. Deceased leaves a wife and Henry Billo, of St. a large family.

"Forty-five Minutes From Broadway" drew a bumper house at the Grand last evening, and pleased. It is well known to Londoners, having been given here on several occasions, with Scott Welch and his charming wife in the leading roles. A Cohan show always draws well in London, and, no matter the cast, it would still attract. "Forty-five Minutes from Broadway" is a great show, one of the brightest, breeziest, most entertaining shows ever presented

here, and although several names connected with it were missing, the peorle wanted to see it. The cast last night was in the main the same that appeared here the last time out. Scott Welch is not the Kid Burns of the play, but the role is enacted by Charley Brown. He reminds one of Scott Welch-he was so different. He may be good, but for what the writer is at a loss to discover. Miss

RUSSIA'S BIG FORCE

IN THE FAR EAST Massing Troops for the Second War

With the Japanese.

Victoria, B. C., Sept. 17.—Russia is massing a great army in Siberia, Four or five barracks are being built and extensive fortifications made, and speculation as to the second war with Japan is a common topic of conversation among the Russian military men, said A. B. Denbigh, a Russian, who returned from Siberia and Mongolia by the steamer Kagamaru today. "I was told that there were at least five hundred thousand troops in Siberia," said Mr. Denbigh. "Troops are quartered everywhere. The number

of troops are from four to five times the number in Siberia before the war. At Vladivostok, before I left, there was a review of fifty-five thousand troops, and not one man was taken from the fortifications. I suppose at least as

# THAT NEW RACE TRACK

The Ontario Government Said to Have Discussed the Matter.

Toronto, Sept. 16 .- The Star says: That the Ontario Government is not yet satisfied with the conditions under which racing is being carried out at the Dufferin Park racetrack, and that further steps are under consideration, is the report around the Parliament Buildings this morning.

According to this rumor, Inspector Greer, aided by several other officers, has been keeping a strict watch on the track and noting conditions as he sees them there, with the object of gathering evidence in case of future

The obtaining of a federal charter to operate a race-track at Dufferin Park is not all that is necessary, and a notice was sent to the officials of the Metropolitan Racing Association some time ago that the track was being operated without a provincial license. It is stated that a reply has been received from the association to the effect that no application for such license will be made, and adding, it is understood, that the association would not take any chances on asking the Provincial Government for anything. Whether the Ontario Government will proceed any further in the case will be, it is said, largely the result of a cabinet council, which was held this morning, and which lasted into
