WOMAN BANDIT

ROBS MOTORIST

Port Chester, N. Y., Dec. 23.

Port Chester, N. Y., Dec. 23.—A "lady" bandit yesterday made her appearance near here and, while two men companions looked on, robbed Mrs. Clarence W. Mertz, wife of a local contractor, of \$80 in cash and \$1,000 in checks, Mrs. Mertz was driving toward White Plains in her automobile when another car drew up in the road before her, combelling her to stop. A man

compelling her to stop. A man and woman stepped out, the man carrying a revolver. Another man remained in the car. The couple climbed into Mrs.

Mertz's automobile and ordered her to hand over her valuables. After she had complied, the woman searched her, returned two monogrammed rings and handed her two \$1 bills, saying:

"You may need this to buy gasoline." Then they left her and drove away in their car."

LLOYD GEORGE ADVISED

LOUGHEED DOUBTS THAT

"GREEN" CHRISTMAS

The possibility of a "green" Christmas is looming on the horizon, and has already been the topic for the oldtimers of the district, who recall rare Yuletide seasons of the past when such was the case. A few veteran citizens discussed the possibility on the market this morning, and one bearded sage rose to remark: "It might not be a green Christmas, but it will be a dry one." Others present disagreed with him, and regretted their lack of diplomacy, when he signified his intention of calling on them for some Christmas cheer.

The majority of citizens would prefer that Christmas be not a "green" one, because of the fact that snow, sleighs and sleighbells enhance the holiday, and add to the charm of Santa Claus lore. An added objection, which offsets the dry roads and pavements, is the fact that according to the ancient proverbial adage, "A green Christmas makes fat church-yards." That is to say mild weather with no snowfall at Christmas time is conductive to ill health, and furthers the ravages of various maladies which annually exact their toll by increasing the death rate. So here's to Santa Claus, snow and sleigh bells to arrive in Western Ontario before Christmas Eve.

## REVISED EDITION **BURKE'S PEERAGE**

Re-issue Is Made After Break of Four Years.

London. Dec. 23.—Canadian, Associated Press. After a break of nearly four years, Burke's Peerage is reissued in a new, carefully-revised edition.

Never, since the Wars of the Roses, have so many members of the aristocracy fallen in battle, and the gaps in the ranks of the titled classes have been many and wide. The succession to more than 200 hereditary honors has been directly affected, and nearly the same number of heirs were killed.

The changes in hereditary peerages same number of heirs were killed. The changes in hereditary peerages cover a royal dukedom, three marquisates, seven earldoms, sixteen viscounties and forty-six baronies. In the same period fifteen peerages have become extinct.

The new order of the British Empire, included in the present edition, includes over 25,000 members of all classes. The title of Dame, says Burke, is a revival of an ancient honor, formerly prefixed to the name of a knight's or baronet's wife.

#### LLOYD GEORGE'S EMIGRATION PLAN STRONGLY CONDEMNED

London, Dec. 23.—Canadian Associated Press.—The Times and Daily Mail both make scornful comments today upon Premier Lloyd George's suggestion that emigration would relieve unemployment in these islands, pointing out that the overseas dominions and the United States are also confronted with serious unemployment problems. "We are faced with the difficulty that if the emigrants are of the type that would be readily accepted abroad, we cannot afford to lose them, while if they have suffered in health and lack capital they will not be permitted to land," the Mail declares. The Times directs attention to what it calls the flasco of the recent emigration bill when, it says, the dominions were told in so many words that they were trying to rob this country of useful me, whose presence here was absolutely necessary to supply the ravages made by the war. Now that times are hard, the paper adds, the Government turns in a panic to a suggestion which it then did its utmost to discourage. islands, pointing out that the overseas dominions and the United States

#### SUNDAY SCHOOL HOLDS XMAS ENTERTAINMENT

Dundas Centre Methodist Church Sunday School, that numbers about 600 scholars, Tuesday night held their annual Christmas entertainment in the schoolroom, when the superintendent, Mr. C. E. German, occupied the chair pure air of the Adirondacks. and was master of ceremonies. Diaand was master of ceremonies. Dialogues, recitations and musical numbers were ably contributed by individual classes. The Nikators, with their college yells, interspersed the program and enlivened the proceedings materially. The ministrel performance put on by Dr. Gordon's burnt cork artists deserve special mention for their wit and humor; in fact, all the program was carried out in an able manner, from the youngest in the primary to the adult in the senior class, including the Chinese numbers.

This soothing vapor is full of germ-destroying substances, and at the same time is a powerful, healing agent. It is sent to the bronchlal tubes and lungs through a skillfully devised inhaler that can be carried in the vest pecket. Simplicity itself is the keynote of this splendid treatment.

The hearth scene lent a little romance that was characteristic of bygone days, the glint of the open fireplace making an ideal Christmas presentation with its numerously filled stockings hanging close by. Even the two little waifs that happened along sought shelter beside its coziness were loath to leave it.

The appearance of Santa Claus was a signal for much ado and a right merry time he had distributing goodies to the little ones.

That the entertainment was not a selfish one was marked by the generosity of every scholar who, besides contributing to the program, also brought freely of the necessities of life in the way of vegetables, fruit and candies. In many cases donations of money were given to be spent judiciously for the poor. Miss Bella Brown deserves mention for the success of the evening.

Passengers on a Ridout street car last night were treated to a little comedy night were treated to a little comedy as unexpected as it was amusing.

It appears that earlier in the evening a male resident of the south end had been induced by friend wife to leave his happy home in quest of a sympathetic medico, who would furnish a "per," which is turn would furnish the main ingredient for the Christmas brandy sauce.

Arriving down-town the hubby promptly visited his wife's proposed list of M. D.s, but in every case the N. D. sign was diplomatically displayed, which, as everyone knows, means "nothing doing."

Tired, discouraged, and filled with an inward self-pity, he at last gave up the self-pity in the south end of the self-pity in the self-pity.

Tired, discouraged, and filled with an inward self-pity, he at last gave up the unequal struggle and boarded a sout yound Ridout car at Clarence and Dundas streets. As the car leisurely increased the distance from the centre of the city, the gloom on his countenance deepened, and as he rose from his seat to get off the car at his destination his facial expression registered hopelessness.

Right there fate handed him the peak load, A sudden lurch of the car threw him unceremoniously into the lap of a fat woman, who promptly and harshly accused him of being drunk.

Perhaps the angry tones of the irate female sounded a premonition of the reception he would receive when he reached home, and informed his wife

when they appeared in police court today charged with being disorderly. They
were both allowed to go after they had
paid \$2 each into the coffers of the
court.

It was the result of a fight which
took place in a restaurant Wednesday
night. Money was the root of the trouble. One of the youths was alleged to
have offered only 60 cents in payment
of a bill of 70 cents. When the proprietor, who was also the cashier, objected, the boy felt hurt, and so to
avenge his feelings he threatened to
smash the man's nose.

The proprietor ordered the boy out,
and a waiter standing near, hearing
the words, added force to the order of
his employer by trying to throw the
offender out. When they started to
fight the owner interfered. When another frequenter of the cafe saw that
the odds were 2 to 1 against the boy,
he took a hand in the fracas. He tried
to hold the proprietor away so that
the two could fight it out.

At this juncture the police arrived,
and the boy and his champion were
taken to the police station.

"Why do you persist in acting in a
disorderly manner?" the magistrate
asked the second youth.

"I wasn't disorderly, your honor. I
was only fighting," was the reply.

The magistrate said that he would
have fined him much heavier if it was
not Christmas-time.

Three-day shifts on city work, in rder to provide as much employment is possible, were started today by Acting City Engineer H. McNab. Thirtyfour men were engaged through the new city employment bureau at the East London hall. city employment bureau at the East London hall.

A corresponding number of men who were engaged temporarily some time ago, will be laid off until the end of the week, when they will take the places of the men engaged today. Some time will be required before the system is working properly, Mr. McNab said. A number of new men have only been on for a day or two, and it would be unfair to lay them off today. In a week or so it is expected arrangements will be perfected so that the work will be divided evenly among the newcomers.

Sewer construction is the work on which most of the city employees are now engaged, although a few are still working at paving.

About forty men have been engaged by the new bureau since it was opened by William Casson. Five were taken on the first day and thirty-four Wednesday.

The writer states that a company at Gray is anxious to pay her dividends, which have accumulated on stock held by her husband.

Mith the establishing of a central welfare distribution committee among the soldlers in the city it is expected that the needy returned men and their families will receive much closer attention than has been experienced in that the needy returned that the peat At a meeting of this committee last night it was found that to continue this work there would have to be more funds donated, as the \$2,500 donated, by the Red Cross in 1918, has been used for relief work among the organizations which are looking after the returned men. It was intimated that the Red Cross has a large amount of money for this purpose, and a suggestion will be put to the society to have it turned over to this committee looking after the needy men, much overlapping is prevented and cases can be dealt with immediately upon learning the facts. #### IN A TEMPLE OF BUDDHA

How Devotees of the Oriental Teacher Conduct Their Worship With Prayer and Incense and Telling of Thei r Beads.

come louder.

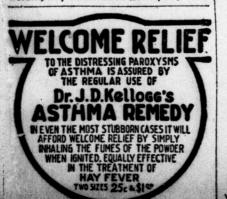

SAN FRANCISCO, Dec. 22 .- Honolulu | beads rapidly through their fingers, bids fair to succeed Port Said as the spot where mingling of east and west is most in evidence. The "Crossroads of the Pacific," it is called; but it is more than that. Of the East it has little of the pots of sandalwood and rose leaves, and than that. than that. Of the East it has little of the savor of India, but of the Malay and Mongolian types plenty. One need not go to Mandalay to hear the "tinkly temple bells," for they are here, in all their tingly sweetness or discord, according as one may hear it writes a cording as one may hear it, writes a swing open—and there is budding, in his correspondent. Honolulu is well equipped with the temples of the eastern sects, and their nearness gives one a better understanding of them and a further proof of the immutability of human nature and its groping after the supernatural. Gautama Buddha lived 500 years before Christ, and eat under a tree meditating upon the mysteries of life, or the world and the world that is to be seen only by the eye of man's imagining. But the devotees of Buddha sit in their temples and tell their beads, repeating "Buddha the Omnipotent"; they gaze upon his image in its shrine about the altar, and their souls are transported. Then they ing of them and a further proof of the their souls are transported. Then they sing a hymn of praise, and all the time sing a hymn of praise, and all the time they are burning pungent incense. It is not unlike the practices of the orthodox Christian faiths—the Roman Catholic, the Greek Melchite, the Maronie, the Greek Orthodox. The material difference is only in the Christ and the matter of dogma—the belief in the living presence and the transubstantiation. Shintoism is a religion of a thousand gods, the ancestors of the worshipers, the heroes, real or traditional, of the race, who are worshiped as divinicarrying two suitcases each. As the part from the theme as to how an inter-church on the theme as to how an inter-church and whether or not it would come such a cropper as marked the last effort on that line by American Protestantism.

And in the gathering of the Buddhists to worship one will note another practice which has found its way into western habit—the gathering of the men on the right hand and the women on the left, as among the Quakers. When the worshipers are gathered and in their horses of the more than the high priest and places, comes then the high priest and places.

When the worshipers are gathered and in their places, comes then the high priest and his acolyte, in robes of shimmering black silk; candies are lighted, offerings of fruit and flowers are laid before the little tabernacle door at the back of the altar. And while this proceeds, the worshipers, with bowed heads, slip their

Then slowly the priests raise their books until their foreheads touch ite pages. Then the priests and temple boys beging a chant, low and weirt. It is taken up by the congregation, and unison to the rhythm of the sea, now soft and low, now loud and shrill, with a suggestion of agony, it goes on and on. A single blow on the gong, and the speed of the voices increases; and thus are the virtues of Buddha extolled, the hearts' desire of his worshipers proclaimed.

And just when one thinks it is to go on forever, that it should go on forever, that it should go on forever, there is a double tap on the gong and then silence. With that, the weirdness goes out of the service. The tabernacle is closed, and the high priest turns to his flock—and preaches a sermon.

going to marry any of these royalties."

Within a week after his return the prince called on Premier Lloyd George and told him how matters stood. What the premier thought about it has not been disclosed, but it was noticed that in the last week in October all the leading newspapers here suggested the repeal of the royal marriage act, and it was openly stated that the prince might want to marry a commoner. Also the press unanimously pointed out what a fine thing it would be for England if the prince would marry one of his own people—one he really loved. So generally was this done that many persons here felt that the idea was inspired and the suggestion met with popular approval. spired and the suggestion met with popular approval.

Everybody here loves the Prince of Wales and thinks it would be just the proper democratic thing for him to do to marry a girl at home instead of looking around among the uncertain royal families on the continent for someone who would be a fit wife for "our young man."

The royal marriage act was passed in 1772 at the direct request of George III. as a result of the morganatic marriage of the Dukes of Cumberland and Gloucester. Fox entirely disapproved of the act and retired, as he said he would. He held it would prevent royal princes from marrying altogether. It did not have this effect, however, but it did cause almost all lenglish princes to marry Germans.

SHIPBUILDERS WILL INTERVIEW MEIGHEN

TORONTO, Dec. 22.—At a crowded meeting of members of the Shipbuilders' Union held at the Labor Temple it was decided to send a deputation to Ottawa to meet Premier Meighen, Hon. G. D. Robertson, and Hon. C. C. Ballantyne on Tuesday, and place the full facts in connection with the local situation at the Dominion Shippards before them. This action was taken after the reading of a telegram by Business Agent Herbert Wright, which he had received from Harry Kirwin, chairman of the Canadian National Trades Council, in which he stated that he had interviewed Senator G. D. Robertson.

out one of the largest fields of candidates that

has ever been named in London. Many, of course, will not allow their names to go before the electors, but at that there will be plenty left from which the ratepayers may make their choice. It is particularly important at the present time that the voters should weigh carefully the bylaws on which they are asked to express an opinion, and also of the views of the various candidates in reference to these bylaws. Not only is a heavy expenditure involved, but on the decision of the voters depends the city's progress. London has been coming into her own rapidly of late. There is every sign that the city's steady and substantial growth is to continue. It is important then that men be elected who are broad visioned and progressive. In the coming year all civic of-Sce-holders will have much important business to transact. They will have to make decisions that will either send London forward or set the city back. Indifference on the part of the electors, such as has unfortunately been manifested on many occasions in the past, would be more than usually serious just now. An attendance of six or eight at public meetings held to discuss public questions is not fair to the speakers, not fair to those who have gone to the trouble to arrange the meetings, and altogether against the interests of the city. #### SOME CHRISTMAS THOUGHTS.

"He who forgets his soul is not very likely to remember his intellect." wrote John Howard Payne, the author of "Home, Sweet Home," one new year when he was confined in a debtors' prison. Apparently he was keenly impressed in his diary, the causes to which he attributes not only his own misery, but that of others, and his determination regarding the future, are given time. perhaps of special interest at this season of the year, when the time for taking stock of ourselves and of making new resolutions is at hand. He says, in part:

"There may be an advantage even in our errors, if we choose to create such an advan- the next day who just dropped around to return tage. I increased taxes on gasoline, motor cars. motor think I discern more distinctly than ever how sales, theatre tickets, tobacco, candy, chewing I can amend. In looking to my Soul, I find gum, perfumes and cosmetics, jewelry, and its eternal interests neglected, and in a state of chaos. How many persons fancy they are good Christians, and yet know scarcely anything of the Word of God, or the rudiments of Christianity? How strange it is that the Bible is always talked about as a work perfectly familiar to us, its possession regarded as a kind of talisman, and even to tear a leaf out of it deemed sacrilege, and yet scarcely looked at, and certainly very little understood. On the contrary, other books much more voluminous are approached and studied with eagerness, whilst The Book, The Bible, is regarded as too immense to be attacked, without almost superhuman resolution, and hot sufficiently interesting to be made a sublect of elegant and familiar reference! I have neglected the Bible and am almost ignopersuade myself and others that I am better instructed than my conscience tells me I am. This can be easily corrected, and corrected it must be. With such impressions at the beginning of the year, will it not be at least one roint gained to have it in my power to say I am well versed in the Bible when the year me if I am not."

#### PROTECTING THE PUBLIC.

The action of the chief of police in Toronto in rounding up the gunmen of the city, and also the "dope artists," is one which, if followed in all the larger centres of population may save a good deal of trouble later. Just at this time, when all kinds of tough characters are being chased out of the large American cities, in clean-ups resulting from crime waves, It is reasonably certain that a number of undesirables will make their way across the bor- ficial layers of the skin. No blood appears at all, der. There have been evidences already that The surplus vaccine is wiped off and the sleeve daring and absolutely unscrupulous criminals

The carrying of firearms is one of the things that seems to be increasing, despite the efforts of the authorities to check it. Figures show that approximately six thousand revolvers were imported into the country this year. What were they for? The records show that only a very small percentage were bought for police officers, bank officials and others who require protection of this kind. The majority of the veapons brought in were not such as are used for military target practice. There are police officials who believe, in view of the facts available regarding revolver imports and the increase in crimes of various kinds, that the time has arrived not only for more stringent enforcement of the regulations in reference to the unauthorized carrying of weapons. but also for the passage of more stringent laws. There is nothing particularly new in this. As a result of occurrences in England it was found necessary to very materially restrict the carrying of weapons. The police there were given the fullest powers under the amendments to existing laws, and, what is even more important, were held resonsible for carrying out the new legislation. The results were rather surprising, but they were also very satisfactory, as there was an immediate and very noticeable decrease in crimes of violence There are certain people who, working under certain conditions, find it absolutely necessary to carry a gun. This is provided for by law. But there are hundreds, perhaps thousands, of others who are carrying weapons when they have no business to, and for no good purpose. A general clean-up of "gunmen" of this type would do no harm, and would very likely, as far as the general public is concerned, do a

#### REMOVING A MENACE.

The advent of icy roads and the worry caused thereby to the drivers of horses when passing over the paved streets of the city, to say nothing of the pain caused to the lovers of animals when they view the heroic struggles of the iron-shod friends of man in their struggle to keep their feet, has caused much comment on the inadequacy of the city's equipment for the protection of life and limb.

That the hand-spreading of a little sand on the sidewalks for the benefit of pedestrians fulfills all the duty of a progressive city cannot justly be claimed. Civilization, to say nothing of the plain common sense, has taught the value of protecting the animals so necessary to the life, welfare and comfort of large communities. The neglect of this duty may justifiably be said to a serious form of cruelty to animals, and one for which the municipality should be held responsible.

Mr. E. R. Dennis is quoted in the Free Press of December 21, 1920, page 17, as stating that he would for space, yours faithfully. rather have smallpox than vaccination. He goe on to mention "relatives who are now invalid

through the effects of vaccination.' I rather agree with Mr. Dennis in preferring the present mild smallpox to the old methods of vaccination; and it is evident that this is the comparison that he has in mind.

But the institute method of vaccination, intro duced here in 1915, and adopted in the army in 1916 is a different matter. This is the official method in London now and the only method used rant of it-though I can talk about it, and by the board of health or approved by the board of and the baby cries too much. health. There has yet to be reported a single case of a bad arm following this institute method. To object to this modern method on the ground tha the old method often produced trouble is like object ing to the modern operation for appendicitis because of the high fatality of abdominal operations in the early days. I am quite sure that Mr. Dennis and all other intelligent citizens need nothing to convince them of the harmlessness and efficacy of this ends; and this declaration will stand against method except a demonstration; the method is well known and largely used by the medical profession but the layman naturally has heard little of it, and thinks of vaccination always as it used to be, not

as it is now.

For the benefit of all who may be interested, the Institute of Public Health method of vaccination against smallpox is given here as follows: The glycerinated lymph (prepared by the Provincial Board of Health) is used, a single capillary glass tube containing the single drop for each vaccinatee The arm (or leg) is bared and washed in the usual manner. A very small drop of the contents of the glass tube is placed on the skin with an ordinar sewing needle, sterilized in a flame, ten tiny prick are made, through the drop, into the very super pulled down. Total time from baring the arm to

mount which clings to the extreme point of the needle: and only 1-1000 of an inch of the needle

cratching or scraping or cutting of the skin. The -1000 of an inch of needle point merely passes into the insensitive upper layer or scarf of the skin, but

loes not remove any of it. Third, no blood at all escapes—not the tiniest plored speck. It has been found that the blood drawn in the old method was responsible for much of the trouble, as it dried on the arm and later

formed food for the germs. Fourth no open scraped or scratched wound is -really tighter than before; there is therefore no chance of infection to enter. The old method laid open to the world an area in one of the chief defences of the body against infection, which is ar

unbroken skin; the new method results in no open-Fifth, there is in the new method no aftertreatment whatever-no fussing with shields, dressnes strapping, etc., to protect the wound as in the old days, for the very obvious reason that there is no wound to protect. The skin is in more impervious than it was previously, and there is less reason for a dressing on the vaccinated arm after doing this method of vaccination than before doing it. If the vaccinatee insists on a dressing of some kind, I allow it, if they will put it on the other arm-i. e.

If the vaccinatee does not need protection against smallpox-if he is already proof against smallpo for any reason-he will not "take." If he need protection, if his body is in a condition open to the mallpox poison, then he will "take," and be protected, thereafter for about seven years completely

I have myself been vaccinated at least fifty times without any bad arm-and without takes-becaus was thoroughly protected as a child.

The person vaccinated by this method in almost all cases goes on at work, school, etc., just as before perhaps staying at home a day or two at th neight of the take. Most of those vaccinated by this method do not lose even one day. Now, the mildest of mild smallpox means at least two weeks loss of time, at school or work-and, of course, it usually comes just at the most inconvenient timeholidays, etc. Vaccination can be done at a selected time, before the child goes to school, and all loss or inconvenience is thus avoided. The last adult I saw with the smallpox was "laid off" for three weeks at the busy season, when the loss of time was a very serious matter.

Mr. Dennis's argument that those who want t be vaccinated should be, and the rest left alone to have smallpox if they wish, would be perfectly all right if the population consisted wholly of adults. I would vote for Mr. Dennis's plan at once in any children suffer by allowing smallpox to run loose. They are not old enough to judge for themselves or to decide that they want to have smallpox. A large part of the population is always careless or ignorant about all such matters, and wherever the majority of children are allowed to grow up without it. Then comes a big epidemic, such as that in Toronto recently, with its great financial and

other losses and over 3 000 cases Remember, that even the mildest of mild diseases is worse in young children than in older ones. young children. Health Is a Funny Thing.

Health is a funny thing, really. If you've got it you keep quictly chuckling to yourself all the time—something to yourself all the time—something tickles you inside.

I made some allusion to this delightful sensation that goes with health plus in one of my talks, and some sad lady took me severely to task for it. There is a fine distinction which must be made between health and disease. Health, an exceedingly rare state, is the perfect functioning of the body. Disease is any impairment or disturbed ance of any function. Disease is not funny at all, except a few instances among the neighbors. The great trouble with disease is that it inevitably produces symptoms. Symptoms are the manifestations of disturbed functions.

Gold brocade was the material of the next evening gown. A length of black tulle hung from each shoulder, and united to form a tish-tall that swept the ground behind.
Fuchsia silk and silver tissue were the basis of the third frock. It was very fussy and elaborate with puffs and bustles. Silver tassels seemed to hang from every point to which they might be fastened.

The fourth frock was a flame-colored. The first was very lovely, but a trifle loud, I thought. However, aunt and Julie insisted that I try it on.

It fitted me to perfection. Fashioned in a delicate shade of heliotrope, it was striped with orange, green and brown and yellow. It was loosely girdled at the waist, and had big patch pockets.

"That's the very thing for the promenade in the mornings," the great modiste assured us.

Aunt next bought for me three afternoon gowns.

The first was of citron-tinged or gandle, and fluffed itself out over a stiff silk foundation. The skirt was wide-hipped and wired. It was adorned with puffings.

"T'll bet your precious Margery hasn't anything prettier in her wardrobe," whispered Julie in my ear, when aunt chose that frock.

The next was of Saxe-blue volle, kinfe-plaited and much be-frilled, with white pom-poms on the sleeves and busiles. It was a fish that swept the ground behind.

Fuchsia silk and silver tissue were the basis of the third frock. It was a fish endowing the beasts of the third frock.

The fourth frock was a flame-colored taffeta with tulle ruffles round the 1830 shoulder-line. Across the front of the skirt foamed four layers of lace dyed to flame-color, ending at each side of the back. The sash was tied in a big bow to the rear, and gave the effect of a bustle. It was a frock of indescribable beauty and quaintness.

An evening cloak, and a heap of silken undergarments were added to the list.

Then we departed.

TABLE-MATS.
Old fashions prove their worth by making their way back to favor. This is the case with the old-time table-mat. One woman ran across her grand-mother's frame in the attic, made some mats on it and started the fad all over again. For once it was a sensible fad. again. For once it was a sensible fad. for the mats are pretty, not expensive, quickly made, easily washed, durable, and an excellent protection for polished wood when hot dishes must be used on the table. In these days of servants or poor ones, serving dishes are put on the table as a matter of common sense.

The frame for table mats can be bought in department stores now generally, or can be made to order by a carpenter. The smallest size is ten inches square with twelve teeth along the outside edge of each of the four sides. You wind No. 4 knitting cotton eight times across the square in between each two teeth, to make the warp; then wind eight times between each two teeth across the square the other way, to make the woof of the mat. Some Suggestions.

Dear Miss Grey,—Like many others, I am daily enjoying your page, and find the letter-box very interesting and helpful. I suppose most of the Boxites are busy getting ready for Christmas. I am just finishing the last of my presents. Do any of the readers of your page know that flowered cretonne makes nice underskirts by putting large scallops around the bottom, and then crochet an edge around each scallop. The same material makes nice covers for the dresser and washstand. Small aprons made of lawn with tatting around make nice gifts and are inexpensive too. I do a great deal of tatting around make nice gitts and are in-expensive too. I do a great deal of tat-ting; and would excharge patterns with anyone. I will leave my address with Miss Grey. Am sending a mite for the S. C. H. FUDGE'S MOTHER. Ans.—Thank you for hospital mite, also for the useful suggestions. A Little Girlie.

The Drink Cure.

Dear Miss Grey.—I saw in Monday's paper where there were inquiries still for the drink cure. I am sending my address again, and will only be too glad to reply and do all I can for those suffering from that disease or for those that have to bear with the results. I answered numbers of inquiries, but have not heard the results. In reading the Mail-Box every day I find lots of good advice. One hint that has helped me out so many times is, when I try to open a can of fruit, to light a match and hold it around the can ring, and to my surprise it comes off so easily. ## AS YOU WERE

A municipal golf links is planned by Toronto golfers for what they term the "shirt sleeve" set, and organization is about complete. The idea will doubtless spread over Canada, as it has done in England, where many of the best courses are free to members of the municipalities.

If municipal links are practicable in England, how much more practicable should they be in this country, where sites are neither so few or obstacles to obtaining them so many.

Golf has been, unfortunately for many people who might have the inclination to take it up, made rather an exclusive pastime. If one set of individuals in the community can make golf pay its way on large subscriptions, then the community at large would be willing and able, or that part of it which took up the game, to make the game carry itself.

Then there is the general progress of the game itself to be considered. Many of England's best amateur and professional golfers have graduated from the municipal links. Naturally where there are large numbers playing, the percentage of good golfers developed is in ratio to those. If Canada's golf bugs increase 100 per cent, then Canada's chances of developing the best in golfers will increase just that much.

Municipal golf links in the United States are not common, but what is common is for some very small towns to form clubs. In the smaller centres, the exclusive atmosphere is not so no ticeable and in that way the United States is getting the actual benefits of municipal links.

leader, before the game explained that his team was in pretty bad condition.

It is doubtful if Hamilton would have proved such stout opposition to the Montreals if the Canadiens had had previous practices, and if Dye had been allowed to remain with St. Patrick's, instead of being loaned to Hamilton to help them in their game. Dye, besides scoring two goals for the locals, was particularly effective in the checking. He broke up several rushes that looked dangerous, and otherwise made himself conspicuous. Canadiens, when they have had regular practices, will prove a much more formidable team. Hamilton should also improve.

"Joe" Matte, whom George Kennedy had been angiing for, was the best player on the ice.

Carpenter, his partner on the defense, proved an able assistant and looks like a real find. Prodger, Carey and McDonald, all played good hockey on the forward line, but Carey's work was the most out standing. McCarthy and Lowrey were not on the ice long enough to do justice to themselves. McCarthy recently got out of a sick bed. It was thought that he would not be able to participate in the game at all. Next to Vezina, Lalonde was Canadiens' best man. bold assertions, but we are hopeful."

For the first time in many years, George Vezina, the Chicoutimi marvel, will be an absentee from the Canadien goal nets when at Hamilton this evening the Flying Frenchmen open their National Hockey League campaign. Harry Mummery, giant defence man of the team, who is no stranger to a net position, will probably be in Vezina's place.

The announcement that he has not yet come to terms with his famous net-minder was, made on Tuesday by George Kennedy. It is well known that Vezina had this season asked for a far larger fee than he ever received before. He claims that he cannot leave his business in Chicoutimi without receiving more remuneration than before, and the Canadien management has not, up to the present, seen its way clear to grant his demands.

Mummery played in the nets for the Quebec team in one or two games last winter, and made a good job of it. It has always been said of Mummery, as an outside defence player, that he stopped as many shots as the average net-minder.

Canadiens will leave for Hamilton without having had a practice on ice. TORONTO PLANS MUNICIPAL GOLF

TORONTO. Dec. 22.-It is highly

probable that next year the "royal and ancient" game will find adherents in Toronto among the "shirt-sleeve" brigade, a movement being

on foot to give all comers an op-portunity to display their prowes at that time (which hitherto has found its enthusiasts among the more or less affluent), the game of golf. It is expected that for the

remarkably small fee of \$10 per year new recruits to the port, provided they equip themselves with the necessary clubs, will be able to emulate their more fortunate bro-thers and sisters in chasing the di-

thers and sisters in chasing the di-minutive sphere on a magnificent course located at the western ex-tremity of the city on the banks of the River Humber.

The "why" and the "wherefore" of all this originated in the cran-iums of a number of leading golf-ers, who, headed by Ralph Con-nable, decided that Toronto should be able to boast a municipal golf-

Owing to the fact that most of the players were working overtime through the Christmas rush, an intermediate practice was not called.

The juniors, however, will be out at full strength. The thaw deferred their hopes of a game within the next few days, but they are almost sure to face some team New Year's night, and are working hard to get into condition for the first ice that makes its appearance.

This will perhaps be the last indoor work either of the squads will get. Ex-Champs Held First Period, But in Second Ran In Five Goals - Failed To Find Nets Last Period.

TORONTO, Dec. 22.—Aura Lee senior hockey team successfully defended the Sportsmen's Patriotic Association cup in the third and final game here tonight, which packed the arena. Aura Lee tallied twice in the first period, while Kitchener, the challengers, failed to bulge the net. In the second period there was a reversal of form and Kitchener ran in five goals, while the local team could add only two to their previous total. The challengers seemed to have shot their bolt at this point, however, and in the final session Aura Lee added two goals, while Kitchener went scoreless.

The final score was: Aura Lee 6, Kitchener 5.

To the Shareholders of The Bank of Toronto:

To the Shareholders of The Bank of Toronto:

I have compared the above Balance Sheet with the books and accounts at the chief office of The Bank of Toronto, and certified returns received from its branches, and after checking the cash and verifying the securities at the chief office and certain of the principal branches on November 30, 1920, I certify that in my opinion such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of my information, the explanations given to me, and as shown by the books of the Bank.

In addition to the examination mentioned, the cash and securities at the chief office and certain of the principal branches were checked and verified by me during the year, and found to be in accord with the books of the Bank.

All information and explanations required have been given to me, and all transations of the Bank which have come under my notice have, in my opinion, been within the powers of the Bank.

SPLENDID OPPORTUNITY FOR BOY

SPLENDID OPPORTUNITY FOR BOY
SCOUTS.

Nearly all the red-blooded boys in Canada belong to the Boy Scouts and practice at trail-making, roughing it in the wild, and a general capability to take care of themselves, and enjoy the out-of-doors of the best country in the world.

What would you give to see great scouts of history in action? To see them trail and battle with the treacher out or edskin, to wage that historical war against the savage iroquois, to see forests of Upper Canada, saving them from the torture stake of Indian warcamps? Wouldn't you enjoy a living, throbbing page of Canada's most stirring historical times, shown on the screen, in all the magnitude, the swift action, the power and appeal which these times call forth? To live again with the stout-hearted English pione ers, of Fort Henry, to marvel at the splendid nationless Indian prince, Uncas, last of the Mohicans, to follow them through those times of strife and adventure, that would be, ideal, wouldn't it? Then see "The Last' of the Mohicans," at the Allen next Monday, Tuesday, Wednesday and Thursday.

BIG HOLIDAY BILL OPENS AT ALLEN TODAY: HEADED BY "JUST OUT OF COLLEGE."

Today is the day when the big holiday program opens at the Allen, where each attraction is a special feature, headed by the big Goldwyn comedy feature. "Just Out of College," which numbers amongst its cast Jack Flynn neaded by the big Goldwyn comedy feature. "Just Out of College." which numbers amongst its cast, Jack Flynn, Molly Malone, Irene Rich, and Jack Flyckford.

"Just Out of College." would bring a giggle to the lips of a Sphinx. No one can resist the hilarious comedy, rushing along at whirlwind speed from one blissfully funny scene to another. Young Ed. Swinger, just out of college, came up against a most familiar narrier to aspiring young commercial Napoleons. First of all he felt that he had to marry the only girl, for a good start, but her crafty father thought he ought to get the good start first. He was told he had to get a fortune in twenty days or lose his light of love. Did he do it? Say! he used everything from pony blimp balloons to pickle booths along Broadway to put over his particular brand of the world-famous Dill. But the funniest joke of all was that he was selling his future father-in-law's own product under a different label. "Just Out of College," is a laugh classic, swift-moving, sparkling, clean and wholesome, a romance that will captivate you.

"Screen Snapshots," with a number of views of famous stars in and about their homes and studios: Allen's always interesting World News and a splendid musical program, headed by the overture, "Chapel Chimes," which features the beautiful selections on one of the finest instruments of its kind in Canada, the \$25,000 installation by Gurney.

have offered any better production than "Civilian Clothes," as presented by the Majestic Players at the Majestic all this week. The company gives a finished performance to one of the most brilliant of New York successes, and to mention the work of any one member of the company would be unjust, as each and every one portrays their respective roles with a finish, seldom seen in a stock organization. Miss Pates, the charming little auburn-headed lead, is again to the fore with George Dill, the popular leading man, running her close for honors. That London playgoers appreciate bills of merit is quite evident from the response, which has greeted the presentation of this week's bill, and Director Grew is highly enthusiastic and promises to bring many more successful hits for the enjoyment of Majestic devotees.

"Civilian Clothes" is chuck full of everything that goes to make for a delightful play. Drama and comedy intermingled, with a most interesting plot, make for this brilliant success, the big hit of the season. OF WARD 3

Mont Blanc has taken a terrific toll in human life. Far more than 500 persons are known to have been killed by one or another of the mountain's caprices. The total deaths which may be ascribed to it probably are in the thousands, but still it stands, white and alluring, whispering, with the voice of a Lorelei, to the hardy adventurer "Try stalling me."

His eyes sparkled at the noise they made and he smiled deflantly as their tossing white crests rushed over inclines he just had crossed. It was only when, after twice turning back, Serviss demanded to complete the trip to the top in the face of a terrible tempest and almost sure death there, that Couttet, who really knew Mont Blanc, refused.

"It is too perilous, and we must descend," the guide said with quiet conviction. "I will not take the risk."

Serviss admitted later that no human being could have scaled Mont Blanc that day, and that Couttet's level-headed edness saved two lives which otherwise would have been lost through an amateur's enthusiasm.

Probably the most tragic of Mont Blanc's many terrible disasters occurred in 1870, when eleven persons, an entire party, were swept to death in a snowstorm near the "Roof of Europe's" top.

Secretary of Labor .Wilson Wants United States To Act.

Official Claims He Alone Has Power To Deport Revolutionists.

Washington, Dec. 21.-Establishment of machinery overseas in co-operation with foreign governments through which aliens before breaking up their homes may determine whether they will be admitted to the United States and legislative consideration of the pro-posals of the second industrial confer-ence are outstanding recommendations in the annual report of Secretary Wil-son, made public today.

The labor secretary devotes much of The labor secretary devotes much of his report to discussion of immigration and the expulsion of alien revolutionaries. He asserts that he clone has authority to order the arrest and expulsion of aliens, although the cureau of immigration has assumed to itself power not only to make recommendations, but also to make findings.

The report shows that 633,371 aliens arrived in this country during the last fiscal year, as compared with 237,021. Further promotion of appropriate the year before. Of the total arrivals 11,795 were excluded at the ports where they sought to enter. Of those arriving 430,001 are classed as immigrant aliens, and 195,575 as non-immigrant aliens, and 195,575 as non-immigrant aliens, and 195,575 as non-immigrant aliens. Departures of aliens totalled 428,062, including 288,315 emigrant aliens and and 139,747 non-emigrant aliens, mak.

In addition to the 314 anarchists deported, 591 others are awaiting deportation, according to the report.

Mr. Wilson says that during the year 519,003 aliens took the initial or final steps toward citizenship. While this is less than the record total of the year before, Mr. Wilson says the decrease is confined to aliens in military service and results from the demobilization of the army. First papers were filed by 300,106 aliens, while petitions for final naturalization were filed by 166,925 aliens in civil life and 51,972 soldiers.

Turning to the industrial situation, Mr. Wilson urges legislative action to carry out the recommendations of the second industrial conference proposing joint organizations of management and employees for prevention of industrial situations of management and employees for prevention of industrial clients when they occur. Attention is called that during the year the labor department's division of conciliation was called upon to uti-

contracts. Collective bargains cannot be regarded in the same category as ordinary contracts, because there is no mutuality. The employer does not agree and cannot agree to give steady employment to all the wage earners concerned nor to any specified number. Consequently the workers included in such a bargain could have no legal claim except that they were actually employed by the other party to the bargain and at his discretion. There would be no fairness in making such contracts enforceable at law. To permit collective bargainings to be legally enforcible would be to discourage the making of them. To leave their fulfilment to the good sense and good faith of each side would encourage their making and thereby promote industrial peace."

Mr. Wilson says that are a result of

The labor secretary renews his recommendation for legislation to improve the work of labor distribution by making public lands and community credits more accessible. He also again urges Congress to provide governmental means for the adequate training of workers in industry and to provide for federal control of the interstate trans-

PARLEYS CONTINUE

Only Hitch in Peace Discussions-Will Be Resumed

DUBLIN, Dec. 22 .- Military forces today occupied the city hall and mutoday occupied the city hall and municipal buildings in accordance with the demand on Monday of General Boyd, commander of the Dublin district, who sent a notice to the Dublin corporation requesting possession of the buildings by today. A large portion of the public services will be disorganized, as no other office has been secured. Sentries were posted and the erection of defences carried out early this morning. When the city officials arrived only the town clerk, his assistant and two employees in his department were allowed to enter.

WAS ONLY HITCH.

DUBLIN, Dec. 22.—There is no truth in the rumors that peace negotiations have been broken off, the Associated Press is authoritatively informed. There has been only a hitch in the peace discussions, and the belief is expressed that the negotiations will soon be resumed, with good prospects of success.

soon be resumed, with good prospects of success.

It is reported that Archbishop Clune has returned to London for further consultations with the British prime minister. The archbishop on his previous trip to London is said to have obtained from the premier an outline of the terms on which the Gvernment is ready to arrange a truce with the republican army, and some idea of the conditions the Government is prepared to grant the Sinn Fein for a settlement of the question of independence.

#### **DUBLIN PRESS DOES** NOT EXPECT MEASURE TO GO INTO EFFECT.

WOULDN'T TRY TO ARREST VALERA.

LONDON, Dec. 22.—The Central News, in a dispatch from Dublin, says that should Eamonn de Valera, "president of the Irish Republic," arrive in Ireland, no attempt will be made to arrest him. This statement is attributed to officials in Dublin.

The dispatch adds that conversations regarding possible peace in Ireland continue, and that new developments in the situation are expected.

#### LABOR TAKES TWO SEATS FROM GOVT.

LONDON, Dec. 22.—(Canadian Associated Press.—In the by-election in Abertilly, George Barker, Labor, polled 15,498 votes, and G. Hay Morgan, Coalition-Liberal, 782 votes. ## **BILL PASSES IN** U. S. CONGRESS

Protests of Defiant Minority of No Avail.

Dublin, Dec. 22.—Passage of the Irish home rule bill by the British Parliament is not viewed as specially important by newspapers here. It is recognized the bill probably will not be accepted by either Ulster or the rest of Ireland and that the British Government may never decide to put its provisions into operation.

"Carsonism has received its reward." says the Freeman's Journal. "The bill was designed as a trap, but it falled to work. Even such modified democratic institutions as we possess are threatened by it."

The Irish Independent says there will be no rejoicings in Ireland over passage of the measure "which makes a settlement still more difficult."

"Thanks to the House of Lords," says the Irish Times, "the bill has ceased to be a measure to bring about absolute and permanent partition of Ireland, and fine central council which is established may become a real link between the north and south."

WOULDN'T TRY

Washington, Dec. 22.—Over the protects of a defiant minority, the House tonight adopted the Fordney emergency tariff bill by a vote of 196 to 86. The vote was taken at 8:45 o'clock, after eight hours of debate. It was evident long before the vote was taken that supporters of the measure, designed to protect some twenty-odd farm products for a ten months' period, had the situation well in hand. But Representative T. Raney, Democrat, Illinois, leading the opposition. Paragraph by paragraph he assailed the measure, while the Republicans with loud roars of "No" sent his proposed in intensity as the debate wore on.

Opposition speakers charged that the measure would send the cost of living higher, and branded it as class legislation. Defenders of the bill, on the other hand, said it would save the agricultural industry. tion. Defenders of the bill, on the other hand, said it would save the agricultural

Army Veteran Attacks Conduct of Black and Tans in Ireland.

WASHINGTON, Dec. 22.-Daniel J. Broderick of Chicago, a former member of the United States Navy, and who also served in the army, bitterly attacked the Black and Tans in Ireland in testifying today before the 'commission of the committee of one hundred investigating the Irish question" here.

Broderick, who returned recently from

Broderick, who returned recently from a visit to Ireland, said the Black and Tans were "wholly without discipline, and not responsible to anybody." He claimed to have witnessed the pillaging of homes by drunken members of this body, the shooting of cattle by British soldiers, and the wounding of a little girl by soldiers. He charged that the Black and Tans and R. I. C. used soft-nosed bullets for ammunition.

Another witness today was Mrs. soft-nosed bullets for ammunition.

Another witness today was Mrs.
Suzannah Walsh, who described the
killing of her brother-in-law, the late
Lord Mayor MacCurtain of Cork. Her
sister, Mrs. Annie Walsh, declared that
Boy Scouts had been killed by Black

Premier Unwilling To Settle For Resources Exploited Previously.

[Special to The Advertiser.]
WINNIPEG, Dec. 22.—Indications are
that a serious deadlock is arising between the Federal Government and the that a serious deadlock is arising between the Federal Government and the prairie provinces in respect to the settlement—of the natural resources question, owing to the unwillingness of the federal authorities to consider the problem from a strictly constitutional viewpoint, is contained in a preliminary report on the recent Ottawa conference by Premier T. C. Norris after a consultation with Hon. T. H. Johnson, attorney-general, and considered at the council meeting last night.

Manitoba based its demand for a settlement of the long-delayed question on constitutional grounds. Hon. Arthur Meighen in reply tentatively suggested that the prairie provinces take over the natural resources remaining without an accounting being made of the lands and resources alienated during the period of Dominion control. The report clearly indicates this is ungatisfactory. A conference of all western statesmen will be held here before the new year, and an ultimatum forwarded.

PONZI'S GREETINGS GO TO CREDITORS

BOSTON, Dec. 22.—Charles Ponzi today sent from Plymouth Prison a Christmas greeting to his thousands of creditors, bidding them be of good cheer. His letter written on expensive bond paper was engraved with the legend: "Charles Ponzi, Plymouth, Mass."

He asked them to send a word of sympathy and encouragement to his wife and mother.

#### **NEGLECT IS DANGEROUS**

There is nothing in the world more dangerous than neglect. Nothing else as responsible for so much suffering and disaster. Trace the cause of misfortune and you will find that somewhere neglect had a part. Neglect is more dangerous than disease. It is usually through neglect that little ailments come, and through little ailments come, and through neglect that they grow serious, undermining the constitution, and reach an incurable stage. My success in treating difficult cases of long standing has made nie a well-known specialist in this and surrounding territory in treating men's diseases. This success is due to several things. It is due to to the study I have given my specialty; to my having ascertained the exact nature of men's aliments, and to the original disailments, and to the original dis-tinctive and thoroughly scien-

## Auto-Intoxication---Headaches---Catarrh of the Stomach---Ulcers —BLOOD—It is absolutely impossible to be well and strong, pulsing with life and energy, if the organs and tissues of the body are not properly nourished with pure, rich blood. When you reach the point where nature's building-up process fails to keep pace with the tearing down process, old age begins to set in, even though you may be young in actual years. Impure, sluggish blood is the direct cause of a multitude of ailments. YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

STOMACH TROUBLE—You know quickly enough when you have a bad stomach. When you have heartburn and indigestion, sour, gassy stomach. Many people will be surprised to learn that such a long train of ailments can be traced to Auto-Intoxication. The ailing man thinks the condition of the stomach is due to something eaten. This may be true to a certain extent but remember this, that the mere fact that you do suffer this way is a pretty sure sign that something further is wrong with you. I WANT TO TELL YOU WHAT YOUR TROUBLE IS. If you are one of those who have tried everything, but still have found no relief, I WANT TO TREAT YOU. I want to show you that you need not suffer longer.

NEW YORK STOCK EXCHANGE.

New York, Dec. 23—Wall Street,
Noon.—The market broadened and
strengthened in almost every quarter
during the morning, the only noteworthy exception being United States
Rubber, which fell 3 points. There was
more confident buying of the usual
favorites in the oil steel, equipment and
shipping divisions than at any recent
period, shorts making further involuntary contributions to the advance.
Tobacco, sugar, motors, chemicals and
specialties were appreciably better.
Southern Pacific and Reading represented the investment rails at moderate southern Pacific and Reading represented the investment rails at moderate gains, and junior rails were led by the coalers, including Chesapeake and Ohio and Erie. Exchange on London was firm, but call money held at 7 per cent, with scant offerings of time funds.

B. E. WALKER JOHN AIRD GENERAL MANAGER Report of the Auditors to the Shareholders of The Canadian Bank of Commerce In accordance with the provisions of sub-sections 19 and 20 of section 56 of the Bank Act, 1913, we report

In accordance with the provisions of subsections 17 and 20 with the books and vouchers at Head Office as follows:

We have audited the above Balance Sheet and compared it with the books and vouchers at Head Office and with the certified returns from the branches. We have obtained all the information and explanations that we have required, and are of the opinion that the transactions of the Bank which have come under our notice have been within the powers of the Bank.

We have checked the cash, and verified the securities representing the investments of the Bank, at its chief office and principal branches at a date other than that of the verification at the chief office on the 30th November, 1920, and found that they were in agreement with the entries in the books of the Bank relating thereto.

In our opinion the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Bank according to the best of our information and the explanations given to us, and as shown by the books of the Bank.

# MORE ORDERLY;

Leading Issues Partially Recover Declines of Day Previous.

BROKERAGE FIRM FAILS Its Collapse Is Blamed on **Existing Tense Credit** 

Situation. NEW YORK, Dec. 22 .- Conditions in the stock market today were more orderly, leading issues recovering part of yesterday's extensive declines, but speculative shares in process of further liquidation with consequent new

low records. A sidelight on the protracted reversal was furnished by the failure of Foster and Lounsbury, a prominent stock exchange firm, whose immediate difficulties are traceable to the tense credit situation the banks, according to re-port, calling loans on depreciated col-lateral.

Another feature of the unsettlement

Another feature of the unsettlement was the announcement that the stock exchange had been requested by a member to investigate the gyrations of several stocks recently under bear pressure. Among these are Houston Oil and Replogel. The former last week made a precipitate break of more than ten points, while Replogel's loss of 22 points was the chief feature in yesterday's demoralized trading.

Gains outnumbered losses at the irregular close of today's market, but the concensus of opinion in conservative circles was that further readjustment would have to take place before confidence could be restored. Sales approximated 1,400,000 shares. The bond market also recorded a large turnover at variable reactions.

Among the day's constructive developments were announcements of extra

dividends by several industrial a financial companies, notably the Ame ican Shipbuilding Company and t New York Title and Mortgage Cor BANK OF ENGLAND. London, Dec. 23.—The weekly statent of the Bank of England shows t collowing changes: otal reserve decreased.....£2,396,

#### ST. THOMAS ELECTRICAL APPLIANCE DEALERS OBJECT TO HYDRO SHOP

ST. THOMAS, Dec. 22.—The Hydro-Electric Shop as a competitor with the local merchants, doing business in similar lines, is not appreciated by the St. Thomas tradespeople. Complaint comes from the dealers that in the underselling of some articles at the Hydro Shop the merchants are actually paying the commissioners for the maintenance of this commercial undertaking through the prices exacted from them by the commission for light and power.

The merchants dealing in electrical supplies are few they say, and cannot exert the same influence on the "powers" as perhaps businessmen in other lines. But they do insist that the hydro-electric commission should confine its activities to that for which the department was created. The addition of a stock of drygoods and boots and shoes, a shopman says, would just be as much within the province of the commissioners as dealing in other supplies. But a departure of the kind would raise a howl from the competing merchants that would shut every hydro shop carried on under the auspices of the commission.

HAMILTON, Dec. 22.—"The farmer has had to accept the heaviest financial loss of any one class in the community during the last year," declared Hon. F. C. Biggs, minister of public works for Ontario, in addressing a roundtable conference of representative manufacturers; merchants, businessmen and labor representatives here tonight. "It may surprise you," continued My. Biggs, "to learn that the produce for which a farmer received \$1 a year ago, now brings him only 51 cents."

The farmer who still had to pay peak prices for everything he bought bearing an undue proportion of the present deflation, Mr. Biggs said. Citing his own case, Hon, Mr. Biggs said that last year he received 68 cents a pound for wool that he sold; this year the price was 18 cents. Last year he sold rough cowhides at 22 cents a pound, and this year 5% cents and 6 cents.

The Reserve Grand Champion is Here The Big Pork Guessing Contest Is in Full Swing

All our Christmas Meats are now on display, and Poultry, tons of it. Turkeys, Geese, Ducks and Chickens galore. In fact, we have the largest assortment for you to choose from that could possibly be crammed into this store.

Grand Champion Steer, dressed, is a real beauty for the eye to see-such meat as was never before placed in front of the public of London. 'This steer, which was purchased by us at auction for 75 cents a pound, was only fourteen months old and weighed, alive, 1,120 pounds; dressed, 750 pounds, or 671/2 per cent, which we think is a record, and was raised by G. A. Guthrie & Sons of New Dundee, not 40 miles from this city. Surely, if this district can produce such quality we ought to have the pleasure of eating it. Get your order in early.

The Liberal Government Will Carry On Without Working Arrangement.

WINNIPEG, Dec. 22.—A committee of the Independent Farmers' Party in the Provincial Legislature finally met Premier T. C. Norris this morning with regard to their course of action in the coming session of the Manitoba Legislature. It had been anticipated that a working agreengement would be made on the course of the manitopated that a working agreengement would be made on the course of the co working arrangement would be made or a sort of fusion of the Government with the farmers' party, but the leader of the farmers, William Robson, presented to the premier the following resolution which was passed at a meeting this afternoon:

to the premier the following resolution which was passed at a meeting this afternoon:

"The Independent Farmers' Party convened for the purpose of considering an invitation made them by Premier Norris to Join in a conference with his government to see if both parties could agree on a policy of joint action. The Independent Farmer group met and deliberated, deciding that while not opposing the Norris Government on general principles it was considered advisable, in order to preserve the identity of the Independent Farmer Party that they decline the suggestion of alliances. A further reason being their desire to retain their position of absolute independence.

Premier Norris, in a statement given out tonight, says the committee, speaking for themselves as individuals, assured the Government that they had no desire to encompass their defeat, but could take no other position than that outlined in the resolution. The premier added that he had suggested no merger but merely a working arrangement to carry on during the session. The main position, however, is left much as it was after the elections, and the Norris Government will carry on with some obstacles, anyway.

Premier's Emigration Suggestion.

LONDON. Dec. 22.—The Government is subjected to much criticism at the hands of the opposition press on the inadequacy of its unemployment plans. Mr. Lloyd George's suggestion that emigration is the only real remedy is seized upon by the Westminster Gazette, which asks: "Did ever a premier confess so frankly the bankruptcy of his statesmanship?"

The labor leaders declare that the fifteen shillings which the unemployed will now be qualified to receive under the Government unemployed insurance act is totally insufficient, considering the high cost of living. Additions to the idle ranks are announced daily owing to the trade depression. The Belfast spinning mills and factories closed down today, 30,000 persons being affected.

Will Announce His Decision To Citizens' Committee-Women Join Battle.

The Citizens' Committee organized Tuesday for the purpose of indorsing for mayoralty a citizens' candidate met at headquarters in the R. C. Struthers' Building Wednesday night and mapped out a campaign for the coming municipal election. While a mayoralty candidate has not yet been indorsed by the committee, an announcement will be made tonight, when Mayor E. S. Little will officially declare his intentions regarding a second term of office.

This afternoon the women's executive of the Citizens' Committee will meet at headquarters to draft out co-operative measures in the campaign, and the committee will meet again next Monday evening. A. E. Silverwood acting as chairman at the meeting explained that the Citizens' Committee had been organized to put on a campaign in the interests of a citizen candidate for mayor.

Small of this city by fraduently professing to be able to restore her husband, who has been missing for more vation Army, the Returned Soldiers' mas if Mrs. Small paid them \$1,000.

The Soldiers' Ald Commission, the Salvation Army, the Returned Soldiers' Wives' League, the G. W. V. A., the G. A. U. V. and the Army and Navy Veterans' Association. The \$2,500, which was donated by the Res Cross Society in 1918 to carry out the work of this committee, has been exhausted, and the committee will ask that this grant a further sum for the work, as it feels that if there was ever a time when relief money was needed amongst soldiers, it is now. They will also ask all other organizations in the city who are interested in soldiers' work to cooperate with the S. A. C. in order that relief may be granted.
