GREAT REVIVAL SWEEPS WALES

Interesting and Descriptive Discourse by Eloquent Pastor of Baptist Church

Amazing Scenes Depicted—Wonderful Meeting at Which Much Good is Done

Rev. J. W. Hoyt, pastor of the William St. Baptist Church, as announced in The Planet, spoke last evening on "Wales and the Welsh Revival as I Saw It." The church was filled, and Mr. Hoyt was given an attentive hearing. He was glad to see so many present, and thought he could hardly get a text to cover his discourse, unless it would be that verse in the 8th chapter of the Acts of the Apostles.

In 30 or 35 minutes he could hardly do this subject justice. He had spent one week in June in Wales at the revival. The past 12 months was the greatest revival in the past half-century, or perhaps a century. Great thinkers and writers had said that the time had passed for old-time revivals, but they had been mistaken. In October, 1904, in South Wales the great revival had been started by a servant girl, who had prayed earnestly for a revival among the Welsh people. It went from South to North Wales. Many had thought the Welsh people were an excitable race, but it had proved otherwise. It was thought to be a bubble which would soon burst, but, instead, the revival had spread with leaps and bounds.

On Sept. 12 he had received a note from a young man stating that God's work was going on just the same there. Twelve months had passed and the bubble had not burst yet in Wales. It was said that the Welsh people were not sentimental, but as the North of Scotland people were not sentimental, neither were the Welsh people. They were a strong and sturdy race.

Many ministers tower up high there, and the miners are healthy and have lots of stamina in them. Business men there are not excitable either, and all have been wonderfully benefited by this revival.

Evan Roberts, evangelist, conducted a meeting at Beaumaris in a town of 15,000, and the meeting was held in Beaumaris Castle, famous in the 11th and 12th centuries, and is said to be the place where Edward I. put to death the barons of that period. He arrived at Beaumaris at 2 p. m., and secured lodgings, and at once despatched a letter to Hon. Chas. S. Hyman, Minister of Public Works, recommending that the work be proceeded with this fall and winter.

The new pier will be built at the foot of Pitt street on the Eau and be of immense convenience and benefit to all small craft.

GO EASY Ex-Ald. A. B. McColg, M. P. P., Thinks City Will Err to Meddle With C. C. I. Board

This morning The Planet received a telephone message from Arch. B. McColg, M. P. P., congratulating this journal on the proposal submitted to the Board of Education to settle the Education embroglio by a friendly conference representative of all parties interested. "It is a proposal which will commend itself to all," was Mr. McColg's kindly comment.

"How would it be," continued the member for West Kent, "to have the members of the Public School Board elected by the city at large and leave the Collegiate Institute Board as it is at present? Some years ago when I was in the Council I earnestly suggested the election of the Public School Trustees by the city at large, as the project is sound in theory and tends to do away with the consideration of all special ward interests in favor of securing the best services for the community at large.

"At the same time I feel that our Council will make a mistake if they meddle with the C. C. I. Board at the present time and very unfortunate and unpleasant complications may arise. The feeling throughout the county seems quite tense, and no injustice should be done to the Separate School as might result from the proposed change. It will, I believe, be better for the city, and avoid unpleasantness with the county and unfairness to the Separate School supporters, to leave the matter of Collegiate representatives alone."

BY-LAW IS NO GOOD

Judge Houston Gives Out This Opinion in Reference to Transient Trader Case

By-Law May be Quashed—Council Should Take Matter up and Pass a Workable By-Law

Judge Houston gave as his opinion this morning that the Transient Traders' By-law in force in Chatham at the present time is no good, and the Council should at once repeal it and pass one under which the authorities could work.

This decision came up in the Sharpers case, which has come up several times and each time adjourned. When the case was argued, Mr. Lewis, who appeared for Sharpers, claimed that as the defendant was paying rental he should not be classed as a transient trader, as, if he were, he would be paying double taxes. Judge Houston, however, contended that Mr. Lewis was wrong in his argument, but, under the by-law, he was unable to give a conviction. Both counsels asked for special findings, and they were as follows:—

That the defendant had been in business in Windsor and had come here and bought the stock of G. O. Scott. He didn't take all the goods, but agreed to buy them, Mr. Scott having a right to sell in the meantime the stock not directly bargained for. He was a monthly tenant, although he had asked for a three years' lease, but couldn't get it. If the case is appealed the by-law may be quashed.

The young man who refused to pay poll tax was up and allowed to go, after paying the tax and the costs.

NEW PIER

Petition From Erieau Residents Receives Endorsement From Mr. George Stephens

This morning the petition from the cottagers and residents of Erieau asking for a new pier was formally presented to Mr. George Stephens, a deputation waiting upon him at his offices.

The petition met with Mr. Stephens' hearty endorsement, and he at once despatched a letter to Hon. Chas. S. Hyman, Minister of Public Works, recommending that the work be proceeded with this fall and winter.

The new pier will be built at the foot of Pitt street on the Eau and be of immense convenience and benefit to all small craft.

BROUGHT TO STERN JUSTICE

Lady Smugglers in the Maple City May be Proceeded Against

Inland Revenue Representatives on Rail and Boat Make Startling Reports

Rumor hath it that one of the largest, most select and decidedly interesting Police Court sessions will be held before Judge Houston within the next three weeks. The invitations are in the name of Edward Rex and will be of a real urgent and pressing character. Guests who qualify for the fascinating social function will generously donate anywhere from \$50 up to the kindly coffers of the state.

It turns out that it was no idle threat that the customs officials made last July, when they warned City passengers and others against smuggling operations reported to be going on and gave the warning that extra body inspectors would be appointed to put a stop to the operations.

Government Inspector Allan was in the Maple City Saturday and said the smuggling reported by special officers had been enormous, so much so that an example would in all probability be made of the vicinity.

A very careful and elaborate list of articles "spotted" is said to be in possession of the officers. None have yet been confiscated, the roundup to follow the issue of subpoenas. It is a striking testimony to either the honesty or the shrewdness of the sternest sex that the list is made up entirely of ladies, and the goods in question, almost without exception, are their purchases and belongings. The list is alleged to contain 37 names of city dwellers of the customs and the official invoices of their contraband, as forwarded to headquarters, is decidedly unique, varied and interesting. Fall and winter coats and suits head the list, nineteen being reported; skirts, undershirts and shoes are there in profusion; several hats and "two bonnets" are included; trinkets and china ware, lace curtains, belts, fancy hosiery and corsets are also included in the analysis of the goods brought in.

An interesting feature of the case is said to be the fact that chief witnesses for the Crown in all the cases will be friends of the accused, who unknowingly spread the news of the clever ways in which their companions "worked in" their Detroit purchases.

Collector D. R. Farquharson was interviewed by The Planet this afternoon but was non-committal as to the course the Government would pursue. "Mr. Allan reported on Saturday," he said, "that he had had a special representative at work and that the report showed a great deal of smuggling had gone on—a very deplorable state of affairs."

MARX WRONG

He Misquotes Cost of Lighting the City—The Gas Co.'s Proposition

"I see Mr. Marx credits the Gas Company with charging \$1 each for lights, when as a matter of fact the assessment was 23 1/2 cents," said Manager P. S. Coate this morning. "If this is a sample of the accuracy of his statements," he added smilingly, "they should need much contradiction."

"As a matter of fact the company is submitting their proposition at the request of the Council. It is a simple business proposition. If the proposal is deemed advantageous for the city we expect to get the contract; if it is not we would not ask it."

"A reference to our gas rates will show them as equitable as at any other centre of the same size and conditions," Mr. Coate added.

THE MODERN WAR SHIP.

That the trend of naval evolution is toward larger ships, with fewer but heavier guns, is indicated by the plans of the latest ship laid down by the British admiralty. It is not usual to invest with any special ceremony the laying of the keel of a warship, such formalities being confined to the "christening" process performed at the launching. The fact, therefore, that this custom was departed from in Portsmouth on Monday, when the keel of the new battleship Dreadnought was laid with all the ceremonial of the corner stone of a great national structure, as evidence that great importance is attached to the construction of the ship. The keel was laid by Miss Douglas, daughter of Sir Archibald Douglas, commander-in-chief at Portsmouth.

The Dreadnought is the only battle ship to be laid down in England this year. She will carry no fewer than twelve 12-inch guns, each capable of throwing a 960-pound shell a distance of twenty miles. Her only other armament will be small guns for repelling a torpedo attack. British naval experts rate her fighting strength as equal to that of any three battle ships now afloat at the range at which modern sea engagements are fought. Although the Dreadnought's cost will be about \$7,300,000, it will be ten per cent. less per ton than that of recent battle ships. This is due to structural improvements which are being kept secret. The vessel is to be in commission in sixteen months.

As indicating the revolution of opinion in England in reference to the armament of men-of-war, it is noted that at the launching of the cruiser Natal at Barrow-in-Furness, Saturday, the head of the great ship-building firm of Vickers, Sons and Maxim, declared that "it is just possible that with the demands of naval strategy she will be the last of our British cruisers, the type in future being merged into battleships where high speed will be combined with great powers of offence and defence." And not only in Great Britain is this tendency manifest. Naval experts of many other nations express the view that the immense heavily armed ship is the war vessel of the future. It begins to look as if the world's navies will soon be made up of extremes—the monster battleship and the tiny torpedo craft.—Ottawa Citizen.

W. O. T. U.

The monthly meeting of the W. O. T. U. was held on Thursday afternoon last at the home of Mrs. A. J. Wilson, William street, the regular meeting place of the union. After devotional exercises and routine work, arrangements were completed for the county convention to be held here next week. One new member was then received into the Union and the Secretary handed in another name of one who will join in the near future. At a special meeting held last week two new members were received so this society is steadily growing. Mrs. Graham, the county president, reported having addressed a temperance meeting at Bothwell, where a lively interest was shown in the work. A Union was organized with Mrs. (Rev.) M. P. Campbell as president, and an enthusiastic little band of women who will do good service for the Master in this part of His work.

DREDGING WORKS

The Chatham Dredging Company is having a particularly busy time and the capacity of their three dredges has been taxed to their utmost. One of the dredges has been engaged by the Government on the work of making a harbor at Belle River, and when this work is completed the dredge will be removed to the river, where a cut will be made up to Jeanette's Creek station, and a road will be made for the convenience of the people of Tilbury who may wish to use the river for shipment and receipt of merchandise. A good road will also be made along the bank of the cut to a dock that will be constructed during the winter months. Another dredge is at Pelee Island, where a cut is being made across the island to allow a constant flow of fresh water, the work being under the direction of the Indian Department. In Dover the third dredge is finishing up the Rivard drain, that is nearly completed, the dredge will then be removed to the Boyle drain to complete this necessary undertaking.

Starving in Chatham!

Men and Women Who Are in Need—
 Liberal Offer

There are scores of people in Chatham and vicinity who are starving in the midst of plenty. This is not because they are in need of food, but because they cannot digest the food they eat.

To help these unfortunate our leading druggists have recently received a large supply of Mi-o-na, the most recent discovery for the cure of stomach troubles.

Mi-o-na is an unusual combination of remedies for the stomach and digestive organs that heretofore have been little known in this country. It soothes and heals the irritated

mucous membrane of the stomach, stimulates the solar plexus, and strengthens the nervous system.

One little tablet out of a 50-cent box of Mi-o-na before meals, and you can eat what you like and when you like. You will have no more headaches, backaches, heart-burn, or indigestion. Mi-o-na will give you perfect health and strength.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

THOSE LIGHTS

At the special meeting of the Council to-night the Chatham Gas Company will be prepared to submit a tender for the lighting of the city and for the installation of a modern system. With the installation of such a system would mean the purchase of dynamo that would furnish street lighting, ordinary incandescent lighting, and a continuous power service. It is understood the company will make the conditions liberal and leave the city free to terminate the contract at any time should the Niagara Company enter the city, as was intimated in Thursday's issue of The Planet.

NO SUBSTITUTE

has yet been found for cod liver oil. There are so-called extracts, wines and cordials of cod liver oil that are said to contain the active principles but not the oil itself. THE TARANTULA KILLER.

A Giant Wasp That Is the Powerful Spider's Mortal Foe.

The tarantula killer has a bright blue body nearly two inches long and wings of a golden hue. As it flies here and there in the sunlight, glittering like a flash of fire, one moment resting on a leaf, the next on a granite boulder, it keeps up an incessant buzzing, which is caused by the vibration of its wings. No sooner does the tarantula hear this than he trembles with fear, for well he knows the fate in store for him when once his mortal foe perceives his whereabouts. This it soon does and hastens to the attack.

At first it is content with flying in circles over its intended victim. Gradually it approaches nearer and nearer. At last, when it is within a few inches, the tarantula rises upon his hind legs and attempts to grapple with his foe, but without success. Like a flash the giant wasp is on its back. The deadly fangs have been avoided. The next instant a fearful sting penetrates deep into the spider's body. Its struggles almost cease. A sudden paralysis creeps over it, and it staggers, helpless, like a drunken man, first to one side, then to the other.

These symptoms, however, are only of short duration. While they last the wasp, but a few inches away, awaits the result. Nor does it have to wait long. A few seconds and all sign of life has disappeared from the tarantula. The once powerful legs curl up beneath the body, and it rolls over dead.

OLD NIAGARA.

Notes of a Day Spent in Rambling
Over the Old, Historic Town
—The Old Fort.

That trimly-clad figure on the ex-
treme forward deck, her hair wild-
blown—that stout and prosperous old
party, by starts advancing from the
cabin—that quickened interest of the
student, that eminent traveler's levelled
glass, that general breaking up of quiet
groups and reckless abandon of shelter-
ed nooks, that stir and excitement and
forward move and eyes front of all the
passengers on the crowded steamer,
what do they mean? asks Frank Leigh,
in Toronto Globe. He answers.

They mean that land is in sight, the
bell buoy is at hand and the Chilpewa
is about to pass those grim, old guard-
ian forts at the river's mouth, enter the
broad Niagara and moor at one of the
most charming old towns the world af-
fords, attractive for its present-day
beauty, but doubly more so for its
chequered and romantic past.

The ship is listing heavily to port.
Her whistle blows. The paddlewheel's
drag. Wharf and ship timbers grind;
the hawsers strain at their moorings.
Let us cross the thronging gangway,
and, with one of these peaceful invad-
ers—preferably her of the wind-blown
hair—let us spend a day in rambling
over the old, historic town.

Across the river is Fort Niagara.

"The ancient fort that once,
With war and siege and deeds of dar-
ing wrought
Into its rugged walls a history
Of heroes half forgotten, writ in
dust."

as Niagara's own bard, Wm. Kirby, has
described it.

This old fort is one of the most his-
toric spots in North America. It is al-
most two centuries and a half old. Its
foundations are said to be the oldest
existing masonry work of Albany. Here,
on this point of land, in 1669, La Salle
built the first structure, other than an
Indian wigwam, ever erected on this
frontier. On this site at a later date,
he built the Fort Conti. A stone
castle on the site of the present one
was built in 1724. Gradually strength-
ened and enlarged by the French, this
primitive stronghold had become at the
time of its attack by the British in 1759
a great fortress, as strongly fortified
and protected as the citadel of the day,
with such materials as could be gathered
at so far off a point, could possibly
make it. The timbered roof dates back
prior to the American revolution. The
two stone blockhouses, said to be the
best specimens of their kind extant in
America, were built in 1770 and 1771
by the British. The hot-shot furnace,
first built prior to 1812, was rebuilt 50
years ago. The brick facing on the
earthworks dates from 1861.

Fort Niagara was the strategic cen-
tre of the middle part of North America
for over one hundred years and was
the centre of French civilization in the
interior of the continent down to
Louisiana.

Directly opposite Fort Niagara lay the
Indian village of Onghara—variously
spelled Onghara, Onghara, Onghara,
Onghara and Onghara. With the
advent of the United Empire Loyalists
a thriving town sprang up on this spot.
It was first known as Butlersburg, then
West Niagara, afterwards as Newark,
and, finally, as Niagara. Fort George
was constructed. Butler's Barracks
were built. Governor Simcoe made it
his capital. Commerce and trade flour-
ished. Niagara was the chief town in
all western Canada and prospered ex-
ceedingly.

Then came war, and all the horrors
of siege, capture and destruction. Fort
Mississauga.
"That stern memorial of a deed unchiv-
arous,"
preserves the memory of that stirring
time. Its massive walls were built of
the ruins of the burned town. A walk
over the nine hole golf links at the
north brings us to it. It is in the form
of a stone blockhouse, surrounded by
high earthworks, and stands to day a
perfect specimen of the early nineteenth
century fort, the only one of the kind
in Canada.

Fort George is now in ruins. It was
dismantled immediately after the close
of the war. Each year it hears again
the rolling drum, the boom of cannon,
the crack of musketry, the thunder of
the charge. The strife, however, now is
mimic war; the soldiery are training;
on the plain beside is held the annual
camp for instruction.

On the far side of the common are
Butler's Barracks, such as remain, and
away to the west is Butler's burying
ground—perhaps the oldest burying
ground in Ontario—where the old war-
rior and many another fighting loyalist
lie buried. Midway stands the old
jail. Over by the grove are the French
thorns famed in legend and in poetry,
and near at hand is old St. Mark's—"a
bit of Old England"—the quaintest,
most romantic, most charming old
church on the continent. Its smoking
ruins and battle-scarred graveyard saw
the desolation of 1813.

Down by the wharf is the old cradle
slip and dockyard, where in 1792 the
first Canadian merchantman on these
lakes was launched. Many a noble ves-
sel moved to her baptism from these
stocks. Niagara was an important port
in the old days before the Welland
Canal was constructed. All the trade
of the upper lakes passed this way.
Over the doors of the warehouse at the
south end of the wharf are the names
of the steamers which used it—the
Great Britain, the Canada, the United
Kingdom, the Commodore Barrie, the
St. George, the William IV. Here, on
New Year's Day, 1840, was launched
the old City of Toronto, and here also
was built her successor on this route
—not unworthy pioneers of the present
proud fleet, the commodore of which is
even now bawling "All aboard!"

Tiger Hunt in Quebec.
A despatch from Ste. Madeleine, Que.,
says that for several days a ferocious
tiger has been terrorizing the inhabi-
tants of the district. It is supposed
that the beast escaped from a circus
menagerie that recently visited that
part of the Province, and in conse-
quence the whole neighborhood is
aroused and alarmed. Several persons
claim to have seen the tiger, and one
young man asserts that while he was
out driving the tiger gave chase from
a neighboring thicket, and had not the
horse seen it and been frightened he
might not have escaped to tell the tale.
Whether or not the reports are true, a
band of hunters have undertaken to
lay the striped monster low.

"Though the motor-driven vehicle
steadily increases in numbers and avail-
ability, it is not sending the old nag to the
boneyard. It is further stated that the
horse market does not show the slightest
effect of the automobile, the demand
being as great and the prices as high as
before the automobile came into use."
When a horse or any other animal is
suffering from an indigestion or dis-
temper, one of the first signs his master
notes is that he refuses to eat—"is off his
feed," as they say. He gives his stom-
ach a rest for a few days till it recovers
tone. Nature intended a man's appetite
to be his servant, to notify him when his
system was getting enough food, and
when it needed more. But most of us,
by reckless living and indulgence, have
reduced our systems to such a condition
that the appetite is the master. Very
often a good horseman will give his fa-
vorite a bran-mash—to give it a change
of diet and a laxative—thus looking after
his liver. Yet the same man is very apt
to spur his own stomach with alco-
holic drinks or bitters.

Mother nature knows her business and
does good work. Dr. Pierce early be-
lieved in following the laws laid down
by nature (as do the animals), in choos-
ing roots, herbs and barks for the in-
gredients for his stomach tonic and
alterative extract, the "Golden Medical
Discovery." It acts on the stomach in
nature's way—is nature's cure for indig-
estion, and by correcting the stomach,
and thus feeding the blood on pure
materials, the red blood corpuscles are
increased and the body established in a
healthy state. Dr. Pierce's Golden Med-
ical Discovery will do more to improve
the health than any other remedy.

Death's Euphemisms.

I cannot tell what custom arose,
but I know that it was customary in
New England less than a century ago
to announce a suicide in the list of
deaths by euphemism—as, "In this city,
last inst., A. B. suddenly." It was so
common that on seeing such a notice
any one would understand at once that
the deceased had taken his own life.
Those were the days when newspapers
understood and respected a certain de-
gree of reserve in regard to personal
feeling, whether of joy or sorrow. In-
dividuals had some privacy.

Another euphemism in regard to
death is the phrase, "If anything
should happen." Persons speak of
making their will or making any defi-
nite arrangement concerning their pos-
sessions, "in case anything should hap-
pen to them." The phrase is almost
invariably used where death is hourly
expected, certain things are to be done
or certain persons called, "if anything
should happen," meaning that one
thing is sure to happen.—Journal of
American Folk Lore.

The Scornful Caddie.

A very pompous, self sufficient and
very bad golfer was once playing over
an Irish course. He had as his caddie
a battered old Irish peasant, with a
very knowing twinkle in the corner of
his eye. After each stroke—and each
stroke was cruel hard on the green turf
of Onid Orlend—the vainglorious one
said to his caddie in the most lordly
fashion, "Replace the turf, caddie!"
Quietly and patiently the caddie went
through the performance, thinking vol-
umes and saying nothing at all until
the eighteenth was reached. Then, as
the last duffed shot stumbled its way
to the putting green and "Replace the
turf, caddie!" rang in his ears for the
last time, he turned with a look of in-
effable scorn upon his august employer
and said: "Arrah, is it replacing the
turf you'll be bidding me to do? By
the holy dy, it'll be returning the place
we'll be all doing when you're gone!"

An Artist's Mistake.
Danton, the celebrated caricaturist,
had a wonderful power of modeling
from memory. After one long look at
his subject he could go to his studio
and make a bust quite perfect in its
resemblance.

One day a young man came to him,
saying that his sister was ill and about
to die and that, although the family
wished her bust modeled, they dared
not excite her by mentioning it.
Would he undertake to reproduce her
features after seeing her once? Dan-
ton agreed, and next day the brother
informed his sister that he intended
to present her with some jewels and
that a young man would bring some
specimens for her approval.

Danton brought in the jewels and,
going home, modeled a bust of strik-
ing resemblance. Next year an old
gentleman, the father of the young
woman, came to order a bust of the
brother, who also had died. This, too,
was a marvelous success.

The result of such planning, how-
ever, was not always as satisfactory
to his patrons as in these cases. A
gentleman who could not persuade his
wife to sit asked Danton to enter a
certain omnibus one day and fix in his
memory the features of the lady op-
posite him.

He did so, modeled a beautiful bust
and sent it home. It proved, however,
to be not the mistress, but the maid,
who had also taken the trip in the
omnibus.

Strength of Insects and Animals.

A series of experiments made to test
the fly force and pulling and lifting
strength of various kinds of insects
gives some curious points for study. It
has been found that a cockchafer can
draw fourteen times his own weight
and the common honeybee thirty
times. From this it may be argued
that, weight for weight, each of the
above named insects is twenty-one
and thirty times respectively stronger
than the horse, whose strength, as a
rule, is taxed to its utmost in drawing
its own weight as a "dead load." A
scientist once experimented with a
small hard shelled beetle by putting
him under a common table tumbler.
The little creature, not more than one-
third of an inch in length, was able to
move the glass in any direction. After
the experiment had been satisfactorily
made both the tumbler and the bug
were weighed, whereupon it was found
that the little Hercules had lifted 900
times its own weight! He did not car-
ry the weight, of course, but caused it
to make some lively motions.

Fly Wheel Insurance.

Fly wheel insurance is almost pure
mathematics. When a wheel is re-
voluted at a high enough speed the cen-
trifugal force exceeds the centripetal
and the wheel flies apart. Solid cast
iron explodes when the speed at the
rim is roughly three miles a minute.
A thick rim explodes just as easily as a
thin one of the same material. Wood
explodes at a greater speed, jointed
iron at a less. The underwriter allows
a rim speed of a mile a minute, one-
third the explosion rate, as a safe limit
for solid iron wheels. This permits a
two foot pulley wheel sixteen revolu-
tions a second, while it keeps a sixteen
foot fly wheel down to two. A jointed
wheel is allowed still less. The under-
writer has only to name the number of
revolutions he authorizes and to pro-
portion his premium to the size of the
wheel. The larger the wheel, of course,
the more destructive its explosion.

A Meerschaum Mine.

"Meerschaum is mined like coal,"
said a pipe dealer. "It is a soft, soap-
like stone, and in Asia Minor its min-
ing is an important industry. The
crude meerschaum is called hamtash.
It is yellowish white in color and a
red clay coat or skin envelops it. The
blocks cost from \$25 to \$200 a cart load.
They are soft enough to cut with a
knife. These blocks in summer are
dried by exposure to the sun. In win-
ter a heated room is necessary. Fi-
nally the meerschaum blocks are sorted
into twelve grades, wrapped in cot-
ton and packed in cases with the great-
est care. The bulk of all this meers-
chaum goes to Vienna. There the
best pipe makers in the world live."

Lamb's Quaint Humor.

Charles Lamb once said that he hated
a certain man.
"Do you know him?" Lamb was
asked.
"No," he answered.
"Let me introduce you to him," said
Lamb's friend.
"No," responded Lamb humorously,
"for if I shall know him I am sure I
shall stop hating him."

A Crash.

"Bragler's down and out financially,
you say? Well, well! That's strange,"
remarked Dumley. "Why, the last
time I saw him he told me he was
rapidly ascending the ladder of suc-
cess, and—"
"Yes?" said Wiseman. "Perhaps in
his haste he stepped off the top rung."

you?"

THE PHILIPPINE TYPHOON.

Eighty Per Cent. of the Buildings in
Two Districts Destroyed—Many
People Killed.

Manila, Oct. 7.—Government reports
show that the result of the recent
storm is very serious. At least 200 na-
tives and 25 Americans and foreigners
were killed. It is impossible to identify
many of the latter. The Government's
police work the past year in the Pro-
vinces of Cavite, Batangas and the Is-
land of Samar, which made possible the
largest acreage planted in the history
of the island, has been undone, and, it
is estimated, retarded development one
year in the hemp provinces. In Albay
Sorsogon, Masabale and Samar fields
have been devastated, warehouses de-
stroyed and stocks damaged. Roads
are impassable, and the transportation
facilities are crippled. The loss is in-
calculable. In Albay and Sorsogon 80
per cent. of the buildings, dwellings,
schools and warehouses have been de-
stroyed. The storm, in connection with
the severe drought which obtained ear-
ly in the year, will, it is estimated, de-
crease the receipts of the island 40
per cent. The army is a heavy loss
at southern ports.

BEHRING'S CURE.

Portion of Tuberculosis Remedy From
Milk of Immune Cows.

Paris, Oct. 7.—Prof. Behring's an-
nouncement of a cure for tuberculosis
was the talk of the day in Paris. It
was learned through indiscretions that
a portion, at least, of Dr. Behring's
remedy comes from the milk of cows
previously rendered immune against
tuberculosis.

As it is scarcely probable that this
milk can be used in natural form, there
is some reason for believing that serum
is employed, and it could scarce-
ly be utilized in any other way than
by subcutaneous injections.

The Pasteur Institute was besieged
by reporters clamoring for information.
They were received by Dr. Mechnikoff,
who pointed to Dr. Behring's scientific
career as a guarantee of trustworthi-
ness. He said the remedy was in the
form of a powder. That was all he
could say.

Dr. Behring intends to make a com-
munication to the members of the tub-
erculosis congress to-day on the sub-
ject of his remedy, which he calls
"T. X."

For Coughs and Colds

There is a remedy over sixty years old

you have heard of it, probably have
used it. Once in the family, it stays;

The remains will arrive in this city on Tuesday at two o'clock, when the funeral will take place at the Maple Leaf Cemetery. Rev. Mr. Hoyt will conduct the burial service. Deceased was a very bright young girl and was a former pupil in the C.E.I., where she made a very brilliant record. She secured a second class certificate in '32, attended the Model school in '33, and took her honor matriculation in '34. The family left Chatham about four years ago.

POLLARD CHILDREN

The production of Agusta Daly's comic opera, "The Runaway Girl," by the Pollard children on Saturday night was an excellent one. The children are all that has been claimed for them and the presentation is unique and captivating. As singers the young folks easily hold their own with adult professionals, the chorus work being particularly fine, and the parts taken were splendidly interpreted. The company will play here the next three nights with Wednesday matinee, playing to-night "Belle of New York," to-morrow "The Geisha," and Wednesday "The Girl." They should be met with bumper houses.

OLD RESIDENT

Mrs. Angus McCall Passes Away After an Illness Extending Over a Year

Mrs. Angus McCall, one of the oldest and most esteemed and respected residents of the city, passed away on Saturday at her home on Barthe street, North Chatham.

Deceased was 81 years of age and was born in Toronto. She was married in '57 and since that time she has been a resident of the city. She has been ill for over a year and her death was not entirely unexpected.

Five children survive. They are: John R. McCall, city; Hugh, of British Columbia; James, of California, and two daughters, the Misses McCall, residing at home. She is predeceased by her husband, the late Dr. McCall, and one son, George B., who died about 35 years ago.

The funeral took place this morning at six o'clock to McVicar's burying ground, where her husband lies buried. Rev. Dr. Battisby conducted the obsequies.

STORE ROBBERED

Hugh McDonald's furniture store was broken into some time between Saturday night and this morning and a quantity of workmen's tools were stolen. No furniture or trimmings, etc., are missing. The safe was tried but the burglars were unable to open it.

The robbers gained admittance through the back door, which was unpried open.

No clue has been found as to the identity of the people who did the robbing.

Earl Grey Welcomed

Winnipeg, Oct. 9.—Winnipeg turned out in full force Saturday evening to greet Earl Grey and Lady Grey, who arrived here Saturday afternoon. The main street, which was brilliantly illuminated, and extending far up Portage avenue, an enthusiastic crowd cheered itself hoarse. Mayor Sharpe and a representative civic body extended the freedom of the city. The courtesies concluded, Earl and Lady Grey started for Government House under an escort provided by the R.C.M.R. The vice-regal party was followed by a great parade. This afternoon the Governor-General will be the recipient of a formal address of welcome at the city hall, followed by a public reception, and in the evening a state banquet at the Government House. The vice-regal party stays in the city until Friday.

Marchioness of Donegal

Montreal, Oct. 9.—The Marchioness of Donegal arrived here Saturday afternoon, the guest of Solicitor Creelman of the Canadian Pacific. The marchioness will be remembered as Miss Twining of Halifax, whose marriage to the aged marquis a few years ago created such a furore in England. She will remain a week before proceeding to New Brunswick and Nova Scotia.

Queen Ranavaloa's Arrival

Paris, Oct. 9.—Paris last week witnessed the arrival of the Queen of Madagascar, Ranavaloa, who was until recently held in Algeria, but obtained permission to come to Paris, where the public gave her an ovation and where she learned with pleasure that her pension had been raised from 3,000,000 (\$6,000) to 50,000,000 (\$100,000).

HON. G. F. FULFORD HURT

Canadian Senator in Automobile and Electric Car Mix-Up.

His Chauffeur, Louis E. Verrat of Albany, N. Y., Had His Skull Fractured and Will Likely Die—Senator's Injuries Consist of Left Leg Badly Twisted and Wrenched and Numerous Cuts and Bruises.

Newton, Mass., Oct. 8.—In a collision between an automobile and an electric car here yesterday, Senator G. F. Fulford, a wealthy man, was badly injured, while his chauffeur, Louis E. Verrat of Albany, N. Y., sustained a fractured skull, and is not expected to live. William T. Farnsworth of Schenectady, N. Y., was also injured, but not seriously.

The automobile, a large gasolene touring car, was coming down a hill in the direction of Boston just as a car on the Boston and Newton Street Railway tracks was crossing Beacon street in the direction of Newtonville.

On account of the buildings on the corner of the streets those in the car, which the senator could not see each other until too late to avoid a collision. The car was going at a fair speed, while it is said, the automobile was coming down the hill at a 15-mile rate.

The heavy touring car struck the electric car in the side. The force of the collision overturned and destroyed the automobile and smashed in the wooden side of the heavier vehicle. None of the passengers on the electric car was hurt, but all the occupants of the automobile were thrown out, the chauffeur striking on his head. In addition to the fractured skull, Verrat received serious internal injuries.

Senator Fulford had his left leg badly wrenched and twisted and suffered from numerous cuts and bruises. Mr. Hansen escaped with scratches and a bad shaking up. Up to last night Verrat was in a coma, unconscious, and at the hospital it was said that his death was expected hourly.

TORONTO MAN DROWNS.

Body of James Johnston Found Floating at Port Dalhousie.

St. Catharines, Oct. 9.—The body of a man who registered at Wellington House, Port Dalhousie, Friday night, as James Johnston, Toronto, was taken from the harbor there Saturday morning, where it was floating.

He was elderly, well dressed and had considerable money on his person last night, but when his body was searched nothing was found except a few cents could be found in his pockets. Coroner Considine was called, but did not deem an inquest necessary.

It is thought that heart failure caused death.

Meet in Shadow of Death.

Victoria, B. C., Oct. 9.—William Edmonds, 21 years of age, was crushed to death Saturday morning at the British Columbia Soap Works. He was adjusting a belt to the shaft when his clothes were caught and he was battered to death between the pulley and the shaft. His parents, who were disappointed many years ago, met for the first time since at the side of their dying son.

Shipped Gun Shoots Baggageman.

Montreal, Oct. 9.—James Woodhead, a baggageman at the Windsor street station, was killed by a bullet from the face and arm last night by the accidental discharge of a shotgun he was handling as baggage. The gun was being shipped in a canvas case. The owner had forgotten to unload it, and when Woodhead threw it into the car it went off.

Losses Part of Hand.

Brookville, Oct. 9.—Mills Church, a resident of Addison, while feeding a corn cutter, caught his right hand in the cog wheels, inflicting injuries that necessitated the amputation of the little finger and a portion of the hand. The stopping of the machine saved the entire hand from being terribly mangled.

Killed By Gas Explosion.

Olean, N. Y., Oct. 9.—Three houses were wrecked and H. M. Clendenny, a machinist, was killed by a natural gas explosion Saturday. Clendenny tried to locate a leak in a gas pipe by using a lighted match.

Wind Breaks Woman's Arm.

Tarrytown, N. Y., Oct. 9.—Mrs. J. S. Jerson, of Tarrytown, while standing on the platform of the Tarrytown station watching the Twentieth Century Express, which runs through here at the rate of fifty miles an hour, was knocked to the platform by the wind made by the train and her right arm was fractured in two places.

27 Killed, 35 Hurt

Rosetown-on-Don, Oct. 9.—A small train bound for Vladikavkaz left the rails Saturday and was wrecked. Twenty-seven persons were killed and 35 injured.

Despondent Porter Suicides.

Toronto, Oct. 9.—Despondent because of illness, Herbert Feveryear, scarcely 21 years old, committed suicide on Saturday by taking carbolic acid in a small clump of bushes at the base of the cliff near Victoria Park. He is thought to have come from a poor family in the vicinity of London. He came out to this country about eight months ago.

Immigration Scheme Fails.

London, Oct. 9.—(C. A. F.)—The Daily Chronicle's Melbourne dispatch states that General Booth's plan of sending 5,000 immigrants to Australia has collapsed. Premier Deakin in a cable to General Booth expressing disappointment says he cannot proceed with an effort likely to involve conflict.

Suez Is Open Again.

Port Said, Oct. 9.—Traffic on the canal, which had been delayed since the blowing up of the wreck of the British steamer Chatham, September 25, was resumed at 6.30 o'clock yesterday morning.

Accused Are Released.

Woodstock, Oct. 9.—The six men arrested in connection with the Ingersoll mystery were released from jail Saturday. The case, however, will not be dropped.

TORONTO LIVE STOCK.

The total receipts at the City Market
 this week are 242 cars, consisting of
 5791 head of cattle, 6278 sheep and lambs,
 1673 hogs and 248 calves. In addition to
 this were 24 horses. While the early part
 of the week opened a trifle weak, the
 latter was marked by a comparatively heavy
 tone, although with considerable excep-
 tion of really good butchers, no appreciable
 change in prices could be noted. This week
 was marked by unusually heavy receipts,
 and the prices maintained are regarded as
 fairly satisfactory. Too much inferior stuff
 has been offered on the City Market of late,
 and the past week has been one of
 whatever grade have found a steady mar-
 ket. On the market yesterday only six cars
 were received, comprising principally sheep
 and lambs, and these sold at unchanged
 quotations.

TORONTO JUNCTION LIVE STOCK.
 Receipts at the Union Stock Yards yester-
 day were 220 cattle, 40 sheep and 1072 hogs.
 For the week the receipts at the Union
 Stock Yards were 97 cars, composed of 1944
 cattle, 117 sheep, 1072 hogs and 2 calves.

Nothing Is a Trifle!

The half inch United States standard
 screw thread has thirteen turns per
 inch. Mr. Welsh, the original superin-
 tendent of the Westinghouse Air Brake
 works, used for the half inch bolt
 twelve threads instead of thirteen.
 This decision has proved to be a mis-
 take, and the company would be glad
 to change it, but the immense number
 of brake equipments which are out all
 over the world, the constant call for
 repairs and extensions make it impos-
 sible.

A JUDICIOUS INQUIRY.

A well known travelling man who
 visits the drug trade says he has of-
 ten heard druggists inquire of cus-
 tomers who asked for a cough medi-
 cine, whether it was wanted for a
 child or for himself, and if got a
 child they almost invariably recom-
 mend Chamberlain's Cough Remedy.
 The reason for this is that they know
 there is no danger from it and that
 it always cures. There is not the
 least danger in giving it, and for
 coughs, colds and croup it is unsur-
 passed. For sale by all druggists.

Doubled Initials For Plurals.

Under the rule that the initial letter
 of a word is sometimes doubled to sig-
 nify the plural, bb would be a proper
 abbreviation for barrels. Probably
 some one, unfamiliar with the rule and
 thinking the abbreviation too com-
 plicated, might be mistaken for an abbre-
 viation for boxes, bundles, bags or
 butts, and said he was sorry that he and
 his family would be unable to see any
 more of me while I'm here. I knew I
 could take care of myself.

HOW TO CURE CORNS AND BUN-
IONS.

First soak the corn or bunion in
 warm water to soften it; then place
 it down as closely as possible with-
 out drawing blood and apply Cham-
 berlain's Pain Balm twice daily, rub-
 bing vigorously for five minutes at
 each application. A corn plaster
 should be worn a few days to protect
 it from the shoe. As a general rule,
 nothing for sprains, bruises, lacerations
 and rheumatism. Pain Balm is un-
 equaled. For sale by all druggists.

BROTHERHOOD OF ST. ANDREW.

Fourteenth Annual Convention Opens
 at Ottawa on Friday.

Ottawa, Oct. 7.—With Lander Hall
 filled with delegates from nearly every
 city in Canada and visitors from the
 United States, James Catto, Toronto,
 president of the Brotherhood of St.
 Andrew in Canada, yesterday morning
 formally opened the fourteenth an-
 nual convention of the active mem-
 bership in Canada in the 155 chapters
 who have sent statements of 2,050, as
 compared with 1,550 in 1904 and 800 in
 1903. In all there are 227 chapters, of
 which 41 are in the Diocese of Toronto.
 The financial statement showed the re-
 ceipts during the year, including a
 balance of \$64 from 1904, to be \$3,136;
 the expenditure, \$2,116; balance, \$20.
 The junior work in the past year was
 most successful. There are 34 chap-
 ters, with about 300 members.

He Will Cure You First
Then You Pay Him

The physician, who has not sufficient con-
 fidence in his own ability to cure his patient first
 pays his pay after-
 wards. He is not
 the man to inspire con-
 fidence in those who
 are in search of a
 dollar need to be paid until cured.

HUMOR

FOLLOWED HER CUE.

She Asked No Questions Not Suggest-
 ed by the Conversation.

When the elderly aunt was here she
 was invited out to dinner with the fam-
 ily and had no thought of refusing.
 She has a heart in her as big as the
 proverbial Yankee cheese, but by way
 of comparison, her bump of inquisitive-
 ness is as large as the new county
 building. That is why the nephew had
 a little private talk with her.

"You see, auntie," he began diplo-
 matically, "it is different in the city.
 There is not the same freedom of
 speech among friends and neighbors.
 We are more conservative, as it were."

"Don't gossip as much, you mean,"
 her nose and chin rising in unison.
 "You think I'm grass fed, as some of
 you metropolis people of culture and
 refinement put it. I'll not disgrace
 you, Tommy. I'll ask no questions that
 are not suggested by the conversation.
 Is that a safe rule?"

"Perfectly, auntie. Pardon me for
 thinking that I might give you a hint."
 "Worked splendidly," the aunt re-
 ported after the affair was over. "I
 had heard you talking over a good
 many reports about those people you
 know, so I knew how to set my stakes.
 When he told me he had made a pile
 on stocks I asked him if he had any
 idea of settling up the debts he ran
 away from down in New Jersey. You
 never see a man get so red, and he
 changed in a wink to talking about his
 family. 'Is it true,' says I, 'this scan-
 dalous report that you and your wife
 were both divorced before you married
 each other?'"

"Heavens!"
 "I thought he was going into a con-
 sultation, but I talked sympathetic and
 told him that the world wouldn't care
 how much he owed or how many pre-
 vious wives or husbands there was
 now that he is rich. That did the busi-
 ness, for he told me in the pleasantest
 way that people who had never mar-
 ried were the best judges of such mat-
 ters and said he was sorry that he and
 his family would be unable to see any
 more of me while I'm here. I knew I
 could take care of myself."

There was nothing for the nephew to
 do but groan until he got to the base-
 ment, where he could say things out
 loud to himself.

A Ghostly Excuse.
 That men grow callous in the dis-
 charge of routine duties is exemplified
 in the story of the trained nurse who
 lay across the feet of his patient smok-
 ing a long black cigar with great re-
 lish. The patient, recovering from a
 swoon, looked down at his attendant
 and said:

"Hey! What are you doing down
 there lying on my feet?"
 "I beg your pardon," replied the
 nurse, scrambling to his feet. "I
 thought you were dead."

The Refect Courteous.
 First Artist—Well, old man, how is
 business?
 Second Artist—Oh, splendid. Got a
 commission this morning for a million-
 aire. Wants his children painted very
 badly.

First Artist (pleasantly)—Well, my
 boy, you're the very man for the job.

Quite an Estate.
 The Gorilla—Did you hear about the
 demise of poor Mr. Ostreich?
 The Hippo—Why, no. Did he leave
 his wife anything?
 The Gorilla—Yes, she took all the ar-
 ticles found in his stomach and opened
 a department store.

Recommendation.
 Mr. Oilroll—Is Squirmington a good
 lawyer?
 Mr. Beefwad—Fine. He can steer
 you closer to the penitentiary without
 getting you in than any lawyer in
 town.

An Influence.
 "Do you know anything about the
 Count Fucash's family tree?"
 "No," answered Miss Cayenne.
 "Judging from his jewelry and court
 decorations, it might have been a
 Christmas tree."

Such Is Love.

Maiden Aunt—Good gracious, Gladys,
 I shouldn't think anybody would ever
 ask for a hand that couldn't write bet-
 ter than you do.

Gladys—Well, you see, since I gave it
 away I've lost all control over it.

Bigger, but Smaller.
 Harry—James made a big pile of
 rocks with that little sell of his.
 John—Yes, and he's got a bigger pile
 now and a smaller cell—Judge.

THE TURN OF LIFE

A Time When Women Are Susceptible to Many
 Dread Diseases—Intelligent Women Prepare
 for It. Two Relate their Experience.

The "change of life" is
 the most critical period
 of a woman's existence,
 and the anxiety felt by
 women as it draws near
 is not without reason.

Every woman who
 neglects the care of her
 health at this time in-
 vites disease and pain.

When her system is in
 a deranged condition,
 or she is predisposed to
 apoplexy, or congestion
 of any organ, the ten-
 dency is at this period
 likely to become active
 and with a host of ner-
 vous irritations, make
 life a burden. At this
 time, also, cancers and
 tumors are more liable
 to form and begin their
 destructive work.

Such warning symp-
 toms as sense of suffo-
 cation, hot flashes, head-
 aches, backaches, dread
 of impending evil, timi-
 dity, sounds in the ears,
 palpitation of the heart,
 sparks before the eyes,
 irregularities, constipa-
 tion, variable appetite,
 weakness and inquiet-
 ude, and lizziness, are
 promptly heeded by in-
 telligent women whose
 approach the period
 of life when woman's great change
 may be expected.

Lydia E. Pinkham's Vegeta-
 ble Compound was prepared to meet the
 needs of woman's system at this trying
 period of her life. It invigorates and
 strengthens the female organism and
 builds up the weakened nervous system.

For special advice regarding this im-
 portant period women are invited to
 write to Mrs. Pinkham at Lynn, Mass.,
 and it will be furnished absolutely free.

Read what Lydia E. Pinkham's Com-
 pound did for Mrs. Powless and Mrs.
 Mann.

Dear Mrs. Pinkham—
 "In my opinion there is no medicine made
 for women which can compare with Lydia
 E. Pinkham's Vegetable Compound, and you
 have no truer friend in the Dominion than
 I am. At the time of change of life I suf-
 fered until I was nearly crazy, and was not
 fit to live with. I was so irritable, irration-

RESCUED FROM THE DEADLY CLUTCHES

One More Cure of Bright's Disease by Dodd's Kidney Pills.

Mr. Theodore Young, of Smith's Falls, was Beyond the Doctor's Aid—Now He's Well and Strong.
Smith's Falls, Ont., Oct. 9.—(Special.)—Mr. Theodore Young, a well-known citizen of this place, is one of the many Canadians who have been rescued from the clutches of the much dreaded Bright's Disease, by Dodd's Kidney Pills.

"For two years," says Mr. Young, in relating his experience, "I was afflicted with Bright's Disease. The doctors told me I could get no relief. My urine was very dark and I lost considerable blood, making me go weak. I could scarcely stand. I also used many medicines without getting relief.
"Hearing of wonderful cures by Dodd's Kidney Pills led me to try them, and after using the first box I found great relief. After using four boxes I was able to go to work, which I had been unable to do for some time. I recommend Dodd's Kidney Pills to all who are afflicted as I was."
Dodd's Kidney Pills always cure Bright's Disease, the most advanced stage of Kidney Disease. How much more easily will they cure the earlier stages of Kidney Disease.

JOB IS NOT FOR G. W. ROSS.

British Columbia Man Will Be Lieutenant-Governor of That Province.

Ottawa, Oct. 7.—The report that Hon. Geo. W. Ross is to be appointed Lieutenant-Governor of British Columbia is officially denied. Mr. Ross never applied for the position, nor was there any idea of offering it to him. The Lieutenant-Governorship of British Columbia will go to a British Columbia man. Senator Templeman's recommendation will no doubt be accepted in Ottawa.

THE THIN MAN'S DANGER.

He can't resist disease germs—that's why he's such a mark for consumption. In this land of plenty, thinness is wickedness, especially when it's so easily overcome with Ferrerozine. This remarkable tissue-builder makes you fat quickly; it does so by forming blood that's rich, nourishing and health-giving. Ferrerozine supplies the nutriment needed by worn-out nerves, rapidly constructs muscle and fatty tissue. The form fills out, the cheeks redden, proving that weight is being added. To be well and stay well, use Ferrerozine. Fifty chocolate-coated tablets in a box for fifty cents or six boxes for \$2.50 at all dealers.

Over 200 Indictments.
Peoria, Ill., Oct. 7.—Thirteen indictments have this far been returned against Newton C. Dougherty, city superintendent of schools, and president of the Peoria National Bank. Ten of them are for embezzlement and three for forgery. Forty more are being drawn, and it is announced that the total will reach more than 200.

THE WORST OF A COLD

Is how suddenly it comes. No time to hurry to the drug store, cough develops, the lungs are affected with pneumonia or tuberculosis, and it's too late. Keep Catarrh on hand—it kills colds instantly. Something magical about the way it cures Catarrh and Bronchitis. Catarrh is the best remedy because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrh tablet in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.

Japan Wants Trade.

Tokio, Oct. 7.—The sessions of the Associated Chambers of Commerce were closed yesterday after the delegates had passed a resolution to memorialize the Government on numerous points calculated to advance and develop national trade, industry and finance.

HALF-SICK PEOPLE.

The world is full of them. Just sick enough to be lazy and listless; to have no appetite; to sleep poorly. Quite often you're half-sick yourself. Chances are the trouble is in the stomach and bowels. Best prescription is Dr. Hamilton's Pills; they tone up the entire system, strengthen the stomach, elevate your spirits, and make you well in one night. Dr. Hamilton's Pills work wonders with people in your condition. Mild in action, effective, and easy to take. Get Dr. Hamilton's Pills to-day, 25c per box at all dealers in medicine.

At Last.

Montreal, Oct. 7.—The Gagnon and Greene case has at last entered upon the last phase, and the sheriff of Montreal, Ga., will leave to-day with the prisoners.

A FAMILY NECESSITY.

It's a remedy capable of affording immediate relief to the hundred and one ailments that constantly arise. It may be a cold, perhaps toothache, neuralgia, pain in the back, use Polson's Nerviline, it is penetrating, pain subduing and powerful. Nerviline is at least five times stronger than ordinary remedies and its worth in any household can't be over-estimated. For man or beast Nerviline is a panacea for all pain and costs only 25c per bottle. Buy Nerviline to-day from your druggist.

Generosity shows itself in ways which are not always meant to be obtrusive.

CANADIAN FORESTRY.

Sir Wilfrid Laurier Issues a Call for a Convention in Ottawa on 10th, 11th and 12th January, 1906.

Ottawa, Oct. 7.—From the office of the Prime Minister of Canada the following has just been issued:
To the Public of the Dominion of Canada.

Canada possesses one of the largest areas of virgin forest of any country in the world and is ranked by European experts first, or among the first, of the important sources of the world's timber supply for the future.

The preservation of the streams in perennial and constant flow, which is largely controlled by the forests on the watersheds, will have an important influence on the industrial and agricultural development of the Dominion. The expansion of our electrical and mechanical industries will be regulated to a great extent by water, which forms the greatest source of power in all countries, and some of our western districts are dependent on irrigation to ensure the success of agricultural operations.

In all the older provinces the clearing of the soil has been carried to such an extent that the ill effects on the water supply and on agriculture are clearly marked, while on the western prairies the need of sheltering trees for houses and fields is seriously felt by the settlers.

The early construction of the Transcontinental Railway, and of other railways, through our northern forested districts and the consequent opening of those districts to general traffic, will increase the danger from fire which has already been a most active agent of destruction.

These conditions are not new; they have from time to time received public attention, and during the session just closed Parliament authorized the summoning of a convention for the more thorough discussion of the same.

I therefore hereby call a public convention to meet in the City of Ottawa on the 10th, 11th and 12th of January, 1906, under the auspices of the Canadian Forestry Association, and to this convention are specially invited: Members of the Senate and House of Commons, Lieutenant-Governors of the provinces, members of Legislative Councils and Legislative Assemblies of the provinces, Dominion and Provincial Forest officials, members of the Canadian Forestry Association, representatives of lumbermen's associations, representatives of Boards of Trade, representatives of universities, representatives of agricultural colleges, representatives of farmers' institutes, representatives of railway companies, representatives of the Canadian Mining Institute, representatives of the Canadian Society of Civil Engineers, representatives of associations of land surveyors, representatives of fish and game associations, and all others who take an interest in forestry.

An invitation also extended to the Bureau of Forestry of the United States, the American Forestry Association, and the State Forestry Bureau and Associations to send representatives to this convention.

Stupid Sam

Subjects To Be Considered.
The subjects to be considered at the convention will be discussed under the following divisions:

1. The Nation and the Forest.
2. Forestry in relation to Agriculture and Irrigation.
3. The Forest and the Lumber and Pulp Industries.
4. The Relation of our Forests to our other Industries: Railways; Water Powers; Mining; Building Trades; Wood Working Manufactures.
5. Scientific Forestry and Forestry Education.

TO SUPPRESS FISH POACHERS.

United States Government Is Now Lending a Hand.

Detroit, Oct. 7.—The United States revenue cutter, Morrill left Detroit Thursday night, having on board a collector of Customs, Leach, and a license to investigate the cargo of any fishing boat he comes upon, and any fisherman found guilty of violating the customs law by failure to enter his catch in Canadian waters will be arrested, his cargo and vessel seized, and proceedings of confiscation instituted by the collector.

This puts the poachers between two fires, with both Governments being arrayed against them. It is believed that the latest turn of affairs will largely put a stop to the wholesale taking of fish in Canadian waters by United States fishermen.

In his letter of instructions, Secretary Shaw of the Treasury Department said: "The relations between the United States and Canada are of the most cordial character, and it is regretted that any of our people will violate both the laws of their own country and of Canada."

Edhem Pasha Dead.

London, Oct. 7.—A despatch from Constantinople yesterday announced the death of Pasha Edhem, who was commander-in-chief of the victorious Turkish army in the war with Greece, and who also distinguished himself during the defence of Plevna against the Russians in 1876.

Five Men Remanded.

Ingersoll, Oct. 7.—The five men arrested on the charge of murdering the late Isiah Wright, were up before Police Magistrate Morrison yesterday afternoon. Owing to the inquest not being completed, the Crown asked that the prisoners be remanded for a week. The request was granted.

St. Paul a Total Wreck.

Eureka, Cal., Oct. 7.—Past upon the rocks, a mile and a half south of Point Gorda, the San Francisco & Portland Co.'s steamer St. Paul, Capt. Crandall, lies a total wreck. Its ninety-three passengers and crew of sixty-five men are safe.

THE ROOT OF THE MATTER

He Cured Himself of Serious Stomach Troubles, by Getting Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability, making it impossible to apply himself to his daily business and finally deranged the kidneys and heart.

In his own words he says: "I consulted one physician after another and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. I gave up smoking. I quit coffee and even renounced my daily glass or two of beer, without any marked improvement.

"Friends had often advised me to try a well known proprietary medicine, Stuart's Dyspepsia Tablets, and I had often perused the newspaper advertisements of the remedy but never took any stock in advertised medicines nor could believe a fifty-cent patent medicine would touch my case.

"To make a long story short I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any feeling of nausea or discomfort.

"I was surprised at the end of the first week to note the marked improvement in my appetite and general health and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure completely and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar and no one would suppose I had ever known the horrors of dyspepsia.

"Out of friendly curiosity I wrote to the proprietors of the remedy asking for information as to what the tablets contained and they replied that the principal ingredients were aseptic pepsin (government test), malt diastase and other natural digestive aids, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system to receive the nourishment which can only come from food. Stimulants and nerve tonics never give real strength, they give fictitious strength, invariably followed by reaction. Every drop of food, every nerve and tissue is manufactured from our daily food, and if you can insure its prompt action and complete digestion by the regular use of so good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and sanitariums.

Although Stuart's Dyspepsia Tablets have been in the market only a few years, probably every druggist in the United States, Canada and Great Britain now sells them and considers them the most popular and successful of any preparation for stomach trouble.

Cleora's Wives.

Cleora had a shrew named Terentia, who made him do as she pleased. He was under great obligations to Cleodius, but when the divorce suit of Caesar against Pompeia came up for trial Terentia compelled Cleora to appear against Cleodius. Tired of Terentia, Cleora got a divorce and married a rich girl named Publilia, left her and lived alone until his death.

THE FOUR DS.

Charles Spurgeon once said that there are three great enemies to man—"dirt, debt and the devil." He might have added one more D and included dyspepsia. The evil results of this disease could hardly be exaggerated. Its effects are felt in mind and body, and are as far reaching as the effects of the curse that was laid on the Jew David of Rheims which was cursed in eating and drinking and sleeping, in standing and sitting and lying." The good effects of Dr. Pierce's Golden Medical Discovery are most marked in aggravated and chronic cases of dyspepsia. It enables the stomach glands to secrete the necessary quantity of digestive fluids, and this at once relieves that craving or gnawing sensation so common to certain forms of indigestion. It tones and regulates the stomach, invigorates the torpid liver and gives the blood making glands keen assimilative power. "Golden Medical Discovery" cures ninety-eight per cent. of those who use it. Dr. Pierce's Pleasant Pellets are superior to all other laxative medicines when the bowels are obstructed.

A man's home is his castle, but he needn't get up in the air about it.

BIG C. P. R. LAND SYNDICATE.

Has Been Formed in London — Mr. Preston's Narrow Escape.

London, Oct. 7.—(C. A. P.)—The Canadian Associated Press understands a big London syndicate has been formed to retail Canadian Pacific land. It is stated to have bought 900,000 acres of C. P. R. land at Edmonton. The shares in this syndicate are stated to be already largely over-subscribed and could not be obtained for money by influential buyers in the city on Wednesday evening.

Canadian Emigration Commissioner Preston, while crossing the Northern Sea, Thursday night had a narrow escape from death from asphyxiation. It seems a gas pipe in his stateroom leaked, but Mr. Preston thought nearly overcome by the fumes, was able, on awakening, to get to the stateroom door and summons assistance. The doctors say a few minutes more and he would have succumbed.

Says It Isn't So.

Montreal, Oct. 7.—C. P. R. officials seen yesterday afternoon stated that no big block of land had been sold to any British syndicate. A director stated emphatically that the company was disposing of land to settlers only.
