MEETING OF WATER BOARD

To Be Held in Harrison Hall This Afternoon At 1.30.

Commissioners Will Deal With Matter of The Gas Contracts

There will be a meeting of the Water Commissioners this afternoon for the purpose of considering what is best to do with regard to the natural gas contracts for the Waterworks Department. This is the matter which was drawn attention to in yesterday afternoon's edition of The Planet.

Since the appearance of this article, there has been considerable comment on the action of the Commissioners in letting the gas contract so hurriedly, and it is to be hoped that the matter will be either rectified or properly explained at this afternoon's meeting of the Board. So far but one excuse has been offered, which is to the effect that the Maple City Oil and Gas Company were not yet ready to lay their mains, and the Water Board wanted to take advantage of cheap fuel for the Waterworks as soon as possible. The public are, however, still wondering why it was necessary to call a special meeting so hurriedly, without any previous announcement. It was also rather peculiar that the newspapers were not notified when such an important matter was to be dealt with.

The citizens will watch with interest for the results of this afternoon's meeting.

GRAND BALL

A successful and largely attended Grand Ball was held last evening in the rooms above Brown & Crosby's billiard hall on King St. East. Everything passed off very nicely, and Messrs. Brown and Crosby are being congratulated on the success of the event.

Miss Ella Brent, of Detroit, carried off the first prize for the cake walk. The music was supplied by R. A. Murphy's orchestra.

CUT HIS LIP

Harry Salisbury, an employee at the mill of John Piggott & Sons, met with a somewhat serious accident this morning. He was taking the boards from the planer, and, in so doing, allowed a small piece to fall back into one of the knives. It was immediately thrown out, and, in striking the young man in the face, it cut a deep gash in his upper lip and inflicted a nasty wound on the side of his face which necessitated several stitches.

EDDY CASE CLOSED.

Chandler Claims "Next Friends" Have Nothing to Gain.

Concord, N. H., Aug. 22.—A sudden though not wholly unexpected ending of the masters hearing in connection with the suit in equity brought by relatives for an accounting of the property of Mrs. Mary Baker G. Eddy, leader of the Christian Science faith, came in the Superior Court room here yesterday, when Wm. E. Chandler, senior counsel for the relatives of the "next friends" announced to the board of masters that they had filed a motion with the Superior Court to dismiss their action.

The suit was brought on the ground that Mrs. Eddy being incompetent on account of age and infirmities to manage her own affairs, was the victim of persons associated with her in Christian Science work who were named as defendants.

Three masters were appointed by the Superior Court to determine the question of Mrs. Eddy's competency. The reason for the petition for dismissal, as stated by Mr. Chandler, was the belief that the success along the lines desired could not be obtained and the unprofitableness of any immediate result of a decision in favor of the "next friends" in the exact issue as now framed, compared with the burdens and disadvantages to be endured both before and after such a decision.

Gen. Frank S. Streeter, counsel for Mrs. Eddy, objected to a dismissal of the case before the question of competency had been decided by the masters as to the possibility that after Mrs. Eddy's death attempts might be made on behalf of the "next friends" to break her will, in which he intimated provisions had been made for carrying on the work in which she is interested.

The masters decided, however, that under the instructions given by the court, they could not proceed after the filing of a motion with the court to dismiss the case, and announced that they would so report.

With the termination of the proceedings before the masters the case reverts to the Superior Court on the question of decision to dismiss the original suit. There is little doubt among those interested that Judge Chamberlain, before whom the action was brought, will grant the motion.

A Record Breaking Throng Patronize Howard Picnic At Beautiful Rondeau Park

A Great Day of Unalloyed Pleasure—Mr. P. H. Bowyer, M. P. P., Outlines Plans, Present and Prospective, For the Benefit of "Kent County's Natural Playground"

NEIL WATSON'S NOVEL TEST FOR LOCAL POLITICIANS

H. S. Clements M. P. Advocates Greater Consideration For The Agriculturist—Messrs D. A. Gordon and R. L. Gosnell Also Deliver Addresses

(From Our Own Correspondent.)

Erieau, Aug. 22.—"There have been more people on the Park to-day than in any other one day in its history."

Such was the declaration of Mr. Isaac Gardner, the veteran superintendent of Rondeau Park, who for over a decade has presided over the destinies of the great Government reserve, in a brief interview with The Planet correspondent, towards the conclusion of yesterday's mammoth annual picnic of Howard township.

From sunrise to sunset—and even thereafter—the picnickers poured in the shade and under the trees. Men, women and children seemed to form a happy cosmopolitan community of pleasure-seekers and pleasure-finders.

The Howard township annual picnic is unique. Fifteen years ago, as Mr. D. A. Gordon, M. P., pointed out in the course of his address, the picnic consisted of a modest outing of the members of the Township Council and occasional friends. A few of their friends. The picnic then tallied some twenty visitors. Yesterday, according to Mr. Gardner, totalled something like seven thousand. It has become the township's civic holiday.

"Howard township," said ex-Warden W. C. Sutton, chairman of the Board of Lands, Commissioners of East Kent, "as in respect to its picnic, an object lesson to rural communities. The cities and towns—and sometimes the villages—have their official civic holidays, but, so far as I am aware, Howard is the first rural municipality to adopt a similar system. Other townships—aye, and counties, too—might well take example from the success experienced here, and have their reserves annually declare a day of civic rest and recreation."

Fittingly, the beautiful Provincial Park—"the natural playground of Kent County," as Mr. P. H. Bowyer, M. P. P., called it—was, as usual, the scene of the picnic. The day was ideal. Long ago the promoters of the Howard picnic formed a coalition with the Weather Man, and the compact has always been loyally kept.

Accordingly, from the time the date was set, the good people of the district all laid and perfected their plans. Weary mothers and housewives toiled long into the previous night, cooking dainty menus and preparing appetizing devices; energetic busied themselves polishing up their turn-outs; dutiful daughters only deserted co-operation in the work of luncheon-making to put the finishing touches on their gowns and furbelows for the Howard picnic is somewhat of a dress parade, and the more sedate, but equally enthusiastic heads of homes, from time to time, gave timely warning as to the hour when the caravan would start, and when all must be in readiness.

Not a few at the hour early. A well-founded rumor had got abroad to the effect that the justly celebrated pig was to be "greased" shortly before sunrise by the immaculate clerks of the Molson's Bank in Ridgeway. A keen desire was evidenced to see how both parties to the transaction would behave. The porcine was known to be especially athletic and the "greasers" were said to be worthy competitors to the quadruped. As a matter of fact, the details of the operation seemed to be shrouded in deep mystery. Beyond the fact that the pig eventually made its appearance cloaked in dripping and the fact that the Ridgeway tailors received several rush orders for new fall suits, comparatively little is known, but the wise ones, who occupied reserved seats on the grand stand, say the show was worth seeing.

The day's sports started early and included all the usual athletic features and a couple of baseball games, in both of which the umpires miraculously escaped annihilation. Luncheon was an entirely individual affair. Everybody dined where and how they wished—in the arbors, on the benches, on the sward or sand, in the rigs and under the rigs. In numerous cases, of course, the roasted chicken was found picturesquely imbedded in an unholy alliance with the onion salad, and the

lemonade got hopelessly interchanged with the dish-water. These, however, are little matters at the Howard picnic. All had the time of their lives.

During the day—and particularly in the evening—excellent dance music was contributed by the Blenheim orchestra. Devotees of the terpsichorean art, however, were handicapped by the unfortunate persistence of the lookers-on. The musicians had a delightful dance program and the floor had been well prepared, but the thoughtless crowd of lookers-on materially militated against the comfort and accommodation of the would-be dancers.

The afternoon was largely devoted to speech-making. Mr. Hiram McLarty, Reeve of the township, presided, and in a few well-chosen words extended cordial greeting to the assembled thousands.

Mr. David A. Gordon, M. P., for East Kent, was the first speaker. Mr. Gordon spoke on strong patriotic lines. Canadians, he believed, were now beginning to realize the nationhood of their country. This was the era of Canadian nation-building, and Mr. Gordon urged the adoption of a "higher standard of ideals by its people."

Mr. Herbert S. Clements, M. P., for West Kent, advocated a measure of protection for the agriculturist equal to that granted to the manufacturers. He endorsed Mr. Gordon's observations for Canada's present and future, deprecated the prevailing spirit of hide-bound partyism and urged the people to unite upon some progressive and national policy. Mr. Clements believed that an electric railway was necessary to give the people of the district easy access to the Park, and suggested to Mr. Gordon and Mr. Bowyer the advisability of turning their energies in that direction.

The popular legislative member for East Kent, Mr. Philip H. Bowyer, got a cordial reception. He, too, deplored the fact that the Park was at present so difficult of access, but assured the gathering that the characteristic enterprise of the people of Kent would eventually surmount this difficulty. At present, he remarked, Messrs. Gordon, Willson, Smith, Stewart and Hamilton—all Kent County men—were working toward this end. It had been his (Mr. Bowyer's) privilege to assist in the furthering of the project. Only last week he wrote the Hon. J. M. Gibson, President of the Hamilton Carleton Coy., a company which planned in the near future to construct or take over a series of suburban lines, laying bare him the advantages of a road through East Kent reaching the Park. The previous day he had received an acknowledgment from Mr. Gibson, stating that representatives of the company, if its present plans were culminated, would visit the locality and inspect the district to be served, with a view of building the road.

Referring further to the Park, Mr. Bowyer eulogized the Honorable Frank Cochrane for his active interest and enterprise he had displayed in investigating its needs. He intimated the annual expenditure of from \$5,000 to \$8,000, the improvement and repainting of the pavilion, the erection of the casino, the supplying of new seats, tables and benches, the regravelling of the road and the new pier. There was also considerable dredging in prospect.

Speaking of the new pier, Mr. Bowyer said the intention was to supplement the present outer and inner piers with a new pier, which he termed a "low dock" for row boats and a land dock to connect therewith. For this work the Government had consented to extend the time limit for completion imposed upon the contractors. Mr. Bowyer alluded to the condition of the Park. The Councils of the two townships decided to ask \$300 Government aid towards their improvement. Although nowhere before had public money been granted for a municipal road, Mr. Bowyer was gratified to state that his appeal on behalf of the Township had been met by the Government with remarkable generosity. The Township had asked for \$300. The Government had granted \$500. This money was now at the disposal of

WAS KILLED) RAIDING DIVE

A Fallen Woman Shoots Prominent Citizen of Wiarton.

Law Appears Powerless to Avenge Gilbert's Killing.

Warton, Aug. 22.—This city is still in a state of great excitement on account of the shooting and killing of Philip Gilbert by Agnes Thomas, alias Mrs. Reid, a woman of ill-fame, at 10 o'clock Tuesday evening.

The woman, together with a girl named "Stella," who occupied the tent of ill-fame on the outskirts of this city, which was attacked by Gilbert and a crowd, he had organized, are being held by the police.

If a charge of self-defence can be substituted by Agnes Thomas, or if it cannot be proven that she fired the shot, the two women will go free and the taking of the life of one of this town's most prominent citizens will go unavenged.

Either one of these pleas may be entered by the prisoner. It is said that Gilbert, who is a moral man, instigated the raid on the tent, struck the Thomas woman after the two females had been rotten-egged and the tent torn down from above them. It is reported that the shot, which entered Gilbert's heart and killed him instantly, was fired immediately after the blow which felled the woman to the ground.

A 32-calibre revolver was taken from the Thomas woman on her arrest, which immediately followed the fatal shooting.

Her companion in crime, the girl named Stella, was taken into custody and found unarmed.

The women are not strangers in Wiarton nor indeed in the vicinity. Two years ago they pitched their tent at Bear-Mile Point, and the Township of Eglar tolerated their presence there a long time. In fact, the tent was routed out of the township it was by intimidation from Wiarton, which had no jurisdiction in the matter.

Philip Gilbert was one who had laid a complaint against them, with this result.

Last Friday they returned to town and pitched their tent in the outskirts of the north ward, and life in that section had become intolerable to the residents and they decided to take the law in their own hands, which was, under all the circumstances, thoroughly justifiable, but which was unfortunately carried out with fatal results.

Just how many were in the raid is not known. It is claimed the women were both drunk at the time. Philip Gilbert was English by birth and was a constable for years in South Africa. He had lived about 30 years in Wiarton. Gilbert was an honest and law-abiding citizen and his sad death is sincerely regretted by everyone who knew him.

Immediately after the shooting the mayor swore in about thirty special constables, as he thought there might be men in the tent. The arrest was then made.

It is said that Agnes Thomas came out and warned the men that she would shoot, and shot into the air, and that her arm was hit by a club, and one of the shots intended for the air accidentally hit poor Gilbert and went through his heart.

The coroner's inquest last night resulted in the following verdict being given:

We, the jury, find that Philip Gilbert came to his death from a bullet from a pistol fired while in the hands of Agnes Thomas.

Stella Lamont goes free. The hearing of the Thomas woman will be held at 10 o'clock this morning.

The funeral of the victim, Philip Gilbert, takes place at 3 o'clock today.

Cleaning Firms. San Francisco, Aug. 22.—Mayor Taylor began his promised cleaning of the municipal departments by sending a notification of their removal from office to four police commissioners. The communication scored the commission for failure to remove Chief of Police Dinan, who, Mayor Taylor declared, is incompetent and lacking in character. The commissioners, after a secret conference, announced that they would not recognize any power except the court.

Pope Considers Japs. Rome, Aug. 22.—The press declares that as a result of the Japanese mission to the Vatican, Japan will send an accredited minister to the Holy See and that the Pope will appoint a permanent apostolic delegate to Japan. The pontiff has accepted from a Japanese of high position the gift of a building site in Tokio upon which there will be constructed a Benedictine church and monastery.

THURSDAY, AUGUST 22, 1907.

A WINNING PLATFORM.

Mr. R. L. Borden, who will address two audiences in this city on the 7th of September, opened his Canadian tour in Halifax this week. Mr. Borden was given a rousing reception and the speech he delivered on that occasion proclaimed him worthy of the extraordinary ovation. During the evening Mr. Borden announced the Conservative platform upon which the next Dominion election will be contested. It is given below, so that the people of this riding and district will have the privilege of thinking it over and of deciding for themselves whether or not it is worthy of support. In brief, it was as follows:

1. Honest appropriation and expenditure of public moneys in the public interest.

2. Appointment of public officials upon considerations of capacity and personal character and not of party services alone.

3. More effective provisions to punish bribery and fraud at elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite the hearing of election petitions and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thorough investigation of corrupt practices, and if necessary to appoint an independent prosecuting officer charged with that duty, to simplify the procedure therefor and to enforce the laws so amended.

4. A thorough and complete reformation of the laws relating to the civil service, so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.

5. Such reform in the mode of selecting members of the senate as will make that chamber a more useful and representative legislative body.

6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bonus system except under very special circumstances and for the purpose of obtaining particularly desirable classes of settlers.

7. The management and development of the public domain (in which are to be included great national franchises) for the public benefit and under such conditions that a reasonable proportion of the increment of value arising therefrom shall inure to the people.

8. The operation and management

of our government railways by an independent commission free from partisan control or interference.

9. The development and improvement of our national waterways, the equipment of national ports, the improvement of transportation facilities and consequent reduction of freight rates between the place of production and the market, whether at home or abroad, and the establishment of a thorough system of cold storage.

10. The reorganization of the present railway commission as a public utilities commission with wider powers and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.

11. The establishment, after due investigation, of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.

12. The improvement of existing postal facilities, especially in newly developed portions of the country, and the inauguration after proper enquiry as to cost of a system of free rural mail delivery.

13. A fiscal policy which will promote the production within Canada of all useful articles and commodities that can be advantageously produced or manufactured from or by means of our natural resources, having due regard to the interests of the consumer as well as to the just claims of our wage-earning population.

14. The promotion by negotiation, legislation and other constitutional means of a system of mutual preferential trade within the empire.

15. The restoration of the public lands to the provinces of Alberta and Saskatchewan upon fair terms.

16. The unimpaired maintenance of all powers of self-government which have been conferred upon the provinces of Canada under the constitution.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Oatarrh. Hall's Oatarrh Cure is the only positive cure now known to the medical fraternity. Oatarrh being a constitutional disease, requires a constitutional treatment. Hall's Oatarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PERRIN RIDING PLOWS SINGLE AND DOUBLE

The most popular riding plow on the Canadian market, specially adapted for Kent County soil. We stock three sizes as follows:—

No. 3 single is a general purpose plow especially useful in stubble or light soil, furrows nine to twelve inches in width and any depth up to twelve inches. Price including straight and rolling coulters \$35.

No. 18 double is the best general purpose double riding plow on the market, while especially adapted for stubble, it will do good work in sod, specially in lighter soils. It is easily worked with three horses, cutting two furrows of ten or eleven inches in width and of any desired depth up to nine inches. Price including straight and rolling coulters \$48.00.

No. 20 double riding plow for use generally in stubble and especially adapted to stoney and gravel soil, furrows same as No. 18. Price including straight and rolling coulters \$48.00.

We have only a few of these plows in stock and intending purchasers will do well to secure one. Terms of payment October 1st.

DISTRICT**TILBURY**

Tilbury, August 21.—Mrs. Welsh, of Chatham, is the guest of her sister, Mrs. L. Lemire.

Whitney Sharrer, who has been visiting friends here the past week, returned yesterday to his home in Ridgeway.

Geo. Powell, of Durand, Mich., is visiting his parents, Mr. and Mrs. James Powell.

Mrs. Lemire, Sr., returned on Monday from Windsor, where she has been attending the funeral of her brother, Mr. Seguin. Miss Zilla Scriven returned last night from an extended visit with her sister, Mrs. Hallett, of Carson City, Mich.

MANY CHILDREN SICK.

Get their feet wet, catch cold or cramps, and give mothers an anxious time. With the first breath of autumn so rub the little one's chest with Nerville's, gargle the throat, and give ten drops in hot water at bedtime. Next morning all is well. No cold, no time lost at school. If Polson's Nerville's isn't in your home get it there at once. Dealers sell it in large 25c. bottles.

BLENHEIM

Blenheim, August 21.—Miss Eva Green spent Sunday at Branksome Hall, Eriau.

Mrs. W. F. Robertson is an Eriau visitor at present, being one of a party staying at the Bungalow.

Mr. F. D. Laurie, of Chatham, spent Saturday visiting Blenheim friends.

Miss Victoria White was a Chatham visitor on Monday.

Mr. and Mrs. O. K. Morris, of Eriau, called on friends in Blenheim on Tuesday.

Mrs. Geo. Thompson returned last week to her home in Blenheim, after having a pleasant visit for the last few weeks with her daughter at Port Stanley.

Mrs. J. D. McPherson and Stanley McPherson, of Blenheim, are spending a few days at the "Bungalow," Eriau.

Blenheim is very quiet at present, there are so many away just now for their holidays.

Miss Louise Clark, who has been a visitor at Eriau for some time, has returned to her home in Blenheim.

Mrs. McPherson and her daughter, Miss Mary, of Port Stanley, are visiting in Blenheim just now, being the guests of the former's parents, Mr. and Mrs. George Thompson.

One of the largest crowds of people that has been noticed in Blenheim for some time, seemed to fill the streets and shops last Saturday night.

Mrs. Jean Blawett, of Toronto, and her husband, are visiting at Eriau, the guests of Mrs. W. D. Sanson at Drumbois Lodge.

The rain which fell here yesterday was very welcome, especially to the farmers, as the tobacco and all kinds of roots needed it so badly.

Mr. Fred White, who has been spending his holidays in Blenheim visiting his parents, returned to Toronto last Saturday to resume his position with W. R. Brock & Co.

ANOTHER "TWO WEEKS."

Ald. Wm. Potter stated to a reporter of "The Planet" yesterday morning that he had interviewed Mr. Coate, of the Chatham Gas Office, as to when the gas would be purified. Mr. Coate informed him that the purifiers had arrived, and would be installed in about two weeks time. He also spoke to him about the large leak on the corner of Queen and Patterson Streets. This matter is now being looked after, and will shortly be completed.

POPULAR YOUNG MAN

There passed away at St. Joseph's Hospital, at half-past twelve o'clock on Tuesday, Duncan Morrison, second son of Mr. and Mrs. John S. Morrison, of Joseph Street. He was 21st year of his age after four weeks' illness, from typhoid fever, borne throughout with Christian patience and fortitude.

During the past week his symptoms gave hope of his recovery, but an all-wise Providence willed it otherwise, and in spite of every effort known to medical science and the most untiring care and attention on the part of the nurses, he sank gradually during Monday night and the following afternoon, until the end came.

Duncan Morrison, named after his grandfather, the late Rev. Duncan Morrison, D.D., of Owen Sound, and after his uncle, Judge Duncan Morrison, M.A., of Picton, was a special favorite among a large circle of friends and relatives, who admired him for his courtesy, his generosity, and his unselfishness. He was a valued member of the choir of the Victoria Avenue Methodist Church, which he joined under the pastorate of the Rev. Mr. Malott. He was formerly an employee of Mr. H. Macaulay, and latterly of Mr. John McDorvie, where his obliging manner and sterling qualities made him highly esteemed by all who met him. He is survived by his parents, his brother Thomas, in A. H. VonGutten's jewelry store, and John, in the Planet office, and by a younger sister at home. The funeral took place today, at 2:30, from the Joseph Street residence to Maple Leaf Cemetery, the ceremony being conducted by the Rev. Mr. Graham, pastor of the Victoria Avenue Methodist Church, and Rev. Dr. Battley.

LITERARY

"THE LONG SHIFT."
 A mining story which, in the veracity of its details and its remarkable psychology, reads with all the interest of a human document, is told by Eugene Rhodes in the August McClure's, under the title of "The Long Shift." Ten men—six of them miners—perform a herculean feat of blasting in order to rescue a shift of imprisoned comrades before their air supply is cut off. So realistic is the writing in this story that the reader actually falls under the illusion of participating in the drama that takes place.

MARK TWAIN'S SERIOUS SIDE.
 At no time, not even when the exuberance of youth and the recklessness of mining-camp life were combining to give him the reputation of an untamed wag, was Mark Twain ever a mere joker. As he has lately said in his autobiography, his temperament has always been inwardly serious. As a boy, with his "Tom Sawyer" days hardly over, this seriousness cropped out in his family letters, full of staid reflections and carefully thought-out plans of work. His humor seems to have been something apart from him—almost like the emanation of a second personality. It bubbled out in quaint, irresistible phrases, without will on his part, and without effort. It made it impossible for him to write a commonplace letter. But all this was merely the froth of his deeper thought. The humorist who has nothing but froth dies when the bubbles burst, and those readers, a generation ago, who could see nothing in Mark Twain's work but the foam, thought that he would disappear, like the crowd of newspaper jokers of the day. — From "Mark Twain, Doctor of Letters," by Samuel E. Morison, in the American Review of Reviews for August.

ANOTHER INDUSTRY
 The Chatham Fire Proof Construction Co. have been awarded the contract to build a new re-inforced factory building opposite the C.P.R. Station, King Street East. The building, when completed, will be occupied by the Western Bridge and Equipment Co., who will employ about 25 hands, and will handle all branches of steel construction.

This mode of construction is a departure from that usually used here. The building, when finished, will be the first strictly fire proof to be built in the Maple City. Jas. L. Wilson & Son, architects, are preparing the drawings, specifications, etc.

HIGHGATE.

Threshing is the order of the day among the farmers now. Mr. J. Frank Stone, Mrs. A. J. Stone and Mrs. Leslie McLaren attended the funeral of the late Douglas Ruthven at Dutton last Tuesday.

Quite a number from here went to Detroit on Saturday, taking advantage of the excursion rates on the P. M. Railroad.

In the absence of the pastor, Rev. Mr. Long, Mr. Wm. Ryebriff took the morning service at the Methodist church, and Rev. C. Oreston in the evening.

Our Public school opened for the Fall term this morning.

Four out of six who wrote on the junior teachers' examination from this school were successful. Earl Erwin and Bea Scott, honors, and Lizzie Cameron and Harold Ryebriff, passed.

To Keep Lemons Fresh.

It is said that lemons will keep fresh for weeks if placed in a bag of cornmeal or kept in cold water, changing it once a week.

Candles burn better and more slowly if they have been stored in a dry place six or seven weeks before they are used.

If a glass is desired on linen, add a teaspoonful of salt to the starch when making.

TO CLEAN LACE AND CHIFFON

Souse the Lace in a Bowl Half Filled With Gasoline.

The best method for cleaning lace at home is with gasoline. Souse the lace up and down in a bowl half filled with gasoline to remove the first and worst grime; have a second bowl ready and immediately rinse the lace in fresh gasoline. Then, before it has time to dry, wrap it carefully about some round object like a rolling pin or the roller used for the kitchen towel. The longer the roller the better. The points of the lace must be carefully picked and fastened down with pins.

The run of the chiffon veil and scarf adds another item to the summer girl's cleaning bill. For ordinary dust and dinginess use fuller's earth, rubbing the powder in with the hands and patting the folds of chiffon together between the hands as a laundress does clear starching. If the scarf or veil has been spotted in the rain, it can be washed in gasoline. For this use some receptacle with a tight fitting lid, such as a glass jar and tin milk shaker or even a tin pail. Have this half full of gasoline, drop in your veil or scarf and shake it rapidly. Pour out the dirty gasoline, rinse in fresh, and, holding the veil or scarf lightly between your thumbs or fingers, shake it in a breeze until perfectly dry.

Remember that gasoline is highly inflammable, so do the work in daylight for fear of accident.

White chiffon veils, if of good quality and the mesh is uninjured, can be made to do duty again and again if they are dyed. The process is very simple. Directions are printed on the little packages for home dyeing to be found in any chemist's shop. The dyes are prepared for silks and woolsens, and the directions differ slightly. That meant for silk would be better for chiffon. Good quality white chiffon takes exquisite shades of blue, pink or lavender. A good black is more difficult to obtain for any material, and the novice should keep to light colors. Lace also may be satisfactorily dyed at home. Tea or coffee will give many beautiful shades from ecru to brown, according to the strength of the infusion and the number of times the lace is dipped. It should be dried after each dipping.

AN OLD RECIPE.

How the Housekeepers of 1754 Made Currant Jelly.

Young housewives, listen and receive. What goodly hints the muse will give; It matters not which fits, to tell ye. Suppose it is her who best loves jelly—Of currants read the better sort, Well picked four pounds, of white a quart.

A quart of ale, moreover, madams. The better sort, we think, is Adam's; Four pounds of sugar, good as any, (A. S. of sugar seven-penny.) Then mix, and boil in pan of copper Till currants shrunk proclaim it proper To have recourse to famous sieve; Or tam'd Hippocrates the sieve! That done—let pan refilled shine, Be the boiling juice from scum refine, And when the weaker parts are flown, When none remain but what is 'mown.

In words more plain—when jelly's done; With curious finger, light as vapour, Surface o'er its surface, writing paper; Be pots well dried, in order next. Fit to receive the glistening sweet; And to preserve it—this the way, Wet paper dry'd on surface lay. On that extend another cover. Of what you please, ty'd tightly, over—And on't let this inscription tell ye, The very best red currant jelly.

NEEDLEWORK NOTES.

The girl who can sketch in colors can make an attractive screen by covering the frame with green denim and suggesting an impressionist landscape, letting the denim itself constitute the necessary green tones.

The best method of putting on fasteners is to sew them strongly to a stout piece of silk tape, hemming these strips of tape closely to opening after the pressing is done. The fasteners are apt to make shiny places when pressing is done after they are in place.

To finish the edges of dollies or other buttonhole edges cut the goods a little distance from the line where the buttonhole is to go and hem it back to that line. Then buttonhole the folded edge. This prevents the frayed looking edge so often seen after washing and gives it a padded appearance.

Prevent Moths.

Get a large dry goods box. Make cover of top by putting on hinges and line with heavy carpet or tar paper. Tack paper so that there will be no chance for moths to get in, lining lid also. Pack away winter clothing with plenty of moth balls and newspapers. Set box on bricks or pieces of wood to raise it from floor. It will not get musty if left in basement or attic, and you will have no trouble with moths or dust. In winter it can be used to pack away the summer clothing.

To Clean a Silver Teapot.

Twice a week, after using, fill the pot with hot soda water and let it stand for a couple of hours and then rinse in plenty of warm water. When the teapot is cleaned outside with plate powder, it should also be polished inside and well rinsed before using. Any silver teapot which is not constantly soaked this will acquire a sediment on the inside from the tea which is most unwholesome.

Did You Ever?

If you'd thread the lace on embroidered beading quickly after it comes from the laundry tack a narrow tape to the ribbon before it is drawn out and then pull the ribbon out and the tape in. When the garment returns from the laundry, tack the ribbon to the tape and pull it in as the tape goes out.

LITTLE POCKET PHYSICIAN

Hyomel is Guaranteed by C. H. Gunn & Co. To Cure Catarrh.

Thousands who have been cured by Hy-o-mel call the inhaler that comes with every outfit the "Little Pocket Physician," as it is so small that it can be carried in the pocket or purse.

There is really no excuse whatever for anyone having catarrh now that Hy-o-mel is so readily obtainable. If you have any doubt about its value, C. H. Gunn & Co. will let you have a complete outfit, with the understanding that unless it cures catarrh, it will not cost you a cent.

Do not delay longer the use of Hy-o-mel if you suffer with catarrh. This is a purely local disease, and Hy-o-mel goes right to the spot where the catarrh germs are present, destroys them, soothes and heals all inflammation and makes a permanent and lasting cure.

The complete Hy-o-mel outfit consists of the "Little Pocket Physician" and a for the relief of Hy-o-mel, and costs only \$1.00, making it the most economical as well as the only guaranteed treatment for the cure of catarrh. Remember that Hy-o-mel cures catarrh without stomach dosing, applying the medication and healing where the disease germs are present.

WOMEN DEFEATED AGAIN.

New Zealand Council Throws Out Bill For Upper House.

Wellington, N. Z., Aug. 21.—The women politicians whose cause was championed by the House of Representatives of New Zealand received scant consideration from the Legislative Council, which yesterday, without a division, rejected the bill providing for the election of an Upper House by the House of Representatives. According to one of the clauses women electors were to be eligible as members of the Upper House.

The Legislative Council of New Zealand, or Upper House of the General Assembly, now consists of forty-four appointed members, some of whom are life members. The House of Representatives or Lower House is composed of eighty members, elected by the people for terms of three years.

The dramatic features of the entertainment was an effective "robbery and murder." Mr. Pruger, manager of the Savoy, was "robbed" of valuable by a hitherto respectable person, who proceeded to "murder" another gentleman with four of the best Savoy table knives.

The "professor" entered the room blindfolded, followed by a witness of the tragedy, and at once pounced on the "murderer," discovered the "victim" behind a curtain, and quickly transferred the body from the "thief's" pocket to Mr. Pruger's.

Summer Needlework.

For those who do not "bridge" a piece of embroidery will help to while away odd moments on the club or hotel piazza during the summer days. Let this be a source for a fine cambric petticoat. Scallop the edge or work about it some pretty fringe or bowknot. The work grows rapidly, and the result is sure to be satisfactory. If not a beautiful specimen of hand work there is the knowledge that it will not be too closely viewed. An effective pattern should be chosen. Vogue.

OPPOSE BOTHA'S PRESENT.

Purchase of Cullinane Gem Not Oppertune—Transvaal Loan Bill.

London, Aug. 21.—The plan of Premier Botha of the Transvaal to present the Cullinane diamond to King Edward means with much criticism both in England and the Transvaal.

The finances of the colony are in bad condition, and many persons think that the expense of purchase (\$100,000), is unnecessary. Moreover, the magnates of the Premier Diamond Mining Co. have found the Cullinane diamond to be a white elephant. There is no market for such huge stones. The Premier people are political supporters of Gen. Botha's party and critics say that if the stone belonged to the De Beers Co., which is an opponent of Gen. Botha, there would have been no thought of presenting the diamond to the King, adding that the Botha party wants to use the stone as a political asset, while putting money from the treasury in the pockets of their friends at a time when the colony can ill afford such luxuries.

Mr. Asquith, replying in the House of Commons to the allegation that the Transvaal loan bill is an invitation from the point of view of a Government guarantee.

The loan was inevitable through unforeseen consequences of the war, wherein they played so conspicuous and honorable a part, and as a necessary incident of the completion of the settlement, which settlement, as all know from the language of Sir Wilfrid Laurier had been ratified by practically the unanimous sentiment of the self-governing colonies of the Empire. The second reading of the bill carried by a majority of 137.

BORDEN BEGINS TOUR.

Public Ownership Forms Big Part of Party Program.

Halifax, Aug. 21.—R. L. Borden, K. C., M. P., last night began his continental tour at a largely attended meeting held under the auspices of the local Conservative associations. Mr. Borden was given a gratifying reception.

As befitting the occasion, the leader of the Conservative party announced the policy which would be followed in the next election campaign. It was noticed and remarked upon that public ownership forms a big part of the party program.

C. P. R. Operators May Strike. Montreal, Aug. 21.—It looks as if the C. P. R. operators would go out to-day. They had an interview yesterday with Vice-President McNeil.

It is understood that the men will see Sir Thomas Shaughnessy this morning and failing to come to a satisfactory agreement they will stop work this afternoon.

New York, Aug. 21.—Officials of the two big telegraph companies stated yesterday that business is moving normally and that, as far as they are concerned, the strike is over. The strikers deny this statement. Harry Behnken, an operator, became insane in the Western Union operation; rooms, yesterday from overwork and was removed to Bellevue Hospital.

Farmer's Wife Murdered. Camden, N. J., Aug. 21.—While Edward Horner, a farmer, was trying early yesterday to extinguish a fire thought to have been kindled in his barn for the apparent purpose of drawing him from his home, at Merchantville, a few miles from this city, an Italian servant, who probably went to the rescue of her mistress, the servant died a short time later in a hospital in this city.

A negro named Charles Gibson was arrested on suspicion. He had two pawn tickets for watches, which, when located, were found to bear the name of "Horner."

Mysterious Death. St. Catharines, Aug. 21.—A boy of about 17, who gave his name as Lavern Adams, charged with stealing a horse and buggy from A. H. Pettit, fruit grower, of Winona. He stole the horse one night last week, and drove it so hard that it fell dead at Athercliff. Then he sold the buggy and harness for \$21, and proceeded to this city on foot.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John T. Pierce, of the Editorial Staff of The Eclectic Medical Review says of Unicorn root (Helonias divora) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterus invigorator & makes for normal activity of the entire reproductive system." He continues "In Helonias we have a medicinal which more fully answers the above purposes than any other drug with which I am acquainted. (this blood) has its dragging sensation to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. T. further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back with leucorrhoea; stonic (weak) condition of the reproductive organs of women; mental depression and irritability; associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the uterus; nervous prostration; (dizziness, due to a weak condition of the reproductive system; anaemia; (this blood) has its dragging sensation to women it is seldom that a case is seen which does not present some indication for this remedial agent." AUGUST WEDDINGS

BROWN-MORGAN

Mr. Russell J. Brown, of Camden, and Miss Bertha Pearl Morgan, of the Township of Chatham, were united in marriage by the Rev. J. W. Hodgins, Rector of Holy Trinity, last evening. The young couple, after a short wedding trip, will take up their residence on the groom's farm, Camden Township.

IONS-GERRARD

Michael Ions, King Street, and Miss Stella Gerrard, Park Ave. East, were married Monday afternoon last, at the Park Street Methodist Church Parsonage, Rev. Mr. Daniels, pastor of that church, performing the ceremony. Mr. Ions is a driver for Mr. John McConnell, the Park St. grocer. The young couple started housekeeping yesterday, and will reside on King Street. The Planet extends congratulations.

QUICK-WATSON

A very pretty event was solemnized at the home of Mr. Jas. Pritchard, Grand Ave., last evening, when Frederick Augustus Quick was united in marriage to Miss Leona Dorothy Watson, both of this city. The bride was attended by Miss Maude Chaplin, and the groom by Mr. Vern Pritchard. The ceremony was performed by Elder Lamont, Lytton Avenue, at eight o'clock. A large number of friends were present and the usual congratulations and good wishes were expressed.

GOLDING-MURPHY

A pretty wedding took place at the residence of Mrs. Hubert Murphy, Elizabeth street, last evening at eight o'clock, when her daughter, Miss Eva M. Murphy, was united in marriage to Mr. Fred E. Golding, formerly of London, now of Detroit. The bride was unattended, and the ceremony was performed by Rev. Mr. Graham, pastor of Victoria Ave. Methodist Church. Mr. and Mrs. Golding left on the evening train for Detroit, where they will make their home.

TERRY MORRIS

The wedding of Miss Annis Morris, formerly of the Austin store, this city, and Mr. Fred Terry, the local dairyman, took place at the bride's home in Port Lambton at three o'clock yesterday. The bride was attended by her sister, Miss Lottie Morris, of Chatham, while the brother of the groom, Mr. John Terry, acted as best man. The bride was becomingly attired in a travelling suit of navy blue. Mr. and Mrs. Terry will spend their honeymoon in Niagara, Hamilton and other eastern points.

GOODMAN-COYLE

Miss Pearl Coyle, daughter of Fireman Robert Coyle, was yesterday united in marriage to Mr. Chas. E. Goodman, of the staff of the local Pere Marquette offices. The wedding took place at the bride's home, Queen street, at 1:30. Rev. Dr. Daniel, pastor of Park St. Methodist Church officiating. The bride wore a costume of cream silk crepe de chine. The couple were unattended.

Mr. and Mrs. Goodman left on the afternoon train for Chicago. Among those from a distance who attended the wedding were, Mrs. Meid and Miss Meid, of Thamesville; Mrs. Wm. Goodman and Mr. A. Goodman, of Windsor, and Mrs. Johnson and Miss Johnson, of Thamesville.

SHOULD GO SLOW

A joint meeting of the Finance committees of the City Council and the council of the Board of Trade was held in the morning. G. P. Scholfield, general manager of the Standard Bank of Canada, was present. Mr. Scholfield, whose headquarters are now in Toronto, happened to be in the city on business, and the local authorities thought it would be a good opportunity to interview him regarding the condition of Chatham's finances. Mr. Scholfield's advice was that Chatham should go slow in the matter of making any further loans or bonuses to new industries for a time anyway. He says that the money market is very tight just at present, and interest on municipal bonds is high.

GAS FITTING!

Let us have your order for any Gasfitting you may need NOW.

We can certainly give it better attention now than we can later on, when the rush comes on.

Look over your plumbing and metal work also. You will get your work done promptly now, whereas later on in the season you may have to wait.

And your furnace or stoves. Are they ready for use? We feel that a few minutes spent in examining them now may save you many a cold time while you wait for repairs when you need them.

Don't you think it wise to look after these things now? We think so.

SOCIAL EVENING

A social evening, under the auspices of the ladies of the William St. Baptist Church, was held Tuesday night, in the school-room of the church. A musical program was given and much appreciated. Frank Phelps opened the program with an instrumental, and played the two-step, "Trixie Dixie," the new composition by John R. Smith. Miss Belle Kitchen sang the solo, "Parting Day," and received the appreciation of the whole audience. Miss Kitchen has a high soprano voice of rare excellence, and sings her high notes with perfect ease. She is one of the city's most promising young soloists, and a bright future is before her. Miss Minnie Tyhurst sang the solo entitled, "A Little While," and was much applauded, after which a song was sung by J. D. McAlpine.

Refreshments were provided by the ladies of the church, and an enjoyable evening was spent by all.

WAS A HAPPY MAN

A very amusing incident took place Tuesday night on Queen St., when a number of Chatham's fair sex escorted a young man, well known in society and musical circles, to their place of entertainment for the evening.

There were eleven young ladies in the group and all were strolling home from down town. When in front of the Hotel Rankin they were greeted with a merry "How do you do?" and a cheerful smile from the escorted young man, who is, probably, one of Chatham's sweetest social lions.

Most of the couples had passed, and the couple in the rear, who were particularly fascinating, and the possessors of a great deal of personal magnetism, offered such inducement and charm as to cause the young man to follow in hot pursuit. He soon overtook them and was greeted with the glad hand by all assembled. He insisted on their coming back to Crump's, but as they had shortly visited there, they declined his kind offer and asked him to go with them to spend the evening, which he did. With a beautiful maiden on each arm, and three or four others, just as handsome, parading in front and behind, he was, literally speaking, carried down Queen street. The young heart winner was at intervals much embarrassed, but on account of his never-failing good humor and pleasant disposition, he took it all and responded with a merry "Hal Ha!" The evening was enjoyably spent, and the young gentleman surrounded by the eleven young ladies, had, as would naturally be expected, a very pleasant but exciting time.

SLAUGHTER OF ARABS

New French Gun Works Havoc Among the Rebels.

Fourteen Rounds Put 1,500 to Flight—Kabyles Marching on Casablanca—Will Make Determined Attack—Is Sultan Bluffing?—French Colony to Leave Fez—Fear Outbreak of Fanaticism—New Sultan.

Tangier, Aug. 21.—Five hundred sheikhs and troops, the best of the Sultan's army which usually are under the command of Caid Sir Harry MacLean have arrived here. It was originally the intention to send them to Casablanca to co-operate with the French-Spanish forces, but Marine Minister Gabbas now talks of sending them to Mazagan.

Abdel-Krim Ben Sliman, the Minister of Foreign Affairs, in a letter to the French charge d'affaires, has reiterated the Moroccan Government's condolences as a result of the assassinations at Casablanca, and added an expression of the hope that the relations between Morocco and France would remain friendly.

The Spanish charge d'affaires is reported to be much disturbed by the attitude of Gen. Olalla during Sunday's fighting at Casablanca, when the Spanish commander, acting under a misunderstanding of his instructions only used his troops in defending Casablanca, not taking part in the fighting outside the walls.

Paris, Aug. 21.—The correspondent of The Mail at Casablanca speaks in loud praise of the 75-millimetre gun, fourteen rounds of which he says, put 1,500 Arabs to flight. In attacking the centre of the camp on the right the Arab horsemen galloped to within four hundred yards of the French positions, where two rapid-fire guns had been mounted on the roof of a farm building. These guns opened each with 500 shots per minute, swept the ground with a rain of lead and covered it with the dead and dying.

The spahis, the correspondent continues, were a brave sight as they rode back into camp. Men and horses were covered with blood. The faces of the men were blackened with powder.

The attacking tribes Sunday were the Zenata and Ziada, who are newcomers and were fighting for the first time.

Still Planning. It is announced that a number of Kabyles are marching from Mazagan to Casablanca, with the intention of delivering a formidable attack shortly.

The Tangier correspondent of The Mail telegraphs that, with the object of getting rid of the fanatical members of the Ulema, who favor a holy war, the Sultan has appointed them to a delegation that is to come to Tangier to discuss measures of pacification.

The French Government has received confirmation from Fez of the report that the Sultan has declared his intention to send a deputation of notable Moors to Tangier, but not the object of their mission nor date of departure is known. The announcement is regarded as a "bluff" on the part of the Sultan to appease the anti-foreign sentiment of the fanatics. It was made during the excitement caused by the ceremonies commemorating the birth of the prophet, and even if the deputation comes to Tangier, it is considered doubtful whether it will be received by the diplomatic corps.

Colony at Fez Leaves. The Government has also been advised that the members of the French colony at Fez, fearing an outbreak of fanaticism, especially against the French, are leaving for Tangier to-day. It is presumed that the French consul and the French military mission will not accompany them. The Moroccan Government has agreed to furnish an escort to the French, and the sheikhs have agreed to assist in protecting them, but, nevertheless, the five-day trip to the coast is considered dangerous. The Government has received confirmation of the report that Mulai Hafid, the Sultan's brother, has been proclaimed Sultan. The news is creating excitement, especially in the neighborhood of Morocco City.

Child's Skull Found. Brockville, Aug. 21.—A portion of a human skull, evidently that of a child, was found while a party of men were at work at Thousand Island Park, where a baseball diamond was being laid out. Along with the skull there were other bones in a more or less fragmentary state. The bones were carefully collected in one corner of the field.

Determined to Die. Hamilton, Aug. 21.—Hillard Culp, a butcher's assistant at Beamsville, made the second attempt on his life yesterday morning, making a big gash in his throat with a razor. Two years ago while in a camp at Orillia he tried to commit suicide. His friends do not know any good reason why he should try to make away with himself.

Japs' New Dreadnought. Glasgow, Aug. 21.—The Japanese Government has placed an order for a 10,000-ton battleship with the Fairfield Shipbuilding Co. The new vessel will be one of the most formidable armored ships of war afloat. A feature of her construction will be the extreme width of beam.

Nobel Prize For Kipling. Stockholm, Aug. 21.—The newspaper Tidningen announces, on what it declares to be good authority, that Rudyard Kipling has been designated to receive the Nobel literary prize for 1907. The paper adds that Samuel L. Clemens (Mark Twain) was suggested for this honor.

Fortune Lost In Mails. Lincoln, Neb., Aug. 21.—Three registered mail sacks, containing about a quarter of a million dollars, disappeared from the Burlington train between Denver and Oxford, Neb., Sunday night.

MAY INDICT COAL DEALERS.

Alleged Illegal Combine to Boost Prices at Ottawa.

Ottawa, Aug. 20.—A movement has been engineered to have the coal merchants of Ottawa indicted before the grand jury at the Fall Assizes.

Coal has risen during the last two weeks from \$7.25 to \$7.75 per ton, and a "coal combine" is alleged. The matter is now in legal hands and advice is awaited as to whether the advance made unanimously by the dealers comes within the scope of the classes of the criminal code prohibiting combinations in restraint of trade.

If the legal opinion is that the law covers the case an indictment will be laid, but if there is any doubt on the matter it is proposed that a movement shall be inaugurated for the signing of a mammoth petition to Chief Justice Falconbridge, who will preside at the Fall Assizes, to ask him to mention, in his address to the grand jury, the undue increase in the price of a necessity of life in this latitude.

It is understood by those who are "engineering" the movement that the traffic managers of the railways are ready to testify that there has been no increase in freight rates; in fact, the opposite is the case.

HURT IN EXPLOSION.

Peculiar and Serious Accident Happens at Niagara Falls.

Niagara Falls, Ont., Aug. 20.—At 9 o'clock yesterday morning, Robert Little, superintendent of the water-works, and Herman Webber, sewer and plumbing inspector, with an Italian laborer, went into a manhole of the trunk sewer at the corner of Simcoe street and Victoria avenue to make an examination.

When at the bottom of the manhole, one of the trio lighted a match and an explosion from gas occurred, blowing Webber out through the manhole and 10 feet into the air. He was badly injured, one arm being broken and face and hands scorched. Mr. Little escaped with a few scorchers, and the Italian was badly burned and bruised. The presence of gas in the sewer was unexpected, and not supposed to be regular sewer gas but has filled into the sewers from natural gas leakages.

KILLS TO AVENGE HONOR.

Chicago Woman Shoots Man for Circulating Stories.

Chicago, Aug. 20.—Because she believes he had caused her husband to leave her and broken up her home by circulating malicious stories, Mrs. Roscoe Anselino shot and killed Felipe Ferreo Sunday in an alley in the rear of her home.

Mrs. Anselino escaped and has not been arrested. According to the stories told by neighbors, the woman acted in defence of her reputation, and it is the belief that she will not be punished.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can now cure all the aches and pains of this terrible disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can cure all cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic blood, seem to dissolve freely away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need of actual exercise to get your joints out help. We sell, and in confidence recommend

FAVOR ARBITRATION

Powers Desire to See Permanent Tribunal Formed.

Treaty Cannot Bind All—Convention Will Make It Obligatory Only Among Powers Which Agree—Newfoundland Fisheries Dispute Submitted to The Hague Conference—Modus Vivendi to Continue.

London, Aug. 21.—The American Government, which has taken the lead at The Hague Peace Conference in endeavoring to promote arbitration, will be responsible for giving The Hague tribunal the most important case yet submitted to it, in the Newfoundland fisheries dispute, which undoubtedly will be taken there as a result of the negotiations conducted in London between the Foreign Office and the American ambassador, Whiteley Reid.

Both the Foreign Office and the embassy maintain diplomatic reserve, but it has been learned from unquestionable sources that the long correspondence made it seem that their contentions could not be harmonized and had reached an impasse.

Finally Mr. Reid made a proposal to submit the dispute to the arbitration of The Hague tribunal, having the authority of President Roosevelt and Secretary Root to do so. After a week or two of consideration the British Government accepted the proposal, and then the American Government proposed that for another year, while the matter was under arbitration, the fisheries should be conducted as they were last year, under the same modus vivendi.

There has been delay in concluding the arrangement. While the British Government has secured the assent of Sir Robert Bond, the Newfoundland Premier, to the agreement, Sir Robert, undoubtedly will be reluctant to accept the modus vivendi, which he opposed strongly last season. However, there is little doubt that the agreement will be enforced and that the fisheries, during the new season beginning next week, will be conducted on the same methods as the last.

Obligatory Arbitration. The Hague, Aug. 21.—Near all of the Governments have sent instructions to their delegates to make an effort to bring about some kind of obligatory arbitration and also the establishment of a permanent court of arbitration in order to save the conference from failure.

The efforts of the delegates are now directed to the arrangement of a treaty of obligatory arbitration acceptable to Germany, which country, although admitting the principle of compulsion, has so far opposed a world treaty, arguing that it would tend to minimize, rather than promote, obligatory arbitration. It is believed that a convention providing for obligatory arbitration among the powers which agree to it.

Serbia has presented a proposition aiming to make the awards of arbitration tribunals obligatory on all signatory powers after an appeal has resulted in the confirmation of the first judgment. It is understood that all the Latin-American states will accept a permanent arbitration court, although making reserves regarding the allotment of judges if all the countries are to be represented.

Emigrants Not Deceived. London, Aug. 21.—(C. A. P.)—In the House of Commons the Lord Advocate, replying to Mr. Cleland, stated that many complaints had been received from Scottish emigrants to Canada that promises of employment and wages, whereby they were induced to emigrate were unfulfilled. The complaints were subject to careful enquiry, and the results so far justified the proceedings that the Lord Advocate announced in this direction were liable to severe penalties.

Wetmore a Probability.

Ottawa, Aug. 21.—It is understood that four out of the five judges who are to be appointed to the new Supreme Court of Saskatchewan will be the present members of the judiciary who reside in that province, Justices Wetmore, Prendergast, Newlands and Johnstone. They must reside in Regina, but will go on circuit.

It is expected that the chief justice will be appointed shortly. Judge Wetmore will probably get the position.

Investigates Escapes.

Brockville, Aug. 21.—The escape of Problem Turner from the Brockville jail on July 10 has been made the subject of an investigation by Dr. Bruce Smith, inspector of prisons. Dr. Smith enquired fully into all circumstances of the case, and will make a report to the Department.

Montreal Strike.

Montreal, Aug. 21.—The Garment Workers' strike has spread, and 300 men and women are now out demanding shorter hours, weekly pay, and abolition of piece work. The employees of Yarnberg were out last week, got their demands and are back at work.

Senate Building on Fire.

Ottawa, Aug. 21.—The Parliament buildings of Canada were threatened with destruction by fire Monday night. Telephone and electric light wires crossed at the entrance to the Senate side of the building and set the wood-work on fire.

Tool For Criminals.

Chatham, Aug. 21.—Reginald Glasier, the youth who was caught in Cincinnati, O., for running away from home, was a tool of criminals on his journey. He will be returned to Chatham at once.

PANDORA RANGE

Large Broiler Door

Open the broiler or roasting door of the Pandora and you'll find an opening much more generous than on ordinary ranges. It's both wide and deep, so that you can easily place a big steak right over and almost touching the red hot coals, where it will broil quickly. And it's only by rapid broiling that a steak will retain its natural flavor and rich, juicy tenderness. Pandora is the range that cooks things right. This broiler door can also be used for feeding the fire without disturbing the pots, etc., on the top. If your local dealer doesn't sell the Pandora, write direct to us for free booklet.

As a rule when a person buys a piano it is not with the intention of replacing it with a new one next month, next year or within five years. It is regarded as a permanent fixture in the home, and the most important feature next to the owners themselves.

It is evident that great care should be taken to select a piano which will retain its original brilliancy, power and quality of tone for years and years. And such a piano is the "Nordheimer". It has a lasting, permanent tone, as you can prove for yourself if you play on one which has been in the home of a friend for ten, fifteen, twenty years or more.

The "Nordheimer" is perfectly constructed by experts from the finest grade of materials procurable. It is built with the idea of not only satisfying the most critical ear for tone-quality when new, but for retaining its original superb tone, so that it will still satisfy the critical ear in years to come.

Those who own a "Nordheimer" are the only ones who can really appreciate to the fullest sense the wonderful, pure, sweet, brilliant, yet powerful tone of the peerless "Nordheimer" piano. May we not have the pleasure of a talk with you, with the object in view of placing "Nordheimer" in your home?

Our Mr. R. V. Carter will visit Chatham frequently in our interest and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.

Haywood a "Comrade."

Stattgart, Aug. 20.—Herr Babil, during the course of his references, at the opening of the International Socialist Congress here Sunday, to the Haywood murder trial at Boise, Idaho, which he stated "ended with the brilliant acquittal of our comrade," said:

"This trial has shown all the world that in the United States liberty, law and justice exist only on paper. It is to be hoped that these incidents will stir up the American working-men so that, like the English comrades, they will soon have a good number of representatives to Washington."

A series of immense mass meetings held Sunday afternoon were attended by 40,000 to 50,000 persons.

HAY FEVER GERMS ARE NOW FLOATING ABOUT

They are in the air everywhere, too minute to see, but just waiting for a chance to get into your lungs. Then they will play havoc with your breathing apparatus, and you'll wonder what to do. The doctor will say you had better inhale Catarrhoxone, for it kills Hay Fever germs, and, moreover, is dead certain to reach them. Catarrhoxone cures every time, and absolutely prevents the disease from returning. You inhale Catarrhoxone with the air breathed; it goes directly to the source of the trouble and cures it by removing the cause. RAID CONFIRMED.

British Government Learns Officially of Calder's March.

London, Aug. 20.—The Foreign Office yesterday received confirmation of the raid made by Capt. Calder, at the head of a small frontier force, from British Guiana, into Venezuelan territory, and the seizure of a small quantity of balata (gum), alleged to have been collected in British territory. The action is attributed to the overzealousness of the frontier officers, and the Government will take steps to settle the matter diplomatically.

IT DOES CURE WOMANLY ILLS.

"I feel it my duty," writes Mrs. S. Mead, of Fraserburg, Ont., to let you know that sometimes previous to the change of life I suffered more than I could tell. Neighbors told me Ferrozone was the only remedy and their advice was good. Ferrozone put a stop to my pain and sickness, had a direct action on my troubles and relieved from the start. I safely passed the turn, and now enjoy perfect health and rest. No womanly medicine can be better than Ferrozone." Instant relief is found in Ferrozone for female weakness of every kind. 50c. per box at all dealers.

Pellatt Aground.

Kingston, Aug. 21.—The steamer Pellatt has run aground about eight miles below the city, while en route to Montreal.

There are some women who seem to be perennially youthful. The grown daughters are companions as well as children, and the color in the mother's cheeks, the brightness in her eyes, the roundness of her form, all speak of abounding health. What is her secret? She is at the middle age of life, when so many women are worn, wasted and faded, and yet time has only ripened her charms. The secret of this matronly health and beauty may be told in the brief phrase, Dr. Pierce's Favorite Prescription. The general health of woman is so intimately related to the local health of the delicate womanly organs, that where these are diseased, the whole body must suffer. "Favorite Prescription" dries the debilitating drains, heals ulceration and inflammation, cures female weakness, and imparts to the female organs natural vigor and vitality. Women who have lost their health and their beauty have been made "robust and rosy checked" by the use of this marvellous medicine.

It is well to know when to accept even an unpleasant condition cheerfully.

SHOT DEAD BY WOMAN.

Attempt to Force "Undesirables" to Leave Ends in Death.

Warton, Aug. 21.—Philip Gilbert, a bachelor, aged 45, was shot and killed, supposedly by Agnes Thomas, alias Mrs. Reid, at 10 o'clock last night.

In company with a girl called "Stella," the woman is now under arrest for the shooting.

She was conducting a house of ill-repute on the northeast hill, above the town. Gilbert, it is said, organized a crowd of about 25 men and they started for the house to order them out of the neighborhood.

The women refused to go. An attempt to tear down a fence was made and a second afterwards a shot rang out and Gilbert fell dead with a bullet through his heart.

Both women were placed under arrest. Agnes Thomas had a 32-calibre revolver. She hails from London.

MASQUERADES AS A MAN.

Girl Thief Uses Disguise to Rob Her Employers.

Ottawa, Aug. 21.—For the past nine months a young English woman has been masquerading in Ottawa as a man and evidently a member of a gang of light-fingered gentry.

"He" called on arrival at the Y. M. C. A. in search of work, and after being employed in the scullery of a gentleman's house obtained a position as a clerk in a leading dry-goods store. Articles began to be missed, and eventually the young man was asked to enter the manager's office.

In searching "his" person the identity of "his" sex was discovered, and enough evidence was secured to convict, but the proprietor, for business reasons, refused to prosecute. "James Thompson," therefore, from being a captured man, is now a free woman, and has made herself scarce.

MORIKAWA DENIES IT.

Jap. Not in Partnership With Immigration Company.

Vancouver, B. C., Aug. 21.—The British Columbia bar is looking for an interesting reply from Justice Clements to Sir Adolphe Caron's stinging open letter to the Ottawa press. Judge Clements is on a vacation.

Kikijire Iahli of the Japanese Foreign Office, now in California investigating trouble there, is expected next month to look into the local situation. A member of the Japanese employment agency, which landed 300 Japanese here Monday, and is bringing 1,700 more, re-asserts in an interview in Honolulu that Vancouver Japan Consul Morikawa is in partnership with the Tokio Immigration Co., which Morikawa stoutly denies.

Bigamist Goes to Jail.

Whitby, Aug. 21.—George Hicks, the Pickering Township bigamist, is now in jail, having been sentenced yesterday afternoon to two months by Police Magistrate Harper.

Hicks' first wife, now living in Detroit, was brought over by the crown to prove that she had seen and spoken to her husband within seven years. The defence was that Hicks had been informed or thought he had that if he lived apart from his wife for seven years he could marry again. This was claimed to be reason for acquittal. The magistrate, however, found the prisoner guilty, and imposed a light sentence.

Robbers Caught in Napanee.

Napanee, Aug. 21.—Monday night three burglars were making a raid in Belleville when they were chased by the police. The robbers made a run for it through the town, and were shot at by a small frontier force, from British Guiana, into Venezuelan territory, and the seizure of a small quantity of balata (gum), alleged to have been collected in British territory. The action is attributed to the overzealousness of the frontier officers, and the Government will take steps to settle the matter diplomatically.

Gen. French Coming.

London, Aug. 21.—The Canadian Associated Press learns that Gen. Sir John French, inspector-general of the forces, intends to visit Canada, and make an official examination of the state of the defensive service. No date is fixed, but it is likely to be early next year.

Lieut. Rogan states the Coldstream Guards' band hope shortly to again visit Canada.

Ill-Treated His Sons.

Stuttgart, Aug. 21.—Herr Steindel, the leader of the well-known quartette that bears his name, was sentenced to seven months and three days' imprisonment for alleged continued barbarous ill-treatment of his three young sons.

When the boys would attempt to flee, the court refused to release him pending an appeal of its sentence.

Canada Won Four.

Ottawa, Aug. 21.—William A. Burns, secretary of the exhibition branch of the Department of Agriculture, has arrived home from Christchurch, New Zealand, after winding up all the business in connection with the New Zealand international exhibition. To four highest awards in the competitions went to Canadian displays.

Grasshoppers Invade New York. Brosville, Aug. 21.—The farmers of Northern New York have within the past few days been threatened with a serious situation as regards the pasturage for their cattle. Owing to the continued drought the pastures and fields have been invaded by an army of grasshoppers, which are eating everything in sight.

Spinners' Strike Settled.

Montreal, Aug. 21.—The strike of the cotton spinners at Valleyfield was settled Monday night, when an agreement was signed by which a 10 per cent. increase was granted to mule spinners, on behalf of whom the strike occurred.

Engines Wrecked.

St. Thomas, Aug. 21.—A collision between No. 5 Wabash train and a yard engine last night, both locomotives were wrecked, but no one was hurt.

Foresters Robbed.

Ottawa, Aug. 21.—Letters, cheques and express orders have been stolen from the letters of Court Royal Albert, Canadian Order of Foresters.

The name of G. W. Steacey, secretary of the Foresters, has been forged, the cheques were endorsed and cashed at local banks and express offices. The thief is unknown, but the matter has been placed in the hands of Lieut.-Col. Sherwood of the Dominion police. The cheques are only for small sums.

Englishman Drowned.

Rosseau, Aug. 19.—William Lovell, one of the crew of the Muskoka Lakes Navigation Co.'s steamer Nipissing, while canoeing near here yesterday, was upset and drowned in about 40 feet of water. The body was recovered shortly afterward. Lovell was about 30 years of age, and lately out from England.

Weds Light Opera Singer.

London, Aug. 19.—According to a published announcement, Capt. Hon. John Reginald Lopes Yarde-Buller, heir of Lord Churston, is married to Miss Denise Orme, an actress, prominent as a singer in light opera. The marriage is said to have taken place on April 24 last.

A CORDIAL INVITATION TO DIS-EASE.

This is an apt description of constipation to begin with, and it's more, because it brings about blood deterioration, interferes with digestion, renders you susceptible to infectious diseases and causes anaemia. Not so much a purgative as a natural stimulant to the bowels is what you need. You get it in Dr. Hamilton's Pills, which increase liver activity, restore the bowels to perfect action and positively cure constipation and its attendant evils. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut; 25c. per box at all dealers.

Bodies Washed Ashore.

London, Aug. 21.—(G. A. P.)—The body of S. M. Kennedy, a Canadian visitor drowned at Belfast, July 17, together with that of a girl, believed to be that of his daughter, who was drowned at the same time, was washed ashore at Balantrane. On Kennedy's body was found \$250 and two South African medals.

Killed by Dynamite.

Ottawa, Aug. 21.—As a result of a premature dynamite explosion, which took place two miles north of Merrickville, Nicholas Caracciolo, aged 40 years, and his son, Sam, aged 13 years, both of Young street, Ottawa, lost their lives.

A NEW WORKBAG.

Everything on the Inside Instead of on the Outside.

Instead of everything in it, this bag has everything outside, leaving room in the bag for work or mending. The advantage of having utensils in plain sight is obvious. Make an ordinary workbag using any favorite pattern. Small brass rings are fastened at intervals around the inside of the rim and the various articles suspended from them by ribbons. The cases for thread and silk are five inches long and two and one-eighth inches wide. This size holds three spools. The case holding black and white darning cotton is the same length, but two and one-half inches wide. A spool of linen

ARTICLES SUSPENDED FROM BRASS RINGS.

thread and two or three spools of twist are strung on a ribbon between two covered disks. Smaller disks of gilded cardboard separate the spools. The case for hooks and eyes is made for three places of covered cardboard overlaid together, leaving one side open. A pressure at the points opens the case, which closes automatically. The back of the needlecase has a ribbon across the bottom, flat at one side, for a paper of needles and gathered at the other for a thumb pocket. Under the needle flaps is a casing of narrow ribbon for darning needles and bodkins. A pair of scissors may be slipped through a ribbon on the outside, though they are also fastened to a ring at the top of the bag. An emery and a button bag with a pill box of buttons inside complete the list. All the cases are covered with fancy silks, not necessarily matching, but all having the same colors.—Master.

HAY BOX COOKERY.

To Cook an Appetizing Meal Without Outside Heat.

What can be more tiresome than to have to set to work and cook something when one gets home thoroughly tired in the evening? And yet this is what nine girls out of ten have to do. Those who cannot afford the expense of a restaurant must fall back upon what they can manage for themselves, more often than not a chop or boiled egg, with the teapot to cheer things up. Of course one would not think of regretting the dear little flat which was fitted up with such pride. Still, one cannot but sometimes wish, as one fits the key in the door, that some good fairy had popped in and cared for the dinner.

I fear that I cannot promise the fairy, but with the help of a box, which any girl can make for herself from the directions I shall give, there may certainly be found a nice meal waiting that will only need a trifle of warming up before it can be served. Fifteen minutes or so given to the preparation of the dishes before leaving in the morning will surely not be much hardship.

Get a strong box with a lid—a suitable one can usually be found at the grocer's—and paste a tight layer of felt all over it inside, the lid as well. Fill the box with hay, and it is ready for use. Two or three dainty fireproof dishes of different shapes and sizes, with well fitting lids, should be invested in, as they save the trouble of "dishing up."

"Thank You" on Receipted Bills.

"A custom of politeness that is modern in the extreme," said a man old enough to be acquainted with ways comparatively speaking ancient, "is that of writing 'Thanks' or 'Thank you' after the signature on receipted bills sent in due course on payment of accounts, a form that costs little effort on the part of the signer and that is sure to be not unpleasant to the person to whom such politeness is offered."

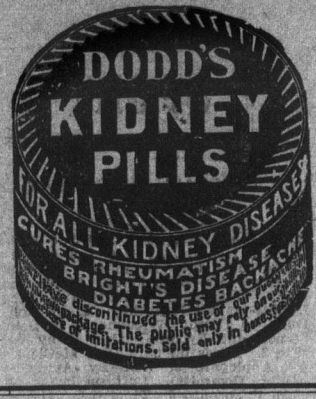

"Widespread is this custom in its practice now, and so in its observance not likely to be surprising, but lately there came to my attention an instance of courtesy in this form that did at first seem rather strained and excessive."

"On a receipted bill received with goods sent to me C. O. Q. I found after the signature the polite 'Thank you,' and here this seemed almost superfluous, for this was a bill presented in the course of a purely transient and impersonal transaction. But a moment's reflection showed that the 'Thank you' here was really neither superfluous nor excessive, but quite correct. Here it was simply the polite 'Thank you' that we would have received from the salesman if we had paid him cash for the goods at the time of their purchase."

Plants and Flowers.

Dracaenas will decay if water lodges on the heart of the plant. If on washing the leaves some settles there, turn the plant over to get rid of it.

The castor bean makes a quick hedge for the vegetable garden. Begonias make a brilliant display and are desirable for partly shaded places. They are well adapted to porch decoration because they do not require full sunshine.

Jealous Women's Crime.

Winnipeg, Aug. 21.—Catharine Godynuk and her mother, Annie Wasow, are lodged in the police station charged with an attempt to poison Rose Fischer, while in addition, it is believed they endeavored to poison Catharine's husband, Frederick Godynuk. They were thought to be jealous of Rosa Fischer, and it is known they had a violent quarrel with Godynuk.

INDIANS SHOOT POLICE

Fusillade of Bullets Greets Constables Sent to Make Arrest.

Two Were Wounded and Had Narrow Escape From Death—Indian Who Made Savage Assault Upon Woman Resists Capture—Armed Force Sent From Pembroke to Bring Them In—Indians Usually Peaceable.

Pembroke, Aug. 21.—In attempting to arrest an Indian on the Golden Lake Reserve, two Pembroke constables were fired upon by a party of Indians, with the result that the constables had narrow escapes. Both were slightly wounded.

A special force of constables was despatched from here on the noon train yesterday to effect the arrest of the hostile Indians.

The constables are heavily armed. There are 100 Indians on the Golden Lake Reserve, and they have always been considered industrious and peaceable.

The quiet of the reserve was disturbed on Friday last, when an Indian named Serazan arrived on a visit. He tarried too long at the wine and the firewater on Saturday, and this roused his savage nature to such a pitch that he committed a violent assault on one of the Indian women, a Mrs. Seymour, lacerating her face and beating her badly.

Word was sent to Pembroke, and Constables Young and Dixon were sent out to arrest the Indian.

When the constables arrived at the house Dixon called out to the inmates to open the door. They replied they would not, but would shoot any person who attempted to get in.

While Young was endeavoring to break open the door, Dixon tried to gain entrance through the window. Almost immediately there was a fusillade of bullets, one of which tore Dixon's chest. Dixon fell to the ground.

When Young came to Dixon's assistance the firing started again and one bullet pierced the constable's hat, grazing his forehead.

As the house was occupied by a number of armed parties and Constable Dixon was wounded, the constables decided to return to Pembroke for assistance.

RECORD BREAKING THROUGH AT PICNIC

Continued from Page One.

the municipalities when they decided to go on with the work.

In concluding, Mr. Bowyer humorously congratulated the picnicers upon the absence of mosquitoes, but added seriously that he had reason to believe that before next year the Government would dredge much of the marsh land and do considerable work towards ridding the park of this insect pest.

Reeve McLarty took occasion to congratulate Mr. Bowyer on securing the grant to the Townline. Howard was ready to proceed as soon as Harwich was. "We have always found," said the Reeve, "that Mr. Bowyer is ready and diligent in looking after any of our interests entrusted to him."

Mr. R. L. Gosnell followed. In the course of his address he directed attention to copies of the Township assessment and collection rolls of Howard, Orford, and Camden 21 years ago. Many of the names of that time were perpetuated in the picnicers of today. Twenty-one years ago there were only 168 names on the assessment roll, and the whole assessment amounted to \$50,000, which was less than the assessment of any school section in any of the three Townships at present if the assessment were made in the same way. The total taxes for the three Townships at that time amounted to \$24 98, 4 1/2c, or about \$200. Isaac Bell was the collector, and the rate of taxation was one penny on the pound, or about 4 mills on the dollar. The assessment was in some respects similar to that of the present. There were, however, some curious features. A square log house was assessed for \$20, with \$4 extra for every fire place. \$25 extra was assessed on a frame house, \$8 on a horse, \$4 on an ox, \$1 on cattle from two to four years old, and \$100 on a four-wheel carriage.

A voice—"What would it be on an automobile?" Laughter.
"Mr. Gosnell—"I don't know, I'm sure. I suppose about \$1,000 if it had only two wheels." Renewed laughter.

Continuing, Mr. Gosnell said that \$3 was assessed on every milking cow.

Mr. Neil Watson, Mayor of Mull, in a brief and humorous address, suggested that the four previous speakers should be set out to catch the greasy pig, and the men who succeeded should be elected by acclamation. If such a course were adopted, Neil ventured to predict that the chase would be even more strenuous and exciting than that which had recently occurred.

Mr. Watson deplored the prevalent spirit of intense partisanship which pervaded public life. He thought the time had come when principles and the man should dominate party and the party.

Reeves Denholme, of Blenheim; Buchanan, of Harwich; and Peates, of Orford, were also present, representing their municipalities.

An unfortunate accident occurred during the first baseball game, the victim was Mr. Percy Galbraith, of the Morpeth team. He was struck by a pitched ball on left cheek bone, an ugly and painful bruise resulting. Mr. Galbraith was hurried to a cottage, where Dr. Beckett, of Thamesville, dressed the wound.

Miss Margaret McGuire, of St. Thomas, was amongst the picnicers.

One of the refreshment booths, in the early morning, floated a Yankee flag as well as one of Canada. But not for long. The good people of East Kent don't stand for such breaches of the patriotic spirit and soon two Canadian emblems were battling the breeze.
