with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer. This means a saving in fuel. And it means a saving in wear-and-tear expense, too.

"Wear-Ever" utensils are light to handle and easy to clean. They cannot form poisonous compounds with fruit acids or foods.

"Wear-Ever" utensils are made from thick, hard sheet aluminum, 99% pure, without joint, seam or solder. You can let food burn dry without injuring them. Cannot rust—cannot chip or scale—are practically indestructible.

FOR STUDENT & VIRTUOSO

The Heintzman tempts a student to study by rewarding him, right at the start, with a golden torrent of tone. Each day new beauties come under his control with others just within reach that lead him on imperceptibly until he becomes a splendid player.

Even then he has made the Heintzman responsive, but he hasn't made it tame. There are always unsealed heights and quiet valleys of music yet to visit—no one has ever exhausted its possibilities.

Your home wants a glorious piano like this. We are glad to show it, even to those who are only mildly interested.

FLAG RAISING AT NOVA SCOTIA SANATORIUM

Yesterday afternoon a large number of citizens gathered at the Park grounds where the colony of tents have been erected, and are now inhabited by a large number of returned, invalided soldiers. The occasion was a flag raising on the grounds the soldier lads having purchased the flag and asked the citizens to join with them in the celebration of its raising as well as a Thanksgiving for what had been accomplished in the war.

Hiawatha Band was in attendance and furnished sweet music. The soldiers were formed into line on three sides of a square and the ceremony of the flag raising gone through. It was a handsome Union Jack and now proudly floats from the top of a fine flag post—a fine emblem of what the boys have lost their health in striving for, a flag that stands for liberty and justice.

NEW YORK SALOON KEEPER OUT OF BUSINESS — AND THE PRICES OH, BOY!

NEW YORK, Oct. 1.—Many a "good fellow" who drops around to the saloon on the corner had a shock today, for in hundreds of cases the saloon on his corner was closed. An entente cordiale, among the rising prices for and whiskey, higher rents, the prohibition of the distilling of whiskey, the new sale-tax and machinations of the Prohibitionists, conspired to make the grand old trade unprofitable.

Agitators against the rule of Demon Rum have had much to cheer them since the war began, but seldom has their chinking been as unchecked as it is today when it was learned that more than 1000 fewer applications for license for saloon and liquor stores in this city were received at the state excise offices, while outside of the city, the onslaught on the dispensers of whiskey straight and light bears even more unbridled.

Survival of the Fittest.

The situation in the retail liquor business became such that only the fittest were able to withstand the series of crisis this year and pony up \$1500 for a license to sell "booze" until Sept. 30, 1918.

In the poorer sections of the city the lot of saloon keepers has been hardest. The rising price of meat and vegetables in many cases left the financial head of the family devoid of means for an occasional drink, especially since the price thereof kept soaring out of proportion to all other increases.

The gay White Way was mournful tonight and with good cause, for Dowley's famous gin mill on Seventh Avenue and Forty-Third Street, just a step from Broadway, appeared a-

mong the institutions that had fought against a tendency and lost. Established more than twenty years ago, the place was recently sold to a syndicate for \$100,000 for the lease which has fifteen years to run, and \$50,000 for the good will. One observer of the set-up remarked that if the present economic and legislative drive on drink continues, the good will of saloon will scarcely be worth more than the Kaiser's son's chance to become seated on the throne in Germany.

Retail prices for the ordinary drinks are now much higher than ever before, and the dealers who will survive will have to keep boosting them, it is said. Whiskey at 20 a glass and smaller glasses in common, and beer less than 10 cents is difficult to find. Rye and Scotch high-balls now bring 30 cents at the bar, instead of 15.

TWO MEN KILLED IN AUTO ACCIDENT

LONDON, Oct. 3.—Belgian newspaper correspondents announce, according to a despatch to the Exchange Telegraph Company, that General von Falkenhayn, the German Governor-General of Belgium, has received a request from the Vatican to permit Cardinal Mercier, the Primate of Belgium, to visit Rome some time before Christmas on an important political errand. General Falkenhayn is understood to have replied that he could only grant passports to the Cardinal on the prelate undertaking not to misuse his trip for purposes of anti-German propaganda.

POTATOES FROM FRUIT CROP REPORT NO. OTTAWA.

The latest estimates of the crop indicate that, with possibly one exception, all provinces in Canada this year will have considerable surplus over and above the average consumption. The estimated acreage is 50,085 more than last year and 26,400 acres more than the average for five years (1910-14). It is too early to estimate the yield, but the present indication are that the yield per acre will be above the five year average; notwithstanding the fact that blight and recent frosts have caused some injury in a few sections. The Fruit and Vegetable Committee of the Food Controller's office have been giving careful consideration to the distribution of the crop and the control of prices, and on the 21st instant gave out the following information:—

"In the cities of Toronto, Ottawa, Montreal and other centres in the provinces of Ontario and Quebec, the price of Ontario and Quebec potatoes to the consumer, after October 1, should be about \$1.25 per bag of 90 pounds. There appears to be an ample supply now assured to meet a largely increased consumption which will doubtless follow a drop in price. Steps will be taken to insure that speculators do not inflate prices.

FAIR MARGIN TO DEALERS

"A price of less than 1 1/2 cents per pound to the consumer should insure to the grower a reasonable return for his potatoes, and give to the wholesale and retail dealers a fair margin for handling.

"The Food Controller is of the opinion that potatoes should be sold by weight only and has under consideration the passing of an order to have this made compulsory; also that no potatoes should be graded No. 1 which less than three ounces and are not free from scab and rot.

"The Quebec consumers should note that the legal weight of a bag of potatoes is 90 pounds and not 80 pounds. A general insistence on full weight per bag and purchase by weight only would materially assist in producing cost to the consumer.

"The potato crop throughout Canada is very large and free from blight except in certain districts. The provision of potatoes at reasonable price should assist in using up the Canadian surplus."

Twenty-one delegates from Nova Scotia attended the annual meeting of the National Division, S. of T. at Boston where the 75th anniversary of the order was observed.

Some have even said—but we will refrain from printing such high praise. We prefer you to try Red Rose Crushed Coffee without revealing anything further as to its quality. We don't want to take all the edge off the surprise in store for you when you try it. And the same price it was three years ago.

PREMIER SIFTON AND CABINET

CALGARY, Oct. 3.—Premier Sifton's statement, given to the press at St. John, that he favored a union government with a conscription plank in the platform, is through here to assure the belief that Premier Sifton will enter the cabinet of a union government. Already his successor as he head of the provincial government is being discussed, and it is understood the Hon. Charles Stewart, minister of public works, will be the next premier of Alberta.

APPOINTMENTS BY THE GOVERNMENT

OTTAWA, Oct. 3.—Dr. Adam Shortt has been appointed chairman of the Board of Historical Documents. Dr. Shortt will be succeeded on the Civil Service Commission by Clarence Jamieson, M. P. for Digby, N. S.

OTTAWA, Oct. 3.—General Hodgins, formerly Adjutant-General of the Canadian forces, left Ottawa yesterday on his way to London Eng. to take up his duties as a member of the joint committee on demobilization.

A Hamilton candidate to nominate two win-the-war candidates, the offer of the Haldemands member to give way to Dr. Clark, the announcement of Col. Kelly-Evans, Conservative candidate in South Wellington that he will not oppose but will support Hugh Guthrie, Liberal conscriptionist, and the probability of a win-the-war nomination for Dr. Clark in his old constituency, are most encouraging signs of the times. They speak a popular desire for a win-the-war government and a determination to sink party to secure such a government.

Retrenchment the Watchword

(By Bernard A. Sullivan)

Canada's Expenditure C. A. \$674,219,653
 Canada's Expenditure C. A. \$228,677,330

EVERY dollar unnecessarily expended by a Canadian (individual, corporation, or government) today is a dollar diverted from the urgent task of maintaining the economic activity and national prosperity of the country.

Only the most rigid retrenchment economy is too mild a word to suffice to keep this country in a sound and safe position during the remaining period of the war and the opening months of the peace readjustment.

The need for economy has been preached by far-sighted citizens for several years past, but with very little effect on the public at large. Urged to practice thrift for various academic reasons, and in preparation for certain distant and vaguely-understood contingencies, Canadians have curtailed a few specific extravagances and gone cheerfully on with most of their ordinary expenditures, comforting themselves with the thought that the country has managed to do without thrift for the last twenty-five years and should therefore be able to continue.

But Canada is to-day faced by an entirely new situation. This country, for years among the heaviest per capita borrowers in the world, is now not merely precluded from any further borrowing of new capital, but is unable to collect cash for her own present output, and must either contrive to finance her own customers or cease to find a market for a large proportion of her products.

With the entry of the United States into the war, and the mobilization of the financial resources of that country for the service of the Allied cause, the last available market for funds was closed to Canada. In the month of August not a dollar of Canadian financial assistance was done in the United States. The terms exacted for the recent Dominion Government loan in New York made it evident that no further assistance need be looked for from that quarter.

While the United States is making and will continue to make large advances in various Allied countries, the condition of these advances is: that practically the whole sum supplied shall be spent in the lending country. This condition, debaring Canada from participating in such advances, for Canada's need is for cash for the carrying on of her own industries of war equipment and food production.

At the same time, the willingness of the United States to finance the orders of the Allied belligerents when placed with American producers, had naturally led the Allies to refuse to place orders in any country which cannot grant the same terms. The present reduction in activity in Canadian munition plants is due not to any curtailment of demand from Europe for munitions, but to the fact that Canada cannot compete with the United States in offering financial accommodations to the purchasers.

Until she was excluded from the American money market, Canada had been able for some time past to extend partial financial accommodation to the Allied countries for the supplies which they obtained here, and this without encroaching upon herself any stringency of thrift. But this was due to the fact that while lending to her customers she was herself borrowing from her neighbor. The issue of Canadian bonds at all classes in the United States in 1916 were \$154,000,000, and in 1915 \$307,000,000. This year the Dominion Government has sold \$100,000,000 and municipalities about \$7,000,000. Under these circumstances it was not difficult for Canada to make advances to the Allies in the purchase of munitions in this country, which at the end of July totalled 1,385,000,000. The difficulty consists in continuing this process without

Result of Inland Revenue

The laboratory of the Department of Inland Revenue has issued a report on the analysis of 228 samples of butter, procured throughout Canada during the first quarter of the year. The examination was ordered in consequence of the making of complaints that oleomargarine was being sold as butter. The results showed there was no grand for the fear. It established, however, that other wrongs on the consumer are being perpetrated. The legal standard fixes 16 cents, as the high limit for the water contents of merchantable butter. The analysis found that seven samples taken showed a decided excess over this liberal figure, while sixteen others touched or slightly exceeded it.

HALIFAX, Oct. 3.—Two of an automobile party of five, Percy Boutilier and Will Hart, were dashed to death at Hazel Hill, near Canso, N. S. last evening while returning from a wedding at Guysboro. The lady occupants of the car escaped.

R. L. Borden

Right Hon. Sir Robert L. Borden Canada's Greatest Statesman Leader of a Win the War Union Government

MAKING PROGRESS

From St. John Seen Independent Liberal
 Indications multiply that Sir Robert Borden is making progress in the formation of a national war government. The matter is, entirely in his own hands, as all members of the present cabinet have placed their portfolios at his disposal and given assurances of loyal support for any action he considers necessary to secure the much-desired result. The visit to St. John of Hon. A. L. Sifton, Liberal Premier of Alberta, and his unequivocal announcement that he supports conscription and is in favor of a union government, is not without interest at this time. Hon. Mr. Sifton is one of the Western Liberals frequently spoken of as likely to be a member of a union cabinet. His appointment would be popular in the West and if he is not appointed his support of those who undertake the task of government at this time would be of great assistance. The utterances of Premier Sifton, and of other Western Liberals, and the uncompromising attitude of the Winnipeg Free Press, are forcible reminders that Western Liberalism favors a national movement, and regards action before election as imperatively necessary to ensure a continuance of support to the men now overseas. The

WHERE IGNORANCE IS BLISS

Thus, seeking to be kind fraternal, but at the same time perfectly honest, if we make mistakes, we may still comfort ourselves with the assurance which his Irish Catholic servant once expressed to the devout and learned Bishop Whately. "Do you really believe," he asked her, "that there is no salvation outside of the Roman Catholic Church?" "Sure an' I do," she replied, "for that's what the priest ses." "Well, then, what is going to become of me?" "Oh, that's all right," she answered, with an Irish twinkle in her eyes. "Yer reverence will be saved by yer ignorance."

KINGSPORT

Miss Lucy Borden has been at Wolf-
ville visiting Mr. and Mrs. J. E. Hales
who were her guests during part of the
summer at Kingsport.

Mrs. G. W. Coffin left for Boston a
week ago to remain the winter. Her
daughter left a short time before to
commence her work at the opening of
school in Boston. Mrs. Weaver accom-
panied Mrs. Coffin and will remain in
Boston some time with members of her
family there.

Kingsport would like a return of the
former shipbuilding days when this
place was called "Oak Point."

MARRIED

KELLY the Price Wrecker

Arrives in Canning to put Jacob
Cohen Out of Business

Everything Goes at **SLAUGHTERED PRICES**
Sale Starts FRIDAY Everybody
Come

Here's Kelly's Message to You :

I am known as "Kelly"—no handle to it please—
just plain "Kelly"—but what's in a name anyway—I
have a vital message for you men and women who
want to make your dollars do double duty.

I am a hunter of bargains—not men—so when
Jacob Cohen decided to leave Canning and open up
business in St. John, N. B. his entire stock of mens
and womens Clothing, Boots and Shoes went to the
Great Eastern Sales Co. for quick disposal.

The Great Eastern Sales Co. sent me to do the job.
"Go," they said, "introduce our phenomenal values
and hitherto unheard of prices into every home for
miles around. Slash—smash—slaughter the prices—
for just 10 days. Put on such a sale that it will be the
sensation of the year. A sale that will be full of human
interest—a sale that will be the talk of the thrifty, for
weeks and months to come.

I am going to shout so loud that every man
woman and child will hear me. I am going to create
such a period of hustle and bustle, marked by a grand
feast of bargains that is going to make me feel just
like Santa Claus.

Space allows mention of only a few special items
of interest—remember that entire Stock must be closed

**PLOWING TOURNAMENT AT
KENTVILLE**

Tuesday and Wednesday, Oct. 9th and
10th Kentville will be filled with expect-
ant people if the weather is fine. The
great plowing tournament and exhibi-
tion of farm labor - saving
machinery, including a tractor de-
monstration will bring together, the
largest crowd of farmers ever assembled
at one point in Eastern Canada. Entries
did not close until Monday, at noon, and
forty teams of horses have been entered
in the plowing competition, and it has
been necessary to open a new class for
oxen plowing. Four ox teams are com-
ing from Yarmouth County, and Dr.
Lavers, of New Ross, telephones that
Lunenburg County, which has long
claimed to have the finest oxen and best
plowmen in the Province, will be well
represented. Some of the teams from
Lunenburg county have already "hit the
trail" and will be here in time to give
the cattle opportunity to rest before the
competition opens on Tuesday. Five
counties will be represented.

The Ford tractor arrived on Saturday
night. In order not to have any delay,
and to fulfill his promise, Henry Ford
shipped the big tractor "express pre-
paid" all the way from Detroit, and
three experts, came from Halifax, Mon-
day morning to set up the machine and
will conduct the demonstration on Tues-
day and Wednesday.

The International Harvester company
already have their tractor here with
three demonstrators, and the Smith-
Forma truck tractor which is operated
in connection with a Ford car, has also
arrived. Gasoline potato diggers, man-
ure spreaders and other agricultural
machinery are also on the grounds.

A special train is to leave Yarmouth
at 6.30 on Tuesday morning, arriving
at Kentville at 12.30. There will also be
special train service on the Kingsport
branch and a special train on the North
Mountain railway from Weston, bring-
ing in the farmers from Weston, Som-

ANOTHER ANTI-SUBMARINE INVENTION Salt Lake City, Oct. 2—Intimation that the invention of a Salt Lake City man will reduce the toll of German submarines, is made today by officers of the navy recruiting station here. The inventor is James Fenton, and the invention consists of a projectile, which can be fired at a moment's notice and strike an object submerged eighty feet or less in water. Other than making this statement Captain Edwin Guthrie, of the Naval Recruiting force, refused to comment on the invention. He said that full particulars would be sent to the government and that for obvious reasons it was safest that secrecy should prevail. Mearns' Lumbermen's Friend

For Sale or to Let

In order to close the estate of the late M. P. WOOD, Pat Williams, the farm formerly occupied by him containing 156 acres of land is offered for sale. Said farm consists of 25 acres of dyke land and twenty-five acres of orchard and the remainder in tillage land, this is one of the best stock farms in Kings County, and at this stage in our history, when mixed farming is so essential to success it offers to the right man a golden opportunity to make good. If not sold it can be rented with a view to purchasing. This farm is offered at a bargain. Apply to C. A. CAMPBELL, Agent Port Williams

CRUISER DRAKE SUNK OFF IRELAND

London, October 4—The British cruiser Drake has been torpedoed and sunk, according to an Admiralty announcement tonight. The Drake was torpedoed Tuesday morning off the north coast of Ireland. She reached a harbor but then sank in shallow water. One officer and eighteen men were killed by the explosion. The remainder of the ship's company were saved. The Drake was a vessel of 14,100 tons. She was built at Pembroke in 1901 and had a speed of 23 knots. Her complement was 900 men. A sister ship of the Drake, the Good Hope, was sunk in the battle off Coronel, Chile, in 1914, with a loss of 887 men. The Drake was well known in eastern American waters, having several times visited the United States and Canadian Ports. She was the flagship of the fifth cruiser squadron which attended the Hudson Fulton celebration in New York in 1900.

U.S. IS BUILDING 20,000 'EYES FOR ARMY'

Airplanes Are Actually Under Construction and Prospective Birdmen Are Volunteering in Ever Increasing Numbers.

WASHINGTON, Oct. 4—Twenty thousand airplanes for America's fighting forces in France, authorized in the \$640,000,000 Aviation Bill passed by Congress last July, actually are under construction. The necessary motors are being manufactured; Sec. retary of War Baker announced today and the whole aircraft programme has been so co-ordinated that when planes and motors are completed, trained aviators, as well as machine guns and all other equipment will be waiting for them. When this nation's army moves up to participate in the fighting, the Secretary said, "the eyes of her army will be ready." "Within a reasonable time, considering the period for preparation," Mr. Baker's statement said, "this country will send its first airplane to Europe. This airplane, from the tip of its propeller to the engine, machine gun and camera will have been made in the United States. There has been a remarkably gratifying response to the call for aviators. This country has an unlimited supply of young men possessing courage, self-reliance, good judgment and decision; the things required in the air service. There is practically no limit to the number of aerial fighters which the United States can and will furnish in the war for democracy. American machines are being built abroad, and Mr. Baker said that approximately one-fourth of the number soon to be needed will be made in Allied countries.

BRITISH DRIVE FOR TREMENDOUS GAIN

Pushing Forward Over Eight-Mile Front Halg's Troops Capture 3,000 Prisoners—Penetrate to Death of Mile

London, Oct. 4—Thousands of Prisoners—Penetrate to Death of Mile the new drive which was begun this morning east of Ypres in Flanders. All the objectives of the British were won, including characterized by Field Marshal Haig's report from Headquarters tonight as of "great importance." The text of the report from British Headquarters in France tonight read: "Our attack this morning was launched on a front of over eight miles, from south of Tower Hamlets to the Ypres-Staden allway, north of Langemark and has been completely successful. All our objectives have been gained; positions of great importance have been won and over 3000 German prisoners have already reached the collecting stations. "We are now in possession of the main ridge up to a point 1000 yards north of Broodseinde." In their offensive in the Ypres sector, today, the British gained all their objectives on a front of 16,000 yards and to a depth of 2,500 yards, General Frederick B. Maurice, Chief Director of Military Operations at the War Office, announced today. Both the first and second objectives on the ridge have been captured by the British. Prisoners are coming in much more rapidly and in great numbers than in the past. Everywhere the British have done splendidly in one of the most pretensions offensives attempted on this front. This attack was launched under heavy clouds and with a mist following a light drizzle. An unusual feature of the battle was that near Zonnebeke three German divisions which had been ordered to retake positions captured by the British last week were caught in the British barrage as they were preparing to advance. At ten o'clock the battle was still raging furiously. It was apparent that the Germans would use every means to retake this invaluable territory, and determined counter attacks were expected. The British casualties today have been exceedingly light. The northern wing of the onrushing British troops was battling forward this morning within a short distance of Post Capelle, had a footing on the famous Granvaten Ridge, which juts out from the Passchendaele Ridge to the west, and had crushed through the Zonnebeke Broodseinde Ridge which is an integral part of the Passchendaele-Gheluvent chain. The British already have penetrated well beyond the Hamlet of Broodseinde in which the cross roads formed by the highways between Zonnebeke and Moorslede and Passchendaele and Beclaire.

London, Oct. 4—General Maurice in the course of a statement given to the Associated Press today said— "The troops which have been engaged in the fighting from July 31 to the present composed as follows: British 18; English 70 per cent; Colonials 16; Scottish 8; Irish 6. The casualties in the same period are distributed as follows: British 76 per cent; Colonials 8; Scottish 10; Irish 6."

ENTOMOLOGISTS TO FIGHT BROWNTAIL MOTH HERE
 (Morning Chronicle)
 Dr. C. Gordon Hewitt, Dominion Entomologist; Professor W. H. Brittain, Provincial Entomologist; L. S. McAlne, who has charge of the Moth Bureau in the Maritime Provinces for the Dominion Department; and Mr. L. H. Worthley, of the United States Bureau of Entomology were in the city yesterday, after having spent several days in the Annapolis Valley.

For a number of years the Dominion Entomologist Department, in co-operation with the Provincial Department, have been fighting the Brown Tail Moth, and they now have the pest practically under control. Mr. Worthley was brought here by the Department in order to show him what is being done in this Province to fight the pest.

A visit was made to certain sections of the Annapolis Valley, and the work of the Departments were shown Mr. Worthley. He spoke in terms of highest praise of the work done in this Province. "The New England States," he said, "spend one million dollars a year fighting the brown tail moth, and Nova Scotia is fortunate in keeping it under control."

Dr. Hewitt and Professor Brittain will show moving pictures of the work done in this Province, at Kentville next Thursday night, during the ploughing competitions held there. Mr. McAlne will accompany them, but Mr. Worthley will return today to the United States.

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern 'Unabridged'—the NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will yet find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired."—Arthur B. PARLIAMENT OF CANADA HAS BEEN DISSOLVED

Ottawa, Oct. 4—At one o'clock today a proclamation was issued dissolving Parliament as from Saturday. Announcement of dissolution was made to a Canadian Press representative by the Prime Minister no date, had been fixed for the election. This will be decided later, although it is unlikely the election date will be before January.

There was a further addition to the cabinet in Hugh Guthrie, Liberal member for South Wellington. Mr Guthrie takes the portfolio of Solicitor-General. Mr. Guthrie was sworn in shortly before one o'clock. Sir Robert Borden also stated that no further changes had so far been made in the cabinet.

He indicated that there would be no additional announcements just at present.

A cabinet council has, however, been called for this afternoon. Western Liberals will be in conference here tomorrow when the question of union Government will again be under consideration. Whether or not any Ministers of the Prairie Provinces will enter a union Government, states Hon. J. A. Calder, is still under consideration. From Vancouver comes the story that Hon. H. S. Brewster, Prime Minister of British Columbia, has been invited to

ECONOMICAL HOG FEEDING
 (Morning Chronicle)
 In choosing a ration for hogs, the farmer should consider the quality of the feed available, the use of the feed, and the cost of the feed. The use of high priced feeds derived from the foreign countries, produced feeds. With a large amount of wheat middlings, good ground oats, good growth of corn, thus be produced. For a period, however, a more rapidly fattening ration is required. The swine feeder should consider, "How can I produce the best results at present feed prices, middlings and shorts, even though high in price, (845.00 approximately), must be relied upon for the major part of the ration. At the above price middlings offers digestible nutrients at a low net cost per ton than any one of the grains previously mentioned. By net cost is meant the total cost of the digestible nutrients, less their manurial value.

Oats or barley, one part, shorts and middlings, two parts, with some milk product or, lacking the latter, ten per cent oil meal, should supply as economical a growing ration as is generally available. With the likelihood of a material drop in the price of oats and the more problematical prospect of cheaper corn, when the new crop moves, the above ration could be improved. Corn, shorts, and oats, equal parts with skim-milk is an excellently balanced ration. The addition of corn, even as a small proportion, to the shorts, middlings, skim-milk ration would distinctly improve it as a finishing ration. Corn, must, however, reduce materially in price to be considered an economical hog-feed.

At the present time feed wheat, as procurable in Western Canada, forms as excellent hog-feed, as has already been well demonstrated. Tothmore central and Eastern sections this particular feed is not generally available. In many localities, however, an elevator by-product known as buckwheat screenings, may now be purchased. Further information concerning the distribution of this material may be had C. E. Austin, Mgr. Government Terminal Elevator, Fort William, Ont., or the Live Stock Branch, Department of Agriculture, Ottawa.

Analysis of this particular grade of screenings reveals the following constituents:—Wild buckwheat 58 p. c., broken wheat, oats and flax, 29 p. c., weed seeds, 9 p. c., chaff, 4 p. c. In view of the weed seeds present it should be as finely ground as possible.

Experimental evidence, as afforded by swine feeding tests, at the Central Experimental Farm, would go to prove that this material is of considerable value. During the winter of 1914-15, in an experiment calculated to throw light on the value as a hog-feed of elevator by-products, as represented by the various grades of screenings, buckwheat screenings compared favourably with a standard meal and milk ration. Two of the rations compared were as follows:—No. 1. Shorts, three parts; corn, 3 parts; oil meal, 1 part; plus skim-milk. No. 2. Finely ground buckwheat screenings plus skim-milk. Without entering into the details of this test (See Experimental Farms Report, Vol. 1, 1915) it may be stated that the pigs fed buckwheat screenings while not so fat as those fed the regular meal ration and standing therefore slightly lower in total gains, stood first in economical production per 100 pounds grain. With the meal ration valued at \$23.00 per ton (1915 prices) and the buckwheat screenings at \$14.00 (nominal) the cost per pound grain was 4.7 cents in the case of the pigs fed the former and 2.7 cents for those of the latter ration. On the actual prices paid or charged for meal, skim-milk and rotots, and figuring on the basis of total gain produced by the two lots, buckwheat screenings showed a comparative value of \$27.60 per ton.

The swine feeder would be well advised in making inquiry into this particular feed, the eastern distribution of which is controlled by the Live Stock Branch at Ottawa. From the latter source further announcements may be expected in the near future.

KENTVILLE TOWN COUNCIL

The regular meeting of the Town Council was held on Wednesday evening and attended by the Mayor, Councillors Lamont, Wade, Carroll Caldwell and the Clerk.

PROVINCE OF NOVA SCOTIA, TOWN OF KENTVILLE.

Amendment to By-Laws of the said Town of Kentville, moved by Councillor R. T. Caldwell, seconded by Councillor Fred Wade, and unanimously passed this third day of October, A.D. 1917 by said Town Council as follows:

PROTECTION FROM FIRE. BY-LAWS TOWN OF KENTVILLE

It is ordained by the Mayor and Town Councillors of the Town of Kentville assembled, that the By-Laws of the said Town be amended and added thereto, under and by virtue of Chapter 71 of the Revised Statutes of Nova Scotia by creating a district within the bounds hereinafter mentioned for the prevention of the occurrence of fire.

1-No person shall construct, build, erect or place any wooden building or any part of a wooden building or any addition to any building of wood within that part of the Town bounded as follows. That is to say-Commencing at a point on the south side of Main Street one hundred feet east from the north east corner of the store of J. W. Ryan, thence southerly parallel to the east line of said Ryan property one hundred feet, thence westerly in a line parallel to Main Street to a point two hundred feet west of the west side of Aberdeen Street, thence northerly in a line parallel to Aberdeen Street to the Cornwallis River, thence easterly following the course of the Cornwallis River to the Cornwallis Bridge, thence in a south easterly direction to a point on the north line of the County Jail property one hundred feet from the east line of Cornwallis Street, thence southerly in a line parallel to Cornwallis Street to the north side of Main Street.

2-Any wooden building and every addition thereto, erected within that part of the Town bounded and described in Section No. 1: That is to say; shall not be more than three stories and shall not exceed thirty-six feet in height from the level of the sidewalk to the top of the corner posts.

3-No person or persons shall cover wholly or in part the roof of any building now erected or placed within said limits above, described with wooden shingles, or wooden or otherwise combustible material of any kind whatsoever, but the same shall be covered with slate, zinc, tin, sheet iron or other non-combustible material; and no person shall attach to any building within the aforesaid limits any jet, gutter, conductor or spout that is not effectively secured against fire.

4-No person shall commence erection of any new building or the repair or the alteration of any old building within either of the above limits (where the cost of such repair or alteration exceeds the sum of one hundred dollars) without first submitting the plans and specifications thereof, in duplicate including a statement of the material of which it is proposed to construct such building together with a declaration of the purpose for which the building is intended to be used to and receiving the approval of an Inspector appointed by the Council for that purpose or if no such Inspector be appointed to and receiving the approval of the Committee on Streets, or such other committee as is appointed in that behalf by the Council.

5-Such approval shall be endorsed upon one copy of the plans and specifications and filed with the Clerk.

I certify the foregoing to be a true copy of Amendment to By-Laws passed by the Town Council of the Town of Kentville at a regular meeting of said Council and after due notice given therefore, this third day of October, A. D., 1917.

J. CARROLL, Town Clerk of the Town of Kentville

Letters were read from General Manager Graham in reference to the town including in their order two two-way hydrants for the D.A.R.

Letter read from W. W. Kennedy, Superintendent N. S. Hospital in reference to a change in the law as regards contributions towards the care of patients which would come into effect October 1st.

On motion it was resolved that Comrs. Lamont, Carroll and Wade be a committee to look after carrying out regulations in the new fire district.

On motion Mr. R. L. Benson was appointed for the said Fire District

Paupers-Chairman Lamont reported \$18.73 spent or total of \$307.50 to date.

UNION GOVERNMENT WILL SOON BE ANNOUNCED IF ARRANGED

The Morning Chronicle of yesterday says in its Ottawa despatches: "Indications tonight, however, after a busy day of conferences among the various groups would seem to indicate that Sir Robert is likely to achieve the end he and Sir Clifford Sifton have sought so persistently for the past three months.

Sifton Likely to Join Premier Sifton of Alberta, will almost certainly join the administration in any event, on the understanding that a little later on he will be relieved of the care of politics by appointment to the Supreme Court Bench.

If the Western Provincial Ministers entered the Government they will bring with them the support of all three Provincial Governments. At least that is the statement credited to them today. There might be both Liberal and Conservative candidates in the West, but they would all be running practically in support of the same war-time platform and the election of candidates would probably depend largely on the personal equation.

How that would effect the general political situation in Eastern Canada can for the present hardly be gauged. One thing, however, is certain that the whole outlook is decidedly chaotic."

The Halifax Herald says in its Ottawa despatches on the situation: "It is understood that not later than Tuesday these Liberal leaders will give the Prime Minister a definite answer as to whether or not they are prepared to accept Union.

In the event of their decision being favorable to Union, Sir Robert Borden will promptly proceed to carry it into effect. If, on the other hand, their decision be against Union, the premier will reconstruct his cabinet along other lines."

DEPARTING PASTOR AND WIFE HONORED

At the close of the Friday evening service in Immanuel Church the ladies presented Mrs. Vincent with several handsome pieces of table silver, as a slight expression of their appreciation of her untiring efforts in connection with the activities of the church, during her stay of three years. Mr. Vincent was also remembered by them with a beautiful book - one of the latest on the war, illustrated. This was later supplemented by the men of the church with a sum of \$60.00 to Mr. Vincent, whose vigorous preaching will be much missed.

His farewell sermon on Sunday evening was the occasion of the church being packed to the doors. -Truro News.
