REGULAR MEETING OF TOWN COUNCIL

The regular monthly meeting of the Town Council was held in the Town Office on Thursday, Oct. 19th, at 8 o'clock p.m.

Present:—Mayor Fish, Alds. Atkinson, Dalton, Doyle, Locke, Mackay and Ritchie.

The Finance Committee recommended payment of the bill of F. Uncles for \$14.70; which was passed and ordered paid.

The Chairman of the Finance Com reported that the collection of Default taxes to date showed an increase of about \$700 over the same period in 1921 and the current taxes showed a drop of about \$2000, but considering general conditions, collections showed very satisfactory results. It would however be necessary to take steps to enforce collections in order to provide the necessary revenue during the winter months.

The following accounts were passed and ordered paid:—

T. J. Durick	\$ 1 30
F. Hogan	21 10
H. A. Russell	37 95
B. A. Tozer	23 62
Stothart Mercantile Co., Ltd.	799 65
J. H. Sargeant	101 00
F. Uncles	1 60
W. J. McCormack	40 99
Wilson Gough	35 78
H. A. Russell	14 65
Stothart Mercantile Co., Ltd.	30 58
Can. Gen. Electric Co., Ltd.	109 77

The Chairman of the Public Works Com. stated that he had no report to submit regarding petition of Fire Company for refund of rental as the matter had not yet been considered by the committee, and the matter was allowed to stand over till next meeting.

Ald. Ritchie enquired as to the responsibility of the Fire Department in fighting bush fires within the Town limits, and after a general discussion, it was decided that it would be advisable to adopt some regulations governing such cases in the future.

The chairman of the Public Works Com. reported that the C. N. R. authorities were now disclaiming any responsibility to provide an outlet for water reaching the highway from the Railway property through a drain laid and maintained by them across the property of Mr. George Stables, and submitted correspondence in that connection.

After discussion it was moved by Ald. Doyle, seconded by Ald. Ritchie and carried that the Town Clerk write Mr. Martin Superintendent C. N. R., requesting an answer to our letter of Sept. 25th ult. The extension of Electric Light to Nelson and to Millbank was discussed and the opinion of the Council was that it was too late to do anything this fall but that both extensions should be considered next spring. Adjourned

Parenthood And Liquor Discussed

The problem of parenthood in relation to the ravages of alcohol was the subject of a lecture by Dr. C. W. Saleeby, of London, England, in St. James' Hall on Friday evening.

"Liquor has a determined effect on the race," he said "and better children were being produced in Canada where sobriety is practised with consideration. Many great nations in the past have neglected the duty, the privilege and the vital necessity of preparing for parenthood. It looked as if while cultivating other things in life they neglected this vital need of every nation."

Dr. Saleeby, who is an expert on eugenics, congratulated Canada on the fact that its children are of an exceptionally fine type through having been born of a nation where drinking has not become a national habit.

Parenthood is the determining factor in existence," he said, "and it is upon the transmission of life from generation to generation that everything depends. Decay of parenthood is the mortal disease of nations."

Continuing, he declared that the nation must protect its young against such racial poisons as alcohol. He told the extent to which liquors are drunk in the old country and said that everything possible should be done to stamp it out.

A Moving Sidewalk Is Suggested

Paris, Oct. 3.—With a view to alleviating traffic congestion in the city of Paris the Police Department recently opened a competition for plans for the erection of moving sidewalks. Three prizes are offered for the first three plans accepted, the prizes being 100,000 francs, 50,000 and 30,000 francs respectively.

In all about forty projects have been received despite efforts in some quarters to ridicule the idea. One of the plans submitted is from an American inventor, who suggests a rolling sidewalk to be built above the existing sidewalks, with bridges here and there to enable pedestrians to cross the street above the dangerous traffic. He suggests stairways every 200 yards to reach the sidewalk.

PRIESTS' CONFERENCE

A number of priests from this district were in conference at Blackville on Tuesday, under the direction of Rev. P. W. Dixon. This conference was one of a series. Those present were: Revs. P. W. Dixon, Crumbly, E. S. Murdoch, B. J. Murdoch, Wallace, Burns, Hawkes, Ryan, Elhaston, Duffy, Brideau, Babineau, Babin, Saindon and Verette.

THE NORTH SHORE MASONS AT CHATHAM

Chatham, N. B., Oct. 17.—Monday marked another epoch in the history of the Masonic fraternity on the north shore, when the members of the different lodges gathered at the Masonic Hall, here, for the purpose of unveiling a memorial altar to the memory of the members of Miramichi Lodge and Mount Lebanon Chapter who served overseas in the great war. The unveiling was done by the Master of Miramichi Lodge, R. A. Snowball, and the High Priest of Mount Lebanon Chapter, J. Murray Tweedie, while after the altar had been blessed by the acting Grand Chaplain, R. A. Loggie, the Grand Master, Lebaron Wilson, of St. John formally dedicated it to the Masonic fraternity.

The memorial altar is of mahogany with the Masonic emblems in brass on the face of which are two tablets joined together with a brass ribbon on which appears "1914-1918." On the right side is the tablet of Miramichi Lodge as follows: Miramichi Lodge No. 18, P. and A. M.—To honor the brethren who so loyally served our King and country in the great War—Baldwin, Andrew C.; Damery, Parley W.; Flett, Frank R.; Flett, Andrew L. M.; Gilker, R. H. M.; Godfrey, John G. G.; (* Gunn, Frederick C.; Loggie, Wallace W.; Loggie, Dr. W. Stuart Malley, Earl R.; Mitchell, A.; Macnaughton, John D. K.; Thurber, Harry G.; Tweedie, Arthur H. (* Killed in action.

On the left hand is the tablet of Mount Lebanon Chapter, No. 5, R. A. M.

To Honor the Brethren who so loyally served our King and Country in the Great War—Aitken, R. T. D.; Campbell, F. W.; Crocker, Randolph; Goodwin, Charles E.; (* Lockhart, Frank E. (* MacKenzie, A. E. G. (* Killed in action.

It was also the occasion of the first visit of the Grand Master to Miramichi Lodge and he was accompanied by Grand Secretary J. Twining Hart, Grand Treasurer, George D. Ellis and Grand Director of Ceremonies Stanley Wetmore, all St. John.

A very pleasant feature of the evening was the presentation to the Past Grand Master J. D. B. F. MacKenzie, of Chatham, of a Past Grand Master's regalia, the gift of the North Shore Lodges as a token of their esteem and respect for his services. The presentation was made by G. Percy Burchill, of Nelson, assisted by R. A. Snowball, Chatham, Randolph Crocker, Newcastle, and W. A. Scott, Bathurst.

A Dominion Loan May Yet Be Issued

Estimate of the amount of bonds converted under the Dominion refunding scheme must be considered merely as estimates for no degree of accuracy can be attained in such a guess.

Assuming though that two thirds of the 1922 bonds are converted this would care for about \$125,000,000 of the financing that was on the books for this fall. On this basis there is still every indication that further borrowing by the Dominion will be necessary this fall.

The needs of the Minister of Finance centred around \$194,000,000 of maturing bonds and \$155,000,000. Of the total \$100,000,000 were borrowed this summer in New York. Approximately \$125,000,000 of the maturing basis there is still \$124,000,000 required.

New York, had an unsatisfactory experience with the last Canadian loan and afterwards admitted that the shrewd Mr. Fielding had made them pay more than his bonds were worth. But despite this fact New York would take the loan if it could get it. But until Mr. Fielding returns from Genoa the decision between New York and Canada remains in abeyance.

At the moment the odds are for a Canadian loan. It is conceded that 5-14 per cent money could be had in Canada on a large domestic loan.

High School Team Defeat Bathurst

On the Farrell Field Saturday afternoon the Harkins Academy High School defeated the Bathurst Grammar Football team by a score of 9 to 3. Bathurst won the toss and led off with the kick. During both periods the greater part of the play was in Bathurst territory. The Bathurst scrim was slightly heavier than the local's forwards, but were unable to take the ball from them on many occasions. The half lines of both teams worked hard and some good combination work was performed by visitors and locals. This was the first game of the locals and each member of the team showed remarkable good work. The game was fast, clean and a good exhibition of football. After the game the two teams were entertained to luncheon in the Harkins Academy Assembly Room by the High School girls, chaperoned by Mrs. J. H. Barnett and Mrs. D. J. Gulliver.

BELIEVES EARTH OLDER THAN SUN

Lecturing in London, Professor A. Bickerton said he was strongly inclined to believe that the earth was much older than the present structure of the universe, and also much older than the sun.

In his opinion, the sun originated in a collision between two other previously existing bodies, one or both of which had an enormous number of meteors, planets and other bodies revolving around them. Sun spots were probably caused by meteors striking the surface of the sun. In the reference to the origin of life, the professor dismissed the doctrine of eternal death and declared that the message of science was of a higher and finer optimism than that of any superstition, priestcraft or formal dogma.

Professor Bickerton, who is 80 years old, was the originator of the theory of the birth of stellar systems. When he put forward his views on this subject in 1902, he was professor of Canterbury College, New Zealand, and the governing body of the university then came to the conclusion that his views were too revolutionary. He had practically to choose between his theory and his chair as a professor. He chose the former. Since then he has written much about the "third bodies" born in space by grazing impacts, and is one of the world's greatest authorities on the stellar system.

Autoist Stirs Up A Hornets' Nest

Whereas a year or two ago it was thought something of a luxury to own an ordinary touring car, the dealers now tell us that the popular demand is for the coupe or sedan. At least one of our proverbially respected citizens, who already owns a coupe, thinks that, if anything, even these cars are none too well protected from the elements and other external influence. Having a professional call to make in the neighborhood of a fine hunting ground, and being naturally "sporty," he decided to "kill two birds with one stone," as the saying goes, and invited another well-known Summerside sportsman to accompany him. Arrived at the nearest point on the main road to the appointed marsh, the first named sportsman deposited the other with all the full implements necessary for war upon the wily black duck and other migrants, and promised to join him where he was to "rig out" in the marsh in half an hour, at the latest. But the fates willed otherwise, though within the specified time he was back within a couple of hundred yards of the "blind," or at the furthest point which can be navigated by auto amongst the cranberry bushes which line the marsh. Simultaneously with the stoppage of the car, a violent bombardment, as of small shot

EMPRESS THEATRE MONDAY & TUESDAY

"My Boy," Jackie Coogan's latest starring vehicle for Associated First National release, is coming to the Empress Theatre on Monday and Tuesday for an engagement of two days and matinee.

In this instance the little star has been given a better story than "Peck's Bad Boy" which broke theatre records all over the country, and "My Boy" is destined to become a country-wide "hit."

The little genius plays the part of Jackie Blair, who lands at Ellis Island, an orphan alien. He manages to break through the immigration barriers, but has some strenuous adventures in the "land of the free." Irresistible personality, however, wins him friends on every hand and he has no difficulty finding a home. Claude Dillingwater and Mathilda Brundage are the chief members of the supporting cast.

raised the hair, what there is of it, of the occupant of the coupe and it was some minutes before he realized that thousands of hornets were making a very serious attempt upon his life. Fortunately the windshield was up and the coupe impregnable, as our friend had come to anchor with the front wheel in the centre of the hornet's nest. Worst of all, the "self-starter" absolutely refused to self-start. So, for an hour or two our hero had to be content to sit there, fortunately well provisioned but continuously bombarded. Of course, in the meantime the shooting was good and he could hear his friend banging away every few minutes. It always happens that way, in this world. Eventually, the sun being nearly set, and the hornets, all but an odd one, utterly exhausted, our friend essayed a sprint for the bush in the hope of getting at least one belated crack at the ducks; but he finished up the adventure by almost scaring the wits out of a lone maiden peacefully picking cranberries. For a time it looked almost like a case of "jumping out of the frying pan into the fire" and it took some time and a good deal of diplomacy to explain the circumstances all of which would take too long to go into. Suffice it to say that the matter was further smoothed out by the party who had had the real afternoon's sport and who now appeared on the scene; the coupe was cautiously approached, its entrance successfully negotiated, and the "self-starter" self-starter at the first touch of the hand, as is their wont when there is no particular extremity.

TOPS ALL THE OTHER INDUSTRIES

Automobile Industry Rated as Largest Manufacturing Enterprise in the World

Analysis of information secured through governmental sources discloses that the automobile industry is the largest manufacturing enterprise in the world, according to the Automobile Trade Journal. The value of the 1922 automotive output will be approximately as follows:

Automobiles	\$1,350,000,000
Tires	675,000,000
Replacement Parts	550,000,000
Accessories	150,000,000
Total	\$2,725,000,000

This total is 33 per cent greater than the value of the output in the second largest industry, the refining of petroleum (65 per cent of which is used by automobiles), 65 per cent greater than the value of the iron and steel output, and more than twice the value of all cotton goods produced in the textile mills of the country.

The automobile business is the most essential of manufacturing industries, because it directly affects a greater number of what might be

Albert's Hearing Was Postponed

Vincent Albert, charged with the attempted murder of George Roy, both of Grand Downs, was before Police Magistrate Lawlor Thursday morning for preliminary hearing, but was postponed until Royal is sufficiently recovered to give evidence. Royal still continues to improve. Albert has retained Messrs McDade & Barry.

LORD BEAVERBROOK DISAPPOINTED

Was Too Late to Rectify Lloyd George's Mistakes

London, Oct. 21.—Lord Beaverbrook, who, it is now a matter of common knowledge, was largely instrumental in paving the way for the Lloyd Georstan premiership, has not been inactive in the latest political developments, so the Canadian Press understands, but it is claimed that his attitude has been demonstrated daily in the columns of his paper, the Express. Lord Beaverbrook was thoroughly in accord with Lloyd George's policy until a year ago, when the Turco-Greek difficulties arose. Some weeks back Beaverbrook went to Constantinople, unofficially, but with full intention, if possible, of repairing what his political associates considered were mistakes in Lloyd George's diplomacy with the Turks. However, before he arrived, the Turks had smashed the Greeks, and Beaverbrook was powerless to influence the situation.

termed "basis" industries than does any other manufacturing enterprise.

Annual imports of crude rubber into the United States are now 600,000,000 pounds per annum. Of this total, 81 per cent, or 490,000,000 pounds, will be required this year for automobile tires.

Production of plate glass this year should total about 68,000,000 square feet. Nearly one-third of this, or 21,500,000 square feet, will be required for automobiles.

This year 5,400,000,000 gallons of gasoline will be produced. About 5,320,000,000 gallons, or 80 per cent of this total, will be used in automobiles.

While over 850,000,000 gallons of lubricating oil will be refined in 1922, only 575,000,000 gallons will be required for domestic consumption. About 230,000,000 gallons, or over 40 per cent of the domestic consumption will be needed for the operation of automobiles.

About 75,000 bales of Egyptian-type, long staple cotton will be grown in the United States this year while 400,000 bales will be imported from Egypt. About 38 per cent of this total, or 180,000 bales, will be used in the manufacture of automobile tires.

With its various subsidiary lines, the automobile business influences the industrial labor market to a more pronounced extent than does any other industry.

There are 727,000 wage-earners, in production, sales and service work, whose income is derived directly from the industry.

In addition to these there are 935,000 other wage earners, who derive their income indirectly from the automobile business.

There are approximately 12,750,000 wage-earners supported from manufacturing industries or engaged in transportation. Of these, 13 per cent are dependent upon the automobile business.

The automobile is, today, the leading passenger transportation agency in the United States. There are 55,250 railroad passenger coaches in use, having a seating capacity of 2,270,000 passengers. The seating capacity of 9,500,000 automobiles in use is 47,000,000.

Based on records for the past five years, there should be 47,000,000 passenger miles to the credit of rail-facilities in 1922. The automobile must be credited with 114,000,000,000 passenger miles this year.

INCREASE IN YUKON'S GOLD PRODUCTION

Because the Autumn Has Been Unusually Mild

The Yukon's gold output may total a million and a quarter ounces. Dredging continues along the creeks beyond the usual period because of the unusually mild autumn and the gold production will be increased correspondingly.

Hydraulic mining operations were shutdown a few days ago, but there is activity still throughout the bold creeks. The silver output from Mayo shipped to date is about 750,000 ounces.

Grandpa—"No Johnny."

Johnny—"Well, do ministers?"

Grandpa—"Why, of course. Why do you ask?"

Johnny—"Well, suppose a lion eats a minister?"

CABINET MINISTERS ON NORTH SHORE

Hon Dr. King in Northumberland, Monday

The minister of public works, Hon. Dr. J. H. King, accompanied by H. Piedman, secretary of the department, and O. Turgeon, M. P., Bathurst, paid an official visit to the Miramichi district on Monday 16th inst. They were met at the station here by Hon. John Morrissey and a number of citizens and driven to Nelson, where the needs of that district were discussed with Hon. J. P. Burchill, afterward going to Chatham, where influential citizens were interviewed including W. S. Loggie, who represented this county at Ottawa for many years, and who for the past two years has been confined to bed. The party left the same evening for Bathurst.

THE SHADOW OF WAR

War casts shadows both before and after. Here in Canada there might not seem to be more than sympathetic reasons for feeling sorry about the burnings and pillaging of Smyrna. But along comes Dun's Bulletin with a mercantile summary which says in part: "Owing to the trouble at Smyrna there will be no supplies this year of Sultana raisins, nor, it is expected, will there be any material supplies of dates. Great Britain is said to be in the California market for large blocks of seedless raisins as a substitute for Sultanas, and prices have consequently been greatly advanced." Depend on British merchants, when casting their prophetic eyes over the calendar to detect the missing dates. What the Britisher is doing to remedy this defect we do not know, but the glad tidings that the British householder will have raisins in price won't please as Canucks, as we will want dates in our chocolates for sure now that we know they will be scarce.

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial Constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, Disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50¢ a box, 6 for \$2.50, trial size 25¢. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

ENORMOUS COST OF PARIS' TRIALS

Total Amount Estimated At About \$15,000, Share Of City About \$11,000

It is estimated that the cost of the five trials of John Paris will cost about \$15,000 to the tax payers of the city and province. Of this amount it is estimated the municipality of the city and county of St. John will have to pay about \$12,500, and as the city pays 87 per cent of that the city will be nearly \$11,000. Included in this amount are the bills for witness fees, board of the various juries, jury fees, court and constable expenses.

The provincial bill, which includes the cost of the crown prosecutor, will be in the neighborhood of \$2,500.

A man going home drunk one night fell into a watering trough. He kicked and spluttered until a policeman ran up and began to pull him out, when he blinked at the moon, which just came out from under a cloud, and said: "N-never mind me, o-officer: save the women and ch-children"

MARITIME PROVINCES GETTING BUSY

New Brunswick reports to Bradstreet's say that business in the Maritime Provinces is now recovering from the check given by the labor dispute in the local coal mines. Considerable stimulus is being given to business by the activity in lumber along the north shore of the province and stocks which have accumulated there since war time are now being moved. Steamer and sailing vessels are now being loaded in numbers which surpass anything witnessed for years and the employment thus furnished and the money put in circulation have made a substantial improvement in conditions. The clearing up of old stocks also opens the way for more extensive lumbering operations in the coming season.

MIRAMICHI HOSPITAL ON APPROVED LIST

Boston, October 23—Hospital service to the public in New Brunswick has shown a marked advance in the past year, according to the fourth annual report of the American College of Surgeons released here today. This report is based on a survey which includes personal visits to each hospital of fifty beds or over in the United States and Canada. The following hospitals were given a place on the "approved" list.

- *Chipman Memorial Hospital, St. Stephen.
- General Hospital, St. John.
- Hotel Dieu, Campbellton
- Hotel Dieu, Chatham
- Miramichi Hospital, Newcastle.
- Moncton Hospital, Moncton.
- St. John's Infirmary, St. John.
- Victoria Public Hospital, Fredericton.

The asterisk indicates hospitals which have instituted measures which insure scientific medical care to their patients, but which have not realized them to the fullest extent to date.

"The institutions listed above proved that they are giving the best of scientific care to their patients," declared Dr. Franklin H. Martin, Director-General of the American College of Surgeons. "Aided by one of the great educational foundations, we have carried on actual visits to hospitals, made by trained medical men who see working conditions as they are. For the first time this year we have surveyed hospitals of 50 bed capacity and up. These institutions as well as the larger hospitals show a marked improvement the country over and places New Brunswick in the fore front of states who are active in medical progress."

CANADA'S VIEWS GIVEN TO U.S.A.

Canada's views in the matter of a new treaty to regulate the strength of naval vessels on the Great Lakes have been placed before the American Government as the basis for a draft treaty and unless an invitation is received from Washington to send a minister there, it is not thought likely that a further official visit will be required.

During the summer, when the Prime Minister and Hon. George P. Graham, Minister of Militia and Defence, were in Washington they placed before the American Government their ideas as to how the Rush-Bagot treaty might be revised and brought up-to-date. These representations were made through the usual channels of the British Embassy, and since the return of the Prime Minister to Ottawa a draft was forwarded to Washington setting forth officially what Canada wanted.

In the framing of a proposed treaty by the Washington Government, however, it may develop that certain changes in the Canadian draft are asked which will necessitate the visit of a Canadian Minister in which case it is thought that Hon. George P. Graham, as Minister of National Defence, will be the likely man to conduct the negotiations.

The decision of the British Government to leave the matter in the hands of Canada direct will, it is expected, be one of the matter for discussion at tomorrow's meeting of Cabinet Council, and a decision may then be reached as to the sending of a Minister when the necessity arises.

PATRONAGE AND THE BENCH

If the King Government, by some fluke, were to appoint to one of the recurring judicial vacancies some gentleman of the legal profession who had never been a Liberal partisan, there might be just the ghost of a chance to argue that the long string of rewards so conferred since last winter had just happened to go where they did. But the record is unbroken. If the first essential qualification for appointment nowadays is not ability to point to service in the Liberal ranks, nothing to the contrary can be proven from the list of names.

It is not in human nature, perhaps, that an administration, especially a new one, should allow men, of whatever legal eminence, to acquire judicial office if they have been actively hostile to the party which that administration represents. But the Government in which Sir Lomer Gouin is minister of justice, has chosen to elevate men who have been outstanding Liberal partisans, a majority of them defeated Liberal candidates at one time or another. Some cases at least the choice cannot possibly have been due to legal ability, and at least in one instance, that if J. D. Adamson, twice defeated Liberal candidate in Selkirk, now judge of the King's Bench of Manitoba, protest against the appointment, made unsuccessfully by the Law Society.

From Sir John A. Macdonald's first days in power, following Confederation, right down through the administrations of Sir Robert Borden and Rt. Hon. Arthur Meighen—and indeed, that of Sir Wilfrid Laurier—a high standard was maintained in connection with nominations to the judiciary, with the result that the Bench in Canada enjoys the highest possible reputation. To permit a lowering of this standard is more than political sharp practice; it is to strike a blow at the very foundation of British institutions.

GROW NATIVE TREES

Some years ago a Canadian forest engineer who was doing some work in the centre of one of the second tier of counties northward from Lake Ontario, met a man who was fencing-in a hundred acre lot. The land was what is commonly known as a pine barren, an area once covered by a pine forest, but since that was clean cut off and burned over, practically a useless waste. Any farms taken up in the area had been abandoned, and the repeated fires and the running of cattle had up to that time frustrated the attempts of

PAINS IN BACK AND SIDES

Relieved by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ontario.—"I used to have very bad pains in my back and sides and often was not fit to do my work. I tried many medicines before I began to take yours. I saw Lydia E. Pinkham's Vegetable Compound advertised in the 'Toronto Globe' and now that it has helped me I recommend it to all of my neighbors. I keep it in the house all the time and take it once in a while no matter how well I feel, for one ounce of prevention is worth a pound of cure."
—ELIZABETH CAMPBELL, 13 St. Paul St., Lindsay, Ontario.

To do any kind of work—and you know there is much to be done—is next to impossible if you are suffering from some form of female trouble. It may cause your back to ache or a pain in your side; it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.
Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of these troubles, and restore them to normal health.

pine to come in again, although around old trees that had been left clumps of young trees were bravely making a start.

Learning that he was talking to a forest engineer, the man doing the fencing proceeded to explain that he was a Canadian, who had resided a long time in the United States, and that he had now come back to Canada to try his fortune in growing soft-shelled walnuts on this cheap land. The forest engineer said that growing trees was a good investment, if a long-time one, but he asked, "Why plant soft-shelled walnuts?" "Because Mr. Blank" (naming a celebrated botanist) "personally assured me that they were the most profitable kind of trees. One has yearly harvests of nuts to bring in money while his trees are growing to timber size."

"All that is true," said the forest engineer, "but Mr. Blank lives in California. I do not think he was ever in Ontario, and it is practically certain he was never in this country. Walnuts will grow here, but they are native only along the north shore of Lake Erie. That they would really thrive here is doubtful, and that is more particularly true of a special and probably tender variety. This land once grew some of the finest white pine Canada ever produced. In spite of fires and cattle, white pine is struggling, as you see to cover the ground again; why not grow white pine, when nature is ready to meet you halfway? Walnuts are a gamble, pine is a certainty."

However, the walnut man with his California guarantee was not to be dissuaded. He spent considerable money in planting soft-shelled walnuts, and is now back in the United States at his old job, convinced that forestry is a fraud. In the meantime, the white pine has continued to come back and in a few years there will be a county forest of fine young pine in the township in which his soft-shelled walnuts were a failure. It is a good plan to experiment with exotic trees, but as a business proposition it is better to start growing the best of our Canadian native species, than which for the production of structural timber there are no finer in the world. No human being has ever lived with out wood. So far as we can see, no human being ever will. Even the Eskimo in the frozen North, where no trees grow, must have wood. It is an absolute necessity. Human life began in the forest, and if the forest disappears, with it human life will end.

THE BUSINESS OUTLOOK

Monetary Times: The foremost question of the moment is whether the remarkable activity of the mid-summer months will be followed by a period of gradually and conservatively increased business or whether it is the forerunner of a period of secondary inflation. The indications point clearly to the conclusion that good business based primarily on domestic requirements is ahead for the autumn months, but that inflation in the generally accepted sense will not occur.

Manufacture is on a satisfactory basis, excepting in so far as some industries have suffered from lack of coal and inadequate transportation facilities. Crop yields are excellent for practically all crops, according to September estimates, and the forecast is for a cotton crop in the United States more than two million bales above that of last year. Unemployment is practically nonexistent. Retail and wholesale business in the United States during the autumn will show considerable expansion over that of the corresponding period of 1921.

It must nevertheless, be recognized that even though crops are large, dollar wheat, a considerable decline in the price of hogs since the first of June, and relatively low prices of other agricultural products have reduced the purchasing power of the farmer. The situation is similar in respect to other important classes of raw materials. These conditions and the fact that not far from one million men were continuously out of work in the States as a result of strikes during the greater part of the summer, are major factors which have effectively blocked inflation at this time. Business is being booked for requirements of the immediate future and forward buying is cautious. Good business is assured but it is not reasonable to expect a boom.

It may well be that prices in some lines may continue to tend upward as price and wage readjustment proceeds, but any rapid general upward tendency in the prices of goods ready for the ultimate consumer would be checked by unwillingness and inability on the part of purchasers throughout the world to follow up the market. Manufacturers and merchants will still find it essential to pursue a policy of careful and economical operation for the best prospect of profits, lies not in rapidly rising prices, but in operating efficiently and gradually expanding volume of business.

Gripping Pains Of Rheumatism

Cannot be Banished by Liniments Reached Through the Blood

Thousands of men and women suffer severely from rheumatism. Gripping pains in the muscles and joints make every moment a torture. Many people think rheumatism is due to cold or wet weather and they try to banish it by rubbing the painful parts with liniment. This is a great mistake; the rheumatic poison is in the blood and liniment and rubbing cannot do more than give temporary relief. If you are a victim of rheumatism or lumbago the way to rid yourself of it is by making the blood rich and pure, for only in this way can the rheumatic poison be driven from the system. To enrich and purify the blood, Dr. Williams' Pink Pills should be taken. They act directly on the blood, making it rich and red, and in this way the trouble disappears. Thousands of people have proved this, among them Mrs. H. King, Crofton, Ont., who says:—"I was attacked with rheumatism in my right arm and shoulder. It pained me so that I could not raise the arm to comb my hair or feed myself. I commenced taking Dr. Williams' Pink Pills and after taking three boxes I seemed all right again. About six months later, however, the trouble came on again, this time in my left arm. Again I took Dr. Williams' Pink Pills with the same beneficial results, and since then I have had no return of the trouble. Now I recommend Dr. Williams' Pink Pills whenever I get a chance. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont."

FALL PREPARATION FOR THE VEGETABLE GARDEN

Probably no effort is so well repaid as that given to the development of a good vegetable garden. It is wise to make preparations for this in the fall, in order to realize the benefits accruing from the early sowing of many vegetable crops. There is really no good reason why the vegetable garden should not be prepared in the fall, except that the time necessary to do so is set aside for the vegetable garden. If this is not the case, by all means set aside a certain plot now, locating it reasonably near the house so that vegetables may be conveniently gathered with a minimum loss of time to the housewife.

Apply twenty to twenty-five tons of stable manure per acre. Ten pounds to the square yard is equal to twenty tons per acre. Plow this six to eight inches deep. If it cannot be plowed dig it in. The amount of manure to apply will vary according to the way the soil has been previously

WHERE THE GOOD GOODS COME FROM

manured. It is not wise to over-fertilize, and if annual applications are made, probably five pounds per square yard will be quite sufficient. It is desirable that certain areas should be ridged or mounded, to permit of ready drainage and early drying out of the soil in these, carrots, beets and lettuce for very early use are seeded. Here also cabbage, cauliflower and celery are started for planting out later. There is very often difficulty in getting such plants in the spring. This may be overcome by giving a little thought now to the development of a spot where seed may be sown just as soon as the surface soil is dry to the depth of one or two inches. It is quite often possible to sow seeds outside on each plot about the middle of April. The only reason why onions are so seldom

on a success in this country is that the seed is put in the soil the middle of May when they should have been planted a month earlier. For this early spring seeding surface working of the soil is all that is required, if the land has been fall prepared, and this can be done early if good drainage is provided by mounding up strips three to four feet wide as already indicated with a slight surface slope to give drainage. It will be understood that, for spring growth, in addition to heat a readily available food supply is necessary. In old garden areas this is usually present, but if the garden plot is new, it may be necessary to use a little quick acting fertilizer to give the crops a start. One ounce per square yard of nitrate of soda or other active fertilizer is equal to

three hundred pounds per acre; this amount is sufficient for any vegetable crop. If fertilizers are applied, it is wise not to make the mistake, so often made, of applying too large amount without thoroughly mixing it with the soil. Surface applications of fertilizers like nitrate of soda very often kill the young plant just as it germinates; and for that reason it is much better to depend upon an application of stable manure well worked into the soil the previous fall. Many good prospects have been blighted by not using good judgment in the application of commercial fertilizers to small areas, either through applying too much, fertilizer too small areas either through applying too much, or through not thoroughly mixing into the soil, before seeding, that which has been applied.

WINTER FEED FOR THE DAIRY COW

How to keep up the winter milk is a problem confronting a great many dairymen, more so in sections where the temperature is lower than in the milder climate of the south. The milk yield of a cow goes up in the fall and in the spring and just as naturally the sup-

ply drops in the fall and increases in the spring. The dairyman given good cows, the proper proportion bred to freshen in the fall, and conditions suitable for good general management in the matter of sanitation and thorough and regular milking, it is his duty to find the best way to keep the milk supply up to the maximum. The milk yield of a cow is dependent on the quality of the feed she receives. The best feed for a cow is a mixture of good hay and concentrates. The hay should be of the best quality and should be cut and stored in a dry place. The concentrates should be of the best quality and should be given in moderation. A cow should be given a good quality of hay and a good quality of concentrates, and she will give a good yield of milk.

OBITUARY

MRS WILLIAM HARE
In the passing of Mrs. William Hare on Monday the 15th inst. Whitneyville loses one of its oldest and most highly respected residents. Deceased before her marriage was Miss Anne Nicholson Dunnett, eldest daughter of the late member of this family. She was born in Whitneyville in 1829 93 years ago.

The late Mrs. Hare was a woman of sterling character and charitable disposition and loved by all who knew her. She was a devoted member of the Presbyterian Church, and took an active part in church work, until illness prevented her doing so. There are four daughters and five sons surviving. The daughters are: Mrs. John Stewart, Boom Road; Mrs. Henry McLean, Newcastle, Mrs. George Jones, Houlton Maine, and Mrs. Hamilton Ruth, Lenneus Maine and the sons, Alexander, John, William and Earnest of Whitneyville and Frank of Newcastle.

The funeral was held on Wednesday afternoon from the home of her son, Alexander. It was one of the largest ever held in Whitneyville many taking this opportunity to pay their last respects to one so well-known and highly respected. Services were conducted by Rev. L. H. MacLean and interment was in the Presbyterian cemetery, Whitneyville. The pallbearers were Edward and Gregory Dunnett, Peter Forsythe, Donald McTavish, Hiram Whitney and Edward Touche. The funeral was under the direction of Messrs. Bell and Morrison.

DOUGLAS BROWN

Douglas Brown, a well-known resident of the North End St. John, died on Sunday night 15th inst. in the hospital there after an illness of ten weeks. He had been in failing health for some time and it was decided that an operation was necessary. It was successful and until a week ago he seemed to be improving, but a change for the worse set in and death resulted. He was seventy-three years of age and was born in Digby, N. S. For many years he conducted a boot and shoe repair shop in the north end. He is survived by six sons, John in San Francisco; Douglas R. of this town; Rev. Chester N. of Blanford, P. E. I.; J. Leonard, Charles E. and William of St. John; also two daughters, Mrs. George I. Higgins and Mrs. E. J. Hartshorn of St. John. The funeral took place on Wednesday at 3 o'clock from his late residence 77 Portland street.

The many friends in this community of Mr. D. R. Brown, extend to him sincere sympathy.

much rough feed if supplied in conjunction with concentrates in the proper amounts. Among the most popular or widely used winter roughages are hay, straw, ensilage and for dairy cows legume hays are much more valuable than grass hays. For milk production good alfalfa hay has no equal but, if this is unobtainable, good clover or mixed hay is satisfactory. Damaged hay can be made more palatable by cutting and mixing with silage or pulped roots. The same holds true regarding straw. To provide the necessary succulence in a ration for dairy cows roots or silage, or both, are invaluable. Not only are these feeds succulent but they are bulky and comparatively cheap. Generally it is good business to give a milking cow all these feeds she will consume.

This does not hold true regarding concentrates. A popular practice is to feed the cows one pound of grain for every 3 to 4 pounds of milk they produce. This is a good general rule to follow. What the grain mixture should be will depend upon prices of the different feeds at that time, bran, oats, barley, oil meal, shorts, soybean meal, brewers grains and cotton seed meal are the commonly used concentrates. Bran 4 parts; ground oats 2 parts; ground barley 2 parts; oil cake meal 1 part; makes an excellent grain mixture for a commercial dairy herd. It should be kept in mind that a freshly calved cow abundantly and carefully fed will usually produce the cheapest milk. At this time a pound of grain is equivalent to several pounds of hay later after the cow has decreased her milk flow. Good quality roughage and concentrates for producing cows should be of the best quality and should be given in moderation. A cow should be given a good quality of hay and a good quality of concentrates, and she will give a good yield of milk. Charcoal and other minerals.

GRANITE
SHERARD
WORKS

PERSONALS

Mr. E. Bourgeois of Tracadie was in town on Thursday last.

Miss Madeline Walker of Montreal is visiting Miss Nan Creaghan.

Mr. Mahoney of New Glasgow N. S. is visiting Mr. Charles Dickson Jr.

Mr. and Mrs. W. F. Copp left on yesterday's limited for St. John.

Mrs. A. B. Copp of Sackville is visiting her sister, Mrs. G. G. Stothart.

Mrs. Edward Wiseman and son Eddie were visitors to Moncton last week.

Mrs. Jane Dickson of Napan is visiting her daughter Mrs. John H. Ashford.

Mrs. Wm. Sinclair entertained very pleasantly at bridge on Tuesday and Wednesday.

Mrs. A. G. Putnam of Sackville, N. B., is the guest of Mr. and Mrs. G. P. Burchill, Nelson.

Mr. D. R. Brown has returned from St. John where he was called owing to the death of his father.

Mr. and Mrs. J. Gordon Archibald have returned from their honeymoon trip and have taken up their residence in Chatham.

Leonard Burns, Mark Hachey, Harold Dalton and Everette Black have returned from the Western Wheat Fields.

Mrs. Peter A'Haran who has been visiting her daughter in Hyannisport, Mass., for the past two months has returned home.

Mr. and Mrs. Wm. Sinclair and Mr. and Mrs. John Russell are enjoying a hunting trip on the Northwest Miramichi River.

Mrs. Hiram Brayton and little grandson of Cassilis, N. B., left on Lawrence, Mass., where they will spend the winter.

Miss Muriel Johnson, of Blackville, has returned from Fredericton while there she was the guest of her friend Miss Marion Tweeddale.

Mr. W. J. Bate, who recently underwent an operation in the Miramichi Hospital is improving in health and will return to her home shortly.

Mrs. Otto Gertz returned to her home in Brockton, Mass., today after spending the past three weeks in town, the guest of her sister, Mrs. Wm. McGrath.

Mr. and Mrs. John Touchie of Renous accompanied by Mr. and Mrs. P. A. Forsythe, of Whitneyville motored to Fredericton last week where they spent the week-end with friends.

Rev. Wm. Girdwood and wife and family of Red Bank, returned by motor on Wednesday from Fredericton, where they had been visiting Mrs. Girdwood's father, Mr. John Greer.

WEDDINGS

STUART-JOHNSON
St. Stephen, Sept. 20th--A quietly happy wedding party gathered at Christ Church on Tuesday afternoon at 3 o'clock when Miss Margaret Eleanor Stuart, daughter of the late Edward M. and Mrs. Stuart was united in marriage to Mr. Edward S. Vye Johnson of Blackville, by Ven. Archdeacon Newnham. The bride looked very attractive in a stylish Travelling costume of brown cloth with hat to match and wore handsome fox furs. After the ceremony the happy young pair returned to the home of the bride's mother and shortly afterwards left by auto for a wedding trip through several parts of the province before going to their home in Blackville. The bride was the recipient of handsome wedding gifts.

MORRISON-ANDERSON

A wedding of much interest was solemnized at Burnt Church, on Thursday, Oct. 19th, when Frances Marion, daughter of William Anderson was united in marriage to J. Ray Morrison, son of Mr. and Mrs. James Morrison. The ceremony was performed by Rev. J. C. Mortimer in St. David's church, which was prettily decorated for the occasion by friends of the bride. The bride was attired in a navy velvet suit with henna hat and carried a bouquet of roses and maiden hair fern. After the ceremony the happy couple repaired to the home of the bride's father, where a dainty lunch was served. Later Mr. and Mrs. Morrison left on a motor trip through the province.

He had been drafted to a cavalry regiment and was paying his first visit to the riding school.

"Ere's yer 'orse," cried the instructor.

The recruit advanced gingerly, and examined his mount with great care.

"What's it got this scrap round it for?" he said, pointing to the girth.

"Well," explained the instructor, "you see, all our 'orses 'ave a keen sense of 'amour, and as they see the recruits, we put 'em bands round 'em to keep 'em from splittin' their sides."

MAIL YOUR REMITTANCE

We have rendered our subscription accounts and would respectfully request each subscriber to remit us the amount due.

OCTOBER 31ST IS NATIONAL FISH DAY

Tuesday, October 31st, has been named as National Fish Day, for this year, by the Fisheries Branch of the Dept. of Marine and Fisheries.

Preparing For The Wintering Of Live Stock

In preparing for the wintering of live stock it is important, first of all to see that the stable and barns are in proper shape, such as, all broken glass replaced, doors tightened, stanchions or chains looked over carefully and any weak or broken parts renewed. The manglers should be inspected to see if they are tight and so arranged that they can be kept clean with a little labour as possible. Gutters and floors need to be tight in order to save all the liquid manure, which is the most valuable.

The ceilings and walls should be swept down and a good coat of white wash applied, with some standard disinfectant added to guard against vermin and disease, and, at the same time, make the stable much lighter.

If there are not many windows in the stable add a few more, especially on the sunny side. Plenty of light, sunshine and good ventilation will help to save feed and veterinary bills, cattle and sheep should all be washed or dipped with one of the standard dips, before being put into winter quarters, as a preventive of vermin. It is also a very good plan to clip a strip along the backs of the cattle, as well as the neck and shoulders when they come in from pasture.

With these preparations, and plenty of good clover hay, silage or roots or both, and regular feeding, live stock can be wintered in good condition with the minimum of profit.

Beware of SORE THROAT

PEPS Your Best Safeguard.

BECAUSE the throat is "the highway to the lungs" you should take Peps immediately it feels tender, sore or inflamed.

Peps are the wonderful healing and infection-killing medicine which you breathe from pleasant dissolving tablets down the air-passages into every nook and corner of the bronchials and lungs. Peps quickly relieve pain and irritation. They

Exterminate Germ Trouble, strengthen and protect the throat and bronchial tubes, and prevent the development of winter cough, bronchitis and asthma.

Peps are safest for children and adults. They contain no opium, chloral or other nerve-depressing drug, nor any formalin or similar throat-parching chemical found in common tablets.

Peps

INFECTION-KILLING TABLETS

Peps are commended in the highest terms by Dr. Gordon Stables and other eminent medical men. They provide the pleasant, speedy and safest of remedies for prevalent throat and chest afflictions. Make yours! secure against germ attack. Provide yourself with a box of Peps today! See all druggists.

Stiffness

It is astonishing how quickly degree of stiffness and lameness is relieved.

Min. A. R. Calvert, 25 Park Ave., Guilford, Ont., writes: "My husband has used Minard's Liniment frequently, always with good results. Friends of mine use it for rheumatism and tell me that it gives great relief."

Min. Fred Johnston, Box 118, Toronto, Ont.—"I suffered very much with neuritis in my feet last winter, was advised to try Minard's Liniment, and was relieved immediately after few applications. I persevered in using it and it has entirely gone. This winter I can go out without tying up my feet and give the credit to Minard's Liniment. Have told several people about Minard's, and others are using it."

THE GOVERNORSHIP OF THE PROVINCE

The Frederickton Gleaner says: October was the month named last spring for a momentous political shuffle in New Brunswick.

The month is now more than half-way over and the shuffle has not yet taken place, but political circles are expecting some move will soon be made.

The axe upon which the changes will revolve is the Lieutenant Governorship, and there also is a Senatorship open for New Brunswick, while changes in the Supreme Court bench have been persistently rumored.

Hon. William Pugsley's term as Lieutenant Governor will close on November 8th next. He was appointed on November 2nd, 1918, and sworn in on November 8th of that year. It has been variously reported that he will re-appointed and that he will go to the Senate.

The vacant Senatorship is that held by the late Hon. Frederick Pemberton Thompson, of this city. It was said at one time that there were more than thirty names on the long list of Liberals in New Brunswick who figured their party services and prominence made them deserving of this appointment, and no doubt the list has since been increased.

Friends of O. Turgeon, M. P. for Gloucester, have strongly advocated his appointment to the Senate, and it has been reported that if Hon. Dr. Pugsley went to the Senate, instead of accepting re-nomination to the Governorship, Mr. Turgeon might be appointed. The appointment of W. F. Todd, ex-M. P. for Charlotte, to the Lieutenant Governorship in the event of Hon. Dr. Pugsley going to the Senate, has also been strongly advocated by his friends and quite generally pressed.

Beatty Says Navy Must Be Strong, Up to Minimum

Admiral Earl Beatty, who received the honorary degree of Doctor of Laws at the University of Leeds, in acknowledging the bestowal of the honor said that Great Britain should fully maintain the standard of naval power laid down by the Washington conference. The world recognized that the Government's acceptance of that standard was unimpeachable evidence of the British Empire's desire for peace, he said. The standards of strength adopted at the Washington conference were those which offered the brightest prospects for peace.

It was an unfortunate factor of the present civilization, Earl Beatty continued, that casting aside proper means of self-defence did not make for peace, and Great Britain could not afford to relax altogether the precautions necessary to maintain her national and imperial interests.

"With our burden of debt," said Earl Beatty, "we are unable to afford to do more than maintain the minimum necessary to assure our security. That minimum was laid down by the Washington conference and we are not going to fall below it."

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.

Grecian Republic Will Not Be Formed Says Venizelos

Former Premier Venizelos, of Greece, considers it improbable that a republic will be formed in that country as an outgrowth of the current campaign towards such an end.

He expressed this opinion when shown an Associated Press despatch from Athens which told how the campaign for a republic had strongly aroused the royalist newspapers.

There undoubtedly exists a strong democratic movement for a republic in Greece, the former premier said, and doubtless many candidates will stand on that program at the forthcoming election.

Venizelos reiterated the statement that, having retired from politics, he would not take any active part in the formation of a republic.

The Fall Weather Hard On Little Ones

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. It is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

CHURCHILL HAS APPENDICITIS

Winston Spencer Churchill, secretary for the colonies, who was taken ill Monday, has developed appendicitis. It was said to be too early for the doctors to decide definitely of the necessity of an operation.

REV W A McQUARRIE CALLED TO REXTON

The congregation of Rexton and Richibucto in the Presbytery of Miramichi, has extended a call to Rev. W. A. McQuarrie. Mr. McQuarrie has recently returned from a year of more study in the old land, having been awarded the James William Carmichael and Alumni scholarships by the senate of Halifax Presbyterian College on his graduation in 1916. He held a pastorate in Bedouque P. E. I. before going abroad. Rexton has been vacant since the resignation of Rev. G. S. Gardner, in July last.

HYDRO EXPERT COSTING

ST JOHN \$125 A DAY. F. W. Scheidhelm, of New York, hydro expert, who was engaged recently by Mayor McClellan to advise the city in connection with the proposed contract for the Musquash current, is costing the city \$125 a day, irrespective of whether his work is in this city, in his office or elsewhere. This information was given by Mr. Scheidhelm at his introductory meeting with the members of the city council at noon yesterday, according to a statement by one of the commissioners today.

BAN ON POSTAL NOTES TO BE LIFTED SOON

Within three months the ban placed by the post office department upon the sending of postal notes to the United States will be removed. That could be done now but the fact that all the postal note forms now in use in the various offices in Canada have printed across them these words: "Not to be remitted to the United States."

To call all these in and print an entirely new stock would involve a large expenditure, so it is the intention of the department to await the exhaustion of this supply, which should be accomplished within three months, before permitting the sending of postal notes to the United States, now that Canadian money is at par in the neighboring nation.

SENATOR GETS DEER AND PARTRIDGE

Major General the Honorable Senator A. H. MacDonell, C. M. G., D. S. O. had a successful shooting trip of about two weeks at Musroll Brook, near Doaktown. While on the trip the general got a deer and several partridge and saw two moose although he did not get close enough to get a shot at them.

The party with which the general was shooting was met in the woods by Lieut-Col. H. C. Sparling, D. S. O. who got two deer in the last two days in the woods. At the time of meeting the general he had not been successful, his fortune improved later and he managed to bring down one of the speedy denizens of the forest.

Both General MacDonell and Col. Sparling report a good quantity of game in the woods of this district and say that the shooting is good. The colonel also had a try for a bear but the thick underbrush kept the animal out of sight until he managed to make good his retreat.

LOYD GEORGE RESIGNS

The vote of 186 to 87, by which Conservative members of the British parliament declared against further party support of the coalition, is sufficiently decisive not only to settle the question, but to give a clear indication of Conservative opinion. The party is through with Lloyd George. It no longer wants him as leader. The vote is an order to the Conservatives in his cabinet to resign, an order to the Conservatives who up to the present have given support to his government to refuse support. Resignation of the Conservative ministers and withdrawal of the Conservative support create a political crisis. It takes away from Lloyd George the majority which is necessary to run the government. It leaves the country without a party sufficiently strong numerically to take up the reins of office. It leaves the Premier the leader of a comparatively small group of Liberals, and it divides the House into four parties,—the Conservatives, the Lloyd George Liberals, the Asquith Liberals, and Labor. It creates a situation almost certain to force an immediate general election, while leaving the country in doubt as to the alignments for that election. The "Die Hards" of the Conservative party have won a notable triumph in their fight for party control, but it remains to be seen what the effect will be on the country. Will Lloyd George remain in public life, and if so what role will he play? A fusion of the two elements of the Liberal party under his leadership is unlikely. A fusion of Liberal Radicals with Labor is regarded by many as more likely would, perhaps would, inspire a movement to amend and perhaps amend

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

come the accepted head of such a coalition and might lead it to victory. Not less interesting than these speculations as to the Premier's future are the thoughts which suggest themselves regarding the leadership and future policy of the Conservative party. It is not to be overlooked that this political overturn comes before there has been final adjustment of the Irish question along the agreed Free State lines. The return to power of a Conservative party might, very probably would, create complications, and might, perhaps would, inspire a movement to amend and perhaps amend

Siki And Beckett On December 7

The fight between Battling Siki, the Senegalese conqueror or Georges Carpenter, and Joe Beckett, the English heavyweight, will take place in London on December 7 has been officially announced by the international boxing union, under whose auspices the bout was at first announced to take place on November 23.

The articles, which have been ratified by the international union call for a 26 round encounter and will be for the official heavyweight title of Europe, as neither Beckett nor Siki are able to make the light-heavyweight limit. The Senegalese will fight around 185 pounds, which is ten pounds heavier than the weight he fought at in the Carpenter struggle. The fight will be staged at the Olympia.

The original agreement, which was made last Sunday, called for the fight to take place November 23, but Major Arnold J. Wilson, Beckett's manager asked that it be postponed to a later date. Both fighters have made the deposits required by the rules of the International Boxing Union. The amount guaranteed to the fighters were not made public, but the Associated Press understands from a most reliable authority that Siki will receive £7,000 win, lose or draw.

"Face Disfigured From Eczema"

Writes the Nurse who finally tried D.D.D.
"The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing. Her nose and face have assumed their natural expression."
Cases can be sent you from your own vicinity. Write for testimonial or secure a bottle of D. D. D. today. Why suffer itching torment another moment? If you don't get relief on the first bottle we will refund without hesitation. \$1.00 a bottle. Try D. D. D. Soap, too.

Says Tanlac Is Fine to Build Up Weight

Persons suffering from stomach trouble and who are under weight find an ever-ready friend in Tanlac. This celebrated medicine has ended indigestion and increased the weight for thousands of people everywhere. Mrs. Robert Glayton, of 25 Hanover St., St. John, N. B. says:
"A year ago Tanlac ended a case of stomach trouble that had kept me miserable for five years. I gained fully fifteen pounds and I have been in fine health ever since.
Under nourishment is the cause of most cases of under weight. Tanlac enables the stomach to extract the healthy nutriment from the food, build up the whole body and increase the weight to normal. Millions of people have testified to its great benefits. Get a bottle today at any good druggist.

Entertained By H. Price Webber

Methodist Church Members Had Pleasant Evening

The members of the Green Street Methodist church were very pleasantly entertained in their vestry on Monday evening with a community sing, after which H. Price Webber related very interesting anecdotes of incidents in the course of his career as an actor and manager in New England and Canada, and his witty sayings were much enjoyed.
Mr. Webber also gave a selection of popular songs and instrumental music on the English concertina of which he is certainly a fine master. All present were loud in their praise of Mr. Webber's efforts to amuse and please and a hearty invitation to visit again was extended to him by the pastor, Rev. W. J. Layton, in behalf of the church members.

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

Members Of Forest Service Have Resigned

Two members of the forest service of the province of New Brunswick have resigned to take positions with companies one in this province and one in Quebec.

W. F. McColm, B. S's F. (U. N. B.) of North Esk Boom, Northumberland County has resigned his position, with the N. B. Forestry Department to accept a responsible position in the Forestry Department of Price Brothers, one of the largest companies in Quebec. His many friends in New Brunswick will wish him every success in his new position.
J. F. Jones has resigned his position of Forest Ranger to accept a responsible position with the Doaktown Lumber Company. Mr. Jones, who holds a N. B. Scaler's License, was formerly in charge of the launch game patrol and also log scaling on Chiputnetcook Lakes, north of St. Croix.

WOMAN'S LITTLE TOE

Women are losing their toes!
This startling assertion is made by Dr. Pfizner, a scientist, who says that in the near future women will have only four toes on each foot. The little toe will disappear!
The professor points out that in the days of ancient Greece women had three joints to her little toe, while it is known that Egyptian women had four. Nowadays normal women have only two joints, while there are many cases in which only one joint is found.
"As a rule," says Dr. Pfizner, "women have more primitive figures than men. But the foot is exception, and as civilization has progressed various organs have disappeared when no longer needed. Women have now done away with the use for little toe as a foot balance by adopting the high heel shoe. Consequently the little toe is disappearing."
"This change will not affect men, who will always retain five toes because they need them."

BATHURST CO. SELLS BONDS IN MONTREAL

\$,500,000 Bought By Royal Securities

To finance construction of a newsprint mill of fifteen thousand tons annual capacity to be completed by May of next year, and to increase productive capacity of sulphate pulp to 19,500 tons, the Bathurst Company of Bathurst, N. B., has sold to Royal Securities Corporation \$1,500,000 of 6 1/2 p. c. first mortgage convertible sinking fund-gold bonds, series "B", due June 1st, 1941.

The Bathurst Company in 1921 took over the Bathurst Lumber Company, which had been in successful operation for fourteen years. The Company manufactures some 30,000 tons of sulphate and sulphite pulp and approximately 30,000,000 feet of spruce lumber per annum. Its leasehold New Brunswick and Quebec timber limits total 2,563 square miles, which are estimated to contain 2,000,000,000 cords of spruce sawlogs and 10,000,000 cords of pulpwood. Timber areas are situated on rivers tributary to Bathurst Harbour, N. B. and the Baie des Chaleurs, Que. The Company is one of the largest manufacturing enterprises in Canada. Its plants and hydro-electric development of 9,000 h. p. are of recent construction. At Bathurst the Company has its own deepwater docks, from which shipments are made direct to the United States, South America, British West Indies, England and Europe.

Average sales for the last four years totalled over \$2,900,000 per annum. Net earnings 1917 to 1920 inclusive averaged \$577,778. Last year in common with other pulp and lumber manufacturers, the Company showed a loss after all charges of about \$300,000, due to exceptionally adverse market conditions. The Company's plants are now running full and its current operations are showing a substantial profit.

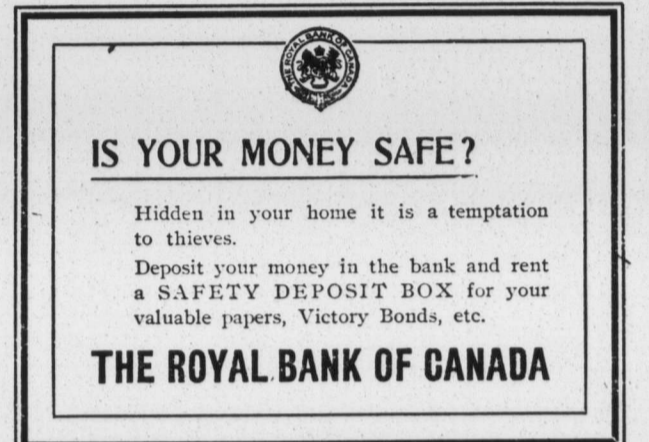

The new issue of \$1,500,000 of Bonds is the balance of a closed first mortgage of \$3,000,000, the first \$1,500,000 of which having been distributed a year ago in the United States market by Callaway, Fish & Company, of New York.

Properties securing the Bonds have an appraised value of \$9,250,000, plus over \$1,000,000 to be spent on the new newsprint mill, making property values in excess of 10,000,000, against \$3,000,000 of Bonds outstanding. Junior to the Bonds are \$9,774,200 of Common Shares, which shares are closely held mostly by Directors of the Company and wealthy banking and manufacturing interests in Montreal and Ottawa, Buffalo and the Lehigh Valley in Pennsylvania. Common dividends of 6 p. c. were paid in 1917, 1918, 1919, and 1920, with a 3 p. c. dividend in 1921.

The Bonds are convertible into an equal amount of Common Shares at any time, at the option of the holder which is an unusually attractive feature of the issue.

It is expected that Royal Securities will make public issue of the Bonds at an early date, both in Canada and the United States.

New Brunswick is to be congratulated on its splendid showing and on the medical men, hospital superintendents, and trustees who have made this advance possible."

BORN

At Miramichi Hospital, October, 20th to Mr. and Mrs. J. D. Cook, Fredericton, Junction, a son.

PUBLIC AUCTION

Mr. J. R. Lawlor, Auctioneer, will sell at public auction on Friday, 28th inst., all the household furniture and kitchen utensils of Mr. Patrick Sullivan, Lower King's Highway. Sale starts at 11 o'clock, a. m.

STILL MISSING

Nothing further has developed as to the whereabouts of Henry Swim, Doaktown, North, who has been missing from his home since the 3rd of October. The last heard of him was that someone had seen him in Boston and recognized him, but nothing further has been heard.

RECEIPTS GOOD

Col. T. G. Loggie, Deputy Minister of Lands and Mines stated, that the receipts of the Department of Lands and Mines of New Brunswick for this year would exceed the estimated revenue by some one hundred thousand dollars. At the same time the Department has kept within an estimated expenditure. The estimated receipts had been seven or eight hundred thousand dollars and will be exceeded considerably. The situation is particularly gratifying.

A VAST IMPROVEMENT

The Family Herald and Weekly Star of Montreal starts its fall and winter campaign for subscriptions a vastly improved paper over what previously looked like perfection. To those who have read that great weekly for years it would seem impossible to make improvements. Nevertheless the publishers seem determined regardless of cost to make the Family Herald better value than ever before. Every Department is being strengthened and new features added. In fact the Family Herald and Weekly Star during 1923 will be of such value that no Canadian home can afford to be without it.

A CRUEL SLAM

Chatham News (Liberal) published on its first page recently, several days after announcement of the personnel of the new Canadian National Railway board, a cartoon entitled "The Kind of Experts Called In." This depicts the C. N. R. as a patient, halfstripped, and much emaciated, on an operating table. About him are five individuals, not too bright-looking, in consultation. Crude surgical tools are strewn about. A bewhiskered farmer is looking up a book on bee-keeping. A black-coated lawyer is browsing in a book labeled "divorce law," and an insurance expert is consulting a mortality table. The others are a storekeeper and a broker. The patient is exclaiming: "For heaven's sake get me a doctor!"

"FOOLSCAP"

Every one knows what foolscap paper is, but not every one knows why it was so called. An exchange ventures to say that not one in a hundred that daily use it can answer the question. The following will tell you how the term originated:

When Oliver Cromwell became Protector, after the execution of Charles I., he caused the stamp of the cap of liberty to be placed upon the paper used by the English Government. Soon after the restoration of Charles II., having occasion to use some paper for dispatches, some of this government paper was brought to him.

On looking at it and discovering the stamp, he inquired the meaning of it, and on being told he said: "Take it away. I have nothing to do with a fool's cap."

The term "foolscap" has since been applied to a certain size of glazed writing paper.

Food plus Vitamines

is efficient food. If there is lack of normal vitamine content the food is like a wire without electricity; it lacks the power to function.

Scott's Emulsion

enhances the value of the daily diet, because it adds the precious vitamines that help sustain and promote healthful progress. Scott's Emulsion builds strength.

Scott & Bowne, Toronto, Ont. P. 22-11

MASONIC LODGE

Masonic Grand officers visited the Newcastle Lodge Friday evening.

HALLOWE'EN ENTERTAINMENT

The Junior Girls' Club of St. James' Church will hold a Halloween Entertainment in St. James' Hall on Friday evening. Refreshments will be served after the Character sketch is presented by members of the club.

HEN THIEVES

A number of residents report the loss of chickens lately from their coops during the night. This is a favorite past-time for some people and it is to be hoped the culprits will be caught and made an example of.

CARD OF THANKS

The boys of the High School Harkins Army take this opportunity of thanking all the citizens who so kindly aided them in making their football game with Bathurst a success. The boys hope that they will receive the same help in the future.

WITCHES' NIGHT

The Witches will encamp in St. Andrew's Sunday School Hall, on Halloween Evening Oct. 31st, and invite their friends old and young to come with 10 cents admission fee at 8 o'clock. Fortune Telling, Halloween Pie, Witches' Supper, Candy, etc.

FIRST SNOW FLURRY

We were given the first reminder last Wednesday night of what is in store for us during the winter months. A cold north-west wind blew up a snow flurry and on Thursday morning the ground was white, which however, soon disappeared after the sun got up.

LEFT FOR HALIFAX

A meeting in connection with the proposed Federation of Maritime Universities will be held in Halifax today. On Monday, Premier Foster, Dr. W. S. Carter, chief superintendent of education, president of the Senate of the U. N. B., and Chancellor C. C. Jones, principal of that institution, left to attend this meeting.

ROYAL BANK DIVIDEND

The Royal Bank of Canada has declared an extra dividend of 2 per cent for the year ended in November in addition to the usual quarterly disbursement of 3 per cent. The dividend, payable December 1 to stock of record November 15 brings the total disbursement for the year up to 14 per cent.

CONFERENCE ON LOBSTER AND OYSTER FISHERIES

Mr. Ward Fisher, Chief Inspector of the Maritime District, Dept. of Fisheries, Halifax, accompanied by District Inspectors, J. J. Calder of Campbell and Randolph Crocker, of Newcastle, were in Buctouche last week where a conference was held with those connected with the lobster and oyster fisheries in that part of Kent County.

BAD SIDEWALKS

Several bad holes in the sidewalks have been reported. Recently a lady walking up Pleasant Street was thrown to the ground by a loose plank and was considerably injured. A gentleman going home on King's Highway was also given a toss and was thrown to the ground on his hands and face. It might be advisable to have these bad places in the sidewalk looked after before more serious trouble happens.

RETURNED TO TRURO

John Paris left for his home in Truro Tuesday evening. Quite a number of friends were on hand to see him off. Following his discharge from custody on Monday he spent a day visiting friends in this city, and called on at least some of the jurymen who voted for his acquittal to express his thanks. He does not intend to come back for a long time at least.

SUCCESSFUL TEA

A very successful tea was held in the Step Inn Tea Rooms on Wednesday afternoon by the Newcastle Sub-Division Catholic Women's League of Canada under the direction of Mesdames F. J. Desmond and P. J. McEvoy. Mrs. J. D. Creaghan and Mrs. A. L. Barry poured and the Misses Clare Lawlor, Corinne Lawlor, May McEvoy, Agnes Lawlor, Mona McWilliam, Florence McEvoy, Helen Lawlor Nellie Creamer, and Helen Dunn assisted in serving. The net proceeds to be added to St. Mary's Building Fund, will be about \$50.00.

NEW RESIDENCE

Mr. and Mrs. S. A. Watters of Chatham are preparing to move to Millbank, to reside in the manager's residence at the Dominion Pulp Mill.

DR. COUSINS HAS

TAKEN UP WORK
Rev. H. T. Cousins, Ph. D., chaplain of the Leper Hospital at Carville Louisiana (U. S. A.), was recently with Mrs. Cousins received at the White House by President and Mrs. Harding. Dr. Cousins is just taking up the work among lepers in this national reserve, where 1,000 patients are being treated, among them a son of the late lamented Rev. J. E. Davies, M. A.; who died in the lazaretto at Tracadie (N. B.) Dr. Cousins has just closed a happy pastorate of more than eight years at the Anacostia Baptist church at Washington (D. C.) going there from Newcastle.

A GOOD EXAMPLE

Nearly fifty years ago a little business was started in New York City which was destined to cover the world. Perseverance, pluck and business acumen, together with a thorough belief in Advertising (which was also in its infancy at that time), brought the enterprise up by leaps and bounds. That business is Scott's Emulsion, and the makers will tell you that Advertising did the trick. They believe that the purpose of Advertising is to increase profit from increase in volume of output (which means quick turnover) rather than big profits and small sales. To successfully advertise Scott's Emulsion, searching and sympathetic study, embracing every possibility of the curative power or medical worth of the purest Norwegian cod-liver oil it contains, its history as to food value, the environment and native peculiarities of the codfish itself in the frigid seas of Norway, where the makers of Scott's Emulsion maintain their own fisheries, the most scientific way of refining in the plant at Bloomfield, N. J. in airtight casks, are all necessary if Scott's Emulsion is to be advertised as a true, vitamine-bearing tonic-food. Eminent scientists claim a higher percentage of health-giving vitamins in cod-liver oil than in butter or cream. In Scott's Emulsion this vitamine-bearing oil-food is so scientifically compounded that it is easily assimilated by the weakened, run-down system; makes well nourished bone structure for teaching children; gives strength to growing children of school age; is unequalled in its power to relieve colds and bronchial troubles, and is helpful to those who are beginning to feel the weight of declining years. The point is, that had the makers of Scott's Emulsion not analyzed the marketing possibilities of their product, and had they not had the vision of increased sales through Advertising, and followed up the advertising with personal experience and observation of results obtained, Scott's Emulsion would be on the top shelf, forgotten—if it existed at all. This example is given to show the local advertiser the importance of following a well-planned advertising campaign—and the advertising department of this paper is maintained for the purpose of giving advice, based on past experience, to any local advertiser for the asking.

The nutmeg is the kernel of the fruit of a tropical tree.

KING AND CRERAR DECIDE
Premier King and Hon. T. A. Crerar have decided that Canada must not proffer co-operation with the other British nations without parliamentary endorsement and their refusal to summon parliament. Was parliament act without it is summoned and only Premier King can summon parliament. When this is not done it is not ridiculous to proclaim that parliament is being consulted. Messrs. King and Crerar by not summoning parliament have usurped its functions. The constitutional practice in British governments is for the cabinet to act and then immediately summon parliament. Mr. King will neither act or summon parliament. Is he cowardly or autocratic or both? The chief Liberal organ in British Columbia, the Vancouver

REGAL FLOUR

It's Wonderful for Bread

Sun, describes him as guilty of "cowardly evasion."

Why Mr. Crerar?

By what right did Mr. King summon Mr. Crerar to council in a national crisis? Mr. Crerar is not leader of the opposition. Why was Mr. Meighen ignored? Was it not that Mr. King knew Mr. Meighen would demand action and that Mr. Crerar delay and evasion? Was it not a part of the policy of cowardly evasion? Mr. Crerar is a pacifist. He was conscripted into Union Government and was a continuous drag on effective action while a member

He deserted Union Government in the most cowardly manner. Mr. King wanted a congenial colleague in the national crisis and he sent for Mr. Crerar. The decision was apparent before the consultation. It was one that was characteristic of both Mr. King and Mr. Crerar—"cowardly evasion." Not a man familiar with foreign affairs—was consulted but every anti-Britisher, every little Canadian, every pacifist was heard.

The Treaty of Sevres

Mr. King now says we did not ratify the Treaty of Sevres. Mr. King's

Senate Leader, Hon. Raoul Dandurand, says ye did. Who is right? Mr. King introduced the ratification bill into the Commons and secured its endorsement. Why did he do that in June and deny the object in September? Why did he act at all if he did not intend to stand by the decision parliament made at his request. He now says he only wanted to collect some debts owing to Canadians by the Turks. While Canada was a collecting agency, Mr. King believed in the treaty; but when Canada's honor was at stake he says there was no treaty.

The Latest in

FELT HATS and CAPS

At prices you can afford to pay.

The good quality, the latest styles and especially the LOW PRICES of our Hats and Caps are the talk of the town.

Call and look them over. It PAYS to shop HERE.
