

"Who plucked that flower?" "Cried the gardener as he walked through the garden; His fellow servant answered: "The Master."

MARY MOORE.

A Pleasant Love Story.

All my life I had known Mary Moore; all my life I had loved her. Our mothers were old playmates and first cousins. My first recollections are of a boy in a red frock and morocco shoes, rocking a cradle, in which reposed a sun-haired, blue-eyed baby, not quite a year old.

cause of my success, but because my laborious industry had counteracted the evil in my nature and had made me a better man. When, at the end of three years in India, I prepared to return home, I said nothing of the reformation of myself which I knew had taken place.

He is a man when he went away, but his eyes and smile are the same as ever. It is a heavy heart that changes him. He is my boy still. "Aye, mother," I answered, sadly. "I am your boy still."

BOUNTFUL HARVEST. — Although Saturday's rain threw some of our farmers back in their harvesting operations, nearly all have completed their garnering, and some have the land ready for fall wheat sowing. The barns are full, and stacks of grain stand for want of covering awaiting the thresher. The crop has been an exceptionally large one, and the threshers have an immense amount of work before them.

Goderich Township

FALL WHEAT.—Mr. David Purvis, Huron Road, had a little over one hundred loads of fall wheat this year.

MOVING WHEAT.—Mr. Thomas Gordon, 9th con., has bought a farm in Michigan and is moving onto it this fall.

GOOD WORK.—Mr. M. Donoghue, of the 6th con., Goderich township, bound 1873 sheaves of oats in six hours and three quarters on the 26th Aug.

TAIL BINDING.—Hugh McQueen of the Lake shore road, one day last week cut and bound one hundred and fifty six sheaves spring wheat.

HOMES AGAIN.—Miss Ida E. Crydman, of Porter's Hill, has returned home after a six weeks' visit to Michigan. She looks much better after her trip.

FISHED.—Mr. George Sturdy, with his usual characteristic smartness, finished his harvest on the 28th of August, he being the first as usual.

HORSE DIED.—Mr. Edward Slattery, one of our enterprising steam threshers, lost a fine horse the other day, inflammation was the cause; it will come hard on him as this is the second he has lost this fall.

LARGE AMOUNT.—A few days since Mr. W. Perdue threshed on the farm of Mr. John Rathwell, Bayfield concession, 900 bushels of wheat in less than 10 hours. This was very good work, considering the condition in which grain is in this year.

ACCIDENT.—On Thursday last while a threshing was in progress on the farm of John Smeltzer, 10th con., a young man named Hiram Hill, in stooping over, struck his forehead on a knife in the hand of the driver, cutting to the bone.

Holmesville, Aug. 23d, 1882.

Council met pursuant to adjournment. Members all present. Minutes of last meeting read and passed. Letter from County Clerk read, stating that the sum of \$2,397.51 is required from Goderich Township for county purposes for present year. Moved by Jos. Whitley, seconded by James Lathwait, that two mills on the dollar be levied on all the real, rateable and personal property of the township for county purposes. That a further sum of two mills on the dollar be levied on same property for township purposes, and that the clerk levy the different sums required by the several school trustees for the present year on the same property.—Carried. The clerk to prepare a by-law confirming above for next meeting of Council. Medical certificate from Dr. Worthington, Clinton, was read, stating he had examined one Joseph Miller, and that the latter's age and infirmities unfitted him for earning a living, and that he is a proper subject for aid from the township. Letter from clerk of Clinton, road stating "that the amount to be paid by Clinton toward the opening on the Holmesville and Colborne Road was paid at the time the road was opened," the letter was considered unsatisfactory, if not evasive, no sum being mentioned as paid. An impression existed in the minds of the Council that the sum promised was largely in excess of that which they understood was paid. Moved by John Cox, seconded by J. Lathwait, that the following sums be paid:—John Wier, repairing culvert 10th con., \$1; S. Plummer, pathmaster, for shovellers of gravel 16th con., \$7; C. W. Williams, pathmaster, for same Maitland con., \$3; J. Shanklin, cutting hill 6th con., \$65; J. Whitley, pathmaster, for shovellers of gravel 7th con., \$3; R. Bray, indent, \$10; J. Cooky, lumber for culvert and bridge and spikes, 17th con., \$8.70; F. Long, repairing culvert Bayfield con., \$1.50; R. Hanley, balance on graveling, \$1. Council adjourned to meet again first Monday in October.—JAMES PATTON, Clerk.

Clinton

Mr. W. C. McMillan, of Clinton, has safely arrived in Hanover, Germany, where he and five others have gone to sink oil wells. He received, since the day he left Petrolia, board and passage paid and \$2.50 a day for a year.

A CONTEMPTIBLE ACT.—On Monday some one administered poison to the beautiful trained setter belonging to Mr. L. P. Davis, from the effects of which it died soon after. It was valued at \$300. The perpetrator of such an act must be devoid of all manliness.

NO CAMP MEETING.—We understand that the idea of holding a camp meeting in this neighborhood this year, has been abandoned, owing to the holding of the general conference, which breaks in on the time and takes away three ministers who would have taken an active part in the services. Arrangements will likely be made whereby it will be resumed next fall.

Mr. Kenneth McBain, the original owner of what is now the village of Blyth is at present a resident of Manitoba, having lately returned from England. A friend tells us that he is soon to be re-married. He is now 84 years of age, but evidently believes that it is not a good thing for a man to be alone.

ACCIDENT.—Dr. Worthington, of this place, carries a pretty stiff shoulder, and the cause of it is this.—A few evenings since, while driving down the 14th con. of Goderich township, his horse got off the road in the dark and rolled over the side of an embankment, throwing him several feet from the buggy. Singularly no injury was done to either horse or buggy, but it will be some time before the doctor gets over his brotes.

Mr. E. Floody, late editor of the Record, followed the course of many of the wisest men on Monday, when he took unto himself a wife, in the person of Miss Kate Cantelon, daughter of Mr. Adam Cantelon, treasurer of Goderich township. The bride and bridesmaids

were all dressed in navy blue silk, the latter being Miss Sarah Cantelon, of Goderich, and Miss Selina Floody, of Hullett; the groomsmen were Messrs Robert Floody and Arthur Cantelon, and after the ceremony the happy couple left by the 4 o'clock train on the Western, on their wedding tour to Niagara Falls, Toronto and other places.

DROWNING PIG.—A very amusing incident occurred at Irwin's pond, one day last week. Mr. White, of Mitchell, had taken a drove of 60 pigs to the station for shipment, but as they were very hot, he was told that he might cool them off by allowing them to bathe in the pond. They were accordingly turned loose and eagerly plunged into the water, where some of them began to indulge in all sorts of antics. As soon as Mr. White found the water was deep, he became alarmed, and when a jolly pucker would get under the water or turn up its feet in the air, he would shout out "It's drowning, 'it's drowning—I'm losing all my money," and several who witnessed the affair were convulsed with laughter, knowing that a pig rarely drowns. If any one wants to make Mr. White angry, all they have to do is to ask him if he won't cool his hogs.—New Era.

Straw is so plentiful in Raleigh that some of the farmers have burned their stacks to get rid of it. That does not say much for the Raleigh farmers.

Mr. Spurgeon recently made this remark: "Doubts about the fundamentals of the gospel exist in certain churches, I am told to a large extent. My dear friends, where there is a warm-hearted church you do not hear of them. They do not come near; it is too warm. I never saw a fly light on a red hot plate."

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under them any ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity.

with an absolute certainty of curing you. ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures. It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerves, and Muscles, simply by working wonders upon the Digestion, and giving activity to the Liver. Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

Trade Mark Registered. A OTHER GREAT BOOM IN WINNIPEG. By casual observation, we find all land speculators have a clear head and watch the ups and downs of property, thus making large fortunes. But the whole secret is, they keep the system in a healthy condition by the use of THE PRIDE OF THE VALLEY MEDICINE. We can safely say that hundreds come to us for the great lung and blood purifier before going west. Read the following statement: We could give thousands of the same kind if it were necessary. "I certify that I was troubled with Catarrh in the head, gathering of phlegm in the throat, choking and coughing at night for years, so I could not sleep, often troubled with dull, lifeless feelings, pains in the chest and back. After giving hundreds of dollars to doctors, and giving up all hopes, I tried the PRIDE OF THE VALLEY, and am now able to do my work after seven years' sickness." MRS. JAMES MCNEIL, 202 Simcoe Street, London, Ont.

For the duties of the office,

A SEWING GIRL.

"Now, girls, this won't do," said
Madame Molini, pouncing upon the
six pale sewing girls, like a wolf into a
flock of lambs.

"You mean you can't see the carts
and carriages in the street, and the
type-setters in the window opposite?"

"I stopped just a minute, madame,
with that bad pain in my side," she said,
beginning to stich away with eager
haste.

"If you're sick," said Madame severely,
"you had better go home and send
for the doctor. While you are here
your time is mine, bought and paid
for."

"I folded them up with the dress,
madame," said Flora Fay, an innocent,
blue-eyed young girl, recently from the
country, who stood in an unconsciously
graceful attitude before the fat and florid
dressmaker.

"Then you were a goose for your
pains," shortly retorted Madame Molini,
as she unfastened the parcel, abstracted
the piece of glistening, uncut silk, and
whisked it away upon a shelf.

"But you don't mean," said breathless
Flora, "that madame takes the silk that
is left from the customer's dresses?"

during an illness which overtook her
there.
"O, Miss Fay, is it you?" said
Harry. "Do you work here? Upon my
word, you seem to be in very comfortable
quarters."

"I've come for a dress, said Captain
Drake, plunging headlong into his sub-
ject, after the fashion of men in general
—"my sister's dress. She is to be mar-
ried next week, and some of her friends
coaxed her to have her dress made here.

"It's the mode colored dress," said
Flora, with brightening eyes "I helped
to trim it myself. Yes, it's all ready."

"Where is the material I sent?" said
she to Miss Fox, who was in attendance
in the reception room. "It is not all
made up into the dress. I had purchas-
ed enough for a new waist and sleeves,
and it is not here."

"You must be mistaken," said Miss
Fox, with an aspect of quiet impossibil-
ity. "The bias puffs and fold cut up
the material shockingly, and—"

"I don't know how I shall succeed as
a farmer," said Captain Drake to his sis-
ter; "but if little Flora here is only with
me, there's nothing in the world I
haven't courage to undertake."

"I think I am the happiest creature
in all the wide world to-night. Because,
dear Mrs. Arkwright, he loves me!"

"I want no one in my service," said
madame, "who is too conscientious to
fulfill my wishes. You have intermed-
dled unwarrantably in the matter of that
silk, and I repeat that you are no longer
in my employment!"

"It's a shame!" cried the captain.
"Just what I say myself," nodded the
landlady.

ed brother in the world, came there
nearly every day; and little Flora, all
unconscious of her own feelings, began
to watch for his daily visit as a helio-
tropic blossom watches the sun.

"I-I have been here long enough,"
she said. "If I go to the Exchange
Bureau, they will perhaps tell me of a
new situation. And I need a charge."

"How bold and unmanly it is of
me," she thought, "to let myself care for
a man who does not think twice of me!
If he had cared one iota for me, would
he not have said so then?"

"I have decided to give up the sea-
faring business," said Captain Drake.
"Have you?" fluttered Flora faintly.

"I don't know how I shall succeed as
a farmer," said Captain Drake to his sis-
ter; "but if little Flora here is only with
me, there's nothing in the world I
haven't courage to undertake."

"I think I am the happiest creature
in all the wide world to-night. Because,
dear Mrs. Arkwright, he loves me!"

"I want no one in my service," said
madame, "who is too conscientious to
fulfill my wishes. You have intermed-
dled unwarrantably in the matter of that
silk, and I repeat that you are no longer
in my employment!"

"It's a shame!" cried the captain.
"Just what I say myself," nodded the
landlady.

"But how did she come to lose her
place?" asked Capt. Drake.

Phosphatine
Is a wonderful thing, yet so natural, so
reasonable. Why? If you have feel-
ings of goneness; too weak and dragging
to rally; too nervous; if you are an ap-
petite hardly sufficient to keep body and
soul together; headache, with pains
across the back; the whole system relax-
ed; perhaps coughs and sore lungs; and
will use one to six bottles of Dr. G. L.
Austin's Phosphatine as the case may
demand; it will not fail to make you an
enthusiastic friend. Why do we say
thus? Because Phosphatine supplies a
want, the very properties the system is
lacking and yearning for. It is not a medi-
cine, but nutrient instantly converted
into blood, bone and tissue. It is also
delicious to the taste. Try it. The re-
sult is as certain as that cause and effect
go hand in hand. All druggists. FOW-

Do you are dangerous, particularly in your eyes, do take at once Dr. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your druggist keeps it. Jas. Wilson, Goderich.

What's that man yelling at? asked a farmer of his boy. "Why," chuckled the youngster, "he's yelling at the top of his voice."

CINGALESE. - A man well known in connection with the Hair Renewer, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by James Wilson.

Most people who visit Niagara Falls are disappointed in the rear. They expect to hear something like the voice of a chairman in a ward caucus.

Proclaim it far and wide that Dr. VAN BUREN'S KIDNEY CURE not only immediately relieves all kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually. Sold by J. Wilson, Goderich.

We see an article in the papers about boy inventors. We hope they will invent a boy who won't whistle on his fingers and on the streets at night.

After many years of patient investigation Dr. Van Buren, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for Dr. VAN BUREN'S KIDNEY CURE. Sold by James Wilson, Goderich.

A girl who sets out to look graceful in a hammock has as much work on her hands as the man who tries to be languid with a saw log following him down hill.

A simple herb found on the sunny plains of a Southern clime has, under the skillful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to suffering humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for all these troubles. Your druggist has it. Wilson, Goderich.

THE EARLY-RISING SPRING BED. - Our patented bed spring, says the Kentucky State Journal, has been remodelled. The one for two in a bed is so arranged that the part the wife lies on can be set by the husband unknown to the former, and it springs her out of bed and stands her up on the floor at any hour for which it is set. It then remains turned up on one edge so she can't get back again, at least on her side of the bed; and she won't come back on his side; for she's too all-fired mad to come near him. So the result is she is compelled to dress and go down stairs and get to breakfast, and the old man will get a rest.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by James Wilson.

When the rider in the guise of a drunken spectator staggered into a circus ring at Marquette, Mich., and the ringmaster went through with the usual foolery of ejecting him, incidentally remarking that no policemen were ever present when order needed to be restored, a German officer hustled the performer off to jail, in spite of all protests and explanations. "A choke is a choke," he said, "but ven a man zay vere is the police, and vy don't dey arrest dat drunk man, den de Marquette police is in dot vicium, and don't vy forget id, Mr. Circus, I bed you."

Why go on day after day suffering with splitting headaches when a bottle of Dr. Austin's Phosphatine will cure you? If you do not believe it ask your druggist for a circular - and read what those who have used it say about it. Price \$1.00.

There is a slight misunderstanding between McGinnis and his wife's mother. It came about this way: Hostetter McGinnis is thinking of taking a trip to El Paso for his health, but his mother-in-law has been telling him that there is danger of being scalped by the Indians, and that he had better stay right here at Austin. "Nonsense," replied Hostetter McGinnis, "There is no danger of Indians on the El Paso road, but they have all been driven off. I don't believe there is an Indian in the whole country." "Very well," replied his wife's mother, "when you get out on the plains, and one of these wild beasts comes at you whooping and yelling, then you will think of me."

"I don't doubt it," said Hostetter McGinnis, and more the contents cordial has been spoiled, and there is a coolness between them.

Dr. J. W. Fairchild of New York, says: Personally I believe in Phosphatine; I use it myself and in my family and practice I prescribe Phosphatine with a confidence that I can attach to other remedy. It is safe - it is effective. For sale by all druggists.

An ingenious tramp, thinking to wring tears and money assistance from the stoniest hearts with a new science, gave it an experimental trial in the north end. He has decided not to patent the invention. He told a north end lady of his unfortunate condition, and asked if he might eat some of the grass in the yard. The lady, not less amused than surprised, said: "Certainly." He went out, and getting down on all fours commenced on the grass after the neglected and never popular fashion of Nebuchadnezzar, and apparently not enjoying the diet any more than the ancient sinner of olden time. Presently the tramp's eyes caught sight of the servant girl beaming him from the back yard. He thought a rich reward for his humility was in store, and instantly responded: "Do you motion to me?" "He bowed a look of hopeful expectancy, and may go in the back yard, if you like; the grass is taller there."

Mrs. Chas. Hovey, a married woman, of Theford, near Flint, Mich., on Monday fastened her five-year old child to herself, and then held her own and the child's head under water in a tub until both were drowned.

CIVIC HOLIDAY. - In accordance with a numerous signed petition the Reeve has proclaimed Thursday, Sept. 14th, the day following the great Caledonian gathering as a civic holiday. This will afford our citizens an opportunity of attending the games at Brussels.

FOOT AMPUTATED. - For some time past, Mr. W. J. Ferguson, school teacher, of St. Helena, has been suffering from a diseased ankle-joint, and finding it impossible to cure the evil it was thought advisable to amputate the foot, the operation being performed on Wednesday last by Dr. Mackid, assisted by Drs. Stewart, of Brucefield; Bethune, of Wingham; Hutcheon and McKay, of Wingham; and MacCrimmon and Tennant, of Locknow. Mr. Ferguson, who is at present in the village under the care of Dr. Mackid, is doing well.

A Travelling Sweep. - As announced in the Sentinel last week a travelling chimney sweep arrived in town, and among the many places he visited in search of employment was the military establishment of Mrs. Radcliffe. He was engaged to clean the chimney. After his departure, however, Mrs. R. of a cliff missed a valuable shawl that was hanging in the shop, and at once notified the village constable, who telegraphed to Wingham, the sweep having left for the meantime for that place, to have him arrested which was accordingly done. Constables McGowan and Walker, of Wingham, on Thursday evening brought the prisoner back to the village. The missing article having been found in his box. He was brought up before magistrates Campbell, Lawrence and Graham on Friday, who committed him to Walkerton for trial before the Judge, when he was sentenced to thirty days and hard labor in the County Jail. - [Sentinel.]

Sawing Wood.

None ever hears a boy complain about the back-breaking, soul-killing hardships of wood sawing. All such talk is confined to adults, and it has no real foundation. There is only one way to saw wood and take comfort at the same time, and everybody has that way. Yesterday afternoon half a cord of four foot wood was flung down at the gate of a house on Second street, and the wagon had only departed when a boy fifteen years old appeared with a buck-saw in his hand. All his action indicated his purpose to go through that wood pile like chain lightning, but it took him exactly seven minutes to discover that he had left the saw-back in the woodshed, and five minutes more to bring it out.

Some boys would have dropped the saw buck wherever it happened and pitched right in, but this boy spent five minutes in selecting a location of the first water. By this time he had the presence of three other boys to cheer him to victory. These three boys made the following suggestion in the order given below.

- "I'd hire a masheen."
- "I'd run away, and fight Injuns."
- "I'd let the ole man do it."

But the hero went right ahead with his work. In twenty minutes after his first move he had a stick of wood on the saw buck. He turned it over four times before it settled down to his own satisfaction, and then he picked up the saw.

A buck-saw is a simple yet ingenious piece of machinery. Men who were sawing wood by the day have been known to stand and gaze at the saw an hour at a time without being able to solve its mysterious points. This boy picked up the saw and carefully examined it. In the course of seven minutes, with the aid of the other three boys he was enabled to discover:

- 1. That the teeth were all there.
- 2. That it was in perfect order, as far as a boy could judge.

When these discoveries had been made, a discussion arose as to whether a boy could saw faster by sawing left handed. The vote on this question was decided in the negative, and now the moment arrived for action.

The boy spit on his hands. He removed his coat. He humped his back.

He pulled his cap over his ears. He had his knee on the stick and the saw in his hand, when a little three cent cow low, on the next corner ran out at a passing goat. The goat rushed into a yard, and the girl was heard screaming. The saw fell to the ground, the saw buck was upset, and the boy went tearing down to the corner like a cheap whirlwind, and when darkness began to settle down over the face of earth he returned to carry the saw and buck into the woodshed for the night. - [Ex.]

The Doctor's Last Happy Resort.

EVANSVILLE, Ind., Jan. 11, 1882. I recently had a very difficult case of Consumption. I treated it in the most scientific manner possible, but to no effect; patient grew gradually worse. Rather than give up, and as a last resort, I decided, much against my wish, to use a remedy that had cured one of my former patients. Greatly to my surprise, the patient began to gain, and in a much shorter time than I dared to ever expect, she was completely cured. The name of this remarkable remedy is Dr. King's New Discovery for Consumption. I now use it altogether in my practice. - [Leading M. D., Evansville. Trial bottles free at Rhynas' drug store. Terrible Railway Accident.

Carlsruhe, Sept. 4.—A train running between Freiburg and Colmar left the rail near Hugstetten. Fifty persons were killed and many wounded.

Vienna, Sept. 4.—The latest reports from the railroad disaster near Freiburg state that thirty cars were smashed, and the scene of the catastrophe is strewn with the bodies of the victims. The train was thrown down an embankment. So far 25 bodies have been found in the ruins, and the wounded number 80. It is feared the list of casualties will be increased. Several bodies have been recovered headless and many with the limbs cut off. Several of the victims are prominent citizens of Vienna.

There were 1,200 persons in the train. The accident was caused by a telegraph pole, which was struck by lightning and fell across the track.

Paris, Sept. 4.—A telegram from Mulhouse states that 100 persons were killed and 300 injured by the railroad accident near Hugstetten. Nineteen coaches were smashed to pieces or shot down an embankment into a swamp where their weight caused them to sink.

Mount Vernon, Ind., has been threatened by a mob, owing to an effort to close the saloons on Sunday. The telegraph and telephone wires were guarded to prevent communication with neighboring towns.

The Montreal Herald says:—The wholesale apple trade during the past few days has received a fair start off for the season by the arrival of several consignments of apples here. The influence exercised by the store liberal receipts has been to cut down the prices of Canadian stock, some of which, arriving in an over-ripe condition, has been sold as low as \$1.50 a barrel. However, good sound stock principally consisting of the Duchess and Astragan varieties, has found purchasers at \$2.25 to \$2.30 per barrel. Winter apples, such as Belle Flowers, Kings and Greenings, have reached this market from the South-Western States, by way of St. Louis, an unprecedented event in the history of the trade here, and which may prove an important factor in our market this season. The higher prices these foreign apples bring, viz., \$2.75 to \$3 per barrel, is simply owing to their better-keeping properties, and must not be taken as evidence of superiority over the home crop, as Canadian winter apples are not yet on the market. It is authentically stated by a large dealer here that buyers are purchasing fruit west of Toronto at \$2 per barrel on the tree, which, taking the lowest estimate of expenses, means at least \$3 per barrel here. These speculative transactions may or may not turn out profitable, but as far as we are informed, the heavy crop in the Western States will measureably effect values.

By Cuckfield petty sessions yesterday Mr. John Thorowood, the driver of the Brighton stage coach, was summoned for having driven on the wrong side of the road at Handcross on the 1st of July, and Edward Spencer, the guard, for assault on Mr. Chapman, a bicyclist, at the same time, by striking him with a whip as he was passing the coach. Mr. Ewhit, who appeared for the defence, stated that an arrangement had been made by the parties, the proprietors of the coach agreeing to pay 25 towards the expenses, and consenting to a declaration as to each right to the road to a bicycle rider as a coach, or any other mode of going, and he instructed friends to lash him to the bed to prevent his leaving the house. His agony, ravings and frothings became horrible, and all day yesterday his sufferings were indescribable. He had been one of the most prominent men in Texas, and was a candidate for re-election to the Legislature.

At Cuckfield and the Rule of the Road.

By Cuckfield petty sessions yesterday Mr. John Thorowood, the driver of the Brighton stage coach, was summoned for having driven on the wrong side of the road at Handcross on the 1st of July, and Edward Spencer, the guard, for assault on Mr. Chapman, a bicyclist, at the same time, by striking him with a whip as he was passing the coach. He had been one of the most prominent men in Texas, and was a candidate for re-election to the Legislature.

The Horrors of Hydrophobia.

Dallas, Texas, Sept. 6.—Speaker of the House Reeves died by hydrophobia yesterday. He was bitten by a mad dog several weeks ago. At the time he tried to apply a plaster to the wound, but it could not be made to adhere. He did not suffer an actual attack of hydrophobia until a few days ago, when, finding he was going mad, he instructed friends to lash him to the bed to prevent his leaving the house. His agony, ravings and frothings became horrible, and all day yesterday his sufferings were indescribable. He had been one of the most prominent men in Texas, and was a candidate for re-election to the Legislature.

The World Over.

The Wilkie farm, near, Gorrie containing 250 acres, has been bought by Mr. Phair, of Turberville, for \$8,000. Miss Shaw, the teacher of the Central School at Ottawa, who was struck by lightning, is still in a critical condition. A meeting will be held at Dublin in favour of a commutation of the death sentence upon Hynes, convicted for agrarian murder.

The largest bell ever made from a single width of iron has just been manufactured by a Hartford firm. It is 4 feet wide, 96 feet long, and weighs 1,009 pounds. A boy fell into a creek at Oxford, Ind., and went home in wet clothes. His angry mother said that she wished he had stayed in the water. Taking this remark to heart, he returned to the creek and drowned himself.

John Henkle, foreman of the Portsmouth (N. H.) Block, is stated to have on August 22, for a wager of fifty cents, that he could not set 15,000 eggs of solid non-pariel type in ten hours, put up 17,000 in nine hours, exclusive of one hour taken for the noonday meal.

Some exchanges have unearthed another swindle, and the farmer is the victim. This time a fellow comes along driving a shining rig, and sells carpet by the sample. He offers three-ply ingrain carpet at 3 1/2 cents per yard, and genuine Brussels at 4 1/2 cents. The farmer selects the pattern he wants, the agent writes out the number of yards and the price after which the farmer signs the order. The next week he has his note in the bank to pay, and he never sees nor hears of the carpet man again.

Samuel Mountain, of Philadelphia, went home drunk Sunday night, beat his wife and drove her and three children from the house. After admitting the same subsequently, and when they had gone to bed, he saturated his coat with coal oil and set it on fire. His wife carried the burning mass into the street before serious damage was done. Mountain has been held for arson.

The cantata of "Esther" has broken out simultaneously in Parkhill, Ailsa Craig, and Lucan, and the streets are vocal and the surrounding woods full of it. A few days ago a Parkhill miller, who is pretty well up in his part, was noticed leaving bags of flour around to the relief of "Thus shalt it be done unto the man whom the King delighteth to honor."

PRE-BYTEBYE OF MAITLAND.—A public meeting of this Presbytery was held in St. Andrew's Church, Lucknow, on the 22nd inst., at which the following business was transacted: A call was read on the members of the congregation of Kinloss in favor of Rev. Alex. McKenzie, probationer, signed by 43 members and 226 adherents. The call was accompanied with a promise of \$700 as stipend. There was also tabled a call from St. Andrew's Church, Lucknow, in favor of Rev. John McNabb, of Beaver-ton, signed by 54 members and 43 adherents, with a promise of \$600.00 and B. Leask was appointed to prosecute Mr. McNabb's call before the Presbytery of Lindsay.

A Kansas joker has had to pay \$5,000 for destroying a man's eyes with an explosive cigar. Legal proceedings have been taken to recover taxes alleged to be due from the Grand Trunk Railway to the State of Maine. Cholera is attacking the foreigners in Manila. The American Consul is among the victims. Upwards of 200 natives die daily. Thos W. Ritchie, Q. C., an eminent Montreal lawyer died very suddenly on Monday evening, just as he was about to land from the steambat at Newport. He was a man of fine ability and sound judgment. As a lawyer he commanded a large practice. The young negro Bush, who was lodged in the Sandwich jail a few weeks ago on a charge of attempting to outrage a Mrs. Doan, in the woods fourteen miles back of Windsor, was convicted before Judge Leggett, on Wednesday, and sentenced to the Central Prison at Toronto for one year.

The great French railway companies for some time have employed women as ticket and audit clerks, as also have he cret financier and several banks and public companies in France. The corporation of the city of Paris mean also to employ women in their offices, and 300 situations are offered. In order to test the legality of the arrangement the American aspects in Ireland, Monday, recently arrested at Ennis, has withdrawn his bonds and notified the authorities that he is not bound by his recognizance any longer. IMPORTERS: DONKEYS.—A large number of jackasses from Spain recently passed over the Canada Southern Railway westward. They are the property of Abdul Leonard, of Mount Leonard, Saline County, Mo., who took them west for breeding purposes. They were collected with care in Spain, but were thin when they arrived, having suffered from a severe drought in that country, but they stood the voyage well. They lived on barley. They would have been certain with thistles and any other hard feed, and big eared, and have long horns. Their progeny will be large, healthy mules of strong action. Mr. Leonard, who is a wealthy young farmer, will return to Scotland in a month to import blooded cattle.

PALACE STOCK CARS.—A train composed of twenty-five cars belonging to the Montgomery Palace Stock Car Company, loaded with cattle, passed through Stratford per Grand Trunk after noon on Thursday afternoon. The cars divided into three stalls, for three or four beasts, the sides being nicely padded with rubber so that when they arrived at the stock yards the cattle are not bruised in the least. Each car will hold from eighteen to twenty head, and they are fed and watered on the cars, thus saving the time and expense of unloading when they reach the stock yards. They are large and much interest was felt in it, for, if successful, these palace cars will revolutionize the live stock business. Quite a number inspected the train while it remained at the station.—[Herald.]

The Benefit of Coal Oil.

Last spring we published in the Expositor a statement to the effect that bugs could be excluded from peas by soaking the seed in coal oil before sowing. Mr. R. Charters, of the Mill Road, determined to try the experiment despite the remonstrances of some of his neighbors who assured him that his seed would never grow. He tried it, however, and the result is that he has a splendid crop, and so far as he can tell his peas are entirely free from blights. After sowing his field he had a small portion of the coal oil seed left, which he gave to his neighbor, Mr. Gordon McAdam. Mr. McAdam, in order to thoroughly test the experiment, sowed a patch of unsoaked seed, and on the following day sowed along side and on precisely the same ground, the seed which he got from Mr. Charters. He now finds upon harvesting his crop, that the peas grown from the unprepared seed are filled with bugs, while those grown from the seed which had been soaked in coal oil are entirely free from the pest. This is a very fair test, and shows pretty conclusively the validity of the experiment. The pea crop is a most important one to our farmers, and for years has been regularly destroyed by the bug, and if the loss can be avoided by such simple means a great benefit will have been accomplished.—[Seaford Expositor.]
