NEGRO ESCAPED

JUMPED THROUGH CAR WINDOW Negro En Route to Oklahoma From Edmonton Got Away From Sheriff in North Dakota.

Minot, N.D., June 14.—This morning at about 11:30 o'clock a colored man being taken back to Stillwater, Oklahoma, to answer for the murder of a white man, effected a sensational escape from the deputy sheriff in charge of him just as the 800 train No. 104 was pulling out of the station at Kenmare.

Jumped Through Train Window. The deputy sheriff and the chief of police at Kenmare headed a posse this morning, which was scouring the country for the murderer. No trace of him has been found. The names of the colored man and deputy-sheriff cannot be learned. The officer boarded the train with his prisoner somewhere near Medicine Hat.

He was handcuffed to the seat in one of the day coaches. The deputy left him for a moment just as the train was pulling out, and the prisoner in some way got the handcuffs loose from the seat and made a break for liberty. He met the conductor in the vestibule, dashed him aside and jumped headlong through the vestibule window. The train had been making good headway. For some reason or other the deputy, in his confusion at the man's escape, did not stop the train. It was not believed possible that he could have survived the leap from the window and he was confident that his man would be picked up by some of the railroad trackmen seriously, if not fatally, injured. The deputy came through to Minot and went back on train No. 107. With the chief of police and others he has been scouring the countryside all day. There is no trace of the murderer. He is still handcuffed, as the handcuffs which bound his wrists can be opened only by the application of a mechanic's keys in the hands of the deputy. Foot-prints were found in the soft ground near the lake at Kenmare, but they stopped at the lake shore. The man may have entered the water and walked a short distance to cover his tracks, and may now be hiding somewhere in the vicinity of the town.

BEEF FAMINE IN ENGLAND.

Meat Prices Scarce, and Shortage is Imminent. London, June 15.—For some months past the price of meats in the London wholesale market has been rising and the present situation is regarded with serious apprehension by those engaged in the trade. The prices ruling are higher than they have been at any time in recent years since the importation of frozen and "chilled" meat came to supplement the supply of the home product.

THE ELECTIONS

CONSERVATIVES CANDIDATE. Premier Expected to Make a Tour of the Riding—Minister of Agriculture May Accompany Him.

Manville, June 14.—There was a large attendance at a Conservative convention held here last night to discuss the situation in political circles arising from the resignation of Arch. Campbell and the nomination of Premier Sifton to fill the vacancy. There were delegates and speakers from the country districts and from nearly all the towns of the constituency.

TWELVE HUNDRED MEN WILL CAMP AT CALGARY

Edmonton Troops Will Pull Out From Strathcona at Eleven O'clock This Evening—Preparations Being Made in the South for the Annual Camp.

Calgary, June 10.—Next Tuesday will see the troops in military district No. 13 in camp in Calgary, and the latest figures show that there will be about 1,200 men under canvas. All arrangements have been made, and advance parties will go into camp in order to shake out the lines and do other necessary work on Saturday next.

WHAT CONGRESS DID TUESDAY.

Uncle Joe's Speech Calling Insurgent Traitors Was Ordered Printed. Washington, D.C., June 14.—In the Senate the conference report on the Railroad Bill was submitted and ordered printed. Senator Elkins announced that he would call it up tomorrow. The report provides that the section relating to the suspension of rate increases and the section providing for the appointment of a committee to investigate the question of Federal control of stock and bond issues shall take effect immediately on passage.

MINISTERS HAD A VERY LIVELY DEBATE

One Resolution Proposing That Rev. George Jackson Be Ejected From Professorship of Victoria.

Toronto, June 10.—Never, perhaps, in the history of any Methodist conference in Toronto have such scenes of excitement occurred as those which marked the close of the session in Elm street church. It was a perfect storm of words. Rev. Dr. Clever introduced an amendment to the general conference to memorialize to effect from the professorship of the theological college any man holding such ideas of the Holy Scripture and the fallibility of Christ as expressed in Rev. George Jackson's recent work.

FIRES IN NORTH

Large Area of Timber Burned. Fire Heaped Athabasca River at Mirror Landing—Telegraph Agent Had Narrow Escape.

Athabasca Landing, June 14.—A fierce forest fire swept the district in the vicinity of the junction of the Lesser Slave River and the Athabasca on Saturday afternoon, destroying thousands of dollars worth of standing timber, hay and settlers' buildings. The fire started on the south side of the Athabasca river, and driven by a terrific gale, jumped the river, which is fully a quarter of a mile wide, and continued northward licking up the river banks and setting the settlers on the north side of the river confidently expected that the fire would burn itself out at the river, and as a matter of fact it succeeded in jumping the river only at one point.

PRODIGIOUS FINES FOR DEFAUDING PROVINCE

Winnipeg Furriers Who Made \$19 By Seizing Bounties on Wolves Killed—Prosecution Succeeded.

Fort Frances, Ont., June 14.—Prodigious fines were meted out by Judge Pritch in the district court during the sittings of the general session here this afternoon. The following are the judgments of the court: Moses Finkleshtien was charged with conspiring against the Ontario Government to defraud the authorities in the payment of wolf bounties. He was fined \$5,000, or six months in jail, and \$5,000 more if he failed to pay the fine.

RAW MATERIAL DUTY.

Reduction of Several Classes Added. Ottawa, June 10.—An order in council promulgated today places on the free list a number of articles which were imported for use as raw material. The following articles are exempted from duty: Wood shingles, of any size, cut and dressed, but not kiln-dried; wood shingles, of any size, cut and dressed, but not kiln-dried; wood shingles, of any size, cut and dressed, but not kiln-dried.

BIG STEEL PROJECT IN SOUTHERN ALBERTA

Option Obtained by St. Paul Capitalists on Coal and Iron Deposits Near Cowley For \$250,000—To Build Railway Into Calgary.

Nelson, B.C., June 12.—An important railway and development project, which was taken in a few months ago by Miss McLeod, was burned when the house was destroyed. They failed to save enough building to provide themselves with blankets for sleeping purposes in the Mary C. Scott-Castle Charter Lake, Ontario. He was taken in the unfortunate people and given them accommodation.

NEW RECORD FOR LAKE BOATS.

Port Arthur, June 12.—For the third time this season the speed record for Lake Superior was broken today. The Northern Navigation Company's flagship, Harmonic, now holds the honors, having made the 277 mile run from the 800 here in exactly sixteen hours. This is 25 minutes better than the run of the C.P.R. steamer Keweenaw, when she made the record two weeks ago.

CHURCH UNION RESOLUTION.

Belleville, Ont., June 10.—At the congregational union the following resolutions were adopted: That this union considers the action it has taken sufficient for the present and will now wait until other negotiating bodies have had an opportunity of feeling of their constituencies. That the committee appoint a special sub-committee to investigate the administrative points involved in the proposed union as these affect both the individual church and the societies.

FINANCIAL STATEMENT.

Official Statement Shows Marked Increase in Canada's Revenue. Ottawa, Ont., June 10.—A complete statement of the public debt, revenue and expenditure of Canada for fiscal year ending with March 31, 1910 shows a total net debt of \$388,556,548, or an increase of \$12,330,968 over the previous year. The total revenue was \$101,501,034, and the total expenditure \$135,224,543. The biggest item of expenditure was public works, railways and canals, which totalled \$27,971,225. Of this sum almost twenty per cent was expended for the construction of the National Transportation Railway.

TRURO EXPRESS ROBBER GUILTY.

Truro, N.S., June 12.—Laurence Burgess was found guilty yesterday of having robbed the Canadian Express train here in May, 1909, of about \$1,000 cash, negotiable paper amounting to \$4,000, of which about \$1,500 was cashed in all parts of America. Wm. J. Burgess, a brother, is now to be tried on a similar charge.

FURTHER GUILTY OF FRAUD.

Fort Frances, Ont., June 12.—Benjamin Levinson, of Winnipeg, furrier, was found guilty in the District Court of defrauding the Ontario government in the matter of wolf bounties. He is very ill and was allowed out on \$5,000, pending sentence on Monday.

THE CROPS

30,524,200 ACRES OF CULTIVATION. Census and Statistics Office Issues Interesting Report on the Area and Condition of Crops in Canada.

Ottawa, June 14.—The census and statistics office has issued a report on the estimated area and condition of the principal crops of Canada at the end of May, based on the reports of a large staff of correspondents. The area of all these field crops is reported at 30,524,200 acres, which is 2,559,300 acres more than last year and 4,951,000 acres more than in 1900.

THE ELECTIONS

CONSERVATIVES CANDIDATE. Premier Expected to Make a Tour of the Riding—Minister of Agriculture May Accompany Him.

NEWS OF THE DISTRICT

MOSSIDE. Bulletin News Service. Mr. Larter and wife intend going to Grenfell, Sask., to manage a farm there.

ARRISSIAN. Bulletin News Service. Picnic season is at hand. Dates already arranged are: East Clover Bar Methodist Sunday School, July 1st, at Hortonburg; "Willing Workers" on July 5th at Arrissian; Agricola, Women's Guild, July 1st at Walkers Lake.

RYLIE. Constable Martin, R.N.W.M.P., is in town this week. R. F. Hill of Edmonton, was in town last week. R. Marpin, of Strathcona, was buying horses in the district Friday.

BEVELDEE. A Farmers Institute meeting was held in the Public Hall on Tuesday evening, May 17th, which was very well attended. Mr. C. A. Roberts occupied the chair and introduced the speakers.

BEVELDEE. Mr. George Harcourt, deputy minister of agriculture, spoke at some length on the problems in soil culture. He said that the rainfall of Southern Alberta, of which this part, was small compared to many other places and advised strongly the retaining of moisture in the ground as much as possible.

BEVELDEE. Mr. A. W. Foley, poultry superintendent, followed and caused much amusement by his questions and remarks. He strongly advised the retaining of winter layers and to impress upon everyone the necessity of cleanliness and good and proper ventilation in the poultry house.

BEVELDEE. Mr. W. F. Stevens, live stock commissioner, was unable to give his views on the stock subject, greatly to the disappointment of all those present, but solicited questions, which, as in the other cases, were numerous, and answered them to the satisfaction of the audience.

DAWSON CITY IS VERY BUSY THIS SEASON. Fred T. Congdon Tells of Many New Hydro-Electric Plants Which Are Being Established to Wreck Gold From the Creeks of the Yukon—Activity Around the Dome.

Vancouver, June 15.—F. T. Congdon, M.P. for Dawson city, gave what is perhaps the most complete, interesting and instructive account of Dawson's activities and possibilities that has been given to the public for many months.

New Company Formed. A new company is being formed, which will embrace the old Bonanza company's holdings, at the mouth of the Klondyke river, and a large part of the holdings of the Klondyke and the Anderson concession; also the Dominion sulphur, quartz and probably the Fort Ross creek properties.

At the farwell social, short addresses were made by local ministers, Revs. Mr. Darnford and Mr. Aldridge, and by his co-prebys, Revs. M. White (Lacombe) and K. C. McLeod (Camrose), who all spoke in terms of the good work done by Mr. and Mrs. Hogg.

To Follow Herr Dernberg. Berlin, June 14.—The appointment of Herr Van Lindquist, until now the undersecretary, to succeed Bernhard Dernberg as secretary of state for the colonies, was gazetted yesterday.

BEVELDEE. A farmers institute meeting was held in the Public Hall on Tuesday evening, May 17th, which was very well attended. Mr. C. A. Roberts occupied the chair and introduced the speakers.

BEVELDEE. Mr. W. F. Stevens, live stock commissioner, was unable to give his views on the stock subject, greatly to the disappointment of all those present, but solicited questions, which, as in the other cases, were numerous, and answered them to the satisfaction of the audience.

BROKE WORLD'S RECORD FOR HIGHEST FLIGHT

Paulhan's San Francisco Flight Beat-on at Indianapolis Yesterday—Hamilton Won Big Prize. Indianapolis, Ind., June 13.—Walter S. Brooks, of the Wright team, broke the world's record of altitude in an aeroplane at the Indianapolis motor speedway today.

WON BIG PRIZE. New York, N.Y., June 13.—Charles K. Hamilton, the trail-seeking boyish master of the air, accomplished today the feat of sailing in his biplane from New York to Philadelphia and return, winning thereby a \$10,000 prize offered by the New York Times and the Philadelphia Public Ledger.

CALGARY RAILWAY IS PAYING 20 PER CENT. Superintendent Says It is Good Business to Spend Another Half Million—Present Time—Revenue is Now 10 Per Cent. on Million Dollar Outlay.

Calgary, June 14.—Calgary ratpayers could not contemplate to invest another half million dollars in the street railway system, according to Superintendent McAulay. In an estimate of the cost of the proposed extension and improvements submitted to the commissioners yesterday the amount was placed at a little more than half a million.

MURDER IN SASKATCHEWAN. Homesteader Named Beals Killed in Dispute Over Buggey. Drinkwater, Sask., June 13.—Following a dispute over a buggy a well known homesteader named Beals was shot dead Sunday evening between 10 and 11 o'clock by a man named Miller, the body being found by J. McNeil in Beals' own dooryard near New Warren, Sask.

CHILD INJURED BY BEAR. Little Girl in Nelson Had Narrow Escape. Nelson, B.C., June 13.—Ethie Larson, the eight year old daughter of Gud Larson, of Phoenix, had a narrow escape from death in the paws of a bear today. Serious wounds were inflicted on her neck and on one shoulder by the claws, but rescue came in time to save her.

D. D. MANN TELLS THE YEAR'S PLANS

C.N.R. Expects to Build to Landing and Wolf Creek This Year But Will Not Reach Brazeau

"We expect to build six hundred miles of railway this summer in the three Prairie Provinces. We already have about two hundred miles finished. Our great difficulty has been in securing ties. If we can get enough of these we will have our lines finished north to the base landing and west to Wolf Creek this summer. We will also make a start towards the Peace River. I do not think our line west will reach the Brazeau."

In these words did D. D. Mann, vice-president of the C. N. R., describe to the Bulletin the plans of his company's extensions this summer, west and north of Edmonton. Mr. Mann arrived from Vancouver last night and goes east to Winnipeg this evening. He has been at the coast arranging for the commencement of the western end of the line from Victoria to Edmonton, the part of which in British Columbia is guaranteed by the McErdie government. Construction will be started at once at Victoria and it is expected that 100 miles will be built this year. Terminals have also been secured for large railway shops at the Vancouver end near the city.

Mr. Mann was asked by the Bulletin:

"Do you expect that your line will reach Calgary this year from Strathcona?"

"I think it is quite probable. We are working with that end in view and if nothing unexpected intervenes we will attain our object."

The railway, vice-president said there was nothing to announce in connection with terminals in Strathcona, but it is very probable that the C. P. R. station will be used for some time to come.

Union Station in Edmonton.

"Have you had any negotiations with reference to a union station in Edmonton?"

"There is no need of a union station yet," replied Mr. Mann. The present C. N. R. station is large enough to handle the C. N. R. and G. T. P. business for some time to come. We have not discussed the matter."

Mr. Mann was asked as to whether his company would undertake the building of the Alberta and Great Waterways railway, but he replied that the matter had never been discussed.

Visited City Offices.

Mr. Mann was a visitor this morning to the city offices in company with the local superintendent, W. A. Brown. He spent a quarter of an hour in informal conversation with Mayor Lee. The railway magnate also called upon Premier Sifton to tender him his congratulations upon his acceptance of the prime ministership.

REVENUE OVER 100 MILLIONS.

And Canada's Ordinary Expenditure Was Over \$100,000,000.

Ottawa, June 12.—The department of finance has closed the accounts of the Dominion for the fiscal year ended March 31, 1910. So the figures are available of the fiscal operations of the year. According to the official statement issued by the department the revenue for the year totalled \$101,501,094, the ordinary expenditure \$70,469,849, and the capital expenditure, \$34,114,994, and the sum of \$12,336,169 was added to the public debt, which is \$1,258,839,318, an increase of \$38,266,748. The addition to the debt during the fiscal year 1908-09 was \$45,369,418.

The customs revenue for the fiscal year 1909-10 was \$69,156,183, an increase of \$12,746,966 over the preceding fiscal period. Excise \$15,253,839 shows an increase of \$315,590 and post office receipts, \$7,588,540, an increase of \$366,924. The total revenue is greater by \$16,407,350 than the revenue for 1908-09, and exceeds by five millions the previous high water mark of 1907-08, when the revenue jumped to \$96,654,505. While the revenue for 1909-10 was nearly sixteen and one-half millions in excess of that of 1908-09 the ordinary expenditure (\$89,469,849) and the capital expenditure (\$34,114,994), is a decrease of \$8,477,128, the total under this head in 1909-10 having been \$123,992,132.

POLICEMAN ELECTROCUTED.

Regular Accident in Jersey City Resulting From Blowing Down and Crossing of Wires.

New York, June 12.—Denis Sullivan, a policeman in Jersey City, was electrocuted today as a result of a storm that blew down and tangled the telegraph, telephone and electric light wires in that city. Sullivan was three-quarters of a mile away from the tangled wires.

At Pavoia and Kelo streets, two telephone wires were blown down today. They twisted the telegraph, telephone and electric light wires. As a result of this a telephone was set aflame.

Sullivan turned in an alarm of fire and then decided to telephone the police station in Seventh street to have the station notify the electric light company to shut off the power that the lives of the firemen might not be endangered.

Sullivan placed his key into the lock of the patrol box and was knocked twenty feet a current of between 2,500 and 3,000 volts had passed through his body. The policeman died half an hour later in the St. Francis hospital.

Five-Year Sentence for Incest.

Barris, June 13.—Eugene Brekwith, a Frenchman aged 49, employed in a stove factory, was sentenced to five years in Kingston by Judge Wisler for incest. He is the father of a boy of 12 years, and two girls of 13 and 15 years. Information was laid by the elder girl. "I wish to save my little sister from a life of shame into which I have been dragged by my father," said she.

CHRISTIAN SCIENTISTS' SCRAP.

Exciting Scene in Toronto Church.

Attempt to Exclude Founder.

Toronto, Ont., June 13.—An exciting scene occurred at First Church of Christ, Scientist, University avenue, tonight, when Mrs. L. N. Stewart, founder of the church 19 years ago, refused to be excluded from the quarterly business meeting, although the majority of those assembled voted her out. A policeman was called to eject her. Great precautions were taken to prevent the entry of Mrs. Stewart, who is under suspension by the board of directors for alleged improper influence on the children members of the congregation. Over twenty followers surrounded her and rushed her through the doors. The meeting was in pandemonium, but she stayed till the end. The trouble arose over a faction fight for control of the church. Mrs. Stewart claims that application for membership have been rejected because likely to support her side.

MANY LIVES LOST IN MONTREAL DISASTER

Huge Water Tank Crashed Through Royal Building.

Crushing Many Employees of the Office to Death.

Montreal, Que., June 12.—One of the worst catastrophes in the history of Montreal occurred in the building of the Montreal Herald, when between thirty and sixty men, women and children lost their lives and the plant and premises were destroyed by fire.

The huge water tank on the roof collapsed at half-past ten o'clock and fell through four floors, carrying death and destruction in its path. Several employees went with it from the roof to the bottom floor, where it upset machinery, breaking electric wires and starting a blaze which in a few minutes swept through from the first floor to the roof.

The falling tank broke the gas pipes, causing an explosion. The firemen are now removing the injured from the building, and blocks around the streets are covered with flying cinders. The Imperial bank is the next building and was in danger, but it now looks as if the fire will be confined to the Herald building.

The persons dead are girls and pressmen, the editorial and business staffs, in front of the building, getting out. The Montreal Herald has a fine five-story building, practically new, on Victoria Square. The company's president is James B. Briery, and its secretary is Arthur Taylor and John Taylor, business manager. The paper is in its 93rd year.

Top Floor Swept Off.

Employees on the top floor suffered worst. A big brick wall divided the fourth floor into two sections and when the tank was knocked down, the brick wall falling on girls and men engaged on ruling machines, the time, crushing some to death at the time and carrying others down to the bottom floor with it. It smashed through the stereotyping, upsetting the machinery and breaking down the rear wall. It went through the rear of the job printing shop also, but no one was killed. Miss Heubach, society editor, her assistant, Miss Inghar, Pittman, and cartoonist, his assistant, G. D. Lawrence and Gleason, the photographer, all occupied apartments in rear of the second story and the editorial rooms and escaped by a hair's breadth.

Firemen were on the spot immediately and the work of rescue was begun, but the fire, which broke out a few minutes after the collapse of the tank, served to render the situation far worse and retarded the work of rescue completely so far as those who were beneath the ruins of cement were concerned.

Women Showed Courage.

The women and girls in the top section rushed forward to front the building immediately the disaster took place and there awaited the fire escapes, behaving with remarkable courage. The building destroyed with \$200,000 loss. Within an hour after the blaze was under control twelve bodies were taken out. The estimates of the dead range from thirty to sixty.

WRECK OF TURKISH TRAIN.

Attempt Directed at Life of General Sheikf Pasha.

Constantinople, June 13.—A bridge on the Oriental railway, near Lalü Bourgas, collapsed under the second section of the Orient express. Some of the cars fell in the water. It is learned that four bottles were removed from the rails eighty yards from the bridge and this demoralized the train. The conductor was killed. Three passengers were severely, and six, slightly injured. The wrecking of the train was apparently directed at General Sheikf Pasha who intended to travel by it, but took a steamer instead.

MR. BORDEN'S TOUR.

Will Address Ten Political Picnics in Ontario.

Peterboro, June 13.—Mr. R. L. Borden arrived in this city from Ottawa on the C. P. R. and was welcomed at the station by a committee of prominent Conservatives. Later he was taken for a trip over the fit lock and a short distance up the Trent canal. Mr. Borden is on his way to Camp-Helford, where he will address the first of a series of ten political picnics in Ontario before going to the Maritime provinces on a political tour. He is accompanied by Provincial Secretary Hanna and by Mr. Doherty, K. C. M. P. of St. Anne, Montreal.

PROPOSAL TO DIVIDE DIOCESE OF CALGARY

Representatives of Edmonton Anglican Clergy and Laymen Attend Synod in Calgary—Movement to Make Division at Red Deer.

The Anglican clergy of the city, with representatives laymen from each of the churches, left on the late train last evening for Calgary, where they will be in attendance at the Anglican synod which opens today and will probably continue in session until Friday next.

It is thought possible that a proposal to make a division of the diocese though not on the agenda, may come up for discussion. The diocese of Calgary, which is at present coterminous with the province of Alberta, is considered by many to be too large for effective administration. It is possible that a proposal to constitute the portion north of Red Deer a separate diocese may receive consideration.

Those who are in a position to judge best the possible developments, however, state that it is unlikely that definite steps will be taken towards the erection of a new diocese at the present time, owing to the difficulty which would be experienced in raising the sum necessary for its endowment.

The power to make the division rests with the provincial synod, the bishop of the diocese concerned holding the power of veto. The bishop of Calgary is reported to favor the division, but it is not considered likely that it will be effected for some time.

The clergy from Edmonton who will be in attendance are: From All Saints' church, the Ven. Archdeacon Gray, the Rev. W. C. Wood; from St. Paul's church, the Rev. H. H. Summers; unattached, the Rev. W. G. Boyd. The Rev. Robert Jefferson, of the business school, will be unable to attend.

The lay delegates appointed from the various churches are: E. C. Emery, G. R. F. Kirkpatrick and E. C. Pardee; from All Saints, Jas. Henderson; from Christ church, T. F. Siewalson from St. Paul's.

C. P. R. RE-ARRANGES WESTERN DIVISIONS

New General Division to Be Formed According to General Manager.

Whit-Moose Jaw, Being the Centre Will Be Headquarters of the New Division.

Winnipeg, June 13.—The great development of the West, particularly in the central portion, has led to a decision to form a new general division. Such was the announcement made today by Wm. Whyte, of the C.P.R.

"The mileage included in the present general division is now very large, by reason of the new lines, and it is being re-arranged in the last few years, and when the change is made, likely on July 1st, western lines of the Canadian Pacific railway, will be known as the Manitoba division, Saskatchewan division, Alberta division and British Columbia division."

"Moose Jaw, being a divisional point where slope and other facilities are located, lends itself naturally as the centre of the new general division to be the headquarters and this has been decided upon."

Asked as to the personnel of the offices of the new division, Mr. Whyte stated that Mr. Bury on his return from the Coast in the course of a few days will probably have an announcement to make.

REBUKES HOME SECRETARY.

His Majesty Objects in His Own Way to Controversial Topic.

London, June 13.—Home Secretary Winston Churchill is said to be much displeased with the reception to his Majesty's reception to the cabinet members at Marlborough house early this week, he said in the House of Commons.

Churchill, forgetting that he was the subject of the discussion at the league, adopted a strongly controversial tone and distinctly crossed the invisible line which separates king and subject even in the most informal intercourse.

His majesty seemed at first a little puzzled, but when it dawned upon him that his views were being dissected in House of Commons manner, he grew unmistakably angry.

"Do not let us detain you from your constituents, Mr. Churchill," the king is reported to have said as he perceptibly concluded the audience.

The unfortunate secretary withdrew as quickly as possible and has been little seen in public places since.

Bought for \$5,000; Sold for \$24,000.

Winnipeg, June 13.—An important sale of real estate was announced yesterday when Thomas Thompson of the Grain Exchange, sold his residence, 385 Cumberland street, located on a fifty foot lot, for \$24,000. Mr. Thompson purchased this place a few years ago, after leaving Brandon to reside here, for \$6,000; in the meantime the locality has developed into a manufacturing and warehouse district, and values have greatly advanced.

Library for Toronto University.

Toronto, June 13.—At the annual convention of the University of Toronto this afternoon, the chancellor, Sir Wm. Meredith, announced that Goldwin Smith's library had become the property of the university.

Dr. Schumann, of Cornell university, Canadian born, declared that Goldwin Smith's predictions were not fulfilled in fact, but they are fulfilled in spirit.

THREATEN A STRIKE OF N. Y. CLOAKMAKERS

Delegates Returning From a Convention of the International Garment Makers' Union at Boston—Want Eight Hour Day and No Home Work.

New York, June 13.—A strike involving 75,000 cloak makers of New York and neighboring cities will be called before July 15, according to the delegates who returned today from the convention of the International Garment Makers' Union, at Boston.

In addition to the cloak makers, shirt makers, waist makers, wrapper makers and sport makers will be called out. The plan is to have the strike in full swing in the middle of July.

The delegates were in session in the city hall, where they were joined by delegates from other cities who are doing home work, but it is not known if the strike, they will also find strikes on their hands.

The workers demand an eight hour day with no home work.

RUSSIA WATCHES ACTIVELY IN CHINA.

Watches Closely to Give Too Great Consideration to Orientals.

St. Petersburg, June 13.—Russia is watching with keen interest the unrest in the Far East, and is giving too great consideration to the Orientals.

St. Petersburg, June 13.—Russia is watching with keen interest the unrest in the Far East, and is giving too great consideration to the Orientals.

BOARD OF TRADE BANQUET.

Representatives From Western Cities Are Banqueted in Brandon.

Brandon, Man., June 10.—The closing feature of the Seventh Annual Convention of the Associated Boards of Trade of Western Canada, the banquet, was held here on the evening of the 10th.

The banquet, held at the Hotel Brandon, was a very particular one. It was given by the Associated Boards of Trade of Western Canada, and was attended by two hundred delegates and citizens gathered in the large ballroom of the hotel.

The banquet was a very particular one. It was given by the Associated Boards of Trade of Western Canada, and was attended by two hundred delegates and citizens gathered in the large ballroom of the hotel.

STEAMSHIP WAR ON PACIFIC.

Canadian Pacific May Lack Hens on Rates With "Bank" Line.

Montreal, June 13.—That the C.P.R. may presently be involved in a war in storage rates for Chinese passengers on the Pacific Ocean is possible as a result of a request by the West-Waterloo "Bank" line of steamers that they be allowed a differential. The matter has been presented to the Trans-Pacific Traffic Bureau, composed of all the steamship lines plying between this side and the Orient.

The result of the trouble is expected to be a rate war across the Pacific, and those who are watching the situation are of the opinion that rates may go down to \$3 or \$10 per head.

The Japanese lines are somewhat interested, but not to the extent of the Blue Funnel line. For two years the proper office has been redeemable at \$105, the line being redeemable at \$105, the line being redeemable at \$105.

Edmonton Debentures on Market.

London, June 13.—The Bank of Montreal on Saturday issued the city of Edmonton loan of \$225,000. The issue is entirely of 4 1/2 per cent. debentures, \$100 each. The issue price is 105, the loan being redeemable at \$105, the line being redeemable at \$105.

Will Modify Coronation Oath.

London, June 13.—Premier Asquith announced in the House of Commons this afternoon that the government will introduce a bill modifying the coronation oath with reference to the Roman Catholic faith.

CANADIAN PACIFIC WILL ENTER BOSTON

Acquisition of the Terminals of the Dominion Atlantic Will Have This Result—New Era in Transportation Looked For on the Pacific Coast.

Boston, June 11.—A development following upon the acquisition of the Dominion Atlantic railway by the Canadian Pacific railway which has hitherto been entirely overlooked is that the latter company also secures the line of steamships now running between Nova Scotia and Boston, and with these steamships, terminal accommodation in this city.

Business interests here are for the most part highly pleased with this move. Not only does this evolve improvement of the steamship service between Boston and the Maritime provinces, but it portends a closer bond between New England and Canadian interests.

The acquisition of a terminal in Boston by the Canadian Pacific people has had bitter opposition for many years by the hard-headed New England Yankees, who could see no good in allowing another finger in the big plum pudding of New England waters. To a great extent this opposition has been removed.

New Era in Transportation.

With the Grand getting a terminal in Providence and the Canadian Pacific gaining the last link in its route to Boston, a new era in transportation is looked for. There is still some feeling in railroad circles here that the Morgan interests now controlling the New Haven and the Boston and Maine, may, if the Canadian Pacific manifests too great an activity in the Maritime business, extend its water lines to compete with the Dominion Atlantic steamers to eastern ports and even to Montreal.

WHITE SLAYERS CAPTURED.

Two Spaniards Arrested at Paris Railway Station.

Paris, June 13.—The police have tracked a gang engaged in the white slave traffic, with headquarters in Paris and Panama. Two Spaniards named Damiani and Casalta, were arrested recently at the railway station as they were accompanying four young girls bound for St. Nazaire, where they intended to embark for Colon. The girls had had situations promised to them with dressmakers in Panama. The youngest is sixteen and the oldest 27. Compromising documents were found on the prisoners who it is learned work here to supply girls to houses of ill fame in Panama.

Anti-Clerical Demonstration.

Rome, June 13.—The anti-clerical demonstration which was postponed from June 5, was held on Sunday at Trastevere. Four thousand socialists, Republicans and Radicals paraded the streets after violent speeches had been made, but they dispersed without doing any harm. The police and troops were ready for any emergency at their services were not required.

Catholics Fired on Republicans.

Valencia, Spain, June 12.—Republicans while leaving a great anti-clerical meeting last night, were attacked by groups of Catholics, who fired upon them. Violent clashes occurred in the streets and many persons were wounded. Gardemes appeared and dispersed the crowd after charging them repeatedly. Several rioters were arrested.

Alfonso Consults Specialist.

Biarritz, June 12.—King Alfonso passed through here today in an automobile to Bordeaux where he will consult Dr. Mourou, specialist. The King visits to Dr. Mourou are frequent.

Queen's University and College KINGSTON ONTARIO.

ARTS EDUCATION THEOLOGY MEDICINE SCIENCE (Including Engineering)

The Arts course may be taken without attendance, but students desiring to graduate must attend one session. There were 1517 students registered in session 1909-10.

For Calendar, write the Registrar, QUES. Y. GEORGE, B. A. Kingston, Ontario.

THE NEW FLAVOR MAPLEINE

A flavor used the same as lemon vanilla, etc. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by drug stores, 10c. per 2 oz. bottle and recipe book. Crescent Mfg. Co., Seattle, Wash.

POLITICAL MIX-UP IN YUKON.

Liberal Association Names Governor to Dissolve Legislature.

Dawson, June 12.—Dissatisfied with the work just done, the Yukon Territorial Liberal association has unanimously adopted resolutions asking the Governor Henderson immediately declare all seats in the Yukon legislature vacant, and move the necessity for a new election. Governor Henderson has not decided.

The Yukon legislature adjourned today after a two weeks' session. The most contentious matter in dispute between the council and Governor Henderson is the question which has authority to appoint the territorial officials. Governor Henderson attempted to make David McParlane the chief official and the council named John Sutherland MacKay. MacParlane so far is doing the work. The governor will refer the matter to the federal government for decision.

The legislature voted to grant no public funds to denominational schools after June of next year.

A motion to refuse the right to vote to Japanese, Chinese and Indians was lost.

The territorial Liberals yesterday wired Premier Laurier and the minister who visit Prince Rupert this summer to extend their trip to Dawson.

A RECORD AERIAL FLIGHT.

Files From New York to Philadelphia, a Distance of Eighty-six Miles.

New York, June 13.—Under most ideal conditions, Charles G. Hamilton, of the "aerial broncho buster," set out at 7:35 today on a flight to Philadelphia and return, a record distance. A gentle breeze, far below the 25 mile wind which marked the danger limit to the aviator, was blowing from the northwest. The propeller was taken by the machine of Glen H. Curtis. Hamilton successfully covered the 86 miles between New York and Philadelphia, and landed safely at aviation field at 9:29. The greater part of the distance he was accompanied by a special train which travelled fifty miles an hour. The times exceeded the speed made by the train. Average speed, 42.25 miles per hour.

SCALE MOUNT MCKINLEY.

Alaskan Miners Make Trip to High Peak.

Fairbanks, Alaska, June 12.—McKinley, the highest peak of the Alaskan mountains, has been scaled for the second time, and a man who stood on the summit.

Pete Anderson, W. R. T. Charles McConville, who with Tom Lloyd and party when the ascent of the giant peak was made on April 3, are back in Fairbanks with the word that their second ascent May 18. They stated every detail of the first of the mountain as told by the three men who did not find the American flag left in the Kantathina in the foothills peak.

They retraced their steps. McKinley at the request of the take more photographs and more proofs of their claim. Anderson and McConville, who six weeks before, still vivacious that sweeps over the top of the summit.

Prospectors in from the neighborhood say the flag is visible on clear days. The commercial company's agent Kokwim writes that the flag seen on that side as well.

Chinaman Fatally Assaulted.

Toronto, June 12.—Joe G. Chinaman, who was attacked laundry at Streetville Thursday and beaten over the head by two persons, was removed to the Saturday morning and died at the General Hospital today. He will be held at Streetville until the description of the assault through Milton Friday night.

Chamberlain's Stomach and Nerves will brace up the nervous system, prevent indigestion, and regulate the whole system.

Regulate the Bowels

"I have been troubled with constipation for several years, and have tried a great many kinds of pills, as well as medicine from the doctor. Nothing seemed to help me until I began taking Dr. Miles' Nerve and Liver Pills. I found the little pills very effective, and I am thankful that at last I have a reliable remedy."

MRS. F. M. DUNKIN, LeRoy, Ills.

Dr. Miles' Nerve and Liver Pills simply cause the bowels to move in a normal manner, and without the gripping effects of cathartics and purgatives. That's why they are so universally used by women and children. The longer they are taken the less are needed. Natural conditions gradually being restored.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward gratis.

DR. MILES MEDICAL CO., Toronto.

SORE FEET

CHAFED PLACES, BLISTERS, ETC.

Are your feet hot, sore and blistered? If so, try Zam-Buk. Zam-Buk is applied to chafed and sores, it cools and soothes, it relieves smarting skin and tissue.

Its rich, refined herbs and essences penetrate the skin; its antiseptic properties prevent all danger of festering or inflammation.

For chafes, sunburns, cuts, burns, bruises, etc., just as effective. Mothers find it invaluable for baby's sores!

SPORTING NEWS

BASEBALL. (Wednesday's Daily).

SECOND GAME FROM MAROONS.

Winnipeg, June 15.—That Deacon White has one of the greatest all-around baseball machines that has played in Winnipeg for many years was proven to Winnipeg fans when the Edmonton news showed up the Maroons last night to the tune of 7 to 1. Two local twirlers were unable to stop their onslaught with the bat, while their bases like madmen and at the same time gave Slim Dell, their long twirler, wonderful support. Chisley Cox was the handy man with the axe. He secured three safeties and two of them served to break up the game in opening rounds. Twelve safe hits in seven innings shows the manner in which the Edmonton team are sailing the pill on the nose these days. But the beauty of their hitting last night was their timely swats. Nearly every time that a single was needed there was a grey-shirted man there with the big stick.

The Maroons were unable to do anything against the spectacular playing of the visitors and though Dell was very wild when he did get them over he had the locals breaking their backs in an endeavor to meet them safely. Only five singles were made off the big fellow and they were all scattered, as he has been made by Lohr's hirings happened in the sixth when an error allowed Edmonds to get first. He scoring later on sacrifice fly, Wilson was knocked out of the box in the second spasm and Spewer, who replaced him, was no positive. Last night's victory made it the twelfth straight win and the year's record for the league. Baxter pulled off a clever trick in the fourth when the Maroons stole the bases and with no bases and nobody out, Baxter tapped the hidden ball trick on Edmonds. It saved a score.

According to Deacon White he will have a new pitcher on his staff about as quick as a train can bring him from Spokane. The Deacon Tuesday wired transportation to "Handsome" Jack Hickory, a giant side-wheeler, who used to be called on the coast as a left hand. Overall, but who has failed to show very much in the past four or five years. Hickory was with Aberdeen in 1907, in Vancouver in 1908 and 1909 and started out with Spokane this year. He has tremendous speed and a dangerous break but is shy of control. When right he was the best left-hander on the coast, making his biggest record in 1908 with Seattle, his same filled in the Chicago Cubs. He has the unique record of being the champion hard-hitting pitcher in the Chicago Cubs for a no-hit game against Tacoma for Vancouver but lost 1 to 0 on two errors in the eighth. If Edmonds remained here much longer, Manager Spewer would have a hurried transfer to the Chicago Cubs or New York Giants for a dozen or more new fingers. The local twirler corps all look alike to Deacon's slingers.

Edmonton has plenty of ginger, the players even keeping up the bartering here on the bench, as the left hander staff that makes winning ball teams.

CLOSE GAME AT BRANDON.

Brandon, June 15.—An eight shower of rain followed by a cloudy sky put an end to tonight's game in the sixth inning with Calgary on the bases and a 2 to 0 score when the game was called. Brandon had first and third sacks occupied and only one out. Calgary secured their run in the second on O'Brien's error, a free ticket, and two singles outside of that inning the game was a pitchers battle with Earl slightly getting the best of it.

SCALE MOUNT MCKINLEY.

Alaskan Miners Make Trip to Top of High Peak. Fairbanks, Alaska, June 12.—Mount McKinley, the highest peak on the American continent, has been climbed for the second time by a party of men who stood on the summit were Alaskan miners.

Pete Anderson, W. R. Taylor and Charles McCone, who were with Tom Lloyd and party when the first ascent of the giant peak was made on April 3, are back in Fairbanks today with the word that they made a second ascent May 18. They corroborated every detail of the first scaling of the mountain as told by Lloyd.

The three men did not return to Fairbanks with Lloyd, but camped at Kantana in the foothills of the peak.

They retraced their steps up McKinley at the request of Lloyd, to take more photographs and furnish more proofs of their claims. They found the American flag left by Lloyd six weeks before, still waving in the wind that sweeps over the twin crags of the summit.

Prospectors in from the McKinley neighborhood say the flag is plainly visible on clear days. The northern commercial company's agent at Kuskokwim writes that the flag can be seen on that side as well.

Chinaman Fatally Assaulted. Toronto, June 13.—Joe Gonda, a Chinaman, who was attacked in laundry at Streetville Thursday night and beaten over the head by unknown persons, was removed to Toronto on Saturday morning and is now at the General Hospital there. An inquest will be held at Streetville. Two men of the description of the suspects passed through Milton Friday night.

Chamberlain's Stomach and Liver Tablets will brace up the system, banish sick headache, prevent dizziness and invigorate the whole system. Sold by all dealers.

ASCOT RACES OPENED IN BRILLIANT WEATHER

Society, However, is Garbed in Sombre Mourning—None of Late King's Horses Will Take Part in Meeting—Gold Vase Event Won by Charles O'Malley.

London, June 14.—The Royal Ascot, the most fashionable race meeting in England, and the most important meeting on the flat in the world, opened today in brilliant weather but deprived of its characteristic features as a great social function. Instead of the usual brilliant attire through, bright with Parisian frocks and millinery the crowd was soberly attired in mourning, and the Royal Box stood empty draped in black. Conspicuously missed too was the brilliant pageant of recent years when his late Majesty arrives up the Royal Ghyse in the state carriage with outriders and clattering escorts. The Royal colors will, of course, not appear in the middle at this meeting, though one or two of King George's horses may race in Lord Derby's colors.

Which of the Ats, the two-year-old filly, who won her first race as her Royal Master lay dying in Buckingham Palace, will not run again, as she has been turned out in the Sandringham paddocks, with a fine sense of fitness that does credit to the new King.

The Americans scored in the first race of the day when H. P. Whitney's "Whisk-broom," who started favorite at 3 to 1, won the Trial Stakes of 500 pounds, a distance of six furlongs. J. B. Jock's Dean Swift was second repeating his performance of last year, starting at 11 to 2 and P. Nell's Yellow Slave 23 to 1 was third.

The Gold Vase, with 1,000 pounds added, 2 mile, the most important race of the day, was won by A. P. Cuffin's Charlie O'Malley, 9 to 4, who finished third in the Derby. Sir B. W. Jardine's Abbatiss, 10 to 1, was second and C. Meyer's Apache, 100 to 1, third.

The Coventry Stakes of 1,000 pounds, for two-year-olds, was won by B. Joe's Radiance, a filly by Ladass-Gold Lassie, 100 to 1. L. Robinson's Joe De Voe, 1 to 2, was second and Newman's Climie, 4 to 1, third. The distance was five furlongs. The Coventry Stakes has been won by some of the greatest subsequent performers on the turf, Admiral Hawk carrying it off last year, when Neil Gow was third.

NO OPPOSITION TO McLEAN.

Provincial Secretary to be Returned by Acclamation in Malmed. Hon. A. MacLean, of Taber the new provincial secretary, is in the city on a private business visit. He stated that he had nothing to say in regard to the political situation other than that he would be in the city on the 23rd. His constituency would be held on June 23, as already announced. J. Myers, of Taber, has been appointed returning officer for MacLean in regard to the question said that he had not yet heard whether his election would be opposed or not.

"I have heard of no opposition candidate as yet," he said. The new provincial secretary will not take precedence with his department until after his election.

TONIC TREATMENT FOR INDIGESTION

The Process of Digestion is Controlled by the Blood and Nerves

If you have indigestion and you begin a course of treatment to make your stomach stronger, you are on the right track for a real cure. You are never cure yourself by eating pre-digested foods, or by taking purgative medicines. The stomach is not doing its own work under these treatments and there can be no real cure until the stomach is strong enough to digest all the food necessary to maintain the body in normal health.

The great aim of the tonic treatment for indigestion is to adapt the stomach to the stomach to a point where all foods eaten will digest easily and nourish the body. A tonic that will strengthen the stomach is what is needed, as the process of digestion is controlled by the blood and nerves.

Dr. Williams' Pink Pills are an ideal tonic. They actually make new, rich blood, and thus bring strength and tone to the stomach. This has been proved over and over again, and thousands of grateful people have not hesitated to say so. Here is an instance: "Miss Eva Fischer, Balmora, Man. says: 'I am writing this letter on behalf of my mother, who wishes you to know how much Dr. Williams' Pink Pills have done for her. For several years she had been greatly troubled with indigestion and notwithstanding the medicine she was taking the trouble was growing worse. Every meal was dreaded, and left behind it a feeling of nausea and severe pain. As this continued she began to lose strength and energy, and was hardly able to do any household work. On the advice of a friend she began to take Dr. Williams' Pink Pills, and soon began to feel better. She continued taking the Pills until she had used ten boxes, when her health was fully restored and she could take any kind of food without the least discomfort. Since that time she has not had the slightest return of the trouble.'

Thousands of cured men and women speak from experience of the benefits derived from Dr. Williams' Pink Pills in cases of indigestion, anaemia, rheumatism, general weakness, pains in the back and side, neuralgia, St. Vitus dance, and the troubles that afflict women and growing girls. These pills are sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Buy a Disc Harrow that follows the unevenness of the ground, and you will buy a MASSEY-HARRIS.

COST OF LIVING IS HIGHER.

Statistics Show That in March It Was Higher Than in Last 20 Years.

Washington, D.C., June 12.—The cost of living in March of this year was higher than at any time in the preceding twenty years. This fact is shown by government statistics as set forth in the latest report of the Commerce and Labor Department. The report makes a comparison of prices of necessities of life from 1890 to 1910. It makes the cost of living in March of this year 7.50 per cent. higher than in March, 1909; 10.2 per cent. higher than in August, 1908; 21.1 per cent. higher than the average yearly price of 1900; 49.2 per cent. higher than the average yearly price of 1897; and 62.8 per cent. higher than the average yearly price for ten years from 1890 to 1899. These figures are for wholesale prices alone. The retail prices, if compared, would probably show a more alarming increase.

NEW POLITICAL PARTY PROPOSED IN ALBERTA

Meeting To Be Held In Edmonton In Near Future, According To Despatch From Calgary—Object Of Party Is To Protest Against Ottawa Dictation of Provincial Affairs.

Calgary, June 13.—Another party will shortly appear on the political horizon of Alberta. A meeting will be held at an early date to be held in Edmonton to outline the party's policy. The object of the new party is not yet made public, but it is intended to include every man of every political creed or color who is willing to subscribe to its principles. So far as can be learned the principal objects of the new party will be to guard the rights of the province against real or imaginary federal dictation and to protest against the usurpation of arbitrary authority on the part of the lieutenant governor. The new party had its birth at Red Deer. At least that is where it was first talked of in any definite action taken by the movement, it is said, has spread to every part of the province. It is also claimed that leading men from every constituency will be present at the Edmonton meeting and take part in the framing of a political platform on which to appeal for the support of the people of Alberta.

A 17-year-old boy named McInnis, the son of a rancher living at Beaver Dam, near Medicine Hat, was killed in Sheep Creek about ten miles south of the railway, yesterday afternoon. A younger brother might have met the same fate had not a stiver, another brother, only 13 years old, made an heroic effort to save him. The three boys had gone into the creek to swim. The eldest ventured too far out and got into a hole that was beyond their depth. Being poor swimmers they were swept off their feet by the current. The youngest of the boys was a better swimmer and by a heroic effort succeeded in securing one of his brothers. Charles, who works for the McBride Hardware Co., this city.

CROPS ABOUT OLDS UNHURT.

Farmers Expect Quiet as Good Crops in District as Last Year.

Calgary, June 12.—A. D. Lamont, of Olds, spent yesterday in the city on a business visit. When asked as to the condition of the crops in the Olds district, Mr. Lamont said: "The crops are looking extremely well and have not as yet been affected in the slightest by drought or any other cause. They are making a good steady growth and in many cases are completely covering the ground. Full wheat will be a good average crop and there are many fields that are exceptionally good. There has been a number of local showers, since the heavy snow storm of ten days ago."

A PLUCKY N.Y. POLICEMAN.

Prevented a Bomb Explosion in Brooklyn.

New York, June 12.—Two broken windows in a Brooklyn saloon today caused Policeman Timothy Daley to make an investigation. Entering the place he saw a bomb with a spluttering fuse attached, lying on the bar. Daley feared the danger, and jumping behind the bar he found a bucket of water and threw the bomb into it. Then he carried it to the middle of the street. Examination proved the bomb powerful enough to have wrecked the place and imperiled the lives of the patrons. The owner of the place had recently received several letters threatening harm unless money was given the writers.

C.P.R. PLANS NOT READY.

Mr. McNeill's Statement Re Government House.

Montreal, June 13.—Vice-President D. McNeill of the Canadian Pacific this afternoon confirmed the statement that the big railway had purchased the Government House property at Toronto for \$800,000. Mr. McNeill stated that it would be 1912 before the company would take over the property. The purchase, he intimated, was part of a big scheme of improvements at Toronto. "As to what our plans for Toronto are," Mr. McNeill said, "nothing can be said as yet, since they are not yet prepared. In fact, nothing much can be said until 1912, when our plans are prepared they will still have to be submitted to the city and the Board of Harbour Commissioners, and it will be time to talk about them then."

Strangled on Swing.

Fort William, June 13.—Two-year-old Joseph Runiewiczki slipped from a swing on Sunday evening and became entangled in a rope, was strangled before his plight was noted. The coroner, after investigating, decided an inquest was unnecessary.

Student Drowned at Temagami. Toronto, June 13.—Vernon Manning, a student about 17 years of age, whose home is at Aurora, was accidentally drowned at Indian Chutes on the Montreal river, whilst engaged in the avocation of fire ranger in the Temagami forest reserve.

KING GEORGE V. IS FREE MINER IN B. C.

The British Monarch Has Several Claims in the Revelstoke Mining Division—Land Taken up and Made Over to the Crown During Time of Last King.

Revelstoke, June 11.—A large number of free miners' certificates have been renewed at the end of May this year, according to the statement from the local court house officials. It is not generally known that His Majesty King George V., holds by right the greatest value of their rights in the Revelstoke mining division. The renewal of the license was made on May 31st, to King George V., who in payment of \$2 in the right of the Dominion of Canada is entitled to all rights and privileges of a free miner, as set forth in the Mining Act, W. E. McLachlin being numbered 1414.

How He Holds License.

The manner in which King George holds the license is interesting. In 1906 C. Detschman and A. Johnson discovered the famous "Deutschman Caves" in the Selkirk east of here, and realizing the great value of their find at once proceeded to acquire a title to the land wherein the caves were located. This apparently could only be done by transferring the land up as mineral claims, which they did and staked off three claims named respectively Brookium, Ironstone and Buckhorn, all situated near Cougar Creek, near Ross Peak. After these marvelous caves had been explored and discovered, the transfer of their rights to the Dominion government, who took over the mineral rights of King Edward VII. and the reigning monarch, King Edward VII. King Pays Fee.

CONFERENCE IN BRANDON.

The Visiting Ministers Occupy Various City Pulpits.

Brandon, June 12.—Today was Conference Sunday and the delegates to the Canadian conference filled the pulpits of the city churches which were packed to the doors with audiences eager for the sacred service. The conference opened at 10 o'clock, at the hour. At 10 a.m. the conference service was held in the school room of the First Methodist church, where a most interesting hour was spent. The president presided over the regular ordination service. Rev. G. O. Irvine led the prayer, and Mr. Cole and A. W. Waugh were ordained for special purposes.

At the evening service there was held the conference missionary meeting. Dr. Spurling, of Wesley College, occupied the chair and after ministerial address were given by J. B. Kenelvis and Oliver Aldwin, secretary of the temperance and moral reform and missionary societies. The church was crowded and the interest intense. Special music was rendered by the choir.

Drowned in Bow River.

Lethbridge, June 12.—Emil Erickson, harness maker, of Carmarvon, Alta., was drowned while bathing in the Little Bow River last night.

5,000 Saw Goldmin Smith's Remains. Toronto, Ont., June 12.—It is estimated that more than 5,000 people availed themselves of the last opportunity to view the remains of the late Dr. Goldwin Smith as they lay in state in the archway between the two drawing rooms of "The

Settlers Bring Wealth To West.

Winnipeg, June 14.—Homesteaders and land purchasers from the United States, to the number of 750, passed through here yesterday, bound mostly for the Lost Mountain Valley district. The capital brought in, by these settlers is estimated at over \$5,000,000. It is said that not one of them had less than \$2,500.

SENSATIONAL LAW SUIT.

Claim Against Hon. Jas. Dunsmuir And Others For \$4,000,000.

Victoria, B. C., June 13.—What promises to be the most sensational law suit in history of province comes to trial on June 22nd, when Henry Croft and others will bring action against the Hon. Jas. Dunsmuir and nine defendants, claiming for \$4,000,000 for alleged conspiracy respecting an option on lands in the Esquimaux and Nanaimo Railroad belt.

INTERESTING ITEMS FROM THE LANDING.

Party Leave for Fort McMurray to Commence Prospecting for Oil Claims—Hon. Frank Oliver Visits City After Accident En Route to Peace River.

Athabasca Landing, June 11.—Postmaster J. McKernan left Wednesday morning for his home at Ryley, where he will make some improvements.

The steamer Northland Call Tuesday evening on a trip down stream. She carried a good cargo of freight for Pelican and Wabasca, and also had two crews of Neil Cameron in tow.

The local branch of Revillon Bros. secured a silver fox skin Tuesday from a cutting lake trader. The fox was dead beyond resurrection. This is also the view of the Nationalist, as expressed in Freeman's Journal. MacNamara, speaking at Manchester, told his hearers to rest content that the chosen leaders would continue to seek the continuation of liberal principles concerning the Upper Province with courage, patience and determination. The way must be cleared for social reform and the Government must settle uncontrolled the financial system of the country.

INDIANS ON THE WAR PATH.

Mexican Indians in Chiapas to Fight for Their Lands.

Mexico City, Mex., June 12.—The Indians in the state of Chiapas are on the warpath over grievances as a result of the consolidation of their land. A despatch to the Mexican Herald from Tapachula says: "Officials here are excited as the result of the shooting of a prominent Mexican lawyer by Indians; the attempted murder of a surveyor and further threats to assassinate within a specified time many of the most prominent district officials and resident land holders. It is rumored about the city and along the line of the Pan-American railway that a number of officials of the state department have been notified that they will be shot. The warnings came by letter and in each instance a time was set within which the killing will take place. A big uprising of the Indians of the district is expected."

PROTEST AGAINST ENCYCLOPICAL.

Mass Meetings Held in Many Parts of Germany.

Berlin, June 13.—Several thousand Protestants took part in demonstrations in Berlin yesterday and mass meetings at Leipzig, Magdeburg and many other cities in "denunciation of the Papal encyclical, recently issued, condemnatory of religious reforms, and making special reference to Martin Luther. Resolutions were adopted calling for the strongest action on the part of the government. Resolutions have been forwarded to the Imperial Chancellor. The manifestos also denounced the Lutheran memorial with wrath.

Wanted.

TEACHER WANTED FOR SCOUSTON S.D., No. 1894, Mannville, with first or second certificate; school opens August 22nd.—State salary expert G. Geo. Reid, sec.-treas., Scoouston, Alta.

Teacher Wanted for the McLean S.D., No. 166, for a term of one year; duties to commence after summer holidays; applicants to state experience, qualifications and salary expected. Applications to be addressed to the undersigned and considered by the Board on July 18th, 1910.—J. A. Grierson, sec.-treas., McLean S.D., No. 166, Okotoks, Alta.

Wanted Ladies to Do Plain and Light Sewing at Home, whole or spare time; good pay; work sent any distance; charges equal; send stamp for full particulars. National Manufacturing Co., Montreal, Que.

SITUATION WANTED on Farm by middle-aged couple, with daughter 12 years; able to take light charges; Apply J. P. P., Griffin Lumber Plant, Edmonton.

NOTICE

Anyone wishing a new well or old one fixed up or air-shaft put down, call on me. I make a specialty of quickness. Can dig from 10 inch on 40 inch bore. All work done quickly and up-to-date. Money or good notes accepted. P. O. Box 1567. Residence, Green Cottage 3 1/2 blocks North of Crown Cash Store, corner of Alberta Ave., and N. Jasper. E. KEPHART.

Experience counts. Let us handle your grain and get full value. Consignments handled strictly on commission or net track offers made at any time—any grain of any quality. Liberal advances and prompt adjustments. Write for information or branch office.

Room 2 Alexander Corner, Calgary, Alta.

TWO BRITISH LEADERS WILL DISCUSS VELO

The Labor and the Nationalist Members Are Dissatisfied and Register a Protest Against Any Compromise—Will Seek Continuation of Liberal Principles.

London, June 12.—Hon. A. J. Balfour replied to Premier Asquith's communication regarding a conference on the veto question Saturday, and it is understood is favorable to Asquith's statement in the Commons on Monday, now anticipated with the keenest interest. The suggestion of a conference met with outspoken opposition from the Labor leaders on Saturday night. Speaking at Loughborough, Ramsay MacDonald said he was sorry there was going to be any conference. No compromise, no bargain, no accommodation, could be accepted by any body of men determined to make the constitution workable. The veto resolutions were the absolute minimum. If there was a conference he denied the right of the two front benches to settle the question. They no longer represented the Commons or the opinion of the country. Philip Snowden was equally emphatic. Any compromise, he said, meant that the Liberal party was dead beyond resurrection. This is also the view of the Nationalist, as expressed in Freeman's Journal. MacNamara, speaking at Manchester, told his hearers to rest content that the chosen leaders would continue to seek the continuation of liberal principles concerning the Upper Province with courage, patience and determination. The way must be cleared for social reform and the Government must settle uncontrolled the financial system of the country.

LOST.

FOUND—ON THE ST. ALBERT trail, one chestnut mare, about 200 pounds, halter on; white spot on forehead; spot on hind leg. Owner can have same by applying at the St. Albert stables, and paying expense. Alfred Cheviat, St. Albert, Alberta.

LOST.

STRAYED on the Premises of W. A. Wright, S.W. to 855-23, one Bay and one Grey Filly—Owner can have same by proving property and paying expenses.

TWENTY DOLLARS REWARD for the recovery of a Bright Bay Team of Gettings, 1,200 weight, 7 years old; one branded 17 (seventeen), with a bar over it on left hip, stars in forehead; the brand Three V's, set one above the other, point of a's pointing down, on right shoulder.—John Haddford, Right Creek, Alta.

STRAYED—\$25 REWARD—on MAY 30th, one brown gelding, branded pon left shoulder; 2 white hind legs; strip on face; weight 1,200 pounds, also one black gelding branded the same, star on forehead, bay-backed; weight about 1,200 lbs., had seen near Farm Saskatchewan. Both horses are rangy. Reward will be paid for information. E. Hogan, St. Albert, Alberta.

LOST—REWARD—Friday night, June 11th, one Steel Grey Mare, 4 years old, weight 1,200, white hind legs, small sore on left shoulder; one Bay Gelding, 9 years old, weighs about 900, weight 1,200, white hind legs, small sore on left shoulder; one Grey Cheyue, nearly white, weighs 700, about 7 years old, scar on right front fetlock, clipped mane and forehead, has foot on face, dark color, white mark on lip, white right hind foot.—Reward for information or return. Frank Leppard, Zephyr Dairy, or Edmonton P.O.

LOST—Three Bay Horses from the Province of Quebec—One horse, 7 years, English bred, height 5-12 feet, weight 1,200 lbs., no brand, white spot on a front foot, also white stripe on the right front hoof; one Mare, 6 years, weight 1,200, scar on the right nostril and a scar on the right thigh; and Dark Bay Mare, aged 15, weight 1,200 lbs., two white V on the breast, one under the ear in each instance a time was set within which the killing will take place. A big uprising of the Indians of the district is expected.

FOR SALE.

FOR SALE—Ten Building Lots, situated in Ingleswood, Block 17, the north-west half of the block—For further information apply to D. McLeod, care McLeod Bros., Truro, N.S.

EDMONTON NEWS

MONDAY'S DAILY.

BANKERS COMPANY PROPOSED.
A movement is on foot to form a bank company in connection with the 101st regiment, and in connection with the same a meeting of all interested is to be held at the Traders' Bank this evening at eight o'clock. Similar companies are now in existence in several of the eastern cities, and it is to be hoped that no difficulty will be experienced in forming such a company here. The training is a splendid one, and specially beneficial to those whose work confines them to an office, and it is expected that the Edmonton bank men will all help to make the proposed company a success in every way.

LIVERY BARN BURNED.

What threatened to be one of the most serious fires in the city for some time, broke out shortly before eleven o'clock Saturday in the feed and livery barn of Fred Goebel, at 58 Bellamy street, near Kintlin street. There was a heavy wind blowing at the time and the fire gained great headway in a few minutes, threatening the whole district which is a mass of wooden buildings.

The barn was in two sections and before the firemen arrived the inflammable materials, including hay and straw, were in a mass of flames. Four streams of water were put on the buildings and the fire was after a hard fight confined almost entirely to the interior of the buildings.

In addition to the hay there was destroyed three horses and a cab.

The cause of the fire was children playing with matches in the barn.

Other Fires.
While this fire was in progress another call came in for a brush fire on Churchill between Sixth and Seventh to this No. 7 responded.

Earlier fires in the morning were for brush on Churchill between Eighth and Ninth and on Saskatchewan between Ninth and Tenth, where some hay in a barn was ignited.

Despite the heavy wind these were all extinguished before much damage had been done.

COUNCIL MEETS F. W. PETERS.

At an informal meeting of the city council Saturday an agreement was reached between the city and the C.P.R. with reference to the payment of money for the traffic feature of the high-level bridge.

A meeting was held at half-past nine o'clock and there were present Mayor Lee, all the aldermen, and F. W. Peters and A. S. Bond, of the C.P.R. The agreement had been drawn up Friday by Mr. Bond and Mr. Bond. It provides for the payment by Edmonton of a certain amount for the entire \$558,000, or \$100,000 in August next and the remainder on progress estimates from time to time as the work proceeds.

Will Endorse on Tuesday.
The agreement could not be formally endorsed at the meeting this morning, but the mayor and aldermen gave an undertaking to have it adopted at next Tuesday night's regular meeting.

This was entirely satisfactory to Mr. Peters. Later in the morning the C.P.R. man received an endorsement in-council from the premier and his personal letter pledging himself to see that the entire grant of \$175,000 was completed.

Completed in Eighteen Months.
According to Mr. Peters the new bridge will be completed in eighteen months, which means that it will be ready by the fall of 1911. A regular C.P.R. service into Edmonton should be established by the spring of 1912.

Mr. Peters was asked by the Bulletin about the work that would be done in Edmonton towards the erection of a union station, building of the subway and overhead bridges, etc.

"We will not start this work in earnest till the bridge is nearly completed," he said. "It is likely that we will do considerable grading in the summer months of this year."

A Big Expenditure.
The construction of the bridge will mean the expenditure of more than a million and a half dollars in Edmonton and Strathcona in the next two years. The work of construction of the main body for the piers will begin immediately upon the contracts being let in the course of a few weeks.

NO ANTI-FOREIGN SPIRIT.

D. J. Brady, canal superintendent of the Chinese Engineering and Mining Company, and formerly construction engineer of the British Municipal Railway Company of Northern China is visiting the city, staying at the home of Mr. Short, Seventh street.

Said Saturday by the Bulletin, Mr. Brady said China is making great advances in the way of railroad construction of late years. At present there are three large lines under construction. The Pekin-Kalgan Railway is building an extension from Kalgan to Hekou, and the Tsin-Sin-Pow Railway is being built. The Pekin syndicate are also building a road to Homan. These roads, with the exception of the Pekin-Kalgan line, which is a native road, are almost all backed by British capital.

"An 'conservative' estimate of the Chinese market at present there is over \$100,000,000 of British capital invested in Chinese railroads."

"Do Chinese capitalists take any interest in railroad matters?" Mr. Brady was asked.

"Yes, indeed they do," he replied. "The Pekin-Kalgan railway, recently built, is a native road, and almost all backed by British capital."

"I cured me." "It saved the life of my child." are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine is in use for diarrhoea or cholera. It has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists.

THE CHINESE AND RAILWAYS.

"The lack of railways is the chief obstacle against the extensive mining of coal in the district," said Mr. Finnie, "and this will no doubt be remedied in a few years."

HOUSE ON FLATS DESTROYED.

The fire corps from Central hall were called out shortly before one o'clock on Monday for a blaze in a house at 242 Hamilton avenue, Flats. The building, which was occupied by Harry Koeter, was all ablaze inside when the firemen arrived and consequently was badly damaged before the blaze was extinguished. The cause is unknown as it is stated there was no fire in the stove for some time past.

AT THE IMMIGRATION HALL.

All sorts and conditions of men continue to arrive at the immigration hall daily. Last Saturday a colored gentleman from Oklahoma with a B. A. after his name, arrived in search of a school in Alberta. Then John Sydes, a stock-fact from Ireland, and Joseph Meiler, a German musician with flowing locks, are some other arrivals.

WEDNESDAY'S DAILY.

ELECTRIC DEPARTMENT REPORT.

The report of the city electric department for the month of May shows a big development in the business of the electric plant.

In incandescent light distribution there were 165 circuits connected and 198 disconnected, making an increase of 57 representing 313 sixteen-candle power lamps, besides irons, stoves, cookers, radiators, etc.

In power service there were eight connections and three disconnections, making an increase of five, representing 3830 horse power.

DELEGATION WANTS ON MAYOR.

A delegation from the Edmonton Light and Heat Co., Ltd., who are to establish the hydro-electric plant up the Saskatchewan river will be led by Lee Tuesday morning to further explain proposals to sell power to the city. In the delegation were Chas. May, Engineer McLaren and Solicitor Eager. They went into a number of the details of the question which will be further considered at Wednesday's meeting of the commissioners. Considerable correspondence has passed between the city and the company with reference to number of matters which they have set out as fully as they can what their proposals are.

MEETS RAILWAY EMPLOYEES.

A delegation from the operating staff of the street railway department waited upon Acting Superintendent Commissioner Bouillon Monday night with reference to number of matters which the staff wished to bring to his attention. The most important of these was the proposed reduction of their rates for power and water and other matters.

The purpose of the meeting, so far as a sending tower here to be connected with Calgary. The representative of the corporation have already closed negotiations for a lease of the Hull Building in Calgary, on the top of which a tower will be erected. Mr. Bouillon thinks it quite possible that the two principal cities of Alberta will be in wireless telephonic communication this fall.

WIRELESS TELEPHONE TEST.

The North American Wireless Telephone Corporation's representatives, who have been in the city for several days, have been making a number of tests with their apparatus. Mr. J. Horstall, superintendent of the telephone system, is endeavoring to make an arrangement to have a public test of the apparatus. When Dr. DeForest, the inventor of the apparatus, was in the city recently, he talked through one of his instruments in the Royal Alexandra Hotel. These two buildings are over two miles apart.

EDMONTON BUSINESS SHOWS BIG INCREASE

Figures Compiled by Secretary Fisher, of the Board of Trade, Show Great Growth Especially During the Past Two Months—Monthly Wholesale Wage Roll \$10,000.

That Edmonton business has made great progress during the past few years is conclusively shown by statistics that have just been compiled by F. T. Fisher, secretary of the Edmonton board of trade.

In order to obtain exact information as to the rate at which the business of the city is developing, a circular was not long ago sent out to every wholesale house and every manufacturer in Edmonton, enclosing forms for replies to certain specific questions.

A great many of these forms, though not all, have now been returned. Those which have been returned, however, are thoroughly representative, and may safely be taken as a basis on which to estimate conditions in regard to businesses which have not made returns. The figures obtained are a little surprising, though the secretary expected to find a very marked increase in business.

The questions were designed particularly to ascertain the increase in Edmonton's distributing trade in the five year period since 1905. Of all the returns received, only one does not show an increase in business. The majority of the businesses making returns have been instituted since 1905; but those which were in existence at that date show an increase in volume of over 240 per cent. The total value of Edmonton's distributing trade in 1905 was \$3,000,000 in 1905, to over twenty million dollars per annum at present.

The number of hands employed in Edmonton's wholesale trade and manufacturing concerns is over 2,329, and the monthly pay rolls aggregate about \$1,000,000.

Most of the increase in volume has taken place during the last couple of years, and the prospects appear excellent for a more marked increase in the immediate future. Taken in conjunction with the marked increase in the clearing of figures, the statistics appear to indicate that the trade in this city is in a remarkably healthy condition.

BANKS HAVE CLOSED DOWN.

Business men from Southern Alberta who have visited the Capital reluctantly report with some indignation that the banks have completely closed down on general investment loans. This condition is reported as already existing in Calgary, Lethbridge and Macleod, which cities a considerable real estate activity has been going on for some time. This action of the banks seems to be considered by southern business men as unjustifiable but apparently is what has been quite expected by men in foremost financial circles.

That the financial outlook in the west for the near future seems some to be assuring is the opinion of some leading financiers of the Dominion. It apparently quite established that a stringency in some specially selected portions of the west, seems to be the firm opinion of the general managers of the Standard Bank, United Bank and Union Bank, all of whom are reported as having predicted 20 per cent call money in Southern Alberta before September.

A despatch from Winnipeg states that a leading New York official says: "While the money market for the immediate future is not so alarming as it appears, I cannot escape the conviction that we shall see very tight money this fall." This, however, is a necessary stringency in the west this fall. He says: "Personally, I feel we are in for a dull summer in general, but the conditions under the present monetary circumstances."

PROPOSES INSPECTION OF COLONIAL TROOPS

Lord Kitchener May Make Periodical Visits to Canada and Australia in Official Capacity.

London, June 13.—In the House of Lords, Lord Lucas, in connection with Lord Kitchener's refusal of the Mediterranean command, said benefit to the Dominion military forces was anticipated from his recent visits to Australia and French in Canada. If, as the result of the next Imperial Conference, similar visits to the Dominion for the purpose of inspection and advice could be made more or less systematically by an officer of the highest rank and distinguished military service, it is believed it would produce the most useful results. It should be agreed to, the most appropriate officer to carry out this duty would be the commander-in-chief of the Mediterranean.

Lord Lansdowne remarked that he should like to see Lord Kitchener in his proposal for the first time in the public press.

Lord Lucas said he had a qualification with regard to Canada and Australia. The governments of those countries would certainly be consulted before anything was decided.

Mr. McKenna at Pontypool declared it better at this moment that trace should remain; but that although there is a trace the Liberal party do not, can not abandon any matter of principle where they have set the seal of their good faith. It is anticipated that General A. Hamilton will be appointed to the Mediterranean command.
