APPRECIATION OF "THE MONITOR"
 Kindly Letter From Mr. Thomas F. Anderson, Whose Interest in Nova Scotia and Its Press has Continued Many Years.
 Below is reproduced a copy of a letter received by the Editor from Mr. Thomas F. Anderson, Secretary of the New England Shoe and Leather Association, Boston, Mr. Anderson for many years has been greatly interested in tourist, transportation and general questions effecting the Province of Nova Scotia and has been a frequent contributor to the daily press of the Province along these lines.
 His references to the Monitor are very kindly and we reproduce the letter though we feel that we have scarcely lived up to the references contained in it.
 Mr. Frank H. Beattie, Editor of the Bridgetown Monitor, Although one of the busiest men in Boston, I always find time to faithfully read every article in the Monitor as it reaches me every week, and I feel like congratulating you most heartily on the interesting and readable character of its contents.
 Although I have a number of friends in the community in which the paper circulates, it is the timely and snappy miscellaneous items and editorials relating to the Province of Nova Scotia at large that chiefly interest me—the references to Annapolis Valley apple-culture, hunting and fishing incidents, hydro-electric enterprises, tourist development possibilities, local historical articles, and subjects of that kind. Many of these I clip and file away for future reference.
 I do not know of any eight-page weekly paper published under similar conditions which is more uniformly interesting or more admirably balanced with respect to what it prints.
 The Monitor is a most valuable asset of the district it serves, and I sincerely hope that the efforts of its editor are properly appreciated by those who benefit from them.

TOWN TOPICS

Tid-bits on the Tip of Everybody's Tongue

The Maritime Merchant,
 using Moir's Ltd. as an illustration of how the Maritime Provinces can successfully establish useful industries, states: "The founder of the business commenced in a very small way, practically without capital, and was content to make progress slowly in the first years."
 "He and his business produced goods of quality and sought to put new lines on the market calculated to interest consumers."
 "A firm in St. John's, Nfld., sends this cable: "Sold contents hampers two hours, many disappointed, send sure Tuesday's boat three hampers jelly roll three layer cake and anything new." When a firm will order goods without knowing their name, kind, or price it's evidence of the reputation of the maker."

ILLITERACY.

According to the Dominion Bureau of Statistics, illiteracy is decreasing throughout Canada to a quite marked degree, as it should decrease, under a general system of Free Schools, and supposed compulsory attendance. The records show that for the whole of Canada the percentage of illiterates five years old and up has decreased from 14.88 per cent. in 1901 to 9.25 per cent. in the latest returns. Ontario has the lowest illiteracy percentage 6.46 while Nova Scotia stands third lowest with 9.38. In Quebec and the Western Provinces the highest percentage is shown. In the case of the West the high percentage is due quite largely to foreign born immigrants. In the cities of Canada the percentage of illiterates is 2.66 due to the fact that compulsory education is not so much of a dead letter as it is in some of the rural parts of Canada. In our own Province of Nova Scotia which has enjoyed Free Schools since 1864 the showing is admittedly not so good as it should be considering that the population is overwhelmingly native born.

The child today in Nova Scotia who grows up without learning to properly read and write is losing a great portion of his birthright and a heavy account lies at the door of his parents or guardians. While some parts of the Province have so lost in population that schools which once flourished have been closed, and sections have amalgamated through force of circumstances, there is still no valid reason why any child in our country should be allowed to grow up without at least the rudiments of a common school education. The extent of preventable illiteracy is, perhaps, not recognized by the country as a whole. Most sections and places pass the Compulsory Attendance Law but a great many do not take active steps to put it into force, partly from sheer inertia and carelessness, and partly from a desire not to displease or incur the ill will of those who will not give their children the measure of an opportunity which Providence intended them to have.

The remedy appears to lie in a gradual development of public opinion, stimulated by wise attempts to enforce proper regulations regarding the matter. Illiteracy is a menace and a disgrace to any civilized country at this stage of the world's history. Illiteracy will, perhaps, never be entirely removed but its extent can be materially lessened through public spirit insisting that every child have at least a fair common school education.

BRITAIN AND EGYPT

Westminster Gazette.—The sooner it is understood in Egypt that we cannot and will not hand over the Sudan and that attempts to foment trouble there will only expose to a dangerous strain the relationship recently established between Britain and Egypt itself, the better for all concerned. There is no longer any excuse for misconceptions as to the true position on the part of the responsible leaders of Egyptian opinion. They must know that no British Government would be likely to meet them in a more friendly and conciliatory manner than the Government at present in office, and they have been told as clearly as possible that the Government has no intention whatever of handing the Sudan over to them. On

the other hand, a settlement which will amply safeguard the legitimate interests of Egypt in the Sudan can easily be made if they are prepared to forego the impossible and to accept it.

SOUTH AFRICA AND SEPARATION

London Morning Post: If South Africa separated from the rest of the Empire she would lose security in return for an inglorious isolation, she would be left to grapple with a dangerous racial problem alone. The latest census figures from South Africa show that, according to calculations made by the census director, the whites in South Africa in thirty years will number 4,500,000, while the Bantu will have increased by 13,000,000. It is obvious indeed, that the white races of South Africa, whatever be their racial origin and political complexion, will have to come together shortly in a serious effort to secure the supremacy of a civilization controlled by the assaults of fruitful, but degenerate competitors. Faced with such a crisis, South Africa dare not weaken its ties with an Empire which in the long run, can alone provide a remedy for the problems which confront it.

CIVIL AVIATION.

Auckland (N. Z.) Weekly News: Flying in war time was carried on regardless of its economics. The air services were not expected to produce balance sheets or profit and loss accounts. Their maintenance at the highest possible pitch of efficiency was a matter of life and death. The cost money could not be counted. When air transports had to return to the same humdrum basis as other kinds, these questions had to be faced. Before extensive services could be established as commercial ventures, their commercial possibilities had to be very carefully weighed. Developments could be expected only so far as profitable working was feasible. In that may be found the reason why air transport has not expanded as many optimists confidently expected it would.

BUILT ON A QUICKSAND.

Hong Kong Press: The impossibility of successfully working the Republic Constitution of China, in the lifetime of the present generation, at least, is perfectly plain. The whole truth of the matter is that the founders of the Republic have been building on the shifting sands of illiteracy and ignorance, not on the concrete foundation of an educated democracy; and until China gets that foundation it seems hopeless to expect anything like the unity and stability of government which the founders of the Republic of China so egregiously thought it would be easy to imitate and emulate.

London Times: Although it is desirable on every ground that Germany should become a member of the League, with full rights and responsibilities, the great changes that her entrance will bring about in European policy should be carefully considered before hand. It would, for instance, be a misfortune if, in order to facilitate the admission of Germany to the League, the issues upon which the war was fought were to be relegated to obscurity, or if the attempts now being vigorously made, to the advantage of Germany, to obscure

the origin of the war, were to prove successful.

THE ONLY HOPE.

Natal (S. A.) Advertiser: It is at the peril of our civilization that we cultivate the good-natured contemptuous attitude so popular towards the League. Ineffective it may be. Powerless in great measure it may be. Without implements to make its will observed, it depends in great measure for its continuance on the good will of the politicians who, for their few fleeting years of office, happen to matter. Yet when it is stripped of every pretension to authority, the League still remains the one international witness to political sanity.

LIBERALISM AND THE LEAGUE.

Boston Globe: The League is coming into its own. It was conceived because there was present in European councils at the time of its beginnings a spirit of liberalism. And then it languished, as the Liberals driven out of authority by a reaction toward the old system of international chaos. Because the League was not understood, and could not be understood by reactionaries, its growth was slow, its achievements very moderate.

CRIME BREEDS CRIME.

St. Paul Pioneer Press: Crime breeds crime. The rum runner on the sea, finding it easy to break the law against liquor, and profit magnificently, that he may profit still more magnificently breaks the law against immigration, the law against importation of dope, and the tariff law. The kinship is complete. One little break in the dike of law observance, and the whole sea comes through.

Digby.—The annual meeting of the Children's Aid Society was held in the Court House and was largely attended. The President, Dr. DuVernet paid a tribute to the work which had been done by the agent, Rev. A. J. Prosser. The agent's report read and that of the Secretary-Treasurer, Mrs. C. Dexter, which showed a balance on hand of \$164.67. An advisory committee, consisting of Frank Jones, Alfred Boden and Frank Nichols, was appointed. The new officers are—President, Dr. DuVernet; Vice-Pres., Rev. Mr. Driffield; Secy-Treas., Mrs. C. Dexter; Executive, Mrs. Percy Holdsworth, William Cosaboom and Warden Saunders of Sandy Cove.

\$100,519,730 RAISED BY METHODISTS.

Chicago.—More than \$8,500,000 was contributed by the constituency of the Methodist Episcopal Church in the year just closed to the connectional benevolences of the church through the World Service Commission. Dr. R. J. Wade, Executive Secretary of the commission, announced this today to the Chicago Methodist Preachers' meeting. He urged more prayer giving to the church is to reach higher levels.

"This amount exceeded the expectation of some of the leaders but was very much below the receipts for the preceding year," he said. "This necessitates retrenchment on all lines and will interfere with the church development programme at home and abroad."

It is predicted that some of the boards will be compelled to reduce operation by 25 per cent. In the foreign field this will mean the return of missionaries and the impairment of work successfully begun."

For all purposes the church giving last year was \$100,519,730, the largest outpouring of money in the history of the church.

In the intercourse of social life, it is by little acts of watchful kindness recurring daily and hourly, by words, by tones, by gestures, by looks, that affection is won and preserved.

REV. L. M. DANIELS WANTS TO BE REAL SKY PILOT.

London.—Having a "parish" of 40,000 square miles, the Rev. L. M. Daniels, of Wilcanna, New South Wales, has asked the Colonial and Continental Church Society for an aeroplane in order to make his calls. He explains that he travels 10,000 miles a year in getting round his "parish," and some of the most important places get a service only two or three times a year. He is at present using a decrepit automobile.

TO CALIFORNIA OR PACIFIC COAST

Rail services of the Canadian National provide the highest standard of travel comfort for those whose desire it is to spend the winter in Sunny California, or in British Columbia.

From the Atlantic to the Pacific the Canadian National Railways operate trains of the finest equipment—all steel trains with library cars, observation-compartment coaches, standard sleepers, modern diners, tourist sleepers and spacious coaches. The services of the Canadian National are not excelled anywhere.

The superior trains run from Halifax to Montreal—the "Ocean Limited" and the "Maritime Express."

From Montreal the famous "Continental Limited" leaves Bonaventure Station at 10.15 p.m. for Ottawa, North Bay, Winnipeg, Edmonton, Saskatoon and Vancouver.

From Montreal the famed "International Limited" runs daily to Toronto, Detroit and Chicago leaving Bonaventure Station at 10.00 a.m. At Toronto connection is made with "The National" leaving Toronto daily for the Coast. There are optional routings to California points via Chicago.

To escape the rigours of winter, such a trip is desirable, and by the C. N. R. Lines it can be made a tour of delight, so excellent is the service given and the personal attention shown every patron.

Ticket Agents of the Canadian National Railways will give intending travellers every information, and arrange reservations, or one may write to the General Passenger Department at Montreal for descriptive literature and full details of such a trip.

High-handed, says U. S. Federal Judge. Scores Treatment of British Seamen. Orders Return of \$1200 Taken From Crew of The Marjorie Bachman.

Boston.—Federal Judge Morton termed the government's treatment of the crew of the British vessel Marjorie Bachman "high-handed" Monday, when he ordered the return of \$1,250 alleged to have been taken from the crew.

The Bachman was seized many miles off shore and was brought to Boston. Counsel for the crew contended that the men were illegally held and that money and personal belongings were taken from the crew by coast guard officials.

"The treatment of this crew, as has been outlined in the testimony before this court, was high handed, to say the least, declared Judge Morton. I might go further and state that, in this court's opinion, it is quite beyond realization. It is hard to conceive how the government's agents could assume such an attitude or employ such tactics against a crew on the high seas.

"I order the return of this \$1,250 to the members of this crew." I fail to understand why it was found in the possession of the government's agents anyway.

BEAR HUNTER CUTS HIS THIRD NICHE.

Liverpool.—Edward Clancy of Beech Hill Farms, has cut another niche in his gun barrel, as on Saturday he captured another bear, which is the third one in a week and the largest of them all, measuring over seven feet in length. Mr. Clancy found the bear caught in his steel trap by a forward paw, and in a very peaceable frame of mind.

The hunter declares this was the same bear he shot at a few days ago. At that time the bear was facing him, but behind a small tree, and the one just captured shows where a bullet has grazed the side of the jaw.

MUNICIPAL PAWN SHOPS ADVOCATED FOR MONTREAL.

Montreal.—Following revelations of alleged reception of stolen goods by pawn shops in Montreal, the executive committee is considering for recommendation to the council the project of establishing municipal pawn shops, on the lines of those which have existed in Europe for centuries, especially in Paris. The committee has decided to apply to the Provincial Legislature for authorization to enter the trade. The articles received would be limited to certain kinds, city valuers would be named to value them, period for redemption would be fixed, and a record kept of all persons leaving goods for loan.

DIGBY HIGH SCHOOL PUPILS FORM CLUB.

Chisholm. The committee in charge of the social Friday night were—Chairman, Vivian Lewis; Committee—Edna Warrington, Gerald Tupper, Seymour Denton and Garfield Hayden.

B. C. ADOPTS LASH FOR MEN AND WOMEN.

Victoria.—The flogging of women drug traffickers met with the approval of Mrs. Mary Ellen Smith, M. L. A. Vancouver, who favored a resolution in the legislature, Tuesday, to authorize the lash for convicted drug traffickers.

Asked whether she would have women flogged as well as men, Mrs. Smith said: "We can't make the punishment too heavy for men and women, too, who traffic in narcotic drugs," adding:

"I hold no brief for either sex. If a woman break the law she should get the same punishment as a male law breaker. Women traffickers in narcotics can destroy the soul, just as can a man and they should be subjected to the same penalties." The motion authorizing the lash passed.

"KEEP IT OUT, LIKE A GOOD FELLOW."

(Ottawa Journal)

A western editor makes a pathetic appeal in his newspaper to his friends not to ask him to keep things out of his paper. He says his wife finds out about them, and then he gets into trouble at home. He asks his friends who have news they want to keep out of his paper to telephone his wife first and give her all the particulars—after that, she doesn't care whether the news gets into print or not, and his own home life will run smoother.

It's a jest—but it is a jest that must provoke a yry sort of grin from newspaper men. All of them are bombarded with requests to "keep it out of the paper." Perhaps it is somebody whose friend has got into the police court, perhaps it is some motor accident, perhaps it is a lawsuit, perhaps it is a lawyer who wants to oblige some client, perhaps an application for divorce, perhaps it is a political squabble, perhaps some social entertainment whose giver does not want publicity because somebody was left out, perhaps it is a will for probate—there are a hundred things.

The appeals for suppression of publicity come to all members of newspaper staffs—to reporters, to editors, to business managers, to publishers. They are nearly always based on personal acquaintance. Anybody who has a friend on a newspaper staff is liable to endeavor to use him to "keep the thing quiet." And, by the way, nothing but personal interest can keep the thing quiet. The staffs of newspapers are practically incorruptible. You can't bribe a newspaper man—once in a thousand times. Nor would anyone do a safe thing by offering to a reputable newspaper management any compensation or consideration to suppress legitimate news.

But the personal appeal is frequent and is a great embarrassment to the newspaper man to whom it is made. He has to give way, or to seem to be obliging and nasty. "What does this one little item matter when you've got thousands of other things to print?" is the frame of mind of the person who wants something suppressed; and often this rider, "Anyway, it's something the public has no business with anyway. Just keep it out like a good fellow."

Of course, the person who wants news suppressed always thinks the public has no business with it. Generally, most others if asked would think differently. As a matter of fact, newspapers in this country print news of three classes, and little more, namely: First, worthwhile and fair information about what is going on in the world; second, news that has an educational or disciplinary value; third, news that people ask to have published, and the average paper cares very little for news that the public has no business with.

Also, here is an idea which another thought of people who might be inclined lightly to use their personal acquaintance with newspaper establishments to get news kept out of print—fair news, he refers to only, of course.—News, he advances, is the prime commodity the newspaper has to sell. Advertisements are the chief revenue to most newspapers; but the securing of advertisement depends upon first pleasing the public with the news. News, therefore, is a newspaper's life-blood. Now, who, he suggests, would dream of going into a store and asking the proprietor, "any manager or clerk as a matter of friendship, not to sell a particular pair of boots or shoes to anybody?" Or of going into a butcher shop and asking the butcher not to dispose of fresh beefsteaks to customers? Or of purchasing a music score not to read a particular piece of music? What is the propriety of asking a newspaper not to use—that is, not to offer for sale—a piece of news?

Every item of news, in its due proportion, represents to a newspaper something like what a pair of boots is in the stock of a shoe store, or a beefsteak in a butcher shop; and an appeal to a newspaper friend to suppress news is practically an appeal to the newspaper not to sell goods which cost it money to get.

Of course, somebody who wants a piece of news suppressed is liable to think himself a better judge of what sort of news should be published than the newspaper is—just as he might think himself a better judge of beefsteak than a butcher. "One can't answer that," says our Western editor mournfully. By the way, speaking from merely an Ottawa point of view, a curious result sometimes attends the successful efforts of somebody in Ottawa to "keep it out" of the Ottawa papers. Ottawa being the capital of this country, a number of prominent outside newspapers maintain special correspondents here. They get about all the news that is going, and accordingly, sometimes when some interesting piece of Ottawa news is kept out of one or all of the city papers by the good-nature or friendship of local newspaper men, it is being published in most of the other cities of the Dominion. And thus it gets back to and is widely circulated in Ottawa, and many people are moved to suspect that the Ottawa dailies are newspapers of a rather sloppy order—can't get the news, or aren't publish it.

CHURCHILL IS DETERMINED TO COLLECT DEBTS.

The New Chancellor Means Business. Stupendous Sums Owed Britain, and Debtor Nations Show no Signs of Paying up.

London.—Rt. Hon. Winston Churchill, the new Chancellor of the Exchequer, is credited with a determination to collect something on account from Great Britain's debtors. Great Britain's international position now is as follows: It has acknowledged, funded, and is repaying a debt of about £1,000,000,000 to the United States. This is costing it about £48,000,000 annually. The following European debts are owed it by the European Allies.

Table with 2 columns: Country and Debt Amount. Includes Russia (£622,297,000), Italy (555,300,000), Rumania (24,778,000), Portugal (21,344,000), Greece (23,355,000), Belgian Congo (3,550,000), Poland (95,000).

Only Two. Greece and the Belgian Congo have paid the interest, but none of the others have made any attempt to pay either the interest or principal and the interest is being added yearly to the total debt. None of these debtor countries are taxed nearly as high as Great Britain.

RE-ORGANIZATION OF WAR VETERANS.

Secretary Hamilton Reports Good Progress in Nova Scotia.

Re-organization of the Great War Veterans Association in Nova Scotia is going on apace. Secretary F. Hamilton, Provincial Secretary of the Association, who was in Halifax yesterday, Mr. Hamilton had only recently returned from Middleton where he re-organized the branch in that town. There were present at that meeting, President A. E. Andrews, Windsor; Past Provincial President, Col. C. E. Bent; Past President, C. E. Good, Truro; Dr. Thurston, Past President of Truro. There was a very enthusiastic meeting, and on suggestion of Dr. Spoonage, a branch was re-organized with Major M. P. Neilly as President.

Mr. Hamilton will now proceed to re-organize branches at Inverness, Stellarton, Joggins Mines, Springhill and Pictou, all of them to be re-established at the request of the various branches. Mr. Hamilton said there was a great interest being taken throughout the Province in ex-servicemen's affairs and the prospects for the G. W. V. A. in Nova Scotia, are better than for the last two years.

Asked what about Halifax Mr. Hamilton said that the Halifax branch will be holding a get together meeting as soon as local organization can be made. Mr. Hamilton having received this information from the President of the local branch, W. L. Turner. The Provincial President and other speakers will be present and it is expected a large and very representative gathering of veterans will greet the new re-organization.

Celebrations of the Armistice. Mr. Hamilton pointed out, had been exceedingly successful. There were fifty-nine different services held throughout Nova Scotia under the auspices of the Great War Veterans Association, and speakers had been arranged by them with members of the executive taking part also. Over 40,000 poppies had been made by the Vet Craft Workshops of Halifax and sold in points of the Province outside of the capital, while there was a demand for 15,000 more.

The Veterans, Mr. Hamilton said, were requesting the co-operation of the public to have Armistice Day celebrated on Armistice Day, November 11th, and not have Armistice Day "Thanksgiving" but rather have Thanksgiving on Armistice, for ex-servicemen felt that had it not been for the victory of Armistice there would have been little occasion for thanksgiving in this country.—(Chronicle)

LUMBERING IN NOVA SCOTIA.

Improved Outlook in Some Quarters. Reports have been published that there will be a reduced cut of lumber in New Brunswick this winter. Apparently the prospects are better in Nova Scotia. The Halifax Echo says:

"Lumbering activities in the immediate vicinity of Halifax will be much greater this winter than for a number of years, and indications are that this sudden revival of the lumbering

LEGAL BATTLE LIKELY OVER LIQUOR SEIZURE.

New Glasgow.—There promises to be a real legal battle over the possession of the seventeen cases of Benedictine, seized in New Glasgow on November 2nd on the boat owned by Captain Trenholm. County Magistrate Fraser dismissed the case which was brought before him by the Inland Revenue Department, and ordered the liquor and boat to be restored to the defendant. R. G. MacKay, counsel for the Revenue Department objected and immediately wired Ottawa, with the result that this morning, instructions were received to retain possession of the boat and liquor. Further details regarding this sensational case have been wired to the Department officials at Ottawa, and it is expected that the decision handed down by Magistrate A. M. Fraser will be appealed. Meantime it is reported that warrants will be issued against Inland Officer H. W. Ballie and County Inspector Thomas W. MacKay, charging them with retaining the liquor illegally.

business, which promises to be something more than a temporary thing, will provide employment for a large number of men and help materially to reduce the number of unemployed in this city. An American concern engaged in the vicinity of Grand Lake, Enfield and other districts in that vicinity have been adding substantially to their pay roll and at the present time have approximately four hundred men employed. Owing to a boom in this particular business provincial firms which have always employed small gangs in previous winters will have much larger staffs this year.—(St. John Globe.)

Mediterranean Was Once Whole World

History's pages. "Have you looped the loop around the Mediterranean?" is a phrase much in vogue, and each year thousands of wanderlust folk are able to say "Yes!" and wish that they were going to loop the same old loop again.

The "Empress of Scotland," if a big steamship of 25,000 tons gross register and 37,500 tons displacement could be interviewed, would say that she was departing on her fourth annual cruise of the Mediterranean from New York on Feb. 9, 1923, and that although she could find her way around in the dark she would much prefer daylight so that she would not miss any of the wonderful scenery of the Mediterranean. Passengers on the "Empress" will see Madeira, then drop in to pay a call upon Lisbon, Portugal, as well as another call upon Cadiz, Spain, with Seville as a side trip. Gibraltar, the famous "Rock" next gets the once over, and then Algiers, capital of the French colony of Algeria is visited. Athens, Greece, Constantinople and the Bosphorus are next, and when the ship visits Beyrout and Haifa all the famous places of the Holy Land are within a short distance of the vessel. "The storied Nile" awaits the "Empress" and 12 days are spent in seeing the cities

of Alexandria and Cairo, the Pyramids, the Sphinx, etc.; then Naples, Pompeii, Rome, Monaco, Cherbourg, Southampton and other places. One can see a lot in 62 days in and about this cradle of civilization, and that's the job of the big oil-burning "Empress of Scotland," the largest vessel in the whole Canadian Pacific fleet.

NEW HEALTH FOR SUFFERING WOMEN

Obtained Through Enriching the Blood Supply.

Many women endure with silent patience suffering that casts a shadow over half her life. But an aching back, tired limbs, sideaches attacks of faintness and splitting headaches need not be a part of a woman's life. Such trials indicate plainly that her blood is thin and impure; that to drive away these troubles her system requires the new, rich blood supplied by Dr. Williams' Pink Pills. These pills are valued by suffering women, who have used them, above all other medicines because they make the rich, red blood that makes women feel well and at their best. Proof of these statements is given by Mrs. Eugene Deslauriers, Richot, Man., who says:—"A few years ago my health completely failed. I was subject to those troubles that afflict so many of my sex. Added to these I suffered from constipation, loss of appetite, dizziness, a ringing in my head and nervous prostration. I consulted several doctors, but their medicines failed to give me relief. After much persuasion I began to take Dr. Williams' Pink Pills, but without much hope as I believed that no medicine would help me. To my great joy, however, I found these pills were just what I needed, and I can honestly say they have made me a well woman. I can now do with ease all my own housework, and I strongly urge other weak, ailing women to give this medicine a fair trial, feeling that what it has done for me it will do for others."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

N. C. C. NEW CRICKET CLUB.

Plans Made to Encourage the Good Old Game and Get Isolated Players Lined up to Take Part in New Organization.

Cricket next season is to be boomed and encouraged throughout Western Nova Scotia by the "Nondescript Cricket Club," the formation of which was undertaken in Bridgetown last summer when F. A. K. Walker of Kentville was appointed Captain and Dr. F. E. Rice of Sandy Cove as Secretary. The membership fee was put at the nominal sum of one dollar.

The purpose of the club is to give isolated cricketers in communities where they are not numerous enough to form a club of themselves, the opportunity to play by joining up with an independent club such as the N. C. C. Any members of existing local clubs may also join the N. C. C.

Matches will next season, it is expected be played by the N. C. C. with local teams in the district from Halifax to Yarmouth and elsewhere where so desired.

In such cases where the local teams are also members of the N. C. C. such local cricketers will play with their own team against the N. C. C. but in the other matches they would play with N. C. C. against other teams; for instance when a match is arranged, N. C. C. against Bridgetown, all the Bridgetown members of the N. C. C. would play for Bridgetown against the other members of the N. C. C.

It is also proposed to take a N. C. C. team every year to Halifax at the end of the season for a week of cricket, to play against the Wanderers, the Garrison, West Indians and possibly a team from Eastern Nova Scotia.

The N. C. C. with its large membership would be in a position to handle such a proposition as a week's cricket in Halifax, as some members might decide to play in one match and some in another during the cricket week for probably not many could afford time to play in all the matches.

A meeting of members of the N. C. C. will be held soon at some convenient place shortly to be decided upon.

HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could not do my own housework and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I still have the baby's cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound."

"One of the things for which Canada is most to be congratulated is that she has established a system of education that compares favorably with any in the world. Canada is a nation of literates, she has a remarkably small proportion of illiterates," stated the Right Hon. H. A. L. Fisher, former Minister of Education in the British government, when disembarking at Montreal.

One of the many gifts offered by enthusiastic individuals to the Prince of Wales on his visit, the majority of which he could not for obvious reasons accept, was a package of French-Canadian tobacco grown on a farm at St. Roch (Achim), situated near the boundaries of Montcalm and Assomption counties. In a letter from the Alberta ranch the Prince through his secretary thanked the donor for the gift.

A cablegram from London, England, quotes an article in the "Financial News" dealing with the British Empire Exhibition. It stresses the exceptionally fine exhibit staged by Canada and the unquestionable benefit to trade relations it has effected. The article pays a high tribute to the Canadian Pacific Railway exhibit, describing the railway's gorgeously illuminated map of Canada, with its 5,000 incandescent lights as probably the most brilliant specimen of cartography ever seen at the exhibition or elsewhere.

It has been announced that H. J. Logan, M.P. for Cumberland, will accompany the Minister of Trade and Commerce to the West Indies to negotiate a new reciprocal treaty with those islands. The general purpose of the visit is to admit West Indian commodities free in return for Canadian manufacturers receiving similar treatment, the products of the two countries being entirely dissimilar. It is also hoped to build up a direct system of importations through Canadian ports instead of through the United States, by which route a great proportion of West Indian products now come to Canada.

The Canadian Pacific Railway has appointed P. A. Cox, general agent, to be assistant Oriental manager, at Shanghai, and E. F. L. Sturdee, acting general passenger agent for the Orient, to be general headquarters at Hongkong. Leo Solloway, recently appointed Asiatic freight agent, with offices at Montreal, and supervision over Oriental and Australasian traffic via Pacific ports, has the distinction of being the youngest official in the Canadian Pacific Service. He was born in Vancouver, in 1895, and has been in the steamship freight service 14 years.

The winners of the Canadian Pacific Railway's Ontario bungalow camps fishing trophy competitions for 1924 were announced recently. The French River competition resulted in two competitors turning in fish almost identically alike. In this contest a tie was declared. The successful anglers were D. W. L. Hawkins, New York City, and H. H. Champ, Hamilton, Ontario, each entering a small mouth bass weighing exactly 4 pounds. The winning fish at Nipigon River Camp was a 6 pound, 10 ounce trout, caught by William Metzger, Detroit, Michigan. The Devil's Gap (Lake of the Woods) trophy was won by J. A. Furlong, Winnipeg, Manitoba, who entered a muscalunge weighing 20 pounds, 8 ounces.

SERIES OF BURGLARIES IN ANnapolis COUNTY.

Paradise—For the past two months a series of burglaries of a "sneak thief" nature, have been going on in this county. The method of operation is to walk in the front door, if it is not locked, and if it is, to remove the glass very quietly and dexterously, and thus gain an entrance to the house. Bureau drawers are ransacked for money, sleeping rooms entered and wearing apparel searched under the very eyes of the owners. Their boldness, skill and quick "get-away" have so far carried them through without detection. The residence of A. C. Freeman, of this place, was entered Saturday night. The thief or thieves made a thorough search of the lower part of the house, even entering the sleeping apartment of Mr. and Mrs. Freeman, where clothing was ransacked evidently in search of money, making a hurried exit when the occupants were awakened. Other houses in the neighborhood were "investigated" but not entered. The "breaks" here are evidently being made by the same gang that have been operating in Middleton, Lawrenceport, Brooklyn and other parts of the county during the past two months.

MARRIED.

Oliver—Jackson.

A wedding of local interest took place in Halifax on Monday afternoon of last week when Miss Ruth Jackson, formerly of this town, was united in marriage to Mr. John James Oliver of Trenton, N. S.

The marriage took place at the home of the bride's brother, Mr. E. P. Jackson, 14 Harvard Street, and was performed by Rev. H. T. Wright, pastor of the West End Baptist church in the presence of the immediate relatives of the contracting parties. The bride was dressed in brown chiffon velvet with Rhine stone ornaments and carried a bouquet of yellow and white chrysanthemums. She was attended by Miss Hettie Rice of Bridgetown, who wore grey canton crepe and carried a bouquet of mauve and white chrysanthemums. Mr. Donald Sutherland of Trenton supported the groom. The wedding march was played by Mrs. E. P. Jackson. The bridal couple spent a honeymoon in Trenton and Hantsport, afterwards proceeding to Yarmouth, where they will reside. The groom is a member of the Yarmouth Academy teaching staff and the bride up to about two years ago was a resident of Bridgetown, where many friends join in best wishes for the future happiness of bride and groom.

LARGE BEAR SHOT.

A monster black bear, measuring 7 feet 7 inches along the back and estimated to weigh about 10 cwt., was shot near Eagle Lake, on Monday, by Louis Akeryley of 147 Adelaide street. Mr. Akeryley, who was accompanied only by his son, unaimed, fired five shots from a 45-70 rifle before the monster animal was halted. When brought down the bear was so close to the hunter that he had to be shoved away with the rifle. The animal was too weak at the time to do any damage as he reached out a great paw. Two more shots finally killed him. It took four men to roll the carcass out of a hole into which it had fallen. The pelt was stripped off and carried fourteen miles through the woods. Today, pierced with the seven holes, it was a source of interest to many north enders.—(St. John Globe)

CHURCH RE-OPENED AND RE-DEDICATED.

Middleton.—The re-opening and re-dedicating of United church, Middleton (Presbyterian and Methodist) took place Sunday, Nov. 16th.

The church has been thoroughly remodelled, redecorated and re-seated, with new pulpits and furnishings, new lighting and new system of heating—low pressure steam—and is now up-to-date in every particular, with its ladies' parlor, kitchen, cloak rooms and lavatory. The architect, L. R. Fair, and the building committee, viz., G. W. Crowe, G. N. Roach and F. B. Armour, are being congratulated on the manner in which the designing and work has been brought to completion.

The programme for the day consisted of three services. The speaker at the morning and evening services was Rev. Dr. Kent, of Pine Hill College.

The music was furnished by the choir and quartette of the United Church, assisted by soloists from other towns, the choir appearing in their gowns for the first time.

At the morning service, just before the preaching service, two children were presented for baptism—John Sponagle Reagh and Gordon Tremaine Dodge. The rite was performed by the pastor, Rev. J. Hockin.

The soloist of the morning was Mr. Hart of Halifax.

Apparently the only thing over which there is no dispute these days is the multiplication table.

Local Happenings

Windsor is erecting two blocks of five tenements each at an approximate cost of \$14,000 for those rendered homeless in the recent fire.

We are asked to remind our readers that the evening of Thursday, Nov. 27th, is the date of the Recreation Hall entertainment.

The sum of Twenty-five Dollars was contributed by West Clarence Sunday School for Windsor Fire sufferers.

In "The Rosary" coming to Bridgetown on Thursday, Nov. 27th, Harry Murray formerly leader of the 85th Band Concert Party has found a true vehicle for his talent. And in the role of Rev. Brian Kelly he makes the most of his opportunity. "The Rosary" is a play that appeals to the emotions with the old familiar triangular problem bringing its usual trial of doubt and jealousy. The heavier work however, is shot through with delightful humour.

At an early hour Thursday morning some parties broke a pane of plate glass in the door of the Shaffer building leading to the upstairs offices. The implement used was a piece of metal pipe taken from B. N. Messenger's gas tank. After breaking the lock was turned and the early morning marauders evidently took a trip through the offices above, omitting those of Mr. Lloyd, Town Clerk. Nothing seemingly was taken, the rooms apparently not containing anything the parties wanted. The visitors had certainly been in heavy weather and in one of the offices the results of "mal de mer" were plainly evident.

Harry Murray coming. Coming to Bridgetown on Thursday, Nov. 27th, is a provincial favorite, Harry Murray, formerly leader 85th Band Concert Party and well known to all theatre-goers for his presentation of "The Old Homestead" with an all soldier cast. This year he has his own company presenting "The Rosary," a comedy drama in four acts. Special scenery, music, and electrical effects. A show for the family.

CHRISTMAS CANTATA
The Choir of the Lawrencetown Baptist Church, assisted by ten young ladies is preparing a new Christmas Cantata, "The Promised Child" by R. M. Stultz to be given in Baptist Church, Lawrencetown, on Monday evening, December 22nd at 8 o'clock. Doors open at 7.15. Admission 25c.

The adjourned meeting of the Children's Aid Society will be held on (this) Wednesday evening at 8.30 in the Board of Trade rooms. A large attendance is requested as important business is to be transacted.

Absence of rain has rendered water supplies very low and it is urged upon all householders to observe special precautions against the possibility of fires, for at the present it would prove a matter of considerable difficulty to cope with a conflagration.

MRS. MARY BISHOP SERIOUSLY INJURED BY DEMENTED SON.

Bear River.—Mrs. Mary Bishop, a sixty year old widow of Bear River, suffered a fractured skull on Tuesday of last week as a result of being struck by an axe it is alleged in the hands of her 28 year old son Lloyd. The young man has been under treatment for several years for mental disorder but his mother was unwilling to have him put in an institution. While Mrs. Bishop's injuries are very serious hope at time of writing is held out for her recovery.

Outward actions are a clue to secrets.

This Lizzie Has Her Colds "Rubbed Away"

The mother of this attractive little girl, Mrs. E. E. Emmans, of 215 Seventh Ave., N. E., Portage La Prairie, Man., is one of the many Canadian mothers who are enthusiastic about the vaporizing salve, Vicks VapoRub, for treating children's colds. Mrs. Emmans writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds. Vicks is just "rubbed on" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so applied, Vicks has a double direct action: internally medicated vapors are inhaled while, at the same time, externally, it is absorbed through and stimulates the skin.

Mrs. E. A. Hicks entertained the W. C. T. U. at her home on Friday afternoon last. Mrs. Morrison, President of the Provincial W. C. T. U. gave the ladies a splendid talk on the duties and work of the W. C. T. U., interspersed with stories of her own experience. Mrs. Morrison is a most excellent and interesting speaker.

A report of the work done here during the past year was read by Mrs. Wentzell. Following this, a few musical numbers were given by Mrs. W. H. Maxwell, Mrs. (Dr.) Dechman and Miss Bertha Palmer, and a reading by Miss Alleen Miller.

POPULAR YOUNG LADY SHOWER-ED AT PARADISE.

Saturday evening the home of Mr. and Mrs. C. W. Durling was the scene of a very enjoyable gathering. A number of friends, numbering about sixty met and proceeded in a body to their home to give the daughter, Miss Bessie Durling, a surprise shower.

A large, trimmed basket was placed before Miss Durling. The opening of the contents by her disclosed many beautiful and useful gifts, including silver, linen, pyrex, china, etc. A gift of silver was presented by the members of the Women's Institute, of which Miss Durling has served as Secretary for some time. The appreciation of the gifts was shown by the recipient in a few pleasing words of thanks. Following this, dainty refreshments were served.

In the immediate future, Miss Durling becomes one of the principals in a very interesting event.
