NEW ARMY ADVANCES FROM OSTEND TO ATTACK GERMAN REAR

RUSSIANS ENTER HUNGARY IN PURSUIT OF AUSTRIANS FALL OF PRZEMYSL NEAR

All Artillery of Austrians Captured, and Rout is Complete—Przemysl Completely Invested—Large Austrian Column Has Left Fortress—Big Battle Impending in East Prussia.

(RUSSIAN OFFICIAL)

Special Direct Copyrighted Cable to The Toronto World.
LONDON, Sept. 28.—A despatch from Petrograd says:
"The right wing of the Austrians has been driven back beyond the Carpathians into Hungary, where they are being pursued by Russians."
"The Austrian debacle is complete and they have lost all their artillery. The Austrian left wing has retreated to Cracow. The Russians have occupied another of the forts of Przemysl which is now entirely invested."
"On a line of battle beginning at Bydkaubien in the north and extending thru Gollup to Lyck, just inside the borders of East Prussia, the czar's forces and a great first line army of Germans are now in a death grip. Sleet and rain are falling constantly, the roads are badly cut up, and what appears to be a rigorous winter is just beginning. The Germans are strongly entrenched in previously selected positions, while reinforcements for the Russians have been coming up from Warsaw for several days."

Germans in Retreat.
Grand Duke Nicholas, the Russian commander-in-chief, has made the following announcement:
"An engagement near Spotskin, on the Niemen River in Russian Poland, and Druseniki, came to an end with the retreat of the Germans. The enemy has approached Osowiec from the north and has begun the bombardment of the fortress."
"In Galicia we have occupied Delya, on the railroad east of Cracow and between Rzeszow and Tarnow."
Retreat from Przemysl.
"A numerous column of the enemy is retreating from Przemysl in the direction of Sarnok, 28 miles southeast of Jaroslaw. In their flight they abandoned artillery and automobile transports."
"At Colozie we defeated a detachment of the enemy and captured their artillery and many prisoners. Continuing the pursuit we entered Hungary."

"The Russian armies in Galicia are said by the Petrograd war office to have occupied six of the passes in the Carpathian Mountains. A movement south of Lemberg has been successful in cutting off Hungarian reinforcements."
"At the nearest point of the Russian advance they are only 50 miles from Cracow, where the German authorities have taken control and are making feverish attempts to organize an effective resistance. Despite swollen rivers and continuous rains the czar's armies forge ahead."
"The huge extent of the Russian operations makes it difficult to comprehend the entire significance of events now transpiring. The fortress of Przemysl, now well to the rear of the Russian advance, is sorely beleaguered. One of the main forts is in the hands of the invaders."
Retreat Long Tragedy.
"The Austrian retreat thru Galicia is described as one long tragedy with the Cossacks wreaking a terrible revenge for early Austrian atrocities. Guns, men and munitions fall in to their hands every day. The number of prisoners and quantities of supplies is said to be beyond all estimate for the present. The Cossacks are sweeping the fugitives into Cracow in great droves, operating almost within sight of its towers."
"The attempted German advance from East Prussia has been stopped after bitter fighting."

HEARST MENTIONED, ALSO LUCAS, HANNA, TO SUCCEED WHITNEY

Hanna Understood to Have No Desire for Premiership—Hearst Mght Be Choice of Party Caucus, While Lucas Has Support—Hon. Robt. Rogers May Go to England as Commissioner After Next Federal Election.

The town was full of federal and local politicians yesterday, and there was a great deal of talk as to how things would be reorganized in Ontario after the funeral at Morrisburg today. The thing that seemed most apparent was that a program had been framed up at Ottawa to this end, and that the man most in evidence as being in charge of the arrangement was the Hon. Frank Cochrane, formerly a member of the Whitney government and an active worker for Sir James in the recent Ontario election.
It was also said that Hon. Mr. Hanna was not pressing for any kind of recognition in the way of the premiership; that he was willing to do anything, and if necessary to accept the office of attorney-general if it were offered to him under an administration to be led and formed either by Hon. Mr. Cochrane or Hon. Mr. Hearst, the minister of crown lands. Mr. Cochrane, it was said, wanted to see Mr. Hearst, who had been a protegee of his, made successor of Sir James. It was even said that the new government would send for Mr. Hearst on Wednesday.

Lucas and Hanna.
Another thing that was current was that the two men who would have most votes in a caucus of the members of the party when it was called were Hon. Mr. Lucas and Hon. Mr. Hanna, and that probably Mr. Lucas would get the support of a majority of the members in the caucus, as he was a favorite of Sir James, and had taken the brunt of the fight last session and also of the election campaign; it was further stated that he was not only progressive but was courageous, and would soon work into shape as a very presentable and able leader.

Sir Adam Beck seems to be out of the leadership, and there were those who said he would be inclined to work under Mr. Lucas rather than anyone else. The story that Sir Adam would like to go to England as high commissioner is discredited for two reasons: First, that Sir Adam is not very anxious for the honor, and second, that it is likely to go to the Hon. Robert Rogers after the next election; and it is because of this likelihood that the talk has been revived of an appeal to the federal electorate being made almost immediately by the Borden government. An effort has been made to get the opinion of the country on such an appeal, but so far little response has been received.
Early Election Unlikely.
One gentleman who knows the inside of things pretty well said that he was quite confident that Sir Robt. Borden would not make any such appeal at the present time for the reasons: First, that there had practically been a truce arranged between the parties during the war and all political meet-

ings for this fall had been called off, and second, because it would be a risky undertaking in view of the excited state of public mind over a lot of things besides the war.
Mr. McGarry, the member in the local house for Renfrew, was among those in town yesterday. His friends think he ought to succeed Hon. Mr. Foy in the cabinet. W. F. Nickle, M.P. of Kingston, and before that in the local house, was also here and his name is connected with cabinet honors.
Many conferences of a minor character occurred in the rooms and corridors of the Queen's Hotel last night and in the Albany Club, and the special train today will also see them renewed.

Drastring Price Cutting in Ladies Fur Coats.
Extraordinary events in Europe have created almost similar conditions in Canada. These conditions have placed the Dineen Company, 140 Yonge street, in a position to offer a \$200,000 stock of rich, stylish and reliable fur garments at discounts of 30 per cent. to 50 per cent. off. Never have the women of Toronto and district had such an opportunity of buying fur coats at this season at anything approaching Dineen prices. From the multitude of enticing values you would do well to inspect two of the great bargains in fur coats mentioned below. A wonderfully handsome Persian lamb coat, very glossy curl, stylish design, reduced from \$250 to the amazing figure of \$167. Another fine coat—Russian marmot—is reduced from \$175 to \$119. These impressive items merely give an indication of the hundreds of others that await your inspection, and will prove our contentions after closest scrutiny.

PERSISTENT VIOLENT ATTACKS BY GERMANS ARE ALL REPULSED ALLIES MAKE SLIGHT PROGRESS

BRITISH BORE BRUNT OF FURIOUS ATTACKS

Admirable Coolness Shown by Regiments Which Reserved Fire Until Germans Were at Close Range, Doing Great Execution—Turcos Again Proved Mettle in Repulsing Onslaughts.

Canadian Press Despatch.
PARIS, Sept. 28, 4 p.m.—French and British on the left wing have repulsed for days the attacks of the Germans who have been endeavoring to take the allies' positions by assault.
Word from the front describes the encounters. On one occasion the French and British held positions within a quarter of a mile from the German front, where they were not in danger from the heavy German artillery, and were sheltered from the machine guns unless they came into the open.
One of the most furious German assaults turned upon the trenches occupied by British regiments which, with admirable coolness, awaited the onslaughts of line after line of Germans, meeting them with sustained rifle and machine gunfire and sometimes at the point of the bayonet, which did great execution.
Turcos to Fore.
The British, however, did not by any means bear the whole brunt of the fighting, for the French troops, including a division of the famous colonial infantry and the Turcos as well as many battalions of French regulars and others composed of territorial troops, also faced prolonged attacks which were delivered with great ferocity, and drove their adversaries off with unflinching success.
The vigor and spirit of the soldiers were remarkable after such an exhausting campaign, during which they have scarcely had a full day's rest. When not actually engaged in fighting, many of the regiments have marched 30 miles daily for several days when changing position in order to carry out new movements.
The reason for the recent determined attacks by the Germans along the Somme is credited in French military circles to the desire of the newly appointed German generals, who have taken the places of those removed by the emperor to carry out some daring exploit.
Natural Battle Ground.
The battlefield on the Somme seems to have been made by nature for such a formidable conflict. The country is undulating and in some places without woods. The lower parts offer splendid covering for troops approaching to attack. This advantage, however, has been rendered to a great extent without avail owing to the number of aeroplanes in use on both sides.
The centre of the battle line today again became the scene of heavy fighting. Here the Germans have most of their big guns, and they also brought much infantry into action. But their efforts were ineffectual.

Kaiser's Third Son Slain By Bullets of Germans?

Belgian Doctor Says Prince Adalbert Died in Brussels Hospital, and That Autopsy Showed He Was Victim of Own Soldiers.

Special Direct Copyrighted Cable to The Toronto World.
GHEENT, Sept. 28.—A story which may have already reached America is said as authentic by a Belgian doctor just out of Brussels. He says that Prince Adalbert, the Kaiser's third son, died in a hospital there and that Dr. Lepage, King Albert's physician, was ordered to hold an autopsy in the presence of two German doctors. It was found, he says, that the prince had been killed by a German bullet, and that in her examinations officers were found to have died too, from wounds made by German bullets.
The man who told this was firmly convinced of the truth of his statement, but it should be accepted with reserve.

Thick Fog Has Settled Over the Battlefield, and Operations Have Been Suspended—Mons Set on Fire by the Allies' Shells—Losses on Both Sides Heaviest Since War Began—New Army Said to Be Marching From Ostend for Rear Attack on the Enemy—Germany Pays Luxemburg \$980,000 for Damage Caused by Troops

Canadian Press Despatch.
LONDON, Sept. 28.—For the first time since the beginning of the war wireless news circulated by the French Government thru the Eiffel Tower was received in London tonight. The message, dated Sept. 28, is as follows:
"Feeling that their position was becoming more and more critical under the pressure of the allies' armies, the Germans have tried to stop us by repeated counter attacks. Since Sept. 26 they have delivered by day and night frequent and violent attacks at several positions on our front. Everywhere they have been repulsed, sustaining considerable losses, and abandoning as they lay thousands of dead and wounded."
"The eighth army corps and the guards were severely put to the test, and a large number of prisoners fell into our hands. It is to be remarked that many of the latter gave themselves up voluntarily, altho they could have escaped."

FRANCE OVERLY KIND.
"It seems that the German soldiers are beginning to have no further doubt as to the treatment which awaits them in captivity. At the beginning, all those we captured had a terrified and supplicating attitude, arising out of statements made by their officers, to the effect that the French shot their prisoners. It is rather by an excess of kindness that we transgress in regard to them, and the too kindly treatment which is meted out to prisoners in certain districts of France has even evoked complaints, which occasionally have been justified, on the part of all those who know how our men are treated in Germany."
CATTARO'S OUTER FORTS SILENCED.

ROME, Sept. 28.—The Giornale d'Italia reports that the bombardment of the port of Cattaro has been resumed, and that already the exterior forts have been reduced to silence.
The Austrian squadron, the paper adds, attempted to attack a French torpedo boat, but the arrival of battleships compelled the Austrians to retreat.

THREE-FOURTHS OF MAUBEUGE BURNED.

Canadian Press Despatch.
PARIS, Sept. 28.—(11.10 p.m.)—A resident of Maubeuge, who had been made prisoner but later escaped, states that Maubeuge was three-quarters burned by the Germans. The forts resisted for a long time the assaults of 40,000 men.

MONS IS ON FIRE.

Direct Copyrighted Cable to The Toronto World.
LONDON, Sept. 28.—The Belgian city of Mons, where the British lost the first important engagement of the war, is reported to be on fire. The Germans have used it as an organization base, practically all troops passing south from Belgium going thru that city. It is not known what part of the allied forces have succeeded in shelling the town.
The principal fighting of the day took place between the Aisne and the Argonne district, where the Germans delivered repeated assaults in an effort to stop the French advance. There is a scarcity of information as to the details of the conflict, official circles being extremely reticent. But it is said that the losses on both sides are heavier than at any time since the war began. Rumors filter thru of heroic bayonet charges by the redoubtable troops.
With heavy reinforcements on the German right and the French left, the attempt to crumple up that wing of the Kaiser's forces is still in progress. Never before in the history of recent wars has there been such a determined and prolonged attack on a given point as that being made by the allies. Day after day they have pushed forward, literally by inches. Despite the junction effected by Von Boehm, bringing fresh troops from Belgium, with the army of Von Kluck, the advance has continued to gain ground. The dearth of news is taken to mean that the battle is surely nearing its final stage. It is remembered that just before the crucial day of the Marne there was similar scarcity of information. No one would be surprised to suddenly hear that the Germans have begun to leave France, bag and baggage.
GERMANS CUT TO PIECES.
Indications of the tremendous efforts of the German soldiers are to be seen in the fact that the crack Prussian Guard has been almost

German Forces Have Commenced the Bombardment of Antwerp

cut to pieces. Companies having a normal strength of 250 men are reduced to 100 men, and practically all of the officers with which they went into action have been replaced by new arrivals, the others having been killed.

The opposing battle lines are said to be almost within view of each other at all points. The operations have not changed for days, so far as tactics are concerned, the allies constantly pressing the German right wing, and the Germans in turn hurling their best corps at the French centre to create a diversion.

Field Marshal Sir John French is spending his 62nd birthday on the fighting line.

TERSE STATEMENTS.

The English and French communiques are exceedingly terse. That issued from Bordeaux says:

"There is nothing new in the general situation. All is relatively quiet along part of the front. Nevertheless, in certain places, especially between the Aisne and the Argonne region, the enemy has again attempted violent attacks which have been repulsed."

The British statement says: "Last night the enemy attacked our lines with even more vigor than at any previous time. They, however, met with no more success than on previous occasions."

"There is no change in the general situation. The Germans have gained no ground. The French have advanced here and there."

"NO CHANGE," BERLIN REPORTS.

A wireless despatch to the Marconi Company from Berlin gives the following official statement, issued in the German capital today: "There is no change in the situation at any of the theatres of war, and reports concerning a victorious advance of the enemy are untrue."

"Reports of the fall of two of the Przemysl forts are inventions. The Austrian Government alleges that Russian troops have been using dum-dum cartridges. In the course of their protest, they remarked that it is not at present the intention of the commander-in-chief of the Austro-Hungarian army to adopt reprisals."

DARDANELLES CLOSED TO NAVIGATION.

The Dardanelles have been closed to navigation, according to a despatch to Reuter's from Constantinople. The duration of the closure is not stated.

AUSTRIANS USE "DUM-DUMS."

An official statement issued at Nish and sent to Reuter's Telegram Company says:

"The Serbian and Montenegrin troops marching on Sarajevo have reached Mount Kamanic. Reports from all our commanders concur in stating that the enemy is everywhere employing explosive bullets. The first discharges from the Maxim's are always of explosive bullets."

GERMAN LOSSES ENORMOUS.

"According to information from the front, the Germans suffered enormous losses in the last engagements," says the Bordeaux correspondent of Reuter's Telegram Company. The message continues: "German prisoners state that some companies of the Guards have dwindled to 100 men, and are commanded by young officers, as they have lost all their former officers since the beginning of the war."

GERMANY PAYS FOR DAMAGE.

COPENHAGEN, Sept. 28.—The German Government has paid 4,000,000 marks (\$90,000) to the Duchy of Luxembourg for damages wrought by German troops in marching across the duchy. The payment is said to be for actual damages and for violation of neutrality.

BATTLE NEAR BELGIAN BORDER.

OSTEND, Sept. 28.—The extreme right of the Germans and the extreme left of the allies are engaged in a conflict in France not far from the Belgian border, at a point farther east than it has been known the allies' turning movement had reached. Whether the force that is threatening German lines is a part of the Anglo-French troops which have been seeking to turn the German right for the last two weeks, or is the often reported "new army" of the allies is not known. The fighting is said to be in the vicinity of Tournay, across the Belgian border.

"Third—On our right wing (Lorraine and the Vosges), there has been no change in the situation."

When spoken of regarding the possibility of his entering into political life, George Lynch-Staunton made the following statement: "There is no foundation whatever for the rumor that I am to go into the cabinet. COULD NOT MISS ONCOMING ENEMY

Gordons Steadied Their Rifles on Trench, Then Blazed Away.

A SOLDIER'S LETTER

English Artillery at Mons Silenced German Batteries in Three Hours.

According to a Gordon Highlander, named Smiley, who is now in a hospital at Cosham, near Portsmouth, England, his regiment while fighting at Mons held the flower of the German army at bay. In his letter to friends he tells of intense fighting and his story is exceedingly interesting. His letter reads:

"The ball opened at 11.30 a.m. by a terrible artillery duel by the Germans over our trenches. This went on for some hours until a movement of infantry was seen. This movement was supposed to be the German advance, as had they managed to break the woods in front of us, our position would have been made untenable by hidden infantry and well served artillery, who could have flanked us merely by sheer weight of numbers."

"They advanced in companies of quite 150 men in files five deep, and our rifle fire was so accurate that they were ordered to proceed on to relieve the Royal Irish. We crept from our trenches and crossed to the other side of the road where we had the benefit of the ditch and the road camber as cover. There was a small white house with the road standing in a clearance. Our young sub was leading and safely crossed the front of the house. Immediately the Germans opened a heavy cyclone of shrapnel at the house."

The letter continues to say that afterwards the regiment reached the trenches of the Royal Irish and were successful in beating back an attack of Uhlans. The next day being Tuesday the German batteries were silenced in three hours England's artillery had silenced the German.

Lost His Regiment.

After attacking some German artillery in the afternoon Smiley twisted his ankle in a cornfield when returning. He was placed on a gun of the 138th Battery, R.F.A., and 10 minutes afterwards his "ambulance" was brought into action. They then returned to Cambrai. As he had lost his regiment he joined the Royal Canadian Engineers and worked on a cigarette. He lost all his equipment in the fight at this place and after retiring at 3 p.m. and marching back to the front at 4 a.m. which number only 170 men. They had lost 830 odd men.

German System of Espionage on Remarkable Scale Disclosed

TWO COLUMNS OF GERMAN TROOPS SLAUGHTERED ON ONE ANOTHER WHEN MAKING NIGHT ONSET

Sir John French's Report Confirms Disaster to Enemy—Furious Fusillade Heard on Night of Sept. 20, But No Bullets Reached Allies' Trenches—Spies in Various Ingenious Guises Caught—Comparative Lull in Fighting for Four Days.

(BRITISH OFFICIAL)

Special Direct Copyrighted Cable to The Toronto World.
LONDON, Sept. 28.—An official statement from Sir John French's headquarters dated September 25th says that there was a comparative lull in the fighting along the allies' front for the four days preceding, accompanied by a spell of fine weather which was very welcome following the rain storms. The nights were somewhat colder, but the warmth of the sun brought out hordes of flies which had lain torpid during the wet spell.

Unmistakable evidence has been discovered of the havoc wrought on the night of September 20 when separate German columns fired on each other, as the result of a converging attack in the dark. They slaughtered their own men in a desperate conflict before the mistake was ascertained.

Extensive Espionage.

The report says the German methods used in the collection and conveyance of intelligence are by no means of menial order. Some of the German spies in the hands of the enemy by means of colored lights at night and by puffs of smoke from chimneys, by the use of lanterns working in the fields between the opposing armies have been detected conveying information to German officers.

Women Spies Caught.

Women spies have also been caught; secret agents have been found at the railroads observing entrainments and detrainments. It is a simple matter for spies to mix with the refugees moving about to their homes; difficult for our troops, who speak neither French or German, to detect them.

Enemy Mystified.

Anything connected with the early movements of the British expeditionary force is, of course, now an enemy mystery, nevertheless, the following extract from a German order is evidence of the mystification of the enemy:

"On the twenty-first of August the French troops in front of the Tenth Army were ordered to attack the Sambré. Part of the Belgian army has withdrawn to Antwerp and it is reported that an English army has disembarked at Calais and Boulogne en route to Brussels."

Fresh Troops to Front.

The statement in detail follows: "Sept. 25—For four days there has been a lull in the fighting all along the front. This has been accompanied by a spell of fine weather the nights are now much colder. One cannot have a taste of the sun for some time as a result of the sunshine has been the release of flies, which were torpid during the wet days.

Spies Everywhere.

"Advantage has been taken of the arrival of reinforcements to relieve by fresh troops the men who have been on the firing line for some time. Several units, therefore, have received the benefit of a change of front."

Found Deserted Trenches.

"This narrative begins with Sept. 21 and covers only two days. On Monday, the 21st, there was but little rain and the weather took a turn for the better which has been maintained. The action was practically confined to the artillery, our guns at one point shelling and driving away the enemy, who were endeavoring to construct a redoubt. The Germans, however, expended a large number of shells in a long range bombardment of a village.

ALLIES CONFIDENT ENEMY DESPERATE

Violence of German Onslaughts Regarded as Highly Significant Sign.

FOOD GROWS SCARCE

Enemy's Inability to Get Supply of Provisions Spells Disaster.

Canadian Press Despatch.
LONDON, Sept. 28.—The Central News today received the following despatch from its Paris correspondent: "Both the allies and the enemy, far from being exhausted after more than a fortnight of continuous fighting, appear to be throwing increasing vigor into their operations. Expectations are being raised, particularly on the allies' left."

"It is impossible, owing to the rigorous censorship, to divulge all the information which the opinions of your correspondent are based upon; nevertheless, one cannot help expressing the view that the Germans are fighting with the violence of desperation and the allies with the energy of those upon whose slight the dawn of success is beginning to break."

Policy of Desperation.

The movement of the German troops on the left of the centre to support the menaced right wing reveals in itself the policy of desperation—an attempt to achieve victory at a staggering cost. This movement, however, appears to be completely failing.

Canadian banks, according to report, have \$133,000,000 loaned out so far call to the stock gamblers of New York. They have another large unutilized aggregate loaned out on the same terms to the stock gamblers of Toronto and Montreal.

Some pertinent questions are being asked about the banking system of Canada at the present time. One, which will have to be answered by someone if criticism is to be stayed, is why the public should be expected to believe that the money which it entrusts to the banks may be more safely loaned to non-producers than to producers.

MONTREAL, Sept. 28.—Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, has received a despatch from the report that the Austrian government has confiscated the C.P.R.'s securities and money in Vienna, as well as the company's observation cars on the Austrian railways.

They don't know whether they will pay dividends or not, Sir Thomas revealed.

"They may confiscate what they like. I do not know what they are doing over there, but we will determine to marry her, although he disapproves of the wild splash into social gaiety upon which she is resolved."

Sir Thomas declined to say anything more on the matter, except that he had not heard anything about it until upon the despatch in question.

SEEK NATURALIZATION.

Twenty-eight Germans and twenty-seven Austrians have already made application at the office of the clerk of the peace at the city hall to be made naturalized Canadians.

A large number of papers are at present before the court for consideration and the next list will not be open until Nov. 10, when it is thought that all other rifle associations are asked to send one representative to this meeting.

SOCIETY

Conducted by Mrs. Edmund Phillips.

The marriage takes place quietly today in the Church of St. George the Martyr of Miss Beatrice Hagarty to Mr. Percy Robertson.

Mrs. R. L. Benson (formerly Miss Benson) held an informal reception yesterday afternoon at Mrs. Harry Paterson's house in St. George street, to say goodbye to her friends, as she and Mr. Benson are leaving for Winnipeg tonight.

The bride looked exceedingly well in a gown of pale blue ottoman silk, trimmed with real lace. Mrs. Harry Paterson, who assisted her, was in black velvet.

Mrs. Fred Paterson also assisted, and Mrs. Charles Paterson officiated at the wedding, which was centred with a bowl of pink roses. A few of those present were: Mrs. Flaken, Mr. Percy Paterson, Mrs. Wilkes (Brantford), Mr. and Mrs. Lawrence Baldwin, Mrs. Archie Ferris, Mrs. Pearson, Mrs. Knoxen, Mrs. Henderson, Mr. and Mrs. Geo. Ince, Mrs. Alfred Wright, Miss Playter, Miss Wallbridge.

Whittier and Mrs. J. G. Campbell, a table of candies was provided by the Balmie Beach Girls' Knitting Club.

These busy little maidens worked very hard in making and selling their candies, and succeeded in raising the sum of \$28 for the funds of the Beaches branch of the Women's Patriotic League.

ADULTS NO LONGER ESCHEW BLUE BIRD

Maeterlinck's Symbolic Play Has Won Its Way Into Toronto Hearts.

IS ACTED WITH CHARM

Wealth of Exquisite Fancy—"Mary Goes First" Opens Tempest Week.

It has been remarked recently by a critic that the stage is on the verge of better things; that cleaner and more wholesome plays are being produced and that the mere desire to divert the mind of business-worried patrons the giving way to the nobler one of stirring their appreciation of things worth while.

It has come again to the Royal Alexandra theatre, the play which breathes in as sweet and clean as of yore.

Maeterlinck is one of the writers whose place in the halls of literary fame stands secure. The wealth of exquisite fancy which he has thrown about the tale of the Blue Bird has rendered it as nearly immortal as the work of any modern author may hope to approach; and in the dramatization of this beauty is not sacrificed in any particular.

The thread of the tale itself is so well-known as to require no detailed exposition. The quest for happiness carried on by Mytil and Tytyl is pursued daily by the thousands that populate the earth and that explains the fascination of the Blue Bird.

One thing was to be observed last evening: the public has recognized that this Maeterlinck creation is not a play for children. Last year the impression got abroad that a real production of this play would be a production speedily dispelled. It takes a mind matured to some extent by experience to appreciate the full beauty of it and to gather the moral hidden beneath. Children take the leading roles because of the "age" of the grown-up is the soul of a child.

The supporting cast is very satisfactory and the scenery and stage effects are well-timed and appropriate. Master Jack Davis and his charming little associate, Harriet Mendel, captivate with their ingenious deportment and the most of other youngsters share in the honor.

The dances are graceful and refined and the impersonations of the dog, the dog, the dog and the cat are as popular as ever.

Seats for Miss Marie Tempest's farewell repertoire engagement at the Royal Alexandra Theatre, beginning next Monday night, will be on sale tomorrow at the theatre box office.

The play selected for the premiere performance is Miss Tempest's London Playhouse success, "Mary Goes First."

Other plays in her repertoire are "The Marriage of Kitty" and "The Barn" and "Art and Opportunity."

The company supporting Miss Tempest is the same that shares with her the honors of the London production of "Mary Goes First."

Besides W. Graham Brown, the cast includes Kenyon Musgrave, Franklin Dyer, John Alexander, Herbert Ross, Guy Newall, Norman Loring, Norton Cooper, Miss Kate Serleantson, Miss L. A. Hamilton, Miss M. J. Barbara Fenn. Miss Tempest's American tour is being conducted under the auspices of the Messrs. Shubert of New York.

Love in a Sanitarium

HEADS LOEW'S VAUDEVILLE

"Love in a Sanitarium" heads the bill at Loew's this week, and this dainty one-act musical is a most delightful hearer.

It is not a new act, but the songs and dancing have been improved, and it is really more enjoyable than ever.

Brooklyn and Deane, a great line of pratle, and their songs were well rendered.

Tower and Darrell, introducing "That Red-Headed Comedian," scored well, and their nonstop comedy, many laughs.

Harry English and company in a one-act farce, entitled "What's in a Name?" produced many funny situations.

Also in the bill was a rather vague sketch in places, it took well. The bringing home of a pony named Little Peppit was confused by a jealous wife with the name of an actress and the trouble commenced.

Arthur and Grace Terry worked hard in their novelty rope-throwing and acrobatics and Leona Guernsey, singer of songs, completed a lengthy bill.

ACID STOMACHS ARE DANGEROUS

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, the hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer.

Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever.

The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a treatment of bisulphate of magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed.

Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisulphate of magnesia, which can be obtained from any druggist, and should always be kept handy.

POPULAR AS EVER IS "THE ROSARY"

Cecel Lean and Cleo Mayfield Are Headliners in Song and Travesty.

Cecel Lean and Cleo Mayfield are the headliners at Shea's this week. They present a series of songs and travesties which are very delightful.

"Buster," the dog comedian, is very clever. That he has received a great deal of training is seen by the manner in which he conducts himself.

It is a laughable part of the program which he contributes.

Robert Henry Hodge and company present a comedy sketch highly amusing. Adler and Arline present "A New Idea," which is certainly new. It is a novel way of giving a number of imitations which are very clever.

New versions of the latest dances are offered by Mlle. La Corio and Max Dinius in an original style. Especially pleasing is a singing number presented by Charles P. Lawler and his daughters.

The selections are catchy and brought forth considerable applause on the opening day. Other musical selections are given by the Three Lyres which are very acceptable.

Something new in the way of a cycling act is given by Vernie Kaufman. Added to all these are new pictures which complete a fascinating bill.

PICTURES OF CAMP LIFE SHOWN AT HIPPODROME

All phases of the life at Valcartier, vividly depicted, and presented in a most interesting manner at the Hippodrome this week, and the pictures show all the Canadian contingent at the great concentration camp in action.

Murray's Canine Actors came in for a good share of applause, and the dogs, which were exceedingly well trained, took part in a decidedly unique entertainment.

An enthusiastic reception was accorded the "Five Melodious Monarchs and Maid," whose program included some very good singing, dancing and instrumental numbers.

The pianists were very fine. "Spooks," Whipple and Hudson's offering, was quite original. Ben Beyer and Brother are cyclists of excellent talent.

Leonard and Halcy have some catchy songs. Metta and Cleo offer a bright musical program, including several numbers, introducing a sweet-toned harp and Moore and Jenkins, the lady minstrel extemporists, brought several new songs.

Some very good photo plays concluded the bill.

HIGH LIFE GIRLS PRESENT TWO MUSICAL BURETTAS

When a man wants to laugh he wants to have a good one and a good place to have it is by seeing Frank Calder's "High Life Girls" at the Star Theatre this week.

They present two musical burlettas entitled "Jeremiah Clancy's Sanitarium" and "In Gay Paris." Metta and Leonard, a dainty prima donna, sings a number of the latest songs in such a pleasing manner that she was called back time after time before the footlights.

Kelly and Lew Reynolds as chief time-makers are by no means second rate.

There are thirty attractive and well-coordinated girls in the chorus. Starting Wednesday afternoon and continuing daily till the end of the series, in conjunction with Moore and Jenkins, the lady minstrel extemporists, brought several new songs.

The regular show, all the games between New York and Boston will be shown on the Faragon score board.

SCENE OF BUALES

IS LAID IN RUSSIA

"In Russia" is the title of the two-act comedy burlesque presented by Sam Howe's "Lovers" at the Gayety Theatre this week.

Mr. Howe, who has appeared at the head of his own company for the past few years as a Hebrew comedian, needs no further introduction.

Countess Rosa, a winsome leading lady with a good voice, assisted by the Misses Bessie Rosa, Vera Desmond, Adelaide Adair, and the "Lovers" at the Gayety Theatre.

Effort to Mine Guernsey Foiled. Disguised German Cruiser Carried Thousand Marines and Explosives.

NEW YORK, Sept. 28.—An unsuccessful attempt to mine the harbor at Guernsey, England, said to have been made by a disguised German cruiser, which had on board 1000 German marines and enough explosives to blow up a dozen warships, was reported today by Miss Margaret Daniels, a missionary of the Baptist Foreign Missionary Society, upon her arrival aboard the French liner Espagne, from Havre.

The vessel, according to Miss Daniels, was disguised as a Dutch merchantman. The Dutch flag flying at the topmast aroused the suspicion of the British authorities, who had made arrangements with the Dutch that all their vessels entering English ports should fly the Dutch flag at half-mast.

VREELAND DEAD—VICTIM OF POISON

Arran Also Succumbs to Strychnine—Horses Owned by Jas. McMurray.

Vreeland, the six-year-old race horse, that performed the sensational feat of starting favorite twice and winning the third and sixth events last Wednesday at Woodbine Park, died on Sunday as the result of strychnine poisoning. Arran, a 4-year-old, also fell a victim to the noxious dose, and whether the same was administered maliciously may be determined by an investigation, but the case has not yet been placed in the hands of the detective department owing to the absence of Mr. McMurray from the city. The horses succumbed in the stalls of their owner, Jas. McMurray, 1015 East Queen street, on Sunday night. Dr. Hodgson, V.S., was called in, but arrived too late. However, he diagnosed the cases as strychnine poisoning. Jim L., also owned by Mr. McMurray, was affected, but he took a mild dose, and Dr. Hodgson pulled him thru. Arran took sick in Montreal and did not run at Dorval or the Woodbine. Vreeland, who owned by Mr. McMurray, has been running in the name of D. M. Reid. He is trained by A. Brent. The victories last week netted the owner \$380 and \$275. The two starts in the one day were his total for the meeting. Arran's last victory was at Blue Bonnets. He was a good winner prior to his ailment. He is by Geo. Edward. The owner McMurray strongly of the opinion that the strychnine was administered maliciously. The poison was placed in the feed box, but no one knows how, as the boys were continually around the stalls attending to the horses. The two strychnine victims of course supposed of suddenly right after consuming sufficient of the poison with their oats. Vreeland died at 5 p.m. and Arran at 11 p.m. Owner McMurray was offered \$500 for Vreeland right after the double victory and refused. Arran was valued at \$1500. Jim L., of course, escaped, because sufficient of the poison was not placed in his oats.
