BRITISH FRIENDSHIPS NEITHER EXCLUSIVE NOR JEALOUS, SAYS ASQUITH

"We Have No Disposition to Curtail the Natural and Legitimate Aspirations of Others," Declares Premier at Guildhall Banquet—No Interference in China.

COLONIAL CO-OPERATION SAFEGUARD OF EMPIRE

LONDON, Nov. 9.—(Thru Reuters' Agency to Ottawa.)—At the Guildhall banquet to-night the lord mayor, Sir Thomas Crosby, presided, and there was the usual brilliant assemblage of cabinet ministers, ambassadors, peers, members of the house of commons, the Archbishop of Canterbury, bishops, judges, representatives of the navy and army and men prominent in finance and commerce.

Premier Asquith delivered a most important speech, devoted to imperial and foreign affairs. He opened with a generous tribute to Mr. Balfour, expressing unfeigned and profound regret at the announcement of his resignation, acknowledging the irreplaceable loss which his withdrawal from constant interchange most involve to the daily life of parliament. He hoped and believed that there were many chapters of Mr. Balfour's career still to be written by the pen of history. It would be long before there would be seen in the forefront of politics a personality so invaluable to his friends, so formidable to his foes, so interesting and attractive to friends and foes alike—such a unique combination of gifts and powers as made Mr. Balfour by universal consent the most distinguished member of the greatest deliberative assembly in the world.

An Object Lesson.
Turning to imperial affairs, Mr. Asquith referred to the illustrious, world-wide concourse which celebrated the coronation. He said that the representatives of foreign countries thus witnessed in Westminster as impressive a demonstration as the annals of nations can afford of the unity of a great state, of the continuity of its history, of the assimilating and incorporating forces which can hold together a world-wide empire by ties of loyalty and liberty.

The day after to-morrow their majesties start on the first visit which a British sovereign has ever paid to his Indian dominions, and he need not say that over the whole empire they carry with them the hopes and prayers of all their subjects.

By a happy coincidence, he continued, the year of the coronation was marked by the first meeting of the imperial conference. For the first time representatives of the great dominions were admitted into full consultation.

HON. J. J. FOY LIKELY TO RUN IN N. TORONTO

Attorney-General Informs Deputation He Will Consult Premier—E. W. J. Owens in South.

With the request that Hon. J. J. Foy seek nomination in North Toronto, giving up the south constituency, which he has represented since 1898, a deputation of about 30 prominent North Toronto Conservatives waited upon him at the parliament buildings yesterday. Hon. Mr. Foy, in expressing deep appreciation of the honor, said that he could not give an immediate reply, as he thought it only fitting that he should first consult the premier.

It is definitely understood that John Shaw will retire, so that W. K. McNaught will continue to hold seat A. in the event of the attorney-general's acceptance.

The deputation included Fred Armstrong, Hon. A. B. Morine, Dr. E. Clouse, Frank Arnold, K.C., Marmaduke Rawlinson, Noel Marshall, J. Nash, E. Pearson, Major Cooper, Samuel Sharpe, Controller Church, Dr. Hialop, Dr. G. S. Ryerson, W. H. Hall, George Stevenson and others.

Hon. Mr. Foy will probably announce his decision to-day.

The understanding is that E. W. J. Owens will probably be the choice for the vacant seat in South Toronto.

TAKES TRIP TO DETROIT.

J. D. McDonald, assistant general passenger agent of the Grand Trunk Railway, left the city last night on the 11 p.m. train for Detroit.

British Navy Strong and Prepared

LONDON, Nov. 9.—Winston Spencer Churchill's first speech for the navy, as first lord of the admiralty at the Lord Mayor's Guildhall banquet to-day, stirred his audience. "The navy is strong," he declared, "and ready instantly to put forth its strength." He paid a tribute to Admiral Lord Fisher of Kilverstone, who retired as admiral of the fleet this year, as the greatest naval lord of the century.

Mr. Churchill promised a reduction of the present abnormal expenditure without compromising national security. "It would be affectation," he said, "to pretend that the sudden and rapid growth of the German navy was not the main factor in Great Britain's vast expenditures."

STREET RAILWAY MAY SELL TO CITY

Reorganization Effected Believed to Have Had Purpose in View—May Be Moved to Block Tubes.

There is something doing in connection with the Toronto Street Railway, or, as it is officially known, the Toronto Railway Company. One of the evening papers intimated last night that interests identified with the management of the company in this city had said that they were expecting some kind of negotiations being opened shortly between the city and the company for the purchase of the street railway and all its assets. The World has heard rumors of this proposal for some time and it believes there is something in it. The recent reorganization of the company was for this purpose. It may be, however, that the talk has been started with the idea of heading off the agitation for the tubes.

Tubes Must Go In.

In the meantime The World suggests that the agitation for the tubes go on, and that if anybody has any proposal to make for the purchase of the railway on reasonable terms, the city and citizens will certainly be ready to entertain it. It would be a good thing if the city could at one fell swoop take over the street railway, the Electric Light Company, the Electrical Development Company and the radial lines, and all these go with the sale. It would cost something between fifteen and twenty millions in order to secure the control, but there are other commitments which, while the city would not take them over, would be charges against the undertakings, but they are all making more or less money and at a fair price would be a good thing for the city to have and for the province to help along.

Significant Facts.

An elaborate circular from the bond house of A. E. Ames & Co., dealing with the Toronto Railway Company, all its securities, and also the allied companies, was issued a week ago and has been given a wide circulation. Perhaps this document has had something to do with the talk; but the most significant statement is that of Mr. Rodolphe Forget of Montreal, who has the control of the railway and who is ready to sell the road at a fair price, according to a statement made by a well-known city banker last night.

IMPORTATION OF ROWELL STIRS UP ROW

Split Threatened in Liberal Party in North Oxford—Tavistock and East Zorra Will Kick Over Traces if an Outsider Receives the Nomination.

WOODSTOCK, Nov. 9.—(Special.)—N. W. Rowell, K.C., leader of the Ontario Liberals, will not receive the nomination as candidate for North Oxford in the coming provincial elections without strong opposition.

As a result of the action of the executive of the Liberal Association yesterday, when they decided to accept the resignation of Dr. Andrew McKay, the sitting member, and the man who was nominated some time ago to again contest the riding at the coming election, there is a big split in the Liberal party in this riding, and it looks very much as if a first-class row will be precipitated before long.

The executive meeting held yesterday was a decidedly stormy one, at which marked expressions of opinion regarding the proposed importation of N. W. Rowell into North Oxford, were uttered. Considerable opposition was shown to the proposition by the delegates from the Village of Tavistock and the Township of East Zorra, and they declared in no uncertain terms that if Mr. Rowell was imported, the executive might just as well count them out so far as support for the candidate went. The action of the executive is being spoken of in all quarters to-day, and prominent Liberals state that they will refuse to vote if an outsider secures the nomination.

IMPRESS ON PUBLIC TO "WARE OF MOTOR CARS"

Motor League Doesn't Think Traffic Regulations Need Much Fixing—Aldermen Will Investigate.

After a while there may be something done to regulate the traffic on Toronto streets; the police may be invested with more power and a campaign of education for horse vehicles, and which will eliminate the accidents as far as possible.

Yesterday afternoon a delegation from the Ontario Motor League waited on the civic reception and legislative committee, and after a conference lasting a full hour, the representatives were informed that they would be notified when the committee will again sit. In the meantime, however, more information as to how the public could be protected, will have been gathered.

The problem before the committee is to frame up regulations which will be satisfactory to the motorists and owners of horse vehicles, and which will eliminate the accidents as far as possible.

Campaign of Education.
An educational campaign was suggested by the delegation. They stated that the league is spending a large sum of money in this respect and believe that if the city would have several thousand cards, about a foot square, printed, warning people not to step off the sidewalk without first looking in all directions to see if any vehicles were approaching, many mishaps would be avoided.

"It would do a whole lot of good," commented Chairman Ald. Maguire. It was pointed out that 75 per cent. of the accidents occur when the chauffeur is out alone. "It is when the driver is the only occupant of the car that he wants to cut corners and do a stage performance for the benefit of the pedestrians," said one of the delegates. "There should be some character qualifications required before a license could be obtained by these men."

Few Downtown Accidents.
It was also stated that only a small percentage of the unfortunate occurrences with motor cars during the past two or three years have happened in the congested parts of the city, and that it is, therefore, evident that more care should be exercised by the people and the motorists on every street, whether there are many people around or not.

There may be some regulations made regarding the use of horns. Motorists may also be compelled to use buzzers.

MAKING PREPARATION FOR SIEGE OF PEKIN

Approach of Rebels Anxiously Awaited—Foreigners Will Be Protected—Tientsin Did Not Fall Yesterday As Was Expected.

PEKIN, Nov. 10.—(2.52 a.m.)—Pekin is still awaiting the approach of the rebels. The Forbidden City is filled with princes, high officials and others who are entitled to enter within the gates. Vest stores of provisions have been transported to that place, which, strongly guarded, is ready for a siege.

Active preparations for what is considered the inevitable assault upon the capital are going on within the legation quarter, for it is now conceded that the Manchu dynasty will be ousted out of office. Foreigners, it is asserted, will be fully protected, but experience has taught that the temper of the people is not to be trusted when revolutionary movements are in progress.

The fact that Tientsin did not fall yesterday as was expected, is a hopeful sign, because it indicates that, whatever steps the revolutionists are taking in the north, at least they are proceeding along careful lines and are acting with consideration and without haste.

While reinforcements have reached Peking, reports have been received of numerous defections of the Manchu soldiers to the rebel side. The rebel troops are an uncertain quantity, but there are still loyal regiments which are fighting for the dynasty.

Imperialists Strongly Entrenched.
At Nanking, where the revolutionists outnumber the imperialists five to one, the latter still hold Purple Mound. They are strongly entrenched in that position and are said to have abundant supplies at their command.

A wireless despatch has been received from the American consul, Edward C. Baker, who has arrived at Hankow from Ichang. The consul states that the customs and other foreign officials are leaving Chungking in Szechuen Province, from which place the British consul sends reports that the situation is critical. The road between Ichang and Chungking is unsafe and there is danger from robber bands.

An American, who is in close touch with Tientsin rebels, says that they are divided into two factions. The conservative faction will probably control and wait until there is a material force behind them before taking over the city. At the present time only 2500 police within the city support the rebels.

The attitude of the foreigners is causing anxiety and distrust among the rebels. The rebel leaders point out that the consuls have permitted the government to bring in soldiers contrary to the protocol of 1910, and have objected to Gen. Chang bringing in troops. Foreign railway officials, they say, provide trains at the government's order, but not at Gen. Chang's.

A threatening letter, referring to such incidents as not neutral, has been received by the consular body at Tientsin. The Peking Hankow Railway officials likewise are pro-Manchu. Gen. Tuan, with 2000 men of the Third Division, has reached Peking. I believe they can be better built, be-

WILL FIND IT DIFFICULT TO FILL BALFOUR'S PLACE

Monday's Meeting Will Only Select Leader for Commons—Austen Chamberlain the Favorite.

LONDON, Nov. 9.—Eager discussion in political centres to-day served to emphasize the difficulty the Unionist party will find adequately to fill Mr. Balfour's place. Monday's meeting, which not unlikely will need a ballot to decide the matter, will only select a new man for the leadership in the house of commons, leaving the question of the leadership of the party as a whole to be decided later.

It is understood that Sir Edward Carson and Alfred Lyttelton have declined to be nominated. The choice therefore lies between Austen Chamberlain, the Rt. Hon. Walter Hume Long and A. Bonar Law. At the present moment Mr. Chamberlain seems to be the favorite.

John E. Redmond, leader of the Irish parliamentary party, said to-day: "The resignation of Mr. Balfour gives the Nationalists a great advantage in the home rule fight, as fighting against any prospective leader will be nothing compared with a fight against an old parliamentary hand like Balfour. I am personally sorry to see Mr. Balfour retire, as he always fought fairly."

A. C. Thompson, who will head the new company, is looking for a favorable site, and said to-day that he was hoping to secure one on St. James-street, not far from the Bonaventure station. In discussing the matter, he said:

PREMIER VIEWS TAX EXEMPTION WITH ALARM

Prospect of Letting Each Municipality Decide What It Wants Would Lead to "Absurd Checker-Board System," He Says—Personal Attacks Not Deserved.

Sir James Whitney expressed his views pretty freely yesterday afternoon on the important matter of taxation. In answer to a question as to whether he would be willing to say anything regarding the suggested legislation exempting improvements on property from taxation, the premier replied that he was not averse to making public his ideas on this subject.

"As there seems to be more or less misapprehension," said Sir James, "as to the attitude of the government on taxation, or as to what should be the attitude of persons interested in this question, I will say this:

"During one whole summer I was the subject of violent abuse by certain newspapers and individuals. I was accused of opposing and destroying Mr. Frigg's bill and was threatened with all kinds of punishment besides being described as a reactionary. Premier Suggested Bill.

"Now, the fact was, and is, that Mr. Southam of the Ottawa Citizen, who was the head and front of the propaganda having for its alleged object the exemption from taxation of improvements on real estate, discussed the matter with me more than once, and, while not accepting his doctrines, I suggested to him that a bill be introduced embodying his views, in order that a full discussion be had, and the idea brought to the notice of as many people as possible, and that after discussion on a second reading the bill be withdrawn for the present. Every person acquainted with our parliamentary practice knows that this course is often taken under similar circumstances.

"I, also suggested that he ask Mr. Frigg to introduce the bill. I sent for Mr. Frigg. The matter was explained to him and he introduced the bill and made a very good argument in its favor on the second reading. You will see, therefore, that instead of deserving the abuse I received I was entitled to the credit—if credit there be—for bringing the matter before the house. In justice to Mr. Frigg I must say that he was in Europe for several months and knew nothing of the attacks made upon me.

Checker Board System.

"Well, now, the government is asked to pledge itself to enact legislation to allow municipalities to adopt what is really the Henry George doctrine of levying all taxation on land, or, as its promoters put it, allowing municipalities to exempt from taxation improvements on land. The government will not pledge itself, and any member of the house who does so will be unwise. In the first place, and outside of merits

THOMAS LONG FOR SENATE

Grand Old Man of Collingwood Mentioned for an Ontario Vacancy.

COLLINGWOOD, Nov. 9.—(Special.)—The name of Thomas Long, for half a century identified with the interests of this town, is being mentioned in connection with the vacancy in the senate created by the death of Sir John Carling.

While maintaining his interests here for the past 25 years, however, he has established many affiliations in Toronto, where his standing as a financial man is unexcelled.

Mr. Long served two terms as a member of the Ontario Legislature and had the Conservative party been in power during the past 15 years, his services would have been recognized. His claims are unsurpassed at this time and this town looks to see him rewarded.

Fur-Lined Motor Coats.

Fur-lined motor coats are the most sensible garment you can decide on today. A twelve mile gait in a motor, against a thirty mile frigid breeze means that you are going to be very uncomfortable if you haven't a warm wrap. The fur-lined coat was the adopted garment of the North American aboriginal who stood for arrangement of "fur inside, skin side outside." The Dineen Company are showing some fine motor coats with cloth outside. This cloth is in all the new patterns of Scotch tweed mixtures and is great value at from \$50 to \$85. You may have them with fur collars or in plain designs.

Rugby Junior Arts 25 Senior School

JUNIOR ARTS WIN MULOCK CUP SEMI-FINAL

Run Up Score of 25-2 in Game With Senior School—Final Game on Nov. 14th.

Senior School ran into quite a snag yesterday on the campus when Junior Arts defeated them rather easily in a Mulock Cup semi-final game by 25 to 2. Senior School were looked upon by many as the probable winners of the cup this year, but this idea got a rude jolt yesterday.

Arts had the wind advantage in the first quarter, having won the toss. Play for the most part was very even, and several very brilliant runs were made. Arts finally broke a rouge, and the first quarter ended: Arts 1, School 0. Arts secured ball near School line for outside around at commencement of second quarter, and immediately Goodwin kicked for a point. Arts had the better of the play, and the next score was made by Crawford, who dropped a neat goal, and the score was 4-0. This also was the half-time score.

Rugby Gossip

Varsity had another good signal practice yesterday with all the members of the team working smoothly and fast. The team realizes that they have just to go the limit to beat Ottawa College, so intend to be prepared.

The most probable line-up for the Varsity-Ottawa College game on Saturday is as follows: Varsity—Flying wings, McDonald, backs, Greene, Ramsay and Macdonald; scrum, Campbell; scrum-half, Curtis, Bell and Knight; inside wings, Stinton and Clarke; middle, Taylor and Thompson; outside, Hasard and Sinclair.

Ottawa College—Full-back, Connell; half-backs, Quilty, Hefferman and Sheehy; quarter, Killian; scrum-half, O'Sullivan; O'Sullivan; middle wings, Friel, Harrington; outside wings, Gillick, Nagle; scrum, Charrand and Chantal.

One pleasing thing is noticed around the Varsity campus and that is the stories coming from Ottawa College, supposedly from Father Stanton, are not believed by the Rugby boys, who do not think that Father Stanton would ever say such silly remarks.

Ottawa College have wired to the Walker House to reserve accommodation for 100 students. This is one crowd who are coming to witness the Rugby game on Saturday.

Pete Campbell, the Varsity quarter, states that the two best players on the Ottawa College team, Hefferman and Sheehy, come from Peterboro. Somebody asked him where Peterboro was and he walked away in disgust.

Billy Allen Wins Lightweight Belt In Rattling Bout

Billy Allen Wins Lightweight Belt In Rattling Bout

Billy Allen of Ottawa is the winner of Tom Flanagan's belt, presented for the lightweight championship of Canada. He won it last night from Fat Drouillard of Windsor by a good margin before the National Sporting Club at the Agnes-street Theatre. The belt is a very handsome affair and he a credit to both the donor and the winner. Allen lived up to his reputation as a very clever boxer, but when it comes to the steep-producing punch he is not there. He had it on the Windsor boy in defence and his speed with hands and feet is as fast as anything seen here. Drouillard is a good rugged fighter with a wicked punch in either hand and with a little more cleverness will make them all go some.

In the first three rounds Allen put it all over his man and had him down in the second, but after that the Ottawa boy slowed up a little, but had an advantage in the majority of the remaining rounds with the possible exception of the 12th, when Drouillard got over a couple of stinging rights and lefts.

The semi-windup was a ten-round argument between Danny Dunn of Cleveland and Tommy Hudson of Windsor. It was a hard battle from start to finish. Dunn is a little cleverer than the Windsor boy but Hudson, who is much the stronger, was the aggressor and won with a little to spare.

The six-round curtain-raiser between Ed Mortimer of Syracuse and George St. Pierre of Windsor was another good bout. St. Pierre, who is an old hand at the game, won from his younger and more inexperienced opponent. All the bouts were boxed under the National Sporting Club rules of London, England, which allow hitting with one hand free.

NATIONAL COMMISSION

President Barrow Requests That Eastern League Be Elevated. CINCINNATI, Nov. 6.—That the National Baseball Commission has obtained evidence regarding the charge that ticket scalping was prevalent during the recent world's baseball series in New York and Philadelphia was indicated today when the commission definitely decided to pursue an investigation. A meeting will be held by the commission in New York on Dec. 11, at which the result of the investigation will be announced. The commission decided by unanimous vote that in future the sale of tickets for the series shall be conducted by business representatives of the commission under the direct supervision of its members.

If the investigation now in progress develops evidence warranting such action, the commission will in a finding fix the responsibility regardless of whether the club or any of its employees is affected. If, on the other hand, no substantial testimony is produced that either club or any of its officials or employees are at fault, the commission will go on record as exonerating them.

It is the intention of these two gentlemen to erect suitable stands in the Montreal Baseball Park and to play their lacrosse games there.

Babe Reynolds May Officiate at Argo Ottawa Game

MONTREAL, Nov. 9.—As yet no official have been definitely chosen for the Argonaut-Rough Rider game at Ottawa Saturday. The choice is in the hands of Walter Hagar, vice-president of the Inter-provincial Hagar has asked "Babe" Reynolds to act, and Reynolds will do so if he can find the time. He will probably choose his own assistant. Just who will officiate at the game is still a matter of speculation.

Hamilton Tigers are sending the following line-up to Montreal: Backs, McNelly, McKelvey, Simpson, Moore, Gibson; quarter, Burton, Ballard; scrum-half, Neville, Awrey, McCann; inside wings, Woodley, McFarlane, Marshall; middle wings, Lightner, Pottery; outside wings, Glassford, Gatzaby, Thompson, Lyon, Loftus. Oliver will accompany the boys, but will not be used in the game unless absolutely necessary.

The Capitals Interprovincial team will practice in Jesse Ketchum Park on Friday night. The following are requested to be out in uniform: Dilling, Whelan, Price, Armstrong, R. Holden, H. Holden, McNeil, Morrison, O'Hearn, Graham, Mac Donald, Galt, Richards, T. H. Adams and Adams.

T.A.A.C. probable line-up is as follows: Flying wing, Stuart Forbes; half-backs, Smith, Fied, DeGruy, quarter, Miller, scrum-half, Crawford, Cory, Hoare; inside wings, Baisall, Bob Burkhardt, Gage; outside wings, Clarke and H. Burkhardt. There are several other players who may be given a chance.

The largest crowd that has witnessed an O.R.F.U. fixture this season is expected in Hamilton on Saturday, and the Alerts are assured of at least one big game.

A meeting of the City Rugby League will be held at the County Hotel on Friday night, when the protest by the New Beach seniors against the Capitals will be taken up. A full attendance is requested.

Alerts expect to play the following against T.A.A.C. on Saturday: Flying wing, Flannery; backs, Carr, Pockley and Becker; quarter-back, Harper or George Pockley; scrum-half, McCarthy, Pfeiffer and Craig; inside wings, Gray and Ross; outside wings, Rockmaker and Bill Pockley or Brannigan.

No news has arrived yet as to who will handle the Ottawa College-Varsity game, the several people who think that Don Wilson may come along himself and act.

Alex. Hunter and Pete Parker of Parkdale will handle the Alert-Galt junior game in Galt. Interested parties in Galt who are promoting the scheme find encouragement.

There is every prospect that a pro hockey team will organize in Galt to join the league of which the towns are Berlin, London, Woodstock, Stratford and Waterloo. Interested parties in Galt who are promoting the scheme find encouragement.

West Toronto Vics To Play Junior O.H.A. This Year

The Victoria Hockey Club of West Toronto held their organization meeting last night and decided to enter a team in the Junior series of the O.H.A. again. Several good players have signed their intention of playing with the Vics, and a good junior team will be put on the ice. The following officers and patrons were elected: Patron, Dr. Godfrey, W. F. Maclean, Ald. Baird, R. L. McCormack, Dr. Perfect, Dr. Clemen, Dr. Gilmour, Dr. E. G. Smith, W. H. Scott, A. D. Rice, A. W. Gibson, R. G. Agnew, Dr. Campbell Jr., Alex. Haines, James Duffin, T. J. Shepard and F. Whetter; honorary president, D. T. L. McKerrall; president, O. Brown; first vice-president, A. E. Randall; second vice-president, A. Smith; third vice-president, Dr. Niemi; secretary, Harry Bond; treasurer, Cal McKee; manager, Joe Smart; coach, Art Gilbert.

After an absence of six years, St. Andrew's College will have a Junior O. H. A. team this season. They will most likely be grouped with Upper Canada, St. Michaels and Varsity.

Jim Byrne of last year's Toronto Lacrosse Club has been appointed coach of the Yale hockey team for the coming winter. A new artificial ice rink has been built.

There is every prospect that a pro hockey team will organize in Galt to join the league of which the towns are Berlin, London, Woodstock, Stratford and Waterloo. Interested parties in Galt who are promoting the scheme find encouragement.

Technical School Rugby League Play Close Game

Technical School Rugby League Play Close Game

A stubborn and well-contested Rugby game was played yesterday in the Technical School Interform Rugby League between Non Matrix, the league leaders, and the freshmen's team. The former were returned the winners by 9 to 3.

Alcho the freshmen secured a lead of three points before half time. Non Matrix woke up and gained a touch, which was converted by Karl Schmidt. The freshmen intercepted a pass and regained the lead when they crossed their opponents' line for a try, which they, however, were unable to convert.

With only five minutes to play the freshmen were ahead by 8 to 3 and Schmidt resorted to the punting game and thereby secured a well-earned victory, punting the pig skin to the dead-ball line for three scores and winning the game by 9 to 3.

Non Matrix (9): Back, Schmidt; half-backs, Scarlet and Darrah; quarter, Dickson; scrum-half, Bodkin, Watson and Lee; wings, Hueston, Moxley, Alcock, Thompson and Taylor. Freshmen (5): Back, Philpot; half-backs, Locke, Woodley and Storke; quarter, Kearns; scrum-half, Young, Rumlley; wings, Brown, Grinnell, Booth, Ross, McDevlin, McGann and Model.

Next game will be played on Tuesday, Nov. 14 and will be between Non Matrix and Sophomores. Following is the standing of the league:

Non Matrix	Won	Lost
Sophomores	1	1
Freshmen	0	2

TORONTO REVOLVER CLUB

The Toronto Revolver Club held their first handicap shoot of the season in the Armouries last night. A. Rutherford was the victor with a score of 89 out of a possible 100. The score: A. Rutherford 89, F. G. Margret 85, N. F. Munro 83, G. J. Barber 81, G. Tomlin 75, M. Quirk 69.

The V.G.R.A. medal match was also held and the gold medal was won by A. Rutherford with a score of 96 and 90. A. Rutherford and P. G. Margret tied for the silver medal with scores of 92 and 92. N. F. Munro lifted the bronze with 82.

Sporting Editor World: The article from The Hamilton Herald which appeared in The Toronto News on Tuesday last regarding Saturday's game between the Hamilton Rough Riders and the Toronto Capitals in the intermediate interprovincial series was entirely uncalled for and unwarranted by the facts. That the game was not "bordering on the brutal all afternoon," as stated, is shown by the fact that the Capitals player was penalized for any of the accidents which occurred. This shows that the playing, although hard, was not dirty by any means. The onus of finding fault with the play should rest entirely with the Hamilton Rough Riders' own line, which was downed for a rouge, and not behind the Capitals' line, as stated.

The player who suffered from a broken collarbone played the entire game, and did not discover his injury until after the game was over. The unfortunate accident to Manson did not result from a "kick in the chest," as stated. His injury was caused by a hard, but perfectly clean tackle, as is witnessed by the fact that the referee did not find it necessary to penalize the Capital man who made the tackle. Fully as many Capital men were injured as the Rough Riders, and the articles originating in The Hamilton Herald were evidently written by a prejudiced person who did not witness the game, and were written with the intention to give the Capitals a bad name and to sour their own tactics. References to their own tactics, which were hardly made to the rough playing indulged in by the Rough Riders when they played the Capitals in Hamilton, in that game several of the Capital players were incapacitated during the first ten minutes of play. Again, when the Rough Riders played the Argonauts' interprovincial team in Toronto, the Toronto papers criticized the play and language used by the Rough Riders. These facts are only referred to to show that the Rough Riders are not by any means above suspicion, and that there are two sides to the tale—The Whale, manager Capital team.

\$14.70

TO MEASURE

THIS is a very simple statement, but a great big tailoring fact. Because we received a shipment of overcoatings this week that should have arrived a month ago we make this offer for To-day, Saturday and Monday. We'll take your measure and make to your individual order a thoroughly high-grade all-wool overcoat, incorporate any style details you direct, line it with dependable material, and guarantee each detail as to fit, finish, material and workmanship, just as though you paid regular prices.

If it was not that these overcoatings arrived late we would not think of letting them go at this price, and they are not likely to last long.

The sale commences this morning and will positively end on Monday night. Come early for best selection.

Warning to Sportsmen.
 Only a comparatively short time remains in which to take advantage of the reduced rates offered by the Canadian Pacific Railway to hunters. Until November 11th return tickets to all the finest hunting districts are selling at one-way rate, bearing return limit of December 14, and good for stop-over almost everywhere. If you are contemplating a hunting trip—if only for a day or two—you will do well to obtain the different booklets of information for hunters, giving seasons, license arrangements, lists of outfitters and guides, who are vouchered for by the C. P. Ry., etc. C. P. Ry. Ticket Office, 16 King East, Phone Main 6580, or write M. G. Murphy, D.P.A., C.P.R., Toronto.

A Natural Error.
 "How did that story get out about the man up in the Bronx who found the big ballstone on his back stop this morning?" asked the city editor.
 "Nothing in it," replied the reporter.
 "He discovered it wasn't a ballstone, after all. The woman left it there."
 Woman's Home Companion.

DANGER OF WORLD-WIDE WAR.
 The war between Turkey and Italy led to many rumors of a partition of the Ottoman Empire by European powers.
 It was given out that the great powers of the world had agreed among themselves upon a division of the spoils and this announcement created little discussion.
 It is generally believed that Turkey's provinces ultimately will fall into the hands of Russia, Germany, Austria and perhaps England and France. Therefore, any partition of the domains of the Sultan would not necessarily mean a world-wide war.
 On the other hand, the civil war in China may lead to an embroilment of the leading nations of the world.
 Continued turmoil in the Celestial empire inevitably will lead to intervention by other powers and the vastness and richness of China will cause the great nations to carefully watch each other when any land-grabbing is attempted.
 Should Germany, for instance, attempt intervention, should any foreigners be massacred in the battles between China, to-day, is a powder mine with the fuse lighted.
 It will take little to cause an explosion.
 The Turkey-Italy war is being eclipsed by the trouble in China.

**CIVIC LINES OPEN UP
 GREAT HOME DISTRICT**

Gerrard-street Service Will Put
 Glenmount Park Within 25
 Minutes of Yonge-street.

Any city property, if it has a good
 view situation, is a sure seller, but
 if you add to that, a beautiful surround-
 ing closeness to downtown, nearness
 to stores and churches and proximity
 to car lines, you have a property that
 is doubly sure of demand.

W. N. McEachern & Sons have a
 property that has every one of these
 desirable features, besides a few more
 of less importance. It is called Glen-
 mount Park. That is a rather con-
 tradictory title, but one best appro-
 priate to the site of the property when
 dates the aptness of that name when
 one sees Glenmount Park. It runs
 north from the Kingston-road to Ger-
 rard-street and is just east of Wood-
 ward-street and is just east of Wood-
 ward-street. A magnificent view of
 the city and the lake and bay is
 to be had from this property. The
 view that could be had
 from the top window of a three-storey
 house would be even better than that
 from the city hall tower, and most
 everyone knows that that is a great
 view.

Ideal Sites for Houses.
 Then just below this high plateau
 of Glenmount Park, the land drops
 away. There are some excellent home
 sites on the crest of the hill. Just be-
 low is a flat ledge, heavily and beau-
 tifully wooded, most of it in oak, and
 then from there down the property
 slopes to Kingston-road, dropping in-
 to a sort of ravine, over which a few
 creek winds. Over this shallow
 ravine will be hung rustic bridges, that
 is, until the ravine is eventually
 filled up level with the Kingston-road.
 As before said, when one sees Glen-
 mount Park one does not wonder at
 McEachern's calling it by that dis-
 tinguished and most suitable name.
 From any part of the property, it is
 not over five minutes to the King-
 ton-road line, and not more than ten
 minutes, at the very most, to the East
 King-street line. But that is not all.
 Along the Gerrard-st. frontage the
 city is building a car line that, when
 finished next spring, will mean just
 25 minutes from Yonge-street, right
 downtown, from Glenmount.

Gerrard Street Line.
 If anyone has ever carried within
 him the impression that the city could
 not carry on any public work of im-
 portance, to witness the progress that
 is being made on the Gerrard-st. line,
 or any of the civic tracks for that
 matter, would mean quick disillusion.
 Here gangs of men are operating
 big steam shovels, and dinky engines
 and lines of dump cars, and grading
 is being carried on in a decidedly en-
 ergetic way. In a few days the men
 will start laying the overhead work,
 and the winter overhead work,
 the erection of trolley wires and so forth
 will be gone on with, and early in the
 spring the cars will be running over
 the new track.

The present Toronto Railway line
 runs along Gerrard east to Green-
 wood. The city line, continues east
 from there right thru to Main-street,
 East Toronto. On May 1, 1911, the
 city takes over the Kingston-road tra-
 ck, and then the city line will be
 joined up. What it all means to Glen-
 mount Park is just this, the land will
 go away up in value next spring.

Not for Speculation.
 Glenmount Park will not be sold to
 speculatively inclined people; it will
 be sold only to those who will build,
 and will build brick homes at that.
 It is such a magnificent neighborhood
 and there are so many beautiful homes
 adjoining to the east and close by that
 it would be a shame to allow specu-
 lators to do otherwise than keep up
 the tone of the neighborhood.

Only the northern part of the prop-
 erty, about four or five acres, will
 be sold this fall, the rest will be held
 by McEachern until the spring. They
 have fifteen thousand feet in Glen-
 mount Park at present.

All-City Advantages.
 Two thru streets will be run, from
 north to south, thru the property, and
 another north and south avenue will
 wind crescent-like down to Kingston-
 road. Glenmount Park has been laid
 out by one of the best landscape gar-
 deners to Toronto, and every one of
 its many points of beauty will be
 brought out. And also all the city
 services, electric light and water and
 so forth will be put upon the prop-
 erty next spring, as well as the civic
 car line.

Glenmount Park has sold wonderfully
 well since it was known that Mc-
 Eachern had opened it up. It is a
 great piece of property, and that, cou-
 pled with the fact that the city has
 made a strong name for them-
 selves in the real estate world by the
 absolute worth of their offerings,
 makes it certain that Glenmount Park
 will not stay unbuild upon for many
 months.

HARBOR IMPROVEMENTS NEEDED
 Controller Church stated yesterday
 that the questions which would be
 board will bring before the au-
 thorities in Ottawa when the commis-
 sioners make the trip to the capital,
 are: The closing of the old western
 gap, the widening of the eastern chan-
 nel to 400 feet, and the matter of ex-
 tending the pier of the new western
 canal some 400 feet. They will also ad-
 vocate improved ferry channels be-
 tween the city and the island.

Milk No Cheaper in United States.
 Chas. E. Potter, manager of the
 city Dairy, stated yesterday that the
 prevailing quart bottles of milk in the
 United States only weighed 32 ounces,
 whereas here the quart bottles contain
 40 ounces of milk or twenty-five per-
 cent more than on the other side. With
 this taken into consideration he said,
 that milk prices were lower in Tor-
 onto than in most of the United
 States cities.

Secured Death.
 CHATHAM, Ont. Nov. 9.—(Special).—
 John Robinson, aged 57, an employe
 at Cornell's brick yard, became sud-
 denly ill while at work this morning
 and while walking to a surgery, which
 was brought to convey him home, fell
 to the ground and expired in a few
 moments.

Couldn't Sell Business.
 At the meeting of the creditors of A.
 Hamilton, the Beaverton merchant,
 who resigned some time ago, no offer
 was received for the business, and
 it was decided that the estate will
 be wound up in the usual way.

**NO SOLDIERS FOR DUKE
 ALDERMEN ARE IRATE**

Even Ald. Maguire the Persuasive,
 Failed To Soften Gen.
 Cotton.

General Cotton has refused to line
 the streets from North Toronto station
 to the city hall with soldiers on the ar-
 rival of the Duke of Connaught on Nov.
 27. Ald. Maguire complained at the
 meeting of the civic reception commit-
 tee yesterday afternoon because the
 general refused to comply with the
 city's wishes on the great occasion.
 "He made all sorts of excuses," said
 the alderman. "First, he said the mil-
 itaries were all packed up and that some
 might be lost should they be brought
 out, and that the men might object on
 the ground of bad weather."
 "I assured him that the city would be
 willing to make good the loss of any
 uniforms, and that we would also be
 willing to stand the expense of special
 trains to bring the regiments from a
 radius of 15 miles."
 The committee, as a whole, were
 greatly annoyed over the refusal on the
 part of General Cotton, and may bring
 the matter before the minister of mil-
 itary.

Blames the Officers.
 "The trouble is not with the privates
 but with some of the officers. As a
 matter of fact, many of the men will
 be as greatly disappointed as our-
 selves," said Ald. Maguire, who was
 about to say more when the mayor sug-
 gested getting troops from outside.
 On arrival of the train at North Tor-
 onto the duke will be escorted to the
 city hall, which will be decorated in
 purple and gold, with a crown made
 with the flags of the British Empire.
 Weather permitting, addresses will be
 presented on the steps of the hall. His
 Royal Highness will dine at the govern-
 ment house that evening, and the fol-
 lowing day will visit a number of the
 educational institutions, and in the
 night a civic reception will be held at 9
 o'clock. Ald. Maguire, Maguire and
 Graham will prepare the city's address,
 which will be in book form.

**ROAD SLID INTO THE
 LAKE MANY YEARS AGO**
 Novel Claim to Prevent Chatham
 Man Drilling For Oil and Gas
 Under Waters of Lake Erie.

CHATHAM, Ont., Nov. 9.—(Special).
 Alex. Chaplin, who secured leases
 from the government to drill for oil
 and gas under the waters of Lake
 Erie, no sooner commenced the sink-
 ing of his first well than an injunction
 was issued against him by John Carr,
 owner of the farm opposite it, and by
 the Volcanic Oil and Gas Co., who
 lease from Carr. The Volcanic Com-
 pany is an oil trust that practically
 now controls the Tibury field.
 The plaintiff's claim that Chaplin is
 trespassing on Carr's property and
 make a novel plea to prove their
 claim. They assert that the southern
 boundary of Carr's lot is several rods
 out in the lake and the crown patent
 to Carr's predecessor in the title
 granted land to the northwest limit of
 the old Talbot-road, laid out about a
 century ago.
 The original Talbot-road has long
 since washed into the lake, along with
 several rods of the original township
 lot, but Carr claims that this does not
 affect his boundary line.
 As all the other farmers along the
 lake shore are in a similar position
 Chaplin binds himself in a peculiar
 position, and until the courts settle
 the farmer's rights in the matter his
 scheme to drill under the waters of
 Lake Erie will have to be abandoned.

GOVERNMENT TO DEVELOP THE PORT OF MONTREAL

Work Will Be National in Its Character and Results, Says Hon. J. D. Hazen.

MONTREAL, Nov. 9.—The first big Conservative meeting to take place in this city occurred to-night in the Monument National, when the officers of the old Conservative clubs which have been organized in Maisonneuve division were formally installed and the scheme for erecting a monument to the great Canadian statesman, Sir George Etienne Cartier, officially launched.

The gathering was very well attended and the large attendance greatly pleased E. W. Villeneuve, defeated Conservative candidate in Neuveville, who did not drop politics with enthusiasm but has started to work enthusiastically to bring Maisonneuve into the list of Conservative gains at the next election. Thru his efforts the two ministers were present at the meeting: Hon. C. J. Doherty and J. D. Hazen. The minister of Justice spoke very briefly, as he had to hurry away to attend a banquet in his honor given by the St. Anne's Young Men's Society.

Hon. J. D. Hazen devoted most of his address to a discussion of the future of the port of Montreal, promising that the government would see that it was developed to its fullest extent, as work of such a nature was not local, but national in its character and results.

A committee was chosen to carry on the work of collecting funds for the Cartier monument. Sir Charles Tupper, who was connected so intimately with Cartier, will be asked to be honorary patron. It is hoped that the monument will be erected by 1914 in a commanding position on the mountain.

UNIVERSITY SETTLEMENT CAMPAIGN. The total amount received to date in the student campaign to raise \$2000 for the university settlement in the poorer districts of the city is \$1017.50.

W. H. Price May Run. W. H. Price, president of the Borden City and High Park Ratepayers' Association, and a prominent member of Ward Six Liberal Association, is being urged by ratepayers in the north and northwest part of Ward 6 to be a candidate for alderman in the coming municipal election. He has the matter under consideration.

Irregular Price Changes in Porcupine Issues, With Signs of Strength and Weakness—Bar Silver Higher.

World Office, Thursday Evening, Nov. 8.

Further irregular price changes in the Porcupine issues marked a rather apathetic session of the local mining exchanges to-day. Trading was more restricted than usual in the general favorites, and the undertone was more uncertain than anything else, indications of both strength and weakness being evidenced.

The market early in the day did not seem anxious to back up in the face of the resounding movement which was under way, and in the opening dealings prices for some issues advanced to new heights. A turn for the better occurred before long, however, and, following this, the market moved along in a dull manner, with the action of prices variable.

Hollinger Hits the Bumps.

There was a sharp reactionary movement in Hollinger stock this morning, but the only material indication of weakness in the list of either the high or low priced issues. The selling was attributed to a new rate by Dome Ex. which was gunning for some stock and the vulnerability of the security was demonstrated by the manner in which the market was retracted under the rather light selling.

The loss incurred by Hollinger run into 40 points, and was shown in the closing call, when the shares were on offer at \$10.13, with the best bid eight points below that quotation. This is the lowest figure reached since the first week in September.

An early break in values characterized the lowest issue of the day, but this did not occasion much comment, as the losses were made up in numerous instances. Dome Extension sagged off to 72 1/2, and then recovered a full point of the decline; Crown Chartered touched 45, to turn strong on the decline, excellent buying controlling into effect and quickly raising the price again.

Vipond a Strong Spot.

The strong feature of the day was Vipond, which advanced to 47 3/4 under a sustained buying demand, possibly engendered by the renewed rumor that inside interests were accumulating the stock.

The weak spot in the cheaper issues was Swastika, which fell lower than that on the closing call, when the shares were put on offer at 27 3/4. A continuation of the liquidation, however, was the result of a firm holdover was the only reason assigned for the weakness.

There was nothing particularly noteworthy in the Cobalts, which advanced apathetically at about unchanged prices.

The sharp advance in bar silver did not seem to have influenced any of the stocks, but the days when such a factor would have inspired the bulls with vivacity having long since passed into oblivion.

NIPISING IN OCTOBER.

During the month of October the Nipissing Mining Company mined ore of an estimated value of \$226,823, and shipped ore of an estimated value of \$25,252.

The development at vein 73 is reported as continuing favorable. The vein has a width of 20 to 250 inches, and shipped during the month, the high-grade mill produced 397,878 ounces, 118 tons of refined silver, having a gross value of \$212,220.

GOLD IN ALBERTA.

The first gold to be found in Alberta has been discovered, according to recent western exchanges, at Red Deer River, 35 miles east of Red Deer. Eighteen mining gold claims 30 x 100 feet have been filed at the Dominion Lands office at Red Deer. The vein is owned by Messrs. Stephens of Calgary and Corbit, Hoag and Adams of Edmonton at a cost of \$30.

The find is located in what was once an old bed of the Red Deer River.

BIG MEN IN PORCUPINE.

FORCUPINE, Nov. 7.—In the private car, "Pennsylvania," Joseph G. Rodgers, general superintendent of the Pennsylvania railroad, P. D. Optiva and B. Lloyd are spending the week in the camp. Mr. Rodgers would not disclose the object of his visit, saying that he had nothing whatever to give out for publication.

NEW VEIN IN LA ROSE.

COBALT, Nov. 9.—A new strike has been made on the Fisher-Epplet property, owned by the LaRose-Johnson interests. The vein shows native silver. It being the first to be found on the property and in that section. The company will sink a shaft on the showing immediately.

BIG MINING DEAL.

Dixie Claims in Deloro Reported to Have Changed Hands.

COBALT, Nov. 8.—The Newman-Mancha-Johnson claims in southeast Deloro, in the Porcupine district, known as the Dixie syndicate, have been disposed of by the present owners to a strong syndicate of Boston, Mass., and Toronto capitalists. These will immediately form a mining company with a capital of \$2,000,000, of which a large proportion of the stock will be retained in the treasury and only enough sold to insure the future development of the claims.

The purchasing price is said to be in excess of \$10,000 and the deal was let by Raymond Mancha of Hattbury, one of the owners of the property. A substantial sum was sold down on the deal and the entire property is to be paid off in 15 months time.

The new company will start work shortly and endeavor to accomplish as much surface work as possible before the winter sets in, and locate a suitable place for the sinking of a shaft.

SHARP ADVANCE IN BAR SILVER PRICES

Influence of Chinese Rebellion on Market for White Metal Readily Apparent.

A further sharp advance in bar silver prices yesterday came as a climax to a steady improvement in the market for the metal since the commencement of the revolution in China.

In London the price advanced 11-16 above the quotation on Wednesday, while in New York the price was moved up to 55 1/2-3, a gain of 1 1/2-2 for the day. Mexican dollars were also higher at 46 1-2 cents, an advance of 2 1-2.

Concerning the silver situation report that in consequence of the rebellion in China there has been a demand for currency, and Hongkong has been almost denuded of British dollars. To supply this demand silver has been bought here and in India, and in addition, stocks lying in London have been drawn on freely for shipment to the east this week, the total being expected to take upwards of \$250,000.

The Hongkong exchange is very firm and considerably above the parity of silver; \$100,000 of British dollars has been sent from Bombay to Hongkong. Partly as a result of this demand for China and partly owing to the belief in certain quarters that the Indian Government may have to come into the market before long, considerable purchases have been made for India, but many of these heavy buyers of speculative character, while speculators have shown some disposition to support the market.

With two such elements of uncertainty as the rebellion in China and the effect it will really have on the price of silver, and the possibility of the Indian Government coming into the market before the end of the year, the immediate future of silver must be regarded as very uncertain.

OFF TO THE GOLD CAMP

Another Enthusiastic Party Leaves to Look Over Porcupine.

That Porcupine is fast coming to the front in no uncertain way is evidenced by the numerous parties of excursionists which are being run to the camp. Another party of would-be enthusiasts left Toronto on Wednesday night for the gold district, this time under the auspices of Messrs. Warren, Goswami & Co. It included brokerage interests, mining brokers, millwrights and engineers, and a number of party men. Among the party were the following: James E. Durand, Dr. C. B. Barber, John A. Burgess, Grant Burgess, John H. Henley, and C. Overland of Boston, Mass.; H. R. Kohn, Victor Maps and E. A. McQuade of New York; Mr. Applegate of Toronto; Mr. Moore of Boston, Mass.; M. J. O'Shaughnessy of New York; Norman H. Perrin, John P. Heffernan, L. H. Henley, and Y. Lafche of Montreal; Mr. Playfair and Mr. Turner of Playfair, Martens & Co. of St. Louis; Mr. Sutherland of C. P. Sutherland, Ltd., and Edward Crony of Edward Crony & Co., all of Toronto.

MAKES RECORD TIME

Dome Extension Shaft Work Being Pushed Rapidly.

FORCUPINE, Nov. 9.—The main shaft on the Dome Extension is now down 170 feet, and the best ore is being struck. In another ten days, at the rate it is going down, it will reach the 300 foot level, when a cross-cut will be run to cut the adit, which is ten feet wide and carries ore in ten high values, considering its width.

It is expected that under the capable superintendence of Capt. Anchor the Dome Extension will soon be blocking out ore on a large scale, the bringing into sight of the vein in this vein is what made the Dome so valuable, and it is now selling more than 200 per cent above the par value of the property. This same record will no doubt be made by Dome Extension, as it will be able to block out ore in large quantities in the near future.

AT THE SWASTIKA

Main Shaft at 200 Foot Level—Vein Ten Feet Wide.

The news was received yesterday that the two cages in the three-compartments shaft on the Swastika were working in the ore down to the 200 foot level. The main shaft reached this level two weeks ago and is now being set down to the 300 foot level.

At the 200 foot level the vein is ten feet wide and carries ore in ten high values, considering its width. It is expected that under the capable superintendence of Capt. Anchor the Dome Extension will soon be blocking out ore on a large scale, the bringing into sight of the vein in this vein is what made the Dome so valuable, and it is now selling more than 200 per cent above the par value of the property. This same record will no doubt be made by Dome Extension, as it will be able to block out ore in large quantities in the near future.

Fashion in Names.

A reaction is taking place from the Marjories and Gladyses and Irenes of the last twenty or thirty years. Nowadays as often as not such grand names as these are the peculiar property of the servants' hall, while the gold old-fashioned names of Miss August's days are returning to favor.

The King is a lesser name, but by the way, set a good example in this respect.—The Gentlewoman.

NEW JUDICIAL DISTRICT AS POLITICAL CAPITAL

Resentment of North Bay Will Be Used by Nipissing Liberals Against Whitney Candidate.

NORTH BAY, Nov. 9.—(Special)—Robert Rankin of North Bay was the candidate for the Liberal constituency here to-day to contest the constituency of East Nipissing for the legislature. Other candidates for the constituency are Dr. G. A. McCool, G. A. McCaughy, J. B. A. Pigeon, Harry Maroon, J. H. McCurry, Dr. Edward Thomas Wallace and Dr. G. W. Smith, but all retired in favor of Mr. Rankin.

The Liberal candidate has been a resident of North Bay for 25 years, coming here from Scotland. He is a prominent merchant and is regarded as a strong candidate. He has served in the militia for many years and was twice elected mayor of the town by acclamation.

Speeches were made by the nominees and resolutions were adopted expressing confidence in Leader Rowell, the Liberal platform and Sir Wilfrid Laurier.

A prominent factor in the campaign will probably centre in the resentment felt against the Whitney government for depriving North Bay of its municipal government in the Rue de Vaugrand when they looked upon the piled up mounds of refuse as arranged so neatly in the red draped chapel beneath the great jet black crown of thorns. Much of the beautiful garden of the Carmel Convent still remains, and the building itself has been altered. Its picturesque facade looks upon the pleasant orchard where apples and pears are ripening in the sun and where white and yellow water lilies grow freely in the small circular pool. Paris correspondence London Evening Standard.

Shifted Positions.

"You are not making speeches now" said the admiring constituent. "No," replied Senator Sorghum; "there are so many people out on my way who want to talk that the man who is likely to become popular is the one who is willing to be an audience."—Washington Star.

PUBLIC NOTICE

Widening of Crawford Street

Public notice is hereby given that the Municipal Council of the Corporation of the City of Toronto propose after the expiration of one month from the date of this notice, to pass a by-law to widen Crawford Street, in the City of Toronto, by setting aside certain lands at the north west corner of Crawford Street and College Street, and for part of College Street.

The said by-law and plan showing the land to be affected may be seen at my office at the City Hall, City of Toronto, on or after the 10th day of October, 1917.

WEST LAND REGULATIONS.

A NEW version of the rules issued by a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta, even if the land is already owned by the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made and obtained on certain conditions, by father, mother, son, daughter, brother or sister of the landowner.

Duties—Six month residence upon the land, at least 12 acres, and for three years. A homesteader may live within nine miles of his homestead on a farm of at least 40 acres, and be occupied by him or by his father, mother, brother or sister of the landowner. In certain districts a homesteader to good standing may pre-empt a quarter-section of land, 40 acres, at a price of \$10.00 per acre. Duties—Must reside upon the homestead for six years from date of homestead entry (including the time required to secure a patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead rights, and cannot obtain a pre-emption may enter for a purchase homestead in any section of the Dominion. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$100.00.

Deputy of the Minister of the Interior, R. S.—Unauthorized publication of this advertisement will not be paid for.

MEANINGLESS HYMNS.

Anyone who turns over the leaves of the average hymn book must agree that there are too many vague and meaningless verses set to music that are about as destitute of merit as the words themselves and often hardly a single remove from ragtime. Congregational hymn singing has declined in many churches, and the praise part of the service is becoming little more than a brilliant exercise for the choir, in which the congregation had to do was to recite the Lord's Prayer and the creed and join in the doxology. It is a matter for regret that in many denominations the people should have an opportunity to "lift their voices," even if it should involve the sacrifice of a few shoddy selections by the choir. There is nothing that warms up an audience like good congregational singing. We believe that more souls have been gathered to the fold by the power of sacred song than most pastors seem to be aware of.—Christian Herald.

AN 80 Mile Precipice.

Capt. C. G. Rawling, a member of the British expedition that recently explored Dutch New Guinea, describes Carmichael as the greatest unbroken precipice in the world. It runs, he says for a distance of sixty miles from Mount Carstensz westward to the Charles Louis Mountains. Its greatest sheer height is at Mount Leonard Darwin.

The explorers were never in a position to measure with the theodolite a sheer height of this immense precipice exceeding 6000 feet, but from many views obtained it is evident that it was climbing Capt. Rawling has no hesitation in stating that the greatest perpendicular height is not less than 10,500 feet or almost exactly two miles.—Youth's Companion.

SIMPSON

We've Picked These Overcoats to Win To-morrow

Just two hundred of them, worth as high as \$22.00, will be offered 8 a. m. for **11.75**

No doubt about it, every man who wears one of these overcoats to-morrow will be a winner; he'll win the approbation of people who admire "good style" in men's clothes; and, besides, he'll win eight or ten dollars, just as surely as if he had it on the winning team, for there's a clear saving of that much money on many of these overcoats.

They're made of English and Scotch coatings, thick, soft materials, with a lofty finish, that gives warmth without weight. New browns and greys, as well as some black meltons, in Chesterfield style. One of the most distinguished collections of coats ever offered at a special price. Men who see them in the window to-day will make a point of getting here at 8 a.m.
