GENERAL STRIKE SPREADS IN GERMAN WAR INDUSTRIES

PRICE OF EGGS UNJUSTIFIABLY, SAVS O'CONNOR

Cost of Living Commissioner Gives Figures, Showing Unfair Accumulation. WILL ROT IF LEFT If Not Put on Market at a Reasonable Price, They Should Be Seized.

Ottawa, Jan. 30.—"Unjustifiable over-accumulation of eggs held at unjustifiable prices." This is the main conclusion reached by W. F. O'Connor, K.C., cost of living commissioner, in a special report on the food stocks held by packing and cold storage companies.

Some Big Increases. Mr. O'Connor gives in tabular form, month by month, the quantities of food-stuffs held in storage and the percentage of increase or decrease.

Commodity: Butter, increase 12 per cent; cheese, increase 70 per cent; eggs, increase 48 per cent; lard, increase 10 per cent; mutton, increase 8 per cent; pork (fresh and pickled), increase 8 per cent; bacon, ham and smoked meats, decrease 8 per cent; mutton and lamb, decrease 19 per cent; fish (all kinds), increase 14 per cent.

The cost of living commissioner does not maintain that the increased accumulation shown by his tables is a matter for adverse criticism, except in the case of one or two commodities, "Canada," Mr. O'Connor states, "has necessarily assumed a large proportion of the task of feeding the allies, and in order to maintain a larger outflow of food products, it is necessary to build up a larger supply. The cold storage of foodstuffs is necessary, as it has become proper, to enlarge the capacity of the dam. The relative decrease in holdings of bacon, ham and smoked meats shown in the table is explained by a decided falling off in exports of these commodities. They are being replaced by pork. Exports of pork in December, 1917, were as great as the total exports of that commodity for the last six months of 1916. Exports of beef are largely increasing. December shipments were light, but November's were several million pounds greater than the total beef exports for the last six months of 1916.

The cheese situation is anomalous. There was seventy per cent more cheese in storage on Jan. 1, 1918, than on the same date in 1917. December shipments had been very light, probably because of lack of shipping. There is an acute shortage of cheese in England. If shipping becomes available the excess held in Canada will be released for export, but in the judgment of the commissioner, a proportion of this food ought to be made available at the disposal of the Canadian public at a price which will induce its consumption within Canada.

No Scarcity of Eggs. O'Connor states that there were two million pounds less exported during the last five months of 1917 than during the equivalent period of 1916. Following his remarks on eggs Mr. O'Connor indicates the general whereabouts of certain egg stocks. He adds: "The allegation that there is a scarcity of eggs, justifying even a further advance in prices, comes most frequently from Montreal. The eggs held by the packing companies of the Province of Quebec who report to the commissioner were on Jan. 1 of last year 410,956 dozens. These same packing companies held on Jan. 1, 1918, no less than 1,026,613 dozens. Ontario figures are 312,961 dozens on Jan. 1, 1917, and 643,795 dozens on Jan. 1, 1918. The Manitoba holdings were on Jan. 1 of this year 1,119,222 dozens, and on Jan. 1 of 1917 922,330 dozens. These examples of a "scarcity" represent holdings of 62 per cent, 100 per cent and 192 per cent, respectively, in addition to the equivalent of the full quantities of these egg stocks as of Jan. 1, 1917. "I can give you the names and locations of every company which holds these stocks, but I trust that this statement without anything more is sufficient to dispel the theory of an egg shortage in Canada, and to lead to an immediate unloading at reasonable prices of these stocks; otherwise they should be seized and sold before they rot, because the time is rapidly approaching when, according to the course of nature, notwithstanding science, eggs stored in April, May, June, July and August, as most but carry into March as fit human food."

WILL CONTROL ALL WHEAT IN GOVERNMENT ELEVATORS

Board of Grain Supervisors Issues Drastic Order Giving Power to Export Company to Hold and Distribute.

Winnipeg, Jan. 30.—In a new and drastic order, issued this afternoon the board of grain supervisors of Canada announced that in future it will control all wheat in government terminal elevators at Port Arthur and Fort William or that shall be received at these elevators during the period of closed navigation. All grades upon which prices have been fixed. All of this grain will be held for the account of the Wheat Export Company.

SHIP CONTROL BOARD FOR ATLANTIC TRAFFIC

Committee at Washington Will Save Million Tons of Shipping in Ocean Transport By Using Southern Ports More.

Washington, Jan. 30.—Centralized control of transatlantic shipping was established today with the creation of a ship control committee to have supreme charge of the operation of all ships—American, allied and neutral—entering and leaving American ports. The committee was named by representatives of the shipping board, the war and navy departments, the British general of admirals, the director-general of railroads, the British Government and shipowners, who met to devise some plan for speeding up the movement of supplies to Europe. It comprises E. S. Franklin, of the International Mercantile Marine, chairman; H. H. Raymond, head of the Clyde and Malloy Lines, and recently made shipping controller at New York; and Sir Cunnoth Guthrie, director of British shipping in this country.

MAY SHUT DOWN FOR LACK OF FUEL

Industries in Large Section of the United States Are in Bad Shape.

MORE SNOW PROMISED

Washington, Jan. 30.—Large sections of the east face a coal famine within the next few days, as a result of further hampering of railroad transport by today's snow and ice and fuel administration.

WARSAW WORKERS RESIST GERMANS

Poles Declare General Strike to Protest Against Germanized Country.

Petrograd, Jan. 30.—The semi-official news agency issues the following: "The German foreign secretary, Dr. von Kuehlmann, informed the Polish premier, J. Kucharski, that it was impossible to grant his request to represent Poland at the Brest-Litovsk negotiations, as the Russian delegation had not recognized the independence of Poland."

ALLIED AVIATORS CARRY OUT MANY BOMBINGS IN MACEDONIA

Paris, Jan. 30.—A French official communication says: "Eastern theatre, Jan. 29: Artillery actions occurred at the Cerna band and north of Monastir. The allied aviators were very active, carrying out numerous bombardments north of Monastir, in the Vardar valley and in the region of Lake Doiran. One enemy machine was brought down."

HYDRO POWER CURTAGEMENT SOON AT END

Only Two Weeks More of Shortage Promised by Sir Adam Beck.

EXECUTIVE MEETING Resolution Passed to Have Sir Adam Made Provincial Power Controller.

"I expect that within the next two weeks we will be able to dispense with the 25 per cent curtailment in the power supply of the province," promised Sir Adam Beck, speaking at the meeting of the executive of the Ontario Municipal Electric Association yesterday afternoon.

Up to the Municipalities. The following resolution was adopted unanimously by the meeting: "Whereas the Ontario Government some time ago appointed a power controller with full power to deal with the surplus water of the Niagara River, and among other powers, to

MACDONALD AND BRYCE MANAGEMENT'S CHOICE

These Two Names Will Be Sent to Board of Education Recommended as Inspectors.

FOREIGN ELEMENT AGAINST CLOSING

Mass Meeting of Grocers, Butchers and Fruiters Endorse Seven o'Clock.

ONLY TWO OBJECTORS

Resolution Passed Recommending Passing of Bylaw for Early Closing.

Shall the foreign element rule the grocery business in Toronto, or the English-speaking race, was the great question that arose at a general meeting of the butchers, fruiterers and grocers' section of the Retail Merchants' Association yesterday afternoon.

GRAIN WAREHOUSES OF VIENNA ON FIRE

Chief Austrian Flour Mill Also Burned by Social Revolutionaries.

London, Jan. 30.—The grain warehouses of the City of Vienna are afire and enormous damage has been caused, according to a Vienna despatch forwarded from Amsterdam by the Exchange Telegraph. Revolutionaries are suspected of having started the fire.

DINEEN'S SPECIAL FUR SALE

Dineen Company announces a special stock reduction sale for the day beginning this morning. Exceptional values are offering in furs for ladies, misses, children and men. The women's wear department presents a splendid array of bargains. Dineen's, 140 Spadina street.

German Workers Demand Peace With No Annexations and Indemnities-- Council of Workmen Organized--Hindenburg Orders Return to Work.

London, Jan. 31.—A despatch to the Daily Express from Geneva reports that there have been clashes between soldiers and strikers in the suburbs of Berlin in which lives were lost. The despatch adds that the troops in some instances refused to fire on strikers.

London, Jan. 30.—Nearly 500,000 persons are already on strike in Berlin and the number is being added to hourly. The Berlin correspondent of The Politiken of Copenhagen reports that the strikers have formed a workers' council of 500 with an "action commission" of ten men and women, including Hugo Haase, the independent Socialist leader, and Philipp Scheidemann, the majority Socialist leader.

A Zurich despatch says: The Socialist paper Vorwaerts announces that the Berlin strikers have now become more numerous and threatening. They have addressed to the government an ultimatum, of which the following are the principal demands:

1. An accelerated conclusion of a general peace without indemnities or annexations.

2. Participation of workmen's delegates of all the countries in the peace negotiations.

3. Amelioration of the food situation by better distribution.

4. Immediate abolition of the state of siege and restoration of the right of public meeting, suspended by the military authorities.

5. Abolition of militarization of war factories.

6. Immediate release of all political prisoners.

7. Fundamental democratization of state institutions.

8. The institution of equal suffrage in the Reichstag.

An Amsterdam despatch says: The Vossische Zeitung (Berlin), of Tuesday's date, reports that all the workers in the Kiel district, including the government yards, went on strike on Monday and that all bakers' shops have been guarded since Friday by troops and armed police.

At Hamburg, says the paper, all the workmen in the main works struck Monday morning and, in procession thru the main streets to the trades union building, where they held a stormy meeting. All the demands were for better food supplies. There were no disturbances.

An Essen despatch to the Vossische Zeitung says that on Monday there were 4000 strikers in the Rhenish Westphalia mines, where hundreds of thousands are employed. Nine mines are affected.

The Berlin correspondent of the Telegraph sends the following: "Not a sign of the strike can be observed in the Berlin streets. The general impression is that it is a so-called 'holiday' strike, which, it is said, will be limited to three days."

Began With Workmen. The movement originated with the workmen themselves, but it was resolved that both sections of the Social-Democratic should co-operate as it was no time for the issuance of contradictory orders. The railway men attempted to hold a meeting yesterday to consider the question of a strike, but they were dispersed by the police. Many arrests were made.

An Amsterdam despatch says: The Vossische Zeitung reports that the strikers in Berlin to cease their movement immediately. He told them, according to this newspaper, that they were being misled, adding: "Every hour you lose means the weakening of Germany's defense. You are committing a crime against our army and an act of cowardice against your brethren in the front trenches."

Papers Suspended. A semi-official despatch from Berlin, forwarded by Reuter's Amsterdam correspondent, says that there is no news of a serious strike movement in any part of Germany except in Berlin. In the Ruhr district particularly work is reported to be in full swing in all factories.

DEFEAT AMENDMENT

House of Commons Rejects Proportional Representation in Elections.

London, Jan. 30.—The house of commons this evening by a vote of 223 to 113 rejected the amendment of the house of lords to the representation of the people bill, establishing the principle of proportional representation in parliamentary elections. The government took no action on either side, but left the house a free hand to vote on the amendment. The house of commons had rejected the principle of proportional representation.

EIGHT HUNDRED DIE ON TWO STEAMERS

British Soldiers Sing as Torpedoed Transport Aragon Goes Down.

ESCORT ALSO SUNK

Eight Nurses Are Numbered Among Missing - Mediterranean Disaster.

London, Jan. 30.—The transport and the fleet auxiliary which were sunk late last month in the Mediterranean, as announced in the house of commons last week, were the Aragon and the Osmanieh.

An official statement concerning the sinking of the vessels says: "The transport Aragon, Captain Francis Bateman commanding, was torpedoed and sunk in the eastern Mediterranean on December 28. A British destroyer while picking up survivors from the Aragon was herself torpedoed and sunk, as reported Jan. 7.

"The mercantile fleet auxiliary Osmanieh, Lieutenant Commander D. R. Mason commanding, struck a mine and sank approximately in the same locality Dec. 31. These are the vessels referred to in the house of commons on January 23.

"The casualties on the Aragon were: Officers, four; crew, 15; military officers, 10; soldiers, 681.

"On the Osmanieh: Officers, 3; crew, 21; military officers, one; soldiers, 166; female nurses, eight.

"Both ships were casualties."

"The nurse who was on board the Aragon when the vessel was torpedoed writes: "When the stern was down in the water and the bows were in the air the troops on board were singing."

"The nurse, with other sisters, previously had left the doomed vessel in a lifeboat, which succeeded in picking up many of the men who had escaped from the Aragon on life rafts. Later, according to this nurse, the destroyer which was escorting the Aragon was torpedoed 'right amidships.'"

"She went clean in half," said the nurse. "She was close by and had picked up hundreds of 'Tommys.' They had to go down again, and that, to my mind, was the worst of it."

"According to the narrative of the nurse the Aragon was torpedoed soon after leaving Queenstown, and the destroyers as escorts. The day following the landing of the survivors the nurse wrote another ship with 40 nurses on board was sunk at exactly the same place, sinking in five minutes.

AIRPLANES COLLIDE

Two Aviators Killed at Training Camp in Texas.

Houston, Texas, Jan. 30.—Edwin D. James of Toledo, Ohio, and James Mather of Paw Paw, Mich., second lieutenants, were killed late today when their planes, which they were flying collided head-on and fell from a height of 2000 feet.

The machines were locked together when they struck, and the bodies of the two men were mangled. The machines were traveling at a high rate of speed at the time of the collision, according to reports of observers.

British Again Bomb Zebrugga

In Unusually Sharp Attack

Amsterdam, Jan. 30.—An aerial attack of unusual severity was made Tuesday afternoon at Zebrugga, the German submarine base in northern Belgium, according to The Telegraph's frontier correspondent.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

The Berlin workmen who are out on strike have served an ultimatum on the German Government. They demand, among other political reforms, the signing of peace on the terms of the armistice and no indemnities, the sending of all belligerent countries to the peace conference, and the abolition of military control and discipline in German workshouses. They said that they have set up a council of workmen on the Russian model. There are followers of the independent Socialist party, and they manifest Bolshevist tendencies.

The burning of the grain warehouses of Vienna as the result of the largest four mill in Kaiser-Eberhard, a Vienna suburb, mark the latest success in the campaign of sabotage in the central empires. Germany and Austria began this business by burning and blowing up American munition plants and by placing bombs in allied ships. Now the tables are turned. The vehicle employed for this purpose appears to be the international anarchist, with their agents in every part. At first these worked on the side of Germany; later they appear to be playing their own hand and working against Germany. The ascendancy of men of their cut at Petrograd may be fostering in them the ambition of universal empire. The tribulations of millions of dollars to the gift of William B. Thompson of New York to Trotsky, for propaganda in the central empires, are furnishing them with the sinews of class warfare.

Anarchists and extreme socialists have now a fertile field for their propaganda in Germany and Austria-Hungary owing to shortage of food, brought on in part by real scarcity and in part by large movements of troops, clogging the railway service and holding up supplies in transit. The most of the German workmen who are out on strike in important munition factories appear to have stopped work because they have not enough food. The German beer supply, moreover, is falling. Illicit distilling of ardent

CATHOLIC JOURNALIST AT COLUMBUS HALL

Rev. M. J. Wynn Traces Attitude of Church Towards Social and Religious Problems.

"The Church as the Guardian of Liberty," was the subject of an address given by Rev. M. J. Wynn, of New York, former editor of "America," an editor-in-chief of The Catholic Encyclopedia, at Columbus Hall last night before members of the Catholic Truth Society.

The speaker traced the attitude of the Catholic Church towards social and religious problems from the early ages of Christianity to the present. The lecture was illustrated by a number of views, among which Napoleon debating the closure of the seas to England with Pius VII, whose reply: "The seas must be free." Among those of modern times who stood for freedom were Pius IX and his successor, Leo XIII, whose encyclicals on order and socialism, delivered by the speaker, would be a fitting solution of problems that have disturbed the world for four centuries. Another among the late guardians of liberty thrown on the scene was the now world-renowned Cardinal Mercuri.

Rev. Wynn was introduced by Rev. Dean Harris, and the thanks of the audience to the lecturer were expressed by Mr. Justice Kelly. The lecture was under the auspices of the Catholic Truth Society, and Mr. James Murray, the president, appealed for a larger membership, as the society supplies missionaries in the different parts of the continent. Literature, for which funds are needed, among those present were Mr. Justice Lathford, Rev. L. Linehan, Rev. M. Clive and T. J. Ford.

WHEAT COLLECT TAX ON FLOUR MILLS

One and Half Cents a Bushel on All Western Wheat Ground.

Application of Fund Carrying Charges Shall Be Paid on Wheat Held in Store.

Winnipeg, Jan. 30.—New orders connected with grain regulations were today issued by the board of grain supervisors.

The first, No. 24, imposed upon all flour mills in Canada a tax of one and a half cents a bushel on all western wheat ground into flour or other wheat products.

The second order, No. 25, provides that all moneys collected under No. 24 shall be used in certain ways, and that the payment of carrying charges there shall be paid upon wheat held in store by flour mills of Canada carrying on business.

The public terminal elevators at Fort William, Port Arthur, Moose Jaw, Saskatoon, Calgary, Vancouver, etc., are to be operated by the Canadian Pacific Railway to restrict the shipment of wheat from certain points in the west, and No. 28, is to the effect that the commission have the authority at the rate of one-twentieth of a cent per bushel as provided in order No. 24 shall be paid upon wheat owned by certain elevators and stored at certain points.

The commission have the authority at the rate of one-twentieth of a cent per bushel as provided in order No. 24 shall be paid upon wheat owned by certain elevators and stored at certain points.

The "Blackstone," an Electric Washing and Wringing Machine We Highly Recommend, is Priced at \$80.00

Reliable, Simple, and Convenient in Operation, Economical on Current Consumption and All-Round Efficiency

First of all, the Blackstone possesses the advantageous feature of being able to wring one batch of clothes while a second lot is being washed in the tub. The power of both wringer and washer is controlled by two levers, placed at one side of tub, and the gearing of this machine is so constructed as to allow opening of the cover while in operation.

The cut gears of the Blackstone practically eliminate friction and noise, because they fit snugly one within another, and the machine runs silently and smoothly. Fine laces and heavy blankets are alike to the Blackstone, for the safety dasher is made with small shield on under side; this to prevent any possibility of catching or tearing while clothes are being washed. The tub is of sturdy, rigid build, made throughout from red cypress, one of the most reliable woods procurable for the construction of tubs. The drain placed at bottom of tub, near the side, is particularly convenient for instead of having to tilt the tub to empty, the drawing of a plug is all that's necessary.

The wringer is a dependable one, and being equipped with a lever release that takes pressure off the rollers when not in use, the rubber is somewhat preserved. A motor is the enclosed type and with ordinary care should last for years. A good length of electric cord is provided, fitted with plug that fits the ordinary electric light socket. Judging the Blackstone from the standpoint of reliability, convenience, economy and all-round efficiency, it's really one of the best we know of. Price \$80.00

The "Majestic" Electric Heater, \$10.00

A Majestic is one of the most convenient heaters one could have in office or store. The heater in the illustration radiates a dry, comfortable heat, and the cost of the upkeep is small. It occupies but little space, and is convenient to move wherever needed. The element of this heater is guaranteed for one year. Complete with cord and plug at \$10.00

TUNGSTEN BULBS in 10 and 15 watt sizes have the strong wire-drawn Tungsten filament. Special, each30

VERANDAH CEILING LIGHTS, in a black finish fitted with 6-inch frosted glass bulb globe. Complete (less bulb), each 1.05

Bathroom Electric Wall Brackets, nickel-plated finished, has a porcelain key socket and shade ring. Can be installed upright, or turn-down. Price, each 1.50

Frames for Photographs, Many Less Than Half-Price, \$2.00

In antique gilt or mahogany finish; in sizes 4 in. x 6 in., 5 in. x 7 in., 6 in. x 8 in., 7 in. x 9 in.; these are made to stand; some have swing frames. Today, each 2.00

Framed Pictures at 50c

Being sepia reproductions of famous pictures in a 1 1/2" brown wood frame. Among the many subjects are the "Countess Patoka," "Gleaners," "Dance of the Nymphs," "Boy With Rabbit," "The Doctor," and many others; size 7 x 9. Each50

Oxidized Silver Finished Frames, with push backs (made to stand), they are for post-card or cabinet size pictures. Special, each50

Silk Remnants! Silk Remnants!

A Big Clearance, Including Many Weaves and a Splendid Array of Colors, Yard, \$1.19

(For this item we cannot take 'phone or mail orders.)

DOESN'T EVERY WOMAN love a chance of buying a remnant of silk? There are so many uses to which she can put it, especially in these days of sleeveless jumpers and wide girdles. And in this very varied collection of short lengths she may find treasure trove. There are Crepe de Chine, Taffetas, Messaline, Satin de Chine, Fancy Silks, etc., in varying lengths, in widths ranging from 36 inches to 40 inches, and in a host of colors. Greatly reduced in price to, per yard 1.19

"Neonset" Floor Covering, 85c Yard

This comparatively new floor covering has a foundation of water-proof, tough, solid felt and a scientifically finished top facing that has demonstrated time and again in durability and appearance that it is the equivalent of the best printed linoleum. And added to this great recommendation it has these advantages: It lies flat on the floor without cracking; its edges do not curl, whether it is warm or cold, and is never affected by dampness. You will find designs that will cover almost every need in private home or office building. Block, tile and hardwood designs in great variety. 2 yards wide. Per square yard,85

Sturdy Tapestry Carpets 27" wide, for rooms, halls or stairs, in red, tan, or green, in floral, conventional or hardwood patterns. Many patterns with 27" stairs to match. Excellent value, yard 1.00

Heavy quality Wilton Squares, in large sizes, for good sized living-rooms or dining-rooms, marked at prices that save 1/4 and more of the usual price. Rich tan, brown and olive green in a handsome kazak, Oriental; green ground, with red, dark blue and brown. Fawn ground all over in tan, terre and ecru, and other good styles. Sizes 11-3 x 12-0 and 11-3 x 13-6. Clearing at 48.00

Japanese Rice Straw Rugs in very artistic designs and colors are particularly suitable for use in kitchens. They are thick and

SING STABLES

Association held a
St. John's Parish
to protest against
removal of the old
nave, near Kingston
street. The board was
formed for the pur-
pose of considering the
granting of leave of
absence for extended
periods to men who
have been drafted
under the act, who
have either work of
national importance
in which it is in the
interests of production
that they be en-
dorsed, or who special
circumstances
show deserve leave of
absence on "com-
munitarian" grounds.

The Toronto board
consists of Lieut.-
Col. J. George, A.A.G.;
Lieut.-Col. E. S.
Johnson, A.D.M.S., and
Lieut.-Col. R. C.
Windegar. A feature
of the board's work
will be that it may
be able to extend leave
of absence to men who
have not them-
selves applied for ex-
emption but who
board consider are en-
titled to it because
of family obligations
and because of the
having brothers serving
overseas.

The first case heard
was that of Gun-
ner H. J. Clarke of the
1st Battalion, who
ought leave to work on
his father's farm at
Cayuga. The case was
adjudged on Jan. 29.
Gunner Olaf Tisdale,
70th Battery, Dec.
31, 1918, is being con-
sidered.

The J. T. Simpson,
2nd Battalion, 1st
Ontario Regiment, an
acetylene welder, was
given leave for six
months because of the
national importance.

Four Hundred Cases Disposed of Show They Are With Colors.

TO PRESENT MEDALS

Duke of Devonshire Will Decorate Major Mathieson February Sixth.

Civil and military authorities of the Toronto district have already cleared up the cases of 400 of the men who had been listed as Military Service Act defaulters. The 400 cases so far accounted for, it is stated, consisted of men who had enlisted with active service units in Toronto district and also in eastern and western Ontario before the sending out of the notices by the registrar to report to the colors, and of a certain number of real defaulters who had not conformed to the Military Service Act regulations and were either apprehended or voluntarily gave themselves up.

Major J. P. Oslar has been appointed military district post-master, Toronto Military District, and has already taken up his duties. He is a son of the late Major Oslar, who was killed in action during the Boer war, and is also a recipient of the Victoria Cross. Major Oslar has been with the British expeditionary force since 1914 and has been awarded the Military Cross for his gallant conduct in the Somme and in the Battle of Cambrai.

The Duke of Devonshire has signified his intention of honoring the Province of Ontario by attending the opening of the legislative assembly at Queen's Park on Feb. 5, and presenting a number of military decorations won by Ontario men on the following day. Major D. M. Mathieson, of Dufferin regiment, is the only one to personally receive the award, in all the other instances, the soldiers have been given in action and the decorations will be presented to them by the governor-general or their relatives.

Many British-Born. About 50 of the 71 recruits accepted for military service yesterday by the Toronto mobilization centre were British-born, enlisted in Chicago and sent to Toronto district for enrollment with the overseas infantry battalions. They arrived from the United States yesterday noon. The total enlistments for the day were as follows: Central Ontario Regiment, 68; Canadian Engineers, Railway Construction Corps and Non-Commissioned Officers' Training Company, each 4; Artillery Brigade, 1.

With the next few days Toronto military district will send two more drafts to training grounds further east. One will go from Exhibition Camp, Toronto. It will consist of six officers and 300 infantrymen of the 2nd Battalion, 1st Central Ontario Regiment. The other, from Hamilton, is to consist of three officers and 247 members of the Railway Construction Training Corps.

Montreal Board of Trade

Elects Members of Council

Montreal, Jan. 30.—In addition to the chief officer, the Montreal Board of Trade elected by acclamation, name of President Wm. A. Black, Vice-Presidents John Baillies and Arthur H. Campbell, and Treasurer W. A. Coates, the members of the council were elected today as follows: Wm. M. Birks, Arthur H. Campbell, James Cleghorn, Wm. Findlay, A. W. Gilford, Albert E. Holt, Albert Hudson, Arthur Lyman, James W. Pyke, Wm. Rutherford, Lorne C. Webster and Thomas Williams.

President Black in his inaugural address said: "Few of us realize the wonderful resources and possibilities of the Canadian west. We ought to take a greater interest in its development, and not leave it entirely in the hands of politicians to work out its future. A keener and wider public interest is essential if we are to avoid the mistakes that must otherwise result."

President Black recently returned to Montreal, his home city, after thirty years' pioneering in the west.

Army of Ten Thousand Men

Accompanies Chinese President

Peking, Jan. 30.—The departure southward tonight of Acting-President Feng-Kwo Chang created uneasiness in government circles. The ostensible purpose of the visit of the acting president is a conference with the government generals concerning the military situation.

The presidential special carried a large number of soldiers and machine guns, and it is reported that other trains following it took ten thousand men.

HYDRO SHORTAGE SOON WILL END

(Continued from Page One)

see that there was an equitable and fair distribution between the various power companies.

And, whereas the Province of Ontario is vitally affected by reason of having guaranteed and advanced large sums of money for the construction of works for the distribution of electric energy, and that the province for the municipalities should have a voice in the operation and control of these matters of a public character.

Therefore it is resolved that in accordance with the British North America Act, the operation and control of such power companies should be under the joint regulation and control of the Dominion and provincial governments, and that in addition to Sir Henry Drayton, as power controller and representative of the Dominion Government, we urge that the provincial government be given a controller in the person of Sir Adam Beck, who will in the operation of the matters affecting the electric control, development and distribution of these power measures.

Power Expert Detailed.

In opening the meeting Mayor Church congratulated Sir Adam Beck on his work for the provincial hydro. He stated that the province has been called for the purpose of laying down a general policy on power conservation. "The question is whether or not there is enough power for the Niagara district," said the mayor. "In Toronto alone there are 52,000 customers of the Hydro. Whenever there is a breakdown very many of the men in the district," said the mayor. "In Toronto alone there are 52,000 customers of the Hydro. Whenever there is a breakdown very many of the men in the district," said the mayor.

Board of Trade Suggests Committees.

Various Members Designated to Serve on Various Bodies Chosen From Organization.

The following is a list of suggested committees for the board of trade for 1918:

Civic committee: K. J. Dunstan, chairman; J. H. Gundy, vice-chairman; J. H. Adams, R. J. Copeland, E. P. Crossland, John Firstbrook, E. H. Gunney, G. A. Howell, G. W. Howland, John G. Keet, T. W. Leairie, T. H. Mason, Geo. Oakley, Jun. J. C. Scott, J. O. Watt, C. H. Wilson and the president.

Educational committee: J. D. Allan, chairman; Chas. Marriott, vice-chairman; T. D. Bailey, T. Bradshaw, Wilson Fenton, Edmund Gunn, Bryan Fontice, Thos. Roden, A. F. Sprott, H. G. Tarry, the president, John S. Sutcliffe, J. L. Thorne and the president.

Hamilton Took Big Contract.

"Hamilton is to blame for its own difficulties," said Sir Adam Beck. "The chairman of the Hamilton system is an actual making his own own set of imaginary grievances. He made a contract with the National Abrasive Company to supply them with a material which he has refused to guarantee to back up the order, and now he refuses to cut off this new customer. We are going to bring the matter to the attention of the court if necessary to win the contract."

Machines "Out of Repair."

"They have been ordered to use their generators to full capacity," continued Sir Adam, "but they will always have machines 'out of repair.' They don't operate them because they don't want to operate them. In my opinion Sir Henry Drayton should force them to operate to full capacity or take them over to be operated by the government. I think that some of these companies are not giving the sort of treatment the companies, despite their alleged patriotism, are giving to the Hydro consumers of the province."

Referring to the criticisms of the Chippewa work, Sir Adam stated that he expected to be in full operation by October, 1920. It will have a total capacity of 300,000 h.p., which would be increased to 500,000 h.p. when the commission was building a temporary plant at Niagara which would make available 50,000 h.p. by the fall of this year.

Operate All Railway Lines.

"I can promise the City of Toronto that when they take over their street railways, we will give them the power to operate all h.p. to operate it," said Sir Adam.

"Will you be able to supply us when we take over our line?" asked W. Ellis of Hamilton.

"We can operate every steam railway in Ontario by electricity if we are given the right power," he said.

"All we ask is that the government put the Drayton-Acworth report into effect."

Special committee re general membership meetings—H. G. Stanton, chairman; H. H. Mason, vice-chairman; J. H. Adams, G. W. Howland, E. H. Gunney, J. O. Watt, J. C. Scott, A. C. Hogg, F. S. Meares, F. M. Sloan, the president.

BATTLESHIP AGROUND.

Pre-dreadnought Was Engaged in Breaking Ice in Blocked Channel.

An Atlantic Port, Jan. 30.—While breaking ice in a channel near here today a battleship of the pre-dreadnought type went aground with ice and tonight still was fast. She was said to be resting easily, and officers expected to float her undamaged at the next high tide.

INDIANS CLAIM EXEMPTION.

Special to The Toronto World.

Brantford, Jan. 30.—Only the small number of 16 soldiers claimed exemption from military service by registering at the Six Nation Reserve. They will have until tomorrow night to complete the registrations.

The Safest Matches in the World Also the Cheapest are

EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but **EDDY'S MATCHES.**

THE E. B. EDDY COMPANY LIMITED HULL, CANADA

Black, P. W. Ellis and H. H. Couzens, Toronto.

It was decided to hold the annual meeting in conjunction with the Hydro Radial Union on February 12.

BOARD OF TRADE SUGGESTS COMMITTEES.

Various Members Designated to Serve on Various Bodies Chosen From Organization.

The following is a list of suggested committees for the board of trade for 1918:

Civic committee: K. J. Dunstan, chairman; J. H. Gundy, vice-chairman; J. H. Adams, R. J. Copeland, E. P. Crossland, John Firstbrook, E. H. Gunney, G. A. Howell, G. W. Howland, John G. Keet, T. W. Leairie, T. H. Mason, Geo. Oakley, Jun. J. C. Scott, J. O. Watt, C. H. Wilson and the president.

Educational committee: J. D. Allan, chairman; Chas. Marriott, vice-chairman; T. D. Bailey, T. Bradshaw, Wilson Fenton, Edmund Gunn, Bryan Fontice, Thos. Roden, A. F. Sprott, H. G. Tarry, the president, John S. Sutcliffe, J. L. Thorne and the president.

Foreign trade committee: J. W. Woods, chairman; B. E. Cronyn, vice-chairman; J. D. Allan, Hugh Blair, Geo. W. Booth, Lt.-Col. H. Brock, E. H. Brubacher, J. A. Catto, J. C. Douglas, R. L. Campbell, Edward Hay, A. O. Hogg, J. S. McLean, F. A. Prime, A. T. Reid, Geo. Ridout, C. O. Stillman, D. O. Wood and the president.

Good roads committee: L. H. Clarke, chairman; A. W. Smith, vice-chairman; J. A. O. Beardmore, Murray Brown, L. Campbell, Edward Hay, A. O. Hogg, J. S. McLean, F. A. Prime, A. T. Reid, Geo. Ridout, C. O. Stillman, D. O. Wood and the president.

House committee: Chas. McD. Hay, chairman; W. H. Alderson, Geo. Barry, J. W. Gibson, W. F. Gandy, G. W. Gundy, Arthur Hewitt, Chas. Marriott, Hugh Munro, J. J. O'Neill, J. W. Woods and the president.

Legislative committee: Lt.-Col. H. Brock, chairman; Hugh Blair, vice-chairman; Henry Barber, R. S. Cassels, W. F. Cockshutt, M. P.; E. W. Crawford, C. E. Peckover, E. G. Stant, Edward Hay, G. W. Howland, John G. Keet, A. C. McMaster, Bryan Pontifex, Jno. Turnbull, Frank Wise, C. W. Wood and the president.

Membership committee—C. D. Daniel, chairman; N. E. Bolton, vice-chairman; George Barron, J. W. Bundy, J. L. Campbell, R. J. Copeland, Robert S. Coryell, W. M. Douglas, W. H. Hall, A. E. Hatch, George W. Hamby, Charles McD. Hay, A. C. Hogg, W. H. Holdrege, Wm. Irvine, J. D. Johnston, H. G. Kelly, F. C. King, T. W. Leairie, E. C. Mack, J. T. Melady, W. E. Robertson, G. H. Muntz, A. G. Parker, W. E. Peace, H. Rooke, J. Leslie Wood, J. A. Scythes, H. G. Stanton, H. G. Tarry and the president.

Railway and transportation committee—Hugh Blair, chairman; Chas. Marriott, vice-chairman; J. D. Allan, W. E. Peace, H. Rooke, J. Leslie Wood, J. A. Scythes, H. G. Stanton, H. G. Tarry, the president, John S. Sutcliffe, J. L. Thorne, and the president.

Trade names committee—W. M. Douglas, chairman; W. J. Hetherington, L. H. Gundy, A. F. Sprott, D. O. Wood and the president.

Special committee re general membership meetings—H. G. Stanton, chairman; H. H. Mason, vice-chairman; J. H. Adams, G. W. Howland, E. H. Gunney, J. O. Watt, J. C. Scott, A. C. Hogg, F. S. Meares, F. M. Sloan, the president.

WILL MEET GOVERNMENT.

Ottawa, Jan. 30.—A delegation representing the manufacturers of newspaper paper is scheduled to meet the government tomorrow.

WELL-KNOWN CONTRACTOR DEAD.

Vancouver, Jan. 30.—T. F. Sinclair, a well-known contractor, died at his residence here today, aged 88 years. He built the New Westminster water works plant, constructed a section of the C.P.R. thru the mountains and engaged in many other important works.

SERVICE IS THEME OF DINNER SPEECH

Miss Margaret Davidson Addresses Canadian National Clay Products Association.

Other Good Talks Held at Sixteenth Annual Held at Prince George.

"To contribute as largely as possible to the food supply is a patriotic duty, an obligation of citizenship, service to the state and a work of humanity."

This was the message given by Miss Margaret Davidson, of the Technical School, at the sixteenth annual banquet of the Canadian National Clay Products Association in the Prince George Hotel last evening.

"Keep bees," she advised the audience. "Keep hens or pigs. Grow vegetables. Use only exportable foods as far as possible. The appeal to all women is, 'Save and substitute.' It is not much of a sacrifice for any of us to do without cream in our tea or coffee, or the luxury of our ice cream. At the present moment there is no more important body in the country than the women. We are the housewives. The whole world is watching the housewives of Canada. It has always been the occupation for which all women should fit themselves, but the one occupation perhaps of all others for which there has been the least preparation."

Women's Influence in National Development, and stated that woman would never go back again to her old state of dependence. Economic importance has been established during the strenuous times of the war. The next step, she said, would be her economic independence, which she would also share in the new order of things.

Young Horses Are Cleaning Up Due To Wrong System of Handicapping. W. S. Vosburg, Official of the New York Jockey Club, Points Out How the Present Scale Favors Two and Three-Year-Olds.

W. S. Vosburg, who as official handicapper of the Jockey Club has earned the distinction of being an able judge of the relative performances of thoroughbred horses, has raised his voice against the system of handicapping which governs the allocations in weight for age races.

Change the Custom. Until Luke Blackburn galloped away with the Grand Union prize at Saratoga in 1880, it had not been the custom to start three-year-olds against older horses, especially in handicaps.

Change the Custom. Until Luke Blackburn galloped away with the Grand Union prize at Saratoga in 1880, it had not been the custom to start three-year-olds against older horses, especially in handicaps.

That Son-in-Law of Pa's... THAT LEGACY IS STILL A LONG WAY OFF. BY G. H. Wellington. A cartoon strip with multiple panels showing a man and a woman in conversation about a legacy.

Notes. A meeting of the league will be held at the Hotel on Monday. Any application should be sent to the Provincial Secretary.

A MINK BAG.

Quite unusual, and therefore to be desired, is the fur bag, especially of such rich furriness as mink. Here is one made of eight or ten pelts and tails and is lined with heavy broadcloth gold satin.

Gardening and Poultry Raising For Amateurs

Early in February, as the days begin to lengthen, plants in the conservatory and window garden begin to grow and flower. Many of these plants can be propagated from the strong, young shoots which will afford material for making cuttings.

A GOOD EGG YIELD.
The exact number of eggs which a hen will lay in a year varies greatly with the breed, and with different individuals in the same breed, and it cannot be said that one breed is always a better egg producer than another.

Early cabbages, lettuce and radishes may be sown as soon as hot beds are ready.

December, January and February being the abnormal period during which eggs are produced, the breeder is fortunate if he gets 50 per cent. egg yield. During the spring, which is the normal period of production, the average will go higher.

Very early asparagus can be obtained by digging trenches three feet deep between the rows and filling them with fermenting manure.

WHEN IT PAYS TO GET EGGS.
The following table of average monthly prices will give one a clear proof of the most profitable time for egg production:

Month	Cents
January	58-65
February	57-58
March	45-48
April	38-42
May	38-41
June	38-39
July	32-33
August	30-30
September	37-38
October	46-51
November	55-55
December	65-70

Field corn is very scarce all over the country. Those contemplating planting corn should obtain their seed immediately.

It is too late to repair the damage thru late breeding last year, but in 1918 every farmer should have his chickens out as early as his housing conditions will permit.

Cells where fruit and vegetables are stored should be well ventilated by opening the doors and windows on pleasant days. Rot develops quickly where the ventilation is poor.

EGG-BOUND PULLETS.
When pullets first begin laying it is well to watch for any that may be egg-bound. If a pullet goes on the nest repeatedly without laying, an examination should be made.

SPLENDID ENTERTAINMENT AT COBOURG.

OPEN-AIR SCHOOL WILL HAVE TO WAIT

Dr. Noble's Motion to Relieve Winchester School Lost by Tie.

SUPPLIES ESTIMATES

Figures for Two Forest Schools and Orde Open-Air Classes.

The motion introduced by Trustee Dr. Noble and sent to the chief inspector report on that a sum be placed in the 1918 estimates sufficient to build an open-air classroom at Winchester Col. School, according to plans and specifications prepared by the superintendent of buildings some years ago, in order to relieve the congestion in that school, was put to a vote and lost by a tie at the management committee meeting yesterday.

A communication was received asking that Oakwood Collegiate Cadet Corps be given 100 additional cadet uniforms and that North Toronto High School be given an additional 20. In view of the fact that the cadet corps have been doing very good work the request was granted. This will be an expenditure of \$1200.

To instruct Consumptives. Dr. James L. Hughes asked on behalf of the Queen Mary Hospital for Consumptive Children that the committee instruct the secretary to request the minister of education for permission to have one teacher a week from each of the west end schools go to the hospital to instruct the children in manual training and domestic science. The hospital already has the room and equipment for this work. The request was granted.

A committee consisting of Trustees Dr. Steele, C. A. B. Brown, W. O. McTaggart, Edmunds and Hunter was appointed to confer with Dr. Hughes, Col. Thompson, chief cadet instructor for the city, and the cadet instructors from the various schools on the amount of money to be taken from the Strathcona fund to meet expenses, this to be paid back in a year. Col. Thompson stated that there was also a grant of one dollar for each cadet to pay the instructors' salaries and that it would cost the board nothing.

The following estimates were presented by the superintendent of supplies, and after a heated argument in which Trustee Fred Hamby suggested closing the schools owing to the amount of money needed to run them, were sent on to the board without recommendation:

Item	1917	1918

Chilblains and Blisters

Caused Much Suffering for Ten Years, But This Chatham Lady Has Found a Cure, and is Glad to Tell Others About It.

Chatham, Jan. 30.—At this time of year particularly there is much suffering from chilblains and many people experience great distress.

For the last ten years I have suffered from chilblains during the winter. They were so bad at times that my feet used to break out in water blisters. A year ago last winter I was confined to the house all winter, and could not get out at all. Last winter I thought I would try Dr. Chase's Ointment, and it not only benefited, but cured me. I was able to wear my boots all winter and attend to my work. I was even able to go out during the winter months, a pleasure that I could not enjoy previous winters. I am glad to be able to let you know of the wonderful cure Dr. Chase's Ointment has made for me.

DIARY A PERMANENT RECORD MADE ON SCENE OF ACTION

Soldier's - Sailor's English-French Dictionary Bound in Textile Leather—Gold Stamped, Gold Edges, Pocket Size

THE WORLD

TORONTO HAMILTON

Send One to the Boy---Keep One at Home

THIS Diary fixes time and place of important events.

Bewildering experiences rush with confusion through the minds of soldiers and sailors. Many a soul-thrilling scene would be forgotten if it were not recorded while fresh in memory.

For accurately recording individual experiences during the war the Soldier's-Sailor's Diary and English-French Dictionary is the most serviceable, most durable book in existence. On land or sea it will always be a most cherished possession and will last a lifetime.

SPACES UNDATED. You may start this diary any day—it never can become out-of-date. Other diaries are useless after date specified.

SHOT IN EYE WITH ARROW.

Special to The Toronto World. Woodstock, Jan. 30.—While playing with a young companion, at whose home he was visiting, Murray Sutherland, aged six, was shot in the eye by the former with a bow and arrow, and doctors fear that he may lose his sight.

Try Magnesia For Stomach Trouble

It Neutralizes Stomach Acidity—Prevents Food Fermentation.

With the understanding that any measures adopted to restrict the illegal sale of essences would not interfere with the legitimate business, representatives of the manufacturers concluded an interview with the Ontario License Board yesterday.

Patriotic Service

You should obtain this book promptly as the distribution (a patriotic service of United States and Canadian newspapers) continues for only a short time. Distribution in this province conducted exclusively by

THE WORLD

TORONTO HAMILTON

Send One to the Boy---Keep One at Home

THE Sound-Spelling Method of the Soldier's-Sailor's Diary and the English-French Dictionary is the most advanced means of teaching language.

It presents first the English word, then its French equivalent, and then, spelled out in English syllables, comes the French word as it sounds to English ears. Exhaustive tests prove this method so simple that even a child readily acquires French with correct pronunciation.

Interchange of ideas with the French people will broaden the soldier's horizon, and ability to speak French will be a lifelong business and social asset.

MAIL ORDERS Filled on terms explained in Coupon in this paper on page 12.

CAPTURED FAMOUS LACROSSE CHAMPIONS

James Gow, Well Known Athlete of Former Days, Died in Toronto Last Night.

James Gow, whose death occurred last night after a brief illness at his home, "Blairholm," 46 Lakeshore avenue, was born in Orillia in 1856. As a boy of 18 he came to Toronto, living here for eight years. In 1882 he married Catherine Pearson, eldest daughter of Robert Pearson of the Northern Railroad. For seven years thereafter he lived in Winnipeg, before moving to New Westminster, B.C. He moved back to Toronto in 1895, where he had since lived.

Mr. Gow was a sheet metal contractor in his business, a lifelong Liberal, a prohibitionist, a member of the A.O. U.W., and an elder in West Presbyterian Church. He was a famous lacrosse player in his younger days, organizing and captaining the New Westminster lacrosse team which for six years carried the championship of Canada without a defeat.

He leaves behind him a widow and three sons, Alan A., Walter S. and Arthur P., all of this city. Three sisters, Mrs. George H. Wright of Penetanguishene and Mrs. George H. Hale of Orillia, also survive him. The funeral will be held from the family residence on Saturday at 2:30 p.m. at Mount Pleasant Cemetery. The services will be conducted by Rev. J. A. Turnbull, assisted by Rev. B. B. Whyte of Knox Church, Ottawa.

BAR ASSOCIATION'S OFFER.

Representing the Ontario Bar Association, Angus McIntyre, K.C., met Premier Sir William Hearst at the parliament buildings yesterday, offering the assistance of the association in securing more uniformity in provincial legislation. Sir William thanked the association thru its representative for the interest manifested, and promised to offer.

APPLIES FOR PROBATE.

Mrs. Margaret Farrell, sole beneficiary and executive, has applied for probate of the will of her husband, Robert Farrell, who died on Jan. 15, of this year, leaving a mortgage for \$611 and \$1246 in two bank accounts.

CAR SERVICE DELAYED.

Scarboro Beach street car service was considerably delayed yesterday during the noon hour, and at one time the passengers waited at Neville Park boulevard for at least half an hour. They were then taken by Broadview car up to Broadview and Queen, where a transfer was made to a King street car. This was at least past 12. No cause was assigned for the tie-up.

SALES AT SUCKLING'S.

The following stocks were sold at Suckling's yesterday: J. H. Bardwell, men's furnishings, 372 West Bloor street, Toronto, \$116.84; G. T. Clarkson, assigned, sold to F. T. Hill Co., Markdale, for 57c on the dollar. A. W. Miller, grocer, 2118 Dundas street, Toronto, \$2400. A. S. Crighton, Canadian Credit Men's Association, Ltd., assignee, to Carey Bros., Toronto, for 53c on the dollar.

THREE PERSONS DIE IN RAID ON LONDON

Ten Injured by Latest German Attack—Barrage Holds Machines.

London, Jan. 30.—In last night's air raid three persons were killed and ten injured, it was announced officially.

It is feared the bodies of six other persons are buried in the ruins of a house.

About ten airplanes touched London in the southwest, and a few castles in southern London.

The official statement says that a number of attacks were delivered against London by hostile airplanes last night.

Conditions for the raid were as favorable as those on Monday night.

BOARD TO SETTLE THE DOMINION BANK

Proceedings of The Forty-Seventh Annual General Meeting of the Shareholders

The Forty-Seventh Annual General Meeting of The Dominion Bank was held at the Banking House of the Institution, Toronto, on Wednesday, the 30th of January, 1918.

Among those present were: James Carruthers, Montreal; A. R. Boswell, K.C.; W. E. Carwell, W. W. Near, R. S. McLaughlin, Ottawa; H. C. Schofield, Sir Edmund B. Osler, L. H. Baldwin, Edward Galley, H. W. Hutchinson, Winnipeg; E. G. Gooderham, J. Harry Patterson, W. D. Matthews, Judge McIntyre, Wilby, F. L. Patton, Winnipeg; William Davies, Major R. J. Christie, William Mulock, D'Arcy Martin, K.C., Hamilton; W. Gibson Cassels, Sigmund Samuel, C. A. Bogert, Dr. F. L. M. Grasset, H. H. Williams, Dr. R. M. Bateman, A. T. Reid, H. Gordon MacKenzie, Dr. A. J. Harrington, W. J. Barr, F. S. Wilson, Belleville; F. J. B. Russell, W. S. Kernahan, J. P. Watson, A. W. Austin.

It was moved by Mr. James Carruthers seconded by Mr. A. W. Austin, that Sir Edmund B. Osler do take the chair, and that Mr. C. A. Bogert do act as secretary.

Messrs. A. R. Boswell, K.C., and W. Gibson Cassels were appointed Secretaries.

The Secretary read the Report of the Directors to the Shareholders, and submitted the Annual Statement of the affairs of the Bank, which is as follows:

To the Shareholders: The Directors beg to present the following Statement of the result of the business of the Bank for the year ended 31st December, 1917:

Balance of Profit and Loss Account, 30th Decem- ber, 1916 \$ 368,442 89

Profits for the year, after deducting charges of management and making full provision for bad and doubtful debts \$1,087,477, 45

Less Dominion Government War Tax (on circulation) \$60,000 00

Taxes paid to Provincial Governments 22,415 00

Making net profits of 1,005,022 45

Which amount has been disposed of as follows: Dividends (quarterly) at Twelve per cent. per annum \$720,000 00

Contribution to Canadian Patriotic Fund \$25,000 00

Contribution to British Sailors' Relief Fund 2,000 00

Contribution to Officers' Pension Fund 30,500 00

Written off Bank Premises 200,000 00

Balance of Profit and Loss Account carried forward \$975,500 00

TO SETTLE MINING DISPUTE

LABOR MEN MEET IN PRIVATE SESSION

Ottawa, Jan. 30.—The conference of the representatives of labor with the cabinet was not resumed this morning.

The labor men, the majority of whom have now arrived in the capital, were in private session all morning, with J. C. Waters, president of the Dominion Trades and Labor Council, presiding.

No statement was given out by the labor men who had under review the recommendations made by them to the government when they were in the capital recently.

The presence at the present conference of representatives of the western provinces and the Maritime Provinces makes a general review of the situation necessary, in order that the suggestions as finally submitted to the government will express the whole country.

It is understood that at this morning's session considerable time was devoted to the proposal to close non-essential industries, but there was some difference of opinion as to what industries can be properly classed as non-essential.

The delegation which recently visited Washington with the United States labor authorities met Sir Robert Borden and a number of his colleagues this morning in private conference.

The delegation included Senator Robertson, minister without portfolio, and F. E. Jones, general manager of the Canada Cement Company.

Ottawa, Jan. 30.—The Nova Scotia Colliery, minister of labor, today met Messrs. S. Barrett and J. B. MacLachlan, representing some employees of the Nova Scotia Colliery, in an effort to adjust a wage dispute between the company and men.

After a short discussion the conference was adjourned until tomorrow morning in order to allow the representative of the company, who was delayed by storm, to be present.

It is stated that the Nova Scotia Colliery, in its employees arose over the opening of a small mine which employed twenty-five men, to whom the company paid \$1.36 per day.

The miners demanded the scale in operation in Sydney—\$4.70. The union finally agreed to pay the difference between the two schedules pending a settlement of the matter.

The question of increasing coal production in Nova Scotia in connection with plans to offset the fuel shortage will, it is understood, be considered at the meeting tomorrow.

Ottawa, Jan. 30.—Hon. T. W. Crothers, minister of labor, today met Messrs. S. Barrett and J. B. MacLachlan, representing some employees of the Nova Scotia Colliery, in an effort to adjust a wage dispute between the company and men.

After a short discussion the conference was adjourned until tomorrow morning in order to allow the representative of the company, who was delayed by storm, to be present.

MINING SUCCESS BASED ON EFFICIENT METHODS

Monumental Blunders in Exploration Work Have Been Extremely Costly in Northern Ontario as Well as in Other Fields.

In the Canadian Mining Journal of Jan. 15 C. H. Hitchcock says that "exploration today is probably the weakest link in the mining business, and poor work along this line is yearly the cause of monumental blunders." Exploration consists in locating ore bodies and in determining their size and value before the work of mining begins. Mining engineers as a rule are specially qualified for the latter function, but many of them fail disastrously when called upon to trace the position of an ore body underground.

The Murray nickel-copper mine is now conceded to be the second largest property in the Sudbury district, a district noted for its exceptionally large mines. Shortly after its discovery the mine fell into the hands of the Victorian, the big smelting firm of Swansea, Wales. There is an outcrop of oxidized ore of gossan roughly 1000 feet long by 100 yards wide, and yet the engineers employed by the Victorian were unable to follow the ore in depth. They got some unimportant quantities, but the discovery of the great mass of nickeliferous pyrrhotite, since then known to be there entirely baffled their utmost efforts. This failure started the great mine on a constantly descending career, and it was ultimately sold for \$75,000. During these later years skillful exploratory work has proved 7,000,000 tons of ore, and the mine is now the main prop of the British-American Nickel Corporation, controlled by the Imperial government, who have just provided \$3,000,000 for working capital.

An interesting case. And at present there is some hesitation over a property in the township of Leveack which was examined more or less extensively a dozen times before it fell into the hands of the Mond Nickel Co., and even the latter company came back a second time before they located the ore. A singular circumstance in connection with this property is the fact that with every rejected option the price was increased, and the ultimate sum paid was \$750,000. In the pending litigation it is claimed that a strip over 850 feet wide on which ore has been demonstrated belongs to adjoining owners.

The problem of exploration differs in different camps even where the same metal occurs, and this difference is accentuated where the metals are not the same. Cobalt is very much unlike Porcupine, and hundreds of thousands of dollars have been lost by attempts to apply the same methods to both camps. While we find the igneous kesawatin complex in both, it is only slightly less in Cobalt than in Porcupine and the schistosity are so pronounced they afford the heat and plainest guide to the position of the auriferous veins.

The veins at Cobalt are small and numerous; there is no gossan as at Sudbury, or shear zones with minor quantities of oxide of iron as at Porcupine. Unless where the rocks are bare there is very little chance of detecting a silver-bearing zone. The usual trenching and hydraulic mining came into vogue. The Nipissing used powerful monitors and swept all soil away. The O'Brien adopted the same practice to a lesser degree.

But at Porcupine there is always an outcrop to any pronounced zone of schistosity, and the schistosity is very trenchant across this is all that is required. Prospecting or uncovering the massive rocks is quite useless, for they may have there some very rich splashes of bastard quartz they never carry any well-defined veins.

But in the early days one young man, a graduate of the Camborne School of Mines, Cornwall, England, who had taken a year's leave from his position at Freiberg in Saxony, secured employment as superintendent of a prospect in Porcupine. He had imbibed some knowledge of the methods, but was not sufficiently schooled to see that they had no application to Porcupine. There he ran trenches and cross-trenches every 100 feet over massive as well as schistose rocks. But his thoroughness was entirely misplaced under such conditions. His system was purely mechanical and did not imply even ordinary skill or any knowledge of the relation of the shear zones to the ore bodies. It was needlessly expensive, and by dissipating energies over a wide area actually prevented their concentration where success could be achieved.

Thomas A. Edison, the wizard of Menlo Park, was looking for nickel in 1897. He had a magnetic and Edison brought all his scientific attainments to bear in developing a magnetic apparatus to indicate the presence of ore under a lot of mismanagement, but it is always costly, and the sooner we clearly recognize that efficiency is essential in mining just as much in any other business, the better it will be for all concerned.

PROMISING INDICATIONS ON GENESSEE PROPERTY

Developments at 500-foot Level Encouraging—Find on McKinley.

Developments at the 500-foot level of the Genessee property at Cobalt presage the finding of an ore body in the near future. A vein of calcite from two to five inches wide was picked up in the east crosscut during recent development. Being below contact this vein carried low values at the point where it was cut. Drifting on the face is now being done in the expectation of running into an ore body. The north crosscut at the 500-foot level is within 30 feet of a cobalt vein which shows up in eleven ounces in the shaft. The north crosscut is expected to pick up the swamp vein any round now. The development of the Genessee property during the past month or two has been so favorable as to lead to the expectation that this company will join the shipping list in the very near future.

The McKinley Information Bureau at our Cobalt office is to the effect that this mine is looking as good as ever. A new rich vein, the full width of the drift, was cut on the 400-foot level within the last four or five days, and if the new discovery turns out to be like any of the other veins on the property, it will mean a considerable increase in the ore reserves of the

EXTENSIVE OPERATIONS BRIGHT FUTURE FOR WASAPIKA BETTER PROGRAM FOR TIMISKAMING

Development Work in Progress on Four Consolidated Properties. Opportunity Offered to Interest McIntyre Management in Veteran Mine.

Without doubt, Wasapika stock has been one of the strongest issues on the list at the Standard Stock Exchange during the past week, having made a gain in price to 32 cents per share, a total advance of 12 points from the original price at which this stock was offered. Not only has the advanced been consistently upwards, but there has yet to be recorded a reaction in the price worthy of the name. This fact is an excellent indication of the confidence in which this stock is held. The attention of investors is unquestionably turning towards the gold stocks, as has been evidenced during the past few days by the preponderance of trading in these issues as distinct from the silver stocks. It can safely be assumed from the record so far made by Wasapika that it will share in any advance which takes place in the general market.

The development of the property is proceeding along scientific lines and excellent results are being obtained. The main shaft is being steadily lowered to lower levels and the most recent assay of ore in the bottom of the shaft showed gold values of over \$100 per ton across seven feet. The mining equipment which is being taken into the property will be installed and ready to run in the near future. This will insure the development of the property on a scale hitherto impossible.

The mill, consisting of two 75 horse power high pressure boilers, crushing machinery and ball and tube mills have all been ordered and will be ready to receive the material. The lumber for the mill buildings has already been taken in and is on the ground. The mill, which will treat the ore by the straight cyanidation method, will have a capacity of 80 tons per day, and will be installed early in the summer. In short, the development of the property is shaping to the entire satisfaction of the management, and no doubt will be left unturned to assure the success of the Wasapika, a producer of gold in the very near future.

Without doubt, Wasapika stock has been one of the strongest issues on the list at the Standard Stock Exchange during the past week, having made a gain in price to 32 cents per share, a total advance of 12 points from the original price at which this stock was offered. GREAT ORE RESERVES Value Approximately Six Million Dollars and Huge Quantities in Sight.

The Northern Miner sums up the situation as regards the McIntyre mine as follows: "The McIntyre mine is a development on the McIntyre Porcupine mines are progressing rapidly. Mining operations are being carried forward on all four of the consolidated properties, including the McIntyre. These properties lie to the east, trending towards the northeast, and comprise a total length of 1000 feet. The McIntyre Company has been most fortunate in its acquisition of properties, because they lie directly in line with the great ore systems, which have made the mine famous. The McIntyre and McIntyre Extension mines are in a highly developed state, and steadily to lower levels and the most recent assay of ore in the bottom of the shaft showed gold values of over \$100 per ton across seven feet. The mining equipment which is being taken into the property will be installed and ready to run in the near future. This will insure the development of the property on a scale hitherto impossible.

The mill, consisting of two 75 horse power high pressure boilers, crushing machinery and ball and tube mills have all been ordered and will be ready to receive the material. The lumber for the mill buildings has already been taken in and is on the ground. The mill, which will treat the ore by the straight cyanidation method, will have a capacity of 80 tons per day, and will be installed early in the summer. In short, the development of the property is shaping to the entire satisfaction of the management, and no doubt will be left unturned to assure the success of the Wasapika, a producer of gold in the very near future.

MINING CORPORATION IN A STRONG POSITION Known Assets Give Shares Intrinsic Value of More Than Four Dollars.

The Mining Corporation of Canada paid 15% per cent. of 25¢ cents per share in 1917. This involved an expenditure of \$1,500,000. The company was able to do this partly as a result of the fact that the price of the stock was 25¢ in 1917, and the average price of the stock in 1916 and 1917 was 25¢. The company's assets are valued at \$1,500,000. Hence the corporation is in a position to pay dividends of about \$1,000,000. The company's assets are valued at \$1,500,000. Hence the corporation is in a position to pay dividends of about \$1,000,000. The company's assets are valued at \$1,500,000. Hence the corporation is in a position to pay dividends of about \$1,000,000.

MILLING OPERATIONS ON LAKE SHORE SOON

Kieley Smith and Amos say: Re Lake Shore. Milling operations at this mine are expected to commence before the 15th of February. We are informed there is quite a tonnage of high-grade ore to be milled, and we believe it is the plan of the company to begin treating this high-grade ore immediately. The results from the first month's milling operations will be awaited with interest and we believe the same will show a very high production of gold.

BUFFALO MINES' RECORD

The Buffalo Mines of Cobalt paid a dividend of 25¢ per cent. in August, 1917. This was a cash disbursement as a result of a reduction of the capital stock of the company amounting to 25 per cent. The Buffalo Mines had been in operation for 11 years now, and between 1906 and 1914 was a heavy producer. Dividends distributed have aggregated \$7,000,000. During the year ending June 30, 1917, earnings were \$56,883, and the surplus stood at \$200,141. The company's capacity is 100 tons per day. The mine is equipped with an oil flotation plant that slimes of the past 11 years that yield the company a good rate of profit.

OPERATIONS IN RICKARD.

The Mining Corporation of Canada is prosecuting work with vigor on its recently acquired gold property in the Township of Rickard, about 12 miles northeast of Matheson. More than 50 men are employed, the new plant is installed and a diamond drill is on the ground. Developments thus far are highly encouraging.

BEAVER EXPLORATION.

Exploration work on the Beaver property is at and below the 700-foot level. A meeting was held on the 27th inst. A winze is being driven down on a promising vein and some fairly rich ore is understood to have been opened up.

THE PRICE OF SILVER

London, Jan. 30.—Bar silver closed at 43 1/2 per ounce.
New York, Jan. 30.—Bar silver closed at 86 1/2 per ounce.

WISE OR OTHERWISE?

Do you always investigate your investment opportunities with the scrupulous care and attention that you would exercise in the purchase of an article of apparel?

Do you always, before putting your money into a security, enquire as to the reliability of the men who are backing it, to the integrity of the management, to the actual assets represented by the security and the prospects for future growth and profits?

These are the things that count, the factors vital to the success of your investment.

Knowing this, we have recommended Wasapika Gold Mines stock as an investment of real merit and welcome a careful scrutiny of its worth.

WASAPIKA Stock is Selling at 32c. Having Already Advanced From 20c.

WASAPIKA owns 120 acres of property in the West Shingtree Camp, where some of the best gold showings ever seen in Northern Ontario have been made.

WASAPIKA has uncovered a vein on the surface for a distance of 2000 feet, which has yielded assays of over \$10 to the ton (the average grade of ore at the Dome is \$6, at the Hollinger under \$10 and at the McIntyre about \$10). This vein, known as the Ribble, averages over 40 feet in width, and if no other vein than this one were located on the property, a supply of ore would be assured for years to come.

WASAPIKA has, in addition, several other highly promising veins which have not as yet been developed sufficiently to make any estimate as to what can be expected from them.

WASAPIKA, at the present time, according to Manager Geo. Rogers, has a supply of ore on hand for treatment amounting to 14,000 tons which will average about \$12 per ton in gold.

WASAPIKA has a new mining plant which will be installed very shortly and which will greatly facilitate the work of development.

WASAPIKA, early in the year, will have an 80-ton mill of the most up-to-date construction, which will ensure the economical treatment of the grade of ore being taken out of the property, and costs of production have been estimated by the management at not more than \$5 to \$6 to the ton, thus providing for a profitable operation.

WASAPIKA has a most efficient management. Managing Director Geo. Rogers, M.E., who is a graduate of the Ballarat School of Mines, Australia, has been connected with gold mining practically throughout his professional career. Under his able guidance everything possible will be done to make Wasapika a successful gold producer.

WASAPIKA, THEREFORE, IS WORTHY OF YOUR CONFIDENCE. WASAPIKA IS A WISE INVESTMENT. IT IS, MOREOVER, AN ATTRACTIVE SPECULATION.

BOTH THESE QUALITIES COMBINE TO MAKE IT ESPECIALLY WORTHY OF YOUR ATTENTION AT 32c Per Share

WASAPIKA "Has the Goods."

ISBELL, PLANT & CO. Standard Bank Bldg. Main 272-3

Without doubt, Wasapika stock has been one of the strongest issues on the list at the Standard Stock Exchange during the past week, having made a gain in price to 32 cents per share, a total advance of 12 points from the original price at which this stock was offered. Not only has the advanced been consistently upwards, but there has yet to be recorded a reaction in the price worthy of the name. This fact is an excellent indication of the confidence in which this stock is held. The attention of investors is unquestionably turning towards the gold stocks, as has been evidenced during the past few days by the preponderance of trading in these issues as distinct from the silver stocks. It can safely be assumed from the record so far made by Wasapika that it will share in any advance which takes place in the general market.

NEW YORK STOCKS SHOW HESITATION

Market Had Evidently Discouraged Outcome of U. S. Steel Meeting.

New York, Jan. 30.—Technical conditions governed today's stock market, irregularly traceable to the constant shifting of traders' commitments. Overnight developments exerted little influence, the outlook of the United States Steel meeting evidently having been discounted.

Traders were interested in a report that the administration would oppose the proposed amendment to the senate bill to take the railroads out of federal control a year after the war. A loan by bankers to the Baltimore & Ohio road pointed to the pressing need of the railroads pending enactment of legislation by congress.

Pool Operations. Pools relieved the monotony of the dull afternoon by fresh activity in a variety of specialties, including fertilizer and allied issues.

Canada Steamships was again the most active issue in yesterday's trading on the Toronto market, but absorbing power was lacking, and as a result of liberal offerings the stock declined from the opening, 42 1/2, to 41 1/2 at the close, a net loss for the day of 1 1/2 points.

Announcement that the Canada Car Company had closed a contract for building steel ships at the Fort William plant stiffened the quotation on the shares, sales of a small block being made at 22 1/2, against an asked price of 15 on Tuesday.

General tone of the local market continued strong today, Canada Steamships was the most active issue in the shares having advanced from 42 1/2 down to 41 1/2. Dominion Steel was fairly active, selling from 58 1/2 to 59 1/2, a net loss of 1/2 from Tuesday's close.

Bank of Germany. Berlin, Jan. 30, via London.—The statement of the Imperial Bank of Germany issued Jan. 29, following changes: Total coin and bullion increased 7,700,000 marks; gold, increased 1,020,000; notes, decreased 1,664,000; notes of other banks, increased 1,716,000; bills discounted, decreased 1,567,400; advances, decreased 10,841,000; securities, decreased 2,159,000; other liabilities, decreased 4,131,000; notes in circulation, decreased 34,471,000; other liabilities, increased 36,152,000; total gold holdings, 2,406,020,000 marks.

London Stock Market. London, Jan. 30.—Stock market was steady today. Gift-edged securities were inactive owing to the tank campaign for the sale of war bonds. Weakness in Spanish issues was the feature of the day.

Short Interest Nervous. J. P. Bickell & Co. received the following short interest today: Market absorbed 150,000 shares of P. & O. stock, and looks like working a little higher on this move.

SPLENDID PROGRESS BY DOMINION BANK

Growth in Assets of Institution During Past Year is Remarkable.

At the annual meeting of shareholders of the Dominion Bank yesterday the report presented indicated substantial progress, and that the institution is in an extremely strong position.

The outstanding feature of the annual statement to the end of 1917 is the growth in the bank's assets, the quick assets rising during the year from \$7,625,836 to \$57,669,452—an increase of more than twenty million dollars.

Heavy Deposits. The Dominion Bank's holdings of the public funds increased in every class during the year, and liabilities to the public are now \$36,861,513, as compared with \$79,322,310—an evidence of the public's confidence and of the efficiency of the bank's asset-getting organization which must be very gratifying to the shareholders.

Railway Tie-Up is Apprehended. Besides apprehending a corn shortage as a result of transportation outlook, Chicago, Jan. 30.—Prospects of a new tie up of the railroads west of Chicago hardened the corn market today after a temporary sag due to better weather.

Standard Stock Exchange. Gold. Bid. 154.00. Asked. 154.00. Dominion Steel. Bid. 58.00. Asked. 59.00.

Cotton Situation. J. P. Bickell & Co. received the following closing cotton letter: The New York market is holding in check and speculation considerably in check.

Liverpool Markets. Liverpool, Jan. 30.—Beef, extra India mess, 26/6. Pork, prime mess, western, 32/0.

Should Keep More Cows. Special to The Toronto World. St. Catharines, Jan. 30.—The need of keeping more cows on the farm was the keynote of the annual convention of the Niagara Peninsula Holstein-Friesian Association held here this afternoon.
