New Advance in Wheat Prices Will Raise Cost of Bread to Consumer

Wheat Board's Order Given.
As Reason for Increase—
Importation No Relief.
Winnipeg, Dec. 28.—Effective from
midnight, Dec. 27, the Canadian Wheat
Board orders that the price of Manitoba
wheat to mills in Canada be raised
from \$2.30 per bushel to \$2.80 per
bushel in store at public terminal elevators
at Fort William or Port Arthur.
Another regulation increases the maximum
wholesale price of government standard
spring wheat flour from
\$19.90 per barrel to \$13.15 per barrel
basis, f.o.b. cars Montreal.
In connection with the above advan-
ces in the price of wheat and flour,
James Stewart, chairman of the Canadian
Wheat Board, states that in order that
the consuming public may have
advantage of the supply of cheaper
flour in the United States, permits will
be issued for the importation of the
American product.

REPORT OF ADMIRAL JELICOE
IN FAVOR OF A CANADIAN NAVY

Expect He Will Suggest Six Cruisers, Six Destroyers
and Twelve Submarines—New Naval
Base in Pacific.
Ottawa, Dec. 28.—(Special)—Admiral Jellicoe's report on the Can-
adian naval situation is expected to be placed in the hands of the gov-
ernment in the course of a few days.
As previously indicated a Canadian navy is likely to be favored. It
is learned here from reliable sources that the form of navy suggested
will be 6 cruisers, 6 destroyers, a number of torpedo boats and seaplanes,
and a dozen submarines divided between the two coasts.
There is also strong possibility that new naval base on the
Pacific coast may be recommended in place of Esquimaut.
The admiral will leave Ottawa early in the new year for South
Africa.

GUNMEN IN MOTOR
ROB AND TERRORIZE
PEOPLE ON STREET

Successfully Hold Up Ten
Citizens in Last Few
Days.
CHINESE CAFE ROBBED
Speeding around the eastern and
northwest sections of the city in a
McLaughlin car bearing a province of
Quebec license the three gunmen who
have successfully held up ten Toronto
citizens during the past week, set out
Saturday night to terrorize pedes-
trians by holding up six people home-
ward bound. One woman, four men
and a Chinaman were the latest vic-
tims of the gunmen, and of the six
attacked four were robbed of sums of
money and two assaulted. Ching Joe,
restaurant keeper, living at 203 1-2
York street, was beaten in his cafe, at
3:15 Sunday morning and \$242 in
money in the cash register stolen. The
three men entered the cafe, and when
Joe walked up to the counter with
the money, they seized him and
Chinaman several blows over the
head, and collapsed from the assault
and his assailants walked over to the
money till and cleaned it of its contents.
The injured Chinaman was
later found and taken in the police
ambulance to St. Michael's Hospital.
He had his hurts attended to and was
later allowed to go to his home.

ADVISE METHODS TO PREVENT
OR RETARD LABOR CONFLICTS

Wilson's Industrial Conference Suggests National Industrial
Tribunal of Nine Members and Twelve
Regional Boards of Inquiry.
Washington, Dec. 28.—Tentative recom-
mendations for the establishment of
machinery to prevent or retard labor
conflicts in private industry were
announced today by the president's in-
dustrial tribunal and regional boards
of inquiry and adjustment, before a
final plan is adopted.
The plan as outlined now contem-
plates the creation of a national in-
dustrial tribunal, composed of a board
of nine members and twelve regional
boards of inquiry and adjustment, which
would move to the settlement of disputes
before there was any stoppage of pro-
duction. Decisions would have the full
force and effect of a trade agreement
between the parties to the dispute.
Remarkable that some public utilities
such as railroads, are essential to
the very existence of the people, the
conference's tentative statement
expressed the opinion that the "in-
terruption in such essential public
utilities is intolerable." But the con-
ference states that further considera-
tion is required of the problem whether
some method can be arrived at that
will avert all danger of interrup-
tion to service.

KOLCHAK RETIRES
FROM HIS COMMAND

Owing to Ill-Health Has Ap-
pointed Gen. Seminoff
to Succeed Him.
Vladivostok, Dec. 28.—Admiral
Kolchak, commanding the all-Russian
governmental forces opposing the Bol-
sheviki in Siberia, has retired from
active command because of ill-health,
and has appointed General Seminoff
to succeed as commander-in-chief.
According to a message received here
today by General Seminoff's repre-
sentative.
The message, quoting Admiral Semi-
noff's order, said: "In order to unite
all armed forces fighting to make sec-
ure our political organization, I have
appointed General Seminoff commander-in-
chief, with headquarters in the Irkutsk
and Trans-Baikal Russian military dis-
tricts. All military commanders will
be subordinate to him.
Evacuating Odesa.
London, Dec. 28.—Odesa is being
evacuated by the civilian population,
owing to the rapid advance of the
Bolshéviki in southern Russia, according
to a Constantinople despatch to
the Exchange Telegraph Company.

USE PACIFIC COAL
Chance of Ontario Industries Get-
ting Fuel From Far West.

Vancouver, B. C., Dec. 28.—Arthur
Y. White, consulting engineer to the
commission of conservation thinks
British Columbia coal may yet be used
in Canadian industries. He says the
large demand for United States coal
from Europe and the high prices paid
may make British Columbia coal an
economical purchase for Ontario in-
dustries in place of the long haul.
The Canadian manufacturers' association
is investigating the matter in anticipa-
tion of any further shortage due to
conditions in the United States over
which this country has no control.
Three Oil-Burning Ships
For C. P. Ocean Services
Montreal, Dec. 28.—Three new
steamships are to be added to the
Canadian Pacific Ocean Service, Limited, and
construction in Scotland. They will be
sailed the Montreal, Matapedia and
Contrecoeur. These ships, which are
of 18,000 gross tonnage, will be in
commission for Atlantic ocean travel
in the latter part of 1920, and are
being fitted up as oil burners.

FOOTPRINTS LEAD
TO WHISKEY HIDE

Forty Bottles Curiously Dis-
covered by Two Police
Officers.
Foot prints in the snow leading from
a lane to the rear of a house at 146
Centre avenue led Inspector Bond and
Plainsclothesman Ward to forty bottles
of whiskey which had been buried un-
der the house. The officers were walk-
ing in the lane searching for a whis-
key dealer when they were attracted to
the foot marks in the snow. It was
more out of curiosity that they follow-
ed them up and on hitting a loose
board Ward discovered a hole beneath
the house with a depth of six feet. He
climbed down in it and found two
potato bags containing the forty bot-
tles of whiskey. The police seized the
whiskey but no arrests were made,
the occupants of the house denying knowl-
edge of the presence beneath their
home of the fire water.

EX-CROWN PRINCE
A TAX DODGER

The Hague, Dec. 28.—The ad-

Wieringen council against its
assessment of Frederick Wil-
liam's annual income for income
tax levy at 800,000 florins, ac-

WASHINGTON LOOKS
FOR GREY'S RETURN

Sails on Saturday as He Can-
not Yet Discharge Func-
tions He Intended.
Special Cable to The Toronto World
and New York Tribune.
Washington, Dec. 28.—Viscount
Grey, acting British ambassador here
since Oct. 1, who sails for home on
Jan. 8, will return to this country after
the ratification of the peace treaty.
official Washington confidently ex-
pects. A longer stay here now would
merely be wasting the time of one
of the big men of the British Empire.
Due to the fact that he has not
been received by the president, he is
not officially recognized, and more im-
portant, since the peace treaty has not
yet been ratified, he cannot discharge the
very function for which he came to
this country.
Lord Grey is returning home now
to make his government and even
more particularly the people of Great
Britain understand the situation in the
United States. He will be able to ex-
plain many things to the foreign office
which he could not make clear in
cables or letters, and he will make
public speeches in England, which
under diplomatic etiquette, he could
scarcely make in the United States.
Despite his lack of official recognition
during the three months he has been
in this country, Lord Grey has been busy,
and he will go home with a very ac-
curate idea of all shades of opinion here.
He has had long chats with practically
every man of importance in Washington
except President Wilson. He has re-
vealed, in recent conversations with sen-
ators and diplomats, the situation which
a diplomat very seldom succeeds in obtain-
ing.
Not Anti-British.
On his return he will be able to paint
a most accurate picture of the political
situation here, and he will be able
to tell the people of Great Britain,
among other things, that many
things which have been said in this
country about the British Empire
are not true. He has seen the
merely hitting at the league of nations
and peace treaty over any convenient
shoulder, with Great Britain's shoulder
happening to be the nearest.
After the restoration of technical
advantage it comes by the ratifica-
tion of the peace treaty, which the
method, Great Britain will again need in
the United States just what the foreign
office conceived it wanted when it sent
Lord Grey over here, and then he will
be sent back.

BRITAIN LOOKING
TO SOUTH RUSSIA
FOR RAW MATERIAL

Industries Have Concentrated
For a Grand Attack on
Foreign Markets.
Special Cable to Toronto World and
New York Tribune.
London, Dec. 28.—British industries
have concentrated for a grand attack
on foreign markets to coincide with
the beginning of 1920. Manufacturers
hitherto have been mainly occupied
in replenishing home supplies and in
season, which has just ended, in an
orgy of purchasing at fantastic prices.
But henceforth all industries are to
compete in the world market race ex-
pected to begin with the new year.
China and South America are not to
be neglected, but England's chief in-
terest is now turned in the direction
of Russia, which is the greatest poten-
tial source of the raw materials Eng-
land requires.
Under the auspices of an Anglo-
Denkine alliance English businessmen
are passing back and forth between
England and South Russia, laying the
foundations for a great Anglo-Russian
trade machine. Of two evils which
have overtaken most countries as a re-
sult of the war, only one has seriously
affected Russia. The value of her
possesses great stores of materials for
which the world is crying, and these
Great Britain is willing to accept in-
stead.
Flowing With Milk and Honey.
Russia is a land flowing
with milk and honey, whose stores are
waiting to be tapped by anyone able
in exchange any kind of manufac-
tured article whatsoever. While har-
vesting the fruits of the world are
more or less scanty, interior Russia
never had such yields. Granaries are
bursting with wheat, the supplies of
which are so plentiful that it is be-
lieved to be the greatest surplus since
the Bolsheviks is that they have of na-
ture to offer the peasants in ex-
change for their food, which is fed to
fres to prevent its loss by rotting. The
peasants will not have by the printing
press of the Lenin regime, and they are
adepts at hiding their produce from
those who would confiscate it or take
it by forced sale, but any manufac-
turer with an article of use can easily
draw out supplies.
The Bolsheviks have not been slow in
recognizing this, and are rapidly ma-
king plans to make the utmost use of
the knowledge they have begun by
supplying more than \$2,000,000 worth
of military material, which will be of im-
mense use in tapping the sources of
material they require.
Great Britain also anticipates a large
trade in 1920 with Finland, whose tim-
ber can be imported in large quantities
at the present low value of the Finnish
mark.
The English, in fact, are expecting
1920 to be a wonderful year in all lines
of commercial and industrial develop-
ment and expansion, despite the slightly
clouded effect produced by labor trou-
bles. The strike of the iron molders,
which has been dragging on for weeks,
is still paralyzing the British engineer-
ing trades, as nine-tenths of the ma-
chinery required in the making of en-
gines come from the molders. Never-
theless, in spite of the new deadlock
in these trades, the prospects of settle-
ment are growing better.

PRICE OF BREAD GOES UP.

As a result of an order issued by
the Canadian Wheat Board at Winni-
peg raising the price of Manitoba
wheat from \$2.30 a bushel, and of
standard spring wheat flour from
\$10.90 per barrel to \$13.15 per
barrel, the price of bread in Toronto
will be advanced from 11 cents to
12 1/2 cents a loaf.

MARK BREIDIN, PRESIDENT OF THE
CANADA BREAD COMPANY, MADE THE
ANNOUNCEMENT.

Mark Bredin, president of the Can-
ada Bread Company, made the
announcement to The World last night,
adding that even if the price of flour
had not been lifted the company would
probably have found it necessary to
advance the price of bread to some
extent to allow for the increase.
The wheat board's decision to permit
imports into Canada of the cheaper
flour available in the United States
will not relieve the situation as far
as bread is concerned, according to
Mr. Bredin, as the flour mentioned is
the product of the southern states
and is too soft for other uses than
the making of confectionery.

MR. HEDLEY SHAW, PRESIDENT OF THE
MAPLE LEAF MILLING COMPANY, STATED
LAST NIGHT THAT THE SECRETARY OF
THE WHEAT BOARD HAS ADVISED THAT
THE INCREASE IN THE PRICE OF FLOUR
WILL BE GREATER THAN THE INCREASE
IN THE PRICE ESTABLISHED BY THE WHEAT
BOARD.

Mr. Hedley Shaw, president of the
Maple Leaf Milling Company, stated
last night that the secretary of the
wheat board has advised that the in-
crease in flour would be greater than
the price established by the wheat
board (\$13.15), and that it might go
to \$13.40 a bushel. The millers are
of the opinion that the increase men-
tioned by the board would not bring
a return commensurate with the extra
outlay.

COMMERCIAL BOARD MAY INTERFERE.

"The price of bread to the consumer
is certain to be raised if the court
of commerce does not stand in the
way," said R. W. Watts, president
of the Dominion Millers' As-
sociation and a well-known grain ex-
pert, to The World last night, in dis-
cussing the new order of the Canada
wheat board. "There is a 30 days'
supply of flour at the old price on
hand, and when that is gone the
higher price must be paid. I have
heard that some of the bakers, ind-
ividually are anticipating the raise,
and have been laying in supplies of
flour for months ahead, but the gen-
eral stock will last only a month."

MR. WATTS SAID THAT THE JUMP FROM
\$2.30 TO \$2.80, FORT WILLIAM DELIVERY,
FOR NO. 1 NORTHERN WHEAT, DID NOT
COME AS A SURPRISE IN THE LIGHT OF
THE ACTION OF THE U. S. GOVERNMENT IN
REMOVING THE EMBARGO AGAINST THE SHIP-
MENT OF WHEAT AND FLOUR INTO THAT
MARKET.

There was a shortage of hard
spring wheat in the U. S., and that
country was willing to jump from
\$2.30 to \$2.80, Fort William delivery,
for No. 1 Northern wheat, did not
come as a surprise in the light of the
action of the U. S. government in re-
moving the embargo against the ship-
ping of wheat and flour into that
market. There was a shortage of hard

NEW YEAR'S HONORS
ENTIRELY ABSENT

Parliamentary Action Has
Killed Hopes of Any Fur-
ther Titles.
Ottawa, Dec. 28.—(Special)—About
this time in former years speculation
would be rife as to the names in the
honour list in the coming year. In
Canada were those on General Bur-
rill and Morrison, who both received
knighthood, but thru the military list
of the British war office. Now for
the first time in Canadian history, the
honour list is blank in Ireland, con-
fusingly by its absence, following the
recommendation of the house of com-
mons that the King shall refrain from
granting any further titles of honour
in Canada.

### SERVICES RENDERED SECURED AWARDS

### Decorations to Canadian Officers Explained in Gazette From London.

London, Dec. 27.—A gazette has just been issued containing statements of the services for which a number of Canadian officers were decorated. The bar to the D.S.O. was awarded Major-General F. O. Loomis "for great gallantry and brilliant leadership during the operations southeast of Amiens. He made reconnaissance under heavy fire, personally supervising the disposition of troops and encouraging all by his coolness and ability. The results achieved by the brigade were of an outstanding nature." A similar honor fell to Brigadier W. A. Griesbach "for brilliant leadership and great gallantry in the operations during August and September, 1918. He made several personal reconnaissances and his presence amongst the attacking troops and his coolness under critical conditions were largely responsible for the success that attended the operations." Major Terence Jones was likewise honored because "his work as brigade-major was of the highest order and largely contributed to the success of the brigade in the capture of Valenciennes and towns further east." Lieut.-Col. Walter R. Brown, 25th Battalion, received the bar "for conspicuous gallantry and resource in operations north of Cambrai, when he led his battalion with great skill and devotion in most trying conditions and was under heavy artillery fire. His personal courage at the bridge while his men were crossing, and the manner in which he afterwards reorganized the battalion in the dark and led them to the capture of a village, displayed the qualities of leadership and determination."

### FIND TRAIN ON SIDING

Cars and Guards Waited Fourteen Months for Orders in France.

Paris, Dec. 27.—At Le Mans, an important junction, the French military authorities have just discovered a lost ambulance train with its guard of two soldiers. The whole outfit had been forgotten for fourteen months. What led to the revelation was the fact that the general commanding the district recently found an order awaiting his signature for a half ton of coal and a barrel of wine for the use of ambulance train No. X. He made inquiries as to what train this might be, and finding that no one knew anything about it, went to the siding himself. The general found a rather rusty-looking train with two soldiers playing cards in one of the compartments. "How long have you been here?" he asked. "Since August, 1918," was the reply. "The train was detailed for the offensive of that month, and afterwards was transferred to several stations in turn till at last it reached this siding. We have been waiting orders ever since."

### ARENA WILL BRING PEOPLE TO TOWN

Proposed Structure Will Serve as Big Meeting Place.

"The impression is abroad that the arena, which the city is being asked to build at the Exhibition grounds, is to be devoted exclusively to live stock and to live stock judging and that only farmers and breeders will benefit by the expenditure. This is a wrong idea entirely. The arena can and will be used for a score of purposes throughout the entire year and the benefits will be more than equally divided with the city men," declared Mr. John G. Kent today. "As a convention hall with a seating capacity of 7,500, which may be more than doubled by additional chairs to the ring and to the promenade, it will give Toronto a centre for large gatherings which it now entirely lacks. Important musical and similar events, which cannot be brought to Toronto at present because of the absence of suitable accommodation, may be held here. In the winter it will be an ideal spot for the athletes to train or to hold indoor meets such as the big international events held at Buffalo and other places. The ring will be larger than that at Madison Square Garden, New York. It will be a decided asset to the civic plant. "Toronto is the centre of the Canadian live stock trade and last year animals to the value of \$45,000,000 were marketed here. Other places have endeavored to attract this trade and it is advisable that it be further concentrated here. Presumably every head of live stock raised in the province is sooner or later marketed through this city. The turnover in the abattoir and kindred industries last year was \$100,000,000 and over \$5,000,000 annually is paid out to Toronto residents. "The new arena will do much to insure the permanence of this business to Toronto and will in addition be a decided help to the Canadian National Exhibition, bringing increased revenue and a chance for much needed expansion. We feel that from a purely selfish Toronto standpoint the arena will be a decided acquisition and that our exhibition supremacy will be jeopardized unless the citizens decide to erect the new building."

### BRANTFORD ELECTION TO BE KEEN CONTEST

Brantford, Dec. 28.—(Special)—Keen fights for all offices in the gift of the electors are promised. The nominations will be held Monday, and the candidates have until Tuesday night to declare their intentions by qualifying. A field of four is assured for the mayoralty, and there will be fights for all the commissions and the board of education, among the candidates for the latter being Miss Colter and Mrs. P. H. Balachey, who will seek reelection after two years of service. John Fair, for many years a member of the waterworks commission, has announced his intention of not again entering the field. David Webster, recently chief engineer of the waterworks, will be a candidate. The L.L.P. nominated a slate for nearly all vacancies.

### BIRDLESS NEW YEAR LIKELY IN KITCHENER

Kitchener, Dec. 28.—(Special)—Surrounding farmers and the purchasing public overdid a good thing, as far as fowl for Christmas was concerned and as a result there is a serious scarcity of fowl for New Year's reported in North Waterloo. Farmers on the local market here yesterday declared that feed is too high to make poultry-raising worth while. Unless local meat dealers import fowl in the early part of the week it will be a birdless New Year's in Kitchener.

### NO WINE IN U.S.; ITALIANS WON'T GO

Italian Senator Gives Reason for Immense Falling Off in Emigration.

Rome, Dec. 28.—Italy must remain faithful to the allies, but the government must prevent this country, after the sacrifices she sustained, from being treated without consideration," said Senator Bettioni at the resumption of the senate sittings yesterday. The senator asserted that Italy was tired of being disillusioned, especially with regard to the Adriatic, which he said, she hoped to control. "The Italians will preserve the aspirations of their hearts," he continued, "until the day comes when justice will triumph." Signor Bettioni dealt at length with the emigration question, examining into the reasons why emigration had not been resumed on a pre-war basis. Suspension of emigration during the war, the senator declared, caused an increase in population of two million above normal. It was difficult to find work for these people. He commended that the government make necessary arrangements to facilitate emigration, especially to Brazil, which country, he said, already received Italians with favor and treated them excellently. "Brazil has already been our friend," added Senator Bettioni. "President Pessoa, animated by the best sentiment towards Italy, sent us as the first Brazilian ambassador Dr. Martin de Souza Dantas, who is a true friend of Italy."

### DEMAND IN BRITAIN FOR CANADIAN MICA

Ottawa, Ont., Dec. 28.—A demand for Canadian mica in Britain is emphasized by Trade Commissioner Norman D. Johnston, writing in the current issue of The Weekly Bulletin of The Trade and Commerce Bulletin. British manufacturers have previously been using Indian mica but find the Canadian product more suitable. Several Paris houses are also asking quotations on Canadian mica in various grades.

### L. Harris Tells How Canada Can Aid Stricken Europe

Brantford, Ont., Dec. 28.—(Special)—The needs of the war-stricken countries of Europe were laid before the People's Forum this afternoon by Lloyd Harris, Canadian trade commissioner in London, who was visiting at his home here through the Yuletide holidays. Mr. Harris told of his personal experiences in his journeys in Europe, and outlined the assistance which was needed, and which Canada could assist in supplying.

### Think Dalhousie University Will Share Rockefeller Gift

Halifax, N.S., Dec. 28.—That Dalhousie University can expect a fair share of the Rockefeller foundation contribution to the medical work in Canada, was the opinion expressed by President MacKenzie. President MacKenzie was of the opinion that nothing very definite would be known for a month, as the foundation would undoubtedly make a survey of Canada before attempting to allocate this splendid sum.

### Expect Hon. Dr. S. F. Tolmie To Recover in Two Weeks

Victoria, B.C., Dec. 27.—Hon. Dr. S. F. Tolmie, minister of agriculture, is quarantined at his home here, suffering from diphtheria, which developed on Christmas Day, following a chill, which he contracted while traveling west. His physician states he will be able to leave his home within a couple of weeks if there are no complications.

### BELLE ISLE FACES SERIOUS CRISIS

Ice-Breaker Montcalm on Way With Winter Supplies for Government Employes.

Halifax, N.S., Dec. 27.—No word had been received here up to a late hour this evening regarding the plight of the government employes at Belle Isle, who are reported in a Quebec despatch as facing a dire situation as a result of the non-arrival of their winter supplies. Shipping men here do not disguise their anxiety over the situation. They recall that it was reported that the original intention of the marine and fisheries department was to send the supplies up by the ice-breaker Montcalm, but the decision was subsequently rescinded, ostensibly for the purpose of maintaining open a channel in the St. Lawrence as late as possible. They further recall that when the thirty-year-old Arammore was finally selected for the job, her officers and men pointed out the extreme danger of the enterprise in view of the condition of their ship. Then the Arammore with the supplies went ashore and the Montcalm was forced to make the trip after all. But the delay involved in transferring the cargo of supplies from the refloated and subsequently beached Arammore has served to make the task of reaching Belle Isle a formidable one even for an ice breaker of the known powers of the Montcalm.

DRURY STANDS FIRM OVER APPOINTMENT

Premier Wires, Supporting Nominee to Registrarship, on Ground of Fitness.

"It is said at parliament buildings that the man who is making the most noise over the appointment of a woman to the Middlesex registrarship is the man who was most anxious to get the position."

"Dear Mr. Currie: I received your letter this morning re the appointment of Miss Walker to the registrarship of Middlesex. To me the matter appears as one of public service and of getting the person who can best fill the position, regardless of what her past politics have been. In fact, I can see no half-way stopping place between filling appointments with the sole object of efficiency and slumping back to the old patronage system, which we all oppose so strongly."

As I see the matter the facts are as follows: Miss Walker, whose political past I know nothing, has been filling the position as deputy registrar very acceptably for some months. It would appear that if we adopted a simple business sense in making appointments, that as a matter of promotion she should have the office. I have investigated as to her qualifications and it appears that no one can argue anything against her on the ground of her not being able to fill the office efficiently. Then if we turn her down, it must be simply because she is not of our political group. If we did that it seems to me that we have fastened upon ourselves with all its evils, the old system of "to the victor belongs the spoils."

Your sincere friend, HAROLD CURRIE, Esq., Stratford, Members Back Premier.

Premier Drury also has the backing of J. G. Lethbridge, the U.F.O. member for West Middlesex, who declares: "The government did the right thing in the appointment of Miss Walker. As far as I have been able to determine, the farmers of this district, including the members of the U.F.O., are backing the government in the matter. I have discussed it with many farmers, all of whom seem to think that the government has done the right thing."

"Personally I do not see how they could well have done anything else. They have given their word to abolish that office."

"I was never asked directly by any member of the government."

"Where you ever approached by anyone on behalf of the government?"

"That's my business," replied Mr. Lethbridge. "With reference to Miss Walker I understand that she is quite efficient and capable and I am satisfied with the appointment."

Mr. Freoborn, the other U.F.O. Middlesex member, likewise approved the action of the government. He, too, thought that the farmers of the district were almost solidly behind the government.

Mr. Lethbridge and Mr. Freoborn denied having made other recommendations to the government at variance with the appointment of Miss Walker. Mr. Lethbridge stated that he had discussed the matter with the premier.

Harold Currie is standing by his guns, and insists that the row has only begun.

"I challenge anybody to say I ever applied for the job, or produce any record that I ever applied for it," he said.

Tells the inside story. The inside story of the row over the registrarship is told in the following despatch from London:

The arrangement that fell thru was to answer the often-asked question, "Where is Hon. Manning Doherty going to get a seat?" There is a large Catholic vote in North Middlesex, and J. C. Brown, the member-elect for that constituency, is reported to have been willing to resign and take the registrarship or some slight token of a country's appreciation.

Harold Currie was handling the deal. He has federal aspirations and, in recognition of his services, it was thought that a nomination for the registrarship might happen his way. But there is evidently lack of that get-together spirit at Queen's Park. Hon. Mr. Raney, acting on the Farmers' abolition of patronage platform and the petition to hand, went head and appeared to Miss Walker.

"Then came the blow-out. And if Harold Currie publishes the letter he has in his possession with the names of the most disappointed is Hon. Manning Doherty, minister of agriculture in the Drury cabinet. For a while it appears to be just the kind of seat he was looking for."

Storm Purely Local. All things considered, it is not regarded as in the least degree likely that the "abolish patronage" platform of the U. F. O. party will be affected.

The present storm in West Middlesex is purely local, and while it has caused a stir, there is no indication that it will spread. All the U. F. O. members-elect pledged to the line adopted by Mr. Drury, and they are not likely to be in the least degree influenced by an occasional "supporter" who strangely misrepresents the old-time ward heeler.

TOYLAND CIRCUS OPENS. Thousands of people will flock to the armories tonight for the opening of the G.W.V.A. Toronto District Command show, which is known as the International Toyland Circus. Lieutenant-Governor Lionel Clarke, Mrs. Clarke, Mayor Church and city officials, Sir John Eaton, Premier Drury, Gen. Emslie, Col. Dodge, Col. Maclean, and many other notables have been invited to conduct the opening ceremony. The Lieutenant-Governor and Mrs. Clarke have accepted and at 8.30 o'clock will officially declare the circus open.

Performances will be given afternoon and night for two weeks in a big ring which has been erected in the centre of the armories. Each afternoon inmates of the city orphanages, the convalescent soldiers in the military hospitals, and the war orphans will be admitted free.

The circus is composed of fifteen professional acts, including bareback riders, trick mules, clowns, acrobats, wire walkers, ponies and goats.

DENIES CHARGE HE IS DISLOYAL

James Simpson Declares Unfair Tactics Are Being Used Against Him.

James Simpson, at Mavey Theatre last night, replied to statements alleged to have been made in The Toronto Telegram, that while a member of the board of education he urged that no British flags be flown from school buildings, a statement said to have been quoted by J. Harry Flynn, president of the U.V.L. during the course of the afternoon meeting at Loew's Theatre, when Flynn pointed out that, altho Mr. Simpson's name had been considered, it had been thrown out for this reason: "That lie, which has unwittingly found its way into the ranks of the returned men, was fathered in the office of an evening paper of this city," said Mr. Simpson.

The facts are that when significance was drawn to the 100 years of peace between the two nations, Canada and the United States, some years ago, I suggested that we should cease to place flags on the schools to the memory of the Battle of Queenston, but that the British flag should fly from the school buildings every day. This is my reply to those insinuations upon which the refusal of the U.V.L. to endorse my candidature is said to have been based.

Mr. Simpson, in the course of his address, pointed to the need of doing for men who had stood by municipal ownership four-square for many years. It was the fashion today, now that this had become not only a desirable but also a necessary factor in the administration of the province to champion the cause of municipalization of public utilities. One needed only to hark back to the days of Mayor E. F. Clarke, in 1898, to find out who were the champions of public ownership and who were not.

Majority Candidate Speaks. James Ballantyne, Labor candidate for the mayoralty, spoke effectively upon the question of the Toronto railway of the future, and specially emphasized the need of voting for the man who could be depended upon to avoid class legislation. He placed upon Mayor Church and Controller McEwen responsibility for a bylaw calling for an unremunerated commissioner. Controller Maguire had glorified the harbor commission as the best evidence of the argument for a commission comprised of men working without remuneration. Would the controller explain why the best harbor development was adjacent to the Home Smith estate?

Taxation needed much reform, said Mr. Ballantyne. The transfer of the \$7,000,000 received from the T.S.R. into the current revenue fund was a form of bad administration, giving to the \$50,000 property comparatively many times the valuation accorded to the \$2,000 property because the Roseville family having limousines was not affected by the terrible condition of the street car service. Therefore, the money which should have gone into track improvement was transferred into an account which had for its purpose only reduction in taxation, a deduction which meant nothing to the owner of the \$2,000 residence.

A. E. Bond, Labor candidate for Ward Seven, also spoke and was accorded a hearty reception.

Significant of the fairness of the campaign, James Ballantyne, candidate for the mayoralty, was courteously received at the corner of Parkdale post of the G.A.C., held at the Amuse Theatre, at the corner of Queen and Northcote streets, yesterday. Mr. Ballantyne made a speech which addressed the meeting notwithstanding the fact that the association is endorsing Mayor T. L. Church.

Mr. Ballantyne deals principally with the acquisition of the T. S. R. by the city, which, he said, should be consummated by the vote of the electors on New Year's day. He took issue with the city council for allowing the matter to stand over for two years, during which time no effective steps had been taken in devising a public ownership scheme to the road was taken immediately the road was taken over.

He urged that the citizens vote against the bylaw calling for an unpaid commission to operate the road, because, between the ratemyas a discrimination to act without remuneration and those who could not. Mr. Ballantyne stated that the members of the harbor commission were unpaid and the improvements, which were in the proximity of the property of one of the members, had considerably increased its real estate value. He suggested that the commission should be composed of one sound financial business man, a representative of the city council, and a labor man.

Mr. Ballantyne was also of the opinion that those who created the franchise value of the T.S.R. should be allowed to vote on the taking over of the road. He said it was not the democratic principle of public ownership to hand the T.S.R. over to the duly qualified electors.

J. F. Marsh, organizing secretary of the G.A.C., denounced the T.S.R. as an enemy of the returned soldiers, and declared that the G.A.C. were out to beat him.

"He has stated," said Mr. Marsh, "that he only recognizes one soldier organization—the G.W.V.A. He has no right to discuss any soldier organization. We have left many a man older than he over in France with six feet of earth over him."

Other speakers were Ald. Geo. Ramsden, Ald. C. E. Blackburn, A. L. Gadsby, Capt. (Rev.) J. F. Tupper, J. H. Stanford, Joseph Bell.

Watch Night service will be held in Hope Methodist Church, Danforth ave., on Wednesday night, commencing with a special service of song and short addresses. Rev. A. I. Terry, pastor, will officiate. Arrangements were made yesterday in preparation for the final service of the old year.

Three juveniles, Percy Carlton, James Brown and Alfred Smithson, were arrested Sunday at Niagara Falls, Ont., for the Toronto police and are held on charges of theft. The boys are alleged to have entered the home of Mrs. Brown, 815 Erie terrace, last Friday afternoon and stole jewelry and \$87 in money. James Brown, one of the boys arrested, is a son of the complainant. The accused are said to have fled from the house during the absence of the mother by lifting an unlocked kitchen window.

After they had gathered their loot the three took a small dog and left for the Falls. The detective department was informed yesterday afternoon of the arrests and when a plainclothesman from Pope avenue station went over to inform Mrs. Brown of her son's arrest along with the two other boys, who live on Ashdale avenue, the officer was informed that the dog had already arrived back home. Whether or not the boys took the dog to the place where they were arrested is not definitely known. The dog was seen with the boys when they left home and Sunday afternoon was the first the family had seen of it. The police were informed that the juveniles had \$60 in money and the jewelry on their person when arrested. They will be brought back today.

FIVE MILLIONS TO COME TO CANADA. Dominion Will Share Rockefeller Gift to Promote Medical Education. Canada is to receive five million dollars for the perpetuation of medical research in this country from the great gift of one hundred millions, presented by John D. Rockefeller to the Rockefeller Institute in the United States. That Canada is to receive this huge sum is due, only to the great effort made by Dr. Alex. McPhedran of the University of Toronto. It was Dr. McPhedran who first conceived the idea of asking the institute if Canada might become a sharer in the fund donated by Mr. Rockefeller for the purpose of promoting medical education. Nothing definite in the way of an answer could be received from the institute officials at that time, as Dr. George E. Vincent, the president, was away on tour in China. However, word was finally received that the institute did not at that time see its way clear to donate any of the money to Canada. The donation of the magnificent gift by Mr. Rockefeller, however, changed the complexion of things, and on Friday last Dr. McPhedran received word from Dr. Vincent that Canada's donation had been set aside. Interviewed by a reporter for The Toronto World last night, Dr. McPhedran said he had applied to the Rockefeller board in October last. Dr. George E. Vincent, president of the institute, was here for the opening of Hart House, and to him Dr. McPhedran made a personal plea. Dr. Vincent was favorably impressed, but he said that nothing could be done at the time. "The great need in Canada today as for means to carry on medical education," said Dr. McPhedran last night, "is especially in the way of research work. There is a great need in the board of this fact that I applied to the board to help Canada in general, and, naturally, the University of Toronto, in particular. We are greatly in need of a staff of well-trained young men, with strong scientific minds, for research work, some of whom at least should give their whole time to this work. All institutions in this country need strengthening, and the great need is for one or two institutions which would be equal to the best in the United States. These institutions would be essential, and I hope that some public-spirited citizen may come forward to supply the deficiency. The letter from Dr. Vincent shows that the information given in October had made the desired impression, and with gratifying results. Just how much of the \$5,000,000 apportionment for Canada, the medical faculty of the University of Toronto will receive remains to be determined, but no doubt the amount allotted will be liberal. "It is highly gratifying to know, also," he says, "that other institutions are to benefit by the grant."

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto Limited.

MONDAY MORNING, DEC. 29.

The Aldermanic Candidates. In the election of the aldermen for the new council, one thing is kept in view is the necessity of having a council which will have harmony in itself, some ability to agree upon policies, and some concord in action so as to carry them out.

A Fair "Divvy" With Assistants. Enough has come out in the discussion of the Middlesex county registration to suggest that Premier Drury see that provincial or municipal officials who are paid by fees make reasonably fair division with the assistants that they have to employ.

It is freely admitted that labor should be well represented on the council in this and succeeding years. Lack of representation on governing bodies is now recognized in Britain as the cause of most of the industrial unrest.

Of those who are nominated to represent other interests, in ward one Ald. Hiltz has an excellent record. Ald. Honeyford is probably next in merit, though he has been parochial in his treatment of questions like those arising in North Toronto.

In ward two, Ald. Winnett should be re-elected, and Clara Brett Martin, whose long experience as a barrister and on the school board qualifies her for service, should be voted for.

In ward five, James Phinlmore is an excellent candidate, and Ald. Flewman, the erratic, has good principles. In ward six, Aids. Sykes and MacGregor have done good service this year and merit re-election.

In ward eight, Ald. Miskelly has been an excellent representative and may have Francis R. Maxwell for a partner.

The Drury Government and the Patronage Evil.

The much-heralded uproar over the promotion of Miss Minnie V. Walker to the registration of Middlesex county registers down in the last analysis to a temper in a teapot. Most of the uproaring seems to come from Harold Currie, prominent U.F.O. supporter in Middlesex, who wanted the plum himself.

Many of the newspapers have sought to magnify this Middlesex affair into a provincial crisis. They have represented the United Farmers of Ontario as so hungry for office and so devoted to the spoils system as to be willing to throw away the fruits of their recent spectacular victory and wreck the Drury government.

However, Mr. Drury will have to do one of two things if he is to rid the province of the patronage evil. He must either decentralize the system of appointment so as to make these county officials subject to election by the people of their districts, or he must bring down legislation to establish the merit system and place its administration under an independent board like the civil service commission at Ottawa.

THE COMING SESSION AND OTTAWA SITUATION

(From The Toronto Sunday World.) The Ottawa idea is that nothing will happen, but that the members will draw their pay and get home as quickly as possible. The Free Press insists that the first duty of parliament will be to pass a franchise act, which will be a practical admission that the attempt to do so would wreck the government.

There is much talk of the "round robin" signed at the last session, which requested the government to summon parliament in January and get thru by May. It was the sort of round robin, however, for which few precedents can be found.

But instead of meeting the first of January, parliament is to meet about the 24th May. This would mean a ten week session, and one of the shortest in Canadian history.

The general impression seems to be that the acting premier will pussyfoot along as softly as possible while Sir Robert Borden is gone, or until the time comes to choose his successor.

The Ottawa Journal, however, wants a strong man who will make a progressive leader of the government and have a free hand. Quite possibly The Journal, since the corner of his eye, sees Hon. Arthur Meighen, who if he once became acting premier, would possibly become leader later on.

John Stevenson contributes to The Farmers' Sun a breezy review of the recent political crisis. He refers to Sir Robert Borden as the Sara Bernhardt of Canadian politics, because he is always about to retire but never does.

The whole situation at Ottawa hinges on the temper of the house. If the members of the house are willing to postpone all legislation for another nine or twelve months, the session can be hurried thru without difficulty, and the government can carry on until it becomes necessary to meet parliament again in 1921.

Many authorities even so well informed as The Winnipeg Free Press take it for granted that the Union government will either blow up at the coming session or emerge as the head of a definite political party.

MILK PRODUCERS RESENTING ORDER

Meet Wednesday to Consider Refusal of Higher Prices.

The order of the board of commerce denying the milk producers the right to raise the wholesale price of milk from \$3.10 to \$3.35 per 5-gallon can, will be the subject of deliberation at a general meeting of the producers in Forrester's Hall, College street, next Wednesday afternoon.

The producers early in November decided to make the \$3.35 price effective on Dec. 1, but action was deferred at the request of the board of commerce, which immediately proceeded to take evidence bearing on the necessity for an increase.

The general impression seems to be that the acting premier will pussyfoot along as softly as possible while Sir Robert Borden is gone, or until the time comes to choose his successor.

The Ottawa Journal, however, wants a strong man who will make a progressive leader of the government and have a free hand. Quite possibly The Journal, since the corner of his eye, sees Hon. Arthur Meighen, who if he once became acting premier, would possibly become leader later on.

John Stevenson contributes to The Farmers' Sun a breezy review of the recent political crisis. He refers to Sir Robert Borden as the Sara Bernhardt of Canadian politics, because he is always about to retire but never does.

The whole situation at Ottawa hinges on the temper of the house. If the members of the house are willing to postpone all legislation for another nine or twelve months, the session can be hurried thru without difficulty, and the government can carry on until it becomes necessary to meet parliament again in 1921.

Mr. R. J. Dilworth, chairman of the executive committee reported to the meeting the improvements to the clubhouse.

Mr. T. A. Brown, the chairman, presented the report of the house committee and gave much praise to the secretary, Mr. Mason and his staff for their very efficient management.

**Chicago Sailor President of the Yacht Racing Union.**  
Chicago, Dec. 28.—Honors did not come shyly to the Chicago Yacht Club when it was elected to two important offices in one day.

The Lake Michigan Yachting Association had been accorded the privilege of naming the 1920 president of the Yacht Racing Union, the organization that controls all yachting competition on the Great Lakes, and at the annual meeting held at the Hotel Sherman, Mr. Clark was chosen for the office. In the evening he was elected commodore of the Lincoln Park Yacht Club for the ensuing year.

Mr. Clark is well known all around the Great Lakes and has for several years been prominent in the sailing and motor boat racing. He was secretary of the Chicago Yacht Club for a number of years and later was one of the leading spirits among those who promoted and controlled power boat racing in the upper waters. He recently purchased the Cleveland racer Pam, one of the fastest Class R boats on the Great Lakes, and will use it as the Lincoln Park Yacht Club's representative.

**Manager Says Madden Hopes to Come Later.**  
Sporting Editor World: I have been informed that stories have been sent out from New York City that my protégé, Bartley Madden, is to move to Toronto, Levisky in Toronto, Jan. 1. The fact is that about two weeks ago I signed articles to have Mr. Madden, who is now in Kalamazoo, Mich., on his way to Chicago. I have no agreement, however, for Bartley Madden to appear in Toronto, either at some later date or to be pleased to have him meet Levisky in Toronto.

## OTTAWA SHUT OUT LES CANADIENS

### ST. PATS OPEN AT HOME WITH A WIN

Ottawa, Dec. 28.—Ottawa defeated the local arena Saturday night 2 to 0. It was their second straight shut-out, and they have not yet been scored against. The game was originally scheduled for Montreal but had to be transferred to Ottawa owing to the fact that the new Mount Royal arena has not yet been completed. About 7000 people saw the big struggle. Their Excellencies the Duke and Duchess of Devonshire, with Lady Rachel Cavendish and a party of guests from Government House, occupied the vice-regal box, and followed the play closely. Unfortunately the weather had turned mild and the ice became slushy, reducing the possibility of fast play as the rubber rolled along, and neither team could get their combination working. The Senators outplayed the Canadiens from start to finish, and would have scored offhand had it not been for the magnificent work of Vesina in the net. The Canadiens had a comparatively easy night. Ottawa led by seven minutes after play began in the first period, when Sprague Cleghorn rushed from end to end and drove in a terrific shot, which Vesina did not see. Again and slipped the puck over the broadboard, who made it 2 to 0 amid terrific cheering. After that Ottawa held the scoring. McKelvey and Carson could not score, they got close in the second period, but the Senators started their attack in the third. Vesina and Carbeau were the pick of the Montreal team. The line-up: Ottawa (2)—Goal, Vesina; center, Cleghorn; cover point, Gerard; center, Niendor; right wing, Broadbent; left wing, Darrah; Ottawa subs., Soucher, Deneny, McKelvey and Bruce.

## KITCHENER ELECTION PUZZLES PROPHETS

### There Are No Favorites; All Have Equal Chance—Hydro Only Issue.

Kitchener, Dec. 28.—(Special).—With three in the field here for the mayoralty there is little interest, being manifested in the contest. None of the candidates has any definite following, and all, owing to the general indifference, seem to have an equal chance of election. There are no candidates either for mayor or for council, because they feel such a move would consolidate the opposition. The opposition is dormant as far as any political action goes. They are looking for a demonstration of solidarity would result in a repetition of the disturbances of Dec. 1. Both sides seem willing to forego a test of strength at the polls on Jan. 1, and as a result those whose names are on the ballot are largely a representation of neutral attitudes. Those seeking election to the council are men whose platform is Kitchener's future rather than Kitchener's past.

The Hydro radial bylaw is the only issue creating any interest here. The labor element of the community are strong for it, while the manufacturers and merchants are opposing it. Legal opinion was obtained yesterday by the commission to the effect that all the statements and letters from the Hydro Commission could not affect the agreement once the bylaw is passed.

## POLAND WILL RESUME INDUSTRIAL PRODUCTION

Warsaw, Dec. 7.—Plans contemplating the possibility of the importation of materials necessary for a resumption of industrial production and for exportation in spite of exchange conditions, were outlined to correspondents today by M. Grabaki, minister of the treasury. Mr. Grabaki said the Polish mark would be the monetary unit temporarily and that new money would be issued only when a gold reserve had been accumulated. Treasury revenue will be augmented by increased taxation and internal loans.

## DANISH ATHLETIC AUTHORITY ON MERITS OF OLYMPIC CANDIDATES

Scandinavian countries are beginning to evince interest in the Olympic games, to be held at Antwerp next August. In a recent discussion of the merits of some of the athletes who will represent these nations, Emil Anderson, an athletic authority of Copenhagen, said to American Amateur Athletic Union delegates:

"The United States is sure to be the first nation at the Antwerp games. At all events I cannot see what country's athletes can beat the Americans. All I have not heard, so far, about competitors over there, I feel pretty confident that the very day they start, it will be on a big scale."

Expert Track Authority.  
The Copenhagen expert who is acknowledged to be an authority on track and field athletics throughout Scandinavia, says that Denmark, Norway, Sweden and Finland, not except to score in the sprints in the 400 meters. Sweden has a first-class man, Nils Engdahl, with a record of 48 1/2 seconds in this class. Such a man as Bolin, he says, will have no chance in the 800 meters against Joe Ray, Fay or Devaney, whom he calls American "fliers". G. Hill of England, he thinks, will be a dangerous opponent in the 1500 meters, as he has a record of 4:18 2/5 for a mile.

In the longer runs, Anderson believes, that John Zander of Sweden will be heard from at Antwerp, providing he regains his former condition. He holds the same opinion of Backman and Rudolph Folk of Sweden, and Nielson, Dam and Anderson of Denmark, who are fine distance runners. The Swedish pair, he claims, will be hard to beat.

As to the field events, he says: That the pole vault and the running high jump may go to the United States. Ekstrand of Sweden is a great high jumper, while Hogstrom, from Sweden, and Peters and Rasmussen, of Denmark, can go close to four meters with the pole. Ekstrand, he asserts, is a wonderful athlete who will outpace the best, while Peters of Sweden will be a worthy opponent for Worthington or Butler in the running broad jump.

If America wins the hammer-throw end stonput, it will not be without stiff opposition from Finland and Scandinavia. Ekstrand, he asserts, is a wonderful athlete who will outpace the best, while Peters of Sweden will be a worthy opponent for Worthington or Butler in the running broad jump.

Wild Bert Kenny and Not Madden to Meet Levisky  
It will be Wild Bert Kenny and not Bartley Madden who will meet Levisky at the New Year's boxing show to be held at the Arena under the auspices of the United Veterans League. Madden would not meet Levisky. The U. V. L. was not caught unprepared; they had a second string to their bow in Kenny and immediately got in touch with his manager, Charlie Kenny, who jumped at the chance of meeting Levisky. Kenny, the perhaps not as well known as some of the other heavies, is a tough but he has the distinction of carrying the Champion Dempsey along for ten rounds at the Fairmont Club in New York, two years ago.
