Lord Salisbury Numbered With the Dead Great Figure Gone From Imperial Stage

End Came in the Fiftieth Anniversary of His Entrance Into Public Life.

London, Aug. 22.—Lord Salisbury died peacefully at 9.05 o'clock tonight. For forty-eight years it was seen that the end was inevitable. Even the administration of oxygen failed of effect this evening. A few minutes after 9 o'clock the former Premier turned slightly towards his favorite daughter, Lady Wendeline Cecil, who was kneeling beside him, and then quietly breathed his last. All the members of his Lordship's family, except Lord Edward Cecil, were at the bedside.

The village of Hatfield, which still retains many features of the feudal period, was filled with anxious residents awaiting the news of Salisbury's demise. Finally the news came, when a half-past seven dash to the house of a half-past seven, saying as he passed: "He has gone," and then disappeared in the church. Soon thereafter the bell from the tower above tolled slowly, in memory of the celebrated statesman.

King is Notified. Viscount Cranborne, who now assumes the title of Marquis of Salisbury, immediately notified King Edward and Queen Alexandra, the Prince and Princess of Wales and others, including Lord Edward Cecil, the soldier son of Lord Salisbury, his only child in the Marquis's line, and the only child of the Marquis's late wife, who died in 1892.

When he resigned. When the Liberals were defeated in the elections of 1895, and the Rosebery ministry went out of power, Lord Salisbury again assumed the premiership, but even at that time it was recognized that the actual control of affairs was rapidly passing into the hands of younger men. He remained at the head of the Unionist ministry until June 11, 1902, when his advanced age and ill health, added to the mental

AS AN IMPERIALIST.

In his last public speech as Premier, Lord Salisbury said in effect: "I see but one threatening danger before the empire—the danger of an impetuous desire to outpace public feeling in the evolution of Imperial unity. Imperial unity, if to last, must be of gradual growth, step by step, as need arises. This warning, spoken before Mr. Chamberlain had breathed a word of his present campaign, was probably aimed rather at the military than at the fiscal imperialists."

Robert Cecil had just returned from a visit to the Australian gold fields he became a member of the House of Commons for Stamford, which was a half-past seven dash to the house of a half-past seven, saying as he passed: "He has gone," and then disappeared in the church. Soon thereafter the bell from the tower above tolled slowly, in memory of the celebrated statesman.

When he resigned. When the Liberals were defeated in the elections of 1895, and the Rosebery ministry went out of power, Lord Salisbury again assumed the premiership, but even at that time it was recognized that the actual control of affairs was rapidly passing into the hands of younger men. MISS CURZON DROWNED BATHING AT GO HOME BAY

New York, Aug. 23.—The Tribune says: There is a possibility that Canada will challenge for the Cup in a few years. This announcement was made on the Erin yesterday by Capt. Arthur G. Peuchen of the Royal Yacht Club of Toronto, owner of the yacht Vreda. He says that about \$100,000 has already been pledged in Canada for the construction of a challenger, and interest is keen.

Owing to the rule that the challenging club must have a deep sea racecourse, the challenge, he says, will be issued, in all probability, through the Halifax Yacht Club. An interesting part of the Canadian plan as outlined, is the crew of the possible challenger, which will be entirely made up of volunteer sailors, a "gentleman" crew. This will both reduce expenses and testify to the somewhat absorbing interest in the sport for its own sake. Mr. Peuchen could set no definite date for the challenge.

Penangulshene, Aug. 23.—Miss E. M. Curzon, B.A., professor of chemistry in the Lillian Massey School of Domestic Science, was accidentally drowned this morning at Go-Home, Georgian Bay, off the island where she was camping. She was in bathing alone at the time and got into water beyond her depth. Her friends on the island were not aware of her danger in time to rescue her. Help was summoned with all haste from the nearest island, Prof. McCurdy's, some distance away, and promptly on arrival Mr. John McCurdy dived for the body and brought it to the surface. It was lying in ten or twelve feet of water, and some twenty-five feet from the shore. Over half an hour had, however, elapsed, and although prompt efforts at resuscitation were made by several physicians who were soon at hand, these were unavailing.

Miss Curzon, who was a daughter of the late Mr. Sarah Ann Curzon, the well-known writer, and member of the Ontario Historical Society, graduated from the Lillian Massey School of Domestic Science, to join its staff. She was identified with the movement to womanhood for the University of Toronto, and took an active interest in all women's societies in the University. She was a member of the Madawaska Club at Go-Home, who she deeply deplored the loss of.

Two Men Drowned. Guelph, Aug. 23.—Last night Arthur Bradley of the Trades' Bank and Raymond Maddock, book-keeper in Rayman Manufacturing Co.'s office, while going up the river in a canoe to their camp, were drowned. The bodies were found about 3 o'clock this morning. Bradley's people are residents of Mount Forest, and Maddock's live in Ingersoll. Neither of the young men could swim.

Fell From Bridge, Drowned. Newtonville, Aug. 23.—Little Cecil Newton, youngest son of Wesley Newton, blind, and his two other small boys went out bathing this afternoon. They were on the railing of the bridge over the river, and fell into about 6 feet of water, and was drowned.

Killed Lancing Hay. Winnipeg, Aug. 23.—Irish Young, one of the best known farmers of Griswold, was accidentally killed on Saturday while lancing hay at the station near the city. He was unharmed and 58 years of age.

Fish Poacher Ran. Barrie, Aug. 23.—Fishery Overseer Beardsley and a couple of constables made a big haul about 10 miles east of here on Friday afternoon. The scarcity of fish in this neighborhood during the summer aroused the suspicion of Isaac Boone of Alliston, who was set on the movements of certain parties.

On Friday afternoon while patrolling the bay, Beardsley and his men, in a launch, succeeded in raising about three quarters of a mile of net, which, after investigation, proved to be the property of Isaac Boone of Alliston. The constables on shore attempted to arrest Boone, but he made his escape to the shore, but as they did not appear to have been aware of Boone's manoeuvres they were allowed to go. Boone, who is a fisherman, has been laid against Boone it is extremely probable that he will make a determined effort to retain his freedom.

Three Men Killed. Tweed, Aug. 23.—The Ontario Powder Company's packing house here, blew up at 10 o'clock this morning. The names of the three employees who were at work at the time are Lyman Moon, Charles Moon, and Edward Tilton. All three were blown to atoms; in fact, nothing can be found of them. Every building in town was shaken, and many windows broken. All three men killed had families.

Turned Back by Alliance. Passenger Steamer From Buffalo Not Allowed to Land at Port Colborne. Port Colborne, Aug. 23.—The steamer City of Grand Rapids advertised a Sunday excursion from Buffalo to Port Colborne and return for today, but the steamer was not allowed to land her passengers, owing to the boat being unable to obtain a clearance from the custom authorities here. A great many farmers had driven in to meet the boat, expecting to see their children and friends. One dear old lady in the garb of a Memoire asked why the boat was not changed, as surely there was no harm in people coming by boat on a Sunday to see their relatives and friends. She said she knew her daughter was on the boat and she wanted to see her so much. The steamer came as far as the new breakwater and turned back to go to Buffalo with a disappointed crew on board.

Try the decoder at Thomas's. Did you ever try the top barrel? BRITISH AND GERMAN FIGHT. Queenstown, Ireland, Aug. 23.—There was a disturbance last night between British soldiers and some German sailors belonging to the corvette Stosch on the beach here. The German, one soldier and a resident of Queenstown were stabbed.

DEVLIN IN OTTAWA. Ottawa, Aug. 23.—Charles Devlin, M.P. for Galway, Ireland, arrived today and left immediately to visit his parents at Aymer, Que.

Was Professor of Chemistry at Lillian Massey Training School, This City.

This will both reduce expenses and testify to the somewhat absorbing interest in the sport for its own sake. Mr. Peuchen could set no definite date for the challenge.

Bourassa Takes His Fling At Chamberlain and Minto

Montreal, Aug. 23.—(Special.)—Henri Bourassa, M.P., spoke here this evening on his old hobby, Imperialism, attacking Mr. Chamberlain and Lord Minto right and left. He, however, paid a warm tribute to Col. Denison, who he said, was most sincere and honest in all he said and did.

Mr. Bourassa, termed the recent congress of Chambers of Commerce M.P., Chamberlain's electoral committee. Criticizing the different resolutions of the congress, he declared that the Colonial Secretary would use the findings to further his political ends. He wanted it understood, however, that Lord Minto is not the maker of Canadian commerce and of Canadian votes.

Called by Chamberlain. The congress, Mr. Bourassa said, had met in Montreal at Mr. Chamberlain's bidding, simply because there was a good crop of Jingoes in Canada. Mr. Bourassa strongly denounced George E. Drummond's defence resolution, and declared that the Chamber of Commerce of Montreal had been fooled into accepting a proposition from Col. Denison, which sacrificed the principle of the defence of Canada to that of the general defence of the whole empire.

Each Defend Itself. Each colony, Mr. Bourassa contended, should defend itself and thus make the defence of the empire easier. Mr. Bourassa further contended that Great Britain was at war with another nation the opposing power should not be considered the enemy of the colonies, if the latter were kept out of Chamberlain's imperial entanglements.

Paris, Aug. 23.—One of the greatest criminal trials in the history of France culminated to-night, when the jury in the Court of Assizes rendered a verdict of guilty against Therese and Frederic Humbert and Romaine and Emile Daurignac. After a brief deliberation the court sentenced Therese and Frederic Humbert each to five years, and to a fine of 100 francs; Emile Daurignac to three years, and Romaine to two years. Frederic Humbert was also sentenced to the shock of conviction, his face assuming a ghastly pallor. Romaine and Emile Daurignac preserver an air of stolid indifference. Therese thanked her lawyers and then calmly announced she was ready to go to prison.

The chief event preceding the verdict was the dramatic revelations which Therese Humbert had so long promised in the making of which she disclosed the same genius which has marked her entire career as indicated by her selection of the mysterious name of Regnier as the real Crawford. Regnier is the real Crawford, former Frenchman war as the intermediary between Prince Bismarck and Marshal Bazaine for the surrender of Metz. Court, jury and spectators alike were unconvinced, as her references to Regnier were most vague, and did not explain his relationship to the young Crawford.

It was apparently a part of Therese's impressive mystery to create the impression that Regnier had received a vast sum for inducing Marshal Bazaine to surrender Metz. There were various other revelations which Therese and Frederic being guilty of forgery and swindling five bank-rupts were found guilty of swindling Reute Viagers.

MURDERED IN 1881. Alex. J. Kennedy of Glenora Disappeared Then in Portland. Portland, O., Aug. 23.—(Special.)—In 1881 Alex. J. Kennedy, formerly of Glenora, Ont., disappeared from this city. Now the police have discovered that he was murdered. His family now reside in Ashland, Wis.

LILY LANGTRY ARRIVES. New York, Aug. 23.—Lily Langtry, the stage celebrity who reached this country here on the steamship New York.

Off to the Canadian Sea Canada to Claim Islands Expedition Starts to Possess Lands in Baffin's Bay and the Arctic.

Halifax, N. S., Aug. 23.—The Newfoundland sealing steamer Neptune, purchased by the Dominion government, left this afternoon for an expedition in Hudson Bay, Hudson Straits and Baffin's Bay, to continue for a year and a half. Its object will be to conduct, on behalf of the Canadian government, a geological, botanical and natural history investigation of that part of North America, to formally proclaim British sovereignty over certain lands, and to report on alleged smuggling operations in Hudson Bay. The expedition is in charge of A. P. Lowe of Halifax.

The Neptune will proceed to Nachak, on the Labrador coast, and in November will go into winter quarters north of Chesterfield Inlet. From there sledging operations will be conducted in various directions. The steamer, after coming from the ship next July, will go up Baffin's Bay to Greenland, to Cape York, thence into the Gulf and northward until she reaches Arctic pack ice, taking formal possession of all the lands on the western side of Baffin's Bay and returning by way of Lancaster Sound. She will penetrate as far as the ice will permit, taking possession of the Arctic islands she passes.

By September, 1904, the Neptune will be at Chesterfield Inlet, where Major Moodie of the Mounted Police, Governor of the Hudson Bay section, will be landed. She will then go into Hudson Straits.

All roads are Asphalt to the "Kelly-Springfield" Rubber Tire. The most satisfactory Vehicle Tire ever produced. Manufactured solely by THE GUTTA PERCHA & RUBBER MFG. CO. of Toronto, Limited.

THOMAS OAKLEY MAY DIE FROM A BROTHER'S BLOW

Was Hit With Ale Bottle After Quarrel, Result of Old Family Trouble.

Thomas Oakley, living on Spadina-avenue, lies in St. Michael's Hospital possibly mortally wounded as a result of a fight with his brother Sam at the corner of Queen-street and Coxwell-avenue between 7 and 8 p.m. Saturday. An old family feud is attributed as the cause for a conflict between Samuel and his two brothers, William and Thomas. There have been quarrels and fights between these brothers for years.

Thomas Oakley, a married man with two children, has been living with his parents for some time. Sam has just returned from the States, and it is said left his wife and two children in Detroit. He only returned to Toronto about four months ago, residing at Mr. Chariton's, Coxwell-avenue, where he had a piano and a few other things. He had been employed at one of the piano factories in the States.

The fight first started in the Woodbine Hotel about 5 o'clock. William, the third brother, had gone to the Chariton home and requested Sam, who was then engaged varnishing stove pipes, to go over with him to the hotel for a drink. Sam went. He met Thomas and all three had several drinks. Then the old trouble was revived. Angry words ensued, and before any one could stop them Thomas and Sam were exchanging blows. William was prevented from striking a hand in this encounter.

All three left the hotel, Thomas and William, who had their bicycles, going out first. Sam, who purchased a quart bottle of ale, followed them a few minutes after, being met then at the corner of Coxwell-avenue just a block away from the hotel. His two brothers had apparently waited for him for some time. As he came up Thomas made a motion to get something in his hip pocket, and William made a motion as if he intended an attack on Sam. Peering, no doubt, that his brother was about to draw a revolver or billy Sam threw the ale bottle, striking Thomas over the left eye with such force that a wound a half an inch deep and one and one half inches long was the result. The injured man was taken to a nearby house, where he awaited the arrival of a carriage to take him to St. Michael's Hospital.

The police are now looking for Sam Oakley, who, it was learned, had not returned to his boarding house, and is thought to have left the city. At a late hour last night it was learned that the injured brother had regained consciousness, and that the doctors were hopeful of his recovery if meningitis trouble does not set in.

FLEET SAILS AWAY. Sultan Agrees to Russia's Demands and War is Satisfied. St. Petersburg, Aug. 23.—The Russian Black Sea Squadron, which was ordered to Turkish waters, and which arrived at Istanbul, Eastern European Turkey, Aug. 19, in order to support Russia's demands on the Sultan, growing out of the assassinations of M. Borchgrevink, Russian Consul at Constantinople, and Russian Consul at Monastir, has been recalled to Sebastopol, the squadron's point of departure, and has left Turkish water. The recall of the Russian squadron followed on a nomination of the Sultan, which was accepted by the Russian demands to be complied with.

KAISER ARRESTS EDITOR. Berlin, Aug. 23.—Carl Leid, editor of the Vorwaerter, has been arrested on the charge of lese majeste. In an editorial in his paper he stated that Emperor William intended to build a fortified castle on the island of Fichela Overlook in the River Havel.

No Visitor Should Overlook It. No getting over the fact that Canada is the biggest fur-producing country in the world. There have been some local fur-trappers in the land should remember this, for furs are better and cheaper here than elsewhere. Dineen, corner of Temperance and Yonge-streets, is the biggest fur trader, and a visit to the palatial showrooms will convince anyone of values and exceptional qualities in fur goods. All the skins are in, and the fall fashions also.

SOME SCATTERED SHOWERS. Meteorological Office, Toronto, Aug. 23.—8 a.m. rains have occurred over Alberta, Calgary reporting nearly two inches. Elsewhere in the Territories there have been some local showers as well as in Manitoba. In Ontario, Quebec and the Maritime Provinces the weather has been for the most part fine.

Minimum and maximum temperatures—Victoria, 54-66; Calgary, 44-50; Qu'Appelle, 46-55; Winnipeg, 46-70; Port Arthur, 54-68; Toronto, 54-70; Ottawa, 56-72; Montreal, 52-70; Quebec, 44-64; Halifax, 52-72.

Probabilities. Lower Lakes—Moderate winds mostly north and east; a few scattered showers, but for the most part fair; not much change in temperature.

Georgian Bay—Light to moderate winds; fair; not much change in temperature.

Ottawa Valley, Upper and Lower St. Lawrence—Light to moderate winds; fine; not much change in temperature.

Gulf and Maritime Provinces—Moderate to fresh westerly to northwesterly winds; fine; not much change in temperature.

Lake Superior—Northerly to easterly winds; fair to-day; light showers during the night or on Tuesday; not much change in temperature.

Manitoba—Showers and local thunderstorms, but partly fair and cool.

THE WORLD AND THE RIVAL CATTLE YARDS. Mr. Robert Fleming, City Assessment Commissioner, who was recently placed in charge of the city's Western Cattle Market, sent to The World on Friday night a copy of a resolution passed by certain live stock dealers of the city, complaining that the reports appearing in The World in connection with the Toronto Junction Stock Yards and the city Cattle Market were unduly biased in favor of the Junction yards, and consequently unfair to the city; and that the attention of The World should be called to this statement, especially in view of the fact that this newspaper and Mr. Maclean are favorable to municipal ownership.

As we pointed out on Saturday, The World is a newspaper before anything else; and in the next place The World happens to be recognized by the farmers, drovers, live stock men and butchers of the province as the leading authority on the cattle trade in this country. As a matter of fact, nine out of every ten of them in the Province of Ontario subscribe to The World, and rely upon The World altogether for live stock reports. The World has made a specialty of this business for a number of years, and there is hardly a week that there is not a leading article on the situation of the cattle trade in our columns.

We regard it, therefore, as our first duty to give all the news in connection with the cattle trade, no matter whose market is concerned or whose cattle is bought or sold, or whose interests are affected. We print the news and all the news in connection with the cattle trade. And having said this much, we have only to repeat that we have always said that The World believes in a municipal-owned cattle yard, and for years and years urged the City Council to take steps to improve the facilities and hold the trade at the city's location. Furthermore, The World has always been friendly to the efforts of the Grand Trunk Railway to keep the trade centered in Toronto; but when the Mayor and Council of Toronto Junction called at the World's office some days ago and directed The World's attention to the treatment that the alleged Grand Trunk Railway was according to patrons of the Toronto Junction Cattle Market, The World sent a reporter to the Junction and investigated the situation and published, as it was bound to publish, all the news in connection with it. The news so published conveyed the impression that the Grand Trunk Railway had been unfairly discriminating against the Junction yards. As a newspaper, The World is bound to give the facts and the news, and intends in future to give all such news, no matter what its views may be in the matter of public ownership.

The World sympathizes with Mr. Fleming in the task that is before him. If he had been appointed master of the Cattle Market two or three years ago, we have no doubt but that his energetic methods would have saved the city market. He may yet be able to save it, but he will not be able to save it by holding The World responsible for what he may not be able to accomplish. In the meantime we invite the twenty-five gentlemen who signed the protest against The World to give one specific instance wherein its reports were unfair to the Toronto Cattle Market. It is easy to make a broad statement; it may be a little more difficult to give a specific instance bearing out the assertion. Mr. A. M. Buck was the first one to sign. Mr. Buck will kindly take the stand and make good his allegation.

PARLIAMENT AND PUBLIC OWNERSHIP. Since the introduction of the Grand Trunk Pacific scheme there have been several declarations in parliament in favor of public ownership. We may place first the resignation of the Minister of Railways, who is a strong friend of the Intercolonial and in favor of extending the government railway from Montreal to the Georgian Bay.

Next, on Aug. 3, Mr. Maclean proposed to nationalize a railway from Montreal to the Georgian Bay, and from Port Arthur to Winnipeg, making the latter a first-class railway and giving the Grand Trunk running powers over it. For the present, he would use the water route from Georgian Bay to Port Arthur. For an all-rail route, the Canadian Pacific north of Lake Superior might be nationalized. On Aug. 13 Mr. Blair in opposing the government plan, advocated the extension of the Intercolonial by Dupont Harbor. On Aug. 15 Mr. Borden, leader of the opposition, declared in favor of the extension of the Intercolonial to Georgian

Bay, and of the nationalization of the Canadian Pacific from North Bay to Port William, the government to make necessary improvements and give all railways running powers. On Aug. 19 Mr. Puttee, labor member for Winnipeg, moved an amendment to the government plan, an amendment declaring in favor of public ownership. The amendment was seconded by Mr. Jabel Robinson, independent member for West Elgin.

The Toronto Globe, the one that supports the Grand Trunk Pacific, is also in favor of the extension of the Intercolonial to Georgian Bay. Here is a considerable body of opinion in favor of national railways. We are quite sure that this opinion is far stronger in the country than in the House of Commons. The government and the Liberal newspapers are well aware of the strength of the feeling, and when Mr. Borden announced his adherence to national ownership, the ministers and their friends were visibly disturbed.

But now comes The Globe, on what authority we do not know, declaring that the Conservatives who applauded Mr. Borden will not vote for Mr. Puttee's resolution in favor of public ownership, and that the opposition are embarrassed by the situation. Time will show whether this is true; but certainly the man who admires Mr. Borden's speech, and yet opposes or sneers at public ownership, is in a very strange position. The chief merit of the speech lay in its advocacy of national railways.

That may be regarded as a prejudicial opinion, coming from a journal that has always advocated national railways. But our opinion is that the policy would be good, not only for the country, which is the main thing, but for any party that chose to inscribe "national railways" on its banners. The people are tired of death of worn-out issues, party cries, names and shibboleths. They would have a clear-cut policy not only for its intrinsic value, but because it would freshen, invigorate and purify the political life of the country. It does not make a particle of difference what party label is affixed to the men who hand out the offices all the way from the judges and senators to the letter carriers. Some of these appointments will be good and some bad, under any party, anyhow, always and under all circumstances.

But to the ordinary citizen it does make a difference whether the railways belong to the people or to the corporations, whether he pays two or three cents a mile for riding on the railways, whether telephones are supplied at a price that makes them luxuries for the few, or cheap conveniences for the many. We therefore think there will be a rush for the government ownership platform, by those who think it is right, and by those who think it is good politics. It is always so. Every good cause is advanced by people with all sorts of motives, good, bad and indifferent. The main thing is that the cause is advanced. But we repeat that we hope The Globe's article is not well founded; we hope there are few politicians so shortsighted as to try to combine admiration for Mr. Borden's speech with contempt for all that is best in the speech.

NO CAUSE FOR ALARM. The resolution passed by the Congress of Chambers of Commerce in regard to Imperial defence is so judiciously framed that it is difficult to see how Mr. Bourassa and his friends can make much capital out of it in Quebec. It is in these words: "It is resolved that this congress hereby approve the principle that it is the duty of the self-governing colonies to participate in the cost of the defence of the empire. The colonies themselves, by the exercise of their own initiative as to the nature and mode of help to be rendered, agree to offer in the future to the British empire."

In this resolution Col. Deane managed to combine the ideas of the French and English commercial bodies. While the duty of participation in defence is laid down, the matter is left on an entirely voluntary basis. Not a dollar can be spent without the consent of the parliament of Canada, in which the French-Canadians are fully represented. The qualities which are the theme of most of the current gossip about Lord Salisbury are, as we might expect, superficial qualities, such as his wit and his apparent indifference to public opinion. Everyone that we have refused to share the general alarm about the advance of Russia on India, and said that it was due to "small maps." Everybody knows that he characterized Gladstone's device for carrying the Paper Duties Bill as worthy of an attorney rather than a statesman, and then laboriously apologized to the attorneys. Many people are rather attracted, as they were in the case of Lord Melbourne, by the apparent combination of strength with ease and with indifference, giving an impression of reserved power. It has been doubted whether, in Melbourne's case, there really was the reserved power. In Salisbury's case we have the solid facts, that he was a highly successful Foreign Minister and a highly successful Prime Minister. In the Foreign Office difficulties had a way of disappearing under his hand. As Prime Minister he kept together a party composed of very diverse elements, and pulled it through serious difficulties. We should say that the best explanation is the simplest—that he was a thorough workman in statesmanship—a man of solid ability, devoted to his duty, who went at his tasks in the same sober, downright, thorough spirit as a good mechanic or business man. Interupt such a man at his task, ask him to gaze at some spectacular speech, and he is quite likely to make a snuff, sarcastic or careless reply. Something like this is the picture we have formed, rightly or wrongly, of Lord Salisbury.

Another Long Year. Before another \$1000 Atlantic City excursion is run, so avail yourself of the last opportunity. Tuesday, Aug. 25th, via Lehigh Valley R.R. Tickets only \$10 from Suspension Bridge and return, good 15 days. Tickets good on "Black Diamond Express." Call at L.V. Office, 33 Yonge Street, for particulars.

When Teachers Marry. London, Aug. 23.—In the report of the Board of Education the complaint is made that the average professional school teacher is in his seventh year of matrimony owing to the havoc wrought by a man of solid ability, devoted to his duty, who went at his tasks in the same sober, downright, thorough spirit as a good mechanic or business man. Interupt such a man at his task, ask him to gaze at some spectacular speech, and he is quite likely to make a snuff, sarcastic or careless reply. Something like this is the picture we have formed, rightly or wrongly, of Lord Salisbury.

A BABY THAT CRIES. At night almost sure to be a sick baby. It is wise to remember that the most agreeable and effective remedy for the ill of young children is a few drops of Polson's Nervine in sweetened water. It only requires a few drops of Polson's Nervine in sweetened water or drive away cramps—silly at once goes to sleep, and quiet prevails. Polson's Nervine is just as good for older folks and is a remarkably swift cure for stomach and bowel troubles, sick headache, indigestion and summer complaint. Polson's Nervine is sold in every home and druggists call the doctor for 25 cents.

The Toronto Daily Star Will Have a More Complete List

T. EATON CO. LIMITED

190 YONGE ST., TORONTO

ALL JUST ABOUT READY FOR THE GREAT OPENING

Matters Well Advanced on the Exhibition Grounds--Jubilee Presents in Place.

The Jubilee presents have arrived and are being installed at the Exhibition. They are valued at ten million dollars, and so precious are they that a guard from Stanley Barracks are kept constantly present. When the Exhibition opens the number will be doubled. Some of the articles, so small that they could be thrust into a coat pocket, are valued at hundreds of thousands of dollars. The rare collection is under the grand stand and will be free to visitors after the gates are thrown open. Special Agent Christie is in charge, as he always is when the collection is subjected to public inspection. There are a score of big glass cases filled with jewels, gems and precious caskets.

One bit of Egyptian work, a cup and saucer, required an expert workman three years to complete. It is gold laid with precious stones. He's best mechanical skill of all nations and the weight of the whole world has contributed to the gorgeous Jubilee collection. If lost, they could never be duplicated. Every piece has a history which in itself is an interesting story. Solid gold caskets inlaid with diamonds, rubies and pearls; diamond-studded cloths, heavy with virgin gold; ivory images of animals of every description; and an ostrich feather fan with the purest articles as big as the end of a street car, and clusters of diamonds everywhere in profusion are some of the curious and gorgeous things to be seen in the collection.

Electricity will be very liberally used for illuminating purposes. Every building will be designated by large letters in cream-colored globes, which will enable the visitor to find his way about with ease and will lend a beautiful effect. In fact the grounds will be as brilliant as our well-lighted city at night as on the sunniest day.

Every exhibitor being under solemn pledge to have his exhibit in place by the opening day, Saturday next, the 23rd inst., President McNaught feels warranted in expecting that on that day Lord Strathcona and the visiting Chambers of Commerce Congress delegates will see as complete an exhibition as they would on other days. Mr. McNaught particularly wishes to impress upon citizens the importance of attending the first week, reserving the second for visitors from the outside who are bound to look by hundreds of thousands. In this connection it can be stated that everything will be given with as much detail and as complete finish on Saturday, Aug. 23, as each day of the first week as on each day of the second. All the live stock will be on the grounds from Monday last, and the entire program will be presented in front of the grand stand every afternoon and evening of the thirteen days, the curtain rising at 11 a.m. on the 26th and not finally falling until 11 p.m. on Saturday, Sept. 12.

The six for a dollar tickets continue to sell splendidly, but they must be purchased on or before Friday next, or not at all, as after that the full 25 cents will be charged for each and every ticket except to children.

Manager Orr receives letters by every mail asking if anything extra will be charged to see the Jubilee and Dufferin presents. They will be on view entirely free to every person visiting the grounds, the only charge for anything excepting the Midway and the grand stand being at the main gate.

The executive, comprising Messrs. McNaught, Orr, Wellington, Soer, Leslie and Briggs, minutely inspected every building and all the grounds. Now, there are three things to read; second, examine; third, meditate. The Bible should be read as any other book; begin at the beginning and read thru to the end. This can be done in six days, after you have read a passage thoroughly, the examining and meditating part of the Bible. After you have done these three things consult what aid you will. The Bible is to be taken to the exhibition and then use the microscope.

HOW TO STUDY THE BIBLE.

Northfield, Mass., Aug. 23.—The Rev. Dr. G. Campbell Morgan said this morning: "If you are a liberal, you are at liberty to withdraw, for I am going to give a very elementary talk on the structure of the whole of the New Testament. Many have come to me and asked how to study the Bible. Now, there are three things to read; second, examine; third, meditate. The Bible should be read as any other book; begin at the beginning and read thru to the end. This can be done in six days, after you have read a passage thoroughly, the examining and meditating part of the Bible. After you have done these three things consult what aid you will. The Bible is to be taken to the exhibition and then use the microscope."

UNVEILING AT PORT ELGIN.

Port Elgin, Aug. 23.—The monument erected here in memory of Gordon Cummings, who was killed in South Africa on Dec. 13, 1900, will be unveiled on Tuesday, Aug. 26, by Lord Aylmer, Adjutant-General. The unveiling will be followed by a patriotic concert in the roller rink, at which a large array of soldiers will participate. The monument has been erected by the citizens of Bruce generally. The young soldier was a son of J. Cummings, Sauguen, ex-warden of the county.

A smoker owes it to himself to add an all-round good cigar and stick to it. Grand should satisfy the most fastidious taste. The Standard, is Grand's Trade Mark.

Good Figure Rosy Complexion

Are Coveted By All Sensible Women. For Health and Beauty Use

Ferrozone

If you are thin, run down, have blue transparent skin, you need Ferrozone. When the nerves are weak and the blood is poor, it is a sure sign that you need it. Nothing on earth makes blood so vitalizing, nothing puts flesh on the bones, makes the system healthy as Ferrozone. Why not restore your beauty and keep it by using Ferrozone? It is a sure sign of nervousness and weakness; Ferrozone instead. Let Ferrozone take you to the fountain of life. It is an easy and quick road to health, a splendid remedy for all womanly disorders. Mrs. E. C. Raymond of Sunnyvale writes: "I owe a great deal to Ferrozone, which improved my health very much. Before using Ferrozone I was weak and listless and had no color in my cheeks. After taking a few boxes I felt better, and by continuing Ferrozone I gained eight pounds in weight. My complexion is clear and my appetite good. I can recommend Ferrozone very highly. It is a splendid tonic."

Don't fail to test Ferrozone, which sells the world over. It is price 50c per box, or six boxes for \$2.50. Write for the Ferrozone Company, Kingston, Ont. Get a supply of Ferrozone to-day—it assures health.

Coal Strike Arbitration Awards

Birmingham, Ala., Aug. 23.—The Coal Strike Arbitration Commission, presided over by Judge Gray, and which has been in session for some time, has announced its award. Mine wages are increased 2 1/2 per cent, and semi-monthly payments are decided upon. The eight-hour question is compromised. Boys under 14 years are forbidden to enter the mines.

Fly-Bitten Horse Commits Suicide

Burlington, Vt., Aug. 23.—Suffering from pain caused by fly-bites, and with his body swollen so as to make him a gruesome sight, a valuable draught horse owned by John Derway walked into the Winooski River today and was drowned. Onlookers say it was seemingly the intention of the horse to commit suicide.

Divorced in Fifteen Minutes

Denver, Aug. 23.—Fifteen minutes after she signed the complaint in her divorce suit, May C. Cunningham received a decree of divorce from John T. Cunningham for cruelty. This is the record, so far as courthouse employes can remember.

Black Diamond Express

The last 310 excursion to Atlantic City, via Lehigh Valley R.R., Tuesday, Aug. 25th, tickets good 15 days. Good on Black Diamond Express. Stop over allowed at Philadelphia, Call at L. V. Office, 33 Yonge Street, for particulars.

Advertisement for Ferrozone and other products, including a testimonial from Mrs. E. C. Raymond.

Fourteenth race, 1/2 mile—Whitcraft, 108 (H. Selinger), even, 3; Time 1:06.25. Miss Mayberry, Father Falloit, Tootsie Mac, Elie also ran.

Multiple Tailoring... A CITY Coat maker produces better coats than a country tailor, who must make whole suits, with less practice on coats alone.

The Semi-Ready sleeve or collar Expert produces more and better sleeves or collars, in a given time, than a general coat maker for the same reason.

It has taken time and patience to educate a corps of specialists in the making of collars, sleeves, etc., and in basting, pressing and finishing.

This corps is kept up to the mark by the most knowing Custom Tailor we could find at any price.

The result to you is a better suit at much less than it would cost a Custom Tailor for labor alone.

Finished to your order, in about two hours.

22 KING ST. WEST HAMILTON, 46 JAMES ST. NORTH LONDON, 146 DUNDAS ST. WESTON, ST. THOMAS, STRATFORD

Vanquished St. Kitts Tegumseh won 5 to 1

Large Crowd at Island Oval Saw the Indians Win—Montreal 9, Cornwall 1.

Shamrocks at Detroit. Detroit, Aug. 22.—Hops are entertained of getting the Shamrocks of Montreal, the best hockey team in Canada, for a game here in September.

The C. L. A. match at the Island between St. Catharines and Tegumseh resulted in a win for the Indians by 4 to 1 before a good crowd.

At Montreal, in the N. A. L. U. scheduled match, Montreal trounced Cornwall by 9 to 1. The record:

Teams. Won. Lost. To Pt. Shamrocks 3 3 4 Cornwall 3 3 4 Montreal 5 3 2 Tegumseh 3 6 1 Toronto 3 6 1

Games next Saturday: Shamrocks at Capital. Senior C.L.A. Standing:

Teams. Won. Lost. To Pt. Shamrocks 3 3 4 Cornwall 3 3 4 Montreal 5 3 2 Tegumseh 3 6 1 Toronto 3 6 1

Multiple Tailoring... A CITY Coat maker produces better coats than a country tailor, who must make whole suits, with less practice on coats alone.

The Semi-Ready sleeve or collar Expert produces more and better sleeves or collars, in a given time, than a general coat maker for the same reason.

It has taken time and patience to educate a corps of specialists in the making of collars, sleeves, etc., and in basting, pressing and finishing.

This corps is kept up to the mark by the most knowing Custom Tailor we could find at any price.

The result to you is a better suit at much less than it would cost a Custom Tailor for labor alone.

Finished to your order, in about two hours.

Vanquished St. Kitts Tegumseh won 5 to 1

Large Crowd at Island Oval Saw the Indians Win—Montreal 9, Cornwall 1.

Shamrocks at Detroit. Detroit, Aug. 22.—Hops are entertained of getting the Shamrocks of Montreal, the best hockey team in Canada, for a game here in September.

The C. L. A. match at the Island between St. Catharines and Tegumseh resulted in a win for the Indians by 4 to 1 before a good crowd.

At Montreal, in the N. A. L. U. scheduled match, Montreal trounced Cornwall by 9 to 1. The record:

Teams. Won. Lost. To Pt. Shamrocks 3 3 4 Cornwall 3 3 4 Montreal 5 3 2 Tegumseh 3 6 1 Toronto 3 6 1

LEPERS SOLD CHICKENS

Superintendent of the Colony at San Juan Has Been Suspended

San Juan, Puerto Rico, Aug. 23.—Acting Governor Hartzell has suspended Dr. Nater, superintendent of the leper colony at the entrance of San Juan harbor, and his assistant, Jose Aldrich, on the strength of a report of the acting director of charities.

According to this report, chickens and pigs raised by lepers had been freely sold in this city, and goats, rabbits, poultry and dogs had been herded in the patients' quarters in indescribable filth. It was added that paper money was circulated in the leper colony, and that as this money might possibly be used in other parts of the island it was considered dangerous, as likely to cause a spread of leprosy.

Intercourse between the leper colony and the mainland had been permitted. An old man who was not a leper was confined in the colony for years. All the regulations were violated. Aldrich has also been arrested on the criminal charge of transporting chickens from the leper colony, and has been fined \$50.

The acting Governor has ordered all animals in the leper colony to be sold to-day, and has declared that he will probe the scandal to the bottom. Director of Charities Osterhout is absent on his vacation.

Only the prompt action of Mr. Hartzell has checked a reign of terror in San Juan, caused by the discovery of the chicken incident, and the public is loud in its praises of the determined stand he has taken.

The inhabitants of the city are much excited, and are eager for further details, as heretofore it had been believed that the leper colony was a model establishment.

DEERING AND McCORMICK

Composing the International Harvester Co. Make a Big Deal.

Duluth, Minn., Aug. 23.—A deal has been consummated by which the International Harvester Company of Chicago takes over the companies in ore holdings of the Deering Harvester Company on the Mesaba and Baraboo ranges for a consideration of about \$5,000,000. The International Harvester Company will manufacture its iron and steel, of which it consumes enormous quantities, from its own ores.

This means that the International Harvester Corporation has determined to follow the examples set by the Deering and the McCORMICK companies. The iron ore division of the Deering was not included in the combine, the International Harvester Company at that time being undecided as to whether it wished to produce its own ore. It now appears that the corporation has decided to do so, and the deal for the Deering iron properties bears this out.

The International Harvester Company as a result of this purchase has acquired the Hawkins mine at Nashua and the Agnew mine at Hibbing on the Mesaba range; the Lusk 1 and 2 in the new Baraboo district in Wisconsin and two small properties at Crystal Falls. It is impossible perhaps to give anything like an approximate estimate of the amount of ore tonnage thus placed at the command of the big harvester corporation, but it is probably not less than 75,000,000 tons. The Hawkins mine is a large property, containing according to one estimate 40,000,000 tons.

BABY WEIGHS 25 POUNDS.

Mrs. Boardley of Louisville Beats All Recent Records.

Louisville, Ky., Aug. 23.—A girl baby weighing twenty-five pounds was born to Mrs. Clark Boardley to-day. Mrs. Samuel Manley and Robert C. Kenner, the attending physicians, regard this as one of the most remarkable cases on record. The average weight of a child at birth is about seven pounds. Dr. Kenner was able to deliver only one case on record where an infant at birth weighed as much as twenty-five pounds. This case was that of Mrs. Bates, wife of the late Capt. Bates. Mrs. Bates was six feet ten inches high. Mrs. Boardley's baby is a handsome one.

BERGLAHS AT BARRIE.

Barrie, Aug. 23.—(Special.)—The dry goods store of J. C. Irwin was entered by a pair of youthful burglars last week and a quantity of goods, besides \$5 in cash, was stolen. It was one of the most deliberate burglaries which have occurred here for some time, and an entry was forced through the rear window during the afternoon, and in the absence of the proprietors. They succeeded in carrying off a quantity of goods before being detected. They have, however, not yet been arrested, and the matter is in the hands of the local police.

The Banner Route.

There is nothing more assuring to the traveler than his knowledge of the fact that he is traveling on a firm road, upon which is laid the heaviest of steel rails, made true in all their curves, and that the train which carries him is of the highest standard of excellence known to railroads and is being guided to its destination by experienced minds. These are the conditions which become apparent to the frequent traveler on the Washburn Line and which have made that line justly famous. The Washburn has its own rails direct to the World's Fair Grounds in St. Louis. All Washburn through trains stop at World's Fair Station (Forsyth) in order to give passengers an opportunity to view the trains. The World's Fair Buildings, J. Richardson, District Passenger Agent, northeast corner King and Yonge-streets, Toronto, Ont.

Fast Express Leaves Toronto at 9.00

Fast express leaves Toronto at 9.00 a.m. daily (except Sunday) for Brantford, via Grand Trunk and morning 10.30 a.m. being the quickest train service between these cities. Express leaves Brantford at 1.30 p.m. daily (except Sunday), arriving Toronto at 3.40 p.m. This convenient train service allows passengers to stay in Brantford three hours. For tickets and information apply to city ticket office, northwest corner King and Yonge-streets.

Best Time of Season for Trip Through Upper Lakes.

Train leaving Toronto 8.15 a.m., via Grand Trunk, connects at Collingwood every Tuesday, Thursday and Friday with Northern Navigation Company's steamers for a delightful trip to St. Marys and Duluth. The fare of \$24.75, in effect for the round trip, includes meals and berths on steamers. For tickets and all information call at Grand Trunk city ticket office, northwest corner King and Yonge-streets.

Monday Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

GLADSTONE HOUSE.

Necesses of Visitors to City During the Industrial Exhibition.

A genial host, a scrupulously clean house, a carefully carried out system of internal management, bright, sunny and clean rooms for hundreds, all this is to be found at the Gladstone House in Parkdale, just east of the Queen-street subway.

On entering the front door, the visitor is greeted by the proprietor, Turnbull Smith, with his ready smile, a wealth of bright flowers, which cover the balcony and front porch, and a perfect concert of songs from a hundred or more singing canaries.

An air of cleanliness and brightness pervades the whole hotel. Situated on a corner, it has abundant light from the windows of every room, many of which are bright and airy. There is no better hotel could be found to accommodate a portion of the vast crowds that are coming to the Exhibition, for it is simply a matter of a ten-minute walk to the grounds, or five minutes by car, which pass the hotel every two minutes.

Turnbull Smith, the genial proprietor, business man, jack of a hundred trades, who is devoted to his pet—the Gladstone House—has already received numerous applications for accommodation for the week ending August 24th, and in view of these has early made ample preparation for at least four times the usual capacity of the hotel. Passing along wide, neatly kept corridors, are seen comfortable spring cots piled up ready for immediate use, while in the best of the sitting rooms, parlors, etc., are piles of mattresses ready to meet the requirements of hundreds. Rooms wunny and more beds in them, giving three or four beds in each, with a toilet for friends to be together, without being crowded.

The dining-room, which has just been newly papered with a terra cotta in green, and has new light oak woodwork on the four walls, is the real center of interest to all guests of this spotless hotel. There will be found comfortable seating accommodation, designed to avoid crowding, and as to the bill of fare it is the equal of anything in Toronto. Cleanliness, neatness, and a system is the rule of the house, and all is fully carried out by Mr. Smith and his wife. The latter knows the way to man's heart, and never forgets that good food must be well cooked to be appetizing. Everything at the Gladstone Hotel is tempting and ready to the hilt for the hungry and satisfied for the most fastidious.

DEATH BY TYPHOID.

Ithaca, N.Y., Aug. 23.—The turbine pumps, which deliver water to the new Fulton plant of the Ithaca Water Company, were set in motion to-day, and to-night the citizens of Ithaca and the suburbs of the city are assured of a supply of pure water. The water, as soon as delivered to the receiving tanks, is charged with a solution of sulphate of alumina, which forms a white precipitate which rapidly forms into flocs. The water is then passed into a clarifying tank, where 70 per cent of its impurities settle. It is then passed through six filters of three million gallons daily capacity.

Star Theatre Opening.

The Star Theatre opened its 1008-4 season on Saturday night, and the costume party chorus and a bill of very good vaudeville acts blended together to make one of the most interesting and enjoyable evenings ever put on at this house. It was no time till the R. S. O. signs was displayed, and hundreds were turned away. The show is clean, bright and musical, many new and novel numbers being introduced, especially good being "When the Dances and the Roses Went to War." Some excellent singing was rendered by the Knickerbocker quartet. The jugglers Normans do some really marvelous things; Frank Finney is as funny as ever, and is received with great applause. The Amos whirlwind dancing is a real novelty and was much appreciated; Hawthorne and Burt in a comedy dancing act took the house by storm, and Reid and Gilbert are old favorites in Toronto. The show ends with a lively burlesque entitled "The Tale of Two Cities." The same company continues this week with daily matinees.

Accident Cost Thousands.

Sault Ste. Marie, Mich., Aug. 22.—At 2 o'clock in the big canal of the Lake Superior Power Company here, in February last a section of earth under the concrete dam above the dam, which forms the canal dam was washed away. Reports were circulated that the dam was irreparable, that the power building was built on quicksand, and that the canal was a failure. These reports were wholly erroneous. The big building, fourteen hundred feet long, was not damaged in the test, but the repairs on the foundation and abutments had cost thousands of dollars. Next week the turbine will be delivering power.

Reaper Served Boy's Leg.

Morden, Man., Aug. 23.—A shocking accident which occurred near Deerwood terminated fatally in the hospital last evening. Late on Wednesday afternoon, Norman, the three-year-old son of William Harman, wandered into a field of grain around which his father was cutting. The child was not as tall as the grain and was not noticed by the father till the machine had done its work. One little leg was completely severed below the knee. He succumbed to the shock. The father is heart-broken.

Ship Wrecked in Saginaw Bay.

Port Huron, Mich., Aug. 22.—When the steamer Hector, built by the Port Huron shipyard, was wrecked in Saginaw Bay on Friday. The Hector was struck by a heavy squall, which took out the masts and left her in a helpless condition. Fearing that the boat would sink, the crew took to the lifeboats, and after drifting some hours were picked up by the steamer.

Negro Riddled With Bullets.

Henderson, Texas, Aug. 23.—Joe Sanders, a negro about 35 years of age, was the victim of a violent assault on a young girl last night, who was shot to death by-day by the assassin. The police in the morning found Sanders standing in his door when the man approached. He was struck by four loads of buckshot.

Farmer's Head Cut Off.

Dexter, Mich., Aug. 23.—Investigation is being made into the violent death of William Benz, Jr., a prominent young farmer of Lima Township. When Mr. Benz returned home yesterday evening from a day's visit at his father's, he found a pool of blood on the kitchen floor, and a trail of it to the rear porch. Mr. Benz's head was lying near the rear porch.

Cut Wife's Throat on the Street.

Washington, Aug. 23.—Augustus Schaffer, an employee of the government printing office, to-night killed his wife, Catherine, from whom he had been separated, at the corner of Fourth-street and Massachusetts-avenue, by cutting her throat with a razor. Schaffer was arrested.

Another Auto Killing.

Cleveland, Aug. 23.—While climbing a hill toward Little Mountain, a summer resort, 25 miles east of here last night, a negro cab driver and his passenger suddenly became unmanageable and started backwards down the hill. At the bottom it was upset, and Mrs. W. H. Kivpatrick, one of the occupants, was killed. The other three were seriously injured.

Found \$2200 in Gold in Old Stamp.

Wilkes-Barre, Aug. 23.—William Beller, while chopping down a stump at his home at Heintzheim, Pa., yesterday found a bag of gold containing 110 twenty-dollar gold pieces. The wood had grown until they were quite hidden. Old residents say they believe the money was hidden by an outlaw who was driven from that part of the country many years ago.

Go to Collingwood With the Old Boys on Aug 27th.

Special train will leave Toronto, Union Station, 8.00 a.m. Thursday, Aug. 27, leaving North Parkdale at 8.10 a.m. for Collingwood. Fare for the round trip \$1.35. Tickets valid for return until Aug. 28.

DR. FOWLER'S WILD STRAWBERRY.

Relieves pain and checks diarrhoea quicker and more effectually than any other remedy.

MURDER, DEATH AND MISHAP

Telephone Lineman and Plumbers' Apprentice Electrocutted in Ottawa.

DEADLY RIOTING IN BUFFALO

Railway Horror in Washington State—Little Boy Had Accident in Grain Field.

Ottawa, Aug. 23.—Two fatal accidents by electrocution occurred here to-day. Eliezer Remond of St. Genevieve, 25 miles from Montreal, a lineman for the Bell Telephone Company, was killed at Elgin and MacLaren-streets. He was sitting on a cable pulling a guy wire when he came in contact with an electric wire. Remond had not the regulation rubber mitts on, and, having hold of the wire by the right hand, a complete circuit was formed. He received a heavy shock and fell to the ground, a distance of about 30 feet, breaking his collar bone and suffering other injuries, from which he died. It came here last Thursday.

George Stone, aged 19, a plumber apprentice, was electrocuted in the College Institute building while examining a piece of machinery. He had an ordinary sixteen-candle-power lamp in his hand and his right hand was on a switch when the circuit was received the shock. The flame burst out of his hand to the work. There is some wonder expressed as to how a hundred-volt wire could cause electrocution, and it was said that a crossling with outside wires is responsible. The inquest will be held and evidence taken on that point.

Saved a Life; Lost His Own.

Nantuxet, Mass., Aug. 23.—Albert, son of T. W. Sivyler, one of the wealthiest citizens of Milwaukee, lost his life last night while saving a small cat from drowning in a bathtub. He had just received a letter from his mother, and was sitting in the bath when he saw the cat struggling in the water. He jumped in and pulled it out, but he himself sank and was drowned.

Murderer Caught on Raised Bridge.

Buffalo, N.Y., Aug. 23.—A clash between Italian and Polish laborers Saturday night resulted in the death of one, an ore handler, the fatal injury of another, and a good many bruised bodies. The workmen were gathered on a raised bridge over the canal when the two gangs came together on the bridge. One of the Italians drew a revolver and began firing. The two Poles fell with bullets in their backs. One of the men, turned upon the murderer, who ran down Michigan-street, toward the city hall, was caught by a policeman. The murderer was caught by a policeman. The murderer was caught by a policeman.

Over 40-Foot Embankment.

Chehalis, Wash., Aug. 22.—An excursion train on the Northern Pacific, consisting of an engine and seven coaches, en route to the Elk's camp back at the mouth of the Chehalis River, was derailed. The train was running at a good rate of speed when the embankment forty feet deep, was washed away by the engine. Three coaches piled on top of the engine, and the boiler of the engine exploded.

Attacks Pasteur System.

Italian Doctor Says Deaths From Hydrophobia Are Frequent.

Milan, Aug. 23.—There have been four deaths at Novara, in Piedmont, as the result of bites of a mad dog. This has aroused keen discussion as to the merits of the Pasteur system. It is stated that of the persons who were bitten by this dog four who were treated by the Pasteur system died. The papers demand an inquiry into the cases, which were handled at the Pasteur institutions in Italy.

Are You Gamping This Summer?

Getting wet, catching cold, change of weather, eating food that does not agree, or eating unripe fruit may cause an attack of Diarrhoea, Dysentery, Colic, Cramps, etc. The most reliable medicine to carry with you is DR. FOWLER'S WILD STRAWBERRY. Relieves pain and checks diarrhoea quicker and more effectually than any other remedy.

Public Amusements.

When the Coldstream Guards' Band arrive in Toronto on Sunday, Sept. 14, they will be greeted and welcomed at the station by over 100 bandmen in uniform, as the members of military bands in Toronto have decided to turn out to do honor to the finest band in the army belonging to the oldest regiment. When they give their first concert in Massey Hall on Monday afternoon and evening, Sept. 7, and again on Tuesday evening, Sept. 8, there will be a large number of people from outside places. A party of members from the Victoria Club in Buffalo are arranging to come, and several bands from neighboring towns are arranging special parties to listen to the famous Coldstream Guards' Band. The only other appearance in Toronto is on Tuesday morning and afternoon at the Exhibition, and the band will appear the following day at Hamilton. They will then visit Brantford, London and the principal cities in Western Ontario. They will appear at Ottawa on Sept. 23 and 30, and after that they proceed to the Maritime Provinces, sailing on Oct. 10.

The opening at Shea's to-day has been eagerly awaited by hundreds of dancing devotees. Mr. Shea is offering a bill of great merit and undoubtedly his efforts will be rewarded by crowded houses all the week. The program consists of Albert Palgros and his lightning change act, Pat Rooney and Emma Francis, who have no competitors in the way of dancing. Tom Lewis and Sam Ryan, in a new sketch entitled "The Wireless Telephone"; Stanley and Wilson, in a sketch "Defend the Bally"; Ernest Moreland, in a society monologue, "The genuine Georgia Gals"; Humes and Lewis, and the kinetograph.

No matter how warm the weather is in the city there is always a pleasant shade of the highest standing is one reason, the open air theater is so popular and attracts so many people. Vaudeville is liked just as much in the summer as in the winter, and providing the performance can be witnessed in comfort. Judging from the list of artists engaged, this week's program will be one of the best of the season. Among those who will appear are McCloud and Melville, harpists; Elwood Johnson, Beatrice and Harold, comic artists; Don Gordon, trick bicyclist; Willis and Farnum, acrobatic comedians.

Result of the Congress.

LORD STRATHCONA'S VIEW

Trade Relations Will Be Brought About, Having for Their Basis Reciprocal Favours.

Montreal, Aug. 22.—(Special.)—Much speculation has been provoked as an echo of the action of the Trade Congress of the empire on the new fiscal policy. Many of the delegates have called their chambers have ordered copious extracts from different speeches at enormous expense. Cable orders for official copies of the proceedings have come in from all parts of the British empire, as well as Germany, France and the United States. The State Department at Washington has requested one hundred certified copies of secretary Murray. This is regarded as significant.

The lessons of the meeting are many. It is a curious fact that the Congress was more than 85 per cent in favor of pronounced tariff revision; the free trade element was able to force a compromise resolution on the members. The type of the champions of the subject aroused, this fact is creating much comment. To Sir William Holland of the Manchester Chamber of Commerce, of course, is due the credit for the prominence the free trade contingent received. He was constantly on his feet, and being a man of great natural ability and long parliamentary training, he took advantage of every opportunity to urge moderation on the majority who were determined to plead the convention irrevocably to a fiscal revision.

Free to Men Entitled.

For nearly 40 years I have made diseases of men my specialty. The experience I have gained is not equalled by any living specialist in my branch. I am justly proud of the privilege of having made thousands of strong, vigorous, happy men out of poor, hopeless wrecks. I am still doing so, and I truthfully say with greater success than ever.

Somewhat over 35 years ago I made the discovery that Electricity cured such diseases as NERVOUS DEBILITY, VARI- COCELE, IMPOTENCY, DRAINS and EXHAUSTION after all known drug remedies failed. I then invented my portable battery—the world-famed DR. SANDEN ELECTRIC BELT. Every man to-day knows of it, and that electricity properly used—both mind, I say, properly used—will cure these distressing diseases, and so sure am I of what my appliance, with direction and advice for use, will do, that I ask none to buy; I simply ask that you allow me to send you my Herculex.

Dr. Sanden Electric Belt

with Electric Suspensory, on 60 Days' Free Trial

and if you are cured or satisfied at the end of that time, then pay me my price—AS LOW AS \$4.00. If not satisfied, return the appliance, and the transaction is closed. This is my method of dealing, and made from the sole and earnest desire that every man in Canada may have an opportunity to try my cure for himself. When you consider the fact that I am the oldest and am the father of the Electric Belt business—and for over 35 years have had nothing but success, and that my great knowledge and experience insures the same for the future, you should feel safe in trying my offer. There are many imitators of my goods, but my great knowledge, due to experience and research, is mine alone, and cannot be imitated. I give it freely to every user of my Belts, and this with the best electric appliance the world has ever known leaves very slight doubt of success. I also give my Belts on trial for Rheumatism, Lamé Back, Kidney, Stomach and Bladder Troubles, Nervousness, etc.

If you are in the city, call, test current, and take a belt with you. If not, write today and let me assist you to health and happiness, as I have so many thousand others. I will at once arrange to send you my Belt on terms mentioned, and also two of the best little books ever written upon electricity and its medical uses. Free, sealed, by mail. Address,

DR. A. B. SANDEN,

140 Yonge Street, Toronto, Ont.

Office Hours: 9 to 6 Daily. Saturdays Until 9 p.m.

I give it freely to every user of my Belts, and this with the best electric appliance the world has ever known leaves very slight doubt of success. I also give my Belts on trial for Rheumatism, Lamé Back, Kidney, Stomach and Bladder Troubles, Nervousness, etc.

If you are in the city, call, test current, and take a belt with you. If not, write today and let me assist you to health and happiness, as I have so many thousand others. I will at once arrange to send you my Belt on terms mentioned, and also two of the best little books ever written upon electricity and its medical uses. Free, sealed, by mail. Address,

Free to Men Entitled.

For nearly 40 years I have made diseases of men my specialty. The experience I have gained is not equalled by any living specialist in my branch. I am justly proud of the privilege of having made thousands of strong, vigorous, happy men out of poor, hopeless wrecks. I am still doing so, and I truthfully say with greater success than ever.

Somewhat over 35 years ago I made the discovery that Electricity cured such diseases as NERVOUS DEBILITY, VARI- COCELE, IMPOTENCY, DRAINS and EXHAUSTION after all known drug remedies failed. I then invented my portable battery—the world-famed DR. SANDEN ELECTRIC BELT. Every man to-day knows of it, and that electricity properly used—both mind, I say, properly used—will cure these distressing diseases, and so sure am I of what my appliance, with direction and advice for use, will do, that I ask none to buy; I simply ask that you allow me to send you my Herculex.

Dr. Sanden Electric Belt

with Electric Suspensory, on 60 Days' Free Trial

and if you are cured or satisfied at the end of that time, then pay me my price—AS LOW AS \$4.00. If not satisfied, return the appliance, and the transaction is closed. This is my method of dealing, and made from the sole and earnest desire that every man in Canada may have an opportunity to try my cure for himself. When you consider the fact that I am the oldest and am the father of the Electric Belt business—and for over 35 years have had nothing but success, and that my great knowledge and experience insures the same for the future, you should feel safe in trying my offer. There are many imitators of my goods, but my great knowledge, due to experience and research, is mine alone, and cannot be imitated. I give it freely to every user of my Belts, and this with the best electric appliance the world has ever known leaves very slight doubt of success. I also give my Belts on trial for Rheumatism, Lamé Back, Kidney, Stomach and Bladder Troubles, Nervousness, etc.

Deaths.

Strathcona's View.

The World Inland Lord Strathcona to venture a guess at the practical effect of the Congress' action, and the manner in which preferential trade would become an accomplished fact. The Canadian High Commissioner was very sanguine.

"All public men in England will wait for certified copies of the proceedings of the great debate," he began. "The government officials and the ministry, and the forces which control the policy of the empire cannot remain indifferent to the verdict of a body that represents practically the business community of the whole empire. The cabinet might make some announcement embodying the substance of the resolutions, but what is more likely will be a commission to investigate trade relations and forge some system that will be acceptable to all parts of the empire. This is no easy matter, and may consume two or three years.

"There may be many changes and revisions even after the tariff schedule is put into effect, but the ball is rolling in the direction of a tariff wall for the whole empire; at least, against the world. It is too complex a subject to think of conquering in a day or a year. We have put the machine in motion, and Canada may be sure the men who go out from this Congress to all parts of the world will file the British flag well upon their immediate section. I CAN SAY WITH CONFIDENCE THAT I EXPECT THE ULTIMATE RESULT OF THIS GATHERING TO BE TRADE RELATIONS THAT WILL BE FAVORED THROUGH THE EMPIRE AS AGAINST THE OUTSIDE WORLD."

No Snap Decision.

Sir William Holland's impassioned declaration that there must be no snap judgment in the investigation, no mere cabinet enquiry, but a broad hearing in which all interests must be given a free and fair chance of recording their expressions—voices the best sentiment of the Congress. The advocates of preferential trade assert that the closer the scrutiny the more likely are their ideas to be favored. They declared that times have changed completely so fast and have demonstrated the absolute utility of free trade when the world's hand is against England's policy, that a radical change is absolutely essential to the continued material supremacy of the empire.

The readiness of those colonies that import everything and export nothing to accept the principles of preferential trade, and the willingness of those to them with no reciprocal compensation, is the best indication of the feeling expressed at the gathering.

The type of the champions of this unselfish sentiment is J. C. Poynton, representative of the Chamber of Commerce of Toronto, Ontario. This man provoked such a spontaneous outburst when he marched to the speaker's chair and announced that the ancient capital of the old Boer republic sent him to the Congress to announce to the world the desire of that part of the British possessions to accept any of the reasonable burdens which might be imposed for the good of the empire.

Not one voice was raised in opposition to preferential trade from the colonies. Manchester and London Commercial Chambers only, of all the one hundred and thirty representatives were hostile to the original resolution, and every mention of Mr. Chamberlain and his tariff revision scheme was met with enthusiasm on the floor of the Congress.

Deaths.

Ithaca, N.Y., Aug. 23.—The turbine pumps, which deliver water to the new Fulton plant of the Ithaca Water Company, were set in motion to-day, and to-night the citizens of Ithaca and the suburbs of the city are assured of a supply of pure water. The water, as soon as delivered to the receiving tanks, is charged with a solution of sulphate of alumina, which forms a white precipitate which rapidly forms into flocs. The water is then passed into a clarifying tank, where 70 per cent of its impurities settle. It is then passed through six filters of three million gallons daily capacity.
