WIDE DIVERGENCE IN FORECASTS

The Conservative London Weekly Observer prints fore-casts of the result of the elec-tions by experts on both sides.

One of the Conservatives predicts a Conservative majority of 90, another 40, another says

that the government will have a majority of 16.

A Radical forecast gives the government a majority of 200. Another Radical places it at 110, while still a third believes that the Conservatives will win

to avert the appearance of conflict be-tween the present administration and its predecessor.

No one pretends to deny, even now, that the removal of Pinchot and the retention and probable vindication of

Ballinger may have grave political con-sequences. It is impossible to foresee its effect upon public opinion. A majority of the people may reach the con-clusion that Pinchot and his aides have been removed because they tried to protect the public and the government against grafting. The country as a whole believes in Pinchot, believes in the principle he stands for and will be likely in its enthusiasm to minimize and to overlook the real cause of als dismissal-insubordination. The public is also peculiarly susceptible to charges of fraud of money making by devious methods in connection

with government lands.
Mr. Pinchot has openly asserted that Cunningham coal claims are "fraudulent" and stands by his associates and friends who tried to prevent those frauds. Senators and representatives who

have their fingers on the pulse of pub-lic opinion say a majority of the people believe Pinchot is right, that Glavis is right, that Ballinger is wrong; that if there are not frauds there tre at least peculiar and suspicious prace

The recent session of parliament was marked by the introduction of a number of bills bearing on this problem and now the general medical council has taken action in the matter and placed its conclusion in the hands of the lord president of the privy council, for that body's consideration.

Upon the point which has aroused

Upon the point which has aroused the greatest discussion, the position of the dentists with regard to the administration of certain specified anaesthetics, the council contends that it is

dental practice that would have been implied in the proposed prohibition of the qualified dentist to use gas.

For the public safety, however, the general medical council does hold that it is desirable that the anaesthetic should be administered by a qualified person other than the operator, so that his mind should not be diverted from the condition of the patient.

In medical and surgical circles the belief prevails that this provision certainly will become law.

Mayor Declares Visitors Entitled to Pleasure,

SAN FRANCISCO, Jan. 9 .- P. B. McCarthy assumed the office of mayor Saturday. In his address he charged the late administration with hypocrisy and graft and accused mayor, as well supervisors, of winking at over-

charges.

He declared that San Francisco was a pleasure resort for the entire coast and he proposed that visitors should enjoy themselves in any reputable way without hindrance.

He scored the police department and gave the names and addresses of about thirty clubs where gambling was carcharges.

He said the Chinese should not be molested in their quarters.

Women in British Postoffices. LONDON, Jan. 9.—The postmaster-general has had many letters asking why he employs so many women in postoffices and whether he is not in-creasing unemployment by so doing. In reply he has made a statement that he does not believe that unemployment would be relieved by putting a stop to women working in the postoffices. He says, however, that it is not desirable that the staff should contain an undue proportion of women, and for that reason he intends to preserve the balance.

PAINTINGS INVENTORIED Work of Great Magnitude Completed by National Art Gallery.

LONDON, Jan. 9 .- Every one knows that a vast colection of Turner drawings exists somewhere in the basement of the National Gallery, but beyond that the public knows little of the rich contents of the eastern ground floor rooms and their record of the marvelous activity of the great landscape painter, for the majoriy of the 19,000 drawings which Turner bequeathed to the nation, in addition to the 100 fin-ished and 182 unfinished paintings, are too delicate for indiscriminate hand-

A. J. Finberg has just completed an inventory of all the drawings, arranging them in chronological order. The trustees have published this inventory in two volumes of over 1300 pages. Mr. Finberg discovered during his investigation that many drawings by other artists had been accepted as Turner's among the collection.

High Tea at Hospital.

The annual high tea given by the late Henry Pellatt for the past nineteen years to the patients and staif of the Toronto Hospital for Incurables, and for the continuance of which he left a legacy of \$500, was arranged by Mrs. R. B. Hamilton for Friday evening, Jan. 7. Both the tea and the concert which followed were even more than usually enjoyable. Mrs. Hamilton was assisted in serving the tea by Mrs. C. A. B. Brown, Mrs. Mill Pellatt, Mrs. Cullie Ross and Miss Hutchison. The High Tea at Hospital. Cullie Ross and Miss Hutchison. The program for the cencert was arranged Canadian Passenger Agent, Toronto, by Cuille Ross, and the following ladies 136th and gentlemen kindly gave their ser-vices: Miss Keat, Miss Annie Hope, Messrs. On Sunday Afternoon Royal Alexandra Was Filled to the Doors and Hundreds Turned Away-Text of His Morning Discourse at Local Convention.

point he reviewed man from his creation by God in the perfect state as Adam was perfect, his downfall and the restoration and hope provided for him thru the atonement.

Pastor Russell's discourse was along the lines of sermons already published in full in The World.

On the stage with Pastor Russell were J. W. Shorney, who was chairman, and who introduced him to the audience; W. M. Hersey of Woodstock, who preached at Broadway Haji last night; A. H. Macmillan of Brooklyn, and Frank Manton and Robert Ingles of Toronto. Mr. Manton led the sing-time.

marked his attendance at the annual local convention of the Watch Tower Bible and Tract Society in Broadway Hall, Spadina-avenue, which opened on Saturday and will be concluded to-

night.

His morning discourse at Broadway liall was entitled "What God winked at and was preached from the text: "The times of this ignorance God winked at; but now He has commanded all men everywhere to repent; because He hath appointed a day in which He will judge the world in righteousness by that Man whom He hath ordained." Acts xvii, 30, 31.) He said: His morning discourse at Broadway liall was entitled "What God winked at" and was preached from the text: "The times of this ignorance God winked at; but now He has commanded at but now He has commanded at but now He has commanded at life sacrificially—that it might first benefit consecrated believers during the sacrificially—that it might first benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during this gospel age; secondly that it might benefit consecrated believers during the millennial age.

"The word winked in our text is used in a figurative sense to signify that God took no notice of, paid no attention to, that long period of time from the flood to the first advent of our Redeemer. During those twenty-five hundred years the world of mankind lay in ignorance and weakness.

"The gospel or "good news' consists of the information that God in His

was permitted to go to all the Gentlies from the flood to the first advent of our Redeemer. During those twenty the hundred years the world of manished lay in ignorance and weakness and vice, but, as our text deciares, flood took no notice of it as a whole. He gave His attention, entirely to the information that God in His mercy has provided that the death sentence upon Adam and his race shall be a resurrection of the dead, both of the floor manished and of Abraham, with whom He made a special law covenant. Israel entered upon a great schooling period; first in a condition of peonage in Egypt, and later, under the command of Mosses, passing from Egypt to Canaan, with a wandering of forty years in the wilderness, still later, under the ground state the mercy has provided that the death of the Redeemer is the individual of the forty years in the wilderness, still later, under the ground state the command of Mosses, and the under kings, etc. God did not wink at sin amongst the large lites whom He adopted as His peculiar people under the law covenant mediated by Mosses. We read that every disobedience received a "list recompenses for God in the present life to be fail-obedience received a "list recompenses of reward" (Hebrews h. 2). Stripes, punishments, capitylides, under Divine supervision and predicted thru the prophets, was the portion of the chosen people of the Lord. Obedience on their part brought blessing; and disobedience and ideas the prophets was the portion of the chosen people of the Lord. Obedience on their part brought blessing; and disobedience and ideas the prophets was the portion of the chosen people of the Lord. Obedience on their part brought blessing; and disobedience reverses the large large and the constraint of the Lord. Obedience on their part brought blessing; and disobedience where the prophets was the portion of the chosen people of the Lord. Obedience on their part brought blessing; and disobedience the lord. Obedience on their part brought blessing; and disobedience where the prophets

And in order to prepare them for their mission and to them to fill it, the Lord chastened and scourged them for their sins, and thus educated and assisted them more than others out of degradation. As a result, when our Lord came into the world to be man's Redeemer, Israel, under the chastening, scourging, instructing experiences of many centuries, was by far the most advanced nation in the world along religious

"Thus it was that when the Redeemer presented Himself, some, 'a remnant,' were 'Israelites indeed' and ready to receive Him-five hundred during His earthly ministry and several thousand more at the following Pentecostal season. It is but reasonin the world would have furnished any such numbers ready of heart for Messiah and consecrated fully to Him. Note, for instance, that St. Paul's preaching to the Athenians on Mars Hill apparently touched not a single

The Almighty informs us that justice is the very foundation of all His dealings. He cannot be less than just, altho thru Christ He has proved to be more than just—that is, loving and merciful. There must have been a justice in this winking mentioned by the apostle. What was it?

"The apostle explains that owing to a death sentence that was upon the world in general, and no provision having yet been made for a redemption from that death penalty and a resurrection deliverance, it would have been illegical for God to give laws to the world of mankind commanding repent-ance, etc. Why? Because they were already condemned to death, the extreme penalty of the Divine law. No could be done to them than destroy them, however badly they lived. And nothing that they could do would make them deserving of eternal life. So long as that death sentence rested them and no prospect was offered even of release from it, God let them alone, and justly enough 'winked' at their imperfections and did not lay it specially to their charge.

"With the Jew it was different. God instructed that nation thru the law and the prophets and the chastenings for their wrongdoings, and thus prepared in them a 'little flock' of 'Israelites indeed' ready for spiritual things. Additionally He wished to use them and their experiences as types or lessons for spiritual Israel yet future. These types, under the guidance of the hel message, repenting of sin, and Holy Spirit, thru the New Testament, bave constitued very helpful lessons to position to all unrighteousness? have constitued very helpful lessons to the church of this gospel age-spiritual Israel-'For the law covenant was shadow of good things coming after

But before having this dealing with Israel, God made a covenant with cepted the proposition and strove to caused it to be written in the propherighteously, strove to keep the They did not gain eternal life under the law, because they could and mercy. Several hundred people had to be turned away from the Royal Alexandra Theatre Sunday afternoon, where Pastor Russell of Brooklyn, N. Y., the leader of the Watch Tower Bible and Tract Society, preached an eloquent sermon on man in the past, present and future, as viewed from the Bible. For one hour and three-quarters the speaker kept over 1700 people closely attentive, while from the theological standpoint he reviewed man from his creation by God in the perfect state as Adam was perfect, his downfall and the restoration and hope provided for him thru the atonement.

Pastor Russell's discourse was along the lines of sermons already published in full in The World.

enant, but nevertheless He made it a great blessing to them—a means of instruction, which, as we have seen, ultimately prepared several thousand to be ready for the Savior and become His disciples. The Jew then had this advantage over the Gentile up to that time. He had God's promises. He knew the law of God, He was profitted by striving to do the impossible thing of keeping it perfectly. Had God not chosen the nation of Israel to bring them under the schooling processes of the law covenant (Galatians ili, 24) He would have "winked" at their ignorance, etc., as He did with the transgressions of other nations up to that time.

"Whet is the sevent of this charge in the transgression of other nations up to that time."

Not understanding the Divine plan, we nifes awakening and more—uplifting would be inclined to expect that the out of all sin and death conditions, up, favored nation would be excused more up, up to perfection—to all that was than others—that it would be the

"This then is the meaning of the apostle's argument. By providing the Lord Jesus Christ as the Redeemer of the church and the world God has made possible a fresh trial or judgment for Adam and his race. Adam's first judgment or trial day was in Eden. There he lost everything by his disobedience and brought upon him-self and all of his race divine sentence to death. Christ has appeared that He might redeem Adam and his race, the very purpose of giving them in-dividually another full, fair trial or dgment for life everlasting or death

"That general judgment day men-tioned by St. Paul in our text is neither a damnation day nor a twenty-four friends should place orders at once. hour day. It is the thousand-year day of Christ—the period of his mediatorial reign, in the which Satan will be bound, all evil influences be removed, and the light of the knowledge of the glory of God be made to fill the whole St. Peter reminds us, Beloved, be not ignorant of this one thing, that one day with the Lord is as a thousand years' (II. Peter iii, 8). the key to the expressions, 'The day of Christ,' 'The day of judgment,' etc. The millennial day will be a day of judgment or trial in the sense that all mankind, the living and the dead, will then be brought to full knowledge of God, and to full opportunity to regain by resurrection processes a com-plete uplift from all weaknesses, im-perfections, etc., which have resulted from our share in Adam's sin and our own weakness and ignorance. Sins to the extent that they were wilful will receive 'just recompense of reward' (Hebrews ii. 2). Every god endeavor will be rewarded and every shortcom-

ing will be punished. From this standpoint we see the force of the apostle's argument, that it is the Divine intention to grant to every member of Adam's race another trial, another juggment, to determine afresh and individually the worthiness or unworthiness of each to have eter nal life. But why should this fac make any difference to the world in she present life? Why did not God wait until the millennial age and give them all a surprise? Why did He s them the message of His love and a revelation of this knowledge of His future dealings? Did He not know what the past eighteen centuries has proven, namely, that few of mankind would have the 'hearing ear,' and that fewer still, after hearing, would so love righteousness and so hate in iquity, as to sacrifice the interests of the present life by espousing the Gos-

"Yes, we answer, it 'Known unto God are all his works from the beginning of the world' (Acts xv. 19). God surely knew that the niessage of His grace would generally fall upon ears that were dull of hearcies in advance, that few would have the hearing ear for His message of love Why, then, did He send We answer that there were two reasons for His so doing.

know that their responsibility in life would be proportionate to their knowledge of this fact of redemption. This principle is stated in the Scriptures by our Lord. He declares that he who knew not and was disobedient would be punished with fewer stripes and a lighter punishment for his transgressions, while those who knew better and sinned with deliberation would be punished with deliberation would be punished with many stripes—in that millennial day.

"(2) Another reason for the promul-gation of this good tidings of the mil-lennial day of the Lord's Judgment is lennial day of the Lord's Jurigment is that God wishes to use this message as a primary lesson to do a primary work of instruction for a special class of 'elect' characters, whom He is seeking in the present time before the inauguration of the mediatorial kingdom. He calls these his 'jewels,' the 'Bride of Christ,' his 'members,' This class is specially called out of the world new in advance of the millento that time.

"What is the secret of this change on God's part—from winking at the sins and imperfections of the world to commanding them to repent? If it was just to wink at their sins for thousands of years, why did not God continue to wink at them? The apostic answers the question, telling us that this change in God's dealings which sent forth the message that the world set that His eternal purposes had by that time reached the stage of development which justified such a massage. The Son of God had left the glory of the Father which He had before the world was; He had humbled Himself to become a man. As the man Christ Jesus He had been obedient to the Heavenly High Priest, will make them competent judges of the world; competent priests to assist and to bless the world; competent under-priests to govern the world from the Spirit plane.

"To this special class I particularly address myself. I am glad to warn all men everywhere to repent, and glad also to give them the good reason why they should repent—to tell them of God's appointed time, the miliennial epoch, in which all shall have a full opportunity of gaining eternal life thru Christ. I am glad to assure them that every endeavor for right-cousness put forth now will bring large returns of character development and better position then. I warn them

MAKES EARTH TO QUAKE Temperance Movement Widespread, Says F. S. Spence.

Three stalwarts in the temperance movement, two alien, and one of our own, were the features of the Sunday afternoon meeting of the Canadian Temperance League yesterday after-noon. Hon. Oliver W. Stewart of Chi-cago, a former member of the Illinois Legislature, was the speaker of the day, and his theme was the wonderful progress made by the prohibition move ment in the United States. The very nature of God himself, said the speaker, the uplight of humanity, the best instincts of mankind, demand the banishment of the barroom. Col. Sam Small also addressed the gathering. The chairman was Controller-elect F. S. Spence. He said the recent local option victories demonstrated the steady, onward march of public opinion to the goal of total an nihilation of the liquor traffic. Th temperance movement was great in all the civilized world and was almost making the earth to quake. Thirt; years ago there were 6185 licensed liquor sellers in Ontario, and less than a third of that number now. While deploring the handleap of the three fifths clause and voicing the expectation that the people would soon de-mand its annulment and the right to fight in a fair field, Mr. Spence said it was easier to get elected as controller than to carry a local option bylaw.

Dedicatory Seermon.

Monseigneur McCann preached an eloquent dedicatory sermon, choosing as his text, "Thou art Christ the Son of the living God." After tracing the history of the Catholic Church from its earliest days, he affirmed that the charge, imposed on its founders by our Saviour to teach all nations the gospel, had been well fulfilled by the church, and dwelt on the fact that no division existed in the ranks of Catholicism, but that in every land and in every clime Catholics held to the same tenets of belief. Their missionaries had not established any one church, peculiar to the country in which they labored, but a Catholic one, united and subject to one head.

These optimistic views, coming from a man of Mr. Butler's standing, are bound to carry weight, says The New York World. His success during his short connection with thorobred racing shows that he is cognizant of every angle of the sport, and knows whereof he speaks. Mr. Butler dwelt upom the fact that the sport at Juarez is conducted under a 20-year concession from the Mexican Government. This means that no drastic legislation can affect the management of the track in any particular.

While Jeffries does not appear to be as tall as Johnson, still the fact remains that he is. 1½ inches taller. The difference is probably not so noticeable, owing to the fact that Jeff possesses a massive pair of shoulders and probably does not carry himself quite so erect as Johnson. WEST POINT, Jan. S.—In their first game the University of Pennsylvamia hockey seven beat the Army to-day by a score of 1 to 0. King and Dewitt, the red and blues' Caradian players, worked together in the centre of the ice like veterans and but for an excellent West Point defence, would have caged the puck in many well-aimed shots. Dewitt shot the only goal of the game,

"FULL OF QUALITY" NOBLEMEN CIGARS

COMMON SENSE IN CHOOSING CIGARS

If you had decided to buy a \$25,000 house, and a man told you he had a house to sell for \$12,500 that was the equal of any other house in Toronto AT DOUBLE THE PRICE, perhaps you might not believe ALL the statement, but, just the same, you would go out and look at the house.

Now, when we say over our firm name, that "NOBLEMEN" Cigars equal any imported brands AT DOUBLE THE PRICE, even then you may not take us literally.

But just the same, don't you think it is worth investing a quarter to find out the truth of the matter?

Go ahead-put us to the test-try "NOBLEMEN."

School Basketball.

The following public school basketball league games were played off at Central Y. M. C. A. Saturday afternoon, Withrow seniors defeated Ryerson seniors by a score of 48 to 13. Withrow seniors by a score of 48 to 13. Withrow were strong on team work, and this, together with their good shooting, won them the game. The teams:

Withrow—Forwards, Williams, Hewgill: centre, Copp; defence, Hackett.

Ryerson—Forwards, Henderson, Elliott; centre, Pearson; defence, Haney, McAllister.

Reteree, P. G. Might.

Boston intermediates defeated Withrow intermediates by a score of 43 to 13. Bolton had Withrow on the run thruout the whole game, and by brilliant team work succeeded in piling up this good score. The teams:

Bolton—Forwards, Lauder, Lynn; centre, Woods; defence, Gibson, Paterson.

centre, Woods; defence, Gibson, Paterson.

Withrow—Forwards, Charles, Mitchell; centre, McKee; gerence, Hallford, Sherwood.

Referee, R. S. McDonald.

Lansdowne juniors geleated Ryerson juniors by a score of 25 to 15. Both teams played good basketball for juniors, but Lansdowne were the best shots, and so the result. The teams:

Lansdowne—Forwards, Slater, Tooze; centre, Rockwood; defence, Gurnett Smith, Williams.

Ryerson—Forwards, trwin, Collins; centre, Cook; defence, Patton, Fizzelle, Referee, N. S. McDonald.

Cottingham juniors defeated Rosedale juniors by a score of 29 to 18. Cottingham made most of their points on fouls. Both teams played good ball, and the teams were very evenly matched. Get wise, Rosedale, and stop that fouling. It lost you this game, and will lose you more if you do not stop it. The teams:

EATON'S JANUARY SALE NEWS

Why We Can Sell You a Fur-lined Coat for \$49.00

The chief reason is because we make them ourselves-we've as well equipped a fur factory as you'll find on the continent, and we buy materials and furs in big quantities—buy for cash and sell for cash—every phase of our merchandising means a lowered cost to you. That's how we've built up the name we have for big value-giving, and here's how we're going to better that name:

Men's Fur-lined Coats, high otter storm collar of good quality dark full furred Canadian muskrat lining; imported black beavercloth shell, latest style; garments made to sell at one-half more. January Sale

Judgment: The Essex and Kent Railroad Co. was incorporated in 131 to build an electric railway. The plaintiffs were the two-persons most active on promoting the railway and in opposing its rival, the defendant railway company, incorporated the same year. In January, 1904, the promoters of the latter railway project found themselves checked at many points by the plaintiffs, and the provisional directors gave power to the defendants, their president and secretary to make a bargain with the plaintiffs. They did so, reporting result to their board, who ratified what had been done. The contract was made between the defendant company and the plaintiffs. They plaintiffs were to cease all operations in support of any other railway in opposition to refendant railway, and to assist the latter company in securing franchises, etc., and any other railway in opposition to referedant railway, and to assist the latter company in securing franchises, etc., and to receive \$1000 therefore, \$500 when the road was running from Windcor to Essex, and remainder when running from Windsor to Leamington.

There were no misrepresentations by the plaintiffs, and they were acting for themselves and not for the Essex and Kent Railway Co., and were guilty of no breach of trust in making the contract, and they have fully carried out their part thereof. The defendant company had not been organized at the time of this contract, tho Newman and Nelles believed that the company had the power to make the contract. Newman and Nelles were not guilty of fraud in representing their powers, as they believed that what hed taken place justified them in making the contract.

Great Speculative Movement Has Not Been Fully Started

Cobalt Securities Still Suffer From Lack of Public Interest-Attention Directed to Porcupine Gold Field.

World Office, Saturday Evening, Jan. 8. Saturday Evening, Jan. 5.

Speculative attention in the Cobalts at the present time is almost wholly engrossed in Kerr Lake stock, which has undergone such a phenomenal appreciation during the past week. The continued bullish demonstration and price performance of these shares have been the one dominant feature of the markets of late and it is not at all surprising that the other securities is

in the main in good shape to effect an edvance. Only a revival of speculation in the whole list can bring about any material movement however, and until this is forthcoming price changes are apt to prove irregular and uncertain.

The growing interest which is being taken in the Porcupine gold fields is doubtless an influence more or less deregatory to the Cobalt mining securities. With speculative attention not only in the province, but from every quarter of the world, being drawn to the new gold district, it is only natural to expect that some at least of the capital which would have gone Cobaltward will be diverted into the new channel. To date the public have not been asked to participate to any extent in detailed. The control to Ensure Stability.

NEW YORK, Jan. 9—Daniel Guggenheim, president of the American Smelting Company, has thought the present moment opportune to advocate feetaal regulation of the copper markets. He bases his recommendations on the demoralization, not only in the business of mining copper, but among those interests which use manufactured copper in their processes, incident upon fluctuations from 25 cents a pound for copper to 12 cents. Mining, he says, is a hazardous enterprise, and until this is forthcoming price changes are apt to prove irregular and uncertain.

TRADING AT LONDON WAS DISAPPOINTING

LONDON, Jan. 8.—The trading on the stock exchange during the first week of the year has been disappointing from the dealers' point of view. The hopes for an expansion of business with cheaper monetary conditions falled to materialize, realizations became general and the reduction in the Bank of England's minimum discount rate caused only temporary steadiness. Final quotations were mostly lower with the exception of certain good yielding foreign bonds, such as Brazilian, Jan. panses and Russians, which were markedly firm thruout the week. The poor support is attributed to the uncertain political situation and a general disposition to hold off until the elections are finished. The selling by disappointed operators in the Kaffir section, the large follon to hold off until the elections are finished. Fire which recently destroyed a barn on Mr. McCrae's property, was only by the promptness of the brigade prevented from extending to the house. The money will be placed to the credit of the firemen's fund. The formal opening of the new skating and curling rink here last night was marked by one of the largest crowds ever gathered at a similar event in town. The ice was in excel-lent condition and everybody enjoyed to the full the exhilarating sport furnished. North Toronto has now for the first time a hockey and curling rink in keeping with the progress of the town. The recently organized band was in attendence and the excellent music aldermanic position in ward one in the city, and altho comparatively unknown, made a splendid run, polling nearly 1500 votes. rendered gave some indication of what North Torontonians may later expect along this line. The new rink has been
