MACLEAN OF LUNenburg

Delivers Powerful Speech on Fishery Question

THE MODUS VIVENDI

He Would Have It Abrogated—A Telling Review of Past Negotiations—Speaker Congratulated by Premier, Mr. Foster and Others.

OTTAWA, Jan. 18.—(Special)—A. K. Maclean, (Lunenburg), in the house last night made a most interesting and important speech on the modus vivendi. He started out by stating that he did not desire to say anything that could be interpreted in any way as interfering with the good relations that existed between Canada and the United States, when he assented to the termination of the fisheries treaty under which the United States enjoyed privileges granted by Canada for which no equivalent was given. He traced the history of the fishery question from the date of its birth in the treaty of 1783 down to the war of 1812, during which time they had rights common with British subjects on the North Atlantic waters. This was terminated by the war of 1812. The next fishery treaty was in 1818, wherein American fishermen were granted privileges in common with British fishermen, but were expressly excluded from all other waters. They also renounced the right to enter Canadian ports for any purpose whatever excepting for purposes of work, shelter, repairs and water. The only two periods in which the treaty was not in force as against American fishermen was during the period of the reciprocity treaty, 1854-1858, and during the Washington treaty of 1871 to 1885.

Mr. Maclean then discussed the Washington treaty of 1885 in a very interesting manner. He expressed surprise that the American senate rejected this treaty. He contended that the treaty contained no provision of advantage to Canada other than the delimitation of the waters of exclusion under the treaty of 1818. He quoted from an American senator's remarks in the senate favorable to the terms of the treaty, which fully reflected his own views. Mr. Maclean claimed that the treaty was made a foot-ball of party politics owing to the fact that it came up for consideration just before the presidential election of 1888. He stated that this treaty was the first treaty ever considered in open executive-session by the American senate, and this in his opinion was for party purposes and in order to have placed upon the congressional record all forms of argument against the treaty which would appear in the public press. The treaty contained a pro-Canada voluntary given by the British plenipotentiaries, which contained a modus vivendi giving to American fishermen all the privileges which under the treaty they were to receive only when congress permitted and in order to enter the United States free of duty.

FLOODS RAZE MANY HOMES

CINCINNATI, O., Jan. 17.—With the river flooding a reality in a region extending a distance of more than 400 miles, thousands of persons are suffering for less. All indications point to a stage of at least 65 feet in this city, making this the greatest flood since February, 1884. The city authorities today began to care for persons who have been made homeless or who otherwise are suffering. School buildings and churches in the east end have been opened as temporary dwellings. About 2,000 residents of Turkey Ridge in the east end have been isolated by the flood. Many of them were removed forcibly by the police to places of greater safety today. In Newport, Ky., the flood area covers eight blocks and 300 families have been compelled to vacate their homes. Much damage is being done in Covington to residences and business houses along the river front. In the Mill Creek district are the market gardens and the loss has been great. Traction lines in all directions have suffered.

THE MOONEY CLAIMS

The mayor has received a reply from Engineer Barbour regarding the payment to Messrs. Mooney of sums of money, with the understanding that these payments will have no bearing on the claims made by them for extras. Mr. Barbour agreed to the proposal that Messrs. Mooney should receive partial payments and should give a proper receipt for it. With this understanding P. Mooney this morning secured some two or three thousand dollars from the chamberlain.

THIS YEAR'S LUMBER CUT

A prominent lumberman of this city, who returned from a trip up river 400 days ago, told the Times this morning that the lumber cut this year would probably be about the same as last year. At present there is considerable snow in the woods, it ranging from four to five feet in depth, and this, to some extent acts against the cutting operations. The operators who had their logs yarded, however, are making good headway and the indications are that unless there should be a much greater fall of snow than at the present time the cut would be about as usual. There are plenty of men available for the work and the cost of provisions is about the same as usual.

\$30,000 FIRE IN HALIFAX

Two Barrington Street Buildings, Guttured By Flames.

INSURANCE \$25,000

Fire Broke Out Early This Morning—Occupants of Some Buildings Escaped in Their Night Robes—Water Supply Was Not the Best.

HALIFAX, N. S., Jan. 18.—(Special)—The largest conflagration of the year occurred on Barrington street shortly after four o'clock this morning and entailed a loss in buildings and stocks of over \$30,000. The fire was first noticed in Crump & Perrier, plumbers and gas fitters, 25 and 27 Barrington street. The flames were then pouring out of the doorway and shop windows and up the front, while the back of the shop was like the interior of a furnace. Then the fire began to spread south into Miss Doyle's building, on the corner of Bowers street, and north into the Rufus restaurant building, owned by Crump & Perrier, and then into the upper portion of Mr. McAlpine's building adjoining, all water-goods structures.

There was but little wind, the water supply is thought not to have been as good as it should have been. Several of the occupants escaped in their night clothes. An elderly lady, Mrs. Penton, who resided with her daughter, Mrs. MacAlpine, was carried out and removed to a place of safety. In the meantime the flames were pouring out on all sides. In the rear they reached the store owned by Crump & Perrier, and on the south a brick-gable which saved the Bowers street buildings. All the available apparatus was on hand. It was nearly nine o'clock before the fire was under control.

The insurance on the burned buildings and on the stocks amounted to over \$25,000. Crump & Perrier had \$5,000 in the Northern Co. on their building. The Rufus restaurant building, also owned by Crump & Perrier, was insured for \$5,000. (8,000 re-insured) in the Nova Scotia Co. Doull's building had \$2,500 in stock. The insurance Co. Mrs. Capt. Bowman's building, Bowers St., had \$1,000 in the Halifax Co. Mrs. McAlpine's stock and furnishings, \$2,000 in Halifax Co.; Crump & Perrier stock, \$1,000 in Phoenix of Brooklyn, \$500 in Connecticut, \$1,000 in Norwich Union. A. W. Stoker had \$800 in Halifax Co. G. U. Rafuse, furniture, \$600 in Ottawa Co., and \$500 in Independent. Miss Veale's stock, \$1,000 in Ottawa Co. Geo. Handley's stock, \$400 in Ottawa Co. P. J. Hanifan's stock, \$1,000 in Acadia Co. His loss is only about \$300. Miss Conway building, \$3,000 in Acadia of Halifax.

CHAMPLAIN MONUMENT

It May Now be Built — David Russell Gives \$500 to Project.

(St. John Globe). After his return from the unveiling of the Burns monument at Fredericton, Mayor Sears announced his intention of pushing forward the project to have the Champlain monument built in this city. A public meeting was held, at which the Historical Society formally divested themselves of all responsibility in connection with the project. An Ottawa despatch to the Globe today says that the designer of the monument, Hamilton McCarthy, is himself coming to St. John to try and push along the project. When some time ago Mr. McCarthy talked with a number of prominent citizens and received many assurances that they would help if the project took definite shape. Since then David Russell, of Montreal, has offered to give Mr. McCarthy the sum of \$500 towards the erection of the monument, and he has assurances from some others that they will give \$100 each. The monument, which will be one of the handsomest in Canada, will cost \$10,000 and of this the Dominion government will contribute one-half. The splendid gifts now promised from private sources will, no doubt, be largely supplemented by other public-spirited citizens and it is to be hoped the movement will take such an advance that construction work can be commenced this summer. It must be now or never, for it is not likely the government will continue their vote after this season.

THE LUDLOW.

[With sincere apologies to the author of "Jim Bludso."] Wall, no, I don't know when she'll run Or when she'll be on the route. And that's her boat you can never tell. What day she'll come dodgin' out. Why what you been since she was built That you haven't heard o' the graft. When the city paid \$9,000 plunk! For that that bedizen'd craft. That's not much choice in ferry-boats They're mostly all alike. A few days runnin' and then kersmack To the hospital back they pike.

THE SITUATION IN THE STRICKEN CITY

GROGS WORSE DAILY

NEW YORK, Jan. 18.—The latest official news of the Kingston, Jamaica, disaster reached this city today from Guantanamo, Cuba, through Admiral Evans, who had received from Admiral Davis, who was sent to Kingston on the torpedo boat Whipple, a brief wireless report that Kingston was almost entirely destroyed, that 400 persons were killed and that 500 others were in hospitals. The despatch was sent Thursday morning, and further reported that Kingston was then quiet. The Whipple started to return to Guantanamo with a full report of the situation yesterday and should have reached the American naval base during the night. Direct advices to the Associated Press from Kingston under date of January 16 received early today stated the disaster was on the scale of the calamities of San Francisco, and Valparaiso. Thousands of persons, it was then believed, had been killed as the dead were being recovered from the ruins in hundreds. A number of the wounded are being carried and cared for. The despatch also states that the topography of the country has been changed as a result of the earthquake's disturbance and that the channel into Kingston harbor has been materially altered. The body of Sir James Ferguson, who was killed, was found and buried on the day the despatch was sent. There have been a number of other deaths in the disaster and the repetitions keep the people in a constant state of terror.

The Pope Will Aid

ROME, Jan. 18.—The Vatican authorities last night received their first direct confirmation of the disaster at Kingston. The Pope, who was most anxious to send instructions to be sent to the Bishop of Jamaica to organize assistance for the sufferers. There was but little wind, the water supply is thought not to have been as good as it should have been. Several of the occupants escaped in their night clothes. An elderly lady, Mrs. Penton, who resided with her daughter, Mrs. MacAlpine, was carried out and removed to a place of safety. In the meantime the flames were pouring out on all sides. In the rear they reached the store owned by Crump & Perrier, and on the south a brick-gable which saved the Bowers street buildings. All the available apparatus was on hand. It was nearly nine o'clock before the fire was under control.

Trinidad Heard From

PORT OF SPAIN, Trinidad, Jan. 18.—The legislative council has voted \$1500 as the first instalment from the people for the relief of the earthquake sufferers in Jamaica. H. M. S. Indefatigable has sailed for Jamaica with provisions, clothing and other supplies.

Damage in Other Towns

KINGSTON, Jan. 18.—Port Antonio, on the north side of the island, suffered little damage. The Hotel Titcheild, with a hundred American guests, was not destroyed. A tidal wave has inundated Annotta Bay, washing out many houses. The shock was severe at Richmond, and this town also was destroyed by fire. Spanish Town also was damaged. One man was killed and ten men were injured there. It is reported that at Annotta Bay the crater of an extinct volcano is first of flames and smoke, and it is thought that the earthquake originated there. The records of Jamaica contain no previous mention of activity of this volcano.

BUILDING OF THE NEW WHARF

It is a Live Topic of Comment at City Hall Just Now.

The building of the new wharf on the west side seems to be a live topic about City Hall and out the streets at the present time. A citizen, who is in touch with the various phases of the matter, speaking on the subject this morning drew attention to the fact that according to the terms of the contract, the contractor is required to complete the building of the wharf within three months of the time that the site is declared ready by the city. Should the dredging be completed in October, which time he thought it would likely be, the contractor would be compelled to do his work during the winter months, when it would be difficult to get any work done. He pointed out, as well as to do the work in the winter months. Another clause which he claimed would bar out any tenderer but Mr. Mayes, was that the dredge used in the work must be registered in Canada at the time the tender was sent in. Continuing, he argued that as the Beaver, when doing her best work last summer only averaged about 1,200 yards

THE TIMES NEW REPORTER

TOLD IN VERSE. The Cub Reporter, who used to recite Jim Bludso at tea-meetings and such like affairs, has developed a poetic vein of his own since he became associated with this paper. This morning he timidly approached the Times new reporter and asked his opinion of the following parody. The new reporter thought it was so good that he herewith hands it up to his friends:

EARTHQUAKES IN RUSSIA

ST. PETERSBURG, Jan. 18.—Two violent earthquake shocks were experienced at Kuba, Government of Baku, at 5 o'clock this morning. Appeals have been sent to all sections of the island asking for assistance. Food-stuffs are needed above all things.

Extortion and Looting

The steamer Bella from Philadelphia arrived here yesterday with a small cargo of provisions. Business is at a standstill. Some shops have been opened by Chinamen, who have raised the prices on goods one thousand per cent. This has angered the people that the Chinamen were driven out and their shops looted. The hope of famine relief lies in the banana crop, which has not been injured. Medical assistance is limited, owing to the deaths of several doctors.

Shipping Is Safe

The shipping in the harbor is safe. There have been a number of other shocks since the first disastrous one. The Hamburg-American steamer Prinzessin Victoria Luise, which ran ashore at the harbor on December 18th, is now a total loss. Two vessels left yesterday for the United States loaded to their full extent with tourists and fleeing natives. A German steamer called in here on her way from Cuba and sailed again after staying in port one hour. The lines of the Hayti Cable Co., and the direct West India Co., are broken two miles out at sea. Repairs are being made. The West India and Panama line is working from Holland Bay. The railroad workshops have been demolished, but train service has been re-established. The office of the Kingston newspapers have been wrecked.

Ninety Children Killed

NORFOLK, Va., Jan. 18.—The wireless telegraph station at Cape Henry has received an official message from Rear Admiral Evans, commanding the north Atlantic fleet in West Indian waters, presumably referring to the Kingston disaster, and a message from Washington to Admiral Jellicoe, who has been communicated to him on the flagship Maine, via the coast wireless stations, but the wireless telegraph officials decline to give out anything concerning either the disaster or the message from Admiral Evans came during the day, and there were about 175,000 yards to be taken out, it would take about five or six months to complete the work.

Death of Miss Lipsett at the Victoria Hospital

FREDERICTON, N. B., Jan. 18.—(Special).—Miss Nellie Lipsett, daughter of the late Andrew Lipsett, former chief of the fire department, died at the Victoria Hospital this morning from anæmia. She had been ill for some time, but was only admitted to the hospital yesterday. She was forty years of age.

THE FIRST MAYFLOWER

Thos. E. Dyer, the man who finds the first Mayflower, has made a new record. While he and Mrs. Dyer were strolling in the park, beyond the artificial lake, on Sunday, Jan. 6th, he discovered some Mayflowers in bud. He brought them home placed them in water, and this morning one of them was in bloom. It is now in the Times editor's desk, a delicate white blossom luring his thoughts away from the dreary winter outlook to the green foliage of May-time, and the call of birds in the open.

READY FOR THAW'S TRIAL

NEW YORK, Jan. 18.—Harry K. Thaw's sister, the Countess of Yarmouth, is a passenger on the steamship Kaiserin Augusta Victoria which was expected to dock yesterday, but was prevented from doing so by thick weather. The vessel should dock today. Preliminary to the trial of Thaw next Monday for the murder of Stanford White, District Attorney Jerome is subpoenaing all the witnesses needed by the prosecution.

EQUITY COURT

The equity court sat this morning, Mr. Justice Barker presiding. In the matter of Rexford Winslow, an infant; Jasper H. Winslow, next friend, applied for leave to sell certain lumber lands. An order was granted allowing the sale to be made for a sum not less than \$10,000. Winslow & Allan, of Fredericton, proctors.

WILL OF THE LATE JAMES REYNOLDS

\$1,000 Left to Industrial Home Balance To His Five Children —Total Estate Valued at \$97,000. The last will and testament of the late James Reynolds was today admitted to probate, and letters testamentary were granted to A. H. Hanington and Susanna R. Reynolds, the only surviving executors named in the will. The only public bequest was \$1,000 to the Bishop of St. John, to be devoted to the Industrial Home. To his five children surviving he leaves shares and share alike of all money and property. The estate values at \$17,000 real and \$80,000 personal property. C. S. Hanington, proctor. In the estate of the late Young Swanton an application for administration was made by J. Dunlop, a creditor. Mr. Reyn's daughters are: Mrs. P. C. Millette, of Buffalo, N. Y.; Mrs. J. Fred Payne, Miss Mary, Miss Susan and Miss Emma Reynolds.

AMHERST HAS SERIOUS FIRE

Allan Archibald's House Was Burned. This Morning

FIREMAN HURT

Curlets Meet and Discuss the Formation of a Maritime Association—Scheme Meets With Approval—George W. Cole Nominated for Mayor.

AMHERST, Jan. 18 (Special)—A serious fire occurred at 10:30 o'clock this morning whereby the residence of Allan Archibald, Iveyman, on the corner of Hawlock street and Union Row, was practically destroyed. When noticed it had made considerable headway in the upper part, apparently around the fire and walls. The house was completely gutted, the furniture, although considerably damaged, was about all moved from the lower flat. The loss on the building will be about \$1,800, insured for \$500. The furniture is insured for \$500. During the course of the fire the chimney toppled over, carrying the men from one of the ladders and seriously injuring Russell Lindsay. At first it was thought he was killed, but on the arrival of the physician it was found that although suffering from terrible gashes in the head and one hand badly broken up, it is hoped that he will survive.

John O. Stiles had his arm slightly injured while others of the firemen received slight injuries. How any escaped is a marvel, as the bricks fell in a body apparently in the midst of them.

At the close of play last night an important meeting of curlets was held at which matters in the interest of maritime curlets were discussed. Secretary J. J. Atherton and R. C. Fuller outlined a proposed scheme for the formation of a Maritime Association, other speakers favored the proposition and no doubt steps will soon be taken along this line. The visiting curlets were enthusiastic in their views and commended to the local management and especially to J. P. Atherton, secretary to whose efforts the grand success has been largely due.

The morning games are not sufficiently advanced for present writing. This afternoon the semi-final of the Governor-General match and 20th Century trophy will be called.

At a meeting of the citizens' league last evening, George W. Cole, secretary-treasurer of the Robt Engineering Co., was nominated as mayor.

OBITUARY

Miss Mary Power The sudden death of Miss Mary Power, of Black River, St. John county, this morning, was learned of in this city with general regret by her many friends and acquaintances.

Miss Power was exceptionally well known at Black River, and the many citizens who had the pleasure of enjoying her hospitality will learn of her death with a feeling of great sympathy for her relatives.

Since girlhood, Miss Power, who was the eldest daughter of the late Robert Power, has resided at Black River, and her home has always been the stopping place of the parish priests, who have for long years been assigned by the Bishop of St. John to look after the spiritual wants of the Catholics there.

Miss Power has three sisters living, namely, Mrs. K. Redmond, of Mass.; Mrs. J. Mullin of this city and Mrs. M. McGuire, of this city. The brothers are John and Frank, of this city, and Robert, postmaster at Black River.

Owing to many of the relatives of the deceased residing in the States, the date of the funeral has not been as yet decided upon.

NEWS FROM FREDERICTON

Death of Miss Lipsett at the Victoria Hospital.

FREDERICTON, N. B., Jan. 18.—(Special).—Miss Nellie Lipsett, daughter of the late Andrew Lipsett, former chief of the fire department, died at the Victoria Hospital this morning from anæmia. She had been ill for some time, but was only admitted to the hospital yesterday. She was forty years of age.

J. H. Dressell, manager of the New York Sportsman's Show, is here today endeavoring to arrange for an exhibit from this province.

The young men of the city will be the hosts at a ball to be given at the Queen Hotel tonight.

The ferry steamer Ludlow is still snugly tucked away in the Rodney harbor and the Western Extension is bravely bearing up under the burden of the work placed upon her.

J. E. Cowan, Main street, who was injured yesterday, is resting very comfortably today. Mr. Cowan received but a slight injury to his head by the accident.

COLLINS CASE AGAIN TODAY

Several Witnesses were Examined This Morning

THE TWO VALISES

Michael Trehan Re-examined by the Crown—Other Witnesses Tell of Valises Carried by Collins—The Mystery of the Disappearing Pedlar.

HOPEWELL CAPP, N. B., via Hillsboro, N. B., Jan. 18 (Special)—The interest in the Collins murder trial continues keen.

Michael Trehan was recalled by the crown this morning.

Mr. Shiner asked the witness the name of the man who was mentioned as being connected with the disappearance of the pedlar, and he replied, "I never heard anything of the disappearance of the pedlar."

William Williamson, the husband of one of the witnesses of last night, was next put on the stand. He said he knew Fisher McAlay, his housekeeper and the prisoner. Witness saw Collins on the way he left Elgin with the priest and the following day he came to his place to get an axe ground. He recognized the axe found in the bedroom as the one in question. When asked as to the white paint on the blade, he did not think that was on when it was ground. That evening the prisoner again came to the witness's house and borrowed a razor.

The prisoner said that he and Mary Ann McAlay were going to Albert A. Atwood and were going to drive the truck's horse and buggy. On the Sunday following the tragedy, he passed Fisher McAlay's, but did not stop up to it.

Witness went on to say that last summer he heard the witness's house was being garbled and also that a pedlar had been taken and robbed a month from the tragedy. On the week of the tragedy he had been working at Greenwood Lake and came home on Saturday night, springing about nine o'clock. This witness is about the time and came home the following evening. When Collins came he talked about the good time they had had. Prisoner also said that he was bringing the witness's razor back Monday.

Mr. McKewen here asked if the razor he had heard the witness's house was being garbled and also that a pedlar had been taken and robbed a month from the tragedy. On the week of the tragedy he had been working at Greenwood Lake and came home on Saturday night, springing about nine o'clock. This witness is about the time and came home the following evening. When Collins came he talked about the good time they had had. Prisoner also said that he was bringing the witness's razor back Monday.

At a meeting of the citizens' league last evening, George W. Cole, secretary-treasurer of the Robt Engineering Co., was nominated as mayor.

An order was granted allowing the sale to be made for a sum not less than \$10,000. Winslow & Allan, of Fredericton, proctors.

In the matter of Scovil vs. McAfee, H. H. Brittain moved that the report of the referee be confirmed. Order granted.

The mayor was asked this morning if he intended to take any steps to call a meeting for the purpose of discussing if St. John should send any funds to the sufferers in the Kingston disaster. His worship said that as there was no indication as yet from any one in authority that help was needed, he did not see that the city could take any action. He thought they should await some word from the governor of the island or someone else in authority.

It takes a soft man to spread himself. The good die young—especially good resolutions.

DETAILS OF THE NEW NORTHWESTERN ISSUE New Stock, Common Stock, Aggregating \$25,000,000--Hill Says \$5,500,000,000 Will Be Required in Five Years for Railroad Construction.

(New York Herald, Wednesday.) Stocks were intensely dull yesterday, with such activity as the market displayed being confined to a limited group of issues.

News was mixed in yesterday's stock market. The monetary developments were all of favorable character. It was upon this that the professional element sought to advance prices and to which the recovery was due.

DETAILS OF THE NEW NORTHWESTERN ISSUE. It was announced yesterday by the Chicago and Northwestern Railway Company that a new common stock offering would be made to shareholders at par to the extent of 25 per cent of the total common and preferred stock outstanding.

Resolved, that to obtain funds for the purpose of constructing and equipping its railway, there be issued an additional amount of common stock equal to 25 per cent of the total preferred and common shares now outstanding.

CHOIR BOYS HOLD DRIVE AND DINNER

Trinity Choir Boys Enjoyed Themselves Last Night With a Drive and Dinner at White's.

A very pleasant evening was spent by the Trinity choir boys and their friends last night, the occasion being their annual drive and dinner. Under the leadership of Gordon Allen, the senior member of the boys' choir, about 25 brightly faced, happy lads drove to Torriburn and returned to White's Restaurant, where they had the choicest and most served dinner.

After the good things had been thoroughly discussed, Mayor Sears proposed the health of the King, which was honored in the usual way. His Worship then delivered a particularly happy address to the boys in which he gave them much good counsel and urged them to so comport themselves as to be good and useful citizens.

THE WIZARD OF THE Nile

Robinson Opera Co. Makes Hit With It in Halifax. Referring to the Robinson Opera Company's fine production of "The Wizard of the Nile," with which they open an engagement at the Grand Opera House on Monday night, the Halifax Echo of January 10th says:

The Robinson Opera presented the comic opera, "The Wizard of the Nile," at the Academy of Music last evening for the first time in Halifax. The audience, and the opera was a great success from the start. The Wizard had wonderful success in the states, and it is not to be wondered at. The music is pretty much of its catch, and the piece was magnificently staged and costumed.

MOVING PICTURES AT THE OPERA HOUSE

A great many people ask the question, "What's at the Opera House?" and they receive the reply, "Moving pictures," they say, "Oh, please, I don't care for pictures, or I've seen pretty near everything there is in pictures." Now, right here is just where the mistake is made. The Vitagraph Company not only exhibit the best moving pictures of the world, which places them in a position to give the very newest and best in the market, and for that reason there is little wonder they give such a perfect exhibition as they do.

THE EVENING TIMES. ST. JOHN, N. B., FRIDAY, JANUARY 18, 1907.

THE EVENING TIMES.

ST. JOHN, N. B., JAN. 18, 1907.

The St. John Evening Times is published at 27 and 29 Canterbury Street, every evening (Sundays excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

ST. JOHN SHOULD ACT

It would be a graceful act for the city of St. John to join in a contribution to the Kingston, Jamaica, relief fund. The steamer Beta, leaving Halifax tomorrow, will carry supplies free. Why should not the city council wire instructions to Halifax to have relief supplies, to the value of whatever sum it may vote, sent out on this first available steamer?

The need is urgent. The fear of pestilence as well as famine broods over the stricken city. Medical assistance is limited, the cable states, because several of the doctors were killed by the earthquake. Food is reported scarce, and at famine prices, the banana plantations being the chief source of fresh supplies until others arrive.

The appalling nature of the disaster grows clearer with the fuller details received. The awful dread of further calamity oppresses the hearts of the people.

St. John has close trade relations with Jamaica, and has now an opportunity to manifest its sympathy in a practical way, at a time when the heart of the whole world goes out in sympathy toward a people stricken night unto death. He gives twice who gives quickly.

MR. MACLEAN'S SPEECH

The speech of Mr. Maclean of Lunenburg, in parliament yesterday, on the subject of the Atlantic fisheries, is timely. Secretary Root, a London cable states, is expected on his visit to Ottawa this week to clear up some matters in dispute between this country and the United States. He will doubtless take occasion to read the speech of Mr. Maclean, of which a summary is given in today's Times, and which sets forth with admirable clearness the un-neighborliness of our neighbors in regard to fishery matters. It is stated that leaders on both the government and opposition sides of the house congratulated Mr. Maclean on his temperate and yet exhaustive treatment of the subject. Doubtless the fact of Mr. Maclean's visit and the apparent prospect of a mutually friendly discussion of differences between the two countries will influence the government to counsel moderation at the present moment; but there is no reason why our neighbors should not have the mirror held up to them as it has been done by Mr. Maclean. The fishery question is of great interest to the people along the south shore of Nova Scotia, and an adjustment of differences is most desirable.

TEACHERS' SALARIES

The Times draws the attention of the St. John school board, the city council, the citizens at large, and the people of the province generally to the following editorial from the Toronto News: "Inverness county, in Cape Breton Island, had 24 public schools closed all last year. There were two main reasons for this, the scarcity of teachers and, occasionally, the smallness of the school sections. But the teacher famine was the most important. It is interesting to note that the scarcity has been the direct result of low salaries. In other words, Cape Breton can sympathize with Ontario. Prosperity has provided many positions where a teacher can earn more than in a rural school. Naturally one of these positions is taken. The exodus from the teaching profession to other walks in life has always been in progress. Just now it has become positively alarming. Young women of intelligence, education and culture have been teaching in Ontario for \$300. A bright office boy, aged 13 or 14, will earn \$4 a week or \$208 a year. There is something radically wrong in a system of education which permits such humiliating compensation.

"The Inspector of South Inverness, C. B., says: 'The matter of salaries has been the dominating factor in keeping the schools open or closed.' In spite of prosperity, people want teachers at the old rates. That is the exact trouble in Ontario. In the minds of our grandmothers the school teacher got, say, \$250—a fairly good salary in those days. But the purchasing power of money has decreased enormously, and \$250 now is hardly enough to keep body and soul together. Yet the teachers are asked to take \$250 or nothing, and when the government fixes a minimum salary, which trustees should pay, the province fines in anger and demands the repeal of this section of the new law. It is vital to the educational future of this province that ratepayers and trustees should realize as soon as possible that a very cheap thing is never a bargain. The crudeness and inefficiency of a cheap teacher will be reflected in the ignorance of the children. Surely the parents want their little ones properly taught. If so, they must be prepared to pay for it. If they will not pay, the state, which looks to the children for its future citizens, must exert its authority, and by means of minimum salary clauses, compel them to pay."

A correspondent suggests a fund for the benefit of the homeless infant found in an alley off Waterloo street a few nights ago, and taken to the Angelina Home. The suggestion indicates a warm heart, but on careful thought it must be observed that there are infants with their parents whose future is less promising from every standpoint than that of the little one

now in the care of the ladies of the Salvation Army Home. Perhaps, however, that is not a sound argument against the display of practical sympathy in this particular case, since it is difficult to extend aid to those infants unfortunate enough to have brutal and depraved parents. There is certainly no danger that society will grow too thoughtful about the welfare of its weaker members.

St. John was fortunate in having a representative in the senate yesterday when the Atlantic mail service was under discussion. Senator Ellis might have been even more emphatic in his protest against the sectionalism of Halifax in this matter; but he made it clear that this city does not fear a fair test as compared with Halifax in this matter of the rapid transportation of mails and passengers. Sooner or later St. John must be given a fair trial, however much Halifax may appeal to the sacred nature of mail contracts.

The Times a day or two since published the statement of Dr. Ernest Hall of Victoria, B. C., that there should be schools for defective children. It is worthy of note that the experiment is being made in various American cities. In Boston, Philadelphia, Chicago and New York there are ungraded classes under special teachers. It is found that by this special treatment defective children are in many cases made wage-earners.

It is remarked by an American journal that if Raiulni, the Moroccan bandit, had been born in New Jersey he would doubtless by now be engaged in some profitable Christian business under the great white dome at Washington; and that he must regret his failure to get into insurance when a young man. This is a somewhat interesting comment on bandits—and some other people.

The Quebec Telegraph observes: "The woman's clubs of Philadelphia will devote themselves during the winter to discussing dirty streets, soft coal smoke, the needs of the public school system, and the reformation of youthful criminals. Such a programme might prove even more interesting than bridge and progressive euchre to clubs of Canadian ladies."

The New Brunswick senatorial appointments were the subject of an interesting debate in parliament yesterday. Naturally, the opposition took advantage of the opportunity presented, and entertainingly, if uselessly, discussed the subject, in a manner no doubt fully approved by some persons who were overlooked in the search for good men.

Sir Percy Girouard, a Canadian, who has already won high imperial honors in Africa, has been temporarily appointed high commissioner for northern Nigeria. His services to the empire and his marked ability are not overlooked by the British government.

The Quebec Telegraph says: "A club has been formed in St. John, N. B., which may well find its counterpart in all the other cities of the Dominion. It is called the Every Day Club, and its motto is a very striking one:—'To help men to be men.'"

That was an unlucky number at the meeting last evening to discuss civic assessment. Either the proposed new bill is fairly satisfactory, or nobody cares. Which is it?

Having visited the South American, Secretary Root now comes to the Northern American, on his tour of conciliation. He is welcomed as a clever statesman and the accomplished representative of our nearest neighbor among the nations.

Customs clerks, policemen and telephone linemen wait more pay. The tendency all round appears to be in the direction of increased wages.

Another small bank has been absorbed. The People's Bank of New Brunswick is now a branch of the Bank of Montreal.

A steamship which arrived yesterday from Halifax was encased in ice. Of course Halifax could spare the ice.

HALF A MILLION

The "Canada" refers as follows to the government measures to be introduced at the approaching session of the Quebec Legislature: "Among the measures which the government will bring before the house may be mentioned in all probability, the establishment in Montreal of a school for higher commercial education and a technical school; a bill on insurance, and another bill on joint stock companies. The importance of the two proposed schools will strike the mind of every one. The construction and equipment of these two schools may bring on an expenditure of half a million, but that expense will constitute a first class investment, since the schools will prepare for the near future a generation of more capable business men and mechanics, better prepared for the battle of life and in a better position to serve the material interests of our province."

Every man sees an earthly angel in the woman he loves.

THE END OF THE DAY

I hear the bells at evening. Peal softly, one by one. Near and far, as they break and glide; Across the stream float faintly beautiful The anticipations of the day. The day is done, done, done. The day is done.

The dew has gathered in the flowers. Lids tears from some unconscious deep; The swallows whirl around the eaves; The sun runs out beyond the long cloud bars. And leaves the single stars; 'Tis time for sleep, sleep, sleep, 'Tis time for sleep.

The hermit thrush begins again— "Dimorous erant— That song of sweet tears and pain. As if the one he loved was far away: 'Alas neighbor day, and the following conversation took place:— 'And now Good Night, Good Night Good Night.' —Duncan Campbell Scott.

IN LIGHTER VEIN WHERE IT HIT HIM. Mother (to daughter whose father goes around the corner every time she opens the piano)—Emily, you must stop practicing. Your father's nose already shows signs of it.—Tales.

A POLITICIAN. "Have you never said anything you were sorry for?" "Yes," answered Senator Sorghum; "the only thing I was sorry for was my error of opening up that I was sorry."—Washington Star.

A MAGICIAN. Mrs. Townleigh—Your son must be quite a magician, Mrs. Hayrix. Mrs. Hayrix—Why do you think so? Mrs. Townleigh—Overheard his father telling him to turn a horse into a field this morning.—Chicago News.

BY ANY OTHER NAME. "Senator, do you think that graft will eventually be eliminated from politics?" "Without doubt," replied Senator Badger, assuredly. "But I think there will be many politicians susceptible to certain persuasive influences that will be known by another name."—Milwaukee Sentinel.

HEW HIS BUSINESS. A man wanted his barn whitewashed and he sent for a colored man. The following conversation took place:— "Uncle Rastus, what will you charge to whitewash my barn?" "Two dollars and a half a day," said Rastus.

"I mean what will you do the job for?" "Well, I'll just tell you how I am. You see, when you has whitewashed out de cost of de whitewash and de pails an' de 'wear and tear' on de brushes, sah, yo'll find dere is no money in it by de job."

SENATOR GILLMOR (Montreal Witness). Daniel Gillmor, one of the two newly appointed senators for New Brunswick is a son of the late Senator Gillmor, and was born at St. George, Charlotte Co., N. B., in 1849. There he received a liberal education, and after some business experience became a partner of the firm of O'Brien & Gillmor, who conduct a general business, and with which he has been identified for many years. Besides owning a large amount of property in St. George, Mr. Gillmor has a leading partner in the well-known firm of Chase & Sanborn, coffee merchants, but spent little of his time there.

Mr. Gillmor has always been more or less identified with politics, owing to his father being a senator. In 1904 he entered the political arena at a grand meeting for federal honors, opposing Mr. Ganong, M. P., the Conservative candidate for Charlotte county. Although having only three weeks in which to master his forces, and the county has been a Conservative stronghold, Mr. Gillmor made a remarkable showing, and out-drove Mr. Ganong's majority to a great extent. His many friends today expressed great that a report should have been circulated that he effect that under section 25 of the B. N. A. Act no person can be appointed to the senate unless he is a resident of the province for which he is appointed, and that vice for which he is appointed, and that appointment may be questioned. It was pointed out in contradiction of the above that Mr. Gillmor is a resident of St. George ever since his youth. Not only has he a summer residence, but a winter residence as well, and in addition is one of the largest property owners. Further, unless he had been a resident he could never have run as a candidate for parliament in 1904.

The report is believed by those who have emanated from his political opponents, and by others as coming from his friends, are jealous of his success.

Mr. Gillmor is at present in St. George. His many friends in Montreal are greatly pleased at the honor conferred upon him.

DRINK THE HYPNOTIST

Drink is the greatest and most harmful hypnotist on the earth at present, and that influence is more awful than any hypnosis ever devised. I have looked back from more than middle life, I can hardly remember a case of hypnotism that has not been, directly or indirectly, the result of drink. It is a terrible poison, my memory goes through, of men of good and noble character, of bright and brilliant opportunities, who are dead, or worse than dead, in addition to the great hypnotist. Against that record I cannot recall a single case of a man who, free from the great hypnotist, came to the end of his great powers, and the end of his life. I think I am not far from the truth when I say that I truly believe that if the drink could be taken away from the world tonight, humanity would awake in the morning with more than half its sorrows and sufferings gone.—From Hall Caine's new novel, "Drink."

A wedding of more than ordinary interest in society circles was that of Miss Helen Chipman Robertson, youngest daughter of James F. Robertson, to Hugh Aubrey Holmes, son of Colonel J. G. Holmes, of Victoria, B. C., D. O. C. of the Pacific slope, which took place in St. John's (Stone) church last Wednesday afternoon, in the presence of an immense gathering.

The ceremony was performed by the rector, Rev. G. A. Kurling, assisted by Rev. Allan W. Daniel, of Rothesay. At no event this season has society been so largely represented as on Wednesday afternoon, in the presence of an immense gathering.

The happy couple are spending their honeymoon in Montreal, Toronto and New York. On their return they will spend a few days in St. John at the bride's parents' home, after which they will leave for Summerside, P. E. I., where the groom is manager of the Canadian Bank of Commerce.

The home of Mrs. G. Fred Fisher, Mechanic street, was the scene of one of the brightest and most successful events of the season, on Monday afternoon last, when she entertained over two hundred of her lady friends at tea.

The decorations in the drawing room were simple but in exquisite taste, consisting mainly of white hydrangeas, and pink roses, while graceful waxen taper, emitted a soft light from beneath pale pink shades.

Mrs. R. D. Patterson and Mrs. George Warwick poured tea and were assisted by the following ladies:—Mrs. A. P. Barnhill, Mrs. F. E. Hanington, Mrs. John E. Moore, Mrs. Clarence Allan, Mrs. Harold Percival, Mrs. Harvey Hayward, and Mrs. G. F. Anderson.

Among those noticed in the drawing room were Mrs. (Dr.) Boyle, Mrs. George F. Smith, Miss Smith and Mrs. Thorne. Despite the unfavorable weather conditions there were a large number of guests present, and a feature of the event—and one which added largely to the general effect—was the number of pretty costumes worn by the guests.

Another event of interest in the social round of the past week was a very delectable soiree d'ante, at Elm Cliff, the home of Mrs. William E. Maloney, in honor of her niece, Miss Bartlett, of Ironwood, Michigan.

About eighty guests were present and the early part of the evening was devoted to progressive whist; the ladies' prizes having been captured by Miss Annibel Brennan and Miss Lillian Bartlett, while the gentlemen's trophies were won by E. Godsoe and Norman McGloan.

Shortly before midnight the parlors were cleared for dancing, while selections and vocal selections added much to the enjoyment of the evening. At twelve o'clock luncheon was served in the dining room, which was artistically decorated, green and white being the prevailing colors.

After partaking of a dainty repast the those interested in it of any improvement in the situation or the outlook that only their heavy investments in local buildings and other property are moving away to more promising centres.

THE RHODES SCHOLARSHIP Dr. Parkin Says There Will be 800 Canadian Graduates of Oxford in Another Generation.

(Montreal Witness.) Dr. George H. Parkin speaks enthusiastically of the good results the Rhodes scholarship scheme, remarking, in the course of an interview, that before another generation there would be eight hundred of the Rhodes graduates from Oxford spread throughout Canada, and this would have a great effect upon the progress of the country.

At the present time, he remarked, there is but one scholarship for the Northwest it was established when Alberta and Saskatchewan were territories—and he is now endeavoring to arrange a new scholarship for the province of Saskatchewan. In this move he is backed up by the other trustees, and so in a few years there will be twenty-seven Canadians at Oxford under the Rhodes scholarships scheme.

Numbering now twenty-four, while there are eighteen from Australia, seventeen from South Africa, three from Bermuda, Jamaica, and Newfoundland respectively, seventy-nine from the United States, and eleven from Germany. When the complete number of students is at present, seventy-nine from the United States, and eleven from Germany.

The students who have made the best records in college so far are from Australia, New Zealand and Canada. The Canadian in the final stage of their work at Oxford who have won distinction during the past year are:—H. J. Rose (Quebec)—The Ireland scholarship, probably the highest distinction open to undergraduates at the university (thirty pounds a year for four years).

A Craven scholarship—(forty pounds a year for two years). First class honor distinctions. Made an honorary scholar of Balliol. Chester B. Martin (New Brunswick)—The Gladstone memorial scholarship, in final honor school of Lit. Hum.

G. S. Stairs (Nova Scotia)—Second class honor school of modern history. R. V. Bellamy (Northwest Territories, Canada)—Diploma in economics with distinction. Questioned in regard to the reports that the United States students are not making as much progress as the colonial men, Dr. Parkin said their previous education was more at variance with the Oxford system than the colonial system, and Americans had told him that in many cases the ablest men from the different states had not been sent to the Old Country, as the benefits to be derived from an Oxford education were not yet fully appreciated in the United States, particularly in the western states.

Dr. Parkin is preparing a register in which the records of all the Rhodes scholars will be kept. Then men will be asked to supply information as to their records before entering Oxford, and from that time on until their death—a complete account of each man's career will be kept, so that the benefits of these scholarships will be ascertained. Another scheme on foot in regard to the Rhodes scholars is to have them establish fellowships for graduates whom they think the most able men from the different states had not been sent to the Old Country, as the benefits to be derived from an Oxford education were not yet fully appreciated in the United States, particularly in the western states.

Rudyard Kipling is greatly interested in the Rhodes scheme. Just before he left England, Dr. Parkin visited Mr. Kipling at his home in Sussex, and from that time on he has been talking the furtherance of the plans now under consideration. One of their schemes is to found a Rhodes Club, where all students in London, thus keeping in touch with one another. An annual dinner, at which eminent speakers will be present to address the men is another scheme, and in a few years there will be annual dinners at the chief points in all the colonies and countries where the changed by cable at these banquets, and the feelings engendered as students will remain throughout life.

A joint meeting of the board of management and trustees of the Y. M. C. A. has been held at the residence of the director for getting in subscriptions to the building fund. There was also discussion as to the exact location of the building on the site. As the architect, Mr. Fairweather, is away, decision was deferred.

Malcolm—What am I to do with that spoony young lawyer, Charlie? I've refused him three times, and he always keeps coming again like a bad shilling. Charlie—Ahem. Bad shilling or not, Mal, he seems to be a legal tender.

Mr. Sloan (British Columbia) will follow today, dealing with the fishery question on the Pacific, and will enter a protest against the privileges granted the New England Fishing company, and which have only been extended for six months.

NOTICE OF MEETING. THE Annual Meeting of the shareholders of The New Brunswick School for the Deaf will be held on Thursday, the seventeenth day of January, 1907, at the office of A. O. Baines, Esq., King Street, St. John, N. B.

OBITUARY Mrs. Harriet Brent Mrs. Harriet Brent died Thursday at the residence of her son-in-law, H. M. McAlpine, 18 Horsfield street. She was in her 76th year and was the wife of the late Samuel Brent, of Halifax. Besides Mrs. McAlpine, three daughters survive—Mrs. Charles Williams, of this city; Mrs. William Lowndes, of Halifax; and Mrs. Harriet Scobie, formerly of Halifax, but now of Alberta. Mrs. Lowndes was present when her mother died.

Dr. James Primrose Bridgetown, Jan. 17—(Special)—The death of Dr. Jas. Primrose, of this town, occurred quite suddenly this afternoon. He had been suffering from cancer for some months, and though it was known that he could not live a great while, still it was not supposed that the end was so near.

Mrs. Louise Vincent Mrs. Louise Vincent, widow of Gilbert Vincent was found dead in her bed Thursday morning at the residence of her son-in-law, George W. Matattall, 8 Carleton street. Mrs. Vincent had retired on the previous night in her usual state of health. Yesterday morning her grand daughter went to her room to wake her but failing to do so she called Mr. Matattall, who at once saw that Mrs. Vincent was dead. Heart failure was the cause of death. Mrs. Vincent was seventy-six years of age and is survived by three sons, one daughter and a brother. An additional sad feature of her death is that only three weeks ago Mr. Matattall's wife was buried from the same house.

APPLICATION IS LAID OVER Safety Board Receives Police Request for More Pay and Will Consider it Later.

At a special meeting of the safety board yesterday afternoon a petition from the police force for increase in pay was received and left for consideration of a future meeting. The director was ordered to report on an application from the Seaman's Mission for the use of No. 8 engine house in Carleton. Hon. E. J. Ritchie reserved his request that improvements should be made in the court room by closing one of the entrances to the quarters below. The application was granted. The previous recommendation to grant a lease of certain properties on the Manawagomish road to A. W. McKeown was confirmed.

W. E. Scully was granted a renewal of leases of three lots at the corner of Lancaster and Charlotte streets, Carleton, at \$8 a year each.

A motion by Ald. Baxter that a telephone be installed in the upper part of the police building for the use of the police court, was carried.

On motion of Ald. Bullock, the director and Chief Kerr will report on putting two and three-way hydrants in at Sand Point in place of the old one-way hydrants now there.

The offer of W. A. Munro to make changes for drying the salvage corps covers in No. 3 engine house for \$50.00, was accepted. The other tender was for \$75, from W. H. Bowman.

The director was instructed to get bids from all the electrical firms in the city for lighting the council chamber and to engage the services of an architect to plan the lighting in the other civic buildings.

Exceeding All Former January Sales Records

Greater throngs than our January sales ever before brought to this store—an evidence of success apparent to the merely casual observer. A vastly larger volume of business—most gratifying evidence to us of the public appreciation of the values. And why shouldn't it be so? Prices are reduced on our entire stock of Men's and Boys' Clothing and Furnishings from 25 to 50 per cent. on our already lower than elsewhere prices.

Buy for your immediate needs and buy for next year. It will pay you well to do so. PAROLE SYSTEM SATISFACTORY

Danger in Association of Youthful Prisoners With Those Aged in Crime.

The average daily population of the Canadian penitentiaries, according to the report for last year of the inspectors of these institutions, is 1,407. Although this is a slight increase over last year, it is still below the number in custody seven years ago. The inspectors speak in high terms of the success attending the parole system and consider that its operation fully justifies the increase in the number of paroles that are now granted. It will be observed that although there is an increase at every penitentiary except Dorchester.

A secondary, but none the less important result of the parole system is the pecuniary saving to the taxpayers. There are at present four hundred men, who would otherwise be in the penitentiaries, on the state, who are now self-supporting producers. The number who have a reasonable common school education is very small, probably ten per cent. The number of illiterate equals sixteen per cent. Many of those who can now read and write were unable to do so when received at the prison.

In addition to the regular school classes carefully selected list of books, aggregating thirteen thousand volumes, are available to those whose conduct is such as to merit the grant of the privilege. It is gratifying to note that the library privilege is highly appreciated and is found to be one of the most effective aids to discipline. The books are selected by a "library board" consisting of the warden and the chaplain, affording the best possible safeguard against the admission of improper literature.

The moral habits of the convicts are: Total abstinence, 197; temperate, 697; intemperate, 545. Total, 1,439. Those under twenty years of age constitute one-eighth of the prison population. At St. Vincent de Paul they comprise twenty per cent of the inmates. It is pointed out that the excess of youthful convicts at this institution is due, at least in part, to the fact that there is no provincial prison for the district to which offenders may be sent. In Ontario there is an admirably managed central prison to which this class of offenders are generally sent. We cannot, says the report, emphasize too strongly the opinion, based on personal observation, that the Canadian with experienced criminals incidental to penitentiary life is the most dangerous environment in which a lad can be placed.

THEY DINED AT NEWCOMBE'S

Mid-Winter Excursionists Held Enjoyable Sleigh Drive and Dinner Last Evening.

Celebration of the famous mid-winter trip up river, made several years ago, took place last evening, when the members of the intrepid party drove out to the command of the second cruiser speeches, songs and other entertainment followed and the younger members of the party indulged in dancing. Those present were: George Dunlop, Percy Holman and Dr. A. D. Smith.

The toast to the King was proposed by Ald. Vanward, the Day We Queen have responded to by the president, vice-president, and secretary-treasurer, John Salmon, George Vincent and N. C. Scott replied to the toast to the ladies. Dr. A. D. Smith gave a fine recitation. Ald. Vanward and John Salmon sang a piano solo.

LOUIS OF BATTENBERG

It has been arranged that Rear-Admiral Prince Louis of Battenberg will hand over the command of the second cruiser squadron to his successor, at Gibraltar, on Feb. 26, at the conclusion of the combined exercises of the fleet under Admiral Sir Arthur Wilson. Apparently, therefore, Prince Louis will not be home in England on leave between his two appointments. His present flagship, the Drake, will return to Portsmouth and pay off on March 1, being then attached to the Portsmouth Division of the home fleet. Prince Louis has selected the battleship *Venerable* as his flagship, as second in command in the Mediterranean, the sister-ship *Queen* having been chosen by the new commander-in-chief, Vice-Admiral Sir Charles Drury, who will go out to the Mediterranean in about two months' time to succeed Lord Charles Berosford.

PROTESTANT AND CATHOLIC

Views Respecting Common Schools—Religious Dogma is the Obstacle, Says Mr. Tarte's Paper.

On January 9 Henry Tucker, advocate of Montreal, addressed a letter to the 'Patrie' on the question of common schools, in the course of which he said: "If the different nationalities in the province would unite in the province, the same teachers, the same mode of teaching, and the same text books, the cost would be much less than now; the results immensely more advantageous."

After mentioning that the formation of a Canadian nationality cannot be realized if the different nationalities are kept separate, Mr. Tucker remarks that the religious question is brought up as an objection, and he says: "Religion is a good and even necessary thing in the world, but, after all, it is a matter of conscience. Let my neighbor practice his religion as he sees fit, and I will do the same. That should not prevent us from loving and respecting one another. The children being trained in the same schools. Sacrifices should be made in the common interests."

The 'Patrie' replied to that letter on Saturday last. After declaring that the French-Canadians and Catholics are heartily in favor of educational progress, the paper says: "It is entirely impossible to put such a system into practice. There are quite a number of subjects upon which our Protestant friends and ourselves do not agree, such as historical questions and the interpretation of certain budget would be larger, and the results immensely more advantageous."

After mentioning that the formation of a Canadian nationality cannot be realized if the different nationalities are kept separate, Mr. Tucker remarks that the religious question is brought up as an objection, and he says: "Religion is a good and even necessary thing in the world, but, after all, it is a matter of conscience. Let my neighbor practice his religion as he sees fit, and I will do the same. That should not prevent us from loving and respecting one another. The children being trained in the same schools. Sacrifices should be made in the common interests."

The writer further admits that all Canadians should unite in furthering the general interests of the country, outside the consideration of the creed of individuals, but he adds: "To reach such a desirable end it is not necessary to attend to the same schools. As far as we are concerned, if such attendance were possible we would feel happy, for we see more and more the necessity of all the races in our country living in harmony, but again we repeat that the religious dogma is an ob-

A BAD COLD SETTLED ON THE LUNGS

All the most serious affections of the throat, the lungs, and the bronchial tubes, are, in the beginning, but coughs and colds, and failure to take hold at once and get rid of them will cause many years of suffering.

Dr. Wood's Norway Pine Syrup

contains all the lung healing virtues of the pine tree and will certainly cure all coughs, colds and lung troubles.

Mrs. Jas. McDowell, Langton, Ont., writes: "In November, 1905, I caught a bad cold that settled on my lungs, so I got two bottles of Dr. Wood's Norway Pine Syrup, and used one and a half of them and by that time I was cured. I laid the balance of the bottle away for future use. A few days after our eight months' old baby took the whooping cough."

It had even had to call the family physician, but he said he could do but little. I commenced using the Dr. Wood's Norway Pine Syrup and to my great satisfaction the baby was cured. I only used four 25 cent bottles; a small doctor bill. I believe there is no other remedy for coughs, colds, etc.

THE OPERA HOUSE ORCHESTRA

St. John, N. B., Jan. 16th, 1907. Editor of the Times, Dear Sir:—I notice in your issue of the Times of this date, a notice of the book-coming year and also note that the management are expending considerable money in renovating and beautifying the building. I am glad to see that a change was made for the better in the direction of a larger and stronger orchestra. I know they would attend more performances and that the plays and operas would be much better received.

I was present recently at a performance of the Robinson Opera Co. "The Bohemian Girl" was being sung, and it was difficult to see an orchestra of five men struggling to produce music which would take at least 12 to 15 men to give any fitting rendition of it. Trusting that as an improvement will be made in the near future in this direction. Yours truly, PATRON.

In the same issue of the Times to which Patron refers was published the announcement that the Opera House orchestra has already been strengthened by the addition of two pieces and that further improvements will be made at once. A man isn't necessarily absent-minded because he misplaces his confidence. Some people's goodness is probably due to the fact that they are never found out.

AMATEUR NIGHT AT KEITH'S

Already there is talk among amateurs of the opportunities to be given them at St. John's vaudeville theatre, of presenting their specialties. In accordance with the decision of the management, Saturday night of every week, until the new Keith Theatre in Bangor is open, when Saturday night's vaudeville will again be established in St. John, will be devoted exclusively to high class moving pictures, illustrated songs, and specialties by local amateurs. When it is remembered that nearly every actor or actress in the world today, at some time, was an amateur, there seems to be no reason why there should not be a great number of St. John's talented amateurs who will do port themselves upon the boards.

KINGSTON SITUATION GROWING WORSE DAILY

Loss May Now Reach \$25,000,000--Governor of Jamaica Reports 343 Burials So Far--King Edward Heads a Relief Fund, and Canadian Government Will Also Contribute.

Kingston, Jan. 16.--The disaster here is as great as the calamity of San Francisco and Valparaiso. Thousands of persons have been killed and the dead bodies are being taken from the debris by hundreds. The whole town is in ruins and the greater portion is still smouldering ashes. The smell of burnt flesh pervades the air. The cable line from Kingston is broken and the correspondents had to go to Holland Bay, forty miles to the east, to file this message.

THE RING. BOXING TALK. (New York Sun). Tommy Murphy, the Harlem lightweight, who bested Young Corbett in six rounds at Philadelphia last night, will probably be matched to fight either Kid Hermann of Chicago or Jimmy Britt of San Francisco next spring.

TRYING TO KEEP HIM STRAIGHT. George--Ma says will you folks come right over to our house and bring along all the neighbors you can find at home? One of the neighbors--Is your ma going to have a New Year's party? George--No, ma'am. It is beginning to make me wYer's resolutions, and ma wants all the witnesses she can get to hear 'em.

HIS FROZEN BROTHER. "Well, I'm rather glad to see the old year go," said the man with the bushy eyebrows to the rest of us in the smoking compartment. "Helen is served you well" was said. "Last New Year's Day was the saddest of my life, and I've known what sorrow was ever since I was a child. I was with my brother Tom in Alaska. We had been there a year mining for gold. Poor old Tom! I can almost hear the words he said as he sat eating our New Year's breakfast. His nature was childlike, and he said he'd go into town to buy a plum pudding for our dinner. The distance was six miles and the thermometer was down to sixty below zero. I tried to coax him not to go, but he laughed at the cold and kicked up his heels like a man. "And he came home with a frozen nose" quered the man with the seal ring. "When he wasn't back at dark I knew that something had happened to him," replied the narrator, "and taking a lan-

AN EXHIBITION NEXT AUTUMN

Exhibition Association Will Hold One From Sept. 7 to Sept. 14

The St. John Exhibition Association directors at a meeting held Thursday afternoon, decided to hold an exhibition in St. John in 1907, and chose Sept. 7 to 14 as the time. The Moncton fair is to open on Sept. 14, so this will enable exhibitors to show at both. The decision of the directors yesterday was practically unanimous for the fair this year. Those present at the meeting were A. O. Skinner, president, and R. O'Brien, vice-president; R. B. Emerson, second vice-president; Alex. Macaulay, treasurer; C. B. Allan, chairman of the finance committee; T. H. Estabrook, W. F. Burditt, D. J. McLaughlin and W. G. Scovill, to complete the executive. Mr. Skinner was appointed a delegate to accompany a city delegation to Ottawa to see the government with a view of having the exhibition buildings remain in their present place instead of having the site used for the proposed new armory. Those present at the meeting were A. O. Skinner, R. O'Brien, R. B. Emerson, J. H. McAvity, Geo. Robertson, M. P. F. S. Hall, W. F. Burditt, Alex. Macaulay, W. W. Hubbard, J. F. Gleason, E. A. Schofield, W. G. Scovill, Henry Gallagher and R. R. Fatchell. The Young Ladies' Aid Society of Main street Baptist church held an open meeting last evening which, after the usual exercises, took the form of a social gathering. Two little girls, the Misses Long, sang a duet. Mrs. Hutchinson gave an interesting missionary talk, and Miss Enid Hutchinson sang a solo. Dainty refreshments were served and were much enjoyed. The only time you can afford to get angry is when you haven't anything else to do.

ST. JOHN GETS BUSINESS WHILE THE OTHERS TALK

Question of Mail Ports Brought Up in the Senate--Senator Power Has a Knock At This Port and Senator Ellis Answers Him.

Canada, Jan. 17.--In the Senate this evening Senator Power moved for correspondence on the trans-Atlantic mail service when the C. P. R. tried to escape calling at Halifax with the mails. The government had held them to the contract, but instead of going to the wharf as had been done by mail steamers for sixty years the company handled the mails by tender and involved a delay of two hours. The C. P. R., he said, had also practically compelled passengers to land and disembark at St. John. Senator Power was glad to see the government had decided the C. P. R. steamers must be diverted to the wharf at Halifax. Halifax was 250 miles nearer Liverpool than was St. John. It required fifteen hours less steaming. Steamers, he said, could only safely enter St. John when the tide was almost high; therefore if a steamer reached St. John at low tide it might be delayed five or six hours, which would give Halifax twenty hours advantage over St. John. Senator Power said he could see no reason why St. John should be specified in the mail contract as the terminus for mail boats. If the Allans wanted to make Halifax their terminus they should be allowed to do so. Senator Ellis said that while there was a good deal of talk about Louisbourg and other ports St. John had gone ahead and was doing the winter port business of Canada. Trade was so brisk the collector of customs could not allow one of his men to leave to attend the customs convention now being held in Ottawa. The resolution passed.

NERVOUS and WEAK COULD NOT SLEEP AT NIGHT

To the thousands of people all over this land who are tossing on sleepless pillows night after night, or who pass the bedroom floor with nerves unbinged, and to whom sleep will not come. MILBURN'S HEART AND NERVE PILLS offer the blessing of sound, refreshing slumber. They restore the equilibrium of the deranged nervous centres, and bring back the shattered nervous system to perfect condition. Mrs. Wm. Richardson, Postypool, Ont., writes: "I take great pleasure in recommending Milburn's Heart and Nerve Pills. I was troubled at times with my heart, felt weak and nervous and could not sleep at night. I have taken several boxes of the pills and am now wonderfully improved. I have recommended them to others and they have found them just what they needed." The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for \$1.25. All dealers will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WEDDINGS

Cole-Melvin. A very pretty wedding took place at 8 o'clock Thursday in the West End Methodist parsonage when Miss L. Peard, only daughter of Capt. Robt. Melvin, West End, was married to George M. Cole, also of the West End. The ceremony was performed by Rev. H. D. Marr in the presence of the immediate friends of the bride and groom. Miss Annie Dwing was bridesmaid, and Mrs. Melvin, mother of the bride, supported the groom. The bride wore a beautiful dress of green silk with white trimmings and hat to match. The happy couple will reside at 289 Gullford street, West End. Silliphant-Allan. Miss Lillian Maud Allan, daughter of George Allan, 197 King street, west side, was united in marriage to Fred Silliphant, of Wilson's drug store, on Wednesday evening. The ceremony was performed at the bride's home by Rev. R. P. McKim, of St. Luke's church. Miss Hattie Silliphant was bridesmaid, and Thomas Woodland acted as best man.

TRINITY'S RECTORSHIP

Congregational Meeting Appoints Committee to Select Candidates for Nomination. A meeting of the pew holders of Trinity church was held last evening in the school room. C. P. Clarke presided and P. A. Clarke was appointed secretary of the meeting. The object was to discuss the securing of a rector in succession to the late Bishop Richardson, who is now located in Fredericton. The matter was talked over and a resolution was passed to the effect that the church vestry be authorized to select one or more names of clergymen for nomination at the next meeting. With this understanding adjournment was made until February 14. It is understood that those at the head of affairs have some idea where they can turn their attention but no names were given out as likely candidates. The curate, Rev. J. B. Weston Stewart, will officiate as rector during the interim.

The annual meeting of the N. B. Tourist Association will be held Wednesday, 23rd inst. in the board of trade rooms. Those interested are invited to be present.

The Canada Paint Company of Montreal is sending a very fine wall calendar to its customers throughout Canada. A number of the calendars have reached St. John and they are greatly appreciated by the recipients.

Present indications are that there will be no police sports this year, as the Victoria Rink management and the blue-coats are unable to come to terms. This was decided at a meeting of the Police Relief Association held yesterday afternoon. The police say that they have other ways of adding money to their relief fund, and are now considering these with a view to taking action.

There will be no band tonight at the Queen's Ball owing to the reception of the 62nd Band. Spectators will have a chance to enjoy themselves tonight, and they should take advantage of it. Band tomorrow afternoon and night. After the last band tomorrow night there will be two races of one mile each, Hunter vs. McKay, and Fiers vs. Nixon.

The Times was in error in saying that the defunct used in the decorations in the Holmes-Robertson wedding were supplied by H. E. Gould. The larger part of them came from the conservatories in Adam Shand, who today sent a bunch of the yellow beauties to the Times editorial rooms, where they were much appreciated. Mr. Shand cut his first deficit this year on New Year's Day.

Very little interest is evidently being taken in the new assessment act by the members of the board of trade and by the public, for a discussion on the subject last night was engaged in by only thirteen, the number present. It was decided at the close of the meeting that as the results attained could hardly be taken as voicing the opinion of the board, the whole question should be referred back to the council for their consideration.

Fourteen linemen employed by the N. B. Telephone Co. knocked off work yesterday afternoon because they were refused an increase in wages. The men say that three of their number are foremen, and they get \$2.50 per day, while others get \$1.50 to \$2.00 per day. They ask for a 50 cent rise all around. General Superintendent Hackett states that the pay was as high as given by any telephone company to exchange men.

Adjutant Jennings, of the immigration department of the Customs, in Halifax, has received a communication from David Hill, of Donoghue, Sherrygrove, Donagannon, County Tyrone (Ire.), asking for friends or relatives of his late John Collins, who settled on a farm at Loch Lomond, 50 years ago. Mr. Hill is coming to St. John next year en route west and desires to see the old homestead.

S. L. Gorbell, manager of the Seaman's Mission, says that application to the city to use No. 8 engine house, Carleton, referred to in a recent report of the safety board, did not mean the plan for the new building to be instituted for work had been abandoned, but temporary quarters in Carleton are needed in connection with the work in that section. The matter of site and other features of the new building will come up at the meeting of the board of management tonight.

RETURNING TO THE WEST Robert J. Murdock, of Field, B. C., a son of Wm. Murdock, director of water and sewerage, who has been visiting his parents here for the past few weeks will return on Saturday to the Pacific coast.

Mr. Murdock has been a resident of Field for about a year and a half, where he is employed in the mechanical department of the C. P. R. Arthur and Frank, two other sons of Director Murdock, are now residing in Winnipeg, Man., where they hold lucrative positions.

OLD FASHIONED CARNIVAL

The carnival in Victoria Rink next Thursday night bids fair to eclipse any of the fests held in the popular resort for a number of years, inasmuch as the skating enthusiasm has redoubled of late and besides this there are now many young people introduced to carnival fun who never dreamed there was so much harmless hilarity in them. The charm of masquerading in disguise can hardly be described; it is something to be experienced. As usual the prizes in cash will aggregate a good round sum. At present the Victoria is perfect.

Edward L. Rising, who has been visiting in the upper provinces, stopped off at Moncton today to be present at the funeral of his nephew, Ex-Mayor Givna.

CLARKE GOES TO DORCHESTER

He Was Taken to Prison on the Early Train Today.

William E. Clarke, who on Monday last was sentenced by Mr. Justice Landry to five years' imprisonment for attempted rape on Ethel Train, was today taken to Dorchester by Turvey, Cunningham, of the county jail. Clarke's wife, with his sister and niece, called at the jail last night and had a talk with him and he left this morning by the early train. He showed no signs of agitation and took the whole affair in a very matter-of-fact way. He, of course, looked pale from his long confinement.

THE ROYAL BANK

The thirty-seventh annual statement of the Royal Bank of Canada, the official report of which appears in the Times today, shows net profits for the year ending December 31, 1906, at \$6,468,777, or 17.1 per cent. earned on the average capital for the year, compared with \$4,919,918 in the year ending December 31, 1905. The tremendous difference in profits earned during the year is significant of the heavy increases in the business of the bank. A sum of \$699,930 was collected on account of premiums on the new stock issued during the year, and this, together with the profits and \$57,162 brought forward from 1905, made a total of \$1,631,657 available for distribution. The dividend was increased from nine to ten per cent., and amounts for the sum of \$333,782.62 paid out to shareholders. Other appropriations made were \$600,000 transferred to reserve account, bringing that to \$4,300,000, contrasted with \$3,400,000 in 1905. The reserve fund now represents about 112 per cent. of the total amount of paid-up capital. Immediately available assets are shown at \$21,578,007 against \$18,308,913 in the previous year. Overdue debts have declined from \$6,981 in 1905 to \$5,906 in the year under review. Total deposits have increased about \$6,000,000, being now \$32,464,865, compared with \$26,555,068 in 1905. Current loans and discounts in 1906 were \$17,511,571, and twelve months later had increased over five million dollars to \$23,033,961. The balance and profit and loss carried forward to next year amounts to \$74,876. Such is, in part, the splendid showing made by the Royal Bank of Canada for the past year—a showing that reflects both the ablest management and the highest degree of national prosperity. It is a result that must afford very great satisfaction to the directors, the shareholders and the clients of the bank. T. B. Black, the popular manager of the St. John branch of the Royal Bank, whose business in this city is steadily growing larger.

HERE'S A SUGGESTION

Editor of the Times: Sir—“Oh, it is pitiful, in a whole city full, home to have none of the little no-ones from wherever and give a generous public a chance to take the little man off the paper list of this city.”

I feel sure that the contributions that will go rolling in in his behalf will make him our “Little Lord Fauntleroy.” Life whitened parents, without home, without friends, and without money is wretchedly begun. A few strokes of a kindly pen added to the plea he put up in his own behalf will change all the existing conditions of his unhappy existence, and give him a chance to be happy and “to be happy is to be good.” Ask for money and I think you will get it from parents, from children, from every good-hearted, kind-hearted person—every one who will have for him some “bread to cast upon the waters,” and “many a little makes a muckle.”

Under proper supervision he would be kindly treated, well educated and brought up to a life of happy usefulness; and in the event of his death the money could be given to the orphan homes in the city. Of course this letter is in regard to the little waif found off, Waterloo street. Dr. Berryman says he is a fine baby and good looking.

Business Notices

The Canadian Bank Note Co., Clarence street, has just opened for two smart boys to learn branches of the lithographic trade.

The Union Bank of Halifax will, in future, add the interest to the savings bank accounts quarterly instead of half-yearly, as in the past.

Remember the big clothing and furnishing sale now on at L. N. Harvey's stores in the Opera House block. If you enjoy real bargains you can get them at this sale.

Overcasts that are well made and made to keep the cold away are the best to buy. See the ones the Union Clothing Co., 26 Charlotte street, old Y. M. C. A. building, are offering at their first stock-taking sale, now on. You can easily save money by purchasing. Union Clothing Co.

INCREASED PAY FOR CLERKS.

Under the “Unlimited Progress” plan seven cases like the following are recorded:—Young man entered in January last, was then receiving \$308 salary. In following June was placed at a salary of \$320. Another entered in February last—salary then \$240; in December last was placed at a salary of \$329, and so on.

It would cause a good many new resolutions if clerks and others should drop in at the Currie Business University office and read the newspaper clippings of positions recorded in the past year.

FREE KINDERGARTEN.

From four until half-past six tomorrow, at Germain street Sunday school room, the kindergarten committee will hold a five o'clock tea and candy sale. At four thirty a demonstration of some kindergarten methods will be given. The committee hopes to see gentlemen as well as ladies at this entertainment.

EXCHEQUER COURT

In the exchequer court yesterday afternoon, argument in the case of Poullet vs. steamer Lady Eileen, an appeal from the judgment of Mr. Justice McLeod, was heard by Mr. Justice Burridge, L. Curry, K. C., and W. A. Mott, K. C., of Campbellton, argued for the appellant, and J. D. Hazen, K. C., and W. H. Harrison for the respondent; Poullet. The court considers.
