American Naval Troops Called Into Action In Shanghai

GRAVE TO THE BRITISH DISPUTE

MARINES LAND TO PROTECT STANDARD OIL CO. PROPERTY

In Bloodless Battle, Eject Chekiang Soldiers from Compound.

GUARD IS POSTED

Counter Offensive Opens, Which Gives Advantage to Defenders.

BY D. C. BESS

(United Press Staff Cor.) Shanghai, Sept. 27 (12.15 p. m.)—U. S. marines went into action today in a bloodless battle with Chekiang troops.

The Chinese part of the badly shaken army of Lu Yang Hsiang had raided the Standard Oil compound here. With Chi Hsiang Yuan's two armies virtually at the city gates, the Chekiangs are becoming increasingly difficult to control.

The raid on the U. S. property, which is on Chinese territory, took place this morning. Soldiers Disarmed.

The marines were aboard the war vessels which have been stripped for action in the harbor for a fortnight. A landing party came ashore and made both sides are strengthening their positions. In some places the trenches are not more than 100 yards apart.

Attack Planned. It was reported that Sun Chang Fang and Chen Wyoan Yuan were preparing a combined attack on General Lu, one advancing from Hang Chow and the other from Kashiang.

Along the Huangdo and Lihuo front, both sides are strengthening their positions. In some places the trenches are not more than 100 yards apart. Counter Offensive Began.

Shanghai, Sept. 27.—(United Press.) The Chekiang troops defending Shanghai started a terrific counter-offensive today. Half of General Lu Yang Hsiang's entire army was thrown against the Kiangsus in a surprise attack. The unexpected maneuver was effective, and Lu's troops made large advances toward Nanking.

Up to this time, the opposing armies had been eyeing each other from trench less than 100 yards apart, with Chi Hsiang Yuan, who had Lu surrounded, expected to take the initiative.

German Delegates To Leave Monday. Paris, Sept. 27.—The German protest submitted yesterday, against the 26 per cent. import tax on goods from Germany is interpreted in political circles here as a move to oblige France to abandon this tax before a beginning is made of the negotiations of a Franco-German commercial treaty.

A message from Berlin today declared that the delegation which will negotiate this treaty will leave the German capital on Monday. In French official circles, however, it is said that no date has been set for the opening of these negotiations as no official notice has been received that the German delegates are about to start for Paris.

Big Whale Lands On Jersey Coast. Ocean City, N. J., Sept. 27.—(United Press.)—The Prince of Whales has come ashore here and his visit may cost the city fathers \$1,200.

The big bulk can be removed for that amount, contractors say. The city may employ a gang of men to dismember and bury it.

Halifax Molasses Shipped To West. Port Arthur, Ont., Sept. 27.—Western Canada apparently has a sweet tooth and likes ginger bread and other molasses delicacies, for a ship arrived in Port Arthur harbor yesterday morning loaded to the brim with Halifax-made molasses which is to be transhipped west. The steamer Julius Holmblad makes her bow to the local harbor, this being her first trip from the Atlantic seaboard.

COBURG STREET CHURCH SERVICES JUBILEE SUNDAY

Events of Other Days Recalled in Connection With Anniversary.

54 CHARTER MEMBERS

Five of Them are Still Living—Some Facts of Interest.

The golden jubilee of the Coburg street Christian Church will be celebrated tomorrow and Monday by special services conducted by the pastor of the church, Rev. W. J. Johnston. The church has an excellent record for its 50 years of work and can also point to the Douglas avenue Christian Church as an offspring. Five of the charter members of the church are still living, all five women. Another fine record of the church is that it has been free from debt for the last 25 years.

It is planned tomorrow to hold a special communion service in the morning, with a Sunday school rally in the afternoon, followed by a service in the church in Douglas avenue will be a banquet, and it is expected that Mayor Potts will be present. The roll call to the city. Later, a roll call will be held, followed by a historical sketch of the church by J. J. Currie, and addresses by ministers from neighboring churches. A special jubilee offering will be taken for the purchase of a new furnace and an electric blower for the organ.

Church's History. The first church of the Disciples of Christ here was organized in 1834, and a building was erected in what is now Duke street. This building was burned during the St. John fire in 1877, after which a brick one was built. This is now used as an annex to the Victoria school.

Meanwhile the Coburg street church had been organized in 1874, with 51 charter members, and Rev. Hiram Hurler was called as the first pastor. He remained in charge until 1876, and the church prospered under his ministry. He was assisted by the following officers: Elders, Jacob T. Barnes and Jonas Howe; deacons, Miller Barnes, R. Phillips, O. B. Emery and John B. Moore; clerk, John B. Moore. Among the other prominent members at that time were J. Brewing, George T. Barnes, James Henry, R. M. Gibson, David Tennant, Samuel Brentnall and James Emery.

Church Is Built. In 1876 James E. Barnes donated the lot where the church now stands and a building committee was appointed. The building was completed in 1881 at a cost of \$8,000, and the entire amount was paid except for \$1,200. This mortgage was cancelled by James E. Barnes a few years later.

The first minister received a salary of \$10 a week and his board. During the first few years the church was visited by Rev. C. C. Poole of Philadelphia, Rev. W. F. Pattie of West Virginia, and Rev. Z. Sweeney, who was afterwards U. S. consul to Turkey. Services were also held at Drury Cove, which was under the control of the church, with many residents. The church early adopted a policy of sending coaches to bring some of the feeble women members to the communion service. The seats, Bibles and hymn books have always been free in this church.

Seventeen Pastors. There have been 17 pastors since the church was founded in 1874, as follows: Reverends H. Wallace, D. O. Thomas, T. H. Capp, H. W. Stewart, G. N. Stevenson, B. B. Ray, S. V. Williams, H. Murray, J. F. Floyd, George Titus, E. C. Ford, H. E. Steele, F. Ross, A. P. Hodges, S. B. Culp, John Appleman and W. J. Johnston. It was under Rev. T. H. Capp that the church building was completed at Douglas avenue, Silver Falls and Nauwigawauk by members from the Coburg street church, and the one at Burt's Corner was reorganized.

Since the organization of the church, just 50 years ago, more than 1,000 members have joined and there are more than 250 now on the church roll. Five of the charter members are still living, namely Mrs. J. J. Johnston, Mrs. E. Barnes, Mrs. E. Christie, Mrs. E. Vaughan and Mrs. E. Johnston. During the following legacies have been received: J. E. Barnes, \$1,200; Mrs. Samuel Brentnall, \$750; John B. Moore, \$500; Mrs. Mercer, \$100 and Mrs. M. Owens, \$100.

The following officers have held office "No Man's Land," advancing to the attack.

Superintendents of the Sunday school, James E. Barnes, G. F. Barnes, R. J. Currie and William Munford.

The women of the church have been very earnest workers and they have raised large sums for church and mission work. On no fewer than three occasions they raised \$2,000.

Prominent Members. There were two outstanding members whose devotion and ability played a large part in the growth and success of the church, James E. Barnes, elder and superintendent of the Sunday school for forty years, and his son, George F. Barnes, a deacon, treasurer and encouragement, gained for them the love and esteem of the whole church.

Five members of the church entered the ministry including the Rev. Ellis Devoe, an orator and writer of note, whose voice and pen are constantly in demand. The other four were Reverends O. B. Emery, H. A. Devoe, C. H. Devoe and Howard Buchanan.

The Young People's Christian Endeavor was organized in 1889. Individual communion sets were introduced into the church in 1908.

The Present Pastor. Rev. W. J. Johnston is the present pastor of the church. He came here in June, 1923, from Portage La Prairie and St. John in his third pastorate. He graduated from Eugene Bible College, Eugene, Ore., in 1917 and accepted a call to Calgary, where he remained two years. He then went to Portage La Prairie, where he remained four years.

Rev. Mr. Johnston was born in Manitoba, near Brandon, and for some years he was a farmer, later selling his farm to help defray his expenses at college. He took a six year's course at Eugene. He was ordained to the ministry in 1913.

Wife Also Ordained. Coburg street church at the present time has the unique honor of having really two ministers as Mrs. Johnston is also ordained in the ministry. She graduated from Eugene College at the same time as her husband, taking a four year's course. They were married before she entered the college. She was formerly Miss Myrtle Weeks, a school teacher in Portage La Prairie.

Since the arrival of Rev. Mr. Johnston, there have been 30 additional members added to the rolls and more money was raised last year than ever before in the history of Coburg street Christian church. The members of the congregation are looking forward to another banner year under his pastorate.

END OF BRITAIN'S LABOR GOVERNMENT IS NOW PREDICTED

Indication is That General Election Will Take Place Soon.

INTERNAL STRIFE

Some of Party's Own Members Disappointed at the Work Accomplished.

(Copyright 1924, by the United News) London, Sept. 27.—Britain's first Labor Government is sliding to the end of its career.

Conservatives and Liberals alike today are preparing for a general election which, observers believe, will mark a futile and unprofitable regime which entered into power with the vision of building a new world. There is every indication that a general election may be precipitated within the next few weeks. New developments may possibly delay the election until next spring, but Britain knows that the days of its Labor rulers are already numbered.

The Laborites are attempting to prolong their stay in office in the hope that their waning prestige will flame up again.

The opposition is awaiting what seems to be the fitting moment for scuttling Labor's craft. Meet Difficulties. In the early months of their period in power, the labor leaders sailed a triumphal course. Now "they" are among the rocks of a half dozen vexatious questions, on any one of which they may be wrecked.

They have found that governing Britain was not as easy as it seemed. Labor began by boasting that it would solve the country's problems on an assumption of power. But when the moment of assumption of power came the Labor leaders found it impossible to solve the problems of the country without Russifying the country.

Within a few months after that day when, with beating drums and challenging colors, Labor entered office, one of the labor's ministers, pledged that "we" could evolve schemes like a magician pulling rabbits out of a hat.

Some of the labor's ministers, pledged that "we" could evolve schemes like a magician pulling rabbits out of a hat. The opposition and the country in general realized that Labor had done its best. But members of the Labor leaders' own party failed to see why Labor had not built its new world.

ANOTHER MEETING HELD AT QUEBEC

150 Life Insurance Company Representatives Gather For Two Days Sessions

Quebec, Sept. 27.—The biggest convention of the year was brought to a close here on Thursday with the conclusion of an insurance company's meeting, which was attended by some 150 delegates during the two weeks of its duration, but this does not indicate that the convention season is closed so far as Quebec is concerned.

As proof of this, about 150 employees of another company arrived in the city on Thursday for a two-day convention, accompanied by the president of the company, Harley Fisks of New York, and several other officials from the head office.

This evening the delegates will attend a banquet at the Chateau Frontenac, where the insurance men have made their convention headquarters.

Girl, Discharged, Throws Self Under Mussolini's Horse; Is Reinstated

Rome, Sept. 27.—(United Press)—A girl secretary who had been discharged from one of the Italian railroad offices in the sweeping economies of the Fascist regime hurled herself under the hoofs of Premier Mussolini's horse crying: "Excellency, I invoke justice."

The steed reared, and the Premier curbed it, without the girl being injured. Dismissing, Mussolini heard her complaint, and summoned a lieutenant of the carabinieri to investigate the complaint.

The incident occurred last week, and the girl has since been restored to her position.

Says Ponzi Will Fleece 'Em Again

Boston, Sept. 27.—"There are no greater lodes in the world than the investing public," declared Federal Judge Anderson here in dismissing a suit brought by the Chase National Bank against Louis Fainstein, an investor who withdrew \$3,200 from the Ponzi operations just before the crash came.

Judge Anderson took occasion to predict that "Ponzi shortly will return to the United States, and will attempt to fleece the public with the same old mob psychology which he used to fleece his hard-earned savings."

Carlyle, inspected the buildings. After the live stock had been inspected, he rode the range for a couple of hours.

OPPOSITE APPEALS MARK SPEECHES ON BOUNDARY MATTER

Ulster Association Opposes Bill Which Would Set Up Commission.

FREE STATE FIRM

High Commissioner in London Demands Fulfillment of Treaty.

London, Sept. 27.—Utterances of spokesmen for the Irish Free State and Northern Ireland upon the boundary dispute assume a grave tone.

At the Parliament session on Tuesday it is expected that legislation will be passed providing for the setting up of a boundary commission.

The Ulster Association yesterday appealed to members of Parliament to vote against the bill, and James McNeill, high commissioner of the Free State in London, demanded the fulfillment of the Anglo-Irish treaty which provides for a boundary commission.

Speaks of Armed Force. Alluding to recent utterances made in Northern Ireland, McNeill, in a statement, said: "Threats of violence by British members of Parliament are not helpful. I am sorry to see that a member is discussing the sending of armed men across the sea to resist violently any transfer of population which the Government of Northern Ireland disapproves, even if the superior Government of Great Britain approves."

Those who adhere to the treaty and consented to the killing of our friends, even to our relatives, to be killing as I think, murdered—with their active assistance if we ask that the honorary clause of the treaty be interpreted broadly and put into force.

Premier Advises Officers to Raise Amount by Public Subscription. Halifax, Sept. 27.—The Nova Scotia Government, through Premier Armstrong, yesterday was requested to arrange a Government grant of \$2,000 to aid the work of the Maritime Safety League. A. T. Weldon, Moncton, president, and A. N. Saunders, secretary, interviewed the Premier, who was told that nothing could be done during the present fiscal year and advised that they should endeavor first to raise the money through public subscriptions. The New Brunswick Government was being asked for a similar amount, the petitioners said.

The League was organized a year ago by Dr. P. E. Doobittle, president of the Canadian Automobile Association, and received a grant of \$25,000 from the Dominion Government. Ontario had given its branch \$5,000.

REVOLT IS ENDED

Leaders in Georgia Uprising Are Taking to the Hills. (By C. F. CRANDALL.) (British United Press.) London, Sept. 27.—The revolt in Georgia which the League of Nations intervened and upon which E. M. MacDonald, the Canadian minister, presented a report is now definitely suppressed and the leaders of the uprising are now taking to the hills.

It is believed in well informed circles that the Soviet government is following the old policy adopted in the Czarist regime of aiding the revolutionary spirits in Georgia to spring a revolt prematurely in order that they might be better able to crush it.

DISCOVER THE BOYS' INCLINATION

Truant officers seem to be necessary in large cities, to enforce compulsory education. The City of Vancouver had a different opinion last year and eliminated three truant officers from the education staff.

parently in Ontario there is a reaction in favor of more liberty from study outside of the schoolroom. The experiment may turn out well or ill, so much depends upon the parents themselves and their co-operation with the teachers.

The Old Reliable PEG TOP 5. Always the Best Never Equalled For 40 Years

It will be interesting to note the reports for the month of July of the number of people who went from Canada to the United States. Up to the end of June there was a constant passage to the United States through Canada of Europeans, but just how many native Canadians went across the border after the new Immigration Law of the U. S. went into effect will be illuminating.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazing brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, O. K. Johnson, 246 Craig St., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

LIBEL ACTION GOES INTO ANOTHER WEEK

Gregory Bridges Tells of Conversation Between Hanson and Registrar.

Fredericton, Sept. 26.—The Hanson-Gleaver libel suit goes over until next week and will last for several days longer. The defence have one more witness to call, and only one witness for the plaintiff has yet been heard.

Interest in the trial shows no sign of flagging. Features of today's evidence were Gregory Bridges' statement of the conversation in the law library between Mr. Hanson and Dr. Allen, and the evidence of Miss Anderson, one of the stenographers in Mr. Hanson's office relative to the alteration in the Nevers devers. She quoted Mr. Hanson as saying to her that they had agreed to give him what he asked, and she said he seemed surprised and quite pleased about it.

Further evidence relating to the Harris case was also given, and Police Magistrate Limerick was again called in regard to a letter which he says he read in the city clerk's office but which cannot now be found.

Afternoon Session.
Fredericton, Sept. 26.—At the afternoon session of the court Miss Anderson

continued reading from her notes of letters dictated by Mr. Hanson relative to the Nevers matter. She was stood aside to consult her notes.

William J. West was sworn and examined by Mr. Jones. He said he was working in Mr. Hanson's office from August until about the middle of October. He was studying law. He knew Gregory Bridges. They were not in Mr. Hanson's office at the same time. Witness did not hear anything about the Nevers case at that time, and had no knowledge of it. He did not telephone to anyone about it or hear Mr. Hanson do so. He did not see any papers concerning the case. He did not carry any papers to or from the registrar's office. Mr. Hanson did not make any inquiries of him regarding the case. He first knew of it when he read the Gleaver article.

Miss Anderson, recalled, produced the notes of the original petition in the Nevers case dictated by Mr. Hanson on October 1, 1923, and read it to the court. She said she believed she transcribed the petition and made the copies.

To Dr. Baxter witness said she believed she transcribed them. It was possible that the petition she transcribed might not be the one finally used. Referring to the bond Dr. Baxter noted that certain names had been substituted for others in the bond, and asked if that did not indicate the preparation of a previous one. Witness said it would seem so. She transcribed the one in question on Nov. 3.

Bert Lint Sued.

Dr. Holden was sworn and questioned as to the physical condition of W. Bert Lint. He had seen him this morning. He is confined to bed. He was not in condition to be brought to court, nor should he be asked to give evidence at his home today. He should be able to come in a few days.

Magistrate Recalled.

Walter Limerick, police magistrate, was recalled and examined by Mr. Jones. Referring to the letters in regard to the Harris case which were produced this morning, witness said one letter which he had seen in the late city clerk's office was not among them. It was a letter from Mr. Hanson to the city clerk, and is not among those before the court.

Dr. Baxter objected on several grounds to the admission of this evidence.

To Dr. Baxter, witness said the papers were not read by him in the vault. He saw them in the room where the vault is. There were two letters. Mr. Perkins brought them out of the vault to him. Dr. Baxter asked witness to tell what was in a letter he had just read. He said he could not repeat its contents, but he had an object in looking over the letters in the city

clerk's letter, and remembered the contents for that reason. Dr. Baxter contended that a proper search had not been made for the letter.

The judge said court had adjourned yesterday for that very purpose, and the letter the witness had read in the city clerk's office had not been produced. His Honor was satisfied that everything had been done to find all the correspondence. He would allow witness to state the contents of the letter.

MATTERS BEFORE
WOMEN'S COUNCIL

Sorry to Learn Miss Bondfield Cannot Come Here to Speak.

At a meeting of the local Council of Women yesterday afternoon in the Eaton residence, Mrs. Alfred W. Eddy, president, was in the chair. A report was read on "Made in St. John's goods," by Mrs. J. D. Seely, convenor of household economies, one of the national standing committees.

Mrs. H. B. Peck, corresponding secretary, reported among other things, a letter from the Trades and Labor Council, thanking the Women's Council for their decision to co-operate with them in their efforts to bring Miss Jessie Stephens, a British Labor delegate, to speak in the city. Mrs. Peck, Mrs. E. A. Young and Mrs. G. Willford Campbell were appointed to act with a committee from the Trades and Labor Council to arrange for the meeting in October.

Announcement that Miss Bondfield, of the British Commons, had sent word to the Trades and Labor Council that she would not be able to speak in St. John was heard with regret.

Milk Report.

Mrs. E. A. Young read the report of the Milk Fund committee and a resolution that the council buy the milk where it could be purchased cheapest was passed. The members agreed that the process of pasteurization and care of the milk was the same in all the dairies. A committee, composed of Mrs. Ealey, Miss Dora Coates and Miss Ethel Hassen Jarvis, had visited all the leading plants in the city and had excellent reports to give of all. Offers of 10 and eight cents had been made. It was felt by the meeting that if the last named price promised to be stable that they would patronize the concern making such a generous offer.

A resolution sent in by Mrs. W. B. Tennant, re handling of the milk distribution to the Health Centre or the Board of Health was laid on the table until later in the session.

Mrs. E. A. Young read a resolution to have more justice for soldiers' dependents and soldiers' pensions to be forwarded to Mrs. W. R. Morris, Peterboro, Ont., standing convenor of the national committee for this department.

Miss Grace Leavitt, treasurer, presented the general financial report and that of the milk fund. The expenses for the last month for the milk fund had been paid.

It was said that cigarettes were being sold to very young children, who were occasionally to buy for some older member of their family, but were themselves using them. The sentiment of the meeting was that dealers should use more precautions in their sale.

The agenda for the National Council was read and promised a very interesting session. Instructions for voting were given the delegates by Mrs.

COUNCILLORS ARE DINED AT HOSPITAL

Members of Finance Committee Visit East St. John After Meeting.

The finance committee of the municipal council met yesterday afternoon and after adjournment the members of the council paid a visit to the St. John County Hospital and inspected that building and had dinner there.

At the finance meeting a request that the committee recommend to the council the financing of the installation of a fire alarm system in Fairville until bonds could be issued was dealt with. It was pointed out by the county secretary that legislation would have to be obtained before the panels could string wires in the street and if they proceeded without such legislation every councillor who voted in favor of the work being done was personally liable for damages in the event of accident. Action on this was deferred until the council meeting when the county secretary will place his opinion before the members in writing.

It was decided to recommend to the council the financing of the installation of the Manawagonish road sewer by increased from \$9,000 to \$10,500, and that all municipal buildings be connected with the civic hydro system. The county secretary read a report from P. F. Blanchet saying that he had audited the books and accounts of the county treasurer and found them correct. It was pointed out that this audit covered the accounts of all the parishes. The Eastern Trust Company reported that they had on hand the sum of \$1,448.00 to the credit of the housing board account but were retaining it to pay taxes. They also asked for authority to proceed against some who were in arrears and their request was granted by the committee.

Mayor F. L. Potts presided and Councillors Hon. W. Wigmore, warden; Frank Harding, O'Brien, Golding, Campbell, McLeod and O'Donnell were present.

Visit County Hospital.

At 5 o'clock the members of the committee and other members of the council left the office of the county secretary, by automobile, for the County Hospital. They were met by Dr. Farris, superintendent, and shown over the grounds and building and all were loud in their praises of the splendid condition of both and the evidence of the care which was taken of the patients and staff.

At 6.30 the visitors sat down to an excellent supper and after full justice had been done this, H. B. Schofield, chairman of the Board of Commissioners of the Hospital, formally welcomed the members of the council. He was followed by Dr. Farris, who told of the work which had been accomplished in the nine years which the institution had been open and what it was hoped to accomplish in the future. When first opened it had 60 beds and today there was 123 patients in the hospital. He also spoke of some of the cures which had been made and his hope that through the educational campaign carried on from the hospital the number of cases of tuberculosis in New Brunswick would be greatly reduced.

Hon. R. W. Wigmore, warden of the county, congratulated the Commissioners and staff on the way in which the institution was carried on. Dr. S. H. McDonald, vice-president of the Board of Commissioners, also congratulated the Commissioners and staff on the way in which the institution was carried on.

A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me, before using it I had spent a great deal more than that in unsuccessful treatment from doctors. The Threshing BEE

MANY a Canadian has witnessed the whole-hearted co-operation of a Western threshing bee. Neighbourly unity accomplishes in a day what one man could not accomplish by himself alone, and he in his turn helps others accomplish what they would be powerless to do as individuals.

Mutual Life Insurance is like that—an exchange of neighbourly support. It is not a matter of profit for shareholders—it is mutual service for all. Profits there are, of course. The Mutual Life of Canada is well managed. But the profits are divided among the policyholders to reduce the cost of insurance.

Let us send you literature on Mutual Insurance. We will explain to you the details of our various Endowment, Monthly Income, Ordinary Life and Limited Payment Policies.

BUY GERMAN GOVERNMENT BONDS NOW

In November, 1923, German Government Bonds touched their lowest level. The European political and financial outlooks were gloomy and involved. The world's financiers and bankers realized how important to the world's trade and progress the re-habilitation of Germany was. International conferences decided upon the urgent necessity for some equitable and immediate settlement of the German reparations question. Germany was in the position of a bankrupt debtor. The Allies, more especially France, desired to receive the payments due to them. Conferences culminated in the setting-up of the Dawes International Expert Commission. During this period, German Government Bonds reflected the optimistic views of the convened nations. They rose steadily in value. The adoption of the Dawes conditions and the acceptance by the Allies, drove these Bonds further up in value. The immediate acceptance of the Dawes conditions and the German Reichstag set the final seal upon the potential values of German Bonds, and caused them to make sensational rises. Today our clients who purchased German Bonds in November, 1923, are comparatively wealthy. German Government and Municipal Bonds, at their quotations today, still sell at a fraction only of their real value at date of maturity.

Fortunes Earned by Shrewd and Thrifty Investors

Situation in November 1923
European conditions were at their darkest in the fall of 1923. Exchange rates of European countries crashed. Foreign Government and Municipal Bonds depreciated. German Government 5% Bonds, valued at \$238,500.00 during the war, were sold at \$4.00. Other German Government Bonds, Polish Government, Austrian Government, and Municipal Bonds of these countries were almost unsalable, and in fact difficult to give away.

C. M. Cordasco & Company

offered Polish Government Bonds at \$100.00 per 1,000.00 Marks Bond; City of Berlin 4% Bonds, 1914 and 1915 issue, were selling for a few dollars; City of Bremen Bonds, pre-war issue, were practically valueless; City of Hamburg 4% Bonds, could scarcely be given away. The House of C. M. CORDASCO & COMPANY advertised throughout the length and breadth of Canada, through Newspapers, Circulars, and all other available channels urging upon Canadian Investors that these Bonds had great potential values, and strongly advising their purchase. Each and every one of our clients was written to separately, and informed of the respective merits of each of the bonds, and insistently advised to purchase the bonds which, to their minds, showed greatest powers of recuperation and ultimate profit.

Our clients who had already invested \$100,000.00 in German Currency before the war had read our advertisements. A few days later, he came to us and purchased 60,000.00 Marks German Government 5% Bonds at an average cost of \$19.00 per bond, or for a total of \$1,140,000.00. Today his German Money is valued at \$1,860,000.00 for those bonds, a profit of \$720,000.00 on his original money.

Worst of European Situation Over

It was becoming daily more evident to Bankers, Economists, and Financial Experts throughout the world, that the worst state of depression into which German Finances had fallen was unlikely to lead to any satisfactory settlement of the Reparations Question. Germany was powerless to lift herself out of her slough of despair. Aggressive oppression by military intervention of the powers occupying the most wealthy portion of Germany had the opposite effect to that intended. Interested and uninterested countries realized the importance to the world of a stable German Government. New methods had to be found. Allied Nations convened conferences. The outcome was the setting up of a commission under the American Financial Expert, General Dawes. Astute investors began to see that there were, after all, signs pointing towards large profits in German Bonds. German Government 5% Bonds now became about \$200.00 per 1,000.00 Marks bond. Other Foreign Government and Municipal Bonds appreciated in value.

European Reparations Settlement

The International Commission of Experts issued a report which was enthusiastically received by England, Italy, and the United States. Experts called to the conference eagerly sought to place the report before their countrymen. The German Reichstag immediately adopted it. The constantly increasing favorable news from Europe gradually caused a rise in the value of all German Government and Municipal Bonds. Public opinion throughout the world considered the report to be a fair, sound, and business-like one, and the timely means of ultimate settlement of the European hostilities. The adoption by the Reichstag of the report caused sensational rises in the value of the Reichstag German Government 5% Bonds now became \$2,800.00 per million, Polish Government 5% Bonds became \$460.00; City of Berlin 4% Bonds, 1914, were quoted at \$15,000.00; City of Stuttgart 4% pre-war issue, were quoted at \$15,000.00; and all other Government and Municipal Bonds increased \$20,000.00; and all other Government and Municipal Bonds increased in value.

Immense Profits Made

The investor who had followed our advice, and purchased bonds when we urged him to, now comparatively wealthy. Our clients who had ridiculed our suggestions to them, now insistently begged us to buy some of these bonds for them, even at a high figure. Our most invidious critics now praise our foresight. We were content that many of our clients were satisfied and had made large profits by following our advice.

History Repeating Itself

The history of the world is repeating itself today. The sale of Foreign Securities has long since passed the stage of being considered a speculative one. It is, on the contrary, full of exceptional possibilities for potential profits. The opportunities represented for profits of these bonds will never again occur in a lifetime. The United States was financially bankrupt after the Civil War. Their Securities could then be bought for practically nothing, yet, in a few years time, the Americans were on their financial feet again, and are today considered the richest nation in the world. England, too, suffered the same financial distress when Napoleon nearly brought her to her knees. British Bonds went begging for next to nothing, but the victory at Waterloo sent them sky-high. The Rothschild family accumulated the majority of its wealth in these bonds. The experience of France in 1870 is a further example.

Miss Anderson reported that she had not been able to find in her notes anything further relating to the Nevess case.

Mr. Jones submitted minutes of the City Council about the Harris case, which City Clerk Chestnut had been asked in the morning to have transcribed. Mr. Jones read them to the jury. They showed that on Dec. 6, 1923, a letter claiming \$200 damages was received from Mrs. Harris, and it was referred to the city solicitor. A later minute showed that on Jan. 4, 1924, it was moved no action be taken. In February it was noted that the claim was again up and submitted to the city solicitor. Later he advised that no action be taken. The matter came up again several times, until June, 1924, when the solicitor advised that the case be settled.

HON. WM. PUGSLEY 74 YEARS OLD TODAY

Sends Optimistic Message on Future of the Maritime Provinces.

In reply to a request sent by The Telegraph-Journal to Hon. Dr. William Pugsley, Dominion commissioner for hearing reparations claims, for a message on the occasion of his birthday, the following has been received from Charlottetown, P. E. I., Sept. 26.—

Accept my thanks for your kind telegram and request for a message for my seventy-fourth birthday. First of all I desire to take this opportunity of extending to The Telegraph-Journal my most sincere thanks for its kind and generous sympathy with myself and family during my long and critical illness which began about a year ago and on to a letter, and happier state, yet it is a glorious thing to be well and strong again, and to be able to talk in a measure whether it be large or small, in promoting the welfare of the community in which I have spent so many happy years, and that of my province, which is the peer of any of the provinces of Canada.

In the discharge of my present duties I have had occasion to see more of the Maritime Provinces than ever before, and I am convinced that no where in the world is there better opportunity for living comfortable and happy lives. The people of these provinces have, it is true, grievances which are great and burdensome. But they can, must, and I am firmly convinced, will be remedied. They had their origin for the most part in the free hand which in 1915 was given to the Canadian National Railway board to violate previous parliamentary compacts, and to ignore that grand Canadian ideal prevailing of carrying Canadian traffic over Canadian railroads and through Canadian ports. This pernicious course seems, I am sorry to say, to have been continued by the present board. Public faith has not been kept with the Maritime Provinces, and the keeping of public faith is essential to the creation of a truly national spirit and unity between all sections of the Dominion. But while earnestly pressing for the keeping of public faith with the Maritime Provinces, we must cheerfully apply the same principle to all other sections of Canada. I am happy to be able to say that in the tone of the Press and the speeches of influential public men there is strong evidence of the development of a broader national spirit, and of a deeper and more just appreciation of the grievances of the Maritime Provinces as well as of a determination to have them removed. I have every confidence that this happy result will soon be achieved.

(Sgd.) WILLIAM PUGSLEY.

Jewish Theatre Hands May Strike

New York, Sept. 27.—Unless negotiations now under way are successfully completed by Monday there will be a strike of chorus girls, chorus men, ushers, dressers and doormen in five Jewish theatres in this city, according to a statement by R. Gushkin, manager of the Hebrew Actors' Union.

The union has made a demand for a wage increase of between 10 and 20 per cent. for the 200 employees affected, the increase to go into effect at the beginning of the new theatrical season on Monday. Mr. Gushkin said also that the managers of eight Jewish theatres had agreed to the terms of the new contract.

The managers have refused the union demand on the ground that the employees involved perform unskilled labor and that they are paid well enough for the work they do. They have shown some inclination to pay a higher wage to the chorus, it was said, but have firmly refused wage advances to the others.
