(Special to The Times.) Boston, Jan. 13.—What is known as the Harvard Liberal Club, whose views several times have stopped short of the danger line in denunciation of what it calls free speech throttling, had a senate last night, though it was not in the shadow of the university but at the City Club rooms.

Some of the speakers said that democracy in America was endangered and the Red menace exaggerated as the outgrowth of the war. Judge Anderson, of the United States District Court, declared that the hysterical roundup of Reds had no more foundation in fact than the German plot propaganda, more than ninety-nine per cent of which was fictitious.

will cause much disappointment, but at
the time of writing telegraphic arrange-

announcement of the new booking, which
should be in a very short while.

RECORD CROWDS

New Motion Picture Serial
and Five Good Vaudeville
Acts.

With five new vaudeville numbers and
the first episode of the sensational new
motion picture serial, "The Black Sec-
ret," from the pen of Robert W. Cham-
bers, featuring Pearl White, the new
programme in the Opera House tonight
should attract record crowds. The bill
has a pleasing blending of comedy, mus-
ical renditions, singing and acrobatic
feats of unusual merit.

"Common Clay" a
Tremendous Success

When big husky men emerge from a
theatre with tear-filled eyes and with
a forced smile are heard to exclaim, "A
wonderful picture," you may depend
that the picture in question is very much
out of the ordinary.

This is exactly what happened at the
Star Theatre last evening when Panny
Ward was presented in "Common Clay."
Miss Ward's portrayal of the shop
girl who was beaten and abused by her
father because she attended a dance
hall, is most wonderful. As a servant
and society girl she is equally wonder-
ful and the picture as a whole repre-
sents the greatest production of its kind
ever shown in this city.

Hundreds were unable to gain en-
trance to the Star last evening, and im-
pending patrons are urged to be on time
tonight. For particulars see amusement

HEROES OF THE SEA
Gallantry of Highest Order
Shown When Afrique Was
Wrecked.

(Associated Press.)

Bordeaux, Jan. 13.—Heroism of the
highest order was displayed by the
captain, officers and men of the steam-
er Afrique while that vessel was being
pounded to pieces on Roche Bonne shoal,
in the Bay of Biscay, on Sunday night,
according to survivors of the disaster.

It is not known as yet whether any
lives were lost in the wreck. One life
raft is still missing. It is believed Cap-
tain Leda of the Afrique is on board this
frail craft.

"There was a most violent shock when
the vessel struck the reef, no one lost
his head though," said one man. "Af-
ter a certain time the situation became
impossible, heavy seas were pounding
the ship and we lost touch with the
steamer Ceylan. Captain Leda decided
to abandon the ship, a very difficult op-
eration, but the captain, officers and crew
did more than their duty."

Paris, Jan. 13.—The steamer Ceylan
landed some passengers from the Afri-
que at La Pallice today.

Others were
placed on shore at Port Rochefort.

THE LIBERAL LEADER.

Hon. W. L. MacKenzie King does not come as a stranger to St. John. Aside from the record of his career as a public man he addressed the Canadian Club of this city some years ago, his subject being A Trip Around the World, with special reference to Canadian trade opportunities. Very highly educated, he has had all the advantages of travel, and as minister of labor he gained practical knowledge and experience of politics. His study of the labor movement in the United States as well as Canada, and his close-up contact with great industrial problems in both countries have made him an authority on the subject of industrial relations.

The Liberal leader comes to St. John as the exponent of the principles of Liberalism in Canada and it may be assumed that he will go pretty thoroughly into the question of Liberal policy. It is very desirable that the people here, since political conditions in Canada at the present time, owing to the apparent collapse of union government and the rapid growth of the agrarian movement have brought the country face to face with a new set of conditions. To face some of the present controversies is, by no means clear to the observer, who only knows that old things have passed away and there is to be a new political alignment quite different from any that went before the war.

With the Liberal leader comes the brilliant young Quebec member, Mr. Ernest Lapointe, of whom much has been heard of late, and whose political future is full of promise. He will be cordially welcomed as a gifted representative of our French-Canadian fellow citizens.

The people of New Brunswick are by no means fixed in their political allegiance at the present moment. The farm movement has introduced a new element, even if there were not a feeling of unrest and uncertainty as a result of the failure of union government to command public support to the extent its leaders had hoped. The people are in a questioning mood, and will want definite pronouncement on the issues that now attract universal attention. Chief among these are the tariff and the high cost of living, and the people of St. John will desire especially to know what the attitude of the parties is to be in relation to the development of national ports. That is an outstanding local issue which must be taken into the reckoning by whoever hopes to gain political support in this constituency.

THE ROTARY CLUB.

A revised version of the Rotary motto reads thus:—"He is benefited most who seeks first to benefit himself." In the last issue of the Rotarian is quoted with approval this definition by Theodore Roosevelt:—"The test of a man's worth to a community is the service he renders it."

The Rotary Club of St. John has proved its value by service rendered. It would be impossible to list the addresses delivered last evening by retiring president R. D. Paterson without realizing that a true Rotarian must be a good citizen, ready to render service, and the report of the year's activities was a record of much more than a series of weekly luncheons and pleasurable reunions. The international character of Rotary was illustrated last evening by the presentation to the St. John club of an American flag by the Rotary Club of New York, which itself is proud to possess a Union Jack sent by English Rotarians. There are Rotary Clubs in Buenos Ayres, Panama City and Calcutta, and they will soon flourish in Australia, New Zealand and South Africa. They are a unifying moral force of great value, and the community in which there is a live Rotary Club will never be without illustrations of effective team work for the general welfare. Consider these axioms presented by the editor of the Rotarian:

"I am benefited when someone does something for me."
"I am benefited more when I do something for myself."
"I am benefited most when I do something for someone else."
In his inaugural address Gov. Smith of New York has directed the attention of the state legislature to a striking programme of necessary reforms in the matter of social legislation. It includes laws for the protection of women and minors in industry, regulation of hours of labor, a minimum wage board for women and children, the broadening of workmen's compensation legislation to include occupational diseases, compulsory health insurance, and maternity insurance. He says that "two-thirds of the cases of poverty depend directly or indirectly on sickness."
Canada's exports increased from \$478,997,928 in 1914 to \$1,268,765,283 in 1919. The facilities for handling St. John's share of this increased trade have not been increased by a single additional steaming berth.

If the Standard keeps on yammering about the Liberal party and Hon. W. L. Mackenzie King somebody may presently ask what party and policy the Standard represents.

If there is any one group of citizens who ought to be interested in a juvenile court it is the board of school trustees. The better care of children, the improvement of home conditions, the elimination of truancy, and the attendance of all children at school ought surely to appeal to them. A juvenile court is of great value in relation to the work of the schools.

With thirty ocean steamers in port and only thirteen deep-water berths to accommodate them the people of St. John have reason to protest in the very strongest terms against government neglect, not only of this port but of the trade interests of the country.

The government of Canada, in the Fort Francis paper mill case, has an opportunity to show its mettle. The paper company has issued a defiant challenge.

Figures given on another page show the number of juvenile courts in various American states. There are also many in Canada—outside of New Brunswick.

CAMPAIGN OPENED AT CENTENARY

The large auditorium of Centenary church was filled to capacity last night for the opening of the union evangelistic services under the auspices of the Epworth League of the city. The leading Methodist churches in the city—Catharines street, Queen square, Exmouth street, Zion and Centenary. Mr. Bromfield led the song service and Miss Hea presided at the organ. A large massed choir sang appropriate hymns.
Lawrence Hennigar, president of the Epworth League of Centenary, opened the campaign. Miss Bessie Holder read an excellent paper on Conservation, and Rev. Robert Smart, of Westfield, delivered a short address. Evangelist Dixon, of Belfast, was introduced, and was well received. His daughter, Miss Dorothy, sang "My Task" very sweetly.

SCHOOL TRUSTEES MEET.

At a meeting of the board of school trustees held last night with the chairman, Dr. A. P. Emery, in the chair, A. C. Cruikshank addressed the board regarding the establishment of a juvenile court. Some of the members of the board said there was no connection between the board of school trustees and the juvenile court, besides the board could not go on record one way or another. There had been enough of this foolishness, another said. Thanks were received from the Teachers' Institute and also from the Society of Music for the use of school auditoriums.
Mrs. P. D. MacLean wrote to the board regarding a valuable overcoat belonging to her son which had been stolen from the school building. This matter was referred to the proper persons to act.
A report from Dr. Mabel L. Hanington to Dr. G. G. Melvin, chief provincial health officer, was read regarding scarlet fever and diphtheria. H. Colby Smith was appointed chairman of the finance committee. G. E. Day was given power to act in connection with the appointment of a janitor for Dufferin school in place of the present one, who is too old to act. J. Lloyd McManan, trustee officer, reported. J. D. P. Lewin wanted the night classes in mechanical drawing, now being held in Centennial school, transferred to the vocational board.

HARBOR MATTERS.

At the afternoon session of the committee meeting of the city council yesterday, the discussion regarding better harbor facilities was resumed. F. D. Alward, harbor master, mentioned where Captain Elliott of the S. S. War Peridot had come to him several times, for both and only on Saturday, when two members of his crew were injured. He was given permission to dock at No. 6 berth. The Manchester Merchant, for whom was allowed to tie up at No. 1 berth, general discussion followed. Commissioner Bullock, in answer to a query, stated that the freight handlers were not well satisfied with the action of the C. P. R. in making the day a minimum hour since the wages were increased. A suggestion to have No. 1 berth reserved for grain steamers was made, but it was decided to leave this to the discretion of the harbor master.

THE LATE MICHAEL BUTLER.

The funeral of Michael Butler was held on Sunday afternoon from his late residence in Milford to St. Rose's church. The service was conducted by the Rev. Father Collins, and interment was made in Holy Cross cemetery. The funeral was attended by many and the floral and spiritual tributes were very numerous. The pall-bearers were Thomas McGrath, James Whalen, John McGovern, James Gould, Joseph Calnan and John Campbell.

PYTHIAN INSTALLATION.

Followed by a pleasant smoking concert the installation of officers took place in St. John Lodge, No. 30, Knights of Pythias, last evening. C. T. Green, D. G. C., officiating. R. B. Wallace, G. C., of Fredericton, officiated. The rooms and made an address. The officers installed were: J. Roy Bell, C. C.; A. L. Dykeman, V. C.; G. C. Coombs, P.; H. M. Akersley, M. of W.; H. Bromfield, M. of A.; W. H. White, M. of E.; E. S. Watters, M. of F. and K. of R. and S.; A. O. Heans, I. G.; W. J. McAlary, O. G.

Mrs. John A. Ward, Miscou Light House, has had a letter from her mother, Mrs. Edward Libby, who was formerly Mrs. Richard Burbridge of Chatham, and resides now in Mechanicville, New York, saying that she has had the misfortune to fall and break her wrist. In Christmas week her son, Wilson B., who lives in Mechanicville, lost his house and all his furniture by fire; and her son, Edward, out west, is in a hospital with a broken knee, caused by his horse taking fright and running away.

Rippling Rhymes
By Wolf Mason
(Copyright by George Matthew Adams.)

THRIFTLSS.
There's an ancient weary fellow working for me, doing chores; and his life is sad and yellow, and his days and nights are bores. He is crippled and rheumatic, and he pines a feeble hoof, and his home is in an attic where the rain falls through the roof. I could weep when I behold him; he'll be hopeless in his woes, till the benevolent sods entold him, and he has his long repose. And his youth was gay and gilded, and he wildly spent his wage, while the wise youth wrought and builded for the years of learning, but he blew his money fast, for the ding-donged stuff was carried; and he made no wise provision for the days of want and dread; life was sunny and elysian—why should people look ahead? Why put down the shining shilling in a quantity of brine, when a sport could make a kill-ling in the haunts of cards and wine? Why consider a tomorrow when today is good enough? Going broke, a sport could borrow on his watch and kindred stuff. Now around a y house he tinkers, and no hope is in his soul, and he carries out the clunkers, and he carries in the cooking human can enchant him, he is ead to every thrill; and some day the town will plant him in the beneyard on the hill.

CAN-DA—EAST AND WEST
Dominion Happenings of Other Days

LOSS OF THE ONTARIO.

In the early winter of 1780 a grim tragedy was enacted on Lake Ontario. A splendid war vessel built only the year before and equipped with sixteen guns and a real draught of her day—was lost with all on board. She was the Ontario. On Oct. 31 she sailed from Niagara. The following day it blew very hard but the vessel was seen hugging the north shore of the lake. In the gale she must have foundered for a few days later part of the vessel's equipment was found floating near the land by Lieut.-Colonel Butler, who was on his way to Oswego. The ship, in command of Captain Anderson, carried a crew of forty men; several other officers were on board with a detachment of thirty men of the 34th Regiment. Not one of the crew or a solitary soldier escaped death in the storm.

The loss of the vessel meant far more than the deaths of the seventy or eighty men on the Ontario. The plan had been that on her return trip she should carry provisions to Niagara and Detroit to prepare those places to start the long winter. The tragedy prevented the plan and it was so late in the fall that another ship could not be obtained before the end of navigation. But there is no record of any unusual suffering in either place before the next spring as a result of the disaster.

The troops and the officers were sorely needed, too, in the military operations that were planned for the coming year but more men were sent from England to fill the ranks of the depleted 94th Regiment before it went into action.

LIGHTER VEIN.

Country Boarder—"I suppose we'll be getting some of these nice fresh eggs for breakfast."
Farmer—"Yep; these very eggs, but not till they come down here next year. Ye see, I've got to sell them to the local commission man, and he sells them to the jobber in the city, who in turn sells them here to the fellow who runs the country grocery, and I buy them from him."—Life.

For an example of really bad luck, says an English newspaper, it is difficult to beat the following:
Bill Sykes was arrested for "loitering with intent," and when brought before the magistrate was sentenced to "three months—hard."

Upon hearing his sentence Bill Sykes leaned over the rail of the dock and, snatching up a metal inkpot from off the solicitor's table, he flung it with all his might at the magistrate.
The magistrate ducked and the inkpot smashed its way through a beautiful stained glass window and out into the street.
The ink here spilled over the new dress of a young woman walking along the pavement, and she shrieked so much that her voice frightened a horse drawing a cab containing two persons. The horse bolted down the road and ran straight into a crockery shop, injuring the two passengers, at the same time smashing up about £100 worth of crockery.
And now the point where the hard luck comes in is that the proprietor of the crockery shop, the two injured passengers, the cab driver, and the woman whose dress was ruined are all suing the magistrate for dodging the inkpot!

All Fat People Should Know This

The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmola Prescription Tablets can now be obtained at all drug stores, or by writing direct to Marmola Co., 864 Woodward Ave., Detroit, Mich., and their reasonable price (\$1. for a large case) leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal proportions.

WOOD AND COAL

WHO PAYS?

After fourteen years' experience in the fuel business we have found that one of the chief reasons for the high cost of fuel is the careless man who forgets to pay his bill, compelling the dealer to make his living profit, plus the poor account out of the man who does pay. We have therefore decided to eliminate the poor accounts entirely, by selling for cash only. It will surprise you to know what this will mean to you in the value received for your dollar. We have the largest wood-warehouse in St. John and are thus able to guarantee DRY WOOD any time; we have it hard or soft, and will sell more dry wood and screened coal for the same money than any dealer who has to put your name on the ledger. Trusting that all our customers with their friends that pay their bills, will come and see us, or call up Main 1227, we are, as always, yours to command. A. E. WHELPLEY 226-240 Paradise Row. 1-19

Wiezel's Great Pre-Stock-Taking
Sale Opens Tomorrow

YES, despite the uncertainty in the Shoe and Leather Market, the high prices that are headed this way, this Great Shoe House will follow its annual practise of effecting a clearing in all departments prior to stock-taking; and so tomorrow at the opening of the store the following array of values will be put before the buyers of St. John.

Seldom has a sale been of more momentous import to St. John people than this. Prices are away up and going higher. Yet right in the face of this Wiezel throws open to the thrifty values that no other store can equal—and beyond the serious competition of slow and low buying shoe houses.

Unnecessary to say "shop early," as the values mentioned will serve to automatically enforce this condition.

We have a constant stream of inquiries for all classes of property, and yours may be just the property that some one is looking for. We make no charge for listing or advertising; your only outlay is in paying the commission if we make a sale. Phone us for appointment and we will be a pleasure to call upon you and give you any further detailed information desired.

This is our best season for the sale of house property. It is because the purchaser is certain of occupancy by May 1st on account of February being "Notice Month."

Was Tired All the Time and Nerves Were Frayed, But Feels Fine, Now.

"I feel like 1920 is indeed a new year for me, as Tanlac has done me so much good. I feel like I am worth living again," said Gordon Moody, Passmore, New Brunswick, when telling of the benefits he had received from Tanlac while in St. John, New Brunswick, recently. Continuing, he said:

"I suffered from a general run-down condition, and my appetite was so poor I could scarcely eat anything at all and after every meal I would feel badly nauseated. I was so weak it was with the greatest effort I could do my work, and just to get up in the morning was a task. My nerves were in such bad condition I could hardly get any sleep at all, and the little I did sleep did not do me any good, and I always got up feeling as bad or worse than when I went to bed.

"I had been reading a great deal in the newspapers about the good Tanlac was doing others and decided I would try it, and I began to get better on the very first bottle. My appetite improved wonderfully and I could eat anything I wanted without the slightest sign of nausea afterward. I continued taking it and began to pick up in weight and strength, and it wasn't but a short while before I could do my work with as much ease as I ever could. My nerves are in fine condition and I can sleep all night long without ever waking up once and always get up feeling fine. I am glad to recommend Tanlac, as I think it is a remarkable medicine."

Liberal Leader Heard In Inspiring Address

Beneath Aspirations of Farmers, Labor and the War Veterans, he Says, is the "Great Underlying Principle of Liberalism"—Defends Party System, but Declares There Must be a Great Party "Large Enough, Broad Enough, Fearless Enough to Carry Forward a Policy of National Unity"—Discusses His Platform and Urges Early Election—The Union Government's "Policy of Drift."

(Canadian Press Despatch.)

Halifax, Jan. 12.—Hon. Mackenzie King, successor to Sir Wilfrid Laurier, as leader of the Liberal party tonight first brought his personal message to the people of Nova Scotia at a mass meeting at the Orpheus Theatre and made it evident that he was a chief of no mean ability. The audience which greeted him might have been composed of natives of Missouri, and was patiently waiting to be shown, greeting Mr. King with more or less mechanical applause. He had not spoken long, however, before he had carried away his audience, even people in the gallery who seemed to have come with the expressed object of making things unpleasant for him. He was listened to with the deepest attention and fortissimo. When he left the theatre there was a demonstration which lasted for several minutes, and there was little doubt that the personality of the new Liberal leader had left a profound impression.

More than two thousand citizens heard Mackenzie King at the Orpheus and many more would have been present had Halifax possessed an auditorium with sufficient seating capacity. The doors of the theatre were opened at 7:30 o'clock and in half an hour the building was filled to capacity. The audience was exceedingly catholic in composition, with men and women, young and old, of all ranks of life; college students and returned soldiers; veterans of the war and returned soldiers; and a large number of returned soldiers who were very much in evidence. On the balcony was a small group who endeavored to get Mr. King on his lack of military service, but they were soon silenced.

A telegram from Premier Murray was read by Alderman J. B. Douglas, chairman, announcing the former's regret at his absence through illness and cordially Mr. Douglas welcomed Mr. King to Nova Scotia and briefly introduced the speaker, who was introduced by Mr. King, saying he was proud to see him, and calling him a future prime minister.

Mr. King's speech was eloquent and inspiring, an appeal for unity and stability to enable Canada to face the great problems which were confronting her. He spoke of the three great groups of the Farmers, Labor and the War Veterans, and said that beneath the aspirations of each was the great underlying principle of Liberalism. He declared that a true parliament must be a mirror and represent all these groups; otherwise there would be no hope of a united Canada. It was the work of Liberalism to include the essentials of demands of all of these groups and prevent them from becoming too class-conscious, welding them into one great forward movement. He expressed his confidence in the ability of the government by any one class.

In appealing for the formation of a great party with a broad platform, Mr. King dwelt upon the failure of the Liberal party in the past, and the lives of the public men, and said they were no coward because they had not been able to carry out their program.

Some Failures.

He spoke much of unity of command in an endeavor to show wherein the Union government had utterly failed. He said that it had been unable to win the war, that it had been unable to carry out its program, and now that the war was ended, it was seeking a pretext for holding on. Regarding Sir Robert Borden, he said that he had been told that the nominal prime minister was to go so far away that no one would be able to communicate with him. His sketches of current happenings in Ottawa and the nebulous policy of the administration won laughter and applause. The ship of state, he affirmed, was quite without a chart.

Mr. King devoted much time to an exposition of the platform drawn up at the Liberal convention, stressing the financial situation and the suggested tariff changes in an effort to reduce the high cost of living. He promised that if elected he would be able to reduce the cost of living, and that he would be able to do so.

The last speaker of the evening was Ernest Lapointe, member for Quebec East, who in an address which won much laughter and enthusiasm, pleaded for complete Canadian unity, described the current administration in no very flattering terms, calling the term "union" a lie and saying that while Sir Robert Borden was wintering in the south Canada.

IS INFLUENZA A GERM DISEASE?

Neglect of Common Colds the Most Frequent Cause of the Complaint.

Whether influenza is a germ disease is an open question on which medical authorities differ. It is certain, however, that in nine cases out of ten the disease reaches an acute form as the result of neglecting an ordinary cold. Every reader should take this statement to heart, especially in view of medical opinion which declares, "If colds are treated promptly we will hear far less about Grippe or Influenza."

The treatment for colds in the head is simple and may be handled at home. Grip-Fix, which may be secured at any drugstore, affords a means whereby relief will be given in a night and even an attack of gripple overcome in 48 hours. The preparation is approved by any physician as it provides, in capsule form, just the drugs he would prescribe. A full list of these is printed on each box.

The action of Grip-Fix is to keep the system open, to quickly relieve the clogged-up condition of the head, reduce the feverish condition and allow the muscular system usually present. There is nothing in it which will lead to after effects; in fact, it tones up the entire system. Have Grip-Fix always in the house. It is offered at 35 cents per box, and is on sale at all drugstores.

OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or ears disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, hawking, mucous discharge, dryness or headache, no straggling for breath at night.

Get a small bottle of Ely's Cream Balm from your drugstore and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen and inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting tired of hearing and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Parment (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears is hard of hearing, and head noises should give this prescription a trial.

THE PRESIDENT'S ADDRESS CANADA LIFE ASSURANCE COMPANY

Huge Volume of New Business--Surplus Earnings Unprecedented LIFE INSURANCE MEETS WITH POPULAR FAVOR IN 1919

General Business of 1919
Canada Life President Reviews Canadian Affairs.

CANADA LIFE policyholders are scattered far and wide, and it is with the desire of reaching them in the quickest and most readable form that this report is being published in the newspapers by the Company. A booklet containing even more complete particulars will be mailed upon request.

THE PRESIDENT'S ADDRESS CANADA LIFE ASSURANCE COMPANY

Mr. Herbert C. Cox Reviews Business of 1919--Mortality Rate Much Lower--Dividends to Policyholders Maintained

In common with other companies, we have shared in the pronounced demand for insurance apparent throughout the twelve months, and before the end of the year had achieved our objective of securing a large volume of new business, enabling us to report issued and received policies of \$4,530,000, an increase of 100 per cent over the previous year. Ordinarily this large volume of new business would involve an expense in advertising, but our earnings for the year to which reference will be made later have been so extensive that we have been able to absorb it without difficulty and without charge to the scale of dividends upon existing policies.

them from 3-1-2 per cent. to 5-1-4 per cent. Concurrently we have added to our city, county, township and school districts while reducing very materially those of towns and villages and the bonds of corporations and public utilities, following a strict and fixed policy of confining ourselves to what may be regarded as the highest class of bonds and debentures.

Group Insurance Sold by Canada Life

This Company has anticipated the demand arising for Group Insurance, and its policies on the term group plan are available in attractive forms and at low cost, with the further advantage of having the gross premium reduced by dividends. It is believed that these dividends will reduce the cost to an exceptionally small outlay. In addition to this attractive plan a new form of Group Insurance is issued which combines life insurance protection with a savings fund.

The first full year since the signing of the armistice and the virtual cessation of hostilities has brought many problems, some of them as yet unsolved, and many surprises, not of which have been unpleasant. The best minds are focused upon the former and are bringing to their solution a judgment and experience sharpened by the years of warfare and tempered by the vicissitudes of the same period. The adjustments, naturally difficult and tedious, are made more so by the attitude of important sections of the community who should rather facilitate them, but in spite of the same headway is being made. No opportunity should be lost of impressing upon each individual citizen of the allied countries the vital importance and necessity of the fullest conservation of our resources and the utmost production of which we are capable, if we are not to be outstripped by our recent enemies, who are being urged by their highest authorities to a full limit of their power in regaining what they have lost through and during the war.

Our insurances in force now total \$220,000,000, an increase of 100 per cent over the year 1918. While the growth in our Canadian business has been marked, we are happy to report an important improvement in Great Britain, due in varying measure to the maintenance of our dividend scale, to a wider organization and to a greater confidence in things Canadian.

Approaching every applicant with the desire to have him become a policyholder, it is most unfortunate that in some instances the impairments are such that we are unable to accept him, but as the number of cases in which this is necessary is only three per cent of the whole, it indicates a consistent endeavor to perform our normal function.

War Claims Paid. The last of our war claims are now being paid, and we record the total from this source since the commencement of hostilities as \$1,500,000. This is a very reasonable amount, being less than one per cent of our total assets, and in meeting it we have had no difficulty or embarrassment in regard to other obligations or promises.

Group Insurance Available. Anticipating the demand likely to arise for group insurance as soon as the Government had authorized the department, we prepared our policy forms and premium rates and had them ready for issue at the outbreak of the war. The rates we have adopted are, we believe, ample to cover such an extended business, but we continue to be able within reasonable time to dispose of all foreclosed properties without loss of either principal or interest.

The great fear of unrest disturbing the world and upsetting the relations between employer and employee is perhaps a natural outcome of recent experience, and it has been suggested that not so much in profit-sharing as in happiness-sharing will be found the solution as between Capital and Labor. Already the creative mind has done much in evolving ways to assure to the workman a greater share of the wealth which his industry and energy help to create, and many of these methods, looking beyond the immediate present, have made through group life insurance available to the families of their employees in the event of the death of the last named. A larger measure of personal contentment and understanding between the heads and hands of our great industrial undertakings should do much to smooth out the "war" years.

Our insurances in force now total \$220,000,000, an increase of 100 per cent over the year 1918. While the growth in our Canadian business has been marked, we are happy to report an important improvement in Great Britain, due in varying measure to the maintenance of our dividend scale, to a wider organization and to a greater confidence in things Canadian.

Our own country has seen a continuation of the expansion already well under way as reflected in the channel of retail trade, in further large increases in bank deposits, in the development of manufacturing industries, and in the supply of raw materials and labor, and in the growth of live stock and other farm products. The market for our commodities abroad is wide and urgent, but it is hampered by the lack of shipping, and is also unfortunately at the moment more or less dependent upon our ability to provide the necessary raw materials. This is of course, of course, difficult to do in view of the enormous sums required to care for the business of our own war expenditures and the demands for demobilization and re-establishment of our own Government. It has been our aim to assist to some extent and will perhaps see its way to help in larger measure when the other obligations have been met. The Victory Loan of 1918 has afforded appreciable relief, and it is thought will be the last offering of Government securities in this so-called popular way, any further necessary borrowing of the Government being made in the pre-war method with the probable difference that much of the funds required will continue to be provided in our own country. Among the reasons taught Canada by the war are that her resources are much greater than she had realized, that she can furnish her Government with a much larger share of her money needs than had ever been thought possible, that it is good business to be our own bankers, and that the average citizen

3. Greatly extended the sale of Monthly Income and Business Insurance during the year.
4. Carried out the year's operations with an important decrease in the ratio of expenditure.
5. Increased the interest rate to 6.6%, notwithstanding large purchases of 3 1/2% Victory Bonds.
6. Issued nearly twice as many new policies as in 1918.

Tonic."

Perhaps you may have suffered from what you consider small troubles from whose cause you are not aware, for many years; perhaps you have had gaseous stomach at times, been constipated, felt dizzy occasionally, now and then you were unable to sleep or eat well. Have you ever put the question fairly to yourself as to what was the matter with you? What steps have you taken to improve your condition and rid yourself of these troubles? This is where "Liv-rite Tonic" comes in. It cures all these ailments. It also brings back the complexion to sallow, pale cheeks because in its attack upon the parts of the liver which have been the root of these ills, it drives away various poisonous matters which have not been taken off naturally, strengthens the body, purifies the blood, and brings back a healthy glow to the person whose system is thus made well again.

Every day comes the good news of wonderful cures with Ferronose. In Peltoroff it worked marvels for Louis Meahan—put him right on his feet—made him entirely well. "About three years ago," says Mr. Meahan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferronose. It not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferronose as an ideal restorative.

With its inviting chairs, its deep-seated sofa, its big table, its well-chosen lamps, its books and magazines, the living room provides a beautiful and interesting setting for the life scenes that are enacted there.

It is here that family traits are developed, ties strengthened and friendships nurtured. It is the living room which can make "home" more attractive than any other place.

And particularly now, these long evenings suggests fireside gatherings—the real enjoyment of home and friends.

Surely if a new davenport, a new easy chair, a new living room table, a new floor lamp or reading lamp will contribute to the comfort of your living room its acquisition should not be delayed.

Recent new shipments offer most attractive selections, and actual value comparisons will invariably favor Everett's.
