GERMANS RENEW DRIVE TO EXTEND ACTIVE BATTLEFRONT EAST OF RHEIMS

Also Strike Heavily Between Loivre and Voormezele

Active feature is the attack between Soissons and Rheims, in sector which has been quiet since last fall; heavy bombardment precedes infantry movement

London, May 27.—Strong German attacks developed early this morning against the British and French positions between Rheims and Soissons. The attacks were preceded by heavy bombardment.

The Germans also attacked this morning in Flanders, between Loivre and Voormezele, the northern side of the salient.

Paris, May 27.—Over the front between the Forest of Pinon and Rheims the Germans launched an attack this morning. The French and British troops are resisting with habitual valiance.

By their attack of today the Germans have extended the active battle front as far east as Rheims, taking in a new salient, which has been quiet since last fall.

The reports show that the Germans have made some small progress in places. The German in the sector northwest of Kemmel appeared to be held against the ground captured by the French on May 20.

Small progress. The British Army in France, May 27.—(By the Associated Press)—The reports show that the Germans have made some small progress in places.

Strong hostile attacks preceded by a bombardment of great intensity, during the night of the 26th and early this morning on a wide front against the British and French troops between Rheims and Soissons and against French troops between Loivre and Voormezele.

Heavy bombardment preceded the attack between Soissons and Rheims, however, is the distinctive feature of the new German operations.

The front of the Germans attack is along the sector usually referred to as the Aisne front. The present battle line runs along the Ailette river, north of the Aisne, over the larger part of this sector.

In turning to a new sector to strike their blow the Germans have taken a course contrary to that generally predicted by military commentators.

The gains among rails were replaced by material losses before eleven o'clock, the selling becoming more extensive.

Since last evening the enemy's artillery fire has increased in a marked manner at various places.

The front between Soissons and Rheims is a difficult one, offering the Allies excellent facilities for defence.

BIG PROFITS OF BIG MILLERS

Minister of Labor's Statement Shows Large Gain in War-time Business

Ottawa, May 27.—A survey of big war-time profits by large Canadian milling companies is revealed in a report issued today by the Minister of Labor.

Increased production and increase in turnover in 1917 were two of the three things that 1918.

The report states that smaller companies produced less than 100,000 barrels a year, would find difficulty in surviving with a profit of twenty-five cents per barrel.

The surplus profits account of the St. Lawrence Flour Mills Company, the report stated, increased from a debit of \$22,000 in 1916 to a credit of \$188,000 in 1917.

It is significant that the long range bombardment of Paris, which had been suspended for a considerable interval, has been resumed just as the Germans are renewing their offensive in the west.

Amsterdam, May 27.—A libel suit by Baron Walker Von Radetz against Count Gunther Von Bernstorff, son of the former German ambassador to the United States, his wife and others, was begun in a Berlin court on Saturday.

Three important news events distracted the stock market this morning and unsettled sentiment and prices.

Since last evening the enemy's artillery fire has increased in a marked manner at various places.

None of the enemy raiders has been successful in the main purpose, getting prisoners and identifications.

Russian Hatred Being Aroused

Germans Persistently Violating The Treaty

Attempts to Disarm Polish Troops Meet With Stout Resistance

Moscow, May 27.—(By the Associated Press)—Germans' persistent violation of the provision of the Brest-Litovsk treaty in the Ukraine, Finland, Livonia, the Black Sea, the Baltic Sea and other occupied territory has aroused Russian hatred against the Teutonic empire and is causing much suffering and death every day.

Moscow, Sunday, May 27.—(By the Associated Press)—The German attempt to disarm the Polish troops in the Ukraine and Minsk governments are meeting with fierce resistance.

Amsterdam, May 27.—A sign of the strained situation in Bohemia is seen in the action of the Stadtholder in threatening to dissolve communal organizations if they repeat their protests against the suspension of the Nieuwlandt, the chief chess newspaper.

Moscow, May 27.—(By the Associated Press)—Apparent for the purpose of terrifying the city, German airships have appeared over Novorossiysk and German submarines in the harbor.

London, May 27.—Lord Robert Cecil says the British government has no intention of recognizing the present Russian government.

Moscow, May 27.—(By the Associated Press)—Count Von Mirbach, German ambassador, has advised the Soviet government that Finland announces her willingness to enter into peace negotiations with Russia.

Washington, May 27.—To meet wage increases and higher costs of coal and other supplies, Director-General McAdoo today ordered freight rates in the United States raised 25 per cent and passenger fares increased to three cents a mile from the present basis of about 2 1/2 cents.

Premier Clemenceau visited the French army on Sunday and conferred with General Foch. The excellent impression gained on former visits to the French army was confirmed.

LONG RANGE GUN ALSO IS AT WORK

Paris, May 27.—After a long interval the Germans again began to bombard Paris with long range guns at 8.30 o'clock this morning.

The first shell was followed at fairly regular intervals, making it more than one gun was in action.

It is significant that the long range bombardment of Paris, which had been suspended for a considerable interval, has been resumed just as the Germans are renewing their offensive in the west.

Amsterdam, May 27.—A libel suit by Baron Walker Von Radetz against Count Gunther Von Bernstorff, son of the former German ambassador to the United States, his wife and others, was begun in a Berlin court on Saturday.

SON BEFORE CONGRESS ON WAR TAX MATTERS

Washington, May 27.—President Wilson personally took charge of the war tax legislation today and, appearing unexpectedly before a joint session of Congress, declared it was necessary to meet immediately with new war tax measures which might have delayed the war but which involved a working agreement by both parties to have the president told the legislation and there was no way to meet the needs of financing the war but to have the tax remain in session and go ahead as usual.

CHARLIE CHAPLIN IN "DOG'S LIFE" TONIGHT

Imperial Theatre Presents Famous Comedian in His Most Notable Comedy

A three-reel Chaplin serio-comic that is making all America laugh its head off tomorrow, "A Dog's Life"—Bille given by Chaplin's friend, Harry Landers—is the diverting chain of adventures and joys of a stray mutt kept and the redoubtable Charlie. The fun lasts for nearly an hour and it is delicious—no vulgarity or silliness, just clean, clever pantomimes. Leading citizens who have seen the picture in the bigger cities are boasting it since learning it is to be shown here. The remainder of the Imperial's programme consists of History of the War, No. 9—Belgium, Drew Comedy, Matt and Jeff, A Day With The Royal Flying Corps at Toronto and Miss Marie Lauro in new songs.

RUTH ROLAND AT THE STAR TONIGHT

"The Neglected Wife"—Don't miss a single one. See her in the new series "The Price of Polly." Each picture is similar to "The Neglected Wife." Don't miss a single one.

THE GEM TONIGHT; BIG PICTURE PROGRAMME AT LITTLE PRICES

Ethel Clayton in "The Woman Behind" gives an excellent performance in the lead in a big picture story at the Gem. It is a five reel World-Beady subject, a story with strong domestic appeal and in which charming Miss Clayton is at her best. Two reels of rollicking comedy also, "Bede's Bluff," with Fay Tischer in the principal part. Little prices, 5 and 10 cents; tonight at 7.15 and 8.45.

WAR NOTES

HOLIDAY, JUNE 8

From information received from the secretary of the Retail Merchants' Association of Ottawa, it is found that the King's birthday, June 8, is not observed as a holiday by the stores throughout the rest of Canada. However, many of the merchants of St. John, especially considering patriotic requirements and the war garden movement, have decided to close their stores on Thursday, June 8. The summer half holidays will not commence until Saturday, June 8.

THE BRITISH, TOO, HAVE CRUISING SUBMARINES

Destroyer of Enemy U-Boat One P.ool

Sunk Two Thousand Miles From Plymouth — Germans Practically Adrift — Britishers Can Cruise Far Afield

London, May 27—(Via Reuter's Limited)—The sinking of a German submarine by a British submarine off Cape St. Vincent shows that the British have cruising submarines and this is only one incident in which a submarine has sunk a submarine, says Archibald Hurd in the Daily Telegraph.

The Cape St. Vincent incident took place more than 3,000 nautical miles from Plymouth.

"In neutral countries," the naval critic continues, "it has been assumed that only the Germans could build submarines capable of operating far out in the Atlantic. Conclusive evidence is now supplied that we also possess submarines which can cruise far afield, remaining at sea many days on end without refitting and refueling."

"It is indeed no secret to the Germans that soon after the outbreak of the war a great number of large submarines were laid down in this country. It is also no secret that for many months many of these craft have been used in submarine hunting."

"Four or five years ago it was contended in some quarters that a submarine could not fight a submarine and later on the Germans adopted this theory, only too readily as events have shown. They were wrong."

"British submarines have been employed in this way with great success. They also have proved useful in convoy work."

Germans Practically Adrift. Amsterdam, May 27—In reference to the British announcement that a large German "siltoline" had been sunk off Cape St. Vincent, a semi-official statement from Berlin says that no news has been received for a long time from one of the German U-boats operating west of Gibraltar. The loss of submarine reported by the British, it is added, must be reckoned with.

Commissioner McLellan asked if P. R. representatives for their estimate of the comparative value to the development of West St. John of proposed Courtenay Bay work.

Mr. Groulx replied that he had had been opposed to the Courtenay plans, as he believed that a few of the money spent on the West would do more to enable the port handle traffic offering.

In reply to Commissioner McLellan, Mr. Groulx said that the delay of steamers which had to lie in the last winter was due largely to the lack of grain conveyors to meet the demand for heavy grain shipments.

Commissioner Bullock, Mr. Groulx said the plans for guarding facilities during the summer.

Commissioner Hilyard raised the question of sewers through the C. P. R. city, and Mr. Groulx said that the R. had carried out its agreement built the sewers. Mr. Kirby said P. R. was under no obligation to the sewers clear.

It was agreed that the applicant company for an extension agreement should be presented in time, and the representative of the withdrawal.

Sidewalk Occupation Commissioner Fisher brought a matter of sidewalks occupation to the attention of the committee. It was announced that S. Hayward Co. had decided to do their space under the sidewalk. The Bank of Montreal was mentioned as having decided that they should use a sidewalk five by ten feet wide for coal storage for which they were asked to pay \$129. It was said the bank leased out practically basement for offices, and that the use of such was of much more value than the rental charged by the bank for the sidewalk space.

Commissioner Fisher said he had inclined to recommend that the use of existing vaults should be at the rate of eight instead of fifteen cents, moved that the rate be reduced to cents.

Commissioner Fisher moved amendment, that the matter stand until information was furnished in high similar charges in other cities.

The original motion was carried. It was agreed that if the property owners did not agree to pay at the rate, a test suit be entered against Bank of Montreal.

On Motion of Commissioner Bull passed for the city wharves in West John were abolished for the summer months, this motion making it possible to reduce the staff of guards on wharf. The change will go into effect immediately.

THE BRITISH FLEET

London, April 11.—(Correspondence Associated Press).—In view of the reiterated German statement that the British fleet does nothing but lie in home water and harbors, some interest attaches to a report of the British Admiralty which shows that during a single month recently the British grand fleet and its units steamed a total of more than a million miles, while for patrol vessels around the British coast, the figure was approximately six million miles.

GERMANS AGAIN ATTACK.

Today's cables tell us that the Germans have attacked on a forty mile front on what is called the Alsace front, which is farther south than the lines of previous attack in the great offensive since March 21. Whether this is to be the chief sally of battle or whether it is a diversion to be followed by a heavier stroke in Picardy or Flanders is still in doubt. It is suggested that this may be a feat to induce Gen. Foch to withdraw troops from the northern sectors and make it easier to gain advantage there. Today's cables also breathe a spirit of confidence, and we are told that if the enemy could on the element of surprise they have probably made a miscalculation, as there have been new dispositions of troops of the Allies along the Alsace front. It is noted that the Germans have already been twice defeated on the Alsace front and that, the character of the country is very favorable for defence.

MOTHERS' PENSIONS.

A Mothers' Pension Act has been in operation in Manitoba since March, 1916. The act is administered by a commission, for the benefit of mothers who are widows, or whose husbands are in penal institutions or insane asylums, or through physical disability unable to support the family. An article in the Manitoba Public Service Bulletin gives the following interesting particulars:

"During the month of November, 100 mothers without other support and with 216 children upon them, have been in receipt of the allowances from the provincial government, under the arrangement by which the government levies upon the municipalities at large, throughout the province, the levy of one-half of the allowances granted.

"The commission, whose chairman is now Mr. George Fisher, local manager of the Scottish Co-operative-Wholesale Society, has given a popular interpretation to these allowances by describing them as salaries paid to these mothers in bringing up their children in a healthy and happy mind. The description is a fitting and happy one, as it is a fact that without the aid of the States in doing their proper duty by their children, these mothers would have to work out for a livelihood, and would find it impossible to give the children the care and attention they require if they are to grow into useful citizens.

"The salaries" paid to these 100 mothers for the month of November amount to \$7,285. Seventy-three of these mothers are within the boundaries of the city of Winnipeg. In St. Boniface there are 14, in the municipality of Assinibois, which includes the suburb of St. James, there are 11, while the remaining 52 are scattered over 30 municipalities of the province. The average allowance to Winnipeg mothers was \$72.10 and the average to those outside the city is \$71.18.

"The government recently appointed Miss Elizabeth Crawford of the extension department of Manitoba Agricultural College, to the post of investigator and supervisor under the Mothers' Allowances Commission. Miss Crawford is trained in domestic science and is a practical housekeeper. Her duties at the present time are not to investigate applications for allowances, but also to aid and teach the mothers who have not had the advantages now accorded their daughters in the public school system of the present day, for practical training and house management. Miss Crawford will make her first visits to country districts this month and will, in the course of the next few months, have visited every mother receiving allowance."

Hert Duxbury, a farmer living nine miles north of Spencer, S. D., was tarred and feathered by a crowd of fifty Fenians after he had been taken from his farm and brought to the city jail at Spencer, where the coat was applied. Duxbury, it was said, was ordered to purchase Liberty bonds or contribute to the Red Cross, where the coat was applied.

Returned soldiers have offered to take the place of strikers in the Victoria, B. C., shipyards. That introduces a very interesting situation.

The Poles in the Ukraine are giving trouble to Germany, and there has been much bloodshed.

TARRED AND FEATHERED FOR NOT GIVING TO RED CROSS.

Hert Duxbury, a farmer living nine miles north of Spencer, S. D., was tarred and feathered by a crowd of fifty Fenians after he had been taken from his farm and brought to the city jail at Spencer, where the coat was applied. GIRLS FOR ARMY SERVICE.

Halifax Herald: It is expected that before the middle of July a large number of Halifax girls will enlist in the Canadian army as chauffeurs, clerks and other lines. A number from the maritime provinces have signified their intention of enlisting in Ottawa and Toronto as ambulance drivers. Several are anxious to enlist in the mechanical transport and some of our most celebrated young ladies have sent to Ottawa for forms of the army transport.

While the theory of Mothers' Pensions is, it is said, fast gaining ground, it is also being subjected to some exceedingly searching and thorough criticism by those who have a right to speak with authority on the subject. The heaviest attack yet made comes from Mr. Carstens, the secretary of the Massachusetts Society for the Prevention of Cruelty to Children, and he does not

hesitate to say that widows' pensions tend to set aside the proper enforcement of parental responsibilities. For this reason Mr. Carstens argues that the work should be commenced earlier by the prevention of widowhood, and by the provision of means of subsistence while husbands are alive through a system of accident and sickness insurance. This means, of course, that the problem is the economic one of how to prevent distress, and, as the Bulletin rightly says, the best and most effective way to deal with it would be to strike at the core of the whole trouble. This would mean a thorough system of national health and accident insurance, shorter working days so that the vitality of the fathers may be maintained, a more thorough insistence on every law of sanitation, and, in short, the determination to make in every home a more wholesome and more comfortable surroundings for human life. Mr. Carstens also points out the obvious danger of unscrupulous widows finding in a pension plan a chance for easy money.

"Yet notwithstanding everything that can be said against the method, the Bulletin is able to adduce good reasons on the other side. Where mothers' pensions laws have been passed, and they have in various states, success has been the general result, and the all-round improvement in the families leaves no doubt of the advisability of pension legislation. There has been a remarkable increase of interest shown by the children themselves in the care of the home, when the family has, through the help of the pension, been removed to better neighborhoods and away from the difficulties and temptations of the slums. Not least of all is the great satisfaction felt that the subsidy makes it feasible for children to stay with their worthy mothers in the proper and normal relations after the death of the father. 'What a good mother can do for her own children no other woman can do and no different device can do.'

"The system is gradually being introduced into Canada. Manitoba has recently inaugurated it, and it is being contemplated in Saskatchewan and Alberta. The question is now seriously complicated by the petition of widows, and this feature of real difficulty will have to be taken into account. But, in spite of all the hindrances and even disabilities, those who are best acquainted with the situation are strongly of opinion that, on the whole, the problem can be faced with perfect satisfaction."

The extraordinary attack made by the Great War Veterans Association of Ontario upon the overseas Y. M. C. A. was altogether unexpected and calls for specific proofs of the charges made. The matter cannot rest just there.

If it be true that typhoid fever is rapidly spreading in the German army, and that Von Hindenburg is critically ill with the disease, we can readily believe the high command is anxious for a speedy decision in the field.

Mr. John Dillon says it is war to the knife between the Nationalists and the Sinn Fein. The views of the United States are changing the Irish situation to a considerable extent.

It is now announced that Britain has large submarine cruisers, and that they have been doing very valuable work.

Turkey has a small revolution on her hands in Smyrna. Bolshevism is giving more trouble to Austria and there are rumblings of discontent in Bulgaria.

Returned soldiers have offered to take the place of strikers in the Victoria, B. C., shipyards. That introduces a very interesting situation.

The Poles in the Ukraine are giving trouble to Germany, and there has been much bloodshed.

SAYS FIFTEEN WERE NAILED TO THE WALLS

Chicago Soldier, Home from War, Tells of Murder of Canadians by Huns

Chicago, May 27—Corporal James Irving Parker of Chicago, who recently returned from the western front, where he drove an ammunition truck for the French army, but who now is an enlisted man in the United States Signal Corps, relates a story of German atrocities culminating in the crucifixion of fifteen Canadian soldiers.

"We were moving forward in the Chemin des Dames drive last October on the heels of the fleeing Huns," said Corporal Parker. "A crowd of truck drivers was belittled for a few hours' sleep in one of the French chateaux which the Huns, in their flight had failed to destroy.

"We were congratulating ourselves on the excellence of our quarters when a pole appeared and said in Broken English: 'Americans, come with me.' We followed him up a broad, winding staircase and entered a room that must have been 30 feet square. On the walls of that room hung fifteen crucified Canadian soldiers. Five hung on each of three of the walls.

"Four spikes to a man were used in the crucifixion, one through each wrist and one through each ankle. The victims were thirteen privates and two officers, all in full uniform. There were no wounds on the bodies of the men other than those made by the spikes."

A Canadian regiment had been placed at this point of the Chemin des Dames sector about two weeks before the drive of the war-worn poilus, Corporal Parker explained, and a few days before the drive thirty of them had mysteriously disappeared.

Parker, who is home on two months' leave after being gassed, is the son of James J. Parker, a real estate broker at 69 West Washington street.

SEVEN BUILDINGS DESTROYED BY FIRE

Disastrous Fire at Hawkesbury, C. B.—An Investigation Will Be Held.

Sydney, May 26—Seven buildings were destroyed in Port Hawkesbury this morning through a fire which commenced at 11.30 o'clock in the roof of the house of Mrs. Norman McIntyre. Fanned by a strong north wind, the flames spread and were not extinguished until 4 o'clock in the afternoon. It is stated that an investigation will be held. The buildings destroyed were Mrs. Norman McIntyre's house and store, the Western Union Telegraph building, the homes of A. C. Chisholm, John D. McPherson and Andrew Strong, and the customs house. Fire in the Presbyterian church and the home of Mr. S. Chisholm was extinguished with little difficulty.

SUCCESSFUL CROPS.
Many amateur gardeners are puzzled to know just how to handle a succession of crops. To get the most out of a small area it is necessary to plant seeds from week to week and, in some cases, to sow two crops in one row at one time. For instance, lettuce and radish may be sown in the same row, perhaps also lettuce, corn and pumpkins, corn and spinach, lettuce and early cabbage, etc.

Some examples of successful plantings may serve to explain what is meant by following one crop with another:
Early beets followed with celery.
Early beans followed with turnips.
Lettuce or onion sets followed with tomatoes.
Radishes followed with tomatoes.
Spinach, lettuce or radishes followed with cabbage.

Early crops may be taken off and consumed and immediately afterwards their place may be taken by some other crop. The soil should be dug over and more manure added if possible. This should be followed by a careful raking down before the plants are set out or the seeds planted.

MOTHERS' ALLOWANCE

Manitoba Government's Act: Report of Commissioners

Period April 18, 1916 to June 30 1917—History of Movement in Manitoba Before Passing of Mothers' Allowances Act

In 1910 the Mothers' Association gave a cash allowance to one woman, with whom they had become acquainted through their day nursery, enabling her to stay at home and look after the children. This continued for one year when she remarried.

In March, 1913, G. B. Clarke, at the time district agent of the Associated Charities of the city of Winnipeg, asked for all relief, etc., to be given in cash instead of in kind to a widow and children in his district.

The secretary of the Associated Charities obtained permission from the board of trustees to make a special appeal to citizens for a monthly cash pension for this widow. The amount was raised with great difficulty chiefly from Sunday school classes. In April, 1914, at the suggestion of the Associated Charities, the Mothers' Association appointed a special committee under the chairmanship of Mrs. J. H. Murphy, to study the possibility of supervising the mothers under allowance. The Mothers' Association continued to do this until May, 1916, and likewise found it difficult to raise the necessary money by voluntary subscription.

During the summer and fall of 1915, it being understood that the Mothers' Association committee would ask for legislation at the next session of the provincial legislature, the Social Workers' Club of Winnipeg through a committee under the chairmanship of Mrs. J. H. Murphy, made an exhaustive study of "mothers' pension laws and their administration" in twenty-three of the United States, and also studied 124 widows known to the Associated Charities of Winnipeg.

This study was published in a pamphlet called "State Salaries for Mothers," and a copy sent to all members of the legislature.

In November, 1915, the convention of Manitoba municipalities at Stonewall endorsed the principle of mothers' allowances.

On March 10, 1916, an act entitled "The Mothers' Allowances Act" introduced as a government measure, was assented to.

Appointment of Commissioners.
By order-in-council No. 25961, dated April 18, 1916, Messieurs E. D. Martin, Geo. Fisher, J. H. T. Falk and Messieurs John Dick and T. R. Deacon were appointed commissioners to administer the act.

The commissioners realize that no one of them has had official experience previously in connection with the administration of mothers' allowances, but they conscientiously utilized all the information available from other sources and adapted it to local conditions and believe that the individual experience of each one in other capacities has enabled them to perform their duties reasonably well.

PANAMA HATS

You will find our showing exceptionally well varied as to styles, and our prices most moderate. Our values this year, we think, are the best ever offered the ladies of St. John. Of course, we bought the bodies last September, had them blocked in April, and to buy direct from this manufacturer had to take an extra large quantity, hence the reason why we can give you such a good Panama at our low prices.

Burn Kerosene Oil

And Save Coal For Essential War Industries

The use of kerosene for cooking, with the New Perfection Oil Cook Stove, gives you gas stove comfort and convenience, and is good, practical, economical. Millions of homes use the

New Perfection Oil Cook Stoves

Which keeps the kitchen cool and clean, does away with coal heat and ash pan draggery, and, with the new patent glass reservoir and reversible carriage, can be refilled without getting oil on the hands.

The Long Blue Chimney Burner Lights and Heats Instantly, like gas, turns every drop of oil into intense heat—no soot—no odor. Flame stays where you set it for fast or slow cooking, thus making kerosene the ideal fuel, especially for summer homes. Bear in mind that the New Perfection Burners are of brass. TO BE AVIATOR

Among those who have recently left this city for Toronto to train for biplanes is S. J. Hetherington of Cody Station. After spending a very successful year at McGill he enlisted in the R. F. C. His many friends will wish him every success in the daring calling he has chosen and a safe return at the close of the war.

THE SHARPSHOOTERS UNIT

Lieut.-Colonel Spittler has returned to the city from Ottawa, where he was in connection with the organizing of a battalion of sharpshooters. This morning he said that he had not received definite word, but was of the opinion that the unit would be authorized. The colonel is one of the finest shots in the dominion. Whether or not the unit is authorized will depend on what the military officials in France think of the scheme.

DIED IN MEDFIELD

Relatives here have received the sad news of the death of Thomas W. Anderson yesterday in Medfield, Mass. He was aged sixty-seven years, was formerly of St. John but removed to the United States some years ago. Mr. Anderson, who is held in kindly memory in St. John, is survived by his wife and two sisters. The latter are Mrs. S. A. Cunningham of this city and Mrs. Malcolm Buchanan of Princeton, Me. There are also several other relatives in St. John. The funeral will take place in Medfield.

LABORERS SCARCE

Thomas Costello, president of the Nova Scotia Construction Company, said today that they are having more trouble getting labor this year than last and he looked for even greater scarcity of workers. Speaking of conditions in general, he said that he has been asked to tender on a million-dollar contract but would not do so on account of the rapidly with which changes are occurring both with men and materials. The only way a contractor could consider work at present, he said, was on a percentage basis. Mr. Costello left today to return to the Valley railway.

SAILOR IN COURT ON THREE CHARGES IN HALIFAX RIOT CASE

Halifax, N. S., May 27.—James Smith, of Newfoundland, able seaman in the Canadian naval service, whose arrest by two police officers precipitated the riot at City Hall Saturday night, appeared before Stipendiary Magistrate Fielding this morning and pleaded guilty to three charges, of being drunk in the street and using abusive language he was fined \$4 and \$3. The third charge was that he unlawfully resisted arrest. The magistrate said that this was an indictable offence and gave Smith choice of being tried summarily or of electing to be tried in the supreme court. Smith then entered his plea of guilty, which was allowed to stand, the stipendiary reserving sentence until tomorrow.

Smith said that the police used bad language toward him and struck him, while the policemen said that Smith kicked one of them in the leg and struck at both of them. Smith appeared in court with a black eye and a bruised face.

PICK-POCKETS AT WORK IN CITY

K. W. Epstein Jostled In Car And \$48 Taken From Pocket—Another Man Loses \$15

To be jostled about by two men while entering a street car and to find out that he had been robbed of \$48 was the experience of K. W. Epstein, a local optician. Mr. Epstein left his place of business on last Friday afternoon to attend horse races at Mooseport park. At Haymarket Square he boarded the East St. John car instead of the Glen Falls one and while entering the car was jostled between two men and shoved about. After discovering his mistake he left the car at Kanak's Corner and walked to the One Mile House to catch the car for the park. It was then that he missed his roll of bills. He recalled his usual experience with the two men and notified the police about his loss.

Another man is reported to have lost \$15 from his pocket while en route to the races. These cases lead many to believe that there are pick-pockets at work in the city.

DEPT BATTALION PLEASES GENERAL IN MARCH PAST TODAY

General Sir Louis Jackson, accompanied by Colonel Lang, Lieutenant-Colonel A. H. Powell, acting G. O. C. of military district No. 7, and Captain Heron of the local staff, inspected the Depot Battalion this morning. The battalion in heavy marching order marched past in King street, just opposite the old hotel. The general expressed himself as being well pleased with the appearance of the men and their equipment. The depot battalion's marching one would think that the men had done several months of training. Some have been only a few weeks in khaki.

Colonel Powell, acting G. O. C., was equally well pleased. The work of the men reflects much credit on the officers of the depot and on Captain Heron, of the local staff.

RAIN IS WELCOME ALONG THE RIVER

A grassy apple tree on a sunny hillside in Public Landing is in blossom. The purple bloom of the rhododendron is beginning to show in the pastures. A wave of green sweeps over the country, with ditches of white in the woodlands, where the cherry trees have fallen into bloom. The wind whistles in the meadows waves in the wind. There is an abundance of wild strawberry blossoms, and some Indian reeds reflect with the gold of the dandelion. The glory of the summer is at hand.

Peas and beans planted on May 18 were well above ground this morning, along with radishes, lettuce, cucumbers, carrots and beets, and onion sets were also sending green shoots upward. The weather has been wonderful, but a warm rain is now much needed.

Even the flies have come—the tiny ones that like the back of your neck and other exposed portions of your anatomy. They come out in the garden in the early evening, but if you go into the woods they are always at your service. A party cutting peas brush on Saturday afternoon from the tops and branches of birch trees that had been cut for firewood last winter, were joyously welcomed as a source of nourishment by a small swarm of midgelets on wings.

The weeds present an interesting problem to the amateur gardener. They grow more rapidly than other crops, and if they are allowed to get a good start the other crop suffers. The wise gardener gets the start himself, even at the cost of some muscles and kinks in his spine. He can keep ahead if he is really earnest about it, but by the time he has a wagon load of roots piled up at the bottom of his garden he generally wants to sit down and rest. It took part of two days to get the bulk of the weeds out of one patch of potatoes, but the farmer says there will be no more serious trouble with them this season. The rest will be easy. And it is amazing with what a sense of satisfaction even a tired man contemplates the result of his labor. He knows that with fair weather conditions, if he perseveres, there will be a crop of potatoes to eat.

There were not so many excursionists on the river on May 24 as in former years. Nor were there many motor boats. Not half a dozen got as far as the Landing. There were no sail yachts. The Oceanic had a large passenger list on Thursday afternoon for points all along the river. The water is now only a few feet above summer level, and the steamers can lie at the face of the wharves. Salmon nets are out in the coves along the river, in readiness for the early summer run. There have been some good catches of gaspereaux.

The Oceanic had a large passenger list down river this morning, making all the stops. It was quite like a Monday morning in the summer season. Many motor boats were up river yesterday. Rev. Dr. Morison and Mrs. Morison came down this morning for the day. They have been planting their garden and attending to their young orchard.

VACCINE ARRIVES

A large case of vaccine has arrived in the city for the Board of Health. This will be distributed among the physicians who are looking after the city wide vaccination. There were no new cases of small pox reported today.

On Saturday another case was reported, having developed in a house on the west side of the harbor. The one who contracted the disease had not been vaccinated. The medical men with muchly plain that vaccination is a preventive and not only a modifier, as is the opinion of some people. There are now several cases under the jurisdiction of the board of health.

Note Circulation Decreased
Ottawa, May 26.—The April bank statement shows a reduction in note circulation, as compared with the previous month, of more than \$10,000,000. Demand deposits decreased, but note deposits increased by twelve and a half millions.
