Prominent St. John citizen whose death occurred on Sunday.

However, if the Balkan allies were anxious to resume hostilities which it is currently reported they are not anxious to do at least fifteen days must elapse before the guns can begin to go off again.

The precincts of the House of Commons presented many of the features of a well defended camp when the franchise bill was dropped.

As it is understood that the allies will give the Turkish delegation three days in which to answer the expiration of that period would occur on Sunday.

Mounted and foot police were to be seen everywhere in great strength.

The British cabinet today decided to drop the franchise bill in defence to the speaker's ruling that the form and substance of the measure would be so materially altered if the amendment granting the vote to women were adopted that it ought to be presented in the shape of a new bill.

Board of Trade's Progress Programme Is Announced

EXPERT COMMISSIONER AT HEAD

Industrial, Civic, Trade and Commerce and Traffic Departments of Newly Invigorated Board to Carry on the Work—The Plans Detailed and Citizens Called on to Help

The St. John Board of Trade proposes to increase its activity and broaden its community usefulness.

It is a business institution.

It will be managed on a strictly business basis.

It asks for the co-operation of those who believe in St. John.

It merits the confidence of those who realize that one thousand to twelve hundred men under the title of the Board of Trade can do anything for this community they undertake.

Its membership will be on an entirely new basis.

It will accept the memberships only from those who believe in themselves, in their city and in their city's development organization, the Board of Trade.

It will expect of this membership, not only the investment of their annual dues, but the contribution of personal interest, and activity as well.

The board will employ an experienced industrial commissioner who has had experience as a commercial secretary after the present annual dues, but the contribution of personal interest, and activity as well.

When he is placed in charge, the officers are not going to sit down and watch the production good results. They are going to help in producing good results.

Anything that is worth doing, is worth doing well.

To measure up with similar organizations in other cities of our class, the scope of the activity of the Board of Trade must be enlarged, and additional support and aid given by the citizens of St. John.

Calgary, Jan. 27.—Western Canada, particularly Alberta, is threatened with a meat famine.

Much of the mutton had been shipped from Australia and cannot be replaced for some time.

Prices on the hoof have risen from five to seven and a quarter cents, and are scarce even at those figures.

The amount of live losses on the stock of the Burns plant has been assessed by the adjusters at nearly \$700,000, fully covered by insurance.

Vancouver, B. C., Jan. 27.—W. E. Sparman, a Vancouver investor, was the unsuccessful defendant in a suit in which he sought to avoid payment of a check for \$208. He had sent the check to C. D. Sheldon, of Montreal, telegraphing him payment deposited. In meantime the check had been cashed by a third man in Montreal, and the court decided that the defendant had to pay.

Washington, D. C., Jan. 27.—Today the House committee on ways and means will take up consideration of the wool schedule.

Senator Aldrich has referred to the schedule as the "trifling protection" the current democratic look-back refers to as the "keynote of the act."

It is not fair to assume that the wool schedule is intended to protect the wool manufacturers of the country and to charge the consumer higher prices to the per cent of the tariff, but it is most conservative to estimate that they can charge him at least half as much again, as they could charge without protection tariffs.

This Schedule Taken up Today in Washington—An Instance of Getting Around a Corner—Some Fun Making With Buffalo Man

(Special to Times and Montreal Star)

Washington, D. C., Jan. 27.—Today the House committee on ways and means will take up consideration of the wool schedule.

Senator Aldrich has referred to the schedule as the "trifling protection" the current democratic look-back refers to as the "keynote of the act."

It is not fair to assume that the wool schedule is intended to protect the wool manufacturers of the country and to charge the consumer higher prices to the per cent of the tariff, but it is most conservative to estimate that they can charge him at least half as much again, as they could charge without protection tariffs.

This is equivalent to a per capita enforced contribution of \$4.27 for every one of the 94,000,000 people of the country for the benefit of the wool growers and woolen manufacturers.

THE DERRY ELECTION

New York, Jan. 27.—A cable from London to the Tribune says:

According to news from Londonderry operations on a military basis are going on all over Ulster, with a view to resistance to any Dublin parliament by an armed and disciplined force.

Such reports, however, must be taken with a grain of salt, for the fact that the pending by-election fight in Londonderry will be one of the closest in the history of the borough, Friday next is the polling day.

ST. JOHN, N. B., JANUARY 27, 1913. The St. John Evening Times is published at 27 and 29 Centre Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

JOIN THE BOARD OF TRADE The Times prints today and commends to its readers the new programme of the board of trade, which was endorsed by a representative group of citizens of the city, and which ought to command the unflinching support of the whole citizenship of St. John.

An interesting meeting appears to have been held in Moncton yesterday. Invitations had been extended to the candidates for seats in the city council to attend a meeting in the Central Methodist church, and announce their attitude in relation to the programme and enforcement of the Scott Act.

RECENT DEATHS After an illness of only two hours, James Kennedy, a widely known citizen, died at his home, 78 Summer street, yesterday afternoon. He was in the 78th year of his age, and was born in Maybole, Scotland.

Why is there a confident feeling that such a programme of civic expansion and betterment can be successfully carried out? In the first place the position of the city with regard to the transportation system of Canada, and the great public works that are in progress of construction to handle a steadily growing trade, are the guarantee of expansion along commercial lines.

There is to be, nothing can prevent the growth and expansion of the city of St. John, but a handful of Irish which is miserably and miserably strong, and strong in its opposition to St. John, can retard this growth and bring about the desired results in a much shorter time. It will not be necessary to expend great sums of money to secure effective results.

Perth, Ont., Jan. 26.—Lieut. Colonel Arthur James Matheson, provincial treasurer and member of the Whitney administration since its formation in February, 1906, died suddenly at his residence, Gore street, here, about 11 o'clock last night in his 78th year.

Colonel Matheson had returned from Toronto Saturday afternoon and in the early part of the afternoon appeared to be in the usual health, which, however, had not been very good during the past year. A trip to the continent last summer had appeared to benefit him considerably and his demise was unexpected.

He attended his club here on Saturday evening, leaving for his home about 10:30 o'clock, when he reached his residence he was seized with a recurrence of acute heart trouble and died instantly. The surviving members of the family are Misses Anna, Eliza, Johanna, Mr. A. C. and Captain A. F. Matheson and brother, all of whom reside in Perth.

He was the fifth son of the late Colonel Hon. Rodick Matheson, general. The general, which will be a military one, will take place from his late residence, Gore street, at 1:30 o'clock Tuesday afternoon.

URGES NEW BRUNSWICK FARMERS TO RAISE BEES

Expert Tells of Ease With Which Big Money is Made—A Fine Thing for the Garden Generally—This Province and Nova Scotia Well Adapted for the Industry.

F. W. L. Sladen, bee expert, Central Experimental Farm, of the department of agriculture, Ottawa, is in the city and is registered at the Royal Hotel. Mr. Sladen has just returned from Nova Scotia where he was lecturing to the students at Truro on bee keeping, and also spent some time looking into the condition of the industry in the Annapolis Valley. He said yesterday that he found there that very little attention was paid to raising bees, though the conditions were all that could be desired from the beekeeper's point of view. He will spend a few days in New Brunswick in different parts of the province, and do what is possible to encourage the farmers to take up beekeeping to a greater extent, as it is one of the most profitable and at the same time one of the most neglected of the branches of mixed farming. "The neglect comes," Mr. Sladen said, "more from want of knowledge how to spread the gospel of beekeeping in those parts of Canada." In New Brunswick, amongst other places, Mr. Sladen will visit Sussex, on Monday; Keweenaw, Tuesday; Woodstock, Wednesday, and Centreville, Thursday.

With these points in mind the beekeeper will succeed and make money. In Ontario a great many men have specialised in bee culture, and are making yearly incomes of from \$600 to \$2,000. It is also a business in which women can engage with success and many women in Ontario are doing so.

Fine for Garden Generally. Few fruit growers realize the importance of the presence of bees on the farm and garden, and the value of their products. Besides the honey the fertilizing value of bees is very great, and all fruit growers know that certain varieties of apple, plum and other fruit, will not produce unless they are cross fertilized, and in those cases bees are important agents. The presence of bees therefore in an orchard undoubtedly increases the amount of fruit produced while the expense in connection with the upkeep is very slight. It will be new to most farmers to know that a steer costing about five times as much as a live of bees, after it has been fed and cared for during the whole of the winter, will not realize much more than the produce of a live of bees in a single season.

Mr. Sladen said that any farmer interested in bee culture can obtain from the entomological department full particulars of how to go about the process of beekeeping. Bulletin No. 2 of the Division of Entomology may be obtained from the department of agriculture and gives particulars of the industry.

SUNDAY EVENING AT EVERY DAY CLUB

That interference was not the cause of all the poverty and crime in the world was the declaration of Rev. Gordon Dickie at the Every Day Club last night. He said that might have been true once, but nowadays he thought the spirit of invention that was abroad was due to the disregard for all external authority that was so widespread. In Germany the increase of juvenile crime lately amounted to eight per cent, while all other crime had remained practically stationary. In Paris the most daring crimes were committed by boys actually out of their teens. The speaker said that some men had come to the conclusion that they could do very well without the Bible or the church. These had served their day were all very well in the infancy of the race, but according to them were not wanted now. This was a great mistake, he in these two agencies by the hope of regenerating the race.

IN THE CHURCHES

A special service for the members of the Sunday School was held yesterday morning in the Catholic Evangelical church. The pastor, Rev. Dr. J. A. Morrison, delivered an address on "The Message of the Flowers." Rev. Dr. Morrison delivered a sermon on the subject "What is Religion?" last evening in Centenary church. There was a large congregation and a substantial amount was contributed to the supererogatory fund. The annual temperance meeting in the Seaman's Institute on Saturday evening was addressed by Rev. Mr. Paves, Rev. Dr. MacVicar addressed the meeting last evening on the influence of Christianity. The patronal festival was observed in St. Paul's church last evening. Rev. E. B. Hooper preached from the text "Except the Lord Build the House, Their Labor is Lost That Build it." In his sermon he said too much was left to the clergy and too little responsibility felt by the laity. There are many reasons why it may pay you to investigate the **FERRO** marine engine if you are contemplating the purchase of a motor.

DANGLING FROM ROOF HIGH IN AIR

Boston Painter Had Taken Too Many Drinks

THRILLING RESCUE

Carl Hager, Hundred Feet in Air, Hanging by Slim Rope After Fall From Library Roof—Fellow Workmen and Policeman Save Him

Boston, Jan. 27.—Dangling from the roof of the Charlestown Public Library, a hundred feet in the air, Carl Hager, a painter, was rescued from a perilous position that packed City square had stood with blanched faces for more than twenty minutes watching the perilous life-and-death expedition of a policeman and two fellow-painters.

Hager was one of four men who were painting the slanting mansard roof of the historic old Charlestown City Hall, now used as a library. A rope was attached to his waist, the other end being fastened to the dome of the building. He stood on the gutter that extended along the base of the roof.

The gutter gave way, and he fell. It took a moment for Hager to realize that he was going to land on his head on the pavement. But suddenly the rope went taut and Hager hung in the air. Somebody sent for the fire department, and Ladder No. 27 from Monument street and Chemical No. 3 from Westbury street headed by District Chief Pope, hurried to the scene. Somebody else told the police of Station 15, nearby, and Patrolman Dorman scurried to the roof of the building before the firemen tried to raise a ladder.

Standing precariously on the ridge of the roof, bracing himself near the dome, Dorman led two of the other painters down, hand over hand, on a rope until one of them seized Hager's coat. The other hastened a second rope over the edge of the roof, and Hager was hoisted up. They had to move cautiously, as any false move meant death. But they had to hasten, too, for it was feared that Hager's rope would not hold him. Police Sergeant Toomey in the street below directed operations.

When they had him hitched to the second rope Dorman pulled away, and a cheer went up from several hundred people who were gathered below. Hager was slowly drawn upon the roof.

They found that Hager was unconscious, so Dorman and his mates carried him down stairs to the police station. When they arrived there, Hager was in a perilous condition. His condition and pronounced him intoxicated. They said he should not have worked on the roof today. Last he might repeat, they looked him up. Hager is forty-nine years old.

EXPECT DECISION TODAY ON MATTER OF VOTES FOR WOMEN

London, Jan. 26.—The cabinet council, which assembled tomorrow, is to decide the momentous question as to how to deal with the dilemma caused by the speaker's ruling which was made Thursday in answer to a question asked by Andrew Bonar Law, leader of the opposition, in regard to the effect that if the form substance of the bill were materially changed by amendment it should be withdrawn and a new bill presented.

GOLD DOLLARS FOR FIGHT AGAINST RACE SUICIDE

Nashua, N. H., Jan. 27.—Rev. Lewis Wolcott, pastor of the Church of St. Stanislaus, said yesterday that he will devote his vacation money, which amounts to \$150 a year, to starting a baby fund in his parish.

Fr. Wolcott opposes race suicide and is particularly anxious to see the Polish race increase in America by native-born sons and daughters, as well as by immigration. "To each baby born of Polish parents in Nashua," he says, "I will give a gold dollar. When each baby attains the age of six I will give him or her an education in the Polish school of my parish free of charge. Nothing is more important to the welfare of our race in America than large families."

"I hope to see the time when every Polish woman is the keeper of a good home and the mother of a large family of growing boys and girls, sturdy in their love of their country's freedom and the traditions of their fatherland."

Fr. Wolcott is a native of Warsaw and, after taking orders, passed some time in France and England before coming to America. He has a fine flower and vegetable garden at the parochial residence and in it he will pass his vacations instead of traveling on the money which he will devote to the baby fund.

Money and Paper. Montreal, Jan. 27.—Towards the close of the week, money showed signs of tightening up again. The banks have been lending on funds in small quantities, recently, and a fair amount of private money has been available. At the moment the money market is so straitly, probably due to the end of the month being near, when there is formally contraction of funds. The Quebec government is at present in a political situation and the domestic monetary situation again acted admirably in the closing days of the week.

KIDNEYS WERE SO SORE DIDN'T KNOW WHAT TO DO. GRAVEL AND SMALL STONES PASSED THROUGH THE URINE. One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid lime in the blood uniting and forming a gritty substance which lodges in the inner surfaces of the kidneys or bladder, and sets up a painful irritation.

Doan's Kidney Pills. To relieve these terrible pains it is necessary to keep the kidneys healthy for healthy kidneys secrete fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain. Mrs. Elmire Baldwin, Windsor, Ont., writes:—"I was so weak I could not do my own work. I tried many doctors, and every one of them told me to go to some institution. Reading of Doan's Kidney Pills, I tried them, and am now well, and can recommend them to all. My kidneys were so sore I did not know what to do, but after using the Doan's Kidney Pills, you would be surprised at all the gravel and small stones that passed through my urine. Now I am well and able to do my own work." Doan's Kidney Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering direct, specify "Doan's."

Washington, Jan. 27.—Charles H. Moore, 35, committed suicide by hanging at an early hour this morning at his place of residence, 29 River street. He retired as usual last night. The present combined specific and ad valorem duties on some classes of woollen cloth are computed by the Democrats as being equivalent to an ad valorem rate of not less than 120 per cent, and the actual average ad valorem duty on all wool cloth making heavy reduction in the rates was made by President Taft in last August.

The bill which the Democratic majority on the committee is to submit to the next congress will propose reduction in the rates imposed under the tariff act of 1909. But it is equally certain that the protectionist bill will strongly contest anything likely to lower their hold on the home markets, and a sharp conflict is anticipated.

Human society is governed by law, and the higher the civilization of a people the more just and righteous their laws. Should we not expect that the Creator of the universe would have a code by which He governs his created beings? We find that He has, and that the moral law is the government of mankind as is definite, clear, and unchangeable as the laws of nature.

While it is necessary for the dyspeptic to abstain from rich, greasy, highly seasoned food, it is useless and injurious to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body. Weakening the body will never remove dyspepsia, on the contrary, all efforts should be to maintain and increase the strength. Burdock Blood Bitters will increase the strength, and at the same time enable one to partake of all the wholesome good food required, without fear of any unpleasant after result.

The city's growth will be along the most advantageous lines, with proper reservation for open spaces, for play-grounds and parks, and so that all suburban territory likely to require the public services of the city within the near future shall be included in the extension of the city's limits. This should be done soon, if St. John is to be a great city.

DYKEMAN'S Remarkable Selling of 1913 Shirtwaists

We ordered our new Waists early this year. They came in in December and were nearly all sold by the first of January and that made it necessary for us to order a complete new supply for our spring demands. The first shipment of these new creations in 1913 waists have arrived and are on sale. They are the daintiest conception of waist building for moderate prices that it has been our experience to handle.

A big lot of them are priced for quick selling at \$1.00 each. You will say at the first glance that they are equal to many waists sold at \$1.50. All sizes at this popular price.

Of course, there are other's prices from 50 cents to \$5.00. The great annual Whitewear Sale still continues.

Government to Swing Trade Via Boston?

THAT IS THE REPORT

West Indies Subsidy Said to Permit Calls at American Port Both and Coming to and Going From Here

There is some uneasiness in commercial circles owing to a report that the dominion government, in subsidizing a new West Indies steamship line to the extent of \$400,000 a year, is going to allow the steamers to call at Boston on both the inward and outward trips, as well as at St. John and Halifax.

This would be a return to Hon. Mr. Foster's old-time policy of subsidizing American ports.

If those steamers, heavily subsidized by Canada, were to call at Boston, that port would be in a fair way to handle most of the upper Canadian business with the West Indies, because it would be the first port touched on the run from the West Indies to Canada, and the last port of call on the outward voyage, and it has quick railroad connections with Montreal.

The Montreal Witness, in one of its issues last week, published a circumstantial dispatch from Ottawa, intimating that Boston is to figure in the contract in the way indicated here.

The main idea in modernizing the Canada-West Indies service was to give a quick and direct business between the two cities and Canada. This main idea would be defeated by the inclusion of Boston in the way mentioned.

Business men will ask the St. John Board of Trade to look into the matter if it has not already become the subject of enquiry by the board.

NEARLY 300 MEN HAVE ACCEPTED

Success of The Get-Together Meeting Assured

TOMORROW'S BANQUET

All Who Will Attend Will Be Welcome — Mr. Chase Well Pleased With Fine Spirit Shown by Citizens

When the Board of Trade council first announced a get-together meeting for the business men and citizens of St. John, "quite a number" others expressed skeptical belief that "nothing would come of it," but this morning's announcement that there were over 250 acceptances in, and a probability that it would go above 300, gave them more confidence. The get-together idea sounded good, in fact, better than anyone had any idea, and the bringing together of 300 citizens, a common footing, at no small thing, and is expected to be fraught with excellent results for St. John.

The committee in charge of issuing the invitations, deems it to be understood that if there were any persons overlooked who want to join in this meeting and will so signify by telephone, messenger or by mail, invitations will be issued and reservation will be made for dinner tickets.

Said Mr. Chase this morning: "It is inspiring to find the citizens and business men entering into this get-together movement with a spirit seldom shown in any other undertaking, and it speaks volumes for the standard of citizenship and civic patriotism of St. John."

However, it must not be forgotten that there are other steps, in fact, a long flight of steps, all leading upward, and we are to get anywhere we must keep on climbing. One step alone means nothing; it were better not to start at all than to go only half way. This meeting means the beginning of a new era of activity for St. John, in which all should join, and if called upon to help, give it all the time and effort necessary to make it a great success.

"Let us make tomorrow night the dividing line, leave all our petty grievances and little jealousies behind us, convince ourselves that we are too big and broad-minded to recognize anything but the community welfare of St. John; to turn our backs on the past with any factional differences and altogether look to the future. If we can do this, we will have covered about ninety per cent. of the race for the supremacy of St. John's mercantile, industrial and maritime interests."

TALK OF INDUSTRY FOR CARLETON MILL POND

Proposals on behalf of a large industry which is looking for a site in St. John were made to the city commissioners in a letter from J. Simeon Armstrong, C. E., submitted by Commissioner Schofield this morning. The site suggested is the old mill pond in the middle of Carleton which could be reclaimed for the purpose. The letter was merely preliminary and did not contain anything definite but it may lead to negotiations for the use of the large section which has lain idle for many years.
