TO FARMERS. 30 BUSH. FINE SEED WHEAT.

NOTICE. The Subscriber begs to inform his friends...

Didn't like Coincidences. "I want a suit of clothes, but a pleasant young man entering a tailor shop and addressing the proprietor."

"It may not be necessary to add, continued the young man, 'that I haven't any money.'"

"Not necessary, sir; nor is it necessary to add that you cannot afford the clothes."

"My friend, I wish to relate to you a little coincidence. Once, when President Garfield was a young man just at my age, a tailor trusted him for a suit of clothes."

"I don't know you, sir," said the tailor, when young Garfield made the wardrobe a proposition.

"You have no advantage of me," said Garfield, "I don't know you."

"But I never saw you before," said the tailor.

"No advantage," reiterated Garfield, "I never saw you before."

"Hanged if I don't trust you," said the tailor.

"And now look at him to-day. Garfield is president, while the tailor is rich, and has been offered an office within the gift of the government. Now, note the chain of coincidences. Garfield was poor; so am I. He was just my age; so am I. He did not know the tailor, and the tailor did not know him. The tailor had never seen him before, and he had never seen the tailor before. You never saw me before, and I never saw you before. Now, sir, there is the prettiest chain of golden-linked coincidences I ever saw. I would go to some other tailor, but they all know me."

"Very likely," said the tailor, "Well, sir, I say that I would go to some other tailor, but all the other tailors know me, and this breaks the chain."

tain de Long should leave a message in case he could not stand at the former place. The search along the coast of these two islands will probably take two months, when the Arctic winter will begin.

Captain Berry, who will command the Mary and Helen, will be governed entirely by the information we get after reaching the Arctic regions. Our orders are not to stay north more than one winter, but to prosecute the search after spring opens in 1882, and remain until the winter sets in again.

The inquiries of Prof. Ooan, of Breslau, indicate that short-sightedness is rarely or never born with these subjects to it, and that it is almost always the result of strains sustained by the eye during study in early youth.

Even so inflammable a material as cotton can now be used for the construction of fireproof buildings. It is converted into a paste-by chemical treatment—which becomes as hard as stone.

Another source is to follow that in regard to color-blindness. Statistics have just been published by a learned Heidelberg professor to prove that engineers on railways are peculiarly subject to affections of the ear which might compromise the safety of passengers.

One of Edison's inventions, in connection with his system of electric lighting, is the selenometer. This is an instrument for measuring the amount of electricity flowing through a circuit, or, in other words, a meter for electric currents to tell the number of webers that have been supplied.

M. Colloidal has found that any tall tree may serve as a lightning-conductor to protect a house, provided its roots enter damp soil. In the case, however, where the house stands between the tree and a pond or stream of water, the shortest path for the lightning from the tree to the liquid conductor may be through the house!

A Hungarian chemist has lately shown some surprising experiments in Paris with his new light-giving substance which burns with so little heat that its flame will not set fire to a handkerchief, carpet or other fabric with which it may come in contact.

A person may hold the burning liquid in his hand without injury. This new illuminating fluid is prepared from petroleum.

Prof. Perosini and Dr. Licht, who have both experimented upon the principle of the transmission by telegraphic wires of the forms and colors of objects in the same way that sounds are transmitted by telephone, hope to ultimately succeed in contriving an apparatus by which two persons who are separated by an ocean will be able to both see and hear each other.

Atmospheric pressure has a very decided influence upon the melting-point of various substances. Under ordinary circumstances ice melts at thirty-two degrees Fahrenheit, but, in some recent experiments, Dr. Carnely is said to have heated it in a vacuum to 350 degrees before it became liquid.

At a much lower temperature the ice rapidly disappeared, however, passing directly from a solid state to that of vapor.

At the castle of Simonetta, about twenty miles from Milan, a surprising echo is produced between the two wings of the building. The report of a pistol is repeated by this echo sixty times; and Addison, who visited the place on a somewhat foggy day, when the air was unfavorable to the experiment, counted fifty-six repetitions. It is stated that the sound of one musical instrument in this place resembles a great number playing in concert.

A watchmaker at Copenhagen is reported to have made a watch which requires no winding up, inasmuch as it performs that work itself by means of an electric current. An electro-magnet fixed inside the watch keeps the spring perpetually in a state of tension. To keep the watch in running order all that is necessary is to preserve the battery in proper working condition, for which purpose one or two inspections a year are said to suffice.

White light being the sum total of the various colors, it has been generally believed by physicists that the sensation of white light is simply the sum total of the sensations of its constituent colors. On the ground that the sensitiveness of the eye for white light may be increased—as, for instance, by the previous absence of all light—without the sensitiveness for color being increased, Prof. Charpentier urges the novel theory that there is a color sense as distinct from that of light as is the sense of touch from the sense of heat.

SEEDS! SEEDS! JUST RECEIVED AT THE Newcastle Drug Store, a fresh supply of GARDEN & FLOWER SEEDS, viz.—Beans, Beets, Carrots, Cabbage, Cauliflower, Celery, Cress, Corn, Cucumbers, Lettuce, Onions, Parsley, Parsnip, Peas, Pumpkins, Squash, Spinach, Tomato, Sage and Summer Savory, Sweet Marjoram, also, Purple Top Salsicchia and Yellow and White Snowball Turnips, and I have the best assortment of Flower Seeds! ever imported into Miramichi. of friends in the western part of Canada have expressed great regret at his departure, while Louis Col. Maussel, to have for his commanding officer a gentleman so well qualified for the position.

The Financial Association of Ontario. The foregoing circular has been issued to the shareholders in The Financial Association of Ontario, London, Canada.

The Great Earthquake. The London Times correspondent who hastened from Constantinople to Chios as soon as he received news of the recent earthquake there writes as follows:

It is a picture of desolation which is rarely believed. The town looks as if it had been utterly destroyed. Hundreds of houses and public buildings were reduced to a mass of ruins.

Another quarterly dividend will be declared in July next, after which dividends will be paid half-yearly—in January and July. It has, therefore, been deemed advisable to do so quarterly, as shareholders and intending subscribers would, naturally, wish to have the opportunity, at moderate intervals, of ascertaining the degree of success the Company was meeting with.

The Active Militia. (From the "Telegraph" of 18th.) Lt.-Col. Taylor, who succeeded Lt.-Col. Maussel as Deputy Adjutant General in New Brunswick, and who will also be in the office of the Nova Scotia, was a passenger on Thursday morning, with his family, from London, Ont. He is registered at the Park Hotel. The train from Fredericton brought Lt.-Col. Maussel on his way to Ottawa, where he is to be stationed.

Extraordinary storms of wind and rain appear to have occurred in many parts of the United States recently. Accounts of great devastation by both wind and flood come along almost daily, and it would seem as if the predictions of disaster on the earth which have been made in connection with planetary conjunctions to occur in June, are, in part, at least, to be verified.

The Toronto Globe appears to think that there is a Tupper mystery like that of Edwin Droad. However, the latter disappeared altogether, and the novelized story of his life is back to the world.

of Central Fire Ins. Co., paid in \$400.00; 145 shares Bank of New Brunswick, \$100 each, \$14,500.00; City Water debentures \$6,000; cash, \$343.12. To this must be added the market value of Bank stock; the accumulations of interest on stock, etc., since, in that, the whole amount now would foot up to about \$50,000. A few days ago, Messrs. A. A. & R. O. Stockton, auditors for the Methodist Conference, applied to Mr. Lockhart for a statement of the affairs of the estate, in order to obtain the request. Mr. Lockhart said it was impossible for him to hand all the money over to the Conference. He had sold and realized on two of the mortgages, and some Water and Sewerage bonds, the whole sum thus obtained being \$12,549.12—and had used this money in erecting brick buildings. In addition to this amount, however, he had used the accumulations of interest, which is supposed amount to about \$12,000 more. The whole debt, therefore, is about \$25,000. Mr. Lockhart has in his possession the Bank shares, Insurance Company stock, some debentures, mortgages, etc., which he is prepared to transfer.

In order that, at least, no further loss should ensue, Messrs. Stockton yesterday applied to Judge Poirer for an injunction to restrain Mr. Lockhart from transferring the property of the Conference now in his possession, and also to restrain him from collecting the rents of the buildings erected with Conference funds. The application was granted.

These proceedings did not become generally known until this morning—and the public heard of them with surprise. It is now known that Mr. Lockhart transferred his property, last week, to Messrs. Sims, Alward and Geo. Fairweather, as trustees, for the benefit of his creditors.

It is expected that the Common Council at its meeting on Tuesday will deal with the Water and Sewerage Commission. The general impression appears to be that the Commissioners appointed by the City will be removed, and that the retiring Mayor will be appointed to Mr. Lockhart's place.

Accidentally Shot Dead. On Friday afternoon, Melbourne, the second son of Mr. Alvan Smith, proprietor of the Sackville shoe factory, went on the marshes below Middle wide grove shooting. He was accompanied by John Hillson, an employe in the factory. They were both lying concealed behind a fence, Smith a few feet in advance, when some geese rose near them, and the latter fired. As he fired, Smith suddenly popped up, his head, receiving the full charge in the back of the skull, shattering it in the most shocking manner. In a few minutes a number of sportsmen gathered around the unfortunate boy, amongst them Dr. Moore, who, after examination, pronounced him beyond the healer's art. He was totally unconscious from the time of receiving the charge till he died, about an hour after. A carriage had been sent for, and on its arrival the body was placed in it and a sorrowful procession to Sackville was formed.

The whole community was shocked by the dreadful occurrence, and the deepest sympathy is expressed for Mr. Smith and his family in their affliction. Melbourne was only 17 years of age and was a bright and promising boy.

It was deemed unnecessary to hold an inquest. Hillson as may well be imagined was horrified at his part in the dreadful affair.—Telegraph.

Notes and News. PROVIDED FOR.—The vacant collectorship of Toronto, which Sir John Hall has been long in filling, is at last given to our law partner, in St. John, a gentleman nearly sixty years of age, and who will begin pretty late in life to learn his business.

PROTESTANTS AND CATHOLICS of Hopkington, Mass., united in a public presentation, Wednesday evening last, of an elegant gold watch and chain to Rev. Dr. Dorothea, the retiring pastor of the Methodist church, and a silver tea service to his wife. The presentation speech was made by Rev. F. J. Flynn, pastor of St. Joseph's Catholic Church, the town hall being crowded.

THE ACADIAN.—A convention of the Acadians of the Maritime Provinces meets at Moncton on Friday. The executive committee is composed as follows:—Hon. P. A. Landry, President; Hon. J. C. O. Arsenault, Vice-President; M. G. A. Girouard, M. P. Secretary, and M. Urban Johnson, Stanislas Porrier and Prosper Paul. Its business will be to discuss matters of general interest to the French population of the Maritime Provinces.—Post.

SINGULAR MANAGEMENT.—It is customary to sell tickets at Excursion rates on the Intercolonial Railway during the Easter Holidays. This year, if any such tickets are sold at St. John, the fact has not been announced in the local press, although a six square advertisement in some of the Upper Provinces papers says that return tickets at one fare will be issued on Thursday and Friday, 14th and 15th inst., good until Tuesday, the 19th inst. What kind of a way is that of doing business?—St. John Globe.

"PROVE ALL THINGS"—Not a few of our readers could furnish illustrations in support of our recent warning against those religious or temperance tramps who have so often managed to get into our churches. Some memories may be refreshed by the warning of a gentleman of South Eastern Pa., who writes to the readers of the Christian Advocate against a man and his wife who are wanted at that place on account of money and clothing procured under false pretences:—"They profess to be temperance workers. He makes appointments, and she lectures. She announces herself to be Mrs. Kent Moon-Clayton. She is tall and graceful, and full of animated talk. He is slow of speech, lethargic in manner, and assumes the role of a clergyman. They are well calculated to deceive."—Western.

THOSE "CLEAN HANDS"—An Ottawa despatch of 12th inst. says:—It is possible that Sir John Macdonald's ill-health may cause the suit of Wilson vs. Macdonald to be held over to another sitting of the

Miramichi and the North Shore, etc.

Persons are interested in the Commission's report in another column.
WONDERFUL!—The Advocate says there is ice in the North Shore harbors.

It is a slightly two-story structure 22x22 with a one-story back extension now 17x22, which will be intended to make 28x42. There are two stores fronting on the street, and the entrance to the dwelling portion of the house is between these.

John, II Chap. 19, 20, 21st vs. In the evening the sermon was preached by the Rev. Mr. Wells, from Col. III Chap. 1 and 2 vs. after which the sacrament was administered. All of these services were well attended.

IMMANUEL R. E. CHURCH.
On Monday last, the Easter meeting was held in the school house of this church at 11 o'clock.

1880, \$1,062, or an increase of \$768. And we find in 1879, too, they spent \$941 for stationery, and I don't see what they want \$1,062 worth in 1880 for. Then the salaries are increased while the revenues from Crown Lands are diminishing.

THE ILLUSTRATED SCIENTIFIC NEWS.
The April number of this interesting and popular magazine is just out.

NEW ADVERTISEMENT.
Seeds! Seeds! Seeds! Seeds! Seeds! Seeds! Seeds! Seeds!

Barley, Wheat, Oats, Clover, Flower, Timothy, Vegetable, A. & R. LOGGIE'S, NEW SPRING GOODS, J. B. SNOWBALL'S.

THE SCOTT ACT was defeated in Hamilton, Ont., on Wednesday last by 1,200 majority. It is not found to work well in that province.

THE PARISH OF TORONTO decided not to endorse the Scott Act as a body, while declaring itself earnestly in favor of the speed of temperance principles.

THE REV. MR. HOWELL, the pastor, accompanied by A. H. Johnson, Esq., will attend the General Convention to be held in New York, in May next.

BATHURST NOTES.
April 19th, 1881.
EASTER MEETING.—At the Easter Monday meeting of St. George's Episcopal Church, the following officers were chosen for the ensuing year.

SPRING IMPROVEMENTS.—Judging from the improvements which our commercial men are making, they must be expecting a "bum" in business this summer.

MARRIED.
On the 14th inst., at the Mass. Camp Meeting, the Rev. J. C. Hermon, B. D., Mr. John G. Hill, Fraser, eldest daughter of High Fraser, Mary and Miller, Flat Lake, P. Q.

TO BUILDERS.
The subscriber begs leave to announce to his Patrons and the Public that he is now prepared to execute all orders entrusted to him with dispatch, such as:

Colored Athol Lusters, Scicillians, Bunting, De Beiges, Indigo Serges, All Wool Foulie, Melagne Scicillians, &c.

THE ADVOCATE'S YESTERDAY published one of its usually chaste references to the ADVANCE, in the interest of that pure and high-toned publication.

THE WORKING DETAILS were admirably executed, according to specification of the Rev. Mr. G. Ernest Fairweather, Architect, St. John; and the workmanship was done by Mr. John McDonald, Builder.

It doesn't do men any good to live apart from women and children. I never knew a boy's school in which there was not a tendency to rovelism. And lumbermen, sailors, fishermen, and all other men that live only with men, are proverbially a half-bred sort of people. Frontiersmen suffer down when women and children come—but I forget myself, it is the story you want.

possible, for the storm was upon him in all the fury. He tried to follow the path, but he could not find it. Had he been less of a frontiersman he must have perished there, within a few hours of his own home. But in his fortune he kept the direction of the path he heard a smothered cry, and then saw something rise up covered with snow and fall down again. He raised his gun as he shot it, when the creature uttered another wailing cry so human that he put down his gun and went cautiously to it.

General Business. VICTOR HUGO. The Northernland Agricultural Society's Blue Home "Victor Hugo" will travel the usual circuit during the coming season, at the usual fee of \$40.00, and for the accommodation of persons living outside the limits of travel, he will be found at the stable of the groom, Mr. George Dickson, Chatham, March 22nd 1881.

Burton sat up all night and stuffed into his impotent little stove to keep the baby from freezing to death. He had never before, that he should be so much in the hands of a woman.

When he reached Jones' he found Jones and his wife sitting in utter wretchedness by the fire. They were both sick from grief, and unable to move out of the house. Kitty they would find for buried alive under the snow mound. They would find her when spring should come and melt the snow cover off.
