Gandhi Policies Defeats Extremists of Left Wing

He Has Also Been Victorious Over Right Wing Belligerents. The policies of Mahatma Gandhi have proven successful in defeating both the left-wing extremists and the right-wing belligerents in India.

London, Jan. 2.—Tariq Mohandas Karamchandani remains the dictator of the Indian National Congress, and his "non-cooperative" and "non-violence" programme will be carried out during the coming year, despite the failure to obtain home rule, as the outstanding development of the All India Congress, which closed its session at Ahmedabad Dec. 29, according to official quarters here, where the results of the congress and its general effect on India's millions are being estimated.

New Aspects of Congress. Besides Gandhi's dictatorship, new aspects of the congress were resolutions passed to "concentrate on civil disobedience," and an attempt to define the meaning of "Swaraj." Officials here claim that both resolutions are containing the former seems to be the carrying out of experiments of non-payment of taxes and volunteering, as was advocated at last year's congress in Delhi, while the latter is considered to be Gandhi's answer to the charges of his critics that his programme is entirely negative.

Official circles interpret the home rule movement as an expression of a desire for India to remain within the British Empire if the British obey the All-India connections. Otherwise, a demand for independence is to be made. The official point out that the demand for an alternative Government in India remains unswerving. The resolution concerning "Swaraj" is as follows: "As doubts have been expressed as to the precise meaning of the term 'Swaraj,' the congress declares that, in the event of the British proposing to make common cause with the people of India in securing redress of Punjab and Khalifat wrongs, it will not wish to declare complete independence, but if the British Government remains hostile, the congress will strive to oppose the connection with the English and will declare complete independence."

It was asserted today by officials closely connected with the India office that they deplored statements made by "Indian propagandists" in the United States concerning events in India. It was impossible, they declared, to send code messages, such as that made public in Washington, from India. The story of the declaration of an Indian republic was based on the opening address at a Moslem conference in session at Ahmedabad, where the advocates of independence voiced a programme which the All-India Congress rejected.

Sydney, N. S., Jan. 2.—Wires are down in all directions in Cape Breton tonight as a result of a heavy sleet storm which has continued without intermission since daybreak. Telegraph and telephone communication has been interfered with to a considerable extent and power lines have also been affected, with the result that only one movie theatre on the island was able to operate this evening. The Halifax Express, due at 7.40 p. m., did not reach here until after midnight, owing to sleeted rails.

DEATH AND RUIN IN WAKE OF N. Y.'S CELEBRATION

Four Dead, Sixteen in Hospitals and Half Dozen Poisoned by Bad Liquor. The celebration in New York City has resulted in a tragedy, with four deaths and many injuries.

SCORE SUMMONED INTO COURT

Is Police Record of Dry Squads Attempt to Make New Year's Eve "Dryest Ever?" The police are taking action against those who attempt to make New Year's Eve a "dry" celebration.

New York, Jan. 2.—Father Knickerbocker turned his pockets inside out today to pay the paper for piping in the New Year amidst a Volstead-staying celebration that overpowered Manhattan from Harlem to the Battery.

There were many casualties: Police records enumerated four violent deaths attributable to holiday over-indulgence, 16 men and women in hospitals with gunshot or knife wounds, a half dozen poisoned by bad liquor and scores of drunkenness caused by members of the dry squad of 200 who attempted to make it a "dryest New Year's Eve" holiday.

Between midnight and 2 o'clock 12 raids by prohibition officers were reported including a descent on Rensselaer's at 20th street and 14th avenue and similar interference with the festivities at a half dozen Greenwich Village tea rooms. Opinions differed on whether the prohibitionists succeeded.

The Evening Telegram today described the night as a "celebration which rivalled the wildest pre-prohibition days." H. Anderson, head of the state anti-saloon league, however, described the night as "although worse than the Sahara Desert, New York was far drier last night than it has been on other holidays. Prohibition agents, he added, followed the line of least resistance and did not interfere with those who 'carried their own.' A more rigid enforcement of the law, he asserted, would have caused 'too much reaction against the laws.'"

A celebration spread into a great place in the country on the first night of the year showed a big improvement over any previous New Year's eve since enactment of the Volstead Act. Hundreds of churches held watch services that drew immense audiences without seeming to detract from the throngs that early took possession of reserved seats in thousands of hotels, clubs and restaurants.

With the cacophony of noise that was unloosed at midnight came the demands, and collections, of the pipe. A celebration spread into a great place in the country on the first night of the year showed a big improvement over any previous New Year's eve since enactment of the Volstead Act.

East Side residents of Broadway, near the Bowery, indulged in their favorite sport of bottle smashing, now a time honored tradition of the quarter. At the stroke of 12 hundred windows were thrown open and an avalanche of bottles crashed into the street below. No injuries were reported.

At Rensselaer's prohibition agents appeared suddenly, confiscated many private stocks of liquor and served summonses on John Gorman, the manager, his son and half a dozen merrymakers. Victor House, assistant United States district attorney, who accompanied the raiding party, later cancelled the orders to appear in court. The prohibition men alleged that the cafe had arranged a signal that was to have warned patrons of the approach of the officers.

A telephone bell linked with all the dining rooms was to have been rung a certain number of times when the raiders approached, they said. Greenwicks Villagers had their frolic much as in former years. At four this morning they were still at it, costumed merrymakers dancing in Washington square to the music of a burly gurdy. In one resort of the neighborhood the liquor sleuths went from table to table, sampling the contents of all beverages in sight.

Fredericton, Jan. 2.—The annual meeting of the Municipal Council of York County will open at 2 o'clock Tuesday at the Court House. It will be the first meeting since the biennial election in September last, and there will be a number of new councillors. Matters connected with the Municipal Home are expected to be to the front at the meeting of the Council. The name of Dr. B. H. Dougan, councillor for Manners Sutton, is mentioned in connection with the wardenship, from which Warden T. C. Everett retired.

NUMBER OF DEATHS RESULTED FROM SNIPING BETWEEN ULSTER FACTIONS

Belfast, Jan. 2.—A number of deaths resulted from sniping between the rival factions in Ulster today. In the York street area, this afternoon, a man, Alexander Turtle, was shot dead by the military. John Murphy and his brother, Francis, were targets for marksmen as the two brothers were at work in their butcher shop on York street. John was struck by a bullet and critically injured. Another death occurred when a fourteen-year-old youth, who was struck in the head during the noon hour, died early this evening. The bullet which wounded the boy passed through his head and fatally injured a baby in his mother's arms.

CHARGE FRENCH AND JAPANESE SECRETLY ALIGNED TO CONTINUE JAPAN'S CONTROL IN SIBERIA

Spokesman for French Government Informs Conference That Such Charges Are Without Foundation. Conference Naval Programme Complete Except as to Few Minor Details Remaining to be Settled in Connection With Naval Limitation Agreement. Washington, Jan. 2.—While practically all the machinery of the arms conference stood still over the New Year's holiday, the unofficial delegation of the Far Eastern republic took advantage of the lull to press their charges of a secret French-Japanese understanding for perpetuation of Japanese control in Siberia.

The Far Eastern delegates declared that proof of their charges, already accepted by both the French and Japanese delegates, could be obtained by examination of original documents in the archives of the Far Eastern Government at Chita. They suggested that such inquiry be made by United States consular officials, so that the results might be known to the Conference when it takes up consideration of the Siberian problems.

Official Denial by French. To emphasize the French public denial made yesterday, Albert Sarraut, head of the French delegation, formally notified Secretary Hughes, as chairman of the Conference, that the charges were wholly without foundation in fact. The French Government, Mr. Sarraut said in a written communication to the Conference, had entered into no commitments regarding Siberia except those of which the United States already was aware.

In view of the French and Japanese repudiation of the charges, and the position of the Far Eastern delegates as "outsiders" sent to the Conference by an unrecognized government, the inclination, in many conference circles, was not to take the development story seriously. At the same time, the accusations attracted widespread attention and furnished a ready topic of discussion at a dull period in the Conference negotiations.

Naval Experts Busy. The naval experts alone worked through the holiday, giving their day to a study of technical details remaining to be settled in connection with the naval limitation agreement. It was said their deliberations were at such a stage tonight that all the loose ends of the settlement probably could be cleared away within a few days. If questions of policy raised by the submarine regulation proposals can be settled in time, the Conference leaders believe the five power treaty for naval limitation can be put into definite form during the present week.

Tomorrow, the naval experts will continue their work, and the sub-committee, appointed to formulate a new tariff programme for China, also will hold a meeting. Various other naval matters will be discussed.

Fredericton Trap-Shooters Cared Not For Mercury Weather

Fredericton, Jan. 2.—Fredericton observed New Year's Day today with the mercury dodging near the cipher and a stiff gale blowing the weather made outdoor amusement not very pleasant, but, in spite of that, some enthusiasts of Fredericton Gun Club turned out in the afternoon at the club's grounds, Erick Kiln Road, and did some trap shooting in the afternoon. Some very good scores were put on considering the weather conditions.

25 Get \$30,000 Liquor In Raid On Distillery

Louisville, Jan. 2.—Twenty-five bandits swooped down on the Blue Ribbon Distillery at Eminence, Ky., early today, locked five guards in the office of the plant, and stole 225 cases of bottled in bond whiskey, valued at \$30,000. All of the bandits were masked and heavily armed. Automobile trunks were used to haul the liquor away on the road toward Louisville. Soon after the bandits left the five guards, who were bound with ropes, released themselves and notified the Henry county authorities. All cities within a sixty mile radius of Eminence were notified to watch for the bandits.

CONSIDERATION OF IRISH TREATY TAKEN UP TODAY

Christmas Recess of Dail Has Not Altered Line-up for and Against Treaty. The consideration of the Irish Treaty is being taken up today in the Dail.

COMPROMISE RUMORS ARE NOT CREDITED

De Valera's Alternative Plan Will be Put Forward—Dail Regarded Evenly Divided. Dublin, Jan. 2.—Virtually all the members of the Dail Eireann had arrived in Dublin tonight for the resumption of the sessions of the Dail tomorrow to give further consideration to the Peace Treaty with Great Britain. As far as could be gathered from conversations with the members tonight, the Christmas recess has not materially altered the line-up for and against the Treaty.

An estimate, made by one of the political leaders on the eve of the adjournment of the Dail, gave 63 votes on each side, with four votes doubtful or "absenteeist." Compromise Not Credited. Rumors of compromise and accommodation, as well as a statement that Eamon de Valera had decided to withdraw his alternative plan, no longer are credited here. Mr. de Valera's original idea was to put forward his plan in the event of a rejection of the treaty, but his intimate counsellors say now that he will put it forward in any event.

Speaking for Ireland, one of the members of the delegation to the London conference, said today, that the Dail Eireann continued fairly evenly divided on the question of acceptance and rejection of the treaty, and that no more than four or five members of the Dail, who still were wavering, would likely be influenced by the remainder of the debate.

Speaking for Ireland, Mr. Childers expressed the opinion that acceptance of the Treaty would leave Ireland in a far worse position than it is now. Among some of the French delegates a feeling that merchant ships should not be permitted to arm if they are to be free from submarine attack, some restrictions should also be placed upon the disguising of war vessels to make them look like innocent merchant men.

The third Root resolution, also piecemeal while the foreign delegations wait for instructions, would make subject to trial as a pirate any submarine commander who violates International Law. Acceptance of this proposal is regarded as hanging in some degree on the final action taken regarding the second resolution, but it is hoped that both may be disposed of before the end of the week so that the substance of the decisions reached can be embodied in the naval limitation treaty.

The naval settlement in final form, there seems to be general confidence that the Far Eastern state can be wiped out clean in time to permit adjournment of the Conference about the middle of January. The Shanghai deadlock remains the greatest barrier to a Far Eastern accord, but the Japanese expressed renewed hope of a settlement tonight and the Chinese held to their refusal to regard the present impasse as a final failure to agree.

Many of the members seemingly, if anything, tonight were stronger in their hostility to the Treaty than when the Dail adjourned for the Christmas holidays, judged by their utterances. The vigorous press campaign in favor of the Treaty apparently has had upon their minds an effect opposite to that intended. They point out that there is nothing hostile to them which the daily newspapers are now publishing that is any different from the attitude of the same journals toward the Treaty movement.

Tremendous Ovation For Prince of Wales Visiting At Rangoon

Reception a Notable Success, Surpassing Anything Local Gov't Had Dared to Hope. London, Jan. 2.—The reception accorded the Prince of Wales at Rangoon was a notable success, surpassing anything the local Government had dared to hope, according to official advice received today. Large crowds, averaging five rows deep, lined the route of the Prince, which passed mainly through the Burmese and Indian quarters, the Indians predominating the crowds, which were well-behaved. No friction with the police occurred, and frequent outbursts of spontaneous cheering greeted the Prince, the advice said.

PRO-HYDRO SENTIMENT STILL DOMINANT FACTOR IN ONTARIO

Toronto Carried Two Hydro By-Laws on Which People Were Asked to Vote Yesterday—Civic Elections Lacked Special Interest, the Mayorality Having Been Decided by Acclamation.

Toronto, Jan. 3.—Pro-hydro sentiment is still a dominant factor in Ontario, judging by the results of the voting on the question today, Toronto carried the two hydro by-laws, on which the people were asked to vote, and the municipalities of the Niagara Peninsula carried the by-law to authorize the purchase of the Niagara, St. Catharines and Toronto Railway from the Federal Government, independent of a provincial Government bond guarantee, and turn it over to the Provincial Hydro-Commission to operate.

The other by-law, to authorize the purchase and completion of the Toronto-Burlington railway in conjunction with the other municipalities within an Ontario Government guarantee, was carried 15,406 votes to 12,500 against. These three radical propositions were originally promoted by Sir William Mackenzie and associates, and came into the possession of the Federal Government with the assets of the U. X. R. Sir Adam Beck, chairman of the Provincial Hydro Commission, acting for the municipalities concerned, secured options on the radials and when following the recent adverse report of the Radial Commission, Premier Duggan declined to provide the usual bond guarantee vote of the municipalities was called for on the question of proceeding without the guarantee. The Provincial Government has recently shown a disposition to discourage the radial proposition.

New Year's Treat Was Big Success

Rooms of G. W. V. A. Filled With Happy Kiddies Yesterday Who Had a Great Time.

There was no more joyous scene presented in the city yesterday than that in the Great War Veterans' Association hall on Wellington Row, where the children of the war veterans assembled for the annual New Year's treat, and while the kiddies enjoyed themselves to the fullest extent, it was a treat for the grownups to witness the young girls and boys make merry.

The guests were received by Mother Tillotson and Mrs. H. W. Levers, and there was a most efficient committee to see that old and young were well looked after. In an instant over one-hundred little hands were held high and the kiddies enjoyed themselves to the fullest extent, it was a treat for the grownups to witness the young girls and boys make merry.

The next on the programme was refreshments, and the kind ladies who served on the committee never tired carrying well laden trays of cake, doughnuts, ice cream, ginger ale, and if the kiddies did not have a good time it was not their fault. Towards the close the youngsters marched in single file and were each presented with cups and saucers and a bag containing oranges, nuts, candy, etc. It was one great time, and the committee in charge are to be highly complimented for the work. This treat is only one of the many acts of goodness that are conducted all the year round by the Great War Veterans' Association.

Among the guests present yesterday were General Macdonell, Colonel A. H. E. Powell, Miles E. Agner, Commissioner Bullock, R. T. Hayes, M. L. A.; Colonel MacLaren, M. P.; Colonel G. G. Corbett, acting president of the G. W. V. A.; Edward Sears, and others.

The efficient committee in charge of the arrangements, which were so well carried through, was as follows: H. W. Levers, convener; J. A. McDonald, A. L. New Year's Treat Was Big Success

Rooms of G. W. V. A. Filled With Happy Kiddies Yesterday Who Had a Great Time.

There was no more joyous scene presented in the city yesterday than that in the Great War Veterans' Association ball on Wellington Row, for there the children of the war veterans assembled for the annual New Year's treat, and while the kiddies enjoyed themselves to the fullest extent, it was a treat for the grownups to witness the young girls and boys make merry. The majority of the youngsters present were sons and daughters of brave men who paid the supreme sacrifice while in France or who had died on returning home as the result of their terrible experience while overseas.

The guests were received by Mother Thilston and Mrs. H. W. Ievers, and there was a most efficient committee to see that old and young were well looked after. A moving picture machine kindly loaned by the Y. M. C. A., was there, ably operated by VandoLong, and the kiddies greatly enjoyed the many funny pictures that were shown on the screen.

H. W. Ievers, who was convener of the committee, was in charge of the programme, and after a short address called on Colonel Murray MacLaren, M. P., who made a happy little address which pleased the girls and boys. The colonel said he was happy to meet them all, and told them they had something good to remember when they could all say, "My daddy was a brave soldier and he fought in the great war."

The next on the programme was refreshments, and the kind ladies who served on the committee never tired carrying well laden trays of cake, doughnuts, ice cream, ginger ale, and if the kiddies did not have a good time it was not their fault. How Zam-Buk Saved My Leg!

"For years I could hardly walk," writes Mrs. Jeffrey, of 31, French St., Methuen, Mass.: "I was treated by doctors for an abscess which started in my ankle and extended to the knee. Though sceptical when I read of other legs being healed by Zam-Buk, I gave the balm a trial."

"While Zam-Buk didn't put my leg right in a day or two, it did ease pain and inflammation wonderfully. For several weeks I was able to walk, and so Zam-Buk, I was at last on the sure road to recovery, and in time the terrible sore thoroughly healed. For two years now, I've had no leg trouble."

In obstinate sores, old wounds and ulcers, where destruction of the tissues has occurred, Zam-Buk displays extraordinary healing power. Sufferers marvelously it soothes pain and inflammation, purifies diseased parts and stimulates the growth of new healthy tissue. Zam-Buk is permanent for it leaves no trace of disease to break out. Zam-Buk proves equally effective in eczema, ringworm, salt rheum, piles, poison ivy, all sores, abscesses, burns, scalds, etc. All chemists and druggists 50c.

DO YOUR BOWELS

Move Regularly, Or Do They BECOME CONSTIPATED

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble which leads to that more heinous condition, because material from irregular action of the bowels, when there is not regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

MILBURN'S LAX-LIVER PILLS will regulate the flow of bile to and property of the bowels, thus making them active and regular, and relieving the constipation and all its allied troubles. Mr. Samuel Buckler, Tetamagogoch, N. S., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Lax-Liver Pills. I procured two vials of them, but after I had taken one I found that I was released of my trouble. I do not hesitate to recommend Lax-Liver Pills for any kind of constipation." Price, 25c a vial at all druggists, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MOTHER!

Your Child's Bowels Need "California Fig Syrup."

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

St. Peter's Y. M. A. Annual Reunion

Pleasant Function Held Sunday Afternoon—Men from Minnesota Provided Entertainment.

The annual Christmas reunion of the members of St. Peter's Y. M. A. was held Sunday afternoon in their rooms on Douglas Ave. and was participated in by some one hundred members and their friends. Taking everything into consideration, with the exception of the absence of the musical advisor of the Association, the reunion was a greater success than some years and will be a long remembered one by those who were in attendance. More than likely it was an important of the presence of the Musical Groups of the S. S. Minnesota who responded to the invitation extended to them by the Y. M. A. by carrying out a novelty program which delighted the large audience. At the conclusion of this feature Mr. Hanson, deeply thanked the boys of the Minnesota for their kindness and in wishing them all the happiest of all New Years, extended a cordial invitation to them to visit the rooms of the Y. M. A. each and every time they come to the port of St. John.

This however did not end the program for the afternoon. Mr. John Harry, one of St. Peter's boys and several popular Irish and Scotch songs which captivated the audience. He was accompanied at the piano by Mr. Frank McGarrigle. His Honor Judge Ritchie who was one of the appreciative audience was called upon by the President to speak a few words. His Honor who in all was a welcome visitor to St. Peter's Y. M. A. and every time they come to the port of St. John. He now in his younger days is now in his 50th year he was delighted to be among them. His Honor has been twice since his beginning. He would have delighted his listeners more if he could have spoke longer but as His Honor had an engagement he had to take his departure. St. Peter's Orchestra which was in attendance played several excellent pieces of music which were greatly enjoyed. Before concluding the enjoyable afternoon the President, Mr. Hanson

Hold Up Cafe With 3 Cops 100 Feet Away

Yonkers Robbers Lock Manager in Room; Get \$59.

New York, Jan. 2.—Bandits entered a restaurant at 29 Main street, Yonkers, early yesterday, locked the manager in a room and rifled the cash register of \$59 while three policemen, all unknowing, stood within a hundred feet of the place of the crime. Stephen Crowley at 132 Yous avenue the manager, when he had released himself, reported to the police two men, threatening him with a revolver, forced him into a small side-way, fastened and barricaded the door. He said he could hear the men helping themselves to food and later going through the cash register. The great work Father Coffin has done for the Y. M. A. since he has become its spiritual adviser. General regret was expressed at the absence of Father Coffin who was detained elsewhere. To show their appreciation for the things he has done for the advancement of the Society the boys presented him with a humidor of tobacco. The enjoyable entertainment was brought to a close by the singing of the National Anthem.

Many Stolen Autos Rounded Up in Connecticut

Machines Stolen in Western States Disposed of by Organized Gangs.

New Haven, Conn., Jan. 2.—A state roundup of stolen automobiles has netted 40 unclaimed machines, the police say. Many others, running into scores, are said to have been identified and taken over by owners. In the case of nearly every one of the 40 cars the original engine number has been buffed off, the factory marks altered and various parts interchanged, it is said.

State police say that these machines were stolen in Southern and Western states and scores of Connecticut owned machines after being stolen were taken West and South for disposal. The number of men under arrest in the state under charges of stealing or having possession of stolen machines is large, according to the police who say these groups operate in the form of organized gangs.

Actress Tells Secret

Tells How to Darken Gray Hair With a Home-Made Mixture

Jokey Williams, the well-known American actress, recently made the following statement about gray hair and how to darken it with a home-made mixture: "Anyone can prepare a simple mixture at home that will gradually turn gray, streaked or faded hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Oriz Compound, and 4 ounces of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off." Owing to the increased popularity of bobbed hair the State of Connecticut requires applicants for barber's licenses to stand an examination in this work. A seat on the New York Stock Exchange costs between \$85,000 and \$95,000.

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself without consulting a physician.

Children Cry For Fletcher's CASTORIA

Have You Tried It?
Everybody has read the above headline; how many believe it? Have you a little one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it. Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete from pain to pleasure. Try it. You'll find a wonderful lot of information about baby in the booklet that is wrapped around every bottle of Fletcher's Castoria. GENUINE CASTORIA ALWAYS Bears the Signature of *Chas. H. EARLY MONDAY MORNING FIRE DID CONSIDERABLE DAMAGE

Robertson Store, Corner Douglas Avenue and Main Street, Gutted, With Heavy Damage to Stock and Furnishings by Smoke and Water—Mystery Fire in Purdy Store—house Saturday.

The North End firemen had a busy week-end, two fires doing damage to the extent of over \$12,000. The first was on Saturday evening, in the warehouse of D. J. Purdy, but was soon put out, the damage in this case not being very great. The second occurred at an early hour yesterday morning, and gave the fire fighters a hard battle before it was subdued. This was in the building at the corner of Main street and Douglas avenue owned by E. R. Robertson, and occupied by himself, the Provincial Bank, Dr. J. C. Doore and Dr. F. A. Ainsworth. The damage done by the second blaze will be between \$10,000 and \$12,000, and one young lady had a narrow escape from death by suffocation.

Early Saturday evening an alarm was rung in from box 125 for a fire in the warehouse of D. J. Purdy, Main street. The firemen quickly responded and after about half an hour's work had the blaze subdued. The fire started in the hay loft and its origin is a mystery, as there was no fire near the place. The damage will amount to about \$500, covered by insurance.

Yesterday morning about 1 o'clock an alarm from the same box called out the fire ladders, and this time a more serious task faced them. The blaze was in the basement of the building at the corner of Main street and Douglas avenue, owned by E. R. Robertson, grocer, and occupied by himself and the Provincial Bank on the lower floor, the dental office of Dr. J. C. Doore and Dr. F. A. Ainsworth, and the residence of Dr. Ainsworth, on the second floor.

The fire was discovered by Dr. Ainsworth, who was awakened by the smoke, and called the firemen. He had to hurry his family out of the house, and they were taken care of by Dr. H. S. Clarke, across the street. In the excitement of the moment, the maid was for a time forgotten, and when they went to awaken her she was found to be nearly suffocated by the smoke, but came around in a short time. She was brought out by Sergeant Sullivan and Officer Killen.

The blaze was burning so fiercely that it was found impossible to get into the cellar to fight it, and the floors had to be chopped through. The smoke and heat interfered greatly with the work of the firemen and it was three hours before the men were able to call it a job.

The stock of Mr. Robertson was practically ruined by water and smoke and his loss on stock and building he estimated at about \$10,000. The bank floor was badly out up, but their loss will not be heavy, as the furniture was not badly damaged and the vault was not injured at all. Dr. Ainsworth suffered quite a loss. The floor of the reception hall had to be torn up and the carpets were badly torn. This, together with the damage from water and smoke, will make his loss about \$3,000.

It was rather a strenuous opening of the year 1922 for the North End boys, who were quite tired for the holiday festivities.

Mystery Fire To Be Investigated At Sydney, N. S.

Provincial Fire Marshal Called Upon to Act—Insurance Companies Threaten to Withdraw.

Sydney, N. S., Jan. 2—Major John A. Rodland, provincial fire marshal, will be asked to make an enquiry into the circumstances surrounding the \$75,000 fire which on New Year's Eve destroyed three large buildings, house, local insurance men declared tonight.

During Christmas week-end three other fires burned property valued at over \$35,000 and continued heavy losses have caused some insurance companies to threaten to withdraw altogether from the territory unless drastic action to improve conditions is forthcoming.

Although the exact amount of the insurance which was carried on those properties is not known here, local underwriters say that it is totally inadequate to cover the loss.

Nash, McDonald and Kehon, three firemen injured by falling debris during the Perry street fire, New Year's Eve, have been taken to their homes, as their wounds are not serious.

The rear of the house, which was located in Mill street, was completely destroyed, and the main house was gutted. Charles Dunphy, of Devon, is the owner.

HAD BAD COUGH AND SORE THROAT

Never neglect a cough or cold however slight. If you do it can have but one result; it leaves the throat or lungs, or both, affected. A single dose of

DR. WOOD'S NORWAY PINE SYRUP

will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and barks promptly eradicate the bad effects, and the persistent use cannot but help to bring about relief.

Mr. Albert Marsh, Lower L'Ardoise, N. S., writes:—"About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I sent for the doctor, but what he prescribed did me no little good I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to continue its use, and after I had used five bottles both my sore throat and cough were gone. I would not be without 'Dr. Wood's' for any money."

Price, 50c. and 60c. a bottle; put up only by The T. Millbrae Co., Limited, Toronto, Ont.

DOM. BRIDGE COMPANY NET EARNINGS FOR YEAR \$378,693

General Depression Throughout the Country Had An Adverse Effect on All Departments of the Company—Net Earnings Were 5.8 Per Cent. on Capital Stock, as Compared With 14.8 Per Cent. in 1920.

Montreal, Jan. 2.—The annual statement of the Dominion Bridge Company, Limited, for the fiscal year to October 31st last, shows net earnings for the year were \$378,693 or 5.8 per cent on the capital stock of the company as compared with \$964,539 or 14.8 per cent in 1920, and \$1,345,306 or 26.3 per cent in 1919. In the declaration of the regular quarterly dividends of the company, it was necessary to draw upon the substantial surplus profits which the enterprise has been able to set aside from the previous years.

It is reported that the general depression existing throughout the country has had an adverse effect on all departments of the company, which became more pronounced as the year proceeded. The falling off in earnings is accounted for by the low prices ruling and the small output, this being only 36,317 tons against 50,778 tons last year.

YEAR CLOSING MARKS TURNING POINT IN INFLATION REACTION

American Business Activity Gradually Emerging from Trough of Depression Says Guaranty Trust.

New York, Dec. 31.—The Guaranty Trust Company of New York in their review of the past year says in part: "The year that is closing has marked in this country a turning point in the drastic reaction against inflation. The financial and commercial interrelations of nations are so comprehensive and intricate that no country, however favorable its domestic conditions, can, in a world-wide readjustment, escape the ill effects of economic derangement elsewhere.

Political Factors. The successful results of the Washington Conference already assured, the progress toward a solution of the Irish question, the evidence of reviving sanity in Russia, and the probability that Germany will gradually emerge from the trough of depression.

CRIPPLE HANGS SELF TO ESCAPE TAUNTS OF BOYS. Sixteen Year Old Passaic, N. J. Boy, Paralyzed from 'Babyhood, Hears Last Cibe.

New York, Jan. 2.—William Simkowitz, the sixteen-year-old son of John Simkowitz of St. Washington Place, Passaic, N. J., hanged himself in the bathroom of his home yesterday afternoon because he could no longer endure the taunts and gibes of his playmates. He was a cripple and they had been cruel to him laughing at him when he could not run and play with them, and yesterday they made fun of him because he was not able to go swimming and try out their new sleds. So he couldn't stand it any longer.

Young Simkowitz had been a cripple since he was a baby, when he suffered an attack of infantile paralysis that affected almost his whole right side, but particularly his right leg and foot. The disease left him with a limp which he could not hide, although all his life he had been trying to walk without it. But he couldn't. He couldn't be like the other boys; if they played baseball he had to keep score for them, or he had to watch them; they played football he was had to keep away back from the sidelines because he could not get out of their way.

Mimicked by Schoolboys. He felt his affliction terribly. It hurt him all his life, this knowledge that he could not play that he had to walk with a limp. It might not have been so bad if the other boys and girls had sympathized with him and helped him, but they didn't. They laughed at him and made fun of him. The boys at school mimicked him and paraded before him with an exaggerated limp, and the girls wouldn't go anywhere with him because he was a cripple, so when his school-mates had "part" or anything of that sort he usually he did not go at all, but because he knew that if he went he would be alone all evening or all afternoon. No one could play with him because he could not play; no one would even talk to him.

The boy had a ray of hope last week when his father went to Newark and made arrangements to take him to one of the clinics and have him examined by Dr. Lorenz, the Austrian orthopedic surgeon. That lasted over Christmas, and young Simkowitz seemed gay on the morning of Christmas day when he had been in years. But in the afternoon his brothers and sisters went off to play games, crowds of other boys passed with their skates and their sleds on their way to skate and coast.

Hears Last Taunts. They didn't stop to ask him to go, even his own brothers did not ask him. They passed by with taunts and gibes, and they did the same thing on Monday and on Tuesday, and again yesterday, leaving him with nothing to do but to read a book. And he didn't want to read a book. He wanted to run and jump and slide down hill on a sled and cut the snow right on a pair of listening skates. Yesterday afternoon he was the only one left at home. His sister Sophia, 14, was out coasting; his brother John, 11, was out skating; his mother was shopping and his father was at work.

He had nothing to do but to read, and he had read so much that he hated the sight of a book. He wandered about the house, and in the kitchen he found a half inch rope. He took the rope and went into the bathroom, and climbing on a chair he tied an end of the rope about a water pipe and in the other end he fastened a noose. Then he sat on the chair, and he kicked the chair from beneath him. An hour later his brother John came in and found him, but William was dead. He had left no message, but he went have felt when he died that at last he would walk without a limp, and that at last no one would make fun of him for something he could not help.

New Use For Him. Pained Customer—I believe you keep a good cutter on the premises. "Hello—Yes, sir; certainly, sir. One of the best." Pained Customer—Well, you might put him on to cut down this account you sent me last week.

China's Stand On Submarine. Country, Morally, Economically and Geographically Favors Wiping Out Undersea Craft.

Boston, Jan. 2.—While an agreement to abolish or drastically reduce sea and marine tonnage does not affect the Chinese as supporters of a naval nation, China naturally stands morally, economically and geographically in favor of the wiping out of the tools of the undersea warfare and the outlawing of poison gas as a weapon of international conflict, declared Dr. Toshi Hsieh, managing director of the Bureau of Chinese Labor and Trade Councilors, in an interview with a representative of The Christian Science Monitor.

Dr. Hsieh particularly stressed the strategic importance of a large fleet of submarines maintained by a possibly hostile nation. Submarines might easily block the only open ports which China has in the winter, he said, citing the ports of Shanghai, Kwan, Te-Kai, Tong-Ku, and Kiao-Chau Bay. It is, therefore, vital to China that some effective regulations of submarines be agreed upon, Dr. Hsieh asserted.

With regard to outlawing as a practice of civilized warfare Dr. Hsieh was equally emphatic on the question of chemical warfare. Japan, he said, has 47 indigo plants that can be turned to the manufacture of poison gas over night, while China has none. From the coal mines which Japan seeks to control at the expense of China, he added, would come the essentials to the manufacture of poison gases. In addition to these considerations, Dr. Hsieh declared, the Chinese constitutionally revolt at such a practice in war, especially in recognition of the fact that the next war would be one of chemicals and therefore threaten the foundation of civilization.

Four-Party Treaty. Turning to the deliberations of the Washington Conference affecting the Far East, Dr. Hsieh said that, "on the whole, the Chinese are in a better understanding of greater strength." He was inclined to the opinion that an agreement to abolish or drastically reduce sea and marine tonnage, should include Germany and Russia.

"America," Dr. Hsieh asserted, "has already helped China out of the deep water. But what she has done in the past, any further agreement affecting China cannot be regarded as settling any moral issues." Mr. Hsieh, an opponent leader of the Japanese Parliament, aroused opposition in Washington, even among the Japanese envoys, in a speech maintaining that Japan cannot have south Manchuria and inner Mongolia. This would be like taking two colors out of the rainbow flag of China, like taking out the yellow stripe for Manchuria and the blue stripe for Mongolia.

"China seeks her own right to develop these territories. If Japan gains control it will be the slamming of the door in the face of the United States. It was there that the open door policy was born. The nineteenth century marked the remarkable development of the United States, and the twentieth century will be marked by the development of China and Russia and the richest sections in all the total area of the two nations of immense potential wealth are Manchuria and Mongolia. The statement of the Japanese leader shows the true color of the people of Japan."

Advance Is Made. The Chinese feel, Dr. Hsieh said, that one stepping stone has been securely laid from which it is possible to advance to future conferences. "There possibly may be one in Peking," he said, for the wider or more far-reaching of the Far East scarcely have been attacked. With regard to Siam, Dr. Hsieh asserted that unless it is settled definitely once for all it will never be settled.

Pointing out that the change in the Chinese cabinet is regarded in Washington circles as of considerable moment, Dr. Hsieh said the signature of the Premier is a factor and a Cantonese brought up in Peking, able to comprehend the viewpoint of all China and to work toward the end of unity. He has evidenced a firm intention to be rid of the parasitic military burden on the government. There is to be an alteration of the foreign policy, the delegation to Washington is to receive firm support and the hope of a united China is bright.

"I am glad," Dr. Hsieh said in conclusion, "that China has not gotten all that she wants and asks. It is perhaps better to have something to strive for and work for, rather than to become sleek and satisfied with gain. China surely has work to do, for the goal of settlement has not been attained."

Hid 1,500 Francs In Shot-Gun And Saved The Life of A Hare. Paris, Jan. 2.—The ingenuity of French peasants in hiding money has surpassed itself in the case of a man near Loriet who received a 1,000 franc note and a 500 franc note in payment for produce. He hid them in the muzzle of his double-barrelled shot-gun, believing that would be the last place thieves would search for money.

He made a mistake, however, in not taking his wife into the secret. A neighbor called a few days later, in the absence of the man of the house, and asked for the loan of the gun to get a hare.

The hare escaped and when the peasant came in that evening his wife remarked that the neighbor must be a very bad shot. "Why?" the peasant asked. "Because he used both charges of your gun on a hare without hitting it." "My shot-gun" insured the peasant with a ramp, at the same time making for the corner where the weapon hung.

A New Year Message To the Members of the St. John Board of Trade and Others Whom It May Concern.

Gentlemen.—Another year has been added to the one hundred years of continuous service which the Board of Trade has rendered in furthering the commercial interest and otherwise promoting the welfare of this community, a record of persistent effort and constant watchfulness unapproached by that of any other voluntary organization, a record of service which no other organization could so effectively perform—a record of which every member of the Board may well feel proud and which should command the support of every business man in the community.

To us it seems that the year 1921 has been a year of no less than a disappointing. We have hoped for, if we were not expected, a more rapid return to normal conditions than seems to have been possible and than would perhaps have been advantageous. Looking forward, however, the clouds of depression seem to be dispersing on the horizon of 1922. Glimpses of light are breaking through the mists of uncertainty and speak the dawn of a brighter day. The measure of success already attained by the Washington Conference on Reduction of Armaments not only gives promise of far-reaching benefits in its economic effect, but by cutting down unproductive expenditure of the world's resources and reducing taxation, but also and more especially by its psychological effect.

With war clouds removed and wasteful expenditure largely reduced, one long step will have been taken toward the resumption of normal confidence and normal business conditions. May we not, then, take courage and look forward to 1922 with rational optimism?

Many matters of importance await the attention of the Board of Trade. Some of these are mentioned in the Annual Report, others will crop up from time to time and the various committees will all shortly occupy their attention. How to secure effective control and development of our port facilities is still an unsolved problem, one which none is of more vital consequence to the business community, and while it is being carefully studied by our committee on port interests, it should also receive the attention of every member of the Board and every citizen above all, an effort should be made to harmonize divergent views and determine upon a persistent, uniform policy of action that will receive the support of the entire community.

Public utility services are again attracting a large measure of attention, and other matters will call for careful study by our civic committee.

Maritime Provinces interests, as represented by the Maritime Board of Trade, will meet in St. John at the invitation of our Board this year, will necessarily call for special attention, and it is hoped through this meeting and in other ways to develop a greater degree of community of interest between the business men of St. John and those of other Maritime Provinces towns and cities.

Among the greatest of our undeveloped resources are the many thousands of acres of land suitable for agriculture which still remain in a state of primeval. This is a Maritime Province problem of first class importance, and it is our duty as citizens and cities will develop as our agricultural population increases and we make our wilderness lands productive. An independent immigration problem that the Maritime Provinces may well be considered.

The year upon which we are entering, whatever else it may have in store, presents the prospect of inspiring hope and energy in many directions. I feel confident that the council and committees of the Board of Trade will gladly accept every such opportunity. May I bespeak for the rank and file of the membership and the citizens at large.

Yours truly, W. F. BURDITT, President. ST. JOHN, N. B., Dec. 30, 1921.

Planes To Chase Bandits And Control Air. Aerial Police to Go on Duty in Paris in Effort to Stop Crime.

Paris, Jan. 2.—Aerial police are at last an accomplished fact—on paper at any rate. Headquarters has just been established at Le Bourget, the aviation ground outside of Paris, whence mails and passengers are forwarded daily to most European capitals. It will have the same personnel as other police stations with the addition that all members will be certified fliers.

Their duties will include regulating air traffic and ultimately to be ready for chasing crooks who leave the city in automobiles. One of the duties at the beginning will be the taking of aerial photographs every day of "various streets and boulevards in Paris during the crowded hours to help efforts to solve traffic problems." The police authorities insist that the photographic assessment is only temporary, as the real purpose of the new organization will be an actual air police force, as it is now authoritatively considered that in the next few years the air traffic will be large enough to require controlling in passing over the city. The new headquarters will be officially opened Monday.

GERMANS FROM VOLGA WAITING AT FRONTIER. Admission of Four Thousand Children Delayed Because of Fear of Disease.

Berlin, Dec. 31.—Four thousand children of German colonists who settled on the Volga River in Russia are now on the Russo-Polish frontier awaiting entry into Germany. The Deutsche Tagesblatt publishes an article today in which it accused the Government of unwillingness to allow the entry of these children into Germany. It admits, however, that the real reason for the Berlin Government's reserved attitude in this connection is fear that epidemics of disease may be brought into this country from Russia. The Russian Red Cross representative here was reported to have declared that the Soviet Government was ready to allow these children to leave Russia.

The Volga German Relief Service, which is trying to bring these children to Germany, obtained a greater part of its funds from German-Americans, especially from those hailing from the Volga colony.

Took Seven Husbands To Get Passports. Woman Divorced Them as Fast as She Got Citizenship.

Geneva, Dec. 31.—Marriage is, for a woman, the solution of the problem of getting passports to various European countries, the difficulties of which became almost insuperable after the war, a Lucerne business woman has discovered.

Before the war this woman, who is well educated and good looking, earned some \$10,000 a year by obtaining orders for military and fur in the several capitals of Europe as representative of French and Viennese dealers. After the war the passport problem hampered her greatly.

She then formed the plan of marrying men of different nationalities (every race can be found in Switzerland) and paying them to let her do as she pleased as soon as she had established a passport in her new citizenship. At present she has seven ex-husbands.
