## WILL JAM VALLEY ROAD BILL THROUGH

### Hazen Supporters to Swallow Dose

### Legislature Against the Export of Pulp Wood

### Government Bill to Give Municipalities Power to Bar Autos from Roads Once a Week—Province to Borrow \$300,000 More for Bridges—Other Business of the Session.

(Special to The Telegraph.)

Fredericton, N. B., March 17.—The only question outside of the regular routine in the house today was the motion of Mr. McLachlan that pulpwood cut on crown lands should be manufactured in the province. The motion was supported by all who spoke on the question, and was unanimously adopted.

Surveyor General Grimmer took occasion to make an explanation concerning the statement that he has so often repeated in the house by other members of the government, that the lumber cut in this province in 1909 was only sixty per cent of an average cut. From this statement the government has derived a great deal of comfort, as the revenue last year was larger than ever before.

Today Mr. Grimmer said his authority for the statement was the leading lumberman of the province. He ignored the fact that he first made this statement in February, 1909, when neither he nor the lumbermen were in a position to say what the output of that season would be. He also ignores the fact that the export of lumber from New Brunswick was a million and a half greater in 1909 than in 1908.

It is noteworthy that Mr. Grimmer did not make the statement with the same force as formerly, nor did he make any decision from it. He only explained that the statement was not made on his personal authority.

The general consensus of the opinions expressed in the debate is that the cut of lumber is now exceeding the annual growth and it is gratifying to know from the statements of Mr. Grimmer that an attempt is to be made to ascertain to what extent forest depletion is going on in New Brunswick with a view to conserving and protecting the public domain.

### The Valley Road Bill.

The Valley Railway bill did not come up today but may possibly be considered tomorrow. It is the opinion of all who are wedded to the policy of the government that the legislation is most unwise and that when its provisions are fully understood by the people there will be a revolt, the like of which has never before been witnessed in New Brunswick. It has already been pointed out that the government is offering this enormous guarantee to a railroad that is in no sense a trunk line and does not connect with a trunk line.

Mr. Hazen has talked very dilly about the construction of a railway through Maine to Quebec bridge, but there is not a word in the bill concerning this. The guarantee is offered to a company that will build a railroad from Westfield to

(Continued on page 8, third column.)

## HAVE LITTLE FEAR OF TARIFF WAR

### Business Through Port of Montreal With United States Unusually Light

### ENDORSE OTTAWA

### Merchants and Shipping People Believe Americans Have Most to Lose if Reprisals Are Resorted To, as Dominion's Chief Exports Are Raw Materials.

(Special to The Telegraph.)

Montreal, March 17.—Enquiries at the office of Hon. W. H. Bradley, consul general of the United States here, today developed the fact that exporters on this side of the line are in no wise perturbed over a threatened tariff war between Canada and the States. Instead of there being any rush to get goods into the States before the opening of April, Mr. Bradley stated that exports through Montreal to the States for some weeks past had been smaller than usual. Shipping and railway companies also stated that imports from the United States through Montreal had also been unusually light, so it is evident that there is not much fear amongst business men of any immediate tariff trouble.

The general feeling amongst business and shipping people here is approval of the stand of the government at Ottawa, the opinion being expressed that since our imports from the States are mainly manufactured goods and our exports raw material, the Dominion stands to gain much more than they would lose if tariff reprisals were indulged in.

## ARE WALLING IN FIRE IN STELLARTON MINE

### Management Hopeful That They Will Quench the Flames in a Few Days.

Stellarton, N. S., March 17.—Workmen engaged in building the isolation wall in the Albion mine of the Acadia Coal Company at Stellarton to cut off the fire have completed the structure closing up one of the entrances. They have two other openings yet to seal in the same way, which will take several days to complete. The Dräger apparatus enabling the men to work for a time very close to the fire and in fire-damp is still being used effectively. When the other openings are closed the water will be pumped into the isolated position of the mine.

There is a possibility that the accumulated gas in the sealed part of the mine may cause an explosion which would break down the isolation walls, and to provide against this danger the workmen will all be withdrawn from the mine for a few days after the sealing is completed. The management are hopeful that they will soon be in full control of the situation.

## DISCUSS APPLES IN PARLIAMENT

### Hon. Mr. Fisher's Boost to Quebec Product Arouses Protest

### MANY CHAMPIONS

### Ontario, Nova Scotia and British Columbia Members Present Claims of Their Provinces to First Honors—Bill Up to Attach Salaries of Civil Servants for Debt.

(Special to The Telegraph.)

Ottawa, March 17.—A touch of humor was lent to the proceedings in the house of commons today by a competition which sprang up among some of the members as to who could most loudly boast the apple growing virtues of his country or province.

Hon. Sydney Fisher innocently set the ball rolling by repeating the statement, which he had previously made, and which had caused some criticism in some of the papers devoted to agriculture, that the flavor and quality of the apples grown in the province of Quebec were the best not only in Canada but in the world.

Mr. Armstrong reproached the minister of agriculture for what he termed his narrow provincialism, and solemnly asked him to withdraw his statement, declaring that in expressing a preference for Quebec apples Mr. Fisher was making injurious comparisons not worthy of a minister representing the agricultural interests of the whole Dominion.

Mr. Fisher was not disposed at first to take Mr. Armstrong seriously, but when the latter insisted upon a retraction, the minister of agriculture claimed that he was entitled to express his opinion of the quality of Quebec apples and to repeat his statement at any and all places.

Mr. Armstrong thought that the apples of Ontario were entitled to some consideration, and Mr. Blair was of the same opinion.

Mr. Crosby (Halifax) claimed that there were no apples in the world like those grown in the Annapolis valley, while Mr. Middleboro said that the apples of the county of Grey were as good as any.

Mr. Price (Quebec) did not agree with his fellow Conservative members from Ontario and Nova Scotia. His opinion coincided with that of the minister of agriculture that the apples of Quebec were par excellence.

Mr. Burrell (Yale-Cariboo) offered a plea for the apples of British Columbia and he was followed by Messrs. Jamieson (Digby), Schell (Oxford), and Black (Hants), each of whom upheld the claims of their respective districts to be the finest apple-producing counties.

All the discussion arose on the second reading of Mr. Fisher's bill empowering the minister of agriculture to deal with insect pests imported from other countries, which was finally passed, and it served to brighten what was a somewhat featureless day in the house.

Mr. Beuparlant introduced a bill to amend the civil service act by making all money due on salaries to civil servants payable to attachment for debts in every province, according to the laws applicable in each province.

Mr. Currie introduced a bill to amend the railway act passed last year. It was provided that trains should automatically slow down to a speed of ten miles an hour at dangerous crossings. The proposed amendment is that it be left to the railway commission to issue an order regulating the speed.

## ALBERTA CHARGES TO BE PROBED

### Government Consents to a Commission to Inquire Into Railway Deal

### TYPHOID EPIDEMIC

### Port Arthur and Fort William Alarmed Over Spread of the Disease—Manitoba Minister Reads Montague Letter to Refute Charges of Land Deals.

(Special to The Telegraph.)

Toronto, March 17.—The Rutherford government in Alberta has granted a commission to investigate the Alberta and Great Westways bargain with the widest possible scope. The matter was debated in heated fashion yesterday, and the opposition carried its point that the whole history of the transaction should be probed.

Before the Manitoba legislature adjourned yesterday Hon. Mr. Rogers read the letter from Dr. Montague stating he had asked Premier Roblin and Mr. Rogers to join him in purchasing the Manitoba and Northwestern railway lands and they refused. Afterwards the lands were turned over to Geo. E. Foster, the Union Trust Company and the Foresters.

This was read to show that the ministers named had no connection with the deal.

Typoid fever is so bad at Fort William and Port Arthur that places of amusement in Port William have been closed, and the citizens threaten to stop the running of the electric railway unless Port Arthur takes similar steps.

The Port Arthur authorities say there is no epidemic in their town and after discussing the question of closing the schools, decided it was unnecessary.

## THINKS AMERICAN TALK OF TARIFF WAR A BLUFF

### Canadian Banking Circles in London Say Reprisals Would Hurt United States Most.

(Canadian Associated Press.)

London, March 17.—No very great importance is attached in Canadian banking circles in London to the possibility of a tariff war between Canada and the United States. The attitude of Canada in refusing concessions unless they are reciprocated is obviously logically correct and any hope of the action by Washington would place the United States in a very false position since any increase of the United States tariff would undoubtedly be followed by the Canadian tariff. It is scarcely thought possible the United States government will venture beyond the region of bluff.

## CALLS LORDS' REFORM A MOCKERY

### Earl Crewe Says Commons Will Take a Hand in Changing the Upper Chamber

### IMPERIAL COUNCIL

### Secretary for Colonies Says Overseas Dominions Have No Use for the Scheme—Lansdowne Accepts the Principle of Rosebery's Resolution Half-Heartedly.

(Canadian Associated Press.)

London, March 17.—In the house of lords today, Lord Rosebery's resolution for reform carried without division.

Lord Lansdowne accepted the principle of the reform, but refused to surrender entirely the hereditary right of a peer to a seat. He challenged Premier Asquith to let the country decide between the cabinet plan of veto first and reform later and the lord's plan of reform first.

He disapproved of the suggestion there should be a great number of representatives of the dominions overseas in the imperial council.

### Oasis Reform Plan a Mockery.

"Parliament is one thing and the second chamber another. I do not think the colonies would part with their best men to attend regularly your lordships' house. I do not think they would be grateful for the amount of representation, which from force of circumstances, we should be able to give them," said Earl Crewe.

In a bitingly ironical reply he declared the government favored the two-chamber system.

He pointed out that the lords had always participated in the reform of the commons and the latter would therefore want a voice in the reform of the lords. The object of the peers was to go on exactly as they had done with regard the Liberal measure, but with less exposure to criticism. They wanted the victory to be more creditable, but equally certain. He cited Lord Curzon's declaration of the sympathy of the colonies with the house of lords.

Speaking with authority, the secretary of the colonies said he never heard that point of view before. He finally declared the proposed scheme of reform was a mockery.

Liberal opinion is that nothing will come of Rosebery's proposals which will be debated next week by many "backwoodmen" known not to favor tampering with the hereditary principle.

The Morning Post thinks if Canada is provoked to apply the tariff to American imports the chances are victory will be with her. The big stick will hurt those who wield it fully as much as the intended victim.

The Standard says international interest will follow the case of the Ross rifle at Biele this year as the newest British small arms. Nearly every military power will be represented at the firing.

Today J. M. Clark, of Toronto, spoke at a luncheon of the Imperial Co-operation League on Canada and its navy. A notable company was present, including Lord Strathcona, and Lord Onslow. The chairman, Colonel Bely, in proposing the health of Mr. Clark, said that Clark was a distinguished and accomplished jurist, being very successful in many important cases before the privy council.

Mr. Clark said his ideal was an imperial council in which the overseas dominions should be represented, but that pending the evolution of an imperial council scheme the Canadian parliament must control the Canadian contributions to the imperial navy.

Lord Strathcona endorsed the address and praised Mr. Clark.

## WILL PUSH WORK AT COURTENAY BAY

### SITE FOR G. T. P. TERMINALS HERE

### MUD FLATS INCLUDED

### Company Has Purchased Property at Head of Courtenay Bay

(Special to The Telegraph.)

May Use I. C. R. Tracks from Norton or Moncton, in Which Case Double Tracking Would, It is Believed, Be Necessary—Best News in a Long Time, Says Prominent Railway Man.

Friday, March 18.

The exclusive announcement in last evening's Times-Star that the Grand Trunk Pacific Railway had purchased a site for its terminals at Courtenay Bay, St. John, is taken as an indication that the road will be doing business from that city within a very short time.

President Hays of the Grand Trunk Pacific, some time ago expressed himself as directly in favor of Courtenay Bay as a site for terminals for export purposes. It is understood that the preliminary work which the government had been doing, with a view to ascertaining the best manner of dealing with the problem of improvement will be pushed through and the actual work of dredging and harbor perfecting will keep pace with the plans of the Grand Trunk Pacific, so that the completion of the road will find the shipping accommodations available for the export traffic.

It is not known here whether the Grand Trunk Pacific plans reaching the Courtenay Bay terminals by an independent branch from its main line or by way of the Intercolonial, over which it has running rights according to the terms of the original contract with the government.

There is a vote of over half a million dollars in the estimates which can be called upon by the government to meet any expenditure which may be required this year in carrying out the plan for the improvement of Courtenay Bay.

## NAVIGATION OPEN TO MONCTON

### (Special to The Telegraph.)

Moncton, March 17.—Marking the very earliest opening of navigation on the Petitcodiac river in the history of Moncton, the two-masted schooner Inez, Capt. Beaumont, sailed into port today, being the first vessel of the season to come up river. Previous to the present year the earliest arrival of a vessel at Moncton was March 20, twenty-two years ago. The river has been free of ice for a week or more.

The river steamer Wilfrid C., which laid up here for the winter, is expected to start the season's run shortly.

In the police court this afternoon the proprietor of the Queen Hotel was convicted of Scott Act violation and sentenced to a month in jail. The case against Dan Madden was adjourned.

# AMALGAMATION OF THE TELEGRAPH AND THE TIMES AND THE SUN AND THE STAR

Arrangements have been completed for the immediate amalgamation of The Sun, The Star, and The News, with The Telegraph and The Times. After the issue of March 12, The Sun, The Star, and The News will cease publication as separate papers. The combined papers will be published hereafter as:

**THE DAILY TELEGRAPH AND THE SUN**      **THE EVENING TIMES AND THE STAR**      **THE SEMI-WEEKLY TELEGRAPH AND THE NEWS**

All advertising and subscription contracts with The Sun, The Star, and The News will be carried on by the combined papers, morning, evening and weekly respectively. Advertisers will have the advantage of a greatly increased circulation, practically double that enjoyed hitherto, and amounting to between 25,000 and 30,000 for the morning and evening papers combined. The Telegraph and The Times in their enlarged form will thus be by far the best advertising mediums east of Toronto. Subscribers will enjoy the benefit of an enlarged news service in every department. Communications relating to subscriptions or advertising contracts after this date should be addressed:

**THE MANAGER, TELEGRAPH PUBLISHING COMPANY, ST. JOHN, N. B.**

## SAYS CHRISTIANS FORTUNES

able to us, of the curse which lurks in hoarded money; a testimony to the wisdom and goodness of the debarment of the few. Treatment against laying up treasures on earth.

"The language of James, of Peter and of John is just the same as that of Paul and of our adorable Lord and Master with regard to riches and rich men."

"James has some terrible words for rich men (Chapter v. 1-6): 'Go to now, weep and howl for your miseries that come upon you. Your riches are corrupted, and your garments are moth-eaten. Your gold and your silver are rusted, and their rust shall be for a testimony against you and shall eat your flesh as fire. Ye have laid up your treasure in the last days. Behold, the hire of the laborers who mowed your fields, which ye have kept back by fraud, crieth out, and the cries of them that respect have entered into the ears of the Lord of Sabaoth. Ye have refused to pay them their wages, which is the hire of their labor, and ye have blasphemed your hearts in a day of slaughter. They have condemned, ye have killed the righteous one; he doth not resist you.'"

"Suppose the Christians of this land try and show that it is not an increase of capital we want, but an increase of men and women who are something better than human weeds—stagnant, hard, God-fearing men and women. One refuses in some respects that are being made in this direction, but that they would be increased in number and efficiency if Christians were greatly less occupied in laying up capital for themselves. The men and women are the real capital; in them lies every potency and possibility. They can turn the earth into a better than gold; into harvests of plenty and a home of contentment."

"We may not confound things temporal with things spiritual, for our aims all through has been to uplift and dignify the spiritual—but there can be no question that when spiritual things are put first they immediately touch and transform earthly things and these again affect the others."

"A nation that has a large body of men who do not enter into competition to be rich, but are models of industry, frugality, honesty, temperance, would soon feel a new springing force at work within her. Every kind of industry would be re-modelled."

W. E. Corey, president of the Steel Trust and bad husband.

Charles W. Morse, head of the cruel New York Ice Trust; has doubled price of ice to the New York poor.

T. D. Sullivan, leading New York political thug.

Russell Sage, miser and millionaire; held a poor clerk in front of him to avoid a madman's bomb, and refused to compensate the clerk for his injuries.

Alexander Dowie, false religious leader and preacher; has squandered \$5,000,000 of his deluded worshippers' money.

Abraham H. Hummel, lawyer and convicted subornor of perjury; obtained divorce for Charles W. Morse.

Thomas Tassart, politician and professional gambler; kept the grand gambling casino at French Lick, Ind.

THE BRITISH LIBRARY

FROM ALL OVER THE MARITIME PROVINCES

RIVERSIDE

Riverside, Albert Co., March 15—W. J. Carvath has finished his job of logs on the O'Regan land and now has his mill moved to Chapman Creek, where W. Scott Hoar has his winter's operations ready for the saw.

NORTON

Norton, N. B., March 14—Last week Mrs. Cowan was taken to the St. John hospital to be operated on for tumor. The operation has been performed and she is doing nicely.

KARS

Kars, March 15—The St. John river is full of running ice near the place. The steamers will be able to run to Gagetown, which is expected before Easter week.

HOPWELL HILL

Hopewell Hill, March 15—The death took place last night of Mrs. Joseph A. Rogers, who was operated upon nearly two weeks ago for internal trouble from which she had been suffering for quite a long time.

DEER ISLAND

Deer Island, N. B., March 14—The annual meeting of the Armstrong Liberal Club was held in Barbeau's hall Friday evening, the 11th inst.

REXTON

Rexton, N. B., March 15—Graham Jardine, manager of one of the branches of the Royal Bank of Canada at Vancouver (B. C.), is on a visit to his parents, Mr. and Mrs. James Jardine.
