The warning is, doubtless, well THE PUBLIC ARE INVITED timed for the Province of Quebec, as the potato pest has made its appearance there in force, and its repetition in New Brunswick would probably not be out of order, as that pest is THE SALE will commence evidently on its march toward this Province. There are two or three facts relating to this Colerado bug which would be well for New Brunswick farmers to bear in mind. In the first place, the creature since its departure from its native seats in the Rocky Mountain range, kept steadily advancing eastward and seaward .-A year or two ago it reached the shores of the Atlantic in some of the Middle States of the adjoining Repulic; and it may with certainty be arrive at the sea coast of Nova Scotia and New Bronswick

In the second place, it has been abundantly established that if the insect is allowed to work its will un- BETTER VALUE hindered on the potato fields of any Than any one in the trade, notwithstanding given district, the potato crop in that district must at last become a total

And in the third place, experience getic use of proper means the bug's row limits, the two most effective means being hand-picking before the means being hand-picking before the eggs are deposited, and dusting the larvæ with Paris green mixed in certain proportions with any cheap fine powder, say plaster of Paris, or sprinkling them with an infusion of Paris green and water. Our farmer friends should keep on the alert to note the first advance of this enemy to the most valuable root raised by them. The invasion will surely come. Let it be prepared for, and it will prove infinitely less damaging than it otherwise must .- St. John News.
