SANITATION COMMITTEE REPORT ON PROPOSED HEALTH DISTRICT

Ask To Have Report Tabled For Two Weeks in Order That
the Members may Have an Opportunity of
Looking Into the Matter

The usual semi-monthly meeting of the Board of Trade was held last Tuesday evening in Berquist's hall with President J. B. Kelly in the chair. The minutes of the last regular meeting were read by Secretary D. M. Evans, and formally adopted.

The only committee to report was that on sanitation, and in presenting the report Mr. J. H. Williams, chairman of the committee, asked that it be laid on the table until the next general meeting in order that the members may become conversant with the measure before it is passed by the Board.

Two weeks ago this committee brought in a recommendation that the proposed health district for the town of Sidney be the same as that outlined in the pound-by-law district. Since then on going into the matter more thoroughly the committee have decided that the area was too large and cumbersome, as nearly all the houses in the town were inside a much smaller area and there would be no benefit derived from the larger, in fact it would practically be a bill of expense.

As every one in Sidney is keenly interested in any sanitary measure that may be brought forward by the Board of Trade, or any other body of men, the Review publishes below the text of the Sanitation Committee's report.

"In bringing our report before the Board to-night we would ask them to reconsider the motion brought before the last meeting instructing the secretary to write to the Provincial Board of Health, asking that the proposed health district for Sidney be composed of the same area as that of the pound-by-law district. On reconsidering the matter we find that as a health district it would be necessary to employ scavengers, and if the district to be covered is made so large it will add to the expense, as there are but few houses in the outlying portions of the pound district at present, and that the cost of this work would have to be assessed against the residents of the district so served.

"We suggest that the district would be more economically served if the bounds were as follows:

"Starting from the south-east corner of the John Brethour sub-division and running west to Twelfth street, thence north along Twelfth street to its intersection with Marine Drive, and then following Marine Drive to the culvert near the Hydropathic, and then following the shore line back to the point of commencement. This proposed area would take in practically all the houses in Sidney and those in Allbay as well.

"The cost to the district would be for the following items:

"Medical Health Officer—salary optional, to be paid for work done only.
"Sanitary Inspector—salary optional.

"Collecting garbage and refuse and disposing of same by scavenger—estimated cost \$12 monthly, \$150 per annum.

"Disposal of garbage and refuse: By sea—to be dumped one mile from shore in tide waters; if being a nuisance against the Health Act to deposit garbage on foreshore, except for burning. It is also a nuisance to allow sewage to run out on foreshore and thereby fouling it.

"By land—to be dug into trenches and covered immediately with not less than three inches of earth; by

burning in crematory. Size of dumping ground to be not less than two acres for every five hundred people, and an additional acre for every additional five hundred. One acre being required for crematory.

"It is a nuisance against the Act to allow sewage to run into or upon any public ground, street or open drain; the contents of any part thereof of any vault, cesspool, water closet, privy or sink.

"Some of the benefits that would accrue from its being a health district:

"The clearing out of the Chinese quarters, as premises must be inspected and kept in a sanitary condition, and there must be at least 354 cubic feet of air space for each person occupying same.

"Inspection and quarantine in case of infectious diseases.

"Proper disposal of all waste matter under inspection.

"Inspection of all new buildings re plumbing and drainage.

"Inspection of meat, milk, water, vegetables offered for sale in the district and the source from which they are derived, whether in the district or outside and full control over same.

"Inspection of all buildings housing animals in district and limiting distances they shall be from any dwelling house; especially in regard to the housing and keeping of hogs.

"The officers of the health district shall consist of the local board, medical health officer and sanitary inspector."

Discussion on the report was cut short by the president announcing that as the committee had requested that the report be laid on the table for two weeks it was out of order to (Continued on page 3.)

ORGANIZATION OF A TENNIS CLUB NOW UNDER WAY

Grounds Can Be Procured and the Committee Are Confident of Success.

The meeting called for last Monday evening in the parlors of the Sidney Hotel for the purpose of talking over the proposition of organizing a tennis club in Sidney was not very well attended, whether from a lack of indifference or other engagements it is hard to say. At all events if those who are desirous of seeing a tennis club organized in Sidney do not register their names very shortly with the committee appointed to take charge of the organization, the project will be dropped. This committee, composed of Messrs. A. E. Moore, W. Lait, J. Stansby, W. Whiting and F. Cooper, are anxious to see the club started as soon as possible, and are quite confident there are enough people in Sidney who either play tennis or would like to learn, to support a club of this nature, and it is their intention to make a thorough canvass at once for members.

It is estimated that it will cost in the neighborhood of \$100 to put two courts in first class condition for play and to meet this expense the meeting decided that an entrance fee of \$2.00, payable \$1.00 on signing the roll, and \$1.00 one month from

the date of the organization meeting. From then on the fees would only need to be about 25 cents per month as the running expenses would not be very great.

It is the intention of the committee if they meet with success in their canvass for members to call another meeting of all those who have signed the roll, and any others who may wish to become members, in the near future. In the meantime hunt up any one of the committee, sign the roll, and pay your dollar. You can help materially.

CLOUDY DAY PREVENTS GOOD SCORES AT TRAPS

G. J. Brethour and E. L. McKenzie
Will Wear Gold Buttons for
the Next Week.

It rained nearly all forenoon on Saturday last and when the members of the Gun Club gathered at the traps at about three o'clock the clouds still hung heavy and black in the north, making it very hard for the shooters to locate the birds as they were springing from the trap, with the result that a majority of the scores were below par.

There were not very many of the Class "A" men out, but Class "B" was fairly well represented. No doubt the falling off in attendance was due in a large measure to the wet weather and the other attractions that were taking place during the afternoon.

In Class "A" Geo. J. Brethour carried off the honors by a score of 21, with Fletcher North a close second with 20, while Jack Roberts, the popular captain of the club, only scored 15. Jack had been working very hard during the week supplying the people of Sidney and district with good meat from the Local Butchers. This hard work, no doubt, adversely affected his shooting. Anyway this is the only explanation we can give of his very poor score. He will get used to it after a while and will, no doubt, come back to his usual form.

In Class "B" E. L. McKenzie took home with him the gold button by a score of 19. Considering the fact that Mac had just rowed a mile race about half an hour before the contest he did remarkably well and got back at his opponent, Harry Muench, who defeated him in the North Saanich sculling championship. Capt. W. D. Byers, last week's button winner, only made a score of 17. C. Moses 16, A. E. Moore 13, W. Veitch 13, H. Muench 13, and F. Bowcott 12.

SAANICHTON NEWS.

The Rev. H. T. Archbold preached a powerful sermon at St. Mary's on Sunday last, from the words: "Barabas or Christ?" He reminded his hearers that the question applies to society of to-day as much as to that of nineteen centuries ago. He would be a bold man that would openly acknowledge Christ in "elite" society, in business houses or in more questionable resorts. When Jesus stood before Pilate it was Pilate on trial, not Jesus, but it was Pilate who condemned himself when he handed over his own Saviour to the vengeance of the Jewish mob.

On Easter Sunday morning service will be held at St. Stephen's at 11 o'clock, when the choir of St. Mary's will be present and so far as they are able will endeavor to assist that of St. Stephen's in celebrating the greatest event known to the world.

Through the energy of Mr. Pruey over ten dollars has been collected for the purpose of providing anthems hymn books and psalters for St. Mary's. Of this sum we have to thank Mr. Perkins, who is residing with Mr. Fred Turgoose, for five dollars, and wish to make a public acknowledgment.

At the Spring Flower Show held at the Alexandra Club, Victoria, on Friday last, Saanichton won a special prize and high commendation for some magnificent narcissus exhibited by Mr. Frank R. Bailey and which attracted much attention.

WORK ON ROADS IN THE ISLANDS WILL START SHORTLY

Mr. W. W. Foster Outlines Work Accomplished During Past
Three Weeks—Several Important Announcements
Made at Regular Meeting of Association

The regular monthly meeting of the Conservative Association of North Saanich took place last Saturday evening in Berquist's small hall when between fifty and sixty members were in attendance.

President J. S. Harvey occupied the chair and Secretary A. J. Eaton was in his usual place.

Several matters of importance came up for discussion, perhaps the one of most interest to this part of the peninsula being the establishment of a government wharf either at Saanichton or Bazan Bay, opposite the Experimental Farm.

It appeared that there was some difficulty over the purchasing of a right-of-way from the proposed wharf at Saanichton to the town itself, which is about a mile and a half inland from the beach, and the road to be traversed is hilly and at present in very poor condition.

Conditions at Bazan Bay are very much more favorable, as the government have already a splendid road graded through the Experimental Farm right down to the water's edge and as there is plenty of water at this point there would be no difficulty in establishing a wharf at this point.

Both the proposals were discussed and after careful consideration the association decided to recommend to the government the establishment of the wharf at Bazan Bay, as it was thought it would be of greater benefit there than at Saanichton, as it would give a connecting link between James Island and the V. & S. and the B. C. Electric tram lines to Victoria.

After several other matters of minor importance had been discussed and disposed of, the chairman called upon Mr. W. W. Foster, the member for the Islands constituency, for a short address.

Mr. Foster had just finished a trip of inspection over the roads of the islands forming part of the constituency, and having the habit of doing things in a very thorough manner, he did not content himself with riding over them in an automobile, but took upon himself the pleasure of walking over every foot of them, with the ex-

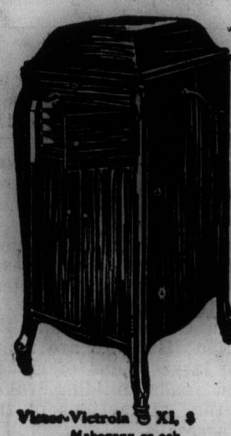

ception of a few miles on Galiano Island, which being newly opened up was in very poor condition as could be easily seen owing to the heavy rainfall of the past winter. He was accompanied on his trip of inspection by Road Superintendent Campbell and Mr. J. S. Harvey, of the B. C. Conservative Association, and anything these three gentlemen do not know about the roads of the islands is hardly worth knowing.

Mr. Harvey, of course, is not a good roads expert, although he knows good roads when he sees them, but he took advantage of Mr. Foster's presence in the district to get in official touch with the different local associations, gaining thereby much knowledge that will be of great benefit to him in placing the needs of the Islands constituency before his co-workers of the B. C. Executive.

Of Mr. Harvey's efforts in this direction, and the valuable assistance he had given him in helping to reorganize the whole constituency and placing it in a better position than it ever was before, Mr. Foster had many kind remarks to make and gave the popular representative of the B. C. Association much of the credit for the splendid work accomplished during the past few months.

During part of the three weeks Mr. Foster and party were touring the islands they were accompanied by the Hon. Mr. Taylor, Minister of Public Works, who expressed much satisfaction at the thoroughness with which the local member performed his duties, and before leaving the party to again take up his official duties in Victoria, the minister informed Mr. Foster that as soon as the Municipality of South Saanich had commenced operations on the improvement of the main road from Saanichton to the city, he would see that an extra appropriation was forthcoming in order to complete the road from Saanichton to Sidney of equal standard to the road built by the municipality.

Mr. Foster also stated that it was his intention to go over all the roads in North Saanich in as thorough a manner as he had done on the islands (Continued on page 4.)

THE SPICE OF LIFE.

THE WAIL OF THE JINGO.

Call out a million volunteers!
Come on, let's intervene!
What care we for mothers' tears?
Let the ship of state careen!
Why should we hesitate to fight?
We have the men and cash,
And all of Europe says its right
For us to cut the dash.
Let's have a regiment or two
Led out to die to-day,
For the boys are cheap to die or do
For the flag—hip, hip, hooray!
So wave the Stars and Stripes on high.
Why, where's your love of flag?
The grandest nation neath the sun
Bids soldier men not lag.

Of course I cannot go to war,
The ties of business girt;
Some one like me must stay behind
To wave the bloody shirt.

Detroit News.

THE SWEET THING.

Miss Supheridge—"I should just like to see the man that I'd promise to love, honor and obey!"
Miss Pertly—"I'm sure you would, dear."

INNUENDO.

Congressman Eugene E. Reed, of New Hampshire, told of the reputation of a party named Abner.
Abner was hailed to court to answer to a complaint that grew out of a broken bargain, and among the witnesses called to testify was Hiram Wilkins.

"Mr. Wilkins," said the examining lawyer, "you know the defendant in this case, do you not?"

"Oh, yes," answered Hiram. "I knowed him high onter forty years now."

"What is his reputation for veracity?" asked the lawyer. "Is he regarded as a man who never tells the truth?"

"Waal, I can't say that he don't never tell the truth," answered Hiram, "but I do know that if he wanted his hogs ter come ter dinner he'd have ter get somebody else ter call 'em."

AWFUL.

Tommy—"Why do the ducks dive?"
Harp—"Guess they must want to liquidate their bills."

MAKING IT RIGHT.

"Of course you have made some promises you didn't keep."

"Yes," replied Senator Sorghum. "But I never yet broke a promise to a man without giving him a better one instead."

FULL PANEL.

The jurors filed into the jury-box, and after all the twelve seats were filled there still remained one juror standing outside.

"If the Court please," said the Clerk, "they have made a mistake and sent us thirteen jurors instead of twelve. What do you want to do with this extra one?"

"What is your name?" asked the judge of the extra man.

"Joseph A. Braines," he replied.

"Mr. Clerk," said the judge, "take this man back to the jury commissioners and tell them we don't need him as we already have here twelve men without Braines."

NOTHING DOING.

"What did the doctor say?"
"He felt of Jones' pulse and said there was no hope."

FACTS ABOUT CANADA.

Canada has the largest and best Mountain National Parks in the world, thousands of square miles in extent, and aptly termed "Sixty Switzerlands in One," exceeding in natural grandeur all other parks in the world.

Nakimu caves are near Glacier. These immense caverns, formed by water erosion, are claimed by scientists to be 38,400 years old.

The Canadian Government and the Canadian Pacific Railway are annually spending large sums of money opening up new roads, building trails, and making the attractions of the park easy of access.

Law and order are enforced in the park by the famous Royal North-West Mounted Police.

Banff, the gateway of the Canadian National Park, is one of the most attractive spots in America.

Banff has hot sulphur springs, caves, waterfalls, aviary, museums, animal paddock with eighty buffalo, magnificent drives, boating, fishing, golf links, and many other attractions.

COSTLY SENTIMENT.

In a subway crowd not long ago, a New York man was "touched" for his watch. The watch was not intrinsically valuable, but the New York man wanted it back for sentimental reasons, and inserted divers advertisements in the papers, offering \$50 for the return of the watch and "no questions asked."

The "dip" who had "lifted" the watch saw the advertisements and concluded to take the \$50. He called on the New York man, handed him the time piece and demanded the reward.

The owner of the watch was only too happy to give it to him. After examining the watch, he returned it to his pocket and handed over five ten-dollar bills. The "dip" pocketed the money and departed. There was little said.

A few minutes later the New York man reached for his watch.

But it was gone.

UNTIMELY.

Cohen (entering delicatessen store) —"Gif me some of that salmon."

Prop.—"That's not salmon, that's ham."

Cohen—"Vell. Who asked you what it was?"

MORE PROOF.

A man worth \$10,000,000 is no happier than a man worth \$9,000,000. Money does not always bring happiness.

PRESENT TENSE.

Gibs—"I tell you, no one can fool my wife."

Dibbs—"Then how did you get her?"

A SAFE SPEECH.

When I say I am glad to be with you to-night I mean, of course, glad to whatever extent the Senate approves of an Ambassador being glad that he is in any place.

When I say that our hands stretch across the sea I do not wish to be understood as signifying any particular sea or any individual hands, or any fixed altitude for the same, but I do like the stretching idea.

All of which brings us, as human beings, living—I speak advisedly—on the same planet, to the delicate subject of eggs. (Cheers.) It is one of the things about which we have dared to differ as brave nations should.

You on this side of the water eat one egg for breakfast whether you need it or not, and with the skill that is the birthright of all Anglo-Saxons, Scotch, Irish, Swedes, Austrians and such other peoples as may ask leave to have their names printed—with this skill, I repeat, and a small, neat spoon, you extract the nutriment from the shell, letting the chips fall where they may. (Wild applause.)

With us, uplifted sons of Puritan, Pilgrim, Anglo-Saxon, Scotch-Irish, regular Irish, Welsh, Scandinavian, and Pennsylvania Dutch ancestors, we have our eggs, two or upward, busted into a glass and we eat them or leave them.

It is the one important point of difference between two great peoples, and my secretary now advises me that by grace of the Secretary of State, the Committee on Foreign Relations, and Richmond P. Hobson, I am permitted to suggest to you—a mere suggestion, mark you—that this matter, reeking as it does with importance, be referred to the Aig Conference. (Maddening applause.)

Canada's Rocky Mountain Park has an area of 1,800 square miles; Yoho Park, an area of 560 square miles, and Glacier Park an area of 468 square miles.

The model Swiss village of "Edelweiss," is near Glacier. This is the home of the Swiss guides, who were brought from Switzerland by the Canadian Pacific to aid mountain climbers in the Rockies.

Good trails from Chateau, Lake Louise, lead to Lake in the Clouds, Valley of Ten Peaks, Victoria Hanging Glacier, Paradise Valley and Saddleback Lookout.

Emerald Lake Chalet is only seven miles from Field by a splendid carriage road.

Field, fifty miles west of Banff, is where the world famous Canadian Pacific spiral tunnels have been constructed. It is also the centre of remarkable Alpine scenery.

Yoho Valley is reached from Field by the Emerald Lake Road, which is near the wonderful natural bridge of the Bow River. From one place near Field seventy glaciers can be counted.

Lake Louise, one of the most beautiful lakes in the world, is thirty-four miles west of Banff.

Glacier, a station on the Canadian Pacific Railway, with an excellent hotel, is a short walk from the great glacier, with its nearly forty miles of ice.

Near Glacier also the Canadian Pacific has commenced work on what will be one of the largest tunnels in America—five and a half miles long through the Selkirk Mountains.

The Rocky Mountain trails reveal the wonderful scenery on every hand. Outfitters supply horses and guides for tourists.

The Alpine Club of Canada has seven hundred members. Summer camps are held annually in the Rockies or Selkirk.

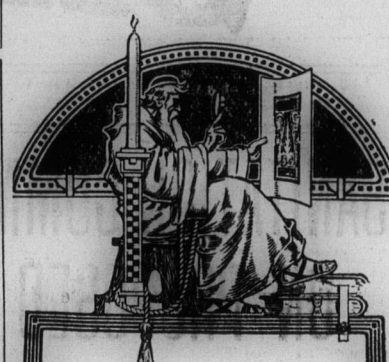

1913 was a notable year in the history of Port Vancouver, marked by a substantial increase in shipping, by the introduction on the Pacific of larger and more modern liners, by the arrival of vessels of new steamship lines, and by important dock and harbor improvements.

THE ATHLETIC ASSOCIATION APPOINT DANIEL

Name Changed to Read "Sidney and Island" — Executive Will Submit Bill

The first regular monthly meeting of the Athletic Association was held Wednesday evening in Berquist's small hall, with a fair number of the members present. President F. M. Humber occupied the chair.

A delegation consisting of Messrs. Neal and McArthur, representing the Boy Scouts, were in attendance to place before the Association a proposal in regard to the dressing rooms to be erected on the athletic field. It was their desire to pay part of the cost of such a building and in return they were to have the use of it for drilling purposes when not otherwise occupied. The proposal met with the approval of the meeting and the executive committee were authorized to look into the matter of securing a lot on which to erect the building. If this cannot be done the owner of the athletic field will be approached with regard to placing the building on the corner of the present field.

On the recommendation of the executive committee the name of the association was changed from the Sidney Athletic Association to the Sidney and North Saanich Athletic Association, and the secretary instructed to inform the B. C. Athletic Association of the change.

A letter was received from the Young Ladies' Basketball Club extending their thanks to the association for the use of the hall during the winter months. The letter was ordered filed and the secretary instructed to acknowledge same.

A communication from the Ganges Football Club gave the information that they had previously arranged to play a game on Easter Monday and would not be able to accept the invitation of the Sidney club for a game here on that date.

Owing to the fact that several members of the executive, particularly those representing the different branches of sport, were not present in order to place before the meeting the work accomplished by them during the past month.

HENS IN EGG LAYING CONTEST MAKING RECORDS

A copy of the monthly report of the Third International Egg Laying Contest, held under the supervision of the Provincial Department of Agriculture, at the Exhibition Grounds, Victoria, came to hand this week. The report is very favorable indeed and below we publish a brief outline of what is being accomplished:

The weather during the month has been favorable to big egg yields, although the weather on the first three days was not at all propitious. On the 25th snow fell, and on the 26th a further fall took place. Rain descended on eight days; the rest of the month being very mild. During the twenty-four hours ending at 4 p.m. on the 20th, the temperature rose from 44 to 82°.

The yield during the month has been the highest for twenty-nine days' laying since the contest started. Every pen but three succeeded in producing a hundred or more eggs. In either class seven eggs in one day were laid by pens 20 and 26.

The top scorers in each class were: Class I—Pens 10, 133; 1, 19 and 20, 128 each; 4, 127; 6, 125; 15, 125; and 9, 124.

Class II—Pens 34, 145; 26 and 40, 132 each; 31 and 57, 131 each; 36, 126; 25 and 39, 125 each, and 32, 123.

In Class One, there are no changes in position till twelfth place is reached. Here pen 15 displaces the Campbells, who drop to 13th. Pen 19 rises up one place.

In Class Two more changes take place. Pen 34, with the highest yield of the month, steps up to second, and is only four eggs behind pen 32. Pen 31 also mounts a notch higher, being now in third place.

The month's totals—Class I—2,362 eggs. Class II—2,352 eggs. Total—4,714 eggs. Grand total—13,881 eggs. Highest day's yield for March—187.

Eggs recently set from one of last year's winning pens of Leghorns, have hatched 100 per cent of eggs set. A full setting was hatched under a hen.

Comparisons.—North American, average eggs per hen for first 126 days—43.5.

Storrs, average eggs per hen for first 126 days—25.

THE ATHLETIC ASSOCIATION APPOINT DANCE COMMITTEES

Name Changed to Read "Sidney and North Saanich Athletic Association—Executive Will Submit Bye-Laws at Next Meeting

The first regular monthly meeting of the Athletic Association was held Wednesday evening in Berquist's small hall, with a fair number of the members present. President F. M. Humber occupied the chair.

A delegation consisting of Messrs. Neal and McArthur, representing the Boy Scouts, were in attendance to place before the Association a proposal in regard to the dressing rooms to be erected on the athletic field. It was their desire to pay part of the cost of such a building and in return they were to have the use of it for drilling purposes when not otherwise occupied. The proposal met with the approval of the meeting and the executive committee were authorized to look into the matter of securing a lot on which to erect the building. If this cannot be done the owner of the athletic field will be approached with regard to placing the building on the corner of the present field.

On the recommendation of the executive committee the name of the association was changed from the Sidney Athletic Association to the Sidney and North Saanich Athletic Association, and the secretary instructed to inform the B. C. Athletic Association of the change.

A letter was received from the Young Ladies' Basketball Club extending their thanks to the association for the use of the hall during the winter months. The letter was ordered filed and the secretary instructed to acknowledge same.

A communication from the Ganges Football Club gave the information that they had previously arranged to play a game on Easter Monday and would not be able to accept the invitation of the Sidney club for a game here on that date.

Owing to the fact that several members of the executive, particularly those representing the different branches of sport, were not present in order to place before the meeting the work accomplished by them during the month, the members were considerably handicapped, as there was no means of knowing what arrangements had been made for games or practices.

A vote of censure was proposed but President Humber thought it advisable to excuse them on this occasion. A motion was then passed instructing the secretary to write each absentee calling his attention to the fact that it was very necessary for them to be present at the meetings of the association.

By request of Secretary W. Pridham, the president called for nominations for an auditor. The name of Mr. P. King was the only one submitted and he was accordingly elected by acclamation.

On motion of P. King, seconded by R. Mould, the president was asked to appoint the committees to have charge of affairs on the night of the big dance, Friday, April 17th. Two committees were appointed, and according to the president's choice Messrs. W. Pridham, F. Morris and A. E. Moore were requested to act as the floor committee, and Messrs. C. Merryfield, J. Rippen and W. Apps will have charge of the supper arrangements.

The price of admission to the dance has been set at \$1.00 for gentlemen, and the ladies will be admitted free but they are asked to provide the cake and sandwiches for the supper.

Heretofore the association has been content to run along from year to year without by-laws of any kind, although the need of them has been felt many a time. That day has evidently passed as a motion instructing the executive to prepare and submit for approval at the next general meeting a set of by-laws to govern the club, was carried unanimously.

In all probability a game of baseball will be arranged for Monday afternoon next, as the secretary was instructed to procure a team from Victoria if possible.

The meeting then adjourned.

RISE!
(By Amos R. Wells.)
Rise from thoughts of shame and sin,
From passions fierce that burn within;
Rise! a better life begin,
All free from hate and scorning,
Rise! from weakness into might,
Rise! from wrong to jovious right,
Rise! from darkness to the light
Of Easter in the morning.

Rise, for royal heralds call,
Angel songs that soar and fall,
Golden glories over all,
Earth and skies adorning,
Rise, for inner voices plead:
Rise from lower thought and deed.
Follow where the angels lead
On Easter in the morning.

Rise! for soon you may not rise;
Soul unheeding dwarfs and dies:
Not for aye may one be wise:
For To-day the warning!
Let the range of endless years,
Other lives and other spheres,
Your eternity appears
At Easter in the morning.
"S. S. Times."

SANITATION COMMITTEE ON HEALTH DISTRICT

(Continued from page 1.)

discuss its different phases at the present time.

One or two short communications were received in answer to letters forwarded some time ago and on motion were ordered filed.

The motion of Capt. Byers, seconded by Geo. A. Cochran, asking that the secretary be instructed to write to the poundkeeper calling his attention to the fact that the pound by-law is not being enforced, particularly in the northern part of the town, brought out some strong opposition from Mr. Julius Brethour, who asked the president who constituted the Board of Trade, and what right had they to dictate to a government employee whether or not he should do his duty. He was of the opinion that the Board was making a laughing stock of themselves in daring to dictate to a private individual.

The president, however, informed Mr. Brethour that the Board had no intention of dictating to any person; but were simply calling the attention of the poundkeeper to the fact that he was not doing his duty and he felt they had a perfect right to do so, if for no other reason than as an act of courtesy before taking the matter up with the authorities.

Mr. Brethour evidently did not take this view of the matter and on the motion being put and carried with himself the only opposing vote, he retired from the meeting.

The Sidney Trading Company came in for a good deal of adverse criticism in regard to the recent closing of the Dominion Express Office without a moments notice to the public. The Board of Trade was particularly active in getting this office established in Sidney, for which, at their own request, the Sidney Trading Company were appointed agents. Hearing these facts in mind a majority of the members were of the opinion that the Trading Company should have notified the Board of their intention of giving up the express business. This they failed to do, and as a result the office was removed from Sidney without any notice whatever being given and no one was a bit the wiser until an announcement to this effect appeared in a recent issue of the Review. The matter will be taken up by the transportation committee during the coming week.

After a motion was passed instructing the secretary to issue a cheque for \$20, the amount donated to the Flower Show, the meeting adjourned.

HENS IN EGG LAYING CONTEST TEST MAKING RECORDS

A copy of the monthly report of the Third International Egg Laying Contest, held under the supervision of the Provincial Department of Agriculture, at the Exhibition Grounds, Victoria, came to hand this week. The report is very favorable indeed and below we publish a brief outline of what is being accomplished:

The weather during the month has been favorable to big egg yields, although the weather on the first three days was not at all propitious. On the 25th snow fell, and on the 26th a further fall took place. Rain descended on eight days; the rest of the month being very mild. During the twenty-four hours ending at 4 p.m. on the 20th, the temperature rose from 44 to 82°.

The yield during the month has been the highest for twenty-nine days' laying since the contest started. Every pen but three succeeded in producing a hundred or more eggs. In either class seven eggs in one day were laid by pens 20 and 26.

The top scorers in each class were: Class I—Pens 10, 133; 1, 19 and 20, 128 each; 4, 127; 6, 125; 15, 125; and 9, 124.

Class II—Pens 34, 145; 26 and 40, 132 each; 31 and 57, 131 each; 36, 126; 25 and 39, 125 each, and 32, 123.

In Class One, there are no changes in position till twelfth place is reached. Here pen 15 displaces the Campbells, who drop to 13th. Pen 19 rises up one place.

In Class Two more changes take place. Pen 34, with the highest yield of the month, steps up to second, and is only four eggs behind pen 32. Pen 31 also mounts a notch higher, being now in third place.

The month's totals—Class I—2,362 eggs. Class II—2,352 eggs. Total—4,714 eggs. Grand total—13,881 eggs. Highest day's yield for March—18.

Eggs recently set from one of last year's winning pens of Leghorns, have hatched 100 per cent of eggs set. A full setting was hatched under a hen.

Comparisons.—North American, average eggs per hen for first 126 days—43.5.
Storrs, average eggs per hen for first 126 days—25.

B. C. Contest, average eggs per hen for first 126 days—40.1.

NEW ROAD FOREMAN TAKES UP HIS DUTIES

Work Will Be Started Next Monday
Morning is the Announcement
Made on Thursday.

Mr. A. R. Trowsse, the newly appointed foreman on the road work to be carried out during the coming summer in the North Saanich district, arrived in town on Thursday morning and in company with Superintendent Campbell will spend the balance of the week going over the work already mapped out. According to the information he gave out on his arrival work will in all probability be started on Monday morning of the coming week.

Mr. Trowsse has had many years experience in building roads in this province, and the other provinces as well, and comes to his new undertaking with a store of knowledge in the handling of roads and men.

For the convenience of handling the work in this district an office has been opened on Beacon avenue next door to Smith's Electrical Shop, on the ground floor of Berquist's small hall, where all those desiring to do so may make application for work.

A. EMERY MOORE,
EDITOR

LETTERS TO THE EDITOR
BEACON AVENUE.

To the Editor, Sidney Review.
Sir,—At the present time a walk of a few miles along the beautiful roads that everywhere cross and recross the Saanich Peninsula reveals nature in one of her most glorious moods. She is just donning the splendid raiment of fresh leaves with which she decks herself for the glories of the summer season. On all, or nearly all these roads, are noble specimens of the magnificent trees for which British Columbia is famous. There are oaks, maples, alder, dogwood, balsam and fir. The only road that is bare is the main approach to Sidney, Beacon avenue. There are, I think, only two trees along its entire length from the misnamed station on the B. C. Electric Railroad to the sea. There is a fine maple opposite Mr. Wesley Brethour's house, and a poplar opposite Mr. Mark Hewitt's.

Now it has been announced that a sidewalk is to be constructed by the government out to the station, and that the B. C. Electric Railroad Co. will install lights along the thoroughfare. Have the people of Sidney enough public spirit and energy to do a little more to make this road a thing of beauty and to leave for their successors a monument to their foresight? The entire length of this road should be planted on both sides with maples or with a diversified mixture of trees such as chestnuts, acacias, tulip trees and elms. The cost would not be great nor would the labor required be excessive. If everyone would help the thing could be done in a week. It is not the best time of the year to do it now, but it can be done. If those who are willing would all agree to be on hand on a certain day with spades and shovels and others would give a small money contribution to buy the trees, no great weight would fall on anyone's shoulders. I am ready for one to do my part with spade or shovel and in helping lay out the work.

It is about one and a half miles from the wharf to the station and the road has two sides, that is to say about three miles have to be planted with trees twenty yards apart. This will require about two hundred and sixty trees and the same number of holes will have to be dug.

There is a day set apart in some places for work of this kind, and called Arbor Day. I do not know if there is such an institution in Canada and I never heard of it in this part of the Dominion. But I think the spirit which led to it in other places is here, the natural desire to beautify one's home and to increase its attractiveness.

If some leading members of the community would interest themselves in this scheme I feel sure they would receive the support of the public, and they would certainly be entitled to the respect of their neighbors as benefactors of the Town of Sidney.

I am, etc.,
CHARLES ST. BARBE.
Sidney, B.C., April 6, 1914.

WORK ON ROADS IN THE ISLANDS TO START SHORTLY
(Continued from page one.)

and asked the members present if they knew of any particularly bad places, or any places where new roads were necessary, to be good enough to inform him or Mr. Campbell, the road superintendent.

To facilitate the road work in this part of the constituency it was the intention of the government to open an office in Sidney as headquarters for the road superintendent. A clerk would be appointed to take charge during the absence of Mr. Campbell but Mr. Foster was very sorry to have to state that for the present the appointment would not be of a permanent character, as the government did not think there would be work to

occupy the whole attention of a man and they also desired to keep down expenses as much as possible, owing to the comparatively small appropriation set aside for the year's work.

It is the intention of the department, said Mr. Foster, to begin work on the roads next week if possible, and as there would be an office opened on Beacon avenue all those desiring to obtain work would be able to register their names there with Road Superintendent Campbell.

During the course of his remarks Mr. Foster stated that it had been his pleasure to open the Country Club of the Vancouver Island Automobile Association during the afternoon, and it was gratifying to see such a large number registered there during the day. He thought that this club would be of great benefit to Sidney in the future as it would bring a great many visitors to the town that otherwise would not have thought of making the trip, and no doubt splendid advertising would result, as he felt they could not come to this beautiful little sea-side town and go away without carrying with them a good deal of enthusiasm for its natural beauty.

Mr. J. S. Harvey stated that during his trip through the islands with Mr. Foster and Mr. Campbell, he had made it his business as a representative of the B. C. Association to get in close touch with all the local associations by a series of meetings, and he had also organized several new associations in districts that heretofore were not organized or were affiliated with organized bodies of other districts. Everywhere he went he was met by enthusiastic gatherings which were loud in their praise of the keen interest Mr. Foster and the B. C. Executive were taking in the welfare of the constituents, and Mr. Harvey stated that in his opinion that never before in the history of the constituency had the different organizations worked together so harmoniously for the benefit of all as they were doing at the present time. This result, no doubt, was brought about through the influence of the Central Executive Committee formed some time ago. He was more than pleased with the result of his trip.

A communication was received from Mr. Frank Shepherd, M.P., stating that the recommendation of the local association in regard to the establishment of a post office at Deep Cove, with Mr. George Lowe as the post master, had received the favorable consideration of the postal authorities and would, no doubt, be established shortly.

Another communication from the same source asking the opinion of the association on the projected laying of a telephone cable from Sidney to Isabella Point in order to make a direct connection between the islands and Victoria was also received. It was the opinion of those present that if the line was established it would be of immense value to the people living on the islands, as at present they were compelled to have two or three connections made before they could talk to Victoria. The secretary was instructed to inform Mr. Shepherd by letter to this effect.

It was also the feeling of the meeting that the Government should take immediate steps to have Beacon avenue opened through from Mount Newton to the water's edge on the west side of the peninsula. Mr. Foster promised to see what could be done in the matter.

The opening up of Bazan avenue to the shore line was also discussed, and although there was some opposition the recommendation to have the work carried out was passed by a good majority.

In regard to the proposed three-plank sidewalk along Beacon avenue to Mt. Newton station Mr. Foster stated that in all probability the work would be carried out during the coming summer and it was possible that an agreement would be reached with the B. C. Electric Company for the proper lighting of it.

Some discussion arose over the question of who was the owner of the timber on the right-of-way of the new roads being opened up in the district. The information, however, was forthcoming that the government were the owners, but there would be no difficulty in obtaining permits for the cutting of it from the road superintendent. The owner of the land opposite would, of course, have first choice.

Just before adjourning Mr. Harvey appointed the following gentlemen as an objection committee to go over the voters' list before the 18th inst. and register their objection to any names thereon that they feel are not entitled to become voters.

The Jamaica Government has adopted a law imposing a head tax of \$500 on all Syrians and Chinese who enter the country.

'WIDE W

The charge made against Lord Murray of Elibank, by the London Morning Post and National Review respecting his Marconi transactions have been formulated and allege that at the time he purchased shares he was in possession of special information obtained through the attorney-general from Godfrey Isaacs, managing director of the company. They also allege that the purchase of the shares gave the then chief whip a personal interest in the conduct of public business not in accord with the interests of the country. References are also made to Lord Murray's purchase of railway stock in the particular circumstances existing at the time of the coal strike.

Some members of the British cabinet are reported to have received with approval a suggestion that the militant suffragettes can be dealt with under the provisions of the Mental Deficiency Act, which becomes operative in April. This act provides for the detention in suitable homes of persons suffering from certain forms of insanity when a medical examination supports the claim that they are mentally deficient.

The Hon. Hewitt Bostock, of Monte Creek, B. C., has been elected by a caucus of Liberal senators as successor to the late Sir George Ross as Liberal leader of the Senate. Mr. Bostock is an Englishman and a graduate of Cambridge, and came to Canada in 1893, settling in British Columbia.

The Greek naval programme just announced by the Minister of Marine, provides for three dreadnoughts and a number of lighter ships. He declared that Greece was prepared at all costs to maintain the supremacy of the sea won in the recent Balkan war.

The London newspapers are at present giving notices to Sir Charles Tupper's book, "Recollections of Sixty Years," just published by Cassels and styling him the "last surviving father of Confederation."

The Swiss police authorities have prohibited the drawing of the various sweepstakes on the chief horse-racing events in England, giving a severe and salutary blow to English betting on the Continent.

The returns of Canadian trade for the eleven months of the fiscal year ending February 28 last, show, in a statement issued by the Minister of Customs, that Canada is in a very prosperous condition. The total Canadian trade for that period topped the billion mark, the exact figure being \$1,019,885,000. For the corresponding period of the last fiscal year the total Canadian trade was \$862,511,000.

After a fiery debate in which many personalities were indulged the motion of Mr. Bonar Law censuring the government for the refusal of Mr. Asquith to give the details of his proposal for allowing the nine counties of Ulster to vote separately on the question of being excluded from the operation of the home rule bill was defeated in the House of Commons on March 19th by a vote of 345 to 252.

A treaty of peace between Turkey and Serbia has just been signed. A treaty between Serbia and Turkey, based on the results of the Balkan war, has been under consideration since last November. A treaty between Bulgaria and Turkey was signed some months ago, but as yet the Greek and Ottoman governments have been unable to reach an agreement owing to the dispute over the ownership of the Aegean Islands.

Ten persons have been killed, three fatally injured and a dozen more seriously injured in a collision on the railway line from Temra to Mossvale. The accident occurred near Mossvale, which is in New South Wales. A man and his two daughters who were killed, were taking home the dead body of the man's wife. The severely injured include a son of the same family.

College Hall, one of the largest and oldest of the Wellesley College buildings at Wellesley, Mass., has been burned, causing a loss of \$1,500,000. Fortunately there was no loss of life in the early morning fire, the 250 students and other inmates all escaping uninjured.

Chicago women voters will hold the balance of power in every ward in the aldermanic elections to take place on April 7th. Women to the number of 218,643 have registered as qualified voters in Chicago. The male registration is 474,981, giving the city a grand total of 693,624. The first ward, where John Coughlin is opposed for re-election to the city council by Miss Marion Drake, has 4,718 women registered and 13,514 men. The twenty-fifth, the banner suffrage ward of the city, shows a women registration of 13,431 as against 20,285 men.

A bill has been read a first time in the Assembly of the Union of South Africa which has for its object "to make special provision for the maintenance of public safety in times of actual or apprehended grave disturbances of the public peace, and to amend the law relating to riotous assemblies and the dispersal thereof, and to amend the criminal law in certain respects."

The entire print works of the Pacific Mills at Lawrence, Mass., has been shut down in consequence of a strike of 250 employees of the dyeing department for a wage increase, and other concessions.

The Irish situation has been very tense during the week and many alarming stories have been circulated in the press, especially as to the resignations and re-instatement on their own terms of army officers. A series of conferences has been held in London between the cabinet ministers themselves and between the ministers and the King. The Archbishop of Canterbury has had consultations with the Premier and there have been conferences of the Army Council, all in the interests of harmony. In order to relieve the situation and remove certain misapprehensions in the public mind as to the government's actions and intentions Mr. Asquith has authorized the Times to make a statement that the recent movements of troops in Ireland were of a purely precautionary character, as it is obvious that the policy of disposing small bodies of troops in Ulster would be perfectly useless from a strategic viewpoint; that the rumor that warrants had been issued for the arrest of the Ulster leaders never had the very slightest foundation; that the government does not contemplate instituting a general inquisition into the intentions of officers in the event of their being asked to take up arms against Ulster, "if only for the reason that the employment of troops against Ulster is a contingency which the government hopes may never arise." The resignation of certain officers and their re-instatement has, however, created intense excitement and the Labor party and many Liberals are on the verge of revolt, contending that it is "a mutiny of the army aristocrats" against democratic government. A discussion on an amendment offered to the Army Appropriation bill in the House of Commons on March 25th evoked an extraordinary demonstration. Mr. Ward, a Labor member, saying that the Conservatives by approving the rebellion of the officers had started to smash the British army. The House had to decide whether it was going to maintain the discipline of the army as a neutral force or whether the Parliament, elected by the people, should "absolutely, without interference from the King," giving a calculated and dramatic pause after the word King, he brought the house to its feet cheering. Parliament has not witnessed such an obviously hostile criticism of the Throne in the memory of the oldest member, not even in the past century. The London Daily News, the chief Liberal paper, advises the government to resign at once and take the verdict of the country on the issue of "the army versus the nation."

The announcement has been made that the sum of 46,000,000 yen for the maintenance fund which was struck out of the naval estimates by the budget committee of the Japanese Diet, will be transferred to the appropriation for the development of industries.

The text of the bill providing for a half holiday for all workers in factories, men, women and children, has been settled by the labor commission of the French Chamber of Deputies. The reform is popularly known as the introduction of "La Semaine Anglaise," in reference to the Saturday half-holiday which prevails in England.

The Hon. William Patterson, former Minister of Customs in the Laurier Cabinet, died at his home in Picton, Ont., on March 18th, aged 74 years, after a long illness. Throughout his political life Mr. Patterson was a strenuous advocate for better trade relations with the United States.

The election for members to the Transvaal Provincial Council which took place last week, and which was fought out on the question of the recent deportation of labor leaders resulted in sweeping victories for the Labor candidates, who secured a majority in the Council.

Vienna thinks the new and energetic measures to be taken in Austria-Hungary for the regulation of emigration, the main object being to prevent men from escaping military service by leaving the country, is evidence of the increasing power of militarism. To facilitate the work of the police one edict has been issued reintroducing the compulsory carrying of passports. The restrictions, it is maintained, will not be effective, as there are many means of leaving the country.

Queen Elenora of Bulgaria, accompanied by a large suite, is to visit the United States in May, and may probably extend her trip to Canada. Queen Elenora is known all over Europe as the "royal nurse." She is every inch a Queen, of regal commanding appearance. This second wife of King Ferdinand is an extremely practical woman, and in nursing, for which she was scientifically trained, she is not content to leave the actual work to others. In the Russo-Japanese and the Balkan wars she worked herself in bandaging wounds as well as directing other nurses. She is also interested in all societies having for their object the improvement of the conditions of women.

The Duchess of Brunswick, only daughter of the Emperor of Germany gave birth to a son on March 18th. The Emperor now has six grandsons.

The New York Assembly has advanced to its final reading an anti-tipping bill which makes it illegal to either give or accept any gratuity whatsoever commonly known as a tip.

For calling a woman school principal a "Suffragette" the wife of a physician near Cologne, Germany, has been convicted and fined on a charge of slander. The offence was committed in the course of a quarrel over the punishment by the school principal of the physician's daughter. The complainant in supporting the charge before the court argued that the suffragettes had shown themselves to be scarcely normal. Educated people, she said, were enraged against them, owing to their outrages and nobody would entrust children to her if she were a suffragette. The defendant refused to apologize, and declared that the teacher had acted like a suffragette. She was thereupon ordered to pay a fine.

A French military conscript who refused to work on Saturdays pleaded before a court-martial at Chalons, France, that he could not do so because the Jewish creed, to which he subscribes, forbade it. The court imposed a sentence of three months imprisonment despite the religious plea. The criticism is made that this apparently shows that the French military courts are less Christian than the Spanish, as one of the latter acquitted a naval officer who refused to attend mass because he was a Protestant.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. No more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

MOTOR COUNTRY CLUB IS OFFICIALLY OPENED

In spite of the dull weather in Victoria the opening of the Automobile Association's Country Club here last Saturday afternoon proved a gay affair, largely attended and enjoyed by everybody. The sky was much clearer here than in the city and the sport afforded by the extensive grounds surrounding the club house was participated in by both ladies and gentlemen. Some thirty or forty cars were out from the city in a procession and the roads were found in a surprisingly good condition in view of the recent rain.

On his arrival Mr. W. W. Foster, M.P.P., formally declared the club open in the course of an appropriate speech. He commented especially upon the good work done by automobile clubs and associations in the in-

terests of good roads and complimented the members on the delightful spot chosen for their country club.

After tea had been served the premises were inspected and the ladies and gentlemen were more than pleased with the comfortable quarters which had been provided. On the ground floor were dining room, reception room, billiard room, office and kitchen. Upstairs were eight bedrooms and a ladies' reception room. During the afternoon the ladies tested the facilities for entertainment that the club affords by practising at the miniature rifle range and inspecting the grounds. The men played billiards and indulged in clay pigeon shooting. Within a few weeks croquet and tennis lawns and a miniature golf links will be ready too.

AFTERNOON, SALE OF WORK CONCERT IN THE EVENING

Next Wednesday, April 15th, is the day on which the Ladies Guild of St. Andrew's Church are having their Easter sale of work. There will be found plain and fancy articles, home made candy and home cookery at the various stalls. Tea will be served from 4 to 6 o'clock. In the evening the entertainment will consist of the following programme:

Trio No. Five, Johann Stamitz—The North Saanich Orchestra.
Lecture, "A Walking Tour in Japan"—Mr. Pindley Grease, K.C.
Bird Songs, Liza Lehmann, (a) "The Wood Pigeon," (b) "The Starling," (c) "The Yellow Hammer," (d) "The Wren," (e) "The Owl," (f) "The

Cuckoo."—Miss Eva Hart.
"Chantsans Paroles," Ischaikowsky—North Saanich Quartette.
(a) "What's in the Air To-day?" Rob Eden; (b) "A Savannah Lullaby," Batten; (c) "May Day," Walthew—Miss Eva Hart.
"Amaran Thus," John F. Gilder—North Saanich Quartette.
Child Songs—(a) "If No One Ever Marries Me," Liza Lehmann; (b) "If I had a Dolly," Hermann Lohr; (c) "Big Lady Moon," Coleridge Taylor; (d) "Daddy's Sweetheart," Liza Lehmann—Miss Eva Hart.
The price of admission will be 25 cents and there will be reserved seats for those who desire them at 50 cents.

FLOWERS AND THE GARDEN

Address on this Subject to be
Delivered on Saturday
Evening

The address to be given by Mr. W. T. Macoun on the subject of flowers and flower gardens on Saturday evening, April 11th, is one which should appeal to every man, woman and child in Sidney, dealing as it will with a subject in which all are interested.

Famous as we already are for the beautiful gardens grown in Sidney, there are yet many things to learn pertaining to the cult of the beautiful. The opportunity which is now offered to listen to a lecture by an authority on the subject, especially in view of the forthcoming flower show, should surely be taken advantage of.

The address will be given in Berquist's small hall, Saturday evening at 7.30. The admission is free.

LONG VIGIL SUCCESSFUL

Waits on Land Office Steps Five Days and Nights.

Edmonton, March 30.—His lonely, silent and cold vigil, kept for five days and nights, in an atmosphere that registered around the zero mark, resulted, to-day in Nicholas Nichailoff being the successful applicant at the Dominion Land Office for 27.7 acres of the southeast quarter of section 33, township 36, range 22 west of the fourth meridian. The property is located near Athabasca Landing and is said to be worth approximately \$300 per acre.

LATE LOCALS.

Miss O. Williams, of Victoria and Mr. Victor Williams, of Duncan, are spending their Easter vacation at their home on Amelia avenue.

Messrs. J. Stansby, W. Lait and F. Hooton went a-fishing last Saturday afternoon and succeeded in making a splendid catch. They got caught however, in the heavy wind that sprang up late in the afternoon and had great difficulty in getting home

across the rough sea from Shell Island. It was late when they did arrive, but they at once proceeded to invite their friends to a cod fish banquet cooked and served up by them selves. All had a jolly time and they ate fish until Jimmie Stansby was heard to declare that never again would he look a cod fish square in the face.

THE CHURCH SERVICES

ANGLICAN CHURCHES.

April 10—Good Friday.
11.00 a.m.—Morning Prayer at Holy Trinity.
7.30 p.m.—Evening Prayer at St. Andrew's.
April 12.—Easter Sunday.
8.00 a.m.—Holy Communion at St. Andrew's.
11.00 a.m.—Morning Prayer and Holy Communion at Holy Trinity.
11.00 a.m.—Morning Prayer at St. Andrew's.
7.30 p.m.—Evening Prayer at St. Andrew's.

The collections on Good Friday will be given to the Jewish work of the Mission Society of the Church of England in Canada.

The offertories on Easter Day will be given to the Diocesan Mission Fund.

METHODIST CHURCH.

Sunday services:
11.00 a.m.—Berquist's Small Hall.
3.00 p.m.—South Saanich Church.
7.30 p.m.—North Saanich Church.
Wednesday, 8.00 p.m.—Prayer Meeting.
Ladies' Aid Meeting Second Thursday of each month.

CATHOLIC CHURCHES.

Church of Assumption, South-west Saanich—Mass every Sunday at 10 a.m.
Church of St. Elizabeth, Sidney—Mass every 1st, 2nd and 3rd Sundays in the month, at 10 a.m.
Church of St. Paul, Fulford Harbor, Salt Spring Island—Mass every 4th Sunday.

The Catholic settlements on Pender and Mayne Islands will regularly be attended to during the week following the second Sunday.

The priests in charge are the Rev. Father M. M. Ronden and W. Corrae. Address R. M. D., No. 1, Turgoose P. O. Telephone Y 11.

SOME HINTS ON T PARING OF

In a country where practically all classes of vegetables can be grown with such good success as they can in British Columbia there is no reason why every household should not be provided with a liberal supply of fresh vegetables, and sufficient grown in excess to meet the demands of the local markets.

The liberal use of vegetables will do much to reduce the high cost of living, and besides can be made to supply in a palatable form a most healthful class of human food. By exercising care in the selection of varieties, and by carefully arranging the dates of sowing, a liberal supply of succulent vegetables can be provided for practically all seasons of the year. The variety of crop that will be grown will depend very largely upon the personal tastes of the grower and upon the amount of time he will have to devote to this phase of his work.

One of the first considerations in planting a garden is to determine the size. The important point in connection with the size is that it should be large enough to meet the demands of the household. Sufficient space should be provided to give a successive supply throughout the entire growing season. Conditions will vary somewhat, but one-half acre of well prepared soil, carefully planned should provide sufficient vegetables for the ordinary household.

The location of the garden is also an important consideration. Convenience of access, thorough drainage, suitability of soil and exposure are points that should receive consideration in the selection of the site of the farm garden. Good drainage and a suitable soil are probably the most important considerations. The soil, if possible, should be of a sandy texture and the land preferably should slope slightly to the south or south-east.

Much can be done to simplify the work of caring for a garden if the arrangement of the crops is carefully planned. Perennial crops such as asparagus and rhubarb should be placed in some place where they will not interfere with the other crops of the garden. The vine crops, such as squash, pumpkins, cucumbers, marrows, etc., should also be placed by themselves.

If properly planned a considerable part of the heavy work of a farm garden can be done with the aid of the horse and cultivator. The coarser garden crops such as peas, beans, corn, tomatoes, cabbage, cauliflower, potatoes and such crops may be so arranged and planted at such distances (say thirty inches apart) that the work of cultivation may be done with the horse and cultivator.

In planning the garden it is advisable to have the rows as long as possible so that the work with horse and cultivator can be carried on as easily as possible. The root crops such as carrots, parsnips, beets, salsify and onions give better results if grown more closely together and cultivated by hand. Eighteen inches is a good distance apart to plant crops of this class.

A small Planet Junior cultivator is very valuable for work of this nature. A good garden soil should contain a liberal amount of sand. A moderate sandy loam makes an excellent soil for vegetables. The quality of vegetables depends, to a very considerable extent, on the quality of soil on which they are grown, as vegetables of much finer texture are produced on sandy soils than on those of a clayey nature. Sandy soil will stimulate a much earlier growth than the heavier clay soils. In districts where the soil is of a clayey nature the lightest land obtainable should be selected for the garden.

Cultivation. The soil for vegetables cannot be too well prepared. Many garden seeds are very fine and require a finely prepared soil to give a good germination. For this reason it is better to use the same land, providing it is properly enriched for garden purposes for a number of years. The continued cultivation that is given the land brings it into excellent condition for the purpose of gardening.

Practically all garden crops are benefited by a thorough cultivation of the soil during the season that the crop is growing. The cultivation serves to destroy weeds, conserve moisture, which is very essential for garden crops, and maintain a finer physical condition of the soil, which is also very essential, for the successful production of garden crops. This cultivation should be repeated at intervals of a week or two weeks all through the entire growing season, and may be carried on successfully with a hoe and rake or light garden cultivator.

SOME HINTS ON THE PREPARING OF YOUR GARDEN

In a country where practically all classes of vegetables can be grown with such good success as they can in British Columbia there is no reason why every household should not be provided with a liberal supply of fresh vegetables, and sufficient grown in excess to meet the demands of the local markets.

The liberal use of vegetables will do much to reduce the high cost of living, and besides can be made to supply in a palatable form a most healthful class of human food. By exercising care in the selection of varieties, and by carefully arranging the dates of sowing, a liberal supply of succulent vegetables can be provided for practically all seasons of the year. The variety of crop that will be grown will depend very largely upon the personal tastes of the grower and upon the amount of time he will have to devote to this phase of his work.

One of the first considerations in planting a garden is to determine the size. The important point in connection with the size is that it should be large enough to meet the demands of the household. Sufficient space should be provided to give a successive supply throughout the entire growing season. Conditions will vary somewhat, but one-half acre of well prepared soil, carefully planned should provide sufficient vegetables for the ordinary household.

The location of the garden is also an important consideration. Convenience of access, thorough drainage, suitability of soil and exposure are points that should receive consideration in the selection of the site of the farm garden. Good drainage and a suitable soil are probably the most important considerations. The soil, if possible, should be of a sandy texture and the land preferably should slope slightly to the south or south-east.

Much can be done to simplify the work of caring for a garden if the arrangement of the crops is carefully planned. Perennial crops such as asparagus and rhubarb should be placed in some place where they will not interfere with the other crops of the garden. A small Planet Junior cultivator is very valuable for work of this nature. A good garden soil should contain a liberal amount of sand. A moderate sandy loam makes an excellent soil for vegetables. The quality of vegetables depends, to a very considerable extent, on the quality of soil on which they are grown, as vegetables of much finer texture are produced on sandy soils than on those of a clayey nature. Sandy soil will stimulate a much earlier growth than the heavier clay soils. In districts where the soil is of a clayey nature the lightest land obtainable should be selected for the garden.

Cultivation.

The soil for vegetables cannot be too well prepared. Many garden seeds are very fine and require a finely prepared soil to give a good germination. For this reason it is better to use the same land, providing it is properly enriched for garden purposes for a number of years. The continued cultivation that is given the land brings it into excellent condition for the purpose of gardening.

Practically all garden crops are benefited by a thorough cultivation of the soil during the season that the crop is growing. The cultivation serves to destroy weeds, conserve moisture, which is very essential for garden crops, and maintain a finer physical condition of the soil, which is also very essential for the successful production of garden crops. This cultivation should be repeated at intervals of a week or two weeks all through the entire growing season, and may be carried on successfully with a hoe and rake or light garden cultivator.

Garden Seeds.

One of the difficulties experienced in gardening is getting good seed, and much of the success of any garden depends on the quality of the seed used. The seed men are not always to blame for this state of affairs, as in many cases the growers of the seed themselves are responsible. As a rule the best results are obtained from new plump, vigorous seed. The most important points to consider in connection with seed are its viability or germinating power and purity as to variety. Many seeds lose their viability in a few years, and a wise precaution is to test the viability of garden seeds before sowing. The matter of purity as to variety is one that has to be left to the honesty of the seedmen.

In sowing garden seeds, and especially if there is a possibility of the seed being old, it is well to sow an abundance of seed. This thick sowing is likely to ensure a much more reliable stand of plants than where a small quantity of seeds are sown. The excessive plants should be removed when the plants are young, usually when they are from two to three inches in height.

Transplanting.

On account of the shortness of the growing season it is necessary to sow the seed of some garden crops such as celery, cabbage, cauliflower and tomatoes in seed boxes in the house or hot beds outside early in the season that they may be started and transplanted to the permanent ground later on. This gives them a much longer growing season and allows them to come to maturity at the time they should be harvested. Seed of celery may be sown about the 1st of March or the latter part of February.

Cabbage and cauliflower seed may be sown later, or about the 1st of April. The main essentials in growing plants are to attend carefully to the watering and heat. The soil should be kept moderately moist and an average temperature of 55 to 60 degrees should stimulate good healthy growth.

To get the best results it may be necessary to transplant the young plants from the seedboxes to other boxes at least once before planting out permanently.

The plants may be made much more vigorous and in better condition for permanent transplanting if they are gradually exposed to the outside air for some time before being permanently planted out. This causes the young plants to become stock and resistant to outside conditions and will give good results when finally planted.

The final transplanting may be done about the 1st of June. If possible the work should be done in the evening or on a cloudy day. It is a good plan to give the young plants a thorough watering after transplanting and cover them over for a few days with some coarse litter to protect them from the excessive heat of the sun until they become established in the soil.

Storing.

The keeping qualities of vegetables depend very largely on the way in which they are stored. Most garden vegetables keep best when kept at a temperature slightly above freezing. Roots such as carrots, parsnips and turnips can be stored successfully in bins or boxes packed in dry sand. Celery, which is a difficult vegetable to store, may be kept very well by placing the bunches upright in a cool cellar and packing sand about the roots. Cabbage should be stored so that the air will circulate freely about the heads and thereby prevent decay.

Decaying vegetables should be removed from the cellar as soon as possible, as they frequently cause very disagreeable odors and may be injurious to the health of the members of the household.

HAGEL AND WESTLAKE GET THEIR SENTENCES

Three Years in the Penitentiary For One of Them and Two Years For the Other.

Three years in the penitentiary was the sentence imposed upon Percy E. Hagel, while John Westlake was given two years, by Justice Curran, in the criminal assize court Saturday morning. Both prisoners heard the court's judgment with little show of emotion, although on the faces of both there was a tense nervousness during the entire proceedings. After the motion for a reserved case had been refused, R. A. Bonnar, K.C.,

for Hagel, and Hugh Cutler, for Westlake, addressed the court briefly asking that leniency be shown their respective clients.

After the sentences were imposed, Mr. Justice Curran suggested that arrangements be made to keep Hagel and Westlake in the city pending the application which he understood was to be made to the court of appeal for a new trial. It was unnecessary, he believed, for the men to be at once conveyed to the penitentiary. Representing the crown, E. Anderson K.C., declared that the matter would be considered, and that he would confer with Mr. Bonnar regarding arrangements. Meantime both prisoners are confined in the provincial jail.

"It is the intention at present to appeal." This was the reply of R. A. Bonnar, K.C., last night, when asked whether it was the intention to make a motion to the court of appeal for a reserve case. According to Mr. Bonnar, however, no definite plans have been made as yet.

CLOSING OF HOTEL BARS.

Ontario Government Intimates It Will Not Allow Bill to Pass.

Toronto, Ont., March 20.—The proposal of W. McDonald, of Centre Bruce, to have hotel bars closed on Saturday afternoons and on all legal holidays, did not meet with favor from the government in the Provincial Legislature. In moving the second reading of a bill to this effect Mr. McDonald cited the case of the closing of the bars on Christmas day as proof of the great advantage which would accrue if the application of this principle were carried throughout all the holidays.

Hon. W. J. Hanna, provincial secretary gave a straight intimation that the government would not allow the bill to pass. He said the government was already keeping abreast of the minds of the people in temperance legislation.

LOCALS and PERSONALS

Miss Ollie Norris has been confined to her home during the past week through illness.

Mrs. S. Halsey entertained a number of friends at "five hundred" last Monday evening.

Mr. and Mrs. T. J. Converse left last Saturday morning for their new home at Sumatra, Montana.

Mr. George Walker, of Vancouver, is visiting Sidney this week-end as the guest of Mr. and Mrs. Simister.

Miss E. Griffin returned from Vancouver yesterday after spending a week with friends in the terminal city.

Miss F. Hall, of the public school teaching staff, will spend the short vacation in Victoria among her many friends.

Mrs. Donovan entertained a number of friends on Friday evening in honor of her guests, Mr. and Mrs. Converse, before their departure for their new home.

School closed for the Easter holidays on Thursday afternoon and will reopen again a week from next Monday, April 20.

Miss Logan, teacher of the High School, will spend the Easter holidays in Vancouver attending the teachers' convention and visiting friends.

Correspondents are kindly requested not to put American stamps on letters addressed to the Review office. They are of no value on this side of the line, according to the post office regulations.

Sands Funeral Furnishing Co., Limited, Funeral Directors and Licensed Embalmers. Prompt and courteous services night or day. Phone 3306. 1515 Quadra Street, Victoria. Lady attendant.

Mr. W. Peters, the well known piano expert of Victoria, announces that he will visit Sidney shortly and attend to a number of pianos and organs. Those desirous of availing themselves of Mr. Peter's visit are advised to leave orders at Mr. J. Critchley's store.

Mr. F. Waring, the Victoria representative of Smith, Davidson & Wright, wholesale stationers and paper dealers, of Vancouver, paid Sidney a business visit on Thursday. He was accompanied on the trip, which was made by automobile, by Mrs. Waring, and they thoroughly enjoyed the day's outing.

The Photo-Drama of Creation at the Royal Victoria theatre has been very much enjoyed by those privileged to attend during the past week. This wonderful picture play deals with the world's development from creation to the time of Christ. It is free to all both afternoon and evening and the closing performance will be held on Sunday evening next.

On Wednesday last, a Chinaman in the employ of the Brown Shingle Mill Company, had the misfortune to get his right foot caught between two large cog wheels, resulting in the loss of several toes. Dr. Cumming was called to attend to the injured man who was sent to Victoria for hospital treatment.

Mr. S. H. Mitchell, secretary-treasurer of the Alpine Club of Canada, returned to Sidney early in the week after spending several months in England for the benefit of his health, and we are pleased to state that he has received great benefit and comes back to his work in much better health than when he went away. On his way back he stopped off at Winnipeg and Calgary to attend the annual banquets of the clubs at these places. He reports having had a splendid time.

Among the visitors from Victoria on Tuesday of this week were two ladies, and while their automobile was receiving the expert's attention they proceeded to get a skate on—not the kind, of course, that vulgar men stoop to, but of the fish variety on the end of a line. They landed him, too, after wasting several pounds of ammunition supplied by a local youth, in trying to shoot him under several feet of water. A photograph of the ladies holding up the monster fish was taken and will very likely appear in the Victoria dailies.

Mrs. Fletcher North will not be "At Home" on Tuesday, or again during the summer months.

PROGRESS BEING MADE.

Mr. H. P. Allberry has returned to Saanich after a three months' absence spent in the employ of the Provincial Government. While in Sidney on Tuesday last he gave out the information that the work of levelling the athletic field at the Saanich fair grounds had been almost completed during his absence and now presents a smooth, level surface, which is being seeded down and will be in splendid shape during the late summer and fall months. The work was entirely voluntary, and Mr. Allberry wished to extend the thanks of the Agricultural Association to the members who had taken upon themselves the performance of this undertaking.

NEW PASTOR ARRIVES
FOR PRESBYTERIAN CHURCH

Rev. W. G. W. Fortune Will Shortly Take Up His Residence in Seaside Town.

Word was received in town early this week that Rev. W. G. W. Fortune had accepted the invitation extended to him by the Presbyterian congregation of Sidney to become their pastor and he will immediately take up his residence here with his family.

Rev. Mr. Fortune prior to coming to Vancouver Island to reside, was for a number of years travelling secretary for the Lord's Day Alliance Association for the Western Provinces and during his term of office paid several visits to British Columbia. He is at present living in Victoria.

His first sermon to his new congregation will be preached next Sunday afternoon, in Berquist's small hall at three o'clock.

At a meeting of the congregation held recently it was decided to change the hour of service from three in the afternoon to seven o'clock in the evening. This change will go into effect on Sunday, April 19th for the summer months at least.

LADIES OF LODGE ENTERTAIN

A very short business meeting was held at the Sidney Lodge of the International Order of Good Templars on Monday evening last, the lodge being closed in ritual form at 8.45.

The sisters of the lodge had taken upon themselves the entertainment for the evening and no trouble had been spared in the effort to make the evening a thoroughly enjoyable one. Several games had been prepared and the first was one which, whilst allowing for very much amusement, required a superabundant knowledge of the names of places, authors, flowers and various other things. Mr. Lee proved himself to be proficient and having more punches in his tally card than any one else, was awarded a prize at the close of the evening. Another interesting game was one of the species called "conversation." A number of topics for discussion were printed on cards and the latter were distributed among the guests. Everybody had a partner for each different topic and a certain length of time was allowed for each subject. A ballot was taken at the end and the lady and gentleman who were voted the best conversationalists were awarded the prizes, many of the people wished they had taken the game more seriously, no doubt.

A light lunch was served during the evening and was almost as enjoyable as the games were. The party unwillingly broke up at a late hour, everybody looking forward with pleasure to an equally enjoyable evening sometime in the near future.

HARRY MUENCH WINS
SAANICH CHAMPIONSHIP

Seven Minutes and Forty Seconds Taken to Cover a Mile in a Rowboat.

It is not often that sculling championships are decided on the waters of the Gulf opposite Sidney, but last Saturday was an exception to the rule, when Mr. Henry Muench met and defeated Mr. E. L. McKenzie, both of Deep Cove, in a one mile sculling race. The course was from Robert's Point, one mile straight north of the town, to the wharf at

the foot of Beacon avenue, and considering the fact that the sea was a little rough the boys made remarkably good time by covering the course in seven minutes and forty seconds.

Messrs. Hocking Bros., brought the rowers and their boats around from Deep Cove in their launch "Kim," and acted as a tow to the starting point, after taking on board at the wharf Mr. F. North, who acted in the capacity of starter and time-keeper; Mr. P. N. Tester, the promoter of the race and donor of the silver medal offered as a prize; a press representative and several other gentlemen who were keenly interested in the race, while Messrs. W. Warne and C. Moses remained on the wharf as judges.

A very large crowd gathered on the wharf to see the finish and they were not disappointed, as the race was close and exciting.

The boys started off well and for the first half they rowed side by side with scarcely an inch of difference, but after that Muench began to gain a little on his opponent and gradually forged ahead until he was about one length in the lead, and there he remained until within a short distance of the finish when he made an extra effort and crossed the line about four lengths ahead, winning the handsome silver medal which he will be able to display in the future as champion sculler of North Saanich.

NEW METHODIST CHURCH
WILL BE

The Dedication Service Will Be Held at 7.30 o'clock, Sunday, April 12th, at the new Methodist Church, of Victoria—A Social Service Evening In Aid of the

Next Sunday at 11 a.m., the special dedicatory service in connection with the opening of the new Methodist church on Third Street, will be conducted by Rev. C. T. Scott, B.A., D.D., of the Metropolitan Methodist Church, Victoria, assisted by Rev. R. Wilkerson, of Strawberry Vale, chairman of the district. The building will be presented for dedication by the building committee, composed of Messrs. Armstrong, McDonald, Simister and Neal. Rev. R. Wilkerson will conduct the evening service at 7.30 o'clock.

An augmented choir will lead the service of praise and render special music both morning and evening. The day is anticipated as a great religious uplift.

While special offerings will be received on behalf of the building fund the emphasis of the day will not be financial, but spiritual, and all Christian people are asked to unite in prayer.

WORK STARTED LAST
MONDAY ON SAANICH ROADS

Ten Men and Three Teams Are Now Employed in the Grading Operations.

As announced in last week's Review government work on the North Saanich roads started last Monday morning under the direction of Road Foreman A. R. Trowsse. The gang on the start consisted of only eight men, but during the week several more were added and it was also found necessary to employ three teams of horses, making a total of thirteen men in all.

The first road to receive attention was that leading from Capt. Curtis' place east. This road had been previously rough graded and it is the intention to level it off and surface it with gravel for the time being, the same as has been done on the other roads of the district.

The Davis road is also being surfaced and put in shape for travel, part of the gang working there and the balance on the Curtis road.

Mr. Trowsse stated to a Review representative that it was his intention to employ a few more men next Monday and the same policy adopted last week of giving the married men first chance will be followed out. As soon as operations are in full swing it is the intention to employ quite a number of men and the single men who are out of employment around this part of the peninsula will then be given an opportunity.

IT WAS A BIG EGG.

Mrs. J. H. Williams, a recent arrival in our town, and a poultry fancier, went to the Review Office this week for our inspection an egg—not an every-day ordinary product of the feathery tribe by any means—and we were astonished when we took the measurements of this particular egg. It measured seven and a half inches in circumference one way and six and three-eighths inches the other, and it weighed exactly three and one-half ounces! This is only one of the many eggs Mrs. Williams gets from her magnificent pen of White Wyandottes. Can you beat it.
