## IN REGARD TO THE STREETS AND THE STREET RAILWAY

Chief Engineer Gaby Says Some Local Opinions on Clauses Are Absolutely Wrong and Asks for Careful Consideration of Language in the Same.

MEETING HELD HERE LAST EVENING

The Hydro Radial by-law was explained at a meeting of ratepayers in the Merchants' Bank Hall last evening by two representatives. Mr. T. J. Hannigan, secretary of the Hydro Radial Railways Union, and Chief Engineer Gaby of the Hydro Commission.

The explanation offered by the Chief Engineer of clauses in the by-law was an absolute denial of the contention, by the city solicitors, Mr. Hannigan's statements also included such a denial. Mr. Gaby said it was never intended that clause (e) of section 2 should include streets. He read the clause which is as follows:

"To furnish a free right of way for the railway and for the power lines of the Commission over any property of the corporation upon being so requested by the Commission and to execute such conveyance thereof or agreement with regard thereto as may be desired by the Commission."

Mr. Hannigan, who preceded Mr. Gaby, also presented similar arguments about the clauses. He said that the municipalities are further protected in the control of their streets through the watchful eye of the Dominion Railway Commission.

Mr. W. H. Breithaupt, C.E., who is known, is not impressed with the proposition from an engineering standpoint, asked for permission to speak briefly. Mr. Hannigan said that he might ask questions which he would try to answer but he could not speak as the meeting had been called by the Hydro Radial Union.

Mr. Breithaupt said the figures on the surplus of the London and Port Stanley lines as read by Mr. Hannigan, and as submitted to the Dominion Government did not tally. These were in the first case: 1916—\$23,914; 1917—\$23,503; 1918—\$26,581.

Mr. Gaby asked about clause 0 of section 1 also took issue with some opinions. He read the clause. It is as follows: "Provided always that as part of any line of railway to be constructed and operated by the Commission, the Commission may purchase, lease or obtain running rights over any steam railway, electrical railway, or street railway or any part thereof."

Nothing Without Consent. Mr. Gaby added: "Now that says the Commission may acquire. But it says nothing more. What it does imply is the fact that the Commission may acquire a railway but there must be the owners' consent. It does not say the Commission can do so without the owners' consent. The assertion that that clause empowers the Commission to take over your street railway is absolutely wrong."

Mr. Hannigan said that he pointed out how the chairman of the meeting.

Waltz many colored paper ribbons were shot from the galleries and caught up by the whirling dancers. The red, white and blue effects were wonderfully realistic.

Of the music we can only express our thoughts by saying it was grand. Each number had been carefully selected by Mr. Krug and he could not have picked more appropriate numbers. The program included numbers of a lighter strain up to "Barcarola," from "Tales of Hoffman," the last mentioned selection being rendered for the K. of C. Waltz, the closing number of a program that has never been surpassed in this city.

As we have already mentioned three hundred couples accepted the invitation of the Committee and there was not one but had words of congratulation for the thoroughness with which everything passed off. Between 11 o'clock and 1 o'clock an excellent buffet luncheon was served arrangements being provided in the balcony where Caterer Bevan and his efficient staff looked after the wants of the many guests. The pleasing function came to a close with the singing of the National Anthem about 3 a.m. Special cars were provided for the Waterloo guests.

The committee to whom great credit is due for the successful carrying out of the entire program were Messrs. W.R. Moore, Harold Young, John Dorschel, Oswald Lyles, W.O. Winterhald, Louis Schwartz, Harold Feherbach, J. Cooper J. Huok.

## HOPE TO RESCUE FIVE MEN IN PERIL

ST. JOHN'S, Nfld., Dec. 30.—Hope for the rescue of the five men of the Belgian Steamer Anton Van Driel who have been lashed to the bridge of the wrecked vessel off Saint Shotts since yesterday was renewed today when daylight showed the storm passing and the sea calmer. It was believed that the steamer sent from here would reach the scene of the wreck early to-day and there was a chance that her boats might be able to take the men ashore.

Later—Three men have been rescued from wreck of the Belgian Steamer Anton Van Driel. They are the only survivors of crew the of twenty-nine. All were terribly frozen from long exposure on the bridge which was the only portion of the vessel remaining above water.

## ORDERS COMING THICK AND HEAVY

(Special to the Record). Montreal, Dec. 30.—Ontario will be literally flooded with liquor after New Year's day. Orders have been pouring in at such a rate that no distributor got a telegram this morning to accept no more orders until further notice. The message came from a big distillery in Ontario and gave the reason that it was too congested to fill the demands of customers for the present.

The flood gates will be opened on Thursday and it is apparent to the most inveterate prohibitionist that there are thousands of people in Ontario who are fond of their "little dram." There are about a dozen well known liquor dealers here from Toronto, and one of them said this morning that he sold five thousand cases of whiskey yesterday afternoon. Five thousand cases is equivalent to ten thousand gallons, enough to make a whole city tipsy.

## FOSTER OR CALDER

Ottawa, Dec. 30.—It is authoritatively stated that the choice of an acting Premier will be made this week before the departure of Sir Robert Borden. The choice would naturally fall on Sir George Foster, but it is not definitely known that he isn't desirous of assuming the responsibility for such long period. In the event of Sir George declining Hon. J.A. Calder is mentioned as a probable choice.

(Special to the Record). Ottawa, Dec. 30.—Opinions differ as to the present status of the Dominion federal election machinery.

WORLD'S MOST POWERFUL ELECTRIC LOCOMOTIVE.—In a test at Erie, Pa., this huge electric locomotive shovelled two powerful locomotives backward with its throttles wide open. It was built by the General Electric Company. It uses 3,000 volts direct current and has a horsepower of 3,240.

## REGARDING ELMIRA AND CONNECTION WITH NORTH

It is up to the Municipalities Says Chief Engineer Gaby. Survey if They Ask For. Guelph and Other Northern Points Have Done So.

## AN INTERESTING MAP.

"It is up to the municipalities in this district and north of Elmira, if they want connection and it is found in a survey that such a line would be practical, they would get it. The Hydro Electric Power Commission in fact could not do anything else but build the line," Chief Engineer Gaby said last evening when asked about the prospects of extending the proposed electric Elmira line north to give connection with Georgian Bay.

Kitchener citizens when they looked at a big map of hydro radials prepared by the Hydro Commission, noticed a network of lines either authorized for construction or voted on and passed or to be submitted to the people. This city of course is on the map but one end, Elmira, would be the stopping place. Next are the city's neighbors, Guelph, with a line in this fashion, which is proposed by Deputy Reeve Joseph Arthur; at Arthur there is a fork one prong running up to Owen Sound and another more easterly to Collingwood; Owen Sound and Meaford to the east are connected by a link from which also runs either north or easterly to connect with the Arthur to Collingwood line. A splendid network of roads which would fulfill every purpose to the disadvantage of Kitchener.

## CAN U. S. LIQUOR COME TO CANADA?

(Special to the Record). OTTAWA, Dec. 30.—Much anxiety apparently exists as to the ultimate fate of the hundreds of millions of gallons of intoxicating liquors in the United States at the present time. After January 17th this liquor cannot even be moved from one place to another within the country, for after that date the United States goods absolutely banded. If the United States owners could ship the liquor into Canada and bond it here before the 17th, it could subsequently be exported to Great Britain, France and any other country when exchange conditions had improved.

## BORDEN DEPARTS QUIETLY ON TRIP

Neither Time of Departure Nor Destination Known. (Special to the Record). OTTAWA, Dec. 30.—There will be no public farewell to Sir Robert Borden when he leaves the city capital in search of health and renewed strength shortly after New Year's day. His departure will be as free from ostentation as possible owing to the fact that the Premier desires that neither the time of his departure nor his destination be known. So far as it is possible he wants to travel and to holiday incognito.

## Become Great Medical Authority. Favored Retirement of Men Over Sixty.

Oxford, Eng., Dec. 29.—Sir William Osler, the noted physician who has been ill for several weeks past, died here this evening.

Sir William Osler lived in Baltimore from 1889 to 1905. He was professor of the principles and practice of medicine of the Johns Hopkins Medical School and physician to the Johns Hopkins Hospital. In that period he attained eminence in the world and a position in this country which has rarely been approached by anyone. His great professional ability, his vast learning in his chosen field and in the whole broad cultural fields, and his humor and humaneness made him truly a contemporary tradition. He was quoted at home alike for his wisdom and wit. Countless delightful stories were heard—and many of them still live—what he had said or done in clinic or classroom or at dining table. Sir William and Mrs. Osler, with their only child, Beverly, then a small boy, who died heroically in the war, lived in a fine old Colonial mansion at Charles and Franklin streets, where the Rochambeau now is located.

When he left Baltimore and Johns Hopkins to accept the post at Oxford he said, "The tie is loosened, not severed." Baltimore, as well as the Hopkins men in Baltimore, ever have felt that way about his absence. His going and coming were never far from the minds of those who have been chronicled there. When the war overtook England Sir Osler threw himself into his country's service with all his powers and enthusiasm. He early saw that more than patriotism was at stake; the civilization itself was in the balance, and his influence reached out to this country to aid those who fought and those who suffered. He and Lady Osler did notable work in behalf of the refugees from Louvain University.

Sir William was born in Teignmouth, Devon, on July 12, 1827, the son of a minister. He was graduated at Trinity College, Toronto, in 1868. He began his medical studies at the Toronto School of Medicine and later studied at McGill University, from which he was graduated in 1872. He studied abroad thereafter, and returning in 1874, was appointed to the faculty of McGill. Four years later he was named physician to the Montreal General Hospital and took up his work in clinical medicine. In 1889 he became associated with the University of Pennsylvania, where until 1889 he was professor of clinical medicine. In 1889 began his great service at Johns Hopkins, where he was one of the famous four members of the faculty whose group portrait, painted by Sargent, now hangs in the university. The other members of the group were Dr. Welch, Dr. Kelly and Dr. William B. Hall.

Sir William Osler is the author of a number of books. One of them, "The Principles and Practice of Medicine," first published in 1892, has gone through many editions, and is a classic. Dr. Osler also is the author of about 700 articles which have appeared in journals.

### GLIMPSES INTO SOLDIER SETTLEMENT

Mataqui Training Station.

The Soldier Settlement Board of Canada has purchased the farm of the Hygienic Co., at Mataqui, B.C., and has established a station where prospective soldier settlers will gain further practical experience before taking up farms of their own.

The Board has purchased a herd of thirty cattle and other livestock and installed the necessary farm equipment. The farm comprises 510 acres in the Fraser Valley, about 50 miles from Vancouver. About 50 soldier settlers will have quarters there while training.

Shore, Western Director of Lands of the Soldier Settlement Board, recently visited the Porcupine Soldier Settlement in Saskatchewan. He found the settlers getting along well and pleased with the district. The Porcupine was opened in July last. B.C. Wormworth of Prince Albert, has been appointed administrator of the district and is helping the settlers to solve their winter problems.

IN THE DAY'S NEWS. Sir George Paish, who has come to America on a mission connected with the economic situation in Europe, is recognized as one of the best authorities on economic subjects in Great Britain. For many years he was one of the editors of the Statist, a leading financial paper of London. He has paid several visits to the United States and Canada and has made a close study of financial conditions in both countries. The honor of knighthood came to him in 1912 in recognition of his work as an economist and statistician. During the war Sir George rendered important services to the British Government and to the United States and probably no one has done more than he is to bring the present situation in Europe vividly before the public. He is the originator of the idea of providing international credits to enable the central Europe countries to re-establish their industries and generally to rehabilitate themselves.

Comments on Bylaw Favorable.

Very little adverse criticism is being heard on the streets in regard to the Hydro Radial Bylaw and supporters of the Bylaw feel sure that it will carry by a substantial majority. Those who were present at the meeting, when Engineer Gaby and Secretary Hannigan explained the terms in their entirety, were convinced that everything was fair and above board and the town council makes no mistake in lending all support possible to put the Bylaw through. It was unfortunate that the meeting had not been advertised longer in advance but we believe it has been given prominence enough to carry the Bylaw through fine.

KISS AND MAKE UP!

Toronto, Dec. 30.—The Farmer-Labor Government has weathered its first storm. The controversy the appointment of Miss Walker as Registrar of Middlesex county is at an end. This was brought about yesterday afternoon by a conference between Premier Drury, Hon. Manning Deberry and Hon. W.E. Roney and Mr. Currie, U.F.O. Organizer of St. Catharines, and Mr. Morrison, Secretary of the U.F.O. As a result of this meeting harmony has been restored to the U.F.O. ranks. Miss Walker's appointment stands and the Government is more determined than ever to abolish patronage. The cause of the flare-up, which for a time looked as if it might force a crisis in the Government, is traceable to the election campaign, when there was much bitterness between the candidates in Middlesex.

### OBITUARY

MRS. JOHN GABEL

There passed away last evening at New Hamburg, Ont., John Gabel of Nihburg. Her death occurred at the home of her daughter, Mrs. Levi Hofstetter.

Mrs. Gabel was 78 years. She was known as Lydia Feik before her marriage and was born at Wilmot Centre. Since her marriage to Mr. Gabel fifty years ago she had resided at Nihburg. The husband died six years ago.

Surviving her are eight children, Mrs. Drury of this city, Mrs. Drury of Nihburg, Mrs. Drury of Nihburg.

Funeral will be held on Thursday, January 1st, at 12.30 p.m. from the residence of Mrs. Hofstetter in New Hamburg to the Lisbon Cemetery.

### FARMERS PLAN CONFERENCE

Following This Hon. W.L. Mackenzie King and Hon. Arthur Meighen Will Tour the West.

Winnipeg, Dec. 29.—With the appearance next week of Grain Growers at the inter-provincial conference in Winnipeg, followed by Messrs. Meighen and King on tour through the West, new political developments are anticipated. Jan. 6 is the date on which delegates from Ontario and the West will assemble here to plan their policy and campaign. A full representation from the prairies is assured, and from Ontario, Premier Drury and other members of his Cabinet are expected. Even Quebec is expected to send Grain Grower delegates to the inter-provincial conference.

This is the first formal new national party gathering of the farmers, and probably the most important feature is to settle a vow in public the attitude on the economic ous grouping proclaimed with so much energy by H.W. Wood, president of the United Farmers of Alberta, and denied with equal force by J.A. Stewart, president of the grain growers, in his public speeches.

Meighen and King are expected to go through to the coast, making probably five speeches in each province, not together of course, Meighen following the Liberal leader. Considering the interest aroused in Federal politics these two representatives of the big forces are expected to have large crowds at their meetings.

### Better Than Nothing

The moonlight shone on the lonely house on the hill, where all was peacefully hushed in sleep.

A dark form set in the shadow of the hedge. Suddenly he moved as a soft whistle heralded someone's approach.

"That you mate?" she whispered, hoarsely, as a stealthy figure approached in the darkness.

"Yes," came the answer. "What yer doin' with that dog?" he muttered as his burglar pal approached.

"Well," answered his confederate, "here's nothing worth taking in the 'ouse, and its bad luck to come away empty-handed, so I brought along the watch-dog and these burglar-alarm!" —London Tit-Bits.

FOR COUNCILLORS. John Geiger—By John Jacobi and Henry Preis. John L. McKay—By James Beggs and Peter Lenhard. James Begg—By Wesley Cathcart and Frank Schumner.

The Prince of Wales Flag. Before the ratepayers meeting was opened an adjournment was made to the entrance of the Township Hall where Reeve John Reidel raised the Prince of Wales Flag, which was won by Wesley Township during the recent Victoria League drive. Suitable addresses were made by the Reeve and Council and also Messrs. F. Lackner, John Hartlieb and J. T. Wilford.

Returned to the Township affairs, Reeve Reidel gave a review of the County Council work during the year and also touched on Township matters. He was followed by Deputy Reeve Schumner, all Councillors Petch, Neeb and Knight.

Mr. Fred Lackner, the other aspirant for the reevehip was next called and criticized some of the work of the reeve and council during the present and past years. He was followed by Jacob S. Meyer, who claimed that he would succeed out of the job at the last election and would try again. If there was an election, John Geiger also stated that he would run but would not be the cause of an election. James Begg asked to have his name withdrawn.

Mr. Gavin Barbour was then called upon and spoke on provincial affairs and suggested the new U.F.O. Government and also offering some valuable suggestions to the incoming council.

At the close of the meeting it was moved by Mr. Frank Schumner of Elmwood, and seconded by Louis Baechler, that a resolution be drawn up and presented to Mr. and Mrs. A. E. Borchert of Wellesley, congratulating them on their golden wedding anniversary, which will be on New Year's day. The motion was passed unanimously.

WELLESLEY POLICE VILLAGE NOMINATIONS. A record crowd attended the police village nominations at the Town Hall on Monday evening. Two candidates were nominated for the Light and Power Commission and ten for Police Trustees. One of the former is to be elected and three of the latter. The nominations were as follows:

For L. & P. Commission. Norman S. Fleischauer, Peter A. Wagner.

For Police Trustees. Wilson R. Omand, William Dingwall, Michael S. Williams, Jacob Logz, August Freeman, Herman Gerb, Michael Schaub, George Hegen, Andrew Edla, Levi S. Lichty, Norman S. F. Fleischauer.

Mr. M. S. Williams gave a detailed statement of the police village affairs and Mr. N. S. Fleischauer gave a lengthy report on the progress of the local Hydro Electric Commission. All the other candidates present gave brief addresses.

### THE SUPERINTENDENT HONORED BY STAFF

Superintendent Fox of the Ahrens Shoe Company recently was surprised at the factory by the staff of the company. The following words of appreciation of his association with them are from the address read by Mr. Titball Mr. Hoffart, making the presentation:

Dear Mr. Fox:— Here we are, all gathered together again at this Happy Season, happy because it is Christmas time, but with additional happiness for us, because this gathering affords the opportunity of showing in a very small way our appreciation of your many considerations for us, shown during the past year and your many trying experiences all borne with a smile.

We are all going to promise to try to help you have things go really smooth next year, and as a token of our sincerity we present you with the Shaving Set. If any of us do not live up to this promise, we want you to make use of this.

That this may be the Very Merriest Christmas and the Happiest New Year you have ever had, is the wish of

Your entire Staff of The Ahrens Shoe. Forelady Also Honored. A similar form of honor was shown the forelady of the company, Miss Mary Huebschman, the following address being read by Miss Annie Rejefski while the presentation was made by Miss Clara Blumen:

Dear Mary:— How glad we are to be able to again gather around you, as we have this happy season in past years, to show in our humble way our appreciation of all you have done for us. Your patience, your pleasing disposition and untiring efforts in our behalf have all had the effect of bringing us so close together, as if we were one family, even though at times little misunderstandings have occurred.

Please accept this little gift, from which we trust that we may induce that when another year has gone

## "SWAT THE COLD" A HEALTH SLOGAN

Health Authorities Are Back of Campaign which Covers Entire Continent.

The familiar "Swat the Fly" slogan is now being revised by health authorities and the public is being advised to "Swat the Cold" in winter as heartily as they "swatted" the fly in summer.

Behind the movement is the desire to check the possible spread of "flu" by the prompt treatment of every case of cold. The symptoms of the "flu" in its early stages are the same as those of a bad cold and last year the "flu" reached an advanced stage in many cases before the patient realized that the trouble was more serious than a cold.

"If every person would get busy as soon as a cold develops and use home remedies to break it up, we wouldn't hear so much about 'flu,' says one Eastern official. "It would do wonders and that quickly."

Colds in the head or the "flu" in its early stages are promptly and effectively treated at home by the use of Grip Fix. This is not a patent medicine but a combination of drugs such as would be used by any physician. It comes in capsule form and relieves a cold in the night and acts promptly in case of Grippe.

At this time of the year every home should have a box of Grip Fix. It is on sale at all drug stores, where it sells for 35 cents per box.

Mr. W. C. J. M. and Master Raymond Gerbig left for Detroit today after spending the holidays with their mother, Mrs. Geo. Gerbig.

The chemistry of the present day had its origin in the old-time alchemy, which had for its main inspiration and object the discovery of some means by which the alchemists might effect the transmutation of the base metals into gold.

Your patience, your pleasing disposition and untiring efforts in our behalf have all had the effect of bringing us so close together, as if we were one family, even though at times little misunderstandings have occurred.

Please accept this little gift, from which we trust that we may induce that when another year has gone

## EDITORIAL

**The Radial By-law**  
In a previous article we expressed the opinion that the radial by-law would give the control of our streets into the hands of the Ontario Power Commission. The Commission itself disclaims this power but our contention is now fully borne out by the legal opinion of the City Solicitors.

Moreover, as we also stated, no letter of assurance to the contrary which may be given by the Commission to the City, can legally over-ride the by-law itself. From a legal standpoint, such a letter would not be worth the paper it was written on. No doubt Sir Adam Beck would feel morally bound by it, but that would not be an entire safeguard. Sir Adam is human and is subject to human ills. We hope he will be able to give the people his valuable services for many years, but some day a change will come. When it does, the only agreement in a big proposition of this kind should be one that is binding in law.

The whole situation is embarrassing to the friends of hydro radials.

**The United States Efforts are being continued in the United States to arrive at an understanding so that peace may be declared.**

The following suggestions are now made by a leading Senator as satisfactory modifications of the Treaty of Peace:

1. That the domestic affairs of the United States are never to be taken under the jurisdiction of the League.
  2. That the Monroe Doctrine is to be unaffected by the provisions of the League.
  3. That if the United States is engaged in a dispute with any nation having self-governing colonies, dominions or parts, each with a vote, all of those votes are to be disqualified just as the vote of the United States is to be disqualified.
  4. That the powers of Congress to declare war remain unimpaired.
  5. That the League has no control over the American Army and Navy.
  6. That the United States, if it should desire to withdraw from the League, is to be the sole judge of whether it has performed its obligations so as to give it the right to withdraw.
- To the unprejudiced reader, the above provisions appear reasonable, nor can we see how an independent nation could well demand less. Surely the making of war and peace must rest with the elected representatives of the people. It will be so in the United States. It ought to be so in Canada.

## COMMENT

It's easier to go back than to come back.

One more day of uncertainty for the candidates.

Lots of people say things they ought to be ashamed even to think.

Of course you are not a betting man, but if you were, who would carry your money in the Mayoralty race?

They tell us that it is a better chicken-show than ever. The crowing contest ought to attract the would-be aldermen.

The professors are looking for another planet. Hope they don't find another Mars, the war planet.

Nowadays when we order a suit of clothes we feel like kicking Adam for having eaten that apple.

In this happy Christmas season 25 millions of human beings are starving in central Europe.

It does look as though the patronage system cannot be dismissed with a wave of the hand. Even a farmer has his little human weaknesses.

Wheat has just increased another 50cts. in price. We wonder why. Bakers say it may mean two cents advance in the cost of a loaf of bread. Take your belt in another notch.

Other things being equal, the man who have given faithful service in the City Council should have the first consideration for the Mayor's chair.

There were six highway robberies in Toronto early Sunday morning. Can't the profiteers make enough money with desecrating the Sabbath?

In Hamilton it is recognized that the Radial by-law gives "absolute control over its transportation facilities by the Provincial Hydro Commission."

Don't wait until you get into the polling booth before making your choice of candidates. The Mayor and Council of this good city are a great factor in our prosperity and municipal well-being and their selection is worthy of careful consideration.

In China, where foot-binding of female children has been the custom for ages, the boys are now pledging themselves that they "will not marry a woman with unnatural feet." If Canadian boys made a similar vow, would there be consternation among the young ladies and would the pretty shoes and slippers with pointed toes and high heels become a drug on the market?

Says the Bracebridge Gazette: So Canada will have no premier. Sir Robert Borden will draw the salary and bear the title while living in a foreign country. But he will not be premier in reality. There will be no premier. And yet that party holds power. With their putrid political flesh falling from their decayed political bones, those Canadian "Honorable" refuse to be buried. In fact, they cannot even do that. They so de-veiled the franchise laws to bring into existence the War Time Election Act that they have now no election act. By their own crookedness they have made it impossible yet awhile to obtain their own burial certificates.

## WHAT OTHERS SAY.

**Where Good Roads Come In.**  
(Christian Science Monitor.)

It is an ill wind that blows nobody any good, and so it is with the British railway strike, which has proved a blessing in disguise. After the war the Government found itself possessed of great numbers of motor vehicles, and in the national emergency of the strike nearly 25,000 of these were hauling merchandise about the country. As a result, the Road Board in Britain, in order to facilitate traffic, widened the roads, cut down hedges obstructing the view at cross roads, and prepared for new streets to divert the abnormal traffic from the constricted "bottle-necks" where jams were experienced. So the motorist will now proceed along the highways and byways of rural England in greater safety, and motor lorries, having been found so efficient in clearing the docks of congestion, will be used for this purpose to a much greater extent than formerly.

**Can These Awful Things Be?**  
(Saturday Review, London.)

It is needless to say that the Canadian press married our Heir Apparent to at least three young ladies by name; and hardly a newspaper omitted the headline: "Is it a Royal Romance?"

Dire were the social feuds left in the track of the illustrious tourist. At Windsor, Ont., the president of the Canadian Ford Company, we are informed, drew lots for 250 out of 2600 applicants to dine with the Prince, and one lady wrote that she had a special claim to be invited because she was "familiar with fingerbowl and English etiquette." At another place, which will be nameless, the governor's lady had long been at war with female society. But when the Prince landed she was de par le Roi the first lady in the province, and dealt out remorseless punishment to her foes.

### The Better Way.

It is better to lose with a conscience clear Than win with a trick unfair;  
It is better to fall and to know you've been, Whatever the prize was, square,  
Than to claim the joy of a far-off goal And the cheers of the standers-by,  
And to know down deep in your inmost soul A cheat you must live and die.

Who wins by trick may take the prize,  
And at first he may think it sweet,  
But many a day in the future lies  
When he'll wish he had met defeat,  
For the man who lost shall be glad at heart  
And walk with his head up high,  
While his conqueror knows he must play the part  
Of a cheat and a living lie.

The prize seems fair when the fight is on,  
But save it is truly won  
You will hate the thing when the crowds are gone,  
For it stands for a false deed done,  
And it's better you never should reach your goal  
Than ever success to buy  
At the price of knowing down in your soul  
That your glory is all a lie.

## PALE CHEEKED WOMEN TOLD ABOUT RESTORING A ROSY COMPLEXION

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appearance. At that time there was no blood-food medium made that really would put color and strength into systems that were more or less worn out.

To-day it's different. The blood can be quickly nourished, can be made rich, red and healthy. All you have to do is take two Ferrozone Tablets with a sip or two of water after meals. The effect is almost magical.

Mothers, look at your children. Are they ruddy and strong—do they eat and sleep well, or are they pale, weak, and anemic?

FERROZONE will rebuild them. Take your own case—is your blood strong and rich? Have you that old-time strength and vigor, or are you somewhat under the weather?

FERROZONE will supply the strengthening elements you require. It is a blood-forming, nourishing tonic that makes every ailing person well.

FERROZONE is a marvellous remedy, it contains in concentrated form certain rare qualities that especially fit in cases of anemia, poor color, thin blood, tiredness, and loss of weight.

Every day you put off using FERROZONE you lose ground. Get it today, sold in 50 cent boxes by all dealers, or by mail from the Catarothone Co., Kingston, Ont.

**It Works! Try It**  
Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezons, the latest discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the finger.

Ask at any pharmacy for a quarter penny of freezone, which will cost very little, but is said to be sufficient to rid one's foot of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

## INDUSTRIAL COURT PROPOSED

Topeka, Kas., 9.—Letters of inquiry received at the offices of the State executive from public officials, industrial leaders, representatives of labor organizations and others in all parts of the United States, indicate a widespread interest in the special session of the Kansas legislature called by Governor Allen to meet a week from today. The purpose of the session will be to enact legislation creating a court of industrial relations which will take charge of any disputes in essential industries in Kansas. The proposed legislation will offer a wide departure from any previous legislation in the United States. The only counterpart to the proposed Kansas plan is found in the industrial courts of New Zealand and Australia, and the lately created industrial court in England.

The proposed industrial court is to be the direct representative of the public and is to have no connection either directly or indirectly with labor or capital. Only the most essential industries are

to come under its jurisdiction, such as transportation and the production of food, fuel and clothing. The bill declares these industries so affected by the public interest that the State proposes to take complete control whenever the public welfare is endangered because of the employers and employees not being able to reach an agreement as to wages, hours, or conditions of labor. The State may take the property of the employer and operate it under a receivership, or it may summon the employees, fine them, or put them in jail for conspiring to reduce or hinder production in the essential industries where by the public welfare might be put in jeopardy.

The bill establishes the responsibility of contracts on the part of labor, and declares for collective bargaining. The State may take charge of the funds, supervise the conduct, and even dissolve any labor union which attempts to conspire to hinder production. So long as the union conducts its campaign for better wages, better working conditions, shorter hours, or other matters, through no nation, the State cannot interfere with its actions. The court will have supervision over questions of union

jurisdiction whereby an industry might be tied up through quarrels over what craft should do certain work. Sentiment expressed by the public, the newspapers, and the members of the legislature indicates that the plan for the industrial court will probably be adopted in its essential parts by the legislature, although there be some variations in details.

### The Bride of Llewellyn

"I will, if you continue quiet but otherwise I must be silent. Well, on the morning of the day upon which you received the injury that brought you here, you met with a strange adventure—The first moment it by any regular links of memory with any of my past life! Those two visions, or nightmares—before the brownstone man—stand separate from all my past life. I can remember nothing immediately before or after either. Sister, I mean, if you know, what followed?"

"It seems that when the lady fainted at the sight of you and the marriage stopped, you were frightened by the effect your presence had produced and you withdrew from the church and went back to work on the building, but that you seemed as one in a trance, until, being on a high scaffolding, you made a mistake and fell to the ground and were picked up insensible and afterwards brought here. That is all I can tell of yourself."

"Yes, of myself! but of the young lady whom I frightened, sister, what of her?"

"I do not know."

"Not even her name, or her abode?"

"No, I know nothing whatever about her, except that her marriage was stopped at the time she fainted. I do not even know whether it has since been concluded."

"Heaven forbid!"

"Why do you say that?"

"Oh, sister! it is too long a story to tell you! No, do I know whether I could tell it, it is so full of agony! nor, even if I could, whether you would believe it, it is so full of mystery! Sister!"

"Well, my friend."

"Do you still believe me to be a lunatic?"

"No, I do not."

"Nor even a monomaniac, perhaps?"

"No—not now."

"No—not now? What do you mean, sister? Do you think that I have ever been either one or the other?"

"I do not know! possibly! but let that pass 'now. You were about to say something else to me. What was it?"

"Do you believe me to speak the words of truth and soberness when I declare myself to be Arthur Powis?"

"Yes, I do."

"Now, notwithstanding all that."

"Can you reconcile the two opposites?"

"Yes, Simmons—I beg your pardon Mr. Powis—I think I can."

"Oh, then, give me your ideas on this subject! For it is one of more than life and death to me! It is one of happiness or misery for reason or madness," said the young man, eagerly.

"I have been a hospital nurse for twenty years. For fifteen of these years I had the care of a ward in a lunatic asylum. While there I had many opportunities of studying the various phases of insanity by the brightest lights of science. I studied many interesting cases of partial and transient mania, and among them a case that

### RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-tives"

103 Church St., MONTREAL.  
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use "Fruit-a-tives", and in 15 days the pain was easier and the Rheumatism much better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

somehow resembled your own."

"Good Heaven! then you really think that I have been insane?" cried the young man, in a tone of consternation.

"Yes, I do, how else can I account for the discrepancies in your life and conduct? I think that you have been insane—not from any chronic or organic derangement of the brain, but from a transient functional disturbance."

You may dislike taking medicine—but coughs are best cured without medicine. The modern treatment is "Catarrhoxone"—it isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is scathed is healed.—Irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick nothing so sure, so pleasant as Catarrhoxone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhoxone. caused by a blow on the head, a sort of insanity that need cause you no alarm, since it may be easily cured, is not likely to return, and cannot become hereditary. While we have been talking together for the last hour, I have been studying your case by the light of my long experience in the lunatic asylum."

"And what do you make of it? Help me to understand it, sister, for I am yet too weak in mind and body to do it alone," said the young man, in a mournful manner.

"I think this, then: I think that you are really Mr. Arthur Powis, as you have stated yourself to be. And I think all else you have told me to be perfectly true. I think that when that negro fellow told you by that terrible blow, he inflicted a great injury upon your brain, and that when you returned to consciousness you did not return with the full possession of your mental faculties, your memory and your understanding were both impaired, you were in fact, partially insane—from some accidental circumstance or other—for there is always some directing cause for the wildest fancies of the insane."

## I've Kept My Name Out of the Papers all Summer Which is More Than Some People are Able to do.

The fact is, folks, I've been so tremendously busy that I had no time even to think about newspaper advertising. It takes a lot of my time just to give SERVICE to my clients, for I am determined always to give the very closest attention and the very best service to every one who does business with my office.

First of all YOUR business is MY business, whether you list a property with me to sell, or whether you wish to buy a property through me. Then, I have only one price for a property listed with me, whether the purchaser is rich or poor, whether he is buying a home for himself or making an investment, the price here is always the same to everybody. "The Square Deal," remember. Also, I am the sole and only person conducting this business and I give my personal attention to every transaction and every client gets the full benefit of my experience, knowledge and personality. Consider these points and you will come to me to sell or to buy real estate, either in the city or the country.

Here is a partial list of the splendid opportunities I offer this week. I have helped hundreds of families to solve the housing problem this past few months; and I can help you.

TOM MOORE AT THE ALLEN
Gay bachelors, midnight parties, "other women" shadowy pasts, well seasoned with a dash of spice and mixed with a spoonful of snappy complications comprise one of the best entertainment concoctions of the year.
Tom Moore in "The Gay Lord Quex", shown at the Allen last night, there is something crisp and smart about this new Tom Moore photoplay and many of its situations are "Frenchy" in flavor.
Even the best of us—that is, the most proper of us—find keen enjoyment in entertainment that carries with it just a little touch of spice. Witness, for instance, the widespread popularity enjoyed by the bedroom farce and in it we see reflected, the present trend of public taste—the tendency toward the grotesque, and the mildly daring. In "The Gay Lord Quex", you have many of the elements that have contributed so largely toward the success of the bedroom farce, yet devoid of anything that would agitate the mind of the most sanctimonious censor.
The story of "The Gay Lord Quex" is one of the most clever and diverting that has been flashed on the screen in years. The hero, Lord Quex, is an amusing figure, a typical product of the idle rich and a notorious philanderer. He meets a young girl and falls desperately in love with her, but his ignominious past is a bar to an honorable love. Upon promise of reformation, the girl consents to marry him. His suit, however, is not approved by Society, a protégé of the girl's family, who knowing that the girl is in love with a young officer, does everything in her power to block her marriage to the nobleman. Events take a portentous turn at a house party at which Lord Quex meets a Duchess, a vain, sentimental woman with whom he has had a liaison some time before. The Duchess begs for a private interview in her apartment at midnight to which the Lord assents. Society gets wind of the intrigue, and in trying to get evidence of Lord Quex's perfidy, finds her own reputation compromised by a clever trick on the part of the nobleman. From this point on, complications ensue in rapid succession, culminating in a high-powered climax, as unexpected as it is absorbing.
There is an interesting installment of the serial, "The Midnight Man," a good comedy and Dima's Book of Nature, making a well rounded program.

TWO GOOD MYSTERY PICTURES AT STAR

The Star has two splendid mystery pictures this week, held enthralled and interested during both films.
Gladys Leslie is as petite and alluring as ever and has a gripping story in "The Grey Tower's Mystery." Fortune comes to her just in the nick of time, and the first check serves her from being armed out by her landlady. But all is not smooth sailing and with an unscrupulous villain to the fortune and a crooked lawyer some queer complications ensue. In the course of the plot she is accused of murder and seems to be in grave danger of suffering.

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.
Key West, Fla.—"For five years I suffered from irregularities, with terrible pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made me well and I can now do my housework. I am telling my friends about it."—Mrs. J. M. CASPER, 728 Caroline St., Key West, Florida.
Many women at some period in their life suffer from ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Casper found it helped her after suffering for years and trying everything else in vain.
If you have any annoying symptoms you fail to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of their 40 years experience at "dressing women on this subject is at service."

COMB SAGE TEA INTO YOUR HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.
Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the sage Tea and Sulphur recipe at home, though it is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle at little cost, at drug stores, known as "Weyth's Sage and Sulphur Compound," thus avoiding a lot of fuss.
While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur Compound, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair; taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says Glass of Hot Water With Phosphate Before Breakfast Washes Out Poisons.
If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sour and forms acid in your stomach, or you are listless, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.
To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter-pound of limestone phosphate, which is inexpensive and almost tasteless. Men and women who are usually constipated, suffer headache or have any stomach disorder should begin this inside bathing before breakfast.

LEARN DRESSMAKING IN TWO WEEKS We teach a complete course of lessons on Dress-making. You cannot afford to go to a shop, where you hem, bustle, overcast all day, then after serving there 6 months, you will know no more about cutting out a dress than the first day you went there. When a couple of weeks we can give you a knowledge in cutting, fitting and putting together of waist to most elaborate dress. If you do not want to learn to be a professional dress-maker, then even if it is only for your own home-sewing, it will pay you to learn as the cost is so small. A few days' trial given free. No pay in advance. Next class begins Jan. 6th. Terms are \$14.00 including charts, to be paid when through. For full information call at our residence on Jan. 5th. ### SPORT LEADERS WHO PASSED AWAY IN 1919.

New York, Dec. 30.—Many prominent figures in the world of sport and athletics have been removed by death during the year now drawing to a close. Included in the list were men whose achievements on the baseball diamond, in the squared circle on the peddled mat, or on the cinder track made their names familiar to all followers of sport. Some were stars of a past generation, while others were still active in their respective fields.

James A. Hart, one of the pioneers of baseball, and former owner of the Chicago National league club, who had played with clubs in both major leagues, and was not only a great pastime, but the wittiest player and coach in the profession. "Cy" Seymour, who led the National league in batting while with the Cincinnati club in 1905.

Less prominently connected with the national game and who died during the year were: Herman ("German") Schaefer, who had played with clubs in both major leagues, and was not only a great pastime, but the wittiest player and coach in the profession. "Cy" Seymour, who led the National league in batting while with the Cincinnati club in 1905.

Others who had been more or less prominently connected with the national game and who died during the year were: Herman ("German") Schaefer, who had played with clubs in both major leagues, and was not only a great pastime, but the wittiest player and coach in the profession. ### GAME WILL BE HOT CONTEST

Parkdale Senior O. H. A. Bunch a Strong Aggregation.

### LOCALS ALSO GOING STRONG

The Senior Hockey Game on Friday night when Kitchener meets Parkdale is going to be one of the fastest games ever staged in Kitchener. Parkdale played the famous Dental team and gave the Dentals one of the hardest runs of their career. Kitchener also played the Dentals and lost out in overtime. Kitchener's brilliant battle in Toronto must have shown the home fans that we have one of the strongest teams in the O. H. A. if not the strongest.

### SCHULTZ READY FOR BIG BOUT

Local Boy Will Meet Dick Atkins.

Barney Schultz who will be Dick Atkins' opponent in the main bout is working harder than ever. Schultz who is a local boy and whose work is being followed with great interest by the Kitchener fans, realizes that in Atkins he has an opponent, for better than any he has previously stacked up against. Under the hands of Tommy Dyer he is making excellent progress and Dyer predicts a victory for his protégé.

The J.P. Bickell belt for featherweight champion of Canada which was won by Dick Atkins recently is on exhibition at Kap's.

Parkdale is also considered one of the strongest teams in Senior hockey and they certainly are the strongest of the group in which Kitchener is booked. They will give us a rare old battle on Friday night and any person who misses this will miss one of the best games of the season.

Kitchener's senior team has been going great guns ever since they met the Dentals last Friday, as Al Smith of Hamilton, Sgt. Jack McCracken who will be remembered for his wonderful fight with Chip Davis of Buffalo, who will fight Young Murphy of Buffalo while for the unlain raiser Burns and Baker will try conclusions.

There are indications of heavy advance sale showing the great interest which the G.W.V.A. card for January 1st, has aroused here. As is known the place of the bouts will be St. Mary's hall and the time 3 p.m. Kap will referee.

The other bouts are Ted Joyce who defeated Pucky McGrath in Toronto last Friday, as Al Smith of Hamilton, Sgt. Jack McCracken who will be remembered for his wonderful fight with Chip Davis of Buffalo, who will fight Young Murphy of Buffalo while for the unlain raiser Burns and Baker will try conclusions.

### M. O. LEADERS MEET JAN. 11

Michigan Clubs' Future To Be Decided To-day.

GENERAL MEETING CALLED FOR JAN. 11TH.—NO RADICAL ACTION IS ANTICIPATED.

There will be a general meeting of the Michigan-Ontario League club owners at London on January 11. Many rumors have been circulated as to the future of the organization, some being to the effect that the Michigan clubs will not be included in the reorganized circuit and others creating the impression that an all-Canadian league, embracing Montreal and Ottawa, will be formed.

Nothing has been done by any of the clubs as to a change of league affiliation or in the matter of a reorganization of the circuit. The Michigan-Ontario League was quite the most successful wheel in Class B last season. Six of its players were sold to major league clubs and others were drafted either by the major or by leagues of higher classification than Class B. The teams played out their schedule without interruption and the clubs are all in good financial condition.

There is nothing to indicate that radical action will be taken at the London convuls. The utmost harmony prevails among the club owners, and anything that is undertaken will be for the welfare of the league as a whole.

The status of organized baseball for Michigan in 1920 will be settled definitely at Flint, today, when the owners of franchises held by the four Michigan-Ontario League

### WOODCOCK, LAST YEAR OF NEWMAN'S HALL IS THE OTHER DEFENSE PLAYER.

He is a big hefty lad and knows how to use his weight. He carries the puck well, packs a wicked shot and is an all round star.

Stewart, the centre player for Parkdale is picked up from the Beaches League and looks like a second Hiller. He is a exceptionally speedy skater.

It is the joy to watch out for on Friday night.

The subs for Parkdale are rather unknown in quality. Batstone the first sub. is an allround athlete and a famous football and baseball star. It is said that he is showing great form in practice but time will show what sort of a player he is.

Gars the other sub. is a newcomer and is said to be fast.

Parkdale C. C. trimmed Port Colbourne 10 several days ago. Kitchener trimmed Port Colbourne 3-2. The Port had a weakened team when they played Parkdale but the two teams Kitchener and Parkdale must be very evenly matched and a sure enough goal game will be the result of Friday night's play.

The Aroona Hockey Club of Kitchener will meet a team picked from the County League ball players from Galt, in a hockey game at the Kitchener Auditorium, at 8 o'clock on Wednesday night.

This will be the first workout of the Aroona club this year, and the following players are requested to be on hand: D. Young, I. Mason, W. Davison, H. Gross, O. Simpson, D. Cochran, J. Hiller, G. Swartz, O. Pries, P. Brechbill.

"If the newspapers would just quit manufacturing news of the Bolsheviki and their doings this world would be happier, and we should be rejoicing without a single pessimistic thought in our minds," said Bill Mills, of the Semi-Ready store.

"It is going to be a festive winter season in our town, anyhow, and I have beautiful, new dress suits, and Tuxedo dinner coats, all silk lined and fashionable, with the new English shoulder. The Semi-Ready tailor shops prove up their finer tailoring on the making of dress suits—the most particular job on the sartorial calendar."

Paris, Dec. 31.—Although the supreme council today fixed January 6 as date for signing the Protocol and exchanging ratifications for the German peace treaty, complications are developing which it believed by some persons in Council circles—may again cause a postponement of the ceremony of putting the treaty into effect.

It has developed that the German technical delegate arranging the details connected with the plebiscites to be held, do not appear to have full power to act. The signing of the protocol on January 6th, therefore may depend upon whether the Germans can secure powers immediately in order to complete the arrangements which ought to precede the exchange of ratifications.

### AIR SEEMS TO BE CLASH BY CHIEF HYDRO

Ample Power Coming to City in the Next Few Demands Will Increase.

### CHIEF ENGINEER GABY MET COMMISSION

From what can be gathered the visit here and address by Chief Engineer Gaby of the Hydro Electric Power Commission has clarified the air considerably in the matter of the Elgin to Hamilton radial railway by-law to be voted on by the respective seventeen municipalities to-morrow.

While no definite statement has been made by the Light Commission with whom Mr. Gaby had a conference yesterday when the questions of power and the city streets and street railway were discussed it is announced that the conference was very helpful and that information was given by Mr. Gaby which was not known before to the commission.

More Power is Assured. This point has been settled: the city's power shortage. Assurance was received from the Chief Engineer that this matter would be attended to. When Superintendent V. S. McIntyre of the Light and Street Railway Departments was seen by the Record this morning he was optimistic as to the future power situation in this city.

Evidently the objection to the hydro railway on this point has been removed.

As to the other matter, the city's streets and the city street railway and the intentions and powers of the Hydro Power Commission the Chief Engineer, it is understood, firmly repeated his assurance and statements of the previous evening, which denied any street rights to the Hydro Commission and refused any intention of their wishing to take the street railway from the city or using any streets without the city's consent.

Mr. Gaby again submitted a proposal to have the city street railway extend its line to connect with the Hydro radial to the benefit of both. The
