MARKED LIBERAL VICTORY. London, Aug. 25 .- The election for the seat in the House of Commons for the Southport division of Lancashire, S. W., made vacant by the acceptance by Mr. George N. Curzon of the vice-

royalty of India, was held yesterday, and resulted in the return of Sir Herbert Naylor-Leyland (Liberal) by a majority of 272 votes over his Conservative opponent, Lord Skelmersdale.

The polling was: Sir Herbert Naylor-Leyland (Liberal), 5,100; Lord Skelmersdale (Conservative), 4,828; Liberal majority, 272. At the last election for the seat, Mr. Curzon, in the Conservative interest, was returned by a ma-

jority of 764. The result of the election is a bad defeat for the government, Mr. Curzon having held the seat since 1886. Peculiar circumstances affected the contest. A section of the Liberal-Unionists. headed by the chairman of the local Unionist Association, declined to support Lord Skelmersdale, on the ground that now that the home rule agitation is dead, there is no longer any need for Liberals to vote for Conservatives. Thereupon Mr. Chamberlain, secretary of state for the colonies, plunged into the fray with a letter urging the Unionists to vote solidly for Lord Skelmersdale because home rule was not dead, but only sieeping. The Unionist leaders professed to feel contempt for this "little Unionist revolt," the success of which is likely to have important results as regards the relations of the parties in

he future. All the papers agree that Lord Skelmersdale's defeat is an expression of the electors' dissatisfaction with Lord Salisbury's Chinese policy. The Daily Chronicle and Daily News declare that it sounds the knell of the Conservative

SPAIN KICKS.

London, Aug. 25.—A dispatch to the Standard from Madrid, by way of France, says: A very unfavorable im-pression has been caused in Madrid by telegrams attributing to President Mc-Kinley the intention of instructing the peace commissioners to insist upon the cession of Luzon, that American commerce should have the same footing as Spanish in the Philippines, and that Spain should pledge itself that none of the Spanish colonies should be ceded to European powers. If such are the intentions of the United States Government the negotiations are sure to be laborious, even if an understanding is ever reached. The Spaniards consider the cession of Luzon, their best and most important island, to be a death blow to their prestige and sovereignty

in those regions. THE SULTAN OF MOROCCO. A dispatch to the Herald from Tangier, Morocco, says: In order to check the rumors of the sultan's death, it is reported that he is leaving Marrakesh for Fez, there to receive the embassies' official visits, returning after the Sus rising has been quelled. There is absolutely no definite news concerning the sultan, and the public mind is undecid-

ed whether he is dead or alive. The grand vizier of Morocco is alarmed at the increasing influence of Germany, and at the Italian demands, and is preparing to dispatch a Moorish embassy to Europe, probably London and Rome, to settle outstanding claims and arrange for a fresh basis of agree-

MAPKID FEELS ANXIOUS. London, Aug. 24.-The 'Times' Madrid correspondent says: "The recent articles in the Times, recommending the annexation of the Philippines by America, are attracting much attention here. They are regarded as confirming current rumors about a secret agreement between the cabinets Lendon and Washington for joint action in the far East. In any case, it is feared that the rapprochement, which unquestionably exists, contains the germs of great international com-

plications. Three months ago, when Spain sudwith a powerful antagonist, such a tions from here. The new barn be-prospect would have been hailed with delight, because it was believed that in a general embracile. in a general embroglio she would be sure to find allies. Now the political situation is better understood, and fears are expressed that in a general conflict of the great powers, whatever the result, Spain would have to pay les potscasses.

EL LIBERAL'S FORECAST. Madrid, Aug. 25 .- El Liberal, in trying to forecast the immediate future, says: "Two contingencies are possible. says: "Two contingencies are possible. Either the great powers will come to an agreement about their respective spheres of influence, or there will be a great war, in which England will would lose the Philippines, because they would be included in the partition. In the latter case England would begin by an attempt to get possession of the keys to the Mediterranean, including Ceuta and the Balearic Isles, which may be regarded as the keyhole. This possibility of a struggle for naval supremacy in the Mediterranean at some time in the near future gives certain importance to reports of new forts in the vicinity of Gibraltar and diplomatic correspondence thereanent. Neither Spain nor England, however, can be supposed to have any aggressive designs, and if we read between the lines of certain very guarded semi-official statements we must conclude that the Spanish Government has recently received from London some positive assurances on this point. Spain must, it is said, maintain her elementary rights to natal self-defense. but she has at present sufficient diplomatic difficulties on hand to prevent

The games themselves were quite as good, if, indeed, they did not excel former years. There were the usual number of fakirs, but these were not allowed within the limits of the park, and had to content themselves with such gullibles as they could find

on the street. About 10 o'clock the procession tarted for the Caledonian Park, and people began to follow. The games commenced, and were under the ble management of Mr. McKinnon, formerly chief of police of Hamilton. A NEW TRIPLE ALLIANCE. London, Aug. 25 .- The Madrid correspendent of the Times says: One paper here declares boldly, on the authority of an anonymous French diplomatist, that owing to M. Hanotaux's exertions treaty of alliance has been signed but the rumor has not been verified.

by Spain, France and Russia, with the object of counteracting Anglo-German influence in Morocco. Other papers comment on the matter, but without affirming that the treaty has been ac-

tually signed.

The idea of a rapprochement between France and Spain is certainly in the air, and may in time assume considerable practical importance. It had its origin in France's role in the peace negotiations, and reports of friction with England over Spain's military activity in the neighborhood

Dr. Church Testifies Concerning the Death of Leonce Boyer-Louis Riopelle Discharged From Custody.

Ottawa, Aug. 25.-The defense of Andre and Louis Riopelle against the charge of murdering Leonce Boyer on the Eardley road was begun at the preliminary inquiry. The evidence given was important, because it was the testimony of the medical man who examined the body when it was found. The evidence of Dr. John R. Church, of Aylmer, conflicts directly with that of the other physicians. In the ccurse of his evidence Dr. Church swore positively that his examination of Boyer's body revealed no evidence other than that the death was acci-

Yesterday Louis Riopelle, the elder of the two brothers, was discharged. Recorder Champagne, in discharging him, said it was much to be regretted that the accused had been kept in custody for two weeks under the ban of such a grave accusation as that of murder, when there was a total absence of any damaging evidence against him. The question as to the guilt of Andre Riopelle will be argued

#### AT RIDGEWAY

Five Men Injured by a Dynamite Explosion.

Buffalo, N. Y., Aug. 25 .- The explosion of a dynamite cartridge in a quarry at Ridgeway, Ont., yesterday, aused the injury of five men. But only one of them was seriously hurt. The man was W. H. Miner. He is now at the Fitch hospital, in this city, suffering from a fractured skull.

The five men made up one gang which worked with picks and shovels digging the earth off the top of the rock beds. Miner was handling the pick. The point of it struck a dynamite cartridge which had been dropped by a workman, and a terrific explosion followed. Miner was blown about 20 feet. Two other workmen were knocked down, and the remaining two were injured by flying rocks. All the workmen but Miner were able to care for themselves. Miner was unconscious for two hours. He was sent across the river and taken to the Fitch hospital. The surgeons found that a rock had chipped a piece out of his skull. Splinters of rock struck him in the arms and breast and cut many gashes.

#### THE RAILWAYS

The recent railroad deal by which the Huron and Erie Road was sold to the L. E. and D. R. R. will cause a great saving of time and money to chippers. The H. and E. line, which is 74 miles long, runs from Sarnia and Chatham to Blenheim and connects with the Rondeau. It is understood that the buying price was \$10,000 per mile, including all rolling and other stock. By the purchase the L. E. and D. R. Road will have conection with Grand Trunk and Canadian Pacific at Chatham. This will afford a good shipping basis with the Beatty line of steamers at Sarnia as well as at Chatham. Instead of drawing freight from Blenheim and Ridgetown Windsor, the road can now haul it over the new road direct to Chatham, without the long, roundabout course to Windsor, which has meant an extra distance of 84 miles.

Plans have been completed by Mr. B A. Waite for the new offices of the G. T. R. at Montreal, which will be the largest suite of railway offices in the world. They will fill an area of 2,000,-000 cubic feet, or 600,000 cubic feet larger than the Philadelphia and Reading operations in Thibet, hitherto closed Then Sir Charles will sail for England. to mission effort.

Then he had a terrible time pulling off his kid gloves, so that he might shake properly with them all. The victory of Martimas was of greater worth to Hendrie, by the way, than the mere money involved. For years Hendrie has been contesting with J. E. Seagram for supremacy on the Canadian turf. Seagram has won eleven Queen's plates at Toronto, and hitherto has been regarded as the king pin in Canadian turf affairs. Stiles covered himself with glory by an excellent inning of 68, while A. W. Herbert and C. P. Hurditch also

showed to advantage at the bat. For the Canadians, A. G. Chambers batted in splendid form for 28 not out, and he was well supported by J. M. Laing and M. A. Walker. Total score: New Jersey A. C., 161; Canadians, 67. AT BRAMPTON.

Brampton, Ont., Aug. 25.-The Woodbine cricket club of Toronto met defeat at the hands of the local team here yesterday. The Brampton club went to bat first and scored 48 runs. Toronto got only 28 runs. In the second inning Brampton piled up 138 runs for five wickets. Stewart, Treadgold, Thau-burn and Newman made double figures.

#### The End of the Session.

The Legislature finished its session not evening. The Opposition made a assault on the Covernment position, but, finding it as impregnable as withdrew its forces from the field. The Government carried out its programme with the solid enthusiastic support of the Liberal members and the approbation of all right-thinking people

Of the two important measures-the Fisheries Bill and the Constables Bill -the former in its main principle met with no opposition. The supreme importance of conserving the inland fisheries of the province was acknowledged by both parties, and the Government may be relied on to devise the proper machinery for enforcing the

The Constables Bill was the real bene of contention. The Opposition tried to obscure the issue by vehement and long-winded tirades against retroactive legislation, and by generalizatiens more or less remote, but the simple point of the whole question was, "Had the constables the right to vete?" The Opposition dared not give a direct answer. Mr. Whitney disclaimed any intention of attacking that right, but confessed himself willing to see it canceled by a legal technicality. He showed a great regard for law but hone for equity. The Government's attitude has been not only just but generous. It refers the whole matter to the Court of Appeal, whose decision final. In the event of constables being deprived of the franchise, which is extremely unlikely, the seats affected by the judgment are to be vacated.

The session has developed promising talent on both sides, though both suffered by the loss of able lieutenants in the late campaign. We do not think Mr. Whitney has gained prestige. His chagrin was too apparent. Ross said, he indulged in some argument, but in more invective and recrimination. His indignation, like his logic, was more artificial than real, but it was necessary to make an appearance for the bye-elections. With gentlemen like Mr. Carscallen at the bellows, the Opposition certainly worked up a good deal of flame with very little fuel, but it did not scorch the Government, which is evidently solid for the next four years

#### Toronto's Sewage Defects. Toronto has a sewage problem con-

fronting it. Says the Toronto News: "We pour daily into the lake 15,000,000 gallons of sewage, containing 7,500 tons of solids. Of those 15,000,000 gallons, the bay receives by far the largest portion, and in consequence is every year assuming more and more the character of a cesspool. Danger too, of another kind threatens us. Navigation, owing to the vast deposits of sewage, is becoming impeded, and will soon be impossible. Large areas are now useless three-masters could once ride at an-

Judging from this the conditions are far worse in Toronto than in London. The sewage here empties into a flowing stream, which is a purifying agent, although Chatham isn't scientific enough to see it. Toronto's sewage runs into stagnant pond, charitably called a bay, right at the city's front door. The News recommends that a commission be appointed to consider the question of sewage disposal.

Montreal civic rulers are thinking of establishing a sewage farm, and have tust appointed a delegation to go to Massachusetts to inspect the disposal of sewage by land filtration, which has been successfully carried out there for a number of years. This is a similar method to that at the London Asylum for the Insane, which the expert engineers have recommended for the city

Since the question here has been stored over until next year, it will be well to watch the outcome in Montreal and also in Toronto, if the latter takes the matter up.

#### Canada's New Industries.

Business in Canada promises to be cod for a considerable time to come. Many new industries are springing up. and nearly all of the old established concerns are rushed to keep up with their orders, and some are working cuble shifts in order to meet the demands of their customers. The Montreal Journal of Commerce, in its last seie, mentions the following among other indications of the progress that is being made in increasing the industrial capacity of the country:

The Bell Organ and Piano Company,

orders are under way, both for Great Britain and Canada, and other parts of the world. They expect this fall to turn out in the neighborhood of 500 organs and 125 pianos per month.

The Quebec Conference has opened with a pean of praise from the British, American and Canadian press. Is it too much to hope the conference will finish with the same chorus?

Those who are afraid that Canadian interests will be sacrificed to imperial considerations by the Quebec Conference, should remember that Lord Herschell is not Lord Ashburton.

The Tammany aldermen of New York have thrown out the ordinance for the punishment of profanity on the streets. Doubtless they were acting from motives of self-preservation

Lindsay has followed Belleville and Peterboro in abolishing the ward sys- sive. tem, These are small places, but in respect of good municipal government they have larger ideas than have

Marvelous are the results that at times flow from investments in mining stock, and one does not wonder that so many people find excitement in trying their luck in that description of risk. But a few months past, Mr Herbert Molyneaux owned a share in the Rivas Diamond mine, South Africa, He offered it for \$500, but could find no takers. Today his figure is \$1,200,000. The De Beer's company have the mine under option for \$5,000,000, while exhaustive testing operations are in pro-

The loss that falls to a country which llows disease to assail its live stock is fittingly exemplified by the experience of Cape Colony with the rinderpest. The total number of cattle before the recent outbreak of the plague in that colony was 1,639,435, and of this number 575,864, or almost one-third of the whole, were lost through the disease. We in Canada are fortunate in that we have healthy herds, and what is of almost as great importance, a disposition on the part of our agriculturists to keep them healthy.

The American girl is winning triumphs abroad. The wife of Sir Herbert Naylor-Leland, the successful candidate in yesterday's election in England, is the former Miss Jessie Chamberlain, of Cleveland, Ohio, noted beauty and heiress. She aided her husband in his campaign by a personal canvass. The Naylor-Lelands are very ambitious, and keep one of the finest establishments in London. The election is a notable Liberal triumph. The British political pendulum is taking its regular swing to the side of the Opposition.

The Klendike sensation diverted attention from Rossland for a while, but Rossland bids fair to more than realize its early promise. The depression which always follows a boom, has passed away, and the mining business is being placed on a legitimate basis. Under proper development many of the mines are beginning to yield handsome dividends. The purchase of the Center Star for \$2,000,000 by the Goodernam-Blackstock syndicate is a precursor of great things. An inrush of capital may be expected, and with cautious and intelligent operations at this stage, it looks as if Rossland would become one of the

> Jamacia's desire to secure the United States market for her sugar has led to an agitation for the annexation of the island to the republic. The British Indies have been hard hit by the ompetition of the bounty-fed sugar of Europe, and will suffer further by the free admission of Hawaiian and Cuban sugar to the United States. Canada has done something to help her sister colonies by a tariff preference, and Great Britain is expected to do the rest. At any rate Jamaica will not be allowed to sever British connection. Mr. Chamberlain is not built that

Sir Robert Herbert presided at a recent meeting to the British Empire League, when the congratulations of the Council were ordered to be conveyed to Hon. Wm. Mulock, the Postmaster-General of Canada, on the successful part taken by him in the negotiations for the establishment of Imperial penny postage. In view of the strictures of the Toronto Mail and Empire, this action by a most influential British body is highly significant. It proves that there was absolutely no foundation for the foolish tirades that have been indulged in by our disappointed Toronto contemporary.

The Spectator, in its capacity of mother hen, is cluckingly proud of its pretty political chick convert, usually alluded to by the Times rather irreverently, as "Cass," and by others as H. Carscallen, M.P.P., for one of the Hamiltons. The Spec goes so far as to place him on the same pinnacle as Stroud's Baseball Team. The Spec's enthusiasm reminds us of the good story about Dinny. Dinny had enlisted, and his mother went to see the tactics, and was conspicuous for his awkwardness. But as his fond mother gazed at him she exclaimed: "Aw, wisha, look at thim; ivery mother's son of thim out of shtep but me boy Dinny!"

A Liberal Gov-ernment is in power, and Liberals have a record for defending the rights of the provinces to control their own affairs.

#### An Apt Comparison.

[Toronto Telegram.] The difference between Henniker Heaton and William Mulock is largely the difference between the discoverer of steam and the inventor of the steam

Steam antedated James Watt by some few years, but the man who invented the way of utilizing steam for the accomplishment of certain purposes

Without the action which William Mulock designed, the sayings of Henniker Heaton would have been as useless as steam without an engine. Mr. Heaton may have invented the idea, but the idea without Mr. Mulock's method of applying it would not have been productive of immediate results.

Michael and Mote Did Well in the Klondike Country.

A Good Word for the Dominion Off. cials There.

Sydney, C. B., Aug. 25 .- Michael Mc-Millan, of Grand Mira, returned home direct from the Klondike Monday evehaving been away about two years. He realized over \$40,000. Mote Curry, also of Grand Mira, came out of the northern Eldorado the same time. He is expected home in a few days, his share exceeding \$50,000. Vancouver, B. C., Aug. 25 .- P. Anderson, manager of the Klondike Commis sion Company, Hunter Creek, Yukon who arrived here from Dawson, says the Dominion officials are all that car be desired. He flatly denies reports that they are corrupt. Gold Commissioner Fawcett, he declares to be honest, upright and conscientious,

#### POIRIER ON TRIAL

True Bill Rendered by Grand Jury-Great Interest in the Proceedings.

Carlisle, Que., Aug. 25 .- The people of this district are taking great interest in the trial of young Theodule Poirier, aged 20, of St. Alexis de Metapedia, accused of the willful and malicious murder of another young man of the same parish, Jerome Martin.

Mr. Justice Caron, of Quebec, is presiding over the criminal assizes. number of people have come large from a considerable distance to follow the proceedings. St. Alexis de Metapedia, county

On April 3 last Theodule Poirier, of Bonaventure, stabbed and killed Jerome Martin about 10 o'clock at night. In a dispute between the two youths Martin struck Poirier, and in return Poirier stabbed him in the neck, severing an artery. Death was almost instantaneous. A true bill was rendered by the grand jurors. The trial is in progress and will probably continue until Saturday. The prisoner's plea is

## THE FORESTERS

Annual Convention of the Catholic

Branch of the Order at Brantford. Brantford, Ont., Aug. 24.-The fourth annual convention of the Catholic Or-der of Foresters opened here yesterday, with a large number of delegates in attendance.

After presenting of credentials the high court proceeded to St. Basil's Church, headed by about 40 members of the local court, and high mass was sung by Rev. Father Lennon. High Secretary Arthur Morel's report showed that the total membership during the year has increased by the addition of 464 members to the poll. The provincial treasurer, G. W. Sequin, of Ottawa, submitted a report

showing receipts of \$3,829 15, with an expenditure of \$2,974 68. In the afternoon the Brantford fire-men gave the delegates an exhibition, and an address of welcome was in order from Mayor Raymond.

# DVIC SORE

Raw Sore From Finger to Palm. Physicians and Medicines No Avail. Cured by Cuticura.

When my little boy was two years of age, dry spots commenced to appear on different parts of his body. Last winter it seemed to go to his hands, and I was obliged to keep his first three fingers done up all the time, as it was a raw sore, beginning to extend down toward the palm of the hand. We consulted three different physicians, each a certain length of time, to see a benefit of their medicines. I think now, after using CUTICURA, that some of the salves that I used did more injury than good. A gentleman (who sat next to me in church) asked me the matter with my boy's hand. I took off one of the cloths and showed him, he told me he had been in a hospital in Boston, where for all skin diseases they used CUTICURA REMEDIES. I immediately purchased CUTICURA SOAP, CUTICURA (ointment) and CUTICURA RESOLVENT, put aside what I had been using, and began with them. Well! they cured that hand. I was afraid that this winter it would break out again, but no, it is all cured, and I have not had to have a cloth on it this winter. Mrs. DIAMOND,

British Apple Market. Messrs. J. McKitterick & Co., Liverpool, in their report on apple crop prospects, say: Official statistics are now published regarding the crop in the home districts, from which it ap-pears that out of 313 reports, 150 are to the effect that the supply will be an average one—42 over, 139 under— so that it may be taken for granted that the result will be fairly satisfactory. As to quality, we have no reason to believe the fruit will show any improvement, consequently we repeat that English apples will interfere very little with shipments from your side. One indication of this is the fact that although English fruit is even now on the market, our imported Lisbon apples are making prices 35 to 50 per cent better that what they made this time last year. Under these circumstances we think well of shipments of early fall fruit, especially Canadian, which as soon as they show a little color combined with good size and clear skin, may be sent forward by fast steamers to Liverpool. As a rule these land in poor condition, but we think this a season when a small quantity may be shipped with fair prospects of making a profit. From the continent our Dutch friends say their crop is small, while Germany

but we don't recommend large ship-ments to that port. Altogether the prospects are very favorable. APPLES! APPLES! We can use any quantity of Fall and Winter Apples. If you have any you will do well to see us before disposing of them.

# M.P.P.'S FINISH

The Constables Bill Passes Its Third Reading.

Liberals Make a Happy Finish to the Session.

Sang "God Lave the Queen"-Cushions and Blue Books Fly Around.

Toronto, Aug. 25 .- The legislature concluded the business for which it was specially summoned yesterday arternoon, and adjourned, to meet again for the regular session upon call by proclamation.

The chief interest of yesterday's sitting was centered in the bill relating to the election laws, to which the opposition offered a number of amend-ments. Upon the motion for the third reading they finally refused to vote at all, as a last protest against the bill. Before arriving at this stage the attorney-general had the bill referred back to committee for the purpose of making several amendments to meet the objections raised by the opposition, which did not, however, in any way affect the principle of the bill. In moving the first amendment offered, Mr. Carscaller was your amount of the big days of the control of the big days of the control of the con Wholesale Produce and Commission Merchant. len was very emphatic in his denunciation of the clause which requires a new election to be held in the event of a member being unseated by reason of the disallowance of the constables' vote. Mr. Foy offered an amendment to strike out section 2, postponing the trial of petitions in certain circumstances, and Mr. Whitney and Mr. Marter each presented amendments, providing that pending litigation shall not be interfered with. The governmen had a majority of six upon each

vote. The bill relating to the provincial fisheries was read a third time and passed. The attorney-general moved the house into committee on the bill to

The clause was added and the bill read a third time. The bills respecting voters' lists in certain cities and correcting clerical errors in the Revised Statutes were passed through committee.

Upon motion of the attorney-general the order for the third reading of the constables bill was discharged and the bill referred back to committee.

THE CLOSING SCENE. It was decided to adjourn subject to the usual call by proclamation. It was 6:30 by this time, and the sergeant-atarms was sent to telephone Lieut .- Gov. Mowat that the house was ready to adjourn, and that they awaited his approval of the legislation enacted. When the members were seated it was seen that the ranks of the opposition had thinned out until but a dozen or so remained. Soon the sergeant-at-arms took up his stand with Mr. Speaker, in his black flowing robes, to the right of the throne. Sir Oliver appeared, and they bowed. He ascended the throne and the members were seated. After giving the royal assent to the bills. Oliver withdrew, while the Liberal members sang "God Save the Queen." The members of the opposition maintained silence, and at the conclusion Mr. Wardell suggested that the house should sing "Jim" Conmee's ode. Mayor Colquhoun, Hamilton, said that would probably be owed to them, and all at once cushions began to fly. This may have been caused by the pun, or by the call of Mr. German for three cheers for the constable bill, but at inquiry for good handy butcher cattle, any rate for the next three minutes the air was thick with cushions, bluebooks, rulers, etc., and staid members light supply; good demand, strong of the government as well as new members of the opposition had to dodge the missiles while making their exit from the chamber. old son of ex-School Trustee George Burdick, is a hero. He is young to be a life-saver. But that is what he is. On Monday he rescued a playmate from drowning at the risk of his own life. Children who live in the neighborhood of Princess and Dufferin avenues, between English and Ontario streets, have great sport playing around a creek there. Some of the large boys dammed the creek the other day and made a good-sized pool three or four feet deep, and when something else engaged their attention, a number of little children from 4 to 6 years of age, were left alone about the pool. In their sport little May Ellen, one of Mr. John T. Martin's twin girls, fell into the pond backwards. As she sank under the water the other children instinctively shrank back in horror. Brave little 5year-old Chester was the "man of the situation," however, and without thinking of danger, waded in after his comrade. The water came up to his shoul-ders before he was able to reach the struggling girl, and how the tots managed to get out is wonderful.

The screams of the children attracted

Yesterday's matches in connection with the Ontario Rifle Association meeting at the Long Branch ranges, Toronto, were characterized by some remarkable scoring. In the corporation match, Color-Sergt, Robson, of the Seventh Battalion, London, made the phenomenal score of 84 out of a possible 85, winning the corporation gold medal, which goes with the first prize of \$25. At the 500 yards' range he made seven bullseyes with seven shots, and at the 600 yards he hit the bullseye nine times out of ten shots. In addition to this his two sighting shots were both bullseyes. The one shot which missed the bullseye at the 600 scored an inner, which counts four. Capt. Elliott, of the York Rangers, made 83 at this match. At the 600 yards he hit the bullseye every time, but two of his shots at the 500 yards were only inners. Capt. Elliott and Ma-jor Bruce, of the Royal Grenadiers, out of 20 shots, only left the target once. In the El Padre cigar match, no fewer that 58 possibles were made. All the extra series matches will be completed today. The Mulock aggregate, which is won by the highest scorers in the second, third, four, fifth, sixth, and seventh matches, will also be decided today, as will the nursery aggregate. Disaster on the Banks of Newfoundland.

A French Fishing Schooner Cut Down by an Atlantic Liner, and 16 Lives Lost.

New York, Aug. 25 .- The Thingvalla Line steamer Norge sunk the French fishing schooner La Coquette, of Bayonne, France, on Saturday last, Aug. 20, on the Grand Banks. The captain of the schooner and eight seamen were saved, but

SIXTEEN MEN WENT DOWN with the unfortunate vessel. The Norge sailed from Stettin on Aug. 3. The weather was generally fine until the Banks of Newfoundland were reached, when it became foggy, with patches of blue water. On Saturday, Aug. 20, between 3 and 4 in the afternoon, the weather was foggy, but not so thick as to necessitate reduction of speed. Capt. Knudsen says he could see about three cables' length ahead. The wind was fairly brisk from the west-southwest, when a vessel suddenly loomed up from the north, with sails full, and stood directly across the bow of the steamer. The bells were rung to stop and back at full speed,

TOO LATE

to check the steamer's headway to a full stop. The stranger, a fishing schooner, fell across the bow, and with a crash was forced over and sunk. As the impact occurred three men sprang aboard the Norge. The passengers of the Norge, most of whom were about the decks, rushed about in great alarm, but were soon quieted when they learned that the steamer was uninjured. In the meantime a boat was lowered and six men and a dog were picked up. The fishing vessel

SANK ALMOST IMMEDIATELY, her crew. Among those saved was the captain. Capt. Knudsen, of the Norge, says that as a steam vessel, he was obliged to keep out of the way of all sailing craft, but that this was a more to help herself than the steamer, The latter was going ahead full speed, for the fog was not, in the judment of the captain, sufficient to reduce headway. The fisherman was an active vessel, had a good breeze, and was under good steerage way, but made no attempt to avoid the collision. Keeping his sails full until squarely under the bows, the collision occurred so suddenly that the steamer's headway could not be stopped promptly. The large hull of the Norge should have been visible for a long distance. This is the substance of Capt. Knudsen's statement. The nine rescuea mariners were brought to port, and will be landed here.

The lost vessel was the French fish-Little Chester Burdick, the 5-year- ing schooner La Coquette, of Bayonne, which carried a crew of 25 men in all.

#### INTERNATIONAL CONFERENCE

Likely to Adjourn for Two Weeks-May Meet in Ottawa.

Quebec, Aug. 25 .- It is said to be exceedingly likely that the figh commissioners of the international conference will adjourn today for a couple of weeks, or until after the Maine electoral campaign, which is likely to claim the attention of Hon. Mr. Dingley. Hon. Charles Russell and Hon. Chas. Fitzpatrick will act as solicitors for the Dominion. Rooms have been set aside for them at the parliament buildings.

Hon. Donald M. Dickinson appeared before the American commissioners and urged the case of the Michigan lumbermen for the repeal of the Ontario regulation requiring the sawing in Canada of all logs cut in this province. He also urged the abrogation of the Rush-Bagot convention of 1817, prohibiting the construction of war vessels on the great lakes. This is sought by Detroit ship builders, who desire to tender for such work. A report is current that when the commission resumes its labors after the adjournment possibly the venue will be

changed to Ottawa. London, Aug. 25 .- The Graphic this morning expresses the fear that even if the Quebec conference arrives at an agreement on difficult problems before it, the American Senate will upset its work unless American public opinion asserts itself.

# KIDNAPPED HIM

High-Hanued Action of American Officials.

Thomas Meagher Taken From British Soil Across the St. Clair.

Ottawa, Aug. 25.-News comes of an outrage committed by an American ofso gross in its character and so devoid of legal warrant as to call for prompt action and immediate repara-tion. Mr. Thomas Meagher, a British subject, resides near Port Lambton, on the Canadian side of the St. Clair steam launch, in which a few days ago he crossed over into American water near the club house at Marshland. Henry Avey, United States deputy collector of customs at that point, ordered Mr. Meagher into port. Mr. Meagher disregarded his orders, and went on to his destination on the Canadian side of the river. He was followed by Avery and his assistant, not only to the Canadian side of the river, but upon Canadian soil, where they attacked him, and without warrant and without any com-

plaint being made against him placed him under arrest. Meagher was taken across the river to the Marshland Hotel, when he was handcuffed to a bedand in sinking carried with her 16 of post in a small room in such a way as to be unable to recline or lie down. He was not taken before any magistrate, and when a gentleman protested against the treatment of the prisoner he was answered by Avery with a voltime when the sailing vessel could dy ley of vile oaths and imprecations, and was told that he (Avery) knew his own business, and that he would keep

Meaher where he had him just as long as he pleased. Parties who desired to see Meagher were met with abuse and refused access to him. Meagher was afterwards paraded by Avery up and down the hotel grounds in the presence of bystanders. Avery's evident object being to humiliate his prisoner and display his own authority. This performance over, Meagher was returned to the bedroom and again chained up to the bedpost, where he was confined for upwards of twenty-four hours, although, if it had been the desire of the officer to send

his arrest out a warrant. If the facts are as they have been represented, Avery should be extradited and surrendered.

The Metropolitan Opera Company will open their two weeks' engagement on Monday night with "The Mikado," and, according to press notices from other cities, this tuneful opera has seldom been presented in a more artistic manner, the cast being particularly adapted to its requirements. The costumes are very elaborate, and were imported direct from Japan. This is without doubt the best company playing at popular prices today, as each and evficer on a British subject on Canadian ery member has heretofore appeared with leading high-priced attractions only. Thus Maria saw that there was another struggle for her. A weary—weary trouble, for—yes, let it be owned—why not?—Cecil was not indifferent to her. Indifferent! She could have loved him had she been foolish—had she dared! Was she to blame? Is not love fetterless, free, imperial?

With difficulty could she prevent her ivory lids fluttering down beneath his glance, and the soft color mounting to her cheek. The occasional touch of his hand, the accents of his musical voice, thrilled her to the very soul.

Ah! if she had only been able to listen to them. Had she been only in his sphere. Now bravely, womanly, she allowed herself to harbor no such sentiment. Before she resumed her privacy, the sound of voices in the hall arrested her. They belonged to Lord Carisford and Captain Lascelles. The latter's tones reached her clearly. He was making a laughing remark upon woman's constancy, her vanity. It seemed a quotation, but there was a covert sneer in his tone.

Maria bit her lip fiercely. Had that man been daring to speak of her? "Daring!" She broke into a sad, bitter laugh as she closed the door. "Are there not some men so evily constituted that they will dare sneer at and cast slander on the highest? Hence what wonder if they select for the 40 feet, but, strange to say, the horse subject of their mirth a defenseless lady's-maid; yet"—she paused, then added—"in what a detestation do I hold that man; his eyes look evil though his lips speak honey. She had come back to the hearthrug now, and, kneeling, examined the letter by the firelight, which showed

her arched brows contracted. "It's for my lady, not for me," she said, in sudden accents. "Again from those people. It is shameful. Poor-poor Lady Westbrook! take proper care of his health during youth and maturity he may live to a green old age, and still be able to say with absolute truth, "I am a child myself." Youth is not a matter of years. Happiness is not a question of experiences. Youth is happiness and health is youth. The healthy person, young or old, will be a happy person. It is a simple matter to get the body into a healthy condition and then to keep it there. Dr. Pierce's Golden Medical Disis the greatest of health makers and health savers. It is the great blood-maker and flesh-builder. It makes the appetite keen, the digestion and assimilation perfect, the liver active, the blood pure, the muscles strong, the brain clear, the nerves steady and every vital organ in the body healthy and vigorous. It makes firm, healthy flesh, but does not make corpulent people more corpulent. It does not make flabby flesh like cod liver oil. It purifies the blood and drives out the poisons of malaria and rheumatism. It is the best

remedy for blood and skin diseases. It cures 98 per cent. of all cases of consumption. Grateful patients, who had been given up to die, have permitted their experiences, names, addresses and photographs to be reproduced in Dr. Pierce's Common Sense Medical Adviser. The sufferer who wishes to investigate may write to any of these. The 'Golden Medical Discovery' is sold by all medicine dealers, and only unscrupulous dealers will try to induce a customer to take some worthless substitute for the sake of a few pennies added profit.

Fatal Accidents on the G. T. B. and Intercolonial.

Bad Collision Near the St. Clair Tunnel -A Dozen People Hurt.

Montreal, Aug. 25 .- A serious accident occurred on the G. T. R. Tues-day, between Lennoxville and Water-A freight going south and a local from Coaticook came into collision. Fireman Paroche, of Richmond, was caught between the engine and the tender and crushed to death. Among the wounded taken to Sherbrooke were: John Kelly, arm broken; Wm. Court, leg broken; - Irwin, both legs broken and fatally injured. All of the wounded are freight hands. It seems that there were no passengers on the train from Coaticook, and all of the injured were on the freight. Both engines were literally smashed to pieces, and the freight cars were tlescoped and rolled over each other.

ANOTHER FATAL ACCIDENT ON THE INTERCOLONIAL. Dorchester, N. B., Aug. 25.-Tuesday afternoon the Halifax day express, on a crossing near Palmer's pond, ran down a carriage containing Capt.
Alfred Bishop and Miss Stiles, both of Dorchester, who were on their way to Cole's Point, the weil-known bathing resort, and were instantly killed. The was uninjured, the shafts breaking off

close to the wagon. MANY INJURED. Port Huron, Mich., Aug. 25 .- While pulling out of the tunnel station yards last evening, the Almont train, of the Flint and Pere Marquette Railway, with a baggae car and six coaches heavily laden with excursionists, was run into by train 609, of the Saginaw division of the same railway. The four rear cars of the Almont train were turned on their sides with their loads of human freight and almost telescop-od, while the engine of the other train was derailed by force of the collision. Miraculously almost, no one was killed, but the seriously injured number Both trains were running comparatively slow at the time, and this ac-

counts for the calamity not being more serious. Mrs. James Hobbins, Wales, hip and spine injured and two ribs fractured.

Mrs. Margaret Dower, aged 74, Wales, two ribs fractured. Mrs. (Dr.) Wilkinson, Almont, head cut, cheek bone injured.
Mrs. Martin, Detroit, nose broken and several scalp wounds. Mrs. M. S. Swain, Almont, leg

bruised, ankle sprained. Miss Knox, Memphis, face, head and shoulder injured. Mrs. John Clegg, Memphis, head and Mrs. John McGuire, Memphis, shoulder and arm injured.

Mrs. Victoria Cook, Wales, thumb on one hand and finger on another

George T. Fries, of this city, had a thumb dislocated, and Miss Jessie Baker, of Memphis, and Mrs. Helen Wilcox, of Wales, were so badly shaken up as to require medical attention, but no bones were broken. A number sustained minor injuries.

## RIOTING AT

SHANGHA!!

Attended With Serious Loss of Life-Details of the Recent Trouble.

San Francisco, Aug. 25 .- Detailed accounts have been received here of the serious rioting that occurred over French concessions in Shanghai suburbs, attended by serious loss of life. According to advices by Mr. Belzac, the trouble grew out of the failure of negotiations by the French municipality to secure the Ningpo joss house, and an unusued building on the French con-cession for a proposed school, hospital and abattoir. After lengthy parleying with unfruitful results, the Tao Tai seized the cemetery on July 16 and pulled down the walls. The force employed in the work included landing cases, more than double the number | parties from the French boat Eclaireur and the steamer Oceanion, together at the Royal Victoria Hospital there are twenty cases, and the Notre Dame hosnumbering altogether 200. The Ningpo population was greatly wrought up not of a virulent type, and there have and after the shops had been shut up an attack was made on the police station and the south end of the French

> The Frenchmen opened fire on the mob, killing 15 and wounding 29 others, who were taken to the hospital, one of them in a dying condition. The situation is serious. All the Ningpo servants have been ordered to leave foreign employers.

Following the attack on the police station, 150 men were landed from the Italian man-of-war Marco Polo. The Shanghai volunteer corps was also called out as a demonstration, and ordered to hold themselves in readiness for another outbreak. The police are fullly armed and are holding the troops between the French and British concessions.

#### **BEATS A CURFEW**

Ghost Keeps Essexville Children et Home Nights.

Bay City, Mich., Aug. 25 .- The residents of Essexville, at the mouth of the river, surnamed Sugarville by reason of the beet sugar refineries being located there, are all stirred up over the alleged presence of a ghost in their usually quiet hamlet. The spectre assumes a woman's form, is gowned in the conventional white, and appears almost every night between the hours The town schoolhouse seems to be the favorite haunt of the uncanny visitor and several citizens of xcellent reputation bear testimony of having seen her there at different times during the past week. Everybody is talking about the affair, and the plan of organizing a ghost party and laying in wait at the schoolhouse all night has been suggested. One good effect the specter has had in the little burg s to clear the streets of children after dark, and the village officials say it is more efficacious in that line than any curfew ever framed.

Rev. Robert Johnston Discusses Their Methods.

How Schrader, Dr. Dowil and Others Work-Sometimes Cure by Changing the Imagination.

"Divine Healing and Healers" was the subject of Rev. Robert Johnston's discourse at the weekly prayer meeting last night. In his introductory remarks the preacher opined that we, in the last of the nineteenth century, should be the least dogmatical as to should be the least dogmatical as to what is and is not true. A German mathematician was now contending that space had a fourth dimensionheight, breadth, length, and a fourth. Who was to say that it had not? He had been led to take up the subject of divine healers because he had been asked so many times about them. Mr. Johnston was acquainted with persons in this city who claimed to have been raised up to health and strength by resorting to prayer, after they had doc tored in vain for years. They thought it a fuller faith in God to decline the doctor's medicine. He referred to the shrines at St. Anne de Beaupre and of Our Lady of Lourdes, France, where heaps of crutches, glasses, artificial limbs, medicine bottles and what not had been left by persons whom he believed had been healed beyond a doubt. The speaker would not say that Dr. Dowie, Mr. Schrader, Dr. Cullis and Dr. Wier Mitchell had not healed some people. Dr. Dowie's hotel and tabernacle in Chicago were described. The hotel was for guests who came to be healed. The tabernacle was a large building, around the walls of which were thousands of crutches, glasses, medicine bottles, invalids' chairs and other articles, blended into all manner of fantastical shapes. Dr. Dowie was formerly a Congregationalist minister in Australia. He preached the doctrine that when Christ took upon himself the redemption of our souls through his blood, he also took upon himself the redemption of the body from suffering. The preaching sometimes in Dr. Dowie's tabernacle was such as would not be tolerated here, even in a respectable hotel, let alone a church. In dealing with Mr. Schrader, the speaker said he had been unable to find a solitary instance where a cure, or even relief, had been effected. Mr. Schrader believed he had the healing power, and in going round healing people Mr. Schrader thought he was doing as much to advance the kingdom of God as any other man. Schrader claimed his power was the same as the gift of music or of eloquence. Mr. Johnston told of a young man who had gone to Schrader. latter placed his hands on him, looked heavenward as though in prayer, and then the man's handkerchief blessed in a similar way. The sick man was requested to call again that evening, and he did so, taking Mr. Johnston along. Schrader asked his patient if he was any better. The reply was "No." Then followed the question, "Are usatisfied with your own condition?" "No," was the answer of the patient. "Then," said Schrader, "you are either satisfied with your own condition or you are The "divine healer" some better." was so convinced on this point that both Mr. Johnston and the patient were on the verge of belief that a cure

They are the Great Feeders of our Bodies The Purity of the Blood is Dependent on their Cleansing Powers

There's a time to all, old and young, man or woman, when poor health brings trouble, anxiety, and burdens hard to stand up under, and one's efforts to rid himself or herself seem only to be baffled at every turn, and we are prone to grow discouraged.

That is not the time to give up—but the time for action, the time to seek out the seat of the trouble, and act as your best judgment and the experience of others will help you, guarding against mistakes in the treatment adopted for your particular ailment.

necessary for hysterical or nervous diseases, but merely a stronger will that could change the imagination of those who suffered great bodily pain as a result of nervous disorders. The speaker instanced a case where he had, so to speak, healed a woman, and thought himself as much a healer as Mr. Schrader or anybody else. He had no objection to this means being used. All cures were divine, whether through persuasion or drugs. The wrong in these divine healers was that they brought down the power of God only to make it subservient to their n.iserable and money-making ends. Christian science was merely healing the body at the expense of and damnation of the soul.

#### MR. SALLMON'S TOUR

Distinctively English and Scotch Cities of New Zealand.

The Cold Lake Region-Beautiful Scenery-A Rough Voyage.

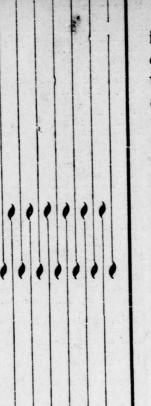

The following is the last of the present series of New Zealand letters from Mr. W. H. Sallmon, B.A., of this city. "Another day's journey over a private railway, with cars after the American plan, and a good dining-car, brings one to the last city of the North WELLINGTON, THE CAPITAL

of New Zealand. It is a bustling com-

mercial center. The Canadian line of steamers from Vancouver to Sydney make this a point of call. The city is built on many hills, and the structures are chiefly of wood, on account of frequent earthquake shocks. The parliament buildings are said to be the largest wooden buildings in the world. The tone of society is so distant and frigid that General Booth is said to have remarked that the two occasions on which he felt the chilliest were when he was nearest to the north pole and when in Wellington, N. Z. Other visitors have noticed the same feature. "A few hours by steamer brings the traveler to the pretty city of Nelson, of which Max O'Rell wrote: 'A gem, an idyll, a miniature Arcadia, a sleeping beauty.' During the summer many tourists proceed from here by coach through the fine scenery of the Otira and Buller Gorges. The other route is by steamer, back to Wellington, thence by sea to Lyttelton, the port of Christchurch. By tunneling through a range of hills, the Canterbury Plains are reached, and here the city is built. It is an English town, founded by English settlers, and dominated by English customs. There is a magnificent cathedral and substantial college and school buildings, all of stone. "From this point the railway runs to

the extremity of the island, so that one has the choice of sea or land in proceeding southwards. It is a day's journey to Dunedin, and en route there are several promising towns, notably Timarn and Oamaru. The names would signify a Maori population, but there are few Maoris left in the South Island -probably not more than 2,000 out of the entire native population of the col-

They may bring you out a nice collection of antiquities, but the newest novelties they cannot bring you. It's only the latest buyer that can buy the latest styles. Watch for ours!

another of the immortal Robbie. Walking past the latter with a citizen, I asked who this Robert Burns might be, when he cast upon me such a look of mingled pity and reproach that I hastened to explain. I was simply joking. It was too late, however, for the proud Scot had taken me seriously and my reputation was gone. The streets are all named from famous Scotchmen or Scotch places, and the magnificent churches-the finest in the colony-are Knox, Chalmers, St. Andrews, etc. The banks, hotels, university, high school and public buildings in general, and the homes, bear evidence to the thriftiest and wealthiest city in New Zealand. The last town of importance is Invercargill—a first cousin of Dunedin -and destined some day to become an

important city. THE COLD LAKE REGION is the pride of the South Island, as the Hot Lake District is of the North. It is a day's journey by rail from Dunedin, or about half a day from inver-cargill, to Kingston, at the foot of Lake Wakatipu. Here the steamer proceeds to Queenstown, a village beautifully situated in view of Ben Lomond, Mounts Cecil and Albert, and The Remarkables. From the head of the lake 25 miles farther on, Mount Earnslaw raises his snow-capped peak, and many other ranges and lakes are in sight. Near by is the famous Milford Sound, which must be seen to be appreciated. It may be interesting to remark several things about the word "Wakatipu." In the first place, the final letter age stamp. By an error—some declare purposely—the word was spelled 'Wa-their nicety. kitipu,' so that the issue was eagerly sought for by philatelists. The government was offered fabulous sums for the entire issue, but declined to acmated that in spite of all these precau-

tion about two-thirds have fallen into the hands of speculators. I was offered half a crown for one of these inated. stamps in New Zealand. The new issue with 'Wakatipu' properly spelled is Lambton have nominated Mr.John Farnow available. "The last port of call is The Bluffs, a | tion. desolate little fishing-town, where fine oysters are obtained. It is well worth while to climb to the signal station two miles away. Stewart Island, with a few thousand population, is in sight, and a few small islands with one or two families, and some uninhabited.

By ald of the telescope one may see the people walking on the streets of far-away Invercargill.
"The vessel bound for Australia goes by way of Tasmania through a piece of very rough and choppy sea. Of the four days from the bluff to Hobart an American says: "A journey once ta-ken, never to be forgotten, and only to be compared to the North Sea at its worst," to all of which I assent with a heartfelt 'Amen!'

"Such is the British colony of New Zealand, with some of the points interesting to a traveler. These who have followed the accounts thus far will be interested to turn up Mark Twain's description in 'More Tramps Abroad,'
and read of the popular impression that New Zealand is near Europe or Asia, or somewhere, and that you cross over on a bridge; also of his amusing account of the visit of the professor theological engineering from Welling-ton University to Yale University!"

WARD AND VOKES TONIGHT.

The offering at the Grand tonight will be Ward and Vokes and a big troupe of farce comedy celebrities. "The Governors," which is the title of the new comedy presented by these favorite farceurs, is the combined effort of "Happy" Ward and Fred S. Gibbs. It presents Ward and Vokes as "Percy and Harold" masquerading as the governors of Oregon and Idaho, fulfilling a contract made by the real governors, with the Woman's Emancipation League of South Dakota, for a series of speeches. Upon this slight thread have been hung three acts of the most delirious nonsense imaginable. Prominent in the cast for the present tour, which is probably the largest and strongest company ever toured in farce comedy, will be found Louise Montrose, a vivacious little soubrette, will be seen to fit the role of "Em Peach" to a nicety; Margaret Daly Vokes, the accomplished wife of Harry Vokes, whose acterizations in past Ward and Vokes presentations have made her a favorite, will be seen in some original creations in the new farce. E. D. Stair is not used in pronunciation. GOING INTO THE Jobbing Grocery and Liquor BUSINESS EXCLUSIVELY.

Every truss warranted.

The undersigned, in teturning sincere thanks to his numerous customers and friends in both city and country for their kind and generous patronage during the last twelve years, begs leave to say that the business has arrived at a stage in its existence that it is not policy to much longer continue the retail portion of the grocery business. I therefore beg to say that on and after the first day of September next, the retail portion of the grocery business will cease. In the meantime, that is, from now until the date above specified, all loose goods and broken packages will be offered to our customers

and friends at reduced prices. The liquor business will be conducted in the same manner and place as heretofore. All parties owing accounts on account of the retail portion of the grocery business, will please call and settle at their earliest convenience. All accounts are payable at the old stand.
