

Just Has "Nothing To Say"

SHERIFF CAMERON DECLINES TO TALK

Sheriff D. M. Cameron "had nothing to say" regarding the recommendations of Inspector Dunlop and Assistant Attorney-General Bayly when seen at his home, 860 Waterloo street, Wednesday evening. When a representative of The Advertiser called, the sheriff refused an interview, but asked that the report be read to him.

After the article had been read by his daughter he would make no remarks concerning himself or the recommendations affecting his subordinates.

Inspector Dunlop made four recommendations in all, namely: That Sheriff Cameron be retired and an active man put in his place; that Deputy Sheriff B. F. Watterworth be reprimanded for neglect of duty; that the resignation of Governor Carter be accepted and a new governor appointed immediately; and that there be a complete reorganization of the jail staff of turnkeys and watchmen.

Leniency is shown in the report in the case of Deputy Sheriff Watterworth, "because of the fact that Mr. Watterworth has for the past few years performed all the duties of sheriff and deputy sheriff. Mr. Cameron being practically incapacitated during that period."

LT.-GEN. BURSTALL TO INSPECT SIGNALLERS

Will Review Local Militia Unit November 28.

It was announced at the regular weekly parade of No. 1 Company, Canadian Corps of Signals, held in the armories Wednesday night, that headquarters, wireless and cable sections of the unit would be inspected by Lieut.-Gen. Sir H. E. Burstall, K.C.B., K.M.G., A.D.C., inspector-general, on November 28, at 8 p.m.

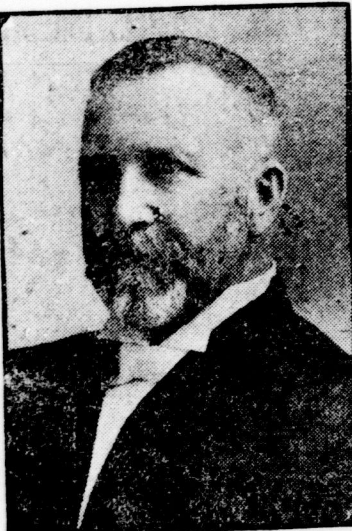

The date of the annual classification tests in reading and sending visual signals for the local sections of the unit has been set by militia headquarters for October 26. Only those who have attended a school of signalling in which the new procedure has been taught will be permitted to take the tests.

The company is rapidly getting into shape for these coming events, and the officers of the company are highly pleased with the progress being made. They report all ranks as taking a keen interest in the work.

It has not yet been announced when the out-of-town sections of the company in St. Thomas, Ingersoll, Chatham and Goderich will be inspected by the inspector-general, but it is thought that these inspections will follow soon after that of the local sections.

SHERIFF DONALD M. CAMERON.

INSPECTOR W. W. Dunlop, in his report to the provincial secretary on the escape of the Murrell brothers, recommends the immediate retirement of Sheriff Cameron and the appointment of an active man in his place.

CHURCH LOSES WORKER WHEN MRS. HANCE DIES

In the passing away of Mrs. Hance, beloved wife of John Hance of St. James street, Colborne Street Methodist Church has lost a true and faithful Christian worker.

Mrs. Hance, through her kind and cheerful spirit, won the hearts of a host of people.

Not only is her loss felt by immediate relatives, but by the entire community in which she lived.

The funeral took place Monday afternoon. An impressive service was conducted by the pastor, Rev. S. Judson Kelly, assisted by Dr. F. Louis Barber of Toronto.

Can't See Reason Why City Salaries Should Be Hidden

Despite the action of city council at its last meeting in turning down the recommendation of No. 1 committee that the salaries of all city employees be published in the city directory, the committee Wednesday afternoon again recommended that the information be obtained by City Clerk Baker for publication.

Ald. G. A. Wenige, seconded by Ald. P. J. Watt, presented the motion to this effect.

Ald. J. C. Wilson pointed out that the information desired is in the auditor's report.

Ald. Watt declared that if city servants are ashamed of their salaries they ought not to accept them.

Mayor Little stated that if the desired information was obtained, the committee Wednesday afternoon again recommended that the information be obtained by City Clerk Baker for publication.

"They want information not in the annual report," explained Ald. Wenige, "these petitioners represent a large amount in taxes and we cannot ignore the petition."

Wilson Wants Action.

"If you move that they print all the information when they obtain it I will second the motion," said Ald. Wilson.

"I have seconded it already," protested Ald. Watt.

"Does that list include Hughie Stevenson?" asked Ald. John Bridge.

"Why, he is not a city official," innocently explained Chairman Watkinson.

"Well, he comes down here dictating to us, so I thought he was," Ald. Bridge announced with a smile.

Ald. W. A. Watkinson presented several recommendations regarding the local market. Chief among these was that hucksters be prohibited from "free stands at the city's expense," that farmers be allowed to park vehicles on both sides of King and Talbot streets abutting the market, that eggs and butter be tested under civic supervision.

vision, that an upper floor in the market house be constructed to bring in "good revenue" from additional stalls, that a new produce building be built west of the market house with the basement of the latter restricted to tenants of stalls, that auctioneers be allowed to start sales at 10 a.m. instead of 11 a.m. as at present, and that the roof of the market house be repaired.

See Law Laxity.

While the committee favored prohibiting hucksters from the market the consensus of opinion was that there is a bylaw governing them at present, but that it is not being enforced.

Opposition to permitting farmers' vehicles to be parked on King and Talbot streets adjoining the market was freely expressed. The recommendations were laid over until the next meeting of the committee, when the market clerk will be asked to attend and report upon them.

A deputation of women headed by Mrs. A. T. Edwards appeared on behalf of the Day Nursery at King and Wellington streets and asked for funds to help maintain this institution next year.

Mrs. Edwards pointed out that it costs \$5,000 annually to run this home where small children are cared for while their mothers work. She asked for one-half of this amount from the city, and declared that 22 children under 10 years of age are kept daily at this home known as The Crèche.

Of the mothers of the children twelve have been deserted by their husbands and six are widows. None of them are in receipt of mothers' allowance, but they pay 25 cents a day for each child and ten cents daily for every additional child. Two nurses and a cook minister to the kiddies some of whom are but a few weeks old.

The committee felt favorably inclined to include a grant in next year's estimate for this worthy cause, and promised earnest consideration of the appeal.

URGE REMOVAL OF CAMERON AS COUNTY SHERIFF

Dunlop and Bayly Agree On Need For Dismissal of Aged Official.

CENSURE WATTERWORTH

Complete Reorganization of Entire Jail Staff Is Recommended.

[Special to The Advertiser.]

Toronto, Sept. 28.—Carelessness on the part of the Middlesex County jail staff and disobedience, according to Inspector W. W. Dunlop's official report to the provincial secretary, were responsible for the escape of Sidney and William Murrell, alleged murderers.

"The inspector makes four recommendations, namely, that Sheriff Cameron be retired and an active man put in his place; that Deputy Sheriff Watterworth be reprimanded for neglect of duty; that the resignation of Governor Carter be accepted and a new governor appointed immediately; and that there be a complete reorganization of the jail staff of turnkeys and watchmen."

"Leniency is shown in the case of Deputy Sheriff Watterworth," says Inspector Dunlop, "because of the fact that Mr. Watterworth has for the past few years performed all the duties of sheriff and deputy sheriff. Mr. Cameron being practically incapacitated during that period."

"The evidence adduced at the inquiry," reads Inspector Dunlop's report in part, "shows conclusively that it is impossible to provide a strong cell, put on extra guards and issue special instructions, yet when jail officers fail to realize the supreme importance of adherence to rules and regulations, it is not possible to prevent escapes."

Hits Rule Violations.

"The Middlesex County jail is as secure a place of restraint as any jail in the province of Ontario. It is a clean jail, and the governor, Mr. Carter, has often been complimented on this feature of it. The staff was large enough to properly man the institution if every officer observed and lived up to what was required of him."

"We find, however, when examining the employees under oath that each and every one of them, except the jail surgeon, Dr. James D. Wilson, and the matron, Miss Harris, although admitting that they had studied the rules and regulations, have violated certain of them to such an extent that the Murrell brothers were allowed to escape. There is no doubt but that the violation of the rules respecting the dietary for prisoners, which permitted the parents and others to send in parcels and food, directly contributed to the escape of these prisoners by a means of breaking jail."

"You will note the evidence of Mr. Richard Warren, an experienced iron worker, wherein he states that the bars were cut from the inside, and it is well known to jail wardens throughout the country that a hacksaw blade is a very easy implement to smuggle into a prison. It may be concealed in almost anything, and when the jail officials allowed a dozen bananas at one time to get in, a whole roast chicken and various pies they provided the Murrell brothers with ample opportunity to get implements, which no doubt enabled them to cut the bars."

Seems Only Course.

"I regret that it appears to be necessary to recommend that drastic measures be taken in this connection, but the action recommended seems to be the only course to pursue."

Deputy Attorney-General Bayly, in concurring with the inspector's report, says, "but I would not recommend that the turnkeys be dismissed. I am not completely satisfied that the bars were not sawn from the outside, but I think this unlikely."

The deputy-attorney-general, in a supplementary report to the provincial secretary, suggests "that one jail in Ontario be made a strong prison, having proper cells for keeping dangerous prisoners, having trained armed guards for looking after such prisoners, having search lights playing on all windows at night, and thorough inspection of each cell and its contents, strict observation of the rule that no parcels shall be delivered, and that all prisoners accused of murder who are considered of a dangerous type, and all prisoners charged with serious crimes who are likely to escape, be transferred to such 'strong prison.'"

If this suggestion is not feasible the deputy attorney-general suggests that directions be given to all sheriffs having dangerous prisoners in custody that no parcels be allowed to be received by them; that they be not confined in the same cell; that their cells be not on the ground floor; that armed guards be placed outside their cells day and night, equipped preferably with repeating shotguns; and that there be a daily search of cell and prisoners.

Wants Experienced Men.

Further, he expressed the opinion that all jailers be of possible military men of experience in jail work, or police officers with such experience.

Inspector Dunlop, in a further commenting upon that of Deputy Attorney-General Bayly's, concurs in his suggestions and adds, "I would like to think that all the trouble which prison officials have could be cured in so easy a manner. We can do all the theorizing we like, but in the final analysis we come down to the personal equation. We may provide a strong cell; we may get extra guards; we can get out special instructions; provide guns, boots and electric lights. If they are wanted; but we cannot supply brains to the jail officers in this province today, and just so long as jail officials fail to realize the supreme importance of adherence to the rules and regulations, all the theorizing on earth will not prevent escapes."

WINNIPEG, Sept. 28.—Making application for a supply of natural gas in their factories, which, they told Col. Harkness, natural gas commissioner, is indispensable in their business, seven border manufacturers this afternoon failed to secure an immediate decision from the commissioner. In taking the applications under advisement, he told the delegation that his decision will be reached after the meeting at Chatham on Thursday.

Rumor New \$300,000 Debenture Issue To Cover Housing Loans

Debentures totalling \$300,000 for individual loans under the municipal housing act will be issued by the city council, if that body follows the recommendation of No. 1 committee, which met Wednesday afternoon, C. W. Crawford of Toronto, accountant for the Ontario Housing Department, appeared before the committee and advised such a course.

Mr. Crawford pointed out in a signed statement that loans have been authorized totalling \$283,000 for 1920, but that unless debentures are issued to cover this amount J. A. Ellis, provincial housing director, refuses to sanction them.

The limit fixed by law for loans is \$400,000, and Ald. G. A. Wenig suggested at the meeting that the council "go the limit and wind up."

Ald. J. C. Wilson declared that all applications for loans should be cleaned up and "then it is time to call a halt." He stated that this is the opinion of the London Housing Commission, and that his remarks were not a criticism of that body.

If the debentures are issued this will make a total of \$700,000 to be loaned under the housing act in this city. City Clerk Baker explained that there are as yet 22 Pine Lawn houses and fourteen Garfield avenue houses erected by the local commission unsold, and questioned if further individual loans would tend to delay their sales.

Fare Price Drop.
"I wouldn't like to buy one of these houses," opined Ald. P. J. Watt, "they are an enormous price, although I admit that the cost is what it is. I am thinking of the Pine Lawn house."

Ald. Bridge declared that the debentures are not directly chargeable to the city's borrowing power. On motion of Ald. J. C. Wilson it was decided to recommend that \$300,000 debentures be issued to cover 1920 housing loans.

Tenders for firemen's uniforms from Fifth Bros., Green-Swift & Company, S. Orth, Selak and Dambra & Walsh were referred to Chairman Watkinson and the fire chief. The contract was previously recommended to be awarded to Fifth Bros. but as many tailors claimed that they did not know of the tenders being called for, final decision

was delayed to give all merchants an opportunity.

Ald. F. R. Watkinson was deputed to represent the city at a meeting of the Ontario Railway Board in Toronto October 12, for the purpose of appointing officers to audit the books of the City Gas Company, as requested by the city council. The committee recommended that the city council take the same action at the hearing of the Bell Telephone Company for increased rates, as that conducted at a similar previous hearing. Such action was concerted through the Union of Canadian Municipalities.

Refer Phone Plea.
An application of the Bell Telephone Company for permission to install a pay station in the basement of the market house was referred to the chairman with power.

Ald. Watkinson reported that the new combination fire truck built for the city by the Ruggles Motor Company of London has been inspected by himself and Fire Chief John Aitken, and found satisfactory. His recommendation that the account be paid was passed.

Chairman Watkinson declared that the manufacturers deserve great credit for this truck, and that citizens of London are to be congratulated on possessing such a firm employing local labor. He urged that the equipment of existing fire stations be motorized at once. On motion of Mayor E. S. Little the city clerk was instructed to obtain new prices on motor trucks for these three halls.

On recommendation of Fire Chief Aitken a bylaw prohibiting the parking of vehicles within a space of 75 feet in front of city fire stations was recommended to the city council. The chief pointed out that the new fire truck at the central station requires a great deal of space to turn out in response to calls, and for this reason the parking of vehicles in front of the hall is dangerous to his men and the equipment.

Appointment of successors to Aldermen J. C. Wilson and J. Bridge on the London Railway Commission was deferred, the committee being uninformed whether these resignations have yet taken effect.

A recommendation from the board of health that as many tailors as possible be prohibited was referred to the market clerk for a report.

RECRUIT 94 TO CHAMBER RANKS IN DAY'S DRIVE

Campaign For Larger Chamber of Commerce Is Proving Successful.

SIXTY-SIX NEW MEMBERS

Work of Organization To Promote, Educate and Co-ordinate.

Despite the fact that Wednesday afternoon was a holiday in many of the business institutions canvassed by teams participating in the drive for 1,000 members for the local chamber of commerce, 94 business and professional men were enrolled as members of that organization during the day. According to figures compiled at a dinner given in the Tecumseh House Wednesday evening a total of 321 members were signed up during the first two days of the campaign.

The officials who are conducting the drive are elated over the fact that 66 of the total secured are new members. During the first two days of the campaign every team made special efforts to secure new blood for the organization, and on Tuesday 44 new members were secured, while on Wednesday the number was increased by 24.

Renewal Memberships.
Although two days of the allotted time have passed, the team captains and the different officials are by no means discouraged because less than one-third of the objective has been reached. It was pointed out that no efforts had been made up to Wednesday night to secure renewal memberships, and that according to instructions issued from campaign headquarters, 99 per cent of the calls made by various members have been made on new prospects.

It was announced by President John Bridge and Chairman James Gray that the committee deemed it advisable that one-half of the working teams should devote all of Thursday to the canvassing of old members, while the others should continue their search for new prospects. By this system it is believed that the objective will be reached by Thursday evening.

Team Reports.
Few of the reports by the various teams on Wednesday were as large as those made on the first day. Following are the reports as they were read by the different captains: W. R. Jarman, 2; J. W. Tomer, 11; G. A. Wenig, 1; A. H. Morgan, 4; E. R. Dennis, 7; A. R. Ford, 9; J. B. Hay, 4; T. H. Yull, 2; Adjt. P. Martin, 12; C. S. Martin, 1; P. St. Lawrence, 10; G. R. Taggart, 2; E. Jenkins, 1; E. V. Buchanan, 17; John Gunn, 12; C. W. Corbett reported no results.

District No. 2, with Vice-Chairman D. Mitchell in charge, by securing 68 members, holds first honors, while district No. 3, under the direction of Vice-Chairman J. M. Watts, is second highest with 56 to its credit. Four teams, under Vice-Chairman Lieut.-Col. W. J. Brown, have secured 52 members in district No. 1, while 50 have been enrolled in district No. 3, directed by Vice-Chairman G. D. Clark.

Work to Be Done.
Robert Crosby of Toronto, in addressing the canvassers, spoke of the many things for which the Chamber of Commerce is an organization stand. Among other things it investigates, conducts experiments and demonstrates along lines which no civic body can afford to experiment. After it has proven that the things which would be beneficial to the municipality it unselfishly passes the ideas along. The Chamber of Commerce must seek to promote, educate and also to bring together the many other organizations who are working independently for the good of the city.

Some excellent advice was given to the workers by President John Bridge, Chairman James Gray, Lieut.-Col. W. J. Brown, E. Dennis and other team captains.

The gathering was entertained by juvenile members of the MacDonald troupe. Some clever Irish and Scotch dancing, performed on a table by Lenore Gilmour, pleased mightily.

NATIONAL Y SECRETARY TO ADDRESS KIWIANS

When the Kiwanians meet Friday at their noon-day luncheon they will be addressed by Capt. Tom Best, national secretary of the Y. M. C. A. on "Pulling Together."

Since the close of the holiday season the attendance at the meetings of the Kiwanis Club has increased greatly. Regret, however, has been expressed by the officers that many have not acquired the luncheon habit. This, they say, will result in many members finding that they have been suspended. A resolution was passed at a recent meeting to the effect that if any member fails to be present at three consecutive luncheons, without a reasonable excuse, his membership will be cancelled.

FINE CORN CROP BIG AID TO FARMER

new to Middlesex, but this has been the most serious year. This condition is due principally to the mildness of last winter when it wintered farther north than usual.

"However, if we have a cold winter it is not likely that the farmers will be bothered at all with the ear worm next year. Late corn was more affected than early varieties, while the borer was worse in the early corn."

Mr. Finn suggested that it might be good business to plant early maturing varieties such as white cap yellow dent, Golden Glow or Longfellow from seed grown in Middlesex or adjoining counties next year.

Potatoes will be a 60 per cent yield this year, according to Mr. Finn.

The apple crop is exceptionally light, with the products of unsprayed orchards already on the ground. The majority of apples this year are wormy," stated Mr. Finn, "and there is lots of ink spots and scabs to be found as well. Well-cared-for orchards throughout the county are few in number, and some of them that had a small crop last year are pretty fair this fall, although the crop, taken as a whole, is quite light."

Fewer Cattle.
In the opinion of the district representative, there were fewer cattle in the county this fall, but the falling off was hardly noticeable. Animals were, in most cases, in good shape, due to the excellent late pasture.

Many farmers who had practically gone out of the hog business were gradually coming back, feed being cheaper. There are fewer sheep to be seen in county fields, due to the fact that lambs only were in demand on the market. A peculiar fact, though, is that the pure-bred sheep raisers state that they never had a better year. A number of farmers have taken advantage of lower prices to build up their flocks, looking ahead several years.

"I don't think that the number of chickens raised in the county varies much," stated Mr. Finn. The average farmer raises about the same number of chickens each year, and this spring being favorable for hatching, I expect that there are just as many chickens as ever.

"The year has been noted for insect pests. Potato bugs were especially bad, and aphids covered everything, due to the mild weather. Weeds, too, were bad, coming on with great rapidity just while the farmers were in the midst of harvesting, and had no time to attend to them."

BIG LIQUOR SEIZURE.

Montreal, Sept. 29.—Over \$6,000 worth of whiskey and brandy in transit from St. Johns, Que., and alleged to be going to the United States, was seized by officers of the Quebec liquor commission at a point about two miles from the Canadian city yesterday. An automobile truck, which was conveying the liquor was also seized.

COSTS STUDENT \$500 A YEAR

of every Western U. medical student, and is also presented to those who contemplate registering for this course.

Board Ten Dollars a Week.

The statement begins by quoting board at \$9 to \$12 per week, but the latter amount may be eliminated as too high for a student, with \$10 struck as the happy medium, making a total of \$300 for the 30-week term, as the first item. However, many students will scurry about early next week and locate boarding-houses of the desirable type at \$8 per week. Often lower terms are available by the "Med's" agreeing to share their rooms with classmates.

The tuition fee is \$140 if paid in full on registration, or \$144 if paid in two installments, the first of which is due on registration, with the second \$72 payable not later than February 1 of the ensuing year. Freshmen students are required to pay \$5 as a registration fee, this is only levied once. An athletic fee of \$5 per annum is required from every student at the Medical School, which sum is utilized to further equip the Western.

Books are estimated to cost \$15 to \$20 per year, while instruments are set down at \$5 to \$20 for the same period. At the beginning of his course each medical student must purchase a microscope with a good microscope. This instrument must be equipped with a sub-stage condenser, low power, high power and oil immersion objectives. The microscope may be purchased from the university at cost by a single payment, or may be obtained by purchase in two, three or four yearly payments. Under these terms the instrument is in slight advance of cost price, depending upon the terms of sale.

The microscope may be rented by the student for the school year at a fee of \$10, with the balance of student responsibility for damages. Microscopes are quoted at about \$100, and although a few students purchase one, the majority are content to rent them for the junior years of the course, thus adding \$100 per year to their budget.

Science Can Now End Corns

Such Troubles Are Out of Date—Millions Know This Now

A famous expert, years ago, solved the whole corn problem. The method is Blue-jay—the plaster or the liquid. It stops pain instantly. Soon the whole corn gently loosens and comes out.

Now folks who pare or pad corns do themselves injustice. So do users of old methods, harsh and crude.

Blue-jay is modern. It is approved by authorities. It is easy, simple, quick and sure.

Just apply it and forget it, and watch what becomes of the corn. After that, you will never let a corn pain twice.

FRENCH OBJECT TO INCREASE PHONE RATES

Thousands of Subscribers Threaten To Give Up Their Instruments.

OBJECT TO EXCESS CALL

American Syndicate Offer To Take Over System Might Be Considered.

PARIS, Sept. 27.—Americans trying to do business in Paris have for a long time complained of the inefficiency of the French telephone system, with its interminable waits for even the shortest distance calls, but now it seems certain that the difficulties in this connection will increase if the Chamber of Deputies approves the new telephone law proposed. Thousands of telephone subscribers, including large business firms, declare they will take up the instruments rather than pay what they regard as an excessive rate.

Telephone service here now costs only 700 francs a year, but the telephone ministry intends to fix yearly subscriptions at 55 francs, with a charge of 25 centimes for every call in excess of 1,000 a year.

Important firms have counted the number of calls sent out over their telephones daily, and have calculated that under the new rates it will cost some of them more than 25,000 francs a year for telephone service.

Cafes and restaurants, which have never charged customers for the use of their telephones, declare they will be compelled to increase their prices, as the French public, after years of gratuitous telephone service, will not be willing to pay for it.

An American telephone syndicate offered last year to take over the Paris telephone system and operate it after the American plan and charge minimum rates, but the offer was refused. Now, however, there is a strong possibility that, should this syndicate's offer be renewed, it would be accorded serious consideration, as the French budget situation is too dangerous to permit the wholesale cancellation of telephone rentals.

IGNORANCE CAUSE OF MANY FIRES

OTTAWA, Sept. 28.—(By Canadian Press).—Fire-preventive week, beginning on Sunday, Oct. 9, and ending the following Saturday, has been appointed by order-in-council, and the proclamation is made through a special number of the Canada Gazette.

The proclamation calls attention to the fact that more than three hundred persons in Canada annually lose their lives as a result of fires. Furthermore, it is insisted that at least eighty per cent of the fires which occur are the result of inexcusable ignorance or neglect.

During fire-preventive week, citizens are recommended to inspect their homes and stores and other buildings, and to remove rubbish and otherwise reduce fire hazards.

Women Continually Overdo

This applies to all women, regardless of caste or color. The ambitious girl striving for school honors, the overworked housewife, the shop girl, girls in offices and stores, and the society woman all climb too high, overtax their strength, and what follows? Nervous prostration, sleeplessness, backache, headaches, and the inevitable weakness and ailments peculiar to their sex soon develop, which unless checked bring on more serious conditions, and which often lead to operations. An efficient restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which is now recognized from coast to coast as a standard remedy for women's ills.

Safety First Aim of Flyers

Will Leave Nothing to Chance in Flight Around World.

LONDON, Sept. 28.—(By Canadian Press Cable).—"We are leaving nothing to chance," was Sir Keith Smith's parting shot to an interviewer after outlining the precautions he and his brother, Sir Roy Smith, are taking to insure their success in their flight around the world next spring. "We are pretty certain that the flight will be made some day, and we are keen to have the honor go to a Britisher," said Sir Keith.

The route has not yet been decided, but Sir Keith favors crossing the Atlantic first to get the stiffest part of the journey over early.

The Smith brothers with two sergeants left London on November 12, 1919, in a Vickers-Vimy machine in an attempt to fly to Australia. On December 10 they landed at Port Darwin, Australia, and won the Australian Government's £30,000 prize for having covered 11,294 miles in just under 23 days.

PRE-WAR WAGES NOT BASIS NOW

MONTREAL, Sept. 28.—(By Canadian Press).—Argument was presented here this afternoon on behalf of the railway unions, at the conciliation board appointed to look into the dispute in connection with the proposed reduction by about twelve per cent in wages. The argument was given by G. F. Wark, vice-president of the Brotherhood of Locomotive Firemen and Engineers, who contended that pre-war wages should not be considered as a basis for present discussion since, he claimed, they had been altogether inadequate, while the advances in the McAdoo schedule did not keep pace with the advancing cost of living.

Further, he pointed out that the nature of the employment whom he represented with engineers and trainmen in charge of equipment worth around half a million dollars for each train, as well as the lives of passengers, or great values of freight, was such that these men should not be compelled to work for a bare living, but be given pay commensurate with the dangers and responsibilities met in their work.

A statement was also read on behalf of the Telegraphers' Union, taking the same grounds against a wage reduction. The hearing will be resumed tomorrow morning.

WHEELS OF FORTUNE ABSENT FROM FAIR

[Special to The Advertiser.]

STRATFORD, Sept. 28.—Beautiful weather favored Stratford's fall fair today, and as a result citizens' day saw a record attendance at the grounds. The fair this year is ahead of other years, both in the number of entries in the various classes, and in exhibits by merchants and manufacturers. Following the recent ruling of Mr. Raney "wheels" were absent on the midway. Even at that some of the games of skill fell under the ban of the authorities and were closed up.

Two good races held the boards today, and two more are scheduled for tomorrow and Friday. After romping home in fourth and fifth positions Joe McKinney spurred and took the last two heats of the Chamber of Commerce 2:25 pace. Eleanor Todd went three straight heats in the 2:30 trot after finishing second in the first heat.

Summary:

DO NOT THINK SYSTEM WILL AFFECT TRADE

WINNIPEG, Sept. 28.—Local grain dealers, as a whole, had little comment to make today upon the proposal for a government system of grain control optional to the producer, outlined at Portage La Prairie last night by Premier Meighen.

There seemed to be a feeling on the part of many of the leading members of the trade, however, that any such arrangement as proposed would, at first glance, affect the grain trade very little.

Pending further consideration of the matter none of them wished to say anything for publication.

Wardsville

WARDSVILLE, Sept. 28.—Corn cutting throughout this district is about completed, and several are pushing their husking. The winter wheat is pretty much all in, and fall work generally is well advanced.

The anniversary services of the Methodist Church will be observed next Sunday, when Rev. R. A. Miller of Mount Brydges will be the special speaker.

Rev. Dr. Huesser conducted church anniversary services at Tyroconnal last Sunday. Tyroconnal is part of the Dutch circuit, where Dr. Huesser was stationed for a term a few years ago. Miss Beulah Strome, who has been visiting at the Methodist parsonage, has returned to her home in Fordwich.

Blenheim

BLENNHEIM, Sept. 28.—Miss Helen Knight sustained a fractured arm from a fall on the sidewalk while roller-skating.

At the Methodist parsonage on September 24 Thomas Keown, an employee of the Rutherford Milling Company, and Miss Jessie Clark, daughter of Edward Clark of town, were married by Rev. A. E. Jones. The young couple left on a short honeymoon trip, and on their return will take up their residence in town.

James Cookson of Flater & Henry's garage, and son of J. J. Cookson, is reported seriously ill with typhoid. S. B. Nichol and John Nichol have each begun the building of a fine residence on what was formerly the Nichol mill property.

ONTARIO CATTLE TO COMPETE. TORONTO, Sept. 27.—Holstein and Jersey cattle from Ontario are to compete as herds and as individuals at the National Dairy Show to be held at St. Paul, Minn., next month, as a result of steps taken by Hon. Manning Doherty, Ontario minister of agriculture, to encourage entries from this province.

Western Press Views.

The recent break of Dr. Michael Clark, which attracted such wide attention in all parts of the Dominion, is still being discussed in western papers.

The Edmonton Bulletin sees in the movement a "back-to-Liberalism" indication, claiming that in that party there is room and scope for all progressives who are dominated by the idea of a government so constituted as to be truly representative of all the people.

The Regina Leader, which has many times expressed its fear lest the agrarian movement should develop into merely an expression of class consciousness, claims that "signs have not been wanting that certain factions within the party are anxious that this fate should overtake it, and if this element succeeds in having its way the word 'finis' might as well be written across its page. A class organization cannot claim the right to use either the word 'National' or the word 'Progressive' as descriptive of it. Classism is not progressive but reactionary. The new party has traveled a long distance from the broad and liberal spirit that moved the Hon. Mr. Crerar at Prince Albert last year to invite the co-operation of all those who saw eye to eye with the farmers on the great problems of the day in order to reach the narrow and self-centered class consciousness described by Dr. Clark. The time has come for it to turn about and travel in the opposite direction. Unless it does so it can expect no other fate than that which has eventually overtaken every attempt at class domination under the British system of government."

Attacks Prohibition.

Considerable interest has been aroused in a wide circle by the remarks of Governor Edwards of New Jersey regarding prohibition. The governor's statement is forceful, and it has the fine quality of saying something all the way through.

In part, this is his line of reason: "Prohibition is a flat failure. It prohibits only one class—those who have not the price. The rich can get all they want. Farmers are still able to brew their own. All they have to do is to prepare the fruit juices and the Lord ferments them. Our progeny will discover vices and the development of honor and character alone will prevent their indulgence. There always will be sin. Prohibitionists say drunkenness is prohibited, and that a generation or two will wipe out the predisposition. We all know of sons and daughters of straight-laced parents who became black sheep, and we also know of great good men who came from homes where fathers were drunkards. Reformers mean well, but they are misguided and fanatical."

When it is all summed up the main point made by Governor Edwards is that legislation will not permanently elevate the moral standard of the race, and in that contention he has very good grounds for his case.

His broadside about prohibition being a flat and dismal failure, and its making a generation of liars out of the people of United States is too foolish to be seriously considered. A man who is going to be a liar simply because he can get whiskey is going to lie anyhow, and it only requires some specific cause to bring that trait of character into operation.

There is a limit, though, to the extent to which permanent betterment can be brought about by the passing of prohibitory or restrictive legislation.

A nation is made up of individuals, and in the final analysis the strength of the nation and the vision of the nation is going to be no greater or no less than the strength and vision of the individual.

There is real force and undeniable merit to the plea that true reformation comes when the individual is reformed. When that takes place, all law, as far as he is concerned, can be thrown into the discard.

Restrictive legislation has its part to play, but it must be kept in its place, which is secondary. First place goes to dealing with the man "from the inside." Once a man is gripped heart and soul by a new, great vision the legislators do not need to worry about him.

The Foreigner in Canada.

Mr. Justice Monet of Montreal, in imposing a 20-year prison sentence upon a foreigner for wounding his wife, declared: "Foreigners must learn that they cannot shoot and stab people in this country."

With that view, of course, the average citizen is very much in accord, although the criminal records will show that the same words could be spoken with equal force to a number of English-speaking people. Crime is not the sole and exclusive property of the foreigner in Canada.

Apart from that, what are we doing for the foreigner in Canada to show him that we know more about living than he does, and that we

The Day of Emancipation Must Come.

—Knott, in the Dallas News.

have home and national ideals worthy of his best efforts?

Pull him into the police court? Certainly, we can do that, and we attend to it splendidly.

Send an officer around to look over his backyard and report him for insanitary conditions. Surely we have carried that out to the letter.

Raid his house for him now and then to see if he has liquor. Why, of course, that must be attended to, while well-stocked cellars all over the country go untouched.

Honest, now, have we got very much to hold out to the foreigner? We don't want him on "our" street. We don't want his children going to "our" children's schools.

We've seen to it good and plenty that the law walks on his heels, and no doubt much of this is necessary for the protection of society in general.

But farther than that we have not gone very far. It is probably a ticklish point, and one where it is hard to point out a definite program.

The greatest care should be taken as to the number and class of these men admitted. That has, however, nothing to do with those already here. Almost any plan we might devise would be better than our present system of touching them only with a ten-foot pole.

Not Wanted Here.

A Socialist organization, which for some time has been more or less active in Montreal and Quebec, has issued a manifesto in which it calls for the abolition of the two Houses of Parliament, and the turning over to the people at once of all public utilities. Along with these fantastic demands the party declares all foreigners should be permitted to enter the country, regardless of literacy or financial standing.

The incident is interesting, because it makes it clear that the infamous destroyers of Russia have friends, if not actual agents, in this country. There is nothing, however, about the matter to cause alarm.

The number of Canadians outside of insane asylums who would follow the lead of such a party as this are too few to be considered a menace. It is amazing, though, that intelligent men and women should wish to put on the Canadian people a political, social and industrial system that has reduced Russia to its present deplorable position. Possibly if the members of the Quebec Socialist party could be given a trip to Russia they would, upon their return, become better Canadians. Instead of championing a grotesque political movement that can never fit in with Canadian ideals.

Chamber of Commerce.

London Chamber of Commerce is after members, and that means they will get them.

Any city that has a real Chamber of Commerce has a civic asset whose true worth is not all on the surface.

The idea behind the organization, whether stated in as many words or not, is to get citizens to find out by actual experiment just what a satisfactory thing it is to do something for the good of the community as a whole.

Every city has its full quota of men who are on the lookout for anything the city can do for them. They have failed to see that a person gets out of a city just about what he puts in. If he takes out more than he contributes then the community as a whole is poorer for having known him.

The Chamber of Commerce is also the logical way of bringing together all the various organizations of the city. It is a place where the "doers" can unite forces. It creates just such an atmosphere as a prospective manufacturer looking for a site likes to feel when he comes to the city for the first time.

A Chamber of Commerce is an asset, a real, tangible force, and it has long passed the experimental stage.

Movies and Sunday School.

At a recent conference of Canadian Sunday school workers there was a long discussion on the prob-

lem of making the study of the Scriptures more interesting to the children. One suggestion that was seriously considered was the employment of the moving picture to illustrate the stories and drive home the great moral lessons of the Bible.

It seems amazing that the Sunday school has not long since taken up this wonderful agency as an aid in spiritual instruction of the little ones. In the public schools of many American cities the cinematograph is used regularly to splendid purpose, and in most colleges and universities it plays an important part.

Why not then in the activities of the church, especially in the Sunday school? There are some phases of the Scriptures that are too sacred ever to be screened. Sentiment would not permit it, but there does not seem any good reason why the majestic story of creation and other episodes of the Old Testament should not be presented to the children through the medium of the moving picture.

Reverently handled, and shown in conjunction with efficient teaching, Scripture history and Bible lessons would hold a vividness that would add tremendously to the effectiveness of the present method of imparting information and moral training to the young.

LITTLE 'TISERS

It often runs like this: Matrimony, passion, alimony.

George Bernard Shaw loudly proclaims that his powers are waning. But how do we know he isn't spoofing, as usual?

This is the season of the year when thrifty folks are getting ready to pit the potatoes and stuff rags around the cellar windows.

At Topeka Fair a man won the prize for making the best angel cake. His wife also had one entered, but lost out. We'll wait a bit and see if the angels continue to live around this house.

A real estate man in St. Paul, in order to sell houses, offered in his advertising to recognize each child in a family as \$100 cash on the purchase price. John Luset, the report says, turned up with an even dozen youngsters to look at a \$1,700 house.

Some feeling has been aroused over the demand that the salary list of the corporation of the City of London be published. Naturally, those who are on the payroll of the city do not appreciate the publicity that will be attached to any such move. This information is not private property, but public, and on this ground the petitioners for publicity are basing their appeal. All such information, it should be remembered, will be supplied to any ratepayer who cares to inquire at the civic offices.

The passing of Senator Edwards removes a figure who played a prominent part in Canadian public life. After many years in the Commons he was summoned to the Senate, but even there he carried on with a vigor and purpose that characterized his life all through. Beside being a successful businessman he was deeply interested in agriculture and stock-raising, and these practical topics, so essential to Canadian development, received his support and encouragement. He was an outstanding Canadian, devoted to the development of Canadian institutions.

In the most recent issue of Babson's Reports, reference is made to the advisability of investors guarding against putting their money in short railway lines. Preference is given to long trunk lines, for this reason: "The trunk lines will not suffer from automobile competition as in the case of the short lines."

The point Babson makes has a very direct bearing on the radial lines in this country, all of which are running and are being planned to run through territory that is being honeycombed with good roads, each one of which invites automobile travel that will without question cut into any estimates that may be made of the earning power of the radials.

NOAH'S POETRY

A Barnyard Story.

The farmer said unto his son, yes, Willie was his name: "Here is a calf, my boy, for you to educate and tame. I shall be yours to raise and feed, to educate and scrub, to water it and diet it upon all whole some grub."

The boy looked pleased at such a start, a tear came to his eye, he told his dad he'd do his best, he'd make an honest try.

That calf it had a bright career, it grew to beat the band; it was the finest looking sound that grazed upon the land.

He gave it water, fed it hay, put bran into its feed, that cow had everything, by heck, a cow could ever need.

It was along in fall the boy, with an important air, put ribbons on the critter's tail and led it to the fair.

And there it cleaned up everything from all the land around; it was a cow right from the horns to where it hit the ground.

A drover came around one day to buy some milking stock, and then the boy who fed the cow received an awful shock. The buyer pulled a long green purse that never could go smash, the boy he sold the cow all right, but father took the cash.

It's just such things as this, they say, that work a heap of harm, and make it most almighty hard to keep boys on the farm.

—NOAH.

TO THE EDITOR

MR. LUSH EXPLAINS.

To the Editor of The Advertiser:

Sir,—As my veracity and integrity have been inadvertently called into question by your correspondent's letter of last Tuesday, please allow me to correct what is evidently an unfortunate misapprehension on her part.

It is evidently a case of mistaken identity. The mother of the boy to whom I was referring, confirmed today my statement that his mother wished to report the lad to the police and have him arrested and deported, and that he did his best to dissuade the mother from her intention.

Now your correspondent avers that her mother did everything possible to save the child from deportation.

As the credibility of the latter's employer is quite unquestionable, it is evident that your correspondent must be referring to a different boy altogether. I feel sure that you will afford me this opportunity to correct the unfortunate mistake on the part of your correspondent, whose unselfish devotion to her mother will be universally admired. Yours truly,

CHARLES LUSH.

REPLY TO M. G.

To the Editor of The Advertiser:

Sir,—Kindly allow me space to reply to a recent letter which appeared from one who signs himself M. G. Does the latter believe that because Col. W. G. Colles holds a commission in His Majesty's army he is against the N. C. O.'s and privates, or does he infer that he should take no active part in G. W. V. A. did not seek the presidency of the association. It was the members who asked him, knowing him to be a soldier and a gentleman who returned with the scars of the returned men at heart. In addition to this I know of numerous N. C. O.'s and men who have and are yet doing great work for the association. With Col. Colles as the only exception, the returned men who are conducting the affairs of this branch.

I maintain that the statement that "about one out of thousand officers care a cent about returned men" is incorrect. I know quite a number of returned officers in this city and elsewhere. I may tell him that there are today more soft jobs held by returned men than by the officers. His statement "what the G. W. V. A. has not done for the returned men" should read directly opposite.

If M. G. will become a member of the G. W. V. A. we will show him what has been done for them along the lines of civil re-establishment, permanent positions, etc. M. G. says there are thousands of soldiers who never farmed. This may be true, but then there are also thousands of farmers who never farmed before the war. With but few exceptions they are all doing remarkably well. The percentage of returned men who failed at farming compares favorably with that who make it a life occupation.

Let M. G. peruse the September copy of the Veteran with its list of officers, executives of local, provincial and Dominion commands, he will see that the vast majority of them are N. C. O.'s and privates. This will prove to him that the G. W. V. A. is not a cabal of intriguing officials, but is based rather on a democratic representation of all ranks.

It is through unwarranted, exaggerated comments from returned men of M. G. that a tendency has been created to retard the efforts of those who have the interests and general welfare of the returned men at heart. Thanking you, etc., HUBERT Secretary, G. W. V. A.

PRESS VIEWS ON POLITICS

THE PATRONAGE EVIL.

(St. John Telegraph.)

There are disquieting rumors that the Meighen Government will return to the patronage system during the remainder of its existence, wherever it is possible to do so without conflicting too seriously with the rule and authority of the Civil Service Commission. One report says that the patronage methods will be employed mostly in connection with the national railways, and more especially with the Intercolonial section.

The Toronto Star calls upon Mr. D. R. Hanna, president of the Canadian National Association, to resist to the last any attempt to so invade his field of activity. Several other newspapers are doing the same thing. Whether or not there is solid ground for the rumor remains to be seen, but as the Star and others are so insistent, it would be a serious desertion of duty if the Meighen Government were to revert to the patronage evil on the eve of a general election.

THEY KNOW IT.

(Calgary Albertan.)

Mr. Meighen is appealing to the country on a high tariff policy. That is the emergency that has brought on a election at such an early date, presumably. And yet Mr. Meighen's western support says he is not much of a high tariff advocate and the tariff bill heavers should support him. Have the people no discrimination? Have they

no information? They have, and they know Mr. Meighen's tariff policy.

TO FOLLOW CLARK.

The Edmonton Bulletin (Liberal) thinks that before long there will be a procession following Dr. Michael Clark away from the ranks of the United Farmers to the Liberal party. The Bulletin article says: "The member for Red Deer is taking a courageous course. He is breaking with a movement in which he has been a conspicuous figure, which is now at the flood tide of its strength and prestige, and of which he must have been the most popular and effective advocate who ever bore the title of leadership. If he feels lonesome it will not be for long. There is bound to be an exodus of independent-minded men from the class movement. Groupism in politics is a menace to the state. But long before it becomes that it must become intolerable to men who hold democratic views and think for themselves. The class can dominate only if its members submit to domination by their leaders. The United Farmers' political organization in Alberta is the most unrepresentative political machine that has yet been built up in this country. The members returned to the Provincial Legislature under its banner do not represent their own judgment as to how best they can serve their constituents. They represent the opinions of the local recall committees, which hold the strings and stand ready to jerk it if their orders are not obeyed to the letter. Perhaps for the time the disciplinary mechanism will be used with moderation. But it is there all the same, and will be used when the interests of the organization or its leaders require. Men who have minds of their own, and a sense of personal rights and representative responsibility, will not submit to that sort of thing indefinitely."

WHERE DO YOU LIVE?
(Calgary Albertan.)

If you live east of the Great Lakes, your Conservative newspaper, if you read one, will tell you that Mackenzie King is really a dangerous, red, extreme traitor and beware of him.

If you live west of the Great Lakes, your Conservative newspaper, if you read one, will tell you that Mackenzie King is really a high tariff man, and that he would have a tariff higher than that of Premier Meighen.

It depends entirely upon location. As a matter of fact neither is right. Mr. King has explained his tariff policy clearly enough, if any person desires to give it the plain interpretation which it must bear to honest people.

POETRY.

THE LITTLE TOWN.

(Enid Norman, in the Westminster Gazette.)

The little town was like a love to me, yet all in vain I turned away from wandering to look for her again.

Most eagerly I came, and found a stranger in her place, a stranger with a gaudy gown and broken painted face.

And all my joys at seeing her are frozen into pain.

For the path across the rye-fields, where the lovers used to meet, at sundown when the world was still, I turned away from wandering to look for her again.

With gas-lamps at the pavement's edge, brick houses in a row, And, where the dear old schoolhouse stood, a blazing picture-show.

And always to the night, the tireless tramp of feet.

There are shops to tempt the women's gaze, with hats for every head, For the daughters spend on ribbons and their mothers saved for bread.

The pale-faced sons of men who played with me as barefoot boys and in the unknown ways amid the crowd and noise.

From unremembered faces peer the eyes of those long dead.

The night wears on, and one by one the glaring lights die down. Kind darkness wraps my wanton love, hiding her garish gown.

A cool wind stealing from the hills by well-remembered ways Freshens her into innocence pure as in far-off days.

And she is mine, all mine again, my love, the little town!

IN A CONSERVATORY.
(Bernice Lesba Kenyon.)

These have not known the sting of rain, Nor sweet storm waters, heavy falling.

And they have never felt the pain Of burning sun.

And in the stillness never one Has heard a wild bird calling.

Grey days to them are outer gloom, And never chill like forest glades.

Here in their warm and fragrant room They bloom content.

And slowly fade, when life is spent, As no wild flower fades.

The loud east wind may call and shout Among the trees, and sing and cry Against the window-panes "Come out!" But they are still.

And heedless of the east wind's will They live their lives and die.

UPHILL.
(By Georgina Rossetti.)

Does the road wind uphill all the way? Yes, to the very end.

Will the day's journey take the whole long day? From morn to night, my friend.

But is there for the night a resting-place? A roof for when the slow, dark hours come?

May not the darkness hide it from my face? You cannot miss that inn.

Shall I meet other wayfarers at night? Those who have gone before.

Then must I knock or call when just in sight? They will not keep you standing at the door.

Shall I find comfort, travel-sore and weak? Of labor you shall find the sum.

Will there be beds for me and all who seek? Yes, beds for all who come.

RATEPAYERS WILL DECIDE.

FARMERS WILL STAND PAT ON 1918 PLATFORM

Meet At Winnipeg To Arrange Plans For Federal Campaign.

WANT TARIFF REDUCED

Province of Alberta Not Represented At Convention of Progressives.

WINNIPEG, Sept. 28.—Meeting this morning to arrange campaign plans for the National Progressive party, the Canadian Council of Agriculture decided not to alter the Farmers' platform for the coming federal election.

R. W. E. Burnaby, president and U. F. O. nominee for North York, presided over the session which included among its 32 delegates, Hon. T. A. Crerar, leader of the Progressive party in the Dominion. The United Farmers' party of the Province of Alberta was not represented.

The Farmers' platform constructed in 1918 by the council, but revised in part at the last session of that body in Toronto will stand unchanged in every detail. Despite the fact that it was felt that the platform could be further co-ordinated, the general opinion was expressed that any change made at the present time would simply tend to confuse the farmers and the electorate generally.

There have been alterations since 1918 by the adoption of certain planks, as for example, those relating to returned veterans' problems. All considered, however, that the platform must retain its true democratic origin, the council decided that no change should be accomplished without the indorsement of the various farmer provincial conventions. As this cannot possibly be obtained before the day of the election, the present platform will stand for the National Progressives this fall. The platform of the Canadian Council of Agriculture is based on a substantial all-round reduction of the customs tariff; free trade with Great Britain in five years; advocated acceptance of the reciprocity agreement with the United States and the placing of all foodstuffs not included in the agreement on the free list with agricultural implements, farm machinery and all materials and machinery used in their manufacture. Their taxation plank includes a direct tax on unimproved land values including natural resources; a graduated inheritance tax on large estates and an income tax on all corporations. Other planks in the platform include: proportional representation; the reform of the federal senate; the complete abolition of measures of direct legislation through the initiative referendum and recall.

King Stresses Need of Unity

Says Spirit of Brotherhood Must Be Built Up.

PICTOU, N. S., Sept. 28.—(Canadian Press Staff Correspondent.)—The great need of unity on national questions, a spirit of unity which conceded the right of all to their own opinions, though their efforts were for the benefit of all Canadians, was stressed by Hon. W. L. Mackenzie King, Opposition leader, in a brief address today at the Pictou County Exhibition. The attempt today, said Mr. King, should be to build up again the spirit of freedom, democracy and brotherhood, which had been stretched to the breaking point during the war, and for breaking point to give to the world an example of national unity as between class and class, race and race, and section and section.

Ernest Lapointe, M.P., also spoke briefly, thanking the Pictou people for the cordial welcome given Mr. King and his party.

The visitors, who were met at the station by a committee with the 7th Band in attendance, were introduced by J. J. MacKay, president of the Pictou Liberal Association. Mr. Lapointe was given a luncheon.

GIVEN THREE MONTHS ON ASSAULT CHARGE

[Special to The Advertiser.]
GUELPH, Sept. 28.—The hearing of a case in which James Coughlin of Arthur was charged with assault occasioning bodily harm on one, Stephen Farrell of the same village, wound up this afternoon. The jury brought in a verdict of guilty against Coughlin, and Hon. Justice Rose, who was presiding, sentenced accused to three months at the Ontario Reformatory. According to the evidence submitted, it was shown that Coughlin had struck Farrell over the head with a shovel inflicting a severe scalp wound. Only five minutes elapsed from the time the hearing had concluded until the jury brought in their verdict.

FERRISS IS HELD ON CHARGE OF PERJURY

[Special to The Advertiser.]
WINDSOR, Sept. 28.—Held on cash bail of \$1,000, Garnet Ferriss of Windsor is charged with perjury by the crown. It is alleged that he gave false testimony while giving evidence in defence of George Babv, a local taxi driver, who was found guilty of obstructing an officer who effected the arrest of George Croft, wanted for breaking and entering. Ferriss, it is said, told the court that he did not know Croft, in addition to swearing to other alleged false statements. He was remanded this afternoon for trial Friday.

TODAY IS BIG DAY AT SARNIA FAIR

SARNIA, Sept. 28.—The West Lambton County Fair opened to the general public tonight, and with summer weather prevailing a record crowd was in attendance.

Thursday will be feature day at the attraction, and the chief items of interest are the trotting and pacing events.

ORDERING STEEL TO MAKE WORK FOR UNEMPLOYED

Govt. Railways Department Will Also Undertake Extensive Repairs.

SITUATION IS ACUTE

OTTAWA, Sept. 28.—(By Canadian Press.)—Active steps toward the relief of the unemployment situation in Canada are immediately to be taken by the department of railways and canals, it was announced tonight. Orders for steel in anticipation of the demand next spring are to be placed, and the rebuilding of sheds and repairing of equipment are to be proceeded with wherever such work may, in the opinion of the department of labor, alleviate bad conditions.

In addition to the repair work now being done in railway shops, it is the intention of the Government to authorize the management to place orders for rebuilding and repair of freight equipment wherever possible.

REFUTES STATEMENT.
VICTORIA, B. C., Sept. 28.—Declaration in Eastern Canada that there were no unemployed in British Columbia but only idlers, attributed to J. R. Thompson, chairman of the British Columbia division of the Canadian Manufacturers' Association, were refuted today by Hon. J. W. DeB. Fariss, attorney-general and minister of labor.

The words attributed to Mr. Thompson completely misrepresent the state of affairs in this province, and they are a serious reflection upon our workers," declared the minister of labor.

9,000,000 UNEMPLOYED.
MUNICH, Sept. 28.—"We must go to the limit of our capacity with regard to reconstruction," Dr. Walter Rathenau, the German minister of reconstruction, declared before the Congress of the Imperial Association of German Trades, which opened today.

"Complete fulfillment of the terms of the ultimatum will affect the world economically more severely than ourselves. Britain has three million unemployed. The more Germany must work the more the others cease working. What is needed is an international economic understanding."

The minister approved Mr. Churchill's suggestion of co-operation, as outlined in his Dundee speech, and with regard to France.

"We must give goods; the problem is to substitute products for food. We are to have a further conference with France regarding arrangements for deliveries of gold marks to the amount of seven billion in the course of four and a half years."

\$3,000 AUTO BURNED.
WOODSTOCK, Sept. 28.—Morley Mason of Simcoe, who is at present completing a contract here, lost his \$3,000 auto last night, when it caught fire while he was speeding along the road, and was completely destroyed. The car was valued at \$3,000, and was insured for \$1,400.

Unemployment Situation Clouds Miners' Federation Meeting

LONDON, Sept. 28.—(By Canadian Press.)—The unemployment situation in the coal mining districts cast a dark shadow over today's meeting of the executive of the Miners' Federation in London. The main business up for discussion today was the finding of ways and means of carrying on the coal industry when the Government subsidy ends on September 30. Reports from the mining areas show that unemployment is rife as a result of the closing down of several of the pits. In other cases the men are working on short time. All over the country there are thousands of men now idle, and a large number of the coal companies are losing very large sums of money every week.

The subsidy of 10,000,000 pounds was granted specifically to ease the cuts in miners' wages, which would otherwise have been so great as to reduce the new rates to a starvation basis. It was hoped at the time that this grant would tide the industry over the worst period. Although the miners now at work are working a great deal better than they have for three or four years, the industry does not recover. Some larger South Wales concerns producing the best steam coal, are getting orders, but they, only in less measure than the colliery owners in other parts of the country, are relying to a considerable degree on the Government subsidy in order to produce and sell coal at the present prices.

It was announced at the meeting today that 3,000,000 pounds of the 10,000,000 pounds subsidy have not been expended. It is understood that this will revert automatically to the treasury, but the miners' executive consider that at least part of this unexpected subsidy should be allocated to relieve distress. On the other hand, some of the colliery owners claim that the money should be devoted to repairing the damage done to the pits through the strike.

Municipal authorities are opening soup kitchens for the purpose of feeding needy children.

MAY DEMAND PROBE INTO SARNIA CRASH

Disaster Was Narrowly Averted in the St. Clair.

[Special to The Advertiser.]
SARNIA, Sept. 28.—A disaster in the St. Clair River was narrowly averted today when the barge Badger was struck by the steamship Adams in mid-stream opposite this port during a haze that hung over the river for some hours.

Downbound at the time of the accident, the Adams hit the Badger as she was about to drop anchor to commence sand-digging operations. Several members of the crew were slightly injured, and William Sparrow, fireman of Fair Haven was scalded by escaping steam from a broken pipe. Mrs. Sadie Roberts, a cook aboard the boat, was also severely burned and slightly injured.

Both boats were damaged, and the Badger was taken to the Grand Trunk docks for repairs. Marine officials tonight stated that they might ask for a probe of the accident, as it is claimed that one of the boats was out of its course.

CHATHAM COMPANY ELECTS OFFICERS

CHATHAM, Sept. 28.—At a meeting of the board of directors of the Mack Furnace Company held here today the following officers were elected: President, Charles Austin; treasurer, Ed. Wamies; vice-president and general manager, H. V. Macintosh; secretary, John P. Hatch; two new directors, P. S. Coate and James E. Gray, all of this city.

Phyllis Ruth, the 10-month-old daughter of Mr. and Mrs. Sidney C. Birch, formerly of London, and now living in Chatham Township, died today after a short illness. The funeral will be held Thursday afternoon at Maple Leaf Cemetery.

MURDER CHARGE WITHDRAWN IN ARBUCKLE CASE

Present Day Social Standards Are On Trial, Declares Judge.

BAIL HAS BEEN ACCEPTED

SAN FRANCISCO, Sept. 28.—The murder complaint against Roscoe ("Fatty") Arbuckle was reduced to manslaughter today by Police Judge Sylvain Lazarus, who held him to answer to the superior court for trial on the lesser charge growing out of the death of Miss Virginia Rappe, following a drinking party in Arbuckle's hotel suite here.

Judge Lazarus held that the evidence introduced by the district attorney during the six-day hearing did not warrant the comedian being held for murder. Miss Rappe, a Los Angeles motion-picture actress, died Sept. 9, four days after the affair in Arbuckle's rooms.

"I have decided to make a holding for manslaughter, finding there is enough in the defendant's conduct to warrant his trial on that charge," said Judge Lazarus.

Bound by Jury.

"I feel also bound by the grand jury, whose indictment for manslaughter was voted after having more evidence than I was permitted to hear."

Arbuckle heard the decision without movement or comment. The district attorney moved that Arbuckle be released on his own recognizance in view of the bail of \$5,000 cash, or \$10,000 bonds fixed in the superior court charge of manslaughter, growing out of a grand jury indictment.

When the hearing was resumed today, Judge Lazarus began a discussion of the case.

"We need not disguise the fact that this is an important case. In my opinion we are not trying Roscoe Arbuckle alone, the screen celebrity who has given mirth to the whole world. We are, in a sense, trying ourselves, our present day social standards. The question is even larger than the guilt of this unfortunate; it is a universal issue."

Orgy Unrepressed.
"The affair was the culmination of an orgy at one of our leading hostesses. An orgy unrepressed by the management is, I take it, a common thing in our big cities. I had really hoped that this court would be the avenue for full and complete revelation of all the facts so the public of the entire world would have the opportunity to ascertain this widely-known defendant's guilt or innocence."

Appeals To Judge For Salary Increase.

[Special to The Advertiser.]
WOODSTOCK, Sept. 28.—Dr. P. S. Rutan, local M.O.H., today appealed to Judge Wallace for an increase in his salary, the statute giving the judge the right to fix the salary of M.O.H., and this is one of the first cases where the officer has exercised his right and appealed to the judge. A few months ago Dr. Rutan, who at present receives \$500, asked the city council for an increase. The council refused, claiming that the estimates had been made up and no allowance was made for extra pay for the M.O.H. Before Judge Wallace it was pointed out that towns the size of Woodstock at present paid from \$1,000 to \$1,500. The judge reserved his judgment.

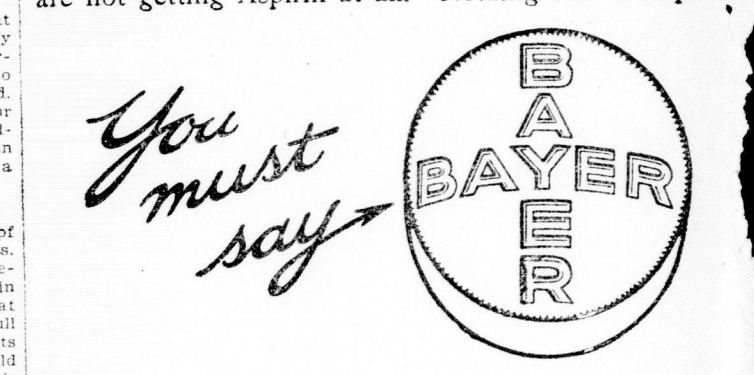

GOES TO JAIL TO SAVE MOTHER

PORT ARTHUR, Ont., Sept. 28.—John Moline went to jail for six months today for keeping liquor for sale. He assumed the guilt when his mother was charged, but could not raise the amount of the \$500 fine. The Moline family has paid \$4,000 in fines for breaches of the Ontario temperance act, besides which the husband, the wife and now the son have had prison sentences.

BOARD ORDERS FILTERING PLANT
Kitchener Must Extend Its Sewage Disposal System.

[Special to The Advertiser.]
KITCHENER, Sept. 28.—Kitchener must provide a sewage disposal plant for the Spring street section of the city, as a result of a decision reached by the board of health here today. The board passed a recommendation to the city council that a new filtering plant for sewage be constructed at Spring street to complete the present pumping station.

Waterloo County Road Superintendent Lichty has opened negotiations with the department of highways at Toronto for the purpose of getting the hill near St. Jacobs designated as a provincial county road in order that the hill may be paved to connect with the present concrete highway which, when completed, will stretch from the outskirts of Waterloo to Elmira. The department has indicated that it will ask for certain changes in the road before it will agree to pave the strip included in the provincial county road plan.

A light truck hit a street car here today with sufficient force to knock the car off its front track. The auto was slightly damaged. The accident occurred at the corner of King and South streets. As the street car was crossing the intersection the truck, driven by a Galt citizen, crashed head on into the car, putting the street car out of commission. Incidentally, the flivver truck lost a couple of wheels.

THRESHING FINISHED IN CRINAN DISTRICT
Yield of Wheat Fair—Oats Much Below Average.

CRINAN, Sept. 28.—Threshing of grain has been completed throughout this district. This season was one of the shortest that threshers have had in this section for some years. The returns from wheat have been fair, but the oats and barley crops were very much below the usual yield. The past summer has been one of the driest ever experienced in this district, and with the extreme heat spring crops, with the exception of corn, were much poorer than usual. Farmers are now awaiting a heavy rain to make the land suitable for fall plowing.

The new school building in the newly-formed section on the Alderburgh-Dunwich town line is being rapidly rushed to completion. It is expected that the building will be completed and equipped before cold weather, and it will be opened after the new year.

D. C. McRae, concession A, has erected a large frame house on his farm.

After the recent rains mushrooms were very plentiful in the pasture fields, and several of the residents of the surrounding villages were rewarded for their trouble of gathering them by finding many quarts of the very finest fungi.

WILL SIFT CHARGES.
TORONTO, Sept. 28.—Hon. W. E. R. R. announced today that Judge John S. Campbell of St. Catharines had been commissioned to investigate charges made against Police Magistrate Goodwin of Wainfleet, the local license inspector, and certain members of the police force by a former chief constable of the town. The charges had relation to the enforcement of the Ontario temperance act and the disposal of seized liquor.

RAZES HUGE PARIS STORE.
PARIS, Sept. 28.—Fire broke out from a fire alarm bell in the middle of the afternoon destroyed all but the walls of the new Magasin-au-Printemps, a department store building covering an entire block 250 by 250 feet, and valued at 25,000,000 francs, with a stock estimated at 50,000,000 francs.

RECORD ATTENDANCE AT PARKHILL FAIR
Program of Races and Sports Was Greatly Enjoyed.

[Exclusive Staff Special.]
PARKHILL, Sept. 28.—The fall exhibition of the Parkhill Agricultural Society today attracted over 2,000 visitors, the largest attendance in the history of the fair.

"It is by far the best show in all my fifteen years as secretary," said W. W. Tait, the bustling executive of the fair. "We have the day, the crowds and the exhibits, so what more do we want?" he continued. "Last year we had in the neighborhood of 750 exhibits and this year we have over 1,000, and naturally we are very pleased with the fine showing in all classes."

The Parkhill Band enlivened proceedings in front of the new grandstand and between race heats, while vendors on the midway reported business as being brisk.

Maintained Order.
Nelson Vernon, town constable, saw to it that order was maintained on the grounds and kept the crowds from surging on the race track. Provincial officer Arthur Palmer from London, was also present, and the exhibits were numerous and of high quality, and the same can be said of the display of home cooking and canned fruits.

The chief winners in ladies' fancy work were Mrs. J. N. Henborne, Theford; Mrs. J. R. Robinson, Alisa Craig; Mrs. W. W. Tait, Parkhill; Miss M. M. Falls, Grand Bend; Mrs. Isaac Carrothers, Theford.

The principal winners in art work were Mrs. W. W. Tait, Mrs. J. R. Robinson, Mrs. Dawson, Parkhill.

Mrs. Walter Hill, Moral; Mrs. Fred Brewer took the bulk of prizes in home-made cooking and canned fruits.

Swept the Prizes.
A. E. Doan, Theford; Eldon Laird, Theford, and C. Maier, Delaware, were the largest poultry winners. Archie Barrett, Parkhill, John Niblock, Parkhill, W. Walker, Parkhill, took most of the cattle prizes.

Thos. Curtis, Parkhill, was the principal winner in sheep, and Peter Hound, Parkhill, in swine.

John Decker, Zurich, and J. Trummer, also of Zurich, showed the majority of the prize horses.

The judges were: Ladies' fancy work, Mrs. W. R. Sibley, Parkhill; fine arts, Mrs. T. Durr, Parkhill; cattle, A. B. Douglas, Strathroy; heavy horses, Mr. North, Clinton; light horses, Richard Walsh, Exeter; sheep and pigs, James Darling, Parkhill.

Half-mile bicycle race—A. Dawson, Parkhill; G. Finn, Parkhill; G. Niblock, Parkhill; T. Durr, Parkhill.

A Real Novelty.
The sack race proved to be a district novelty. The entrants on horseback had to cover a mile and lift three sacks off the ground in the first 100 yards. L. Atmore of Parkhill won, with W. Dixon, M. Volk and R. Whiting, C. Windsor and C. Jacobini finishing in the order named.

The prize was the prize \$5 prize, while Margaret Armstrong was the best baby over six months. There were thirteen entries.

BURNHAM IS CHOSEN.
PETERBORO, Sept. 28.—J. H. Burnham, ex-M.P., was nominated tonight to contest the federal riding of West Peterboro in the Conservative interests. R. Deane, the Conservative candidate in the by-election of last February following the resignation of Mr. Burnham, declined the nomination, and the other nominee, J. F. Strickland, ran second on the ballot.

BOARD ORDERS FILTERING PLANT
Kitchener Must Extend Its Sewage Disposal System.

[Special to The Advertiser.]
KITCHENER, Sept. 28.—Kitchener must provide a sewage disposal plant for the Spring street section of the city, as a result of a decision reached by the board of health here today. The board passed a recommendation to the city council that a new filtering plant for sewage be constructed at Spring street to complete the present pumping station.

Waterloo County Road Superintendent Lichty has opened negotiations with the department of highways at Toronto for the purpose of getting the hill near St. Jacobs designated as a provincial county road in order that the hill may be paved to connect with the present concrete highway which, when completed, will stretch from the outskirts of Waterloo to Elmira. The department has indicated that it will ask for certain changes in the road before it will agree to pave the strip included in the provincial county road plan.

A light truck hit a street car here today with sufficient force to knock the car off its front track. The auto was slightly damaged. The accident occurred at the corner of King and South streets. As the street car was crossing the intersection the truck, driven by a Galt citizen, crashed head on into the car, putting the street car out of commission. Incidentally, the flivver truck lost a couple of wheels.

THRESHING FINISHED IN CRINAN DISTRICT
Yield of Wheat Fair—Oats Much Below Average.

CRINAN, Sept. 28.—Threshing of grain has been completed throughout this district. This season was one of the shortest that threshers have had in this section for some years. The returns from wheat have been fair, but the oats and barley crops were very much below the usual yield. The past summer has been one of the driest ever experienced in this district, and with the extreme heat spring crops, with the exception of corn, were much poorer than usual. Farmers are now awaiting a heavy rain to make the land suitable for fall plowing.

The new school building in the newly-formed section on the Alderburgh-Dunwich town line is being rapidly rushed to completion. It is expected that the building will be completed and equipped before cold weather, and it will be opened after the new year.

D. C. McRae, concession A, has erected a large frame house on his farm.

After the recent rains mushrooms were very plentiful in the pasture fields, and several of the residents of the surrounding villages were rewarded for their trouble of gathering them by finding many quarts of the very finest fungi.

WILL SIFT CHARGES.
TORONTO, Sept. 28.—Hon. W. E. R. R. announced today that Judge John S. Campbell of St. Catharines had been commissioned to investigate charges made against Police Magistrate Goodwin of Wainfleet, the local license inspector, and certain members of the police force by a former chief constable of the town. The charges had relation to the enforcement of the Ontario temperance act and the disposal of seized liquor.

RAZES HUGE PARIS STORE.
PARIS, Sept. 28.—Fire broke out from a fire alarm bell in the middle of the afternoon destroyed all but the walls of the new Magasin-au-Printemps, a department store building covering an entire block 250 by 250 feet, and valued at 25,000,000 francs, with a stock estimated at 50,000,000 francs.

STEAMER RITCHIE BURNED.
PORT ARTHUR, Ont., Sept. 28.—The steamer Ritchie, 170 feet long, owned by the Woodward Brothers, Winnipeg, was totally destroyed by fire early this morning at the dock at Davidson & Smith elevator here.

BRIAND SALES NOVEMBER 1.
PARIS, Sept. 28.—Premier Briand, it was announced this afternoon, has decided to sail for the United States on the steamer Lafayette, probably on November 1, to attend the conference in Washington on Far Eastern questions and limitation of armaments.

GODERICH BURGLAR GETS SIX MONTHS
[Special to The Advertiser.]
GODERICH, Sept. 28.—William Lockridge and William Bloomfield, who pleaded guilty two weeks ago to charges of robbery and receiving stolen goods, appeared before Magistrate Reid today for sentence. Lockridge and Bloomfield were connected with the robbery of McVicar's shoe store, Laurier's drug store, Wig's drug store, the Misner factory and with stealing chickens from Dan O'Brien.

John D. Kay, the third man, who Lockridge and Bloomfield say was with them on some of the robberies, pleaded not guilty in police court a week ago, and is awaiting trial by a judge and jury, by which he is elected to be tried.

Magistrate Reid sentenced Lockridge to six months in the reformatory and Bloomfield to three months in the county jail.

DENIES RIGHT OF GOVT. TO FINES
City Enters Appeal Against Claims For Court Money.

ST. THOMAS, Sept. 28.—The Government is not satisfied with the amount which the city alleges to be due the department on account of fines collected for indictable offences. The recent visit of a provincial inspector, who investigated the records in the office of a local official, finds that the calculation of the amount due the department should include a period covering approximately the last twenty years. The recent audit of the police court books included, reached back about five years, and the amount claimed by the department was between \$2,000 and \$4,000. Although acknowledging that amount as being the sum collected, the city has appealed against the right of the department to claim any of the fines imposed, it being the opinion of the city solicitor that these specialties should be applied to the upkeep of the court and as a part allowance for the money invested in that part of the city building set apart for police court purposes.

MANY FINE HORSES AT TAVISTOCK FAIR
School Children's Exhibit Was Centre of Much Interest.

[Special to The Advertiser.]
WOODSTOCK, Sept. 28.—The Tavistock Fair just concluded was one of the most successful ever conducted by the association. The exhibits of horses, which is always a feature at this fair, was again a leader this year. The school children's exhibit was a good one and created much interest. The cattle show included some fine animals, while the display of poultry, sheep and swine was above the average. The winners in the different classes of horses were as follows:

Span heavy draughts—N. McIntosh and Son.
Span agricultural—Cecil Meadows.
Span general purpose—John Evans.
Span carriage—S. J. Miller.
Span roadsters—Wesley Battler.
Single roadster—Bert Katz.

Vel Gets His Cigarettes After 18 Years.

PRINCE ALBERT, Sept. 28.—An instance of British postal delay, but an equal testimonial to its persistence, was the delivery here yesterday to J. Harris, an imperial veteran, of a packet of cigarettes mailed to him while he was engaged in the South African War from England in 1902. The package indicated that during its eighteen years of traveling it had been to India, New Zealand and nearly all over the globe.

HITS AT ROYALTY.
WASHINGTON, Sept. 28.—Anyone impersonating a king or queen in a play, pageant, or carnival would be liable to a fine of not more than \$10,000 and imprisonment for ten to twenty years, under a bill introduced today by Representative Herlick, Republican, Oklahoma. Similar penalties are proposed for producers who engage some one to act like a king or queen.

BOYS WILL RUN.
BARRIE, Sept. 28.—W. A. Boys, K.C., M.P., will be the Meligen candidate in the riding of South Simcoe in the approaching election. He was the only name submitted to the Conservative convention today at Cookstown.

LIBERALS CHOOSE McEACHREN.
NORTH BAY, Sept. 28.—Donald McEachren, mayor of Cobalt, was today nominated over Mayor McKinnis of Timmins as Liberal candidate for Temiskaming in the forthcoming federal election. Only one ballot was taken, Mayor McEachren receiving 114 votes out of the 182 cast.
