The present situation in newspaper production is most taxing to the publishers. In order to give the news such as we do we require payment of bills due us. In the present shortage of paper, dealers are not obliged to sell without cash on delivery of goods. We must have the money due us for printing advertising and arrears of subscription.

We have a new firm name, one that is apparently unknown to many people. It is the firm of Walkup & Settle and it can be found at our office any week-day. We shall be pleased to give all customers nicely engrossed receipts.

Rev. A. J. Prosser will lead the service at Steam Mill Village, Thursday evening at eight o'clock.

FOR SALE—1 Primrose Colt, 3 years old this spring. Manning Ellis, Port Williams.

Mr. Morris Chisling, the popular and efficient manager of Joseph Cohen's dry goods and clothing store, Kentville, has this to say: "My Mother, Mrs. Ida Chisling, suffered for eight years with corns, and during these years she tried many remedies, none of which helped her. Recently she bought a bottle of Sure-Pop Corn Cure. All pain ceased with the first application and in a day or so every corn was gone. I used the balance of the bottle on my own corns and they were quickly and painlessly removed. During the three years I lived in New York City, and since coming to Kentville, I have used many corn plasters, salves and liquids but they had no effect whatever and I was surprised to see the wonders worked by one little bottle of Sure-Pop Corn Cure." You can get Sure-Pop at any good drug or general store or by mail from F. C. Muloney, Kentville, N. S.

FURIOUS AUTO DRIVING

It is always easy to say "I told you so" after an event happens.

After the auto accident by fast driving around a corner on Friday last, many complaints are heard and expressions given of our town authorities being lax in allowing so much furious driving and no questions being asked as to whether the drivers are licensed to run a car or not.

We have all been too slow in calling

attention to and having this remedied before. Most of our auto drivers use reasonable caution and speed. But some few are marked out by the public as liable to do serious damage sooner or later. Some of the new and inexperienced drivers should give more care to driving rather than paying attention to companions or looking at objects.

Furious driving hereafter should be met with a notice to such driver that they no longer can run a car over our streets.

Conscription Will be Enforced in Canada: One Hundred Thousand Men to be Drafted. One Half Soon as Possible

Premier Borden Announces That Voluntary System is Exhausted. Compulsion on Selection Basis to Replace it

OTTAWA, May 18.—Conscription for Canada; a new conscription for the Empire — these were the mighty messages that Canada's Premier brought to parliament. In a speech that reached a great height of parliamentary eloquence—a speech that will mark the beginning of a new epoch in the domestic and foreign history of this country—Sir Robert Borden proclaimed that the capacity of voluntarism had been exhausted and that compulsory military service would be resorted to maintain undiminished the ranks of Canada's armies at the front and the power of our striking force in the war.

American Troops Going to France

Washington, May 18 — President Wilson tonight directed that an expeditionary force of approximately a division of regular troops, under command of Major-General John J. Pershing, proceed to France at as early a date as practicable. General Pershing and staff will precede the troops.

Colonel Roosevelt will not be permitted to raise his volunteer expedition to carry the American flag against the Germans in France.

On signing the war army bill tonight, President Wilson issued a statement saying that acting under expert advice from both sides of the water, he would be unable to avail himself, at present stage of the war, of the authorization to organize volunteer divisions. There was talk in army circles tonight of the possibility that a way would be found to use the former President's services in another way, but official comment on the subject was lacking.

Eat Fish and Save Money

Providence R. I., May 17th. — Plans for a closer co-operation with the Federal Government in its efforts to reduce the high cost of living will be discussed by the National Association of Fisheries Commissioners at its ninth annual convention which began here today.

An extensive campaign of publicity is proposed to impress upon the people the fact that the products of the fisheries are likely to be among the cheapest and most valuable of food staples during the war. The convention is attended by the fish commissioners of a score of States, including those on the Gulf Coast, the Atlantic seaboard and the Great Lakes.

Russian Government and Mal-Contents are Again in Agreement

Petrograd, May 17, via London — The Cabinet crisis has been settled. A declaration of the Government's policy has been accepted by the representatives of the Council of Workmen and Soldiers Delegates, with merely slight alterations, and was signed by them at midnight.

Petrograd, May 17 — The Cabinet crisis may be considered as settled. A declaration of the Government's policy, accepted by the representatives of the Council of Workmen and Soldiers' Delegates, and will be signed by both parties without delay.

It has been decided to take into the Cabinet five representatives of different Socialist groups, which, with F. Kerensky, who assumes the war portfolio, will make a total of six of these groups, sharing in the Government.

Generals Arrive at Petrograd

Petrograd, May 17th — Generals Alexieff, Dragomiroff, Gurke and Brussloff arrived in Petrograd today for a conference on the military situation. They declared the formation of a Coalition Ministry was indispensable, as it would make possible strong measures to re-establish discipline and the fighting spirit in the army.

The Generals expressed the opinion that the appointment of M. Kerensky as Minister of War would be received by the army with great enthusiasm, as he is very popular among the soldiers. There are rumors that General Alexieff has resigned as Commander-in-Chief or that his resignation is impending.

Petrograd, May 17, via London — As a result of a meeting in Petrograd of the commanders-in-chief from all the fronts except the Caucasus, Generals Brussloff and Gurko have withdrawn their resignations, and reports of further resignations are refuted by the definite announcement that all the commanders have decided to remain at their posts. Thus the crisis in the army, which formed an alarming accompaniment to the political crisis, has been averted.

Canada Has Only Begun to Play Her Part in the War; Has Plenty of Men.

By F. W. Getty
(United Press Staff Correspondent)

Witley, Eng. — Canada's part in the great war is not nearly played. Fifty thousand brothers of the Canadians "who saved" the day at Ypres are here today, getting ready to carry on the share of the burden the Dominion has shouldered.

Spread out over the rolling hills of Surrey are the two greatest Canadian camps in all England. Here, in what was once a wilderness of pine and spruce and ivy, Canadian officers are drilling Canadian men to take their places in the big offensive, already under way on the west front.

Witley, the largest of the camps, and Bramshot, where the raw recruits fresh from Saskatchewan or Nova Scotia are drilled are exclusively Canadian organizations. The few units of Americans have moved off to the front. Imperial officers are here only on visits.

The result is that the spirit of Canada and a new found efficiency which the commanders declare is making the overseas forces the finest trained in the world permeate the camps. The men are fighting for England, but when they speak of "home" they mean Canada.

Canadian officers in charge of these camps have begun a new system of preparing the men from overseas for actual warfare in France. Conditions, paralleling as closely as possible those at the front, either exist or are manufactured at Witley.

The pines of Gibbet Mountain, over looking the picturesque "Devil's Punchbowl," see just as strange sights these days as when hanged men kicked in the wind in Cromwell's day. Topping a ridge that winds for miles through the thickly wooded or green-meadowed country, a trench, with a yellow clay soil thrown up on either side, standing out vividly against the landscape, zigzags its way. Paralleling this trench and separated from it by a few hundred feet of waving grass and here and there clusters of barbed wire is another "Boches."

For a moment everything is quiet, save for the occasional harsh cawing of a flock of crows. Then the silence is broken by a crash of musketry and the rattle of the deadly machine guns—a weird yell, rising from the depths of the trench, is followed by the appearance of ghostly figures in gas masks. Charging across the open space of No. Man's Land into a storm of drifting smoke from smudges, representing poison gas, they rout the "enemy" from his trench, and go about consolidating the position—just as they will have to do in France tomorrow.

There is no child's play about the battle. Bitter hand-to-hand encounters with spring bayonets, harmless but painful, are fought in the communicating trenches. The "wounded" are carried back to the "British lines," on stretchers, while the raiders work like mad men blocking the communicating trenches and getting their Lewis guns into position.

This is a new phrase in the training—this sham warfare under typical conditions. And Canadians back from the front declare that already it is showing good results.

Another thing the Canadians in the Surrey camps are trying for the first time is a new system of bayonet fighting in the trenches. The old—and the French—system was to feint with the bayonet, draw the Hun off his guard and then lunge overhanded at his chest. Today the Canadians lunge straight from the hip, dropping the butt of the rifle and bringing up the point of the bayonet sharply if they miss.

"Go right out after him" is the new command to a Tommy learning this phase of the fighting, and it appeals to the Canadians more than any other form of battle. "Go right out after him" is a sort of watchword around Bramshot and Witley, anyway—it's symbolic of the Canadian spirit.

These Canadians today are different from the first overseas contingent. And those that came with the first call have changed, too. In 1914 and 1915 the complaint among the British officers was that while the Canadians "fought like the devil" they were not well-disciplined and were apt to run wild. Today the same old dash and fearlessness is there, but the Canadians are

doing something even more useful for the allied cause. They are making records daily as the best disciplined, best-trained units of the British army.

Canada and Britain and the allies can thank Bramshot and Witley for this new-found efficiency which has added to the most fearless fighters they possessed the quality of discipline. A new system of intensive training, recently instituted, is making the Canadians the equal of any troops in the world.

There's a secret about this system—they got it from the Boches.

A Great Liberal Leader on Production

It is difficult for us to realize that the world has only enough surplus food to last for three months at the time the new crop is harvested. That is in peace times. With millions added to the war we are confronted with a serious situation, and it is only by restricting the food of the nations that we will have enough to keep us going until the next crop comes in.

If the next crop is not a good one, some people will suffer acute hunger. It is up to the people of Canada, therefore, to bend their energies to the organization of all our resources to meet the great national crisis. In so far as we fail will we suffer, and those dependent on us at the front will suffer. In so far as we succeed will we make our contribution to strengthen the hands of our gallant men at the front who this very day have added new glory to the name of Canada. If we do our utmost we will strengthen their hands and help to win this war and re-establish peace and liberty and justice in the world.—N. W. Rowell in Toronto.

Death of S. W. Bligh, J. P.

Berwick, May 16th — The community was startled last night when it learned that S. W. Bligh had passed away early in the evening, after only an illness of three days duration. Mr. Bligh, who was Stipendiary Magistrate, has been engaged in the hearing of a case for the past week or two, and had finished it up on Friday. On Saturday he was attacked with grippe which affected his heart, and despite all medical skill, he finally passed away. He was a man highly esteemed by everyone, and his place in the community will be hard to fill. He was twice married. His children by his first wife are Mrs. Calhoun, of Gaspe, Quebec; Loran, and William, both living here. His second wife who survives him was formerly Miss Mary Keddy, of Chester Basin.

Ninety-Eighth Anniversary

Berwick, May 16th — The members of Berwick Lodge No. 52 I. O. O. F., celebrated their ninety-eighth anniversary of the Order, by parading to the Methodist Church, headed by the Berwick brass band, last Sunday evening, where Rev. J. A. Smith preached a very excellent sermon. The members of St. Eudora Rebekah Lodge No. 43 were also present. Owing to the inclemency of the weather the attendance was smaller than usual. Good music was furnished by the choir, also by the band.

The Capture of Bullecourt Completed

London, May 16th. — The British troops today captured the village of Bullecourt, according to the announcement from the War Office issued to-night.

The announcement says: Today our troops completed the capture of Bullecourt, taking some sixty prisoners.

The whole of the village, for the possession of which constant fighting has taken place since May 3rd, is now in our hands.

This being my last Spring Season in Canning, I am placing all Spring Goods at greatly Reduced Prices, and will continue the Sale on all my Goods as the Summer and Fall Season come. It is my intention to leave Canning for St. John, N. B., where I have purchased a large Store. I shall conduct business there, the business here will be taken over by Messrs Jacobson Brothers, who have been associated with me for years.

My Entire \$15,000.00 Stock of Ready Made Clothing, Boots and Shoes, Gents Furnishings, Hats and Caps everything a man needs to wear, was all bought from the best Houses in Canada. I shall cut Prices, as I must dispose of these Goods before leaving.

I ask that all persons owing, will please Settle by CASH or NOTE, at once.

JACOB COHEN, Canning

Canning is deeply interested in the announcement made by Premier Borden last week that conscription will be put into effect. This is considered here as the only alternative to raise further troops. While Canning has responded nobly in the past and given of her best blood and brawn most willingly, in this war there are yet a few slackers who will not answer no matter how great the need and how loudly our other Cornwallis boys are calling from the trenches for assistance. This town is in the centre of a rich farming district and not many more of our boys can be spared to train for overseas work. But all of military age who are left behind should enter just as strenuously into farm production for the good of their county as those who go abroad. When the summing up of war duties for Canning both at home and abroad, is made it will be found that we have done our duty to the Empire.

CANNING

Mr. Melborne Reid has moved from Delhaven to Sheffield Mills.

The marriage of James A. MacDonald, and Jaellan M. Houghton, both of Scotts Bay, took place on May 16th at the home of James Huntley. Rev. E. F. Petley, pastor of the Adventist Church officiating.

The concert given at Canning on Friday evening was a grand success. The ladies in charge are to be complimented on their efforts. A fine programme was presented and listened to most attentively by a good audience.

The Annapolis Spectator says: The sudden death of another townsman occurred last Monday morning when William Edward Jefferson passed away at the age of 82. Mr. Jefferson was a very familiar figure having lived here all his life and was fairly well to do. In early life he had been a stonemason, but afterward went into the grocery business with his brother-in-law, George Harris, conducting an extensive store on the corner where the Post Office now stands. Later on Mr. Harris went west where he is reported to become very wealthy, and Mr. Jefferson retired. He leaves four children by his first wife, Walter, in Lynn, Mass; Frank, a jeweler, in Halifax; Mrs. Rupert Whitman of Hantsport, Mrs. Ben Fair of Moschelle. His widow was a Miss Harris, of Canning. Mr. J. L. Jefferson of this town, is a brother.

Mr. S. A. Robinson has fitted up the part of his building in the Star store adjoining on the west and on Saturday evening he opened it up as an ice cream and lunch room and had a very busy evening. There is no doubt it will prove an added attraction to Mr. Robinson's already busy store.

Inspector Ernest Robinson left yesterday to visit North Grand Pre and other points east.

Readers of this Canning page of The Advertiser should not fail to scan the whole page and read all the announcements of those who are advertising from Canning and vicinity. The merchants who are advertising here are all doing an excellent business are turning over their stocks rapidly and can be depended upon to always have new, fresh and reliable goods. There are other merchants in this town whose advertisements are never seen and the people wonder how they can expect to get and hold trade under such conditions in this competitive age. Some merchants sit down and bewail the fact that their neighbors are sending to Toronto for goods and yet they must know that it is by advertising that the Toronto firm gets the orders. Help the buy at home movement by letting the people surrounding know that you have some saleable and seasonable goods and that you will still this competitive age. Some merchants sibe.

Mr. Clifton Rand has returned to Yarmouth after a visit of a week with his mother.

A daughter was born on Friday to Mr. and Mrs. William Foster.

Grain seedling has been industriously carried on the past week.

William Jackson, who enlisted in Halifax and went across with the first contingent has been killed in action. He was a native of England and worked at Canning for two years or more with the North families.

Mr. Amos B. North and his son Harold are engaging in increased production this year. They plan on planting about 12 acres of potatoes and have about 1 1/2 acres in wheat besides other grains. They have been raising wheat for some years and have produced as much as at the rate of 42 bushels per acre. Mr. North, Sr., claims we can grow wheat here much better than in the western parts of Canada and in the United States, and the flour as ground here now is just as white and makes more healthy bread than the imported.

Dr. Campbell, Dentist, will be at his office Canning on Friday and Saturday, June 1st and 2nd instead of the regular date, May 25th and 26th.

WAMBOLDT-BORDEN

MONTREAL, May 17—The marriage took place this afternoon at Montreal, at three o'clock, of Amy Ledore, daughter of L. E. Wamboldt, of Lunenburg, and Sergeant Carl Woodworth Borden, instructor at the army training corps in that city. The bride, who is a charming and popular young lady, has many friends in Lunenburg. She has been attending Sackville university and went from there to meet her fiancé to be married. She wore a navy blue chif-

fon taffeta suit with hat to match, and made an extremely dainty and winsome bride. She received many beautiful gifts, testifying to the esteem in which she is held. The happy couple will make their home in Ottawa. Her father, L. E. Wamboldt, is one of the prominent men of Lunenburg, conducting a large plumbing and fitting business on Lincoln Street.

Sergt. Borden is a son of Mr and Mrs W. L. Borden of Canard.

CORP. MACDONALD IN HOSPITAL

April 29th, 1917—Corporal Clyde S. MacDonald in a letter to his mother, Mrs. Howard MacDonald, Elmsdale, speaks of being taken to a French Hospital, March 20th and wakes up in an English Hospital April 1st stricken with a kind of poison caused from drinking impure water in the trenches. The Hospital is beautiful. Under the skillful treatment of the doctors and kindness of the nurses, who do all they can for our Canadian boys, he expects soon to be well again. Corporal MacDonald, who has been in the firing line since Oct. 15th, 1916 is in A. Co., 24th Battalion, every officer in this company having distinguished himself by winning his commission in the field. Corporal MacDonald though 38 held a certificate as Sergeant Assistant Instructor, and in order to go to France reverted to the ranks as private. After his first trip in the field he was made full corporal, and has had many thrilling escapes and hand to hand encounters with the enemy.—Truro News.

Corpl MacDonald at one time resided with his parents in Delhaven, Kings Co., and has many friends in this vicinity. He was a young man of sterling qualities and a brilliant student at the Academy. When the war broke out he gave up all his bright prospects, to obey the call for King and Country and enlisted Oct. 27, 1914. His many friends in Hants Co. and elsewhere who have read his interesting letters in the Truro News wish him a speedy recovery from his recent illness.

WOLFVILLE

Two more of our Wolfville boys have made the supreme sacrifice and two other families have reason to condemn the Kaiser for the ravages and heart pang of this terrible war. Mrs. E. Manning has had official word that her son Private Clyde Manning was killed in action. Mr. James Dykens has also received the unwished for news that his youngest boy Private Chester Dykens was among the ones killed in action. It is a deadly tax that Wolfville is paying. Mrs. W. T. Stackhouse has received news of her sons condition which conveys the sad news that the wound was so serious as to cause the loss of his right leg.

This golden toned Heintzman is ideal for snug or fully furnished rooms because, while standard size, it is slightly less deep than more carelessly constructed pianos. It bears the same relation to them that a symmetrical watch bears to a bulky one. As a result, it fits into average rooms without crowding them.

It is built on similar principles to Heintzman Grand Pianos, and like them remains beautifully true to tone. It's just as splendidly made as it looks when you see it in our display rooms. \$450, monthly payments if desired—and your present piano or organ taken in exchange.

\$500 Heintzman-- -- \$275

This is one of the very best bargains we have ever been able to offer. It's a very fine Heintzman, refinished and in the Best of condition \$2.75.

47 Years of Fair Dealing

The lecture by Private Lorne Higgs on Friday night was listened to most attentively by a large audience. His recital of his attempted escape, hardship, and final getaway was quite thrilling. The Germans allowed none of their prisoners to be idle.

Capt. John Pratt was in Windsor on business last Thursday. Mr. Jos MacLellan, formerly with the George H. Yeaton Co. of Hantsport has taken a position in the Royal Bank here. Mrs. Vooght of Sydney has been visiting her daughter Mrs. R. Crieghton.

On Friday evening the graduating recital of Miss Evelyn Cogswell, reader, took place. She was assisted by Miss Lillian Russel, pianist.

Mrs. Daniel M. Welton has been visiting her son in law, Mr. W. F. Parker.

Mrs. William Bauld of Halifax is visiting her son Mr. Gerald Bauld.

Mr. Frank Archibald has gone to Saskatchewan to work there with his uncle Mr. Ernest Freeman on his farm at Ceylon.

Miss Elizabeth MacPhee, teacher of stenography in the Seminary, received Thursday the sad news that her brother, Guy L. MacPhee, had been killed in action April 29th. Mr. MacPhee enlisted with the 219th battalion while a student in Acadia last year. He was a member of the 85th at the time of his death, having been in France only about one month. The sympathies of a host of friends both in the Seminary and town go out to Miss MacPhee in her sad loss.—Acadian.

Dr. and Mrs. Trotter, Toronto, will have much sympathy in receiving word that their son is among those killed in the recent fighting. A published news item stated that: "Second Lieutenant Bernard Freeman Trotter, reported killed in action, was the son of Professor and Mrs. Trotter, 11 Kendal avenue. He was attached to a Leicester regiment, when he fell. He was twenty-six years of age, and before enlisting was taking a course at the University of Toronto, qualifying for the degree of Master of Arts. He was a graduate in arts from McMaster university. He went overseas with a detachment from the C O T C a year ago last March, and completed his training at Oxford. He is survived by his parents, one brother in Ottawa, and two sisters."

IS CANADA DIFFERENT?
The utter abhorrence with which all
classes in Britain irrespective of party,
regard the possibility of an election
during the war, is strikingly illustrated
by the reports in British papers just
received in Canada of the recent de-
bate on the extension of Parliament.
In introducing the extension measure,
Mr. Bonar Law gave utterance to words
which, it seems to us, should be given
the widest possible publicity in this
country. He said:

"The considerations which have in-
duced successive Governments to intro-
duce such a bill are as strong now as
they have ever been during the war.
We are now in as critical a phase of
the war as we have ever been in. Our
troops are engaged in the greatest op-
erations they have ever undertaken since
the commencement of the war. . . .
In these circumstances I cannot help
feeling that, as on previous occasions,
the Government and the House believe that
it would be highly disadvantageous, not
to put it more strongly, that we should
be plunged into the turmoil of a gen-
eral election with all the disputes and
divisions which such an election would
inevitably produce, and with, in ad-
dition the certainty that the nation
would be diverted from the one object
on which its efforts should be concen-
trated."

Mr. Law was followed by ex-Premier
Asquith, now on the Opposition benches,
who, after dwelling on the fact that the
bulk of British electors are in the tren-
ches, went on to say:

"Voters fighting in various theatres of
the war would not be able to record
their votes. An election under these
conditions would not be an election at
all. It would be a farce and a sham,
and, nobody would regard the House
so chosen as possessing in any real
sense the moral authority either for
legislation or criticism of administration
To take a course which would neces-
sitate the holding of an election under
such circumstances would be to fly in
the face of common law common sense
and common sense."

The powerful reasons urged by the
two great British leaders against an
election in the Old Land apply with
equal force to Canada. Indeed, there
is only too much reason to expect that
the "disputes and divisions" which Mr.
Bonar Law associates with an election
in Britain would be a much more ser-
ious matter for us here in Canada. The
truth is, no matter how unpalatable
and regrettable it may be, that an elec-
tion in Canada tomorrow would inevit-
ably tend toward a widening of racial
gulfs already for too broad, and would
likely fan into renewed life smouldering
issues which most of us would like
to see dead forever. No Canadian, no
matter what his politics, who is bending
a British heart to the war, can contem-
plate such a possibility without mis-
givings. We went into this war with
high hopes, with united purpose and de-
termined resolve. Let us not lightly
take a step which might result in the
weakening of our determination and
the curtailment of our efforts. Let us
not follow a course which is rejected
by the Motherland as a distraction from
the war. Let us not do that which would
divert our efforts from the one object
upon which they should be concentrated

THE GREAT PROFESSION

(From the Milwaukee Journal)

To till the earth was a duty God assigned to Adam. To till the soil of the earth is still a duty of the descendants of Adam. Many industries, profession, trades are necessary to civilized life. The tiller of the soil must provide food for us all. Does anyone think the farm work menial? It is not. The good farmer is a skilled laborer. A high degree of intelligence is called for in his work. Scarcely another field gives so much independence, such scope for action if the farmer looks down to turn the soil or free his field from weeds, he looks up at the wide expanse of sky, the sun, the moon and the stars, up to God. There is health of the body, health of the mind in the pure air of the fields. The contact with the earth gives health and strength. A delightful fragrance comes from growing things that gives more pleasure than any perfume which the chemists make. Nature spreads ever changing pictures before his eyes. The farmer who enters on his work with heart and soul attuned to good lives in a purer atmosphere than one engaged in sordid work. He has room for growth and expansion and is fed with food for the soul as well as the body.

HUNGER THREATENS

If this Country does not raise a big crop this year, not only will the people of Canada suffer but the Motherland and her Allies will suffer and their military power will be weakened if not destroyed.

Therefore, the real solution of the present war problem comes back to the farm as a foundation upon which our whole rational and international structure must be built and maintained.

The farmers know that they are the last reserves and that the soil on which crops are grown is the strategic ground on which wars are decided. To their care is intrusted the base of supplies.

To enable the farm to do the work two factors are essential. The first is Time. Whatever we are to do must be done at ONCE. Nature waits for no man. The second is Labor. Many farmers cannot plant the acres they would because they cannot get the necessary help.

We would draw the attention of all our readers to the announcements made elsewhere in this issue by the Farm Labor Exchange at Halifax. If you need farm help write the Exchange immediately. If you can spend a few weeks at work on a farm let the Exchange know without delay.

Hunger tightens his grip. The world is waiting for the coming harvest.

About a week ago Chas. Corbitt had a stableful of beef cattle, says the Annapolis Spectator. The butchers could not afford to pay the price wanted, but later he sold them all for more money. Beef cattle, he says, seem to be now exhausted. The price in January was \$250 a pair. Today they have gone to \$350 and Mr. Corbitt offered this week \$375 for a pair of ordinary beef cattle, which was not accepted. This, however, is not the end of it, for it is calculated that it will take five years without eating meat to get the stock back in the country to where it was a year ago. If Mr. Corbitt wanted another stableful of choice cattle he says money could not buy them, as they are not now in the country.

GOLDEN WEDDING AT KINGSTON

On May 11th the 50th anniversary of the wedding of Mr. and Mrs. Edward Howell was celebrated at their home at North Kingston. The immediate relatives gathered on that day and gave them a most pleasant surprise. Many tokens of the day were received and the occasion made a most pleasant one in every particular.

THE GLAMOR OF "EFFICIENCY" IS WANING

New York Herald: Vauntings of "German efficiency" filled the world for so many years that at the outbreak of the war the two words were almost synonymous in the popular usage. So assiduously had the Germans advertised Moltke's drawing of a war plan from a hole in his desk in 1870 that the world jumped to the conclusion that Teutons were were supermen, that they were omniscient, that they would make no mistakes and that the "Made in Germany" brand indicated a perfection unattainable by folk of any other race or age. The material success of the nation just emerged from the cocoon of mediaevalism, which other peoples had thrown off centuries before, blinded the eyes of the onlookers, and thus the outer world came to believe that the Kaiser and his people constituted a machine superlatively perfect and in every phase of human activity.

Almost every day since the outbreak of the war has brought evidence that German "efficiency" is counterfeit, that the "machine" is full of flaws, that the great illusion is being dispelled. If Germany had been truly efficient she would have provided against the starvation of her people today. If her army had been efficient it would have had unprepared Europe conquered two years ago. If her only original ideas, Zeppelins and poison gas, had been developed with efficiency at all the capitals of her enemies would be in ruins and all the allies' armies passing under the yoke. If her diplomatists had been efficient her war would have been confined to the Continent and Italy would be on her side. If her Papens and Boy-Eds had been efficient their plots in India, South Africa, Canada and elsewhere would have shown some results for the millions expended. If her government were efficient there would be no riotous Reichstag meetings in these critical days, and there would be no Belgian white slavery, no Lusitania horrors, no ravishing of Northern France to make the very name German anathema for generations after the war.

One of the golden scales have fallen off the German idol "Efficiency," until today only the effectiveness of her submarines remains to be demolished. All the other links in the chains with which she was to enslave the world have been proved less efficient than those of the nations that formerly stood in awe of the painted, tasselled, noisy juggernaut that was to crash first through Europe and then to enthrone its crafty driver as a Colossus of the world. Efficiency of the German kind may be able to turn human beings into a machine, but proof is multiplying that such a machine is nothing but a machine and that it falls to pieces when, as Mr. Viviani expressed it, "all the forces of freedom are let loose" against it.

ALL AID FOR THE RUSSIAN ARMIES NEW YORK, May 13—An Associated Press despatch from Washington this afternoon says:

All available American ships, the seized German liners and all the ships Great Britain can spare from her own needs, probably will soon be carrying war munitions and great quantities of railroad supplies to Russia.

As part of the united effort to hold fast the Russian Provisional Government against German influences, and encouraging a Russian military offensive, the Allied war committees are making preparation to furnish the necessary transportation for supplies to properly equip and maintain the Russian armies.

Studebakers for London

When the London, Ontario, Fire and Police Departments wanted motor car equipment that could be counted upon for plenty of power and motoring efficiency, but economical in operation, they chose Studebaker cars.

They made an exhaustive investigation of the leading makes of American and Canadian cars. Their selection of Studebaker—the foremost Made-in-Canada car—came only after a comparative test of the relative merits of each make.

The Studebaker is economical in operation, due to its splendid quality, reducing maintenance costs to a minimum. In ratio to power the Studebaker is one of the most economical cars on the market in its consumption of gasoline.

If economy, as well as power, is a consideration with you, too, follow the example of the London officials and thousands of other motor-wise buyers.

Let us show you the Studebaker's splendid power and easy-riding comfort.

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

A VALUABLE BOOK

The Nova Scotia Fruit Growers Association has just distributed 3000 copies of their last annual report. It is a book of nearly 300 pages full of valuable

information to all producers of fruit. The usual number printed is about 700 but this year the larger number were issued from the press so as to give every fruit grower in the Province a copy. It contains the latest on spraying and general production.

GROW BEANS

OTTAWA, May 14—The department of agriculture is now advising the backyard and vacant lot gardeners to grow beans instead of potatoes. The rush for seed potatoes has sent the price soaring and, according to the departmental experts, it now costs from forty-five to fifty dollars for seed to plant an acre of potatoes. At this price the returns in food values will not warrant the outlay.

In a statement issued today by the department of agriculture, it is stated that the same money required to plant an acre of potatoes, if invested in beans, will provide seed for more than ten acres. It is pointed out that beans will continue to be in strong demand for army supplies and are an excellent and nutritious form of food. Soil suitable for potatoes is generally also suitable for beans.

NOVA SCOTIA FRUIT AT THE TORONTO FAIR

Mr. C. A. Brown, of Toronto, manager of Bradstreets, is visiting Halifax on business of his company. Mr. Brown is a prominent member of the Board of Education, on which he has served for thirty years, and takes a keen interest in educational matters. He is also Vice-President of the Canadian National Exhibition and during his visit to Halifax has been endeavoring to enlist interest in securing an exhibit of Nova Scotia fruit at the Toronto Exhibition. Mr. Brown saw Nova Scotia's famous display of apples at the Crystal Palace Exhibition, London, a few years ago, and he would like to see Nova Scotia as splendidly represented at Toronto. He urges also that this Province send a fishery exhibit and he feels confident that in both fruit and fish there are opportunities for development of trade between Nova Scotia and Ontario.

Great Battle on the Italian Front

Rome, May 19 Austrian casualties to Tuesday in General Cadorna's great offensive drive were reliably estimated today at 12,000 dead, wounded and missing. Since that date sweeping further successes have probably inflicted almost as great casualties on the enemy. Rome is afire with enthusiasm over the victorious progress of the Italian troops.

Despatches today related an almost incessant battle along the entire front, attacks and counter attacks from the enemy melting into a gigantic conflict. Much of the fighting is hand to hand. Gorizia is suffering severely from the Austrian bombardment.
