SCARTH STREET REGINA

PROVINCIAL CONSERVATIVES

GATHER HERE TO-DAY

Saskatchewan Convention Sits in City Hall--Representative Gathering--Mass Meeting To-Night in Auditorium Rink--Mr. Borden Will Speak on Federal Issue

R. L. BORDEN
 Federal Conservative Leader, who is a guest of the Conservatives in Regina to-day

The Conservatives of Saskatchewan meet here in convention today and although the gathering is called at a very busy season it promises to be fairly representative. Delegates from outlying provincial points reached the city yesterday. The Conservative leader, Mr. R. L. Borden will be present he having arrived here yesterday accompanied by Hon. Messrs. Bergeson, Reid and Lake. The convention is being held in the city hall and a mass meeting will be held in the Auditorium rink in the evening when Mr. Borden will speak on the federal issues and will be supported by the other gentlemen accompanying him. Mr. Borden has had large audiences at all his meetings and the gathering here this evening will be no exception in point of enthusiasm and attendance.

TURGEON BEATEN IN PRINCE ALBERT

Bradshaw Defeats Attorney-General Turgeon--Scott Government Feels the Blow Very Keenly--Many Votes Tied Up But Bradshaw Expects Majority

Prince Albert, Oct. 15.—What will likely prove to be a death blow to the Scott government was the distinguished victory of J. E. Bradshaw who defeated Mr. Turgeon, the government candidate and attorney general by a majority of four in the by-election here on Saturday last. The government had used every influence which could be brought to bear on the situation but they failed to get a majority. The city was over-run with government officials, both provincial and federal for several days and they were active till the close of the polls. Premier Scott was here for a couple of days; Mr. Calder personally supervised the organization,

on by Mr. Bradshaw's friends to guard the ballot boxes against a repetition of the crooked work that was practised in the general elections. Both Mr. James McKay and Mr. Bradshaw went to Fred McGuire the returning officer and proposed that ballot boxes be placed in a bank

BRADSHAW FIVE AHEAD

Prince Albert, Oct. 15.—When the court of revision opened today there was rough house for a time owing to S. McLeod being the presiding magistrate. Messrs. McKay, Adam and Doak appeared for Mr. Bradshaw, and J. A. Calder and Judge McGuire for Mr. Turgeon. Objection was taken to McLeod sitting and it was then intimated that the court would likely be cleaned out by Mr. Bradshaw's supporters if justice were denied. It is claimed by Liberals that of the thirteen votes allowed, six are for them. This makes Mr. Bradshaw's majority five.

RESULT OF POLLS

Poll	Bradshaw	Turgeon
1	21	27
2	41	16
3	30	28
4	52	15
5	53	43
6	24	28
7	69	67
8	46	78

Majority for Bradshaw - 4

Votes tied up 241

The majority of good votes were tied up on behalf of Mr. Turgeon, and if Mr. Bradshaw gets a square deal from the Court of Revision he will win out by between 30 and 50 of a majority.

and Hon. Frank Oliver was brought in at the last moment. By coercion and intimidation, and with a generous use of money and whiskey the government got an adverse verdict from the people. There is no wonder the government is sore; they have a right to be for their days are numbered.

Bitter Fight

The fight was perhaps the most bitter that was fought out in this province, and every precaution was tak-

ed after the close of the poll for safe keeping. Mr. McGuire wrote a note to Mr. Bradshaw resenting his suggestion. It was then announced that if anything crooked were attempted the returning officer would have to bear the consequences and a committee was organized to watch the place night and day where the ballot boxes were stored. Later, however, Mr. McGuire gave way to the entreaty of his opponents and provision was made to store the boxes in the vault of the Bank of Ottawa. Notwithstanding this, however, the box from one poll was taken by W. T. Gilmore and James Clare

LEMIEUX OFF TO JAPAN

Minister Accompanied by Joseph Pope Goes to Japan to Adjust Matters—Mr. King Goes to Vancouver

Ottawa, Oct. 11.—The formal order in council appointing Hon. Rodolphe Lemieux Canada's envoy to Japan was passed at the cabinet meeting today. Mr. Lemieux will be accompanied by Mr. Joseph Pope under secretary of state, and Mr. Verret, the postmaster's private secretary. They will sail by the Empress of China from Vancouver on Oct. 28. As already stated the Japanese Consul General Noto will not go. The reason for the cancellation of his passage is not known, but it is no doubt done through from the authorities at Tokio.

It was also decided at the cabinet meeting today to appoint W. L. MacKenzie King, deputy minister of labor to be royal commissioner of labor to go to Vancouver to adjust the damages to the Japanese citizens caused by the recent riots there. At one time a judge was to be sent, but it would take some time to do this and the government is anxious to have the whole matter cleared up as speedily as possible, so that there will be less difficulty in the way of Mr. Lemieux in reaching a settlement with the Meado's government, when he arrives in Japan. Mr. King will consult with the Japanese consul in Vancouver, and will take whatever measure he may think proper to arrive at a decision as to the actual loss sustained by each party.

Mr. Nosse has presented to the government a statement showing the loss to be over \$13,000. Mr. King will be provided with a copy of this statement and will go carefully into it on the spot. The money will be forwarded from Ottawa at once, and it is likely that the city of Vancouver will be afterwards asked by the Dominion to recoup it for the amount expended.

NEW CANADIAN COINS.

Soon after the opening of the new mint at Ottawa next December, it is understood that there will be one or more new coins put into circulation. It is practically arranged that there shall be a new penny piece of the value of two cents and coined from nickel.

This will be the first time that nickel, although one of Canada's greatest minerals, has been made use of for Canadian coinage. The United States have used it for many years for the manufacture of five cent pieces. There is felt to be a need for a penny piece in Canada, and nickel is to be used to save bulk which is the fault of copper coinage of two cents. When the mint is in full working order there will be sixty hands employed. It is expected to issue between sixteen and twenty million Canadian coins each year. At the present time the royal mint of London is coining sixteen million coins a year for Canada. Next year this will be done in Ottawa.

PLAYING WITH FALSE CARDS

Grand Trunk Directors Accused of Deceiving the Shareholders

London, Oct. 11.—A scene occurred here yesterday at the half yearly meeting of the Grand Trunk Railway of Canada, when a shareholder accused the railway directors of "playing with false cards." He withdrew, the remark after a heated discussion with President Sir Charles Rivers Wilson, but the shareholders moved a vote of want of confidence in the directors, which was overwhelmingly defeated. President Wilson referred to the improvement in the general condition of the company. He said the receipts from all sources had increased, but working expenses showed an increase, due largely to the necessity of increasing wages, and the establishment of a pension fund. At the close of the chairman's remarks on the pension fund, the monthly reports came in for some hard knocks, and the shareholders declared that they had been deceived at the last meeting, when 10,000 pounds sterling was given as the amount of surplus fund, but yesterday they were told that 40,000 pounds sterling was the correct amount. Another shareholder characterized the monthly report as issued a farce. In reply to the shareholders Sir Rivers Wilson said that should the business continue as prosperous as now, he saw no reason why the third preference shareholders should not be paid next year. Referring to the erection of a hotel at Ottawa, the chairman said that Ottawa was devoid of proper hotel accommodation.

TURGEON BEATEN IN PRINCE ALBERT

(Continued from page 1.)

to the Liberal committee rooms from the poll, but as soon as it was taken out of the cab a couple of Mr. Bradshaw's men jumped from another rig and called upon the two men to take the ballot box to the bank, which they did. The deputy who had charge of that box was a young man above reproach and Gillmor and Clark must have been responsible for him going to the Liberal committee rooms with the ballot box.

Right in Courts

The court of revision will be fought out to a finish by both sides but Mr. Bradshaw's friends who have had charge of the organization say that he cannot lose the seat unless his tied up votes are disallowed in a wholesale way. The Liberals were busy Sunday locating men whom they thought could be induced to stay away from the court of revision. Many of the Bradshaw tied up voters are men who are employed by Mr. Cowan and who intended to go to the bush after voting.

Officials Impartial

The Canadian Northern people were absolutely impartial in the election. The employees received instructions from the management that they would not be interfered with, and that they could vote according to their own wishes. Supt. Abbott would not stand for any interference with his men from either side.

Additional Locals

The funeral of H. Harris late of the Land Titles Office staff, took place at 3 o'clock Saturday afternoon from St. Paul's church.

Mr. Borden and Mr. Bergeron are guests at the King's hotel while in the city. Mr. Lake and Dr. Reid also of the Borden party are staying at the Waeacana.

Thos. Mollard, accompanied by Mrs. Mollard, are in the city at present from Grand Bend, Ont., visiting their nephews, Messrs. Wm. and Geo. Mollard.

The annual meeting of the Regina Relief Society was held on Monday

afternoon in the parlors of the Waeacana hotel. The work of the past year was submitted by the President Mrs. Bennett. The officers for the ensuing year were elected and are as follows: Hon. President, Madame Forget, President, Mrs. T. J. Bennett; vice president, Mrs. L. H. Lamont; secretary Mrs. Abbott; treasurer, Mrs. R. Sinton; investigating committee, Mrs. J. A. Armstrong, Mrs. J. S. McCannell, Mrs. J. A. Cross; supply committee, Mrs. J. R. Peverett, Mrs. W. M. Williamson, Mrs. J. C. Pope and Mrs. J. W. Smith.

WARDEN DIES

Vancouver Oct. 10.—Col. John C. White, for the past ten years warden of New Westminster penitentiary, is dead of consumption. Col. White worried greatly over the escape of Bill Miner and four other convicts. He was a colonel of the Sixth regiment Duke of Cannanought Own Rifles. He had been a resident of British Columbia for twenty years.

GENESIS CONFIRMED

Quite a sensation has been caused among Biblical students in London by the discovery by Brusch Bey, the great Egyptologist, of a monumental inscription telling how the Nile failed to rise for seven years in succession about 1,700 years before the Christian era. A long and terrible famine was the result.

B.C. 1700 is the date recognised as the beginning of the "seven lean years" described in the book of Genesis, and theologians are very much interested in the confirmation which the discovery gives in hard facts to the famous Bible story.

The account of the failure of the Nile and the continuous famine throughout the land was told in a number of extraordinary hieroglyphs which Brusch Bey fortunately has been able to decipher.

GAS PRODUCED FROM STRAW

Western Canada is to be provided with plants for producing gas from farm litter, according to news from Ohio. Experiment has revealed a method of transforming the straw

and corn stalk into a coke that is hotter by far than that obtained from Pennsylvania coal, and has more gas producing power than the celebrated Pittsburgh coal. A Cleveland chemist, backed by wealthy eastern capitalists, and operating an experimental plant at Beatrice, Neb., has proved the commercial value of an invention of J. Russell Coutts. As a result, the problem of getting cheap gas in a region hundreds of miles from coal mines is said to have been practically solved.

Owners of the Coutts' patent have secured franchises for gas plants in western Canada and the Dakotas in a dozen or more cities. They propose to erect others just as fast as they can. They not only assert that they will inaugurate an era of cheap illuminating gas for the west, but they can supply it for power and fuel purposes so cheaply as to make the competition of gasoline or coal impotent or impossible. Mr. Coutts made the discovery that gas could be produced from straw, while assisting a friend in Canada in burning straw piles about a year ago.

INSPECTOR SEES CROPS

Ottawa, Oct. 14.—John Byrnes, inspector of the grain branch of the trade and commerce department, has returned from a trip to the west in connection with grain inspection. He visited all the terminals at Fort William and Port Arthur, and many of the interior elevators west of Winnipeg, also the different grain inspection offices.

He mentions as indications of the lateness of the threshing that on Sept. 19, last year 4,104,376 bushels had been received at Fort William and Port Arthur, whereas for September this year only 600,778 were received there.

In view of the damage by frost the large increased area under coarse grains comes as an unbidden blessing, especially when the highest prices are considered.

Up to October 9th, 80 per cent. of the new wheat inspected at Winnipeg has graded high. There is no doubt that a great quantity will go for feed for which there will be increasing demand in Ontario during the whole winter.

NORMAL LITERARY

The normal school literary society held their usual meeting on Friday afternoon, Oct. 11. The business part of the meeting was principally taken up with discussion about an

at home which the society intends to give on Friday evening Oct. 25th. The program consisted of an essay on the social conditions of Canada, by Miss Cope, an essay on the commercial aspects of Canada by Miss Wain, and a speech on the political aspects of Canada by Mr. A. Ball. The meeting was closed in the usual manner.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacements of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and tested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills. You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for. Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

Government Desperate

The government through its mouth-piece in the city shows how desperate they realise the situation to be with regard to the Prince Albert seat. Beaten in five out of the eight polls on election day, they yet, however trust to the partisan judgment of a magistrate who can be depended upon to deliver the seat to Mr. Turgeon.

Law of Compensation

In taking a general view of the crop conditions we are compelled to recognize the law of compensation the beginning or the end of which we do not know. It is sure however that the weather promises everything that could be desired for a late harvest and it will not be surprising if the threshing is all cleaned up, and much plowing is done throughout the country before the bad weather sets in.

Mr. Borden's Visit

Regina today extends a cordial welcome to Mr. R. L. Borden, the Conservative leader who is making such a triumphant tour of Canada, and who is leaving a marked impress on the public mind by his straightforward enunciation of policy and his earnest plea for clean politics.

Press Comments

(Indian Head Vidette) It must strike the most optimistic Liberals as strange that Sir Wilfrid Laurier finds it necessary to go outside of parliament altogether for material with which to replace delict cabinet timber. The condition of the party in parliament must be desperate indeed when it is found necessary to prefer a camp follower in New Brunswick and to rob a weak and struggling opposition of its leader in Ontario.

FROM VELD TO PRAIRIE
Western Canada Attractions here from Cape to Cape in South Africa
Attracted to the western wheat fields from a country great distance as is South Africa, the experience of Edward Melville, who arrived in South Africa on Friday from Cape Colony, is a case in point. He has evidently spread far beyond the limits of the Dominion, and suits is that people in all parts of the world are turning their attention to the west.

Noted Woman Swindler Was Serving Ten Years Her Crimes Dies in Penitentiary.
Columbus, Ohio, Oct. 10.—Cassie Chadwick died at the state penitentiary. She had been in the penitentiary for some time. Mrs. Chadwick was sentenced on March 28, 1906, to ten years in the penitentiary for the crime of swindling. She was the wife of Le Roy S. Chadwick, a physician of Cleveland, Ohio, who was killed in 1904. Mrs. Chadwick was a woman of great intelligence and had a fine education. She was a member of the First National Bank of Cleveland and was a prominent social worker. She was known to her friends as a woman of great charm and intelligence. Her death was a great loss to her family and to the community.

FROM VELDT TO PRAIRIES

Western Canada Attracts People here from Cape Colony in South Africa

Attracted to the western Canada wheat fields from a country at such great distance as is South Africa, is the experience of Edward Melville and his son, who arrived in Saskatoon on Friday from Cape Colony. The fame of the west and of Saskatoon has evidently spread far beyond the limits of the Dominion, and the result is that people in all parts of the world are turning their attention our way.

Mr. Melville also knows a good thing when he sees it, and no sooner had he arrived in the city, than he realized that its position in the heart of the wheat belt was bound to make it one of the largest cities in western Canada. So favorable were his first impressions, indeed, that he immediately called on a number of real estate vendors, and, as he had a few hundred dollars to invest, he bought four lots from Shannon, Jeffrey & Hartner. Mr. Melville and his son intend to take up land in the immediate vicinity of Saskatoon, and with the fertile soil surrounding us, they are convinced that we have a fine country and will have a big city.

Mr. Melville resided in South Africa for over fifty years, and that he should seek new fields in Canada at his age in life is evident that he believes opportunities are plentiful in the west. He is an old British soldier, having seen service in the Crimean and Boer wars.—Saskatoon Capital.

To check a cold quickly get from your druggist some little candy cold tablets called Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly certain and prompt. Preventives contain no quinine, no laxative, nothing harsh or sickening. Taken at the "sneeze stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventives. Good for feverish children. 48 Preventives 25 cents. Trial boxes 5 cts. Sold by the Regina Pharmacy Stores.

C. CHADWICK DIES IN JAIL

Noted Woman Swindler Who Was Serving Ten Years for Her Crimes Dies in State Penitentiary.

Columbus, Ohio, Oct. 10.—Mrs. Cassie Chadwick died at 10:15 in the state penitentiary. She had been ill for some time. Mrs. Chadwick was sentenced on March 28, 1906, to ten years in the penitentiary. She was the wife of Le Roy S. Chadwick, a physician of Cleveland. She came into public notice in 1904 when her amazing chain of swindles came to light. How much she got was never learned, but it went well into the thousands. Her borrowing from the Oberlin National Bank, for which President C. T. Beckwith was indicted, caused the failure of that bank. She was responsible also for the indictment of Cashier H. B. Spear of the First National Bank, of Conneaut, Ohio. All of Mrs. Chadwick's borrowings was done on five million dollars worth of bogus securities, which were supposed to be deposited in the Wade Park Bank of Chicago, with which Mr. Reynolds was connected. Many prominent men were swindled by her, Pittsburg being the field of many of her biggest schemes. Mrs. Chadwick was born at Eastwood, near Woodstock, Ont., and first came into prominence as the notorious Lydia de Verde, a famous woman forger of Toledo.

She had been in the penitentiary since January 12th, 1906, and with good time to her credit would have gotten out in November 1911, had the fatal disease not seized upon her. Her trouble was attacks of heart failure and weak stomach, the latter according to the physician, being caused by indulgence in rich food. When she first came to the prison, Mrs. Chadwick sent to a fashionable restaurant for her meals and ate the richest viands. Finally the prison officials ordered that she be compelled to eat the regular prison fare, but she still complained of her stomach and gradually grew worse.

Mrs. Chadwick as a prisoner always shunned the public. Since her incarceration she was always satisfied if she could only be screened from the gaze of visitors admitted to the prison. She even shunned the gaze of other prisoners. She had never been required to attend chapel exercises in the state prison of either the Protestant or Catholic church. This privilege was granted at her request and also because it was believed that at first, when her crime was still fresh in the public mind, her presence in the chapel would draw an undesirable crowd to the services.

LIEUT. GOV. OPENS BRIDGE

Bridge Across South Saskatchewan River Opened Last Thursday by Lieutenant-Governor

Saskatoon, Oct. 10.—Today will be recorded as a red letter day in the history of Saskatchewan as marking the opening of the first traffic bridge in the city. The bridge is the longest at present in the province, being 800 feet in length and costing \$110,000. It is the first link to join old and new Saskatoon. It was erected by the provincial government, the contract being awarded to the Canadian Bridge Co. This week Mr. McPherson, government bridge inspector, submitted it to a twenty-ton test, and he found its entire construction quite satisfactory, and recommended its acceptance. The actual time spent in the construction of the spans aggregated forty-seven days.

The city authorities felt that such an important event should not go by without formal recognition and succeeded in securing his honor, Lieut.-Gov. Forget to officiate at the opening ceremonies. His honor arrived in the city this afternoon at 2:35 from Regina and proceeded through the city to the bridge site. He was escorted by the Saskatoon school board, the board of trade, and the city council. While all along the route the children of the public school were drawn up with their respective teachers. All the children carried flags.

The party proceeded to the bridge, the children lining the bridge half way across where they were met by the line of children from Nutana school. The massed children then sang the Maple Leaf and "Men of the North."

Speeches were delivered by W. T. Sutherland, M.L.A., Lieut.-Gov. Forget, and Mayor Wilson. Bear Island, Aug. 26, '03. Minard's Liniment Co., Ltd. Dear Sirs,—Your traveller is here today and we are getting a large quantity of your MINARD'S LINIMENT. We find it the best liniment on the market, making no exceptions. We have been in business 13 years and have handled all kinds, but have dropped them all but yours; that sells itself, the others have to be pushed to get rid of.

M. A. HAGERMAN.

UNIVERSITY ELECTION

It has been decided that the first meeting of convocation, the date of which has been fixed by the Lieut.-Governor in Council for today, shall be solely for the purpose of election. Arrangements were being made for holding of a general meeting of graduates on occasion of the above meeting and to have present distinguished representatives from other Canadian Universities who would give addresses on subjects relating to the university and its problems. On account of the limited time and the fact that the first part of October is an especially busy period by reason of the enrollment and classification of students in the universities for the year's work, it was found impossible to complete satisfactory arrangements before the date appointed.

For this reason it will not be necessary for graduates to be present in person as the ballot papers may either be sent or delivered by mail to the registrar, in accordance with the terms of the act. The question of an inaugural meeting is therefore a matter for future arrangement. As there is a feeling amongst graduates all through the province that such a meeting to be presided over by Chancellor Wetmore would be warmly welcomed by all, it is quite probable that an effort will be made to complete the necessary arrangements at as early a date as possible.

A PITIFUL CASE

The Ottawa Citizen says: A pitiful case has been discovered in London of a woman in the last stages of consumption, who has been left all alone in a house by her family and friends to die. Her husband makes her an allowance sufficient for her necessities, and she has the house all to herself, but no one goes near her for fear of contracting the disease. Occasionally a kind neighbor takes her in some delicacy, but day after day and night after night, she waits for death in solitude. The attention of the board of health has been called to the case, but nothing can be done as there is no place to send her. None of the hospitals will accept consumptive patients in the last stages of the disease, and the city has made no provision for a consumptive hospital. It is feared that there are many cases all over the country in a similar plight. The people have been educated up to the point that they are almost as keenly apprehensive of infection in case of consumption as in small pox or diphtheria. On the other hand, municipalities and boards of health have not been educated up to the point of providing for sufferers from this infectious disease in the way that they take care of small pox or diphtheria patients.

WOLSELEY'S TOWN HALL

Wolseley, Oct. 11.—A new town hall, costing in the neighborhood of \$25,000 was formally opened this evening. Speeches were delivered by Mayor Magee, Senator Perley, the first chairman of the old municipality of Wolseley; Dr. Elliott, M.L.A.; A. B. Bompas, president of the agricultural society, representing farmers; Levi Thompson, who spoke for ex-mayors, and Rev. Father Maillard, who represented the clergy. Drills by the public school and separate school children together with other music and several dramatic impersonations by Mrs. Max Crozier, added pleasing variety to the programme, which was greatly enjoyed by the large number present. In addition to the large auditorium there is council chamber, several committee rooms and a parlor to be fitted up by mechanics institute as a reading room. The fire apparatus occupies the rear of the building.

BRITISH NAVY FOR PACIFIC

People of Victoria Pleased—Esquimalt to be Re-occupied by British Fleet

The announcement made that a squadron of British warships was soon to return to Esquimalt and that the former naval village would be re-occupied is confirmed. The usually well informed correspondent of the Montreal Star cables as follows: "Great Britain will send a fleet of five warships to Esquimalt early next spring during the movements of the United States warships along the Pacific coast. Whether they will remain only for a year, or permanently could not be learned. One will be a small battleship and two will be first class cruisers."

The fleet is to be despatched under direction from Whitehall in the near future to arrive in the spring, following the coming of the big United States squadron to the north Pacific coast. That the admiralty intended to re-occupy Esquimalt has been generally believed for some time, since the sudden termination of the negotiations for the transfer of the naval yard to the Canadian government, following the transfer of the Halifax station and the garrison which took place last May.

The return of the navy will be welcome news to Victorians, who will look forward to the arrival of the fleet. At present there are but two ships of war stationed here, H.M.S. Shearwater, which is maintained because of the arrangement whereby the British government must despatch a warship yearly to bearing sea to patrol during the sealing season, and H.M.S. Egeria, an old survey ship. The Shearwater is a small sloop of war similar in every particular to the ill-fated Condor, which foundered with all hands a few years ago when bound from Esquimalt to the south coast.

In the past it has been the custom of the admiralty to maintain vessels of second and third class at Esquimalt, the flag-ship usually being one of the old third-class battle ships, but according to report, the new squadron is to consist of five modern vessels.

Whether any changes in the land forces at Esquimalt garrison is not known. The fortifications were transferred to the Dominion government following the transfer of the Halifax naval station, and since then a poor show has been made as compared with the former garrison. No new works could be undertaken owing to the smallness of the garrison, and the big 9.2 pivot guns, which were brought out to be mounted on Signal Hill, which was in progress when the change was made. As the garrison stands at present it is manned by scarcely enough men to keep the equipment of the fortifications in good condition.

The naval yard and buildings, the shops and engineer works storehouses etc. constitute a veritable deserted village in the hands of a few caretakers. There is still a considerable supply of patent fuel available, but the coming of the Monmouth reduced the supply of Welsh coal on hand. The British ship Hillston, is about to leave Cardiff, if she has not already sailed, with the first of several cargoes to follow for the use of the squadron.

The naval yard, however, could soon be placed in repair, and when the five warships have arrived the former bustle will without doubt soon be resumed. The depot with its buildings, shops etc. is as it was when the navy left, following the inauguration of the new policy of Sir John Fisher for the concentration of the naval forces.

What the return of the navy means to the social and commercial life of the city those who remember the days before the departure of the Esquimalt squadron know well. The provisioning of the vessels alone means the addition of thousands of dollars monthly to the general business of the city.

Minard's Liniment relieves neuralgia.

Storey's Gloves

Warmest Kind For Cold Weather

Tougher horsehide will never be found, because the best is used for Storey's Gloves and Gauntlets. And yet the skin, because carefully tanned by the chrome process, is made pliable, insuring extraordinary wear resistance. Waterproof and fire-proof—the best working gloves on the market.

Sold at all stores. Insist on Storey's.

W. H. STOREY & SON, LTD. Aton, Ont.

HOUSTON AND THE G. T. P.

Vancouver, Sept. 26.—James H. Bacon, Grand Trunk Pacific harbor engineer at Prince Rupert, took forcible possession of the printing press of the Empire yesterday afternoon. The press had been standing boxed on the wharf since July 9th.

Mr. Bacon admitted that he had no claim of any kind on the press. John Houston, the editor, has had a writ of search issued, and provincial constables will bring the press into court.

This is the substance of a report received last night from the terminus of the Grand Trunk Pacific.

It leaked out in Vancouver yesterday that Editor Houston had gone the company one better in his fight to secure a foothold up there. He has staked three miner claims in the very heart of the townsite. The claim has already been recorded at the mining recorder's office at Fort Simpson. They are the usual size fifteen hundred feet square. Starting at the waterfront the claims run back a distance of 4,500 feet, with a width of 1,500 feet. Their possession, now that the provincial government has accepted the usual fees for recording will give him certain surface rights, and enable him to publish his paper at Prince Rupert despite the opposition of the railway company.

Mr. Houston, during his recent visit here, publicly declared that the next issue of the Empire would be run off in Prince Rupert. Before his departure Mr. Houston disclosed in confidence to several old friends his plan of campaign. He stated that he had gone into the legal question very fully, with a prominent lawyer before locating the mineral claims. He received the assurance that the mineral locations when once recorded, would give him surface rights, whether they were staked on the side of a mountain or in the heart of a metropolis. Mr. Houston did a little prospecting in Prince Rupert before starting for Vancouver. The law enacts that claims can only be recorded when the mineral is found "in place," and Mr. Houston is understood to have discovered an outcrop of iron pyrites of sufficient size to justify locating three claims.

The actual staking by virtue of a pre-arranged plan was done by two of his old up-country friends, Bill Hanna and Jimmy McCabe, recognized in the old days in the Kootenays as first class prospectors. It follows the receipt of a wire from the resourceful editor, Hanna and McCabe as agents, staked two claims for Mr. Houston and one jointly for themselves. McCabe then lost no time in taking a steamer for Port Simpson where the locations were recorded. He is almost as picturesque a character as the doughty editor of the Empire. For years he enjoyed a great reputation as one of the most fearless drivers over the rough mountain roads of the boundary, prior to the advent of railways. To ride down the big hill from Phoenix to Greenwood—a sheer drop of 3,000 feet in four miles—in the stage coach with McCabe on the box handling the reins of three teams, now whirling around chasms, then dashing down veritable toboggan slides, proved an experience that "tenderfeet" having once survived, never cared to repeat. It is assumed that the Grand Trunk Pacific will take legal measures to oust Mr. Houston from his mineral claims. But John has "records" and is "in possession." He will be satisfied to let the matter get into the courts because he realizes that there will be delays of many months before the last chapter in the fight is written.

The legal status of Mr. Houston is regarded as exceptionally good in one or two respects. The actual ownership of Kasien Island Indian re-

serve is in dispute between the Grand Trunk Pacific and the provincial government, and a strong point in Johns favor is that the official plot of the townsite has not yet been filed with the government.

The mineral claims overlap portions of the reserve and the private property of the Grand Trunk Pacific.

Mr. Houston, laughingly admitted to friends, that he has a strong card up his sleeve, which he intended to play before the arrival of President Hays. Then he outlined the campaign in detail before embarking on the steamer. Mr. Houston stated that he expected to find time between his editorial duties to sink a prospecting shaft. It is understood that he will do his assessment work this fall. The claims besides taking in a portion of the Indian reserve, also "blanket" the main street of the town, and on them are situated the post office, the Grand Trunk Pacific offices, a drug store, meat market, and the general store of Messrs. Kelly-Carruthers.

Minard's Liniment Cures Burns etc.

Big Sale!

Having received instructions from Mr. Sam Lovelock, who has sold his farm, I hereby announce a great clearing out sale of

Horses, Cattle, Hogs, Poultry, Farm Implements and Household Effects

To take place Wednesday, October 30

Twelve months' credit will be given on approved joint notes and a discount of 5 per cent. will be allowed to cash purchasers. Luncheon will be served at 12 o'clock. Intending purchasers are respectfully invited to wait for this sale as it will be one of the largest ever held in the Regina district. Mr. Lovelock's farm is about 12 miles due south from Pilot Butte and about 14 miles south-easterly from Regina. Please note the date, carefully and for further particulars see hand bills.

NEW PRODUCE COMPANY

Local Men Purchase Dominion Produce Company's Regina Business

The Dominion Produce Co., which has been operating in Regina for the past year has succeeded by the "Drummond Produce and Cold Storage Co., Ltd.," a company composed of local men. About two months ago Mr. Griffin, of Winnipeg, the most interested in the Dominion Produce Co., visited Regina and sold the business of the company to the above named company which was capitalised at \$20,000, and secured a charter to do business.

The officers of the new company are: President—R. H. Williams. Vice pres and manager—J. Drummond.

Sec.-Treas.—J. A. McLachlan, Directors—J. K. R. Williams, F. Carrothers and W. Wakefield. The new company occupy a part of the Wilkinson warehouse on Dewdney street. They handle butter, eggs, cheese, poultry and produce generally. At the present time they are laying in a heavy stock for winter distribution. Goods are being received and going out all the time.

PLENTY OF COAL

A. F. Dillinger reports that there are Cars and Coal but Coal Delivery Depends on Men

Ottawa, Oct. 14.—In a report to the railway commission, A. F. Dillinger, operating assistant to the chief traffic officer of the railway commission, reports that since July last, the car supply for Canadian coal on the Crow's Nest Pass line has been good.

The mines shipping domestic coal have not been short of cars since July, but the mines shipping to the United States points have been short at times, the latter include Hillcrest, Bellevue, Little and Taber and which are dependent on the car supply received from the American roads. Mr. Dillinger says that there is no store at the prairie towns west of Winnipeg over 250,000 tons of coal for do-

estic use exclusive of what has been delivered to consumers and a further supply was, and is still coming in. The Canadian Pacific had in store over a hundred thousand tons of steam coal west of Winnipeg for winter use, 150,000 tons in store at Fort William, and as much more booked to arrive before navigation closes. From Winnipeg west, the Canadian Northern has in store two hundred thousand tons of steam coal for the winter, and 160,000 at Port Arthur. There is a scarcity of men in the mines, but Mr. Dillinger thinks the car supply will be sufficient.

FEW WERE AMERICANS

Statement is False that Forty-one Americans were Disfranchised in Prince Albert—The List of Applicants

The public have heard a great deal about the charge against Mr. Bradshaw's supporters in Prince Albert regarding the objections to the naturalization of forty-one applicants served. The facts are that only a very few of these men were Americans. Mr. Bradshaw was entitled to know whether a bunch of names could be rushed through on the eve of an election. Judge Prendergast refused to Mr. Bradshaw's solicitor an order of the court to examine the applicants on their affidavits. The learned judge informed A. E. Doak who appeared for Mr. Bradshaw, that he had already allowed eleven of the applicants.

The following is the list of applicants, the last ten being those who did not have their papers on election day, but some of whom signed the statement that they were British subjects:

- Joseph Penyon
- Pierre Bomper
- Frank Klenoske
- Felix Ostrowski
- Stephen Sabo Pa
- Mihal Boldes
- Arthur Oliver
- Mike Glenn
- Jos. Horodecki
- Jean Delhommeau
- Louie Mallet
- George Krab
- Adam Krab
- Jean Bte. Jegon
- Louis Borshard
- Peter Orenconuk
- Frank Ostrowski
- Joseph Sabo Pa

- Edward Michelson
- W. E. Oliver
- Frank Zychujka
- Henri Delhommeau
- George Simon
- Stephen Markees
- Frank Patay
- Mike Kachorowski
- Zop-seg Czebe
- Mikoloz Papierz
- John H. Kernagan
- Frank Spore
- Charles Bonas
- Raymond Benorus
- Ira B. Menard
- Charles A. Wallace
- A. T. T. Bensard
- Jos. Granzini
- Alex. Capistun
- Jos. E. Willemis

No. 24 leaves for south	6:45	6:45

KIPLING IN VANCOUVER

Vancouver, Oct. 7.—Rudyard Kipling speaking before the Canadian club this afternoon said referring to Vancouver that he pictured an army pouring through a mountain pass, the vanguard moving on and becoming lost in the great landscape searching for food, transportation and shelter, and likened the immigration from the east to this simile.

He said: "If I had not as great a faith as I have in our breed and greatness in our race, I would tremble at your responsibilities, but I believe in you who have come through the mountain pass already, as I believe in the great throng that is on its way through the mountain passes here, a fertilizing stream that though they may strive for a little time to delay it."

"You have a rightful pride in your city, my pride is your destiny. The head of this great army has scarcely emerged through the passes, in a short time it must come through in a flood. It is you gentlemen, who are responsible for the

handling of that army, not the Dominion, but the provincial. You will see that great army corps coming in with their wives and children, looking for homes, and perhaps it is worth while to remember that the state depends on the family, and the family on the woman, and the woman on the home."

"I beg you to believe that if I have not touched on certain problems it is not because I under-rate the importance of the problems which confront you. I have lived too long among men overwhelmed with problems darker than those which confront you. I have seen them borne down by these problems but I have never known them to be overcome by them."

"Let us so order our affairs that our children's children may say 'Our fathers secured us a good heritage,' and bless our memory, than this there is no higher reward for a nation."

ADDITIONAL LOCALS

A report of the recent teachers' convention will appear in next week's issue.

The big ditching machine commenced work on Albert street, north of Dewdney yesterday, and is making good headway. The sewer pipe is laid on Dewdney street and the other streets in the north end will be laid this season.

The newspaper correspondent accompanying Mr. Borden are C. F. Hamilton of the Toronto News and B. K. Sandwell of the Montreal Herald. Mr. Hamilton was one of the Canadian war correspondents in South Africa where he came prominently before the public eye. Both these gentlemen represent their respective papers at Ottawa during the sittings of parliament.

Mr. and Mrs. M. Buhler of Regina, celebrated their golden wedding last Thursday at their residence north of the track. Mr. Buhler who is a veteran of the "Crimean" war, came to Regina to live about four years ago, but came to Canada sixteen years ago and was the first settler in the Kronau district. A number of his children and grandchildren were present to enjoy his hospitality and extend congratulations.

Natural gas was struck Tuesday four miles north of Grenfell. The spot where the strike was made is situated on the government road allowance. The discovery was made by a farmer living in the vicinity who detected a sound of gas issuing from the ground. A smell of gas being evident, a match was applied, with the result that the gas at once ignited.

J. E. Walker, of Rocanville arrived in the city today. He is a delegate to the Conservative convention.

A meeting of the Conservatives of the town of Lumsden and district, was held in Tuck's new hall on Wednesday last for the purpose of organizing and appointing four delegates to attend the provincial Conservative convention to be held in Regina on Oct. 16. The following officers were elected: Hon. President E. Cars, J. P.; president, John E. Chisholm, first vice president, J. Mair; second vice president, H. T. Baker, secretary, F. Willis, executive committee, L. L. Morrow, R. H. Dickson, A. Blair, C. A. Maxam, B. Morton.

JAMES BAY EXP

Mr. J. A. Osborne, of Francis Times, was a vis city yesterday, says the Chronicle, on his way he extended exploring tour coast of James Bay.

Mr. Osborne and a part real men, partners in a treat enterprise, left M June of this year, and way by canoe to James at Moose Factory they little time. They then p the east coast where t their search for mineral.

Mr. Osborne expressed satisfaction with the trip, and a number of valuable claims, for the possessors they are now applying for patent.

Exhaustible are the iron great mountains of hemlock, being seen by the streams, some of the rivers, are capable of dev almost uncalculable amount. One is tempted to think shores of James and it will become the great tre of Canada.

On the return trip Mo was left on the 17th of at which time frost ha its appearance. The clim cently good to permit vegetables, the numerous Bay and Beville. Bro excellent gardens in wh all the common vegetable valleys are luxuriant in forest growth. Strawbe ing wild, ripen in Sept berries, cranberries and are to be found in abund

IS TOBACCO SMOKE INJURIOUS?

Doctors Differ--Connection Between Smoking and Insanity Closer Than Generally Believed--Effect of Smoke on Consumption

In the state medicine section in London, Eng., an interesting and at times amusing discussion took place on a paper by Dr. Herbert Tidswell, Torquay, on "the effect of tobacco smoking on the health of the individual and the nation." During recent years he said, he had made a special study of medical literature relating to the diseases produced by smoking and chewing tobacco, and his conclusion was that the habit of smoking could not be defended on scientific grounds. He attributed the habit amongst lads to a desire to emulate their elders, and so in the beginning the habit was founded on sentiment. Boys naturally thought that it was the correct thing to learn to smoke, and though the first attempt should convince them that it was injurious to the health, they could not see it in that light. It was their ambition to be in the fashion, and so they forced their stomachs by persistence to tolerate poison, and in time the habit became a pleasure and a solace. (Hear, hear and laughter.) Medical science distinctly taught that tobacco contained a deadly poison called nicotine, and that this was especially injurious to growing boys. Consequently the habit of smoking was opposed to the laws of hygiene. It was evident that the public mind was fully alive to the dangers of juvenile smoking and great efforts were now being made in Scotland and in some parts of England to save the boys from self-destruction, for such it was. Hundreds and thousands of boys are growing up to be cigarette fiends. He did not think legislation would check the evil of the tobacco habit. He would advise every adult to give it up for two reasons, because the habit was dangerous to health in many mysterious ways, and secondly, for the sake of the rising generation. Was it reasonable to suppose that the people of the land could enjoy good health when they consumed over three million pounds in tobacco every year? The quantity of nicotine represented by that weight of tobacco was beyond his power of calculation. Cigarette smoking, which was so common among men and boys and even ladies, was certainly a national danger, and the boys were killing themselves by hundreds and thousands. The habit was injurious in a great many ways and he believed that the connection between smoking and insanity was closer than was generally believed. He had come to the conclusion that smoking could not be justified by the medical profession until it was proved by medi-

cal experience that the habit did not produce weakness or disease in the succeeding generations. The only thing that tobacco was good for was that it kept off mosquitoes. Defends Tobacco Dr. A. Drury, Halifax, stoutly defended the practice of smoking, and charged Dr. Tidswell with being an extremist. He had always understood that the discoverer of tobacco smoking was Devoian, Sir Walter Raleigh, but, according to Dr. Tidswell, it was the invention of Satan especially devised to catch youths. (Laughter.) Many minute insects and germs were incapable of living in tobacco smoke, and this was surely one reason for taking an appetizing view to Dr. Tidswell, who represented tobacco as such a terrible thing. Against juvenile smoking, all the medical profession, would of course, speak very strongly, but Dr. Tidswell's idea with regard to dissuading patients from smoking reminded him of a doctor who was strongly against the use of tobacco, and speaking to a new patient, one day concluded that he was a very heavy smoker without even asking. He therefore said to him in a stentorian voice, "Now, mind only one cigar a day." The patient returned in about three weeks and told his doctor, "I tried the cigar for three days, but had to give it up." As a matter of fact he was a non-smoker. (Laughter.) Dr. G. C. McWalter, Dublin, said from his observations in the hospital he had wondered whether smoking had not the effect of preventing tuberculosis, for he had found among young patients that non-smokers were more prone to tuberculosis than were smokers. He declared that smoking was injurious to the teeth. Dr. Wynne, Leigh, declared that he had always smoked to excess, and he had no particular fault to find with his health. As to whether he was shortening his life, he could not argue that matter with Dr. Tidswell until he was dead. (Laughter.) Dr. Newholm Bright, president of the session, said he would not like it to go forth as the dictum of the session that smoking had any effect at all in the prevention of tuberculosis. Surely one would expect to find more non-smokers, than smokers among young patients. Tobacco smoke could only kill the consumptive germ when it was in so concentrated a form as to kill the smoker himself. Smoking carriages and public house bars were usually replete with tobacco fumes, yet they were among the chief places frequented.

THE CANADIAN ABROAD

Thou native son, yet wandering far From Canada, thy natal soil, What fate hath carved thy destiny Amid the city's vaulted top?

Forth from the Northland thou hast gone To seek the world's enticing gain-- To find the letters round thy soul Or reach the goal of freedom's plane.

Whether in academic walks, Or midst the factory's throb and stress, Where'er thy life and duty lie, So thine to thrive and rightness.

--W. Inglis Morse, in The Canadian Magazine.

JAMES BAY EXPLORED

Mr. J. A. Osborne, of the Fort Francis Times, was a visitor in the city yesterday, says the Port Arthur Chronicle, on his way home from an extended exploring tour on the east coast of James Bay.

Mr. Osborne and a party of Montreal men, partners in the exploration enterprise, left Mississauga in June of this year and made their way by canoe to James Bay, where at Moose Factory they spent some little time. They then proceeded to the east coast where they pursued their search for mineral.

Mr. Osborne expressed the utmost satisfaction with the trip. They located a number of valuable mineral claims, for the possession of which they are now applying to the government.

Inexhaustible are the iron resources of great mountains of hematite and magnetite, being seen by the explorers. The streams, some of them mighty rivers, are capable of developing an almost uncalculable amount of power. One is tempted to think that the shores of James and Hudson Bay will become the great industrial centre of Canada.

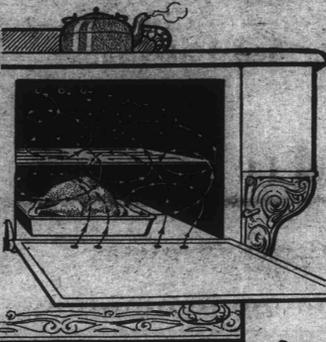

On the return trip Moose Factory was left on the 17th of September at which time frost had not made its appearance. The climate is sufficiently good to permit the raising of vegetables, the numerous Hudson's Bay and Revelton Bros. posts have excellent gardens in which is found all the common vegetables. The river valleys are luxuriant in grass and forest growth. Strawberries, growing wild, ripen in September; blueberries, cranberries and red currants are to be found in abundance.

Kootenay Steel Range

Fresh air is introduced into the Kootenay oven through a series of vents at the bottom of the oven door, and the cooking fumes carried out through another series of vents at the back of the oven.

(Arrows in illustration show method of ventilation.) The air in the oven is always kept pure. The natural flavor of every article is completely retained. Everything tastes most delicious.

McCLARY'S

LONDON, TORONTO, MONTREAL, WINNIPEG, VANCOUVER, ST. JOHN, HAMILTON
Peart Bros. Hardware Co., Ltd., Local Agents

settled country, where occurs at times great scarcity of game. Last winter a frightful tragedy overtook a little village of Crees who were located on the Great Main river. The snow was extraordinary deep during the entire winter and the temperature was excessively cold, and even for that they were thither, and finally succeeded after a terrible journey in which they suffered hardships worse than death itself.

"The tragedies of that land, the recounting of which would make a volume of the most interesting and most pathetic and awesome that was ever written," said Mr. Osborne.

The exploration party was not without its adventures, for twice they were in danger of shipwreck, once on James Bay and again near Fort George on Hudson's Bay, where they were caught in a small sail boat thirty miles from land by a storm, that tore away sails and drove them onward toward land, through raging breakers that threatened to engulf them. From these two adventures they escaped free of injury, and though he travelled many hundred miles by canoe, sailing vessel and on foot, through rapids on seas and over unknown lands, it was not until he returned to the haunts of white men that Mr. Osborne met with mishap that left its scar upon him.

This occurred at Mississauga. He had been busy from their arrival in disposing of the outfit, paying off the Indian guides and packers and in other preparations incidental to the breaking up of the party, and it was late when he left his boarding house and started in a hurry, for the station. A stranger to the place he did not notice a bend in the narrow sidewalk and therefore stepped off into space. He fell against a barbed wire fence, with such force as to cause one of the bars to penetrate the bridge of his nose and the post up against which his face struck to crush the nose almost flat, to blacken an eye and generally disfigure his face and inflict most painful injuries. Dazed and suffering he made his way to the station where such relief as possible was rendered. Arriving here yesterday morning, he had a local physician perform an operation, restoring the nose to shape.

corresponding month of this year the number has risen to 1763, or an increase of 251 per cent. The "Intellectual preference" is evidently proving an even greater success than was anticipated.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people--without a penny's cost--the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by the Regina Pharmacy Stores.

FELL SEVENTY FEET.

Indian Head, Oct. 10.--One of the workmen employed on the high tower of the new fire hall fell from the top of the structure this evening just as the men were quitting work for the day. The fall was seventy feet, but the man struck a scaffold on the way down, thus breaking the force of his fall. He was picked up and carried into Dr. Connell's office and his injuries attended to. He was found to be badly shaken up and cut about the head. No bones were broken and there were no internal injuries. He will be unable to work for several days as a result of his tumble.

CONVICTS ESCAPE

Montreal, Oct. 9.--Three convicts in Three Rivers jail are now at large owing to the cleverness of two ticket of leave men. Friends got permission to take some fruit to the prisoners. They took a dozen bananas and went away. In the morning the rooms were empty. In each ban was hidden a small saw, which had escaped the notice of the guards. It is thought that the fugitives are in Montreal.

A LIVELY CORPSE

A Wheeling (W. Va.) despatch says relatives of Mrs. Frederick Hartzell, the young wife of a farmer living near Huntington, were bemoaning her death, when she suddenly sat up and climbed out of the coffin.

There was a rush of mourners for the open air, windows being used as exits. The minister swooned when the woman over whom he had come to conduct services met him at the door.

The family was too poor to have a physician and the woman fell into a swoon, in which state she remained four days. Her husband believed her to be dead and sent for the undertaker. He prepared for the interment without discovering that life lingered in the body.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will strip the distressed limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can now surely kill the pains and swellings of this terrible scourge when added to pure water. In Germany--with a Chemist in the City of Darmstadt--I found the last ingredients with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now at last, I found a cure all curable cases of this horrid disease. I found in Rheumatic Blood, seen to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water.

The Oldest Exclusive Hardware Firm in Regina

Local and General

Rev. Mr. Stevens of Yellow Grass is in the city today.

Gus. Pringle of the Winnipeg Voice was in the city on Saturday.

Show fell in Winnipeg last Friday morning.

Reggie Morrison spent a couple of days in town this week.

The annual harvest thanksgiving service will be held in St. Paul's church next Sunday.

Rev. C. W. Brown has sent in his resignation as pastor of the Metropolitan Methodist church.

Dr. Wiltmore went north to Saskatoon on Monday morning to meet the Borden party.

The C.P.R. hotel at Moose Jaw has closed its bar acting under orders from Sir Thomas Shaughnessy who visited the place last week.

The Bell Telephone Co.'s central has been moved from Hamilton street to the new building on Lorne street.

Dr. Martin left on Monday morning for a visit to the railway construction camps on the Regina-Bulyea branch. About eighty men are at work there.

The funeral of Marguerite, the three year old daughter of Mr. and Mrs. Dan McLean, was held last Wednesday afternoon to the Regina cemetery.

Fire broke out at the Victoria hospital last Saturday morning about six o'clock. The brigade had it under control in about an hour. The laundry room was the scene of the blaze. The damage will be covered by \$100.

A lodge of Chinese Free Masons held a session in the old Masonic lodge rooms on Scarth street on Saturday night at which about fifty Celestials were present. Six candidates were received into the mysteries of the order.

The funeral of the late Mrs. George Grassick which was held Wednesday afternoon from the residence of Mr. W. H. Duncan was largely attended. A number of the old timers paid their tribute to the departed.

The first passenger train running north of Strassburg left here yesterday morning for Nokomis. The service will be a mixed train for the winter months leaving Strassburg at 8 a.m. and returning at 1.30 fast time.—Strassburg Mountaineer.

M. S. McCarthy, M.P. was in the city on Saturday evening having left the Borden party at Rosthern to return to his home at Calgary. He attended a number of meetings with Mr. Borden, and states that there were large and enthusiastic audiences at every place where meetings were held.

Mr. Hugh McKellar is in receipt of a letter from Mr. J. A. Killough, Riverside Farm, Pense, the contents of which are of interest to everyone living in Saskatchewan. Mr. Killough is evidently quite an extensive fruit grower and recently sent some exhibits to British Columbia in competition for a cup and diploma for the best fruit grown in the three provinces of Manitoba, Saskatchewan and Alberta. Mr. Killough's fruit proved to be of good enough quality to receive the highest award and accordingly the cup and diploma came to Saskatchewan, being now in the hands of the government. The success which Mr. Killough is achieving in the growth of fruit proves conclusively that it can be raised here as well as cereals and all that is needed is the effort to produce it on the prairies. The long distance which fruit has to be shipped to us now, makes it most expensive, and if, as Mr. Killough claims, fruit can be grown here, an effort should be made to do so, not only for ourselves, but for future generations.—Moose Jaw Times.

Cosy Blankets PURE WOOL

WE take pride in our offerings of wool and flannel blankets; we went to much trouble months ago to secure you the best values procurable on the Canadian market. When you see the weights, the qualities, and the pure fine wools looking you straight in the eye, you will say we have served you well. Included in the offerings below will be found the famous Murphy Blankets, known from ocean to ocean as Canada's purest Wool Blankets.

FLANNEL BLANKETS

Flannellette Blankets in white or grey ten quarter size, best on the market, per pair	\$1.00
Flannel Blankets, in white or grey, eleven quarter, Fall size, per pair	\$1.25

The Rich "Browns" vie with the "Greys" in Men's New Suit Models

We never had such offerings in popular priced clothing. Fall weights in Men's natty Canadian Tweeds, made up in smart single-breasted styles, perfect fitting, on sale \$8.50

Men's dark grey Tweeds with shadow overstripes, single breasted styles, new fall and winter cut sacks, single breasted, special \$10

West of England Worsted in the wanted indefinite stripes, tasty grey grounds. Note in passing the high-class tailoring and the unquestioned shape retaining and fitting qualities; unequalled at \$12

Popular dark brown Worsted with shadow stripes; single and double breasted sacks \$15

MEN'S CARDIGAN JACKETS

Men's Cardigan Jackets of heavy ribbed wool, extra good value \$1.50 to 1.75

Household Linens At Prices that Have Not Risen

Indeed, there are opportunities here for decidedly practical economies in spite of a very high cotton market. A decided shortage in the cotton crop and practically a trust being formed among cotton planters has "boosted" prices most alarmingly.

We were fortunate in securing such values as we are now offering the buying public.

Almost every housewife has her eye on Thanksgiving Day and would like so much to have something new in table linens to place before her guests.

Choice new Table Linens, per yard 50c to 2.00.

A host of elegant new designs in Table Linens for instance; here is a new design of an outline fleur-de-lis dotted among a thorn covered ground. Another of oak leaves, open centre, also a rich design of poppies and alternate stripes of small dots. We could continue to the bottom of these columns describing these new designs yet then you would not have seen them. The next time you are in the store ask to see the new Table Linens.
