(BY SIR WALTER SCOTT, BART.) 'Ha!' said Front de Bouf, 'thou changest thy tone. Sir Priest, and speakest brief and bold, as if thy heart were in the slaughter of the Saxon herd; and yet thou art thyself of kindred to the swine?"

Cedric was no ready practiser of the art of dissimulation, and would not at this moment have been much the better of a hint from Wamba's more fertile brain. But necessity, Waverley House, according to the ancient proverb, sharpens invention, and he muttered something under his cowl concerning the men in question being excommunicated outlaws both to church and to kingdom.

It gives no small degree of satisfaction to learn from every quarter that larger quantities of wheat have been sown this year than for many years before. In olden times the farmers of New Brunswick sowed wheat that equalled any grown across the border. that equalled any grown across the border, but suddenly the weevil fell upon it, and the farmers in despair gave up the industry. But the weevil was not the rule, but the exception the weevil was not the rule, but the exception to the rule. Because the rust strikes the potato crop, that does not give sufficient cause for ceasing to plant potatoes. The writer remembers when the "blight" first took the potato crops in Newfoundland: how farmers trembled and had not heart to plant. But the cycle passed there; it passed here, as cholera diphtheria pass away from man. Weevil may come again, but nature through a Providence will not have her ends defeated by accidents.

A Suggestion.

We have taken the trouble to enquire of a number of farmers what modes they think best to adopt against the Potato Beetle. A very intelligent one of these farmers said:

"The best plan I know of is to plant innew land. In old land, the ground is full of the beggars' eggs, and as soon as the heat comes they turn into beetles. This is why in old land, it is impossible to raise 'crops at all. The under part of the vine is all dovered with eggs, and as soon as the bedgement of the type on the top, and eats down to the stalk. In new land there are no eggs in the ground, and a patch may escape the whole year thinks the fountain pump or sprinkler indespensable.

IS A FACT ATTESTED BY THE HICHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observance of the laws of health, and the systematic and persistent use of scott's Emulsion of Cod Liver Oil with Hypophosphites of Lim and soda will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that Scott's Emulsion is being used with better results and endorsed and prescribed by more physicians for Consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrofula, Anaemia, General Debility and the Wasting Disorders of Children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous. IT WILL BE FOR SALE

See What Phyicians and the People Say About It. 66 West Thirty-sixth Street, New York, September 2, 1876. Gents,—I have frequently prescribed Scott's Emulsion of Cod Liver Oil with Hypophosphites during the past year, and regard it as a valuable preparation in scrofulous and community cases, palatable an efficacious.

C. C. LOCKWOOD, M. D.

Messes. Scott & Bowne: —Gentlemen,—Within the last year I have used in my own family, and in my private practice prescribed very extensively Scott's Emulsion of Cod Liver Oil with Hypothosphitts and ound it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate tomach; which renders it a very reliable agent as a nutritive remedy in consumptive and scrofulous cases.

A. H. SAXTON, M. D., Paltimore. STEAMBOATS, on the TR 4INS, on the streets Messrs. Scott & Bowne :- Gentlemen, - Within the last two months I have fairly tried Scott's Excussion Cod Liver Oil with Hypothosphites, and I candidly declare that it is the finest preparation of the kinhat has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can consider to ur most reliable agent, in a perfectly agreeable and elegant form.

December 10th, 1878.

Yours truly. J. SIMONAUD, M. D., New Cricals. La.

Messes, Scott & Bowne:—Gentlemen,—In September, 1879, my health oegan to fail and my physician pronounced it spinal trouble; under his care I got sone rehef from pain, but my general health ofd not improve, and early in the winter I began to raise blood and rap dly grew worse. In May last I was taken with a violeat bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms apperendingly in the winter I began to raise and short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I afterwards bought a dozen bottles, with the following results: Coughs subsiding, night sweats stopped, appetite returned, pains in spine disappeared, strength returning, and my weight mereased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine some friend on the street who asks, "What cured you?" and I answer, "Sort" Emulsion of Coo Livere Oir etc." I have a friend who has not spoken aloud for 15 months, and he is getting better. I gave him a bottle and he bought two more, then got a dozen, and says it is food and medicine for him. He was given up to die a year ago; but he is improving now wonderfully. My recovery is exciting the surprise of many people, and shall do all I can to make known your valuable medicine.

January 20th, 1879.

Very truly yours

Lynn, Randolph Co. Ind. July 2, 1878.

The staff of correspondents is large, and represents all the important parts of the Province.

Messes Scott & Bowne — Lynn, Randolph Co., Ind., July 2, 1878.

About the 25th of last April I got a bottle of your EMULSION and at that time I was so prostrated that no or who saw me thought I could live longer than a few week at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the EMULSION in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commence mending, and now am able to ride and walk, and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.

I am gratefully yours,
