Goderich, Sept. 12th, 1853. n33if There's Beauty in a Merry Laugh-There's well to have a merry heart, However s hort we stay; There's wisdom in a merry heart, What'er the world may say. Philosophy may lift its head, And find out many a flaw; But give me the philosophy That's happy with a straw!

There's beauty in a merry laugh, A moral beauty too. Is shows the hearts an honest heart, That's paid each man his due; And lent a share of what's to spare, Despite of wisdom's fears; And made the check less sorrow speak, The eye weep fewer tears.

The sun may shrond itself in cloud. The tempest-wrath begin; It find's a spark to cheer the dark— It's sunlight is within ! Then laugh away, let others say Whate'er they will of mirth; Who laughs the most may truly boast, He's got the wealth of earth.

ingen attractive or yield a saving in the cost of the Goods. Fresh importations of Gracerics and Hard-ware are also being received in Store at Hamiltow ab well as sent direct by their Mon-treal and few York Firms, to those customers who use a her ports on the Lakes. It must be self evident that this Fall's impor-tations, as based upon the prospects of the Trade when our great article of return, Wheat was 25 per cent, lower than it now is, will not prove sufficient for the demand which has been created by the increased circulation of the Provinces so that there never, seemed a time when full Stores were more cent to to safe, especial'y se ag that prices of most descrip-tions of Costs continue to advance in the European Markets.
