WEDNESDAY, FEBRUARY 13, 1901.

am sick of the preacher's only strain—
"Save your soul! Save your soul! Save
your soul!"

Poetry.

t seems to me like a selfish cry— This telling a man that the only thing of any importance here below

Is saving himself from a future sting. Far nobler, far better, it seems to me,

To tell a man to save some other, To send him up and down thro' the world Seeking and saving his fellow brother. To put him off from the beaten track, Out into the hedges of sin and shame, To teach and tell to the captives there The bounty and glory of virtue's name

To rescue the starving one from death,
To rescue the sinning one from orime,
To preach the gospel of present help
To the weary ones on the shores of time. To seek out those whom the world forgets,

To plant a flower on a nameless grave, To hide the erring one in heart And strengthen it with a purpose brave. If a man does this, I dare affirm

That he can afford to forego all care

About going to heaven, and give his whole

"For I am Great and Ye are Small." A sparrow swinging on a branch
Once caught a passing fly.
'Oh, let me live,' the insect prayed,
With trembling, piteous cry.
'No,' said the sparrow, ''you must fall,
For I am great and you are small.'

The bird had scarce begun his feast s bird hau some by, Before a hawk came by, "Pray let me live!" The game was caught. "Pray let me li Was now the sparrow's cry. "No," said the captor, "you must fall, For I am great and you are small." An eagle saw the rogue, and swooped Upon him from on high.
Pray, let me live! Why would you kill
So small a bird as I?"

'Oh," said the eagle, "you must fall, For I am great and you are small." But while he ate the hunter came; 'Ah!" said the hunter, "you must fall, For I am great and you are small."

Head of Queen St., Bridgetows

Scribner's Magazine for February, 1901. Scribner's Magazine for February begins a life-a form of article in which it has been

A vivid insight into the life of the King, during recent years at least, may be gathered from a perusal of the following interview, which, by the way, is believed to have been the only interview with the King that has ever been published, and is due to the enterprise of a London magazine.

A correspondent who had been privileged to meet the Prince of Wales on more than one occasion had an interview with England's future King at Marlborough House, His Royal Highness's London residence. The Prince talked with great frankness concerning himself and his views on various subjects. Prince talked with great frankness concerning himself and his views on various subjects.

If any one ever deserved the appellation of the very blased allowance in his writing for the very blased of "a busy mau," the Prince does, and there

greeting was kindness in the extreme. It was merely like an elderly business man smiling a kindly welcome to some young and daring intruder.

"Well, what do you want me to say?"
was Hir Royal Highness's course of the say account of housekeeping in Athens with

The correspondent launched forth his questions, beginning with enquiries about the numerous public dinners which the Prince attended, and alluding to the published statement that the Prince held the record for obtaining the largest sum of money ever collected at one banquet.

"I have read many times in reports of

A Woman's Pocket Money.

When a man at the altar utters the words. "With regard to horse racing and betting, "With all my worldly goods I thee endow," Your Royal Highness?" "I think racing is the finest sport in the husbands live up to their pledge. The ma-"There are many people who think that posed of at an exchange, and so earned a

WEDNESDAY, FEB. 13TH, 1901.

-The visions of a railway from Victoria Beach to Middleton are brighter now than at any time since the project was first dreamed of. In spite of all allusions to antielection dodges, those who have watched the preliminary work must acknowledge that a fair rate of progress has marked the pro-motion of the scheme, and we believe it will be but a few months before it will have as restern end of the route, and it is confidently menced in the early spring. Mr. O'Brien, the contractor, who has undertaken to finano the project, evidently does not consider the of the county which it traverses; nor by the facilities it will afford for export of fruit and general produce to foreign markets. A broader conception of its money earning 10th, 1901. range has been traced, and practical railway men are rarely idle dreamers. Its connections will make it an important route for the ever increasing tourist travel that has proved such a honers to Now Scrib and Referen, Underwear and Top Shirts. A. D. Brown. ever increasing tourist travel that has proved such a bonanza to Nova Scotia railways and steamship companies during the past few years. The owners of the Washington County (Ma) railway have for a long time. The owners of the Washington County (Me.) railway have for a long time been seeking a connection with Nova Scotia from Eastport, and there isn't much room for doubt that such a connection will materialize when the Granville and Victoria Beach railway is opened for traffic. Then a short four hours' sea voyage will connect Nova Scotia directly with a railway system that will give the quickest possible service between the great American centres, from which the annual stream of tourists is drawn. This transportation proposition is not at all far-fetched; its consummation would be but the natural outcome of an effort on the part of the American corporation for the extension of its passenger traffic in a promising direction, and a desire on the part of the Nova into the consument of the Capital from \$40,000 to \$100,000.

The Supreme Court of Canada meets at Ottawa next Tuesday to try maritime province appeals, among which are miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province appeals, among which are Miller vs. Ottawa next Tuesday to try maritime province app County (Me.) railway have for a long time | mond of the American ocroporation for the extension of its passenger traffic in a promising direction, and a desire on the part of the Nova Scotia company to co-operate with so valuable a feeder. There is room and reason for sable a feeder. There is room and reason for several important connections at the western terminus of the line, and in the east the completion of a railway along the South Shore to Halifax will mean much to its traffic.

Last Saturday the railroad on this diverse of the same and the same an Shore to Halifax to Yarmouth, along the South Shore, to be tapped by the Central Railway, will surely be completed within a The freight train from Annapolis due at 7.20 county line will have added to its stature.

ready gathered to their corporate selves the control of electric lighting systems in their efforts to cheapen street illumination, and to furnish the stores and residences with safe and convenient lighting facilities at a minimum cost. Experiments thus far indicate that under town control the lighting service, on an all night basis, may be conducted to the advantage of both the public treasury and the private pocket book, to say nothing of the satisfaction to be derived from living in a well lighted town. Liverpool supplies its citizens with electric lights in their houses and stores at a trifle over \$2.00 a year per light, all night service. Paresboro lights its streets with twenty five are lights of swelve hundred candle power, all night service, for \$225.00. Stores pay all night service, for \$225.00. Stores pay thirty-six cents per month for sixteen candle power lights, and dwellings twenty-five cents per light, all night service. These figures are considerably less than those which reare considerably less than those which re- game before. present the cost of lighting in Bridgetown, for half a night service, and we refer the matter to the civic government for consideration. Bridgetown greatly needs an extension of its system of street lights, and an all night service is one of the elements needed to make any public lighting system popular. It may be that the town may find a solution of the difficulty it has encountered, in disposing of this lighting question, in the purchase and operation of its own plant. It should not be difficult to convince the rare payers, by such results as above, that there is money to be carned and applied to the decrease of general taxation by saving the difference between what cur town lighting does cost and what it should cost. We expected that before this the Nova Scotia Electric Co. would have used its charter privileges to an extent sufficient to warrant the belief that present the cost of lighting in Bridgetown, ference between what our town lighting does cost and what it should cost. We expected that before this the Nova Scotia Electric Co. would have used its charter privileges to an extent sufficient to warrant the belief that cheap town lighting might be expected from the control of the late of th plans had miscarried. If such indeed be the

plans had miscarried. If such indeed be the case, the town may well consider the advantages of turning the profits of conducting a smaller system into a reduction of the public lighting bill.

—As very many of our subscribers are farmers, we have decided to open a column on page four, devoted to the interests of the farm. It is an experiment, and one which we hope will be helpful and successful. The matter in many cases will be taken from the excession as a perfect disposition, and a speed that the resignation that the resignation that the resignation be accepted, to take effect on the 1st November, was negatived.

—Mr. H. C. Lydiard, of Kentville, was here last Saturday with his stallion, Border, a full brother to Warren Guy, 2.12½. Border, and the funeral service of his wife, the last Martill be better known before the end of the proposition of the public plants of canable men and from the expeasable men and from the expensive of canable men and from the past of canable men and from the expensive of canable men and from the past of canable men and from the question of the past of canable men and from the question of the question of the past of canable men and from the question of the qu matter in many cases will be taken from the researches of capable men and from the experience of practical and successful farmers. There will no doubt be room for criticism, which we heartly invite, as well as suggestions and experiences of neighboring agriculturists.

Local and Special News.

—Special revival meetings will be held in the Baptist Church every evening this week.

best of the game; but towards the sub of the first half, St. Andrew's commenced to pick up, Moore shooting a goal, which was followed shortly after by another from Montgomery. The first half closed with a score of 3 to 2 in favor of Bridgetown; in the second half the score was 5 to 0 in favor of St. Andrew's, the goals being shot by Leslie, Roop, Moore and Montgomery. Mills and Burrows, of the Bridgetown team did some fine work; the combination plays of these two, winning the three goals of Bridgetown. The game closed 7 to 3 in favor of St. Andrew's.

The following have been elected Councillors for the next term; H. D. Ruggles, H. A. West, and J. H. Edwards.

Miss Maysie Harris, who has been studying for trained nurse in the Boston City Hospital, and who has been spending a few weeks at home, left Wednesday for Boston, where she intends taking another year's course. /—Mr. F. L. Milner, has been appointed fown solicitor and Mr. F. R. Fay deputy

house by an attack of lagrippe, but is now around again.

Mr. T. R. Robertson, barrister of Kentville, has been in town for a few days.

At 8 o'clock on Saturday evening, the hockey match between Trinity Church, of St. John, and the St. Andrew's school team, was called. Trinity Church started off well by shooting the first goal, but was followed a few minutes later by two for St. Andrew's, the first half ending with a score of 2 to 1 in favor of St. Andrew's. The first goal in the second half was shot by St. Andrew's, which was followed after a few minutes play by two for Trinity. After this the play was quite swift and it looked as though the game was going to be a draw, but after some hard playing, St. Andrew's got the last goal, the game closing 4 to 3 in their favor. The Trinity team claims to have been greatly handicapped by the poor light, and also by the ice not having boarded sides.

Miss Christic Ritchie arrived home Saturday, after a pleasant visit in Kentville. -Mr. J. F. Milberry, Digby, shot a large seal last Thursday morning about three hun dred yards from the government pier. -The Town Council met last Friday evening and appointed the various committees.

The members also took the oath of allegiance.

USE AND CARE OF FARM IMPLEMENTS.

There is nothing at the present time that plays so important a part in the business of farming as the close connection between mechanical arts and agriculture in general. Yet the knowledge of machinery and its construction and repairing, is as a general thing, sadly neglected. Thirty years' advance in the manufacture of implements has brought about wonderful results, and inventors have been exceedingly busy along the different lines of farm machinery. No sooner has a new machine been produced than some bright fellow invents an improvement or attachment to it, that the farmer hardly knows what to buy, or when to buy it. The system carried on by most farmers is a mixed one, and constantly a great variety of tools are required for all the different branches. With these facts in view, the selection, care of and repairing of the imple-

selection, care of and repairing of the implements on the farm require a general knowledge of mechanics that must be taught the farm help before the best results in farming

can be attained.

In purchasing a farm outfit only the best should be obtained. Remember that every piece bought, must be stored and kept in repair, so that the number of implements must be kept small as possible. Select those which seem to be of the best material, and avoid those which have a lot of levers, attachments and springs. These add to the parts to get

and springs. These add to the parts to get out of repair, and are often of little practical benefit. Buy of reliable dealers, and, what

benefit. Buy of reliable dealers, and, what is more important, buy for cash. Now some farmers think it is just as well to buy for credit when they have not the money. In nine cases out of ten the money could have been at hand if a little forethought had been practiced. Any one who can buy a machine on credit, can borrow money to pay for it. Then is it not better to pay 5 per cent for the use of the money, than 20 per cent to

manner, and he will take a pride in the work, and so after a little become an expert with it. There is a right way and a wrong way to hitch a team to an implement, one means ease of draft and perfect work, the other hard work for man and team and a poor job at the best. Here mechanical skill and judgment is needed. In the use of complicated machines, such as fertilizer distributors, planters and harvesters, study the directions carefully and do not trust to memory in changing them. By all means keep

machines, as soon as the knives become dul

comes in the need of a workshop on the farm

The Revolt of Moses.

BY HOPE DARING. Not the Moses of sacred history-jus plain Moses Smith, farmer, aged 60; tall, with drooping shoulders; face furrowed with wrinkles, that is, the part visible above his grizzled beard; eyes gray and sleepy, yet with a kindly light in their faded depths. Sarah Ann, his wife, was also tall but straight, carrying her head stiffly erect. Her blue eyes were wide open; her brown hair, in which were only a few silver threads,

was always smooth, and her thin red lips had a fashion of closing that Moses well un For thirty years they had dwelt together In all these years Mrs. Smith had commanded Moses and Moses had obeyed. There had been but few occasions on which he had advanced opinions of his own. But this fair morning, when the sun was, in countless de drops, multiplying his own brightness, and the south wind wooed the rosebuds into per-

Two weeks before he had heard his wife

for once, at least, his own way.

Now Moses knew his weakness: was aware that his wife knew it, for did not she tell him of it every day? But to discuss it with another! That was different. He had pondered the matter for fifteen days, and his sert himself, but he ate his breakfast of toast, fried potatoes, ham, coffee and molasses cookies in his usual silent way. As they rose from the table Mrs. Smith said,-"I want you to churn right away, Moses,

"All right, I'll be back from the bar soon," and he slouched off at his usually

leisurely gait. Mrs. Smith entered the pantry, raised trap door that led to the cellar, and descending, saw that the jar of cream was ready for ie churn. Then she went about her usual morning work. In a short time she heard her husband's voice at the kitchen door.

"Is that air cream ready?"
"Of course it is. But you ain't got the "Yes, I have, too. I just drawed three "Now, Moses Smith, I hain't heard you

carry it into the woodhouse.' "I guess you didn't. I'm going to churn out under the apple tree.'

There was an ominous silen Mrs. Smith persisted in using an old fashioned churn. In warm weather this churn was placed in a tub of of cold water, drawn with a windlass from the stone lined well by the kitchen door. A few steps from the well stood a gnarled eld apple tree, whose spreading branches made a canopy of breezy shade. Moses had many times hinted a desire to do the churning here instead of in the woodhouse, but his wife always forbade.

"You bring that tub of water into woodhouse. The churn is out there, all ready, and you see to it you don't spatter the creat

She went up stairs, opened the window of her sleeping room and put the bed to air. She also tidied her carefully kept sitting room. When she went again to the kitchen be in any hurry for it, and to never mind she stood for an instant transfixed with as

Under the apple tree stood her husband, his straw hat laid aside, while both hands grasped the churn dasher, slowly propelling it up and down.

"Moses Smith!" Sarah Ann pushed oper the screen and advanced to his side. "Wha do you mean by bringing that cream ou here? Didn't you hear what I said?" "Yes. As to what I mean by bringing

that's all." "Well, you won't do it here. You carry that churn straight into the woodhouse. don't see what makes you act so like a fool, "I hain't actin' like a fool, Sary Ann. I

can churn just as well out here. It's a real pleasure to listen to the mother robin over vonder and to see the sunshine peerin through the leaves." "Hump! Poetry and work don't go well Why don't you do as I tell you?"

Mr. Smith dropped both hands from the churn dasher, drew himself up as straight as was possible after stooping so many years, and said distinctly,-

"Cause I don't want to." "I don't care what you want," Mrs. Smith returned angrily. "I tell you not to churn another stroke here. I guess I---" "Sary Ann," Moses leaned one arm refle

tively against the tree; "I don't care a mite whether I churn or not, but if I do it will be right here and nowhere else." "I'd like to know wha you mean," sh

"Never mind. The question pears to be shall I churn or not? I tell you plain, if I What did it mean? And he had twice in-

quished, but she was no confused that a truce seemed the best thing she could think of. away and slamming the door behind her.

Moses took her at her word. An hou later she found that, after finishing the churning, he had carried the churn and con tents to the place where she usually worked the butter. She was still undecided what to think of her husband's daring. However things seemed otherwise much as ever, for it was not until they were seated at the din ner table that Moses again asserted himself. "Why don't you take it then?" pushing the plate toward him. The plate held two

"That's too dry. You know my teeth air poor. You can feed that to the chickens,

and I'll take some of the new you baked to Moses thereupon rose and walked to the pantry. Here on a table lay half a dozen loaves, fresh from the oven. He took up a brown crusted one and a knife.

declaration of independence, scolded heartily about everything else. Moses bore it in

silanne rector organ h barn as soon as I was Saurday Or he afternoon o that day the Smi ha usually drove to Ovid three miles distant, with farm produce. This

"I'm going to he missionary meeting a Sister Swin's," she announced, as Moses lifted the jar of butter into the back of the buggy. "Here is a basket of cottage cheese. You can drive round on Maple street and

sell it out. Be sure you go to the back door and they'll give you five cents for two balls. There's just sixty balls—a dollar and a half's worth. I want the money to make out ten dollars I'm going to lend Widow Green. She'll pay me fifty ceats for the use of i three months. Now don't step on my dress," as he clumsily took his place at her side.

"Fifty cents for three months." Mose slapped the fat horse with the lines. "That'll be two dollars for a year. Two dollars for that's twenty per cent." "What if it is?" There was a brief pause, then Moses began

"But Sary Ann, Widder Green is awful poor. Why don't you lend her the money for nothin'? It's to finish payin' for her new plement has been broken, which is not imsewin' machine, and there's only you and

"If you can't talk sense, do keep still. be sufficiently familiar with the use of tools Lend it for nothin' indeed! Be sure you understand about the cheese." "See here, Sary Ann, I shan't peddle out fect bloom, Moses Smith determined to have your cheese for any such purpose. You can do it, or I'll take it to the store. But I don't do such work while you are to the missionary meetin', to get the money for you to grind in farm machinery; keep a little paint to re

ahead, 'sides the farm."

down the poor with, that's all." Moses deposited his wife at Mrs. Swin's gate and drove off, making no reply to the command she hurriedly whispered as she saw her hostess at the door. Surely he would not fail her this time. He would do the mind was fully made up on this day to assure that it would be all right, notwithstanding his queer freaks of yesterday. So she dismissed the subject from her mind, and three hours later found him waiting for her in the appointed place. She clambered to her seat and they started home in silence. "Have a good meetin'?" he ventured as

They were within half a mile of home when Moses dropped a handful of change in "Money for your cheese," he said quietly.

She counted it twice.

"There's only seventy-five cents. Where's the rest?" "That's all there is," he declared doggedly. "I told you I shouldn't peddle it out. Goldon took forty-five balls, three for five cents, the store. I give old Mrs. Blake five the harness and let it soak for awhile, then balls, and that Moreley girl, who is trying use your stiff brush to clean. Let it partly

rest. They both belong to our church, you with neat's foot oil and rub well in. Before No reply. When they reached the house, as Mrs. Smith stepped upon the ground she looked into her husband's face. "Once for all, I ask you what do you mean,

so hard to support her little brothers, the

Moses Smith?" "Well, now, Sary Ann, I don't mind tellin' you I never promised to obey you, but I've done it fur thirty years. I'm through now, that's all."

Without a word she walked into the house. When Moses entered an hour later he found his favorite cream hiscuits and fresh gingerbread for supper. Mrs. Smith talked, told her husband about the missionary meeting, and ended by asking him if he would step over to Mrs. Green's for her. "Tell her I will have that ten dollars for

any interest."

All Sorts. Close-fisted—the pugilist. Regular sticks-postage stamps. Street signs are way-word things.

Yes, big hats are bound to go - to the

wood always comes in cords.

The architect makes lots of plans, but he seldom carries them out himself. Talk may be cheap, but we have all heard of extravagant language. Since their sleeves have become smaller,

Then is it not better to pay 5 per cent for the use of the money, than 20 per cent to the agent for waiting, as is often the case.

It is an advance that steel is taking the place of wood in farm machinery as it is generally neater, lighter and more durable. The use of any tool on the farm requires skill and practice, and the farmer can sford to spend some time in explaining to the laborer how best to use each tool. It is to be regretted that many hired men cannot be taught to use tools well. When a new implement is to be put together, let the men that are to use it aid in setting it up, as they will get better knowledge of its different parts. Encourage each man to use the implement in his charge in the most perfect manner, and he will take a pride in the work, and so after a little become an expert he women do not have so much elbow room. The gang plank leads you up or down, acording to its own inclination. The dressmaker usually has something to

sew on, and so on she sews. A pig is his own hammer, which accounts for many of its pounds. Like molasses, some people who seem to

have sweet dispositions run as soon as it gets too warm for them.

"What a cross thing you are !" murmured the river to the ferry boat. "That may be," was the reply, "But I serve both sides alike.

Salt Makes the Heart Beat. The Chicago Record says: -Experiments

University of Chicago that common salt in the blood makes the heart beat. What is the blood makes the heart beat. What is more, they say that not only does salt keep the heart in action, but that it possibly may the heart in action, but that it possibly may the heart in action, but that it possibly may cause the heart to beat again after it shall

machines, as soon as the knives become dull, every other part is put to a more severe test, the wearing parts grind harder and the propelling power must be increased. The knives should only be started when in good condition and much care should be used in keeping them so. There are many large machines that it is not practical for a farmer to own alone, but that can be owned in company with neighbors and taken from place to place as needed. These machines should have the same man to run them as far as possible and thus guard against accidents. Unless an implement is well cared for, the best results from its use cannot be had. Here comes in the need of a workshop on the farm. have been stopped.

In the experimental work, instead of taking the heart as a whole, a small strip from one of the ventricles was used. Suspended in a solution of sodium chloride, the strip of turtle's heart began a series of beats. Separated from all nerve connections the lifeless strip of heart muscle responded perfect-

ly to the presence of the salty solution. For weeks the experimenters worked to rown crusted one and a knife.

"Moses Smith! Air you crazy? Don't you
to cause the rhythmic beating of the heart "Moses Smith! Air you crazy? Don't you hear me? I say you needn't cut that lost of bread. This bread's good enough."

It was too late. Already the sharp knife had severed two slices from the lost.

"What do you mean?" the woman shricked. "What do you mean," the woman shricked. "What do you mean, Moses Smith?"

"Now see here, Sary Ann, I'll tell you what I mean. I mean to have some new bread, that's all," and back to the table he strode, bread in hand.

Mrs. Smith did not return to the table. Her husband saw little of her the remainder of the day. She retired early, and when Moses came up to bed she was asleep, apparently.

There may be a simple set of carpenter's tools, a painting outfit and even a forge and anvil often may be added with profit. Very few men realize the importance of paint and varnish on a carriage or implement if it is administered in good season. To hire it done is expensive; to do it oneself requires some skill, but after a little practice it is not difficult. There is no better place to educate the boys or the farm help than in the farm workshop during the winter months or on dull days, and in such a shop as described there is very little but that can be done in the way of repairs, and much can be done in making new also. Every Hood's Sarsaparilla and thus coughs, colds, and poeumonis are prevented. Take it now allow to be comes one and rattling, then the sound becomes a noise, and a noise is usually unpleasant.

The Bousehald

Treat the child more as an equal, whose obedience you demand on reasonable grounds, because you are older and know more than he does. Compel his obedience by showing him the bad results of his disobedience. But at the same time let his personality have at the same time let his personality have play, so that he may learn to do for himself play, so that he may learn to do for nimeral as much as possible. Let him feel free, so long as he does right. As to punishment, it is not on record that anyone was ever improved by barbarity. Depriving a child of his walk or making him study by way of his walk or making him a distaste for what he wanishment gives him a distaste for what he should like, or deprives him of the air he needs. It is no cure for nervous children to be so frightened that they tremble more at fear of punishment than from the tearing of their nerves. The truth is that the reason. ably treated reasonably requires little or no punishment. Rather talk to a child than peat him. Let him see that he was wrong to do what he did, and he will remember this better than the beating. The mistake generally made is that the parent seeks peace, not the reformation of the child. Utilize the self respect, the affection of your sons and daughters for helping them to the right. Let them see that you are looking solely to their interest. Be firm and calm—and that is reasonable. Too much petting is oad for the children physically and men ally

Let them be self-reliant, and they will not be the less affectionate. The general rule for the training of children is to use your common sense, to work to the interest of the child, to cure it physic ally, and then you reach the soul. Keep i healthy in body and mind, and you cannot fail to have a good, if not a great, son or

And that a car's a "tar."
With "tumpty, tump" and wow,"
And "diddly, diddly, des,"
And other phrases that, I vow,
Are useless, quite, to me.

So when from mother, aunt and all
I've gained a moment's grace,
With none to clutch me lest I fall,
Or stare me in the face,
I've printed out this sta-ment rude
(The letters learned with pain
From cans of patent baby food),
And hope 'tis not in valu. -Edwin L. Sabin in Woman's Home Com-

A. A. Gallagher, district passenger agent of the Missouri Pacific railway, while en route south was taken quite ill and was compelled to stop at Montgomery, Ala. He went to a hotel and sent for a physician. The medical man said: "You have a case of pneumonia and mus

have a nurse.' "All right," said Gallagher. "Do you know a good nurse you can send to look after

The doctor said he did, and would have the nurse at the hotel within an hour. In about an hour a colored woman, who measif you have any doubt about it. I have yet ured about nine feet in girth, put in an apmeet the person who didn't acknowledge pearance, and Gallagher asked her if she had ever nursed sick people.
"Yes, indeed," she replied. "Tee had

considerable 'sperience with ailing pussons.

I nussed Marster John, and he died; then I that it is probably because the reflex action | nussed Mistress Lucy, and she died; then I the brain, and thus drives away the pain | didn't think she was so very poorly, but she "Have you had any other experience in nursing?" asked Gallagher. "Yes, indeed. Only last week I left Colonel Carter's house, where I nussed the

> "Well, did the colonel get well?" asked Gallagher?" Jones, who 'tended him, run a big knife into he colonel and opened him up. The doctor and just about cut the colonel's heart out.

olonel for five days.

Then the doctor said all h- couldn't save Gallagher, "and you're engaged.

-He had been at it all day. From when the birds sang in the July morning to th what makes the birds fly? What bird oan fly the furthest? Who taught 'em? Why?

I rebelled. I was sick and tired, and I said 3.45 p.m in reference to the highest, holiest duty of to myself that duty to my offspring did not require me to answer any more questions and I wouldn't do it. I put him to bed. He can we wonder that many homes are absolute hated to go, for he had more questions that he wanted to ask. I was relentless, however, aught is that wealth and social position and I told him I wouldn't answer another my heart smote me. Poor little chap! He ouldn't kelp it, he was so curious, and as I thought all this, I stole up to his bedside.

> To keep young children warm when out at only one.'
