

Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion  
along interior margin/  
La reliure serrée peut causer de l'ombre ou de la  
distorsion le long de la marge intérieure
- Blank leaves added during restoration may  
appear within the text. Whenever possible, these  
have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.
- Additional comments:/ [Printed ephemera] [8] p.

# Hiawatha's

Indian Mother's  
Balm

OR

## PARTURIENT PANACEA

*A PURELY VEGETABLE PREPARATION  
RECOMMENDED BY THE MEDICAL  
FRATERNITY.*

### NO HOME

SHOULD BE WITHOUT IT.

---

—PREPARED BY—

THE WORLD MEDICAL ELECTRIC CO.,  
LONDON, CAN.

STANDARD PRICE AT DRUGGISTS,

**\$3.00**

DIRECTIONS FOR TREATMENT IN EACH BOX.

*READ our special offer on last page, to  
further introduce it.*

LONDON, CAN., 1894.

DEAR MADAM,—It is with no little sense of pride that we bring before your notice the First and Only Medicine which has proved such a boon to suffering woman.

The proprietors of this World's Blessing have scarcely had it before the eyes of the public one year, and in that short time, with only local advertising, the sales have spread from Nova Scotia to British Columbia, a distance of four thousand miles.

Knowing that eventually it must become a home necessity, we are now preparing to put it within the reach of every mother.

We therefore made arrangements for its manufacture on a large scale, the process of which is in accordance with the most advanced science in regard to the extraction of medicinal properties of each ingredient.

The extreme modesty of our customers debar us from publishing their names, but we shall be pleased to mail you copies of the numerous testimonials received daily.

## The Medical Faculty

have already advised its use. This speaks well for it.

We have, therefore, no hesitation in claiming a superiority over all others, knowing that its valuable qualities can be but imperfectly portrayed here.

To this end we would ask your aid in commending it to your friends, and by so doing it will become widely spread in the direction in which it is so much needed.

Trusting you will do all in your power for the furtherance of this, we remain,

Yours faithfully,

THE WORLD MEDICAL ELECTRIC CO.

DEAR SIRS,—We have analyzed and learned the component parts of your Indian Mother's Balm, and feel safe in recommending it to every mother. It is truly a wonderful discovery, and one that will surely be cherished by every mother throughout the **Civilized World.**

LONDON, Jan. 10, 1894.

# "HIAWATHA'S"

## INDIAN MOTHER'S BALM

—OR—

### PARTURIENT PANACEA.

**I**S now put upon the market, with the firm belief that it will do infinitely more to relieve the suffering of women in childbirth than all other remedies and physics combined have done in the past.

It is all we claim for it. A perfect panacea for the ills and dangers of childbirth. Let every woman about to become a mother try it, and the terrors of childbearing will become a thing of the past.

About twenty years ago, the proprietor of this remedy, whose wife had suffered thirty hours of travail with her first child, was hunting with an old hunter, who had spent over forty years with the Indians. His wife was then within *about a month of confinement* with her second child, and happening to speak to the old hunter of his anxiety concerning the approaching trial, the hunter told him that he would give him a plant that the Indian women all used, and he felt con-

vinced that it would save her from excessive pain or trouble. He accepted the remedy, took it home, mascerated it in whiskey, and his wife took it three times a day until her confinement, which lasted less than eighty minutes, and without severe pain, leaving her so well that the next day she felt quite able to sit up.

Not attributing these very satisfactory results to the medicine; but thinking that her former difficulty arose from its being her first child, she neglected to take the medicine with her third child, and suffered for twelve hours in travail. She now determined never to neglect this remedy again, and with her fourth and last child she used it, with results similar to those attending the second accouchement.

She now began to distribute it amongst her neighbors, and for the past fifteen years she has continued to do so; during which time several scores of women have tested its efficacy, and in not one single instance has it failed to produce the most satisfactory results.

We purchased this remedy, which has now been so thoroughly tested, and the demand

so increased, that we have determined to place it within reach of the public, that all may avail themselves of its wonderful blessings.

Ladies very naturally object to having their names published in connection with a remedy of this kind; but we have many names of those who have tried the Panacea, and who attest to its value. In fact, so thoroughly convinced are we of the certain action of this treatment, that we have promised to forfeit the price to any healthy and naturally formed woman, who takes the Panacea according to directions for six weeks previous to confinement, and whose labor lasts more than ninety minutes.

Of the list in our possession, of over one hundred out of the several thousands who have used the Panacea, who have communicated the results, not one has had more than sixty-five minutes' labor, and a majority less than fifty minutes. Of those who have not sent the exact results, we have not heard of a single unsatisfactory case, so that we feel quite justified in making the above BONA FIDE offer, and are fully satisfied that it will not find a single claimant.

The Panacea is positively the plant used by the Indian women of this country, and all who know anything of their circumstances know that such a thing as excessive pain or trouble in childbearing (except through accidents) is entirely unknown amongst them. There is no mineral, and no poisonous or hurtful substance in the Panacea. It is purely harmless under all circumstances, and is a uterine tonic only. Giving strength and tone to the reproductive organs, it aids nature in discharging her functions in a natural way; the effects being only healthful. No woman, having used it once, would take \$1,000 and be without it.

The chief purpose for which this medicine is put upon the market is to give painless parturition; because of being a powerful uterine tonic, giving strength and vitality to all the genital organs, it is one of the best female regulators in the world. Whatever ailments of a sexual character may afflict either young or old women, this will be found to be a specific.

**In Retention of the Menses,  
Excessive Menses,  
Painful Menstruation,**

## **Leucorrhoea or Whites, Vomiting in Pregnancy,**

Or any other irregularity, use the Panacea according to directions.

Women passing the turn of life should always use it.

Many women suffer from inability to carry a child to maturity. If the Panacea be taken according to directions during pregnancy, it will be found to be an almost certain preventative of miscarriage.

It will also be found to be one of the very best remedies in the market for urinary troubles in both sexes. Let any suffering from afflictions of this kind try it, and they will seek no further for relief.

One word more as to its effect upon the offspring. Giving tone to the reproductive organs as it does, it is but natural that the effect would be beneficial upon the offspring. Instead of a sickly, puny child, it will be vigorous and healthy; an important consideration.

Nature made this plant to help to remove the curse of pains in travail. The Indians discovered it, and no women in the world have less sorrow than they. In fact they seem to have entirely evaded the curse. It is now given to the public, and all women who will, may enjoy its benefits.

# Our × Special × Offer

TO FURTHER INTRODUCE IT.

---

All the Druggists handling our **Indian Mother's Balm**, charge **\$3.00** per box,

---

We don't propose to reduce the price in our **Family Pamphlets**; but for the benefit of suffering woman-kind, who are too poor or do not wish to expend Three Dollars for a trial box, can send us \$1.00, as good faith that they will use it, and recommend it to others, and agree to pay us the balance, \$2.00, when they are **perfectly satisfied with the treatment**. We will absolutely agree never to ask for the balance, Two Dollars, but will leave the matter to their own good judgment to decide whether or not they have received full benefit, and one worth many times over the regular price.

Our good faith and explicit confidence in "Hiawatha's" **Indian Mother's Balm** is surely manifested in the fullest degree by this most **liberal offer** to further introduce it.

Yours gratefully,

**THE WORLD MEDICAL ELECTRIC CO.,**

**London, Canada.**
