A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 2. No 112.

MONTRÉAL, SATURDAY, OCTOBER 14 1899.

Published Daily
at 4.30 p.m.

Price 3 cents

AN INTERESTING EMPLOYMENT OF OLD IRON.

One curious result of the present inability of iron foundries to meet the large demands is the increasing value of scrap iron and especially of rails that had been taken up as too light. Scrap iron in some places has been securing almost as good a price as the new iron and is the first waste material to be used in America on a great scale as a means of profit. Americans are not generally credited with so much economy in this direction as Europeans, in fact, surrounded with such abundance they are not without pride in their generous wastefulness. Paris perhaps, of all cities, in the world, has gone furthest in the opposite direction. There the utilization of waste material is reduced to a system and is enormously profitable. The river Seine is let out to several firms who employ hundreds of men in drawing off the scum, in gathering the various classes of solid matter and in manufacturing these into marketable products. Scarcity of iron this year has made it necessary for consumers of iron on this side to enter on larger operations in the same direction and scrap iron has now risen beyond the junk shop. Quite a number of roads have lately given orders to gather every particle of scrap iron to be found anywhere on the system and turn it in for sale. As much as \$29 per ton has been received for this theoretically useless material. An officer of one of the important lines said the other day that it would be hard to find an old nail anywhere on the system as the line had been gone over so carefully in order to take advantage of the high price for scrap.

Old rails which had been listed about a year and a half ago as being somewhat worn and too light for the traffic have come again into the market and have become a large source of income. It is on record that these old and light rails have been in demand by roads where the traffic was light and have been purchased for more than \$20

per ton, which was more than the 70 lbs rails that displaced them cost. The exchange of old rails for new has therefore resulted in some addition of cash to the monthly income account of several railroads. It is not likely that Transatlantic habits of preferring absolutely new materials to old will be all changed by the present necessity and a utilization of waste will be inaugurated. There will be no need for this being done when once the new iron fields being opened up supply all demands, but these transactions in old iron are interesting as enforced adoptions of old world methods by the new world in her times of iron famine.

STRAWS.

Cleveland, O.—Big advance in Bessemer iron ores will be made at meeting of operators next month.

The government crop report makes the condition of corn 82.7 against 85.2 on Sept 1 and Oct. 1 a year ago 82.

Farmers of California will receive this year \$3,000,000 more for canned and dried fruit than they did last year.

Bank of Montreal's posted rates of exchange were for Oct 7 and 9 4 82, 4.86 $\frac{1}{4}$, and for 10th, 11th and 12th, 4 82 $\frac{1}{4}$ 4 87 Bank of B. N. A. was a little higher.

Bank of England proportion of reserve to liability is this week 40 2 p.c. as against 39.3 p.c. last week and 46.3 p.c. last year. Bullion in the bank for the week increased £61,000.

Canadian Pacific, high for 1896 was 62 $\frac{1}{2}$ for 1897, 82; for 1898, 90 $\frac{1}{2}$, and for 1899 it has been around par. During the same period Atchison preferred was 28 $\frac{1}{2}$, 35 $\frac{1}{2}$, 52 $\frac{1}{2}$, and 68 $\frac{1}{2}$.

One well-posted lake and rail man estimates that fully 80,000 net tons of general merchandise that would naturally pass through Duluth lake and rail will be diverted to the all rail lines. Manufactured iron, sugar, canned salmon, Pacific Coast shingles, flour are being refused on the lake route for want of storage.

There is a shortage of every import adjunct to transportation, boats, cars and storage room. The wheat movement is merely an instant in the rush of general business.

The mean of the three estimates of the w.c.l'd's wheat crop, given out by the Hungarian Minister of Agriculture, by Bechtel's List, and the Bulletin des Halles, is 2,540,000,000 bushels. This is 327,000,000 bushels, or one-eighth less than last year's crop.

The new smelting plant in Utah for treating the ores of United States and Centennial Eureka mines, will not be erected this year. No builders of machinery can be got in their crowded state to accept the order.

President Callaway of New York Central said in his evidence before the Interstate Commerce Commission that discrimination and rate wars were virtually ended, that he objected to free passes except to employees, that ticket brokerage was demoralizing business, that the private car system was bad, that export freight should be carried cheaper and that government should not interfere with roads more than with other kinds of business.

One cotton mill in Georgia recently declared a dividend of 32 p.c. and another in Alabama 45 p.c. It is curious to find cotton quoted in New York at 7 cents, while in Griffin and Carterville, Ga., local mills are paying 7 $\frac{1}{2}$ cents, equivalent to 8 $\frac{1}{2}$ cents in New York. Southern farmers want more for their cotton, arguing that there is no fair proportion between their profits and the dividends of these mills. The South is evidently undergoing some important economic changes, the result of which will have to be awaited.

Shortage of coal is also reported. Western railroads are said to be seizing it when on transit. Price per ton for Northern Illinois, which was \$1 25 a few weeks ago, has been bid up to \$2. The demand for \$2.50 has been made and price looks like going further. Shortage of cars is given as one reason for this and also operation of the eight-hour day. Miners'union, through its committee, allows no man to work more than eight hours and forbids him to put up more than six tons in one day. On putting in more time or doing more work he would be laid off next day by Union committee.

MONTREAL MINING EXCHANGE.

OVER 60,000 SHARES CHANGE HANDS
—BUSINESS ON THE MEND—PRICES
LIKEWISE FIRM.

Montreal, Oct. 14.

Business was rushing today, we had one of the old timers as regards the volume of shares sold. Over 60,000 shares changing hands.

In all seven issues were dealt in at average prices. For the present the slump seems to be over, and the public seem to be aware of the fact as buying orders, in some cases in large blocks, were to hand.

Payne sold for a block of 2000 shares at 102 $\frac{1}{2}$. Iron Colt sold to the amount of 5,500 shares at 4 and 4 $\frac{1}{2}$, and Big Three to the amount of 2000 at 15.

There was a large sale of Rathmullen made at 8 $\frac{1}{2}$ f 50,000 shares.

We look for better markets from this out. We would advise all intending investors to delay no longer.

Golden Star was offered at 32 $\frac{1}{2}$ with 29 being bid. Deer Trail, although no sales were made, was freely offered at 21 $\frac{1}{2}$, 21 being bid.

There was some signs of strength in Winnipeg for which 30 was bid, with none offering under 32 $\frac{1}{2}$.

MORNING SALES.

Big Three — 2000, 15.
Payne—2000, 102 $\frac{1}{2}$.
Iron Colt—5000, 4 $\frac{1}{2}$, 500, 4.
Rathmullen—50,000, 8.
Montreal-London—500, 47 $\frac{1}{2}$.
Slocan Sov.—500, 35. 500, 34 $\frac{1}{2}$.
Mont. G. F.—350, 12 $\frac{1}{2}$.

NEW YORK EXCHANGE.

ON ACTUAL WAR, LONDON PRICES ARE FRACTIONALLY ABOVE AMERICAN ONES — B. R. T. DECLINED MOST YESTERDAY — UNSUCCESSFUL BEAR ATTACK ON W. U. — BANK STATEMENT CONSIDERED AN IMPROVEMENT.

New York, Oct 14.

As compared with the beginning of the week, conditions seem to be reversed. During early part, our market was the one that showed strength. London was inclined to be laggard.

London was a seller of stocks and seemed to feel considerable apprehension in anticipation of the outbreak of war.

Now that actual war has commenced its effect seems to have been discounted in London, while in our market stocks are weak and for the past three days there has been a considerable selling movement.

The latest advices from London state that the prices for Americans are fractionally above our close. London shows considerable strength, but in the rest of the market there is little or nothing doing.

Consols both money and account show no change.

There was practically nothing in the situation yesterday to justify the downward move in prices. Money and exchange were both easier, but still prices did decline a little. Quotations at close were in a good many cases the lowest of the day.

As on day previous, B.R.T. was the principal sufferer and the Room generally credited the decline to Mr. Keene. In a dull market they have a way of putting all movements on this gentleman. It is thought, however, that some long stock came out yesterday in B.R.T. and there seemed to be very little support from anything like inside interests.

W. U. was another point of bear attack, but their efforts in this quarter met with little success.

They gave as a reason for their selling the showing made by the company in its annual statement and claimed that the surplus over their dividend was so small that any decline in their business might endanger the next dividend. The floating supply of W. U. is a small one. The short interest is comparatively large and the people who hold the stock seem to be perfectly satisfied with the situation and all indisposed to sell. Saturday's bank statement is expected to make a slightly more favorable showing than that of last Saturday and it seems likely that traders may today cover yesterday's short contracts.

CRIPPLE'S RECORD MONTH.

Over \$1,700,000 Worth of Gold Taken Out
of the Ground in 30 Days — Total
to Date is \$62,057,292.

From the Mining Investor, Colorado, Oct. 9.

The output from the Cripple Creek district for the month of September far surpassed all former records. The gross bullion values of ore marketed attained the magnificent total of \$1,731,000.

The mines operated by companies, to whom chief honor is due, are Stratton's Independence, the Portland, Vindicator, Little, Legal Tender, Elkton, Isabella, the El Paso, of the Gold King Company, the Orizabas of the El Paso Company, and the properties controlled by the Woods syndicate, with the exception of the Gold Coin.

Lessees divide the honor on the production from the following mines:

The Lansing of the Pinnacle, operated by Whipp and Glenn, the Creston Leasing company, on the Jack Pot; the Alert Mining company, on the Damon; Castleman and Raine, on the Jerry Johnson; Ainstic, on the Hoosier; the Elgan Leasing company, on the Republic; the Work, Gold Sovereign and Dante lessees and others too numerous to mention in this report.

The most remarkable feature in connection with the figures which follow is the astonishing increase in the tonnage and value of smelting ore. At the same time the figures may be considered conservative. The bulk of the high grade smelting ore was shipped outside the state to Kansas City and Omaha smelters.

Complaints are still met with relative to the difficulty of disposing of all ores mined, so that there is no reason to believe the month's record is abnormal. October, with its 31 days, will likely establish a new record. New mills, by which is meant the Onedia mill at Victor, the Detroit mill at Independence and the Economic mill of the Woods syndicate, will all be treating ore before the close of next month. In fact, the first named is now treating ore, but its exact figures have not been obtained, and therefore it is included in the miscellaneous list. The treatment as given out by the management of the different plants is as follows:

The Arequa mill at Cripple Creek treated 2,000 tons at an average value of \$20 a ton, making a total of \$40,000.

The plant of the Colorado-Philadelphia at Colorado City handled 8,500 tons of an average value of \$35 a ton. Total \$297,500.

The value of the ore treated by this plant was greatly above the average of milling ore.

The Metallic Extraction Company at Florence also handled 8,500 tons. The average was \$20, making a total of \$170,000. The values at this plant were greatly reduced by the large tonnage of low-grade ore shipped from the Moffat-Smith syndicate.

The National reduction works, at the

near the oil city, treated 4,000 tons of an average value of \$32, total \$128,000.

The El Paso reduction works, at the same place, treated 1,750 tons of an average value of \$80, total \$52,500—a total of 24,750 tons of mill ore of a gross value of \$688,000.

Small treatment plants, including the Oneida mill, are credited with \$20,000. There are shipped to the smelters 11,000 tons of an average value of \$93 a ton, making the wonderful total for this grade of ore \$1,023,000. Summarized, the output is as follows:

	Tons	Values.
District (1)	2,000	\$ 40,000
Florence (3)	14,2 "	340,500
Colorado City	8,500	297,500
Miscellaneous	20,000	
Smelters	11,000	1,023,000

Total	85,750	\$1,731,000
Grand total for the previous month of 1899	\$10,826,292	
Grand total for the first nine months of the year	\$12,657,292	

It is hardly likely that the production can increase much beyond the present figures as the mills and the smelters are all crowded and have enough to run on for some time to come even though not another ton were secured for several months. As a matter of fact the ore buyers are hiding away rather than seeking ore as there is actually no room for it. In the meantime the smelters and mills are increasing their capacity, but the situation will probably not be relieved to any appreciable extent before the new year.

The production of gold from the Cripple Creek district to date is now over \$62,000,000 detailed as follows:

1891	\$ 200,000
1892	600,000
1893	2,400,000
1894	8,000,000
1895	7,200,000
1896	8,000,000
1897	12,500,000
1898	15,000,000
1899 (nine months)	12,557,292

Total to date \$62,057,292

CHICAGO MARKET.

SPECULATION PROBABLE AS RESULT OF ACTUAL WAR — GREAT EXPORTS OF CORN — LITTLE NEW IN THE MARKET TO-DAY.

Chicago, Oct. 14.

Paine, Webster & Co., say:—The abnormal demand for foreign corn continues unabated. Export takings past two days were over 1,000,000 each day. Actual shipments for 14 weeks since July 1, 61,000,000, against 39 2-3 millions last year, and for past nine weeks the average has been more than 1,000,000 greater per week than a year ago. Wednesday's wheat export takings were 730,000 wheat and 1,000,000 corn. While the declaration of war has had practically little market effect, the prospects are that a continuance of the war will induce speculation which has been the only thing needful for the establishment of higher wheat values.

Wheat cabled today as 4 higher at Liverpool, steady but not much enquiry. Corn as unchanged, opening firm, but closing lower.

Chicago receipts:

Wheat, car lots, 160, shipments, 78,050.
Corn, car lots, 654, shipments, 157,350.
Oats, car lots, shipments
Oats, car lots, 283, shipments, none.
Pigmy receipts:
Last week, 958,304, shipments, 1,824,099.
Last year, 1,583,796, shipments, 1,131,323.
Four ports, receipts, 685,777, shipments, 316,857.

Provision receipts: Hogs, 16,000; cattle, 200; sheep, 1,000.
Kansas City: Hogs, 3,300; cattle, 800.
Omaha: Hogs, 5,000; cattle, 1,200.
