Power "King" Gets Busy to Pre-empt the East As Its Own Preserve

Agents Are Actively Canvassing Municipalities Interested to Discredit the Government's Power Project.

SEVERAL MUNICIPALITIES HOPED TO SUBMIT BY LAWS

It is announced that the hydro-electric commission will commence a campaign in eastern Ontario for the supply of power, and it is hoped to have a number of municipalities submit by-laws at the January elections.

No time will be lost, as already emissaries are abroad trying to tie up the towns interested to other contracts.

A gentleman who is prominent in his county, who has long been known to The World, and in whom this paper has implicit confidence, gave The World the following information yesterday:

I was on the train coming in to the exhibition with I met Mr. (giving the name). I was an old friend of his father's, and we soon fell into a conversation.

He told me that he was employed with a prominent concern (and he named the man), and then with considerable success he told HIS BUSINESS WAS TO VISIT VARIOUS TOWNS ON THE PROPOSED GOVERNMENT TRANSMISSION LINES, TO INFLUENTIATE HIMSELF WITH THE ALDERMEN, TO CAST DOUBT ON THE HYDRO-ELECTRIC COMMISSION'S PLANS AND GENERALLY TO WORK FOR THE DEMORALIZATION OF THE PROJECT.

One persuasion that is being used in the east is the allotment of a promised realization of the Kingston power electric line, passing through all the municipalities interested in the transmission of power.

Another young man, a trusted clerk in the Metropolitan Bank at Harrow, has succumbed to money lust, and has disappeared with \$1300 of the bank's money.

WANT UNIFORM STANDARD.
Educational Phase of Pharmacy Question Before the Convention.

The Canadian Pharmaceutical convention yesterday, at the College of Pharmacy, devoted its attention largely to the question of the academic standing of applicants for admission to the different colleges of pharmacy in the various provinces.

PROVIDENCE, R.I., Sept. 2.—(Special.)—Miss Carrie Capen of Milton, Ont., visiting Mrs. Nanton of Providence, turned on the gas and then leaped over the gas stove.

FRANCE AROUSED OVER GERMAN DEMANDS

See in Request That Morocco's New Sultan Be Recognized a Violation of Algeiras Covenant, and Anger Shows.

PARIS, Sept. 2.—The action of Germany in breaking up the concert of the powers with regard to Morocco by notifying the signatories of the Algeiras Act that she considered the actual situation demanded the immediate recognition of Mulai Hafid, the usurping sultan of Morocco, has fallen like a bombshell in Paris.

Only yesterday the French press was refraining from impugning political motives in Germany in the despatch of Dr. Vassel, the German consul at Tangier to Fez. To-day, however, with the arrival of Germany's official notification regarding the recognition of Mulai Hafid a feeling of approaching consternation is manifested in official circles.

This notification, which was made verbally, is not accompanied by any explanation of "Germany's brutal change of front," as it is termed here, and in government circles the action of Germany and the despatch of Dr. Vassel can no longer be dissociated.

As if in answer to Germany's call for recognition of Mulai Hafid before he has entered into any engagements with Europe, fanatical Arabs who had been gathering on the Algerian frontier attacked yesterday the French post at Bouffit.

The Associated Press is in a position to present the following official French view of the situation: "Germany's notification came as a complete surprise to France and Germany, who are engaged in elaborating a program of peace and toward Mulai Hafid, for the safeguarding of the common interests of Europe and America in Morocco. These demands are to be submitted to the signatories of the Algeiras act as soon as they are completed, and the powers were so notified eight days ago. Germany took exception to this course, and we presumed that she was entirely satisfied until suddenly here came this crash of a bomb."

"There was no longer any question of upholding Abd-el-Aziz. Both France and Spain recognized that he had disappeared definitively from the horizon. What we proposed to do was to force Mulai Hafid to ratify the engagements of his father, and to let toward Europe before recognizing him. Now Germany comes forward with a proposition to recognize Mulai Hafid before he has given any guaranty. It amounts to undoing the work of the Algeiras conference and reverting to the status quo ante. The powers must decide between the position of France and Germany and that of France; the French position we consider to be most loyal to the spirit and letter of the Algeiras act."

All the newspapers contrast this step with Emperor William's recent pacific attitude toward Strasbourg, and they recall alleged inconsistencies in Germany's position during the Algeiras crisis. One newspaper characterizes Germany's step as the most malevolent action of Emperor William since he disembarked at Tangier and proclaimed Abd-el-Aziz the "independent sovereign of the Sultan's Empire."

Stress is laid upon Dr. Vassel's violent anti-French position preceding the Algeiras conference, and despatches from him impugning the veracity of M. Taillandier, the former French minister to Morocco, are being reproduced.

OFFER NOT GOOD ENOUGH.
Leslie McShaw's Bid for Montreal Power Company.

MONTREAL, Sept. 2.—(Special.)—The offer of Hon. Leslie M. Shaw to the Montreal Power Co. was received to-day. It is understood it embraces a 99-year lease, for \$1,000,000 in cash, and a deposit of \$500,000 in gold, with a guarantee, which, for the first three years will be seven per cent, then eight per cent for an indefinite period. They offer 120 for stock.

TREATY WITH WEST INDIES.
LONDON, Sept. 2.—(C. A. P.)—An official announcement in connection with reciprocity negotiations of Canada and the West Indies is expected. It is thought here that unless some general tariff with the whole West Indies is arranged complications arising from separate treatment of the islands will imperil the success of negotiations.

AIRSHIP BEFORE MAN DROPS 500 FEET

25,000 People See Inventor Jones Fall to His Death—Wife and Child Witness the Fatality.

WATERVILLE, Me., Sept. 2.—In full view of 25,000 horrified spectators on the Central Maine Fair grounds here, late to-day, Charles Oliver Jones, the well-known aeronaut of Hammondsport, N. Y., fell a distance of 500 feet to his death.

Hamilton Happenings

World subscribers in Hamilton are requested to register complaints as to the service of the paper at the Hamilton office, room 7, Spectator Building, Phone 968.

STOLE HORSE AND BUGGY AND THEN FIRED BARN

Daring Crime is Reported—Another "Dead" Man Found Alive—Case of Assault.

HAMILTON, Sept. 2.—(Special).—There seems to be no end of theories as to the identity of the man whose body was found in the Monongahela River near McKeesport, Pa., and which was supposed to be that of Lockwood of Toronto. Advice from Pittsburgh this afternoon stated that the body had been positively identified as that of Ernie Henwood, 203 North East-avenue, this city. Enquiries at Henwood's home, however, elicited the information that he was there. He was in the vicinity of Pittsburgh about a week ago.

John Welch was arrested to-night on the charge of assaulting and robbing Andrew Crosthwaite, a fruit dealer from Bartonville, in a Hunter-street hotel. Crosthwaite claims that Welch stole \$14 from his pocket and passed it to two others who made off. He succeeded in holding Welch, and the latter struck him.

The residents of Silverdale, Lincoln County, are incensed over a very deliberate piece of incendiarism. The barns of Byron Beamer were burning this morning with their season's crops, horses, cattle and farming implements, as the result, it is thought, of the efforts of a man who stole a horse and buggy, to cover up his tracks. The stranger enquired in St. Ann's yesterday where the Cranboree was and about 1 o'clock this morning he called at Mr. Beamer's house and made the same enquiry. Two hours later the barn was discovered in flames and when the fire had burned itself out the horse and buggy were missing. The police all over the country have been asked to look out for the man.

A writ has been issued in behalf of Ann Durdon against the Street Railway Company for \$2000 damages for injuries sustained by being thrown from a car which the complainant claims was started before she got off. By means of a writ Edward Victor Taylor, Miss Elizabeth Golden, formerly of Chesetow, Ont., was married in St. Patrick's Church to Frank Sullivan, and Miss Katie Bush was married in the same church to Henry Burghin.

It is expected that the total losses of Hamilton people thru the failure of Meadows, Williams & Co., stock brokers, will amount to \$200,000. Mr. Long is said to be the heaviest loser to the extent of \$40,000. His actual loss, however, will be \$375, as the remainder was accumulated profits which he had not collected.

Word was received here this afternoon of the death at Woodstock of John Ronan, burser at the Victoria Hospital there and formerly of this city. The remains will be brought here for interment. One daughter, Mrs. Thomas Kilgour, resides in Toronto.

David and George Goldberg have purchased the Commercial Hotel, owned by Mrs. Anna McQueen, at Victoria. Hugh Hennessey of the drug firm of John P. Hennessey and Bro., was married in Ottawa to-day to Miss Evelyn McCann.

The New Arlington. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. George Midwinter, Phone 3453. Skeddens & Sons, Painters, Decorators, Paperhangers, 183 King-street West.

AUTOMOBILE ENDURANCE TOUR. Russell Finishes 336 Mile Run With Perfect Score. A despatch has just been received giving results of the big endurance tour of the Winnipeg Automobile Club. Out of twenty-three entries, comprising three American and three Canadian makes, four cars finished with perfect scores.

One of these, W. E. Wright's Russell, tied the Packard and entered in the second run to determine the actual winner. It again tied its competitors and was, in fact, the only car in both runs which did not once have to stop for either a penalty or non-penalty cause.

IMPROVING CONDITIONS OF THE MUNICIPALITIES

Delegates of the Ontario Municipal Association Are Now in Session in Toronto.

About 70 delegates answered to the roll call, when the tenth annual meeting of the Ontario Municipal Association came to order in the association room in the city hall yesterday morning.

When the meeting came to order, President W. C. Mikel, K.C., city solicitor of Belleville, delivered an address in which he reviewed the work done by the association since its founding in 1899, in opposing any attempt on the part of the province to force adverse legislation upon municipalities. The O.M.A. had promoted the legislation recently enacted, by which the province's foot and provincial election expenses, hitherto borne by municipalities.

The president advocated legislation that would exclude automobiles from public highways, or provide for a provincial tax on these machines, to go into the coffers of the municipalities for the use of the highways.

The committee expressed itself as being in favor of reorganization in the provincial police force, and the election of school trustees by a general vote, and also the taxing of all railroad properties and adopted a resolution put forward by Stephen Grant and A. D. Greenleaf of London, "that the assessment act should be amended so that the revision court could remit taxes in cases where a person assessed for income tax dies during the year in which the assessment was made."

The resolution to have the Municipal Act amended to compel persons setting produce on the public markets and elsewhere to be weighed or measured, and not by basket or roll, was left over till a report could be received from the chairman of the committee, Chisholm.

The next resolution, fathered by Mayor Begg and Reeve Jordan of Lindsay, provoked some hot discussion. It read that the act be amended so as to base the assessment for county purposes on real property alone and not on business and income. Reeve Jordan considered it unfair that merchants and business men in the villages and crossroads should get off with one tax, while the poor Lindsay men had to pay taxes on business incomes in addition. City Solicitor Chisholm was in favor of the resolution being sent, but on a close vote it was carried with a majority of one.

A resolution to amend section 608 of the Municipal Act, to limit the liability of a municipality for damages in connection with the weight of goods for accidents occurring on the highway, was also adopted. The resolution put forward by Controller Hopewell and Treasurer Ellis of Ottawa "that legislation be asked for to provide that no municipal franchises involving the use of the public streets be granted except on a vote of the property owners, was lost.

Last night the delegates attended fair.

PERHAPS FATAL STABBING.

Italian Wounded in Drunken Brawl at Fenelon Falls. LINDSAY, Sept. 2.—(Special).—There has been another stabbing affray at Fenelon Falls as a result of which one Italian is now at death's door, while another is in the lock-up.

BROWN CORN IN ESSEX.

Can Be Grown in Ontario Cheaper Than in Ohio. WINDSOR, Sept. 2.—J. Doan, a Windsor broom manufacturer, has discovered that the soil of Essex County is especially adapted to the raising of broom corn. Doan says he has been making experiments and has found that it can be raised almost any place in the county at almost one-quarter of the cost of raising it in Ohio, where most of it is grown at present.

MARCONI COMING TO CANADA.

GLACE BAY, Sept. 2.—(Special).—Signor Marconi left Liverpool this morning for Cape Breton. He will land in New York and proceed to Montreal in connection with the resignation of Mr. Oppé. Mr. Davies, a heavy shareholder in the company, will accompany Marconi, to make an inspection of the stations on this side of the water.

Rare Old Violins.

Mr. R. S. Williams, the well-known Canadian violin expert, has just returned from Europe, where he has been for some months. He reports that old Italian violins are exceedingly scarce, but he was fortunate in securing specimens of the work of Nicolas Amati, Peter Guarnerius, A. Landolfi and Pressenda. These instruments are now on exhibition at their place of business, 143 Yonge-street.

Mr. and Mrs. H. W. Cuff will be at home on Monday, Sept. 7, from 3.30 to 5 p.m. to receive the congratulations of their friends on the occasion of their diamond wedding, at the residence of their daughter, Mrs. Thomson, 88 Heward-avenue.

Do You Hear Well?... We agree to make you hear ordinary conversation, even if you can only hear the deafest... The very best result we can promise you as a reward for using the Electrophone is the complete lasting restoration of your hearing... Next to that in importance is the certainty that the moment you apply this marvellous little instrument you will be able to hear clearly and distinctly, either in public or in private... This scientific electrical sound conducting instrument is snugly over the ear as shown in cut. Its purpose is to magnify sound waves and throw them directly on the ear drum in manner corresponding to nature... The result is your deaf ear is exercised just as well ears are, and after a while most people find their hearing has become as good as ever... "Electrophone in use..." We have tried an Electrophone exactly such as yours, and we can say with a deposit on it and try it at home... Remember, the Electrophone will open up a new world to you. Perhaps you are only looking for temporary relief, but you will find that it will do much more. The Electrophone gradually restores the natural hearing... We are fifty per cent. of our patrons, because we sell all instruments subject to one full month's trial. Free trial to all who call. Free booklet to all who write. Write to DEPT. T., CANADIAN OFFICE... The Brand Electro Ozone Limited—334 Spadina Ave., Toronto

The Toronto World

A Morning Newspaper Published Every Day in the Year. MAIN OFFICE, 25 YONGE STREET, TORONTO.

A favor will be conferred on the management if subscribers who receive papers by carrier or thru the mail will report any irregularity or delay in receipt of their copy.

QUEBEC AND ONTARIO. Sir Louis Jetté's address in declaring the National Exhibition open had all the tactfulness and graceful phrasing for which his race is distinguished.

Those who endeavor for political or personal reasons to revive and accentuate racial prejudice do serious disservice to the cause of unity and peace. But even their worst endeavor would avail little were it not aided by the lack of that personal intercourse which so easily overcomes the antipathies of ignorance.

WIDENERS' CHEAP GAS. In his last report, Mr. P. B. MacNanara, trade commissioner for Canada, for the Manchester district of England, refers to the cheap gas system of Widnes, to which The World called attention recently.

The town council, the commissioner reports, has just decided to reduce the net price to ordinary consumers to 27 cents per 1000 cubic feet, to consumers of over 3,000,000 cubic feet per annum to 24 cents, and to all users of gas for motive power purposes to 20 cents per 1000 cubic feet.

It is stated, the commissioner says, that these prices constitute a world's record in the matter of prices charged for gas and it is pointed out that these reductions are not made at the expense of the illuminating power. In addition to supplying gas at so low a price the gas department contributes \$10,000 a year to the relief of the borough rates.

AIRSHIPS AND AEROPLANES. Much more attention is being given in Europe to the matter of aerial navigation than has yet been on this side the Atlantic. This is natural since the possibility of war is an ever-present factor in the national policies.

During the season's practice on Dartmoor, the training ground of the British artillerymen, considerable attention has been given to aiming practice at an airship. Not that experts look for any such remarkable development in aerial navigation as will result in transferring hostilities from earth to the clouds.

Students of the question in its present stage affirm that the navigable balloon can be formidable in attack and that the best machinery in the world will never make it of any practical value.

It is said that it was found practically impossible in the Zeppelin ship for the aeronaut to ascertain his horizontal position with regard to the earth with any degree of accuracy even at low altitudes. In order to overcome this disadvantage a Frenchman has invented a simple apparatus consisting of a few thousand feet of strong wire wound round a reel and carried on board the airship.

Naval designers are not worrying over this form of attack and do not consider the problem of battleship protection to be at all a formidable one. As for the dirigible balloon as a means of landing troops its utility is held to be too obvious to require serious demonstration. The conclusion to which the most reliable authorities have come is "that the armies and navies of the world have little to fear from the attacks of aerial war vessels and that, although in the near future these engines of war are likely to play a certain part in military operations, the means of defence against them are at present fully equal to the danger from attack."

September is the best month in the year for making lawns, as the grass plants have the long cool fall in which to become thoroughly established.

More lasting work in the way of repair can also be done now than in the spring. Get rid of the crab grass. This is the worst enemy of any lawn. Before the plants go to seed, rake up the stems and cut them off with a lawn mower. Dig out other weeds. Into all the empty spaces put good soil and scatter some seeds of a good lawn mixture.

Do not cut the grass too late in the season, or if the lawn must be mowed, set the knives high so that they will not cut close to the ground. This will allow the plants to become stiffer and go into the winter in better shape. Shrubs can be planted at almost any time this month, and it is the best time of the year to move beech trees, cut the branches back.

Keep the herbaceous borders clean. As soon the stalks and leaves die, cut them off and put them on the compost pile.—Suburban Life.

Editor World:—The city engineer in his annual report, recommending the assistants for his department, for himself and the other for his deputy, should be granted or man the roadway department by additional help. In this connection I think it would be in the interests of the city to try and obtain the services of Mr. Dill, the former roadway engineer, who is a thoroughly capable man, in fact the best man the city ever had in that department and one who would see that the property owners would get what they pay for. From the contractors they all had to sit up straight while he occupied that position. The city could not do better than by re-engaging Mr. Dill.

THE OLD MUNRO ESTATE. Forty-Five Acres Put on the Building Lot Market—The Best Available Sites in the East End. The forty-five acres of beautifully wooded land that made up the Munro estate, bounded by East Toronto Town, Queen-street, Kingston-road and Scarborough town line, will be advertised in The World in a day or two as available for building sites. The late Mr. George Munro bought it years and years ago at a sale, for a family residence, and it was long thought it would never be available to the public. It has, however, recently come into the market and the present owners have decided to offer it at reasonable prices. It is still in the township and subject only to township taxes. But it is touched by the city street cars at a single fare, thus comprising city advantages with low taxation, and New street have been run thru this block, sidewalks have been laid down, and everything is ready for immediate occupation by parties who desire to build this Fall or early next Spring. The lots have been put at a cheap price, payments are reasonable and building restrictions are fair, and anybody can start the erection of a home on a comparatively small amount of money. This land is high, naturally drained and beautifully wooded with pine and oak and birch trees, and is especially suitable for permanent bungalow residences. The price asked for these lots is three or four dollars per foot less than for any other land now available in the east end, and at the rate of enquiry it is not likely that it will be in the market long. One operator alone secured 1500 feet only three or four days ago, and has resold it at a profit of six times.

DORANDO IN VAUDEVILLE. ROME, Sept. 1.—Dorando, the Italian runner who made such a gallant effort in the Marathon race in London, has signed a contract for six months' vaudeville engagement in the United States. He will sail for America in a short time.

POLITICAL INTELLIGENCE

Convention To-Day. South Bruce Conservatives at Walkerton.

James Somerville of the International Union of Machinists, stated in an interview at Ottawa that a movement is on foot by railway men throughout the Dominion to have approved candidates put in the field for the provincial and federal parliaments, and try to procure increased representation, in preference to sending lobbyists to the legislative halls. They will attempt to reach an understanding with the Socialists and Independent Labor party.

"For many years," said Mr. Somerville, "the railway organizations have been sending their lobbyists to parliament to ask for legislation, and the results have not been satisfactory. They now think the time is ripe to place their own men in the legislative halls of the Dominion, where they can support with voice and vote the measures in the interests of labor."

"There are quite a number of constituencies in Canada where the vote of the railwaymen is sufficiently strong to decide the result of an election. It is not North Grey, as it is not, likely Hon. A. G. MacKay will resign his hold on the provincial Liberal leadership."

Rev. D. C. Hoessack denies that he will be the Liberal candidate in Central Ontario. He is a member of the party, but he will take part in the campaign. A despatch from Ottawa says there are several candidates for the Conservative nomination in Carleton, and that it looks as if Mr. Borden will not run there.

D. Cantion, president of the Conservative Association of the West, stated that the Liberal candidate in Central Ontario will be elected last time, but he will take part in the campaign. The candidate admits this himself and that the Conservatives will carry at least two of them.

The Conservatives of Walkerton County never went into a fight with greater spirit than is being shown in the present campaign. Numbers of the party in all parts of the riding are eager for the battle, and the feature of the Conservative campaign is a shoulder-to-shoulder determination to elect George Hanan. Mr. Hanan has steadily gained strength since his nomination last March. Next Wednesday he begins his series of public addresses at a monster gathering to be held in Pelham. The autumn contest is to be a close one. The candidate admits this himself and that there was some hope of his recovering his bearings.

No word from Aylesworth has been received by any member of his firm. Hon. Dr. Pugsley was the chief speaker at a big picnic at Robbsey, N.B., yesterday. Mayor Bullock of St. John, N.B., is for some weeks past in the city of St. John. Dr. R. F. Preston, M.L.A. for North Lanark, was elected to the Building Trades Union, yesterday. He says the Conservatives are going to take both Lanark and both Renfrew seats.

The Vancouver, B.C., World has yelled the Liberal party. In an article yesterday it referred to the Conservative nominees of the Liberal party, which were so successful in keeping the party in line, and denounces those who obey the orders of their chief and the British Columbia despite the fact that "Representatives must be chosen," it says, "who will go to Ottawa to represent the people of the province, and not to bear on their backs the leaders and party or petty truckling to those who have a place on the payroll within their grasp."

THE T. EATON CO LIMITED

Clothing Bargains For Men and Boys

The Fall weather is here—colder weather on the way—prepare for it—meet it warmly, stylishly, comfortably, durably clad in Eaton's faultless garments.

Save money by doing some of your buying Friday—read of the best of bargains.

AT OSGOOD HALL. Master's Chambers. Cartwright, master, at 11 a.m. Judges' Chambers and Single Court. The Hon. Mr. Justice Anglin at 10 a.m. Cases set down for hearing in single court.

MELBOURNE, Sept. 2.—Speaking at the dinner tendered to Rear-Admiral Sperry and the senior officers of the American battleship fleet at the Royal Yacht Club to-night, Alfred Deakin, the minister, said: "The appearance of the American fleet indicates that it is on no holiday cruise. Its visit marks for us a casual adventure, for the invitation was given in a spirit of deepest earnestness after mature consideration and the concession made by the American Government in sending the fleet here is perhaps the most generous made in recent times by one nation to another."

WEAK FLUTTERING HEARTS. Will never be cured by the false, unnatural stimulation of liquor. First increase your vitality, build up the system, strengthen and purify the blood, then the heart will respond and grow strong.

Tom Lawson will not appear before the committee of the New York Stock Exchange investigating the recent "wash" day.

U. S. WILL GET TRAFFIC.

1. To break up thru trains on Sunday, where this is necessary, and to forward such shipments to their destination.

2. To allow of the furniture of a thru service to cattle shippers.

3. To allow the company to deliver empty cars on Sundays to points along their lines for shipments of cattle on Monday.

4. To allow the company to load and unload grain at the lake ports and to forward grain trains to their destination on Sundays, where the traffic would otherwise be subjected to undue delay.

Judge Mabee said that the railway board had no right to go beyond the provisions of the Lord's Day Act, but only to interpret the provisions of that measure. He doubted whether the delivery of empty cars to cattle shippers on Sundays was necessary.

Mr. Birn, superintendent of the northern division of the Grand Trunk Railway, declared that if the Canadian ports of Midland, Meaford, and Collingwood were to hold their own in the grain trade, they would be competitors, the grain carriers must be allowed to handle this traffic without any undue delay. Otherwise the grain would be carried to American ports.

Mr. Brownlee, transportation manager, said he had figured out that if the morning of engines was not allowed on Sundays the Grand Trunk would lose the handling of five million bushels of grain in the balance of this season.

The case, however, goes over until October.

The board also took up the consideration of the question of the carriage of explosives on trains. It was decided that the railways should appoint a committee of traffic experts to co-operate with the board.

The opinions of the manufacturers of explosives will also be secured.

Stanley Planes are unexcused.

MAGISTRATES BRIBERS?
Removal of Two Demanded by Halifax Paper.

HALIFAX, N.S., Sept. 2.—(Special).—The Herald (Con) will to-morrow editorially call on the attorney-general to take action against two magistrates (Liberals) for alleged bribery in Annapolis County elections.

Brand's A 1 Sauce demonstrated in Manufacturers' Building, Try It.

DELUDED WOMAN'S ATTEMPT.
SARNIA, Sept. 2.—Mrs. David Turner, 50 years old, who attempted suicide late Monday evening by severing an artery in her left arm and then cut a deep gash in her throat, may not recover.

Mrs. Turner is the widow of a former jeweler and also possessed of \$40,000, has for several weeks labored under the delusion that she was facing poverty.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto, Sept. 2.—(8 p.m.)—The area of low pressure which was over Quebec last night has moved into the Maritime Provinces, while the western high area has moved to the Great Lakes. A few light showers have occurred to-day in Ontario, and rain is now falling in New Brunswick, but the weather to-day has been fine over most of the part of Canada. The temperature has been higher in the west and much lower in Ontario.

Minimum and maximum temperatures: Dawson, 37—55; Victoria, 54—78; Vancouver, 52—84; Calgary, 44—78; Edmonton, 44—88; Qu'Appelle, 46—82; Winnipeg, 46—90; Fort Arthur, 35—84; Parry Sound, 56—84; London, 52—84; Toronto, 56—82; Ottawa, 59—70; Montreal, 52—72; Quebec, 59—70; John, 56—62; Halifax, 50—72.

Lower Lakes and Georgian Bay—Moderate to fresh variable winds; fine and cool.
Lake Superior— Fresh southerly winds; fine and warmer.

Montreal— Fair and warm.
Saskatchewan and Alberta— Fair and moderately warm.

BIG HOTEL DEAL.

The Marlaggi at Port Arthur Sold for \$175,000.

PORT ARTHUR, Sept. 2.—(Special).—The Marlaggi Hotel, owned by William Marlaggi, was sold this evening to the Marlaggi Hotel Co. for \$175,000. The hotel was purchased a year ago for \$125,000. Bronfenman is largely experienced in the hotel business in Brandon, Winnipeg and other cities.

INTERPRETER WANTS WORK.

A prize-fighter can corral \$15,000 in a night's work.

Max Medow, a Russian Jew, who speaks 12 languages, landed in Toronto last evening from Buffalo, pretty nearly broke.

Medow, who has traveled extensively during his two years in America, wants work as an interpreter. He is a young man, good-natured and can be found at general delivery, postoffice.

Stanley Planes are unexcused.

COMPERS FOR BRYAN.

PORT WORTH, Texas, Sept. 2.—Samuel Compers, president of the American Federation of Labor, has opened his campaign for the Democratic national ticket.

He closed with an appeal for every man present, regardless of party affiliations, to vote for Bryan.

BETTER TO STAND CLEAR.

(Canadian Associated Press Cable.)
LONDON, Sept. 2.—The news that if Australia's safety is ever threatened, the battle would be lost or won on high seas long before the enemy reached Australian waters, and says: "Laurier is wiser when he congratulated Canadians on standing outside the vortex of European militarism."

YORKSHIRE WOLLEN MEN MAD.

LONDON, Sept. 2.—(C. A. P.)—The Dewsbury Chamber of Commerce has declared that the Canadian Manufacturers' Association's allegations that Yorkshire wools are worthless are libelous and has ordered a protest sent to the British consul at Montreal.

WILL HAVE HIS REWARD.

OTTAWA, Sept. 2.—(Special).—It is expected that in the course of a few days Fred. M. Journeaux, president of the Ottawa Association, will be appointed Dominion collector of customs.

Every Possible Accident Covered.
Take out an accident and sickness policy. For a small annual premium you are covered against every possible accident and all the likely illnesses. Indemnity paid weekly. London Guarantee and Accident Co., corner Yonge and Richmond-streets, Phone Main 1642.

EVERY Canadian householder is figuring on how to cut down his fuel bill without losing in comfort. Many have already solved the problem by putting in a Gurney-Oxford Hot Water Boiler. It stands to reason that you can get more heat out of less coal with an Oxford Boiler than with any other make.

Gurney-Oxford Hot Water Boiler

In the first place, the walls of the fire-pot of the Oxford Boiler overhang the fire—they get the full benefit of the direct rays of heat, thus reaching a high temperature quickly and from less fire.

Then, also, the first water-section over the fire is double thickness with bell flues, this gives a greater surface for the action of the fire.

All of which means that a Gurney-Oxford Hot Water Boiler can get more horse heat out of the fuel burned than any other heating apparatus.

We would like to give you the full particulars of the system.

The Gurney Foundry Co., Limited
Toronto, Montreal, Winnipeg, 514

POWER 'RING' GETS BUSY

Continued From Page 1.

engineers and firemen on the Superior division will go out on strike in the course of a few days, because of the bad condition of the engines. It is stated that power is in worse shape and trainmen are getting uneasy. The express this morning took over two hours to run fourteen miles. The electric was broken, and the locomotive was tied with rope and blocked up. The power is fast giving out, and many dead engines are in evidence along the line.

From a source within the company's lines it is learned that the strike of the C. E. R. mechanics is seriously crippling the motive power, so much so that most passenger trains are now being hauled by freight locomotives.

This confirmation of the condition of the motive power lends credence to a rumor coming from the west that the engineers and firemen of the Lake Superior division contemplate striking within the next few days.

J. Harvey Hall, legislative representative of the railway unions, stated that the local strike headquarters in Toronto are taking the most active interest in the World last night that the men could go out if the engines were considered unfit or unsafe to run.

"This," said he, "while amounting to the same thing, would not be a strike, and the men could ignore the Lemieux bill entirely in this regard."

Most of the local strike headquarters are following the engine casualties are vouched for.

No. 5 from Ottawa was three hours late at the Union yesterday morning. She is due at 7:30 a.m. The train was on time leaving the capital, but lost the time between west and Toronto.

Engine 285, on the Teaswater train, bent both side rods badly and the boiler was foaming so badly that the engine lost an hour on the trip. It was left at the John-street roundhouse for repairs, and the train was taken out last night by the engine that usually pulls the Goderich train, No. 278.

The freight engine, No. 640, that brought in the 400 ton train, was heated up to such an extent that it was also left for a "going over" at the roundhouse, and No. 749 took No. 11 back.

No. 786, while pulling a train to Muskoka, threw its side rods at Bala. One of these rods went thru the Bala bridge, cutting two stringers, or ties, asunder.

No. 1103, one of the few passenger engines remaining was in no condition to go out yesterday morning on No. 4 train for the east, and a freight engine, No. 693, took the train in tow. No. 827, on the Tweed local, is losing an hour each way on the run, and the valves and pistons are blowing so that it takes twice the usual quantity of coal to send the engine along even at that reduced speed.

The C. P. R. trains from the west, which have been delayed by the wash-out west of Kenora, are on their way east, and the first train from Winnipeg is expected in Toronto at six o'clock this morning. Another train will follow about four hours later, making traffic normal again for a time.

CHILDREN'S DAY

Continued From Page 1.

vor sat with George A. Reid, president of the R. C. A.; Wily Grier, president of the S. A., and there were a number of important visitors from abroad.

Among these were members of the Scottish agricultural commission, J. W. Beatty, Pittsburg, director Carnegie Institute; Selsaburgh Shimizu, consul-general of Japan at Ottawa; Senor Lauro Viadas, chief of the agricultural bureau, Mexico; Henry Pears, Nova Scotia; J. M. Alexander, public works, Buffalo; C. H. Jones, Rochester; Capt. Casper and Lieut. Wilson, United States; Guards New York; W. J. Thorold, London, England (The Smart Set).

Besides them there were Mr. Macduke Rawlinson, chairman of the property committee; Inspector W. C. Chapman, W. C. Wilkinson, R. W. Doan, William Houston, R. L. Dwyer, C. J. Dwyer, W. James, C. A. B. Brown, John Cooper, Principal Scott and other principals.

The mayor closed with the Japanese consul-general, Coroner Elliott sat across the table; W. W. Wilkinson, J. D. Mackenzie, K. C.; Rev. F. Wilson, D.D.; John D. MacIsaac and other local notables filled the tables.

The royal toast having been disposed of in cheerful and happy terms, the guests were glad to present to the crowd of happy and boisterous young-sters of the city, the most interesting so many nationalities, including Scotch, Mexican, Japanese and American, and the celebration was a most successful one.

Mr. Beatty referred to the international exhibition at Pittsburg, and complimented the management on the exhibition, and especially the art building. The men of Toronto could well be proud of the magnificent cheerfulness and the art building. The international at Pittsburg did more to give that city a standing than anything else he could name.

Mr. Shimizu declared that Canadian kindness was proverbial in Japan, and he had received orders to come to Ottawa from Chicago, after five years there, he had previously spent six years in British Columbia and looked on Canada as his second home. He had told of the progress of the exhibition, which had not been supported by the federal or provincial governments, but by Toronto alone. In 1912 Japan would be represented at the exhibition. He hoped many Canadians would go across the Pacific to that exhibition.

Mr. George hoped that the suggestion already made that Japan would send an exhibit to the annual fair would be adopted, and Mr. Shimizu nodded his approval.

Lauro Viadas, chief of the agricultural bureau of Mexico, expressed his interest in the suggestion that W. F. Chapman conveyed the thanks of the school children for their annual visit to the exhibition, and Mr. Beatty presented a check for \$100 to the school children for their annual visit to the exhibition.

Mr. George approved the suggestion for a prize essay, and indicated the method and it was safe to assume that hundreds of families will benefit by the instructions of Lecturer Albert Upton.

In subsequent issues the World will take up various branches of this lecture for the benefit of the city and village aldermanic boards, as well as the individual.

Glittering Automobile Display.
An automobile display, which is attracting more than ordinary attention is that of the McLaughlin Motor Car Co. of Oshawa, Ont.

The firm is just closing its first season in the auto industry with a sale aggregating close upon 200 cars—an item that spells success.

Their exhibit covers a range of ten varieties, from the large, luxurious Limousine, equipped with electric lights, manure set, toilet set and lavishly upholstered throat, to the reliable six-horse roadster, which can demonstrate a speed of 55 miles an hour and keep it up.

A marvel in which reasonable value, symmetrical beauty and mechanical endurance are all combined, is the h.p. touring car, equipped with a magnet, listed at \$2750.

Another feature of this exhibit is the doctor's coupe, an enclosed conveyance with electric lighting, lighted by electricity and equipped with neatly concealed medicine chests and other conveniences. It is designed for dense traffic, perfectly and immediately controlled down to four miles an hour, or for open highway speeding, up to 40 miles.

In producing all these pretty souveniers prices foremost in mind, and they are justly proud of their achievements in this regard.

Silken Tassels.
Isn't it pretty? said a little lad, holding aloft a dainty creation of glass, turned out by the skillful fingers of some one in the O. K. Johns glass blowers' establishment. It was pretty, and yet thousands of these pretty souveniers were given away yesterday by this pleasing company. The admission fee was reduced to five cents for the children and the tent was thronged all day long by wide-eyed children, to whom the spinning of the glass was a never-fading source of pleasure and wonder. The tent is on the Midway.

Seven English Roses.
At the top right-hand side of the "Ordure" there is an excellent vaudeville show under the heading of "Seven English Roses." Seven pretty girls, dressed in some popular songs and Mr. Campbell, in a comical song and dance turn, pleases everybody. All day yesterday standing room only was available, and the people take to this class of show early.

Webb's For Meals.
The place to get a satisfying meal with the best of service is at Webb's, where only the best is put on the table. Webb's are always ready to handle the big crowd which are sure to throng the grounds.

Educated Animals.
A good dog and pony show always draws, and, judging by the way the people flocked into Shepp's vaudeville attraction, which is located on the left hand side of the "Ordure," this is no exception. The show opens

1. P. Maher, Lord Norfolk, Lord Norfolk, 3; Jas. Meade, Wilksport, Tom Chum; 2. H. Head, Scarborough Junction, Spider, 4.

Foal of 1908; George Davidson & Sons, Luella D., 1; Miller & Miller, Besse, 2; Norman Davies, Bay Colt, 3; J. M. Gardhouse, Lady May, 4.

HEALTHFUL HOMES.
The Subject of Brilliant Exposition

Healthful surroundings, personal comfort, recreation, education and training are the five rules recommended to the patrons of the complimentary theatre of the National Cash Register Co. in the woman's building, as conducted by the moral and physical uplifting of any community. So great was the rush to this attraction at every performance yesterday that the specially adapted and altered seats did not accommodate the interested patrons.

But the frequent intervals in which the program is repeated give every one the opportunity of learning in the brief space of 20 minutes things about homestead, gardening and neighborhood improvement and adornments that have required years of systematic and careful application, to develop. People were explicitly shown, by clear and well selected views, the various changes in environment that are possible if only a little pride is taken in one's abode. Artistically colored views were flashed upon the eyes of hundreds, illustrating the various changes in a single spring transformed into cosy, inviting and cheerful residences.

The effect in each case was largely produced by the artistic planting of suitable flowers and shrubbery. All of which was explained in a manner that would leave an everlasting impression and it was safe to assume that hundreds of families will benefit by the instructions of Lecturer Albert Upton.

A Night in the Orient
Opens with a juggling act which is cleverly executed, and followed by an Oriental marriage ceremony. The juggling act, which is a scientific and her reputation is well established in this line. Her Symphonium will be found on the right-hand side of the "Ordure."

Character Studies.
Madame Baxter and her assistants who do strictly character and present environments, plain reading, are well worth a visit. Madame Baxter is a scientific reader and her reputation is well established in this line. Her Symphonium will be found on the right-hand side of the "Ordure."
