REPORTED REVOLT IN BUDAPEST

Paris, Feb. 22—A communist revolt broke out in Budapest on Thursday night, says a despatch to the Matin from Zurich, quoting a Swiss agency message from the Hungarian capital.

Killed Numbered 2414; Wounded 440 FLEET WAS RIDDLED

Official Account Shows Extent of Damage Inflicted by British Guns in Last Sea Fight—Several Craft Sunk by Germans to Prevent Capture—Crew Imprisoned For Five Days in Submerged Hold

London, Feb. 22—There is no reason to doubt the substantial accuracy of the German official account of the losses suffered by the German fleet in the Jutland naval battle on May 31, 1916, it is learned officially by Reuters.

Official details of damage done to individual vessels follows: Battleship Koenig struck fifteen times, and badly damaged. Ship went down by the head until her forecastle was only ten feet above water.

Battleship Mark Graf badly damaged, a torpedo having struck her. Battleship Oldenburg hit by a shell from destroyer which killed eleven and wounded about a dozen, mostly officers on the bridge.

Battleship Ostfriesland struck twice which tore large hole in her starboard side. She was assisted into port by salvaging vessels.

Battleship Schlesien slightly damaged by splinters and injured in confusion when she attempted to avoid the torpedoed Pommern.

Battleship Schleswig-Holstein so badly damaged that the repair work necessary required several weeks.

Battleship Luetzow sustained at least forty direct hits from British shells, which did enormous damage and was also twice torpedoed in evening after battle. She was abandoned the next morning and sunk by two German torpedoes.

Cruiser Moltke hit by three large shells and was under repairs until August. Cruiser Von Der Tann, one turret completely put out of action and another virtually useless.

A complete record of the British forces engaged in the battle shows twenty-four dreadnoughts, eight battle cruisers, eight monitors, eighteen light cruisers, and seventy-eight destroyers.

Many friends will regret to learn of the death of Thomas Livingston, which occurred this morning after a lingering illness. He was seventy-seven years old and was a member of the Orange order more than fifty years. He leaves to mourn two daughters, Mrs. George A. Earle and Mrs. William F. Griffin, both of this city, also nine grand-children and three great-grand children. The funeral will take place Monday afternoon at two o'clock from the residence of his daughter, Mrs. Griffin, 83 Erin street. Interment will take place in Golden Grove.

SITUATION IN MUNICH BAD

Berlin, Feb. 22.—(By the Associated Press)—Bavarian Minister of Interior Auer, who was shot yesterday was still alive last evening, according to reports received from Munich.

London, Feb. 22.—The troubles in Munich took a still more serious turn yesterday afternoon, according to a Copenhagen despatch to the Exchange Telegraph Company.

Church bells began ringing, 10,000 workmen from the suburbs marched into the city and a short time later, it is said, violent firing was heard.

The chief object of her visit to Canada was to confer with the government regarding a proposal to bring a large number of trained women workers from Great Britain to this country.

Mrs. Yeman was not able to talk of her mission, other than to say that she regarded her visit as highly successful.

She will return to Canada in May to complete the negotiations, and it is expected that interesting announcements may follow.

RETURNING TO ENGLAND AFTER VISIT TO CANADA

Mrs. Frances K. Yeman, O.R.F.C. O. B.E., and Mons Star, assistant commandant of the British Women's Legion, one of the foremost of the women war leaders of Britain, who landed in St. John in January, arrived in the city again today and on Wednesday, Feb. 12, when she was united in marriage to Harold Clinton Dow of Lincoln.

Mrs. Yeman has traveled across the continent visiting the principal Canadian cities and also found time for a trip to Seattle.

She expressed herself as delighted with what she had been able to observe in the limited time at her disposal.

She was accompanied by her husband, who is now engaged in the business of farming and was born and reared on the farm where he now resides.

WEDDED IN MAINE

Bangor Commercial:—A very quiet wedding took place at the home of Mrs. Alberta Amelia Fenwick, High street, Lincoln, on Wednesday, Feb. 12, when she was united in marriage to Harold Clinton Dow of Lincoln.

SUDDEN DEATH OF JAMES MACKIN

James Mackin, teamster, aged fifty-six years, died suddenly this morning at his home, 72 Brussels street, today. He had not been in the best of health but had been out for a walk this morning and his sudden death came as a great shock to his family.

ANOTHER BUTTERFLY

Mrs. John H. Erb enjoyed a visit from a pretty yellow butterfly, which flew into her home in Duke street this morning.

MRS. GERTRUDE BURTON

The death of Mrs. Gertrude Burton took place at the dependents' hospital, St. James street today. She died from pneumonia, which was contracted while on duty at the dependents' hospital.

The Evening Times and Star

ST. JOHN, N. B., FEBRUARY 22, 1919
The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

TO THE SCHOOL BOARD.

The New Brunswick Board of Education believes in the wider use of school buildings and has authorized school boards to grant such use.

Dr. W. S. Carter, chief superintendent of education, very strongly favors the use of school buildings as community centres.

The premier of the province sees no reason why such use should not be made of school buildings.

The minister of health and the provincial health officer see no objection on the ground of health except in times of epidemic, when the same would apply to all meeting places.

All the clergymen in the south end of the city, with one possible exception, have emphatically declared themselves in favor of a legitimate use of school assembly halls for such community purposes as are represented by the South End Improvement League.

The Kingston consolidated school was used yesterday for afternoon and evening meetings to discuss educational, social and economic matters.

Chairman John T. Hawke of the Moncton school board writes that the large hall of the Aberdeen school there is used for meetings of a general public character and there has never been any complaint of any damage.

In Halifax recently, of six ward meetings to discuss civic government were held in school houses. In Manitoba school buildings are used as polling places as well as for other community purposes.

Editors of Toronto and Montreal newspapers recently in the city reported that school buildings in those cities are used for community purposes.

Chief Supt. Carter, Fredericton, writes: "The use of school houses as social centres had become very general before the war, and during the war this has been greatly emphasized. In the United States the school house is the community centre. In Canada this movement is spreading very rapidly. Such movements as those of Women's Institutes, Boy Scouts, Red Cross, Parent Teacher Associations, Thrift Societies and Farmers' meetings centre around the school house."

This statement regarding the use of school buildings in Canada and the United States could be amplified by the direct information received by the Times. Social centre work is also making great advances in England.

The St. John school board has full authority in this matter. Some of its members are heartily in favor of granting the request of the South End Improvement League for the use of the King Edward assembly hall for its meetings and school buildings generally, where it is practical. Such use can only be delayed. It must come eventually in St. John as it has come elsewhere. Attempts by a few persons to trumpet up paltry or unfounded objections must fall in the end. It is up to the school board to put St. John on the map as a progressive educational centre; for, if school training does not make orderly young people, the social centre is needed to do what it can in that direction, and instill notions of citizenship into the minds of the young.

The Bavarian premier, Kurt Eisner, and a member of the Bavarian parliament have been assassinated and another member of the government and two officials wounded. In an address before the German National Assembly at Weimar yesterday, the chancellor, Philipp Scheidmann declared that "the young German republic would soon be faced by a severe upheaval if not a breakdown." Internal conditions in Germany are very bad and that country is paying a heavy price for the mad folly of its former rulers, none of whom, however, have yet been punished as they deserve. Indeed Germany is still unrepentant.

Remembering that it is Sir Wilfrid Laurier to whom reference is made, one reads with interest the following in the St. John Standard: "Special trains, bearing thousands of people from all over the Dominion began to arrive in the capital tonight, and it is estimated that between 50,000 and 75,000 persons will take part in, or witness the burial of the man who had won the hearts, not only of the people of this continent, but who, on account of his wise statesmanship, had been honored abroad."

In Halifax the Y. W. C. A. is conducting a campaign for \$12,000 to be used in furnishing the four homes the organization has established for girls in Halifax. Later they will ask for \$250,000 for a new building.

SIR WILFRID LAURIER.

At Ottawa today the last tribute of respect was paid to the mortal remains of one of the most distinguished of the sons of Canada. Sir Wilfrid Laurier has gone to his rest, but his name will be honored by succeeding generations and it will be well for Canada if the spirit of tolerance and of broad patriotism which were exemplified in his life moves all who rise to leadership in this country.

The tributes that have been paid to him show how universally he was respected, not alone for his rare gifts but for his vision and sincerity as a statesman. He was more than the leader of a party. In public and in private life he set an example of rectitude which succeeding statesmen may well seek to emulate. His passing has been declared by some to mark an epoch in Canadian political history, and certainly the country faces an entirely new set of conditions. We have come to the end of the war, and nearly to the end of union government. New problems, a new world outlook, a new relation to the rest of the Empire, to the United States and to all the countries of the world have come, and the nation is the poorer that it has lost the ripe wisdom of a great statesman and a great conciliator. But the inspiration of his life and his example will not be lost, and the problems of the new day will be the easier solved because he has lived and left to his fellow-countrymen the inspiration of a life regulated by lofty concepts of the duty of a patriot and statesman. It is inevitable that men differ in matters of public policy, and Sir Wilfrid Laurier had many and able political opponents; but they who opposed his policies never questioned his sincerity, or the noble qualities of his character in private and in public life. It may be truly said of him that he will live in the hearts of his countrymen.

The Standard yesterday pictured Mr. King, M. P., as "a very sore" and intimated that he and Dr. Hetherington, M. P., are just waiting for an opportunity to rend the Foster government because of its stumpage and pulp-wood policy. In reply, in an interview in today's Telegraph Mr. King corrects a number of gross mis-statements made by the Standard about stumpage rates, and adds that "both he and Dr. Hetherington will demonstrate in a practical way when the time comes that the Standard is sadly mistaken regarding their attitude towards the government."

In a speech in Halifax this week Rev. Dr. Cohen, formerly of St. John, but now of Providence, R. I., said:—"Canada can contribute largely to the success of the Anglo-American alliance by closer association with the United States and with England. There may be things about Americans and about Englishmen, too, that Canadians do not like. But we must remember that there may be things about Canadians that Englishmen and Americans do not like. We must all forget our petty prejudices in our larger international interests."

The citizens of Amherst have practically decided to make their soldiers' memorial take the form of a community building. Returned soldiers at the meeting at which a strong committee was formed to boost the project were greatly in favor of a community building. Senator Curry has offered to erect in Victoria Square a monument in memory of his own son and other Amherst young men who fell overseas.

Views of Le Soleil on Selection of Leader
Not a Question of Nationality, Says Paper, But Solely of Qualification

Quebec, Feb. 22.—In a leading article today Le Soleil, the organ of the Liberal party here, disagrees with the view of the Toronto papers and those of local Conservative organs relative to the appointment of a successor to Sir Wilfrid Laurier.

Replying to a local contention that the successor should be a French-Canadian, Le Soleil says: "The selection of a parliamentary leader is not a question of nationality, but solely a question of qualification. We have confidence that this will be the only thought of the Quebec representatives on this question."

The article also refers to the attitude of the Globe and Star of Toronto, saying that they seem unanimous to boom the candidature of Mr. Fiddling for the position.

While admitting the qualifications of the former minister of finance in the Laurier cabinet, Le Soleil adds: "But there are other considerations to be taken into account; we do not believe that the Liberal party can, in the campaign which it has to face, accept as leader, even temporarily, one of those who at the critical hour abandoned its ranks."

"The new leader of the Liberal party during the next session must, of all necessity, be a Liberal beyond all reproach, in whom the staunch Liberals of Canada can place their entire confidence."

Her Soul's Employer.
A comma often makes a lot of difference in a line, so does the spacing. A poetess wrote: "My soul is a lighthouse-keeper." The printer makes it read: "My soul is a light housekeeper."

Can You See Any Difference (twixt) Batch and Batch?

FOWLER MILLING CO., Ltd. ST. JOHN WEST

THE BRITISH SEAMAN SPEAKS

Carry food to Germany? What? Me? Listen, mate! The sea is red With the blood of comrades shed. Every night I see them there, Writing in the searchlight's glare: Hear my tale with four comrades here: God! my pal! They tied him, mate, To their U-boat's deck—then down, Down—and laughed to see him drown! Trave through that haunted sea To feed the swine of Germany? Not me! Not me!

Carry food to Germany? What? Me? Me, I dare not sleep for fear Of the things I see and hear— Glassy eyes that stare and stare Through a woman's floating hair; Pleading hands held out to me, Drowning men that shout to me, Empty seas that moon and throeb With a lonely baby's sob! Guide a ship through such a sea To feed the damned in Germany? Not me! Not me!

A NEW INDUSTRY AT GLEN FALLS

Portion of Buildings Formerly Occupied by Ford Co. Turned Into Auto Rebuilding and Painting Plant

Motorists and all vehicle owners will be greatly interested in the new motor car and general vehicle painting, refinishing and body building plant, which has been started at Glen Falls as a department of J. A. Pugsley & Co., in the buildings formerly occupied by the Ford Motor Company of Canada, Limited.

In this plant, which is one of the largest and most modern of its kind, they have a splendidly equipped paint shop, which is steam heated and dust proof, and large enough to permit of finishing more than eight cars at one time.

For the painting of vehicles, Messrs. Pugsley & Co. have been successful in securing the services of such expert painters as James McElwaine, who for some twenty-one years was engaged with the well known firm of Messrs. Masson of Fairville, Albert E. Dickson, who for many years was with Messrs. Price & Shaw, Kelly & Murphy, A. G. Edgecombe, etc., and the plant is in charge of Len Coleman, who also has had many years' experience with the above well known firms in St. John, as also in the United States.

Messrs. Pugsley now have on exhibition at their motor car showrooms, 45 Princess street, a number of cars which have just been overhauled and refinished by some of their customers, and they invite inspection of these, as also of the plant at Glen Falls, and they will be pleased to quote prices on car painting, recovering of tops, and overhauling in general of motor cars and other vehicles. As they have a large number of orders booked ahead, they advise that those desiring work of this kind make the necessary arrangements early.

SMOKE MAGDONALD'S INDEX

Bell Hearing Concluded.
Ottawa, Feb. 22.—Some hearing of the application of the Bell Telephone Company for a general increase in rates was concluded last night before the railway board after continuous sitting covering eight days.

The Formation of An International Parliament

LEON BOURGOIS' VIEWS

President of French Society For League of Nations Discusses Immediate Problems - The Special Concession to France

Paris, Feb. 22.—In expressing his opinion on a suggestion made by Hon. Charles J. Doherty, Canadian minister of justice, regarding formation of an international parliament to assure the working out of the plans of a league of nations, Leon Bourgeois, president of the French Society for the League of Nations, told the Excelsior yesterday that the creation of such a parliament need not be considered until later, when the work of the delegates of the league and the league's executive council may be judged by the results attained.

For the present, M. Bourgeois added, it was more urgent to solve the problems of the permanent organization for verification of armaments and for the execution of military measures. Difficulties, he said, already had had to be surmounted to reconcile the principle of sovereignty of states which are members of the league of nations with reciprocal obligations imposed on them; difficulties arising from the opposition between the constitution of certain states and their subordination to any form of super-state.

"Not that the assembly of delegates would be discarded, but that the character of the assembly," M. Bourgeois continued, "is insured by each member having only one vote, so that every state represented, but that it was hoped before long the last named would become entirely self-supporting. A British airship, according to General Seely, recently remained in the air for more than one hundred hours. At an average speed of fifty miles an hour, the under-secretary added, the airship must have covered more than 5,000 miles. It was possible that the airship could have continued longer in the air, he declared, notwithstanding the fact that it encountered considerable wind."

SENTENCED TO DEATH
Two Men in Paris Found Guilty of Espionage by Court Martial

Paris, Feb. 22.—Charles Hartman and Henri Guilbeaux, placed on trial yesterday before a Paris court martial, charged with espionage in that they communicated intelligence to the enemy, were convicted and sentenced to the death penalty.

Information says that M. Caillaux, former premier, who has been in prison for some time on a charge of espionage, has obtained permission to visit his wife, who is ill with the gripe and bronchitis.

AUTO PARADE MONDAY AFTERNOON

All this week the new McLaughlin cars have been on exhibition in their show rooms, Union street, and have been admired by a large number of visitors. On Monday afternoon (weather permitting) the public will have an opportunity of viewing these cars on the road. At 2:30 o'clock they will be lined up in Union street and driven through the principal streets of the city. This auto parade will be well worth seeing.

McLaughlin salesmen both in the city and from outside points report business good; particularly on Prince Edward Island is business good. This agricultural district has only been opened for autos about two seasons, but already the people show a marked discrimination in favor of McLaughlin cars. Five Master Six Extra Specials were recently sold in one day in Charlottetown, so that it is quite evident that "McLaughlin popularity increases in exact ratio to the spread of motor car knowledge" on the Island, as it does elsewhere.

NOTHING TO DO WITH THE PANAMA CANAL

Paris, Feb. 22.—(By the Associated Press)—It has virtually been decided that there is no possibility of the Panama Canal or of any northern American waterways coming before the peace conference in the proposed international regulations. The special committee on the subject of international waterways, it is believed, will confine itself entirely to a discussion of European rivers, making the ground for the existing arrangements between the United States and Great Britain relative to boundary waters sufficient.

It is asserted that the Panama and Suez Canals are not regarded as international waterways, each being within one country.

MORE THAN 100 HOURS IN AIR
British Airship Covered More Than 5,000 Miles—Plan for Air-dromes
London, Feb. 22.—During a discussion of the aerial navigation bill in the House of Commons yesterday, Major General John E. B. Seely, parliamentary under-secretary of the minister of munitions, announced that the government intended to make flying safer by providing a large number of air-dromes, some of them military establishments and some civil. The government, General Seely said, would pay the entire cost and would start the movement by providing a civil air-drome, but that it was hoped before long the last named would become entirely self-supporting. A British airship, according to General Seely, recently remained in the air for more than one hundred hours. At an average speed of fifty miles an hour, the under-secretary added, the airship must have covered more than 5,000 miles. It was possible that the airship could have continued longer in the air, he declared, notwithstanding the fact that it encountered considerable wind.

WORLD PRODUCE RECORD
TONNAGE DURING 1918
London, Feb. 20.—(British Wireless Service)—Lloyd's annual summary of the mercantile shipping throughout the world in 1918 shows that the total mercantile output of the Allied and neutral countries for that year was 5,447,444 tons. This figure has never previously been approached. It is more than sixty-two per cent. higher than the output for 1918, the record year prior to the war, which included Germany and Austria-Hungary, these countries being excluded from the present compilation.

YALE

LOCAL NEWS

MARRIAGES AND BIRTHS.
Six births were reported to the registrar's office this last week, four girls and two boys. There were nine marriages reported.

FINE PAID
Fred L. Carvell, who was tried by court martial on charge of supplying liquor to a soldier was fined \$200 or eight months in jail. He paid his fine.

MILL PROPERTY OFFERED.
The Miller property at Pokiok, consisting of twenty acres and with lumber mill, lime kilns and tenements was offered for sale at auction at Chubb's Corner at noon today by J. Lantim. It was bid in at \$10,100 by Thomas K. Sweeny.

TO BE MARRIED
George C. Graham, of the C. P. R. passenger department, left last evening for Montreal, where he is to be a principal in a nuptial event which is to take place on Monday. Prior to his departure, he was made the recipient of a beautiful mahogany and brass clock by his fellow associates in the C. P. R.

FIRE TODAY.
Fire broke out about half past twelve today in house in Cranston avenue, owned by Mr. Wilson. The fire was around the chimney and an alarm was run in for the North End fire department. The chemical was soon on the scene and was able to extinguish the fire before much damage was done.

DEATHS TWENTY-FIVE.
The number of persons claimed by pneumonia and influenza during the last week number thirteen, eleven from pneumonia and two from influenza. Other deaths are reported as follows: Senility, two; pulmonary tuberculosis, two; embolism, peritonitis, endocarditis, marasmus, malnutrition, cholera, fracture of skull and internal hemorrhage, each one, making a total of twenty-five deaths.

MUST SHOW NUMBERS.
The city chamberlain announced this morning that the license law which requires all coaches for public hire to display their license numbers will be strictly enforced and that any coachman who has not complied by March 1 will be prosecuted. This regulation is intended as a measure of protection for the public and it is the intention of the city to see that it is carried out.

WEST END SCHOOL SITE.
Members of a committee appointed by the school board to report on available sites for a new school building in West St. John have been going into the matter informally and have located several desirable places. A. Colby Smith said this morning that the chief difficulty would be in deciding among the various sites, which seem to offer equal advantages. The committee of which Mr. Smith is chairman will meet next week to go into the matter more fully.

ST. PHILIP'S CHURCH
St. Philip's church congregation, in the words of its pastor, Rev. R. H. W. Pinkett, "to alleviate the present condition which has been a source of annoyance to our congregation, and to protect ourselves from a worse condition," has secured the lot adjacent to the church, which is on the corner of Pitt and Queen streets. The first payment already has been made by members of the congregation, many of whom, the pastor says, have made a great sacrifice.

TO BE BURIED HERE.
The body of Mrs. Teles Toole, wife of Percy Toole, who died in Brooklyn, N. Y., on Tuesday, was brought to the city on the Boston train at noon today for burial here. The funeral will take place on Sunday afternoon at 2:30 o'clock from the residence of her parents, 190 Millidge avenue. Besides her husband and infant son, Mrs. Toole is survived by her parents, Mr. and Mrs. William Estey, the former at present overseas; three sisters, Hazel, Gladys, and Mabel, and four brothers, Oscar, Cecil, Arthur and Ralph.

THE PARKS HOME.
The Board of Health have stopped the work of returning to the militia authorities the hospital fittings used at the Parks emergency hospital, pending permission from the government to use the military stores over again for new work in connection with the arrival of returned soldiers and their families, as being undertaken by the Hospital Aid Society. Last night's Times stated that the Parks Home was being considered as an overflow orphanage for Protestant children, and doubtless this matter will be taken up later.

WILLIAM LINGLEY.
William Lingley of 87 High street, who has been an invalid for twenty-one years, passed to his rest this morning. He was fifty-seven years old and leaves his wife, six daughters and three sons. Two of the sons are overseas. The daughters are Mrs. G. A. Johnson of this city, Mrs. A. J. Erickson, New York; Mrs. George McAuley of St. John, and Miss Annie Yerr and Mildred, at home. The sons are Corp. Otty Lingley and Pte. Harry Lingley, overseas, and Kenneth, at home. A wide circle of friends extends sympathy to the bereaved family. The funeral will take place on Monday afternoon from the Mission church, Paradise row.

HAS RELATIVES HEHE.
A movie star new to the St. John public was seen this week in Olive Tell. The Times has been informed that the comely actress is Genevieve Manahan of New York, cousin of the Misses McLaughlin, and also of Rev. A. J. O'Neill, West St. John. Olive Tell—which is a stage name—has an elder sister more famed in the theatrical world than she is, although both sisters have splendid professional connections. The star seen here this week appeared with Thos. A. Wise last season and is also a leading woman in the Henry Miller forces, one of New York's exclusive agencies. She has a stage presence very much like Margaret Anglin and of the type of beauty belonging to Elsie Ferguson.

ROYAL SCARLET OFFICERS.
At the annual meeting of the Royal Scarlet Chapter, which was held last evening in the Orange hall, German street, officers were elected for the tenth term as follows: Worshipful companion in command, William M. Campbell; excellent companion, W. W. Donohue; companion chaplain, James F. Arthurs; companion scribe, Alexander Ellison; companion treasurer, W. H. Sullis; companion herald at arms, J. Starr Tait; first lecturer, C. B. Ward; second lecturer, J. H. Burley; first conductor, Geo. W. Clark; second conductor, Porter Brown; inner herald, F. P. Napier; outward herald, Robert Willis.

FREE LOTS ONCE MORE HERE FOR THE GARDENERS

City Will Continue Arrangements at Manawagonish Road Property This Summer

Peace gardens will be available for citizens on the city lands, Manawagonish road, this year on the same terms on which the war gardens were offered for the last two years. T. H. Bullock, commissioner of harbors and public lands, has instructed the city engineer to go ahead with preparations for the garden plots this year along the lines previously followed. The lots will be free and those who have used them before will be given the opportunity to reserve the same lots again this summer. Lots which are not taken up by the former gardeners will be awarded to newcomers on the principle of first come, first served.

Commissioner Bullock intimated this morning that this may be the last year in which the lots will be available without cost. If it is decided to continue the use of the land for gardening purposes in other years it is probable that a small charge will be made in the way of rental.

HAS NEARLY 2,000 FOR THIS PORT

The S. S. Scotian sailed from Liverpool on February 19 for this port, with nearly 2,000 troops on board. The following is a list of the number of officers, cadets and other ranks, and the districts they are going to:

Officers, Cadets, Other Ranks	Districts
London	7
Toronto	18
Kingston	10
Montreal	9
Quebec	1
Halifax	4
St. John	4
Winnipeg	6
Victoria	12
Regina	5
Calgary	3
On Duty	6
Unknown	2

The Melita, Lapland and Belgic also are on the way and soon to leave for this side.

EMPRESS HERE IN A FEW DAYS

The C. P. O. S. M. Empress of Britain is expected to arrive in St. John on Tuesday, February 25, bringing more than 3,000 soldiers to the various districts throughout Canada.

F. J. G. KNOWLETON, IN LAW SCHOOL ADDRESS, EULOGIZES SIR WILFRED

Before opening a lecture on constitutional law, which he gave to the law students of the King's College Law school yesterday afternoon, F. J. G. Knowlton paid an appropriate tribute to the late Sir Wilfrid Laurier, as follows:

Gentlemen:—
Since I last met you, one great figure upon the stage of Canadian public life has passed hence. I have avoided in my lectures discussing with you the personal equation. I have tried to say to you that the lives of men as they appear leave their imprint in one way or another upon the country. I cannot, however, let fall the opportunity to say to you that Sir Wilfrid Laurier, in my own judgment, left a permanent imprint and an abiding influence upon the public life of Canada. Just as I have tried to tell you that the treaty of Paris of 1763, the Quebec Act of 1774, the Constitutional Act of 1791 assisted in forming, shaping and moulding the constitutional life of Canada, so this man endeavored in his way to harmonize the two races of Canada. His view of life was broad in perspective. I cannot illustrate this better than by repeating the substance of a speech delivered in the city of Halifax, a great many years ago, when he, a French-Canadian, addressing an audience in that old, historic city, said something like this: "Not since the days of Athens of old have such a galaxy of able men been produced in a single city as that of the province of Nova Scotia. Listen as you hear them—Howe, Archibald, Tipper, Murray, Dickey, and last, but not least, Fiddling in whose presence I bow tonight."
I do not, and shall not hereafter discuss personally public men, but this tribute, if it is such, is due my old leader.

BURIED TODAY.

The funeral of John Finch took place this afternoon from his late residence in Douglas avenue. Service was conducted by Rev. R. P. McKim and interment was made in Cedar Hill.

The funeral of Miss Mary McFadden took place this afternoon from the Mater Misericordiae Home. Service was conducted by Rev. Dr. J. A. O'Reilly and interment was made in the old Catholic cemetery.

The funeral of Miss Kathleen Garbutt Robertson took place this afternoon from St. John's (Stone) church. Rev. G. A. Kubring conducted the service and interment was made in Fernhill.

AT THE HOSPITAL.
Lt. Carr, who is in the military hospital improving steadily, Harold Baxter, who has been in the Infirmary on account of injuries received when he was run over by an automobile returned to his home in Harding street yesterday.

HEALTH OFFICER BETTER.
Dr. J. H. L. Brown, district health officer, who took ill early in the week and went to the General Public Hospital, was able to leave the institution today. His illness proved to be a cold only but, according to his own teachings, he took no chances.

MACAULAY BROTHERS & CO.

Envelope and Open End Day Pillow Slips

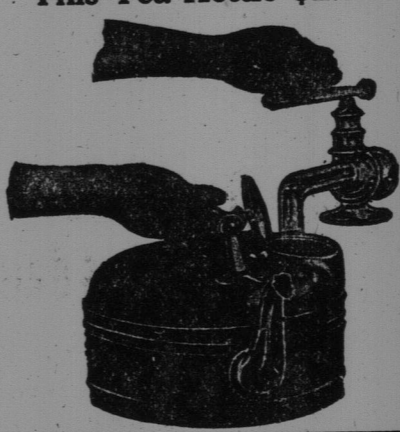

The Substitute for Pillow Shams

They cover the sleeping pillow case, in the envelope shape, the flap or top part is embroidered in solid work, button-hole edge or hemstitched. The Well Ordered Home Will Contain a Desk or Secretary

In the systematic home will ever be found a proper writing piece at which the orderly correspondence may be attended to.

Surprising too how easy it is to keep up with correspondence when a well chosen desk or secretary stands inviting you to valued servant at hand.

We are particularly fortunate in our showing at this time and you will find here the very piece you would desire, no matter what price you are prepared to pay.

Workmanship is the highest, of course. Designs are neat and attractive and the range of woods comprehensive.

May we assist you in furnishing the proper writing piece?

THE FIRST LAURIER CABINET

This photograph of the Laurier cabinet in 1896 has special interest today. Mr. Laurier is seen at the left center; at his right are Sir Richard Cartwright (dead); Sir Oliver Mowat (dead); Hon. Louis Davies (now Sir Louis Davies, chief justice of the Supreme Court of Canada); Hon. A. G. Blair, (dead); Hon. (now Sir) Clifford Sifton; Hon. William Mulock (judge of the High Court of Ontario); Hon. J. L. Tarte (dead); Hon. C. A. Geoffrin (dead); Hon. R. R. Dohell (dead); Hon. Sydney Fisher; Hon. F. W. Borden (afterwards Sir Frederick, dead).

Social Service

Address by Rev. H. A. Cody in St. James Church Sunday, Feb. 16

Text.—St. Luke 22:27, "I am among you as he that serveth." The key note of life today is Service. It is with a capital. We are trying to get back to the principle of the greater service of life. He came to serve, and we are to keep step with Him who came as a servant. I have been asked to speak on social service today. An appeal is being made throughout Canada, and this appeal has been set apart by the arch of England for this special service. I shall take the word "Service," and let it be a great word, and show how it is contained in it. Each letter will be a hook upon which to hang important truths, which in this manner, are more easily remembered and fixed in mind. Social. That is what service means—a social thing, and effects social general. Every sphere of life comes in its purview, from the highest to the lowest, from the meaneat to the most. Society is a great body, as St. Paul described it. It is one, and yet composed of many members. If one suffers with it, and if one rejoices in it, it is a great ideal, and it has been said, it has been said, if too long, like many a good thing, it will wear itself out. It is essential. The need is great for service. The social service programme, grand and glorious one. To read shows how very essential it is that we aggressive work should be carried on. It deals with the problems of weakness, of sexual vice, the feeble, the abolition of patronage, child labor, relations between capital and labor, rural social questions, immigration many other subjects. To read this should stir the heart and soul of every one, and cause him to desire to take in the great work. Social. This comes from the Latin "socialis," a root which means "together." It is radical, that is we must get down to the root of each problem. It is as thorough as possible. To get dirt, moping up the evils, instead of going to the source of the disease. A man wishes to get to the root of the cause which is affecting the patient, and quack remedies will do no good when all the time festering sores are allowed to remain untouched. Juvenile courts and jails will do little for the youth of our city and country. It is better to get to the root of the matter, and prevent trouble. Look at the homes, and their surroundings, give the children suitable places for healthy sports. Better a fence of up of a precipice than an ambulance bottom. Social. As the letter V is the centre of the word "Service," so is the letter S the heart of the word. Some people cannot see beyond their own noses, and their petty selfish interests. Dumb brutes have vision, hence they remain brutes. Savages have no vision, and are in a state of nature until they get a vision of us, and nobler things. True vision is us the needs of others. "Where do you see vision the people perish," so writes informs us. Christ had the vision, and He looked beyond His home circle, beyond His own count and told His followers that "the field is world" for their work. Social. Individual. Service is an individual act, by each and for each. We are inclined to shift all responsibility others, and blame them for failures, or blissions which prevail in our midst. Service is an individual thing. It is not to do my part, no matter what it is. It is who am my brother's ser. I am a part of the social order. I am responsible to God for my ser. The scene of the Great Judgment vs how praise or blame was meted to each soul for its individual part in the world. Let us not stand by and do and criticise others, but let each of us fight for progress and social advancement. All true service is based on the life of Christ and His teaching. A man said not long ago that "I could not carry on his business according to the plan set forth in the Sermon on the Mount. It was a sad situation that man and his business, certainly gave himself away. Perhaps could not, for that great sermon of Master demands justice to all, honor and truth. It cuts at the root of graft, corruption and all other things. If that business man could not then the fault was not with his business, but with the world he lived in. All reforms in the world have effected by the principles enunciated

ated by Christ, and the sooner we get back to them the better. His whole life and the burden of His message dealt with Social Service. "To preach the Gospel to preach deliverance to the captive, to liberty them that are bound." There is a whole world of meaning bound up in those few words, which we cannot afford to overlook if we are to do our duty today. Endurance. "Great is the art of beginning," Longfellow said, "but greater the art of ending." True service never gives up, but is carried on through sun, shine and darkness, across smiling valleys, up rocky steep, and over storm-enshrouded mountains, and on ever on with a faith that never wavers, a hope that is never quenched. The torch must be borne no matter what betides, until the day be done, and the weary runner hands the flaming light on to another. A great Social Service convention was held in this city a few years ago. The enthusiasm was tremendous, and there were many social reformers, alas for only a few days or weeks. Where are they now? What has become of all of those bright rays of hope and vision? Where the zeal? Where the enthusiasm? Gone, dead, the fire, in too many cases has gone out, and there is nothing but ashes. Was it because the great truths did not take root, or that the first opposition brought discouragement? That is no way to fight for the highest and noblest. That was not the way our boys fought in France and elsewhere on behalf of those things we hold dearer than life itself. Neither will Social Service be of any avail unless we are willing to throw ourselves into the conflict, endure to the very end and see it through. That is the whole meaning of service in a nut-shell. It is the Master's teaching and nothing less. PROHIBITION MAKES GOOD; TORONTO'S TESTIMONY Editor Times— Sir—After a year's experience of prohibition, Mr. Spence, secretary of the Ontario Branch of the Dominion Alliance, made enquiry of Toronto's business men, members of the Board of Trade, as to the working of prohibition. He received more than four hundred replies and of that number only were of an unfavorable character. The replies are summarized as follows: 1.—Retail and wholesale business increased and improved; a larger proportion of cash trade, a greater demand for the better class of goods. 2.—Increased regularity, punctuality and efficiency workers, resulting in greater earnings for labor and larger returns for capital. 3.—More employment at better wages. Better conditions and greater safety of work. Higher standard of living. 4.—Rent and taxes more promptly paid. Artisans building and buying homes for themselves. 5.—Home life bettered. Wages formerly wasted now used for family comforts. Insurers' Fathers more fatherly. Mothers more motherly, children happier. 6.—Savings bank deposits increased. Money diverted from bar and liquor shops to channels of honorable trade, giving health, strength and vitality to business generally. 7.—Hotel accommodation improved; now quieter, cleaner, safer and more home-like. 8.—Schools and colleges better attended. Improvement in health and morale of pupils, better results from work to teachers. 9.—Decrease in drunkenness and crime, fewer police cases, ability to apply prison reform methods from work of teachers. 10.—Poverty and pauperism lessened, ignorance and vice diminished, social reform work of all kinds helped and made effective. 11.—Former opponents of prohibition have been converted to the support of that measure by the operation of the law, and public opinion is today more pronounced in favor of this method of dealing with the evil of intemperance than when the various laws were enacted. 12.—Prohibition has come to stay in Canada, not as a war measure, but as a permanent legislative reform. Yours faithfully, H. HAZLEWOOD, Department of Social Service. TO FORM AFTER-WAR PLANS FOR RED CROSS H. H. Davison, of the American Red Cross, has been named chairman of a commission of Red Cross Societies representing the organization in the United States, Great Britain, Italy and France, to formulate a programme of extended activities in the interest of humanity.

Rev. Dr. Cohoe On Civic Affairs

In Address Before the Halifax Rotary Club, Says Fundamental Problems Are Good House-Keeping

(Halifax Echo) The Rotary Club had a double bill yesterday for their weekly luncheon—Miss Glass, general secretary of the Y. W. C. A., and Dr. A. B. Cohoe. The forty newspaper editors, who are making tour of the maritime provinces, were guests of the club. J. Fred Fraser was in the chair. Miss Glass was the first speaker. She spoke of the great need for proper housing in Halifax for the young girls and of the necessity for making the city a fit place for girls to live in, as it certainly was not at the present time. She briefly told of the work the Association was trying to do in Halifax, and asked for the co-operation of the Club members in the campaign for \$12,000, for which the committee had started out this week. After she said these things she went out for \$20,000 for a real home for girls. Dr. Cohoe's Address. Dr. Cohoe, in his opening remarks, commended the work being done by both the Y. W. C. A. and Y. W. C. A., especially since they had broadened their platform. He then said, before starting on his topic of address, "Civic Government," he wanted to speak of another important subject, the responsibility that rests on Canadian people at the present time of helping the nations to stand together. He said Canadians understood the Englishman better than the American did and it rested with them to bring these countries together for the American loved the Canadian and held him as a sort of hero since this war. "The man who tells you the United States thinks she has won this war is either a fool or an insane. I have met Americans who say they believed the best of their troops had to be efficient enough to stand by the Canadian soldiers. He pointed out the importance of overlooking the petty things, and looking for the facts that count. Dr. Cohoe said it has been mildly suggested to him that he speak of civic affairs. He had been told that the management of civic affairs in Halifax was of such a character that even the good citizens who never dabbled in politics were showing evidence of dissatisfaction. "Let it be noted then that modern city dwellers must keep house with the community. The time was when every man of considerable ability aimed at more or less exclusive independence of house-keeping. He bought an acre or more of ground, built a wall about it and lived, so far as housekeeping was concerned, by himself. The people who could not afford that sort of independence lived as best they could. Problem of Modern City. That day is passing. All men in a democracy aspire to become men of power and they must keep house together. That is the problem of the modern city. A problem of community house-keeping." Dr. Cohoe then went on to say that there were two ways of regarding it. One, and that most often met, the romantic style. It invariably comes out with the query: "How do you like Halifax." "We are then above any sordid consideration of details of house-keeping. We are in the realm of the spirit. We expect to reply in a kindred spirit. We want no prying scientific query about specific details. We want our city to be valued for the noble qualities of soul we know it to possess." The speaker also said the romantic style went into attempts at city building. A city pride is cultivated. We refer to any other place in a spirit of comparison and on all public occasions the soul of the community is cultivated. "But there is another style. Of it we hear little. It leaves the noble soul of the community alone. In fact, observers about the high things of the spirit a mysterious reticence. In cool, scientific fashion the man of this other method tells us that the fundamental problems of the city government are problems of good house-keeping. To get us started on the road he mercilessly invites comparison with similar communities, and not for joyful comparison of souls but for discovery of similar results. "For instance, he would ask a citizen of Fall River, Mass., why the rate of infant mortality in that city was 150 per 1000, and if he were here today he would ask why the rate in Halifax, with a small population, was twice as great as the rate in New York, and he would not hesitate in reply. He would say it was bad city government." Dr. Cohoe then went on to explain that the man of this other method would look into health conditions, stating that no

master how noble the soul nor how great its cast, if it murders babies year by year it could not be great. He would look into the dirt of the streets, to the community regard for the education; he would begin a cool investigation of the mystery of taxation. He would compare the system they administered with the best known systems, and he would then praise or blame. "The whole point is," said the speaker, "that good government is not a matter of good intention or good men. Good men never get anywhere merely by good intention. It is not going too far to say that in many places the men who are known as the very best men are a public nuisance. Their goodness covers up a multitude of sin. I have known many a good man to keep back for years the work of the man who scarcely knew whether he was good or bad, but who knew how to apply the methods that would work to the doing of a job that

CUTICURA
Quickly Heals
Eczemas, Rashes,
Itchings and
Irritations

In the treatment of all skin troubles bathe freely with Cuticura Soap and hot water, dry gently, and apply Cuticura Ointment to the affected parts. These fragrant super-creamy emollients tend to prevent little skin troubles becoming serious if used for every-day toilet purposes.

For sample of each free by mail address post-card: "Cuticura, Dept. B, Boston, U.S.A." Sold by druggists throughout the world.

SIR JOHN SIMON
A FUTURE PREMIER

Montreal Paper Sees in Late Attorney-General Successor to Lloyd George

(Montreal Journal of Commerce.)
One of the prominent Liberals who went down to defeat in the recent British elections was Sir John Simon. In the presence of such a sweeping victory as that won by Mr. Lloyd George's government, those who have only surface views of British politics may easily suppose that the men who have been defeated have reached the end of their political careers. That would be a great mistake. Many of the candidates who were rejected in the recent contest will within a very short time be seen in parliament again. One who will most certainly come to the front and take a high place in the politics of the empire is Sir John Simon. A brilliant lawyer and exceptionally well informed on economic questions, Sir John won a place in parliament more prominent than was usually attained by men of his years. While he was attorney-general he had the opportunity of going to the House of Lords as lord chancellor, the highest post in his profession. A similar chance came lately to young F. E. Smith, who eagerly grabbed it. But Simon refused the post because he preferred to remain in the House of Commons, the real centre of power. Differing from his colleagues at one stage of the war he resigned and returned to the practice of his profession, where his talents command a large income. Naturally he was invited to be a candidate at the recent election, and he shared the general downfall of his party. Defeat, however, has neither soured nor disheartened him. "Defeated candidates," he says, "are prone to dyspepsia, but I have no liking for people who labor to explain away their defeat, or who proclaim that the country has gone to the dogs because they have gone to the bottom of the poll." He fully recognizes the great qualities of energy and optimism which served Mr. Lloyd George against the enemy, and against his former colleagues and followers in the battle at the polls. His remains the public that a triumph very much like that of the recent election was won by the Unionist Government in a Kitchener election in 1900, and was followed by a Liberal triumph on the next appeal to the country. The problems of the immediate future," he says, "are not going to be solved by murmuring incantations. We have all got to do our best, with charity towards all and with malice towards none," to help, and not to sink. We shall see whether the proposals which Mr. Lloyd George makes are proposals which men and women who care more for the future progress of their country than they care for any personal success ought to support. If so, let us support them with all our might. If they really turn out to be of this character they will need the backing of us all, for they will certainly encounter the opposition of those vested interests which Mr. Lloyd George used to fight, but of which he says he is no longer afraid.

GERMAN PRESIDENT
WILL HAVE PALACE

Berlin, Feb. 21—(By the Associated Press)—The former ministry of the Prussian court in Wilhelmstrasse, according to the Tageblatt, has been selected as the future official residence of the president of Germany. The building stands in a solid row of government edifices extending through Wilhelmstrasse from the former British embassy to the chancellor's palace. It is outwardly of undistinguished appearance and faces on a square court in front. To the rear is a court with a garden extending through to the Tiergarten. The future residence of the president adjoins the palace of former Prince August Wilhelm and was for long years the residence of Prince Eulenburg, when he was minister of the court. The building requires extensive alterations and repairs before the president and Mrs. Ebert can occupy it. Temporarily the president and his family will be lodged in the Bellevue Palace in the Tiergarten when he comes to Berlin this week to make his debut as president in the city, which undoubtedly will soon regain its status as the capital of Germany despite its temporary eclipse by Weimar. President Ebert, following the German practice for a new head of state, will at it reported, soon leave Berlin on a series of state visits to the capitals of the various federated states. It is said that he will go to Vienna.

Perfectly Unreasonable.
Edith—Why did you break off your engagement with Jack?
Betty—He insisted upon knowing the names of all the others I am engaged to.

SWAIZEMA
CURES
ECZEMA

Extract from article (dated Nov. 20, 1915) on The Adulteration of Food and Drugs by United States Food Specialist:
Swaisema is a blood purifier and tonic builder of extraordinary merit. There came to my notice while in Kitchener a case in which a most miraculous cure was effected through this wonderful remedy. A gentleman whose injured leg caused by a simple "bark of the shin" as he termed it had developed into a running ulcerated sore, for two years eminent specialists had treated, at enormous expense, the injured limb, without success. He was induced to try Swaisema, which resulted in an absolute cure, and this with the purchase of two bottles only. The case in question coming as it did under my own personal observation, warrants me in telling readers of this page of one of the most remarkable "short cuts" to health I have ever seen.
Guaranteed and sold in St. John by J. Benson Mahony, The Ross Drug Co. Limited, Olive's Medical Hall.

Whether this be the course of events, it may be regarded as certain that within a short time Sir John Simon will find a seat in parliament and that he will resume a career which he believes offers every prospect of seating him in the prime minister's chair at no distant day. Meanwhile it is pleasing to note that the British government are availing themselves of Sir John's great ability by retaining him as one of their legal advisers at the peace conference.

SMOKE MACDONALD'S INDEX
Poor Illustration.
Tom—This saying that women always have the last word is nonsense. I told my girl last night I wasn't worthy of her and she remained silent.
Jack—My boy, if her silence in that case wasn't a mighty eloquent last word, I'll eat my hat.

STYLE - COMFORT - THRIFT

Thrift? Yes, we must all practice it this winter, but in buying gloves you need not sacrifice comfort or style. You want warm, durable gloves—gloves of good fit and appearance, and you probably expect to find them away up in price, as is everything else you buy.

You can have the greatest glove-comfort you have ever known at the same price you have been accustomed to pay—or less, by getting a pair of

BALLANTYNE GLOVE
Scotch Knit
FOR MEN

Made in Canada by the famous Scotch Knit process, they defy the cold and the wind and are of a fleecy softness that means real cold weather comfort.

Ballantyne's Scotch Knit Gloves are just what you want this winter. They have nothing to be desired in comfort or style, and their price conforms to the present need for National Thrift.

Ask your dealer for them

Other Ballantyne lines are: Knitted Coats, Pullovers, Caps, Toggles, Mufflers, Hosiery, Mitts, Men's and Boys' Jerseys, Children's Suits, etc.

POSSIBLE RESULTS OF PROHIBITION
(Toronto Star.)
Opponents of prohibition in the United States are making gloomy predictions. They say that there will be an epidemic of Bolshevism as a protest against infringement of personal liberty; an epidemic of crime, which will be made acute by demoralization; a heavier burden of taxation, due to the loss of excise revenue; illicit distilling and drug habits; discouragement of immigration, because Europeans will miss their accustomed beverages; contempt for law and order, born of failure to enforce the law in communities where it is not supported by public opinion; the growth of intolerance, and campaigns against cigarettes, gambling and profanity. The other side is forcibly set forth in an article in the Philadelphia North American: "It means a conservation of national credit; unemployments, many years will equal the colossal costs of the war. By ending a wasted expenditure of \$2,000,000,000 a year it will divert that sum to the satisfying demands for necessities and comforts of life, creating incomparably the greatest new market any legislation could open to American industry. It will multiply the man-power of the nation and enhance the skill of its workers, giving America a substantial advantage over those countries which continue to carry the alcoholic burden. It will conserve vast stores of foodstuffs and other raw materials, ease the strain upon transportation, end a tremendous waste of fuel, and release scores of thousands of workers for productive employment. It will relieve industry and labor of a heavy load due to inefficiency, costly accidents, and lost working time.

"These are but suggestions of the economic benefits. In the social aspect the change will immeasurably reduce the evils of the crime, illiteracy, insanity, preventable disease, and poverty."

As to the threatened decline of immigration from Europe, the answer may be that congress is preparing to stop all immigration from Europe for four years, and that the United States will be better off if immigrants who cannot do without intoxicants are excluded. The economic argument for prohibition is powerful in view of the industrial and commercial rivalry that many believe will follow the war. The human energy that will be conserved by abstinence is as important as the energy to be derived from coal.

PASTOR OF LEWISVILLE CHURCH HAS RESIGNED; A POLICE COURT CASE
Moncton, Feb. 21—(Special)—Rev. S. W. Stackhouse, pastor of Lewisville Baptist church, has resigned. Announcement was made at the meeting of the church on Thursday evening. In the police court here this morning Alonso Decker, of Salisbury, pleaded not guilty to the charge of having thrown fish into a well belonging to a neighbor, Mrs. Jane O'Brien. The case was adjourned till February 28. P. D. Goodwin for prosecution, A. A. Allen for defence.

FREE PUZZLE PRIZE \$4500.00

In Cash has been Given Away FREE also hundreds of Merchandise Prizes \$200.00 more IN CASH will be Given Away as follows

1st Prize, \$50.00 in Cash. 2nd Prize, \$40.00 in Cash
3rd Prize, \$35.00 in Cash. 4th Prize, \$25.00 in Cash
5th to 9th Prizes—Each \$10.00 in Cash.

TOGETHER WITH MANY MERCHANDISE PRIZES

Herewith will be found the picture of an Aviator who has just dropped a bomb on a pile of shells. At first glance the Aviator and the Explosion appear to be all there in the picture, but by careful study the faces of several soldiers will be found. There are 7 of them in all. Can you find them? It is no easy task but by patience and endurance can be accomplished.

You may win a cash prize by doing so. Many have done this as will be shown by the names and addresses which we will send you. If you find the faces mark each one with an X, cut out the picture and send it to us, together with a slip of paper on which you have written the words "I have found all the faces and marked them." Write these five words plainly and neatly, as in case A, B, C, D, E, both writing and pictures are considered factors in this contest.

This may take up a little of your time but as TWO HUNDRED DOLLARS in cash and many merchandise prizes are given away, it is worth your time to take a little trouble to do it. Remember all you have to do is to mark the faces, cut out the picture and write on a separate piece of paper the words, "I have found all the faces and marked them."

WE DO NOT ASK YOU TO SPEND ONE CENT OF YOUR MONEY IN ORDER TO ENTER THIS CONTEST

Send your answer at once we will reply by Return Mail telling you whether your answer is correct or not, and we will send you a complete Prize List, together with the names and addresses of persons who have recently received over Four thousand Five Hundred Dollars in Cash Prizes from us, and full particulars of a simple condition that must be fulfilled. (This condition does not involve the spending of any of your money.) Winners of cash prizes in our late competitions will not be allowed to enter this Contest. This Competition will be judged by two well known business men of established integrity, who have no connection with this Company, whose names must be accepted as final.

Upon receipt of your reply we will send a complete list of the names and addresses of persons who have won \$1,500.00 in Cash Prizes in recent contests held by the publishers of this advertisement. Although these persons are entirely unknown to us they are our references. An entry from any one of them will bring the information that our contests are carried out with the utmost fairness and integrity. Your opportunity to win a good round sum is equally as good as that of anyone else, as all previous winners of cash prizes are declared from entering this contest.

CANADIANS IN LONDON AFTER POST-WAR TRADE

Ottawa, Ont., Feb. 21—Canadian manufacturers and producers are not a whit behind their competitors in the larger industrial nations of the world in their efforts to secure a share of the vast after-war trade in Europe. This is shown by a cablegram to the Canadian Trade Commission in Ottawa, stating that there are known to be at present in the capital of the Empire, representatives of Canadian manufacturers in the following industries:

Woolens, hand agricultural implements, ready cut houses, steel rails, pulp and paper and of beef and pork packers. In addition group organizations of the following Dominion trades have decided to send a direct representative immediately:

Manufacturers of garments, paints, hardware, stoves and candy and confectionery, while it is within the knowledge of Canadian Trade Commission that the boot and shoe manufacturers and furniture manufacturers have the matter of a representative in Great Britain under discussion.

DUKE OF DEVONSHIRE OWNER OF RECENTLY DISCOVERED OIL AREAS

London, Feb. 21—(By the Canadian Associated Press)—Important discoveries of fuel oil have been made on the Duke of Devonshire's estates at Chesterfield, Derbyshire, whose exploration has been carried on on a large scale and under official sanction. The supplies are described as vast. Experts are convinced that several other rich oil fields are in the country.

An authority says there is more oil in England than in the whole state of Pennsylvania.

A Tribute to the Hardest Worked Merchants in Our Country

HAVE you ever considered the important part played by the grocer in our daily life?

From early morn and often until late at night the grocer keeps open for our convenience.

Whether we want a 5-cent bar of soap, a package of tea or a sack of potatoes he is there to serve us—and with a cheerful "thank you".

You trade with him almost every day. You look upon him as a friend. He treats your children kindly when you send them to the store.

When sickness, accident or unemployment occurs, it is the big-hearted grocer who supplies the home with the

necessities of life and often waits a long time for his money.

He has had many trials during the past four years. Government regulations have hampered his business. Goods have been difficult to procure. Help scarce. Profits small. He sells on a closer margin of profit than probably any other line of retail trade.

For nearly twenty-five years, the T. H. Estabrooks Company has been distributing millions of pounds of Red Rose Tea through the grocers of Canada. Our relations with them have been very intimate and very friendly. We, therefore, know something of their difficulties and something of the services they are rendering, which we think deserve recognition and appreciation.

GHOSTS OUT OF A JOB.

Is the Potsdam White Lady in Holland?

There is one point about this wholesale abdication of crowned heads, which seems to have escaped popular notice. What is going to become of their attendant ghosts?

There is no self-respecting royal family on the continent which has or had not its ghosts or ghost. The question

is, do these apparitions go away with their families, or do they stay on as caretakers of the royal palaces?

The White Lady of Potsdam, for instance, the apparition who appears to foretell death or disaster to the Hohenzollerns. There is quite good testimony to the fact that she appeared before the death of the present Kaiser's father, and rumor has it that William himself saw her on that fatal day in July, 1914, when he declared war on France.

This White Lady carries a bunch of keys at her side and is supposed to be the ghost of Bertha von Rosenberg, who came to a violent end in the sixteenth century.

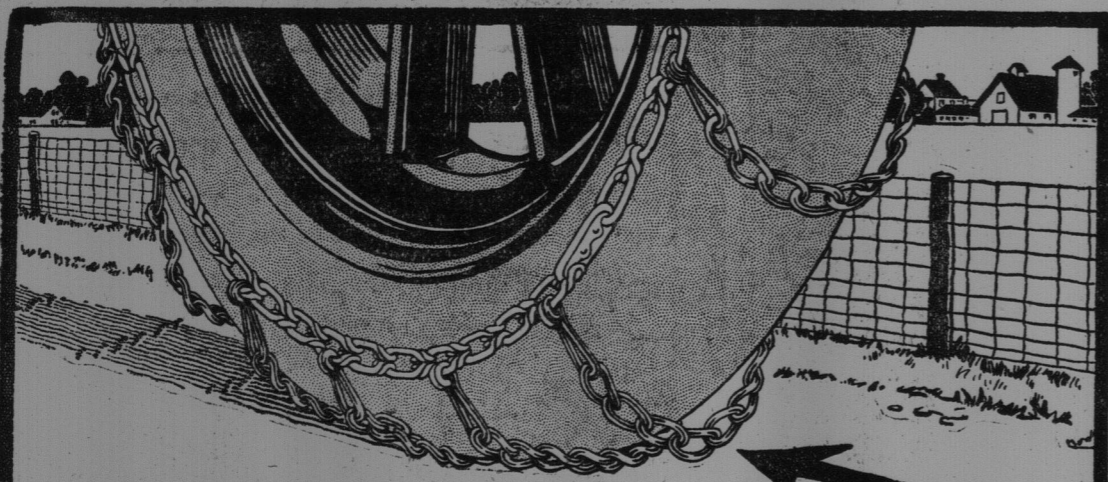

"I wait for judgment," she said, on one of the only two occasions on which she has been known to speak, and now indeed she has got it.

The Russian court was haunted by many a ghost, of which the most famous is the wraith of the great Empress Cath-

erine herself. The story is that this wraith began its haunting before the death of Catherine herself.

The Austrian royal ghost is a Green Lady. If she has had to appear before every tragedy in the Austrian family during the past half century, she must have been sadly overworked.

The last actual record of her having been seen was after the death of the unfortunate Prince Rudolf, who committed suicide in company with the Baroness Marie Vetsera.

Weed Chains lay their own Traction

By means of the peculiar construction of Weed Chains an effective traction surface is mechanically and automatically laid in front of the tires as shown in the illustration, just as if a carpet of pebbles were placed on the road so that the rubber tires have something to take hold on when the roads are wet and slippery.

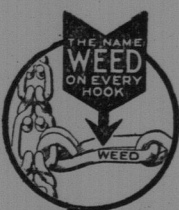

Thus friction is effected without affecting the tires, for Weed Chains grip without grinding—hold without binding. They hold on like a bull dog, always gain their ground; prevent side-skid and drive-slip.

No other device has ever been invented that takes the place of Weed Chains. They are the only traction device which can be absolutely relied upon at all times and under every road condition.

They Do Not Injure Tires Because They "Creep"

That is, they continually shift backwards around the tires, and therefore, do not come in contact with the tread at the same place at any two revolutions of the wheel. They are made of the best steel, electrically welded and highly tempered. Sizes to fit all styles and makes of tires.

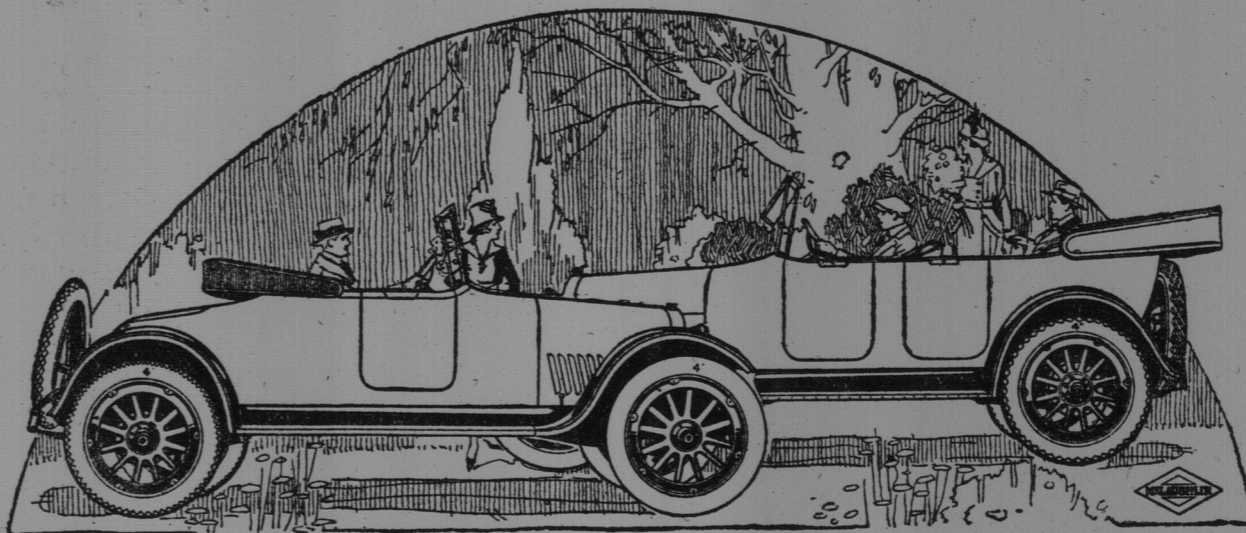

Stop at your dealer's today for two pairs of Weed Chains to fit all four tires of your automobile.

PREMIERS' VIEWS ON PROHIBITION

Testimony of Prominent Men of the Dominion

ALMOST UNANIMOUS

Canvass Would Indicate That Canada May Look Forward to Permanent Dry Spell

The opinion of some of the public men of Canada has been sought by the Prohibition Party on the question of total prohibition in Canada. The testimony of all sorts and conditions of men, preachers, members of parliament, professional men and business men is extraordinarily unanimous as to the great benefits which have resulted from the operation of the prohibition law, which is regarded in some quarters as the greatest reform movement of modern days.

Sir G. H. Murray, premier of Nova Scotia: "I regard prohibitive legislation in Nova Scotia as very beneficial." The Hon. T. G. Norris, premier of Manitoba: "Results are certainly beneficial, and the act working better than I expected." The Hon. W. M. Martin, premier of Saskatchewan: "Crime has decreased and formerly spent on liquor now finds its way into more legitimate channels, and the prosperity of the province as a whole has been increased."

The Hon. W. E. Foster, premier of New Brunswick: "This is not a suitable time to judge of the popularity of prohibition in New Brunswick. A better survey of its general effect can be made after the return of the men who have been overseas. Prohibition in New Brunswick since it became effective in May, 1918, has undoubtedly given satisfaction in many quarters, and its beneficial effects have been particularly noticeable in the reduced number of persons arrested for offences against law and order and the increased prosperity of certain classes of people. Following the closing of public bars, the Scott Act being in force in a large portion of the province before the prohibitory law came into force, may account for the result of prohibition not being so marked in New Brunswick as elsewhere."

Sir W. H. Hearst, premier of Ontario: "I am thankful to be able to say that the operation of the law has come up to my greatest expectations. Reports from all parts of the province indicate the success of the measure as well as the great benefits that are resulting from it. One very gratifying result of the act is the increased efficiency of the workers of this province in every branch of production. Employers of labor are unanimously of the opinion that our people are doing more and better work today than ever before. This is a good thing for the workers, and for their families, and for their employers as well, and it is a great thing for the country at a time when all our energies are required to save the Empire from destruction. In this way a patriotic purpose of the highest order has been served. Our information is that the hotel accommodation in

TOOK BRONCHITIS AFTER THE MEASLES

Measles is a disease that is very hard on children, and it generally leaves the system in such a debilitated condition that it is liable to attacks of some other trouble. One of the most common of these is bronchitis, which starts with a short, painful, dry cough, a feeling of tightness through the chest and difficulty of breathing, accompanied by a wheezing sound from the lungs.

There is a miasm of phlegm from the bronchial tubes which is very often streaked with blood. Bronchitis although not really dangerous, should never be neglected as some serious lung trouble is most liable to follow if it is. Dr. Wood's Norway Pine Syrup will loosen the phlegm, soothe and heal the irritated bronchial tubes, and in a short time the bronchitis will disappear. "Official figures indicate a large decrease in the number of convictions for drunkenness in the province. The small number of criminal cases throughout the province, and the absence of criminals in so many of our jails, bear positive testimony to the good influence of this measure in reducing crimes of all kinds, and there can be no doubt that the act has been instrumental in adding greatly to the comfort and happiness of thousands of our people."

"I feel confident that as our people become accustomed to the changed conditions, still better results will ensue. A generation will grow up free from the associations and temptations of the open and public sale of intoxicating liquors; the taste and inclination for alcohol will gradually disappear, and we will escape the terrible evils with which the excessive use of intoxicants has so long been associated. Many good people had doubts as to the wisdom and the practicability of the step. Today those who conscientiously opposed the measure are to be found among its strongest supporters, so that the public sentiment necessary to the proper enforcement of this law is constantly growing and guarantees alike its efficiency and stability."

The Hon. N. W. Rowell, M. P., president of the privy council: "If there is anything in modern times, and particularly in the developments since this war broke out, which has been forced upon the attention of all thoughtful people in all civilized communities, it is the demand for the efficiency of the individual, whether that individual be in civil life or in military service. That demand for efficiency is a demand that we should be able to accomplish the tasks which confront us as citizens, no matter what position or calling in life we may fill. The universal and unquestionable testimony, not only of science but of industry

trial leaders and of the military authorities, agrees that strong drink does impair the efficiency of the man who indulges in it. The open bar and the sale of liquor in our midst do work against the highest efficiency of the individual, the highest efficiency of the community, the highest efficiency of the nation, and in a time such as this, it is our privilege and responsibility to promote higher efficiency by removing that which impairs the abilities of our citizens."

The Hon. F. B. Carvell, minister of public works: "I intend to stand by prohibition, and I believe that is also the attitude of my colleagues." J. W. Edwards, M. E., Frontenac: "I beg to state that, having noted carefully the facts of prohibition in Ontario, I unhesitatingly declare that the good results following the adoption are so unmistakably overwhelming, that I doubt if 10 per cent of the people would ever give a moment's thought to the question of repeal."

Thomas H. Long, chief of police, Nelson, B. C.: "Drunkenness has practically disappeared, and men who were formerly slaves to strong drink are now honest and self-respecting. Crime has declined 80 per cent since the prohibition law came into effect." Senator Mitchell, Red Deer, Alberta: "During first six months of prohibition in Alberta arrests for drunkenness decreased 87 per cent. Since the prohibition enabling legislation passed, drunkenness is almost a thing of the past. The general effect on the business, industry, thrift, domestic, social and economic life of the people has been a very marked improvement. The ban of intemperance is a thing of the past. To no one is this changed condition of greater satisfaction than to parents. Any movements to repeal the act would not be tolerated. Public sentiment is overwhelmingly in favor of prohibition as the beneficial results of prohibition have become apparent."

J. R. Boyle, minister of education, Edmonton, Alberta: "It is a very rare thing to see any person on the streets who formerly drank heavily have succeeded in giving up the habit entirely. This is due to the prohibition act." Hon. J. A. Calder, minister of colonization: "The time for what might be called political juggling is gone by. When pledges are made, and when promises are made, the people will expect the government to live up to them. Hereafter pledges must be implemented, scraps of paper must be respected, and I wish to say on behalf of the government that it is the intention of the government to implement the announcement which it made to the people of Canada last October."

Hon. A. B. Hudson, attorney-general of Manitoba: "The act has done more good than any legislation ever passed by the province." Sir Hugh John MacDonald, police magistrate, Winnipeg: "There is decidedly less crime. Customers are paying their accounts more promptly and with more regularity. Money formerly spent on liquor is now being expended on food and clothing. Many people who at first were opposed to the measure, and voted against it, are now decidedly in favor of it."

Mrs. Nellie L. McClung, authoress and lecturer, Alberta: "Prohibition has fully justified itself in Alberta, in happier homes, greater school attendance of boys and girls who formerly had to work to augment family incomes, decrease of crime, increase in bank savings, more business and better business. There is no opposition to prohibition here now, and only one opinion about it, and that is that since prohibition came into force our people live better, dress better, and are better."

LABOR WILL URGE FOR 40-HOUR WEEK

Believe it Would Help to Solve Unemployment

Want \$5 a Day Minimum

Senator Robertson Warns Not to Be Too Drastic—Suggests \$4 minimum—Employs Doing Their Part

(Toronto Mail.)

On the ground that it would be the most effective means of solving the unemployment situation, special representatives of the trades unions who met at the Labor Temple last evening resolved that the Dominion government should be urged to immediately upon the convening of parliament, to enact a law to the effect that the maximum working week should be forty hours, with a minimum wage of \$5 a day, and they followed this up with numerous other requests calculated to relieve the general condition of unemployment all through the Dominion. The resolution was passed in presence of Senator Gideon Robertson, minister of labor, and he responded by cautioning the trades unions to use moderation, for he felt that if too strong demands are made upon industry at this time, their demands are apt to return in the form of a boomers'.

Senator Robertson came from Ottawa for the express purpose of hearing the demands of labor and to tender his advice as to their conduct. Discussing what the Dominion government is attempting to do to solve the problem, the speaker stated that the government is very detailed manner. The sum of it was his statement that the government has works under consideration which will mean the early expenditure of some \$240,000,000, which amount, on the basis of a \$4 per day minimum wage, would employ 1,200,000 men for six months. In addition, he declared, there is all the work which the provincial government and the city of Toronto are purposing to commence, and he believed that all this activity, if accepted in the proper spirit on the part of labor, would gradually solve the questions of unemployment and would bring about a very satisfactory condition locally.

\$4 Should Be Minimum.

"In my opinion," Senator Robertson stated, "four dollars a day should be the minimum wage. Also, the next six days should see the surplus of unemployed labor gradually employed, while in four months, labor employment of a permanent character should be established. There is only one reason why this ideal condition may not come about. "In elaborating that reason, the speaker pointed out that, following the signing of the armistice, the only fear of the government was that the employers would attempt to depress wages and cause unemployment. In order to meet that, the government called a meeting of the representatives of the Canadian Manufacturers' Association, and by putting the matter up to them seriously, obtained their assurance that there would be no attempt to cause unemployment. He believed that the majority of the employers were living up to that promise, for reports received from all over the Dominion have shown that labor is ready to be absorbed. "If the employers follow their present policy, there will be no shortage of employment," he concluded, "and nothing will happen."

That something, he defined as an attempt on the part of labor to force too many concessions. He drew an illustration from a building concern which had a contract for fifty houses, but which hesitated to proceed with the work. The builder's financial condition was such that he would be forced upon them by labor. They felt, as well, that in a couple of years, conditions might return to the normal, and he might be unable to sell their houses, except at a loss. Such conditions could be applied to many other industries. "There ought to be other methods of obtaining our demands," the Senator continued, "without passing such a resolution as you have passed, and without frightening industry by giving the announcement to the press. Industry is anxious to carry on, but some of them are frightened."

In pointing out what he believed to be the policy of labor, the Senator recalled that 90 per cent of the strikes in Canada in the past years had been called owing to the failure of employers and labor to get together. So his suggestion was that the employers should organize by industries, within the same territories, that labor should organize, by industries, within the same territories, and that the two organizations should get together, along the British lines, and arrive at some standards of hours and wages. "That, he believed, would bring about a stability of affairs which would avoid all misunderstanding. It would be desirable for the employer, because it would protect him from the danger of being undercut by other employers in his own line of business."

With a surplus of labor and a falling off in the market, is this a time to make too drastic demands upon industry?" he asked. "I fear the results may be directly the opposite to what you are trying to bring about. You must remember that by reducing the working hours per week and maintaining the weekly wage at the former figure you are increasing the cost of production, and therefore your action will tend to keep prices up instead of allowing them to drop; whereas if you continue on your present basis prices will drop 25 per cent, this year, and therefore the purchasing power of your wage will increase to that extent."

The Government's Plans. In enumerating the proposed expenditures of the federal government, Senator Robertson stated that the Canadian National Railways purpose to expend \$100,000,000 immediately in putting their lines into better operating condition, which sum is in addition to the amount to be spent by the C. P. R. and the G. T. R. Further, by adopting the eight-hour day on the railways, employment has been created for an extra 8,000 men on the operating staff alone. In the works department he provided an outlay of \$10,000,000 on canals, public buildings, etc. Of this, he was sure \$2,000,000 would come to Toronto, as the government is immediately starting new customs house. He predicted that within a few days the city would see work started on the demolishing of the present buildings. There was the \$25,000,000 set aside for the housing programme, the appropriations for highways

improvement, which he believed would be \$25,000,000 at least; there was the shipbuilding policy, which would see an outlay of \$50,000,000, and there was the \$130,000,000 set aside for war gratuities for returning soldiers. On the whole, he believed that to be a huge programme. As to highways, the senator declared it is commonly acknowledged that roads are a good investment to any country. He believed that to be a huge programme. As to highways, the senator declared it is commonly acknowledged that roads are a good investment to any country. He believed that to be a huge programme. As to highways, the senator declared it is commonly acknowledged that roads are a good investment to any country. He believed that to be a huge programme.

World Pay Unemployed. Following his address, the senator faced a mild shower of questions. A delegate wanted to know how all his suggestions would provide for the man who needs convening of parliament. The senator replied that it would be impossible to undertake anything which would give work to all unemployed men without employing married men \$100 a month, and the single men \$70 a month. "Under such conditions, it might be extremely difficult to get anybody to work," the senator replied. A practical suggestion, which the visitor promised to take up, was that the returning soldier should be paid his war gratuity in a lump provided he agreed to use it in building a home, under the government proposal.

In addition to the forty hours a week, with the \$5 a day minimum, the gathering adopted many other resolutions, as follows: Labor's Demands. That the government be requested, at the next session of parliament, to enact a law immediately that the maximum working week be forty hours, with a minimum wage of \$5 per day, the increase to be in proportion to the wages paid in the respective crafts. That the provincial government be requested to appoint a commission to take control of the \$2,000,000 construction appropriation, with equal representation of the government and labor on the commission.

Recommendation for the following list of civic works: Viaduct across the front of the city, new lavatories in the city, new courthouse and police station, new pavilions in city park, new library stock buildings at Exhibition Park, new public hall to seat 10,000, new roadways where needed, new sidewalks, 1,000 new houses, new public and technical schools, acquiring of Canadian aeroplanes plant for street car factory and the building of street cars and new lines.

Provincial works—Harbor improvements, new custom house, new post office, shipbuilding contracts, alteration to Long Branch barracks, and Rosedale Heights into hospital for the military, acquiring the British Fighting plans for the building of locomotives for the Canadian Government railways.

Remodelling of the east wing of the parliament buildings, repairs to Osogode Hall and other provincial buildings, new buildings to Toronto University, completion of hospital buildings at Whitty. That the government be requested to take up the question of the nationalization of all public utilities, under dominion control.

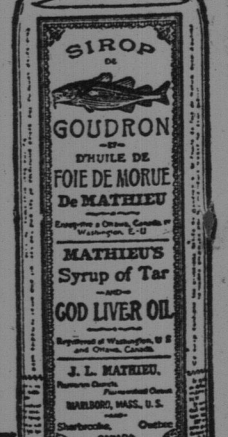

That a representative from each of the basic industries be appointed by the labor movement at the expense of the government to collaborate with the government in an advisory capacity. That the Ontario government pass legislation at their next session compelling all children to attend school until they reach the age of sixteen, and that an allowance of \$5 per week be granted by the government to the parents or guardians of the children from their fourteenth to their sixteenth birthdays.

That similar conventions be held in all parts of Canada for the purpose of making this a dominion-wide movement. That a mass meeting be held in Massey Hall to discuss unemployment at an early date. That a mass meeting be held in front of the provincial parliament buildings at the opening of parliament to impress on the government the seriousness of the unemployed situation.

That the representatives of labor take up with the proper authorities the question of the city of Toronto's allotment of the dominion government's \$25,000,000 set aside for housing purposes, with a view to obtaining immediate action.

To Cure a Cold

not only must the local irritation be soothed and the coughing stopped, but the system must be strengthened to enable it to throw off the cold. Mathieu's Syrup of Tar and Cod Liver Oil is an effective tonic, combining in a unique manner the healing properties of Tar with the up-building qualities of Cod Liver Oil and other valuable medicines. In most cases a permanent cure is effected no matter how deep seated the cough.

Mathieu's SYRUP OF TAR & COD LIVER OIL STOPS COUGHS. Sold in generous size bottles at all dealers. THE J. L. MATHIEU CO., PROPRIETORS, SHERBROOKE, P.Q. When the cold is feverish the use of Mathieu's Nerve Powders with the Syrup is advised. They delay fever and stop the pain. Sold everywhere, 25 cts. per box.

Five Thousand Soldiers in Toronto Want Farms

Five thousand returned men wanting to go on farms with the assistance of the government under the Soldier Settlement Act, and who applied to the Toronto office of the Soldier Settlement Board, have been awaiting the passing of the order-in-council which became law on Wednesday, making it possible for the board to advance them \$5,000. Yesterday's action on the part of the Dominion government will open wide the gates of the Ontario representative's office for business. From this date forward Ontario farms are likely to change hands at a very rapid rate, and the rural population will be increased by thousands of soldiers through the channel of the Ontario office of the Settlement Board. In contemplation of the increased activities as effort will be made to double the size of the Adelaide street offices of the board this week.

On Wednesday a returned soldier wishing to settle on an Ontario farm could have borrowed \$2,500, a third of which he would have to advance himself. Today the maximum loan is \$5,000, of which only \$500 need come from the soldier's personal funds at the outset. Wednesday he would have had to repay in twenty years at 5 per cent. Today he can sign up for a loan to be repaid at the same rate in twenty-five years. In very special cases, where a man is unusually qualified to make success of farming, and is not in a position to make the initial payment of \$500, he may be relieved of even this.

Soothes — Heals — Stops Suffering

Come, Let Mother See!

When the child droops, won't play or is restless, pale and grumpy, look to see if the tongue is white, the breath feverish, the stomach sour. Then hurry, mother, but don't worry! Give Cascarets, the harmless candy cathartic. Children take Cascarets without coaxing — only 10 cents a box!

TO MOTHERS! Nothing else "works" the nasty bile, the fermentations and constipation poison so gently but so thoroughly for the little stomach, liver and bowels like harmless Cascarets. With children usually fight against laxatives and cathartics, they gladly eat candy Cascarets. Cascarets never gripe the bowels, never sicken, never disappoint the worried mother. Each 10 cent box of Cascarets contains directions for dose for children aged one year old and upwards.

No Indigestion! Stomach Feels Fine! No Acidity, Gas, Souring, Dyspepsia

Belching gas, food souring in stomach, lumps of pain from indigestion and all distress from an upset stomach stops instantly. Yes! At once! No more stomach-headache. Never any indigestion pain. Pape's Diapepsin not only relieves bad stomachs but it strengthens weak stomachs. Splendid! Costs little — Any drug store. UPSET? Pape's Diapepsin WILL PUT YOU ON YOUR FEET

WHEN THE STOMACH IS WRONG LIFE SEEMS TO BE A BURDEN

digestion Comes With a Debilitated and Run-down Condition of the System and Can be Cured Through Enriching the Blood.

There are many symptoms of indigestion, such as acute pain after eating, belching of acid, nausea and vomiting, bloating and pains in the region of the heart, a dread of food for misery it causes. Dieting and the use of pre-digested foods may give ease, but can't cure they only further weaken the stomach.

APPETITE FAILED. FOOD TURNED SOUR. SUFFERED GREAT DISTRESS. Daniel Dexter, Liverpool, N. S., says: "For years I was a great sufferer from indigestion. I was troubled with the stomach which caused disagreeable sensations. I was also frequently troubled with nausea and vomiting, which were very distressing. As a result of my trouble my appetite almost completely failed, and what I did eat did me constant pain. I was constantly doctoring, but did not get any relief, and had about made up my mind that I would suffer for life. One day a friend asked me why I did not use Dr. Williams' Pink Pills, and while I did not much hope of a cure I decided to do so. I had only taken a few pills, when I found they were doing me very good. Very glad then I continued the use of the pills, and in less than two months I was as well as ever. I was able to eat a hearty meal, and that life was again worth living. I had also been troubled from time to time with attacks of rheumatism, and the use of the pills cured this as well as indigestion. It is now over a year that I took the pills, and in that time I have had no return of the trouble."

If you are suffering from any form of stomach trouble, or any of the many ailments due to weak, watery blood, do not waste time and money experimenting with other remedies, but in Dr. Williams' Pink Pills at once. Sold by all dealers in medicines or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As a Germ Laboratory

AUTO-INTOXICATION OR SELF-POISONING

'FRUIT-A-LIVES' Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain in The Back, Neck and Aches, are all due to it.

'Fruit-a-lives' will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on the eliminating organs.

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should.

GIRLS! TRY IT! HAVE THICK, WAVY, BEAUTIFUL HAIR

Every Particle of Dandruff Disappears and Hair Stops Coming Out

Draw a Moist Cloth Through Hair and Double its Beauty At Once

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a 'Dandruff' treatment. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be the effect on your hair when you actually see new hair—fine and downy at first—yet really new hair growing all over the scalp. If you care for your hair, and want it to surely invest a few cents in a bottle of Danderine at any drug store or toilet counter, and just try it. Save your hair! Beauty! You will say this was the best money you ever spent.

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

COMMITTEE TO DIRECT LIBERALS UNTIL A CONVENTION HELD

That is Outlook in Ottawa—Prediction of Stormy Session, Then Elections

COMMITTEE TO DIRECT LIBERALS UNTIL A CONVENTION HELD

Ottawa, Feb. 21—The new orientation of parliament resulting from the opening of another session with the war over and Sir Wilfrid Laurier departed from the forum he dominated so long, is gradually assuming a more definite prospective. Tonight members on both sides of the house are voicing a little more clear opinion as to the trend of political events—in so far as the filling of the opposition leadership is concerned it is becoming increasingly probable that the direction of the party caucus on Monday next will be to leave the vacant chair unoccupied for the present at least.

On the government side of the house there is apparent a growing feeling that the passing of Sir Wilfrid is fraught with perhaps more consequences to union government than to Liberalism. The union government had two "renewals," first the exigencies and necessities of war with the military service for the risks and troubles of another session, but with another election inevitable this year or next there will be a disposition to play for the early re-nomination of the present members, Liberal and Conservative, and consequently it is forecasted that the difficulties of Acting Premier White in holding all the elements behind him harmoniously together will be far greater than in the case last session. The general opinion now expressed by the members after discussing the new situation is that the coming of peace and the passing of Sir Wilfrid tend to precipitate the break up of the unionist party, and that this session will be a fairly stormy one to be followed by a general election.

POTATOES GOING DOWN

The bottom has dropped out of the potato markets as far as Ontario, Aroostook county and St. John river sections are concerned. Potatoes at wholesale in St. John are still quoted at \$8 a barrel, but that price is largely nominal and a reduction is expected.

CURE FATIGUE! BUILD UP! GET FAT!

Once You Start Using the New Blood-Food Remedy You'll Get Well Quickly.

You're nervous and uneasy. Appetite is poor. Sleep is hard to get. Still worse, you are thin and fagged out. Work must be done, but where is the strength to come from? Make your blood nutritious and you'll have lots of strength. Your only hope is Ferronose, an instant blood-maker, blood-purifier, blood-enricher. It brings back appetite, digests food and supplies nutrition for building up all the bodily tissues. Ferronose makes muscle and nerve-fibre, increases your weight, instills a reserve of energy into the body that defies weariness or exhaustion from any cause. For men who toil and labor, for the office man, the minister, the teacher—these will Ferronose bring a new life of spirit and robust health. For growing girls, women of all ages—no tonic is more certain. Sold in 50c. boxes by all dealers, or direct by mail from the Cataractose Co., Kingston (Ont.).

Former United States Senator Mason, Pioneer in Pure Food and Drugs Legislation, Father of Rural Free Delivery System Says Nuxated Iron

Increased His Power and Endurance So Much, That He Feels It Ought to Be Made Known to Every Nervous, Run-down, Anaemic Man, Woman and Child.

Opinions of Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital, Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York; and Former Health Commissioner Wm. R. Kerr, of the City of Chicago.

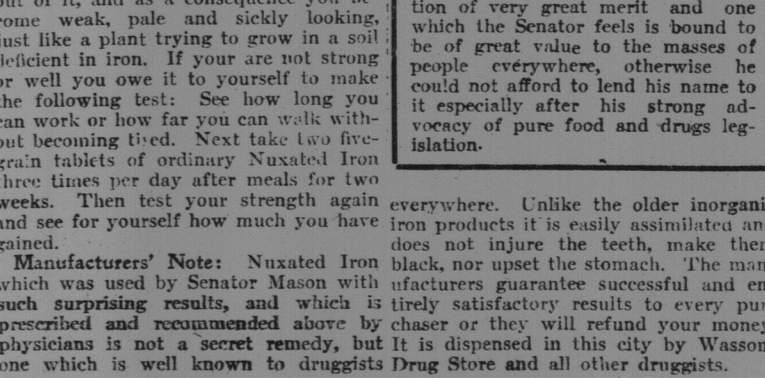

What Senator Mason Says Chicago, Ill. Gentlemen: I have often said I would never recommend medicine of any kind. I believe that the doctor's place. However, after the hardest political campaign of my life, without a chance for a vacation, I had been starting to court every morning with that horrible tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the food and drug legislation. I was at first loath to try an advertised remedy, but after consulting with my medical friends, I gave it a test. The results have been so beneficial in my own case, I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now sixty-five years of age and I feel that a remedy which will build up the strength and increase the power of endurance of one at my age, should be known to the world. Yours very truly, Wm. E. Mason

Senator Mason's statement in regard to Nuxated Iron was shown to several physicians who were requested to give their opinions thereon. Dr. Ferdinand King, a New York Physician and Medical Author said: "I have heard of Senator Mason's statement in regard to Nuxated Iron. There can be no vigorous iron men without iron. Pallor means anaemia. Anaemia means men and women is pale; the flesh flabby; the muscles lack tone; the brain fags, and the memory fails, and often they become weak, nervous, despondent and melancholy. Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Madison Dept.), New York, said: "Senator Mason is to be commended on handing out this statement on Nuxated Iron for public print. There are thousands of men and women who need a strength and blood builder but do not know what to take. In my opinion there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to increase the strength and endurance of the body. Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I have taken Nuxated Iron myself and experienced its health-giving and strength-building effect, and in the interest of the public welfare I feel it my duty to make known the results of its use. I am well past my threescore years, and want to say that I believe my own great physical activity is largely due today to my personal use of Nuxated Iron. From my experience with Nuxated Iron I feel it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country."

From the Congressional Directory published by the United States Government—Wm. E. Mason, Senator from Illinois, was elected to the 50th Congress in 1887, to the 51st Congress in 1889—defeated for the 52nd Congress 1892—Elected Senator to the 53rd Congress 1897 to 1903. Senator Mason is now Congressman from the State of Illinois. Senator Mason's championship of Pure Food and Drugs legislation, his fight for the rural free delivery system, and his strong advocacy of all bills favoring labor and the rights of the masses as against trusts and combines make him a national figure at Washington and endeared him to the hearts of the working man and the great masses of people throughout the United States. Senator Mason has the distinction of being one of the really big men of the nation. His strong endorsement of Nuxated Iron must convince any intelligent thinking reader that it must be a preparation of very great merit and one which he could not afford to lend his name to it especially after his strong advocacy of pure food and drugs legislation.

everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser who will refund your money if you are not satisfied. It is dispensed in this city by Wasson's Drug Store and all other druggists.

Manufacturers' Note: Nuxated Iron was used by Senator Mason with such surprising results, and which is prescribed and recommended solely by physicians is not a secret remedy, but one which is well known to druggists

OFFICERS ORGANIZE

The organization of the R. S. I. 1916 Club was completed at a meeting at the Victoria Hotel last evening attended by several graduates of the school conducted at the armory by Captain A. D. Correll in the spring of 1916. Lieutenant R. J. Harrington, who has been overseas in the forestry corps, was elected president and Lieutenant G. H. S. Hevenor, secretary. The following executive was chosen from among those present: Lieutenant C. F. West, Reg. Bonnell, Reg. Dean, Lieutenant C. Cavell, Charles S. Kee, W. P. Lewton, E. Davis, N. A. Palmer, Charles Kerrison, S. K. Smith and Fred Mahoney.

This executive is to be enlarged later and the officers would greatly appreciate hearing from the "Old Boys" of the class or from friends and relatives of those who took the course. Communications should be addressed to the secretary at St. John.

Practically all the members who qualified saw service overseas, a few having failed of appointment for various reasons. At a later meeting further plans are to be made for the social activities of the club, which is to be conducted regardless of creed, or other distinction, the main idea being to perpetuate the associations of the school, which was the only one held here during the war. Suitable recognition is to be made of the sacrifice of the men comrades in partial list of whom follows: Lieutenants James W. Holly, John T. Gibson, Arthur Reid, Maurice Mullaney, Sergeant-Major Fred H. Everett, Lieutenant R. N. Gilmore, Joe Semple, Jack Leary, L. D. Bird, J. J. Howes and Bob Macky.

BROTHERS IN FIGHT.

Another St. John man, now in Germany, who has won fame on the battlefield, is Sergeant F. E. Blizard, who has been mentioned four times in Sir Douglas Haig's despatches from the front. He is the son of Mr. and Mrs. H. Blizard, of 16 Hanover street. He is also a South African veteran. He gave up an automobile business in British Columbia in December, 1915, to go to France to fight for his country. He has been located in the west for the last thirteen years. He went overseas with the M. T. S. C. from

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomach, Liver, bowels. Give "California Syrup of Figs" if cross, bilious or feverish.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! See if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the little bowels without gripping, and you have a well, playful child again.

Mother can rest easy, after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweetens the stomach and gives their dear little ones pleasant taste. All directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs" then see that it is made by the "California Fig Syrup Company."

USE The Want Ad Way

British Columbia and in reaching England, was transferred to the imperial army. He has been wounded once and gassed twice. He also has a brother, Corporal K. L. Blizard, in the Fighting 28th Battalion. He has a host of friends here who will be glad to hear of his success.

HEAVY SEA STRIPS CLOTHES FROM MAN

Two Washed Overboard From American Naval Vessel Off the Azores

Washington, Feb. 22.—How Lieutenant Lewis G. Smith, a naval officer from Philadelphia and a seaman lost their lives at sea by being washed overboard from the Yarnall on Jan. 7 while under way from Lisbon, Portugal, to the Azores is disclosed in a despatch from Admiral Sims to Secretary Daniels, made public tonight.

The force of the wall of water that swept over the naval vessel was such that a third man who was hit by it was picked up nude, the sea having ripped all his clothing from him. Lieutenant Smith is a son of L. S. Smith of Philadelphia. Seaman Arthur is from Hannibal, Missouri, but the address of Seaman Lindstrom, who was picked up nude, is unknown.

"The Yarnall," says the cablegram received from Admiral Sims, "under command of Commander William P. Halsey, received orders to secure anchors and clear the forecastle for sea. Upon arrival in south channel a large swell was running and the speed of the vessel was reduced to dead slow, at which speed she rode the seas easily, barely taking the spray over the forecastle.

"By this time the forecastle was secured for sea except the hatch leading to the anchor engine compartment. Lieutenant Smith requested permission to dog down this hatch, which was considered imperative and he, Seaman Lindstrom and H. A. Arthur proceeded with this work, all the others leaving the forecastle.

"About three minutes after all the others had left the forecastle, which was about 11.30 p. m., a high white wall of water was seen ahead bearing down on the ship. There was no time to do more than yell "hold on." Immediately afterwards the sea struck and when the water was clear of the forecastle it was seen that none of the trio were left except Lindstrom, who was lying with a broken leg and other injuries, near the after check on the port side of the forecastle partly over the side.

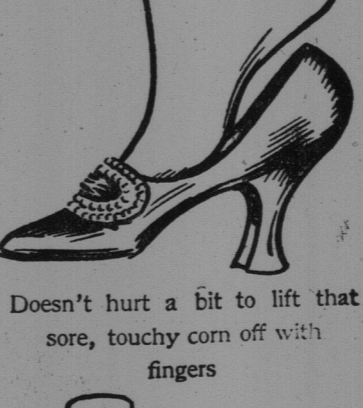

"Lieutenant Parrish and Ensign Schoewe, who were on the bridge, went to his assistance and dragged him to safety. When picked up Lindstrom was practically nude, the force of the sea having ripped his clothes from him.

"When it was discovered there were men overboard, life buoys were dropped and searchlights turned on. It was considered impossible to lower a boat, the only hope being that the men overboard might be sighted close enough aboard to heave them a line.

"Search was conducted from 11.30 p. m. to 11.30 a. m., but as the vessel was making very heavy weather of it due to manoeuvring in a narrow channel with high seas running, it endangered the vessel. Also it was considered that by this time the two men had either been in

OUCH! CORNS! LIFT CORNS OFF

Doesn't hurt a bit to lift that sore, touchy corn off with fingers

Drops of magic! Apply a little Frezzone on that bothersome corn, instantly that corn stops hurting, then you lift it off with the fingers. No pain at all! Try it!

Why wait? Your druggist sells a tiny bottle of Frezzone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness at all.

drowned or else washed up on South Cachopo shoal.

"The Yarnall then proceeded back to Lisbon and Lindstrom was transferred to the British Red Cross Hospital, after which the Yarnall proceeded to the Azores. The force of the sea which washed the men overboard was so great that it bent the jack staff, broke stanchions, twisted a bulkhead door and filled both engine rooms to the tops of the turbine casings."

Captain B. M. Monk.

Captain B. M. Monk, one of the officers who took ill on the Metagama, died in the West Side military hospital on Thursday. He is survived by his wife and child, who came to Canada with him, but who proceeded to Montreal, thinking that he was only suffering from a light attack of la grippe. His home is in Toronto.

YANKEE FACTORIES ARE KEPT INTACT

German Property Custodian Says Some Will Show a Balance—Kept on War Work

London, Feb. 22.—Americans owning property in Germany will find it intact, and in some cases that there is a considerable balance to their credit in banks as a result of the employment of their factories for war work, according to a statement made by Dr. Herman Niedere, controller of enemy property in Germany, says the Daily Mail correspondent in Berlin.

Herr Niedere's statement, according to the correspondent, which deals with the property of the nationals of all Germany's enemies, estimates it to be of a total value of £175,000,000, representing about 70,000 individual properties. Several of these properties are factories which have been used in the production of war material which was employed against the owners' countrymen and their allies.

Exact accounts of their employment have been kept and many thousands of pounds will be handed over to the owners or to their governments on the conclusion of peace, after a deduction of one per cent for bookkeeping. It is stated that the American factories have not been liquidated, although British factories have been.

WOULD DIVIDE NEW YORK INTO TWO STATES

Boston Monitor.—There are two bills now before the assembly at Albany for their purpose the creation of a new state out of a portion of New York. The latest is designed to create a "State of Greater New York," to be composed of New York City, Nassau, Suffolk, Westchester, Putnam, Dutchess, Ulster, Orange, Sullivan, and Rockland counties. These counties control the water supply of the City of New York, and contain a large part of its communal population. But let nobody take the matter seriously. It is particularly interesting only as recalling the time when Chicago periodically petitioned to be made a state all by its lone self, on account of the great percentage of the taxes of Illinois which it was forced to pay; and when Kansas City periodically expressed a desire to be separated from Missouri and to be created a commonwealth on its own account. One now never hears of those threatened secessions.

EVIDENCE TO CONVICT TWENTY SUB-COMMANDE

London, Feb. 21.—Reuter's Lim says it learns that the commission is inquiring into German submarine convict cases now sufficient evidence convict some twenty German subma commanders, nearly all of whom at present are in Germany, of murder.

Seven commanders in particular had records against them, according to Reuter's advice and the opinion pressed that their surrender and possibly an allied naval tribunal, should form a clause in the armistice terms.

**BEER IN QUEBEC
IF THE DOMINION
PERMITS BREWING**

Prohibition Discussed by Liberal
Members of the Legislature—
May be Beer But no Wine

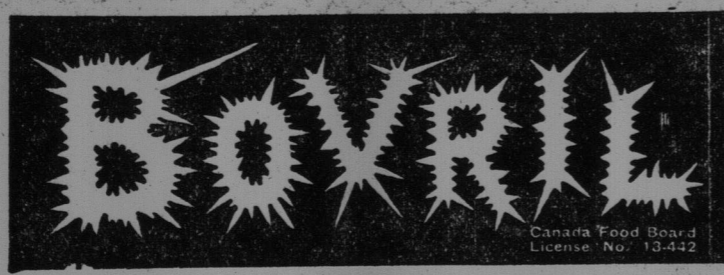

Quebec, Feb. 22—Maintenance of the
prohibition law passed at the last ses-
sion of the legislature seemed to be the
majority opinion of the Liberal mem-
bers of the legislature in caucus today.

**Appendicitis Operations
Not Always Necessary**

Internal Bathing Relieves the Cause.

Your physician will tell you that ap-
pendicitis is an inflamed condition of
the little sack called the Appendix at the
lower right-hand corner of the Colon or
large intestine. By cleansing this Colon
with purified warm water by the "J. B. L.
L. Cascade" this sack is cleansed and the
inflammation subsides. Hundreds of
operations have been avoided by using
the warm water cure for Appendicitis.

Mr. Jas. McLaughlin, 91 Ervanston street,
Winnipeg, writes:
"I had spent over fifty dollars with
doctors trying to cure Appendicitis. Finally
the doctor said I must go to the
hospital at once for an operation. Your
advertisement interested me. I bought a
"J. B. L. Cascade," which relieved me
at once, and am now completely cured.
Never felt better in my life; all pain and
soreness gone, and I eat and sleep like a
boy. I am grateful to Dr. Tyrrell for
this wonderful health-giving invention."
"80 per cent. of all human ills are caused
by accumulated waste in the Colon.
Internal Bathing with the "J. B. L. Cas-
cade" keeps this large intestine as free
from all waste and as clean as nature de-
mands it should be for perfect health.
Ask E. Clinton Brown, Druggist, Corner
Union and Waterloo Streets; also F. W.
Munro, Dispensing Chemist, 387 Main
Street, St. John, for booklet called "Why
Man of Today is Only 80 Per Cent.
Efficient." It is free. They will also be
pleased to show and explain the "J. B.
L. Cascade" to you.

However, there is a strong ray of hope
for those who wish to continue to
quench their thirst in the proletariat
beverage of beer. There is no chance for
wine apparently.

The caucus was, of course, secret, and
members who talked a bit showed that
they had gathered various impressions
of what happened. One fact is fairly
sure, and that is that there will be in
the bill this session a clause which will
permit the government, at its discretion,
to take advantage of any change in the
brewing situation, and this will likely
be a clause empowering the government
to decide just what is temperance beer.
It is now 2 1/2 per cent, but as with the
rose, it is felt that temperance beer of
5 or 6 per cent would taste just as good,
and be as satisfying to those who want
beer, as the 5 or 6 per cent beer now
sold, and termed an alcoholic beverage.
As usually happens after matters are
discussed in caucus here, the issue is
with the government.

The fact that in the province of Onta-
rio it is permitted to manufacture and
sell native wines up to 15 per cent has
some influence on the situation here.
It is pointed out here that the Ontario
grape exemption protects the Niagara
grape industry. Quebec province brews
beer, and has millions invested in it. Why
not protect the Quebec industry, argued
some members at the caucus, even
though they might not say so in the
house.

By leaving the matter of beer in the
hands of the government to act on by
order-in-council, it is felt by the mem-
bers that consideration will be given to
every eventuality. There are four fac-
tors that enter into the situation. The
first is Ottawa, the second the whiskey
people, the third the demands of the
labor unions for beer and the fear of
causing discontent and further unem-
ployment, and the fourth, which also
has an influence, is the prohibitionist
party.

In the discussion at the caucus it was

suggested by one of the members, who
is not a prohibitionist, though swaying
to popular opinion, that every man, or
woman, who has a stock of liquor
cached away against the gloom of the
future, shall be made to take out a per-
sonal license, and that these names be
registered so that they could be seen.
This, argued the member, would bring
to light the people with "wet cellars"
who vote "dry." This proposition re-
ceived little consideration.

Another deputy suggested that drug-
gists be held in check by stringent regu-

**Conserve
Your
Health**

The Brayley Drug Company, Limited
St. John, N. B.

lations from the sale of liquor, and that
doctors who grant prescriptions for
whiskey, as in Ontario, should not be
allowed to charge patients for these
prescriptions. This, he felt, would stop
the prescription abuse, which has had
the effect of making the Canada Tem-
perance Act in the city of Quebec, a
grotesque joke.

The question of giving those who
have stocks of liquor an opportunity to
dispose of them after May 1 was mooted,
and it was suggested that the govern-
ment take over these stocks, but the
general sentiment was against the gov-
ernment going into this business, and
also that as there was such a very large
stock of liquor in the province the cost
would be extremely high.

The question of increasing the in-
demnity of the members was referred
to in a general way, but no definite
opinion was expressed.

**MILLIONS SPENT
IN MAKING MINES**

Great Engines of Destruction
Cost Upwards of 100
Pounds to Make

(Pearson's Weekly.)
Since the war began we have laid
something like 4,000,000 mines. Subma-
rine mines vary greatly in size and shape,
but all are formidable and require much
expensive and delicate mechanism. They
cost from £100 apiece upwards.

If we put them at the very low figure
of £100 apiece, this means that a sum
equal to more than half our pre-war na-
tional debt has been sunk in salt water.

Now all these mines and a host of
Hun mines have to be recovered or de-
stroyed. We have stuck to The Hague
Convention by which it was laid down
that mines must be so constructed that
once they get loose from their moorings
they become automatically harmless.
The Huns, with their natural disregard
for scraps of paper, have left the seas
sown with floating mines, horrible en-
gines of destruction, which remain dead-
ly perils to shipping for months or even
years.

For a long time to come a large num-
ber of our smaller craft will be engaged
in the task of sweeping for these mines,
and destroying them when found. It is
desperately dangerous work, and al-
though the war is over, the casualties

RENNIE'S SEEDS

**A Billion and a Half
Worth of Food Required**

The greater part of Europe is on the verge of starvation. Over twenty million tons of food must be sent overseas. This makes the necessity for increasing our home grown output of food products greater than ever—people must eat more vegetables.

Every horticulturist should exercise careful judgment to insure that he sows seeds, which have been proven of the highest quality by germination. Our Trial Grounds at Long Branch are operated for the purpose of safeguarding our customers. All seeds which do not come up to the high standard of Rennie Quality are at once discarded.

**LOW Price has never been a consideration in design-
ing and building the Gray-Dort. Our engineering
department and our purchasing department have
but one aim—to produce the finest light car.**

That the price is reasonable is due to factory effi-
ciency and large production.

Especially if you have owned or driven another light
car, you will appreciate the refinements in the Gray-
Dort—the smoothness, power and pick-up of its
motor; the standard equipment; the comfort of
riding and driving; the unblemished beauty of line
and finish.

The touring car is \$1245; the Gray-Dort Special—the
car with added refinements and extra equipment, is
\$135 extra; there are also a coupe, and a sedan.
All prices f.o.b. Chatham and are subject to change

**Chocolates—
as a Dessert**

"PASS the chocolates again, please." They
certainly give a finesse to the meal, which is
a most decided improvement over the cus-
tomary heavy puddings or fancy pastries.

Good chocolates are quite the vogue now for the
third course and as a tasty, profitable and benefi-
cial dessert their use is a most sensible custom.

The many occasions on which chocolates can be
served with relish and appreciation make them
almost a household necessity.

As delicate, delicious desserts—at afternoon tea—
as a relish for luncheon—mid the family circle in
quiet hours—or at late suppers—chocolates may
be served with excellent taste and good form.

Chocolates are not a luxury. They are energy-
producing food and can be eaten in your home
with benefit to both old and young.

Canadian-made chocolates have no superiors.
Their high standards of quality and wholesome-
ness are obtained by purity in manufacture and
the careful selection of all materials used.

Serve Chocolates as a Dessert.
They are a Splendid Food.
