REMARKABLE EVIDENCE IN BOMB TRIALS IN INDIA

Educated Hindu Tells of Society Which Sends Young Men Abroad to Learn the Art of Murder — Self-Government the Aim.

Harry R. Thomas, now a resident of this city, has handed to the Star a copy of the Statesman, published in Calcutta, in which it gives a lengthy account of the bomb trials.

In examination witness stated that he was the son of Dabendra Nath Goswami of Serampore. His age was 21. He was educated in Calcutta.

The witness told of prominent persons who were making bombs in the city. Witness and two others were chosen to blow up the Lieutenant Governor's train at Chandernagore.

NECESSITY FOR ENERGETIC ACTION TO PREVENT DESTRUCTION OF OUR FORESTS

Brown Tail Moth Should Not be Allowed to Obtain a Hold in This Province — Other Insects Now at Work Are Doing Great Damage.

The average man has his time and attention pretty well taken up with his business and domestic affairs and therefore, to a somewhat large extent, matters which are really of paramount importance to the race as a whole, are left to a few who pursue studies about their chosen lines.

It is always hard to get a fair number of persons to take any interest in such matters as they are not conversant with and therefore warnings from doctors regarding the spread of disease or those of the natural scientists with reference to the preserve of injurious insects fall on many deaf ears.

More notice was, however, taken of such events when the stage upon which they were enacted was near home, and the enormous destruction caused by the gypsy and brown-tail moths in Massachusetts and neighboring states of the union to the south of us appealed more strikingly to our citizens.

It is also to be remembered that on the west our Province is bounded by the State of Maine, in several sections of which the brown tail has not in appearance. It is hardly reasonable, under such conditions to suppose that this Province should escape.

Figures representing the expenditure since the pests became numerous in Massachusetts would almost stagger a person unaccustomed to working in millions and our only chance is to get busy at once and find out whether we have the pest within our borders or not.

TALKS OF AIR TRIPS ACROSS THE OCEAN

Walter Wellman Predicts Great Achievements. Expects to See Airship Cross Atlantic Within a Few Years—Zepplin's Demonstration Assures Building of Aerial Navies.

NEW YORK, Aug. 7.—Mr. Walter Wellman, writes as follows to the Herald regarding the achievement of Count Zepplin's record-breaking voyage with his great airship surprises one familiar with the present state of the science of aerial navigation.

CANTON WABASSO AND THEIR PROVINCIAL TOUR

The following is the itinerary of Canton Wabasso of Fredericton, today, and will come to St. John on Monday.

It is through the Maritime Provinces, mainly a complete circle through "The Garden Provinces of Canada," stopping a day in each of the principal cities, and to be entertained lavishly by the Canton and Odd Fellows Lodges in the cities visited.

Fredericton is an ideal place for the tourists to spend the Sabbath in. The tranquil river flowing by the city, with its spreading elms and many churches, its broad, straight, level streets, and the excellent country roads that lead to the flowered fields with Wilmot park with its 20 acres of beauty enclosed as in a sylvan amphitheatre, its equal one might seek in vain to find.

This city is not without its buildings of historic interest. Prominent among these are: the old Government House—that once sheltered under its roof the royalty of England; the New Brunswick University; the Episcopal Cathedral; the Military Barracks; the Park Barracks, erected in 1759; and the handsome freestone Parliament Building, with its rare and valuable Legislative Library.

WALTER WELLMAN PREDICTS GREAT ACHIEVEMENTS

The modern airship or motor balloon will prove to be an effective engine of an enemy's position flying at an altitude giving her immunity from the attacks of strategic points.

The dropping of a thousand pounds of explosives down upon them is a fatal objection to the use of the Zeppelin or its polar airship, the America.

Count Zepplin's remarkable cruise cords for length of run. But there is no reason why the military cruiser of the future should not have a radius of movement of three or four thousand miles. Of course the greater the quantity of fuel that must be carried for a given distance.

Dr. Oscar Watson, of the Associated Press, New York, is spending a holiday with relatives here.

FAVORITES WIN TWO EVENTS OUT OF THREE AT CAPITAL

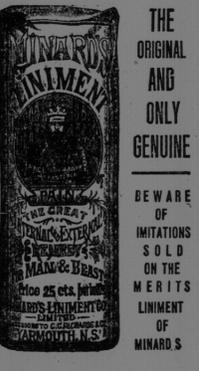

El Galo Has No Trouble Whatever in Capturing the 2.21 Class—Fast Class Goes to Duncanson's Terrace Queen—Brownette's Victory in 2.18 Class a Surprise—Excellent Weather and Large Crowd

FREDERICTON, Aug. 7.—Excellent weather prevailed for the second day of the Fredericton races, and, as on the previous day, everything passed off satisfactorily. The track was a little heavy, but this did not prevent the interest in the several contests. There were about one thousand in attendance, and many of the heats were exciting. In the 2.21 stake race and the named race, the latter being substituted for the free-for-all owing to the lack of entries, the favorites won out, while in the 2.18 class Peacharina, who was a strong favorite against the field, showed up in bad form and failed to gain even place. El Galo had no trouble whatever in winning three straight heats in the 2.21, and his driver in every heat appeared to be mostly occupied in watching the field from over his shoulder. It was the general impression that El Galo was the fastest steed on the track today and could easily have reduced its time by several seconds. In all three heats the going was never headed and won out handily. The fight for second position between Prince Altonday and Buchanan was keen and interesting. In the 2.18 Brownette trotted beautifully, and, like El Galo, had little difficulty in winning out. Miss Edith showed up in grand style, especially in the last two heats, and with Brownette led the field from start to finish. The named race was one of the best quality in all the heats, the horses always being well bunched. Simasie, who had been the favorite in the first heat, led from the start and coming in to the home stretch had two lengths to go. Buffalo was second, let out and step by step drew up, and when the wire was reached it was difficult to tell who was the winner. Tom judges decided in Simasie's favor. This was the best heat of the day. Alntree's two lengths behind the Queen, captured the pole at the first turn in the second heat, Simasie acting badly, and for over a hundred yards broke and ran. The little black mare lost considerably, but when started down drew up on the Queen and won by a great deal. The Argos made the turn first and led all the way home, winning by five lengths. Time, 9:32. Crews—Ottawa, Brockville, 23; Burpee, No. 3; Ellis, 2; Fape, bow. Argos: Spence, stroke; Meyer, 3; Sheriff, 2; Cosgrove, bow. W. Ward of the Dons' won the junior singles in 10:45. Walter Shine, Celtic Rowing Club, Buffalo, was winner. The best race of the day was the eight-oared junior event, in which Detroit Boat Club Argos and Toronto started. The crews were bunched throughout the entire journey, English Henley rowing club, Ottawa, and Toronto gained a slight advantage at the finish. The Detroit crew, which was the favorite, although the Argos cut down the early lead by a few feet in a spurt at the finish. ARTILLERY TO LEAVE FOR PETEWAUA TONIGHT

The first detachment of the 3rd New Brunswick Regiment, C. A., to go to Petewawa for its annual gun practice on the Artillery ranges leaves this evening over the Intercolonial. The detachment consists of ten men of No. 1 Battery and forms the advance party of that battery's Petewawa contingent. The ten men are principally gun layers who go in advance to get a few days' practice in gun-laying before the actual work with the guns. On Monday evening the remainder of No. 1 Battery's contingent will leave. Major W. H. Harrison will be in command. Capt. J. T. McGowan and Lieut. R. Magee will accompany him. In all No. 1 Battery will send to Petewawa three officers and forty-one non-commissioned officers and men. Among the non-commissioned officers who will go are Sergeant Major Brown, Sergeant Major Edwards, Sergeant Youngblood and Sergeant Lamb. The detachment will return on Monday, August 17th.

ANNUAL GATHERING HERE ON AUGUST 23

The fifth annual meeting of the Maritime Deaf Mutes' Association will open in this city on Sunday, Aug. 23, with services in the local association's rooms. The social and business ends of the convention will come up on the following Monday, Tuesday and Wednesday. His Worship Mayor Bullock will open the proceedings with an address. The locals are planning to give all the visitors a fine time. They will have a sail on the river or out the harbor, followed by an excellent programme of teas. The president, G. S. McKenzie, with the local officers, is working hard to make the convention a success. Annie and Fanny sat talking of the different things they wanted mother, on a visit to St. John, to bring them. Said Annie: "I hope she will bring me a ring." "Me too!" said Fanny, "but I want one of those with the pretty stone, like Walter H. Irving, the jeweller, 25 King St., has in his store. They only cost one dollar and twenty-five cents." Rev. Mr. Rose, of Hampton, will speak at the temporary meeting in the Every Day Club hall tomorrow evening, at 8:30 o'clock.

ST. JOHN STAR.

ST. JOHN, N. B., AUGUST 8, 1908.

A MONOTONOUS HOWL.

The great complaint of the opposition party throughout Canada, and one which is becoming very monotonous, is that elections are sprung on them. Provincial and federal governments, they claim, have a very distressing habit of not giving sufficient notice. This was the cry in New Brunswick last winter when the announcement was made some five or six weeks before nomination day. This howl went up all over the province in spite of the fact that the opposition party in anticipation of an election had been organizing for years and knew within a week or two when the election would be. The same is heard now in Saskatchewan, where Haultain's Provincial Rights are complaining everywhere that the elections were sprung on them, and that the government party is endeavoring to secure a snap verdict. All over the Dominion the Conservatives are making ready to voice the same complaint with regard to the federal elections. They know as definitely as men can know, that there will be an election this autumn. In preparation for this they have been organizing everywhere and are now quite ready for a contest. They realize that an announcement may be made at any time, and they are quite prepared to complain, when it is made, that they are taken by surprise and that the government is acting unfairly. This sort of thing loses force when continued too long.

THE SPEED OF TEMPERANCE.

It is apparent that the growth of temperance sentiment is not confined to the United States. In Canada the feeling against the use of intoxicants is becoming stronger year by year and during the past two or three years advances in this direction have been marked. What applies to Canada is true in an equal degree concerning New Brunswick and while certain valuable gains have of late been made, the growth of the sentiment is such that before long the temperance question promises to become the great issue in Provincial politics. This Province and Nova Scotia suffer from certain unfavorable conditions. The majority of the counties in each are under Scott Act but, it is extremely difficult to enforce this law, when the license system prevails in the centres of distribution, those located where the wholesale houses are located. The illicit traffic between wholesalers in the larger cities and the Scott Act counties has seriously hindered the enforcement of these regulations. There are now in existence both Federal and Provincial laws which forbid the carrying of liquor by express companies into Scott Act counties, but in New Brunswick the legislature has not yet provided machinery for the enforcement of these regulations. Still in spite of the drawbacks the sentiment in favor of prohibition is becoming so general that by the next session of the legislature, it is possible that a demand will be made for a Provincial prohibitory law.

The article printed in The Star today on the possibility of destruction of forest wealth by injurious insects, should be read by every one. It was prepared for The Star by a gentleman who is thoroughly acquainted with his subject and who is not by any means an alarmist. He is, on the contrary, rather inclined to take a very moderate view of the situation, and consequently his suggestions and advice, as given today, are worthy of regard. The ordinary business man has little time to devote to such questions as are beyond his own sphere of activity, but he can at least support whatever measures may be put forward for the benefit of the Province. It is intimated that the Provincial Government may, before long, arrange for some precautionary action against the Brown-tail moth. This moth has already obtained a hold in Nova Scotia and numbers have been secured in New Brunswick. While it is not known that they exist in this Province in large numbers there is still a possibility that this is a case in which an outlay sufficient for a thorough inspection now, would be a good investment even if it were found that the moths are not present here. This, however, should be part of a general forestry policy which it is hoped the government will adopt.

A New York paper tells of a man who found his wife at a moving picture show. Queer man who could not find his wife at a picture show these days.

Cumberland County electors have united in a movement having in view electoral reform. The aim of this league is the abolition of all corrupt practices on the part of persons either closely or incidentally connected with politics. Prominent men of both parties have joined in the movement which is regarded not as a spasmodic outburst but as an earnest effort in the interests of the Province and of Canada. Similar leagues might well be started all over the country. They could act together and could wield such influence that the standard of public morality would before long be improved.

FATHER'S SUMMER.

We hear a lot from poet chaps Who move our hearts to pity. Because poor father has to stay And work hard in the city. The while his family enjoys A glorious vacation. But this shows that the poet tribe Has missed his calculation.

For what does father do But quit his work at two And, after a most nifty lunch, hikes to the baseball ground; At eight dines a la carte Then makes an early start For the local Coney Island, where the wheels are going round.

We hear about his telling hard To meet his wife's expenses, And how he sends away each week His dollars and his cents; But that is most fictitious stuff The poet chaps are stowing. For making grey hairs sprout is just What father is not doing.

He sees a Summer blow, Where cooling breezes blow, And then he gets a touring car and has a midnight roam; And the only care he knows Is when this message shows: "We've all been bored to death here and now we're coming home."—Arthur Chapman, in Denver Republic.

NOT OUT OF THE WINDOW.

SATURDAY SERMONETTE

DON'T KNOW HOW TO USE CHILDREN.

Of course, old maids and old bachelors are the only ones who know how to properly bring up children, and what I know about the art is borrowed from the many lectures given me by my old maid aunt.

She tells me after I have caught my child I must commence to train it, and the first lesson I must teach it is that it is to have no will of its own. No matter what the child wants to do I must oppose it even though it wants to do something perfectly right.

To keep the child properly subdued it must be frightened regularly. Tell it the dark is dangerous, that there are evil goblins and all sorts of evil things watching for it, ready to pounce upon it.

My aunt tells me that if I want my child to grow up perfectly truthful, that I must be continually promising it rewards and punishments, and then forgetting all about them.

If I want my child to have perfect confidence in my word I must tell it that it cannot go where it wants to go or get what it wants to get, and then when it cries long enough and loud enough I give it what it wants. A few lessons (unless it is a very stupid child) will teach it that I don't mean what I say, and if it cries long enough it can get the moon if it wants it.

My maiden aunt tells me if I want an infant terrible on my hands to tell strangers (always in the presence of the child) all the bright things and cute things of the child, and after a while I will have a self-conscious little prig on my hands.

To get a selfish little animal I must teach him never to share anything he has with another.

As the child grows older I must give him whatever he wants. All the money he asks for, all the candy, all the holidays he wants.

A child humored, led to, never thwarted, having his own way, ought to be able to break your heart by the time he is twenty, if you carefully observe the above rules.

As the child grows to manhood or womanhood you want to tell them—especially before strangers—that they will never amount to anything. Scold them whenever you get a chance and make a chance if there is none handy. Always find fault with them, never commend them. Keep them at work, don't give them any holidays, and never give them a chance to earn any spending money, and if they should have some, don't give them a chance to spend it. By carefully observing the above rules you will have children who will have no love or respect for you, and who will pay you back for all your hardness and hardness with some interest.

A New York paper tells of a man who found his wife at a moving picture show. Queer man who could not find his wife at a picture show these days.

Mr. Walter Wellman who, it will be remembered did not go to the North Pole in a balloon is now explaining how very easy it would be to cross from Europe to America by the air line. Mr. Wellman has been for several years advertising himself as an Arctic explorer but Peary is closer to the pole now, than Wellman with his hot air will ever get.

ADMIRAL DECLINES TO BE DEFEATED

French Naval Manoeuvres Stopped Because He Objected to Giving Victory to "Enemy."

MARSEILLES, Aug. 8.—Owing to the refusal of a rear admiral to permit his squadron to be "captured," as ordered by his superior officer, the French naval manoeuvres in the Mediterranean have abruptly terminated. The incident, which has caused much amusement as well as some feeling among the partisans of the two officers concerned, involves Vice Admiral Germinet, the French commander-in-chief, and Rear Admiral le Ford, commanding the second division.

Vice Admiral Germinet arranged that the "hostile" fleet, which he commanded in the manoeuvres, was to capture Rear Admiral Ford's division in the roadstead at Porto Vecchio. The rear admiral received an intimation that he was to be taken by surprise and was to allow his ships to fall into the hands of the "enemy."

Instead of obeying orders and permitting Vice Admiral Germinet's fleet to swoop down on his squadron, Rear Admiral le Ford promptly put to sea, and when the "enemy" arrived Porto Vecchio roadstead was empty.

Vice Admiral Germinet was chagrined when he found that his plans had been upset, and he immediately terminated the manoeuvres. He followed this with an order condemning the "sentimental consideration" which inspired the actions of Rear Admiral le Ford.

Naval experts consider that Vice Admiral Germinet should have accepted the altered conditions and gone in search of the "opposing squadron."

How to Get Rid of Fat

A Remarkable Discovery That Can Reduce Fat Harmlessly at the Rate of a Pound a Day.

SEND FOR A FREE TRIAL BOX. IT MAY SAVE YOUR LIFE.

A quick, harmless reducer of fat, called Rengo, has come into popular use which far surpasses any method or treatment heretofore used.

Death From "Fatty Heart" Comes At The Most Unexpected Moment.

Rengo is perfectly harmless, pleasant to take, and it is chucked like candy. It attacks and removes fat tissue with unerring accuracy, and causes a gradual, harmless and effective reduction in weight, and without taking any drugs and other dangerous materials commonly called "antifats."

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by the Rengo Co., 322 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you will write them direct in Detroit; no free packages at drug stores.

For sale in St. John by all Druggists. Natives Drug Co., 100 Commercial St., Wholesale Distributors.

SIS WAY.

At the child grows older I must give him whatever he wants. All the money he asks for, all the candy, all the holidays he wants.

A child humored, led to, never thwarted, having his own way, ought to be able to break your heart by the time he is twenty, if you carefully observe the above rules.

As the child grows to manhood or womanhood you want to tell them—especially before strangers—that they will never amount to anything. Scold them whenever you get a chance and make a chance if there is none handy. Always find fault with them, never commend them. Keep them at work, don't give them any holidays, and never give them a chance to earn any spending money, and if they should have some, don't give them a chance to spend it. By carefully observing the above rules you will have children who will have no love or respect for you, and who will pay you back for all your hardness and hardness with some interest.

GERMAN PRINCES BECOME MONEY KINGS

Two Multi-Millionaire Aristocrats Unite Vast Fortunes for Business Purposes.

BERLIN, Aug. 8.—Prince Max Egon zu Furstenberg, reputed to be the Kaiser's most intimate friend and confidential adviser, and possessor of one of the greatest private fortunes in Europe, has joined forces with Prince Christian Kraft zu Hohenlohe-Oehringen, also many times a millionaire, for the purpose of conducting financial and industrial undertakings. They are said to cherish plans for concentrating in their hands some such control of the German financial situation as the "kings" of Wall Street exercise in the United States.

The first move has been to wrest control of the Levant Steamship Line from Herr Ballin, managing director of the Hamburg-American line, with a view to equipping a third great German navigation company which shall constitute a worthy rival to the existing lines at Hamburg and Bremen.

The princes' incomes are said to total over \$1,000,000 per annum.

Instead of adhering to the aristocratic tradition of investing their surplus funds in dividend-paying properties of various kinds, Prince Furstenberg and Prince Hohenlohe have arranged to assemble widely scattered property into a colossal, concentrated capital. Their purpose, in other words, instead of keeping their vast funds employed in other people's concerns, to mobilize their resources, estimated at between \$7,000,000 and \$10,000,000. They would \$25,000 in cash for the control of the Levant Line. A few days ago they bought out the Berlin Building and Land Association, which owns a number of extensive properties in and around Berlin and which is about to open the hotel and department store in the capital.

The princely syndicate has also concentrated \$1,000,000 to the German Palestine Bank. As the princes control more capital than any existing German banking house commands, their reported vaulting ambitions have created an immense stir in the business world.

GATTLE STARVE IN VICTORIA

Prolonged Drought Has Placed Stock Men In a Serious Situation.

SYDNEY, N. S. W., Aug. 6.—The transportation of starving cattle from Victoria to New South Wales owing to drought conditions in the southern state continues and is bound to last some time.

The recent rainfall was sufficient only to relieve for a time the position which by reason of the prolonged drought had become most acute. Natural feed for stock is beside the question, and in addition to this there is a scarcity of water in dams. The cost of hand-feeding has reached enormous figures; fodder is almost at famine prices, and one owner estimates that his expenditure under this heading will not fall far short of \$200 per week.

Naturally losses are very serious. Property owners with river frontage are going in for a system of irrigation.

THE PREACHER'S ADVICE.

"My friends," said the itinerant preacher, "the scriptural rule for giving was one-tenth of what a man possessed. If you feel you can't afford so much, just give a sixth, or a fourth, according to your means. We will dispense with the next hymn, and take up the collection."

STAFF CHANGES AT DALHOUSIE COLLEGE

Clarence D. Howe Goes to Chair of Civil Engineering

OTHER CHANGES

HALIFAX, Aug. 7.—Several important appointments to the staff of Dalhousie University are announced. Clarence D. Howe, a distinguished graduate in civil engineering of the Massachusetts Institute of Technology and lately on the engineering staff of that institution, has been appointed to the chair of civil engineering. Dalhousie G. M. J. MacKay, M. A., M. S., son of Dr. A. H. MacKay, superintendent of education, has been appointed demonstrator in chemistry and Mr. Stewart Lindsay, B. A., demonstrator in physics. Both are recent graduates of Dalhousie laboratories of Maritime Dental College.

THE SUFFRAGE MOVEMENT

The suffrage question is a very lively one in New York at present. The open-air meetings and other activities of the suffragettes are most successful. The audiences are remarkably attentive and thoughtful and the questions asked show a sincere interest.

Never before was the public so ready to consider this question. The panic and the resulting hard times have shocked men into a realization of the legislative blighting of which they have been guilty. They are no longer arrogant and self-sufficient; they are anxious and troubled and ready to be convinced that women could help them to solve their harassing problems.

A speaker with an intelligent grasp of economic questions is sure of an eager, listening throng. In every crowd there are many capable, industrious men out of work on account of the present business depression. These already know that men alone have failed to run the country properly, and they are open to the argument that men and women together could do better.

A machinist out of work, who six weeks ago argued strongly against woman suffrage, now attends the Madison Square meetings regularly, and carries the platform to and from Headquarters. The other day, when a new censor began some objections, he broke in with—"Say, you're green yet!"

TAKE CARE OF YOUR STOMACH

Take care of your stomach and your health will take care of itself. That is the golden rule of correct living. Your stomach is the factory of your body. It is there that the raw material we call food is prepared and made ready to be absorbed into your system and turned into blood, brain, bone and sinew. See to it then, and help it when it fails with Mother Seigel's Syrup, the great stomach healer, and you must be well. Mrs. David Martin, Beaver Brook, Albert Co., N.B., writing on January 20, 1908, says:—"I have used Mother Seigel's Syrup for stomach troubles, and would not be without it on any account. I had much pain after eating, and often could not retain my food. It was thought my complaint was chronic, but the Syrup completely cured me."

MOTHER SEIGEL'S SYRUP IS THE SURE MEANS.

Price 50c per bottle. Sold everywhere.

LITTLE LEAKS COST U. S. RAILWAYS \$300,000,000 A YEAR

The railroads of America waste \$300,000,000 annually through small leakages in their operations, according to an engineer of repute who has analyzed their methods...

Small Leaks Ignored. "Up to the present the chief officials have been engaged in getting the traffic and moving it within the limits laid down by the law. Enough attention has not been given to stopping small leakages, which in a great system, run into the millions."

Develops Better Workmen. "In taking up the study of shop efficiency," he said, "I had a moral as well as an economical motive. I saw that at present the workmen are too valuable to the railway to be lost by the loss of the foreman — a very real one, indeed — and the oppression of the union."

Fish as Turtle Catchers. A curious mode of catching turtles is practiced in the West Indies. It consists in catching a ring and a line to the tail of a species of sucker fish, which is then thrown overboard and immediately makes for the first turtle he can spy, to which he attaches himself. The fisherman then hauls both turtle and sucking fish in.

Delays Are Expensive!

Do not delay putting in your entry for the St. John Exhibition, Sept. 12-19.

It is said "delay is dangerous." In this case delay is surely expensive. The longer the entry is delayed the greater the cost.

The man who "puts off" his entry to the last minute is taking chances.

He is risking whether he can obtain a place in the Exhibition at all. He is surely risking the choice of a good position.

An exhibitor who starts to prepare to exhibit at the last hour cannot expect to get the full benefit of the show.

He will lose time looking for carpenters—he may get them and pay their prices for overtime or night work.

He will want printers to make attractive cards for him at the last minute, and will find so many orders ahead of him—that two or three days after the show opens—he will get his placards and the people will know whose exhibit it is.

Cotton signs are not painted in a minute, and the tardy exhibitor will pay two prices for them when done after hours, and then get them in his turn.

Here is a man who will not be behind time. His telegram today reads:

TRURO, N. S., Aug. 6, '08. R. H. ARNOLD, Manager Exhibition, St. John, N. B. Reserve me space for forty-five Carriages, coming Exhibition. (Signed), W. J. HENNING.

The Exhibition Management will lend a helping hand to Exhibitors who are unavoidably tardy, but even their staff of carpenters cannot do everything.

Exhibition openings in St. John have sometimes been noted for the sound of the hammer and the saw. This must not happen this year. Exhibitors must be ready on opening day, and nothing must discord with the music of the band.

This is another way to help along the Exhibition—Get your entries in on time—Get your exhibits ready on time, and by doing that you are helping us and yourselves at the same time.

R. H. Arnold, Manager.

EIGHT LIVES LOST IN FIRE ON STEAMER

Terrible Disaster on Lake Winnipeg STEAMER BURNS

Occupants Were Asleep When Blaze Breaks Out

WEST SELKIRK, Man., Aug. 7.—The steamer Wolverine brought the news tonight of a terrible disaster on Lake Winnipeg at Warren's Landing, where six lives were lost in a fire which destroyed the steamer Premier, the finest boat on the lake. The ill-fated vessel was lying at her dock there freighted for a return trip to this point when suddenly fire broke out about 1 a. m. Thursday morning when her thirty-eight passengers were peacefully asleep in their staterooms. The flames spread with such terrific rapidity that it was impossible to arouse them all and eight of them met a horrible death. The others escaped in their night robes only. The names of the dead are: Emil Jones, son of C. Jones of the Dominion Fish Co., who owns the boat; O. Overton, son of general manager of the same company; L. F. Ver West Selkirk; Mrs. Couture, Selkirk; Olson of Gimli; Gun Wiel, cook of Premier; Norman Fisher, cookee, and Miss Royal of Winnipeg.

All the big frezers which the fish company established at Warren's Landing, together with extensive docks, were also destroyed. There are only meagre details as yet available as to the fire originated, but it is known that the fire started in the hold of the vessel.

REACH EDMONTON IN THREE MONTHS

Splendid Progress being Made on the Grand Trunk Pacific

TRAINS RUNNING

OTTAWA, Aug. 7.—Reports to Mr. Collingwood Schreiber, consulting engineer for the Grand Trunk Pacific line, show that the road will be finished into Edmonton by the middle of November. By Christmas the rails will stretch from Winnipeg to a point seventy miles west of Edmonton, where a huge bridge is now being built across the Fortin river. In a week or two a regular train service will be started from Winnipeg to a point fifty or sixty miles west of Saskatoon.

REVENUE AND EXPENDITURE FOR FISCAL FOUR MONTHS

OTTAWA, Aug. 7.—The statement of the revenue and expenditure of the Dominion for the first four months of the current fiscal year, as indicated by the returns received by the finance department up to July 31st, shows a total revenue of \$25,000,000; total expenditure of \$25,000,000, and on capital account \$5,462,500. As compared with the corresponding four months of 1907 the revenue decreased by \$6,789,888, consolidated fund expenditure increased by \$829,442, and capital expenditure by \$899,357.

The total net debt at the end of the month stood at \$75,111,372, as compared with \$25,000,000 on the corresponding date last year. Tomorrow's meeting of the council will be the last for some time. The ministers after finishing up any arrears of work in their respective departments will each take a brief holiday before reassembling in council about two weeks hence.

It will probably be some weeks yet before the government office annuities act, passed last session, comes into active operation. The actual tables on which the sale of annuities will be based are now being prepared in the finance department and will take some time to complete.

Sir Richard Cartwright is arranging for the administration of the act under the supervision of an expert actuary to be appointed shortly.

SICILIANS GO WILD OVER ISLAND'S HERO

Signor Nasi, Released from Italian Prison, Visits His Native Country

ROME, Aug. 7.—Signor Nasi, the ex-minister who recently underwent imprisonment for gross misappropriation of public funds, made a triumphant entry into Naples on his way to his native Sicily. His carriage was unhorsed and dragged through the principal streets amid the vociferous cheers of enormous crowds of citizens. The ex-minister harangued his admirers from the balcony of a palace where he is being entertained. He said that wherever the so-called barbarous zone in Italy began it certainly did not include Naples. It was an unappealable joy to him to find himself in the midst of a population which, with the Sicilian people, represented what was grandest and noblest in the Italian kingdom, and where more than anywhere else truth, honesty, justice and devoted service were so keenly appreciated.

RACECOURSE WRECKED BY A FURIOUS MOB

Indignant at Postponement of Race, They Clamor for Money and Destroy Fences

BERLIN, Aug. 7.—Scenes of remarkable violence were witnessed yesterday afternoon on the race course at Spandau, near Berlin, owing to the public postponement at the postponement of the races till Monday on account of a heavy rain storm. The Spandau race course has obtained a bad reputation for not carrying out its programme. Three times within the last few weeks the races were postponed, once owing to the poor attendance, the second time to bad weather and the third time to the death of a racer. When another postponement was announced today the anger of the crowd became so violent and their attitude so threatening that the director decided to continue the meeting despite the heavy rain. He shortly afterwards again altered his mind, however, and definitively announced that the races would be postponed.

FRENCH ARMY SHORTAGE

PARIS, Aug. 7.—When the two years' service bill became law in France it was hoped and believed that the effective strength of the army would be maintained up to the former standard by means of re-enlistment. This hope has proved vain, and the authorities are now free to face with the problem of having to offer greater inducements to re-enlist. The difficulty lies not with the non-coms, who maintain more or less the maximum of 20,000, but with corporals and privates. Of the former, it was expected that 11,000 would re-enlist on Nov. 1 last, whereas the number reached only just half that figure. The falling off was greater still with the privates. Forty thousand were expected to re-enlist, but only 250 actually did so.

A DISGRACEFUL SCENE

ALBANY, N. Y., Aug. 7.—An unending sight was witnessed here today when during the progress of a funeral drivers on the carriages suddenly jumped from their seats and refused to proceed unless the driver of the hearse, whom they claimed was a non-union man, was replaced by a union driver. The undertaker finally secured another hearse and union driver. The body was removed from one hearse to the other and other complications were avoided.

MALTED BARLEY is digested food. Hops are a tonic—also an aid to sleep. That's what you get in beer. That's why the doctor says "drink beer" when one lacks vitality.

Beer quiets the nerves, not because of the alcohol. There is only 3 1/2 per cent. of that. But because of the hops, for hops are soporific.

A bottle of Schlitz at bedtime induces sleep.

In every way the drinking of beer is good for you, providing the beer is pure. It is only the wrong beer that leads to bad after effects and to biliousness.

Schlitz beer is pure. We spend more on purity than on all other costs of our brewing. Even the air that cools it is filtered. And every bottle is sterilized.

There is all the good of beer, and none of the harm, in Schlitz.

FROZEN TO DEATH ON PEAKS OF ALPS

Swiss Professor Loses His Life and Two Companions Are in Serious Condition

GENEVA, Aug. 7.—The list of Alpine tragedies due to inexperienced climbers attempting ascents without guides is constantly increasing. Details of the latest case, involving the death of one tourist and the probably fatal injuries of two others have just reached here. Four tourists, Professor de Rougemont, who occupies the chair of geology at Neuchâtel; M. Cottaz and M. Dupasquier, both of Neuchâtel; and M. Keller, of Steigwiler, left Grindelwald early on Wednesday morning to make an ascent of the Jungfrau. Although the weather was doubtful and they were warned regarding the dangers they incurred, they refused to take guides. When half-way to the summit they regretted the undertaking, but could not return owing to a snowstorm. The quartet arrived at the summit on Thursday night, exhausted and nearly frozen. Early on Friday they managed to descend to Jungfrau Firn, where three of them collapsed. M. Keller continued the descent alone and found a number of guides and climbers, including two English tourists. Those searched all day today for the other three climbers, but without success. Another party found them. Professor de Rougemont was dead and the others were unconscious. Their recovery is doubtful.

BABY HAD DIARRHOEA FOR SEVEN WEEKS

Thousands of infants die annually who could be saved by the timely use of Dr. Fowler's Extract of Wild Strawberry. There can be no doubt about it. Sixty-three years experience has proved this sterling remedy to be the best for Diarrhoea, Dysentery, Colic, Cramps, Cholera Infantum, Cholera Morbus, Summer Complaint, and all bowel troubles in both children and adults. Many of the imitations sold are positively dangerous, as they often check the diarrhoea too suddenly and cause inflammation. Always insist on the genuine Dr. Fowler's. Sold at all medicine-dealers at 35 cents a bottle.

KINGSTON WOMAN SAYS SHE WAS MIRACULOUSLY HEALED

Action Taken Towards Rebuilding Fernie—Many People are Once More Sleeping Under Cover.

KINGSTON, Ont., Aug. 8.—Miss May Ghent, Charles street, claims to have been miraculously healed. For months she was in bed, a great sufferer, and given up by medical men. They diagnosed her case in various ways. She spent some time in the hospital and was finally removed home. She was unable to move. She claims that on Tuesday last in her suffering she prayed and brought God's healing power promising to spend every hour and moment in saving souls for Him, if restored. While praying she heard a voice from Heaven saying, "Arise and come forth into My vineyard." She arose, walked about and last night preached in the Holiness Movement church. She says she is now without pain or ache. Medical men say that excitement caused her rallying she was of a nervous temperament and only needed invigoration of a stirring type.

REPORT OF WORK DONE AT THE LAMBETH CONFERENCE

LONDON, Aug. 8.—An evocative embodying the results of the Lambeth conference was issued from Lambeth Palace last night, from it is learned, that the discussion of the 243 bishops composing the conference was based on the reports of the committee appointed to consider the various subjects and that they were secret. The conference was held from Aug. 6 to Aug. 8. Except in a few instances no intimation is given as to whether the resolutions adopted by the conference were on subjects of wide differences of opinion or not.

POLICE OUTWITTED BY LABOR LEADERS

By Clever Subterfuge Paris Trade Unions Hold Meetings Prohibited by Prefect.

PARIS, Aug. 8.—By a clever subterfuge, delegates from all the trade unions in Paris succeeded last night in holding a meeting despite the prohibition of the prefect and the presence of 600 policemen assembled to prevent it. The syndicate of trade unions had announced for 9 o'clock a private meeting in the large hall of the Labor Exchange to deliberate on the advisability of proclaiming a general strike. The prefect of the Seine, under whose jurisdiction the Labor Exchange is, promptly prohibited the meeting. At 9 o'clock the 600 policemen were marshaled outside the exchange, the entrance to the large hall of which was rigidly guarded in view of possible rioting.

INNOCENT MAN SIX YEARS IN JAIL

BERLIN, Aug. 6.—A terrible instance of the miscarriage of justice has just come to light.

Nearly six years ago a wealthy land-owner named Herman Liechtenstein, of Pasterburg, Prussia, was charged with setting his house on fire with the object of defrauding an insurance company. His wife was also charged with aiding and abetting him. Both strenuously protested their innocence, but they were found guilty. The man was sentenced to six years' penal servitude, and the woman to two years' penal servitude.

Special Announcement! Today is the closing day of what has become known as the greatest bargain event ever conducted in the province of New Brunswick. Our great clearance sale which is now being drawn to a close, will end this evening at midnight. BOY RUN OVER LAST WEEK DIED YESTERDAY

Little Harold Day, of 297 Marsh Road, Was Struck by a Carriage as He Played in the Road.

Harold, the little son of Mr. and Mrs. Robert Earle, of 297 Marsh Road, died yesterday at the age of five years and three months.

On Saturday of last week the boy was playing in the road near his home, which is about opposite the cemetery gates, when he was struck by a carriage driven by Dr. A. A. Lewin. The rear wheel caught the boy's leg and knocked him down. Dr. Lewin looked after the boy, who did not seem much hurt, and attended him for a couple of days, when he seemed entirely better.

It is said by neighbors that the youngster had several very narrow escapes before, as he had a habit of running across in front of approaching teams.

**ANOTHER INDUSTRY**

Brandram-Henderson, Ltd., Removing Their Paint Factory to Montreal.

The paint and varnish factory which have been operated here by Brandram-Henderson, Ltd., for the past couple of years, has been closed down and the works of manufacturing here has been discontinued.

The works were formerly owned by The James Robertson Co., Ltd., who sold them to the present owners. The Brandram-Henderson Company is erecting a new paint and lead factory in Montreal, where their head office is situated, and have decided to centralize their factory work there. The machinery and apparatus used in the St. John works are being shipped to Montreal.

The company will continue their office here with W. A. Church in charge as formerly and will carry a stock of their goods in the new cold storage building on Main street.

**KINGS CO. LIBERALS TO**

**HOLD A BIG PICNIC**

It Will Take Place Near Rothesay During the Last Week of This Month.

It is understood that the Liberal Association of Kings County is arranging to hold a mammoth political picnic at Rothesay in the near future. The dates mentioned include the last week in August or the first week in September.

Preparations are already being made for suitable transportation on the river St. John, Bellefleur Bay and the Kennebec as well as special trains on the I. C. R. and St. Martins and Upham railways. There are several picnic spots in or near Rothesay and this beautiful suburban village is admirably adapted for the purposes of such an event.

It is said that the programme will be of such a varied nature as to interest not only those who enjoy political speeches but to please the younger folk as well.

**REALIZED \$1,348 AT THE**

**SEAMEN'S MISSION BAZAAR**

A cheque for the sum of \$1,348.29 has been handed to the President of the Seamen's Mission Society by Lady Tilley, on behalf of the ladies committee who so successfully carried through the large bazaar held in March last. The above amount enters into the present construction of the new building, and is devoted principally to the completion and finishing of the front portion. It is hoped by the committee of management that the work of finishing will be sufficiently advanced for the opening of the winter business this season.

**TOLSTOI COMPLAINS THAT**

**HE IS NOT PUNISHED**

LONDON, Aug. 8.—Count Tolstoid sends to the British newspapers a strong protest, which is printed this morning at what he terms the revolting injustice, cruelty and amazing stupidity of the Russian government which has prosecuted and punished the distributors of his books, instead of prosecuting him, the author. Count Tolstoid declares he never will cease writing, that in fact he cannot cease, because he is fulfilling the will of God as he understands it.

**ROYALTY ASSISTS IN**

**THE ZEPPELIN FUND**

BERLIN, Aug. 8.—Crown Prince Frederick William has accepted the Presidency of the Imperial Commission which is raising a fund for Count Zeppelin, the airship inventor. Various estimates have been made of the total of the country's subscription to the fund, but it is impossible to place the amount. It is apparent, however, that already \$60,000 has been raised. The Krupp family has donated \$20,000.

Mr. J. L. Eagles will leave this evening by boat for Wickford, R. I., to attend Supreme Council of Temple of Honor. Mrs. Eagles will accompany him as far as Boston.

ANNUAL SHOWING OF Fall and Winter Overcoats

FOR THE SMALLER BOYS—2 TO 10 YEARS.

ALTHOUGH IT SEEMS EARLY to be making the announcement, yet in doing so we are but following out our usual custom of displaying the new goods early in the season. If you are a visitor to our city and are desirous of taking something home to the boy, we would suggest one of these stylish Overcoats.

**SOME VERY CLEVER NOVELTIES FOR FALL AND WINTER.**

**Long Reefers** bid fair to be popular this coming season. Some are buttoned to neck, others made with lapels. All are cut very full at breast and skirt, making an exceptionally jaunty style.

**The Russian Coat** is always a popular style for boys of these ages. Cut longer than the Reefer and buttoning to the neck. We can show you many smart effects in this style.

**Cloths are** Chinchillas, Vicunas, Cheviots, Friezes, etc.

**Colors are** Blues, Browns, Grays, and pretty Mixtures

**Prices, \$3.75 to \$6.50**

**Blanket Coats.** This is always a popular style. Warm, but not too heavy. Made of all wool Mucinae, piped with red, in Dark Blue, at \$4.75; in Military Scarlet, \$5.25
