HOW LONG!

The Bangor News is rather lively in its reflections upon Mr. William L. Douglas, governor-elect of Massachusetts, who is in favor of reciprocity with Canada. The News says when Canadians had somewhat freer trade with New England than they have now, "almost every citizen of Maine was given the privilege of doing nothing because there was nothing to do." But the stock argument of the Bangor paper, which is also the argument of Senator Cabot Lodge of Massachusetts, is the statement that the United States without reciprocity enjoys the Canadian market. Why, it is asked, should concessions be made to Canada to get that which the United States already has? As the News puts it, "Canada has increased her purchases of American goods 300 per cent, since reciprocity was abolished near the close of the civil war." The News might have gone farther and said that Canada has nearly trebled her purchases of United States goods since Sir Wilfrid Laurier became premier. This condition of things is naturally satisfactory to the vendors of the goods. Our government has reduced the oil duties and the Standard Oil Company is satisfied. It has made binder twine free and placed the whole dominion under the control of a United States combine operating in both countries, while the United States by its Philippine Island policy has made it impossible for Canadian producers to obtain Manila hemp on even terms with American competitors. We have given our market to the grower of corn in the United States, while Canadian barley is shut out of the United States market. So long as Canada proceeds on this line there is no reason why reciprocity should be sought by the United States.

Of course there is no need of it. We are not obliged to buy from the United States fifty per cent. more than from all the rest of the world. We are not compelled to buy from the United States people three times as much as they buy from us. It is not necessary for us to meet a duty averaging forty per cent. with one averaging twelve per cent., and to make the average rate of duty paid on our imports from the United States less than that paid on imports from other countries.

The News is quite mistaken in saying: "Canada is obliged to buy our goods, while we are not compelled to take Canadian raw material." And when it goes on to say, "We can produce all the raw material of the kind that Canada has for sale right here on this side of the line, and what is more important, we are going to do it," there is something to be said on this side. The question is whether Canada is going to do it.

THE INTERCOLONIAL MUST GO.

There is no longer a doubt that the campaign for the transfer of the Intercolonial to a company is inspired from government sources. Following the article quoted from the Montreal Herald, and evidently in accord with the view of Hon. Mr. Fisher, we have another, printed, we believe, the same day in the government organ at Ottawa, and so near like the Herald article in purport and treatment that they must have had the same inspiration. Like the Herald, the Free Press begins by

a reference to the deficit of last year, to the indications for the current year, and the interest charge on the capital. Like the Herald, it next refers to Mr. Blair's struggle, to the fact that the Intercolonial competes with waterborne traffic, and to the necessity of some change in the system. Again, like the Herald, the Free Press writer takes up the two propositions, one for a railway commission and one for a lease to a company. The Free Press writer, like the other, decides that the commission would not be able to protect itself from political influence, and that on the whole it is not the right way out of the trouble. And the whole argument leads up to the same conclusion, as follows:

"So there comes as the most satisfactory solution from the standpoint of the highest efficiency the leasing of the system for a term of years to a company that would operate it on purely business lines. The fact that the principle has found acceptance in the case of the national transcontinental railway may encourage the government to give the subject consideration."

"But in any case the experience of the Intercolonial in connection with the attention of those who would rush the province into further experiments in the ownership of public utilities until we have had further experience of the result in the undertakings upon which we have already embarked."

Sir Wilfrid began this campaign by his speeches declaring that government ownership was vicious and disastrous. Mr. Emmerson has supported it by the magnificent and unprecedented deficits he is producing. Now the government organs, using Sir Wilfrid's arguments, and Mr. Emmerson's achievements in support of them, have charge of the campaign. For the moment the proposed grant of the railway are out of sight, but they are evidently not inactive.

POLITICAL ADVERTISING.

Various journals of both parties have been discussing the course of the Halifax Herald in printing as a two-column advertisement a speech of Mr. Fielding, with portrait, headlines and introduction as they had appeared in the government paper. The consensus of opinion among reasonable journals is that the Herald in doing so committed no offence against its party or its principles. In this connection the St. John Globe states, the Halifax Chronicle repeated the accusation, that "one St. John morning paper refused to publish advertisements sent to them by the liberal executive committee." The statement is nearly correct. This journal of the home declined to make a contract to publish every day in its columns such campaign copy as might be furnished, the same copy that appeared on the St. John fences during the election. But the Sun did not refuse to publish his reports of the government speeches. These it printed free of charge, and the speakers were so well reported that the one government candidate wrote to the Sun to testify to the excellence of the work. Moreover, the Sun printed any advertisements of government meetings that were offered, and would have been willing to publish the election card of the liberal candidates, as it has done on other occasions. But every newspaper has the privilege of refusing advertisements, and the Sun drew the line at the lurid appeals of campaign writers whose names did not appear.

PLATFORM AND PRACTICE.

The Ontario liberal convention has unanimously passed resolutions condemning ballot-box frauds, bribery at elections, and other improper campaign proceedings. These pious opinions have been expressed in other liberal platforms, but they escaped the attention of the campaign managers. If the Ontario conservatives could really feel that the ballots which they marked and handed to the returning officer would be honestly counted, and that no ballots would be counted for government candidates except those voted by electors present at the polls, they would breathe easier, in view of the coming elections. They will hardly venture to expect immunity from the assault of the briber. Especially they will look for the attempted bribing of the whole constituencies as in the case of the Sault. But bribery, to be effective, requires the consent of the bribed, and is thus limited in its operation, while the switching of ballots only calls for the employment of a few criminals who, as in the West Elgin case, may be outsiders. Against bribery an honest and pure majority who can be got to the polls is able to protect itself. Against frauds such as were exposed in the West Elgin, West Huron, Brockville, St. James (Montreal), and Sault (Minette M.) cases, and are under investigation in West Hastings and Frontenac, the absolute integrity of the electorate offers no barrier. The party protestations are good. But we fear that these alone will not relieve the conservatives from the apprehension that false but honest or some equivalent device will be used in the coming elections.

MACEDONIAN REVELATIONS.

The Turks have their faults, but they have been a much maligned race. Tales of Turkish atrocities have been given to the world by Macedonians, Bulgarians, Servians, Border Greeks, and Russian plotters. These classes can perhaps furnish the finest aggregation of liars in the world, as well as the most accomplished and industrious assassins. On the Asiatic side the Turk is in contact with the Armenians, including among their number many groups whose chief occupation is the manufacture of atrocities, and

who never seem to enjoy life to the full except when they have a tale of horror.

Recent events have a tendency to vindicate the Turks as against the Macedonians and their neighbors. These Christian peoples were so unfortunate as to induce the western nations to make representations. As the result of suggestions, Turkey has been leaving the Macedonians somewhat to their own country. The consequence is that these traditional victims of Turkish butcheries have gone into the business of butchering each other. Numbering among themselves various races and a variety of creeds, they have turned into a civil strife the activities formerly used against the Turks. There is not much open fighting, but the Macedonians are not what they were in the days of Alexander the Great. They fight from ambush. They capture stragglers and deal with them in secluded places. They are fond of fires, and are given to looting. Turkey has always tried to make the world believe that she had to butcher these people to keep them quiet, and the proceedings lately reported lend some support to the Ottoman plea.

THE MONCTON MYSTERY.

The Moncton Transcript says that a package of ballots was missed from a Moncton poll simultaneously with the departure of a conservative scrutineer, who did not return. Concerning this the Moncton Times has doubts, but points out that no scrutineer could possibly make use of the ballots without the collusion and assistance of a deputy returning officer, and those in Westmorland were very unlikely to conspire against the government. But the Times is certain that Editor Hawke, of the Transcript, who, strange as it may appear, was a deputy, tore the counterfoil off the ballots before he gave them to the voters. This remarkable proceeding has not been denied or explained by the Transcript, though Mr. Hawke says it is capable of explanation. The counterfoil is there as a protection against fraud, and the returning officer who tears it off before he hands the ballot to the voter deprives the public of the protection. Until Mr. Hawke explains, the public will have to guess whether his act was fraudulent or merely stupid. The difficulty of this journal is to imagine Mr. Hawke guilty of either offence. But he has enemies who will hesitate to choose either alternative lest by so doing they exclude the other.

A SINGLE CASE.

It is hard to understand the case of T. J. Reilly, the Kingston college instructor who went over to Water-ton, in New York, and arranged for the manufacture of the false ballot boxes. There is no doubt about his share of the plot, for he admits having written the letter to B. O. Lott, setting forth what he had done. In this letter he asks for \$55, stating that he had received the same amount from the government candidate in Frontenac, and that the two sums would repay his outlay, including \$100 for the man who made the boxes. Mr. Reilly says that he will tell the whole story in court, as he ought to do, and that he did not realize the wrong that he was doing. Yet he is a graduate of Queen's University, and the late Principal Grant did not fail to discuss with his young men the value of a citizen's rights. Mr. Reilly was himself at the time of this conspiracy an instructor of young men, and this should have given him a sense of responsibility. How could he fail to know that he was assisting in one of the greatest crimes possible to any man in a free country?

SCHOONER GOLDEN HOPE
May be a Total Loss on Birchy Head.

GLOUCESTER, Mass., Nov. 24.—A telegram was received here tonight by David B. Smith & Co., owners of the schooner Golden Hope, from Birchy Head, Nfld., saying that the schooner is ashore there and may possibly prove a total loss. The telegram gives no particulars, but it is supposed that the vessel was driven ashore in a heavy gale while anchored in that harbor. The Golden Hope sailed from here Oct. 20 in command of Capt. Murray, and carrying a crew of eight men. The vessel went to Bay of Islands for salt herring, of which she had 1,400 barrels on board when she met disaster. She is a comparatively new boat, having been built in Essex, Mass., in 1890, is of 106 1/2 gross tonnage, and with cargo is insured for about \$8,000. The cargo is valued at \$12,000.

NOMINATION FOR COLCHESTER.

HALIFAX, Nov. 24.—H. T. Lawrence, mayor of Truro, was nominated by the liberals of Colchester today for the local legislature. He is a brother of F. L. Lawrence, M. P., elect for the county. The conservative committee chairmen throughout the county are called to meet at Truro tomorrow to consider what action be taken.

P. E. ISLAND WON.

Took First Place in the Efficiency Competition.

The returns of the general efficiency competition for the garrison artillery have been received. No. 2 company of the 4th regiment, Charlottetown, was successful in winning the greatest number of points of any company throughout the dominion. This success for them the governor general's cup in addition to the Mercer challenge trophy, which they carried off in the competitive shooting in St. John.

The second place is taken by No. 1 Co. of the Halifax regiment, located at Mahone Bay. No. 1 company of the 1st New Brunswick regiment ties with No. 3 company of the 1st Halifax regiment for fourth place, with 278 points each.

The score by companies of the different regiments is as follows:

No. 1.....	278
No. 2.....	248
No. 3.....	275
No. 4.....	260

1st Halifax.

The British Columbia regiment gave no returns and the highest in the Quebec and Levis regiment was 249 points.

CHANGES AT THE ASYLUM.

Patients Who Can be Cared For by Friends Will be Sent Home.

Premier Tweedie and his colleagues are of the opinion that there are now confined in the Provincial Insane Asylum a number of persons who should not be there. In accordance, therefore, with the provisions of an act that was passed at the last session of the legislature, a commission has been appointed to enquire into the mental condition of all the patients of the asylum. An examination of those whose condition warrants such action cared for by their friends, where they are able to do so, and others, who have no friends in a position to aid them, removed to almshouses in the counties to which they belong.

Speaking to the Sun, Dr. Anglin said he had no doubt that there were thirty forty such cases in the institution, of which he is superintendent, at present. Many of these are elderly people, who are probably more than usually childless, but who could be just as well cared for by their friends as at the asylum. An examination will be made of each patient, and a report made to the government as soon as the inspection is completed. The commission is composed of Dr. Anglin, Dr. G. A. B. Addy and A. F. Emery.

It is thought probable that there will be some changes in the regulations under which persons are admitted to the asylum.

TOO MANY DESCENDANTS.

(From the Brooklyn Eagle.)

A reporter, the other day, went to interview an old resident and business man who was about to celebrate his golden wedding. Mr. H. related with animation the circumstances under which he met his wife, and the report led up to the marriage. He named without hesitation the day and hour the wedding occurred, and the name of the minister who performed the ceremony, and three or four other particulars, but it is supposed that the number of interesting reminiscences about old New York in the days when he was a young fellow about town.

"How many children have you?" inquired the reporter.

"After a pause, the old man replied, "Ten."

"I think that I can use their names," suggested the interviewer.

"Well, there's John, Halibut," began Mr. H., resolutely, "and Mary Louise, who is married to Dr. G. and Benjamin F. and Ernest, a lawyer in Jersey, and there is Mrs. Mary E." At this point Mr. H. seemed very uncertain, and appeared to be getting tangled. He added the name William H. after several minutes deliberation. Another long pause, and then came the name of another daughter, Clara E., a wife of a Baptist minister. It seemed an age before the father recalled the name of a son, James S. There was still another child to be accounted for.

Mr. H. fumbled among the papers on his desk. He pushed his hand through the little hair left on the back of his head. Then he got up and went to one of the counters and began to shift liquor traffic with natives, and to pay duty on all goods traded with Indians.

OTTAWA, Nov. 24.—December's second mail will be despatched from Ottawa for Port Churchill with a view of connecting there with the mounted police expedition from steamer Arctic, wintering at Fallerton, in Hudson Bay.

Miss Amelia Weymer, Appleton, Wis., writes: "Early last summer I contracted a cold which seemed to hang on to me and could not be shaken off. From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Peruna in the family before, she advised me to try it. I was somewhat very opposed at first, but I tried Peruna. Using it one day convinced me that it was no ordinary medicine, within a week I was much better and in two weeks I was well, and I felt much stronger and I much better health generally. I was perfectly satisfied with the result from the use of Peruna."—Miss Amelia Weymer.

CATARRH CAUSES CONSUMPTION

Pe-ru-na Never Fails to Cure Catarrh Wherever Located.

THE medical profession has so thoroughly prejudiced the minds of the people against patent medicines that it is with great reluctance that anyone can be persuaded to try such a remedy at all.

In nearly every one of the thousands of remarkable cures that Peruna has made the patients had to be persuaded by friends very strongly before they reached a state of mind in which they were willing to try the doctor's medicine, or some other ineffectual remedy. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A bottle of Peruna is sent for.

The first week it produces a decided change for the better. A few weeks' continued treatment cures the patient. Then another happy man or woman is added to the long list of people who are praising Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

It is the praise of those who have been cured by Peruna that makes this remedy so popular and so extensively used. No advertisement could have accomplished this result.

Peruna cures the first stages of consumption by removing the cause, which is chronic catarrh. The catarrh having been cured the cough and other disagreeable symptoms cease.

FREDERICTON, Nov. 24.—At 3.15 this afternoon E. Byron Winslow, one of Fredericton's most beloved and esteemed citizens, passed away at his residence, Church street, after an illness extending over some months.

Mr. Winslow was taken ill in August last after a business trip to Halifax, but did not attach much importance to his ailment, which took the form of severe pains in the head.

The attack soon developed into some form of brain trouble, and on the advice of his physician, Dr. J. W. Bridges, in consultation of Dr. Aitken, Mr. Winslow decided to consult a specialist in Boston.

Supt. Downs of the C. P. R. kindly placed his private car at Mr. Winslow's disposal, and accompanied by Mrs. Winslow, Miss Daisy Winslow, J. A. Winslow and Dr. Bridges, the journey was taken without discomfort to the patient.

The specialist, one of the best in brain disease in Boston, held out no hope of permanent recovery to Mr. Winslow, but said that the disease might be arrested for a time.

Returning home, Mr. Winslow soon showed signs of falling, and his critical condition during the past few days prepared the public announcement of his death.

Edward Byron Winslow, K. C., was born in Woodstock April 7th, 1842, being the youngest son of John Francis Woodworth and Jane Caroline (Rainsford) Winslow. He was a direct descendant in the seventh generation of Edward Winslow, who came to America in 1620 as one of the Pilgrims of Plymouth Colony. He had in his possession a silver tankard bearing the name of Edward Winslow, which he brought with him in the Mayflower.

The deceased gentleman obtained his education in the common schools at Woodstock, the Fredericton High school, and the High school at St. John, Quebec. Soon after he began the study of law in the office of the late Hon. J. J. Fraser, afterwards Judge of the supreme court and lieutenant-governor of New Brunswick, and in 1866 he was admitted an attorney, and very soon he became a partner

with Mr. Fraser, the association continuing until the latter was elevated to the supreme court bench.

Mr. Winslow, secretary of the partnership with John J. Fraser, E. H. Wetmore, now a judge in the Northwest and residing at Moosemin, was taken into the firm, which was thereafter known as Fraser, Wetmore & Winslow. A few years ago Geo. W. Allen, K. C., became associated with Mr. Winslow in the partnership under the firm name of Winslow & Allen.

Mr. Winslow was one of York's leading conservatives, and has frequently taken an active part in advocating the interest of friends, although never seeking office himself. He was a member of the Church of the Holy Trinity, and was one of the organizers of a K. C. by the federal government.

In 1871 he married Emma B. Osgood, who survives him along with eight children, Wentworth Byron, Jasper E. Capt. J. J. Fraser, Elizabeth Caroline, Marguerite, P. E., clerk B. M. Robert N., and Rainsford H.

Two brothers, Frank E. Winslow, formerly manager of the Bank of Montreal at Chatham, and T. Bradford Winslow, secretary of the provincial board of works, also survive him.

The date of the funeral will probably be Sunday afternoon at 2 o'clock.

Mr. Winslow was a Free Mason, and his death casts a great gloom over the entire city. He was a gentleman greatly beloved by all who had the privilege of his acquaintance. His death occurred on the anniversary of the death of his partner and life-long friend, the late esteemed Lt. Col. Fraser, the latter passing away the 21st Nov., 1896.

SEIZED THE SKINS.

FREDERICTON, N. B., Nov. 23.—A sensation was caused in the local big game hunting circles last evening by the seizure at St. Marys of Emma Eros, of a number of pelts of beaver, mink, weasel and black wild cat by Game Warden James Roberts. Chief Game Commissioner Knight came up here from St. John, but as Emma Eros, have given a satisfactory explanation of their possession of the furs, the case will stand for the present. It is said on the streets today that one of the most prominent guides and trappers in the country will be drawn into the affair. Ennocks says there is no case against either their firm or any New Brunswick guide. The skins will be returned.

INDIGESTION.

There is no sense in wasting words about indigestion. We know that it causes terrible suffering, and the dull, darting pains are enough to drive one mad. What a sufferer wants is relief. He wants the pain to stop. He wants to be well and happy again. The way to get relief and be cured of indigestion is by taking Hutch's. It goes to the very spot where the trouble lies. Take one just after you eat. Then two or three at bedtime to open the bowels. It will neutralize the condition of the stomach. It will give gratifying relief. It will overcome and banish the breath. It will overcome and banish the pain. Plenty of people doubt this, but their doubting does not change the facts. Hutch is a doctor for 10 cents. One gives instant relief.

JUMPED OVERBOARD.

Austrian Whose Wife in Under Arrest Committed Suicide.

NEW YORK, Nov. 24.—Driven to desperation by the plight of his wife, who he had told his fellow passengers, is under arrest at Hamburg, charged with child murder, Dornet, Bonn, a steamer passenger, jumped overboard from the steamer Graf Waldersee and was drowned. The suicide was reported when the steamer arrived here today from Hamburg. The officers of the Graf Waldersee said that Bonn appeared greatly distressed when he boarded the steamer and drank heavily. Last Tuesday he jumped overboard, and although a steamer was sent out and a boat was sent in search of the man, he was not found. Bonn was an Austrian about 35 years of age.

DEATH OF DAVID N. WASSON.

In the death of D. N. Wasson, Waterbury, Queens Co., loss of one of the most respected of its citizens. Born in Blissfield, New Brunswick, Nov. 21, 1824, the only son of Thos. Wasson, he led an active and useful life, enjoying the confidence and esteem of all who have known him. About 23 years ago, soon after his marriage, he moved to Waterbury, where he lived till his death on Thursday, Nov. 17th, leaving a wife and six children, three sons and three daughters, to mourn their loss. The funeral service was conducted at St. Luke's church, of which he was a vestryman, on Saturday, Nov. 19th, the large number of friends attending the service testifying the esteem in which he had been held.

CALM OVER LOSS OF LOVER.

Eighty-Year-Old Susan B. Fowler Has Tried Hard to Locate Rich Placero, but in Vain.

VINELAND, N. J., Nov. 23.—To have a rich lover and then lose him, as has Miss Susan B. Fowler, the 80-year-old "New Thought" bloomer woman of this place, might annoy a young woman, but the apostle of short skirts and trousers is not discontented. Her sweetheart, George Edward Fowler of Montana, saw Miss Fowler's advertisement for a man to do farm work. He came, saw and conquered. Arrangements for the wedding were to have been made on the day that he was suddenly called to England to claim his share in his father's estate. Shortly after his arrival there a note was received from him, saying he had fallen downstairs and was in a hospital. Since then Miss Fowler has tried in vain to hear from him. Registered letters sent him have been returned by the postal authorities, and she is forced to believe him dead.

SOUTH AFRICAN VETERAN TAKES HIS OWN LIFE.

Harry Robertson Killed Himself With Carbolic Acid--The Empty Bottle Found--He Was Out of Work and Despondent.

Wednesday afternoon John Henry Robertson, known to his friends as "Harry", committed suicide by drinking carbolic acid. Robertson had been out of work for some time and was despondent. Robertson purchased the poison in Moore's drug store on Brussels street and drank it in Kelly's yard off St. Patrick street.

John H. Robertson was a son of Amanda Robertson, widow of the late Samuel Robertson, and lived with his mother at 218 Waterloo street. For a while he was employed in R. T. Worden's livery stables on Princess street, but in August last he left and has since been generally out of employment. While somewhat low-spirited at his lack of employment, his people had no idea that he would adopt such desperate measures to rid himself of his troubles, and the news of his death came as a most sudden and painful shock to them.

He had left his home in the afternoon without any sign of extreme despondency, and had visited several public houses, but had not taken enough, according to reports, to affect his sobriety. At this time he seemed extremely low-spirited, and Fred Thomas, an intimate friend of the deceased, learned early in the afternoon that Robertson was determined to take his life and was going to procure laudanum for that purpose.

Sometimes during the afternoon he procured a small bottle of carbolic acid from the drug store of G. A. Moore on Brussels street. As carbolic acid is much more easily obtained than laudanum, no doubt Robertson decided to use the former. He came back along Brussels street with the bottle and was turning in the Colwell alley, near the Welcome soap factory, when he saw a little daughter of Mr. Colwell standing in the gate. His manner and appearance so frightened the little one that she ran and hid herself in a barrel in the yard. The family was out and she knew no other place of refuge. Robertson came no farther than the gate; he turned and went down St. Patrick street and entered the alley that leads to Kelly's yard. He was seen to try the door of the house in the rear of the alley, which is occupied by Wm. F. Smith.

LIBERAL CONVENTION.

Temperance an Absorbing Topic--Corruption in Elections De-nounced.

TORONTO, Nov. 23.—The liberal convention called by Premier Ross opened in Massey Hall this morning and was very largely attended. The temperance question will be the all-absorbing topic for discussion. It is understood that the resolutions submitted by Premier Ross is briefly as follows: Absolute prohibition in new Ontario. No increase in the number of licenses in old Ontario. Selling after hours to be punished by immediate cancellation of license. A fixed standard equipment to which all hotels must conform. From opinions expressed last night it is probable the delegates are divided on the question of license. A large section do not desire to see the party tied down to any pronounced policy on the temperance issue. Another wing of the party, however, appear determined to put temperance into the platform. As to the policy in regard to the calling of the legislature or holding of an election, the delegates seem generally to consider this is a subject for the leaders to deal with, but those who have made up their minds on the question believe the situation calls for an early election.

At the afternoon session the committee on resolutions reported. The first resolution endorsed the policy of the education department and was adopted with a rush. The second reported and condemned in most unqualified terms every form of bribery by which electors are illegally or corruptly influenced, and urged the conviction and punishment of all those guilty of interference with the sanctity of the ballot box. The resolution was received with cheers. A. T. Hunter of Toronto said it was all very well to cheer, but he proposed to test the sincerity of the cheerers, and moved a resolution calling upon liberal candidates to form their organizations out of reputable men residing in or having business connections in the riding, and to see that no person named for corrupt practices is employed. This was a blow at Vance, Sutherland and other noted liberal organizers, and drew forth pertinent remarks from several delegates. The resolution carried unanimously.

At the evening session, Ross spoke for an hour. He urged the convention to pass a resolution in favor of a progressive temperance policy, but did not make any suggestions. He was given an ovation. Several resolutions dealing with matters of minor importance were passed, and the convention adjourned to meet tomorrow morning to take up the temperance question. The committee is now sitting, but the only decision come so far is against any legislation providing for abolition of the bar, which is one of the demands of the temperance men.

NOT CONFIRMED. Reports That Crew of Ship Troop of St. John Were Ill-Treated Are False.

A report has appeared in the Montreal and Halifax papers reflecting severely upon the management of several of the Troop fleet and in particular the ship Troop, formerly commanded by Capt. E. J. Fritz of this city. The general inaccuracy of the account is shown by its misstatements of dates and incidents, but the chief charges of ill-treatment of the sailors on the part of the officers are pure fabrications.

"The ill-treatment of sea-going life the Troop itself figures conspicuously. On Oct. 31, 1898, Peter Gallagher, a French seaman on board the Troop, driven insane by the rigors of life aboard, jumped overboard in the Pacific and was lost." This is denounced as a gross libel. The fact is that while in Honolulu in 1898 the European crew got into a drinking bout among themselves and several were arrested and tried. Among those who were sent aboard the Troop to be taken to New York for trial was Peter Gallagher. He declared he never went to New York, but the civil authorities at Honolulu told him he would at least start on the way. He was not in any way ill-treated, but one day between 12:20 and 1:00 p.m. he disappeared, and it is supposed he jumped overboard. Another seaman named Brown was declared to have been ill-treated, but this also is without foundation.

Mr. Irvine, brewer of the establishment in this city said that it was very hard in these days to get good capable seamen, and it was necessary to pay the crews the wages which were on board. He is frequently seen on board a sailing ship in these days would soon cure any one of complaining about martinet service. Discipline has to be maintained," said Mr. Irvine.

The Troop is now about due at St. Helena, and as far as the firm knows everything has been very quiet on the voyage.

Hartland.

HARTLAND, Nov. 22.—John Johnson of Eightgate died at his home Saturday evening after a lingering illness of nearly four years. The funeral service was attended Monday afternoon by Rev. C. T. ST. PETERSBURG, Nov. 24.—The Bourne Gazette revives the question of a new commercial treaty with the U. S. The paper says it notes with satisfaction that negotiations of commercial treaties form a part of President Roosevelt's programme for the coming administration, and that its consummation is greatly to be desired between Russia and America.

Commercial wars, the Gazette adds are in the long run assured as costly and disastrous as hostilities. The paper says Russia ought to be willing to meet any American overture half way and that the result should be equally beneficial to both countries.

Cure Your CATARRH Now!

Take it in hand at once, before winter sets in. If you don't get rid of Catarrh in the Fall, there's certain disgust to your friends—though they're cold weather with your system terribly weakened and undermined by this treacherous, poisonous trouble. Remember—if you keep on neglecting Catarrh, later on it's sure to mean danger—disease—perhaps Death itself.

It's a horribly loathsome disease—is Catarrh. It makes you an object of disgust to your friends—though they're usually too kind to tell you so. As a matter of fact your hacking and spitting and constant nose-blowing fairly make them sick. They turn away nauseated by your foul, fetid breath. Such things hurt you tremendously, not only at home but also with outsiders—with the people you meet in daily life.

But Catarrh is more than a loathsome trouble—it's a fearfully dangerous one. People make a terrible mistake in saying "Only Catarrh." It isn't "Only Catarrh"—it's CONSUMPTION if you don't stop it in time. Once the mucus droplets lodge in a foothold in the lungs, there's no escaping it—a consumptive's grave—there's no escaping it.

Cure your Catarrh before it becomes Consumption. Don't be discouraged if these doctors, the widely advertised so-called "Catarrh remedies" have failed to help you. Seek aid at once from one who thoroughly understands all about Catarrh and its cure. Accept the generously proffered help of Dr. Sproule, B. A., the greatest Catarrh Specialist the world has ever known. He will give you

James Rogan Held up and Robbed on Elm St.

It was Only a Simple Affair—Hugh Lyden is Now Under Arrest.

Hedups are coming thick and fast in the north end. It is but a couple of days since the sensational sandwiching of Frank Priest, and last night there was another case of a similar nature, but differing in one essential particular. In the Priest case there was no clue to the miscreant. The alleged perpetrator of last night's outrage was and is now under arrest.

The man who was robbed was James Rogan, a carpenter, who resides at 9 Military road, and the man who did it was Hugh Lyden. The two men had been drinking together during the afternoon and it would naturally be chummy together would not now occupy the positions which they do towards each other. After having enjoyed each other's society for some time, the course of their peripatetic led them down Elm street where the idea apparently occurred to Mr. Lyden that it was not right for his companion to go about with such large sums of money on his person as he carried. Lyden threw him to the ground and took the cash.

Rogan notified the police, and Officer Greer started to find his man. After some looking about he discovered the culprit sitting in the ferry house at Indiantown in a somewhat advanced state of intoxication. He placed him under arrest and locked him up in the north end police station.

This morning Lyden will have to answer to the dual charge of being drunk in the ferry house at Indiantown and also that of assaulting and robbing James Rogan. When Lyden was arrested not more than half of the money was found on him. He had \$4.65. He also had a corkscrew.

Rogan was not bruised or in any way distressed, and there was very little mud on his clothes.

THE STORD IS SAFE. Steamer Was Nine Days Making Passage From Sydney to St. Johns.

ST. JOHNS, Nfld., Nov. 24.—The St. Stord, from Sydney, C. B., with coal, for whose safety fears were felt, arrived in harbor this evening. The Stord was driven seaward in Sunday's gale and her machinery disabled. Her decks were swept by the sea and she narrowly escaped going to the bottom.

Several of her men were injured during the storm. The Stord was nine days making the passage from Sydney to St. Johns, whereas ordinarily the trip requires only forty-eight hours.

YOUNG BOY PROBABLY KILLED. DOVER, N. H., Nov. 24.—In a boys' quarrel this afternoon, George York, the ten-year-old son of a Councilman in York, was struck a severe blow on the head with a club in the hands of Morris Dion, aged 11, causing a fracture of the skull, which the physicians fear will prove fatal.

York and Joe Dion were having a quarrel and, thinking that his brother was getting the worst of it, Morris Dion seized a club and struck York over the head. The latter, although dazed, managed to walk to his home a quarter of a mile away, and then lapsed into unconsciousness. He was removed to the hospital, where the physicians removed several pieces of his brain, and the wound, but his condition tonight is critical. Young Dion was arrested and taken to the police station, but later was allowed to be taken home by his parents.

ANOTHER JOB FOR TEDDY. LONDON, Nov. 21.—A movement is on foot to get President Roosevelt to arbitrate the difference between Panama and the corporation of foreign bond holders in regard to the Colombian debt.

A meeting of the Colombian committee of the corporation has been summoned to consider the best means of recovery from Panama of a portion of the \$10,000,000 of the United States in connection with the canal, and it is proposed to call a public meeting of the Colombian bond holders for the purpose of requesting President Roosevelt to arbitrate as to the proportion of this amount the new republic ought to pay towards the liquidation of Colombia's debt.

DIED HUNGRY. NEW YORK, Nov. 21.—Disatisfied with his wife's housekeeping and in a towering rage because dinner was not ready the moment he arrived home, John V. Ziegler, a furrier, has hanged himself at his home in the Bronx.

Mrs. Ziegler told the coroner that although she tried hard to conduct the household to please her husband he was very unkind to her and had tempted to poison himself two months ago, and later tried to kill both by putting poison in the tea.

When Baby Comes You'll Need Strength. NO MOTHER CAN BEAR A HEALTHY CHILD UNLESS SHE IS STRONGER HERSELF.

FERROZONE IMPARTS NEW VIGOR—BRACES, NOURISHES, STRENGTHENS WEAK WOMEN.

A woman's anxieties multiply tenfold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duchow of Durham, N. C. It is a woman's story of her own case—told that other women may profit by her experience:

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers.

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems lack. Simply take one tablet each meal and you'll feel uplifted at once. Ferrozone makes healthy, virile, vigorous women; try it. 50c per box of fifty tablets, or six boxes for \$2.50 at all dealers, or by mail from N. C. KILLED IN AN ASYLUM. And the Coroner Wants to Know if Attendants Were Responsible.

HALIFAX, N. S., Nov. 22.—Walter D. Dickey of Brooklyn, arrested for alleged larceny, and whose extradition was sought by the New York police, was discharged today for a second time. Judge Russell in discharging Dickey said: "The prisoner has been detained in jail ten days on a charge of larceny, alleged to have been committed in Brooklyn, New York, and the first effective steps towards the production of evidence in support of the charge are not yet brought to the knowledge of this court. If his arrest were legal and regular, international courtesy would perhaps require that further time should be given to the foreign authorities. But the proceedings in this case have been so wholly irregular and illegal that I cannot refuse the application for his discharge."

AN UNPLEASANT EXPERIENCE. Mrs. John Coffee, of St. George, had a peculiar and unpleasant experience on Saturday. Her husband, who had been working in Sydney, died there, and she was bringing the remains home for burial. While sitting in the ferry room, on this side of the water, she fell asleep, and did not arise from her slumbers until the boat had sailed, having on board the corpse of her husband. The casket was taken off the ferry on the other side and placed on board the New Brunswick Southern railway train, which pulled out of the west side station before Mrs. Coffee could communicate with the

Henry Wilkins Sentenced For Killing Wife

Court Accepts His Plea of Not Guilty Because of Insanity.

A FORMER ST. JOHN BOY

Holds High Position in Masonic Order in Chicago.

LEBANON, N. H., Nov. 21.—William Henry Wilkins, of Wentworth, N. H., was in the superior court of Grafton Co., today, Justice Robert J. Pike presiding, charged with the murder of his wife, Laura Wilkins, on Sept. 29 last. Wilkins was represented in court by A. S. Bachelo and W. H. Mitchell of Littleton, county solicitor M. D. Cobleigh, appearing for the state.

During the 35 minutes that it took to decide his fate, Wilkins never raised his eyes from the floor. He turned slightly pale when clerk Dexter D. Dow read the indictment. Attorney Bachelo pleaded not guilty by reason of insanity.

The court ordered that Wilkins be committed to the New Hampshire state prison until discharged by due course of law. Judge Pike stated that this commitment was not for punishment and that he was not to be put to hard labor, but was to be imprisoned for the safety of the public.

A statement from Dr. C. P. Bancroft and Dr. W. J. Beattie of the state insane asylum, was presented and stated in their opinion Wilkins was absolutely irresponsible for the act committed by him and that in their opinion he had been suffering from systematized delusional insanity, and that he has had delusions of suspicion.

NOTED SURGEON ENDS HIS LIFE.

Tragic Death in France of H. W. Allingham.

MARSEILLES, Nov. 23.—Herbert William Allingham, the famous surgeon of Grosvenor street, London, was found dead in his room at the Hotel du Louvre. He had arrived at Marseilles on the previous evening, and registered at the hotel with several friends, among whom was a well-known London specialist, who was going to accompany him to Egypt. Mr. Allingham dined with them, and appeared to be in the best of spirits. In fact, his hilarity struck his companions as being slightly forced. He retired to his room at a late hour, and it is supposed that he must have had an attack of an old malady, which often left him in a very depressed condition for several hours.

When the attendant knocked at the bedroom door next morning he received no answer, and so entered with surprise to find the body of the patient in an attitude of repose, but a faint and peculiar odor caused the waiter to cross over to the bed, when he saw at once that Mr. Allingham was dead. On the table at the head of the bed was a small hypodermic syringe and three tubes of compressed morphine.

A note written in English and addressed to the manager of the hotel was lying on the mantelpiece. It read as follows: "I am suffering from terrible and unbearable depression, and I cannot stand it any longer. I am sorry to put you to inconvenience. Please act for the best."

"Yours truly," "H. W. ALLINGHAM."

P. S.—I have morphined myself.

The British consul was immediately advised, and he at once sent Dr. R. E. Watkins, an English doctor practicing in Marseilles, who pronounced Mr. Allingham to have been dead several hours, the cause of death being morphine poisoning. The unfortunate man had injected the whole of the two tubes, and the greater part of the third tube, in the right breast.

HAD A GREAT CAREER.

LONDON, Nov. 18.—Mr. Allingham, whose name is reported from Marseilles, was surgeon-in-ordinary to the Prince of Wales, and surgeon to His Majesty's household. His tragic death at Marseilles has not come as a great surprise to his friends in London. For some time past, ever since the death of his wife, nearly a year ago, he had been subject to terrible fits of depression, as a result of which he feared he would lose his reason. He frequently told his intimates that rather than go mad he would put an end to himself.

The fits of depression were aggravated by a disease which he contracted in the course of an operation. He cut his finger, and the greater part of the wound he became subject to a distressing malady.

The trip to Egypt, which has terminated tragically, was undertaken for the benefit of his health. He was 42 years of age, and for his years had risen higher than any man in his profession. He was the most successful in his profession in the dominion cases in this country, and since the retirement of Sir Frederick Treves, he was looked upon as the coming man in appendicitis operations.

His past was, perhaps, made easier by the fact that he was a prolific contributor to the medical press.

Mr. Allingham had no children.

SUPREME COURT JUDGMENTS.

Johnson's Conviction for Indecent Assault Sustained—Judges Disagree on Important Cases.

FREDERICTON, N. B., Nov. 23.—Supreme court met this morning, all the judges being present with the exception of Judge Hanington.

The following judgments were delivered:

King vs. Johnson—A crown case reserved by the county court from a verdict made in the trial at St. John of the defendant on a charge of rape and indecent assault. The prisoner was convicted on the latter charge. In the argument before the court, the defendant's counsel maintained that the judge misdirected the jury and that the question of consent had not been properly left for consideration. Justices Gregory, Bark and Hanington gave judgment that the conviction should be sustained; Tuck, Landry and McLeod dissenting. The court being evenly divided, the conviction stands.

Woodford vs. The Town of Chatham.—Woodford, while doing business for the St. John Gazette in Chatham was arrested by a constable under a by-law for doing business without a license. The arrest was illegal under the warrant and the plaintiff recovered a verdict against the town for illegal arrest. The town appealed. The court gave judgment, Hanington, J. dissenting, that the town could not be held liable for the action of its officer, and ordered a non-suit to be entered.

Arthur E. Smith vs. Henry W. Smith.—This case was a case tried in Gloucester before Justice McLeod. It involved a dispute over land in which the plaintiff obtained a verdict in the county court. The defendant's application for a writ of certiorari was refused by the defendant's application for verdict, or non-suit, or new trial.

King vs. Walter Cahill ex parte Tait.—A Westmoreland county case. There were two cases in which Tait was convicted for selling intoxicating liquor. Defendant obtained rule nisi to quash conviction. Court gave judgment, Gregory and Hanington taking no part, discharging the rule.

King vs. Cahill ex parte Tait.—The court ruled, Gregory taking no part, that the application cannot be supported. A rule nisi to quash was discharged.

The following case was taken up: Ex parte J. B. Snowball Co., Ltd.—Allen, K. C., moves for rule nisi to quash an assessment made against the defendant company in the parish of Sumner, Gloucester county. This case is now before the court.

WHAT SULPHUR DOES

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us Kautz's Carleton sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, the old-fashioned remedy was as effective as the modern.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in the form of the name of Stuart's Calcium Wafers.

They are small, chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form.

Our grandmothers knew this when they dosed us with sulphur and molasses, and they were right. With the crudity and impurity of ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of Stuart's Calcium Wafers.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that Stuart's Calcium Wafers were superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have seen results that the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, it is not a patent medicine, and is recommended by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin disease as this remedy."

At any rate people who are afflicted with pills, cathartics and so-called "purifiers" will find in Stuart's Calcium Wafers, a far safer, more palatable and effective preparation.

FOUR HURT IN COLLISION.

Street Cars in Wakefield Ran Together.

WAKEFIELD, Mass., Nov. 22.—By a rear end collision of two electric cars of the Boston and Northern street railway tonight at Wakefield Junction, on Main street, four persons were quite badly hurt while thirty more passengers in the cars were more or less bruised and all badly scared. Those known to have sustained injuries are: Jeremiah Corbett, aged 60, of Wakefield, fracture of his back strained and other minor injuries.

Eleanor Huse, 14 years old, Georgetown, Mass., badly injured, also suffering from several lesser injuries and from shrapnel.

Michael Downs, Wakefield, badly bruised, and it is feared has sustained internal injuries.

Motorman Lucius Tyler of Wakefield hit by flying glass and badly shaken up.

All the injured were removed to their homes where they were attended by Drs. Montague, O'Leary and Woodburn.

The cars in collision were a Boston and Reading, bound for Reading, and a Melrose and Stoneham car bound for Stoneham. The Stoneham car, in charge of Motorman Murphy and Conductor McKellan, was running ahead and had stopped at Franklin street to leave a passenger. Before it could get under headway again the Reading car, in charge of Motorman Tyler and Conductor George Calhoun, came down the steep incline behind it and crashed into its rear. The two cars came together with a fearful impact that threw the passengers in both from their seats.

WHO OWNS THE HORSE?

J. P. Morgan and A. G. Vanderbilt are Fighting for Him.

NEW YORK, Nov. 23.—Growing out of what seems to be a series of misunderstandings, it is stated that a horse with which A. G. Vanderbilt won a blue ribbon on the first day of the recent horse show, and which animal he bought for \$5,000, is really the property of J. P. Morgan. Mr. Vanderbilt bought the horse from the owner of a farm in Port Chester under the name of Harmony, and later christened him High Tide. Now it is asserted that the horse really is King, winner of many prizes in previous years, a splendid animal, which Mr. Morgan sent to Port Chester for a rest. The banker ordered his horse returned lately, and not long after his daughter discovered that the returned horse was not King, but a far inferior one. King was identified later at the horse show by several persons, and it is understood Mr. Morgan has demanded from the farm an explanation and the return of his horse. What stand Mr. Vanderbilt will take in the matter is not known. The horse has been in his possession some time.

TRUFA BILLS FOR MURDER.

TOWANDA, Pa., Nov. 23.—The grand jury today found true bills against Mrs. Sophia Merritt, the mother, and Charles Bigler, Alanson and Nancy Johnson, her children, charging them with murder and arson.

The mother and her four children are charged with killing Maggie Johnson, wife of Bigler Johnson, and her ten-year-old niece, Annie Benjamin, on the night of Sept. 15, and afterward setting fire to the house and burning the bodies.

FOR THE LUMBERMEN.

HALIFAX, Nov. 23.—The Presbyterian board of home missions today voted \$500 for pioneer missionary work this winter in the lumber camps of the St. John and Miramichi rivers.

IN THE COUNTY COURT.

The case of the McLaughlin Carriage Co. v. F. H. Quigg was heard in the county court yesterday morning. This is an action on a promissory note for some \$25. The defendant demurred to the plaintiff's declaration on the ground that it did not set out the mode of incorporation of the company and under what law the company was incorporated. E. R. Chapman for the defendant, argued in support of the demurrer; M. G. Teed, contra.

Judge Forbes will give judgment in the case Dec. 1st next.

HOME AFTER TWO CAMPAIGNS.

Eventful Experience of a St. John Soldier.

Captain Ralph Markham Talks Interestingly of South African Adventures—Canada is Best.

Captain Ralph Markham returned Wednesday by steamer Manchester Exchange, from his second campaign in South Africa, a couple of bullet wounds and an occasional twinge which they cause in damp weather, he is as sound and hearty as when he left the second time for the seat of war three years ago.

While Captain Markham brings back good memories of South Africa and of his trip, and while he has a favorable idea of the future of that country, he is of the opinion that there is no way to be of that part of the Transvaal which is present, times, especially in Johannesburg, the heart of the mining country, are very dull. Many of the mines are closed down and thousands of men are out of work. However, when the Chinese coolie labor plan is fully in operation, and the mines are again working, he is of the opinion that the prosperity of the country will return, and that so long as the supply of gold holds out, and apparently it is inexhaustible, there need be no fear of the future in South Africa.

The Boers, he said, are settling down again, though not contented yet, and are resigning to the result of the war, but, owing to the great damage done to all the farming country during the war, the process of reconstruction will take a long time. Many of the Boers who the British government is supplying with seeds and farming utensils, are living in tents. Throughout the whole of that part of the Transvaal, where war was waged, there is hardly a house left standing. The greatest suffering is among those Boers who before the war did not possess holdings of their own, but hired themselves out to others. These are, almost without exception, without employment.

Though there has been great opposition to the importation of Chinese labor, and though it will undoubtedly tend more to the profit of the mine owners than any other, yet Captain Markham thinks that the result will be for the good of the country generally, as the Chinese will be employed underground and the more work there is, the more chances for work will be given to men in all departments of labor on the surface.

Captain Markham's experience since he left here, three years ago in January, has been an eventful one. He fought with the 2nd C. M. R. until the battle of Hart's River. He has talked with dozens of Boers since he fought that day, and they all express warm admiration for the way in which the Canadians conducted themselves.

As a result of his declaration of war, in June, Captain Markham joined the staff of the Rand Daily Mail in Johannesburg, of which he was circulation manager until his departure from South Africa. On his way home he stopped at Natal for a month with a cousin, and left on June 3rd last for Trieste, Austria, by way of the east coast of Africa and the Suez Canal. Leaving Trieste, he visited Venice, passed through Switzerland and France, stopping at Milan, Lucerne, Bern and Paris. For the past four months he has been visiting friends and relatives in various parts of England and Scotland. He left Liverpool on the last stage of his journey thirteen days ago.

COMPLICATIONS FEARED.

WASHINGTON, Nov. 23.—Displeased by some action of the natives, Mr. Davis, the American consul at Alexandria, is reported to have lowered during a recent celebration in honor of the accession of the Sultan. It is said the officials and people of Alexandria regard the action of the consul as an insult, and it is expected at the department that a complaint on the subject will reach here soon from Constantinople. Should the Turkish government demand the recall of Mr. Davis it would be necessary to comply with the request, and he probably will be given another assignment unless it should be shown his action was warranted.
