ONE CASE OF SMALLPOX.

AN INSPECTION SHOWS THE

FROM DISEASE.

DOUKHOBORS ARE FREE

HALIFAX, Jan 30-The following report

of the voyage of the steamer Lake Supe-and daughters were placed, and sent the rior has been furnished by the agents fourth officer, Mr. Wood, in charge of

of the voyage of the steamer Lake Supe-

vaccinated and no sickness had appeared among the people. In fact everything was going along as nicely as possible. Dr Montizambert and Dr Jones started to disembark the crowd of 1,000 Doukhobors at 1 o'clock this afternoon, and this large number of people were inspected and safely housed before night fall.

KIPLING AND THE SARAH

SANDS.

A curious point is raised by Mr John J Castle, nautical assessor and ex-com-

mander of the Sarah Sands, in connec-

tion with Mr Radyard Kipling's narra-tive in the Christmas"Black and White" of the burning of the Sarah Sands. "I do not," said Mr Castle to a Daily

From "The Empire," London, Eng.)

ST. JOHN, N. B., WEDNESDAY FEBRUARY 1, 1899.

to be stopped, and the vessel to be brought to the wind so as to con-fine the fire as much as possible to the after part of the ship. Realizing the dangerous nature of the fire I at once to clear the powder magazines. I then ordered all the boats to be got out, and the women and children to be placed in them. This was safely done, although there was half a gale of the time, with a high sea running. I then ordered the third officer, Mr. Very, to take charge of the lifeboat, in which the officers' wives and departure wave placed and sent the

rior has been furnished by the sgents here. It shows that every precaution was taken by Captain Taylor and the ship's surgeon to isolate the one case of smallpox aboard the ship; and it is sufficient tribute to the effectiveness of that isolation and care that such a large crowd of people should be brought into port in the best of health. The Lake Superior left Batoum at 10 p. m., Jan. 3, and arrived at Halifax Jan. 23, having met with light winds and fine weather to latitude 26 N., longitude 46 W. charge of the subject of an and safe were seven boats, it necessarily took several of the seamen from the ship. The case of smallpox on the 18th a fine boy was born. On the 20th, a female, 59 years old, died of sathms. On the 23th a female, 59 years old, died of sathms. On the 23th a female, 59 years old, died of sathms. On the 23th a female, 59 years old, died of sathms. On the 23th a female, 59 years old, died of sathms. appointment to revert to his permanent grade. In case of a coldier, a commanding officer may inflict summarily, the following punishment: imprisonment, with or without hard labor, for 14 days; for absence without leave the imprisonment with or without hard labor may be extended from 168 hours to 21 days. Deprivation of pay for absence without leave not exceeding five days, which may be combined with imprisonment or confinement; over five days, which may be combined with imprisonment may be added to fines. A commanding officer may also award minor punishment, the soldiers having no right to claim trial by court martial. A commanding officer can delegate to officers commanding companies the power of awarding punishment to soldiers for minor offences. If an officer, or man, who without lawful excuse neglects or refuses to attend parade or drill, the penalty is for officers \$10, and non-commissioned officer or man who disobeys a lawful order of superior officer or is insolent or disorderly, there is a penalty. Or any non-commissioned officer or man who seems a back seat and the spectated of a number of Landesvater on high horses. And all because of an American girl. But, put on the stage to the forgotten music of the Rio Carotte. What a charming little operetts the story would make.—[Collier's Weekly.]

A commanding officer may also award minor punishment, the soldiers having no right to claim trial by court martial. A commanding officer or man, who without lawful excuse neglects or refuses to attend parade or drill, the penalty is for officers \$10, and non-commissioned officer, or man, who officer or man who disobeys a lawful order of superior officer or is insolent or disorderly, there is a penalty. Or any non-commissioned officer or man who disorderly, there is a penalty. Or any non-commissioned officer or man who instant, when thought to be measles, was at once isolated in an iron house at the after part of the ship. There has been no sickness whatever aboard the ship since the 23rd instant. The ship is now being detained in quarantine owing to the aame case of smallpox. There is no sickness among the Doukhobors or ship's crew. All are being vaccinated. Signed, Count 8 Tolstoi; W H Taylor, master; J Armstrong, surgeon.

Accents of the Lake Superior have Drono sickness among the Doukhobors or ship's crew. All are being vaccinated. Signed, Count 8 Tolstoi; W H Taylor, master; J Armstrong, surgeon.

Agents of the Lake Superior have protested against the decision of Dr Montizambert to detain the ship for 21 days as arbitrary and without precedent. They claim that after the passengers are landed and as no cases of smallpox have developed in the seven days which have elapsed since the child died at sea, the steamer should be fumigated and allowed to proceed as customary. They have wired to Hon S A Fisher to that effect.

Dr Montizambert telephoned from Lawlor's Island this morning that the work of preparing for the comfort of the immigrants was proceeding very satisfactorily. All the Doukhobors had been vaccinated and no sickness had appearwas thrown on the main top sail yard, and there being great danger of the sail taking fire, went aloft with some of his men carrying wet blankets, by which means they succeeded in putting out the fire. Had he not done so, the sail would have been burnt, the ship would have payed off from the wind, and every soul on board would have been driven and of her. out of her.
"The stopping of the leak in the port-

"The stopping of the leak in the portquarter was not a mere plugging of the
hole with hammooks, but chains had to
be passed round the stern to secure it,
and the breach in the quarter was
stopped with all the spare sails, hawsers,
and debris from the fire, making a perfect dsm, which kept the water out. Of
course, the ship's officers and sailors
were engaged on that work.

act in aid of the civil power or obey
lawfal order of a superior officer.

The lecture was particularly interesting and instructive to the younger officers
who are likely to apply for their qualitying certificate in the near future.

HARVEY STATION, Jan 30-Mrs Agnes Cleghorn, one of the oldest residents of Iweedside, died at her home at Further Twesdeide on Friday. She had, until a short time ago, enjoyed good health, but was attacked with the prevailing lagrippe, which carried her off: She was a native of the south of Scotland, and came here with her husband over 45 years ago. They settled on a new farm in Tweedside. Her husband died many

### RAGAN COURT MARTIAL.

Commissary General's Testimon Was Very Dramatic,

Washington, Jan 26—The feature of the proceedings before the Eagan court martial today was the testimony, dramatic in many parts, in its quiet intensity, of Commissary General Eagan himself. Not more than 15 or 20 people outside of the court and a dozen or so newspaper correspondents were admitted to the trial room. Several witnesses preceded the chief figure in the trial. Gen. Eagan listened intently to the testimony of the witnesses and occasionally held brief consultations with his counsel. He was dressed in full uniform without, sword, and his florid face, white hair and moustache and soldierly bearing recalled to many the late General Sheridan.

Never Leave His Bed Alive," Said the

The same is true of a wise man who is having a tussle with ill -health. It is barely possible that he may have the natural inherent resisting power that will enable him to conquer disease without the assistance of medicine, but he is not willing to take the chances and will not disdain the

ance of medicine, but the is not winning take the chances and will not disdain the help of the right remedy.

When a man feels out-of-sorts, when his head is achey, dull and heavy, his body lazy, his nerves jerky, his sleep broken, his appetite finicky, his skin sallow, his breath foul and his mouth bad-tasting, he is having a struggle with ill-health. If he is wise he will take Dr. Pierce s Golden Medical Discovery. It gives edge to the appetite and makes the digestion perfect. It invigorates the liver. It makes rich, red, pure blood. It puts vim into every organ and fiber of the body. It drives out all impurities and disease germs. It imparts the glow of health to the skin and the vigor of youth to the muscles. It tones the nerves and gives refreshing sleep. It builds firm flesh, but does not raise the weight above Nature's normal. It cures 98 per cent. of all cases of consumption. All medicine stores sell it. An honest dealer will not suggest a worthless substitute for the sake of a little extra profit.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser.
A splendid fhousand-page volume, with over three hundred engravings and colored plates. A copy, paper-covered, will be sent to anyone sending at cents in one-cent stamps, to pay the cost of maling and customs only, to Dr. R. V. Pierce, Buhalo, N. Y. Cloth-bound a stamps.

### SALVATION ARMY.

ANNUAL REPORT OF RESCUE WORK IN ST. JOHN.

We feel glad at the close of another

The Cliffice, Kirgs county, Agriculture and Comment formating the proper and the register of the proper date of the proper date

branch of the work.

Providentially, we believe that during the year a building on Sheffield street has been placed at our disposal. It was built expressly for this purpose, Mission work was carried on there for some years, but afterwards given up and the building left unoccupied. We intended commencing work there in the month of October. On examination, however, the building was found to be very much out of repair. As it would coat considerable to put it into a condition to be used, and we had no means at our disposal to do so, we had to open a mission in connexion with this

to a condition to be used, and we had no means at our disposal to do so, we had very reluctantly to abandon the idea at least for a time. We feel sure that if the way was opened for us to start this mission it would prove the necessary connecting link between our home and whom we seek to rescue. We, therefore, now make an earnest appeal KICKED HIS PHYSICIAN.

Doctor—South American Rheumatic Cure Does the Miracle.

Mr. Granville Haight, of Sparta, Ont., says his father, who is a very old man was very low from a severe attack of rheumatism. His physician assured the family he would never leave his bed alive. A friend took a bottle of South American Rheumatic Cure to him. A few days later upon receiving a visit from the doctor, he ran across the room, and playfully administered a hearty kick. He is now up and as well as ever.

> are strong, but is it not still more blessedly true that Christ came to "proclain liberty to the captives" and is almighty

to save. Following are the year's figures: Following are the year's figures:

In the Rescue Home at the commencement of the year, we had 10 girls and nine children. Admitted during the year, 33 girls and 29 children, making a total of 43 girls and 29 children in the last 12 months. We have in the home now 8 girls and 11 children.

Of those who have gone out the large majority are in situations or with their majority are in situations or with their friends. With the six girls and one child in the maternity hospital, this makes a total of 14 girls and 12 children

Have Not Made Public Their Finding as Yet.

Washington, Jan 27—The case of Commissary General Eagan, charged with conduct unbecoming an officer and a gentleman and with conduct tending to the prejudice of good order and military discipline, is now in the hands of the court martial appointed to try him. Today the taking of testimony was closed and arguments of counsel were submitted. The trial has lasted three days and consumed less than eight hours of actual sitting. A session behind closed doors of an hour or so sufficed for the court to reach a conclusion and embody it in a report. What the verdict was is altogether a matter of speculation.

Boiton, Jan 27—Mrs Etta Hurwitz would like to know where her husband, Samuel Hurwitz, is. She alleges that he deserted her eight weeks ago, and she wants to know why.

Mr Hurwitz says that when her husband disappeared they had been living at 22 Crescent place, and it was only four months after their marriage. She further alleges that when Samuel suddenly left her, apparently to return in more, he took with him some money to belonging to her.

A few days ago someone informed Mrs thanks has been dead to try him.

## BOURINOT AT SACKVILLE.

Our System of Government, Its Strength and Weakness.

SACKVILLE, Jan 27-Sir John Bourinot gave his lecture called Our System of Government, Its Strength and Weakness in the Eurhetorian Hall tonight. The students of Mount Allison, as well as a great many town-people were present. and gave the learned lecturer an attentive hearing. He contrasted the government of Canada with that of the United States, and deplored the spoils system. He spoke of the senate and advocated an upper house composed of members partly elective and party appointed. In con-clusion Sir John gave a very eloquent peroration, in which he paid a high com-pliment to the French-Canadian Loyalists and early pioneers of Canada.
Senator Wood moved a vote of thanks, which was seconded by F W Sprague. Sir John was enrolled an honorary member of the Eurhetorian Society.

FEEDING OF FOWL.

Everything that tended to bring the city and country people together, to show them that their interests were identical and that they could follow their profession side by side, was an advantage. He referred to the increased attention paid by the Parliament of Canada to the agricultural interests of the

bottom should be put on three-quarters of an inch apart. Each compartment has a small sliding door in front. The crates a small sliding door in front. The crates of an inch apart. Each compartment has a small sliding door in front. The crates are placed on stands about two and a half or three feet from the ground. The door in the crates that or three feet from the chickens in the crates in the crate half or three lees from the chickens in the crates are received on sand or some absorbent material below. A light "V" trough, two and a half inches inside, is placed in whole front of each crate, running the whole length of it. The bottom of the trough is about level with the floor slats of the

The birds of the larger breeds are best suited for fattening. Dorkings and Plymouth Rocks are good sorts, also light Brahmas and Buff Cochins or crosses of Brahmas and Buff Cochins or crosses of these. The age may be anywhere from three to four or even five months, and the condition of the birds should be such the light that the light as to indicate healthfulness and a tend-

The feed may be cats, barley or wheat, preferably cats, ground very fine—as fine as they can be pulverized—the seeds or hulls being kent in, and also thoroughly pulverized. The ground grain should be a three with a time with calls. The akim mike with skim milk only. The skim milk may be sweet or sour, preferably sour. The mixture should have about the consistency of thin porridge, so thick that it will not run readily and so thin that it a large spoonful of it. mixed with skim milk only. The skim milk may be sweet or sour, preferably sour. The mixture should have about

that it will not run readily and so and that it a large spoonful of it were put on a plate it would spread.

The chickens should be fed from the trough in front of the crates three times a day. During the first three or four days they should be fed quite sparingly. After the first week they should be fed as much as they will eat up clean twice a

When the chicken's are first put in it is a good plan to rub a little sulphur under both wings over a spot of about an inch and a half in size, and over a similar surface of the skin under the tail. This treatment will kill lice. It is desirable to have the chickens fed

in the crates from the troughs for about two weeks. Then they may be fed by the eramming machine. When it is used they should be fed twice a day only, and the feeding period with the cramming machine should not be longer than two

During the last ten days of the fattening period a small portion of tallow should be put with the feed. To begin with, the tallow should be used at the rate of one pound per day for about 70 or 100 chickens, according to size. That should be gradually increased until one pound per day is being fed to from 50 to 70 chickens. The best way to mix the tallow is to melt a portion of it, thicken it while still hot with ground meal, and then mix the right quantity of that paste with the other feed for the day.

PREPARED FOR MARKET.

How to Dress and Press a Fewl Before Offering It to Custemers.

A fowl dressed and pressed into the shape shown in the cut white still warm, and tied, will present a plumper and more attractive appearance for a choice private trade than when dressed in any other way. Then, too, it is in the most

FOWL ATTRACTIVELY PREPARED. convenient shape for going into the pot for boiling or into the pan for roasting. This can be seen at a glance. Pick the birds carefully, wipe off any discoloration with a moist cloth, singe carefully and remove any remaining pin-feathers, and the bird is ready for cooking. Customers appreciate getting poultry in just this shape. The feet can be left on, but when customers have confidence in the one furnishing them poultry this is not necessary.—American Agriculturist. sary .- American Agriculturist.

Make it a point to have your poultry of the best quality before shipping to market, says The New York Produce Review. One who is not accustomed to visiting the large markets knows nothing of the enormous amount of inferior poul-try that is sold and which largely affects the prices, yet there is always a demand for that which is good and at a price above the regular quotations. The assorting of the carcases before shipping also leads to better prices. Old roosters, which leads to better prices. Old roosters, which seldom sell at more than half price, should not be in the same boxes or barzels with better stock, and to ship poultry alive and have roosters in the coop with fat hens is simply to lower the price of the hens, as the buyer will estimate the value by the presence of the inferior stock. In fact, never send any poultry to market unless in first-class condition, and under no circumstances ship the inferior with that which is better.

LOADING DRESSED HOGS. PASSING OF THE OX. One of the Sad But Inevitable Results of A Device by Means of Which the Car

Quickened Country Life. Prof. Robertson, Dominion Commissioner of Argiculture, on Thursday night, in response to a toast to which his name was coupled, remarked upon the happy circumstance that the banquet was given by the Toronto association to the breeders

vantage. He referred to the increased attention paid by the Parliament of Candada to the agricultural interests of the country. This was as it should be, for the products of agriculture were four and a half times more than the products of the mines, fisheries and forests of the country, the total being \$600,000,000 a year produced from the crops of the field alone. Prof. Robertson gave the following method of fattening poultry for market as the one practised by English poultry men:

The crates in which the fattening is carried on are 6½ feet long by 16 inches square, inside measurement. Each crate is divided into three compartments, and each compartment holds four or five chickens, according to their size. The crates are made of slats running lengthwise on three sides, and up and down in front. The slats may be from one inch to an inch and a half wide by five-eighths of an inch thick. The spaces between the slats in front should be two inches wide, to permit the chickens to get their heads through for feeding; the slats on the bottom should be put on three-quarters of an inch apart. Each compartment has

between the twilight and dawn, bowling cheerily as they wended their toilsome way along, and boarding themselves when the time for nightly camping arrived. But the old fellow has had his day, except where the conditions are still primitive. Once he was the steady reliance of every farmer, but now one hardly sees a yoke in the harvest field or the plow lot. His pace cannot be readjusted to the quick step of modern ideas and inventions, and utilitarianism has no

merriment in an ox is inconceivable.

How a Change for the Better in Size and Arrangement Can Re Effected. Owing to the scarcity of lumber for

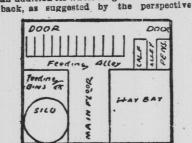

THE ENLARGED BARN.

haps, runs from side to side instead of from end to end, for which reason the stock have to be kept in one end (in narrow quarters, too), while the other end is used for a hay bay.

Now, in case such a barn is not too
badly racked and decayed, it can easily be remodelled, new-sided, shingled, and provided with new sills if necessary, and

an addition its whole length erected at the

INTERIOR ARRANGEMENT.

view in the illustration. In this way long "tie-up" is furnished for the stock, as well as a place for calves, thus leaving that place where the cows stood under the main roof to be utilized for a silo, feeding bins and such like, as can be seen in the plan, while the hay bay re-mains as before. This gives an arrangemains as before. This gives an arrangement that is highly convenient for feeding and caring for stock, and, best of all, the entire change can be effected at very small expense.—N. Y. Tribune.

Hints for Stockmen. Furnish the swine plenty of good dry bedding.
Feeding ground grain is more econor

cal than feeding whole grain.
Remember that if hogs bunch together they should be routed out.

Don't let the horses stand in hot manure, unless you expect scratches.

Ice cold water taken into the stomach of any animal retards its digestion.
When a colt is well broken it is worth
twice as much as one that is not well

broken. When the hog is fat, sell it. Don't waste good grain in waiting for a better market. Don't permit the horse to stuff itself

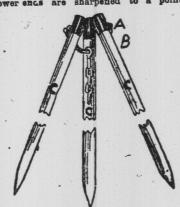

with hay all day. It injures the horse Whatever anybody may say the cooking of food means the saving of food and the more rapid fattening of the animal.

If any animal is fed dry, fattening feed all winter it will be luck if it does not become sick. Feed some roots, ensilage, or the bone and muscle forming foods. A little oil meal is good.

Ice in Watering Troughs. Wherever stock is watered from troughs Wherever stock is watered from troughs in cold weather there should be a plug fixed at the lower end of the trough so that with its removal all the water can be drawn off every night. It is far better, however, to water stock in winter in ponds where the ice will remain frozen all winter only outting the fresh ice that ponds where the ice will remain frozen all winter, only outting the fresh ice that has formed over night at the watering places. The water under the ice in a deep pond is kept warmer by the icy covering, and is generally at the surface under the ice several degrees below freezing. If the watering trough is allowed to fill with ice it will keep the water very near the freezing temperature. A running brook where the ice may not freeze at all has water much celder than it is under the ice in a pond.

cass Is Handled With Almost No Lifting.

One of the chief outdoor difficulties at butchering time is the loading of heavy dressed hogs intended for market. Frequently this is done by one man, aided by the women of the household, and it is

bolt, a. An iron, b, formed has an executed by its fastened to the outside ends of the rod which joins the poles by running the rod through eyes formed in the iron. This loop of iron is to support the chain which holds the hog.

When ready to hang the hog, lower one leg of the tripod, fasten on the hog, then raise the leg until the hog hangs sufficiently clear of the ground. In loading back the horses, placing the wagon under the tripod close to the hog. Then raise one leg of tripod until the hog will awing into the wagon, then lower it. The hog is loaded in this way with almost no lifting. This tripod is equally as the property of the property o

to learn everything that is to be known about that particular crop. At the same time he will learn something concerning every other crop which he can grow, in order that he may diversify his productions ampely as possible. tions as much as possible.

Specialty farming is always destructive farming, as it makes a rotation of crops impossible and draws constantly on the tertility of the soil without permitting renovations except by the direct applica

tion of fertilizers, a costly way of main-taining fertility, no matter what is used for this purpose.

The farmer who plants a variety of orops, keeps sheep, cattle and hogs and takes good care of everything, is always ready for any season or any peculiar condition of the markets. He may not have any especially fat years, but he will never have total loss to content with and on the whole will have greater profits and fewer losses.—Farmers' Vetce.

Sinks for Farm Kitchens. Every farmer's kitchen should be furnished with a sink, into which both hard and soft water should be brought by pumps. It is not always convenient to have the well water thus brought, but there is no reason why the cistern water should not be. The sink should connect with a drain for the carrying away of waste water. If water must be brought into the house in pails, it surely is too much to ask that it be carried out in the same manner and thrown on the ground same manner and thrown on the ground to make a spot offensive to sight and smell and a breeding place for files. At one end of the sink a long, broad shelf makes a good place to put disles as they are wiped, and under this should be drawers for dish wipers and kitchen aprons, and a cupboard for teapot and coffee pot.

valuable plant food. Liberal applications of decomposing manures, such as barnyard manure, in connection with dressings of lime, have usually been found affective for this purpose.

POULTRY DEPARTMENT.

NEW BRUNSWICK POULTRY ASSOCIATION SHOW.

On Friday evening last, the closing usually productive of much nervousness and some irritability. All this may be remedied in the following way:

Association's Exhibition, and while the Association in progress, and some irritability. All tanks and seep from one season to another a large tripod by joning at the top three stout poles, c, 13 feet long. Keep the upper ends of the poles from splitting by means of iron bands. The poles from splitting by means of iron bands. The judge, Mr H B May, of Natick, Mass, the thanks of the association for his careful and efficient work, while discharging his duties. The president, Dr charging his duties. The president, Dr charging his duties. The president, Dr. John Berryman, was in the chair, and Major A J Armstrong, announced the object of the meeting, as follows:—

object of the meeting, as follows:—

We have with us this evening a gentleman who, for the past three or four days, has been acting in the capacity of judge, and who, by his fair and impartial judgment, has given us entire satisfaction, and the members of this association feel that, before allowing him to depart for his home, they should in some fitting manner convey to Mr. May, and place upon record in our books, our great appreciation of the faithful and impartial manner in which he has performed his duties. There was no use of any one trying to influence him, and no one attempted to do so. No man could have given better satisfaction, and the appreciation of complaint has been heard from anyone. I now move the passing of a resolution of thanks to be tendered to Mr. May, for the very faithful manner in which he has performed his duties, and that a record of the same be placed upon the minutes of this association.

This loop of iron is to support the chain which he has performed was seconded by Mr W A the minutes of this association.

This motion was seconded by Mr W A
Jack and unanimously carried.

This caution is necessary, as many persons leceive purchasers by false representations. Mr May replies as follows:

Mr President, officers of the Poultry
Association, and gentlemen:
You have taken me entirely by surprise tonight and I hardly know what to

under the tripod close to the hog. Then raise one leg of tripod unti! the hog will swing into the wagon, then lower it. The hog is loaded in this way with almost no lifting. This tripod is equally as valuable for hanging hogs to be dressed. They may be left hanging upon it until loaded.—Orange Judd Farmer.

SPECIALTY FARMING.

It Draws Constantly en Seil Fertility Without Permitting Renevation.

Specialty farming means devoting the larger part of the time to the production of one crop. This crop may be wheat, corn or cotton, and there are large sections in this country devoted almost wholly to one or another of these crops. One year's failure of the special crop of any of these sections means serious in-One year's failure of the special crop of any of these sections means serious inconvenience to farmers, and a failure for two or more successive years leads to ruin. From the orange groves of Florida and the cane lands of Louisiana to the wheat fields of North Dakota the specialty farmer is liable to work without profit because of barren years or low prices. It is true that each section is better for some one crop than for any other, and it is good policy to devote a considerable part of the time and the farm to that crop. The good farmer will endcavor to learn which crop is the most profitable, and that having been settled he will try to learn everything that is to be known also of their demerts, and in very instance my judgment has been conscientions, and if there were any faults in your birds, I did not pass them over. Permit me to say also that I have never gone to a show in my life and judged, nor have a show in my life and judged, nor have I ever seen a man go through and judge a show, without in all human probability making some mistakes; and, antil I have the infallability of the human race clearly demonstrated to me, I shall al-ways admit that I am liable to make

have the infaliability of the human race clearly demonstrated to me, I shall always admit that I am liable to make some mistakes; but I can ascure you, gentlemen, I have done my best, and I feel very thenkful to you for the great compliment you have paid me. I do not feel that you have done it in view of any other feeling, except that it was your duty. I do not feel that you have taken this action for the purpose of complimenting me out of good feeling alone.

Now, gentlemen, I live some distance away, where there is a geographical and governmental difference between your people and ours, but I can assure you that there is no difference of feeling in the hearts across the border from that which you have here. We all stand up in behalf of justice and right the world over. We can shout and scream almost as loudly in behalf of the victories of the Union Jack as we can for those of the Union Jack as we can for those of the Good will and harmony, it must be confined to a small number of people, and is not worthy of even a passing notice. We rejoice in your enterprises that have been a benefit to the poultry interests throughout the dominion; and it is the most important that it is the most into the exception, possibly, of Maine and Vermont. terprises that have been a benefit to the poultry interests throughout the dominion; and it is the most important industry we have in our section of the country. Taken from a business standpoint our records show that there is more money annually paid for the products of poultry for market and eggs for consumption than for any other article of commerce we have in our section, even wheat, corn or sotton.

sheep Renovate the Soil.

There are two strong reasons, among many others, which make it profitable for the farmer to keep sheep. Of all the stock kept on the farm, sheep stand or above all others as renovaters of the soil. Sheep will eat a greater variety of plants than cattle or horses, and consequently many kinds of noxious weeds are eaten off and made to produce wool and mutton instead of ripened seed which falls to the ground to come up the following year and displace the grasses and growing crops. For this reason alone, if for no other, every farmer should keep at least a dozen sheep.—Farming.

Fertilizing Sour Lauds.

The first object sought in fertilizing should be to correct the acidity of the soil and to set up the processes of decomposing manures, in connection with dressing and under the original matter and mitrification so as to convert the inert into valuable plant food. Liberal applications of decomposing manures, such as barney ard manure, in connection with dressings of lime, have usually been found affects for this purpose.

The first object sought in fertilizing should be to correct the acidity of the soil and to set up the processes of decomposing manures, such as barney and manure, in connection with dressing of decomposing manures, such as barney ard manure, in connection with dressing of lime, have usually been found affects for this purpose.

The first object sought in fertilizing should be to correct the acidity of the soil and to set up the processes of decomposing manures, and any other article of commerce we have in our section or seed that corner where we raised poultry it was regarded as a luxary, and was purpose. It was regarded as a luxary, and was rely placed upon the table—perhaps half a dozen times a year. It was soid in the markets, and generally to wealthy use interesting the manure of the poultry business commands the respect of even broader and a most healthy one. Today the poultry business commands the respect and a most healthy one. Today the poultry business commands th gentlemen, and I wish also to congratulate you upon your organization. You
have put up an excellent show, and the
arrangement reflects great credit upon
the management. The superintendent
of the hall has been very efficient, and I
must particularly thank you for the very
excellent clerk with whom you have provided me. He has been very rapid and
accurate in his work. At the outset
I frequently, unknown to him,
watched to see that he placed
the figures in the right section,
but I soon gave that up is I
found that there was not the slightest need for it. Another gentlemen whom

### Semi-Weekly Telegraph,

ST. JOHN, N. B., FEBRUARY 1, 1899.

Premier's address to the electors of New country. We believe it will be the verdict of all fair-minded men that no more manly and statesmanlike address has been presented to the electors of this province than that of Mr. Emmerson, and that the reasons which he gives for a continuance of the support of the people to his government are sound and sufficient. Under been well for the legislature to be allowed to last its full term, but when an atthe ground of party allegiance it is have no doubt as to their answer to this

DR. STOCKTON'S ADDRESS.

ing this issue.

still leader of the opposition, issued an were issued in 1887, and also had the address to the electors of this province, approval of Dr. Stockton, who was then through the columns of the Sun, asking supporting the Blair government. These them to turn the Emmerson government items we have named for which the out and to place him in power. We present government are not responsible, must confess at a feeling of great dis- or for which Dr. Stockton is equally appointment of reading this political responsible, make up a total of \$674,500, manifesto from the learned Doctor of which deducted from the \$1,216,500, Law, Doctor of Civil Law and Doctor of leaves a balance of \$542,000, for which Philosophy who leads the opposition, the present government assumes the for we had hoped that under the pecu- fullest responsibility apart from Dr.Stockliar circumstances of the case we would ton. There are but four items in the have been treated to something new and list, two of which are small and relate to original. Instead of this being the case expenditure in St. John, and two large we find that Dr. Stockton simply repeats the same old story that he has been telling the electors these many new Woodstock Bridge, a gigantic strucyears, a story that has become ture. When Dr. Stockton states that threadbare, like an ancient garment, and this is an expenditure which ought to which has been many times shown to have been paid out of the ordinary revbe baseless, misleading and essentially enue, he is simply trying to mislead the false. For instance, Dr. Stockton tells electors. No such costly bridge had the people that the net debt of the ever been built by the province before, and province at the close of the fiscal year no one ever contemplated that the cost 1884 was \$757,697, and that at the end of of this bridge should come cut of the 1897 it was \$2,488,577, "an increase dur-ordinary revenue. It was essentially a ing that period of \$1,730,880, or charge against capital, and as such it an average increass per year was proper that bonds should be issued ef \$134,663." This is interesting, but to pay for it. The same remark is true Dr. Stockton wholly cmits to men- in regard to the item of \$375,000 for steel tion that in 1889, when Dr. Stockton bridges which are to replace wooden ceased to support the government, the bridges. The latter wear out or rot debt had risen to \$1,620,300, an increase down in a few years, while the steel of \$862,603 in five years, or at the rate bridges will last for ages. They are of \$172,520 a year. For this increase in therefore properly charged to capital the debt between 1884 and 1889 Dr. account, because they will have been Stockton is just as much responsible as paid for by the accumulations of

These figures may be tiresome to the general reader, but it was necessary to deal with them for the purpose of showterest had increased by \$57,000 in five ing how little reliance can be placed on Dr. Stockton's alleged facts and figures. We trust that the learned doctor, when he perceives his error, will hasten to correct it and beg the pardon of the public for leading them astray. When we pass from his falsified figures to the remainder of his address, we find it a 'mere waste of dreary platitudes; indeed the address is more remarkable for what it does not contain than for what it does. Dr. Stockton makes no mention whatever of the Moncton convention, although no longer ago than last July he considered it the greatest political movement in the history of the province. What has become of that great movement since that time? What has happened that it should be so completely ignored by the leader of the opposition, who declared that provincial politics should be run on dominion lines. We must say that we think by ignoring the Moncton convention Dr. The increase of the public debt, we are told by friends of the government, is almost wholly due to railway subsidies granted under legislation, for which the government is not true. Nearly one-half of the increase in our net debt during the last thirteen or fourteen years has been for public services outside of railway subsidies, and chiefly for services which before that time were paid for out of the government. A visit to St. John in the provincial legislature if the provincial legislature if the formula of the ordinary annual revenues.

The increase of the public debt, we stockton is treating his friends, Sir Charles Tupper and Mr Geo E Foster, in a very unhandsome fashion, for the government from western Early the services of the increase in our net debt during the last thirteen or fourteen years has been for public services outside of railway subsidies, and chiefly for services which before that time were paid for out of the government. THE DOUKHOBORS AND THE SUN. The Sun of Thursday undertook to deny that it had railed against the government for giving the Doukhobors a home in Canada and assured its readers that it had never spoken against these unfortunate Russian exiles. These statements would be extraordinary if they appeared in any other paper except the Sun, but the readers of that paper have become so accust med to see it contradict the most obvious facts that they can stand almost anything in the way of misrepresentation that the Sun can publish. The following extract from an editorial which appeared in the Sun on the 15th November shows that our morning contemporary is not telling the truth when it says it never has spoken against the Doukhobore:-

The new comers begin their Canadian career by becoming in part a public charge for shelter and probably for sus-tenance during the coming winter. After these Spirit Wrestlers we are promised an immigration of Russian Jews, who are due next year. So far as can be learned many of these settlers who have come in or are about to come are of a class which would not be permitted to land in the United States

United States.

There is a duty of hospitality belonging to nations as well as to individuals. But in both cases the obligation has its limits. We do not take tramps into our homes and make them members of the household. In this creative period we are establishing in this country the household and citizenship of the future. The western wheat fields are a splendid heritage, but its value in the future depends largely upon the character of the occupants. The immigration department is doing something every day to deter

mine that question.

It is Canadian policy to restrict the immigration of Chinese. The policy is sound, and is supported by all who have lived in communities that are partly Chinese. This is not because the Chinese are not self-supporting nor because oratory of Dr. Stockton and the memory of his deeds. They will stand for centure as since Dr. In the opposition than it was supporting the gov-Stockton says that the sincreased from \$46, out \$130,000 in 1897.

o date business office. S. KERR & SON. THE SUN AND THE FARMERS.

The Sun is very much afraid that the farmers of New Branswick are in favor of the present provincial government, and it begs them to listen to what it has to say against the premier and the minister for agriculture. The Sun is the paper which three or four years ago declared that the agricultural population of New Brunswick could not be expected to increase in number; that, in fact, New Brunswick was filled up, and that if any change took place it would be rather in the direction of a diminution of our farmers. After such an absurd statement the Sun may be expected to give carrency to any sort of nonsense. It argues with great gravity in an article which appeared in its issue of yesterday that the government is wrong in encoursgin? the farmers of New Brunswick to grow wheat. It thinks that a lawyer like Mr. Emmerson has no right to give advice to the farmers about wheat growing, but Dr. Stockton, the leader of the opposion, is also a lawyer, and it is he who speaks through the Sun and advises the farmers not to grow wheat. The farmers will listen to the premier who has initiated an agricultural policy term of two years.

St. John in the provincial legislature if great deal of interest to their atterences. They are now Conservatives, although they once pretended to be Liberals, and to regard the Conservatives as wholly dishonest and corrupt. It will be wel for them now to explain what the Conservatives have done to deserve their confidence and to wash away their for mer iniquities. The two venerable doctors will have an interesting time of it before the campai in is ended.

EL OBEID BESIEGED

lieve the Town.

OMDURMAN, Jan 30-Colonel Kitchener brother of the sirdar, with a strong Egyptian force, is besieging El Obeid, the last stronghold of the Dervishes in the Soudan. The Khalifa is now report tion, and the culmination of a plot which had for one of its objects the retirement of Dr. Stockton from public life. We congratulate the learned leader of the opposition on being still in the ed to be at Sherkiels, 80 miles south of

A Welcome Announcement,

The public will be interested in knowing that the publishers of that popular weekly paper, the Family Herald and Weekly Star, of Montreal, have arranged for a further supply of their famous premium picture, "thin Red Line." All who become subscribers during January and February can depend on getting a copy, also renewal subscribers. We be leve the publishers of the Family Herald and Weekly Star intend the "Thin Red Line" to be the first of a series of these famous pictures, and Canadians who secure a copy this year will be fortunate, as they will be able to get the entire set. In a few weeks the entire edition of "Thin Red Line" will be disposed of and no more can be had

Could Not Catch the Khalifa.

London, Jan 30-A despatch to the Daily News from Cairo says that Col. Kitchener's column which was sent in pursuit of Khalifa Abdullah into Kordo fan, where he has been making war upon the tribesmen, has abandoned the mpt to overtake him.

Your Best Interests Will be served by making sure of health, It will be a loss of time and money to be stricken with serious illness. Take Hood's Sarsaparilla and purify your blood. In this way all germs of disease will be expelled, sickness and suffering will be avoided, and your health will be preserved. Isn't that a wise course?

HOOD'S PILLS are the only pills to take with Hood's Sarsaparilla. Price 25 cents. 5 Succeeding the Stoiloff Ministry.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., FEBRUARY 1, 1899.

# LEGISLATURE DISSOLVED.

## An Appeal to Be Made to the People of New Brunswick.

The Premier's Address to the Electors-He Defends His Policy and Claims Their Continued Support-A Manly and Able Presentation of the Government's Case-Nominations on February 11th; Polling on the 18th.

To the Electors of New Brunswick: dress you on the political situation, and

sel of my former colleague and leader, he did until his death in December of view to submitting to the voice of the the same year. The new government people the measures of agricultural, of which provincial governments have thus formed continued the same line of mining and industrial advancement for many years persistently pressed, federal politics as had been pursued by my immediate predecessors, the late sanction, to lead-measures which are Hon. Mr. Mitchell, and the Hon. Mr. apparently considered by our opponents railways and canals in the of dominion party interests first, which policy had been, as I believe, a guiding my colleagues, deemed it consistent with principle in provincial administrations our public duty to tender to his honor almost univterruptedly since we became the advice which has resulted a province of the dominion of Canada. At the session of the legislature then submission to the people of all the quesof the late Hon. Mr. Mitchell was freely to the result of that appeal. It is true to the strong agricultural policy which had been adopted, and which was being port of your representatives therein, a determined and earnest effort was put forth, and has since been continued, to terests of our province.

This support of the government thus generously given continued unbroken to advance the interests of our province until the month of July last past, when a so called convention of the Conservative party of this province met in the that the key to our progress is to be city of Moncton, attended very largely, it is true, by the long time opponents of the administrations respectively and successively led by the Hon. Mr. Blair, the late Hon. Mr. Mitchell and myself, but was attended as well by some who until then had given the present and the founders of our human civilization." two previous governments their hearty Ours, in view of our faith in these prinand unwavering support. At that meet ciples, will be, as it has been, essentially ing it was declared in effect that a farmer's policy, the vigorous and faithand still followed by the present government, of studying and promoting pronew and direct issue as against the present a ministration, whose policy had been declared to be that provincial interests should be paramount, and that respects issues which belong to the dodeclaration was accompanied by a demand on the part of very many of its supporters that an opporthe press of the province supporting the opposition have since repeatedly called upon the government to adopt the course thus marked out. The change thus proposed is one frought with vital results and charged as I am with responsibility competent experts have led us to believe from \$112 in 1895 to nearly six thouo the whole people for the con- that there is to be found in our province sand dollars last year. These receipts

In October, 1897, upon the resignation, the completion of the new electoral lists, taking effect at the beginning of the should have the privilege of exercising their judgement and voicing their opinion on a question having so important a bearing on the future of our prov-

ment which I have the honor, by your

cabinet, and which they advance and support-I have, with in a dissolution of the legislature and a following the same hearty support which tions involved in the issues raised. We had been accorded to the administration do this with an unfaltering confidence as extended to the new administration, that as a government we call upon you not only in this particular, but as well for the first time; although in a sense a re-organized government, it is distinctively a new government, prepared to vigorously promoted by us in the legis. act, as I have already had occasion to lature and throughout the province. A say, at all times and upon every quessuccessful session of the legislature was tion as may appear to us to be most in held, and as a result of the strong sup- furtherance of the public interest, and determined that in the policy we shall pursue and the measures we shall adopt we develop and advance the agricultural, shall be unfettered and untrammelled by any considerations other than the determination, so far as in us lies, to do that and only that which will best serve and the people whose agents and servants we are. We have strong faith found in agriculture, and that such progress can only be attained by an awakened and educated interest in agricultural pursuits. It has been well said that "When tilling begin other arts follow; the farmers, therefore, are the policy long pursued by suc- ful pursuit of which will, we becessive vovernments, since confederation, lieve, insure progress and contentment to those now within our borders, keeping them from lands beyond-and that is vincial interests, irrespective of federal greatly to be desired -- and attracting to party lines, was inimical to the best us those from other lands. The position interests of our province, thus raising a of our province today is not to be despised; new life is being infused among our agriculturalists, as evidenced by the successful meetings there should be pursued a neutrality as other industrial establishments are being promoted; our metropolitan city is main of d minion party politics. This being built up as an European maritime gateway, and everywhere are to be seen signs and tokens of the new spirit that is being aroused among our people. It will be our aim, as it is our bounden

vast oil deposits, and negotiations are pending which, if satisfactorily concluded, and I have strong reasons for believing they will be, will insure the expenditure in the very near future by capitalists of at least one hundred thousand developed wealth, and at the same time incidentally prospecting for other dormant mineral wealth, with which there are indications, our province abounds. I am jestified, indeed, costing the province one cent, providing that such legislation will be promoted as venture and risk their means, the fruits of their efforts, should oil be located. As department, I can refer with pride to the improvement of our public highways by the careful expenditure of pubthat is being constantly made in the knowledge of the facts, I can confidently assert wise economy has been exercised full consideration for every dollar of the public funds expended by my depart-Consonant with this idea, and with a

that the Eastern Extension claim against the Dominion government, the payment adopted and promoted by the governstating, in a fair way to a successful as merely secondary to the one principle settlement. I have the assurance of Sir Wilfrid Laurier that the memorial presented by myself and colleagues has been submitted to a sub-committee of council to do one of two things First, to ascertain the facts with respect to the claim, and to report directly is favor of payment if they feel justified under the facts in so doing; or, second, in case they shall not feel justified under the facts to report immediate payment to recommend an early reference of the claim to a commission of arbitration. Although this matter has been pressed to the notice of dominion governments ble recognition of the existance of a just claim that the provincial government has been able to secure, and I have an inconquerable faith in the prosecution of the claim to a successful issue.

By reason of the recent decision of spects the agricultural interests of the privy council regarding the federal the province, and of entering upon a and provincial rights as to our fisheries, more vigorous development of our agriimportant questions had been raised, cultural resources, whose products are which must be determined by the sever- finding new and profitable markets in al provinces. It appears to be quite the mother land, by means of the imclear by such decision that the proprie- proved and near-at-home facilities for tory rights to the fisheries in the rivers transportation; of legislating in the inand bays of the different provinces are terests of and promoting other industrial in the provinces, and that they have the advancement, and of contributing to power to impose and collect a license wards awakening in the minds of capitfee for the right of fishing, while under alists and men endowed with business the British North: America Act enterprise an interest that will surely the exclusive right regarding such enure to the benefit of the whole fisheries is in the dominion. Another question arises: Does the decision go as far as to decide that surance your overwhelming approval, five and one-half millions of dollars, and while not in a position to state that a final determination has been arrived at, I may say that the government's in the farming districts; large pulp and policy will be such that the interests and rights of the province will be safewhereby the rights of those interested in this great industry will be prejudicially affected.

Our efforts to protect the wild game of initiation of the new order of things, and duty, to contribute to the growth of all country as a resort for tourists and industries. We have strong assur- sportsmen, have been highly successful. ances that there will be com- Yearly the number of such is increasmenced in the near future a de- ing materially, benefitting the railways velopment of our mining re- and steamship lines and our people gensources such as has never be- erally. The receipts to the province fore been attempted. Reports of from game licenses alone have grown

# Too Little Blood

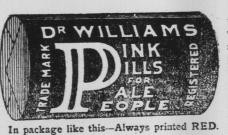

That is what makes men and women look pale, sallow and languid. That is what makes them drag along, always tired, never hungry, unable to digest

their food, breathless and palpitating at the heart after slight exertion, so that it is a trouble to go up stairs. They are "Anæmic," doctors tell them; and that is Greek for having "too little blood." Are you like that? Are your gums pale instead of being scarlet? Pull down your eyelid-Is the lining of it blood-

shot and pale? That is where "too little blood" shows. More anæmic and weak people have been made strong, energetic, cheerful men and women by taking.

## Dr. Williams' Pink Pills for Pale People

than by any other means. They are the finest Tonic in the world; they have cured more people than any other medicine, but you must get the genuine-substitutes are worse than useless, they are dangerous.

David R. McKay, the well-known baker, of Stellarton, N. S., writes-"I cannot say too much in praise of Dr. Williams' Pink Pills. I was very badly run down : could not work and could not sleep at night. My appetite was poor and I was loosing flesh. I began the use of Dr. Wilcreased from 130 to 149 pounds. My appetite returned, I could sleep well, and could do my work without feeling tired.

If your dealer does not keep them, send the price, 50 cents a box or \$2.50 for six boxes, to the Dr. Williams Medicine Co., Brockville, and get the genuine by return mail.

are now treble the amount received in The Farmers' and Da'rymen's Associa-1897 from the same source.

Meetings will be held at dates and I shall not here recount all the reasons for a claim to your support on the part Seh. 1-English Settlement, Queens Co of the government by means of its legislative as well as administrative acts, as I in previous years this is the first tangi- this address. Other opportunities will be afforded me for giving, not only an account of my stewardship, but, as well, reasons for the faith that is in me. We claim the honor of having inaugurated a new and prosperous policy as rean 21-Andover, Victoria Co, evening session.
Feb 1-Kincardine, Albert Co, after people and of all sections of the province. To all this we ask with asthe provinces have control to the extent not only that the work now initiated of the three-mile limit? If it does, then may grow and prosper, but that we may, the sum awarded to the dominion by the in your interests, and for the good of our Halifax Fishery Award, amounting to land, have a greater incentive to renew ed and increased efforts. We have hen would belong to the several provinces estiy and faithfully conserved the pubinterested. This matter has received lic resources, and in our expenditures the careful attention of the government have been guided by the needs of the people, consistent with a strict regard to more wisely governed, but mone more

I have no desire to ask too much of guarded, and no departure will be made you, whom it has been our effort to serve, but it will, I am sure, be readily acknowledged that we are entitled to s fair and reasonable time and opportunity to prove the wisdom of our policy and to mature and improve the efforts to ad the province, and to advertise our vance the conditions of the province in all lines of industry, and this we ask at your bands.

I am conscious of many limitations in my ability to serve and conserve your interests, but will yield to none in a sincere and intense desire to promote them and therefore feel warranted in subscrib-

ing myself: Your devoted and obedient servant, Fredericton, January 28th, 1899.

## SUNDAY SCHOOL CONVENTION.

The Annual Meeting of Woodstock Parish

Wooder: CK, Jan 27- The annual meeting of the Woodstock Par sh S S Convention took place in the Reformed Baptist church. The first session was at 2 p. m.; when the convention was opened by devotional exercises, led by Mr Albert Connolly, for half an hour.

The president, Mr James H Forest, next took the chair. Minutes of former meeting were read by the secratary, Mr LE Young, and approved. Then followed three-minute reports from the various superintendents as to what improvements there were in the schools since

last session The field secretary, Ray lar Lucas gave a very interesting address on A

Banner School.

The evening session began at 7.30...
The opening exercises consisted of a half? hour of song, scripture, prayer and testimony, led by Ray W B Wiggins.

Business resumed at S. President in the half. Minutes read and approved.
The dellowing officers were elected for the ensuing year:-

President—Jas I-Forest.
Vice-President—T A Lindsay
Sec-Treas—Miss-Maud Henderson.
Additional members of executive—MrssHerbert Brown, Upper Woodstock; Mrs O D
Dickinson, Woodstock; Mr homes ForestoSpear-sile; Mrs Wm - pear, Benton. The field secretary, R.v Mr Lucas.

## DAIRYING ASSOCIATION.

UPPER KINTORE SOCIETY HOLDS A SUCCESSFUL MEETING.

KINTORE, Jan 18 - Upper Kintore Dairying Association held their monthly meeting in the school house, President A. Phelip in the chair. As we have entered on our seventh year of the association it was arranged to have a kind of a sociable. There was a large attendance of the members and their wives, along with the young people, who were welcome. At 8 o'clock the president called the meeting to order, and after the minutes of the last meeting were read and approved the subject was introduced by Mr J W Corey, Intensive or Extensive Farming as applied to local conditions. He comtended that market or track gardening or growing in hot beds was impracticable in this locality owing to our being so far removed from the city markets. Neither was the growing of small fruits profitable because of the uncertainty of our climate. That probably the only system of intensive farming practicable here was the small farmer of say 25 acres who sought by superior cultivation and scientific manuring to produce the highest possible amount per acre. He contended that after allowing for the necessary expense for keeping dispayshing team, that even allowing the same that even allowing the sam entered on our seventh year of the assoacre. He centended that after allowing for the necessary expense for keeping his working team, that even allowing the high average of 80 bushels of grain per acre for the ploughed land and two tons of hay per acre on the grass land, only some \$250 worth would be produced. He then took up extensive farming; claimed that extensive farming as understood in the west country was impossible here; that, in fact, extensive impossible here; that, in fact, extensive farming, as practicable here, must be the cultivation of a hundred or one hundred and twenty-five acre farm. He

Believing thus he urged his fellow

The address was listened to with great interest by all present and brought out a good discussion from the members. The voice of the meeting was in favor of extensive farming. Subject for next meeting, Poultry Raising.

The sociable part was then entered into with songs, recitations, readings and short addresses. After a very enjoyable short addresses. After a very enjoyable time by all, tea was brought in and the time by all, tea was brought in and the baskets uncovered and everybody did justice to their contents. After tea a few short addresses were given by members; then all joined in singing Auld Lang Syne, when all departed for the thomes, well pleased with themselves and every one else at the wee short hours ayont the twelve.

## BRIDGETOWN.

Diphtheria and Pneumonia -Change of Business.

BRIDGETOWN, NS, Jan 26-A great deal of sickness is now to be found in our homes; one case of diphtheria and several of pneumonia; the former proved

fatal.

The storm and consequent freshet of Tuesday caused considerable damage, especially to our larrigan factory, the water flooding, to the depth of about three feet, the tanning department.

The business carried on by Carny Bros & Bent is being formed into a stock company, owing to the large increase in business. The capital stock, \$30,000, is being largely taken in the town. The business has been quite extensive, and will be much more so now and of great benefit to the town.

nenefit to the town. The retiring mayor and councillors are again before the public asking for re-

## IN THE GRAIN PIT.

Nervousness and Frequent Fauctuations a Feature.

CHICAGO, Jan 27—Nervousness as indicated by rapid and frequent fluctuations characterized today's trading in wheat. During the last half hour of the session May showed a gain for the day of 1; but the greater portion of the advance was lost on account of heavy realizing, and May closed ; higher.

Corn left off at an advance of §, and oats are unchanged. Pork and ribs ross 72 each, and lard 5 to 72.

Death of An Athlete. AMHERST, N S, Jan 29-While the Amherst hockey team was administering a defeat to the Mutuals of Halifax, V 8 Liddell, one of the brilliant forwards of Liddell, one of the brilliant forwards of the victorious team was dying at his home in this city. Liddell was well known in St. John hockey circles, having played on the Amherst team during the first three league matches this winter. When his team played the B and A last Friday he was in a critical-condition. Apendicatis was the cause of death. He will be buried on Monday at Halifax from the regidence of Russell Twining.

### DEADLOCK HAS ARISEN

Pender monopolists, would support the latter scheme.

Lord Chas Beresfor?, who is now returning from Hong Kong via Canada, it is understood will bring a report of the daugerous dependence upon Russis to which the Pender cable ring has allowed British cables to be brought in the far east.

Much distress has been occasioned by

Much distress has been occasioned by the sudden disappearance a week ago, without a single clue of Rev Chas Kuapp, principal of the Diocesan college, St John's, Nfid.

## GIVEN UP FOR LOST.

hundred and twenty-five acre farm. He said that there was the same expense for keeping a team of horses; that a pair of horses would easily handle one hundred acres under the ordinary system of cultivation, and that by proper rotation and pasturing and using such manures as were produced on the farm an average production of 40 bushels of grain and one ton of hay per acre could be obtained, which at current prices would be some \$600 value produced on the hundred acres, as compared with \$250 on the small farm; and he claimed the extra expense of harvesting on the larger farm would be more than offset by the expense of fertilizing the smaller one.

No Tidings From the Schooner L

B Sargeant.

EASTPURT, Me, Jan 27—Mrs Andrew R

Holmes, of this city, today received a letter from the master of a fishing schooner at Lunenburg, N S, in which salore at Beaver Harbor, N S, which bears close resemblance to the upperworks of the schooner L B Sargeant. mention is made of wreckage going ashore at Beaver Harbor, N S, which bearz close resemblance to the upper-works of the schooner L B Sargeant, which sailed from Placentia Bay, Nfld, for this port about December 20th with a cargo of herring. Large quantities of herring also came ashore with the

herring also came ashore with the the same time to make use of the teachings of science and of the results attained by the experiments of others, as far as practical, charging them to remember that he who makes two blades of grass grow where but one grew before, is a benefactor of the rate.

The address was listened to with great interest by all present and brought out a good discussion from the members. The voice of the meeting was in favor of extensive farming. Subject for your specific properties of the meeting was in favor of the meeting was of 98 gross tonnage. The Sargeant was of 98 gross tonnage.

## CAPT. A. H. LEE

Will be British Military Attache at Washington.

TCEONTO, Jan 27-The Globe's London special cable says: The British government has decided to make permanent the post of British military attache to its embassy at Washington, and that the first to fill the position will be Captain Arthur H Lee, of the Royal Artillery, who has been for nearly five years professor of military topography at the Royal Military College at Kingston, Ontario, and who accompanied the United States forces throughout the Cuban and Porto Rican campaigns as military attache. Captain Lee, the despatch adds, will be raised to the rank of lieutenant colonel in his new post.

Opposition to Army Bill. Washington, Jan 27-The opposition to the army reorganization bill on the Republican side of the house has become so strong that today Chairman Hall decided it would be wise in order to insure its passage to abandon the idea of providing directly for a regular army of 100,000 men.

He Was Ninety-Five. Kingston, Jan 27-William Ferguson sheriff of Fontenac, died this morning aged 95. He was born in Ireland, came to Canada in 1836, sat in parliamen from 1863 to 1867, when he was appointed sheriff. He served through the rebellion of 1837 38. He was a strong Conservative. ing comments were passed upon the

## Awaiting Recognition.

WASHINGTON, Jan 27-U S Minister Herry, who has been at his post in Costa Rica for many months awaiting recognition in his other capacity as U S minister to Nicaragua, has cabled the state department that he has at last succeeded.

## Quiet Cabinet Session.

Washington, Jan 27—The cabinet session today, while lasting almost two hours, was uneventful, and practically no attention was paid to the Philippine question. There were no official advices presented from either the Philippines or Samos.

## Goods From a Wreck.

Boston, Jan 27-Schr Willie L Swift BOSTON, Jan 27—Schr Willie L Swift came in from Provincetown today with 650 barrels of fertilizer saved from the wrecked schr Lester A Lewis, sunk in that harbor Nov. 27 while going from New York to Bangor.

Binks-I wonder why they always employ women in the telephone offices?

Jinks—Probably because they can

stand long talks.

## MUNICIPAL COUNCIL.

Printing—Warden, Morrison, Betts. By-laws—Snowball, Campbell, Dono-

The report was adopted.

The warden read a communication from the finance committee of the Chatham town council, enclosing the follow-

ham town council, enclosing the following extract from the minutes:—
At the regular meeting of the town council held on Monday, September 12, 1898, the following clause, in the report of the finance committee, was adopted. The finance committee also report that the town is entitled, under the order-incouncil, to all Scott act fines enforced or collected from its citizens within the incollected from its citizens within the in-corporated town, and resommend that this council agree to indemnify the municipality of the county of Northum-berland for all costs which it may incur in connection with the enforcement of the act within the town limits, the fines collected being paid over to the town of Chatham.

Chatham.
Laid on the 'able. The warden presented a petition from E Sinclair, Allan Ritchie and others, asking that the Scott Act fine imposed on Barbara Atkinson be refunded as the petitioners believe her entirely innocent of the charge. Referred. of the charge. Referred.

Coun. Morrison presented a petition from Mary Jane Gjertz, widow, asking for a refund of taxes and a lower valua.

Coun Betts presented a petition from Peter Bannerman, who had been taxed both in Derby and Newcastle, saking for

both in Derby and Newcastle, asking for a refund. Referred.
Coun Sullivan read the petition of John Nash, who had paid his taxes, \$1.32, and had then been sued for them and forced to pay the \$1.32 again, with \$1 costs. He asked a refund of \$2.62.
Referred.
Coun Kerr presented the petition of Los King for a refund of taxes.

Coun Betts—There should be an order of business in the by-laws. Chatham's town council is ahead of us in that respect.

The motion was adopted and the fol-

The Municipal Council of Northumbers
The Munic

late to interview the minister on the subject. He would be in Chatham next week, and might be interviewed without expense. It might be well for the committee to report progress now, and make a further report to the July session.

Coun Mozrison—I think it would be in the interests of the county for the gov-

ernment to acquire the railway and I will be happy to co-operate with the warden in this matter. I report pro-Gress.

Coun Pond moved, seconded by Coun Morrison, for the appointment of a committee to revise the by-laws.

Coun Snowball—The best way would be to have the by-laws revised by the secretary-treasurer or some other competent person and submitted to the by-law committee.

respect.

The motion was adopted and the fol-

lowing committee appointed: Secretary Treasurer Thomson, Coun Morrison, Warden Connors.
Coun Betts moved for a committee t

report on the duration and time of ex-piring of leases of county lands. Carried. Committee-Secretary-treasurer, Snow-ball, Betts.
On motion of Coun Kerr the following

Coun Betts complained that papers had been removed from the desks when the chamber was used for an election in September, including a petition which he required.

The warden remarked that this was a just cause of complaint.

Coun Betts said he would wait on the sheriff and try and discover where the papers had been taken to.

On motion of Coun Doyle adjourned till 1 o'clock for committee work.

Reassembled at 1 and adjourned till 2.

All the afternoen was spent in commissioners; W T Underhill and T W Underhill, col justices; list of parish officers.

On motion of Coun Sullivan the fol lowing Hardwicke returns passed: Jos Williston, Hugh McKay, Wn Jos Williston, Hugh McKay, Wm Manuel, highway commissioners; Hugh McKay, by-road commissioner; Patrick Carroll and Joseph Williston, col jus-tices; Patrick Carroll and Alex Jenkins, col of rates.

Coun. Morrison—The county accounts committee want information in reference to the return of Police Magistrate Connors of Scott Act cases tried by him. The return is not accompanied by the money collected as fines, and the auditor cases the vertex is not a valid one walks. says the return is not a valid one unless accompanied by the money. The com-mittee would like to have this disposed of before reporting on the Scott Act accounts. The amount collected by the police magistrate is \$605.45.

Secretary-Treasurer—I think all Scott Act fines collected in Chatham from residents of the town should be paid to the town treasurer, and that the return is a proper one without the funds.

Coun. Snowball-I have received the following from the deputy minister of justice, Mr. Newcombe, on this question:
"In reply to your letter of 4th inst., with the warden as alternate, and its duty was to go to Ottawa to strengthen the hands of the minister of railways in the matter of purchasing the Canada Eastern railway. Coun Morrison had pleaded earnestly for the appointment of that committee. The council would have the right to feel slighted if no report were made.

Coun Betts asid he had been prepared to report to the July session, but no report had been asked for. It was a highly representative meeting, consisting of leading men from all over the province, and all its proceedings were carried on most systematically. One of the resolu-

A life long resident of the city, and probably the oldest man connected with the fire department, passed away Sunday morning early, when the death occurred of William Kee at his residence 182 St. James street, after a few weeks' illness. He was born in this city 78 years ago and lived here all his life, following the occupation of carpenter Special Meeting to be Held at Sussex.

years ago he retired from active mem-bership, but continued as a member of Firemen's Belief Association.

Deceased was a member of St James Episcopal church and was a member of the vestry. He leaves a wife, three sons, and one daughter; The sons are John C., of the Globe staff. William G, who is now foreman of Wellington Fire Company, No. 1; and Frederick J. His daughter, Miss Lizzie M. erick J. His daughter, Miss L. zzie M. Kee, is in New York. The flags on the several fire stations were flown at half mast yestorday as a tribute to the memory of deceased. His funeral will be held at 2.30 o'clock Tuesday afternoon, and there will be service as St. James church, Broad street.

Mrs. Goodkind—Are you willing to work if I give you a good dinner?
Seldum Fedd—Yes'm.
"What can you do?" "Work me jaws, ma'am."

# Rheumatic Torture

South American Rheumatic Cure Cures in 1 to 3 Days.

Solomon Woodworth, of Hopewell Hill, N.B., is rescued from a deplorably helpless condition, induced by the agonies of rheumatism. Mr. Woodworth had contracted rheumatism of the severest form and in a very short time was incapacitated for work—for weeks he could get no rest—suffered the most violent pains in his arms and shoulders—grew worse and felt he could not live, so terrible were his sufferings—his arms became perfectly helpless. He began taking South American Rheumatic Cure—after the second dose he experienced great relief and at the end of three hours every vestige of the pain was gone—the use of his hand and arm returned gradually and he feels altogether like a new man and to-day rejoices in a cure which he proclaims almost a miracle. South American Rheumatic Cure cures in 1 to 3 days every form of rheumatism and neuralgia. Do not suffer longer—it will relieve in six hours.

South American Nervine soothes the nerves and cures all forms of nervousness.

> VICTORIA CO. SALMONHURST.

SALMONHURST, Jan 26-The school in our district opened on the 9th inst with A J Jensen as teacher.

A representative of Messrs Goold,

WESTMORLAND. MONCTON.

Moncron, Jan 30 - The Merchants' Bank of Halifax staff in this city occupied their new quarters for the first time this morning. The new building ranks with the most handsome buildings in the city, and for modern finish is probably superior to any. The bank's new quarters on the first floor are elaborate indeed, and are not excelled by any bank perhaps in the provinces.

Two more of the large freight locomotives frem the Baldwin locomotive.

The remain Tracey of Tracey Station, spent the day here on Saturday. He was the guest of Squire Taylor.

The lumbermen in this vicinity are experiencing some difficulty in obtaining oats. The farmers have formed a sort of combine and refuse to sell oats except at a high price, in consequence oats have advanced rapidly within the past few days. It is estimated that there are several thousand bushels in the neighborhood.

Two more of the large freight locomo-tives from the Baldwin locomotive works arrived here yesterday morning. Things have been very quiet in Scott act cases of late. A few prosecutions are pending, but there appears to be so little evidence of violation of the act that cases of late have been dismissed and very stiffs some time ago, and as it did not receive it had to be killed.

sero this morning.

Mr John D Little has lost a valuable the audience with funny anecdotes, which failed even to amuse or edify the stiffs some time ago, and as it did not receive it had to be killed.

season will be held at the Alhamora rink on Tuesday evening next, the 31st inst.

This has been a remarkable winter here for deaths of old and respected citizens. In a very short time the high sheriff, postmaster and judge of probates have passed away, and also several other prominent citizens. This morning three more funerals took place of persons whose late residence was quite handy to the town proper, viz, Robert Cripps, of Valley road, aged 70 years, Luke Burke. of McCain Settlement, aged 80 years, and Mrs. Julia Tormey, of Millstream, aged 84 years.

The funeral of Hon F E Morton, judge of probate, who died yeaterday morning after a short illness, will take piace at his late residence at 1 o'clock tomorrow (Saturday.) The remains will be taken

magistrate's ruling, the city has a legal complication at once. In the meantime the matter is in abeyance. Mr CA Steeves, barrister, is laid up with an attack of la grippe.

SACKVILLE.

SACKVILLE, Jan 27 - The De Verne Sis ters gave an entertainment in Beethoven Hall last night, to a good audience They acquitted themselves admirably and were encored repeatedly.

to be given in the rink here by the students of the Male Academy about February 1.
One of the plate glass panes of George Ford's store was blown out this morning. One corner was smashed about a week ago by a runaway horse and the destruc-tion was completed by the wind.

There is some talk of a skating party

YORK CO. FREDERICTON.

Mr and Mrs Squires of Carleton Co, are visiting their cousin, Mrs Eldon Akerley.

Messrs T Erb and Smith drove to Kars to a pie social on Saturday evening, where Mr Smith acted as auctioneer. They spent the Sunday on the Belleisle visiting friends.

Per A R Man Daneld commissed the pull.

The condition of Mr Peter McFarlane remains about the same today. Hopes

The condition of Mr Peter McFarlane remains about the same today. Hopes are entertained that he may save his arm, although it seems doubtful. The firemen, Star Council Templars and the High school students each held their annual drive last evening, and, notwithstanding the cold weather, enjoyed themselves very much.

HARVEY STATION.

HARVEY STATION, Jan 30-Mrs Marshal Sharply and Muir, of Brantford, Ont, has put up a wind mill for Ole Nelson lately. The remains of the late Mrs Rasmussen, wife of Peter Rasmussen, of Blue Bell, were buried here yesterday.

HARVEY STATION, Jan 30—Mrs Marshal Robison, who was severely injured a few days ago by falling on the ice, is now somewhat improved, although not recovering as fast as her many friends could wish.

Mr Benjamin H Keith of Butternut Ridge, Westmorland county, and his bride arrived here on Friday on their wedding tour. They will remain a few days the guests of Mr Keith's brother, They proceeded to the hall at Salmon and the burning questions of local politics.

They proceeded to the hall at Salmon and the burning questions of local prolitics. Mr Jeremiah Tracey of Tracey Station.

The thermometer regis

We do not advertise every bargain we have: that's the reason we are continually asking you to take time to look.

If you come here in a hurry and rush away because the first garment we show you doesn't suit, you are wasting time in coming here at all.

We have what you want and it only requires a little patience on your part to reap the reward of careful consideration.

But we are speaking of the rare cases—most everybody does take time to look, and does go away satisfied.

MEN'S ULSTERS-We still have plenty at all four prices \$4.00, \$4.50, \$5.00 and \$6.00. The \$4.00 Ulster is as good as \$6.00 will buy in any other store, and the higher priced ones are at least two or three dollars cheaper than you possibly buy the same quality

MEN'S OVERCOATS—\$5.00, \$6.00, \$8.00 three handy prices, three good garments. The writer can remember when \$5 would not buy much of an overcoat. But now \$5 does they duty of \$8 at least and some times \$10 here.

BOYS' SUITS for boys 10 to 15 years—coat, vest and short trousers. A table full two weeks ago is only half a table now, but we have all sizes still and no one need go away disappointed—\$4 and \$5 suits for \$3.
